1000 University Information

Georgia State University is the embodiment of an idea: A great university is accessible, responsive, and relevant. This combination provides Georgia State students with many advantages.

Accessibility at Georgia State has many aspects. One is **physical accessibility**. The compact central campus in downtown Atlanta is within walking distance of thousands of offices and downtown living spaces and is but a short distance from major thoroughfares, interstates, and the many MARTA rapid-transit routes that feed the center of the city. The Georgia State MARTA station is adjacent to a campus at the very heart of the cultural, financial, legal, government, health-care, retail, and convention centers of Atlanta.

The downtown location provides a special advantage for students pursuing internships, which often lead to full-time careers upon graduation.

Georgia State is **financially accessible**. The university offers a first-rate education in a very broad spectrum of disciplines at very competitive fees, an excellent value in today’s educational marketplace. More than $90 million in scholarships, financial aid, and workstudy programs is provided annually.

The university is **responsive** to students’ career goals, providing undergraduate and graduate degree programs in over 200 fields of study through its six college-level units: the College of Arts and Sciences, the J. Mack Robinson College of Business, the College of Education, the College of Health and Human Sciences, the College of Law, and the Andrew Young School of Policy Studies. Each term, courses are taught day and evening, and students may study full or part time. Many programs may be entered any term of the year.

Georgia State’s degree programs are highly respected and well recognized for their quality. Furthermore, they are **relevant** to the practical needs of both the student and the community. Most were designed with the input of community and industry advisory groups: *A Georgia State University education is authentic preparation for success in today’s world.*

Georgia State — a premier urban research institution — is the second largest of Georgia’s 80 accredited institutions of higher learning and enrolls some 28,000 students each fall — 10 percent of all students in higher education in the state. Students come from every county in Georgia, every state in the union, and over 100 other nations. Georgia State has a diverse student body with 56 percent being white, 29 percent African American, 8 percent Asian American, 4 percent mixed ethnic, 3 percent Hispanic American, and 0.3 percent American Indian.

1010 Mission

As the only urban research university in Georgia, Georgia State University offers educational opportunities for traditional and nontraditional students at both the graduate and undergraduate levels by blending the best of theoretical and applied inquiry, scholarly and professional pursuits, and scientific and artistic expression. As an urban research university with strong disciplinary-based departments and a wide array of problem-oriented interdisciplinary programs, the goal of the university is to develop, transmit, and utilize knowledge in order to provide access to quality education for diverse groups of students, to educate leaders for the State of Georgia and the nation, and to prepare citizens for lifelong learning in a global society.

1020 Accreditation

Georgia State University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097; 404/679-4501) to award bachelor’s, master’s, educational specialist, and doctoral degrees.

Specialized accreditations for specific academic programs are listed in the college chapters of this catalog.

The right to file a complaint pursuant to this disability complaint procedure may be forfeited unless exercised within 30 days of the alleged discriminatory act or denial of accommodation. All properly filed complaints will be heard by a subcommittee of the university’s ADA Committee and a final decision will be rendered by the provost. Copies of the disability complaint procedure are available at the Office of Opportunity Development and Diversity Education Planning and the Office of Disability Services. A student with a disability complaint may choose to utilize this disability complaint procedure, the petition and appeals process of the college in which they are enrolled, or, in cases of a denied facility accommodation, the petition and appeals process of the college in which the request for a facility accommodation was made. Faculty and staff members may raise these same issues by using the university’s employee grievance procedure.
1050.30 Disruptive Behavior Policy

Disruptive student behavior is student behavior in a classroom or other learning environment (to include both on and off campus locations), which disrupts the educational process. Disruptive class behavior for this purpose is defined by the instructor. Such behavior includes, but is not limited to, verbal or physical threats, repeated obsenities, unreasonable interference with class discussion, making/receiving personal phone calls or pages during class, leaving and entering class frequently in the absence of notice to instructor of illness or other extenuating circumstances, and persisting in disruptive personal conversations with other class members. For purposes of this policy, it may also be considered disruptive behavior for a student to exhibit threatening, intimidating, or other inappropriate behavior toward the instructor or classmates outside of class.

When disruptive behavior occurs in the class, the instructor shall make reasonable effort to address the disruption with the student, preferably in private. Georgia State University encourages members of the University community to try to resolve problems informally whenever possible. Toward that end, the instructor and student may consult with the Office of the Ombudsperson, the Dean of Students Office (http://www.gsu.edu/deanofstudents), or other University offices to discuss ways to resolve the situation informally at any time during the process set forth in this policy. Should the instructor elect to withdraw the disruptive student, the procedures published in the Faculty Handbook (see http://www.gsu.edu/~wwwfhb/fhb.html section 401.08) should be followed. Individual college or academic units may have supplementary procedures to deal with disruptive student behavior so long as those procedures are consistent with this policy. Where this policy conflicts with the Student Code of Conduct, this policy will prevail with respect to disruptive behavior in the academic setting.

1050.40 University Code of Conduct

Membership in the community of scholars known as Georgia State University as a student, faculty member, or staff member is a privilege and carries with it obligations to participate in and contribute to the educational mission of the institution.

Concurrent with these obligations are rights and freedoms for each individual as guaranteed by the United States Constitution, including but not limited to the right to inquire, learn, communicate by speech or action, and assemble peaceably and the right to due process for grievances. These rights, as they pertain to students, are more specifically provided for in the “Student Code of Conduct and Policies” which can be found in the student handbook, On Campus, available online at http://www.gsu.edu/oncampus or from the Office of the Dean of Students at http://www.gsu.edu/deanofstudents, 300 Student Center, 404/463-9023.

1050.50 Federal and State Law Disclosure Requirements

Federal and state laws require all colleges and universities receiving federal funds to establish certain programs, policies, and procedures and distribute an annual report describing them and providing statistics regarding: graduation rates; drug, alcohol, and weapon violations; and certain crimes on campus, which include murder, robbery, aggravated assault, burglary, motor vehicle theft, and sex offenses. Georgia State University’s annual report and information regarding these programs, policies, procedures, and statistics are available upon a written request directed to the Georgia State University Office of Public Information, 530 One Park Place South, Atlanta, Georgia 30303.

1050.60 Integrity in Research

Georgia State University maintains high ethical standards in research and requires all faculty, staff, and students engaged in research to comply with those standards. Cases of misconduct in research present a serious threat to continued public confidence in the integrity of the research process and the stewardship of federal funds. Misconduct is defined as fabrication, falsification, plagiarism, or other practices that seriously deviate from those that are commonly accepted within the scholarly community for proposing, conducting, or reporting research. Georgia State will investigate and resolve promptly and fairly all instances of alleged or apparent misconduct. To obtain a copy of the Integrity in Research Policy, contact the Office of the Vice President for Research, G76 Alumni Hall, 404/651-4350.

1050.70 Intellectual Property

In complying with the policies of the Board of Regents, Georgia State University has adopted policies concerning the ownership and subsequent rights to intellectual property created by faculty, staff, and students. Intellectual property pertains to any patentable materials, copyrightable materials, trademarks, software, and trade secrets regardless of whether formal protection is sought. It is the responsibility of the individual to ascertain whether Georgia State owns the intellectual property. To obtain a copy of the Intellectual Property Policy, contact the Office of the Vice President for Research, G76 Alumni Hall, 404/651-4350.
1100 Undergraduate Admissions

1110 Office of Undergraduate Admissions

http://www.gsu.edu/admissions
E-mail: admissions@gsu.edu

Note: The Undergraduate Admissions Application Fee is non-refundable.

1115 General Admission Policy

Georgia State University welcomes applications from all qualified students regardless of race, sex, religion, disability, or cultural background. Admission is based on a number of factors depending upon level of entry and previous educational experience. Admission into and placement within Georgia State will be determined by the Office of Undergraduate Admissions using the criteria approved by the University Senate. Applicants who have been educated outside the United States should consult Section 1165. The admission requirements have been developed in accordance with the rules and regulations of the Board of Regents of the University System of Georgia and have evolved from studies of student performance at Georgia State. These studies have identified factors and criteria that indicate a reasonable chance of successful completion of academic work at Georgia State. Admission decisions are based on a previous record of satisfactory academic performance, test scores, personal qualities and circumstances, character and good conduct. Admission is a selective process and meeting minimums will not necessarily guarantee acceptance. A student has the right to appeal the admission decision as provided in the bylaws of the Board of Regents.

Approval for admission is valid only for the term specified at the time of acceptance and does not imply that approval will be granted for a term not specified. Students wishing to be considered for a subsequent term during an academic year (the academic year begins with the fall semester and ends with the following summer semester) must submit a reactivation form and any required credentials by the application deadline date for that particular term. Students wishing to be considered for a term in another academic year must submit a new application, application fee, and new credentials.

Any changes in a student’s record prior to enrollment will necessitate a new review of the application. Any omissions or misrepresentations on a student’s application for admission will automatically invalidate consideration by, acceptance to and continuation at Georgia State. If an applicant (a) is ineligible to enroll at any previously attended institution, (b) is on probation, suspension, exclusion, or any other standing indicating either an academic or a conduct deficiency at any previously attended institution, (c) has been found in violation of the academic or non-academic code of conduct at any previously attended institution, or (d) has been convicted for violation of a federal, state or municipal law, regulation or ordinance (other than minor traffic violations), then the applicant’s case will be reviewed to insure that the applicant meets the satisfactory academic performance, good character, and good conduct requirements noted above. After a letter of acceptance has been issued, if information comes to light that shows that an applicant did not meet all admission requirements, the applicant’s offer of admission will be withdrawn. If this information comes to light after the student has enrolled, the applicant’s enrollment at Georgia State will be terminated and earned credit may be revoked.

All credentials submitted with the application for admission become and remain the property of the university and will not be returned to the student, duplicated, or transferred to another institution.

Admission to Georgia State University does not imply admission to a specific major or professional program.

• Students who wish to take 3000 or 4000 level teacher education courses (designated by a “TE” in the course description) or who wish to enter one of the teacher education programs must be approved by the College of Education or the College of Arts and Sciences, depending on the student’s teaching field major (see Section 1605).
• Prospective applicants who are interested in the College of Health and Human Sciences and who have completed preparation to enter the professional or clinical program of their major should contact the Office of Academic Assistance,
College of Health and Human Sciences, 404/651-3064, for information on additional departmental application procedures, requirements, and deadlines.

- Students who wish to apply for admission to the School of Music should contact the School of Music office to request separate application materials and to make an appointment for an audition.

# 1120 Freshman Applicants

## 1120.10 Definition

Those applicants who have never enrolled in a regionally-accredited college or university (unless jointly enrolled while completing high school) are freshman applicants.

## 1120.20 Deadlines

Applications for admission and the application fee must be submitted or postmarked by the established deadlines. Applicants are encouraged to apply online at [http://www.gsu.edu/admissions](http://www.gsu.edu/admissions). Complete credentials must be received before a decision can be made. Applications are processed in the order in which they are complete and ready for a decision. Students wishing to be considered for a subsequent term during an academic year (the academic year begins with the fall semester and ends with the following summer semester) must submit a reactivation form and any additional credentials that may be necessary by the appropriate deadline. Students wishing to be considered for a term in another academic year must submit a new application, application fee, and new credentials.

Applicants interested in early registration dates and orientation, university housing, university scholar assistantships, and/or financial aid are urged to apply and complete their applications by the Priority Deadline Dates listed below.

## 1120.30 Admission Requirements

Admission to Georgia State University is a selective process and meeting minimum admission requirements does not guarantee acceptance. The middle 50% of students who entered Georgia State in the Fall of 2004 had SAT combined scores between 1000 and 1180 and high school GPAs on College Preparatory Classes of between 3.08 and 3.54. All of the following minimum requirements must be met in order for an applicant to receive consideration as a freshman:

- Be a graduate of and have a college preparatory diploma from a high school accredited by a regional accrediting association (such as the Southern Association of Colleges and Schools), a high school accredited by the Georgia Accrediting Commission, or a public high school regulated by a school system and state Department of Education. A Certificate of Attendance does not qualify a student for admission consideration.
- Have completed the University System of Georgia Board of Regents’ College Preparatory Curriculum. Sixteen curriculum course units required as follows:
  a. English (4 units): emphasis in grammar and usage; literature (American, English, and World); and advanced composition skills.
  b. Mathematics (4 units): algebra I, algebra II, geometry, and one additional mathematics course with these units as prerequisites.
  c. Science (3 units): at least one laboratory course from the life sciences and one laboratory course from the physical sciences.
  d. Social Science (3 units): at least one course focusing on United States studies and one course focusing on world studies.
  e. Foreign language (2 units in the same language): emphasis in speaking, listening, reading, and writing.
- Have a minimum 2.80 high school grade point average calculated on the 16 courses listed above.
- Submit SAT scores (including the writing section) with a minimum combined verbal/math score of 900 with at least 430 verbal and 400 mathematics or ACT scores (including the Writing Test) with a minimum composite score of 19 with at least 17 English and 17 mathematics. Although not currently required (with the exception of home-schooled applicants), applicants are encouraged to submit SAT II test scores of their choice. Permanent residents, educated in the United States, whose native language is not English are encouraged to take the TOEFL. If the TOEFL is not taken, applicants...
from local areas will be required to take the Georgia State Test of English Proficiency (GSTEP) to determine appropriate admission.

- Have a freshman index (FI) of 2500 or higher. The FI is based on a combination of SAT/ACT scores and high school grade point average (HSGPA) in college preparatory courses only. The FI formula using SAT scores is: SAT FI = (500 x HSGPA) + SAT V + SAT M. The FI formula using ACT scores is: ACT FI = (500 x HSGPA) + (ACT composite x 42) + 88. In calculating the HSGPA for FI purposes, the applicant’s transcript is calculated upon only 16 of the academic (college preparatory) courses taken such as English, mathematics, science, social studies, and foreign language.

If you have completed your high school program through home school, you must contact the Office of Undergraduate Admissions for further information regarding additional procedures you need to follow in making application. Applicants for freshman admission who have been home-schooled or graduated from non-accredited high schools may be considered for admission by meeting one of the following two criteria:

A. Option One: Portfolio Admission
Students who wish to apply for admission under the portfolio review option must:

- Demonstrate a combined SAT test score (or an ACT equivalent) that is at or exceeds the average SAT for those enrolled as first time freshmen for the previous fall term. The current score is 1090 (SAT) or 24 (ACT).
- Submit SAT scores (including the writing section) of at least 430 verbal and 400 mathematics or ACT scores (including the Writing Test) of at least 17 English and 17 mathematics.
- Submit a portfolio that demonstrates satisfactory completion of the 16 College Preparatory Courses (CPC) required for admission to a University System of Georgia research institution. This portfolio must include information about the course of study leading to satisfactory completion of each CPC unit, including a list of all educational resources (books and other materials), course outline and appropriate outcomes assessment.

Georgia State University reserves the right to request any further information that it feels necessary to evaluate the completion of the CPC requirements.

B. Option Two: SAT II Admission
Students who wish to apply for admission under the SAT II test option must:

- Submit SAT scores (including the writing section) with a minimum combined verbal/math score of 900 with at least 430 verbal and 400 mathematics or ACT scores (including the Writing Test) with a minimum composite score of 19 with at least 17 English and 17 mathematics.
- Submit acceptable scores on seven SAT II Subject tests and demonstrate proficiency in a foreign language at the level of two years of high school study. Minimum acceptable scores on the prescribed SAT II Subject tests are:

  - 520 on the English Writing test
  - 530 on the Literature test
  - 500 on the Math IC test or a score of 570 on the Math IIC test
  - 520 on the Biology test
  - 540 on the Chemistry test or 590 on the Physics test
  - 560 on the U.S. History and Social Studies test, and
  - 540 on the World History test

The appropriate level of competency in a foreign language will be evaluated by the Georgia State University Department of Modern and Classical Languages utilizing methods including both oral and written components.

1125 Transfer Applicants

1125.10 Definition
Those applicants who have previously attended a regionally-accredited college or university (except for students jointly enrolled while completing high school) are transfer applicants.

1125.20 Deadlines
Applications for admission and the application fee must be submitted or postmarked by the established deadlines. Applicants are encouraged to apply online at [http://www.gsu.edu/admissions](http://www.gsu.edu/admissions). Complete credentials must be received before a decision can be made. Applications are processed in the order in which they are complete and ready for a decision. Students wishing to be considered for a subsequent term during an academic year (the academic year begins with the fall semester and
ends with the following summer semester) must submit a reactivation form and any additional credentials that may be necessary by the appropriate deadline. Students wishing to be considered for a term in another academic year must submit a new application, application fee, and new credentials.

Applicants interested in early registration dates and orientation, university housing, university scholar assistantships, and/or financial aid are urged to apply and complete their applications by the **Priority Deadline Dates** listed below.

Note: All deadlines for future terms are subject to change.

For international student application deadline dates, please see Section 1165.

The professional and clinical programs in the College of Health and Human Sciences may have earlier deadlines. Please contact the Office of Academic Assistance, College of Health and Human Sciences, 404/651-3064, for information on procedures and deadline dates.

**1125.30 Admission Requirements**

All of the following minimum requirements must be met in order for an applicant to receive consideration as a transfer, but meeting them does not guarantee admission:

- Have a minimum cumulative 2.5 grade point average in college-level courses (excluding developmental/remedial courses) from all accredited institutions attended.
- Be eligible to re-enroll at the last institution attended.
- Have completed all college preparatory curriculum and learning support coursework required by any unit of the University System of Georgia (USG).
- In addition, completion of fewer than 30 semester hours or 45 quarter hours of college-level academic coursework attempted at one or more regionally accredited institutions requires meeting all freshman admission requirements (see Section 1120.30).
- Arrange for **all** transcripts to be received directly by the Office of Undergraduate Admissions or provide them in sealed envelopes directly from the institution to submit a self-managed application. Student copies of transcripts, official transcripts opened by the student, and fax copies are **not** acceptable.

Transfer students should be aware of the Board of Regents’ requirements in reading, writing, history, and constitution (see Sections 1420 and 1425).

**1125.40 Transfer Credit Policy**

When an applicant is accepted for undergraduate transfer admission, courses completed with grades of C or higher (grades of D discussed below) that parallel the curriculum of Georgia State University will be accepted for transfer credit. Developmental, vocational, and occupational courses will not be accepted for transfer credit. Credit must have been earned at institutions of higher education with full accreditation by a regional association of colleges and schools and, where appropriate, the Commission on Colleges. The determination of how transfer credit may be used to satisfy the specific course requirements for a degree is made by the Student Advisement Center or the college that administers the degree program requirements. The colleges also have the privilege to test the student’s proficiency in transferred coursework.

- A maximum of 12 semester hours where grades of D have been earned may be applied toward degree requirements. These 12 semester hours include both resident credit (earned at Georgia State) and transfer credit. Transfer credit will not be given for English composition courses where grades of D have been earned. Additional restrictions in credit accepted for courses where grades of D have been earned may be included in certain degree programs. Be sure to check the description of your planned program in this catalog.
- No credit will be awarded for a grade earned at a foreign institution that is equivalent to a grade of D in the United States.
- A maximum of 60 academic semester hours from a two-year college or 81 academic semester hours from a four-year college may be applied in the program for which the applicant enrolls. Courses completed at a two-year college will be granted lower-division credit. The total number of hours that may be earned toward a degree by extension or correspondence courses may not exceed 27 semester hours.
• Because the university has a minimum academic residence requirement, the amount of transfer credit applicable to a degree program may be further limited (see Section 1430).

• Georgia State does not grant credit for College-Level General Educational Developmental Tests, USAFI courses, or courses completed at any United States armed forces service schools, with the exception of the military academies.

For those students seeking a baccalaureate degree, transfer credit for degrees previously awarded by other institutions will be granted as follows:

1. Students who hold
   • A baccalaureate from a regionally accredited institution of higher education in the United States, or
   • The equivalent of a baccalaureate from a regionally accredited institution of higher education in the United States (as certified by Georgia State or a Georgia State-approved agency such as Joseph Silny and Associates, Inc.), or
   • An associate’s degree designed to transfer to a baccalaureate program from a USG institution

will be granted credit for all of Areas A-E of the curriculum (see section 1410) and the Regents’ Test (see section 1420).

2. However, there are two exceptions to the policy stated in 1 above.
   • Students seeking a baccalaureate degree in biology, chemistry, computer science, geology, mathematics, physics, science education or math education who do not hold a baccalaureate degree in one of these fields will only be granted credit for Areas B, C, and E. They will be granted credit in Areas A and D on a course-by-course basis.
   • Students seeking a baccalaureate degree in nursing, nutrition or respiratory therapy will only be granted credit for all of Areas A, B, C and E. They will be granted credit in Area D on a course-by-course basis.

3. Students who hold any other associate’s degree, such as an associate’s degree from a non-USG institution or an associate’s degree not designed to transfer to a baccalaureate program will be granted transfer credit on a course-by-course basis.

1130 Postbaccalaureate Applicants

1130.10 Definition

Those applicants who have received a bachelor’s degree and who wish to take undergraduate courses without being admitted to a second undergraduate degree program are postbaccalaureate applicants. Students wishing to seek a second baccalaureate degree should refer to Section 1125. Georgia State University graduates should refer to Section 1170.

For international student application deadline dates, please see Section 1165.

Applicants wishing to seek a second bachelor’s degree in a professional or clinical program in the College of Health and Human Sciences should apply to the university as a transfer student. Please contact the Office of Academic Assistance, College of Health and Human Sciences, 404/651-3064, for information on procedures and deadline dates.

1130.30 Admission Requirements

The following requirement is applicable to postbaccalaureate students:

• Hold a baccalaureate degree or the equivalent from an institution of postsecondary education with full accreditation by a regional association of colleges and schools and, where appropriate, the Commission on Colleges.

The postbaccalaureate status is not available for students seeking teacher certification in any area other than music education and art education (see Section 1605).
In order to be considered for admission as a postbaccalaureate student, an applicant must complete an application for undergraduate admission (including the fee) and submit an official transcript from the degree-granting institution by the appropriate deadline. If a student wishes to change to a degree-seeking status after enrolling at Georgia State University as a postbaccalaureate student, conditions for acceptance as a transfer student must be met. The appropriate application for admission or reactivation form and required transcripts must be filed with the Office of Undergraduate Admissions located in 200 Sparks Hall by the established application deadline for the intended semester of entry.

Postbaccalaureates may not attend another institution as transient students from Georgia State; this status is only for degree-seeking students. Postbaccalaureate students wishing to attend another institution must apply directly to the other school.

1135 Transient Applicants

1135.10 Definition

Students who are currently enrolled in a transferable degree program at another accredited college or university in the United States who wish to register at Georgia State University for the purpose of completing work to transfer back to the home institution are transient applicants. Transient students may attend for only one fall or one spring semester. However, attendance as a transient student in summer semesters is unlimited.

For international student application deadline dates, please see Section 1165.

1135.30 Admission Requirements

In order to be eligible for admission as a transient, a student must submit an application for undergraduate admission (including the fee) and request an official statement of good academic standing and permission to enroll as a transient student from the home institution. The appropriate academic official at the home institution must send this statement directly to Georgia State University. Students who do not enroll the semester for which they were accepted and wish to register later must either reactivate their application or submit a new application by the application deadline and arrange for a current official statement updated for the new semester to be sent.

International students who are attending school on another institution’s immigration document (F-1/I-20, J-1/IAP-66) will not be issued any additional documents but must also submit a statement of permission from the International/Foreign Student Adviser at the home institution.

The following regulations are applicable to transient students:

- They should seek academic advisement at their home institution to determine if courses taken at Georgia State are acceptable to their degree program.
- All scholastic discipline policies and all course prerequisite policies are applicable to transient students.
- Transcripts for courses completed at Georgia State as a visiting student must be requested from the Office of the Registrar at http://student.gosolar.gsu.edu to be sent to the home institution.
- Transient students are admitted to and register through the college or school selected on their application. If the applicant does not indicate a college, and if a transient approval letter has been received, placement will be determined from the courses indicated in the letter.
- In order to continue for an additional summer semester as a transient, a student must file a reentry application and arrange for all necessary supporting documentation to be received in the Office of the Registrar by the established deadlines (see Section 1170). With the exception of summer semesters, registration as a transient student is limited to one semester. If a student wishes to become a transfer student, the student must file a new application for undergraduate admission and arrange for all transcripts to be received by the Office of Undergraduate Admissions.
by the appropriate deadline. Student copies of transcripts or official transcripts opened by the student are not acceptable (see Section 1125).

1145 Nontraditional Applicants

1145.10 Definition
Nontraditional applicants are defined as individuals who meet all of the following criteria:
- Have been out of high school at least five years or whose high school class graduated at least five years ago.
- Hold a high school diploma from an accredited high school as specified under Section 1120.30 or have satisfactorily completed the GED.
- Have not attended college within the past five years.
- Have earned fewer than 30 transferable semester (45 transferable quarter) credit hours.

1145.20 Deadlines
Non-traditional applicants must follow the freshman deadlines (see Section 1120.20) for submitting an application, application fee and transcripts. Applicants are encouraged to apply online at http://www.gsu.edu/admissions.

1145.30 Admission Requirements
Applicants must take the COMPASS assessment to be admitted to the university. The Office of Undergraduate Admissions notifies applicants of test date, time, and location. Applicants must earn the following scores on the COMPASS to be eligible for admission: reading = 74, writing = 60, and mathematics (COMPASS algebra test) = 37. If the file is not completed in time for testing to be scheduled prior to registration, it may become necessary to update the application to a future semester.

1150 Joint Enrollment (Program for Excellence)

1150.10 Definition
Joint enrollment (Program for Excellence/PFE) is an opportunity for the academically outstanding high school student to enroll as a special undergraduate student. This program is designed to allow superior high school students to utilize university resources to provide extra enrichment and challenge to their junior or senior year. All schedules are subject to the approval of the appropriate high school official and Georgia State University.

1150.20 Deadlines
Applicants must submit the application, application fee, and required documents by the appropriate deadline.

1150.30 Admission Requirements
Students must demonstrate a high degree of academic potential and maturity to be considered for Joint Enrollment (Program for Excellence/PFE).

For High School Seniors:
- Completion of the 11th grade.
- Completion of all CPC requirements, with the exception of the units of high school English, mathematics, and/or social science which may be fulfilled through the satisfactory completion of approved Georgia State courses.
- A minimum high school GPA of 3.0 in college prep (CPC) courses.
- A minimum SAT verbal score of 530, or minimum ACT English score of 23.
- A minimum SAT math score of 530, or minimum ACT math score of 22.
- A minimum freshman index (FI) of 2600. *
- The approval of the high school guidance counselor.
For High School Juniors:

- Completion of the 10th grade.
- Completion of all CPC requirements, with the possible exception of the units of high school English, mathematics, and/or social science which may be fulfilled through the satisfactory completion of approved Georgia State courses.
- A minimum high school GPA of 3.0 in college prep (CPC) courses.
- A minimum new SAT verbal score of 530, or minimum ACT English score of 23.
- A minimum SAT math score of 530, or minimum ACT math score of 22.
- A minimum freshman index (FI) of 2700.*
- The approval of the high school guidance counselor.

* The FI is based on a combination of SAT I/ACT scores and high school grade point average (HSGPA) in college preparatory courses only. The FI formula using SAT scores is \( SAT\ FI = (500 \times HSGPA) + SAT\ V + SAT\ M \). The FI formula using ACT scores is: \( ACT\ FI = (500 \times HSGPA) + (ACT\ composite \times 42) + 88 \). In calculating the HSGPA for FI purposes, the applicant’s transcript is calculated upon only the academic courses taken such as English, math, science, social studies, and foreign language.

Students admitted to the program are subject to the same fees, rules, and regulations as other Georgia State University students. A student enrolled simultaneously at the university and the high school is also subject to any rules and regulations imposed by that high school. All students are required to earn a high school college preparatory diploma on or before their original graduation date using the college-level coursework, as appropriate.

1155 GSU-62 Program

1155.10 Definition

1165.30 Admission Requirements

International Applicants

In addition to meeting all other applicable requirements for admission, international applicants who will need a student visa status (F or J) must demonstrate the ability to meet the estimated financial obligations of tuition, fees and living expenses by submitting the Foreign Student Financial Statement and the required documentation of financial support.

Applicants with Non-U.S. Credentials

In addition to meeting all other applicable requirements for admission, freshman applicants and transfer applicants with less than 30 semester hours of transferable credit must demonstrate academic preparation equivalent to graduation with a U.S. secondary college preparatory curriculum and have a GPA of 3.0 based on only academic courses. Applicants who have completed non-U.S. university level coursework must have earned satisfactory grades on all such work attempted and be in good academic standing. The applicant does not need to meet the Freshman Index or minimum CPC requirements of those graduating from a U.S. high school.

Applicants must present official secondary (high school) or postsecondary (college or university) credentials, certificates, or diplomas. Official documents must bear authoritative signatures, seals and/or stamps. These should be sent by the institution responsible for issuing such documents. In cases where it is impossible for these credentials to be sent from the institution, or only one set of originals is available to students, applicants should forward an attested copy of the original. A proper institution official or the Ministry of Education in the home country must do the attestation. A certified original translation must accompany all documents not printed in English.

Georgia State University requires that all international academic documents (transcripts, mark sheets, certificates, leaving examination results, etc.) be formally evaluated by an independent evaluation service. Applicants should submit an application to Josef Silny and Associates, Inc., along with the appropriate fee for the document-by-document evaluation and grade point average equivalent (required for first time university students) or the fee for the course-by-course evaluation (required for students with previous university attendance). Fees from overseas must be in the form of an International Money Order. Applicants must also submit to Josef Silny and Associates, Inc., official transcripts, diplomas, and certified English translations. Josef Silny and Associates, Inc., will return original documents to the applicant if a self-addressed, stamped envelope is included with the application for evaluation.

Applicants with detailed questions about this evaluation process should contact Josef Silny and Associates, Inc., at 305/273-1616, 7101 SW 102 Avenue, Miami, FL 33173, or online at http://www.jsilny.com.
Although the university recommends Josef Silny and Associates, Inc., evaluations will be accepted from the following services: Educational Credential Evaluators, Inc., P.O. Box 514070, Milwaukee, Wisconsin 53203-3470 or World Education Services, Bowling Green Station, P.O. Box 5087, New York, NY 10274-5087.

Applicants who have completed university-level studies overseas should submit catalogs or official course descriptions from the schools attended to Georgia State University in order to have credit considered for application to a degree program. All information must be translated into English and verified by the proper authorities.

**Applicants who are Non-Native Speakers of English**

In addition to meeting all other applicable requirements for admission, non-native speakers of English must demonstrate sufficient English language proficiency. This can be demonstrated by submitting any one of the following: an SAT I verbal score of at least 430, an ACT English subtest score of at least 17, a TOEFL score of 550 (paper test) or 213 (computer test), a GSTEP score of 6, or by successfully completing Georgia State University’s Intensive English Program. However, students who are currently enrolled in but have not completed Georgia State University’s Intensive English Program must demonstrate English language proficiency with the GSTEP.

TOEFL bulletins (including registration forms) can be obtained at United States embassies and consulates, bi-national centers, or by writing to: Test of English as a Foreign Language, P.O. Box 6154, Princeton, N.J. 08541-6154, U.S.A. ([http://www.toefl.org](http://www.toefl.org)). To register for the GSTEP, please contact the Department of Applied Linguistics and English as a Second Language at 404/651-3650 ([http://www.gsu.edu/gstep](http://www.gsu.edu/gstep)).

Non-native speakers of English who meet all admission requirements except the English language proficiency requirement may be granted conditional admission. To be eligible for conditional admission, applicants must have TOEFL score of 480 (paper test) or 157 (computer test). Students granted conditional admission will be required to take certain courses in the Intensive English Program (IEP) before taking other courses. A student may remain on conditional admission status for no more than three semesters. For more information about the IEP, see [http://www.gsu.edu/iep](http://www.gsu.edu/iep).

### 1165.40 Placement

**International Students.** International students who are also non-native speakers of English must take the GSTEP before registering for classes. If the GSTEP were taken as part of the application process, this requirement is waived. Depending on their scores, these students may be assigned work in the Intensive English Program.

**Students with Non-U.S. Academic Credentials.** There are no special placement rules for students with non-U.S. academic credentials.

**Non-Native Speakers of English.** See special rules for placement of international students.

### 1165.50 Regents’ Testing Program

**International Students.** There are no special Regents’ Testing Program rules for international students.

**Students with Non-U.S. Academic Credentials.** There are no special Regents’ Testing Program rules for students with non-U.S. academic credentials.

Non-native speakers who do not meet the Regents’ Test requirement and who have attempted 45 or more semester hours are required to take one of the following: regular RGT courses or RGT courses for international students offered by the Department of Applied Linguistics and English as a Second Language. With the exception of the testing policies mentioned in this paragraph, non-native speakers are subject to all other Regents’ Test Program policies.

### 1170 Reentry

#### 1170.10 Definition

An undergraduate reentry student is a student who has been enrolled at Georgia State University and who:

1. Has not registered for courses at Georgia State during the previous academic year, or
2. Attended any term as a transient and wishes to attend an additional summer term as a transient.

All students applying to reenter who were last enrolled in the Learning Support Program (formerly the Department of Academic Foundations and Developmental Studies), have COMPASS scores below those currently required to exit LSP and have not fulfilled their LSP requirements must either
1. Retake the appropriate COMPASS tests and earn the minimum reading score currently required to exit LSP (74), the minimum writing score currently required to exit LSP (60), and the minimum math score currently required to exit LSP (37) or
2. Complete their LSP courses at another USG institution (for example, Georgia Perimeter College) and then reapply for reentry.

Transient students who wish to change their status to transfer students should complete a new application for admission and refer to Section 1125.30 for admission requirements.

All students, including reentry students, must notify the Office of the Registrar prior to registering if any of the following conditions apply.
1. The student has attended another school since last attending Georgia State. The student must have an official transcript of credits sent from the school he or she attended. The student must be in good academic standing at the last school attended before he or she returns to Georgia State University. Failure to submit this transcript by the midpoint of the first term after returning to Georgia State could result in the placing of a registration hold on the student’s record.
2. The student has disciplinary actions pending at the last institution attended since their matriculation at Georgia State.
3. The student has been convicted of a crime other than a minor traffic violation since last attending Georgia State.

Failure to notify the university of any of the above conditions could result in university sanctions, including expulsion.

1170.20 Reentry Procedures

Reentry acceptance is valid for the academic year (Fall, Spring, and Summer). Each fall semester begins a new academic year. If a student does not attend within the accepted academic year, a new reentry application must be completed by the established deadlines. A complete reentry application and any required document must be submitted by the following deadlines:

<table>
<thead>
<tr>
<th>To Return in</th>
<th>Priority Deadline</th>
<th>Regular Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall</td>
<td>February 1</td>
<td>June 1</td>
</tr>
<tr>
<td>Spring</td>
<td>October 1</td>
<td>November 1</td>
</tr>
<tr>
<td>Summer</td>
<td>February 1</td>
<td>April 1</td>
</tr>
</tbody>
</table>

The Reentry Application is available online at http://www.applyweb.com/apply/gsure/. Application fee is $25.00.

Undergraduate students re-entering on supervision or probation are required to participate in the Academic Improvement Program (see Section 1360.20).

In order to reenter, students who have attended another institution since their last enrollment at Georgia State University must be in good standing, both academic and disciplinary, and have no disciplinary actions pending at the last institution attended.

Students normally reenter the same college or school in which they were last enrolled. Undergraduate reentry students who are eligible to change colleges may indicate their desired new college, major, and/or concentration on the reentry application. Some colleges have special requirements for admission to the college or to a particular program. Students should contact the Office of Academic Assistance of the desired college to determine if special criteria apply.

1175 Academic Regulations that Apply to Various Admission Categories

1175.10 Transient Students

Transient students may attend for only one fall or one spring semester. However, attendance as a transient student in summer semesters is unlimited. In order to continue for an additional summer semester(s) as a transient, a student must file a reentry form and arrange for all necessary supporting documentation to be received in the Office of the Registrar by the established deadlines. To continue attending, transient students must be in good academic standing at Georgia State University. Transient students who wish to become transfer students must apply to the Office of Admissions to be admitted as a transfer student. All scholastic discipline policies and all course prerequisites are applicable to a transient student. Transcripts for courses completed at Georgia State as a transient must be requested from the Office of the Registrar to be sent to the home institution. Transient students are admitted to and register through the college or school selected on their application. If the applicant does not indicate a college, and if a transient approval has been received, placement will be determined from the
courses indicated in the letter. Transient students who seek reentry must complete a new reentry form for the semester that they wish to attend.

1175.20 Postbaccalaureate Students

The postbaccalaureate status is not available for students seeking teacher certification in any area other than music education and art education. Postbaccalaureates may not attend another institution as a transient student while the postbaccalaureate is a student at Georgia State University.

1175.30 International Students

International students with student visas are required to carry a full course load (12 semester hours). International students with student visas who wish to reenter must complete a new reentry form for the semester that they wish to attend.

A. The difference between in-state and out-of-state tuition is waived for: Non-resident students who are enrolled only in courses which meet more than 50 miles from Georgia State and are part of an official Georgia State off-campus study program pay in-state tuition plus $250.

B. All tuition is waived for:

   3. Graduate assistants (as defined by Deans Group or Senate policy).

C. Tuition Agreements: Students enrolled only in courses offered under tuition agreements between Georgia State and corporations, organizations, educational institutions and other legal entities will pay tuition and fees as specified in the tuition agreement. The tuition and fee rates in such agreements must be approved by the Provost.

1220 Mandatory Student Fees
Mandatory student fees are charged each semester to every student registered for courses to be conducted by Georgia State University. These fees must be paid at the time of registration.

Student activity, athletics, recreation, technology, transportation, international education, library, student center, and health fees make up the mandatory student fees that are used to provide cultural, social, recreation and athletic programs for the entire student body. In addition, these fees provide financial support for student facilities at the university, guest speakers and lecturers, student media, and many special events that are available exclusively for the students of Georgia State. The fees also support the PantherExpress student shuttle, remote parking at Turner Field, and discounted student Marta passes. The technology fee supports expansion and enhancements of instructional technology and student access to computers. The international education fee provides scholarships and loans for study abroad and supports the University’s compliance with federal reporting of international students mandated by Congress. Mandatory student fees are subject to change at anytime.

   2. Students who have paid fees at another accredited institution of higher education and who are taking less than six credit hours at Georgia State.

Such courses may include, for example, practicum, student teaching, internship, directed reading, independent study, thesis research, or dissertation research. If the program of study allows (but does not require) that the courses be taken more than 50 miles from campus, then the students will not be granted a fee waiver.
   4. Students enrolled only in courses, which meet more than 50 miles from Georgia State if those courses are part of an official Georgia State off-campus study program. Such programs may include field study programs and study abroad programs.

1225 Other Fees

1225.10 Late Registration Fees
   The university reserves the right to drop students from registered courses who fail to meet fee payment deadline. If a student is dropped from courses, the student will need to register again for classes during Late Registration. During Late Registration, students who register initially or register again for classes dropped due to lack of fee payment will incur a nonrefundable late registration fee of $50.00. In addition, any registration revision after Late Registration must be done in the Registrar’s Office and may be refused by the faculty member. Students will be charged a nonrefundable manual registration fee of $37.50 for each revision at the Registrar’s Office. Students are responsible for dropping classes if they decide not to attend school. Students will be responsible for payment of classes that are not dropped. All payments must be received (not postmarked) by the Office of Student Accounts by the deadline dates and times listed in the online Registration Guide at http://www.gsu.edu/registrar. Failure to meet fee payment deadlines may result in academic consequences.

1225.20 Graduation Fee
   Every student receiving a degree must pay a graduation fee of $30.00 for a bachelor’s degree, $40.00 for master’s and specialist degrees, and $40.00 for doctorate degrees to cover all expenses, including the cost of the diploma, but excluding the cost of regalia (see below). Students should first procure the necessary form from the Graduation Office, 231 Sparks Hall, and then pay the graduation fee at the Office of Student Accounts, 100 Sparks Hall. Payments made by cash, check, or VISA/MasterCard will be accepted.

   Students who indicated on the graduation application that they are attending the commencement ceremony can purchase their regalia from the Georgia State University Bookstore. The University Bookstore can be reached at 404/651-2155, by e-mail at bookstore@gsu.edu, or online at http://www.gsu.edu/bookstore.

   Revisions of graduation dates after the midpoint of the semester in which graduation is scheduled will result in reapplication fees of $30.00 for a bachelor’s degree and $40.00 for a master’s, specialist, or doctoral degree.

Financial Information

The housing fees for the University Lofts vary per month based on the apartment type. Housing fees include all utilities, cable television service, Internet connection, and local telephone service in the apartment. The Lofts Tenant parking, as well as Loft Tenant Marta passes, are available through Auxiliary and Support Services. For more information, contact University Housing in person at 250 Student Center, by phone at 404/463-9052, by e-mail at housing@gsu.edu or by visiting the Housing website at http://www.gsu.edu/housing.

1230 Fee Payment

Payment may be made either by cash, VISA, MasterCard, or by check payable in United States currency and drawn on a financial institution located in the United States of America. The university reserves the right to determine the acceptability of all checks. Checks must be made payable to Georgia State University and have the checking account number encoded. All checks not drawn in this manner will be returned to the remitter of the check. Payments (checks only) may be mailed to the Office of Student Accounts and must be received by 5 p.m. on the fee deadline date, NOT just postmarked. To mail a fee payment, please send the check to Georgia State University, Office of Student Accounts, P.O. Box 4029, Atlanta, GA 30302-4029.

The university reserves the right at any time during the semester to drop any student from classes for failure to pay fees. Students who continue to attend classes under these conditions will be held liable for the fees due plus any service fees assessed, applicable collection costs, court costs, and legal fees. A Student Accounts “Hold” will be placed on the records of any student who has a financial obligation to the university. This student will not be permitted to register for further course work or receive, or have forwarded to external third parties, transcripts of grades until the obligation is settled.

Any person who has a credit card payment rejected or a check returned by the bank for any reason must settle that obligation with the university promptly.

If a check given in payment of a student’s fees is not paid upon presentation to the banking institution, a Student Accounts “Hold” will be placed on the student’s records. All returned checks will be assessed a returned check fee of $25. Georgia State University reserves the right to place a student on “cash only” for issuing a check that is not honored upon presentation to the bank.

It is the responsibility of the student to observe all regulations and procedures regarding the payment of fees and the entitlement to refunds. In no case will a regulation be waived or an exception be granted because a student pleads ignorance of the regulation or asserts that he or she was not informed of it by an adviser or other authority. All questions concerning fees and refunds should be directed to the Office of Student Accounts only. Verbal misinformation is not grounds for a waiver of a regulation.

All fees are subject to change without notice.

1230.10 Required Advance Fee Payment/ CHHS

The College of Health and Human Sciences requires students newly accepted into certain professional and graduate programs to submit a percentage of their first semester’s tuition at the time of acceptance. The advanced tuition, which is nonrefundable, guarantees the student’s place in the class.

1230.20 Employer Fee Reimbursement

Students eligible for tuition fee reimbursement by their employers must submit their reimbursement forms to the Office of the Registrar, 227 Sparks Hall, accompanied by an addressed, stamped envelope. Forms will be processed and mailed within five workdays if grades are available for the applicable semester.

1230.30 Fee Payment Deadline Date

All tuition and mandatory student fees are payable by the dates published in the online Registration Guide at http://www.gsu.edu/registrar. Students are responsible for payment of all charges on their account by the fee deadline. For the most up-to-date information concerning fee payment and deadline dates, please refer to each term’s online Registration Guide at http://www.gsu.edu/registrar. Failure to meet fee payment deadlines may result in academic consequences.

1235 Credit Card Payments

Georgia State University accepts VISA and MasterCard for payment of tuition and fees. Students choosing this option may register and pay fees by going to the Georgia State GoSOLAR student registration website at http://www.gosolar.gsu.edu/webforstudent.htm, thus eliminating the need to mail or deliver fee payments to the Office of Student Accounts.

Refunds for students paying with VISA or MasterCard will be mailed upon withdrawal from classes in accordance with the refund policy.
1240 Uncollectible Debts

If a student’s account is sent to a collection agency, the student will be responsible for the tuition and fees as well as any collection cost and/or legal fees.

1245 Refund of Fees

Students who formally withdraw or who are formally withdrawn from a class or classes will be subject to the application for a refund policy for tuition and other fees. (See Section 1332) This policy decreases the amount of refund available at regular intervals during the term. At a time during the term, no refund will be available upon withdrawal. Complete information about the refund policy and its application throughout the term is available in each term’s online Registration Guide at http://www.gsu.edu/registrar.

Placing a stop payment on a check with the institution the check is drawn on does not constitute a formal withdrawal. The student will be held liable for tuition and fees unless the date of official withdrawal from the class or classes at Georgia State University is within the refund schedule; in which case, the student will be held liable for that portion of fees that is not refundable plus the returned check fee and any applicable collection costs.

A student is not entitled to any refund of fees paid if the student leaves the university when disciplinary action is pending, or does not withdraw formally from the class or classes in which he or she is enrolled, or if other restrictions apply as listed in the online Registration Guide at http://www.gsu.edu/registrar.

The refund for a student who paid fees with cash, check, or credit card (VISA/Mastercard) will be in the form of a check mailed to the student. The refund for a student who receives financial aid will be audited to determine the amounts to be returned to the financial aid program, and a check will be mailed to the student for any balance due. Mailing addresses should be kept current with the Office of the Registrar at all times to ensure proper mailing of refund checks.

1250 Georgia Resident Status

1250.10 Regents’ Requirements for Georgia Resident Status

A student is responsible for registering under the proper residency classification. This includes new, current and/or former students who have been classified as nonresidents. Residency status changes are not automatic. A student classified as a nonresident who believes that he/she is entitled to be reclassified as a legal resident may submit a “Petition for Georgia Resident Classification” to the Office of the Registrar to request a change in status. The petition (as well as information on waivers of the out-of-state tuition and the forms for certain waivers) may be accessed at: http://www.gsu.edu/registrar/what_we_do_residency.htm

To qualify as a Georgia resident for tuition payment purposes, you must demonstrate that you, your parent, your spouse or your court-appointed guardian (if you are a minor) is a legal resident of Georgia for tuition purposes. You may establish this claim by providing documentation to support the definition established by the Board of Regents. Please note that establishing residency for tuition purposes as defined by the Board of Regents is different than residency for purposes of such things as voting, having a Georgia driver’s license and/or motor vehicle tag, immigration status, etc., and requires more than establishing eligibility to vote, securing a driver’s license, and/or motor vehicle registration, filing income tax returns, and/or paying taxes.

Who has the best claim to residency for tuition purposes?

Normally, you, your parent, your spouse, or your court-appointed guardian (if you are a minor) should meet all the following criteria:

- The person has always resided in Georgia or can demonstrate that they currently reside in Georgia and residency in any other state or country has been abandoned. Maintenance of ties with another state or country will contribute to a non-resident decision and includes, but is not limited to, such things as: financial support from a person who is a resident of another state or country, payment of income taxes to another state, registering a vehicle or securing a driver’s license in another state or country and registering to vote in another state.
- The person has lived in Georgia for the 12 consecutive months immediately preceding the start date for the term and their 12-month durational requirement has not included time attending any educational institution in Georgia on a full-time basis.
- The person can demonstrate that they moved to Georgia for purposes other than attending any educational institution in the State of Georgia.
- The person can demonstrate economic self-sufficiency and has contributed to the state by paying meaningful taxes.
• The person is a U.S. citizen, Resident Alien or is in a visa status permitting indefinite or permanent residence in the United States.

OR

• You (the student) are a U.S. citizen, Resident Alien or are in a visa status permitting indefinite permanent residence in the United States and
• You (the student) can demonstrate that your employer has transferred you (the student) to Georgia within the last 12 months or that you (the student) previously held residency status in Georgia but moved from the state and returned within the last 12 months.

Legal residents of Georgia, as well as certain categories of nonresidents, may be enrolled upon payment of resident tuition (and the requisite fees) in accordance with the Board of Regents’ regulations. It is recommended that applicants and students make themselves familiar with the Board of Regents’ regulations and periodically review them in the event that changes have been made. The Board of Regents’ regulations on residency and waivers of the non-resident tuition are located at:

Residency Regulations

Waivers of the Nonresident Tuition

Petitioning for Georgia Residency for Fee Payment Purposes:

If a student/applicant has been classified as a non-resident and wishes to contest the classification, he/she must petition for Georgia resident classification using the form approved by Georgia State University.

After attending as a non-resident, if a student wishes to change his/her residency classification, he/she must petition for Georgia resident classification using the form approved by Georgia State.

The approved petition form for Georgia State can be accessed at: http://www.gsu.edu/registrar/what_we_do_residency.htm

Deadlines for Petitions

To ensure timely processing, petitions and all required documents should be submitted no later than 15 working days prior to registration for the term in question. Final determination of Georgia residence classification prior to the deadline date for fee payment cannot be guaranteed for petitions received after the priority date. If you apply later, you will need to pay the nonresident tuition (and the requisite fees) for that term (when your petition is reviewed, if you qualify for resident status, you will receive a refund of the nonresident tuition). In any case, petitions must be filed within 60 days of the beginning of the term. Petitions received after that time will not be considered for that term, but for the subsequent term. All supporting documentation must also be received within 60 days of the beginning of the term.

Please note that petitions are only reviewed for students who are or have been enrolled, and applicants who have been accepted. If you have not yet been accepted, you should go ahead and submit your petition in order for it to be prepared for review.

The Office of Student Financial Aid provides financial assistance to students who, without such help, would be unable to attend Georgia State University. The university believes that the principal responsibility for financing a college education lies with the student and the family. A student who needs financial assistance is expected to contribute by working or borrowing a reasonable portion of the funds needed to meet expenses. The student’s family is expected to make a maximum effort to assist in the payment of the expenses involved.

Financial aid is any grant, loan, part-time employment or scholarship offered for the purpose of helping a student meet their educational expenses. This aid is usually provided by federal, state, institutional or private agencies. In order to apply, a student must complete the Free Application for Federal Student Aid (FAFSA) or the Renewal Application. Students are encouraged to apply online at [http://www.fafsa.ed.gov](http://www.fafsa.ed.gov).

Recipients are selected on the basis of demonstrated financial need and academic achievement. Information concerning application for financial assistance is available from the Office of Student Financial Aid. Application packets for the next school year are available after January 1. Students are urged to apply early for optimum financial aid benefits at [http://www.fafsa.ed.gov](http://www.fafsa.ed.gov).

In order for a Georgia State student to continue to receive financial aid from federal or state financial assistance programs, the student must exhibit satisfactory academic progress. Copies of Georgia State’s policy for determining satisfactory academic progress are available in the Office of Student Financial Aid and also on the Financial Aid website at [http://www.gsu.edu/financialaid](http://www.gsu.edu/financialaid).

Some programs offering financial assistance to students are administered by offices or organizations other than the Office of Student Financial Aid. Contact information concerning a particular program or group of programs appears with the listings in this section.

For more information on financial aid, contact the office, located in 102 Sparks Hall, online at [http://www.gsu.edu/financialaid](http://www.gsu.edu/financialaid).

The Office of the Registrar offers services to certify and assist students who are eligible for veterans’ benefits. Any veteran who wishes to attend Georgia State University under any of the veterans’ benefit programs provided by public law must apply to the Georgia State University Office of Admissions in the normal manner. It is advisable for a veteran who has not previously used any educational benefits to apply to the Department of Veterans Affairs for those benefits. For a veteran who will be transferring to Georgia State from another institution where educational benefits were received, a veteran must submit a Request for Change of Program or Place of Training form with the Department of Veterans Affairs concurrently with his or her application to Georgia State. As soon as the Georgia State Office of Undergraduate Admissions notifies the applicant of his or her acceptance, the applicant should contact the Office of the Registrar for further instructions.

Continuing students who wish to receive benefits must complete the Veterans Information Sheet through the Office of the Registrar each academic term. Students whose attendance was interrupted must renew their certifications at the beginning of the next academic term of attendance in which they wish to receive benefits. Those students who are certified on a term by term basis will routinely experience a break in benefit payments between academic terms and should contact the Veterans Administration Regional Office to ascertain the amount and schedule of their checks.

Certain physically or mentally disabled individuals enrolled at Georgia State University may qualify to receive financial aid through the State Vocational Rehabilitation Program. Students who think they may qualify under this program should contact one of the area vocational rehabilitation centers.

A grant is a nonrepayable form of financial assistance for undergraduate students who demonstrate sufficient need. For each of the grants listed, eligible students with completed applications for student financial aid will be considered. Contact the Office of Student Financial Aid for more information.

Georgia State University participates with the federal government in the Federal Direct Student Loan Program. Eligible students may borrow funds from the Federal Subsidized Direct and Federal Unsubsidized Direct Loan programs. Parents of eligible, dependent undergraduates may borrow from the Federal Direct Parent Loan Program. The university will determine eligibility for each of these programs, originate, and disburse the loans directly to the student and/or parent borrower.

1265.30 Federal Direct Student Loans Program
Federal Direct Student Loans are available to assist students with costs associated with attendance at Georgia State University. While Georgia State does not encourage borrowing, loans are frequently necessary to meet educational costs not covered by the student’s income, the family’s contribution, or grant and scholarship awards. When student loans are necessary, Georgia State advises borrowing conservatively. Undergraduate students with demonstrated financial need may borrow through the Federal Direct Subsidized Student Loan program. Independent undergraduate students may borrow additional funds through the Federal Direct Unsubsidized Student Loan program, and parents of dependent undergraduates may borrow through the Parent Loan for Undergraduate Students (PLUS) Loan program. The Office of Student Financial Aid will determine loan eligibility by year in school, prior indebtedness, and academic standing.

All recipients must be enrolled at least half-time in a degree seeking program: be a US citizen or an eligible non-citizen; be making satisfactory academic progress; cannot be in default or owe a repayment on a previous financial aid award; and must register with the Selective Service if required to do so.

1265.40 Federal Perkins Loan (FPL)
Federal funds are provided to the university for the purpose of making low interest, long-term loans available to students who have a need for assistance. Applicants must be U.S. citizens or eligible non-citizens and enrolled at least half-time. These loans bear no interest until six months after a student graduates or drops to less than half-time enrollment for a specified length of time. A portion of the loan may be cancelled for service as a teacher of handicapped children or for teaching in schools that have a special designation from the Commissioner of Education. Under special conditions, service in the Armed Forces may cancel a portion of the loan. Students who serve as law enforcement officers or corrections officers after graduation may be able
to have up to 100 percent of their loan cancelled. Eligible students with complete applications for student financial aid will be considered.

1265.50 Parent Loans for Undergraduate Students (PLUS)

Loans are available for parents of dependent students. The Office of Student Financial Aid will determine a parent’s eligibility. Loan eligibility is not limited to borrowers who demonstrate financial need. The maximum loan amount is based on the cost of attendance less other aid. Repayment begins within sixty days after disbursement. A complete application for student financial aid is required. Contact the Office of Student Financial Aid for application procedures.

1300 University Academic Regulations

1302 General Information

1302.10 University Academic Policies

All students at Georgia State University are responsible for learning and observing all regulations and procedures required by the university and by the college and program or status in which they are enrolled. In no case will a regulation be waived or an exception granted because a student pleads ignorance of the regulation or asserts that he or she was not informed of a specific requirement by an adviser or other university authority. This chapter contains the academic regulations of the university. See the other parts of this catalog for information on the academic regulations of the various colleges and departments.

All students must become especially familiar with (1) this chapter, (2) the following chapter on university degree requirements and graduation, (3) their college’s chapter of this catalog, (4) the offerings and requirements of their major, and (5) the contents of the online Registration Guide found at http://www.gsu.edu/registrar, which can also contain notices of changes in academic regulations or procedures.

While the provisions of this catalog will ordinarily be applied as stated, Georgia State reserves the right to change any provision listed in this catalog, including but not limited to academic requirements for graduation, without actual notice to individual students. The university will make every effort to keep students advised of any such changes. Information on changes will be available in the Office of the Registrar for changes made by the university and in the Student Advisement Center and the appropriate Office of Academic Assistance for changes made by a college. Students must note especially their responsibility to keep apprised of current graduation requirements for their particular degree program.

1302.20 Student Computer Access Requirement

Each student enrolled at Georgia State University must have access to a computer, and any course offered at the university may require computer-based work. Further, the student’s computer must provide access to e-mail accounts, the World Wide Web using a current browser, and spreadsheet and word processing software. Departments and other units may establish minimum machine capability and software requirements, including the requirement that a student in a certain degree program must own a computer. It is the responsibility of each student to ensure his or her access to a computer. Computers are available in the open-access computer laboratories on campus that provide the basic level of computer capabilities, but these laboratories are heavily used and cannot guarantee a student access to a computer at a particular time.

1302.25 Georgia State University E-mail

Every student is assigned an official Georgia State University e-mail address at the time of acceptance. It is essential that students regularly check this e-mail account. Academic departments and student service units across campus use e-mail as a means of communicating with students about official university business, and students are held responsible for this information. E-mail from Georgia State will be sent to the student’s official Georgia State e-mail address. It will not be sent to any other address (such as Hotmail or Yahoo account). However, students may configure their Georgia State account to forward to another address.

1302.30 Semester Calendar

Georgia State University is on a semester calendar, and academic credit is awarded in semester hours. The fall and spring semesters are approximately 15 weeks each. Summer semester is composed of a three-week session in May and, beginning in June, seven-week and six-week sessions. Enrollment in the three-week session, or either the seven-week, or six-week summer session counts as having been enrolled in summer semester.

For students enrolled at Georgia State before fall 1998 who are completing the quarter system curriculum, transition manuals have been prepared to assist them in completion of their programs. Copies are available from the Office of Academic Assistance of each college (major-related undergraduate and graduate information).
1310 Academic Advisement and Development

Academic advisement is an essential component of an education at Georgia State University and the university is committed to providing the individual advice and assistance that students need at every step of their degree programs. Academic orientation is required of all new undergraduate degree-seeking students entering Georgia State. Freshmen are required to attend Incept: New Student Orientation (described in next section). Transfer students must attend Incept (preferred), join a Freshmen Learning Community, meet with an academic adviser, or attend a group advisement session scheduled by the Student Advisement Center or by a college Office of Academic Assistance.

1310.10 Incept: New Student Orientation

The Office of New Student Programs is committed to recruiting, retaining, and developing Georgia State University’s new students. The Office of New Student Programs facilitates the transition of new students through Incept: New Student Orientation.

At Incept, students will learn about their degree requirements through group academic advisement and register for classes. This opportunity will give students a better chance of getting the courses they want at the times they prefer. Students will also meet Georgia State’s faculty and engage in informal dialogue about the college classroom experience, tour Georgia State’s unique urban campus and become familiar with classroom locations. Students will also have the opportunity to meet future classmates, explore student and campus services, visit with student organizations (including fraternities and sororities), and discuss campus issues with Georgia State’s finest student leaders.

The Office of New Student Programs is located in Suite 265 of the Student Center. For more information, please call 404/463-9065 or visit http://www.gsu.edu/incept.

1310.20 Placement Testing

A math placement test is encouraged for all students who do not have an Area A math course and is required for student who wish to take Math 1111, College Algebra, or higher. See Section 1410.10 for information about math course requirements for different majors, and see http://www.gsu.edu/testing and choose Math Placement for information about the test.

Placement exams in French, German, and Spanish are also available to help students determine the course most appropriate for their ability in French, German or Spanish. Prerequisites in these courses are enforced. (See Section 9000, Course Descriptions, for the prerequisites of French, German and Spanish courses.) Students may satisfy the prerequisites either by taking the indicated course or by taking the French, German or Spanish placement exam and earning a satisfactory score. Students may take the exam from any computer with internet access and a browser. Go to http://www.gsu.edu/languages and click on the tab for the WebCAPE placement exam. The user name is “gsu user” and the password is “panthers1”. Each test takes approximately 20 minutes to complete, and students are given their score and a recommendation for a class level. It is recommended that students print a copy of the e-mail regarding their scores to keep for their records and academic advisement. Note: This exam is not part of Incept: New Student Orientation, so new students should take the exam before attending orientation or attempting to register for a French, German or Spanish course. For further information, please contact the Department of Modern and Classical Languages at http://www.gsu.edu/languages or mclinfo@gsu.edu.

Students who are non-native speakers of English must take the Georgia State University Test of English Proficiency (GSTEP) before registering for classes. If the GSTEP was taken as part of the application process, this requirement is waived. Depending on their scores, these students may be assigned work in the Intensive English Program. See http://www.gsu.edu/iep for information about the Intensive English Program.

1310.30 Student Advisement Center

255 Sparks Hall

http://www.gsu.edu/advisement

Tim Woltering, Director
Cathey Eves, Associate Director
Advisers: Eric Brown, Elisha Jarrett, Jonathan Keith, Jennifer Lee, Beatrice Logan, Belinda Mack, Annie Turman
Athletics Certification: Jeffery Sumter

All undergraduate students are advised in the Student Advisement Center until they have completed 42 semester hours of credit and declared a degree program (in business, health and human sciences, education, or policy studies) or major (in arts and sciences). Upon meeting both criteria, students are transferred to the appropriate college’s Office of Academic Assistance for future advisement.
Advisers in the center can assist students in the following ways:
1. Evaluate transfer work and apply it to the Georgia State degree program;
2. Explain catalog regulations;
3. Provide academic counseling;
4. Explain academic standing policies;
5. Discuss goals;
6. Assist with degree and major choices for undecided students;
7. Help students who are experiencing academic difficulties; and
8. Provide direction to campus resources for further assistance.

Students may schedule advisement appointments by calling the center. Walk-in advisement is also provided during specific walk-in hours (contact center for schedule) for students who have brief questions that can be resolved in ten minutes or less.

1310.40 Undergraduate Studies
Office of Undergraduate Studies
224 Sparks Hall
http://www.gsu.edu/flc

Nannette Commander, Director

The Office of Undergraduate Studies provides leadership and direction for the following programs: Atlanta-Based Learning (ABL), Freshmen Learning Communities (FLC), Opportunities for Latin American and Hispanic Students (OLA), and State Scholars, as well as the GSU 1010 New Student Orientation courses and the college-wide offerings for the Perspectives courses.

Atlanta-Based Learning (ABL). Atlanta-Based Learning promotes academic and civic engagement with the greater Atlanta community. As an urban research institution in Atlanta, Georgia State University offers an opportunity for students to understand the context in which they are developing as learners. While engaged in “Campus Atlanta,” students obtain the comparative advantage of attending an institution directly linked to its urban environs. Atlanta-Based Learning activities generate connections between the academic curriculum and the urban Atlanta environment.

Freshmen Learning Communities (FLC). The Freshmen Learning Community (FLC) program is strategically aligned with university initiatives to provide quality undergraduate programs and to increase student success and retention. Learning communities provide first-year college students with a formative, integrative academic experience on which to build lifelong strengths and perspectives and help students develop connections to the Georgia State campus and its resources. FLCs are designed around clusters of freshmen-level courses tailored to a particular topic. Students only have to register for their FLC, not each individual course, to be assigned to each of the classes in the course cluster for their first semester at Georgia State during the second semester, students may take one course connected with the FLC in addition to other courses of their choice. Learning community members take all of the specified courses with students who have selected the same interest group. In addition, each group has one or more faculty advisors. Together, this group creates a small, friendly community within the large research university.

Opportunities for Latin American and Hispanic Students (OLA). The program for Opportunities for Latin American and Hispanic Students provides a “one stop shop” for information regarding financial aid, scholarships, internships, academic advisement, and career counseling. The main goal of the program is to provide a comprehensive support system necessary for students to be successful in college. Outreach efforts with middle and high school students provide a solid foundation for undergraduate activities that focus on building community and connection among students. In addition, the program offers educational opportunities for parents and community members interested in promoting higher education goals within Atlanta’s Latin American and Hispanic community.

State Scholars. The State Scholars Program provides support and oversight of Georgia State’s academically high achieving students. State Scholars refers to a cohort of students which includes Presidential and Berner Scholars, recipients of awards from The Goizueta Foundation Scholars Fund, University Scholar Assistants and students invited to join the Community of Scholars at the Lofts based on a freshman index score of 2900 or above. The Community of Scholars at the Lofts is a unique living-learning environment which strives to create an atmosphere conducive to studying while providing programming, faculty involvement, and cultural activities geared especially to State Scholars.
1310.50 Learning Support Program

The Learning Support Program (LSP) is for undergraduate students admitted on an exceptions basis who need remedial assistance in the areas of math, reading, and/or writing. The following courses are part of the program:

- Academic Reading  EdRd 0071
- Academic Writing  Engl 0081
- Elementary Algebra  Math 0098
- Intermediate Algebra  Math 0099

Students normally register for required LSP courses before registering for other courses. LSP courses do not count towards degree requirements or a student’s GPA at Georgia State University. They are, however, used to calculate a GPA for HOPE, Pell and other financial aid awards, and the courses and grades earned appear on a university transcript.

Approval to enroll in some degree credit courses in addition to the LSP courses may be granted if prerequisites for the degree courses are met and the student has not exceeded other LSP limits (see below).

Advisement and Enrollment: It is very important that LSP students meet each term with an academic adviser for advice regarding course selection. For this reason, an advisement hold is placed on each LSP student’s record each term. The hold is lifted after the student has seen an adviser in the Student Advisement Center.

Any student experiencing difficulty and/or considering withdrawing from an LSP course during the term must first meet with an adviser. The adviser will inform the student of the program’s withdrawal policies, including the right to apply for hardship withdrawal if an emergency situation exists.

Students are allowed a maximum of three attempts per academic area to pass all required courses in that area. Any grade other than a W counts as an attempt. If a student does not complete an academic area within 12 semester hours or 3 semesters, whichever occurs first, the student will be suspended from the university for three years.

Exiting the Program: Students exit LSP by earning a passing score on the COMPASS test. Students who have passed an LSP course but not passed the COMPASS test must re-enroll in the relevant LSP course. The passing COMPASS scores are as follows:

- Reading, 74
- Writing, 60
- Math, 37 (on the COMPASS Algebra test)

Students must successfully exit LSP before they earn 20 hours of degree credit. If students do not complete their requirements before they have attempted 20 semester hours, their registration will be restricted to LSP courses only.

Requests for waivers to any of the above regulations should be submitted to the Director of the Student Advisement Center for review and approval by the university’s Admissions and Standards committee.

1310.60 Honors Program

The Honors Program for the University is offered through the College of Arts and Sciences. Courses in the program are available to all eligible students regardless of the college in which they are enrolled. A detailed description of the program and the selection criteria are listed in the “College of Arts and Sciences” chapter of this catalog or visit the Honors Program website at http://www.gsu.edu/honors.

1310.70 Cooperative Education

Cooperative education programs provide for periods of paid work experience related to the student’s area of study and/or career interest. These work experiences enhance the student’s academic studies and provide a first hand look at the real world of work. Cooperative education opportunities are available for students in a variety of fields with many employers in business, industry, and government. The program is optional but available to all qualified students.

Students who are completing cooperative education experiences on a full-time basis will be designated as full-time students. University Career Services will provide the names of these students to the Office of the Registrar.

Students who have completed cooperative education experiences on a full-time basis as part of their academic programs will have a transcript notation stating which semesters were spent in cooperative education employment.

Interested students should contact University Career Services, 210 University Center, http://www.gsu.edu/career.
1320 Course Credit

This section describes the various ways students may earn credit for Georgia State University courses without actually taking those courses.

1320.10 Transfer Credit Policy

When an applicant is accepted for undergraduate transfer admission, courses completed with grades of C or higher that parallel the curriculum of Georgia State University will be accepted for transfer credit. As discussed below, some credit may be awarded for courses completed with a grade of D. Developmental, vocational, and occupational courses will not be accepted for transfer credit. Credit must have been earned at institutions of higher education with full accreditation by a regional association of colleges and schools and, where appropriate, the Commission on Colleges. The determination of how transfer credit may be used to satisfy the specific course requirements for a degree is made by the Student Advisement Center or the college that administers the degree program requirements. The colleges also have the privilege to test the student’s proficiency in transferred coursework.

- A maximum of 12 semester hours where grades of D have been earned may be applied toward degree requirements. These 12 semester hours include both resident credit (earned at Georgia State) and transfer credit. Transfer credit will not be given for English composition courses where grades of D have been earned. Additional restrictions in credit accepted for courses where grades of D have been earned are included in certain degree programs. Be sure to check the description of your planned program in this catalog.
- No credit will be awarded for a grade earned at a foreign institution that is equivalent to a grade of D in the United States.
- A maximum of 60 semester hours from a two-year college or 81 semester hours from a four-year college may be applied in the program for which the applicant enrolls. Courses completed at a two-year college will be granted lower-division credit. The total number of hours that may be earned toward a degree by extension or correspondence courses may not exceed 30 semester hours.
- Because the university has a minimum academic residence requirement, the amount of transfer credit applicable to a degree program may be further limited (see Section 1430).
- Georgia State does not grant credit for College-Level General Educational Developmental Tests, USAFI courses, or courses completed at any United States armed forces service schools, with the exception of the military academies. For information on DANTES examinations, see Section 1320.40.

For those students seeking a baccalaureate degree, transfer credit for degrees previously awarded by other institutions will be granted as follows:

1. Students who hold
   - a baccalaureate from a regionally accredited institution of higher education in the United States, or
   - the equivalent of a baccalaureate from a regionally accredited institution of higher education in the United States (as certified by Georgia State or a Georgia State-approved agency such as Joseph Silny and Associates, Inc.), or
   - an associate’s degree designed to transfer to a baccalaureate program from a USG institution will be granted credit for all of Areas A-E of the core and the Regents’ Test.
2. However, there are two exceptions to the policy stated in 1 above.
   - Students seeking a baccalaureate degree in biology, chemistry, computer science, geology, mathematics, physics, science education or math education who do not hold a baccalaureate degree in one of these fields will only be granted credit for all of Areas B, C, and E. They will be granted credit in Areas A and D on a course-by-course basis.
   - Students seeking a baccalaureate degree in nursing, nutrition or respiratory therapy will only be granted credit for all of Areas A, B, C and E. They will be granted credit in Area D on a course-by-course basis.
3. Students who hold any other associate’s degree, such as an associate’s degree from a non-USG institution or an associate’s degree not designed to transfer to a baccalaureate program will be granted transfer credit on a course-by-course basis.

1320.20 Credit Transfer for Transient Students

The following regulations pertain to academic credit earned by a Georgia State University degree-seeking undergraduate as a transient student at another accredited institution, for which the student wishes to receive transfer credit toward the Georgia State degree. Terms other than transient (such as visiting student, unclassified student, or special student) may be used at other institutions to describe this status. Whatever the term used to describe the student’s status, these regulations are applicable to Georgia State students who enroll temporarily at the other institution, with the intention of returning to Georgia State, rather than to students who officially transfer to another institution. These regulations are in addition to those described in this chapter regarding correspondence and extension work.
These regulations do not apply to credit earned through cross registration, which is considered resident credit.

In general, the philosophy that underlies these regulations is the desire to allow students the opportunity to take courses not available at Georgia State that would enhance their degree programs. In addition, for students who have moved from the metropolitan Atlanta area, these provisions allow for possible progress toward the degree during the time away from Atlanta if the move is temporary or for possible completion of the degree if the move is permanent. These regulations are not primarily for the short-term convenience of the students. The following procedures apply:

1. A degree-seeking undergraduate student who wishes to take academic courses elsewhere as a transient student and apply those credits toward the Georgia State degree must obtain written approval in advance from the Student Advisement Center or the Office of Academic Assistance of his or her college. Failure to obtain written approval in advance may preclude acceptance of the transfer credit and/or will result in the student being required to meet the degree requirements of the catalog in effect at the time he or she reenrolls at Georgia State. The student’s advisement office should be consulted to determine the proper procedure for requesting to take courses as a transient student and to learn of any additional regulations applicable to the individual college;

2. a. A student must have a minimum Georgia State cumulative GPA of 2.00 and the GPA required to enroll in the Georgia State course which is most similar to the course the student wishes to take as a transient.
   b. A currently enrolled student who does not have the required Georgia State cumulative GPA cannot be approved until the current semester’s grades are available and the current academic standing can be determined.
   c. Approval will not be granted more than three months in advance of the semester the student wishes to enroll elsewhere.

3. The content of each course to be taken elsewhere must correspond to that of a course allowed or a Georgia State course required in the student’s degree program. Course outlines (syllabi) and catalog information may be required so content can be evaluated before approval is granted.

4. A course cannot be taken at an institution in the metropolitan Atlanta area as a transient student if either of the following conditions apply:
   a. the course has previously been attempted at Georgia State (including attempts which resulted in a withdrawal);
   b. the course or an appropriate substitute is routinely available at Georgia State (that is, offered each semester or on a specified regular basis, such as every fall); determination of whether the course is routinely available is made by the advisement office in consultation with the chair or director of the academic unit that offers the course.

5. A student may not take courses for degree credit at another institution during the semester he or she expects to graduate from Georgia State.

6. In general, a minimum grade of C is required in any course taken elsewhere. A grade lower than C can be accepted only if both of these conditions exist: the student has not yet earned the maximum number of grades of D permitted in his or her program AND the student’s degree program allows a grade of D in the particular course taken elsewhere.

7. Approval to take courses as a transient cannot be given if such approval will cause the student to violate any aspect of the university’s residence requirement (see Section 1430).

8. It is the student’s responsibility to comply with application procedures and any other requirements that the other institution may have regarding establishing status as a transient student there.

9. After completing the course, it is the student’s responsibility promptly to request that an official transcript be sent from the other institution to: Georgia State University, Office of the Registrar, P.O. Box 4017, Atlanta, GA 30302.

1320.30 Credit for Correspondence or Extension Programs

Students may apply no more than 30 semester hours of work earned through correspondence or extension programs of other institutions toward the requirements for an undergraduate degree. Students are cautioned to consult with their academic adviser for additional college regulations on correspondence or extension work. Students must obtain the permission of the dean of their college, or the designated college representative, prior to taking correspondence courses to be applied toward the completion of the degree program.

1320.40 Credit by Examination

Georgia State University recognizes that learning can take place in various modes and places other than the traditional college classroom. Knowledge gained through experiential learning and other means is evaluated for possible college credit through examination. The Advanced Placement Program (AP), the College Level Examination Program (CLEP) and the International Baccalaureate Program (IB) are the most commonly used tests for this purpose. These are standardized examinations administered nationally each year. For information on CLEP, contact the University Testing Office, [http://www.gsu.edu/testing](http://www.gsu.edu/testing). For information on AP and IB, contact your high school guidance counselor.
Other standardized exams or special departmental examinations may be approved for credit. For further information, contact the appropriate college.

For information on approved examinations, course equivalents, and credit award policies and requirements, please review the following sections.

1330 Registering for Classes

1330.05 Office of the Registrar
227 Sparks Hall
http://www.gsu.edu/registrar

1330.10 Registration Procedures
A student may not attend a course unless he or she has registered for that course. Detailed information concerning the registration process, registration time-ticket assignments, and GoSOLAR registration can be found online at http://www.gsu.edu/registrar. Each semester students should go online for specific instructions for registering as well as a list of courses offered for the semester. Students are urged to become knowledgeable about registration instructions and to follow them exactly. Registering students are expected to have prepared a registration work sheet before accessing the university’s registration system. Unless approved by the department chair, a student may only register for one section of a given course in a given session. It should be understood that any deviation from the prescribed procedure may result in unnecessary delays in registration or errors in the resulting schedule. The Office of the Registrar cannot be held responsible for errors resulting from the student’s failure to follow the prescribed registration and schedule revision procedures. Any problems experienced with registration should be reported to the Office of the Registrar by e-mail to registrarweb@langate.gsu.edu within 24 hours of the occurrence.

1330.15 Registration Time-Ticket Assignments
Students who are eligible to register will be given a registration time-ticket assignment. The first eight days of registration are the only days of registration that are time-ticketed. Approximately one week before registration begins students can find their registration time-ticket assignment by entering the GoSOLAR website (http://student.gosolar.gsu.edu). Students will also receive an e-mail referring them to the GoSOLAR website where they can view their registration time-ticket assignment.

A student’s time-ticket assignment is valid beginning at the student’s assigned time and continues through the last day of registration. Time-ticket assignments are assigned with priority to students scheduled to graduate for the upcoming registration term and, then, to continuing students according to the total credit hours earned. Once a student is allowed access, he or she can adjust their schedule on a first-come, first-served basis during the remaining registration period. It is to the student’s advantage to attempt to register as soon as he or she is allowed access to the registration system because many classes fill up quickly.

1330.18 Late Registration
During late registration, access is on a first-come, first-served basis. If a student’s first attempt to register is during late registration, a $50 non-refundable late fee will be charged. This $50 fee will also be charged if a student is dropped for nonpayment of fees and attempts to reregister during late registration.
If a student appeals to add a class after late registration has ended and if the appeal is approved, the student will be charged a $37.50 manual schedule adjustment fee. This fee is charged for each appeal approved. Appeals should be directed to the department that teaches the course the student wishes to add.

1330.20 Immunizations

All new students attending regularly scheduled classes on our campus or receiving resident credit are required to submit a certificate of immunization prior to registering for and attending such classes.

The immunizations required are MMR, Tetanus/Diphtheria, Varicella and Hepatitis B. In addition, students who reside in university housing must meet the meningitis requirements discussed below. The Immunization requirements vary according to the age of the student as follows:

- Students 18 years or younger at the beginning of the term must show proof of immunity to Hepatitis B, MMR, Tetanus/diphtheria, and Varicella (chickenpox).
- Students 19 years and older at the beginning of the term are strongly recommended to be immunized for Hepatitis B but they are not required to show proof of immunity to Hepatitis B. They are required to show proof of immunity to MMR, Tetanus/diphtheria and Varicella.
- Students born on or before 12/31/1956 must show proof of immunity to Tetanus/Diphtheria and Varicella only.

The Immunization Office must receive these records before the last day of late registration. Immunization holds will be placed on student accounts to prevent registration, drop/add until the Requirement is satisfied.

Students seeking exemption for religious reasons must submit a notarized letter to the Immunization Office. Students with medical reasons for exemption must submit a doctor’s letter indicating if this is a permanent or temporary exemption, and if temporary the date of expiration. When the temporary exemption expires, the student must complete all Immunization Requirements.

In the event of an epidemic or a threatened epidemic of any disease preventable by immunization and when an emergency has been declared by appropriate health authorities, additional steps will be undertaken to protect the health of the university community. In the event of a declared public health emergency, persons who do not have proof of immunization on file will not be allowed to participate in classes or other activities on campus.

Additional information and copies of the immunization certification form may be obtained by contacting the Immunization Office located in 147 Sparks Hall, or by telephone at 404/651-1171, or online at [http://www.gsu.edu/immunizations](http://www.gsu.edu/immunizations).

Meningitis: Georgia law requires that students residing in campus housing must be provided information on meningococcal disease and vaccination. After reviewing information about the risks for the disease and the benefits of prevention by the Meningitis vaccine, students 18 years and older are required to sign a form kept on file in the Housing Office. Students less than 18 years of age must show their parent or guardian’s signature on the form. This “Meningococcal Disease Notification” form documents that the information was reviewed and the option of the vaccine was provided, and/or date of the vaccination was elicited. Compliance with the state law is a requirement for residing in campus housing and is part of the housing contract. For further information, contact the Housing Office at [http://www.gsu.edu/housing](http://www.gsu.edu/housing), 404/463-9052 or by e-mail at housing@gsu.edu.

1330.25 Audit Status

Enrolled students who wish to audit a course must get approval from the course instructor. Registration for audit is done in the Office of the Registrar. Any fees for auditing a class are assessed just as for courses for credit. Any requirements for prerequisites must be satisfied before registering to audit a course. No academic credit is earned in this status. Audit status is not covered by financial aid, and audit hours do not apply toward full-time enrollment. Students may not transfer from audit to credit status or vice-versa after the last day to register for course credit.

1330.30 Course Load

Full-time Course Load: To be certified as full-time students, students must carry a minimum of 12 semester hours. A course load of 30 semester hours per year is required in order to complete an undergraduate degree program in four years.

Half-time Course Load: Half-time enrollment is 6 to 11 semester hours for students.

Increased Course Load: A student may schedule as many as 18 semester hours without special permission. See the on-line Registration Guide at [http://www.gsu.edu/registrar](http://www.gsu.edu/registrar) for additional information about taking an increased course load. Requests for exceptions to the maximum course load of 18 semester hours will be considered by the Student Advisement Center or the Office of Academic Assistance of a student’s college if the student has completed a course load of 15 semester hours in some previous semester at Georgia State University with a grade point average of at least 3.00 for the semester and if either of the following conditions is met:
1. The student attained the Faculty Scholar designation during his or her most recent enrollment at Georgia State and, if he or she is a reentering student, he or she has achieved a grade of A for all credit hours earned elsewhere since the most recent enrollment at Georgia State; or
2. The student has earned 60 semester hours of credit and has a cumulative grade point average of at least 3.00 for the preceding two semesters of residence.

**International Students:** International students in the student visa status of F and J are required to carry a full-time course load as defined by the Department of Homeland Security (currently 12 credit hours per semester for undergraduate students). Additionally, those F and J international students enrolling for the first time in summer school must carry six credit hours to be considered full-time for immigration purposes.

An international student who is enrolled in less than a full-time course of study at Georgia State may be in jeopardy of:
1. Losing insurance coverage under his or her parent/guardian’s insurance policy;
2. Being out of compliance with the Department of Homeland Security if enrolled at Georgia State on a student visa;
3. Being placed on a loan repayment schedule by a lender or guarantor if the student is the recipient of federal financial aid;
   and/or
4. Losing a scholarship if the guidelines for receiving the scholarship require full-time enrollment.

### 1330.33 Registration Restrictions for 3000/4000-level Courses

Registration in 3000 and 4000-level courses in the following departments or areas require a specific Georgia State University cumulative GPA (See Section 1350.20 for details on how the cumulative GPA is calculated).

<table>
<thead>
<tr>
<th>Department/School</th>
<th>Required GPA</th>

<tbody>
<tr>
<td>All departments in the Robinson College of Business except Computer Information Systems</td>

<tr>

</tr>
</tbody>
</table>

In addition, registration in all 3000 and 4000-level courses in the Robinson College of Business require a total of 45 semester hours earned.

*At the time this catalog went to press, an increase to 2.50 was being considered for Film and Video and Journalism courses. If approved, the increase will be effective with registration for Spring Semester 2006. See website for the Department of Communications at [http://communication.gsu.edu](http://communication.gsu.edu) for updated information on this requirement.

Some departments also have minimum GPA requirements to obtain admission to a particular major or degree. These requirements are specified in the college chapters of this catalog when applicable.

### 1330.35 Taking a Course More Than Once

Colleges may limit the number of times a student can take a course for a grade. Colleges may place this limit on some courses but not others, and different courses may have different limits. All limits are stated in the catalog. For purposes of this policy, a student takes a course for a grade when they receive a grade notation included in the grade point average calculation. For example, a student who earns an A or a WF has taken the course for a grade, but a student who earns an S or W has not. A student who wishes to take a course more times than authorized by the college must enroll as an auditor.

### 1330.40 Cross Registration

Georgia State University students may enroll in courses offered by member institutions of the Atlanta Regional Consortium for Higher Education (ARCHE) under a cross registration agreement provided they meet the academic eligibility and other requirements of the agreement. Students may learn more about cross registration or obtain an ARCHE Cross Registration form at [http://www.gsu.edu/registrar](http://www.gsu.edu/registrar).

Students who wish to cross register must complete and submit an ARCHE Cross Registration form to the Office of the Registrar at Georgia State. An approval signature of a representative of the Student Advisement Center or the Office of Academic Assistance in the student’s college of study is required. To participate in this program, students must be concurrently enrolled in at least one Georgia State course and meet the following minimum requirements: students must have at least a 2.0 GPA and the GPA required to enroll in the Georgia State course which is most similar to the course that the student wishes to take as a cross-registrant. Courses taken through cross registration count as residence credit, and grades are included in the Georgia State grade point average.

Students are not allowed to preregister for cross registration courses. Registration will be on a space-available basis, and the host institution will specify the time and date on which a student must register.
For all courses taken as an ARCHE cross registration student, the tuition and fees will be at the rate of the home institution and paid to the home institution. Georgia State students pay fees after the cross registration is confirmed by the host institution.

Students must request that the registrar’s office of the host institution send an official transcript to their home institution upon completion of the term.

Students must complete new cross registration forms for any subsequent terms in which they plan to participate in the cross registration program.

Cross registration is available in the summer on a limited basis. Consult the cross registration office for more information.

The other ARCHE member institutions are: Agnes Scott College, Atlanta College of Art, Brenau University, Clark Atlanta University, Clayton College and State University, Columbia Theological Seminary, Emory University, Georgia Institute of Technology, Interdenominational Theological Center, Kennesaw State University, Mercer University Atlanta Campus, Morehouse College, Morehouse School of Medicine, Oglethorpe University, Southern Polytechnic State University, Spelman College, State University of West Georgia and University of Georgia.

1330.50 Changes in Personal Data

GoSOLAR (http://student.gosolar.gsu.edu) is a computerized system that allows students to update some of their student records (address, phone number, etc.) using a terminal or personal computer. Any student or applicant can log on to the system from a terminal in an on-campus lab or any computer with an Internet connection. Students who wish to change their name should contact the Office of the Registrar (227 Sparks Hall) to complete forms and provide the legal documents required for a name change. As correct personal data is vital to the student’s record, students are urged to have their records updated when these changes occur.

1330.55 Off-Campus Courses

Many courses are offered to Georgia State University students at satellite locations. Students taking these courses must meet the same academic requirements and deadlines as students attending classes at the downtown campus. Each semester a list of off-campus courses can be found on GoSOLAR.

1330.60 Transcript Request

A student who has discharged all obligations to Georgia State University is entitled to receive upon request a copy of his or her transcript. Official transcripts of academic work completed at Georgia State University may be ordered via Georgia State website (http://student.gosolar.gsu.edu). A student is entitled to five (5) free lifetime transcripts. Once a student has exhausted the five free transcripts, Georgia State will charge a $10.00 processing fee for each transcript processed thereafter. There is a three (3) day processing period for requests. Picture identification is required to pick up transcripts.

Transcript requests will not be processed until complete payment is received. Credit card payment is required for web requests.

Copies of official transcripts received from other institutions will not be made. Such requests must be directed to the institution holding the student’s original records.

Routine copies of other information in the student’s education records, with the exception of transcripts from other institutions and other items excluded from copying by practice or regulation will be provided upon written request. A fee may be charged to cover the cost of copying. Special certifications based on education records will be provided upon written request, when permissible.

1330.70 Enrollment Verification

Enrollment verification is obtained via the web at no cost to students.

Enrollment Verification

To obtain proof of enrollment, students should access GoSOLAR (http://student.gosolar.gsu.edu). At this site students can do the following:

1. Print a Certificate of Enrollment that can be forwarded to a health insurer, housing provider, employer, credit issuer, or other student services provider;
2. View the electronic notification and deferment forms that have been sent to a lender; and
3. View a list of lenders and real-time student loan information detail, such as outstanding principal balance and next due date that some lenders provide.

Once a student drops a course, those hours cannot be used for verification of enrollment purposes. A student’s enrollment status may change if he/she drops or withdraws a course or withdraws from the university. If a student is co-enrolled at another
collegiate institution during the same semester he or she is enrolled at Georgia State University, only the enrolled hours at Georgia State can be used for enrollment verification purposes.

**Degree Verification**

To obtain proof that a degree has been awarded, students should go to [http://www.degreeverify.com](http://www.degreeverify.com). At this site, students can provide proof of degree to such agencies as third-party verifiers, credit card companies and credit approval agencies. This is a website of the National Student Clearinghouse. The Clearinghouse is providing degree verification services to Georgia State students.

**1330.80 Directory Information**

An enrolled student may request that directory information (name, address, etc) not be public. To make this request, a student should fill out a Suppress Directory Information Form, available at [http://www.gsu.edu/~wwwreg/images/rrfsis.pdf](http://www.gsu.edu/~wwwreg/images/rrfsis.pdf), and turn it in to the Office of the Registrar.

**1332 Revision of Class Schedules (Add/Drop/Withdraw)**

Students desiring to revise their class schedule must follow the procedure appropriate for the period of time in the semester (see section 1332.10 below). During the published registration periods for each semester students will revise their schedule on GoSOLAR (http://student.gosolar.gsu.edu). Schedule revisions are defined as any changes to a student’s schedule and include dropping and/or adding classes. Dropped courses do not appear on the student’s official record. To remove a course from a class schedule during the published registration periods is referred to by the university community as “dropping” a course. After the last day to add/drop a course, students may “withdraw” from a course when they decide to stop attending. Withdrawing from a course makes the student eligible for a grade of W or WF. This grade is reflected on the student’s official record.

All schedule revisions must be completed by the official last day to register for course credit as published in the online Registration Guide at the Office of the Registrar’s website. Students who wish to request, based on institutional error, to be allowed to register for a course after the deadline should contact the Office of the Registrar.

**1332.10 Dropping Classes and Voluntary Withdrawal**

Students enrolled in the Learning Support Program (see Section 1310.50, or in the Academic Improvement Program (AIP) (see Section 1360.20) must also contact the Student Advisement Center for advisement in withdrawing from classes. Students enrolled in ESL courses should contact the Department of Applied Linguistics/ESL for withdrawal advisement.

1. **During registration:**
   - During this period, students may drop or add classes using GoSOLAR (http://student.gosolar.gsu.edu). When a class is dropped, no grade is recorded and no record of the student’s being enrolled in the course appears on the transcript.

2. **After registration and before the midpoint of the term:**
   - During this period, students may withdraw from a class or classes using GoSOLAR (http://student.gosolar.gsu.edu). The instructor will assign a grade of W or WF. (See the grading system described in Section 1350.)

3. **After the midpoint of the term and until two weeks before the last day of classes:**
   - During this period, students may withdraw from a class or classes using GoSOLAR. However, they will automatically receive a WF. (Note that a WF is treated as an F for GPA calculation purposes.) Voluntary withdrawals must be completed no later than two weeks before the last day of scheduled classes for the term.

Students formally withdrawing from all classes may be entitled to a refund of a portion of their fees (see Section 1240). In an emergency situation that precludes personal action to withdraw from classes, a student may communicate with the Office of the Dean of Students, [http://www.gsu.edu/deanofstudents](http://www.gsu.edu/deanofstudents).

**1332.20 Withdrawals and Drops from Off-Campus Courses and Cancelled Courses**

In general, if a student voluntarily withdraws from an off-campus course, then the normal withdrawal policy applies (see section 1332.10 above). If the off-campus course’s schedule does not match a Georgia State University term, then the mid-point of the course will be the mid-point of the period from the first off-campus meeting of the course to the last meeting of the course.

If a course is cancelled by Georgia State after the first week of classes, then the student may choose between three options:

1. They may have the course dropped from their schedule (even if the course is cancelled after the end of Late Registration), or

2. They may take a W in the course, or
3. In coordination with the course instructor and the department chair, the student may develop an academically appropriate plan to complete the course. These plans must be approved by the instructor and the department chair.

1332.30 Involuntary Withdrawal
Students are expected to observe all policies governing the class. Faculty must clearly state these policies in the course syllabus. When a faculty member determines that a student is in violation of one of the class policies (e.g., has missed a required assignment or has excessive absences), that faculty member may withdraw the student from the course. Students involuntarily withdrawn prior to the midpoint of the course will be assigned a grade of W or WF by the instructor. Students involuntarily withdrawn after the midpoint of the course will be assigned a grade of WF. Note that a WF is treated as an F for GPA calculation purposes. Using the official Georgia State University e-mail system, the instructor will notify a student who is involuntarily withdrawn, and within ten days of this notification, the student may petition to the department chair for reinstatement in the course.

Students involuntarily withdrawn from all classes may be entitled to a refund of a portion of their fees (see Section 1240).

1332.40 Hardship Withdrawal
Students may be granted hardship withdrawals after the midpoint of the semester when nonacademic emergency situations which prevent them from completing their course work occur. Hardship withdrawals are subject to the following restrictions:
1. Students are not eligible for hardship withdrawals in any course in which they have completed the course requirements (e.g., taking the final exam or submitting the final project).
2. Students must initiate an application for a hardship withdrawal no later than one academic year after the semester in which the courses were taken.

Hardship status normally applies to all the courses a student took in a semester but in some cases may be granted for some of a student’s courses. Students requesting a hardship withdrawal in some but not all of their courses must provide documentation to justify such a partial withdrawal. If a student is granted a hardship withdrawal (full or partial), the instructors of the courses from which the student is withdrawing must award a grade of “W” or “WF,” depending on whether the student was doing passing work as of the effective date of the hardship.

For further information on hardship withdrawals, contact the Office of the Dean of Students at http://www.gsu.edu/deanofstudents.

1332.50 Non-Academic Withdrawal
A student may be withdrawn from the university for non-academic reasons when in the judgment of the Dean of Students, it is determined that the student has demonstrated behavior that: (a) poses a significant danger or threat of physical harm to self or to the person or property of others; or (b) interferes with the rights of other members of the university community or with the exercise of any proper activities or functions of the university or its personnel. Except in situations where the student is believed to be an imminent threat to self or others, as determined at the sole discretion of the University, a student shall, upon request, be accorded an appropriate hearing prior to the final decision concerning his or her continued enrollment at the university. In situations involving an imminent threat, the Student will be provided a hearing as soon as practicable after the withdrawal occurs. The instructor will assign students who are non-academically withdrawn a grade of W or WF if they are withdrawn before the semester midpoint and a WF if they are withdrawn after the semester midpoint.

1332.60 Number of Withdrawals Restriction
Any student who earns four or more Ws and/or WFs in a single term shall have an advisement hold placed on their record. The hold will be removed after the student has seen an academic advisor. Any student who earns 8 or more Ws and/or WFs in his/her academic career at Georgia State University shall have an advisement hold placed on their record. The hold will be removed after the student has seen an academic advisor.

1334 Class Attendance
The resources of the university are provided for the intellectual growth and development of its students; it is expected that students should attend class regularly.

The Department of Veterans Affairs requires that institutions of higher learning immediately report to them when a student discontinues attendance. Georgia State University institutional policy requires that professors report the absence of a veteran student as soon as it is known that the student will not be returning to class. Generally, this should be reported after one week of absences and no later than two weeks of nonattendance by a student.

All matters related to student absences, including the making up of work missed, are to be arranged between the student and the professor. All professors will, at the beginning of each semester, make a clear statement in the course syllabus to each of their
classes, describing their policies for handling absences. Professors will also be responsible for counseling with their students regarding the academic consequences of absences from their classes or laboratories. Students are obligated to adhere to the requirements of each course and of each professor.

Students must be present for announced quizzes, laboratory periods, or final examinations unless the reasons for the absence are acceptable to the professors concerned. A student who is absent because of participation in activities approved by the Provost’s Office will be permitted to make up work missed during his or her absence, provided, that, the student misses no more than 15 percent of class hours per course per semester. If requested, the appropriate university official will provide a memo stating the official nature of the university business in advance of the activity. Faculty are strongly encouraged to take into consideration religious holidays of the student’s faith, summons, jury duty, or similar compelling reasons for absence.

1336 Final Examinations

A student shall not be required to take more than two examinations within one 24-hour period during the published final examination period. More than two examinations within 24 hours are referred to as clustered examinations.

A student is considered to have an inappropriate clustering of final examinations when more than two examinations fall within 24 hours (for example, examinations at 8:30 a.m., 11:30 a.m., and 6:00 p.m. on the same day, or examinations at 6 p.m. on one day, and at 8:30 a.m. and 2:30 p.m. on the following day); the student is not considered to have an inappropriate clustering of examinations if the third examination in sequence begins at the same time on the subsequent day as the first examination (for example, 6:00 p.m. on one day, and 2:30 p.m. and 6:00 p.m. on the following day).

Students who have three or more clustered examinations may request of one professor that the examination be rescheduled according to the following procedure:

- If a final examination was rescheduled and thereby created a “cluster,” the instructor of the rescheduled examination will provide a special administration for the adversely affected student.
- If one or more of the clustered examinations is a “common examination” with an established conflict resolution time, the student will request to resolve the conflict by taking one of the common examinations in the conflict resolution time. If two or more of the examinations are “common examinations,” the student may choose which “common examination(s)” is to be rescheduled.
- If one of the clustered examinations is not a common examination or the result of rescheduling, the instructor of the middle examination(s) will provide a special administration for the adversely affected student.

Students must inform the instructor, in writing and at least 14 days before the beginning of the final exam period, that a clustered examination situation exists with respect to that instructor’s course and that the student will need to take the final examination as a special administration. If a student fails to inform the instructor, in writing and at least 14 days before the beginning of the final exam period, the instructor is not required to provide a special administration of the final examination.

Once a student has taken an examination, he or she cannot request a reexamination on the basis of this policy.

1340 Classification of Students and Courses

1340.10 Class Standing

Students are classified on the basis of earned semester hours of academic credit as follows:

<table>
<thead>
<tr>
<th>Student Status</th>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>fewer than 30</td>
</tr>
<tr>
<td>Sophomore</td>
<td>30 or more, but fewer than 60</td>
</tr>
<tr>
<td>Junior</td>
<td>60 or more, but fewer than 90</td>
</tr>
<tr>
<td>Senior</td>
<td>90 or more</td>
</tr>
</tbody>
</table>

The classification under which a student registers at the beginning of any semester will continue through that semester.

1340.20 Change of Catalog Edition

Students must normally satisfy the degree requirements of the catalog in effect at the time they enter Georgia State University. However, in some circumstances, revisions may be required to provide more effective programs. The term “degree requirements” refers to the courses and grades required to earn the degree. Changes in academic regulations affect all students, regardless of the catalog edition; examples include the scholastic discipline policy, procedures for removing incomplete grades, and appeals procedures.

There are several instances when a student will be required to change catalog editions and satisfy the curricular degree requirements of the catalog in effect at the time he or she:
1. Officially changes colleges within the university;
2. Officially changes majors within a college;
3. Officially changes from postbaccalaureate status to any degree-seeking status;
4. Reenters the university after a period of two or more consecutive years during which time he or she did not earn academic credit at Georgia State;
5. Reenrolls at Georgia State after attending another institution as a transient student with the intention of transferring credits earned at the other institution to Georgia State without having received written authorization in advance from his or her college. This regulation applies to any length of absence from the university. In such cases, students are considered to be transfer students;
6. Reenrolls at Georgia State after attending another institution as a transfer student. This regulation applies to any length of absence from the university; and
7. Has not graduated by the time his or her catalog edition is ten years old.

Students may choose to satisfy the degree requirements of a later catalog, but, if they choose to do this, they must meet all the requirements of the later catalog. Degree requirements of more than one catalog edition cannot be combined. Students who choose to satisfy requirements of a later catalog must notify the Student Advisement Center or the Office of Academic Assistance of their college.

1340.30 Declaration of Major

Students are encouraged to declare a major as early as possible. This is especially true for students considering a major in Biology, Chemistry, Computer Science, Geology, Mathematics, Physics, Science and Math Education, Nursing, Nutrition, or Respiratory Therapy. Math and science core requirements are different for these majors. Students must declare a degree and major before they earn 42 semester hours. Students undeclared with 42 hours will have a hold placed on their registration until they officially declare a degree and major in their academic advisement office. Students who transfer to Georgia State University with more than 42 hours must declare a degree and major before registering for their second semester.

1340.35 Change of Major and College

Students may request to change majors within one college at Georgia State University or change to another college. If the request is approved, students will transfer their academic standings (good, warning, supervision, or probation). Some programs have special requirements for admission, so students should contact the Student Advisement Center or the Office of Academic Assistance of the desired college to determine if special criteria apply.

To request a change of major or college, students should contact the Student Advisement Center or the Office of Academic Assistance of the college in which they are currently enrolled. Students who change majors or colleges will be required to satisfy the degree requirements in effect at the time the change is officially recorded.

1340.40 Dual Degrees

Dual degrees are earned when a student satisfies all requirements for two baccalaureate degrees within one or more colleges of Georgia State University. The minimum residence requirement of 39 semester hours at Georgia State University in courses numbered 3000 or above must be met for the first degree. If the second degree is completed concurrently with the first degree, or within five calendar years of the first degree, this requirement shall be deemed to have been satisfied for both degrees. A student may earn the Bachelor of Business Administration degree only one time.

After five years from the date of the award of the first degree, credit that has been used to satisfy the university’s academic residence requirement for this degree cannot be applied toward the university’s minimum academic residence requirement for the second degree. Regardless of when the second degree is completed, both degrees require that at least one-half of the courses comprising the major or 11 semester hours in the major, whichever is less, must be taken at Georgia State.

Students who wish to earn dual degrees should consult with the Student Advisement Center or the Office of Academic Assistance of their current college and, if the second degree is offered by another college of this university, with the Office of Academic Assistance of the relevant college for information on procedures to follow.

1340.50 Double Major

A double major consists of two separate majors in the same baccalaureate degree, regardless of the college or colleges in which that degree is awarded. A double major is earned when the student completes all requirements for each of the majors and all requirements for the degree. The requirements for both majors must be completed before the degree is awarded.

Students who wish to pursue a double major, one of which is in the College of Arts and Sciences, are not required to complete a minor, but must still complete the College of Arts and Sciences program requirements.
Students who wish to earn double majors should consult with the Student Advisement Center or the Office of Academic Assistance of their current college and, if the second major is offered by another college in the university, with the Office of Academic Assistance of the relevant college for information on procedures to follow.

1350 The Grading System

1350.10 Grades

The following grades are used to specify level of performance in academic courses:

A: Excellent

B: Good

C: Average

Minimum grade required for certain courses, as specified elsewhere in this catalog.

D: Poor

A grade of D, while giving credit hours, will not apply toward the degree in courses requiring a grade of C or higher.

F: Failure

This grade indicates failure. No credit toward graduation is given for a course in which a grade of F was received.

WF: Withdrawal While Failing

This grade indicates failure. No credit toward graduation is given for a course in which a grade of WF was received. A WF and F are treated the same for GPA calculation purposes. WF indicates that the student

1. Voluntarily withdrew from a course before the midpoint of the grade period while doing failing work,
2. Was involuntarily withdrawn from a course before the midpoint of the grading period while doing failing work,
3. Voluntarily withdrew from a course after the midpoint of the grading period and was not awarded a hardship withdrawal, or
4. Was involuntarily withdrawn from a course after the midpoint of the grading period and was not awarded a hardship withdrawal.

(See “W: Withdrawal”, below, and Section 1332.)

The following grades are approved for use in the cases indicated but will not be included in the determination of a student’s cumulative grade point average:

W: Withdrawal

This symbol indicates that a student, doing passing work, was permitted to withdraw from the course without penalty. (See “WF: Withdrawal While Failing”, above, and Section 1332.)

I: Incomplete

The notation of I may be given to a student who for nonacademic reasons beyond his or her control is unable to meet the full requirements of a course. In order to qualify for an “I”, a student must:

1. Have completed most of the major assignments of the course (generally all but one); and
2. Be earning a passing grade in the course (aside from the assignments not completed) in the judgment of the instructor.

When a student has a nonacademic reason for not completing one or more of the assignments for a course, including examinations, and wishes to receive an incomplete for the course, it is the responsibility of the student to inform the instructor in person or in writing of the reason. A grade of incomplete is awarded at the discretion of the instructor and is not the prerogative of the student. Conditions to be met for removing a grade of incomplete are established by the instructor. Registering in a subsequent semester for a course in which a grade of incomplete has been received will not remove the grade of incomplete. (See Section 1350.30, paragraph 2.) No student may graduate with an “I” on his or her record.

IP: In Progress
This symbol indicates that credit has not been given in courses that require a continuation of work beyond the term for which the student registered for the course. The use of this symbol is approved for dissertation, thesis, and project courses (such as student teaching, clinical practice, and internships). The IP notation may be replaced with an appropriate grade by the instructor. This symbol cannot be substituted for an “I.”

This grade is used in the Learning Support Program (LSP) to indicate that a student has demonstrated academic growth in the course; however, the level of achievement is not sufficient to meet all of the course requirements. In LSP, the grade of IP is a permanent grade and does not meet the minimum exit criteria for any course in the program.

S: Satisfactory
This symbol indicates that credit has been given for completion of degree requirements other than academic course work. The use of this symbol is approved for dissertation and thesis hours, student teaching, clinical practicum, internship, and proficiency requirements in graduate programs. This symbol is also used in a Regents’ Test Preparation Course when the Regents’ Test was passed.

U: Unsatisfactory
This symbol indicates unsatisfactory performance in an attempt to complete degree requirements other than academic course work. No credit will be given. The use of this symbol is approved for dissertation and thesis hours, student teaching, clinical practicum, internship, and proficiency requirements in graduate programs. This symbol is also used in a Regents’ Test Preparation Course when the Regents’ Test was not passed.

V: Audit
This notation is used when a student has audited a course. Students do not earn academic credit for such courses. See Section 1330.25.

K: Credit-by-examination
This symbol indicates that a student was given credit for a course based on successful performance on an examination approved for this purpose.

NR: Not Reported
This symbol indicates that a student’s grade was not reported to the Registrar’s Office by the deadline for reporting grades for the term as published in the on-line Registration Guide. The grade will be updated as soon as the instructor reports the grade.

GP: Grade Pending
This symbol indicates a grade will be assigned pending the outcome of an academic honesty case. See Section 1380.

1350.20 Cumulative Grade Point Average
The cumulative grade point average is calculated by dividing all hours carried at Georgia State University into total quality points earned. Quality points are calculated by multiplying hours earned for each course by the numerical value of the grade earned. (See the following table for numerical equivalents of letter grades.) Grade point averages are rounded to the hundredth place. For example, 2.676 is rounded to 2.68.

All attempts at all academic courses taken on either the undergraduate or graduate levels are included in these calculations of total number of grade points earned and the total number of semester hours attempted. Credits earned in other institutions, credit by examination, credits which carry S/U grades, CLEP credit, AP credit, institutional credit courses, and courses specifically excluded by university policy are not used in computing the cumulative grade point average.

The numerical equivalents (grade point) for academic letter grades are as follows:
The symbols I (Incomplete), IP (In Progress), W (Withdrawal), S (Satisfactory), U (Unsatisfactory), V (Audit), K (Credit-by-examination), and NR (Not Reported) do not have numerical equivalents and are not used in calculating grade point averages. The Department of Veterans Affairs defines the U and V as nonpunitive grades; however, veteran students should notify the veterans’ counselor immediately upon receiving a grade of U or V.

1350.30 Changes in Grade

A course grade that has been reported by the instructor to the Office of the Registrar and recorded cannot be changed except in the following circumstances:

1. Error in grade. If a student believes that there is an error in a grade, the student should discuss the situation with the instructor. A request for a change of grade assigned by an instructor who has left the university should be addressed to the chair of the department.

2. Removal of an Incomplete. A student receiving a grade of I (incomplete) is expected to consult with the instructor within the prescribed time limit and to complete all necessary work. The period of time given to a student to remove a grade of I is established by the instructor, subject only to the maximum time limit set by the university. The university requires that a grade of I be removed not later than the end of the second academic term after the grade of I was assigned (whether or not the student was enrolled during these two terms). The Office of the Registrar will assign a grade of F at the end of the second academic term unless the Office of the Registrar receives an approved grade adjustment form from the instructor. (If the student enrolled for S/U grading, a U will be assigned.) Using the grade adjustment form, instructors may or may not change this F/U to an any authorized academic grade (i.e., A, B, C, D, S or WF etc.) but may not change it back to an I.

Instructors may not change an I to a W unless a Hardship Withdrawal is awarded. In exceptional cases, departments may authorize students to have an I grade for more than two semesters. Such authorizations must be approved by the department chair. The authorization to extend the I beyond two semesters must be renewed each semester. Students need not be enrolled to complete assignments for a course in which a grade of I has been assigned. Auditing or retaking the same course will not remove a grade of I. No student may graduate with an incomplete grade.

1352 Academic Recognitions

1352.10 Semester Recognition

Faculty Scholar: Degree-seeking students with a minimum Georgia State University cumulative grade point average (GPA) of 2.00 who complete at least nine semester hours of academic credit in fall or spring term (or six semester hours in summer term) with no Incompletes for the semester and who earn a 4.00 GPA shall be named Faculty Scholars for the semester.

Dean’s List: Degree-seeking students with a minimum Georgia cumulative grade point average (GPA) of 2.00 who complete at least nine semester hours of academic credit in fall or spring term (or six semester hours in summer term) with no Incompletes for the semester and who earn a GPA of at least 3.50 shall be placed on the appropriate Dean’s List for the semester.

1352.20 Cumulative Recognition

Dean’s Scholarship Key: Degree-seeking students shall be awarded the Dean’s Scholarship Key for outstanding academic achievement at four milestones in their course work at Georgia State University. To be eligible to receive this recognition, a student must not have any outstanding grades of Incomplete on his or her record and must meet the following minimum grade point average requirements for the four 30-semester-hour blocks of course work:

<table>
<thead>
<tr>
<th>Hours</th>
<th>GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>30 semester</td>
<td>4.00</td>
</tr>
<tr>
<td>60 semester</td>
<td>3.80</td>
</tr>
<tr>
<td>90 semester</td>
<td>3.65</td>
</tr>
<tr>
<td>120 semester</td>
<td>3.50</td>
</tr>
</tbody>
</table>

Faculty Scholarship Award: To acknowledge a continuous and long-term commitment to academic excellence, the Faculty Scholarship Award is given to those students who maintain a 4.0 grade point average in the course of accruing a minimum of 36
semester hours with no incompletes over a period of no more than four consecutive semesters in residence at Georgia State and within a period of 36 months.

1352.30 Honors Program Recognitions

All honors recognitions require participation in two honors colloquia or forums. Grade point average and distribution requirements apply. See the “Honors Program” section in the “College of Arts and Sciences” chapter of this catalog or contact the Honors Program Office, http://www.gsu.edu/honors, for further details.

General Honors recognize successful completion of honors studies at the lower-division level in general (liberal arts) course work. Students must complete 25 semester hours in lower-division honors classes in at least three areas.

Advanced Honors recognize honors achievement at the upper-division level and reflect commitment to excellence in the major or allied field. Students must complete 20 semester hours of upper-division honors course work.

Research Honors recognize pursuit of excellence at the upper-division level by completion of independent study and research, thereby encouraging students to learn methods of inquiry within a discipline. Students complete ten semester hours of a research project and thesis plus ten additional semester hours of upper-division honors course work.

Honors Program Alumni Association Scholarship: These scholarships are awarded each year to students enrolled in the Honors Program of the university who have completed at least two honors courses prior to their application. Funded by the Alumni Association, the awards are based on scholarly performance and academic excellence. Information about these awards is available in the Honors Program Office.

1360 Academic Support

1360.10 Scholastic Discipline

There are four levels of scholastic discipline for students: warning, supervision, probation, and exclusion. A student who is eligible to enroll in courses is in good standing.

Students are placed on warning when their cumulative Georgia State University GPA is below 2.0 and they were not on supervision or probation the previous semester in attendance.

Students are placed on supervision when their cumulative Georgia State GPA is below 2.0 and they were on warning the previous semester in attendance. However, students on warning who attempt 6 or more semester hours and earn a Georgia State term GPA of 2.3 or better will remain on warning.

Students are placed on probation when their cumulative Georgia State GPA is below 2.0 and they were on supervision the previous semester in attendance. However, students on warning who attempt 6 or more semester hours and earn a Georgia State term GPA of 2.3 or better will remain on supervision.

Students are placed on exclusion when their cumulative Georgia State GPA is below 2.0 and they were on probation the previous semester in attendance. However, students on supervision who attempt 6 or more semester hours and earn a Georgia State term GPA of 2.3 or better will remain on probation.

Students on supervision or probation may be allowed to enroll with specific restrictions (see Section 1360.20). Students on exclusion are not eligible to enroll in any undergraduate program or under any status at Georgia State. No transfer credit will be accepted for courses taken at other institutions while on probation or exclusion.

Students on warning, supervision, or probation should refer to Section 1360.20 and consult with an adviser in the Student Advisement Center for additional information about scholastic discipline.

1360.20 Academic Improvement Program (AIP)

The Academic Improvement Program (AIP) is intended to assist students in extricating themselves from scholastic discipline and to meet the graduation requirement of a cumulative Georgia State University GPA of 2.0 or higher. The elements of AIP are registration approvals by an adviser, course load limits, and survival skills instruction. For further information about the AIP, please contact the Student Advisement Center at http://www.gsu.edu/advisement.

Students on warning may register for no more than 13 semester hours. They are not required to meet with an academic adviser though encouraged to do so as necessary for help selecting courses, understanding degree requirements and academic regulations, and developing strategies for returning to a 2.0 cumulative GPA.

Students on supervision are required to participate in AIP as follows: (a) have their registration approved by an academic adviser; (b) register for no more than 13 semester hours; (c) and take any other steps required by the academic adviser (e.g., seeing their major adviser, participating in an assessment by the Counseling Center, seeking the assistance of the Writing Center, etc.). In addition, students on supervision may be required to take GSU 1050, Survival Skills for College.

Students on supervision for a second or subsequent semester must continue to participate in AIP until their cumulative Georgia State GPA is 2.0 or higher.
A college may, at its option, require students on probation not to enroll at Georgia State for one semester. If students on probation are allowed to enroll, they are required to participate in AIP as follows: (a) have their registration approved by an academic adviser; (b) register for no more than 13 semester hours; and (c) take any other steps required by the academic adviser (e.g., seeing their major adviser, participating in an assessment by the Counseling Center, seeking the assistance of the Writing Studio, etc.). In addition, students on probation may be required to take GSU 1050, Survival Skills for College. Students enrolling while on probation must continue to participate in AIP until their cumulative Georgia State GPA is 2.0 or higher.

GSU 1050 may be taken only once and does not count toward credit hour requirements for graduation. Credit hours enrolled in GSU 1050 count toward the 13-semester hour course load limit for students participating in AIP. Grades received for GSU 1050 are used to calculate the cumulative GPA and the term GPA.

Students on exclusion are not eligible to enroll in any undergraduate program or under any status at Georgia State and may not participate in AIP.

Appeals for exemption from some or all of the requirements of AIP should be submitted to the director of the Student Advisement Center. Appeals of decisions by the director of the Student Advisement Center may be filed in accordance with the procedure for petition of university regulations. Information about AIP and appeals of AIP requirements is available from the Student Advisement Center.

1360.30 Academic Renewal

Under certain conditions, Georgia State University allows its former undergraduate students to apply for academic renewal. This provision is intended to allow Georgia State degree-seeking students who have experienced academic difficulty to make a fresh start and to give them a final opportunity to earn a bachelor’s degree. It can apply to individuals on scholastic exclusion. These are the provisions of academic renewal:

Eligibility for Academic Renewal
1. A minimum of five calendar years must have passed since last enrollment at Georgia State University.
2. Former Department of Academic Foundations (formerly Division of Learning Support Programs and Developmental Studies) students may apply for academic renewal only if they completed all learning support programs requirements prior to the five-year absence.
3. A student can be granted academic renewal only one time.
4. A student who was excluded from Georgia State and has attended another college or university during the absence from Georgia State is not eligible for academic renewal.
5. A student who was not excluded from Georgia State but attended another college or university during an absence of five or more years may choose one of these options but not both:
   a. Return to Georgia State as a transfer student, subject to all relevant transfer and reentry policies. The student will not be eligible for academic renewal but transfer credit will be granted for applicable courses taken during the absence and previously earned Georgia State credit is retained.
   b. Apply for academic renewal. If academic renewal is approved, no transfer credit will be granted for coursework completed during the absence.

Effects of Academic Renewal
1. A cumulative GPA that reflects all attempts at all courses taken at Georgia State continues to be recorded on the student’s official transcript. A new renewal GPA is begun when the student has been approved for academic renewal and is also recorded on the student’s official transcript. The renewal GPA will be used for determining academic standing and eligibility for graduation.
2. Academic credit for previously completed course work including transfer course work will be retained only for courses in which an A, B or C grade has been earned.
3. The grades in Georgia State academic credit that is not retained are not calculated in the institutional GPA. This credit, therefore, is placed in the same category as transfer credit, credit by examination, and courses with grades of S.
4. Courses for which academic credit is not retained (those with grades of D or lower) must be repeated at Georgia State if they are required in the student’s degree program. All remaining degree requirements must be completed at Georgia State, that is, no transient credit will be accepted.
5. Whether the retained academic credit is still applicable for degree credit will depend on the degree requirements currently in effect at the time the student returns to Georgia State and on specific program regulations.
6. All courses taken at Georgia State remain on the student’s official Georgia State transcript. At the time academic renewal is approved, this approval is noted on the student’s transcript. Any Georgia State course work for which credit can be retained is listed below the academic renewal notation.
7. Reentry into a program that has specific admission requirements is not automatic. Academic renewal students who wish admission to such a program must apply directly to the program.
8. Students must meet the academic residence requirement (see section 1430) using only course credit earned after academic renewal.

9. To be eligible for honors at graduation, students must earn at least 60 hours of credit after academic renewal.

Applying for Academic Renewal

1. To apply for academic renewal, the student must obtain approval both from the Office of the Registrar and from the Student Advisement Center.
   a. File an application for reentry to the university with the Office of the Registrar at 227 Sparks Hall, http://www.gsu.edu/registrar.
   b. File an application for academic renewal with the Student Advisement Center. The deadlines for applying for academic renewal in order to enroll for a semester are:

<table>
<thead>
<tr>
<th>To return in</th>
<th>Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall</td>
<td>July 15</td>
</tr>
<tr>
<td>Spring</td>
<td>October 15</td>
</tr>
<tr>
<td>Summer</td>
<td>April 1</td>
</tr>
</tbody>
</table>

   Additional instructions about the procedure for applying for academic renewal are provided on the application form.

2. If a student does not apply for academic renewal at the time of enrollment, it can be requested after reenrollment if the application is filed within one calendar year.

3. A student whose application for academic renewal is not approved will be notified by letter from the Student Advisement Center. Unless specific information to the contrary is given in the letter, the student may reapply for academic renewal after one year has passed.

4. Evaluation of a student’s application for academic renewal will be based on the student’s:
   a. Previous academic record;
   b. Previous student discipline record; and
   c. Current commitment to academic work.

1380 Academic Honesty

I. Introduction

As members of the academic community, students are expected to recognize and uphold standards of intellectual and academic integrity. The university assumes as a basic and minimum standard of conduct in academic matters that students be honest and that they submit for credit only the products of their own efforts. Both the ideals of scholarship and the need for fairness require that all dishonest work be rejected as a basis for academic credit. They also require that students refrain from any and all forms of dishonorable or unethical conduct related to their academic work.

The university’s policy on academic honesty is published in the Faculty Affairs Handbook and On Campus: The Student Handbook and is available to all members of the university community. The policy represents a core value of the university and all members of the university community are responsible for abiding by its tenets. Lack of knowledge of this policy is not an acceptable defense to any charge of academic dishonesty. All members of the academic community — students, faculty, and staff — are expected to report violations of these standards of academic conduct to the appropriate authorities. The procedures for such reporting are on file in the offices of the deans of each college, the office of the dean of students, and the office of the provost.

In an effort to foster an environment of academic integrity and to prevent academic dishonesty, students are expected to discuss with faculty the expectations regarding course assignments and standards of conduct. Students are encouraged to discuss freely with faculty, academic advisers, and other members of the university community any questions pertaining to the provisions of this policy. In addition, students are encouraged to avail themselves of programs in establishing personal standards and ethics offered through the university’s Counseling Center.

II. Definitions and Examples

The examples and definitions given below are intended to clarify the standards by which academic honesty and academically honorable conduct are to be judged. The list is merely illustrative of the kinds of infractions that may occur, and it is not intended to be exhaustive. Moreover, the definitions and examples suggest conditions under which unacceptable behavior of the indicated types normally occurs; however, there may be unusual cases that fall outside these conditions that also will be judged unacceptable by the academic community.

Plagiarism: Plagiarism is presenting another person’s work as one’s own. Plagiarism includes any paraphrasing or summarizing of the works of another person without acknowledgment, including the submitting of another student’s work as
one’s own. Plagiarism frequently involves a failure to acknowledge in the text, notes, or footnotes the quotation of the paragraphs, sentences, or even a few phrases written or spoken by someone else. The submission of research or completed papers or projects by someone else is plagiarism, as is the unacknowledged use of research sources gathered by someone else when that use is specifically forbidden by the faculty member. Failure to indicate the extent and nature of one’s reliance on other sources is also a form of plagiarism. Any work, in whole or in part, taken from the Internet or other computer-based resource without properly referencing the source (for example, the URL) is considered plagiarism. A complete reference is required in order that all parties may locate and view the original source. Finally, there may be forms of plagiarism that are unique to an individual discipline or course, examples of which should be provided in advance by the faculty member. The student is responsible for understanding the legitimate use of sources, the appropriate ways of acknowledging academic, scholarly, or creative indebtedness, and the consequences of violating this responsibility.

Cheating on Examinations: Cheating on examinations involves giving or receiving unauthorized help before, during, or after an examination. Examples of unauthorized help include the use of notes, computer-based resources, texts, or “crib sheets” during an examination (unless specifically approved by the faculty member), or sharing information with another student during an examination (unless specifically approved by the faculty member). Other examples include intentionally allowing another student to view one’s own examination and collaboration before or after an examination if such collaboration is specifically forbidden by the faculty member.

Unauthorized Collaboration: Submission for academic credit of a work product, or a part thereof, represented as its being one’s own effort, which has been developed in substantial collaboration with another person or source or with a computer-based resource is a violation of academic honesty. It is also a violation of academic honesty knowingly to provide such assistance. Collaborative work specifically authorized by a faculty member is allowed.

Falsification: It is a violation of academic honesty to misrepresent material or fabricate information in an academic exercise, assignment, or proceeding (e.g., false or misleading citation of sources, the falsification of the results of experiments or of computer data, false or misleading information in an academic context in order to gain an unfair advantage).

Multiple Submissions: It is a violation of academic honesty to submit substantial portions of the same work for credit more than once without the explicit consent of the faculty member(s) to whom the material is submitted for additional credit. In cases in which there is a natural development of research or knowledge in a sequence of courses, use of prior work may be desirable, even required; however, the student is responsible for indicating in writing, as a part of such use, that the current work submitted for credit is cumulative in nature.

III. Evidence and Burden of Proof

In determining whether or not academic dishonesty has occurred, the standard that should be used is that guilt must be proven by a preponderance of the evidence. This means that if the evidence indicating that academic dishonesty occurred produces a stronger impression and is more convincing as to its truth when weighed against opposing evidence, then academic dishonesty has been proved. In other words, the evidence does not have to be enough to free the mind from a reasonable doubt but must be sufficient to incline a reasonable and impartial mind to one side of the issue rather than to the other. Evidence as used in this statement can be any observation, admission, statement, or document that would either directly or circumstantially indicate that academic dishonesty has occurred.

IV. Procedures for Resolving Matters of Academic Dishonesty

The following procedure is the only approved means for resolving matters of academic dishonesty, except for matters arising in the College of Law which has its own Honor Code for handling such matters. It is available to all members of the academic community who wish to pursue an action against a student for academic dishonesty.

1. Initiation: If a member of the academic community believes that a student has engaged in academic dishonesty in a course, on a test, or as a part of an academic program, that individual is responsible for initiating action against the student or bringing the matter to the attention of an individual who may initiate action against the student. In allegations of academic dishonesty involving course requirements, the course faculty member is generally responsible for initiating the action. If the alleged violation involves a departmental program requirement (e.g., comprehensive examination or language competency examination) or an institutionally-required test (e.g., test of Georgia/United States history or Georgia/United States constitutions), or if the individual who discovers the incident is not a faculty member, the individual should bring the matter to the attention of the faculty member and administrator who has responsibility of overseeing the activity (e.g., departmental chair, director of the Testing Office). If that administrator decides to bring charges of academic dishonesty against the student, then that administrator becomes the initiator. (Test proctors, laboratory assistants, and other individuals who are not course faculty members should bring any instances of alleged academic dishonesty to the attention of the course faculty member or their administrative superior. That individual, after weighing the evidence, may become the initiator by formally charging the student with academic dishonesty.) The channel of review, recommendation, and decision-making follows the administrative lines associated with the course or program requirement involved. In any instance, however, when the alleged incident does not occur within the context of a course and when it is unclear which college of more than one college involved should have jurisdiction in review and decision-making, either unit may initiate the case. For the sake of brevity the following processing
procedures are written from an “academic unit/college” perspective. Nonacademic units (i.e., Testing Center) would substitute appropriate supervisory personnel at the respective levels. Herein the “initiator” will be referred to as “faculty member” and the “administrative unit head” will be referred to as “chair,” designating the departmental chair. “Dean” will refer to appropriate administrative supervisory personnel at the overall college or division level. While the matter of academic dishonesty is pending, the student will be allowed to continue in the course and register for upcoming semesters. Should a grade be due to the registrar before the matter is resolved, a grade of GP (grade pending) will be reported for the student in the course involved. Withdrawal from a course does not preclude the imposition of penalties for academic dishonesty.

2. Penalties to be Imposed: Penalties to be imposed in incidents of academic dishonesty are classified as “academic” or “disciplinary.” Academic penalties include such sanctions as assignment of a failing grade for a particular course requirement, or for the course itself, or for other tests or program assignments. Academic penalties are set by the faculty member. Disciplinary sanctions can be sought in addition to those considered academic and could include, but are not limited to, the following penalties: suspension, expulsion, transcript annotations. Disciplinary penalties can be requested by the faculty member in consultation with the department chair or director, must be reviewed by the University Senate Committee on Student Discipline, and are set by the provost.

3. Action at Administrative Unit (Department Level): As soon as possible after the alleged incident, the faculty member should discuss the matter with the student. This discussion should be conducted in a manner that protects the rights and confidentiality of students. If the faculty member believes that academic dishonesty has occurred, the faculty member (with the advice of the chair if necessary) will determine the appropriate academic penalty. The faculty member will complete a “notice of academic dishonesty” form describing the incident and indicating the academic penalty imposed. Any recommendation for a disciplinary penalty must be reviewed in consultation with the chair. The faculty member will deliver to the student the notice of academic dishonesty that includes a statement of appeal rights. If there is difficulty in delivering the notice to the student, the faculty member/chair should request assistance from the college dean in determining the most expeditious way to inform the student that a notice of academic dishonesty has been filed.

Once the student has been informed, the chair forwards the documentation, including the notice of academic dishonesty and an indication of when the student was informed, to the dean to be held pending possible appeal. Until the student has been given the opportunity to appeal, a grade of GP (grade pending) should be submitted for the student for the course involved.

4. Student Action: The student will have 20 business days after receipt of the notice of charges of academic dishonesty to submit a written appeal denying the charges and providing any rationale for the appeal. The appeal should be addressed to the college dean of the initiator. In the event the student is found guilty of academic dishonesty, the student does not have the right to appeal the academic penalty assessed by the faculty member, unless the student can prove that such penalty was arbitrarily imposed or discriminatorily applied. If the student wishes to challenge a disciplinary penalty, the student must submit a written rationale for challenging the disciplinary penalty within 20 business days of receipt of the notice of charges of academic dishonesty. The statement of challenge should be addressed to the college dean. The college dean will forward the challenge to the dean of students for inclusion in the review of the disciplinary penalty by the University Senate Committee on Student Discipline. The University Senate Committee on Student Discipline automatically reviews all disciplinary penalties regardless of student appeal.

If the student has also filed an appeal denying the charges of academic dishonesty, any review of disciplinary penalty recommended will be delayed pending review of the charges of academic dishonesty by the college hearing committee.

5. College Action:

5.1. No Appeal by the Student: If the student does not submit a written appeal to the college dean within 20 business days, the dean will notify the chair/faculty member to post any pending grade(s) immediately. The dean will then forward the notice of academic dishonesty to the dean of students for inclusion in the student’s disciplinary file. The Senate Committee on Student Discipline also will forward any recommendation of a disciplinary penalty to the dean of students for appropriate review.

5.2. Appeal by the Student: If the student submits a written appeal within 20 business days, the dean will notify the registrar to issue a grade of GP (grade pending) for the course(s) in question on all transcript requests for the student pending outcome of the appeal. The dean will forward the charges of academic dishonesty to the chair of a college hearing committee and will notify the faculty member to set forth in writing a comprehensive statement describing the incident of academic dishonesty. This statement will be presented to the committee and to the student at least five business days prior to the hearing.

5.3. Student Hearing Committee Process: The college student hearing committee will use the following guidelines to govern the hearing of the appeal:

a. Within ten business days after the committee receives the charges of academic dishonesty, a hearing date will be determined. The committee will notify the faculty member and the student of the time, date, and the place of the hearing. Copies of all charges of academic dishonesty and related materials for the hearing will be provided to the student at least five business days in advance of the hearing.

b. The faculty member and the student will be allowed to make oral presentations, call witnesses, and present any documentary evidence regarding the incident in question. The hearing will be recorded on an audiotape. The hearing will not be open to observers.
At the conclusion of the hearing, the committee will meet in closed session and will make its recommendation as to the guilt or innocence of the student based on a preponderance of evidence with respect to the charge of academic dishonesty. The committee chair will forward to the college dean its findings and recommendations in a written report within five business days of the hearing.

5.4. College Decision on Appeals: Within five business days of receiving the committee’s written report, the college dean will make the final decision regarding guilt or innocence. The dean will notify all appropriate parties of the decision. If the dean finds the student “not guilty,” the matter will be terminated, and no notice of charges will be filed with the dean of students. The dean will notify the chair to post the pending course grade promptly and will notify the registrar to remove the GP (grade pending) on the student’s transcript. If the dean finds the student “guilty,” the notice of charges of academic dishonesty will be forwarded to the dean of students for inclusion in the student’s disciplinary file. The academic penalty stipulated by the faculty member will be imposed. The dean will notify the chair to insure that any pending grade is posted promptly. The dean will notify the registrar to remove the GP (grade pending) on the student’s transcript if only an academic penalty was involved. If a disciplinary penalty has been recommended, the dean will notify the registrar to continue the GP (grade pending) annotation until the disciplinary penalty can be reviewed by the University Senate Committee on Student Discipline.

5.5. Appeal of the Decision of the Dean: If the student or initiator wishes to appeal the decision of the college dean regarding guilt or innocence of the charges of academic dishonesty, the student or initiator may appeal to the provost. The subsequent appeal route would be to the president and then the Board of Regents. The student or initiator must submit a written statement of appeal to the provost within 20 business days of notification of the dean’s decision. The basis of the appeal must be on the grounds that the decision was arbitrary, capricious, or discriminatory.

6. University Senate Committee on Student Discipline Action: In cases where a disciplinary penalty has been recommended, the Senate Committee on Student Discipline will conduct a hearing to review the disciplinary penalty. The committee will review the faculty member’s notice of academic dishonesty and the student’s statement of challenge of the disciplinary penalty, if any. The faculty member and the student will be allowed to appear at the hearing to discuss the imposition of disciplinary penalties. Only the recommendation concerning the disciplinary penalty to be imposed will be considered by this committee. Issues of guilt or innocence are determined at the college level (see above). The Senate Committee will conduct the hearing in accordance with its regular hearing procedures. Copies of these procedures may be obtained from the Provost’s Office and/or the Dean of Students. The Senate Committee on Student Discipline will provide its recommendation within five business days of its hearing to the provost regarding appropriateness of the disciplinary penalty recommended by the college and/or whether other disciplinary penalties are to be imposed in addition to or in lieu of those already recommended by the college.

7. Provost Action:

7.1. Decision of the Provost: The role of the provost in handling student appeals regarding the charge of academic honesty has been explained (see above). Based on the recommendation, the provost will render a decision within ten business days of receipt of the recommendation of the Senate Committee. The provost will notify the student, the referring dean, the department chair, and the faculty member of the Senate Committee’s recommendations and of the provost’s decision. At that time the provost will also notify the registrar to annotate the student’s transcript, if necessary.

7.2. Appeal of the Decision of the Provost: If the student wishes to appeal the decision of the provost regarding the imposition of a disciplinary penalty, the student may appeal to the president and then to the Board of Regents. The student must submit a written statement of appeal to the president within 20 business days of notification of the provost’s decision. The basis for such an appeal must be on the grounds that the decision was arbitrary, capricious, or discriminatory.

8. Students Involved in Two or More Incidents of Academic Dishonesty: A student is subject to disciplinary action in addition to any already undertaken once it is determined that the student has been found guilty in a previous incident of academic dishonesty. In such cases, the dean of students will forward a report to the University Senate Committee on Student Discipline regarding the incidents of academic dishonesty that have been reported. The dean of students is responsible for initiating this report within 20 business days of completion of proceeding of any subsequent finding of academic dishonesty. The University Senate Committee on Student Discipline will review the report of the dean of students. The student may submit supplemental written documents for the committee’s review and may request to appear before the committee in its deliberations. After reviewing the matter, the committee will send a report to the provost with the recommendation for disciplinary penalty to be imposed. The provost will proceed as in IV.7. of this policy.

Once the student has been informed, the chair forwards the documentation, including the notice of academic dishonesty and an indication of when the student was informed, to the dean to be held pending possible appeal. Until the student has been given the opportunity to appeal, a grade of GP (grade pending) should be submitted for the student for the course involved.

1382 Access to Student Records (FERPA)

Georgia State University is covered by the Family Educational Rights and Privacy Act of 1974 (FERPA), as amended, which is designed to protect your rights with regard to education records maintained by the institution. Under the Act, you have the following rights:
1. The right to inspect and review education records maintained by the institution that pertain to you;
2. The right to challenge the content of records (except grades which can only be challenged through the academic appeal procedure) on the ground that they are inaccurate, misleading, or a violation of your privacy or other rights; and
3. The right to control disclosures from your education records with certain exceptions.

Directory information will be treated as public information and be generally available on all students and former students, at the discretion of the university. Directory information includes the student’s name; address; telephone number; e-mail address; date and place of birth; major field of study; full-time or part-time status; participation in officially recognized activities and sports; height, weight, age, hometown, hobbies and general interest status of members of athletic teams; dates of attendance; degrees applied for or received; honors and awards received; and previous educational institutions attended by the student.

Any student, or parent if a student is under 18, may refuse to permit the release of directory information by submitting a written request to the university’s registrar within ten days of the beginning of fall semester. This time requirement is necessary to ensure that directory information that is desired to be withheld is not included in the various university publications during the year. Of course, requests to withhold the release of directory information will be honored at any time, but the university cannot be reasonably certain that some directory information will not be released if the aforementioned time limits are not met. The Student Directory is usually published during the spring semester using the fall semester student database; obviously, requests received after press time cannot delete information from this and similar publications, and previously released information cannot be recalled. To file a request for suppression of directory information, a student should fill out a Suppress Directory Information Form, available at [http://www.gsu.edu/registrar](http://www.gsu.edu/registrar), and turn it in to the Office of the Registrar.

Inquiries about students or former students should be directed to the Registrar.

Georgia State’s written policy on “Access to Student Records” complies with the provisions of the Act. A copy of this policy and a copy of a summary of the FERPA regulations may be obtained in the Office of the Registrar. Students also have the right to file complaints with the Family Policy Compliance Office, U.S. Department of Education, 600 Independence Avenue, Washington, D.C. 20202-4605, regarding alleged violations of the Act.

1384 Student Petitions

Georgia State University seeks to maintain the highest standards of integrity and fairness in its relationships with students. Students are expected to know and follow the policies and procedures of the institution (as written in the General Catalog and the Student Code of Conduct). They may, however, seek relief when they believe that the application of these policies and procedures will create undue hardship for them or will not recognize extraordinary or extenuating circumstances affecting them. Such petitions will generally not be granted when doing so would set aside the academic standards of the institution.

I. Applicability: These procedures apply to petitions brought by students of Georgia State University.
   A. Applicants to the university are not considered students. Thus, this process is not open to applicants. Concerns related to admission, however, may be addressed directly to the responsible office, either the Office of Admissions for undergraduate students or the college graduate office for graduate students.
   B. These procedures do not apply to students in the College of Law, which has its own petition procedures.
   C. Once a degree has been received, any petition related to that degree program must be initiated within the next six months of the date of graduation.

II. Definitions:
   A. Petition: A request by or on behalf of a student for a waiver or variance of an established policy, procedure, rule, or guideline.
   B. Petitioner: Student who brings a petition; or the student on whose behalf a petition is brought.
   C. Petition Decision Maker: Individual or committee designated to make decisions regarding petitions (see list of decision makers for various types of petitions immediately following this section).
      1. Some policies, procedures, rules, or guidelines are under the purview of a college; others are established by the university, and others are governed by the Board of Regents of the University System of Georgia. Petitions of college rules are filed with the college that established the rule. Petitions of university rules or Board of Regents rules are filed through the Office of the Registrar.
         a. Policies and procedures of the Board of Regents, however, which pertain only to students in one college or unit will be handled as though they were college rules, and the process for handling such petitions shall be published in college/unit documents.
         b. Petitions related to the Regents’ Test, the College Preparatory Curriculum, and the Academic Improvement Program are handled through the Student Advisement Center as though they were “college” rules of that academic unit.
      2. In the case of college and university rules, the authority for making such decisions rests with the faculty.
         a. The faculty of a college may designate a committee to rule on petitions of college rules or may delegate the authority to the dean of the college who may designate an individual to make decisions for him or her. The faculty may delegate
some decision-making authority to the dean or designee and reserve others for a faculty committee. College procedures or bylaws must specify how the “petition decision maker” is determined.

b. For petitions of university rules and Board of Regents’ rules (with the exceptions noted in C.1.a. and C.1.b.), the University Senate Admissions and Standards Committee represents the university faculty in determining the appropriate petition decision-making entity. It may delegate petition decision authority to the Office of the Provost and retain other authority for itself.

D. Appeal: A request by a petitioner that a decision on a petition be reviewed through administrative channels.

1. Such appeals will generally be decided “on the record” based on a review of the written materials. An appeal of a petition “on the record” means that the appeal will be decided only on the basis of a review of the written materials which comprised the original petition, subsequent written materials of the petition decision maker, and the petitioner’s written statement of appeal.

2. The purpose of the review is to decide if the original decision was flawed because it was made in an arbitrary, capricious, or discriminatory manner, or the decision maker did not follow established procedures.

E. Working Day: For the purpose of counting days for appeal deadlines, a working day is a weekday (Monday-Friday) on which classes or exams are scheduled in the college applicable to the petition, during any of the academic terms of the institution.

III. Point of Initiation of Student Petitions:

A. Petitions on matters under the authority of the colleges should be filed in the Office of Academic Assistance of the particular college. The following are examples of these matters:

For undergraduate and graduate students:

1. College registration prerequisites or restrictions
2. Course substitutions outside of core areas A through E
3. Teacher education issues
4. Transient course work
5. Policies on comprehensive examinations, recitals, portfolios, and similar evaluations
6. Changes in catalog editions
7. Academic residency requirements for a major program

For graduate students only:

1. Academic standing
2. Readmission from suspension or exclusion
3. Hours shortages
4. GPA for graduation
5. Transfer credit
6. Academic residency requirements
7. Extensions of time limit for completing degree.

B. Except as noted below, petitions on matters under the authority of the university should be filed in the Office of the Associate Provost, 404/651-1187. The following are examples of these matters:

For undergraduate students only:

- U.S. and Georgia history and constitution examinations
- Exceptions to academic renewal regulations
- Hours shortages

For undergraduate and graduate students:

- Withdrawal from classes with hardship status: (file in Office of the Dean of Students).
1400 University Degree Requirements and Graduation

A degree will be awarded only to a student who meets both the university requirements and the standards of performance, academic requirements, and residence requirements of their college and of their degree program. See below for a complete explanation of university requirements. Consult your college’s chapter of this catalog for your degree program’s requirements.

1410 Core Curriculum Requirements

Georgia State University requires all students seeking a baccalaureate degree to complete satisfactorily a basic core of general education subjects. The core curriculum includes 60 semester hours of course work. Georgia State’s core curriculum provides students with a broad background in general education and reflects the special mission of this university as an urban research institution with an international, multi-ethnic, and multi-cultural focus. Because of ongoing evaluation changes may occur in the core curriculum. Every attempt will be made to notify students when these changes occur.

Areas A through E of the core curriculum are designed to provide students with a wide array of courses as a means of gaining a basic education in the liberal arts and assisting students in their choice of a major. Students should normally choose among the courses in areas A to E and select a major before taking courses in Area F. Students who have chosen a major before the completion of Areas A through E can review the departmental sections of the catalog to see specific recommendations for course selection. Some programs, such as art, music and nursing, require students to begin major-related coursework in their freshman year to meet course sequencing requirements.

There are restricted choices for some majors in Areas A and D. Students must follow the degree-specific requirements listed in Areas A and D for the programs they are pursuing.

Students who are planning to transfer to Georgia State from other institutions in the University System of Georgia should note that this is Georgia State’s core curriculum and is to be followed by students who choose to complete the core curriculum at this university. The core curriculum at a student’s current University System of Georgia institution may contain different courses. However, Georgia State will grant credit for any approved core curriculum course taken at a student’s current University System of Georgia home institution even if it is different from the course offered at Georgia State. Students should also remember that they may have only one University System of Georgia home institution at a time. Students who have transferred to Georgia State must petition for permission to take core curriculum courses elsewhere after they have enrolled.

The core curriculum completed at one System institution is fully transferable to another System institution for the same major. However, specific situations may result in minor exceptions to this general rule. Students seeking credit for University System of Georgia core curriculum courses that were not accepted during Georgia State’s admissions process or who believe that the system rules of transferability of the core curriculum are not being honored can make an appeal to the Core Curriculum Transfer Ombudsperson, Dr. George Rainbolt, at grainbolt@gsu.edu. Appeals should be initiated by filling out a form available in the Student Advisement Center, 255 Sparks Hall.

1410.05 Regents’ Reading and Writing Requirements (6)

RGTR0198 Regents’ Reading Skills*
RGTE0199 Regents’ Writing Skills*

*Students may satisfy these requirements by passing the Regents’ Reading Test and the Regents’ Writing Test. Waivers based on SAT, ACT, AP and IB scores are possible. Students must register for RGTR 0198 and RGTE 0199 if they’ve earned 45 hours and have not passed both tests or have not satisfied both requirements by waiver. The tests are the final exams for the courses and must be passed to pass the courses. RGTR 0198 and RGTE 0199 do not count towards the 120 hours required for graduation. For details, see Section 1420.

1410.60 Area F: Preparation for a Major (18)

Courses in Area F, which constitute the remaining 18 semester hours in the core curriculum, may be found in the college sections on degree requirements. These listings should also be consulted to see if there are any courses recommended from among the offerings in areas A to E. Students seeking a B.S. in mathematics and secondary school teaching will be required to take an additional nine semester hours of introductory education courses above the general requirement of 18 semester hours.

1415 Area G & Beyond

Courses beyond the core curriculum that are required by the college and/or major department constitute the remaining course degree requirements and are comprised of courses related to a major, major requirements, courses in a minor or concentration, and electives. Consult the college chapters in this catalog for a full explanation of these requirements.
1420 Regents’ Reading and Writing Requirements

To demonstrate competence in reading and writing, the Board of Regents of the University System of Georgia requires that students pass RGTR 0198, Regents’ Reading Skills, and RGTE 0199, Regents’ Writing Skills. Students will demonstrate their competence in reading and writing by passing the Regents’ Reading Test and the Regents’ Writing Test. The Regents’ Reading Test and the Regents’ Writing Test are the final exams for RGTR 0198 and RGTE 0199 respectively. Students must pass the Tests to pass the courses. The courses do not count toward the 120 hours requirement (See Section 1470). Students with certain SAT, ACT, AP or IB scores, non-native speakers of English, students who hold a baccalaureate degree and students with documented disabilities are subject to modified rules regarding these requirements. (See below.) After reading this material, students with questions should contact the Student Advisement Center, http://www.gsu.edu/advisement.

Description of the courses: RGTR 0198 and RGTE 0199 are designed to help students gain the reading and writing competence necessary to pass the Regents’ Tests and be successful in college-level work. The Regents’ Tests are the final exams for the courses. The courses are graded S/U. Students will be awarded an S if they pass the test and a U if they do not pass the test.

Description of the tests: The Regents’ Reading Test is a multiple-choice test taken in one hour. This test consists of a series of reading passages with five to eight questions about each passage. The passages cover a variety of subjects (e.g., social science, math, natural science and humanities). The Regents’ Writing Test is a one-hour essay exam in which students are asked to write an essay on one of four topics. Students are allowed to use dictionaries during the last 15 minutes of the Writing Test. Both tests are taken at one time with the Writing Test coming first.

Administration: Initially, students must take both tests at the same time. If a student has passed one test but not the other, the student will retake only the test that was failed.

The Regents’ Tests are given during the semester at a time specified by the Board of Regents. The tests may be taken only once per semester.

Students are encouraged to take the Regents’ Tests upon completion of Engl 1101. Students may take the Regents’ Tests during a semester in which they have not enrolled in any classes. Students who have a cumulative GPA of 2.0 or higher and have earned a grade of U at least two times in the relevant preparation course will be allowed two hours each test. To take advantage of this option, students must bring a current copy of their academic evaluation to the Testing Office at least seven days prior to the date scheduled for the extended time test.

Students entering Georgia State University with no transfer credits: If they have not met the Regents’ Reading and Writing Requirements, students must take the tests or enroll in both preparation courses in their first semester of enrollment after earning 30 semester hours. Students who have earned 45 college-level semester hours and who have not passed the Regents’ Tests must take RGTR 0198 and/or RGTE 0199 in each semester of attendance until they have passed both tests. Students who have not passed the Reading Test must take RGTR 0198, students who have not passed the Writing Test must take RGTE 0199, and students who have not passed either test must take both courses. Students who have not passed both tests before earning 75 hours will have a hold placed on their registration that will be lifted after speaking with a Student Advisement Center staff member.

Students entering Georgia State University with AP/CLEP/IB/JE credits: Students entering with Advanced Placement, College Level Examination Program, International Baccalaureate and/or Joint Enrollment credit are not required to take RGTR 0198 or RGTE 0199 until they have earned at least 45 hours and been enrolled at least two semesters.

USG transfer students: All students transferring from University System of Georgia (USG) programs leading to the baccalaureate degree must follow the rules for students with no transfer credits.

Non-USG transfer students: Students with 30 or more semester credit hours transferring from outside of the System are strongly encouraged to take the tests during their first semester of enrollment in a program leading to the baccalaureate degree. Those who have not met the requirement before their third semester of enrollment are subject to the remediation requirements for students entering Georgia State University with no transfer credits.

SAT, ACT, AP and IB waivers:

RGTR 0198: Students who have a score of 510 or better on the SAT I Verbal test or a score of 23 or better on the ACT Test (given on a national examination day) have automatically passed RGTR 0198.

RGTE 0199: Students who fulfill one of the waiver options/combinations listed below have automatically passed RGTE 0199:

- SAT-I Verbal score of 530 or better and A in Engl 1101
- SAT-I Verbal score of 590 or better and B in Engl 1101
- ACT English exemption score of 23 or better and A in Engl 1101
- ACT English exemption score of 26 or better and B in Engl 1101
- SAT II English Writing Test score of 650 or better
- Higher level AP English Language and Composition Test score of 3 or better
- Higher level AP English Literature and Composition Test score of 3 or better
- International Baccalaureate English test score of 4 or better
Students who have earned these scores should submit an official score report to the Office of the Registrar.

Nonnative speakers of English: Nonnative speakers of English (NNS) will be certified as meeting Regents’ requirements by passing RGTR 0198 and RGTE 0199. However, NSS students may demonstrate their competence in reading and writing and automatically pass these courses by passing the Reading and Writing Tests of the Georgia State Test of English Proficiency (GSTEP), taking the regular Regents’ Test, or taking the Test of English as a Foreign Language (TOEFL). NNS students who have a TOEFL score of 23 or higher on the reading section of the computer-based TOEFL exam or a score of 57 or higher on the reading section of the paper-based TOEFL exam have automatically passed RGTR 0198. NNS students who have Test of Written English (TWE) score of 4 or higher have automatically passed RGTE 0199. NNS students may not take the GSTEP and the regular Regents’ Test in the same semester.

NNS students who must take RGT courses may take the regular RGT courses or they may take RGT courses for NNS students that specifically address the GSTEP. These courses are offered by the Department of Applied Linguistics & English as a Second Language. For more information, contact the department, [http://www.gsu.edu/gstep](http://www.gsu.edu/gstep).

Students with a baccalaureate degree: Students holding a baccalaureate or higher degree from an accredited institution of higher learning have automatically passed RGTR 0198 and RGTE 0199.

Students with disabilities: Students with documented disabilities may arrange for appropriate administration of the Regents’ Tests and for any necessary remediation. Contact the Office of Disability Services, [http://www.gsu.edu/disability](http://www.gsu.edu/disability). Appropriate accommodation will be made based upon the student’s functional limitations as presented in their documentation.

Appeal of a failing score on the writing test: A student may request a formal review of high or her failure on the Writing Test if that student’s essay received at least one passing score among the three scores awarded. Students who wish to appeal should contact the Director of the Writing Studio in the Department of English. The review procedures shall be as follows. A student should initiate the review procedure within the first three weeks of his or her first semester of enrollment after the semester in which the Writing Test was failed. If this deadline is missed, students may initiate an appeal within one calendar year from the semester in which the failure occurred.

The appeals review will be conducted by three members of the Department of English chosen by the Director of the Writing Studio. The review panel may (a) sustain, by majority opinion, the essay’s failing score, thus terminating the review process, or (b) recommend, by majority opinion, the rescoring of the essay by the Regents’ Testing Program central office. The student will be notified concerning the results of the on-campus review.

If the Georgia State University panel recommends re-scoring of the essay, that recommendation will be transmitted in writing, along with the essay, to the office of the system director of the Regents’ Testing Program.

All applicable regulations of the Regents’ Reading and Writing Requirements Policy remain in effect for students whose tests are under review, including those regulations relating to remediation and to retaking the test.

1425 Federal and State Constitution and History Requirements

As required by Georgia law, all students must demonstrate knowledge of the history and constitutions of the United States and of Georgia. To demonstrate this knowledge students must pass History 2110 and Political Science 1101. Students instead choose to take examinations prepared by the history and political science departments to fulfill these requirements. Study aids are offered by the history and political science departments to assist students preparing for the examinations. If the tests are passed, students must select additional course(s) from Section 3, Social Science Foundations in Core Area E. Transfer students who have fulfilled any or all parts of this requirement will be advised of that fact at the time of admission and evaluation of transfer credit.

1430 Academic Residence Requirement

Academic residence is defined as being enrolled in one or more courses at Georgia State University; this is not to be confused with status as a legal resident of the State of Georgia for fee determination purposes. The minimum academic residence requirement for each baccalaureate degree is as follows:

1. The candidate must earn 39 semester hours at Georgia State in courses numbered 3000 or above with an average grade of at least a C (2.00 GPA); and
2. At least one-half of the courses comprising the major or 11 semester hours in the major, whichever is less, must be taken at Georgia State.

Credit by examination, credit by validation, CLEP credit, AP credit, and courses specifically excluded by university policy cannot be used to meet the academic residence requirement.
1440 D Grade Credit Restriction

Georgia State University will allow no more than 12 semester hours of D grades to apply toward degree requirements of a baccalaureate program of study. This 12 semester hours includes both credit completed at Georgia State (resident credit) and transfer credit. Certain degree programs may designate a lesser number of D grades as acceptable. Consult your college’s chapter of this catalog for stricter requirements.

1450 GPA Requirement

In order to earn any Georgia State University baccalaureate degree a student must have at least a 2.00 cumulative grade point average. If a student takes a course multiple times at another institution or at Georgia State, the grade earned in the final attempt will determine the applicability of the course to the degree requirements. For details on taking a course more than once, see Section 1330.35. Note, however, that all attempts are included in the calculation of the GPA. See section 1350.20.

1460 No “I”s Requirement

No student may graduate with a grade of “I” (Incomplete) on his or her record. All permanent grades for incomplete grades and grade changes for previous semesters should be received in the Office of the Registrar, Academic Records, in writing at least two weeks prior to the commencement date. It is the student’s responsibility to see to it that incomplete grades are properly recorded in the appropriate offices by this deadline.

1470 Semester Hours Requirement

The curriculum for a baccalaureate degree at Georgia State University requires a minimum of 120 semester hours. Some programs require a higher number of semester hours. Students should consult the description of their program in this catalog to determine the number of semester hours required.

The semester hours for graduation are calculated as follows:

Semester hours included:
- Academic credit (transfer and Georgia State) in which grades A, B, C, D, S, or P are earned (except as excluded below)
- Credit earned through the College-Level Examination Program (CLEP), Advanced Placement (AP), International Baccalaureate (IB), and any other approved credit-by-examination.

Semester hours excluded:
- All hours earned in courses that are repeated except the final attempt.
- Hours earned in courses with course numbers below 1000.
- Courses (transfer and Georgia State) that are required to meet College Preparatory Curriculum deficiencies.
- GSU 1010, GSU 1050 and GSU 1060.
- Physical education “skills” courses KH 1010, 1020, 1030 (previous course prefixes: HPRD, HPRS, PE).
- Military science courses at the 1000 and 2000 level

### 1480.10 Application for Graduation

All candidates for a degree must file a formal application for graduation with the Graduation Office. Baccalaureate candidates must apply by the following deadlines before their expected term of graduation:

<table>
<thead>
<tr>
<th>Term of Expected Graduation</th>
<th>Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall Semester</td>
<td>January 1</td>
</tr>
<tr>
<td>Spring Semester</td>
<td>June 1</td>
</tr>
<tr>
<td>Summer Semester</td>
<td>September 1</td>
</tr>
</tbody>
</table>

This allows the university to audit the student’s records for problems while there is still time for the student to correct those problems.

The Graduation Office will inform the student’s college when the application is filed. The Office of Academic Assistance of the student’s college will conduct an audit and inform the student of any remaining requirements. The Graduation Office conducts an independent audit the expected semester of graduation to ensure that all degree requirements will be satisfied.

Students who wish to change their semester of graduation may do so by one of two means: the Change of Graduation Date form, or, by e-mailing the graduation office at graduation@langate.gsu.edu. The Change of Graduation Date form must be delivered to the Graduation Office at 231 Sparks Hall. The email must state student’s name and Student ID number. If changing date by email, the student must receive a confirmation number back from the Graduation Office to be considered officially received.

Official transcripts of prior term course grades from institutions other than Georgia State University must be in the Office of Undergraduate Admissions by the last day of registration of the semester of graduation. Any other documentation pertaining to non-Georgia State courses which is needed to determine if transfer credit can be granted (such as catalog descriptions or course outlines) must be received by the student’s Office of Academic Assistance by the last day of registration of the semester of graduation.

Students who wish to be transient students or who wish to participate in cross-registration for their remaining course work will graduate one semester after the term in which the last course to be transferred to Georgia State University has been taken. Such students must obtain advance permission to complete their degree elsewhere from their college’s Office of Academic Assistance.

### 1480.30 Exit Examinations

The university and the student’s college may require the completion of additional competency tests appropriate to a student’s program of study prior to graduation. Information relative to these tests is available in the student’s college.

Any student failing to demonstrate required proficiency on any competency test may be required to complete such additional courses as are necessary to correct the deficiency. Courses required and completed under this provision may be with or without academic credit and may be required without regard to prior course credits in these disciplines.

### 1480.40 Posthumous Undergraduate Degrees

A posthumous undergraduate degree shall be awarded at the request of or with concurrence of the family or friends of the deceased if, at the time of death, the student was 15 or fewer semester hours short of the semester hours required to complete the degree the student was seeking and the student had a minimum Georgia State University cumulative GPA of 2.00. The university offers a wide range of educator preparation programs for students who wish to become public school teachers. Some of these programs are administered within the College of Arts and Sciences and some are administered within the College of Education. All undergraduate educator preparation programs are overseen by the Professional Education Faculty, which has membership from both colleges and is advised by Atlanta-area schools. Educator preparation programs at Georgia State University are field-based; that is, much of the coursework requires structured participation in school settings. Therefore, students must be available for coursework that will be scheduled during elementary, middle, and secondary school hours, typically 8 a.m. to 3:30 p.m. Students will find it necessary to be free of other obligations during the term of student teaching and will find it highly desirable to have few other commitments during the term in which blocks of coursework must be taken. Blocks are comprised of 6 or 12 hours of coursework, which are taken in the same academic term (i.e., fall semester only) and are field-based. Exit requirements for teacher education are satisfied by successful completion of student teaching. Additional requirements exist for specific programs.
1605 Entry into Teacher Education

Admission to Georgia State University and to the College of Arts and Sciences or the College of Education (as indicated above) is prerequisite to entry into teacher education. The minimum criteria for entry into teacher education are listed below.

1. Students must have successfully completed Area A (Essential Skills) of the undergraduate core curriculum with a grade of “C” or higher for each course.
2. Students must demonstrate competence in oral communication. Screening takes place in all education courses. At any time during their courses of study, students may be referred to the Georgia State Speech–Language–Hearing Clinic. There, screening assesses the basic communication skills adults are expected to exhibit during communication in professional settings: hearing, articulation, fluency, appropriate grammar, comprehension of spoken language, and the ability to use appropriate voice quality. Completion of referral, evaluation, and the remedial process is necessary for continuation in the program.
3. Students must have demonstrated competence in mathematics and science by successfully completing Area D (Science, Mathematics, and Technology) of the undergraduate core curriculum.
4. Students must have a minimum grade point average of 2.50 based on all undergraduate coursework attempted. For students pursuing degrees in some majors, the minimum grade point average requirement is 2.75. Students are encouraged to contact their academic advisers for information regarding the grade point average requirement for their specific majors.
5. Students must have successfully completed the Regents' Test.
6. Students must have successfully completed EPSF 2010 (Introduction to Educational Issues) with a grade of “C” or higher.
7. Students must have earned passing scores on the three sections of the Praxis I Assessment or by achieving a passing composite score. Contact the Counseling Center (404/651-2211) or the College of Arts and Sciences Office of Academic Assistance or College of Education Office of Academic Assistance and Graduate Admissions for an examination schedule and application form. Students interested in teacher education are encouraged to take the Praxis I Assessment as soon as they complete Area A of the undergraduate core curriculum. Students who present sufficiently high SAT, ACT, or GRE scores may exempt the Praxis I Assessment requirement.

Additional criteria, including departmental requirements, may be added.

Students are assigned an adviser to plan an appropriate course of study within the guidelines provided by this catalog. Entry into teacher education is a prerequisite for courses designated “(TE)” in the course description section.

1610 Educational Field Experiences and Student Teaching

1610.10 Student Teaching

Educational field experiences and student teaching are clinical in nature. They are designed to complement the humanistic, behavioral, and pedagogical studies in teacher education and to offer experiences in a variety of settings.

At the baccalaureate level, a sequence of clinical and field experiences is planned to complement the professional education courses included in the students programs of study.

The Opening School Experience provides practical experience in the school and classroom setting during the week of preplanning and the first week of school. Students learn effective procedures necessary for setting up a classroom at the beginning of the year. This takes place at the beginning of the students’ junior or senior year prior to the student teaching experience. Students in early childhood education and health and physical education must apply for this experience in advance and must register for the course during early registration of the fall term of the year in which the experience takes place.

Opening School Experience Application Deadline

Fall Semester April 1*

* Health and Physical Education students must apply by February 15.

Student teaching is the culmination of the clinical field experiences. Student teaching involves full participation by the students for at least one full academic term. Because student teaching constitutes a full load of academic credit, it is recommended that the students attempt neither regular employment nor other courses during the term of student teaching.

To be eligible for enrollment in student teaching, students must be admitted to teacher education and have:

- successfully completed the specific required courses of the program;
• earned an overall grade-point average no less than 2.50 (2.75 for early childhood education majors) the term prior to the student teaching experience;
• earned a minimum grade-point average of 2.50 (2.75 for early childhood education majors) in the major teaching area courses and in professional education courses. (Students who earn a grade of “D” or “F” in a major teaching field or professional education course must repeat that course and earn a grade of “C” or higher. The grade of “D” or “F” will still be included in the overall grade-point average.)

The Professional Education Faculty believes that all students who are in field experiences must be personally and psychologically equipped as well as academically prepared. Students may be denied entry to field experiences based on departmental prerequisites or the professional judgment of faculty based on observed performance and behavior. This policy is based on the premise that educators should be part of the evaluation of the students’ ability to function adequately and safely in classrooms and that educators have a right and responsibility to make such judgments prior to placing students in schools.

The practicum or student teaching supervisor has the authority to withdraw students from their classroom experience if their performance constitutes a detriment to the children in the class. If such removal is necessary, students will be given an F in each corresponding course.

Applications for student teaching must be submitted according to the following schedule for all majors except early childhood education.

<table>
<thead>
<tr>
<th>General Student Teaching Application Deadline Dates*</th>
</tr>
</thead>
<tbody>
<tr>
<td>Term</td>
</tr>
<tr>
<td>Fall</td>

<tr>

*For Health and Physical Education, the deadline is February 15.

Failure to submit applications on or before prescribed deadline dates will result in a delay of one or more terms in student teaching or practicum placement. Further information regarding educational field experiences, practicum, and student teaching experiences for each major is available from the appropriate department in the College of Arts and Science or the College of Education.

An additional lab fee of $125 will be charged at the time students register for the student teaching experience. Educator preparation students must be aware that extra costs such as tort liability and transportation will be incurred at various times during the completion of the various teacher education field experiences, particularly during the students’ senior year.

1610.20 Final Student Teaching Seminar
At the completion of the student teaching semester, all students who are eligible for certification must attend a final seminar to complete all requirements. Information concerning this seminar will be sent to the students.

1610.30 Criminal Background Investigations
All students who are not already certified teachers employed in Georgia must consent to a criminal background investigation before they will be placed for field experiences. The results of the background check may disqualify the students from completing the program because many school systems do not allow students with criminal records to be placed in their schools. To consent to the background check, students must complete a Criminal Background Consent Form (obtainable from the Office of Academic Assistance and Graduate Admissions; 300 College of Education Building) and submit it along with a check or money order for $10.00 (made out to Georgia State University) and a photocopy of their state-issued driver’s license and Georgia State University PantherCard to the Office of Academic Assistance and Graduate Admissions by the deadline for applying for field experiences. Students must report any circumstance in which they were convicted of a crime, paid a fine, forfeited a bond, were sentenced (by a judge) to perform community service, pled nolo contendere, pled guilty, or received a suspended sentence to jail or prison time. (Minor traffic offenses are excluded; however, DUI convictions must be reported). All information obtained through the criminal background investigation will be kept confidential to the extent allowed by Georgia and Federal laws.

1615 Teacher Certification
Teachers and other educational personnel must be certified by the Georgia Professional Standards Commission to be employed in the state’s elementary, middle, and secondary public schools. Private elementary and secondary schools may also require state certification for employment.
Completion of Teacher Education Requirements: A requirement for initial certification in Georgia is completion of teacher education requirements. This may be accomplished in one of the following ways at Georgia State University. (Options vary by program.) In all cases, “Entry into Teacher Education” criteria apply.

- Students may complete an approved educator preparation degree program as described in the College of Arts and Sciences or the College of Education chapter of this catalog.
- Students may complete or present a noneducator preparation bachelor’s degree and all additional components of an approved educator preparation degree program.

Initial certification programs in Communication Disorders, Educational Leadership, English Education, Health and Physical Education, Library Media Technology, Middle Childhood Education, Reading Specialist, School Counseling, School Psychology, Science Education, Social Studies Education, and Special Education are available only at the graduate level. The College of Education offers seven Alternative Preparation Programs, master’s degree programs which prepare students for initial certification in the following fields: Early Childhood Education, English Education, Mathematics Education, Middle Childhood Education, Reading, Language and Literacy Education, Science Education, and Social Studies Education. “Entry into Teacher Education” criteria must be met for admittance into any of these Alternative Preparation Programs. See the current Georgia State University Graduate Catalog for more information on the university’s master’s level programs.

1620 University Recommendation

Students who complete a Georgia State University educator preparation program by one of the three methods above and who present a passing score or scores on the appropriate Praxis II Assessments may be eligible for the Georgia State recommendation for teacher certification. The College of Education’s Office of Academic Assistance and Graduate Admissions can issue the recommendation to the prospective teacher shortly after Commencement following the term of completion of requirements.

1625 Application for Teacher Certification

Prospective teachers must apply for teacher certification. Applications are available online at http://www.gapsce.com. It is the students’ responsibility to request the application and complete the submission process with the College of Education. The students, in a single package, must forward the application, the completed recommendation form, and official transcripts from all colleges attended to the Professional Standards Commission.

1630 Praxis II Assessments

The Praxis Series: Professional Assessments for Beginning Teachers is developed and administered by the Educational Testing Service (ETS). Praxis II: Subject Assessments includes the tests of General Knowledge, Communication Skills, and Professional Knowledge and the Subject Assessment/Specialty Area tests. Information about the assessments is available at http://www.ets.org/.

A requirement for teacher certification in the State of Georgia is a passing score on appropriate sections of the Praxis II Assessment. This test is administered at various times throughout the year. Test applications are available from the College of Education Office of Academic Assistance and Graduate Admissions (300 College of Education Building) while they last. Unless otherwise indicated in a program description, passing the Praxis II Assessment is not a degree-program requirement. All initial certification students submit copies of complete Praxis II Assessment scores (all four pages of the score report) to the College of Education Office of Academic Assistance in order to be recommended for teacher certification by Georgia State University. Students are encouraged to take the test during the last term of enrollment.

Questions about teacher certification in other states should be addressed to the State Department of Education in the capital city of that state.

1635 Teacher Education Core

The teacher education core is common to all educator preparation programs in the College of Arts and Sciences and the College of Education. The core is comprised of the following three courses:

- EPSF 2010 Introduction to Educational Issues (3)
- EPY 2050 Human Growth and Development (3)
- EXC 2010 Exceptional Children and Youth (3)
1640 Professional Education Faculty

The Dean of the College of Education is the presiding officer of the Professional Education Faculty. The faculty meets at least twice each year, once during Fall Term and once during Spring Term.

Quotidian governance of the Professional Education Faculty is conducted by the Professional Education Council, which consists of faculty members elected from the various teacher education areas, faculty members appointed by the Dean of the College of Education, students appointed by their departments, and school personnel representing Metro-Atlanta school systems. The chair of the Professional Education Council is elected annually, and the position alternates between members of the College of Arts and Sciences and members of the College of Education.

The Professional Education Faculty’s primary duty is to promote and facilitate constructive interaction of the members of the Professional Education Faculty, especially along interdisciplinary lines, in the interest of maintaining excellence in professional education programs at Georgia State University. The council is served by four committees: The Executive Committee, which reviews the work of other committees and sets the agenda for council meetings; the Curriculum Committee, which reviews existing and proposed professional education programs; the Diversity Committee, which monitors and makes recommendations regarding the faculty’s progress toward goals and outcomes stated in its Diversity Plan; and the Standards and Accreditation Committee, which reviews the Conceptual Framework, legislative and Professional Standards Commission actions affecting curriculum, criteria used by accrediting bodies in their periodic reviews of programs, and programmatic recommendations of relevant scholarly and professional associations.

Additional information about the Professional Education Faculty and its activities is available through the Internet at http://education.gsu.edu/pef

http://www.gsu.edu/%7Ewwwfnd/index.htm

The school research support center, formerly known as the Information Center, collects selected literature and data sets on fiscal policy, public administration, and economic issues to support ongoing research projects of the faculty and its research centers. See the website for beginning a search of the literature of regional, national, and international policy issues: http://www.gsu.edu/%7Ewwwfnd/index.htm.

The center and university liaison librarians work to link pertinent sites to reduce search time for electronic journals licensed to the Georgia State University student and faculty community, as well as those licensed by the powerful statewide Galileo database system.

Sources of interest which are available include EuroMonitor World Marketing Data, which gives country’s macroeconomic indicators. A Lexis-Nexis statistical search yields tabular data by specific field, including geographic, demographic, income, and time series data in downloadable files from licensed on-campus computers.

The center’s sources include data sets and documentation from the Bureau of Labor Statistics, the Census Bureau, and the Bureau of Economic Analysis, among others.

Database training materials, data set manuals, and website lists are provided.

The issues that are addressed include those associated with the structure of urban area, government tax and expenditure policy, education, program evaluation, social policies, and economic development. Some of the specific topics include the evaluation of pre-K programs, analysis of the transition from welfare to work, studies of teacher retention, a multi-year study of public housing transformation, and studies of the labor market opportunities of low-skilled workers. Domestic Programs also houses Atlanta Census 2000 — a portal that allows easy mapping of census data.

Domestic Programs has extensive experience in measuring performance of programs in areas as diverse as education, transportation, and information systems. The evaluation and policy analysis projects have included many studies of educational programs. The office’s work in analyzing the effects of Georgia’s innovative HOPE Scholarship and in evaluating the nation’s first universal pre-kindergarten program has brought national attention. Evaluations conducted by the office’s staff range from large-scale statewide and national programs to school based innovations. Funding for the Domestic Programs comes from a variety of governmental, foundation, and business sources.

2070.20 The Environmental Policy Program

The Environmental Policy Program addresses a range of issues including water resource management, measuring the value of environmental benefits and costs, and investment planning for environmental protections. Its objectives are to inform and improve environmental policy with scholarly work. A joint program with the Oak Ridge National Laboratory is operative, and faculty members are exchanged on a regular basis. A modern experimental laboratory is an integral part of the program. External funding has come from the U.S. Department of Energy, the National Science Foundation, and the private sector; core support comes from the Georgia Research Alliance and from the state government.

2070.30 The Georgia Health Policy Center

The Georgia Health Policy Center conducts research used to develop health policy recommendations and implements strategies to improve health care delivery systems. It provides support to the legislative and administrative branches of Georgia’s government and acts to develop public-private collaborative partnerships that increase resources available to the state.

The center’s Long-Term Care research projects are designed to improve the long-term care delivery systems within Georgia. Staff provides ongoing technical assistance to the Georgia Legislature, the Department of Community Health, and the Department of Human Resources.
The Networks for Rural Health program provides tailored technical assistance, facilitation, mediation, and consultation to help rural communities build clinically relevant, financially viable health care systems. Staff members have received national and state recognition for the work they have been doing in 39 rural communities throughout Georgia.

The Child Policy Initiative improves child policy in Georgia through applied research and analysis. This initiative expands the center’s initial focus to address children’s policy issues beyond health care, with current efforts in children’s health, child protective services, and childcare and early learning. The center analyzes existing policies and future options, researches best practices, and facilitates objective support for state agencies.

The center provides the administrative and technical home for the Philanthropic Collaborative for a Healthy Georgia, a forum of philanthropic and corporate foundations that have joined forces to enhance their health grant-making opportunities.

2070.40 International Studies Program (ISP)
http://isp-aysps.gsu.edu/index.html

The International Studies Program (ISP) provides academic and technical training, research, and technical assistance to support sound public policy and sustainable economic growth in transitional and developing economies. This program is recognized worldwide for its contributions to economic and policy reform.

ISP faculty and staff, other Andrew Young School faculty, affiliates, and a network of consultants serve as project directors, senior advisers, chiefs-of-party, or lead economists for major projects in areas including fiscal policy, tax administration, economic analysis and revenue forecasting, fiscal decentralization and intergovernmental fiscal relations, and public administration, budgeting, and financial management. These experts work together to implement technical assistance projects for clients and have assisted more than 60 countries.

The United States Agency sponsors ISP projects for International Development (USAID), The World Bank, the United Nations Development Program, the Asian Development Bank, the Inter-American Development Bank, and other regional and national funding agencies.

ISP annual summer training programs provide training on fiscal decentralization and budgeting for senior government officials from developing and transitional countries and for donor agency representatives from other countries. These training programs are in such great demand that ISP added an additional program on revenue forecasting and fiscal management. ISP also develops specially tailored training focused on specific policy topics as requested by its clients. More on the International Studies Program is found online at http://isp-aysps.gsu.edu/.

2070.50 Fiscal Research Program
http://frp.aysps.gsu.edu/frp/index.html

The Fiscal Research Center was established in 1995 to provide a stronger research foundation for setting fiscal policy for state and local governments and for better-informed decision-making. The FRC helps stimulate debate on fiscal policy and provides nonpartisan research, technical assistance, and education in the evaluation and design of state and local fiscal and economic policy, including both tax and expenditure issues. The FRC mission is to promote the development of sound public policy and public understanding of issues concerning state and local governments.

The research agenda of the Fiscal Research Center is composed of three broad categories: Intergovernmental Issues, Tax Policy, and the Georgia Economy. Intergovernmental Issues conducts research related to education financing and the delivery of education in Georgia as well as understanding inherent in relationships between state and local governments. Tax Policy includes: the taxation of banking, insurance, and corporations; the structure and impact of income taxation; the structure, administration, and effects of property taxation and sales/excise taxation; alternatives in the taxation of public utilities; and policy issues associated with government budgeting. The Georgia Economy research includes issues relevant to the state’s economic development efforts, studies of various sectors and aspects of the Georgia economy, and development/maintenance of a database built on the Unemployment Insurance records from the Department of Labor, welfare records for the Department of Human Resources, and other agency databases.

2070.60 Research Atlanta, Inc.
http://www.researchatlanta.org/

Research Atlanta is a private not-for-profit public policy research organization that studies public policy issues affecting the metropolitan Atlanta region. It represents a unique collaboration between the private sector, which supports the research and sets the research agenda, and the Georgia State University Andrew Young School of Policy Studies, which administers to the organization and oversees the research process. For 32 years, Research Atlanta, Inc. has investigated the causes of and analyzed
the alternative solutions to problems that affect the quality of life in metro Atlanta. Research Atlanta advances sound public policy, not a political agenda. Research Atlanta publicizes and disseminates its work through an aggressive outreach program, and its findings are regularly reported in the local and national press.

2070.70 The Neighborhood Collaborative

http://www.gsu.edu/~wwwtap/

Georgia State University transferred The Atlanta Project (TAP) into the university family as a means of enhancing research, teaching, and service through more effective partnerships with its urban environment and neighborhoods. Former president Jimmy Carter established TAP in 1992 as part of The Carter Center where it operated until August 1, 1999, at which time it was transferred to Georgia State. TAP was the first step in the development of a university-wide unit called The Neighborhood Collaborative. The collaborative assists in implementing the Georgia State commitment to working in partnership with the community to improve the lives of Atlanta residents. Its goals are: 1) to build community capacity, 2) to focus additional research, teaching and service on community capacity building and improved social policy and programs, and 3) to improve access to human services for families and children, especially in low-income neighborhoods. The Neighborhood Collaborative has been successful in engaging the university and community in partnerships, especially those relating to the senior population.

2080 Academic Regulations

2080.10 Credit Transferred from Other Institutions

Credit earned at another accredited institution prior to enrolling at Georgia State University, which has been accepted by the undergraduate admissions office of Georgia State, may be considered for acceptance as transfer credit. The amount of such transfer work shall not in any case exceed that allowed by Georgia State.

Students enrolled in the Andrew Young School of Policy Studies who wish to take course work in transient status at another institution, whether as a full-time or part-time student, must have prior written approval from the Office of Academic Assistance if they wish to apply the credit to a degree program.

Please consult the “Academic Regulations” chapter of this catalog for further clarification and requirements regarding transfer and transient credit.

2080.20 CLEP Program

Up to 30 semester hours of academic credit in the baccalaureate degree programs of the Andrew Young School of Policy Studies may be earned through the College-Level Examination Program (CLEP), subject to the approval of the dean. Academic credit earned through CLEP cannot be applied to the minimum residence requirement. For further information, contact the Testing Office in the university Counseling Center and consult the “Academic Regulations” and “Admissions” sections of this catalog.

2080.30 Directed Readings (Econ 4380/PAUS 4901)

Courses designated Econ 4380 and PAUS 4901 in the various undergraduate programs are intended to allow students of proven performance to do independent study in a specific subject area. Enrollment in a directed readings course requires prior consent of the instructor. Enrollment for PAUS 4901 is limited to undergraduate students with a grade point average of 3.0 or higher. A maximum of one directed readings course may count toward fulfillment of degree requirements, and the course may not be substituted for a core course requirement. The subject of the independent study will be determined in consultation with the faculty member responsible for supervising the independent work. A faculty member may seek the assessment of a second faculty reader on any directed readings paper. Letter grades, rather than grades of S or U (satisfactory or unsatisfactory), will be assigned for all directed readings courses.

2080.40 Modification of Degree Requirements

Students may petition for modifications of the degree requirements of the Andrew Young School of Policy Studies. Degree modification petitions are granted only in the case of extenuating circumstances and only when an educationally acceptable substitution is proposed. Petition forms and information are available in the Office of Academic Assistance.
2080.50 Standards of Performance

Students enrolled in the Andrew Young School of Policy Studies must earn a grade of C or higher to receive degree credit in the following courses: Engl 1101 and Engl 1102 and the major common core curriculum. Additionally, students in the Bachelor of Arts or Bachelor of Science program in Economics must earn a grade of C or higher in courses in the minor area; students in the Bachelor of Science in Urban Policy Studies or Human Resources Policy and Development program must earn a grade of C or higher in courses in the area of specialization.

No more than 12 semester hours of credit where a grade of D has been earned can apply towards the degree program in the Andrew Young School of Policy Studies. These 12 semester hours include both resident (taken at Georgia State) and transfer credit. (Cross-registration courses are considered resident credit.)

2080.60 Undergraduate and Postbaccalaureate Admission into a Graduate Course

Under certain conditions, an undergraduate or postbaccalaureate student may be admitted into a graduate course. To be eligible, an undergraduate student generally must have a cumulative grade point average of 3.5 or higher and be within 18 semester hours of graduation; a postbaccalaureate student generally must have a cumulative grade point average of 3.5 or higher in his or her undergraduate work as well as any graduate work taken at this or any other institution.

Eligibility does not guarantee admission into a course. The interested student must apply through the Office of Academic Assistance for special graduate student status. Approval of that status requires the concurrence of the student’s academic adviser, the chair of the department in which the student is enrolled, and the director of the Office of Academic Assistance. Once the status has been approved, the student is permitted to enroll in a graduate course only with the permission of the instructor and the chair of the department in which the course is taught.

2080.70 Graduation with Honor

The Andrew Young School of Policy Studies may award a degree with honor in accordance with the policies of Georgia State University, which are outlined in the “Academic Regulations” chapter of this catalog. 2100 Student Appeals and Petitions Procedures

The appeals procedure for students in the Andrew Young School of Policy Studies will follow different courses depending on the nature of the student’s appeal. The various types of situations and the appropriate appeals avenues are as follows:

**Admissions Appeals:** at the undergraduate level, the university rather than the colleges makes admissions decisions. The university’s Office of Undergraduate Admissions should be contacted for the proper procedure.

**Appeal of Course Grades:** An instructor shall not be required to answer to any authority concerning the basis of the instructor’s judgment about the academic performance of a student, unless the petitioner is able to document clear evidence of arbitrariness, capriciousness, bad faith, or abuse of discretion. The following information applies:

1. A student should first review the situation with the instructor who assigned the grade. If the question is not resolved, the student may appeal, in writing, to the department chair of the instructor who assigned the grade, sending a copy of the letter to the instructor. The letter must include all points that the student considers to be germane to the appeal; additional points not contained in the initial letter cannot be considered subsequently. The written appeals should include: (a) a statement of the complaint/grievance, with specifics as to event(s) or incident(s) in question, and including evidence to support the student’s allegation(s) of discrimination and/or arbitrary or capricious action on the part of the instructor; (b) a statement of the redress being sought; (c) steps already taken; and (d) reasons for dissatisfaction with the decision from the informal process. The written appeal must be sent to the department chair within 30 calendar days of the first day of classes of the semester immediately following the semester in which the grade was given. If the final grade assignment occurred at a time other than the normal grade reporting process at the end of the semester, the written appeal must be sent to the department chair within 30 calendar days of the date the final grade was assigned. Normally, the chair’s decision will be conveyed to the student, in writing, within three weeks of the date the student’s written appeal is received.

2. A student who wishes to appeal the decision at the department level may appeal in writing to the associate dean. The written appeal must be received within 14 days of the date of the letter from the department chair, and it must indicate specifically why the student believes that due process was not exercised at the department level. The associate dean will examine the facts and review the appeal with the dean of the school. The dean will then render a written decision for the school within 45 days of the date of the letter from the department chair.

3. A subsequent appeal requires a written statement to the vice president for academic affairs indicating the basis of the appeal. The statement must be received within 14 days of the date of the dean’s letter to the student.

**Appeal of Suspension and Exclusion:** At the undergraduate level, appeals related to scholastic suspension or scholastic exclusion are considered by the university’s Student Advisement Center. That office should be contacted for the proper procedure.

**Other Appeals:** Appeals not specifically covered in the foregoing procedures should normally follow the pattern outlines for the appeal of a course grade or the appeal of a suspension, whichever is appropriate. Students may contact the Office of Academic Assistance for clarification of the Andrew Young School of Policy Studies appeal procedures.

James Alm, Chair

Faculty Adviser: Shelby Frost. Please visit the Department of Economics advising website at: http://www.gsu.edu/~ecosdf/advising.htm.

Economics provides a way of thinking about everyday decision-making in a world of limited options. It explains the economy as a whole, how it is best organized to provide goods, services, jobs, stable prices, and other economic goals. Economists study the ways a society distributes scarce resources such as land, labor, raw materials, and machinery to produce goods and services choices that must be made because time, income, wealth, workers, and natural resources are limited. Principles of economics are useful at all levels of decision-making, and provide an essential framework for analyzing and understanding such major issues as inflation, unemployment, deregulation of banking, tax reform, fluctuations in foreign exchange rates, labor productivity, and foreign debt crises.

Most economists are concerned with practical applications of economic policy in a particular area. They use their understanding of economic relationships to advise businesses and other organizations, including insurance companies, banks, securities firms, computer and data processing companies, management consulting firms, industry and trade associations, labor unions, and government agencies. Some economists work abroad for companies with international operations and for organizations like the World Bank and United Nations.

Economists use mathematical models to develop programs that predict, for example, the nature and length of business cycles, the effects of inflation on the economy, or the effects of tax legislation on unemployment levels. Preparing reports on the results of their research is an important part of the economist’s job. Being able to present economic concepts in a meaningful way is particularly important for economists who are involved in making policy for their organizations.

The student majoring or minoring in economics may choose from a broad array of topics including foreign trade, environmental and natural resources economics, money and credit, public sector economics, labor economics, economic development, international finance, urban and regional economics, economic history, industrial organization and antitrust policies, and mathematical economics. Majors may pursue careers in many areas, some of which are listed below along with courses applicable to the career choice.

Economics majors who are considering graduate study in economics are encouraged to take Math 2211 and Math 2212 in place of Math 1111 and Math 1220. Consult the course descriptions for the Department of Mathematics and Computer Science for prerequisites before taking these courses.

Career Opportunities and Related Courses: A recent study by the U.S. Census Bureau showed that college graduates who majored in economics were among the highest paid employees (economics ranked as the third most lucrative major). An undergraduate degree in economics furnishes a valuable background for a career in law, government, business, or education. Government service provides many opportunities at the federal, state, and local level that require only an undergraduate degree in economics. What economists do in business is as broad and varied as the full scale of managing a firm’s operations; economists are found in staff departments handling marketing, business planning and policy, finance, government relations, and even purchasing and operating logistics. An economics degree also combines well with training in other disciplines such as finance, real estate, political science, journalism, history, or law.

Students who plan to have a career or pursue graduate work that uses economics should consider the courses listed below. The listings are suggestions for broad categories and do not exclude other offerings. These suggestions do not replace advisement or override any degree requirements regarding choices of major or elective courses.

Business: Econ 4500, 4950, 4300, 4470, 4700, 4800, 4810, 4960.

The following bachelors degrees are awarded in economics: The Andrew Young School of Policy Studies awards a B.A. and a B. S. The J. Mack Robinson College of Business awards a B.B.A.

For teacher certification, the student must also complete the MED program or a similar master’s degree at another university.

The Social Studies Education Concentration in Economics is designed to provide students with the content area preparation required for teaching economics and other social studies courses at the middle and high school levels. Students pursuing this concentration must take 21 hours in economics and must also choose three allied fields from the following departments, taking nine hours in each (for a total of 27 hours in allied fields): African-American studies, geography, history, political science, and only one of the behavioral science departments of sociology, anthropology, or psychology.

### Area G: Major Courses (21)

A grade of C or higher is required in all major courses.

- Econ 3900 Intermediate Macroeconomics (3)
- Econ 3910 Intermediate Microeconomics (3)

The Department of Public Administration and Urban Studies offers a variety of interdisciplinary degree programs designed to prepare students for life and work in a range of professions in metropolitan areas. At the undergraduate level, the department a Bachelor of Science degree in urban policy studies which includes a choice of specializations between aviation and transportation, local government management, planning and economic development, and public policy. Graduate degrees are available in public administration, urban policy studies, and public policy.

2120.10 Degree Requirements
Bachelor of Science
Major in Urban Policy Studies

The interdisciplinary undergraduate urban policy studies program provides students with both a general background in urban policy studies and the specialized knowledge necessary for professional positions in a variety of related fields. The general background is obtained from completing a common core curriculum that is required of all students. This curriculum examines the functioning of cities and suburbs, the roles of the public, private, and nonprofit sectors in this functioning, and the special importance of public policy in linking these sectors in metropolitan areas.
Choice of a specialization beyond the core curriculum permits the student to develop additional skills appropriate for professional positions in a particular field. Students are also encouraged to undertake field instruction and action research, with public, private, and nonprofit agencies in the Atlanta area offering ample opportunities for applied learning experiences. Many opportunities are available through the various research centers and community outreach efforts of the Andrew Young School of Policy Studies. These opportunities enhance the educational experiences students receive and often open doors to attractive jobs.

Career Opportunities: Graduates of the urban policy studies program work as planners, economic development specialists, public policy analysts, pilots, and managers of aviation or transportation agencies, to name just a few of the positions. The choice of such public service careers, whether in the public, nonprofit, or private sector, offers many rewards, including a sense of purpose in attempting to enhance the quality of life for individuals and society. The degree in urban policy studies also provides excellent preparation for master’s and doctoral work in a number of disciplines, with many program graduates having achieved advanced degrees at Georgia State and at other prestigious universities around the country.

3020 General Information
The College of Arts and Sciences consists of 21 departments/schools/institutes within the areas of the fine arts, the humanities, the natural and computational sciences, and the social and behavioral sciences. The college has 10,000 undergraduate students and 2,000 graduate students. The college also has the responsibility for the two-year general education curriculum required of all students in the university.

The liberal arts education offered by the College of Arts and Sciences prepares students for professional careers and provides them with the foundation for lifelong learning, enabling them to meet the challenges of career development. Programs in the liberal arts promote the independent discovery of knowledge, an appreciation of the arts, and the ability to think critically and analytically.

On the undergraduate level, the College of Arts and Sciences offers the Bachelor of Arts, the Bachelor of Science, the Bachelor of Interdisciplinary Studies, the Bachelor of Music, and the Bachelor of Fine Arts degrees. The requirements for these degrees build directly upon the broad educational foundation provided by the core curriculum.

Within the framework of the various degree offerings, specific programs have been designed for students who wish to pursue a career in teaching. These teacher education programs provide for a major concentration within a special field of knowledge suitable for teaching at the various school levels. The programs prepare a student to meet the certification requirements of the Professional Standards Commission of the State of Georgia.

The College of Arts and Sciences, through its Division of Graduate Studies, offers graduate degrees and programs in numerous fields. A list of the degrees and areas is shown at the end of this chapter (section 3340). The university publishes a graduate catalog that includes complete descriptions of all of the graduate programs offered at Georgia State University (available online through the Office of the Registrar website: http://www.gsu.edu/registrar).

3030 Accreditation
In the College of Arts and Sciences, the School of Art and Design is accredited by the National Association of Schools of Art and Design, the School of Music by the National Association of Schools of Music, the Department of Chemistry by the American Chemical Society, and the graduate program in psychology by the American Psychological Association.

The purpose of the program is to offer students an avenue by which they may take advantage of the rich offerings available in the several colleges at the university. An individual student, in consultation with a faculty adviser, may tailor a program of study that meets his or her particular educational needs, desires, and interests.

   A student can pursue either a college-planned or a student-planned interdisciplinary program. The established college-planned interdisciplinary programs address the needs of many students interested in a multidisciplinary, nontraditional education. Existing areas of concentration include arts administration, classical studies, community studies, environmental science, international studies, Japanese/Asian studies language studies, law and society, and Middle East studies. There is considerable flexibility in the student-planned interdisciplinary program, including the options of taking two interdisciplinary areas of concentration; one area of concentration and two allied fields; or one area of concentration, one allied field, and electives.

3050 Office of Academic Assistance
   724 General Classroom Building
   404/651-2291
   http://www.cas.gsu.edu/dept/oaa
   Director: Tammy Patterson-Hill
   Academic Advisers: Bradford, Jones, King, Meier, Roberts

   The Office of Academic Assistance supports departments and schools in providing academic advisement for students in the college. This office also works with students on career development and on marketing a liberal arts background in the current job environment. The Office of Academic Assistance prepares evaluations of transfer work done at other institutions as well as academic program reviews for each major offered through the college. It also assists with course selections and schedule revisions and provides information concerning college and university policies. Students are advised on an appointment basis, or they may come by the Academic Assistance office at any time during office hours for brief consultations. During the academic
year, the office is open until 6:00 p.m. on Tuesday and Wednesday and until 5:15 p.m. on Monday, Thursday and Friday. Students seeking a degree in the College of Arts and Sciences should become familiar with the academic regulations of the university stated elsewhere in this catalog.

3050.10 Academic Advisement for Majors

Although the College of Arts and Sciences will endeavor to provide timely and accurate advisement, it is the responsibility of the student to know and to satisfy the degree requirements of his or her academic program.

The College of Arts and Sciences encourages its majors to receive regular academic advisement in their major departments/schools/institutes. This position reflects the belief that a strong undergraduate program is possible only if there are frequent opportunities for students to discuss their academic work and career goals with one of their major professors. In a large urban institution such as Georgia State University, contact is essential if students are to receive individual attention and enjoy the full benefits of a liberal arts education. Students should call their major department/school/institute to make advisement appointments and/or find out the department's/school's/institute's walk-in advisement schedule.

3060 Admission Requirements

The requirements for entrance into Georgia State University are found in the section of this catalog devoted to undergraduate admissions.

Special requirements for admission to the programs leading to the Bachelor of Fine Arts, the Bachelor of Interdisciplinary Studies, and the Bachelor of Music degrees are listed in those sections of this catalog.

3070 Transfer Students

A transfer student must comply with all academic regulations of the university. The following regulations should be noted:

1. The College of Arts and Sciences reserves the right to validate by examination any credits accepted by transfer. This provision in no way affects the acceptance of courses used to satisfy core curriculum requirements at another unit of the University System of Georgia;
2. Transfer grades below C will be accepted in fulfillment of the major or minor requirements only in accordance with the “Standards of Performance” section 3090.40 of this catalog;
3. Work transferred from a junior college can be applied only at the lower-division level; and
4. Students holding a baccalaureate degree from an accredited college or university who wish to complete another undergraduate degree must meet the residence requirements of the university as described earlier in this catalog in the section titled “Academic Regulations.” Degree-holding students must also satisfy the requirements for the major and the general education requirements of their degree program. Honors recognition of degree-holding students who are awarded a degree in the college will be based solely and exclusively on the scholastic record earned since the last degree and/or while in residence for the second-degree program. Degree-holding students are urged especially to clear all requirements with an adviser in the Office of Academic Assistance.

3080 Acceptance of Grades of D

The College of Arts and Sciences allows no more than 12 semester hours of grades of D to apply toward degree requirements of a baccalaureate program of study. This 12 semester hours includes both resident (taken at Georgia State) credit and transfer credit. (Cross-registration credit is considered resident credit.) This policy applies to all new freshmen and transfer students.

Grades in the major and minor require a grade of C or higher. Certain departments/schools/institutes may also require a grade of C or higher in their introductory courses.

3090 Academic Credit

3090.05 Credit for Transient Work

Arts and Sciences students who wish to take course work at another institution, whether as a full-time or as a part-time student, must have prior written approval from the Office of Academic Assistance if they wish to apply the credit to a degree program. Failure to obtain the required prior approval will prevent the acceptance of such credits. Approval will be granted for no more than two terms of work and only if the student is in good academic standing at Georgia State University. No approval of requests to take courses in Atlanta-area colleges will be granted if the course is readily available from Georgia State offerings. During the term in which the student is scheduled to graduate, all courses must be taken at Georgia State unless prior written
approval has been obtained from the Office of Academic Assistance. The acceptance and application of all course work taken as a transient student is subject to any limitations imposed by the student’s major department, school, or program of study.

Please consult the “Academic Regulations” section of this catalog for further clarification in regard to transient credit.

3090.10 Credit by Examination

A maximum of 18 semester hours of degree credit may be granted before or after matriculation to a student who receives satisfactory scores on certain subject examinations of the College Level Examination Program of the College Entrance Examination Board. The student should consult the appropriate department or school or the Office of Academic Assistance for further information.

A maximum of 18 hours, not more than 6 from one department or school, may be granted to entering freshmen who achieve satisfactory scores on the Advanced Placement Program of the CEEB. Credit awarded by examination by the academic departments within the College of Arts and Sciences does not apply toward the academic residence requirement.

3090.15 Credit for Veteran’s Service

University students who are veterans of any service, active, reserve, or National Guard, or who have attended a service academy, may receive advanced placement in the Department of Military Science and Leadership (ROTC).

3090.20 Course 4999 - Directed Readings

Course 4999, Directed Readings, in any department/school/institute that offers a major in the College of Arts and Sciences is designed to assist seniors who are within two terms of graduation and who have curriculum difficulties in fulfilling the requirements necessary for graduation. One to four credit hours may be earned. The supervising professor, the departmental chair/school director, and the dean of the college must approve registration for the course. Forms for Course 4999 must be completed at the time of regular registration for the term in which the credit is to be earned and can be obtained through department/school offices or the college’s Office of Academic Assistance.

3090.25 Undergraduate and Postbaccalaureate Admission into a Graduate Course

Under certain conditions, an undergraduate or postbaccalaureate student may be admitted into a graduate course. The dean’s office of the college will determine a student’s eligibility for admission into a graduate course.

To be eligible, an undergraduate student generally must have a cumulative grade-point average of 3.5 or higher and be within 18 semester hours of graduation; a postbaccalaureate student generally must have a cumulative grade-point average of 3.5 or higher in his or her undergraduate work as well as any graduate work taken at this or any other institution.

Eligibility does not guarantee admission into a course. Once a student’s eligibility is determined, admission must be approved by the instructor for the course, the department’s/school’s director of graduate studies, the chair/director of the department/school offering the course, and the graduate director of the College of Arts and Sciences.

3090.30 Modification of College Degree Requirements

The college Committee on Undergraduate Studies reviews petitions for modifications of the degree requirements of the college. Degree modification petitions are granted only in the case of extenuating circumstances and only when an educationally acceptable substitution is proposed. Petition forms and information on deadlines are available in the Office of Academic Assistance.

3090.35 Student Appeals Policies and Procedures

The appeals policies and procedures for students enrolled in courses or academic programs in the College of Arts and Sciences are available in the departmental/school and administrative offices of the college.

Appeals of Course Grades: The process of appealing a course grade is as follows:

1. A student should first review the situation with the instructor who assigned the grade. If the question is not resolved, the student may appeal in writing to the department chair of the instructor who assigned the grade, sending a copy of the letter to the instructor. The letter must include all points that the student considers to be germane to the appeal; additional points not contained in the initial letter cannot be considered subsequently. The written appeal must be sent to the department chair within 30 calendar days of the first day of classes of the semester immediately following the semester in which the grade was given. If the final grade assignment occurred at a time other than the normal grade reporting process at the end of the semester, the written appeal must be sent to the department chair within 30 calendar days of the date the final grade was assigned. Normally, the chair’s decision will be conveyed to the student in writing within three weeks of the date the student’s written appeal is received.
2. A student who believes that the appeal was handled in an arbitrary, capricious, or discriminatory manner at the departmental level may appeal in writing to the associate dean. The written appeal must be received within 14 days of the date of the letter from the department chair, and it must indicate specifically why the student believes that due process was not exercised at the department level. The associate dean will examine the facts and review the appeal with the dean of the college. The dean will then render a written decision for the college within 45 days of the date of the letter from the department chair.

3. A subsequent appeal requires a written statement to the vice president for academic affairs indicating the basis of the appeal. The statement should be received within 14 days of the date of the dean’s letter to the student.

**Appeals of Suspension and Exclusion:** At the undergraduate level, appeals related to scholastic suspension or scholastic exclusion are considered by the university’s Student Advisement Center. That office should be contacted for the proper procedure.

### 3090.40 Standards of Performance

Grades in the major and in the minor must be grades of C or higher. Certain departments and schools also require a grade of C or higher in their introductory courses.

At least one-half of the courses comprising the major or 11 hours, whichever is less, must be taken in residence at Georgia State University. Some majors may require more hours in residence exclusive of courses taken through the National Exchange Program. The most recent attempt in a course will be the one used to satisfy degree requirements. Consult the “Residence Requirement” section in the “Academic Regulations” chapter for further statements in regard to the university residence requirement. (See “Acceptance of Grades of D” in section 3080)

### 3090.45 Foreign Language Requirement for B.A./B.I.S. Majors

The College of Arts and Sciences requires the completion of a foreign language at the 1002 level for all students seeking a Bachelor of Arts degree or a Bachelor of Interdisciplinary Studies degree (except in science-based programs such as environmental science). Some degree programs require courses beyond 1002 (see program degree requirements sections of this chapter).

The college recommends that students in the Bachelor of Arts and the specified Bachelor of Interdisciplinary Studies programs not include a foreign language course in core curriculum Area C (Fine Arts and Humanities).

The foreign language requirement for students enrolled in the Bachelor of Arts and the Bachelor of Interdisciplinary Studies programs is most commonly included in core curriculum Area F (Courses Appropriate to the Major); however, programs may also require students to complete foreign language courses in the 60 semester hours beyond the core curriculum. Students transferring to Georgia State with a completed core curriculum Area F, yet without sufficient course work to meet a program’s foreign language requirement, will be required to fulfill the necessary courses in the second 60 semester hours.

Students who would like to begin a new foreign language should consult a program adviser concerning the possibility of earning credit for the first semester of elementary foreign language (1001) in either core curriculum Area F or in the second 60 hours.

### 3090.50 Graduation Requirements

Students must apply for graduation three academic terms prior to the planned completion of their degree requirements. A minimum of 120 semester hours, exclusive of lower-division military science and physical education, is required for graduation. Requirements for certain programs may exceed the minimum.

### 3090.55 Academic Discipline

The university regulations regarding scholastic warning, scholastic supervision, scholastic suspension, and scholastic exclusion are found in the “Scholastic Discipline” section of the “Academic Regulations” chapter of this catalog.

### 3090.60 Georgia State University’s Undergraduate Core Curriculum

The University System of Georgia and Georgia State University require all students seeking a baccalaureate degree to complete satisfactorily a basic core of general education subjects. Areas A through E of the 60 semester hour undergraduate core curriculum are described in detail in the “Academic Regulations” section of this catalog. Information about these requirements can also be accessed online at [http://www.gsu.edu/~wwwreg/UGCore](http://www.gsu.edu/~wwwreg/UGCore).

Areas F through H of the curriculum list the remaining requirements for each degree. Complete descriptions of Areas F through H for each degree offered by the College of Arts and Sciences are listed in the departmental sections of this chapter.
3100 Degree Programs: B.A., B.F.A., B.I.S., B.Mu., and B.S.

3100.10 General Degree Requirements

For graduation with a baccalaureate degree from the College of Arts and Sciences, the student must complete the requirements listed below and must comply with the general academic regulations of the university. In the following pages, the degree requirements are presented in summary form after which there is a more complete explication.

3100.20 Bachelor of Interdisciplinary Studies

Information about the B.I.S. program, including program options and the application process, is available from the college’s Office of Academic Assistance at 404/651-2291.

Purpose

The Bachelor of Interdisciplinary Studies degree provides educational opportunities not readily available through traditional departmental degree programs. Students have maximum flexibility in developing a course of study appropriate to their goals by selecting courses from several departments/schools in the College of Arts and Sciences. Students may also include courses from other colleges of this university in their interdisciplinary program.

It is not the function of the interdisciplinary program to pull together an assortment of course work as a last-minute effort to facilitate a student’s graduation. A proposal should be planned early in a student’s academic program and should reflect a logical, consistent course of study that is based on acceptable and germane student objectives.

Admission Requirements

Applicants to the Bachelor of Interdisciplinary Studies program must satisfy the admission requirements for Georgia State University and, in addition, must have a Georgia State cumulative grade-point average. Matriculation into the program occurs only after the approval by the B.I.S. Advisory Council of an application that will identify the student’s program of study. There is a special application procedure for this degree program and faculty advisement is a mandatory component of this process.

Program Options

There are two broad options in the Bachelor of Interdisciplinary Studies program, the student-planned option and the college-planned option. Descriptions are listed below.

Option One: Bachelor of Interdisciplinary Studies Student-Planned Program

Students may choose the option to propose their own program of study for approval by the B.I.S. Advisory Council responsible for the oversight of the degree. Students may select their proposed courses from any college in the university, as long as at least 50 percent of the hours in the program are chosen from courses in the College of Arts and Sciences.

To gain approval into the program, students must articulate a reasonable and educationally justifiable course of study. Proposed interdisciplinary degree programs cannot resemble current programs offered at the university. Students interested in initiating the application process must first schedule an appointment with an academic adviser in the Office of Academic Assistance (404/651-2291). Students must also select an appropriate faculty adviser to provide guidance in developing the interdisciplinary program.

Course of Study Outline for Student-Planned Programs

Areas A-E: Core Curriculum (42)

All undergraduate students satisfy a common core curriculum. These requirements are printed in the “Academic Regulations” section of this catalog. Questions about choices in the core curriculum for B.I.S. students should be directed to an academic adviser in the Office of Academic Assistance of the College of Arts and Sciences.

Area F: Courses Appropriate to the Major Field (18)

Courses in this area should be included in the program proposal. The courses selected for this area must be at the lower division level and judged to be programmatically appropriate to the intent of the proposed program. Foreign Language 1002 must be included in Area F of all student-planned programs, except for those in science.

Area G: Area of Concentration (similar to a traditional major area, except interdisciplinary in content).

Area H: Allied Field (similar to a minor, except interdisciplinary in content).
Area I: Electives
When developing a student-planned program, the student may choose one of the following structures:

  Program Plan Structure One: An area of concentration (27-33 semester hours*) with an allied field (15-21 semester hours*) and electives (not less than six semester hours) as shown in the “Course of Study Outline for Student- Planned Programs” section.
  Program Plan Structure Two: An area of concentration (27-33 semester hours*) with two allied fields (15-21 semester hours each*).
  Program Plan Structure Three: Two areas of concentration (27-33 semester hours each*).

* Not more than 12 semester hours of the requirements in an Area of Concentration, and not more than six semester hours of the requirements in an Allied Field, may be taken from the offerings of any one department/school/institute in the university. A grade of C or higher is required in all courses in the area of concentration and allied field. An additional area of concentration and/or allied field may be included in the proposed program if the student would like to include more program semester hours than required. However, the minimum number of total semester hours required in the program is 120.

At least 39 semester hours of the total number of semester hours counted toward graduation must be in courses taken at Georgia State University numbered 3000 and above where an average grade of C or higher was earned.
The last 27 semester hours prior to graduation must be completed while formally enrolled in the program.

Option Two: Bachelor of Interdisciplinary Studies College-Planned Programs
Students may choose a program designed by the College as follows:

Arts Administration—Speech/Theater
The purpose of this program is to provide a broad-based knowledge of the fine arts and business in order to prepare students for managerial positions in the fine arts areas. This program should allow the student with an interest in the arts to develop widely marketable skills. Please contact the faculty adviser, Dr. Ray Miller, at 404/651-3200 or jourfm@panther.gsu.edu.

B.I.S. College-Planned Major in Japanese/Asian Studies
The program in Japanese Language/Asian Studies affords students an opportunity to take courses in areas of Japanese language, culture, and business in which there are insufficient courses offered for a major. As with the regular majors in French, German, and Spanish, students pursuing this interdisciplinary undergraduate major can choose to combine it with the Master of International Business in the Robinson College of Business. Admission to the MIB is dependent, among other things, on acceptable scores on the GMAT. Students desiring information about this option should contact Paula Huntley in the Institute of International Business (404/651-4057) or phuntley@gsu.edu.

The faculty adviser for this program is Dr. Yuki Takatori in the Department of Modern and Classical Languages and can be reached at 404/651-2265 or mclyyt@langate.gsu.edu.

A major in Language Studies can prepare students for graduate work and careers in many areas, among them linguistics, second/foreign language teaching (including English as a Second Language), communication, anthropology, as well as neighboring disciplines such as psycholinguistics and sociolinguistics. Note: Students desiring certification in a foreign language or ESL should contact the respective departments for information on those programs. 3100.30 The Interdisciplinary Minor

An interdisciplinary minor is available to provide educational opportunities not otherwise available and to allow students the flexibility to select courses for the minor from several departments and schools and even from several colleges at the university. Students must propose their interdisciplinary minor of 15-18 hours for approval by the faculty Bachelor of Interdisciplinary Studies Advisory Council of the College of Arts and Sciences. A proposal must identify the way in which the minor fits into the context of the student’s entire degree program. To gain approval, students must articulate a reasonable and educationally justifiable course of study and must keep in mind that this course of study may not duplicate what is currently available under the existing disciplinary degrees.

The restrictions for the interdisciplinary minor are as follows:
1. The student must have a Georgia State University cumulative grade-point average of 2.0;
2. All courses included must be at the 3000 level or above;
3. No more than six semester hours may be taken in any one department or school and courses cannot be from the major area; and
4. At least 50 percent of the minor must be completed after the semester in which the Faculty Advisory Council approves the minor program plan.

Students should contact the Office of Academic Assistance at 404/651-2291 for information on the application procedure. Guidelines for college-planned interdisciplinary minors in advanced leadership and management, gerontology, Jewish Studies, Latin American studies, Middle East Studies and linguistics are also available.

3100.40 Bachelor of Music

Requirements in addition to those in Area C of the core curriculum requirements are listed under “Bachelor of Music Degree Requirements” in the “School of Music” section of this chapter.

3100.50 Bachelor of Fine Arts

Requirements for this degree are listed under “Bachelor of Fine Arts” in the “School of Art and Design” section of this chapter.

3100.60 Premedical Emphasis

The College of Arts and Sciences offers premedical preparatory course work within the major programs of the Departments of Biology, Chemistry, Physics and Astronomy, and Psychology. Faculty from these departments compose the Premedical Professions Advisory Committee and advise pre-med students. This committee maintains contact with medical schools concerning specific requirements and selection criteria and helps students design specific programs of study for dentistry, medicine, optometry, osteopathic medicine, pharmacy, podiatry, or veterinary medicine. While most premedical students major in biology, chemistry or physics, requirements for admission to medical or dental schools may be met by other majors, provided the requisite science courses are completed.

A student interested in one of these preparatory medical programs should contact the Office of Academic Assistance, 724 General Classroom Building, 404/651-2291. This office serves as a liaison to the Premedical Professions Advisory Committee and maintains pertinent information such as entrance exam applications and other appropriate materials.

3100.70 Teacher Preparation Programs

The social science departments of the College of Arts and Sciences and the Department of Economics of the Andrew Young School of Policy Studies offer pre-education tracks for their majors who plan to teach social studies at the high school level. Through completion of these tracks, students earn along with the baccalaureate degree a certificate in Pre-Education Broad Field Social Science. To be certified to teach, students in this program must complete the initial teacher preparation alternative M.Ed. program in Social Studies Education in the College of Education (or a similar master’s level initial preparation program at another university). Please refer to the degree requirements sections of the Departments of African-American Studies, Anthropology and Geography, Economics, History, Political Science, Psychology, and Sociology for detailed information.

Please refer to the “Teacher Preparation” chapter of this catalog for detailed information on other programs.

3110 Honors Program

Suite 428, University Center
404/651-2924
http://www.gsu.edu/honors/

Timothy M. Renick, Director
April Lawhorn, Academic Specialist
3110.10 Purpose

The Honors Program provides a unique educational experience for students who are willing to accept the challenge to excel. In this program, students gain the advantage of small classes and close contact with outstanding faculty members. Honors sections of a number of regular courses, many of which meet core curriculum requirements, are offered throughout the academic year. In addition, students in the honors Program can enroll in special interdisciplinary courses, help design a colloquium on a topic of their choice, and, at the upper division, research and write an honors thesis. Through honors work, students can achieve honors recognitions which are noted on their diplomas and transcripts, and they can pursue unusual opportunities to enrich the quality of their education and enhance their chances of future success.

3110.20 Admission

The Honors Program staff welcomes the opportunity to discuss the program with any interested student. Normally, entering freshmen should have a 3.30 high school grade-point average and a combined SAT score of 1200 with a minimum of 500 on both verbal and math sections. High school students who are jointly enrolled will also be considered. Typically, a student already enrolled at the university should have a cumulative grade-point average of at least 3.30 based on a minimum of 12 credit hours completed at the university. Normally, a transfer student should have an overall grade-point average of at least 3.30, based on a minimum of 12 credit hours (or the equivalent) of college work. Students who do not meet these academic requirements in full but wish to pursue honors work should contact the Honors Program staff. An interview with a member of the staff is required for admission into the program.

Honors students are invited to use the student lounge and the computer lab, located in the Honors suite, to apply for Honors Program Alumni Association Scholarships (see the General Scholarships section of this catalog) and to enroll in the Honors Freshman Learning Community.

3110.30 One-Semester Registration

Any student in the university with a 3.00 or higher GPA may take one honors course without being admitted to the program. Authorization for all honors courses must be obtained prior to registration from the Honors Program Office.

3110.40 Scholastic Standards

A student in the Honors Program will be required to maintain at least a 3.3 cumulative grade-point average in order to take honors courses. A student whose average falls below 3.3 will be given up to three academic terms in which to attain a 3.3 average again, at which point the student may continue to take honors courses.

3110.50 Active-Inactive Status

Although there is no minimum number of courses required to remain enrolled in the Honors Program, students who are in good academic standing in the program (see above) and who have taken at least one honors course in the past three academic terms (including summer session) will be considered active in the program. Students newly admitted to the program will be counted as active during their first four academic terms. All others will be considered inactive.

3110.60 Honors Recognitions and Requirements

Students may choose to work toward any of three formal recognitions. These are recorded on transcripts and on diplomas with seals, and acknowledged in Honors Day proceedings. Honors recognitions require 3.30 grade-point averages overall and in honors course work. No courses with grades of D or F may be applied toward the satisfaction of the requirements for honors recognitions. Each of the three honors recognitions require the student to successfully complete a total of two honors colloquia (Hon 2260/3260, 1-3 semester hours) and/or forums (Hon 3570, 1-3 semester hours).

**General Honors:** Granted to students who successfully complete at least 12 credit hours of course work in lower-division honors classes at Georgia State University, plus two honors forums or colloquia. The 12 hours of lower-division course work must be in classes selected from at least three major areas of study with no more than two classes in any one area (see Honors Program Office for listing of major areas).

**Advanced Honors:** May be granted to students who complete at least 12 semester hours of honors course work at the upper division, plus two honors forums or colloquia. A maximum of three semester hours of thesis course work, a maximum of nine hours of honors dimensions, and a maximum of nine semester hours of graduate courses may be applied toward this recognition. Courses that are applied toward Advanced Honors may not be applied toward Research Honors.

**Research Honors:** May be granted to students who complete at least 12 semester hours of honors course work at the upper division, which includes at least six semester hours and not more than nine semester hours of honors thesis course work, plus two honors forums or colloquia. A maximum of six semester hours of honors dimensions and six semester hours of graduate courses may be applied toward this recognition. Courses that are applied toward Research Honors may not be applied toward Advanced Honors.

African-American Studies offers an interdisciplinary approach to the study of African people nationally and globally. As an interdisciplinary field of concentration, it offers critiques of knowledge presented in the traditional disciplines and professions, scholarly and artistic accounts of the realities of the lives of African-Americans, and perspectives on social change. The Department of African-American Studies provides students with the intellectual origins, concepts, research, and models of the disciplines; the knowledge and skills necessary for the study of group cultures; and a curriculum that contributes to the goals of multicultural education. Anthropology, the study of humans, provides students with a perspective on the nature of humankind over time and in different environments. It is concerned with humans as biological beings (biological anthropology), with prehistory and cultural evolution (archaeology) and with how humans order their worlds socially and culturally (social/cultural anthropology), as well as with the nature of human language (linguistic anthropology). 3140.15 Geography Program

Jeremy Crampton, Coordinator of Undergraduate Studies

Geography has a long tradition of integrating the physical, human, and behavioral sciences, thereby providing the liberal arts student with many useful perspectives for intellectual development. Geographers receive training in both the physical and human elements of the field.

Human geographers examine settlement patterns, the connections between people and places, and the cultural and economic interdependence of the world system. Human geographers also relate their work to the physical environment and the interaction between human and physical systems. Topics of study include ethnicity, urban dynamics, economic patterns, migration, and the spatial difference between work and residential locations.

Physical geographers emphasize the study of weather and climate, landforms, water resources, the impact of the physical environment on human behavior, and how human behavior affects the natural world.

Geography also includes the study of cartography, the science and art of mapping. Cartographers design and use maps for spatial analysis, graphic communication, and the management of geographic information databases. Given the spatial orientation of their studies, geographers possess a special understanding of today’s complex social, economic, and environmental problems. Increasingly, geographic specialists are involved in solving a broad range of economic, social, and environmental problems of global, regional, and local scale.

The geography curriculum is designed to provide students with broad experiences so that they may understand such problems as environmental deterioration, third-world poverty, overpopulation, rapid urbanization, cultural variation, and shifts in world economic and political patterns. Recognition of the broad applicability of geographically based problem solving has allowed geographers to find employment in many areas. Employment opportunities exist in government agencies at local, regional, state, and national levels. Private consulting and research organizations and planning agencies provide many opportunities for geographers to apply their skills in positions that include urban and regional planners, technical analysts, marketing specialists, environmental program managers, cartographers, geographic information systems specialists, location analysts, transportation planners, and historic preservation officers.

The computer and telecommunication fields provide additional opportunities for geographers to work as database managers, graphics specialists, production managers, and geographic information systems (GIS) specialists. With the diversity of their liberal arts training, geographers also qualify for professional management positions as well as more traditional work as teachers or professors in educational institutions.

The department has excellent facilities for geographic research. These include a cartography and GIS instructional laboratory, a GIS research laboratory, a fully equipped and staffed cartography production laboratory, and a dendroecology laboratory. These laboratories provide state-of-the-art training and research facilities for students, employing the latest mapping and GIS software as well as full Internet access. Additionally, mapping and GIS services provided by the department offer employment opportunities for students.

Students interested in any geography course, or in majoring or minoring in the department, are invited to contact the departmental undergraduate adviser or chair to discuss how the department may best help make their college experience positive and productive.

Gayle Nelson, Chair

Faculty: Bunting, Byrd, Carson, Cavusgil, Delk, Dunkel, Eisterhold, Firestone, Jiang, Lindemann, Murphy, Nelson, Snell, Weigle

The Department of Applied Linguistics and English as a Second Language offers (1) undergraduate courses leading to the Bachelor’s of Interdisciplinary Studies (B.I.S.) degree in Language Studies, (2) a certificate in Teaching English as a Foreign Language (TEFL), (3) ESL credit-bearing courses for nonnative speakers of English, and (4) Intensive English Program (IEP) courses for nonnative speakers of English.

The BIS in Language Studies provides the opportunity for students to explore the field of linguistics from an interdisciplinary perspective and is described in full in Section 3100.20 of this catalog. Dr. Jodi Eisterhold is Director of Undergraduate Studies for the department and can be contacted at 404/651-0395 or jeisterhold@gsu.edu.

The TEFL certificate program provides students with appropriate skills and a credential that will enable them to teach English as a foreign language abroad. Students majoring in Language Studies in the BIS program or in any other undergraduate program can earn the TEFL certificate. In addition, the certificate can be earned by any postbaccalaureate student. TEFL certificate requirements consist of the following five courses: AL 3021, AL 3041, AL 3051, AL 4151, and AL 4161. AL 3021 is a prerequisite for the remaining four courses. AL 4161 is taken after AL 3051, in the student’s final semester.

The ESL credit-bearing courses for non-native speakers of English include academic writing and listening/speaking courses for graduate students and special sections of English 1101 (1101i), GSTEP Regents’ reading test preparation (RGTR 0199i), and GSTEP Regents’ writing test preparation (RGTE 0199i). Authorization is needed for graduate-level courses only and can be obtained through the Department of Applied Linguistics and ESL.

The IEP is a noncredit program designed to prepare students with the language and study skills necessary for successful academic work in American colleges and universities. Classes are offered at beginning, low intermediate, intermediate, high intermediate, and advanced levels in the following areas: structure/composition, reading/listening, academic writing, extensive reading, and oral communication.

Students are admitted to the IEP through the Department of Applied Linguistics and ESL and not through regular Georgia State admission procedures. For information and/or application forms, contact: Intensive English Program, Georgia State University, P.O. Box 4099, Atlanta, GA 30302-4099, or at http://www.gsu.edu/esl.

Admission to the Intensive English Program does not constitute regular admission to a degree-granting program of Georgia State or of any other branch of the University System of Georgia. Students who wish to take degree work at the university must complete the student application appropriate for the desired program, submit all credentials, and receive an official decision from the Office of Admissions or Graduate Office.

The School of Art and Design offers degree programs in studio, art education, and art history. The Bachelor of Fine Arts professional degree is available in studio and art education. Within the studio degree, students may choose from these concentrations: drawing, painting, and printmaking; graphic design; interior design; photography; textiles; or three-dimensional studies.

The School of Art and Design offers the Bachelor of Arts degree for students who wish to pursue a liberal arts education. They may select a concentration in studio art or in art history. The Studio B.A. program covers a range of art courses and a studio concentration. Art history is a more academic liberal arts program devoted to preparing future scholars and curators.

The school seeks to provide an educational environment that encourages the creation and presentation of the visual arts, the study of visual culture, and the education of the larger community in the visual arts. Graduates of the school carry their knowledge forward and contribute to the cultural conscience of the community. A strong corps of the school’s graduates is found in the state’s art centers and schools. Others hold prominent positions with local and national design firms. Faculty, student artists, and alumni frequently exhibit in national and international galleries and competitions. Their works are in numerous private and corporate collections.

The School of Art and Design is professionally accredited by the National Association of Schools of Art and Design.

Praxis I, required for entry into the major and teacher education, is a test of basic academic skills in reading, writing, and mathematics. Praxis II, is required for certification and usually taken the semester prior to student teaching, is a test of art content knowledge and skills. The Counseling Center may be contacted at 404/651-2211 for an examination schedule and application form.

B.F.A. degree requirements for each of the major areas of concentration in studio art are listed below.

Applications to a Major Concentration

Upon completion of the 18 semester hours required in Area F and prior to completion of 15 additional semester hours, each student seeking a B.F.A. degree from the School of Art & Design must submit an application and pass a portfolio review for acceptance into a major concentration. Applications to concentrate in a discipline are available in the School of Art & Design office and are reviewed fall and spring semesters on Portfolio Review Day scheduled prior to Phase I registration. Students should meet with an adviser in the concentration they are considering one semester before they apply for the concentration. In the event that a student is not accepted into the concentration, the student should see the School of Art and Design undergraduate adviser to explore other options.

Senior Portfolio Review and Exhibition

Recommendation for graduation with a B.F.A. degree in a studio area requires the presentation of a body of work. This includes work completed as part of portfolio courses. For more details on enrolling for portfolio courses, students should obtain a Senior Portfolio Review form from the School of Art & Design office and consult with an adviser in their major area of concentration about forming a Senior Portfolio Review Committee. B.F.A candidates who successfully complete portfolio course 4950 are required to participate in the B.F.A Senior Group Exhibition held at the end of each semester.

1. Students seeking a B.A. degree in the School of Art and Design are not required to take a minor, although they may complete one if they so choose. Completing a minor is not an option for students seeking a B.F.A. degree due to the focused nature of the B.F.A. degree.
2. Students completing a B.A. or B.F.A. degree in the School of Art and Design must take additional courses as electives to complete a minimum of 120 semester hours (126 semester hours for the B.F.A. degree in Art Education), exclusive of 1000 or 2000 level physical education or military science courses.
Minor Offerings

Students not majoring in art may take a minor in art history; drawing, painting, and printmaking; photography; textiles; or three-dimensional studies. They must take 18 hours of courses in the designated minor, at least 9 of which must be at the 3000 level or above. Prerequisites apply. Specific descriptions of each minor option are available from the School of Art and Design. (A grade of C or higher is required in all courses counting toward the minor.)

Residency Requirement

A minimum of 39 semester hours in courses at the 3000-level or above with an average grade of C or higher. At least 50% of Area G courses must be taken at Georgia State.

Honors Program

Biology, the science of life and life processes, includes the study of structure, function, growth, development, reproduction, origin, evolution, and distribution of living organisms.

A degree in biology provides students with a variety of career opportunities. Potential careers range from applied or basic laboratory research and field studies in numerous state and federal organizations and industry, to education in public and private school systems. Furthermore, the degree provides the ideal preparation for entry into medical, dental, and veterinary schools and other health-related professions. Finally, a bachelor’s degree in biology provides a good foundation for advanced studies at the M.S. or Ph.D. level in biological sciences.

As an alternative to the General Biology Studies program (and in addition to the core degree requirements), courses in one of several areas of concentration, listed below, are available. Interdisciplinary programs with other departments/schools/institutes (such as Behavioral Biology or Environmental Science) are also an option. To plan the major according to particular needs and goals, students should first consult the Biology Advisement Website (located on the Department of Biology’s homepage at biology.gsu.edu) and if necessary consult with a departmental adviser for suggested courses relevant to each concentration or to design an interdisciplinary program.

Elementary Science Education Partners

See the description of this program in the “Degree Programs” section of this chapter.

Honors Program

The department encourages qualified students to participate in the Honors Program. (See “Honors Program,” previously described.) The department sponsors a Biology Club and the Eta Psi chapter of Beta Beta Beta, the national honorary biological society. Interested students are encouraged to participate in these organizations.

Undergraduate Research Program

Students are particularly encouraged to participate in the Undergraduate Research Program after completion of core requirements. Participation in an ongoing research activity provides the student with experience in experimental design and interpretation that is typically not available in routine laboratory courses. Students may enroll in Biol 4910 for a total of 10 hours. Interested students should consult the departmental brochure on faculty research interests and contact one or more faculty members for development of a specific project.

A. L. Baumstark, Chair
Paul J. Franklin, Director of Undergraduate Studies, Adviser

Chemistry deals with the nature of all substances and the changes that occur therein. It ranges from the study of the structure of atoms and molecules to that of the reactions occurring in living organisms. The study of chemistry can provide knowledge that will give students a greater understanding and appreciation of the world in which they live. In addition, knowledge of chemistry is a great asset in areas such as biology, physics, and health-related fields. It is a logical basis for premedical training.

Each student is urged to consult with a faculty adviser at the earliest possible time (even before the first semester) to outline a curriculum to meet his or her needs. A typical program of study for chemistry majors is outlined below. Although not required, several minors are possible for chemistry majors.

Honors Program
The department encourages qualified students to participate in the Honors Program. (See “Honors Program,” previously described.)

Chemistry Courses for Science Majors
Detailed descriptions of the objectives and prerequisites of each course are available in the Department of Chemistry. The student is urged to consult these descriptions if there is any doubt about requirements or qualifications. Laboratory courses and courses on principles are designed to be mutually reinforcing. The laboratory is the real basis for the science, but the lecture courses are designed to speed the learning process. The two parts are separated only to provide added flexibility in scheduling and to meet individual needs, particularly for transfer students. Great care should be exercised in scheduling one course without the other.

Chemistry Courses for Non-Science Majors
Chemistry 1050, 1101K-1102K and 1151K-1152K are of primary interest to students in liberal arts, health sciences, education, business administration, and policy studies. Students in specific programs should consult with an adviser in their program to verify applicability of the above named courses to their specific needs. These courses cannot be applied to a science degree program in the College of Arts and Sciences.

Faculty: Austin, Barthlow, Beck, Bellon, Bernstein, Bolia, Boozer, Bruner, Cheshire, Darsey, El-Nawawy, Friedman, Fujioka, Hoffner, Holmes, Lisby, Meyers, Miller, F., Miller, R., Morris, Restivo, Roberts, Romski, Schiffer, Shaner, Smith, Stuckey, Teel, Vollmer, Winkler

The disciplines of communication are concerned with the processes and effects of human communication in a variety of contexts ranging from interpersonal communication through the mass media. The Department of Communication provides
courses of study that develop knowledge and skills in managing face-to-face communication, knowledge about the nature and social functions of the mass media, and the skills necessary for communication careers. Majors are offered in the areas of film and video, journalism, and speech.

The major in film and video is designed to provide the student with the knowledge and skills necessary to understand and apply this complex discipline in both an intellectual and artistic way. This is reflected in the program structure, which includes critical studies (history, theory, industry, and criticism), production (film, video, digital), and writing. Students will cover all of these areas but may specialize in one or two in their work. Internships are available in the Atlanta metro area and beyond.

Journalism is the study of the collection, evaluation, and dissemination of current information and opinion. The journalism major seeks to prepare students for newspaper and magazine careers (print journalism), radio and television careers (telecommunication), or public relations careers. In addition, the courses in journalism are designed to be useful electives for students planning to enter other vocations who wish to become media-literate individuals.

Speech communication explores the creation, transmission, analysis, and impact of differing kinds of spoken messages as they occur among individuals, groups, organizations, and cultures. Speech courses examine such areas as interpersonal and nonverbal communication, persuasion and argumentation, rhetorical criticism, public address, communication development, and communication disorders. The concepts and skills provided by the major in speech are useful in a wide variety of occupations, including business, law, politics, teaching, the ministry, and public relations, that require an understanding of the dynamics of human communication and proficiency in oral expression.

Credit for special projects and internships is available in all majors and concentrations. Internships enable students who already have completed the appropriate course work and have met departmental eligibility criteria to take advantage of expertise in a variety of professional sectors in the metropolitan area and to tailor programs to their specific career goals.

Computer science is the systematic exploration of all aspects of computation. Computer science as a discipline seeks to build a scientific foundation for topics such as computer design, computer programming and software, information processing, algorithmic solutions to problems, and the algorithmic process itself. Computer science provides underpinnings for today’s applications in industry, science, government, and business and prepares the foundation for tomorrow’s applications in ubiquitous computing, medical cures for diseases, and instant access to information by everyone.

The B.S. degree program in computer science provides preparation in the fundamental principles and processes of computation and training in applying these principles in application areas in industry, science, government, and business. The student completes a basic group of required courses in the early stages and chooses courses from several concentrations in the later stages to provide for appropriate breadth and depth of knowledge in the discipline. In parallel, the student takes relevant courses in mathematics and physics that complement the study of computer science.

A B.S. degree in computer science provides a good foundation for advanced studies at the M.S. or Ph.D. level as well as for careers in industry, science, government, and business. To plan the major according to particular goals, students are encouraged to consult with an adviser in the department. Majors who are interested in having a paid work experience related to their area of
study may contact the university’s Office of Cooperative Education, which coordinates the university’s cooperative education programs.

The courses are structured, and the department enforces the prerequisites for its courses. Students are urged to check and take the prerequisites for computer science courses and any computer science requirement as listed by their major department/school/institute. Refer any questions to that major department/school/institute or to the Department of Computer Science.

3200.10 Degree Requirements

Degrees offered:

Bachelor of Science

Major in Computer Science

A minimum grade of C is required in all mathematics and computer science courses and all 3000 level or above courses that are used to fulfill the undergraduate programs of this department.

As part of the core curriculum, students must receive credit for the three calculus courses: Math 2211, Math 2212, and Math 2215. (When counting the number of semester hours in Areas A, D, and F, only 3 of the 4 credit hours of each calculus course will be counted in Area A and/or D. The fourth hour, or the “rollover hour,” will be counted in Area F.)

Prerequisites and co-requisites are strictly enforced in all computer science courses. Students must maintain a 2.3 Georgia State University GPA to take Computer Science courses numbered 3000 or above.

B.S. in Computer Science

Majors should complete the following:

Students must receive credit for the calculus courses Math 2211, 2212, and 2215, the discrete mathematics course Math 2420, and the introductory computer science courses CSc 2010 and 2310 in Areas A-F.

Area A: Essential Skills (9)

Required course:

Math 1113 Precalculus, or higher level math course (3)

Area B: Institutional Options (4)

Area C: Humanities and Fine Arts (6)

Area D: Science, Mathematics, and Technology (11)

Required course:

Math 2211 Calculus of One Variable I (or a higher level mathematics course) (One credit hour counts in Area F.) (4)
Phys 2211K Principles of Physics I (4)
Phys 2212K Principles of Physics II (4)

Area E: Social Science (12)

Area F: Courses Appropriate to the Major Field (18)

1. Required Course(s): Select the course(s) not taken in Area A or D. (13-17)

Math 2212 Calculus of One Variable II (4)
Math 2215 Multivariate Calculus (4)
Math 2420 Discrete Mathematics (3)
CSc 2010 Introduction to Computer Science (3)
CSc 2310 Principles of Computer Science (3)

2. Select additional courses to complete 18 hours in Area F. (0-4)

Area G: Major Requirements (60)

1. In addition to the courses placed in the core curriculum, such as Phys 2211K and 2212K, all computer science majors must complete the following courses. (13)

   a. Math 3030 (3);
   b. one mathematics course selected from the following list for three (3) hours: Math 4211, Math 4460, Math 4455, Math 4610, Math 4620, Math 4751;
   c. Phys 3500 (3);
d. for a total of four (4) hours, either select Phys 3401 (4) or select one of the following pairs of course and lab combinations:

- Phys 3800 (3) and Phys 4030 (1);
- Phys 3800 (3) and Phys 4050 (1);
- Phys 4700 (3) and Phys 4030 (1);
- Phys 4700 (3) and Phys 4050 (1).

Math 2420 and Math 2215 are prerequisites for Math 3030. Phys 2212K is a prerequisite for Phys 3500. A note for computer science majors transferring to Georgia State University: Board of Regents’ rules may have required Georgia State University to award credit for Math 2420, Math 2215, and/or Phys 2212K even though a student did not take this course at the sending institution. Math 3030 and Phys 3500 are demanding courses, and the Department of Computer Science believes that there is almost no chance of passing them if one has not taken the proper prerequisites. Transfer students are strongly advised to take all prerequisites.

The Department of English is concerned with the study of language and literature and with the craft of writing considered integral to education since ancient times. Although the department concentrates on texts written in English by authors from Great Britain, Ireland, and the United States, it also examines translations of texts from other languages as well as newly emerging literatures in English from other cultural perspectives. Students may also encounter practices that are not, strictly speaking, “writing” at all, such as oral compositions, hypertexts, and folk art.

At the freshmen level, all students in the university take courses in the fundamentals of college-level writing and in the reasoned analysis of texts. Other English courses that form part of the core curriculum provide students with opportunities to study topics in world literature or surveys of British, American, and World literature.

English majors may concentrate in one of four areas: literature, advanced composition and rhetoric, creative writing, and secondary English (pre-education). Before choosing their concentrations, all English majors have the opportunity at the sophomore level to gain a broad foundation in English and American literature. Then, with the help of their advisers, majors choose upper-division courses, which allow them to pursue their interests in more depth. Finally, students can study within their chosen concentrations in seminars designed as capstones for the major.

In addition, the department’s joint studies program with the University of Northumbria in Newcastle, England, offers Georgia State University English and history majors the opportunity to complete their degrees with a concentration in British and American Cultures.

On successfully completing their studies, English majors will have acquired a sensitivity to the written word and an appreciation for the creative process. They will have developed their skills in organization, writing, and interpretation. English courses offer students the opportunity to discover their own insights and to articulate them with precision.

Closely related to the study of literature is the department’s creative writing program. Faculty in this program guide students as they practice and refine their work in the genres of poetry and fiction.

Students who concentrate in advanced composition and rhetoric learn about the history, theory, and practice of writing to specific audiences for particular purposes. In this concentration, students may focus on either historical rhetoric and the teaching of composition or writing within business and technical environments. Courses in this area allow students to explore the history and theory of writing as they apply to the teaching of composition and to writing practices in the workplace.

English majors who wish to teach English in secondary schools combine studies of literature, language, and composition with a senior seminar that combines these areas with pedagogy.

The Department of English offers courses in the related field of folklore. Georgia State University is the only institution in the state offering a wide selection of folklore courses.

A number of courses in the Department of English have an interdisciplinary approach, and several are cross-listed with other units within the university, such as the Department of African-American Studies and the Women’s Studies Institute.

Because of the dynamic and varied nature of our discipline, many of the courses offered (especially on the 4000 level) focus on specific topics not indicated in detail here. Students should inquire in the department office for further information about courses.

Requirements for a Major in English

All English majors planning to take any upper-division literature courses must fulfill the appropriate prerequisite courses with a grade of C or higher. Those majors planning to take upper-division British literature courses must have completed Engl 2120 and Engl 2140; all English majors planning to take any upper-division American literature courses must have completed Engl 2130 and Engl 2140. All English minors who plan to take British Literature courses must have completed Engl 2120 with a grade of C or higher and all English minors planning to take American literature courses must have completed Engl 2130 with a grade of C or higher.

The department requires a minimum of 27 semester hours in upper-division English, with no more than 11 being transferred credits. The College of Arts and Sciences requires that students pass all upper-division courses in their majors with a grade of C or higher.

English majors with the secondary English (pre-education) concentration are encouraged to apply to the College of Education Master of Education Alternative Preparation Program (TEEMS) for certification preparation. The Alternative Preparation Program has a master’s degree track of four semesters begun in the summer term and a three-semester certification track also begun in the summer and completed in the spring. Hours earned in the certification track can be applied later toward the completion of the master’s degree.

Students should consult the department for specific information about which courses offered in each two-year sequence will fit the requirements for each concentration.

* This course varies in subject matter; students must receive written permission from their departmental advisers to apply one of these courses to a specific area.

**Area H: Minor and Additional Courses**

English majors have three options: a minor, a double major, or additional courses in the major. One of these options, combined with electives, will complete their degree requirements. Each student should discuss these options with a department adviser and choose the one that will best serve the student’s long-term goals.

1. Minor: at least 15 semester hours, 9 hours of which must be taken at the 3000 level or above, from one department, school, or institute other than the English department, or in Folklore. The requirements for a minor must be fulfilled in a department, school, or institute that offers a baccalaureate degree. Students interested in an interdisciplinary minor should consult their advisers. The College of Arts and Sciences requires a grade of C or higher in each course counted toward the minor.
2. Double major: course work to satisfy requirements for a second major in addition to English; all college and departmental requirements apply to this as to the first major.
3. Further course work in the major: three courses (9 hours) beyond the nine courses (27 hours) required for the major. Additional courses from departments, schools, or institutes other than the major must be taken to complete a minimum of 120 hours, exclusive of 1000-2000 level physical education. One of these courses must be Lang 2002 (see “Major Courses” above).
Minor Offerings

Students who minor in English or Folklore must complete at least 15-18 hours of course work in English or Folklore, including 12 hours at the 3000 level or above (and any prerequisites required). Students taking more than 15 hours in courses in English may count the additional hours toward their electives or may consider completing a double major. (A grade of C or higher is required in all courses counting toward the minor.)

Residency Requirement

A minimum of 39 semester hours in courses at the 3000 level and above must be completed in residence at Georgia State University with an average grade of C or higher. At least 50% of Area G courses must be taken at Georgia State.

Assessment

In addition to passing the required courses, students must demonstrate writing ability, good judgment, and sufficient knowledge of the field in order to graduate, as measured by two forms of assessment.

Student Self-Assessment: Senior Seminar Project

Each student will complete a substantial writing project in the senior seminar. This project will be appropriate to the student’s concentration and the specific topic of the seminar. The seminar instructor will provide specific details of the assignment; all projects must be mature, focused research, or creative papers (as determined by the concentration) that result from the student’s own efforts, consultation with the instructor, and peer review from other seminar members. In an introduction to the final draft, the writer must survey his or her own growth as a writer and point to strengths demonstrated in the project. Those students who plan to register for either creative writing senior seminar must first complete Engl 3150a or Engl 3150b and Engl 3160 or Engl 3170. Those students who plan to register for any other senior seminar must first complete at least two courses appropriate to their concentration.

Departmental Student Assessment: Senior Exit Portfolio

In order to graduate, English majors must submit an exit portfolio designed appropriate to their concentration. All portfolios include a statement of self-assessment and three or more substantial pieces of evidence that demonstrate their skills appropriate to their concentration. Specific information about the exit portfolio for each concentration is available from the department.

Graduation with Distinction in English

Departmental distinction is separate from the Honors Program. Majors who have an average of at least 3.5 in upper-division English courses are eligible to undertake a project that could lead to graduation with distinction.

Two academic terms prior to the one in which the student proposes to graduate, student and adviser should plan the project. Students may undertake a critical paper on a literary topic, a creative writing project, or a reading list on which they will write an examination paper. A brief proposal (two or three pages) describing the project should be sent to the Events and Awards Committee. More information about graduation with distinction is available in the department.

Teacher Certification

English majors who want to pursue certification to teach at the secondary school level should seek advisement from the College of Education Office of Academic Assistance (300 College of Education Building, 404/651-2539) and the Middle Secondary Instructional Technology Department (639 College of Education Building, 404/651-2510). Georgia State University offers a Master’s of Education Alternative Preparation degree that is a four semester program beginning summer and a Master’s of Education Alternative Preparation Certification Track that is a three semester program also beginning in the summer.

English Requirements for All Students

In its freshman composition courses, the department instructs students in the standard of writing expected in their academic careers. The core curriculum requirements for composition (Area A, Basic Skills) are English Composition I and II (Engl 1101 and 1102) or the equivalent. The lowest passing grade for these courses is a grade of C.

The Honors Program

The department encourages all qualified students to participate in the Honors Program (see “Honors Program” for additional information).

3220 Department of Geology

340 Kell Hall
404/651-2272
http://www.gsu.edu/geology
Philosopher Will Durant once remarked, “Civilization exists by geological consent, subject to change without notice.” Almost every day we are reminded how large a role geology plays in our lives, whether it be earthquakes, volcanic eruptions, tsunamis, contaminated water supplies, rising oil prices, or the cost of emeralds, sapphires, and gold.

Geology is the science of the earth. Geological research includes studies of minerals and rocks that compose the earth’s surface and interior, the geometry and interrelationships of rock masses, the structural configuration of the earth, and fluids within the earth. Geology also includes the study of modern physical processes and interpretation of the earth’s physical and biological evolution through billions of years of geologic time and into the future. Because of our critical dependence on the earth, appreciation of geology is essential if we are to make informed and enlightened decisions on how to use and protect our planet.

Many career opportunities in geology allow for practical application of the science in industry, consulting firms, and governmental agencies at all levels. Practical and essential applications of geology include development and wise use of water resources, both surface and subsurface; land-use planning for urban, suburban, and rural development; exploration for and development of mineral and energy resources including petroleum; and development of environmentally sound strategies for hazardous waste disposal and treatment.

The curriculum leading to the B.S. degree in geology is excellent preparation for graduate work in geoscience and environmental science. For students who are interested in geoscience and environmental science but who intend to pursue graduate or advanced study in other fields, for example environmental law or business, the geology B.S. degree may still be an appropriate choice. Specific requirements for the concentrations are shown below.

The Department of Geology offers the B.S. degree with three concentrations: General Geology, Environmental Geology, and Earth Science. The Environmental and Earth Science concentrations are for students seeking strong preparation for entering the work force with the B.S. degree. The Environmental concentration emphasizes the study of ground water and the delicate environmental balances of the natural world. The Earth Science concentration emphasizes the measure and graphical depiction of geological features and processes. Both are excellent preparation for jobs in the environmental area and for graduate work in environmental geology. The concentration in General Geology is the most traditional of the programs, designed to prepare the student for graduate studies or employment in a wide variety of geoscience areas. It features the greatest flexibility in selection and scheduling of courses. Specific requirements for the concentrations are shown below.

Majors should be aware that there are prerequisites for many geology courses and that several courses are offered only once a year. As soon as they have selected the geology major, students must consult with department advisers to be informed in these matters and to ensure that programs of study accord with their specific career aspirations and needs. The department participates actively in the university’s Cooperative Education Program, whereby the student can work and attend school at the same time or in alternate years. The program enables students to develop long-term career opportunities while in school. Because of the potential complexities of such a program, students are encouraged to seek early advisement in the department. Co-op students also should discuss their academic plans and curriculum options with their employers.

Faculty: Ali, Brattain, Corpis, Crimmins, Dupuy, Davidson, Eskew, Fletcher, Hudson, Kuhn, Laub, Long, Lutz, McCreery, Moon, Perry, Poley, Rapp, D. Reid, Reynolds, Rouse, Skwiot, Steffen, Venet, Youngs

Historians study various aspects of humanity’s recorded past. Some historians explore the rise and fall of empires, while others describe the everyday lives of men and women. They are interested in every period of the past and all parts of the world. Historians also examine the principles and theories that influence the writing of history. They seek to understand the forces that have structured human life and the ideas that have shaped the way people perceive and experience their worlds. Historians are concerned with change and continuity within societies and interactions among cultures. Historians pay particular attention to the effect of perspectives and values because their discipline involves the interpretation of findings, not just the collection of facts. History can teach us many lessons, not simply about our past but also about the paradoxes and potentials of our present.

The Department of History offers a wide range of courses in African, Asian, European, Latin American, Middle Eastern, and United States history. Arranged in three levels—introductory, intermediate, and advanced—these courses afford students an opportunity not only to become familiar with a body of historical knowledge but also to enhance their skills as readers, discussants, writers, and researchers. Because it emphasizes analytic and critical thinking, history prepares students for further professional training in education, international studies, journalism, law, politics, and public policy, and for all manner of careers. All students can benefit from the insights history provides into the human condition.

3230.05 Requirements for a Major in History
Students should complete the freshman courses in history in the core curriculum and Hist 3000 (Introduction to Historical Studies) before enrolling in other history courses numbered 3000 and above. In all lower-division history courses the department requires that majors attain a minimum grade of C.

The department requires a total of 30 hours in upper-division history. At least one course must be taken from each of the areas of American, European, and African/Asian/Latin American/Middle Eastern History. All majors must take Hist 4990 (Historical Research) after completing Hist 3000 and at least four other upper-division courses. No more than 15 hours of upper-division history may be transfer credits.

Pre-Education Track in History
The Department of History offers a pre-education track for those students who plan to teach at the middle school or high school level. Students who have the opportunity to take a variety of courses in U.S., European, and world history, which will provide the analytic and writing skills, the global perspective, and the historical content that they will need to teach in the public schools. Along with the B.A. in History, students earn a certificate in Pre-Education Broad Field Social Science before they enter the Alternative M.Ed. Program in Social Studies Education in the College of Education at Georgia State or a similar program elsewhere to complete the requirements for state certification.

Students in the pre-education track will take seven history courses at the 3000-4000 level distributed as follows:
   1. Hist 3000 Introduction to Historical Studies (should be taken first among upper-division courses).
   2. Two courses in U.S. history. The department strongly recommends that one of these be History 4310 (Georgia).

A grade of C or higher is required in all minor courses.

2. Additional courses from departments other than the major must be taken to complete a minimum of 120 hours, exclusive of 1000/2000 level physical education or military science. The department strongly recommends that majors take the fourth semester of a foreign language: Lang 2002.

**Minor Offerings**

Students who wish to minor in history must take 15-18 hours in history courses, including at least three courses at the 3000 level or above. Students taking more than 15 hours in courses in history may count the additional hours toward their electives or may consider completing a double major. A grade of C or higher is required in all courses counting toward the minor.

Valerie A. Miller, Director of Undergraduate Studies
Joseph J. Walker, Director of Undergraduate Advisement

Faculty: Alexander, Arav, Bakonyi, Belinsky, Bevis, Chen, Dutta, Davis, Ding, Enescu, Ferguson, Gaensler, Ghosh, Hall, Harden, Hattingh, He, Hsu, Li, Liu, Miller, Myers, Patterson, Patyi, Phillips, Qin, Rogers, Shilnikov, Smirnova, Smith, Stewart, Tye, Vidakovic, Walker, Zhao

All freshmen entering Georgia State University are required to take either the College Entrance Examination Board Scholastic Aptitude Test (SAT) or the assessment of the American College Testing Program (ACT). The results of the test, performance in and time of previous mathematical education, and the student’s intended major or career goals are all factors to be considered when registering for any mathematics course. Therefore, students are urged to check the prerequisites for mathematics courses, and the mathematics requirement as listed by their major department/school/institute. Refer any questions to that department/school/institute or to the Department of Mathematics and Statistics.

Mathematics is one of the great unifying themes in our modern culture. It is a language, a science, an art form, and a tool of tremendous power. The Department of Mathematics and Statistics, in its courses for both majors and non-majors, seeks to introduce students to this vast area of knowledge and to show them how mathematics can be used to solve problems.

The B.S. degree program in mathematics prepares a student for positions in business, industry, and government; a career in the teaching of mathematics at the secondary level; or further study in mathematics or statistics leading to graduate degrees.

Six concentrations are offered within the B.S. degree in mathematics. The concentration in actuarial science prepares a student to work as an actuary. The concentration in computer information systems prepares students for work in the field of management information systems. The concentration in computer science provides education in more scientific aspects of computing. The concentration in secondary school teaching prepares a student for high school teaching in mathematics. The concentration in decision sciences provides training in management modeling, problem solving, and computer-assisted decision support/expert systems technologies. Finally, the concentration in statistics prepares students for work as applied statisticians.

Guidelines for minors in the Department of Mathematics and Statistics are given after the program descriptions.
In addition to immediate employment, there are opportunities for good students to pursue further study at the graduate level in mathematics, statistics, and other fields.

In 1978, the department initiated a cooperative education program with International Business Machines, Inc. Over the years, the program has expanded to include many other firms. Hundreds of majors have benefited from a co-op experience. Majors have an opportunity for paid work experience related to their area of study. They may also make important contacts that may lead to full-time employment after graduation. The Office of Cooperative Education has been established to coordinate the university’s cooperative education programs.

Majors are asked to consider carefully the career objectives they wish to pursue after graduation. A particular career objective may suggest a special choice for the minor or concentration that would prepare one for that career. It also might suggest that a co-op experience would be useful. Faculty who serve as academic advisers for majors can discuss choices and concentrations that are available to majors.

**Secondary School Teaching Concentration**

The Department of Mathematics and Statistics offers the Bachelor of Science degree in mathematics with a concentration in secondary school teaching. One of the assumptions about teaching upon which the program is based is that an effective learning environment requires mutual respect between teacher and student. Another assumption is that effective teaching makes use of a variety of teaching techniques, including technology, and actively involves students in the learning process. The theme of the program is understanding, enthusiasm, and communication.

The secondary school teacher of mathematics has the important task of introducing students to many areas of mathematics. This task requires the teacher to have a broad education in the liberal arts; a strong background in mathematics, including algebra, analysis, and geometry; and appropriate professional education courses. Students must apply and be accepted into the upper-level education courses. A minimum overall GPA of 2.5 is required. In addition, students will need to take the Praxis I exam or have sufficient SAT scores to exempt the Praxis.
Students must receive credit for the calculus courses Math 2211, 2212, and 2215, and for Math 2420, CSc 2010, and 2310 in the core curriculum Areas A-F or as electives.

404/651-2275
http://www.gsu.edu/~wwwrot/web.html

K. Bret McElhinney, Chair

Faculty: Clark, Gass, Jordan, McElhinney, West

The Department of Military Science and Leadership, most often referred to as the Reserve Officer’s Training Corps (ROTC),
offers an introduction to the management opportunities available in the United States Army, Army Reserve, and Army National
Guard.

The basic course (MSL 1000 and 2000 series) provides college freshman and sophomores a unique and challenging curriculum,
and it requires no obligation to military service. The advanced program (MSL 3000 and 4000 series) is designed for students with
two years of undergraduate or graduate study remaining. The upper-level program requires an obligation for the student to serve
in the Army National Guard, Army Reserves, or on Active Duty as a commissioned officer. The summer between your MSL 3000
and 4000 level classes you will attend a 32 day leadership internship at Ft Lewis, Washington that certifies your capability to
serve as an officer in the Army National Guard, Army Reserves, or on Active Duty. Entering ROTC can be personally, physically, and financially rewarding. Stipends of $250-450 per month as well as scholarship opportunities are available.

**3250.10 Interdisciplinary Minor in Advanced Leadership and Management**

An interdisciplinary minor in advanced leadership and management is designed specifically for those individuals who are planning a career in the U.S. Army as commissioned officers. This minor may not be used as a substitute for any minor required by a student’s academic major and cannot be considered as a student’s area of concentration. The undergraduate minor in advanced leadership and management is intended for any student whose major does not require a specific minor, thereby permitting this minor to fulfill that requirement. Students who complete the minor will be prepared for military service and positions of higher responsibility and leadership within the civilian work place.

### 3260 Department of Modern and Classical Languages

841 General Classroom Building  
404/651-2265  
[http://www.gsu.edu/~wwwmcl/](http://www.gsu.edu/~wwwmcl/)

Kathleen Doig, Chair  
Héctor Fernández-L’Hoeste, Associate Chair

Faculty: Austin, Bonnet, Braunrot, Carey, Cash, del Rio Parra, Doig, Fernández-L’Hoeste, Hanley, Huff, Lawson, Le_Calvez, Lupi, Mendez, Miller, Nichols, O’Connell, Paden, Perla, Reati, Restenberger, Rodrigo, Semonsky, Schlig, Takatori, Torres

The Department of Modern and Classical Languages serves a threefold purpose: to encourage an appreciation of humanistic values through the study of foreign languages, literatures, and cultures; to teach foreign languages as a means of communication; and to prepare students for academic careers and the opportunities available in the field of international business. As part of a dynamic urban university in a city of growing international awareness and status, the department is fulfilling its responsibility to meet the increasing foreign language needs of the governmental, business, and professional communities.

The department recognizes that an active command of the foreign language and a thorough exploration of the foreign culture form an essential basis for further study in the various areas of its curriculum. To this end, the department sponsors study-abroad programs in Madrid and Guadalajara (Mexico).

The department maintains a state-of-the-art multimedia Language Acquisition and Resource Center (LARC) with a digital audio laboratory with 34 student computer workstations. The digital lab serves a dual purpose in allowing both independent student access to digitized audio files and interactive software that accompanies the language texts, and also in providing a multimedia environment for teacher-led listening, speaking, and recording activities. In addition to the audio lab, the LARC features a tutoring center and resource library, as well as five stand-alone computers for student use. To assist in the development of the student’s active language skills and to provide added cultural enrichment, the LARC contains a wide range of audiovisual materials, including a growing collection of videos, CD Roms and DVDs.

The department sponsors two Freshman Learning Communities each year. One group is designed for students interested in using their foreign language in international business. The other, sponsored jointly by the Department of Applied Linguistics/ESL, is in Language Studies.
For students who hope to teach at the K-12 levels, the department offers concentrations that lead to certification in French, German, Latin, and Spanish.

For students who view language study as a preparation for a career in the business world, the department has two special programs: a concentration in the business language of French, German, and Spanish; and a practicum in an internationally oriented business or service organization in the metro area for qualified and interested students in their senior year.

The department is also a testing center for diplomas certifying proficiency in business language and procedures. These diplomas are granted by chambers of commerce in various countries.

All foreign language majors are encouraged to consult regularly with their departmental adviser in designing and following a program of study that fits their own career objective and the requirements of their particular concentration.

Students are also urged to consider combining their major with a second major in another language or another discipline under the Double Major option.

2. Additional courses must be taken as electives to complete a minimum of 120 semester hours, exclusive of 1000/2000 physical education or military science courses. Up to six additional hours may be taken in the major.

**Minor Offerings**

Students who wish to minor in a foreign language must take 15-18 hours in courses in the language, including at least nine semester hours at the 3000 level or above. Students taking more than 15 hours of courses in the language may count the additional hours toward their electives or may consider completing a double major. (A grade of C or higher is required in all courses counting toward the minor.)

**Residency Requirement**

A minimum of 39 semester hours in courses at the 3000 level or above must be completed in residence at Georgia State University with an average grade of C or higher.

**B.A. in French, German, or Spanish and M.I.B. Joint Degree Program**

Highly qualified and highly motivated students interested in languages and international business may apply for this joint-degree program that leads to an undergraduate degree in French, German, or Spanish and a Master of International Business. It is a demanding program that combines classroom study in the chosen second language with the international business curriculum. There will be at least one mandatory internship abroad in the final year, with a second strongly recommended study or work experience abroad, usually during the third or fourth year. Completion of the program in five years will mean that students must be willing to attend classes in the summer, as necessary. For further information please contact: Department of Modern and Classical Languages, 841 General Classroom Building, 404/651-2265, E-mail: mclinfo@gsu.edu.

For students interested in Japanese, the Bachelor of Interdisciplinary Studies in Japanese/Asian Studies can also be combined with the MIB in the Joint Degree Program. For more information, contact Yuki Takatori, 404/651-2265 or mclytyt@langate.gsu.edu.

David Myers, Associate Director and Undergraduate Director

The mission of the School of Music is to provide a comprehensive, rigorous, and innovative academic program that is consistent with the urban context and mission of Georgia State University that serves the pursuit of artistic, professional, and scholarly excellence through experiences of lasting value for all stakeholders.

The School of Music meets this mission by providing all university students with courses designed to help them understand and enjoy music, and by offering Bachelor of Music and Bachelor of Science degrees that prepare students for careers in music or further study at the graduate level. The undergraduate degree in music includes specializations in performance (brass, percussion, strings, woodwinds, keyboard, guitar, and voice), music education, music composition, jazz studies, music recording technology, and music management. In addition to courses and degree programs, the School of Music offers concerts, recitals, lectures, and workshops that are open to all students and to the community.

The School of Music is an accredited institutional member of the National Association of Schools of Music. It participates in the Honors program and offers Honors courses in music. The School of Music also offers scholarships that are awarded to students based on their academic achievement and musical merit.

Facilities
The School of Music is located in the historic Fairlie-Poplar District in downtown Atlanta. Four buildings comprise the Music Complex: the Haas-Howell Building at 75 Poplar Street; the Rialto Center for the Performing Arts at 80 Forsyth Street; the Standard Building at 92 Luckie Street; and the Aderhold Learning Center at 60 Luckie Street, which houses instrumental and choral rehearsal halls. Some classes are held in the Arts and Humanities Building at 10 Peachtree Center Avenue. Chamber music, faculty, and student recitals are presented in the Kopleff Recital Hall in the Arts and Humanities Building. Large ensembles perform throughout the academic year in the Rialto Theater, an 850-seat, state-of-the-art performance venue located in the heart of downtown Atlanta.

Entrance Requirements
Applicants to the Bachelor of Music degree program must meet the entrance requirements of the School of Music and those of Georgia State University. The university Office of Undergraduate Admissions will provide information concerning requirements that must be met for admission to the university.

Students who wish to apply for admission to the School of Music should contact the School of Music office or consult the website to request application materials and to make an appointment for an audition. Applicants to all programs are required to audition in one of the following performance areas: voice, keyboard, guitar, brass, woodwind, string, or percussion. They must also take music placement tests that are designed to assess listening skills (pitch and rhythmic discrimination), music reading skills, and knowledge of terms and symbols of music.

Admission to the degree program in music is based on (1) the level of performance skill demonstrated in the audition, (2) the results of the music placements tests, and (3) the availability of openings in the various performing areas.

Applicants to the Bachelor of Science degree in music management must audition and interview for admission. The interview includes an assessment of interest, background, and basic music skills.

Music majors previously accepted by the School of Music must re-audition for reentry after an absence of two consecutive academic terms (not counting the summer session).

With permission, introductory level courses may also be used by music minors or approved non-majors. Is not applicable to degree requirements in one’s principal performing medium. Authorization is required. One credit hour per semester; one-half-hour lesson each week.
2000 level: Lower level. For entering freshmen and sophomores in all music concentrations. One or two credit hours per semester; one hour lesson per week.

Musical Ensembles
Musical ensembles (choral groups, jazz ensembles, orchestra, and wind ensembles) are open to all Georgia State students by audition.
Every student who is registered for applied music is required to enroll in a conducted ensemble. String, woodwind, brass, and percussion students should generally enroll in Mus 1060/3060 and 1070/3070. Voice students should generally enroll in Mus 3080 or 3080A. Keyboard students may enroll in Mus 1060/3060, 1070/3070, 1080/3080, or 1080A/3080A according to their degree requirements.
A music student may be required to perform in more than one ensemble. Factors considered in making assignments will include the specific needs and abilities of the student and the requirements of the various ensembles.
All music majors (except music education) are required to complete a minimum of eight credit hours of ensemble. Only one credit hour of ensemble per semester may be applied to the total. Assignments to specific ensembles are made each fall semester through “pool” auditions, which are required for all students in the school.
The Applied Cluster

To insure comprehensive development in performing, all music majors are required to register for and participate in the following performing activities: a) private study (applied music); chamber music/performance laboratory; and large conducted ensemble, i.e. wind ensemble/band, choir/chorus, or orchestra (jazz band may count 4 semesters only for students in jazz studies concentration; vocal jazz does not count as a large ensemble). Students may be required to participate in studio classes as scheduled by private instructors. In addition, students must attend labs/master classes as required by studio instructors. Some programs require that students register for credit in chamber music. Those not required to register for credit must register for chamber music under Mus 4010. These activities are collectively known as the Applied Cluster. Students must register for large ensemble and chamber music or performance laboratory during each semester of applied music study.

In general, music majors must register for the applied cluster for eight academic terms. The exceptions to this policy are in the music education and music management concentrations.

Two or three credit hours per semester; one-hour lesson per week.

Concert Attendance (Mus 1100)

Concert attendance (Mus 1100) is required of all music majors. Although the course shows on a student’s transcript, it carries zero credit; there is no fee for concert attendance. To fulfill the requirements for the Bachelor of Music degree, students must receive a grade of “S” for the number of semesters of Mus 1100 required by their concentration or receive a grade of “S” for each semester of applied music required while attending Georgia State University. Transfer students must fulfill Mus 1100 for the number of semesters required to earn their degree, to a maximum of six.

Selecting a Concentration

Undergraduate students who plan to complete a Bachelor of Music degree in any of the following concentrations offered by the school must pass the Qualifying Exam for entrance to these concentrations during their fourth semester of applied study: Performance, Theory, Jazz Studies, Recording Technology, Composition, and Music Education.

Requirements for each concentration are available from the School of Music office. Students wishing to become candidates for music management degrees should consult with their music management program adviser regarding concentration requirements.

Music Education Concentration

The School of Music offers a concentration in music education to prepare students for teaching in elementary and secondary schools in the specialties of choral/general music and instrumental music.
In addition to the general requirements for entry into teacher education (“College of Arts and Sciences” section), students who plan to concentrate in music education must meet the following requirements of the School of Music: they must be interviewed by the music education faculty, who will evaluate (1) their statement of career goals and philosophy of teaching, (2) academic and musical achievements, and (3) personal characteristics.

Students who meet the above requirements may enroll in music education courses at the 3000 and 4000 levels. To be retained in the music education concentration, students must maintain musical and academic standards, which consist of grades of B or higher in all music education methods courses and proficiency in keyboard, guitar and, depending on the specialization, voice, brass, woodwind, strings or percussion.

Prior to student teaching, students will be evaluated by the faculty to determine their qualifications for student teaching. These qualifications are (1) an overall GPA of 2.5 or above, (2) a GPA of at least 2.5 in all music courses, (3) grades of C or higher in all of the courses in the concentration, and (4) grades of B or higher in all music education methods courses. In addition, students must have demonstrated their teaching competence as determined by the music education faculty.

Application for Entry to Teacher Education

Music education majors must file a formal application for entry into teacher education using the form available in the College of Arts and Sciences Academic Assistance office (724 General Classroom Building). Students should apply for entry into teacher education upon completion of 60 hours of course work, including courses required in Areas A through D and EPSF 2010. An overall cumulative GPA of 2.50 is required, and students must have passed the Praxis I (a test of basic reading, writing, and mathematics skills) and Regents’ exams.

Music Minor

The School of Music offers minors in music and music management. A background in music is helpful but not necessary. Each minor requires 18 semester hours of course work in music, 9 of which must be at the 3000-4000 level. Courses include music theory, music history, performance, and electives. Certain courses entail prerequisites that may not count toward the 18 credits required for the minor. Students interested in either minor should contact the School of Music main office at 404/651-3676 for further information. An advising appointment and approval by the associate director of the School of Music are required before students may accumulate credits toward the minor.

3280 Department of Philosophy

34 Peachtree St., 11th Floor

George Rainbolt, Chair

Faculty: Almeder, Altman, Blumenfeld, Cohen, Dwyer, Jacobson, Merritt, O’Keefe, Rainbolt, Rieber, White
Philosophy is the study of the principles of knowledge and valid reasoning; the foundations of morality, law, and society; and the fundamental structures of reality. It is an attempt to understand the basic commitments concerning human beings, God, and nature that guide the personal and professional lives of people and that constitute an essential aspect of human culture. It is also a search for critical tools to evaluate these commitments and to ensure objectivity, disciplined insight, and rational argument.

Philosophy majors are urged to consult with their advisers in order to prepare the course of study most appropriate to their individual interests and needs. Philosophy minors and all students intending to take philosophy courses are invited to discuss their goals and needs with members of the Department of Philosophy. The department maintains an extensive website, http://www.gsu.edu/philosophy.

Major in Philosophy

Philosophy is an appropriate study for anyone wishing a broad liberal education that teaches one how to think and that promotes self-awareness. It is particularly appropriate as a major or minor for those contemplating a career in law, administration, public service, politics, business, education, or religion. Students in other fields are encouraged to consider the possibility of a double major with philosophy.

The Department of Philosophy offers a wide variety of courses especially developed for students in business, health sciences, education, and public and urban affairs, as well as for those who pursue a scientific or humanistic career. For those studying the humanities or the sciences, philosophy provides invaluable critical skills, insight into methodological presuppositions, and an appreciation of the intellectual currents that have shaped history.

A special component of the department’s program is a series of courses in applied philosophy, the study of which provides skills having practical application in one’s personal, social, and professional life. Courses in this area include philosophy of law, biomedical ethics, and business ethics.

Major in Philosophy with a Pre-Law Concentration

The study of philosophy is excellent preparation for law school. The critical thinking skills, expositions clarity and argumentative rigor required in philosophy provide students with the tools they need to be successful in law school and as lawyers. Moreover, philosophy majors have traditionally had the highest average scores on the LSAT and the highest admit rates to law school of any major. (For this data, see http://www.gsu.edu/philosophy, and click on “Major.”)

William H. Nelson, Chair
David Wingert, Undergraduate Director

All degree programs described below are built on a core of 21 semester hours of physics numbered 3400 or above and establish a strong background in mathematics by providing nine semester hours of 3000- and 4000 level courses. The standard program is designed to prepare the student for graduate school or immediate employment upon graduation. Students selecting the standard program must complete 16 semester hours of physics and mathematics beyond the core set of physics and mathematics courses listed below. As an alternative to the standard program, courses in one of several specific areas of concentration may be chosen as described below. The available areas of concentration are applied physics, astronomy, pre-medicine, biophysics, geology, and computer science.

A central objective of Georgia State University is that all graduates from its programs will be proficient in writing, critical and analytical thinking, and use of information resources. In support of this objective, the Department of Physics and Astronomy explicitly incorporates activities to develop these skills as appropriate in each course.

To schedule an effective program of study, it is very important that all students intending to major in physics consult with the physics faculty adviser as soon as possible. Physics majors should pay special attention to the early completion of the mathematical requirements if they are to complete their physics requirements during the usual four-year span. The first calculus course should be taken during the freshman year, and the second and third calculus courses should be completed during the sophomore year. The department recommends that General Chemistry I and II be taken during the freshman year. The beginning physics sequence (Physics 2211K-2212K) should be completed before the end of the sophomore year. Students who enter the physics major after completing a noncalculus level elementary physics sequence should consult with their departmental adviser on the best method of preparing for more advanced courses in physics.

The degree programs described below do not require a foreign language. However, the department recommends that students continue their high school experience to a level of competency equivalent to Georgia State’s 1002 level or higher.

Political science is the study of “who gets what, when, and how” in the distribution of goods and values in society and in groups. Specifically, political scientists study the determinants of such distributions, including political parties and voters, public opinion, interest groups, bureaucracies and administrative behavior, public law, international relations, international law and organizations, national security, intergovernmental relations, political behavior, political philosophy, comparative politics, public policy, and conflict.

Students may specialize in any of the five fields of the discipline: American politics and government, comparative politics, international affairs, political theory, and public policy and administration. The department also provides specific concentrations for majors and minors in pre-law and in international affairs.

The proximity of Georgia State University to the center of government for the Southeast and the State of Georgia and its location in an international city of business, communication, and transportation provide unique opportunities for students to observe and participate in government and politics. For example, many qualified students serve as interns as part of their academic program.

Through completion of this concentration and allied field concentrations, students earn the Certificate in Pre-Education Broad Field Social Science. Graduates may then seek entrance into the alternative master of education program in social studies in the College of Education at Georgia State to gain state certification or into a comparable program at another institution. For admission requirements of the alternative M.Ed. Program in social studies education, see the College of Education.

Students should consult with their departmental advisers in making choices.

**Area H: Minor and/or Additional Courses**

Psychology is the science of the behavior of humans and animals. The topics of investigation range from the life sciences to the social sciences, and applications occur in clinical, industrial, community, and other social contexts. Psychological knowledge contributes to the understanding of experience and behavior and to the formation of optimal personal relations.

A career in psychology usually requires a graduate degree. An undergraduate major in psychology can serve as a prerequisite for graduate study in psychology or as background for other careers, e.g., business, law, medical or allied health sciences, and teaching. A major in psychology also can serve the general interest of liberal arts education. The department maintains reference materials, including videotapes and an Internet website to assist in career advisement. Students wishing to be psychology majors must first be advised by Academic Assistance of the College of Arts and Sciences and then by the psychology undergraduate adviser.

3310.10 Degree Requirements

The Department offers a general program in psychology plus concentrations in specific areas of psychology. The general program offers the most choice in courses for a degree in psychology. Concentrations have more restrictive curricula than the general program and are intended to prepare students for a more specific career path. See the descriptions of the concentrations (below) for more information. Most students will be in the general program. Students planning graduate school or other advanced training in an area related to one of the concentrations should consider applying for admission to that concentration.

Majors who meet the requirements in Areas 1, 2, and 3 and do not choose to pursue a concentration will graduate in the general program.

General Program in Psychology (32)
Area 1: Basic Requirements (11)

Area 1 courses must be completed by the end of the junior year (90 hours). Students with 90 hours who have not completed all Area 1 courses may not register for any psychology courses other than those in Area 1. To insure that this requirement is met, students should take Psyc 3010 (a prerequisite for Psyc 3030) during the first semester of the junior year. Failure to complete these courses in a timely manner may delay graduation.

Required Courses:
- Psyc 3010 Psychological Statistics (4)

**Concentrations**

Psychology majors wishing to graduate in a concentration must be accepted into the concentration and meet the requirements for graduation listed below. They also must meet all general program requirements listed above.

Students must complete all lower-division requirements prior to being admitted to a concentration. Application for a concentration may be made during the semester when the lower-division requirements will be completed or a later semester. Students completing a concentration will receive a certificate and will have an appropriate annotation placed on their transcript.

**Pre-Education Track in Psychology**

**Social Studies Education Concentration in Psychology**

The Social Studies Education Concentration in Psychology is designed for students who wish to become secondary school teachers. This degree provides the initial content area preparation for the Alternative M.Ed Program in Social Studies Education in the College of Education at Georgia State University or a similar master’s degree at another university. Contact the department for additional information.

**Community Psychology Concentration (32)**

Community Psychology is an area of psychology that aims to apply psychology toward improving the well being of human groups. An ecological perspective, a prevention orientation, and an appreciation of diversity characterize this area. Often community psychology takes the form of “action research” in which knowledge gained from basic research or psychological theory is applied in real-world settings. At other times it takes the form of relatively more basic research on social problems or community functioning. The concentration is most appropriate for students who are concerned about social and environmental problems, such as drug abuse, homelessness, and violence. The curriculum should prepare graduates either to pursue graduate education in community psychology or to work in community-based organizations.

Area 1: Basic Requirements

(See “General Program in Psychology,” Area 1, described above.)

Area 2: Advanced Core (9)

1. **Required Courses (6)**
   - Psyc 4020 Social Psychology (3)

Students interested in attending medical school are advised to consider the premedicine concentration. Those wishing to pursue this concentration should be aware that the requirements will differ from those listed in the regular psychology curriculum. The psychology department has a premedicine adviser. For more information on the premedicine curriculum contact the Office of Academic Assistance, College of Arts and Sciences, Room 724, General Classroom Building, 404/651-2291.

Area H: Minor and Additional Courses
1. Students majoring in psychology are not required to take a minor.
2. Additional courses in a department/school/institute other than Psychology must be taken as electives to complete a minimum of 120 semester hours, exclusive of 1000/2000 physical education or military science courses.

The department participates in the Honors Program (See “Honors Program,” described previously) and sponsors a chapter of Psi Chi, the national honor society in psychology. Qualified students are encouraged to participate in these programs. The diplomas of students who complete the University Honors Program indicate that they graduate with honors in psychology.

3320 Department of Religious Studies
34 Peachtree Street, 11th floor
404/651-2277
http://www.gsu.edu/religion

Timothy Renick, Chair
Kathryn McClymond, Director of Undergraduate Studies

Faculty: Herman, Iskander, McClymond, Renick, White

Founded in the past century, the modern field of religious studies endeavors to better understand religion by means of modern academic approaches. Philosophical questions are considered, such as are all mystical experiences in essence the same, and can we reconcile evil with the existence of god(s)? But the field also asks anthropological, sociological and historical questions: how have the beliefs and practices of Shinto shaped the modern Japanese corporation? Why did first-century Gnostic Christianity lose out to what we would eventually come to know as Christian Orthodoxy? Who was Buddha?

Religious Studies is not only a new discipline; it is relatively new to Georgia State University. Started as a program in the 1980s and becoming a full-fledged department in 2005, the Religious Studies Department offers almost fifty undergraduate courses, as well as the opportunity for students to explore the interdisciplinary nature of the field by taking additional courses from the Departments of Anthropology, African-American Studies, Art History, History, Music, Philosophy, Political Science, and Sociology.

Offerings in religious studies, all of which are taught from a nonsectarian perspective, include comparative courses on such topics as world religions, religious thought, religious ethics, mysticism, and women and religion, as well as a host of courses on specific religious traditions including Buddhism, Hinduism, Shinto, Taoism, Confucianism, Judaism, Christianity, and Islam. Courses in religious studies contribute to a student’s understanding of the beliefs and actions of diverse
peoples and cultures. They also contribute to the student’s self understanding through uncovering and exploring major tenets of his or her own culture.

The major in religious studies is designed to provide a rich training in the liberal arts and is particularly appropriate for those students considering careers in government, health, law, education, international business, social work, the ministry, or media. Students in other fields are encouraged to consider the possibility of a double major with religious studies. Students can find a more detailed description of the Religious Studies Program and its offerings, as well as news about its faculty and upcoming events, on the Web at [http://www.gsu.edu/religion](http://www.gsu.edu/religion).

Sociologists study power dynamics as they relate to family life, race, gender, class, sexuality, deviance, selfhood, social change, urbanization, aging, birth and death, and a host of applied topics. Students majoring in sociology explore the ways in which individual agency affects and is limited by social structures.

Students majoring in sociology may choose one of six programs of study. Majors can follow the general program in sociology, or they can select a concentration in family; race and urban studies; gender and sexuality; gerontology; or social studies education. Students completing concentrations are awarded a certificate in their area of concentration from either the Department of Sociology or the Gerontology Institute.

Women’s Studies proceeds from feminist perspectives that recognize the full humanity of everyone. It recognizes and examines the different ways oppressions like those based on class and race intersect with each other and with gender and the ways these reflect differences in cultures and historical periods as well as various patterns of colonialism and global hegemonies. Being interdisciplinary, Women’s Studies challenges categories, claims, and ways of thinking in traditional disciplines.

Students wishing to major or minor in Women’s Studies must meet the requirements for the Bachelor of Arts degree as described earlier in this catalog. Students should come to the WSI office to receive advisement.

The College of Health and Human Sciences is committed to the preparation of health and human science professionals and offers undergraduate, graduate, and certificate programs that prepare students for careers in the health and human science professions. The programs are designed to meet the health and human service needs of the citizens of Georgia. Classes and practicum experiences are designed to foster involvement in the urban community. The programs are responsive to the needs of both full-time and part-time students and to students entering both first and second careers. Courses are taught in traditional classroom format, through distance learning, and by web-based instruction. Graduates of the programs are prepared for entry-level positions in their profession, for continuation of their education in advanced degree programs, and for making a positive impact on the health and well being of the citizens of Georgia.

The baccalaureate program in the Byrdine F. Lewis School of Nursing is approved by the Georgia Board of Nursing and is accredited by the Commission on Collegiate Nursing Education. The Commission on Accreditation of Allied Health Education Programs accredits the baccalaureate program in the Department of Cardiopulmonary Care Sciences in collaboration with the Committee on Accreditation for Respiratory Care. The Didactic Program in Dietetics in the Department of Nutrition is currently accredited by the Commission on Accreditation for Dietetics Education of the American Dietetic Association. The Council on Social Work Education accredits the baccalaureate program in the School of Social Work.

At the undergraduate level, the College of Health and Human Sciences offers a Bachelor of Science degree with programs in criminal justice, nursing, nutrition and dietetics, and respiratory care, and a Bachelor of Social Work degree.

The Office of Academic Assistance assists and supports programs in the College of Health and Human Sciences by providing academic advisement for students in the college. Advisers in the office assist students in course selection and schedule revisions and provide information concerning college and university policies and procedures. Advisers also counsel students and applicants on admission to the undergraduate professional programs and graduate programs in the college.
5040 Academic Advisement

Students in the College of Health and Human Sciences receive advisement from faculty members in their department or school as well as from advisers in the Office of Academic Assistance. Students in a pre-professional program status are generally advised in the Office of Academic Assistance until entry into the professional program when they are advised in the department or school. In the Office of Academic Assistance, students are advised by appointment except during walk-in times that are provided for brief questions. Walk-in advisement is 10:00 a.m. to 11:00 a.m. on Tuesday and Wednesday, and 3:00 p.m. to 4:00 p.m. on Wednesday and Thursday. Additional walk-in hours are available during the periods of registration when appointments are assigned.

5050 Admission Requirements

Acceptance to Georgia State University into a major in the College of Health and Human Sciences allows a student to take prerequisite course work leading to a professional program. A separate application process through the individual department or school is required for acceptance into the professional programs in nursing, nutrition and dietetics, respiratory care and social work. No separate admission is required in the criminal justice program.

The professional programs in nutrition and dietetics, respiratory care, and social work begin annually in the fall semester only. The professional programs in nursing begin semi-annually in the fall and spring semesters. Admission to these programs is highly competitive, and students are encouraged to inquire about admission criteria, policies, and deadlines as soon as possible.

It is highly recommended that a student wishing to enter the programs in nursing, nutrition and dietetics, and respiratory care take one year of biology and one year of chemistry in high school.

Applicants for admission to the professional programs in nursing, nutrition and dietetics, respiratory care, and social work must be able to demonstrate prior to admission an ability to meet certain technical standards of performance which are necessary to carry out their activities as health and human service professionals. They must demonstrate the functional use of their senses that will allow them to elicit appropriate information, as well as to perceive nonverbal communications from patients or clients whom they are serving. They must be able to communicate effectively and efficiently in oral and written form. Additionally, each applicant should be able physically to provide reasonable care and emergency treatment when necessary.

The departments/schools in the College of Health and Human Sciences reserve the right to require the withdrawal of any student at any time in order to preserve and maintain the program’s standards of scholarship and conduct.

International applicants to the professional programs whose native language is not English, regardless of language of instruction, may be required to submit acceptable results from an English proficiency examination.

Each separate school or department may require other, more specific, technical abilities in its consideration of candidates for admission to its program.

5060 Credit for Transfer Work

The specific credit for work done at other institutions that may apply toward a degree from the College of Health and Human Sciences is determined by the Student Advisement Center, the Office of Academic Assistance, and, if appropriate, the school or department concerned. The amount of such transfer credit shall not exceed that allowed by the Office of Admissions of the university. Allowance of transfer credit by the Office of Admissions does not mean necessarily that all such credit will be accepted toward a degree from the College of Health and Human Sciences.

5070 Credit for Transient Work

Students in the College of Health and Human Sciences who wish to take course work at another college must have prior written approval from the Office of Academic Assistance if they wish to apply that credit to a degree program. The student must be in good academic standing at Georgia State University. Transient approval will not be granted to take courses at Atlanta-area colleges when the course is readily available at Georgia State. Please consult the “Academic Regulations” section of this catalog for additional regulations pertaining to transient status.

5080 Clinical, Field Experience, or Internship

As part of the degree completion requirements for some of the programs in the College of Health and Human Sciences, the student will be placed in a clinical setting which requires the student to care for and/or be exposed to individuals and patients of all ages and with a variety of diagnoses and symptoms, some of which are communicable and infectious. However, unless otherwise required by law, the Georgia State University College of Health and Human Sciences does not grant special consideration or waiver of any degree completion requirements, including placement in a clinical setting.

Please note that some majors must complete a clinical program, field experience or internship during their program. Some students will be placed with a clinical affiliate that gives care to vulnerable populations or deals with sensitive information. As a
result, the affiliate may request a criminal background check or drug screen as a pre-requisite for placement. If a student uses illegal drugs, has a criminal record before they declare their major or acquire a criminal record after declaring their major, they might be prohibited from participating in the clinical program, field experience or internship. Since the program or internship is a requirement, the student might be prevented from completing the degree program. Students are referred to the College’s Statement on Criminal Background Checks and Drug Screens at http://chhs.gsu.edu.

5090 Graduation

Coursework with a grade of D can satisfy no more than 12 semester hours of degree requirements. A minimum grade of C is required in all major courses, including HHS courses. Certain programs may require a grade of C or higher in other courses as well. A 2.0 grade point average is required for graduation.

Any deviations from catalog requirements are unauthorized except by approval of the department/school or by written petition filed through the Office of Academic Assistance and properly approved by the appropriate committee.

Please note that licensing boards or agencies for program-related occupations may deny, suspend or revoke a license if an applicant has a criminal history or licensee is convicted, pleads guilty or nolo contendre to a felony or other crime. Students should consult the licensing board corresponding to their intended occupations for more details. Successful completion of a program of study in the College of Health and Human Sciences does not guarantee licensure, certification, or employment in the relevant occupation.

5100 Student Appeals Procedure

The appeals procedures for students in the College of Health and Human Sciences are available in the Office of Academic Assistance, 845 Urban Life, or on the web at http://chhsweb.gsu.edu. The “Student Appeals Policy and Procedure” provides for an impartial review of a grading decision that cannot be resolved between the student and instructor. The “Student Petition for Waiver” provides students with the procedure to follow if they wish to petition for a waiver of established policy and procedure from curricular and/or programmatic requirements. All students may obtain assistance in interpretation of appeals policies and procedures in the Office of Academic Assistance.

5130.10 Program in Respiratory Care

Respiratory care is a health care profession dedicated to the support and management of individuals with abnormalities or deficiencies of the cardiopulmonary system.

The respiratory therapist is an expert in therapeutic and diagnostic modalities associated with the pulmonary system, as well as the heart. He or she must have a working knowledge of chemistry, microbiology, and physiology as well as respiratory therapy. This background affords the therapist the ability to become proficient in working with respiratory life support systems. Under the guidance and supervision of a physician, the therapist treats by employing academic knowledge and technical skill for direct patient care. For a dedicated man or woman who finds a service field rewarding, respiratory therapy offers a career opportunity as a vital member of the health care team that is both personally and financially rewarding.

The Department of Cardiopulmonary Care Sciences offers a program that leads to a Bachelor of Science degree. The program provides classroom study with observation, clinical experience, independent study, and seminars.

The overall purpose of the Department of Cardiopulmonary Care Sciences is to provide a quality education that is relevant and professionally sound to meet the respiratory therapy needs of the health care community. Inherent to this purpose is the goal to prepare respiratory therapy practitioners who can demonstrate the attitudes, skills, and knowledge required to meet the changing needs of the community. It will be necessary for the respiratory therapist to cooperate with all members of the health care team in identifying and solving the problems related to respiratory diseases and disorders of the cardiopulmonary system. The respiratory therapist must be able to think critically, communicate effectively, demonstrate good judgment, and provide self-direction. It is a primary objective of the respiratory therapy program to educate well-qualified, competent respiratory therapists who demonstrate leadership ability.

The baccalaureate degree program in respiratory care seeks to establish an atmosphere in which the student achieves respect for the dignity and worth of the individual, the capacity for critical thinking, a genuine desire for knowledge, and the realization of his or her own potential.

Graduates of the baccalaureate program are qualified to enter the Registry Examination System of the National Board for Respiratory Care (NBRC). The program is fully accredited by the Committee on Accreditation for Respiratory Care (CoARC).

5130.20 Departmental Requirements

A minimum grade of C is required in all major, major-field-related, and mathematics and natural sciences courses for graduation. If a student’s progress is interrupted at any point in the program through withdrawal or unsatisfactory performance, the student will no longer be in the program. If an individual applies to reenter the program, consideration will be given on the same basis as any new applicant. Curriculum changes are made whenever necessary to keep the learning experiences up to date and relevant in this rapidly changing technological field. Students will be expected to subscribe to these changes whenever they are necessary.

Students are expected to provide their own transportation to clinical training sites. Students are expected to comply with the policies and regulations of the department regarding absences, tardiness, standards of performance, conduct, dress code for the clinical areas, and other regulations as specified. A copy of these policies and regulations may be obtained from the department and will be given to all entering students.

Although respiratory therapy courses are intended to be taken by students majoring in the Department of Cardiopulmonary Care Sciences, selected courses may be taken by nonmajors with written permission of the instructor of each course and the department chair. All professional courses involving a component of clinical training are open only to professional program majors.

5130.30 Admission Requirements

Admission to the Department of Cardiopulmonary Care Sciences is limited. In addition to meeting the general admission requirements of the university, the applicant must meet the specific admission requirements and regulations of the Department of Cardiopulmonary Care Sciences. Acceptance into the program is based competitively on the factors of demonstrated academic ability, consistency of performance, personal qualifications, including motivation and interpersonal abilities.

International applicants whose native language is not English, regardless of language of instruction, must submit acceptable results from the Georgia State Test of English Proficiency (GSTEP). Because of the communication demands in the profession of respiratory care, both with patients and staff members, and the critical nature of clinical care, adequate verbal and written comprehension of English is necessary.

Individuals who desire to pursue respiratory therapy as a profession and show academic ability may apply for admission. Enrollment in the Department of Cardiopulmonary Care Sciences is limited and, therefore, early application is advisable. Applications are accepted through the summer preceding the fall semester in which admission is desired. The Office of Admissions evaluates the credentials of students transferring from other colleges and universities. Acceptance into the university does not ensure admission into the respiratory therapy program.

Students taking the prerequisite courses in colleges or universities other than Georgia State University should take equivalent course work.
Students are admitted into the professional courses in the fall of the junior year. Students who are graduates of CoARC-approved A.S. degree programs may apply for advanced standing to the B.S. degree program.

The Department of Cardiopulmonary Care Sciences has a comprehensive advanced standing policy. The department utilizes the following mechanisms to assess the awarding of credit in advanced standing: transfer credit and credit for professional credentials. The department maintains a philosophy of educational flexibility to meet the needs of the profession.

5140 Department of Criminal Justice

Michael S. Vaughn, Chair

Faculty: Blackwell, Camp, Collins, Dabney, Finn, Friedmann, Holleran, Reed, Stewart, Taylor, Terrill, Topalli, Vaughn, Warner
The term “criminal justice” refers to public safety agencies, courts, and corrections as a system for the administration of city, county, state, and federal laws. The curriculum also focuses on the causes of crime and theoretical explanations relating to the crime problem. The Department’s curriculum is designed to provide students with a liberal arts education that focuses upon basic skills such as the ability to read critically, to write clearly, to speak effectively, and to think analytically. The criminal justice curriculum in this department represents a broad range of study designed to meet the academic needs of both pre-professional students and those already employed in a wide range of agencies that make up the criminal justice and juvenile justice systems.

Both the justice system and the causes and consequences of criminal behavior are the focus of this program of study. The juvenile or adult who is accused of conduct that violates the law will be affected by law enforcement, prosecutorial, judicial, and correctional agencies. The requirements of degree programs in this department stress an integrated view of the criminal justice system. In this view all components of the system interrelate with all other components to provide coordinated justice administration. The criminal justice curriculum is designed to give students an understanding of the developing theoretical knowledge base in this field of study while simultaneously providing an understanding of how each of the component parts relate to one another. Additionally, students learn how the justice system influences and is influenced by other institutions in society.

Student’s learning in the classroom is enhanced as faculty bring forth a myriad of expertise in criminal justice and criminology. Currently, faculty research topics highlight legal issues in the criminal justice system; the impact of race, sex, and class in criminal justice processing; communities and police; evaluation of criminal justice programs; comparative criminal justice; crime and the media; domestic terrorism; healthcare fraud; crime in organizations; juvenile delinquency; criminological theory; and the role of aggression in crime and delinquency. Faculty conduct research drawing on their expertise in a variety of quantitative and qualitative research methods, thus allowing them to bring not only their topical expertise, but also their methodological experience, into the learning environment.

Degree programs offered through the Department of Criminal Justice include Bachelor of Science in criminal justice and Master of Science in criminal justice. The bachelor’s degree program complies with the core curriculum requirements of the University System of Georgia. A student should complete the lower-division core curriculum requirements prior to taking upper-division courses.

5140.10 Program Policies

1. A grade of C or higher is required in CrJu 1100 (or equivalent transfer course) and all 3000/4000-level Criminal Justice courses at Georgia State University (GSU). A grade of C or higher is required in all courses in Areas G-L.

2. A minimum 2.00 cumulative grade point average at GSU is required to register for 3000/4000-level criminal justice courses. There are no exceptions to this policy.

3. A minimum of 45 semester hours (15 courses) must be completed in 3000/4000-level criminal justice courses at Georgia State University. HHS 3000 is included in the 45 hours; CrJu 1100/3100 and CrJu 2200 are not included.

4. The Department of Criminal Justice believes that all students who are in internship experiences (class and field) must be personally and psychologically equipped as well as academically prepared. A student may be denied entry into internship field experience based on departmental prerequisites or the professional judgment of faculty based on observed performance, behavior, or documentation which indicates erratic, unpredictable, or unsuitable conduct. This policy is based on the premise that criminal justice faculty should be part of the evaluation of a student’s ability to function adequately and safely in a criminal justice setting and that faculty has a right and responsibility to make such judgments prior to placing a student in an internship. The internship coordinator has the authority to withdraw a student from a classroom and/or field experience (i.e., CrJu 4930, CrJu 4940) if the student’s performance constitutes a detriment to the students in the class and/or to personnel at the field internship site. If such removal is necessary, the student will be given an F for the course(s).

5. All completed applications and contracts must be turned in to the Department of Criminal Justice by the following dates in order to be considered for an internship that particular semester. **There will be no exceptions.** January 15 for summer semester; March 15 for fall semester; September 15 for spring semester.

6. Please note that all criminal justice majors must complete an internship during their final semester in the program. Some students will select placement with an agency that deals with sensitive information. As a result, a background check might be a requirement for placement. Background checks include prior arrests and convictions, abuse of illegal drugs, and DUI convictions. If students have a criminal record either before they declare their major or acquire a criminal record after declaring their major, they might be prohibited from participating in the internship. Since the internship is a requirement, they might be excluded from the degree program.

7. The Department has two options from which students must choose: the Crime and Justice Track or the Legal Track. The Crime and Justice Track includes the traditional curriculum for criminal justice majors. The Legal Track is designed for criminal justice majors who are interested in an intensive exposure to law in preparation for law school. Students who fail to choose a track will automatically be placed in the Crime and Justice Track.

Alice S. Demi, Director

Krista Meinersmann, Associate Director for Undergraduate Programs

Faculty: Bacon, Baldwin, Browning, Carmon, Colman, Cranwell-Bruce, Demi, DiFalco, Doerr, Gaines, Gebhardt, Gordon, Grantham, Grindel, Hayes, Hewell, Horne, Howell, Kassens, Kee, Kelley, Koci, McGehee, Meinersmann, Minick, Moloney, Patusky, Pfaff, Quinn, Weston, Williams, Wold

5150.10 Undergraduate Program
The Byrdine F. Lewis School of Nursing offers a curriculum leading to the Bachelor of Science degree with a major in nursing. Upon the completion of the baccalaureate program and subject to the rules of the Georgia Board of Nursing, the graduate becomes eligible to write the National Council Licensure Examination required for becoming a registered professional nurse. Generic students may enter the nursing program in the fall semester or the spring semester, RN-BS completion students may enter the nursing program in the fall only.

The university catalog in effect at the time a student is admitted to the nursing program will normally apply to a student. However, the nursing curriculum and other requirements are subject to change in order to comply with regulations of accrediting agencies or with institutional or university-system policies. Every effort will be made to notify students of such changes; however, it is the student’s responsibility to become aware of all current program and college requirements. Students who withdraw from the nursing sequence may enter under the current catalog if space is available in nursing courses with a clinical requirement. Academic credit for nursing courses for a student who withdraws from the nursing program is valid for a five-year period. Abnormal Psychology (Psyc 3140) and Anatomy and Physiology I and II (Biology 1110K - 1120K) must be completed within five years prior to beginning the nursing sequence. Special exceptions may be made to this policy with the director’s permission.

Academic advisers work closely with students to plan programs; however, it is the student’s responsibility to see that course prerequisites are met as required. The student is expected to follow the program planned in conjunction with the assigned academic and faculty advisers.
In order to provide appropriate learning experiences nursing classes will be scheduled during the day and evening hours. In
the event these experiences require the student to return to the clinical setting at times other than scheduled laboratory times, it
is the student’s responsibility to be there as requested for the duration of the learning experience. Students’ personal schedules
must be flexible to meet clinical requirements. Students will be expected to provide their own transportation to the clinical setting.

The School of Nursing reserves the right to make those program changes deemed appropriate. Curriculum changes are made
whenever necessary to keep the learning experiences up to date in this rapidly changing field. Students will be expected to
subscribe to these changes whenever they can do so without increasing the number of hours required for completion of the
degree. The student is responsible for adhering to policies and procedures specified in the School of Nursing Undergraduate
Student Handbook. Degree requirements must be completed in order to meet the eligibility requirements for writing the
professional nurse licensure examination.

5150.20 Accreditation

The baccalaureate program of the Byrdine F. Lewis School of Nursing is approved by the Georgia Board of Nursing. The
baccalaureate and master’s programs are accredited by the Commission on Collegiate Nursing Education.

The School of Nursing maintains membership in the Council of Member Agencies of the Southern Council on Collegiate
Education for Nursing of the Southern Regional Education Board, and the American Association of Colleges of Nursing.

5150.30 Honors and Awards

Students may graduate with honor in the Byrdine F. Lewis School of Nursing if the criteria listed under the “Honors” section
of this chapter are met.

The Evangeline Lane Founders Award is given to graduating seniors who have a 3.5 overall average in those courses
required for the Bachelor of Science degree in nursing, and a 3.67 average or its equivalent in the nursing courses. These
recipients will receive a certificate suitable for framing.

The Merle Lott Scholarship is given to a registered nurse who is interested in public health nursing and is returning to
school in the RN-BS or RN-MS program. This graduate is expected to work in the public health arena.

The School of Nursing is a member school in the nursing honor society Sigma Theta Tau International. Georgia State
University is the home of the Epsilon Alpha Chapter. The Sigma Theta Tau Academic Achievement Award is presented annually
by the Epsilon Alpha Chapter to the graduating generic and registered nurse nursing student who has maintained the highest
scholastic average upon completion of the baccalaureate program.

5150.40 Admission Requirements

The student must meet the general admissions requirements of Georgia State University and the College of Health and
Human Sciences. Acceptance to the university allows the student to register for prerequisite course work leading to the
professional program in nursing and does not guarantee automatic admission into the nursing program. Acceptance into the
professional program requires a separate application and admissions process. Students will be admitted on a space-available
basis.

Two program options are available in the undergraduate nursing program: the traditional option and the accelerated option.
The traditional option is six semesters and does not require summer classes. The accelerated option is four semesters, includin
g summer over a 16-month period. Students in both options have identical degree requirements; however, the accelerated option
has more stringent application requirements.

Traditional Option Prerequisites: The following courses are prerequisites, which must be completed before entering the
traditional option in the fall or spring semester:

- Area A courses of the Core Curriculum
- Biol 1110K, Biol 1120K - Anatomy & Physiology 1 & 2
- Biol 2300, Biol 2310 - Microbiology with lab
  Physics 1 & 2) OR Biol 1103K, Biol 1104K (Introductory Biology 1 & 2) are accepted.

It is recommended that Nurs 2010 be taken before beginning the nursing courses, but it is not required. Traditional Option
Requirements:

1. Acceptance to Georgia State University.
2. Completion of prerequisite courses.
3. A minimum grade point average of 2.50. Higher grade point averages receive preference for admission.
4. A nursing entrance exam.
5. A two-page typed paper discussing the applicant’s position on a current social or health-related issue.
6. Two letters of reference. One should be academic (high school or college instructor); one should be professional
  (employer, volunteer organization, etc.).
7. An Application Cover Sheet form.
8. Answers to a short list of questions that are included with the Application Cover Sheet form.

Accelerated Option Prerequisites: The accelerated option requires the following prerequisites, in addition to those listed for the traditional option, be completed before entering the first semester of the accelerated option:

- All core curriculum requirements, Areas A-E
- Nurs 2010 (Health and Human Development Across the Lifespan)
- HHS 3000 (Communication and Cultural Diversity)
- Psyc 3140 (Abnormal Psychology)

Accelerated Option Requirements:
1. Acceptance to Georgia State University.
2. Completion of prerequisites courses.
3. A minimum grade point average of 2.8 for applicants already holding a bachelor’s degree; a minimum grade point average of 3.0 for applicants who do not yet hold any bachelor’s degree. Higher grade point averages receive preference for admission.
4. A nursing entrance exam.
5. A two-page typed paper discussing the applicant’s position on a current social or health-related issue.
6. Two letters of reference. One should be academic (high school or college instructor); one should be professional (employer, volunteer organization, etc.).
7. An “Application Cover Sheet” form.
8. Answers to a short list of questions that are included with the “Application Cover Sheet” form.

Admissions selection for both options is based on GPA, number of and grades earned in required science courses taken, score on the nursing entrance exam, letters of reference, and a social/health issue paper. If the applicant’s native language is not English, regardless of language of instruction, he or she may be required to submit acceptable results on the Georgia State Test of English Proficiency (GSTEP) or the Test of English as a Foreign Language (TOEFL).

It is important that students are aware of the current level of competition for admission. The program can accommodate only a limited number of students each year.

The application deadline for the fall semester is March 1. The application deadline for the spring semester is October 1. Early applications are advisable. Application forms are available on the Web at http://chhs.gsu.edu/nursing, or in the Office of Academic Assistance, College of Health and Human Sciences, 845 Urban Life Center, 404/651-3064. Information on the nursing entrance exam may be obtained from the Office of Records and Information in the Byrdine F. Lewis School of Nursing, 404/651-3040. The cost of the exam is the applicant’s responsibility.

Upon receipt of an acceptance letter from the School of Nursing, the student will be required to attend an orientation meeting before the first semester of nursing classes begin. The student must complete required forms and health-related requirements prior to the first semester of nursing classes. The accepted student must submit to the School of Nursing a current health record (and must keep this record current). Evidence of in-force liability insurance and current cardiopulmonary resuscitation certification by the American Heart Association is required for enrollment in clinical nursing courses. The cost of cardiopulmonary resuscitation certification and liability insurance is the student’s responsibility.

Clinical practice will require that the applicant obtain student uniforms that meet School of Nursing standards. The cost of lab supplies is the responsibility of the student. Students may be required to have a criminal background check and a drug screen based on hospital policy.

When applying to sit for the Georgia Board of Nursing licensing examination (NCLEX) upon graduation, students will be asked to respond to a question regarding any violations of federal, state, or local law. Students may be required to provide documentation to the Board explaining any such circumstance. The Georgia Board of Nursing has the exclusive authority to issue a license for the Registered Professional Nurse and could decline to issue a license based on an applicant’s prior criminal record. Further information regarding this requirement can be obtained from the Georgia Board of Nursing or any other state licensing board where practice is contemplated.

5150.50 Advanced Placement for Registered Nurses (RN to BS Bridge Program)

The undergraduate nursing program at Georgia State University has a mechanism for advanced placement of registered nurses in the generic baccalaureate program. The program is approved by the Georgia Board of Nursing and is accredited by the Commission on Collegiate Nursing Education. The purpose of the advanced placement for registered nurses is to increase the opportunities for registered nurses to obtain the baccalaureate degree in nursing.
Eligibility
1. Acceptance to Georgia State University.
2. Graduation from an NLN-accredited associate degree or diploma program.
3. Current registration to practice as a registered professional nurse in Georgia.
4. Evidence of practice as a registered nurse in the United States for at least one year within the three years immediately preceding the semester of enrollment in the clinical nursing courses.
5. Grade point average of at least 2.7.
6. Successful completion of a nursing entrance exam.
7. Upon receipt of an acceptance letter from the School of Nursing, the student will be required to meet with an adviser and to complete required forms and health-related requirements prior to entry into the nursing sequence.
9. A two-page typed paper discussing the applicant’s position on a current social or health-related issue.

Professional Courses
Credit is given for the following nursing (Nurs) courses based on the R.N. license: Nurs 2040, Nurs 2060, Nurs 2061, Nurs 2080, Nurs 2160, Nurs 3510, Nurs 3610, Nurs 3710, Nurs 3810. Credit is also given for HHS 3000 and Nutr 3200.

Course Work
The applicant must meet the requirements for core, support, and professional courses. The requirements for these courses may be met in one of the following ways:
1. The student may transfer credits as deemed acceptable by the University, the Office of Academic Assistance, College of Health and Human Sciences, and the School of Nursing;
2. The student may take CLEP examinations to meet a course requirement when applicable;
3. The student may take these courses at Georgia State University.

Core Courses
These courses meet general university core course requirements and require a grade of C or higher: Engl 1101, Engl 1102, Math 1111 or Math 1101, Biol 1110K, Biol 1120K, Chem 1151K, Chem 1152K (recommended in Area D), Biol 2300/2310, Psyc 1101 (recommended in Area E), and Nurs 3010.

Support Courses
These courses have been selected to facilitate the student’s learning experiences in nursing courses: Phil 1010 (recommended course in Area B), one course from Pers 2001, Pers 2002 or Spch 1000, Hist 2110, PolS 1101, Psyc 3140*, one course from Hist 1111, 1112, Econ 2100 or PolS 2401, Statistics* (Psyc 3010 or Soci 3010 or Math 1070), Span 1002 (recommended course in Area C), and one additional course in Humanities/Fine Arts. Courses followed by an asterisk (*) must be completed with a grade of C or higher.

5150.60 Academic Policies
No grade below a grade of C in a major course will be credited toward a degree. Every student must attain a passing grade of C in every nursing and allied field course. A minimum grade of C is also required in statistics. All nursing majors must maintain a minimum GPA of 2.0 to remain in the nursing sequence.
A student may be terminated from a clinical course prior to the completion of that course if, in the judgment of the student’s clinical instructor, the student’s clinical practice jeopardizes the safety of a patient. Course failure would violate the grade of C or higher rule and result in dismissal from the clinical nursing course sequence. A student may repeat a nursing or allied field course in which a grade of D, U, F or WF was received one time only. Failure of the repeated course or a second nursing or allied field course results in termination from the program. In the event a student is unsuccessful in Nurs 3510, Nurs 3610, Nurs 3710 or Nurs 3810, the student may take one new clinical course (Nurs 3510, Nurs 3610, Nurs 3710, Nurs 3810) concurrently with the course that must be repeated, or the student may take one new course prior to repeating the failed course, based on space availability.

The Byrdine F. Lewis School of Nursing reserves the right to require the withdrawal of any student at any time in order to preserve and maintain the school’s standards of scholarship and conduct. Furthermore, if the student has been sanctioned for any violation of university rules, procedures, or policies, an automatic review and determination of that student’s progress in the program will occur.

The procedure for reentering students may be found in the previous section entitled “Admission Requirements.”

Each teaching team establishes the attendance policies for classroom and clinical experiences. In general, however, all learning experiences are required. Due to the complexity involved in selecting and supervising clinical learning experiences, students are required to complete all assignments promptly.

Traditional program students are expected to have completed the Regents’ Test requirements by the end of the sophomore year. Selected achievement tests are required throughout the program. An end-of-program exit activity will be required of all nursing students. Generic students will be given an exit exam at the midpoint of the last semester before graduation. RN students will submit a social or health care issue paper as a required exit activity. A passing score is required to meet graduation and program completion requirements. Costs for all testing are the financial responsibility of the student. An evaluation packet is required and must be completed in the final semester of the program.

Additional information, including regulations on program probation, suspension, and dismissal, is included in the School of Nursing’s Undergraduate Student Handbook. Students are responsible for the information in this handbook as well as that in other university publications.

The Didactic Program in Dietetics (DPD) is a Bachelor of Science degree program that provides the student with the appropriate course work to apply for a dietetic internship. The program is accredited by the Commission on Accreditation for Dietetics Education of the American Dietetic Association (CADE), 120 South Riverside Plaza, Chicago, IL 60606, 312/899-5400. The program is accredited until 2011. The DPD enables graduates to be eligible for any dietetic internship accredited by the CADE, the completion of which permits the taking of the national examination to become a registered dietitian. An accredited dietetic internship program is also available in the Department of Nutrition. Graduates of the department’s DPD will be given priority for the internship if they meet eligibility requirements. Contact the department for more information about the dietetic internship.

**Mission Statement—Didactic Program in Dietetics (DPD)**

To graduate students with the knowledge, insight, and skills to participate effectively as dietetic professionals in a contemporary society:

**Didactic Program Goals**

Upon completion of the requirements for the Didactic Program in Dietetics (DPD), the graduate will:

1. Possess a broad educational background in the physical, biological, social, and communication sciences, along with advanced knowledge in the areas of food and nutrition as evidenced by successful completion of courses in the curriculum;
2. Have the comprehensive background needed to successfully complete a supervised practice experience (DI) and the registration examination as evidenced by supervised practice placements and pass rates on the registration examination for dietitians;
3. Have the didactic knowledge necessary to become competent, entry-level dietitians who can function in a variety of settings as evidenced by job placement and pass rates on the registration examination for dietitians; and
4. Have the ability to effectively use resources and apply research principles to investigate and resolve issues related to the dietetics field as evidenced by problem-solving and critical thinking skills.

**5160.10 Admission Requirements**

The DPD, because of its professional nature, has more stringent admission requirements than those of Georgia State University. Students will be formally admitted into the DPD program for the nutrition concentration at the beginning of the fall semester of the junior year.

Before being formally admitted to the DPD, students must have completed prerequisite courses and have applied to the department. Application packets will be available in February of each year and must be returned to the Office of Academic Assistance, College of Health and Human Sciences by May 1. Courses in nutrition, organic chemistry, human physiology, microbiology, and biochemistry must be completed within ten years prior to beginning the DPD. A student must have a minimum of a 2.5 GPA and must have a letter grade of C or higher in all science and nutrition courses. Selection will be based upon academic performance, a letter of reference from a college professor, and a statement of professional goals.
Nutrition courses completed at other institutions may be considered for transfer credit if they have been completed within ten years prior to beginning the DPD.

Once admitted to the DPD, a student must maintain a 2.5 GPA and receive a grade of C or higher in all science and nutrition courses. If the GPA drops below a 2.5 or a letter grade of C is not received in science or nutrition classes, the student is ineligible to continue in the DPD until the GPA reaches a 2.5 or a grade of C or higher is earned in the science or nutrition class. Students are required to purchase consumable materials in some laboratory courses.

The purpose of social work education is to prepare competent, effective social work professionals who are committed to practice that includes service to the poor and oppressed, and who work to alleviate poverty, oppression, and discrimination. Social work education is based upon a specific body of knowledge, values, and professional skills. It is grounded in the profession’s history and philosophy. Education for the profession promotes the development and advancement of knowledge, practice skills, and services that further the well being of people and promote social and economic justice. Social work education is responsible for the production and application of research and scholarship aimed at advancing social work practice.

The School of Social Work offers a Bachelor of Social Work degree (BSW) through an educational program accredited by the Council on Social Work Education (CSWE). Both the academic content of the program and its administrative procedures are consistent with the accreditation standards of CSWE. The social work curriculum represents a highly developed plan of professional education that consistently emphasizes the interface between theory and practice. The curriculum for the BSW degree may be viewed in two major sections. The lower division (60 semester hours), a liberal arts foundation, reflects those content areas which meet the standards prescribed by the Board of Regents of the University System of Georgia and by the College of Health and Human Sciences. The upper division courses (60 semester hours) have been developed to meet the guidelines for baccalaureate social work education as prescribed by CSWE, particularly as those courses can maximize appropriate knowledge and skills for entry-level, generalist social work practice.

The goal of the School of Social Work is to prepare students for competent and ethically responsible generalist social work practice. Specific objectives of the school are: (1) to enable students to demonstrate appropriate knowledge, skills, and values necessary for the beginning level of professional generalist social work practice with individuals, families, groups, organizations, and communities in an urban setting; and (2) to prepare academically qualified students for graduate social work. Successful completion of this program may lead to advanced standing in many accredited graduate programs of social work.

5170.10 Admission and Student Categories

The requirements and procedures for admission to Georgia State University are summarized in the university section of this General Catalog. That application process permits a potential student to indicate the college in which the individual wishes to register upon acceptance and to indicate the intended major. Based upon that application, an individual may be accepted by the university and by the College of Health and Human Sciences. Entering students who wish to major in social work begin their affiliation with the School of Social Work in a Pre-Social Work (PSW) status. A later, separate application and decision process is required before a student can be formally accepted into the Bachelor of Social Work (BSW) status. The priority application deadline is May 15 prior to the junior year. However, applications will be accepted after that date.

Pre-Social Work (PSW) Student

All students admitted to the School of Social Work begin as Pre-Social Work (PSW) students and change their status only after the student has made formal application and formal admission has been granted. PSW status is assigned to students who have not completed all lower-division courses in Areas A-F or have not met GPA eligibility requirements. To complete these areas, PSW students must register only for the lower-division courses specified in their advisement files.

Bachelor of Social Work (BSW) Student

For a student to be considered for BSW status, the student must:
1. File a formal application in the school for BSW status.
2. Have grades of C or higher in English 1101 and 1102.
3. Have successfully completed Areas A through F (except SW 2000).
4. Have a minimum grade point average of 2.5 or better in the lower-division courses counted for completion of Areas A-F and a minimum grade of C or higher in SW 2000, if completed.

BSW status indicates that a student has demonstrated commitment to professional social work and has been recognized by the school as being ready to utilize that commitment in the demanding preparation for practice in this field. A student with BSW
status is expected to internalize the values and ethics of social work and to develop and enhance professional practice skills. In this process, the BSW student is expected to abide by the academic regulations related to the program as outlined in this catalog and in the school’s Student Handbook. Among those academic regulations is the requirement that a student have a grade of C (2.0) or better in each of the social work major courses that are required in Area G.

Entry into the BSW program is a selective process on a space availability basis. A student who meets only the minimum GPA or other criteria is not necessarily guaranteed acceptance. Qualified students who are denied entry at one point in time will be placed on a competitive waiting list in the order of their denial to await possible access to the program at a subsequent time.

5170.20 Academic Advisement

Students in the School of Social Work are required to participate in academic advisement. Each entering PSW student is assigned to a professional staff member in the Student Advisement Center or in the college’s Office of Academic Assistance who serves as the student’s academic adviser. PSW students should meet with that assigned academic adviser prior to registering for any courses, and those advisement appointments are available during any semester. When the student achieves BSW status, the student will be reassigned to the director of the BSW program for initial program advisement. Before the end of the junior year, the student will be assigned to a social work faculty adviser. The student is expected to meet with that assigned academic adviser at least once each academic semester for the purpose of beginning or enhancing acculturation to the field of social work, as well as for sequencing course selections in accordance with school procedures. BSW advisement appointments are scheduled only during the fall and spring semesters, so students are expected to plan accordingly. In an emergency situation, the student (PSW or BSW) may discuss advisement needs with the BSW program director.

Course sequencing in the BSW program begins only in the fall semester, and a student is admitted to BSW status in accordance with that schedule. PSW and BSW students are expected to follow the written course advisement plan developed in the advisement process, both in terms of course selections and in the sequencing of those courses. Deviations from the advisement plan without the written authorization of the assigned academic adviser or the BSW program director may result in the school’s blocking future registrations that do not conform to the advisement plan or may result in an extension of their course of study. In addition to the review and possible withdrawal of a student from the program, as described in “Review of Academic and Professional Practice Demands,” a student who misses or fails a course but is permitted by the school to continue in the program must work closely with the assigned academic adviser and the BSW program director to determine the most appropriate point at which to continue degree-related course work. If a student in BSW status is inactive for two academic semesters, the student will be returned to PSW status and must file a new, competitive application to reenter the BSW status.

5170.30 Field Education

Field education is an integral component of the BSW curriculum and involves the placement of social work students in educationally supervised agency settings. The primary purpose of field education is to enable students to integrate social work theory and practice through the direct application of social work knowledge, values, and skills. Field education provides opportunities to test and refine classroom learning in professional social work settings. BSW students must have a minimum of 400 supervised hours of field education over a period of two consecutive semesters. Students are required to attend a classroom-setting field integrative seminar as part of their field education. The purpose of the integrative seminar is to provide field education students a forum for the synthesizing of classroom learning with their field-based internship.

Students may apply for field education only after lower-division and prescribed social work courses and other requirements have been satisfactorily completed, as explained in the school’s Student Handbook. Students enroll in field education for the fall-spring semesters. Field education applications must be turned in to the Director of Field Education by February 15 for the following fall semester placement.

Grant—Child Welfare

The School of Social Work, in partnership with the Georgia Department of Human Resources, has scholarships available under the Title IV E, Child Welfare Training. The scholarship includes tuition and fees, books, and mileage. Recipients must take specific child welfare electives and must complete a field placement in a public child welfare setting. Upon graduation, recipients must commit to work for the Division of Family and Children Services on a year-for-year basis.

5170.40 School of Social Work Policies and Procedures

Georgia State University is an equal educational opportunity institution. Faculty, staff, and students are admitted, employed, and treated without regard to race, sex, color, age, religion, national origin, sexual orientation, or disability. Georgia State University complies with Title IX of the Education Amendments of 1972, Titles VI and VII of the Civil Rights Act of 1964, the Civil Rights Act of 1991, Sections 503/504 of the Rehabilitation Act of 1973, the American with Disabilities Act of 1990, the Vietnam Era Veterans Readjustment Assistance Act, as well as other applicable federal and state laws.

Students should refer to the current Undergraduate Catalog to ensure compliance with university policies and procedures.
Codes of Ethics

All students admitted into the B.S.W. program are expected to read, understand, and follow the National Association of Social Workers (NASW) Code of Ethics. Each student who is admitted into the program is given a copy of the current code of ethics. This code provides a set of values, principles, and standards to guide conduct and decision making when interacting with clients and colleagues and for when critical issues arise.

Review of Academic and Professional Standards – The Policy

Students admitted into the School of Social Work will be held by the academic standards set by the University and the College of Health and Human Sciences. Students will be held to the professional standards set by the school and the National Association of Social Workers. Students should familiarize themselves with these requirements as found in the undergraduate and graduate catalogs for the university and the College of Health and Human Sciences.

A. Academic Competence

BSW students are required to maintain at least a grade of “C” (2.0) or better in each of the social work major courses, which are contained in Area G. Social work course(s) in which a grade below a “C” was earned must be retaken. Please be advised that due to course sequencing if this situation occurs, the initial graduation date may have to be postponed. BSW students must also successfully complete a minimum of 400 hours of field placement.

B. Professional Competence

Georgia State University’s School of Social Work has the goal of educating competent social work practitioners. If a student fails to meet the standards set by the National Association of Social Workers and/or the School of Social Work, corrective action may be taken. Corrective action is intended to provide students and faculty with the opportunity to openly discuss problems and issues identified, and to seek a solution to correct the situation or problem presented. Dismissal from the program is an option and may supercede any discussion of corrective action. Professional incompetence signifies that a student is not adequately or appropriately performing at his or her program level.

Failure to comply with the policies and procedures of Georgia State University and/or the College of Health and Human Sciences and/or the School of Social Work may result in a student’s dismissal from the program.

The Robinson College of Business provides the Office of Undergraduate Academic Assistance for the benefit of its students.

Mission: This office supports the college’s mission of and commitment to academic excellence by assisting enrolled students in the development of meaningful educational plans that are compatible with their life goals. The office helps undergraduate students become knowledgeable about academic programs, pertinent regulations, and services available throughout the university.

Areas of responsibility: To support the undergraduate aspects of its mission, the Office of Undergraduate Academic Assistance works with B.B.A. students in these areas:

- to provide programs of study for each major offered by the college;
- to indicate to transfer students the specific credits for work done at other institutions which can be applied toward the B.B.A. degree;
- to assist students in course selections and schedule revisions each semester;
- to explain catalog regulations;
- to administer policies for the college and the university;
- to refer students to other sources of help in the university.

Students are advised by appointment except during walk-in times that are provided for brief questions that can be resolved in ten or fewer minutes. Walk-in advisement is 10 a.m. - 11 a.m. on Monday, Wednesday and Friday and 3 p.m. - 4 p.m. on Tuesday. Additional walk-in hours are available during some phases of registration. Contact the Office of Undergraduate Academic Assistance for dates and times. Appointment hours are 8:30 a.m. - 5 p.m. on Monday, Tuesday, Wednesday, and Friday and 8:30 a.m. - 1 p.m. on Thursday.

7080 Advisement

To ensure orderly progression through the degree program, students are urged to keep their catalogs and evaluations of credits readily available and to refer to them frequently as they schedule courses each semester. Students’ familiarity with their degree requirements is the foundation for advisement provided by the college.

B.B.A. students can be advised by academic advisers in the Office of Undergraduate Academic Assistance as described in the preceding section. Advisement from this office is not mandatory for the B.B.A. program, but the college encourages students with questions about their degree requirements or the academic regulations of the college or university to contact their adviser.

All students also may consult faculty members in the academic units of the college with questions about course content or for help in selecting major courses after reviewing the description of the major in the catalog. Students should contact the academic unit in advance to arrange a conference with a faculty adviser.
Professional assistance in selecting a career area is available through the university’s Counseling Center, 106 Courtland Street; the services of this center are described in the “Student Life and Services “ chapter of this catalog.

## 7090 College Honors Day

Each spring semester a College Honors Day is observed to recognize students in the Robinson College of Business for their academic excellence.

## 7100 Beta Gamma Sigma

Membership in Beta Gamma Sigma is the highest general scholastic honor a business student can receive at Georgia State University, and it is recognized as such throughout the academic and business communities. Nominations for membership in this national honorary business fraternity occur early in spring semester. Second-semester juniors who are in the upper seven percent of their class and seniors in the upper ten percent of their class are eligible for nomination.

## 7110 Business Learning Community

The Robinson College of Business offers a special Business Learning Community (BLC) for sophomore students in the fall and spring semesters. The BLC builds on the successful model of the Freshman Learning Community, giving students an integrated business curriculum and providing them with an introduction to the many programs offered in the Robinson College of Business. (See the Freshman Learning Community heading in a later chapter of this catalog.) Enrollment in the BLC is on a first-come/first-serve basis and requires a minimum 3.00 Georgia State GPA.

Students who are not a declared major in the Robinson College may be interested in the BLC program as the basis for a business minor. For students who are undecided about their major but have an interest in business, the BLC is a good way to get exposure to some business disciplines with required courses in the B.B.A. program. One of the major benefits of the BLC program is that its structure allows students to take multiple classes with a group of classmates, providing opportunities to work and learn together. The classes in the learning community are limited to 40 students, providing opportunities for more interaction with professors.

The Business Learning Community consists of the following grouping of courses:

### Fall Semester:
- Econ 2105 Principles of Macroeconomics
- Acct 2101 Principles of Accounting I
- BusA 3000 Globalization and Business Practices
- Plus two additional three-hour courses of the student’s choice.

### Spring Semester:
- Econ 2106 Principles of Microeconomics
- Acct 2102 Principles of Accounting II
- BusA 2106 Legal Environment of Business
- Plus two additional three-hour courses of the student’s choice.

For questions, phone (404/651-2895) or e-mail Dr. Marta Szabo White (mwhite@gsu.edu), BLC Faculty Adviser and Assistant Professor of Managerial Sciences.

## 7120 Tutorial Facilities

Tutorial facilities are available to students who may need assistance with writing or mathematics and are described in the “College of Arts and Sciences” chapter of this catalog.

## 7130 Academic Regulations

Students seeking a degree in the Robinson College of Business are encouraged to become familiar with the academic regulations of the university that are given elsewhere in this catalog. The sections concerning transfer requirements and the university degree policies, including the residence requirement, the core curriculum, the constitutions and histories requirement, the Regents’ Test, application for graduation, academic recognitions, withdrawal from classes, incomplete grades, and scholastic discipline, are of particular importance. (Consult the index for the page numbers of these sections.) The college regulations discussed below should also be read carefully.
7140 Credit Transferred from Other Institutions

1. Some majors require that transfer credit for upper-level major courses be no more than five years old at the time the student enrolls in the B.B.A. program. Contact the Office of Undergraduate Academic Assistance for further information.

2. Course credit transferred from two-year colleges shall apply only toward freshman- or sophomore-level credit.

3. No more than 27 semester credit hours of course work earned through correspondence or extension will be accepted toward the B.B.A. degree. Courses completed through correspondence or extension may not apply toward junior- or senior-level credit.

4. Reenrollment after Transferring Elsewhere: Undergraduate students who enroll at another institution as regular students (as opposed to transient- or visiting-student status) will be considered as having transferred to that institution. If such students later reenroll in the B.B.A. program, regardless of the length of the absence, they will be subject to the curricular degree requirements in effect at the time of their return. Such students are encouraged to discuss their transfer to the other institution with their academic advisor in the Office of Undergraduate Academic Assistance in advance if they intend to apply this work toward a degree of the Robinson College of Business. Students may not take courses for degree credit at another institution during the semester they expect to graduate from Georgia State University.

7150 Policy on Allowing Undergraduates to Take Graduate Courses

Students with a cumulative grade point average of 3.50 or higher who have at least 18 semester hours of credit at Georgia State University and who are in their senior year may petition to take up to two graduate courses in the Robinson College of Business in lieu of undergraduate courses. Students interested in petitioning should contact the Office of Undergraduate Academic Assistance for a statement of restrictions and procedures pertaining to this policy.

7160 Honors Program

Robinson College of Business

Marta Szabo White, Director

Purpose

The Honors Program provides a cohort learning experience for top undergraduate Robinson College of Business (RCB) majors who strive to excel academically and accept the challenge of becoming strong, exemplary global business leaders. Honors classes will be offered for the junior business core courses, junior communications course, RCB electives, and Business Policy (capstone). A total of 27 hours of honors classes must be taken to graduate with honors. Students are strongly encouraged to participate in a study abroad program. In addition, at least one professional/social event for the RCB Honors students will be offered each semester. Honors students will also have the opportunity to network with Atlanta business professionals by serving as RCB student ambassadors at both the RCB Hall of Fame dinner and RCB Alumni Awards program. The RCB Honors Program presents students with a forum for unique opportunities, special recognitions and enhanced career prospects, while enriching the quality of their education.

Admission

Full-time students majoring in business who have completed at least 45 hours with a GSU grade point average of 3.5, or junior transfers who have a transfer GPA of 3.5 and SAT score of 1200 may apply. An interview with the faculty director of the RCB Honors Program is required for admission into the program. Students who have participated in the Freshmen and/or Business (sophomore) Learning Communities are encouraged to apply.

Scholastic Standards

Students must maintain a 3.5 grade point average (GPA) in order to remain in the honors program. A student whose average falls below 3.5 will be given up to two academic terms in which to attain a 3.5 GPA again.

Honors Recognition

Students who complete the RCB Honors program will receive special recognition at the RCB Honors/Awards program. In addition, the recognition will be recorded on the student’s transcript and diploma with an honors seal.
Honors Housing
RCB honors students will have the opportunity to live at the special Honors section of student housing.

7170 Student Appeals Procedure

Admissions Appeals: At the undergraduate level, admission decisions are made by the university rather than the colleges. The university’s Office of Undergraduate Admissions should be contacted for the proper procedure.

Appeal of Course Grades: The process of appealing a course grade is as follows:

1. A student should first review the situation with the instructor who assigned the grade. If the question is not resolved, the student may appeal, in writing, to the department chair of the instructor who assigned the grade, sending a copy of the letter to the instructor. The letter must include all points that the student considers to be germane to the appeal; additional points not contained in the initial letter cannot be considered subsequently. The written appeal must be sent to the department chair within 30 calendar days of the first day of classes of the semester immediately following the semester in which the grade was given. If the final grade assignment occurred at a time other than the normal grade reporting process at the end of the semester, the written appeal must be sent to the department chair within 30 calendar days of the date the final grade was assigned. Normally, the chair’s decision will be conveyed to the student, in writing, within three weeks of the date the student’s written appeal is received.

2. A student who believes that the appeal was handled in an arbitrary, capricious, or discriminatory manner at the departmental level may appeal in writing to the associate dean. The written appeal must be received within 14 days of the date of the letter from the department chair, and it must indicate specifically why the student believes that due process was not exercised at the department level. The associate dean will examine the facts and review the appeal with the dean of the college. The dean will then render a written decision for the college within 45 days of the date of the letter from the department chair.

3. A subsequent appeal requires a written statement to the vice president for academic affairs indicating the basis of the appeal. The statement must be received within 14 days of the date of the dean’s letter to the student.

Appeals of Suspension and Exclusion: At the undergraduate level, appeals related to scholastic suspension or scholastic exclusion are considered by the university’s Student Advisement Center. That office should be contacted for the proper procedure.

7180 Student Petitions Procedure

Requests from students for waiver of specific requirements of the college or substitution of courses in the B.B.A. degree program should be submitted in writing to the Office of Undergraduate Academic Assistance four weeks prior to the event to which the petition relates. No guarantee can be made that decisions on petitions will be made before registration if they are submitted close to the beginning of or during a registration period.

Using the college’s standard petition form is encouraged; students must follow the directions given on the form for presenting a properly prepared petition. A letter may be acceptable without the standard petition form if the letter states clearly and completely the facts relevant to the petition. For any situation or claim that can be documented, proper documentation should be submitted with the petition. Only circumstances described in the written and signed petition will be accepted from the student; oral petitions are not permitted, nor are requests to submit additional information after the petition has been reviewed.

Appropriate faculty and/or administrative staff, as determined by the dean of the college, will review the petitions. Students will receive a written response from the dean’s designee normally within 15 workdays from the date the petition is received. (Work days are counted as Monday through Friday except university holidays.)

7190 Minimum Grade Requirements for B.B.A. Students

1. A grade of C or higher is necessary to receive degree credit in the following required courses in the B.B.A. degree program: Engl 1101-1102, Acct 2101-2102, Econ 2105-2106, CIS 2010, BusA 2106; all the courses in the junior-year business core; the junior-year communication requirement; all the courses in the major; BusA 4980; the junior/senior RCB electives.

2. Students may not register for Engl 1102 or Acct 2102 until the first course in the given paired sequence is passed with degree credit (i.e., a grade of C or higher).

In addition to the minimum grade requirements in these courses, a grade of C or higher must be earned by actuarial science majors in Math 2215.
7200 Minimum GPA Requirement for All Students Enrolled in RCB Courses

Students, regardless of degree program or status, may not enroll in upper-level courses (those numbered 3000-4999) offered by the Robinson College of Business if their cumulative Georgia State University grade point average is below 2.50. Students should be aware of the following information and responsibilities:

1. This regulation will apply in early registration if the current cumulative Georgia State GPA is below 2.50.
2. Students who register for 3000/4000-level RCB courses in early registration but whose cumulative GPA falls below 2.50 at the end of the semester must amend their next semester’s schedule in regular or late registration. The 3000/4000-level RCB course(s) must be dropped. The college’s expectation is that students will act in a responsible manner in abiding by this regulation of the RCB faculty.
3. Students in their first semester at Georgia State are not affected by this regulation for that semester only.
4. Having only 3000/4000-level RCB courses remaining for degree credit is not justification for an exception to this regulation. The college encourages students to put forth their maximum effort throughout their academic career at Georgia State if they wish to avoid the time and expense involved in taking courses that do not count for degree credit. When this situation occurs, however, it is the college’s position that students can always benefit from any course taken regardless of whether the course is part of the students’ program of study.

7210 Minimum GPA Requirement for All Students Enrolled in Upper-Level Computer Information Systems (CIS) Courses

Students, regardless of degree program or status, who have attempted nine or more semester hours of credit at Georgia State University must maintain a minimum cumulative Georgia State GPA of 2.90 to be eligible to enroll in any upper-level CIS course (one numbered 3000-4999). Students who have attempted fewer than nine hours at Georgia State may enroll in upper-level CIS courses with below a 2.90 cumulative Georgia State GPA but must meet the college’s minimum 2.50 Georgia State GPA requirement for enrollment in upper-level RCB courses.

Students should be aware of the following information and responsibilities:

1. Students who register for upper-level CIS courses in early registration but whose cumulative GPA falls below 2.90 at the end of the semester must amend their next semester’s schedule in regular or late registration. The upper-level CIS course(s) must be dropped. The college’s expectation is that students will act in a responsible manner in abiding by this regulation of the RCB faculty.
2. Having only upper-level CIS courses remaining for degree credit is not justification for an exception to this regulation. The college encourages students to put forth their maximum effort throughout their academic career at Georgia State if they wish to avoid the time and expense involved in taking courses that do not count for degree credit. When this situation occurs, however, it is the college’s position that students can always benefit from any course taken regardless of whether the course is part of the students’ program of study.

7220 Course Sequencing Requirements

Students are expected to proceed through the B.B.A. program in proper sequence to receive maximum benefit from their studies. Courses that are intended for the freshman through senior years are indicated by the course numbering system (1000 level through 4000 level, respectively). The lower-level courses taken in the freshman and sophomore years provide a foundation of general education on which the junior and senior years are based.

Sequencing requirements for all students and specifically for B.B.A. students follow. Students who violate any of the course sequencing requirements are subject to disenrollment by the college regardless of performance or time lapse and will be allowed a tuition refund in accordance with the university’s refund schedule.

7230 Sequencing for All Students Enrolled in RCB Courses

Students may not register for any 3000/4000-level course taught by the Robinson College of Business until they have earned at least 45 semester hours of college-level credit.
7240 Sequencing for B.B.A. Students

B.B.A. students may not register for a course in the junior-year business core until Acct 2101, Acct 2102, Econ 2105, Econ 2106, and Math 1070 are completed with degree credit.

7250 Business Residence Requirement

At least 50 percent of the business credit hours required for the B.B.A. degree must be taken in residence at Georgia State University. This regulation is a requirement of the college’s accrediting body. These are the courses in the B.B.A. program that are considered “business credit hours:” Acct 2101, Acct 2102, BusA 2106, CIS 2010, Fi 3300, MGS 3100, MGS 3400, Mk 3010, BusA 4980, courses in the major (18-21 semester hours, depending on the major chosen), RCB electives (9-12 hours).

7260 Core Curriculum

As stated in the “Core Curriculum” section (1410) of the “University Degree Requirements and Graduation” section of this catalog, the university complies with the requirements of the core curriculum of the University System of Georgia. The 60 semester hours of course work for the freshman and sophomore years of the B.B.A. program are designed to conform to that core.

Transfer students from institutions in the University System of Georgia who followed the core curriculum at their previous institution and earned sufficient grades in courses listed in areas A through E of the core curriculum will be granted transfer credit for those relevant courses. This may mean that credit will be granted for courses that differ from those which would be taken at Georgia State University, as shown in the curriculum listed below.

Transfer credit will be given in Core Area F of the B.B.A. program for students who were following the business transfer program at a two-year college or the business curriculum for a bachelor’s degree at a four-year college or university in the University System of Georgia.

If a portion of a core area has been completed, then transfer credit for the corresponding portion at Georgia State will be granted.

7270 B.B.A. Degree Requirements

Areas A through E of the undergraduate core curriculum make up the first 42 semester hours of the freshman and sophomore years of the Bachelor of Business Administration degree program. These requirements are listed in the “University Degree Requirements and Graduation” chapter of this catalog as part of the description of the university’s core curriculum. Courses in the core curriculum that are recommended by the Robinson College of Business faculty are given in that description. These suggestions reflect choices that will be particularly helpful in providing B.B.A. students with a strong foundation for Core Area F and the junior and senior years of the program.

The hours and course requirements for Core Area F, Business Foundation, and the junior and senior years are listed in this chapter. Please note the following information:

Refer to the “Business Residence Requirement” section, listed previously in this chapter, for information on the business credit hours that must be completed in residence at Georgia State University.

Students must have completed no fewer than 45 semester hours of college-level course work before taking 3000/4000-level courses in the Robinson College. Refer to the heading “Sequencing for All Students Enrolled in RCB Courses,” listed previously in this chapter.

Consult the course descriptions section for prerequisites and descriptions of courses listed below.

- BCom 3950 Managerial Communication

Major. (Minimum grade of C or higher is required in each course.) The following major requires 18 semester hours in this portion of the curriculum:
- Finance***

The following majors require 21 semester hours in this portion of the curriculum:
- Accounting
- Actuarial Science
- Computer Information Systems
- Economics
- Hospitality Administration
- Managerial Sciences
- Marketing
- Real Estate
- Risk Management and Insurance

Courses for each major should be selected after reviewing the appropriate school or department descriptions for each major that follow and, if needed, after consultation with a faculty adviser in the school or department that offers the major. The catalog describes each major and, if applicable, lists possible areas of specialization within the major. The required courses in each major, if any, are also listed in the school or department descriptions. The college reserves the right to amend this list of majors at the end of any semester.

Junior/Senior RCB Electives. (Minimum grade of C or higher is required in each course.)
Major requiring six semester hours of RCB electives: Actuarial Science. AS 4120 must be one of the RCB electives for actuarial science majors.
Major requiring nine semester hours of RCB electives: Accounting, Computer Information Systems, Economics, Finance,*** Hospitality Administration, Managerial Sciences, Marketing, Real Estate, Risk Management and Insurance.
These electives must be selected from 3000/4000-level courses in the Robinson College of Business that are outside the student’s major and are not cross-listed with courses in the student’s major. Majors other than economics may also select from the 3000/4000-level courses in the Department of Economics in the Andrew Young School of Policy Studies.

Refer to the online course listing at http://www.gosolar.gsu.edu/webforstudent.htm to determine the Georgia State college that teaches a course. Do not refer only to the course title. For example, course titles with the words “business,” “management,” or “administration” in them are not necessarily RCB courses.

A cross-listed course is indicated by the parenthetical statement “Same as . . .” after the title in the course descriptions.

**Junior/Senior Electives Outside RCB.** These electives must be selected from the 3000/4000-level courses taught by Georgia State colleges other than the Robinson College of Business. These electives enable the B.B.A. program to meet the breadth requirement of the college’s accrediting body and cannot be taken in the Robinson College. Economics majors may not choose any economics courses for these electives.

Exceptions to the requirement that non-RCB electives be 3000- or 4000-level courses: Math 1070, 2211, 2212, 2215, and 2420 may be taken to satisfy all or part of the non-RCB elective requirement if the student will still have a minimum of 39 upper-level semester hours to complete at Georgia State. This provision ensures that the student will meet the university’s academic residence requirement.

For the following two specific majors, these required 2000-level mathematics courses may be used to satisfy part of the non-RCB elective requirement:

- **Actuarial Science:** Mathematics 2211, Mathematics 2212, and Mathematics 2215 (grade of C or higher required in Math 2215). These courses carry four semester hours of credit each. If the student’s mathematics background permits beginning this calculus sequence in Core Area A or D (in place of college algebra and/or precalculus), three-semester-hour courses that meet the requirements for non-RCB electives will replace Mathematics 2211 and/or Mathematics 2212. Thus, this portion of the curriculum can range from 10 to 12 semester hours.

- **Computer Information Systems:** Mathematics 2420.

**Business Policy.** (Minimum grade of C or higher is required in this course.)

* Students who transfer from other institutions in the University System of Georgia and have taken other approved courses in the Core Area F for business will take CIS 2010 and/or BusA 2106, as appropriate, in the Junior/Senior RCB electives section.

** Majors in actuarial science take AS 4130, Mathematical Theory of Statistics II.

*** Finance majors must take Acct 4210 as one of the RCB electives. The finance major requires an additional three semester hours that are either an RCB elective or a 4000-level finance course.

### 7270.20 Information Technology Access and Skill Requirements

**Access Requirements:** Because information technology is an integral part of business decision-making, courses in the Robinson College of Business frequently incorporate assignments that require computing skills. Consistent with university policy available at http://www.gsu.edu/~wwwist/policies.html, the Robinson College requires students to be responsible for providing computer and Internet access for all RCB courses and programs.

**Hardware and Software Requirements:** Georgia State has standardized on the Microsoft Office Suite in the student computer labs. For current information about hardware and software configurations and Internet service providers, see the website at http://www2.gsu.edu/~wwwets/index.html. Students may consult the university’s Office of Student Financial Aid for information about possible funding opportunities for computer and Internet access expenses.

**Skill Requirements:** Although students can expect to enhance their information technology skills as they work toward their degrees, the college expects all students to have certain basic skills before enrolling in any business course. These skills are defined as Basic Microcomputing Skills and are described below in the CSP 1 skills definition.

When courses require additional computing skills, these Computing Skill Prerequisites (CSP’s) are listed by number in the catalog course description.

### 7270.30 Computing Skills Prerequisites (CSPs) Definitions

The undergraduate accounting program is designed to provide the foundation-level technical and analytical accounting
knowledge and skills needed to become a professional in the accounting field and to pursue a fifth (graduate) year of accounting
study. The primary emphasis of the program is preparation for students who wish to apply for admission to the Master of
Professional Accountancy program. In addition, the program is designed to provide appropriate preparation for entry-level
positions in business and for graduate study in law or other business fields. The B.B.A. in accounting focuses on broad
business and accounting exposure based on a sound foundation of general education.

Accountants today are expected to participate extensively in the general area of business management. The profession of
accountancy is becoming increasingly divergent, encompassing such areas as financial and operational auditing, operations
research, information systems development and assurance, financial reporting, corporate tax planning, and cost analysis and
control.

In recognition of the advisability of acquiring a broadly based education in liberal arts and general business subjects, as well
as the necessity of a thorough foundation in the highly specialized and diversified fields of accounting, a person desiring a
career in accounting is encouraged to complete the entire professional program of study leading to the Master of Professional
Accountancy degree.

Minimum Grade Requirement To Satisfy Prerequisites To Any Acct Course:
A minimum grade of C is required to satisfy the prerequisites to any accounting course.

Minimum Grade Requirement to enroll in Acct 4010, Acct 4020 and Acct 4030: Students need a B average or higher in
their most recent attempts in Acct 2101 and Acct 2102, in order to enroll in Acct 4010, Acct 4020 and Acct 4030.

Limits on course attempts: A student may take a 4000-level accounting class for a grade a maximum of two times.
Required Major Courses (credit hours): Acct 4010(3), 4020(1), 4030(1), 4110(4), 4210(3), 4310(3), 4510(3), and 4610(3), for a total of 21 credit hours. Students are advised to take Acct 4010, Acct 4020 and Acct 4030 in the same semester.

Recommended Courses: Psyc 1101 or Soci 1101 as the Core Area E social science electives; LglS 4050 as an RCB elective; and Phil 3730 as a non-RCB elective. Recommended courses for students planning to enter the Master of Professional Accountancy’s accounting systems specialization, Math 2420 as a non-RCB elective; CIS 3260 as an RCB elective.

Other Requirement: Transfer credit toward the accounting major courses may not be more than five years old at the time the student enrolls. Students who reenroll after an absence of more than two years may retain major credit only for course work that is less than five years old at the time of reenrollment; this includes Georgia State credit and transfer credit.

Taking the Uniform Certified Public Accountant (CPA) examination in the state of Georgia: Beginning with the November 2003 administration of the Uniform CPA Examination, candidates may qualify to take the examination based on having earned a baccalaureate degree with a concentration in accounting. A concentration in accounting is defined as completion of 20 semester hours in accounting subjects above the principles level at a 4-year accredited college or university that offers a baccalaureate degree.

Obtaining a license to practice as a Certified Public Accountant (CPA) in the state of Georgia: A candidate must pass the CPA Exam and meet additional educational and work experience requirements, to obtain a license to practice as a CPA. Students must have completed no fewer than 150 semester hours of college credit, of which 30 semester hours have to be in accounting above the principles level and 24 semester hours in general business subjects. An applicant who meets the general, educational, and examination requirements will be issued a license to practice as a CPA upon presenting evidence that such applicant has attained two years, including 4,000 hours, of continuous experience in public accounting, under the supervision of a person licensed to practice public accounting, immediately preceding the date of application for the certificate. Five years, including 10,000 hours, of continuous employment in the accounting field in business or industry, under the supervision of a person licensed to practice public accounting, or in government or college teaching, may be accepted in lieu of the aforementioned experience requirement. Part-time experience is permitted if it is continuous.

Students may take the CPA Exam after obtaining their undergraduate degree in accounting from Georgia State University. However, the School of Accountancy recommends that students meet the licensing requirements of the law by being admitted to either the Master of Professional Accountancy or Master of Taxation degree programs after completing an undergraduate degree. Students who plan to enroll at the master’s level should become aware of the admission requirements early in their undergraduate studies; a strong academic record and satisfactory scores on the Graduate Management Admission Test are important factors in master’s-level admission.

Course prefix: CIS

In today’s highly competitive global environment, the effective deployment of information technology has become the key to organizational success. There is a continuing shortage of individuals with the combination of business and technology skills needed to develop and manage information systems that provide competitive advantage in the global marketplace. The mission of the CIS major in the B.B.A. program is to produce graduates able to fill this need. Students will learn how to combine their general business knowledge with the latest software engineering tools and techniques to create information systems needed by today’s organizations. Graduates will be prepared for careers in a variety of areas such as programming, systems development, database administration, network deployment and support, web-based systems design and development, and consulting.

The Department of Computer Information Systems cooperates with the Department of Mathematics and Statistics in offering a concentration in computer information systems associated with the degree Bachelor of Science with a major in mathematics. This program is described under the offerings of the Department of Mathematics and Statistics in the “College of Arts and Sciences” chapter of this catalog.

Required Major Courses: All undergraduate CIS majors must complete a “programming track.” A programming track consists of a beginning and an intermediate course in a two-course sequence. The student may choose from one of two tracks: (1) An Internet programming track (CIS 3260, CIS 3270); or (2) A visual programming track (CIS 3210, CIS 3215).
These major courses are required in addition to the programming track: CIS 3300, CIS 3310, CIS 3320, CIS 4970, CIS 4980, and one upper-level CIS elective.

In addition: (1) transferred programming courses must be equivalent to programming languages taught at Georgia State, and (2) students may take CIS 4970 or CIS 4980 only after completion of all required 3000-level business core and CIS courses.

Other Required Course: Math 2420 before any upper-level CIS course is taken. This course can be taken in place of a non-RCB elective.

Other Requirements: (1) Transfer credit toward the CIS major courses may not be more than five years old at the time the student enrolls. Students who reenroll after an absence of more than two years may retain major credit only for course work that is less than five years old at the time of reenrollment; this includes Georgia State credit and transfer credit. (2) CIS 2010 is an undergraduate student requirement. Graduate students fulfilling foundation course requirements are not required to take CIS 2010.

All CIS students must be proficient in the series of Computing Skills Prerequisites (CSP 1-8) listed in this catalog.

CIS Internship Program: The CIS department coordinates a limited number of internships for undergraduate CIS majors. These internships are with Georgia organizations and are subject to availability. For information and an application form, please visit http://www.cis.gsu.edu.

404/651-2626

James R. Alm, Chair

Course Prefix: Econ

The Department of Economics is part of the Andrew Young School of Policy Studies. For economics faculty listing, see the Department of Economics heading in the “Andrew Young School of Policy Studies” chapter of this catalog.

Economics examines the material prosperity of countries and their citizens in an interdependent world of limited resources and technological change. In doing so, it studies how decisions are made by private businesses, governments, and households in producing, consuming, and distributing goods. In general, economics is concerned with how society can obtain the greatest output from its limited resources. Economics is also concerned with monetary arrangements and their impact upon purchasing power and economic performance.

Economic principles yield basic insights into the workings of the market system and the national and international environment within which business operates. These principles provide analysis that is fundamental to understanding the organization and decisions of the government, business, and financial sectors. Economics also develops criteria for assessing the performance of the market systems and of governments regarding their efficiency and their impact upon the well being of consumers and workers.

Recent graduates with majors in economics have accepted positions as financial analysts for a real-estate financing firm and a major bank and as general manager for a recording studio, as well as having been accepted to prominent graduate programs in law and economics.

Required Major Courses: Econ 3900, 3910, and five other 4000-level economics courses approved by a B.B.A. faculty adviser. Econ 3900 and 3910 provide theoretical background for 4000-level courses and should be taken as soon as possible.

Advisement for Major Courses: Economics majors must contact a B.B.A. faculty adviser in the department to discuss their selection of major courses and to file a program plan. A copy of this plan will be sent to the RCB Office of Undergraduate Academic Assistance to use in preparing evaluations of credit and graduation audits. The following course groupings are offered merely as suggestions for students with interests in the areas listed.

Faculty: Branscomb, Curry, Custer, Farnham, Johnston, Ketsche, Mansfield, Scott, Sumner

Health care represents the largest single sector of the economy, and many students will ultimately assume professional roles in fields that interact with health care in some manner. Health administration careers are available in many businesses and health care organizations in areas such as hospital and health system administration, physician practice management, consulting, research, marketing, information systems, e-commerce, managed care administration, finance, accounting, compliance, and human resources management. Since all consumers are part of an increasingly complex health care system, health administration courses are relevant and appropriate for all undergraduate majors.
Upper-level elective courses in health administration, perspectives courses in the core curriculum, and freshman learning communities are offered for those interested in acquiring general knowledge of the health care system, particularly those considering careers related to health care such as physicians, nurses, or other providers. Specifically, HA 3900, Introduction to the U.S. Health Care System, and HA 3910, Health Policy in the United States, are two elective courses that offer introductions to the organization of health care delivery in the U.S. and to how health care policy is developed. Although no BBA major is available in health administration, graduate degree programs are offered: Master of Business Administration/Master of Health Administration joint programs, Master of Science in Health Administration, and the MBA with a concentration in health administration.

The Institute of Health Administration at Georgia State University has a primary mission to prepare future executives to assume responsible managerial positions in health services and business organizations. It is the only program in Georgia accredited by the Commission on Accreditation of Healthcare Management Education and is a full member of the Association of University Programs in Health Administration. Over 800 graduates hold numerous executive positions in health care and business throughout the nation.

The mission of the Cecil B. Day School of Hospitality Administration is to provide leadership in the development of students for managerial roles in the hospitality and tourism industries, scholastic contributions to its constituencies, and service to the industry at the local, regional, national, and emerging international level.

The primary goal is to provide a well-integrated curriculum incorporating courses in the arts, sciences, general business theory, and hospitality applications that will prepare our students for management positions in the hospitality industry.

The Cecil B. Day School of Hospitality Administration was named in honor of the late founder of the Days Inn Hotel chain, Cecil B. Day is remembered as an astute businessman who developed Days Inn to national prominence. He was equally respected because he gave freely of his time and wealth to worthy organizations. His legacy of excellence is the foundation upon which the program bases its philosophy for preparing future generations of hospitality executives.

The Cecil B. Day School of Hospitality Administration prepares its graduates for management and administrative careers in the following hospitality industry segments: hotel, restaurant, private club, food service, tourism, event planning, meeting planning, fairs, and trade shows. Graduates are awarded a bachelor of business administration degree with a major in hospitality administration.

Students majoring in hospitality administration will take 21 semester hours of required HAdm courses. These core courses will give the student a general knowledge of all segments of the hospitality industry. Specialized elective courses and work study experience allow students to gain additional insight regarding specific industry segments.

The school has the support of local, regional, and national hospitality executives. Georgia State University was the first institution of higher education to offer specialized courses in fair and trade show management. The school was chosen by the Club Managers Association of America to develop, produce, and direct their Business Management Institute for certification of club managers across the United States. The school is an approved location for testing for the National Restaurant Association and the Educational Institute of the American Hotel and Motel Association’s certification courses.

The program was accredited in 1992 by the Accreditation Commission on Programs in Hospitality Administration, a specialized accrediting body. The program is an institutional member of the International Council on Hotel, Restaurant and Institutional Education, the principal academic and professional association for hospitality education programs.

The faculty of the program call upon practitioners to lecture on specialized industry topics. Industry managers and executives work with faculty and college administration to maintain a program relevant to industry needs. This exception is provided to fulfill the requirements of the hospitality administration accrediting body that HAdm majors specialize in more than one area of the discipline.

**Faculty Advisement.** All new hospitality administration majors are invited to have an initial meeting with the director of the program. Hospitality majors are also assigned faculty advisers. Students are required to meet with their faculty advisers each
semester. The school offers orientation sessions at the beginning of each semester for new hospitality majors. Majors should call the school office to schedule appointments.

Work Experience Requirement. All students majoring in hospitality administration must have practical industry experience in order to be approved for graduation. Each student is given the opportunity to test career objectives and gain exposure to the work environment as it actually exists in the hospitality industry. This experience assists in developing professional work habits, provides for a smooth transition into full-time employment, helps develop self-confidence, and provides exposure to the different components of the hospitality industry. Students who have full-time jobs in nonhospitality occupations do not have to quit their jobs; however, in order to satisfy the requirements for the work-study experience, students are advised to begin working part-time in an adviser-approved hospitality position as soon as possible.

A required noncredit course, HAdm 4900, is offered each semester to assist students in meeting this work-study requirement. Students must register for this course during their senior year. They should obtain a course description packet from the school office and contact the Work Study Coordinator in the school for more detailed information.

The Department of Risk Management and Insurance is an interdisciplinary academic unit. It offers undergraduate majors in actuarial science and in risk management and insurance, together with courses in the areas of legal studies and personal financial planning.

7360.10 Actuarial Science

**Course Prefix:** AS

Actuaries have been called financial architects and social mathematicians because of their unique blend of analytical and business skills in the insurance and financial services industry, as consultants in firms that specialize in employee benefits and pensions, in the government sector, and in a variety of other roles. To be recognized as a qualified actuary, a person should become a member of the Society of Actuaries or the Casualty Actuarial Society. Admission to membership is obtained by passing a series of examinations given by the societies. Completion of the actuarial science program at Georgia State University greatly enhances the possibility of passing the examinations given by the actuarial societies.

The tremendous demand for such highly trained persons makes a career in this area very rewarding financially and in providing the satisfaction that comes from membership in a well-recognized profession.

In order to meet the critical shortage of actuarial personnel in this region, the Southeastern Actuaries Club endorsed the establishment of the actuarial program at Georgia State University as part of the university’s comprehensive insurance educational activity. The program continues to have the strong support of the actuarial profession. Inquiries concerning the actuarial profession or the details of the program at Georgia State University should be directed to the department.

**Required Major Courses:** AS 4110, 4140, 4230, 4260, 4320, 4340, 4350.

**Other Required Courses:** The calculus sequence, Math 2211, 2212, 2215, is taken in place of the non-RCB electives. For students with appropriate mathematics background, Math 2211 and Math 2212 can be taken in place of Math 1111 (college algebra) in core area A and in place of Math 1113 (precalculus) in core Area D. Students who can make one or both of these substitutions will choose one or two non-RCB electives, as appropriate.

Math 2215 must be completed with a grade of C or higher.

AS 4120 is taken in place of an RCB elective, and AS 4130 is taken in place of DSc 3120 in the junior business core; grades of C or higher are required.
It is highly recommended that new actuarial science majors consult with their major adviser at their earliest convenience so that an efficient program can be constructed in accordance with the unique nature of the actuarial science major and course scheduling requirements.

8020 European Union Studies Certificate Program

Department of Political Science
1005 General Classroom Building
404/651-3152

William M. Downs, Campus Representative

The certificate in European Union Studies is operated under the supervision of the European Council of the University System of Georgia. The program is open to all institutions and students of the University System as well as to professionals with an undergraduate degree. The program’s purpose is to promote knowledge of the European Union (EU) and certify individuals as competent in the subject area of EU studies. Since the EU is the most important economic and political partner of the United States, this certification demonstrates valuable professional expertise to potential employers. For students in the academic track, this interdisciplinary certificate can be earned as a supplement to any conventional undergraduate degree.

8020.10 Admission to the Program

A certificate in European Union Studies can be earned in one of two ways. Under the academic track, a certificate is taken in tandem with an undergraduate degree program. Students from all academic majors are eligible to participate so long as they possess a minimum 2.75 cumulative grade point average (GPA). Under the professional track, nondegree students—such as business executives—are eligible to enroll in the program upon proof of a valid undergraduate degree from an accredited institution. The minimum GPA requirement is waived.

Under either track, an application to the program cannot be made until successful completion of the following: (1) the introductory course on the European Union (POLS 4242) with a grade of “C” or better, (2) 30 semester hours of academic credit, and (3) a course in world or western civilization (Hist 1111 or 1112).

8020.20 The European Union Studies Certificate

To earn the EU Studies Certificate, students must complete the certificate curriculum (18 hours) and fulfill the practicum experience requirement. Students must have a 3.0 cumulative GPA in curriculum courses upon completion of the program. An official certificate is awarded upon graduation, and the certificate is noted on a student’s permanent transcripts.

The EU Studies Certificate Curriculum (18):
The European Union (POLS 4242) (3)
Multidisciplinary Menu (12)
A student must complete four courses from an approved menu of courses dealing substantially with the EU. These courses must be distributed among at least three different discipline areas: Social Sciences, Humanities and Fine Arts, Business and Economics, and Natural and Health Sciences. The program’s campus representative decides which courses qualify for the certificate and maintains an updated list of approved courses in the different discipline areas. No more than one course in this menu can be taken at the 1000-2000 level, with the exception of EU Studies online courses (see below) and study abroad courses. Students may substitute for up to two menu courses by performing an internship and/or composing a thesis.

**Capstone Seminar in EU Studies (3)**
Taken either as a Directed Study (POLS 4920) or online course, this is ideally the last course in the certificate program. It has three learning objectives: (1) to update students on EU developments and reinforce their general knowledge of the EU, (2) to provide in-depth knowledge of important EU issues, and (3) to allow students to conduct intensive research on EU-related topics.

**8020.30 Practicum Experience**
Since it is deemed crucial that students demonstrate more than an academic knowledge of the European Union to be certified as adequately prepared in the subject, a “real-life” practicum experience pertaining to the EU must be performed either in the form of an overseas visit or an internship. The overseas option is broadly defined and can be accommodated by a wide range of activities, including study or research abroad. The same flexibility applies to the internship, which can be served domestically or internationally. A student’s specific practicum experience must be approved by the program’s campus representative.

**8020.40 Online Courses and Transatlantic Joint Certificate**
The EU Studies program has developed a curriculum of online courses in conjunction with European university partners. These are courses in different discipline areas that deal with various aspects of the EU and are taught jointly by University System institutions and European universities at specified times throughout the academic year. The program’s campus representative maintains an updated list of these courses and a teaching schedule, as well as information about course registration.

The EU Studies program offers the option of acquiring a certificate that is jointly conferred with a European institution. This option requires students to complete—with a grade of “B” or better—a minimum of two online courses that are co-taught with European partner universities. Students completing this option have the EU Studies certificate awarded by both their home institution and one in Europe, thus giving them an academic credential from a respected European university.

**8020.50 Areas of Distinction**
In addition to acknowledging competence in the EU generally, the certificate also highlights special achievements by providing a notation of “distinction” in two areas: (1) foreign language proficiency (six semester hours at or above the 2000 level and (2) composition of a thesis.

The foreign language distinction must be earned in a European language approved by the program’s campus representative as appropriate to the certificate’s objectives. A student with prior language skills can earn a distinction by successful completion of an examination demonstrating competency equivalent to the 2000 level. The exam is administered at the student’s home institution.

The thesis can be written anytime during the final year of study. It is supervised by a committee composed of three faculty members representing at least two different academic disciplines. The program’s campus representative maintains a more detailed description of thesis requirements.

**8030 The Gerontology Institute**
605 One Park Place
404/651-2692
http://www.gsu.edu/gerontology

Frank J. Whittington, Director

The Gerontology Institute develops and coordinates research, instruction, and service in gerontology throughout the university. The institute is a part of the office of the vice-president for academic affairs and is guided in its endeavors by an administrative board composed of the deans of the six colleges. Currently, 30 faculty members representing a variety of areas from business to law, the social sciences, fine arts and the humanities, and the health and human service professions are associated with the institute.

The institute supports the development of gerontology courses and curricula and administers an M.A. in gerontology, both undergraduate and graduate certificates, and an interdisciplinary minor. Certificates in gerontology may be earned in conjunction
with any degree; the graduate certificate also may be earned independently of a degree. These programs offer students the
opportunity to study gerontology to enrich their understanding of growing older and to prepare for careers in the field of aging.

The focus of the institute’s current research is on long-term care of persons with disabilities, and ethnicity and aging. The
institute’s affiliated faculty in gerontology are carrying out a wide range of research projects on topics such as transition to
retirement, nursing home care, community-based services, aging among minorities, intergenerational care giving, art and music
education for older adults, cross-cultural aging, learning and memory, nutritional status, nursing practice, and marketing to
seniors.

For additional information, contact the center at 404/651-2692.

8030.10 Undergraduate Certificate in Gerontology

The undergraduate Certificate in Gerontology is administered by the Gerontology Institute and is available to students
throughout the university. The certificate program gives undergraduate students the option of combining their major field of
study with an emphasis in gerontology. It is designed to prepare students for: (1) admission to graduate and professional
schools, such as medicine, nursing, psychology, public administration, sociology, and social work, in which they plan to pursue a
specialization in aging, or (2) entry-level professional jobs in direct services to older persons in nutrition programs, senior
centers, volunteer programs, nursing homes, and residential and assisted living facilities.

The curriculum provides an overview of the biological, psychological, and sociological aspects of aging; health care and
social service programs available to older persons; and contemporary aging policy issues. Through both course work and
internship experience, the program gives students specialized knowledge and skills needed to live and work in today’s aging
society.

In order to be admitted to the gerontology program, students must be regularly enrolled in a degree program at Georgia State
University. Students are required to submit the Application for Admission to the Certificate in Gerontology to the Gerontology
Institute and arrange an interview with an academic adviser in the Gerontology Institute.

To receive the undergraduate Certificate in Gerontology, students must complete the following 18-semester-hour curriculum
with a grade of C or better on all course work.

1. Required courses. (9)
   - Gero 4200 Health and the Older Adult (3)

   - Gero 4475 Communication and Aging (3)
   - SW 4260 Social Work with the Aging (3) (if not taken in section 2 above)

4. Gero Gerontology Internship or an approved alternate internship course. (3)
   Students whose certificate program requires a practicum or internship may satisfy both degree and certificate requirements
   with one experience provided it is age-related and jointly supervised through the gerontology internship program. The
   student’s internship plan and placement must be approved by the Gerontology Institute.

Study Abroad Program, 310 Student Center

John F. Hicks, Director
Leigh Walker, Study Abroad Coordinator
Veronica L. Thomas, Administrative Coordinator

The Office of International Affairs leads Georgia State University’s efforts to internationalize education and to promote excellence and distinctiveness in teaching, research, and service through global engagement. International Affairs coordinates, implements, and supports several activities in four principal areas: student study abroad programs, international scholarly programs and exchanges, projects for curricular transformation, and strategic international initiatives. The first two areas provide opportunities for students and faculty to live, study, and learn in different parts of the world. Currently, about 400 Georgia State University students participate in study abroad programs each year all over the world.

Curricular transformation occurs both in individual courses and around particular programs of interest. Often these activities emerge at the faculty, department, or college level. These programs are strongly encouraged and supported and while often implemented in a decentralized fashion, they are supported from a university-wide perspective to add coherence and strategic focus.

Through the fourth area, strategic international initiatives, the university concentrates on a limited number of university-wide programs aimed at substantially enhancing the university’s global profile and bringing excellence and distinctiveness to the institution. Included among these are programs in Egypt, Cote d’Ivoire, the Republic of Georgia, and South Africa.

Visit our Website for a more comprehensive picture of the Office of International Affairs and the programs it administers.

10,010 The University System of Georgia

The University System of Georgia includes all state-operated institutions of higher education in Georgia; four research universities, two regional universities, 13 state universities, two state colleges, and 13 two-year colleges. These 34 public institutions are located throughout the state.

A 18-member constitutional Board of Regents governs the University System, which has been in operation since 1931. Appointments of board members, five from the state-at-large and one from each of the state’s thirteen congressional districts, are made by the governor and are subject to confirmation by the State Senate. Regular terms of board members are seven years.

The chairperson, vice chairperson, and other officers of the Board of Regents are elected by the members of the board. The chancellor, who is not a member of the board, is the chief executive officer of the board and the chief administrative officer of the University System.

The overall programs and services of the University System are offered through three major components: instruction, public service and continuing education, and research.

Instruction consists of programs of study leading toward degrees, ranging from the associate (two-year) level to the doctoral level, and certificates.

Standards for admission of students to instructional programs at each institution are determined by the institution pursuant to policies of the Board of Regents. The board establishes minimum standards and leaves to each institution the prerogative to establish higher standards. Applications for admission should be addressed to the institutions.

Public service and continuing education consist of non-degree activities, primarily, and special types of college degree credit courses. The non-degree activities include short courses, seminars, conferences, and consultative and advisory services in many areas of interest. Typical college degree credit courses are those offered through extension center programs and teacher education consortiums.

Research encompasses scholarly investigations conducted for discovery and application of knowledge. Most of the research is conducted through the universities; however, some of it is conducted through several of the senior colleges. The research investigations cover matters related to the educational objectives of the institutions and to general social needs.

The policies of the Board of Regents provide a high degree of autonomy for each institution. The executive head of each institution is the president, whose election is recommended by the chancellor and approved by the board.
