Welcome to Georgia State University. Located in the heart of downtown Atlanta, Georgia State is one of the country’s leading urban research universities. I believe the formula for a premier university is great students, great faculty and staff and great facilities. You’ll find it all here at Georgia State.

Our student body is the best qualified and most diverse in our history. More than 40,000 students are seeking degrees at Georgia State, and more than 26,000 of them are on campus each semester. Students come to our campus from every county in Georgia, every state in the nation and more than 145 countries.

Georgia State continues to attract and retain outstanding faculty and administrative personnel who are well respected in their fields. We offer a challenging intellectual environment with 52 undergraduate and graduate degree programs in more than 250 fields of study. Opportunities for involvement in innovative research projects and life enhancing community service abound on our campus.

To keep pace with growth, we introduced our Main Street Master Plan in 1997. Every project we imagined as a part of the decade spanning plan is now either built or underway. The plan focused on creating a vibrant, inviting campus where students can learn, live and work. Visible signs of the plan’s success include our Rialto Center for the Performing Arts, Student Center, Student Recreation Center, Helen M. Aderhold Learning Center and University Lofts.

In 2006, we updated our university master plan to guide our growth for the next decade. For this updated plan, our central vision continues from the 1997 plan. We want to create a sense of place at Georgia State. We want Georgia State to be intertwined with the city, but still feel like a university campus. We are busy working on many exciting changes for the future that will enhance Georgia State’s ability to meet the needs of those we serve.

I invite you to explore Georgia State. Whether you’re a prospective student, a community partner or one of our more than 160,000 alumni, Georgia State is your resource for a lifetime. Visit our campus or our website at http://www.gsu.edu. You’re always welcome at Georgia State.

1000 University Information

Georgia State University is the embodiment of an idea: A great university is accessible, responsive, and relevant. This combination provides Georgia State students with many advantages.

Accessibility at Georgia State has many aspects. One is physical accessibility. The compact central campus in downtown Atlanta is within walking distance of thousands of offices and downtown living spaces and is but a short distance from major thoroughfares, interstates, and the many MARTA rapid-transit routes that feed the center of the city. The Georgia State MARTA station is adjacent to a campus at the very heart of the cultural, financial, legal, government, health-care, retail, and convention centers of Atlanta.

The downtown location provides a special advantage for students pursuing internships, which often lead to full-time careers upon graduation.

Georgia State is financially accessible. The university offers a first-rate education in a very broad spectrum of disciplines at very competitive fees, an excellent value in today's educational marketplace. More than $90 million in scholarships, financial aid, and work-study programs is provided annually.

The university is responsive to students’ career goals, providing undergraduate and graduate degree programs in over 200 fields of study through its six college-level units: the College of Arts and Sciences, the J. Mack Robinson College of Business, the College of Education, the College of Health and Human Sciences, the College of Law, and the Andrew Young School of Policy Studies. Each term, courses are taught day and evening, and students may study full or part time. Many programs may be entered any term of the year.

Georgia State — a premier urban research institution — is the second largest of Georgia’s 80 accredited institutions of higher learning and enrolls some 27,000 students each fall — 10 percent of all students in higher education in the state. Students come from every county in Georgia, every state in the union, and over 100 other nations. Georgia State has a diverse student body with 56 percent being white, 29 percent African American, 8 percent Asian American, 4 percent mixed ethnic, 3 percent Hispanic American, and 0.3 percent American Indian.

1050 Policies and Disclosures

1050.10 Equal Opportunity Policy

Georgia State University is an equal educational opportunity institution. Faculty, staff, and students are admitted, employed, and treated without regard to race, sex, color, age, religion, national origin, sexual orientation, or disability. Georgia State University complies with Title IX of the Education Amendments of 1972, Titles VI and VII of the Civil Rights Act of 1964, the Civil Rights Act of 1991, Sections 503/504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, the Vietnam Era Veterans Readjustment Assistance Act, as well as other applicable federal and state laws. In compliance with these laws and regulations, Georgia State University has established the following specific policies:

Civil Rights and Equal Employment Opportunities—Georgia State provides equal employment and educational opportunities for all individuals without regard to race, sex, age, religion, color, national origin, sexual orientation, or disability. All Georgia State University educational and personnel actions will be governed by an affirmative action program developed in compliance with applicable federal and state laws and regulations, and the policies of the Board of Regents of the University System of Georgia.

Discriminatory and Sexual Harassment—In an effort to foster a community in which there can be a free and open development of ideas, Georgia State is committed to maintaining a working and learning environment free of discriminatory and sexual harassment. Georgia State has adopted policies and procedures concerning harassment which may be obtained from the Office of Opportunity Development/Diversity Education Planning, the Ombudsperson, or Dean of Students. In addition to the procedures outlined in the policy, a complaint may be filed with the Office of Opportunity Development/Diversity Education Planning, the Ombudsperson, the Dean of Students, the respective college administrative unit, and the appropriate state or federal agencies. Faculty, staff and students can file complaints of sex discrimination with the Title IX coordinator, Linda J. Nelson, Assistant Vice
Disabilities—Georgia State provides program accessibility and reasonable accommodations for persons with disabilities. Specifically, the university provides evaluation of individual needs, advisement, and appropriate support for academic programs for identified persons with disabilities. A student with a disability has the responsibility of contacting the Office of Disability Services for an intake interview to assess his or her needs prior to the first semester of enrollment at Georgia State. Should any problems arise concerning their academic program, the student should contact the Office of Disability Services at 230 Student Center (404/463-9044) as soon as possible.

1050.20 Disability Complaint Policy

Georgia State University has a procedure by which students and other non-employees who believe they have been discriminated against by the university in violation of the American’s With Disabilities Act (ADA) or Section 504 of the Rehabilitation Act of 1973 may file complaints about the discrimination or denial by the university to provide a requested accommodation. The right to file a complaint pursuant to this disability complaint procedure may be forfeited unless exercised within 30 days of the alleged discriminatory act or denial of accommodation. All properly filed complaints will be heard by a subcommittee of the university’s ADA Committee and a final decision will be rendered by the provost. Copies of the disability complaint procedure are available at the Office of Opportunity Development/Diversity Education Planning and the Office of Disability Services. A student with a disability complaint may choose to utilize this disability complaint procedure, the petition and appeals process of the college in which they are enrolled, or, in cases of a denied facility accommodation, the petition and appeals process of the college in which the request for a facility accommodation was made. Faculty and staff members may raise these same issues by using the university’s employee grievance procedure.

1050.30 Disruptive Behavior Policy

Disruptive student behavior is student behavior in a classroom or other learning environment (to include both on and off campus locations), which disrupts the educational process. Disruptive class behavior for this purpose is defined by the instructor. Such behavior includes, but is not limited to, verbal or physical threats, repeated obscenities, unreasonable interference with class discussion, making/receiving personal phone calls or pages during class, leaving and entering class frequently in the absence of notice to instructor of illness or other extenuating circumstances, and persisting in disruptive personal conversations with other class members. For purposes of this policy, it may also be considered disruptive behavior for a student to exhibit threatening, intimidating, or other inappropriate behavior toward the instructor or classmates outside of class.

When disruptive behavior occurs in the class, the instructor shall make reasonable effort to address the disruption with the student, preferably in private. Georgia State University encourages members of the University community to try to resolve problems informally whenever possible. Toward that end, the instructor and student may consult with the Office of the Ombudsperson, the Dean of Students Office (http://www.gsu.edu/deanofstudents), or other University offices to discuss ways to resolve the situation informally at any time during the process set forth in this policy. Should the instructor elect to withdraw the disruptive student, the procedures published in the Faculty Handbook (see http://www.gsu.edu/~wwwfhb/fhb.html section 401.08) should be followed. Individual college or academic units may have supplementary procedures to deal with disruptive student behavior so long as those procedures are consistent with this policy. Where this policy conflicts with the Student Code of Conduct, this policy will prevail with respect to disruptive behavior in the academic setting.

1050.40 University Code of Conduct

Membership in the community of scholars known as Georgia State University as a student, faculty member, or staff member is a privilege and carries with it obligations to participate in and contribute to the educational mission of the institution. Concurrent with these obligations are rights and freedoms for each individual as guaranteed by the United States Constitution, including but not limited to the right to inquire, learn, communicate by speech or action, and assemble peaceably and the right to due process for grievances. These rights, as they pertain to students, are more specifically provided for in the “Student Code of Conduct and Policies” which can be found in the student handbook, On Campus, available online at http://www.gsu.edu/oncampus or from the Office of the Dean of Students at http://www.gsu.edu/deanofstudents, 300 Student Center, 404/463-9023.

1050.50 Federal and State Law Disclosure Requirements

Federal and state laws require all colleges and universities receiving federal funds to establish certain programs, policies, and procedures and distribute an annual report describing them and providing statistics regarding: graduation rates; drug, alcohol, and weapon violations; and certain crimes on campus, which include murder, robbery, aggravated assault, burglary, motor vehicle theft, and sex offenses. Georgia State University’s annual report and information regarding these programs, policies, procedures, and statistics are available upon a written request directed to the Georgia State University Office of Public Information, 530 One Park Place South, Atlanta, Georgia 30303.
1050.60 Integrity in Research

Georgia State University maintains high ethical standards in research and requires all faculty, staff, and students engaged in research to comply with those standards. Cases of misconduct in research present a serious threat to continued public confidence in the integrity of the research process and the stewardship of federal funds. Misconduct is defined as fabrication, falsification, plagiarism, or other practices that seriously deviate from those that are commonly accepted within the scholarly community for proposing, conducting, or reporting research. Georgia State will investigate and resolve promptly and fairly all instances of alleged or apparent misconduct. To obtain a copy of the Integrity in Research Policy, contact the Office of the Vice President for Research, G76 Alumni Hall, 404/651-4350.

1050.70 Intellectual Property

In complying with the policies of the Board of Regents, Georgia State University has adopted policies concerning the ownership and subsequent rights to intellectual property created by faculty, staff, and students. Intellectual property pertains to any patentable materials, copyrightable materials, trademarks, software, and trade secrets regardless of whether formal protection is sought. It is the responsibility of the individual to ascertain whether Georgia State owns the intellectual property. To obtain a copy of the Intellectual Property Policy, contact the Office of the Vice President for Research, G76 Alumni Hall, 404/651-4350.

Applicants who have been educated outside the United States should consult Section 1165. The admission requirements have been developed in accordance with the rules and regulations of the Board of Regents of the University System of Georgia and have evolved from studies of student performance at Georgia State. These studies have identified factors and criteria that indicate a reasonable chance of successful completion of academic work at Georgia State. Admission decisions are based on a previous record of satisfactory academic performance, test scores, personal qualities and circumstances, character, and good conduct. Admission is a selective process and meeting minimum requirements does not guarantee acceptance. A student has the right to appeal the admission decision as provided in the bylaws of the Board of Regents.

Any applications received after the stated deadline for the term of application will be processed for the next available term and the application fee will not be refunded. Any application received without a designated term will be processed for the next available term and the application fee will not be refunded. Approval for admission is valid only for the term specified at the time of acceptance and does not imply that approval will be granted for a term not specified. Students wishing to be considered for a subsequent term during an academic year (the academic year begins with the fall semester and ends with the following summer semester) must submit a reactivation form (http://www.gsu.edu/gastate_reactivate.html) and any required credentials by the application deadline date for that particular term. Students wishing to be considered for a term in another academic year must submit a new application, application fee, and new credentials.

Any changes in a student’s record prior to enrollment will necessitate a new review of the application. Any omissions or misrepresentations on a student’s application for admission will automatically invalidate consideration by, acceptance to and continuation at Georgia State. If an applicant (a) is ineligible to enroll at any previously attended institution, (b) is on probation, suspension, exclusion, or any other standing indicating either an academic or a conduct deficiency at any previously attended institution, (c) has been found in violation of the academic or non-academic code of conduct at any previously attended institution, or (d) has been convicted for violation of a federal, state or municipal law, regulation or ordinance (other than minor traffic violations), then the applicant’s case will be reviewed to insure that the applicant meets the satisfactory academic performance, good character, and good conduct requirements noted above. If, after a letter of acceptance has been issued, information comes to light that shows that an applicant did not meet all admission requirements, the applicant’s offer of admission will be withdrawn. If this information comes to light after the student has enrolled, the applicant’s enrollment at Georgia State will be terminated and earned credit may be revoked.

All credentials submitted with the application for admission become and remain the property of the university and will not be returned to the student, duplicated, or transferred to another institution.

Admission to Georgia State University or reentry approval does not imply admission to a specific major or professional program.

- Students who wish to take 3000 or 4000 level teacher education courses (designated by a “TE” in the course description) or who wish to enter one of the teacher education programs must be approved by the College of Education or the College of Arts and Sciences, depending on the student’s teaching field major (see Section 1605).
- Prospective applicants who are interested in the College of Health and Human Sciences and who have completed preparation to enter the professional or clinical program of their major should contact the Office of Academic Assistance,
Undergraduate Admissions

College of Health and Human Sciences, 404/651-3064, for information on additional departmental application procedures, requirements, and deadlines.

- Students who wish to apply for admission to the School of Music should contact the School of Music office to request separate application materials and to make an appointment for an audition.

1120 Freshman Applicants

Definition

Those applicants who have never enrolled in a regionally-accredited college or university (unless jointly enrolled while completing high school) are freshman applicants.

Deadlines

Applications for admission and the nonrefundable application fee must be submitted or postmarked by the established deadlines. Applicants are encouraged to apply online at [http://www.gsu.edu/es/admissions.html](http://www.gsu.edu/es/admissions.html). Complete credentials must be received before a decision can be made. Applications are processed in the order in which they are complete and ready for a decision. Students wishing to be considered for a subsequent term during an academic year (the academic year begins with the fall semester and ends with the following summer semester) must submit a reactivation form at the following website ([http://www.gsu.edu/gastate_reactivate.html](http://www.gsu.edu/gastate_reactivate.html)), and any additional credentials that may be necessary by the appropriate deadline. Students wishing to be considered for a term in another academic year must submit a new application, nonrefundable application fee, and new credentials.

Applicants interested in early registration dates and orientation, university housing, university scholar assistantships, and/or financial aid are urged to apply and complete their applications by the Priority Deadline Dates listed below.

Admission Requirements

Admission to Georgia State University is a selective process and meeting minimum admission requirements does not guarantee acceptance. The middle 50% of students who entered Georgia State in the Fall of 2004 had SAT combined scores between 1000 and 1180 and high school GPAs on College Preparatory Classes of between 3.08 and 3.54. All of the following minimum requirements must be met in order for an applicant to receive consideration as a freshman:

- Be a graduate of and have a college preparatory diploma from a high school accredited by a regional accrediting association (such as the Southern Association of Colleges and Schools), a high school accredited by the Georgia Accrediting Commission, or a public high school regulated by a school system and state Department of Education. A Certificate of Attendance does not qualify a student for admission consideration.

- Have completed the University System of Georgia Board of Regents’ College Preparatory Curriculum. Sixteen curriculum course units required as follows:
  a. English (4 units): emphasis in grammar and usage; literature (American, English, and World); and advanced composition skills.
  b. Mathematics (4 units): algebra I, algebra II, geometry, and one additional mathematics course with these units as prerequisites.
  c. Science (3 units): at least one laboratory course from the life sciences and one laboratory course from the physical sciences.
  d. Social Science (3 units): at least one course focusing on United States studies and one course focusing on world studies.
  e. Foreign language (2 units in the same language): emphasis in speaking, listening, reading, and writing.

See below for an exception to this requirement.

- Have a minimum 2.80 high school grade point average calculated on the 16 courses listed above.

- Submit electronic SAT scores (including the writing section) with a minimum combined score of 900 with at least 430 verbal/critical reading and 400 mathematics or electronic ACT scores (including the Writing Test) with a minimum composite score of 19 with at least 17 English and 17 mathematics. Although not currently required (with the exception of home-schooled applicants), applicants are encouraged to submit SAT Subject Test scores of their choice. Permanent
residents, educated in the United States, whose native language is not English are encouraged to take the TOEFL. If the
TOEFL is not taken, applicants from local areas will be required to take the Georgia State Test of English Proficiency
(GSTEP) to determine appropriate admission.

- Have a freshman index (FI) of 2500 or higher. The FI is based on a combination of SAT/ACT scores and high school
  grade point average (HSGPA) in college preparatory courses only. The FI formula using SAT scores is: SAT FI = (500 x
  HSGPA) + SAT V + SAT M. The FI formula using ACT scores is: ACT FI = (500 x HSGPA) + (ACT composite x 42) + 88.
In calculating the HSGPA for FI purposes, the applicant’s transcript is calculated upon only 16 of the academic (college
preparatory) courses taken such as English, mathematics, science, social studies, and foreign language.

High-Ability CPC-Deficient Freshman

Certain high ability students are eligible for admission to Georgia State even if they have not fully completed the College
Preparatory Curriculum (CPC). Applicants who have graduated from high school and have:

a. completed the CPC English requirement,
b. completed the CPC Math requirement,
c. have two units of Science,
d. have two units of Social Science,
e. have combined SAT score (or ACT equivalent) of 1100 or better, and
f. have a high school GPA (as calculated for the FI) of 3.3 or better, are eligible for admission as high ability CPC deficient
freshman. High ability applicants with CPC deficiencies will have their files reviewed individually and some may be admitted.
No more than 100 high ability CPC deficient freshman will be admitted in any academic year.

Students admitted with CPC deficiencies must complete the CPC requirements by taking the Georgia State courses in the
sciences, social sciences or foreign languages (depending on the area of their CPC deficiencies). These courses will be selected by
the Student Advisement Center. Credits earned in courses taken to meet CPC deficiencies do not count towards graduation
requirements. Students must earn a grade of C or better in those courses they take to meet CPC deficiencies. Students must
complete all CPC-required courses before they earn 30 hours and in their first three semesters of enrollment. Otherwise, they may
not register for any courses except CPC courses until all CPC requirements are complete.

High ability CPC deficient freshman will be admitted as presidential exceptions. The Enrollment Management Committee is
authorized to raise the SAT and HSGPA required for admission as a high ability CPC deficient freshman as well as to change the
number of high ability CPC deficient freshman who will be admitted. The enrollment management committee will also monitor the
number, quality, and success of high ability CPC deficient students to see that this exception to the usual CPC rules continues to
meet the needs of these students and Georgia State.

Home-Schooled Students

Applicants for freshman admission who have been home-schooled or graduated from non-accredited high schools may be
considered for admission by meeting one of the following two criteria:

A. Option One: Portfolio Admission

Students who wish to apply for admission under the portfolio review option must:
- Demonstrate a combined SAT test score (or an ACT equivalent) that is at or exceeds the average SAT for those enrolled
  as first time freshmen for the previous fall term. The current score is 1090 (SAT) or 24 (ACT).
- Submit electronic SAT scores (including the writing section) of at least 430 verbal/critical reading and 400 mathematics
  or electronic ACT scores (including the Writing Test) of at least 17 English and 17 mathematics.
- Submit a portfolio that demonstrates satisfactory completion of the 16 College Preparatory Courses (CPC) required for
  admission to a University System of Georgia research institution. This portfolio must include information about the
  course of study leading to satisfactory completion of each CPC unit, including a list of all educational resources (books
  and other materials), course outline and appropriate outcomes assessment.

Georgia State University reserves the right to request any further information that it feels necessary to evaluate the
completion of the CPC requirements.

B. Option Two: SAT Subject Test Admission

Students who wish to apply for admission under the SAT Subject Test option must:
- Submit electronic SAT scores (including the writing section) with a minimum combined score of 900 with at least 430
  verbal/critical reading and 400 mathematics or electronic ACT scores (including the Writing Test) with a minimum
  composite score of 19 with at least 17 English and 17 mathematics.
- Submit acceptable scores on six SAT Subject Tests and demonstrate proficiency in a foreign language at the level of two
  years of high school study. Minimum acceptable scores on the prescribed SAT Subject Tests are:
520 on the English Writing test (now a required part of the SAT or ACT)
530 on the Literature test
500 on the Mathematics Level 1 test or a score of 570 on the Mathematics Level 2 test
520 on the Biology test
540 on the Chemistry test or 590 on the Physics test
560 on the U.S. History test, and
540 on the World History test

The appropriate level of competency in a foreign language will be evaluated by the Georgia State University Department of Modern and Classical Languages utilizing methods including both oral and written components.

1125 Transfer Applicants

Definition
Those applicants who have previously attended a regionally-accredited college or university (except for students jointly enrolled while completing high school) are transfer applicants.

Deadlines
Applications for admission and the nonrefundable application fee must be submitted or postmarked by the established deadlines. Applicants are encouraged to apply online at http://www.gsu.edu/es/admissions.html. Complete credentials must be received before a decision can be made. Applications are processed in the order in which they are complete and ready for a decision. Students wishing to be considered for a subsequent term during an academic year (the academic year begins with the fall semester and ends with the following summer semester) must submit a reactivation form at the following website (http://www.gsu.edu/gastate_reactivate.html), and any additional credentials that may be necessary by the appropriate deadline. Students wishing to be considered for a term in another academic year must submit a new application, nonrefundable application fee, and new credentials.

Applicants interested in early registration dates and orientation, university housing, and/or financial aid are urged to apply and complete their applications by the Priority Deadline Dates listed below.

Note: All deadlines are subject to change.

For international student application deadline dates, please see Section 1165.

The professional and clinical programs in the College of Health and Human Sciences may have earlier deadlines. Please contact the Office of Academic Assistance, College of Health and Human Sciences, 404/651-3064, for information on procedures and deadline dates.

Admission Requirements
All of the following minimum requirements must be met in order for an applicant to receive consideration as a transfer, but meeting them does not guarantee admission:

- Have a minimum cumulative 2.5 grade point average in college-level courses (excluding developmental/remedial courses) from all accredited institutions attended.
- Be eligible to re-enroll at the last institution attended.
- Have completed all college preparatory curriculum and learning support coursework required by any unit of the University System of Georgia (USG).
- In addition, those students who have completed fewer than 30 semester hours or 45 quarter hours of college-level academic coursework attempted at one or more regionally accredited institutions must meet all freshman admission requirements (see Section 1120.30).
• Arrange for all transcripts to be received directly by the Office of Undergraduate Admissions or provide them in sealed envelopes directly from the institution to submit a self-managed application. Student copies of transcripts, official transcripts opened by the student, and fax copies are not acceptable.

Transfer students should be aware of the Board of Regents’ requirements in reading, writing, history, and constitution (see Sections 1420 and 1425).

**Transfer Credit Policy**

When an applicant is accepted for undergraduate transfer admission, courses completed with grades of C or higher (grades of D discussed below) that parallel the curriculum of Georgia State University will be accepted for transfer credit. Developmental, vocational, and occupational courses will not be accepted for transfer credit. Credit must have been earned at institutions of higher education with full accreditation by a regional association of colleges and schools and, where appropriate, the Commission on Colleges. The determination of how transfer credit may be used to satisfy the specific course requirements for a degree is made by the Student Advisement Center or the college that administers the degree program requirements. The colleges also have the privilege to test the student’s proficiency in transferred coursework.

• A maximum of 12 semester hours where grades of D have been earned may be applied toward degree requirements. These 12 semester hours include both resident credit (earned at Georgia State) and transfer credit. Transfer credit will not be given for English composition courses where grades of D have been earned. Additional restrictions in credit accepted for courses where grades of D have been earned may be included in certain degree programs. Be sure to check the description of your planned program in this catalog.

• No credit will be awarded for a grade earned at a foreign institution that is equivalent to a grade of D in the United States.

• A maximum of 60 academic semester hours from a two-year college or 81 academic semester hours from a four-year college may be applied in the program for which the applicant enrolls. Courses completed at a two-year college will be granted lower-division credit. The total number of hours that may be earned toward a degree by extension or correspondence courses may not exceed 30 semester hours.

• Because the university has a minimum academic residence requirement, the amount of transfer credit applicable to a degree program may be further limited (see Section 1430).

• Georgia State does not grant credit for College-Level General Educational Developmental Tests, USAFI courses, or courses completed at any United States armed forces service schools, with the exception of the military academies.

For those students seeking a baccalaureate degree, transfer credit for degrees previously awarded by other institutions will be granted as follows:

1. Students will be granted credit for all of Areas A-E of the core curriculum (see section 1410) and the Regents’ Test (see section 1420) if they hold one of the following:

   • A baccalaureate from a regionally accredited institution of higher education in the United States, or
   • The equivalent of a baccalaureate from a regionally accredited institution of higher education in the United States (as certified by Georgia State or a Georgia State-approved agency such as Joseph Silny and Associates, Inc.), or
   • An associate’s degree designed to transfer to a baccalaureate program from a USG institution

2. However, there are two exceptions to the policy stated in 1 above.

   • Students seeking a baccalaureate degree in biology, chemistry, computer science, geology, mathematics, physics, science education or math education who do not hold a baccalaureate degree in one of these fields will only be granted credit for all of Areas B, C, and E. They will be granted credit in Areas A and D on a course-by-course basis.
   • Students seeking a baccalaureate degree in nursing, nutrition or respiratory therapy will only be granted credit for all of Areas A, B, C and E. They will be granted credit in Area D on a course-by-course basis.

3. Students who hold any other associate’s degree, such as an associate’s degree from a non-USG institution or an associate’s degree not designed to transfer to a baccalaureate program will be granted transfer credit on a course-by-course basis.

**1130 Postbaccalaureate Applicants**

**Definition**

Those applicants who have received a bachelor’s degree and who wish to take undergraduate courses without being admitted to a second undergraduate degree program are postbaccalaureate applicants. Students wishing to seek a second baccalaureate degree should refer to Section 1125. Georgia State University graduates should refer to Section 1170.

After the Regular Deadline Dates, only postbaccalaureate applications that are complete at the time of submission (application, nonrefundable application fee, and all required documents) will be processed and only if space is available and time permits.

For international student application deadline dates, please see Section 1165.

Applicants wishing to seek a second bachelor’s degree in a professional or clinical program in the College of Health and Human Sciences should apply to the university as a transfer student. Please contact the Office of Academic Assistance, College of Health and Human Sciences, 404/651-3064, for information on procedures and deadline dates.

## Admission Requirements

The following requirement is applicable to postbaccalaureate students:

- Hold a baccalaureate degree or the equivalent from an institution of postsecondary education with full accreditation by a regional association of colleges and schools and, where appropriate, the Commission on Colleges.

The postbaccalaureate status is not available for students seeking teacher certification in any area other than music education and art education (see Section 1605).

In order to be considered for admission as a postbaccalaureate student, an applicant must complete an application for undergraduate admission (including the nonrefundable fee) and submit an official transcript from the degree-granting institution by the appropriate deadline. If a student wishes to change to a degree-seeking status after enrolling at Georgia State University as a postbaccalaureate student, conditions for acceptance as a transfer student must be met.

An application for admission, the nonrefundable application fee and required transcripts must be filed with the Office of Undergraduate Admissions located in 200 Sparks Hall by the established application deadline for the intended semester of entry.

Postbaccalaureates may not attend another institution as transient students from Georgia State. Transient status is only for degree-seeking students. Postbaccalaureate students wishing to attend another institution must apply directly to the other school.

## 1135 Transient Applicants

### Definition

Students who are currently enrolled in a transferable degree program at another accredited college or university in the United States who wish to register at Georgia State University for the purpose of completing work to transfer back to the home institution are transient applicants. Transient students may attend for only one fall or one spring semester. However, attendance as a transient student in summer semesters is unlimited.

After the Regular Deadline Dates, only transient applications that are complete at the time of submission (application, nonrefundable application fee, and all required documents) will be processed and only if space is available and time permits.

For international student application deadline dates, please see Section 1165.
Admission Requirements

In order to be eligible for admission as a transient, a student must submit an application for undergraduate admission (including the nonrefundable fee) and request an official statement granting permission to enroll as a transient student from the home institution. The appropriate academic official at the home institution must send this statement directly to Georgia State University. Students who do not enroll the semester for which they were accepted and wish to register later must either reactivate their application or submit a new application by the application deadline and arrange for a current official statement updated for the new semester to be sent.

International students who are attending school on another institution’s immigration document (F-1/I-20, J-1/IAP-66) will not be issued any additional documents but must also submit a statement of permission from the International/Foreign Student Adviser at the home institution.

The following regulations are applicable to transient students:

- They should seek academic advisement at their home institution to determine if courses taken at Georgia State are acceptable to their degree program.
- All scholastic discipline policies and all course prerequisite policies are applicable to transient students.
- Transcripts for courses completed at Georgia State as a visiting student must be requested from the Office of the Registrar at https://www.gosolar.gsu.edu/webforstudent.htm to be sent to the home institution.
- Transient students are admitted to and register through the college or school selected on their application. If the applicant does not indicate a college, and if a transient approval letter has been received, placement will be determined from the courses indicated in the letter.
- In order to continue for an additional summer semester as a transient, a student must file a reentry application and arrange for all necessary supporting documentation to be received in the Office of Undergraduate Admissions by the established deadlines (see Section 1170). With the exception of summer semesters, registration as a transient student is limited to one semester. If a student wishes to become a transfer student, the student must file a new application for undergraduate admission (including the nonrefundable application fee) and arrange for all transcripts to be received by the Office of Undergraduate Admissions by the appropriate deadline. Student copies of transcripts or official transcripts opened by the student are not acceptable (see Section 1125).

1145 Nontraditional Applicants

Definition

Nontraditional applicants are defined as individuals who meet all of the following criteria:

- Have been out of high school at least five years or whose high school class graduated at least five years ago.
- Hold a high school diploma from an accredited high school as specified under Section 1120.30 or have satisfactorily completed the GED.
- Have not attended college within the past five years.
- Have earned fewer than 30 transferable semester (45 transferable quarter) credit hours.

Deadlines

Non-traditional applicants must follow the freshman deadlines (see Section 1120.20) for submitting an application, nonrefundable application fee and transcripts. Applicants are encouraged to apply online at http://www.gsu.edu/es/admissions.html.

Admission Requirements

Applicants must take the COMPASS assessment to be admitted to the university. The Office of Undergraduate Admissions notifies applicants of test date, time, and location. Applicants must earn the following scores on the COMPASS to be eligible for admission: reading = 74, writing = 60, and mathematics (COMPASS algebra test) = 37. If the file is not completed in time for testing to be scheduled prior to registration, it may become necessary to update the application to a future semester. If an applicant does not earn a required score(s) on the first attempt, that part(s) of the COMPASS may be retaken but the second attempt must be at least ninety (90) days after the first attempt. Applicants who do not earn all three of the required scores after two attempts may not reapply to Georgia State as nontraditional applicants for five years.
1150 Joint Enrollment (Program for Excellence)

Definition

Joint enrollment (Program for Excellence/PFE) is an opportunity for the academically outstanding high school student to enroll as a special undergraduate student. This program is designed to allow superior high school students to utilize university resources to provide extra enrichment and challenge to their junior or senior year. All schedules are subject to the approval of the appropriate high school official and Georgia State University.

Deadlines

Applicants must submit the application, nonrefundable application fee, and required documents by the appropriate deadline.

Admission Requirements

Students must demonstrate a high degree of academic potential and maturity to be considered for Joint Enrollment (Program for Excellence/PFE).

For High School Seniors:
- Completion of the 11th grade.
- Completion of all CPC requirements, with the exception of the units of high school English, mathematics, and/or social science which may be fulfilled through the satisfactory completion of approved Georgia State courses.
- A minimum high school GPA of 3.0 in college prep (CPC) courses.
- A minimum SAT verbal/critical reading score of 530, or minimum ACT English score of 23.
- A minimum SAT math score of 530, or minimum ACT math score of 22.
- A minimum freshman index (FI) of 2600.*
- The approval of the high school guidance counselor.

For High School Juniors:
- Completion of the 10th grade.
- Completion of all CPC requirements, with the possible exception of the units of high school English, mathematics, and/or social science which may be fulfilled through the satisfactory completion of approved Georgia State courses.
- A minimum high school GPA of 3.0 in college prep (CPC) courses.
- A minimum SAT verbal/critical reading score of 530, or minimum ACT English score of 23.
- A minimum SAT math score of 530, or minimum ACT math score of 22.
- A minimum freshman index (FI) of 2700.*
- The approval of the high school guidance counselor.

* The FI is based on a combination of SAT/ACT scores and high school grade point average (HSGPA) in college preparatory courses only. The FI formula using SAT scores is SAT FI = (500 x HSGPA) + SAT V + SAT M. The FI formula using ACT scores is: ACT FI = (500 x HSGPA) + (ACT composite x 42) + 88. In calculating the HSGPA for FI purposes, the applicant’s transcript is calculated upon only the academic courses taken such as English, math, science, social studies, and foreign language.

Students admitted to the program are subject to the same fees, rules, and regulations as other Georgia State University students. A student enrolled simultaneously at the university and the high school is also subject to any rules and regulations imposed by that high school. All students are required to earn a high school college preparatory diploma on or before their original graduation date using the college-level coursework, as appropriate.
1155 GSU-62 Program

Definition
Applicants who meet the criteria listed below may apply for GSU-62 waivers of tuition and fees. The regulations listed also apply to the GSU-62 student who wishes to audit classes instead of taking courses for credit.

#### International Applicants

In addition to meeting all other applicable requirements for admission, international applicants who will need a student visa status (F or J) must demonstrate the ability to meet the estimated financial obligations of tuition, fees and living expenses by submitting the Foreign Student Financial Statement and the required documentation of financial support.

#### Applicants with Non-U.S. Credentials

In addition to meeting all other applicable requirements for admission, freshman applicants and transfer applicants with less than 30 semester hours of transferable credit must demonstrate academic preparation equivalent to graduation with a U.S. secondary college preparatory curriculum and have a GPA of 3.0 based on only academic courses. Applicants who have completed non-U.S. university level coursework must have earned satisfactory grades on all such work attempted and be in good academic standing. The applicant does not need to meet the Freshman Index or minimum CPC requirements of those graduating from a U.S. high school.

Applicants must present official secondary (high school) or postsecondary (college or university) credentials, certificates, or diplomas. Official documents must bear authoritative signatures, seals and/or stamps. These should be sent by the institution responsible for issuing such documents. In cases where it is impossible for these credentials to be sent from the institution, or only one set of originals is available to students, applicants should forward an attested copy of the original. A proper institution official or the Ministry of Education in the home country must do the attestation. A certified original translation must accompany all documents not printed in English.

Georgia State University requires that all international academic documents (transcripts, mark sheets, certificates, leaving examination results, etc.) be formally evaluated by an independent evaluation service. Applicants should submit an application to Josef Silny and Associates, Inc., along with the appropriate fee for the document-by-document evaluation and grade point average equivalent (required for first time university students) or the fee for the course-by-course evaluation (required for students with previous university attendance). Fees from overseas must be in the form of an International Money Order. Applicants must also submit to Josef Silny and Associates, Inc., official transcripts, diplomas, and certified English translations. Josef Silny and Associates, Inc., will return original documents to the applicant if a self-addressed, stamped envelope is included with the application for evaluation.

Applicants with detailed questions about this evaluation process should contact Josef Silny and Associates, Inc., at 305/273-1616, 7101 SW 102 Avenue, Miami, FL 33173, or online at [http://www.jsilny.com](http://www.jsilny.com).

Although the university recommends Josef Silny and Associates, Inc., evaluations will be accepted from the following services: Educational Credential Evaluators, Inc., P.O. Box 514070, Milwaukee, Wisconsin 53203-3470 or World Education Services, Bowling Green Station, P.O. Box 5087, New York, NY 10274-5087.

Applicants who have completed university-level studies overseas should submit catalogs or official course descriptions from the schools attended to Georgia State University in order to have credit considered for application to a degree program. All information must be translated into English and verified by the proper authorities.

#### Applicants who are Non-Native Speakers of English

In addition to meeting all other applicable requirements for admission, non-native speakers of English must demonstrate sufficient English language proficiency. This can be demonstrated by submitting any one of the following: an SAT verbal/critical reading score of at least 430, an ACT English subtest score of at least 17, a TOEFL score of 550 (paper test) or 213 (computer test) or 79-80 (internet-based test), a GSTEP score of 6, or by successfully completing Georgia State University’s Intensive English Program. However, students who are currently enrolled in but have not completed Georgia State University’s Intensive English Program must demonstrate English language proficiency with the GSTEP.

TOEFL bulletins (including registration forms) can be obtained at United States embassies and consulates, bi-national centers, or by writing to: Test of English as a Foreign Language, P.O. Box 6154, Princeton, N.J. 08541-6154, U.S.A. ([http://www.toefl.org](http://www.toefl.org)). To register for the GSTEP, please contact the Department of Applied Linguistics and English as a Second Language at 404/651-3650 ([http://www.gsu.edu/gstep](http://www.gsu.edu/gstep)).

F-1 Visa applicants who are non-native speakers of English and who meet all admission requirements except the English language proficiency requirement may be granted conditional admission. To be eligible for conditional admission, applicants must have a TOEFL score of 480 (paper test) or 157 (computer test) or 40 (internet-based test). Students granted conditional
admission will be required to take certain courses in the Intensive English Program (IEP) before taking other courses. A student may remain on conditional admission status for no more than three semesters. For more information about the IEP, see http://www.gsu.edu/iep.

Placement

International Students. International students who are also non-native speakers of English must take the GSTEP before registering for classes. If the GSTEP were taken as part of the application process, this requirement is waived. Depending on their scores, these students may be assigned work in the Intensive English Program.

Students with Non-U.S. Academic Credentials. There are no special placement rules for students with non-U.S. academic credentials.

Non-Native Speakers of English. See special rules for placement of international students.

Regents’ Testing Program

International Students. There are no special Regents’ Testing Program rules for international students.

Students with Non-U.S. Academic Credentials. There are no special Regents’ Testing Program rules for students with non-U.S. academic credentials.

Non-Native Speakers of English. Non-native speakers will be certified as meeting Regents’ testing requirements either by taking the regular Regents’ Test, by passing the reading and writing sections of the revised Georgia State Test of English Proficiency (GSTEP Regents’), or by earning a score of 23 or higher on the reading section of the computer-based TOEFL or a score of 57 or higher on the reading section of the paper-based TOEFL and a score of 4 or higher on the Test of Written English (TWE). Non-native speakers who do not meet the Regents’ Test requirement and who have attempted 45 or more semester hours are required to take one of the following: regular RGT courses or RGT courses for international students offered by the Department of Applied Linguistics and English as a Second Language. With the exception of the testing policies mentioned in this paragraph, non-native speakers are subject to all other Regents’ Test Program policies.

1170 Reentry Applicants

Definition

An undergraduate reentry applicant is a student who previously enrolled at Georgia State University and who wishes to reenroll at Georgia State in one of the following ways:

1. Previously enrolled as an undergraduate degree-seeking student wishing to return as an undergraduate degree-seeking student after an absence of three or more semesters.
2. Previously enrolled as an undergraduate degree-seeking student wishing to return as an undergraduate postbaccalaureate student after an absence of three or more semesters.
3. Previously enrolled as an undergraduate postbaccalaureate student wishing to return as an undergraduate postbaccalaureate student after an absence of three or more semesters.
4. Previously enrolled as an undergraduate degree-seeking student wishing to return as an undergraduate transient student after an absence of three or more semesters.
5. Previously enrolled as an undergraduate transient student wishing to return as an undergraduate transient student for any term. Note: Students are only permitted to attend one spring or one fall semester as an undergraduate transient student, but may apply for unlimited summer semesters.

The reentry application cannot be used in the following situations:

- Transient and postbaccalaureate students cannot apply for reentry to update to degree-seeking (transfer) status. Transients and postbaccalaureate students wishing to become transfer students should complete a new application for admission, submit the appropriate application fee and all transcripts to the Office of Undergraduate Admissions. Students should refer to Section 1125 for deadlines, admission requirements and other policies related to transfer admission.
- Students that have only attended Georgia State University at the graduate level cannot apply for reentry to enroll at the undergraduate level. Graduate students wishing to enroll at the undergraduate level should complete a new application for undergraduate admission, submit the appropriate application fee and all transcripts to the Office of Undergraduate Admissions. Students should refer to the appropriate area of Section 1100 for deadlines, admission requirements and other policies related to transfer, transient, and postbaccalaureate admission.
All students, including reentry students, must notify the Office of Undergraduate Admissions prior to registering if any of the following conditions apply.

1. The student has attended another school since last attending Georgia State.
   The student must have an official transcript of credits sent from the school he or she attended. The student must be eligible to reenroll at the last school attended before he or she returns to Georgia State University. Failure to submit this transcript by the midpoint of the first term after returning to Georgia State could result in the placing of a registration hold on the student’s record.
2. The student has disciplinary actions pending at the last institution attended since matriculation at Georgia State.
3. The student has been convicted of a crime other than a minor traffic violation since last attending Georgia State.

Failure to notify the university of any of the above conditions could result in university sanctions, including expulsion.

**Deadlines**

Applications for reentry admission and the nonrefundable reentry application fee must be submitted or postmarked by the established deadlines. Applicants are encouraged to apply online at [http://www.gsu.edu/returning.html](http://www.gsu.edu/returning.html). Complete credentials must be received before a decision can be made. Reentry applications are processed in the order that they are complete and ready for a decision. Students wishing to be considered for a term in another academic year must submit a new reentry application, nonrefundable application fee, and new credentials.

All required credentials should be submitted to the Office of Admissions no later than fifteen days after the regular deadline for the term of application. Applicants interested in early registration dates, university housing and financial aid are urged to apply and complete their applications by the Priority Deadline Dates listed below. Any reentry application received after the regular deadline for the term indicated on the reentry application will be processed for the next available term and the application fee will not be refunded.

Student copies of transcripts, official transcripts opened by the student, and fax copies are not acceptable. Reentry applicants must be eligible to return to their last institution of attendance for the term of desired reenrollment at Georgia State in order to be granted admission as a reentry student.
2. Students that last attended Georgia State University in the Learning Support Program (formerly the Department of Academic Foundations and Developmental Studies), have COMPASS scores below those currently required to exit LSP, and have not fulfilled their LSP requirements must either
   a. Retake the appropriate COMPASS tests and earn the minimum reading score currently required to exit LSP (74), the minimum writing score currently required to exit LSP (60), and the minimum math score currently required to exit LSP (37) or
   b. Complete their LSP courses at another USG institution (for example, Georgia Perimeter College) and then reapply for reentry.

4. Students that were placed on exclusion at the conclusion of their last term at Georgia State University must submit an application for academic renewal to the Student Advisement Center. Approval for academic renewal must be granted before students previously excluded can be approved to reenter the University. Students should refer to section 1360.30 for policies and procedures related to academic renewal prior to submitting an application for reentry.

**Transient Reentries.** Students wishing to apply for reentry as a transient student must submit an official transient letter from their home institution. Unofficial transient letters, transient letters opened by the student, and fax copies are not acceptable. The
transient letter must indicate that the student has permission to attend Georgia State University for the desired term of enrollment. Transient students must be eligible to return to their home institution for the desired term of enrollment. A new reentry application and a new transient letter are required for each subsequent term of enrollment at Georgia State. Note: students are only permitted to attend one spring or one fall semester as an undergraduate transient student, but unlimited summer semesters.

**Degree-seeking to Postbaccalaureate Reentries.** Previous degree-seeking students wishing to reenroll as a postbaccalaureate student must submit a transcript from the institution awarding the baccalaureate degree. ### 1175 Academic Regulations that Apply to Various Admission Categories

#### 1175.10 Transient Students

Transient students may attend for only one fall or one spring semester. However, attendance as a transient student in summer semesters is unlimited. In order to continue for an additional summer semester(s) as a transient, a student must file a reentry form and arrange for all necessary supporting documentation to be received in the Office of Undergraduate Admissions by the established deadlines. To continue attending, transient students must be in good academic standing at Georgia State University. Transient students who wish to become transfer students must apply to the Office of Undergraduate Admissions to be admitted as a transfer student. All scholastic discipline policies and all course prerequisites are applicable to a transient student. Transcripts for courses completed at Georgia State as a transient must be requested from the Office of the Registrar to be sent to the home institution. Transient students are admitted to and register through the college or school selected on their application. If the applicant does not indicate a college, and if a transient approval has been received, placement will be determined from the courses indicated in the letter. Transient students who seek reentry must complete a new reentry form for the semester that they wish to attend.

#### 1175.20 Postbaccalaureate Students

The postbaccalaureate status is not available for students seeking teacher certification in any area other than music education and art education. Postbaccalaureates may not attend another institution as a transient student while the postbaccalaureate is a student at Georgia State University.

#### 1175.30 International Students

International students with student visas are required to carry a full course load (12 semester hours). International students with student visas who wish to reenter must complete a new reentry form for the semester that they wish to attend.
1200 Financial Information

The Office of Student Accounts, 100 Sparks Hall, [http://www.gsu.edu/es/tuition_and_fees.html](http://www.gsu.edu/es/tuition_and_fees.html), is responsible for assessing tuition and fees and processing payments. The Office of Student Financial Aid, 102 Sparks Hall, [http://www.gsu.edu/es/financial_aid.html](http://www.gsu.edu/es/financial_aid.html) provides financial assistance to students who, without such help, would be unable to attend Georgia State University. These offices work closely together to serve students.

It is the responsibility of the student to be informed of, and to observe, all regulations and procedures regarding tuition, fees, payments, refunds and financial aid. In no case will a regulation be waived or an exception granted because a student pleads ignorance of the regulation or asserts that he or she was not informed of it by an adviser or other authority. Verbal misinformation is not grounds for a waiver of a regulation.

1210 Tuition and Fees

The tuition and fees are set by the Board of the Regents of the University System of Georgia. They are usually set in April or May, after this catalog has gone to press. Therefore, the 2006-2007 tuition and fees are listed here as a guide. Tuition and fees usually increase every year and are subject to change without notice. 1210.10 Waivers of Tuition and Fees

All requests for waivers of tuition and fees are due no later than two weeks before the end of regular registration. Requests made after that date will be considered for the subsequent semester.

### Waivers of All Tuition

All tuition is waived for students who fall into one of the following categories:

1. GSU 62 students. See section 1155.
2. Employee tuition remission students who take no more than 8 hours and register during late registration.

### Waivers of the Difference between Resident and Nonresident Tuition

The Board of Regents specifies that certain non-residents are granted waivers of the difference between resident and nonresident tuition. (See section 1220 for residency status rules.) These waivers are restricted to small classes of students. For more information, see [http://www.usg.edu/regents/policymanual/700.phtml](http://www.usg.edu/regents/policymanual/700.phtml).

In addition to these Board of Regents authorized waivers, non-resident students who are enrolled only in courses which meet more than 50 miles from GSU and are part of an official GSU off-campus study program pay in-state tuition plus $250.

To apply for a waiver of the difference between resident and nonresident tuition, go to the Residency Section of the Office of the Registrar, [http://www.gsu.edu/es/residency.html](http://www.gsu.edu/es/residency.html)
Waivers of All Fees

All fees are waived for students who fall into one of the following categories:

1. GSU 62 students. See section 1155.10.
2. Employee tuition remission students who take no more than 8 hours and register during late registration.

Waivers of All but $75 of Fees

Enrollment fees are reduced to $75 for students who fall into the categories below.

1. Students enrolled only in courses offered under a tuition agreement between Georgia State University and a corporation, organization, educational institution or other legal entity if the tuition agreement specifies that fees will be waived.
2. Students enrolled only in courses which meet more than 50 miles from Georgia State University if taking those courses at that location is required by their program of study. Such courses may include: practicum, student teaching, internship, directed reading, independent study, thesis research, or dissertation research. If the program of study allows (but does not require) that the courses be taken more than 50 miles from campus, then the students will not be granted a fee waiver.
3. Students enrolled only in courses that meet more than 50 miles from Georgia State University if those courses are part of an official Georgia State University off-campus study program. Such programs may include field study programs and study abroad programs.

Students who have paid fees at other institutions do not receive a waiver of Georgia State University fees. To apply for a fee waiver, go to the Dean of Students website, http://www2.gsu.edu/~wwwdos/waiverrequest.html and complete the Fee Waiver Request Form.

1210.20 Payment of Tuition and Fees

Georgia State University reserves the right at any time during the semester to drop any student from classes for failure to pay tuition and fees. Students who cease to attend but do not formally drop their classes using GoSOLAR at https://www.gosolar.gsu.edu/webforstudent.htm will suffer financial and academic consequences. Students who continue to attend classes after the University has dropped them will not receive course credit and will be held liable for the tuition and/or fees due plus any service fees assessed, applicable collection costs, court costs, and legal fees. A hold will be placed on the records of any student who has a financial obligation to the university. Until all financial obligations are met, a student will not be permitted to register for further course work or access transcripts. If a student’s account is sent to a collection agency, the student will be responsible for the tuition and fees as well as any collection costs and legal fees.

Payment Deadline

All tuition and fees must be paid by the dates published in the online Registration Guide at http://www.gsu.edu/es/registration_guide.html. Failure to meet payment deadlines will have financial and academic consequences.

Payment by Credit Card

Georgia State University accepts VISA and MasterCard for payment of tuition and fees. Students choosing this option may register and pay fees by going to the Georgia State University GoSOLAR student registration website at https://www.gosolar.gsu.edu/webforstudent.htm, thus eliminating the need to mail or deliver fee payments to the Office of Student Accounts. Credit card payments are also accepted at the Cashier’s Office located on the first floor of Sparks Hall.

Payment by Check

Checks must be payable in United States currency and drawn on a financial institution located in the United States of America. The university reserves the right to determine the acceptability of all checks. Checks must be made payable to Georgia State University and have an encoded checking account number on the face of the check. All checks not drawn in this manner will be returned. Checks may be mailed to the Office of Student Accounts and must be received, not post marked, by 5 p.m. on the fee deadline date. Checks may be mailed to Georgia State University, Office of Student Accounts, P.O. Box 4029, Atlanta, GA 30302-4029. Check payments may also be made in person at the Cashier’s Office located on the first floor of Sparks Hall or placed in the drop box across from the Cashier’s Office.

If a check given in payment of a student’s fees is not paid upon presentation to the banking institution, a hold will be placed on the student’s records. All returned checks will be assessed a returned check fee of $25.00. Georgia State University reserves the right to place a student on “cash only” status for issuing a check that is not honored upon presentation to the bank.
32 Financial Information

Payment in Cash
Cash payments may be made at the Cashier’s Office located on the first floor of Sparks Hall. Window hours are 8:30 a.m. to 5:15 p.m. Monday, Wednesday, Thursday and Friday and 10:00 a.m. to 5:15 p.m. on Tuesdays. It is unadvisable to send cash payments through the mail.

College of Health and Human Sciences Tuition Deposit
The College of Health and Human Sciences requires students newly accepted into certain professional and graduate programs to submit a portion of their first semester’s tuition at the time of acceptance. The advanced tuition, which is nonrefundable, guarantees the student’s place in the class.

1210.30 Refund of Tuition and Fees
Students who formally withdraw or who are formally withdrawn from a class or classes will be subject to the refund policy for tuition and other fees (see Section 1332). This policy decreases the amount of refund available at regular intervals during the term. After a time during the term, no refund will be available. Complete information about the refund policy throughout the term is available in each term’s online Registration Guide, http://www.gsu.edu/es/registration_guide.html.

Placing a stop payment on a check with the banking institution from which the check is drawn does not constitute a formal withdrawal from courses. Students must withdraw using the procedures outlined in the Registration Guide.

A student is not entitled to any refund of tuition or fees paid if the student leaves the university when disciplinary action is pending, or does not formally withdraw from the class or classes in which he or she is enrolled, or if other restrictions apply as listed in the online Registration Guide.

Refunds are paid either by check mailed to the student or by direct deposit into the student’s bank account. The refund for a student who received financial aid will be audited to determine the amounts to be returned to financial aid programs, and then the student will receive any remaining balance. Mailing addresses must be kept current by going to the Georgia State University GoSOLAR student website at https://www.gosolar.gsu.edu/webforstudent.htm to ensure proper mailing of refund checks.

Students who sign up for direct deposit (http://www.gsu.edu/es/tuition_and_fees.html) will receive their refunds significantly faster than students whose refunds must be mailed.

1210.40 Employer Tuition and Fee Reimbursement
Students eligible for tuition and/or fee reimbursement by their employers must submit their reimbursement forms to the Office of the Registrar, 227 Sparks Hall, accompanied by an addressed, stamped envelope. If grades are available for the applicable semester, forms will be processed and mailed within five workdays.

1210.50 Housing Fees
Housing fees for each semester are due when tuition and other fees are due. The housing fee for University Commons includes all utilities, cable television service, local telephone service in the apartment, and Internet connection. Parking at University Commons is an additional fee. Please check the housing website at http://www.gsu.edu/housing/index.html for specifics. Housing fees are subject to change.

The housing fees for the University Lofts vary based on the apartment type. Housing fees include all utilities, cable television service, internet connection, and local telephone service in the apartment. The Lofts Tenant parking, as well as Loft Tenant MARTA passes are available through Auxiliary and Support Services (http://www2.gsu.edu/~wwwaux/parking/index.htm). For more information, contact University Housing in person at 250 Student Center, by phone at 404/463-9052, by Email at housing@gus.edu or by visiting the Housing Website.

1220 Georgia Resident Status
As noted in Section 1210, residents of Georgia pay lower tuition rates than those who are not residents of Georgia. Establishing residency for tuition purposes as defined by the Board of Regents is different than residency for purposes such as voting, obtaining a Georgia driver’s license/tag, etc., and requires more than establishing eligibility to vote, securing a driver’s license, and/or paying taxes. Georgia residency status is also distinct from the academic residency requirement for graduation. (See Section 1430.)

A person may be a Georgia resident for tuition purposes if, and only if, either one of the following two criteria are met.

Criterion 1
A person may be a Georgia resident for tuition purposes if that person, that person’s parents, that person’s spouse or (if the person is a minor) that person’s court-appointed guardian meet all of the following conditions:
1. The person has always resided in Georgia or can demonstrate that they currently reside in Georgia and residency in any other state or country has been abandoned. Maintenance of ties with another state or country will contribute to a non-resident decision including: financial support from a person who is a resident of another state or country, payment of income taxes to another state, and payment of property taxes. Registering a vehicle or securing a driver’s license in that state or country may be considered.

2. The person has lived in Georgia for the 12 consecutive months immediately preceding the start date for the term and their 12-month durational requirement has not included time attending any educational institution in Georgia on a full-time basis.

3. The person can demonstrate that they moved to Georgia for purposes other than attending any educational institution in the State of Georgia.

4. The person can demonstrate economic self-sufficiency and has contributed to the state by paying meaningful taxes.

5. The person is a U.S. citizen, Resident Alien or is in a visa status permitting indefinite or permanent residence in the United States.

**Criterion 2**

A person may be a Georgia resident for tuition purposes if that person meets all of the following conditions:

1. The person is a U.S. citizen, Resident Alien or in a visa status permitting indefinite permanent residence in the United States and

2. The person can demonstrate that she or he was transferred to Georgia by an employer within the last 12 months or can demonstrate that she or he previously held residency status in Georgia but moved from the state and returned within the last 12 months.

If a parent or legal guardian of a student is a Georgia resident and then changes his or her legal residence to another state, the student may retain his or her classification as a resident student as long as he or she remains continuously enrolled at an institution in the University System of Georgia.

Please note that these regulations are subject to change by the Board of Regents. The most current regulations can be found on the Board of Regents’ website [http://www.usg.edu/regents/policymanual/400.phtml](http://www.usg.edu/regents/policymanual/400.phtml).

**1220.10 Petitioning for Georgia Residency for Fee Payment Purposes**

If a student or accepted applicant has been classified as a non-resident and wishes to contest the classification, he/she must petition for resident classification using the form found at [http://www.gsu.edu/registrar/gastate_residency.html](http://www.gsu.edu/registrar/gastate_residency.html). After attending as a non-resident, if a student wishes to change his/her residency classification, he/she must petition [http://www.gsu.edu/es/residency.html](http://www.gsu.edu/es/residency.html) using this same form.

**Deadlines for Petitions**

To ensure timely processing, petitions and all required documents must be submitted to the Residency Section of the Office of the Registrar (227 Sparks Hall) no later than the end of regular registration. Final determination of Georgia residence classification prior to the deadline date for fee payment cannot be guaranteed for petitions received after the priority date. Petitions filed after the final deadline will be considered for the subsequent semester.

If a petition is approved, classification will not be retroactive to prior semesters. Students who have filed a petition must respond to all Email requests for information within 10 business days. These Emails will be sent to the student’s official GSU Email address. The petitions of students who fail to respond within 10 business days will be considered for the subsequent semester. A student/applicant wishing to appeal the decision resulting from his or her Petition for Georgia Residence Classification may request a review of that decision by the University Committee on Residency and must submit such request in writing to the Residency Section of the Office of the Registrar within 20 days of the decision.

**1230 Financial Aid**

Financial aid is any scholarship, grant, loan, or part-time employment offered for the purpose of helping a student meet their educational expenses. Aid is usually provided by federal, state, institutional or private agencies. In order to apply, a student
Financial Information

must complete the Free Application for Federal Student Aid (FAFSA) or the Renewal Application. Students are encouraged to apply online at [http://www.fafsa.ed.gov](http://www.fafsa.ed.gov).

Students are urged to apply early for optimum financial aid benefits at [http://www.fafsa.ed.gov](http://www.fafsa.ed.gov). April 1 is the priority date for submission of completed financial aid applications to the Office of Student Financial Aid. The Office of Student Financial Aid cannot guarantee that applications made after April 1 will be processed before the beginning of the fall semester.

In order for a Georgia State student to continue to receive financial aid from federal or state financial assistance programs, the student must exhibit satisfactory academic progress. Copies of Georgia State University’s policy for determining satisfactory academic progress are available in the Office of Student Financial Aid and also on the Financial Aid website at [http://www.gsu.edu/es/financial_aid.html](http://www.gsu.edu/es/financial_aid.html).

Some programs offering financial assistance to students are administered by offices or organizations other than the Office of Student Financial Aid. Contact information concerning a particular program or group of programs appears with each listing. Audited, orientation, and certificate courses are not covered by financial aid. Students are not eligible to receive financial aid for a course attempted more than three times.

1230.20 Loans

A loan is a form of financial assistance which must be repaid. While Georgia State University does not encourage borrowing, loans are frequently necessary to meet educational costs not covered by the student’s income, the family’s contribution, or grant and scholarship awards. When student loans are necessary, Georgia State University advises borrowing conservatively.

Federal Loans

Undergraduate students with demonstrated financial need may borrow through the Federal Direct Subsidized Student Loan program. Independent undergraduate students may borrow additional funds through the Federal Direct Unsubsidized Student Loan program, and parents of dependent undergraduates may borrow through the Parent Loan for Undergraduate Students Loan program. The Office of Student Financial Aid will determine loan eligibility by year in school, prior indebtedness, and academic standing.

All recipients must be enrolled at least half-time in a degree seeking program, be a US citizen or an eligible non-citizen; be making satisfactory academic progress, cannot be in default or owe a repayment on a previous financial aid award, and must register with the Selective Service if required to do so.

Perkins Loan

Federal funds are provided to the university for the purpose of making low interest, long-term loans available to students who have a need for assistance. Applicants must be U.S. citizens or eligible non-citizens and enrolled at least half-time. These loans bear no interest until six months after a student graduates or drops to less than half-time enrollment for a specified length of time. A portion of the loan may be cancelled for service as a teacher of handicapped children or for teaching in schools that
have a special designation from the Commissioner of Education. Under special conditions, service in the Armed Forces may cancel a portion of the loan. Students who serve as law enforcement officers or corrections officers after graduation may be able to have up to 100 percent of their loan cancelled. Eligible students with complete applications for student financial aid will be considered.

Private Loans
Private loans, also known as alternative or commercial loans, help bridge the gap between the actual cost of education and the limited amount the government allows a student to borrow from its programs. Private loans are offered by many lending institutions. Terms and conditions can vary significantly from one institution to another.

HOPE Teacher Scholarship Loans
The HOPE Teacher Scholarship Loan is for graduate study in critical shortage fields. The program is administered by the Georgia Student Finance Commission for individuals with a master’s or specialist degree and undergraduates wanting to become a teacher. Veterans Benefits
The Office of the Registrar offers services to certify and assist students who are eligible for veterans’ benefits. Any veteran who wishes to attend Georgia State University under any of the veterans’ benefit programs provided by public law must apply to the Georgia State University Office of Admissions in the normal manner. It is advisable for a veteran who has not previously used any educational benefits to apply to the Department of Veterans Affairs for those benefits. For a veteran who will be transferring to Georgia State from another institution where educational benefits were received, a veteran must submit a Request for Change of Program or Place of Training form with the Department of Veterans Affairs concurrently with his or her application to Georgia State. As soon as the Georgia State Office of Undergraduate Admissions notifies the applicant of his or her acceptance, the applicant should contact the Office of the Registrar for further instructions.

Continuing students who wish to receive benefits must complete the Veterans Information Sheet through the Office of the Registrar each academic term. Students whose attendance was interrupted must renew their certifications at the beginning of the next academic term of attendance in which they wish to receive benefits. Those students who are certified on a term by term basis will routinely experience a break in benefit payments between academic terms and should contact the Veterans Administration Regional Office to ascertain the amount and schedule of their checks.

1300 University Academic Regulations

1302 General Information

1302.10 University Academic Policies

All students at Georgia State University are responsible for learning and observing all regulations and procedures required by the university and by the college and program or status in which they are enrolled. In no case will a regulation be waived or an exception granted because a student pleads ignorance of the regulation or asserts that he or she was not informed of a specific requirement by an adviser or other university authority. This chapter contains the academic regulations of the university. See the other parts of this catalog for information on the academic regulations of the various colleges and departments.

All students must become especially familiar with (1) this chapter, (2) the following chapter on university degree requirements and graduation, (3) their college’s chapter of this catalog, (4) the offerings and requirements of their major, and (5) the contents of the online Registration Guide found at http://www.gsu.edu/es/registration_guide.html, which also contains notices of changes in academic regulations or procedures.

While the provisions of this catalog will ordinarily be applied as stated, Georgia State reserves the right to change any provision listed in this catalog, including, but not limited to academic requirements for graduation, without actual notice to individual students. The university will make every effort to keep students advised of any such changes. Students must note especially their responsibility to keep apprised of current graduation requirements for their particular degree program.

1302.20 Student Computer Access Requirement

Each student enrolled at Georgia State University must have access to a computer, and any course offered at the university may require computer-based work. Further, the student’s computer must provide access to email accounts, the World Wide Web using a current browser, and spreadsheet and word processing software. Departments and other units may establish minimum machine capability and software requirements, including the requirement that a student in a certain degree program must own a computer. It is the responsibility of each student to ensure his or her access to a computer. Computers are available in the open-access computer laboratories on campus that provide the basic level of computer capabilities, but these laboratories are heavily used and cannot guarantee a student access to a computer at a particular time.

1302.25 Georgia State University E-mail

Every student is assigned an official Georgia State University e-mail address at the time of acceptance. It is essential that students regularly check this e-mail account. Academic departments and student service units across campus use e-mail as a means of communicating with students about official university business, and students are held responsible for this information. Email from Georgia State will be sent to the student’s official Georgia State e-mail address. It will not be sent to any other address (such as a Hotmail or Yahoo account). However, students may configure their Georgia State account to forward to another address.

1302.30 Academic Calendar

Georgia State University is on a semester system, and academic credit is awarded in semester hours. The fall and spring semesters are approximately 15 weeks each. Summer semester is composed of three-week classes in May as well as six-week and seven-week classes beginning in June. Enrollment in the three-week classes, six-week classes, or seven-week classes counts as having been enrolled in summer semester.

For students enrolled at Georgia State before fall 1998 who are completing the quarter system curriculum, transition manuals have been prepared to assist them in completion of their programs. Copies are available from the Office of Academic Assistance of each college (major-related undergraduate and graduate information).

1310 Academic Advisement and Development

Academic advisement is an essential component of an education at Georgia State University, and the university is committed to providing the individual advice and assistance that students need at every step of their degree programs. Academic orienta-
tion is required of all new undergraduate degree-seeking students entering Georgia State. Freshmen are required to attend Incept: New Student Orientation (described in next section). Transfer students must attend Incept (preferred), join a Freshmen Learning Community, meet with an academic adviser, or attend a group advisement session scheduled by the Student Advisement Center or by a college Office of Academic Assistance.

1310.10 Incept: New Student Orientation

The Office of New Student Programs is committed to recruiting, retaining, and developing Georgia State University’s new students. The office facilitates the transition of new students through Incept: New Student Orientation.

At Incept, students will learn about their degree requirements through group academic advisement. This opportunity will give students a better chance of getting the courses they want at the times they prefer. Students will also meet Georgia State’s faculty and engage in informal dialogue about the college classroom experience, tour Georgia State’s unique urban campus, and become familiar with classroom locations. Students will also have the opportunity to meet future classmates, explore student and campus services, visit with student organizations (including fraternities and sororities), and discuss campus issues with Georgia State’s finest student leaders. Incept: New Student Orientation is mandatory for all new freshmen and strongly encouraged for all new transfer students.

The Office of New Student Programs is located in Suite 265 of the Student Center. For more information, please call 404/463-9065 or visit http://www.gsu.edu/incept.

1310.20 Placement Testing

A math placement test is recommended for all students who do not have credit for an Area A math course and is required for students who wish to take Math 1111, College Algebra, or higher. See Section 1410.10 for information about math course requirements for different majors. This test is given during scheduled times in the university’s Testing Center. See http://www.gsu.edu/testing and click on Math Placement. Students may not register for a math course higher than indicated by their placement test score.

Placement exams in French, German, and Spanish are also available to help students determine the course most appropriate for their ability in French, German, or Spanish. Prerequisites in these courses are enforced. (See Section 9000, Course Descriptions, for the prerequisites of French, German, and Spanish courses.) Students may satisfy the prerequisites either by taking the indicated course or by taking the French, German, or Spanish placement exam and earning a satisfactory score. Students may take the exam from any computer with internet access and a browser. Go to http://www.gsu.edu/languages and click on the tab for the WebCAPE placement exam. The user name is “gsu user” and the password is “panthers1”. Each test takes approximately 20 minutes to complete, and students are given their score and a recommendation for a class level. It is recommended that students print a copy of the email regarding their scores to keep for their records and academic advisement. Note: This exam is not part of Incept: New Student Orientation, so new students should take the exam before attending orientation or attempting to register for a French, German, or Spanish course. For further information, please contact the Department of Modern and Classical Languages at http://www.gsu.edu/languages or e-mail at mclinfo@gsu.edu.

Students who are non-native speakers of English must take the Georgia State University Test of English Proficiency (GSTEP) before registering for classes. If the GSTEP was taken as part of the application process, this requirement is waived. Depending on their scores, these students may be assigned work in the Intensive English Program. See http://www.gsu.edu/iep for information about the Intensive English Program.

1310.30 Student Advisement Center

255 Sparks Hall

All undergraduate students are advised in the Student Advisement Center until they have completed 42 semester hours of credit and declared a degree program (in business, health and human sciences, education, or policy studies) or major (in arts and sciences). Upon meeting both criteria, students are transferred to the appropriate college’s Office of Academic Assistance for future advisement.

1310.40 Undergraduate Studies
Office of Undergraduate Studies
224 Sparks Hall
http://www.gsu.edu/flc

Nannette Commander, Assistant Vice President for Recruitment and Retention & Director of Undergraduate Admissions
Staff: John Austin, Greg Chisholm, Carolyn Codamo, Elizabeth Firestone, Gary Longstreet, Margarita Munoz, Peggy Ogden

The Office of Undergraduate Studies provides leadership and direction for the following programs: Atlanta-Based Learning (ABL), Freshmen Learning Communities (FLC), Latino Services and Outreach, Supplemental Instruction (SI), State Scholars, and the GSU 1010 New Student Orientation courses and college-wide offerings for the Perspectives courses.

Atlanta-Based Learning (ABL). Atlanta-Based Learning promotes academic and civic engagement with the greater Atlanta community. As an urban research institution in Atlanta, Georgia State University offers an opportunity for students to understand the context in which they are developing as learners. While engaged in “Campus Atlanta,” students experience the advantages of attending an institution directly linked to its urban environs. Atlanta-Based Learning activities generate connections between the academic curriculum and the urban Atlanta environment.

Freshmen Learning Communities (FLC). The Freshmen Learning Community (FLC) program is strategically aligned with university initiatives to provide quality undergraduate programs and to increase student success and retention. Learning communities provide first-year college students with a formative, integrative academic experience on which to build lifelong strengths and perspectives and help students develop connections to the Georgia State campus and its resources. FLCs are designed around clusters of freshmen-level courses tailored to a particular topic. Students only have to register for their FLC, not each individual course, to be assigned to each of the classes in the course cluster for their first semester at Georgia State. Learning community members take all of the specified courses with students who have selected the same interest group. In addition, each group has one or more faculty advisors. Together, this group creates a small, friendly community within the large research university. During their second semester, students may take one course connected with the FLC in addition to other courses of their choice.

Latino Services and Outreach. The Latino Services and Outreach program provides a “one stop shop” for information regarding financial aid, scholarships, internships, academic advisement, and career counseling. The main goal of the program is to provide a comprehensive support system necessary for students to be successful in college. Outreach efforts with middle and high school students provide a solid foundation for undergraduate activities that focus on building community and connection among students. In addition, the program offers educational opportunities for parents and community members interested in promoting higher education goals within Atlanta’s Latin American and Hispanic community.

Supplemental Instruction (SI). Supplemental Instruction (SI) is a proven academic support program sponsored by the Office of Undergraduate Studies and specific departments across campus. It is based on the national model from the University of Missouri-Kansas City. It offers free, out-of-class, group study sessions for traditionally difficult courses. Sessions are led by students who have successfully completed the target course and have been selected to be SI leaders. These leaders attend class along with the students and are available to meet with students outside of class at specific times. Attendance at SI sessions is voluntary. The list of classes supported by Supplemental Instruction each semester is available on the website: http://www.gsu.edu/es/21679.html

State Scholars. The State Scholars Program provides support and oversight of Georgia State’s academically high achieving students. State Scholars are students who are Presidential and Berner Scholars, recipients of awards from The Goizueta Foundation Scholars Fund, University Scholar Assistants, and students invited to join the Community of Scholars at the Lofts based on a freshman index score of 3000 or above. The Community of Scholars at the Lofts is a unique living-learning environment that strives to create an atmosphere conducive to studying while providing programming, faculty involvement, and cultural activities geared especially for State Scholars.
1310.50 Learning Support Program

The Learning Support Program (LSP) is for undergraduate students admitted on an exceptions basis who need remedial assistance in the areas of math, reading, and/or writing. The following courses are part of the program:

- Academic Reading   EdRd 0071
- Academic Writing   Engl 0081
- Elementary Algebra   Math 0098
- Intermediate Algebra   Math 0099

Students normally register for required LSP courses before registering for other courses. LSP courses do not count towards degree requirements or a student’s GPA at Georgia State University. They are, however, used to calculate a GPA for HOPE, Pell and other financial aid awards, and the courses and grades earned appear on a university transcript.

Approval to enroll in some degree credit courses in addition to the LSP courses may be granted if prerequisites for the degree courses are met and the student has not exceeded other LSP limits (see below).

Advisement and Enrollment. It is very important that LSP students meet each term with an academic adviser for advice regarding course selection. For this reason, an advisement hold is placed on each LSP student’s record each term. The hold is lifted after the student has seen an adviser in the Student Advisement Center.

Any student experiencing difficulty and/or considering withdrawing from an LSP course during the term must first meet with an adviser. The adviser will inform the student of the program’s withdrawal policies, including the right to apply for hardship withdrawal if an emergency situation exists.

Students are allowed a maximum of three attempts per academic area to pass all required courses in that area. Any grade other than a W counts as an attempt. If a student does not complete an academic area within 12 semester hours or 3 semesters, whichever occurs first, the student will be suspended from the university for three years.

Exiting the Program. Students exit LSP by earning a passing score on the COMPASS test. Students who have passed an LSP course but not passed the COMPASS must re-enroll in the relevant LSP course. The passing COMPASS scores are as follows:

- Reading, 74
- Writing, 60
- Math, 37 (on the COMPASS Algebra test)

Students must successfully exit LSP before they earn 20 hours of degree credit. If students do not complete their requirements before they have attempted 20 semester hours, their registration will be restricted to LSP courses only.

Requests for waivers to any of the above regulations should be submitted to the Director of the Student Advisement Center for review and approval by the university’s Admissions and Standards committee.

1310.55 College Preparatory Curriculum Requirements

The Board of Regents of the University System of Georgia requires all students to have completed sufficient English, math, science, social science and language courses in high school as preparation for college-level coursework. Students admitted to Georgia State with a deficiency in one or more of these areas must make up the deficiency by taking Georgia State core classes (science, social science, or language) or passing the COMPASS proficiency test (English or math). The Student Advisement Center will advise students about which courses they can choose from to complete a CPC requirement. Credits earned in courses taken to meet CPC requirements do not count toward graduation requirements. A grade of C or higher is required, and grades earned in these courses are counted in the student’s GPA. Students must complete all CPC-required courses before they earn 30 hours and in their first three semesters of enrollment. Otherwise they may not register for any courses except CPC courses until all requirements are complete.

Some transfer students are admitted with CPC requirements that were satisfied at a previous college or university. In this case, transfer courses used to satisfy CPC requirements may not be used toward graduation requirements at Georgia State.

1310.60 Honors Program

The Honors Program for the University is offered through the College of Arts and Sciences. Courses in the program are available to all eligible students regardless of the college in which they are enrolled. A detailed description of the program and the selection criteria are listed in the “College of Arts and Sciences” chapter of this catalog or visit the Honors Program website at http://www.gsu.edu/honors.
1310.70 Cooperative Education

Cooperative education programs provide for periods of paid work experience related to the student’s area of study and/or career interest. These work experiences enhance the student’s academic studies and provide a first hand look at the real world of work. Cooperative education opportunities are available for students in a variety of fields with many employers in business, industry, and government. The program is optional but available to all qualified students.

Students who are completing cooperative education experiences on a full-time basis will be designated as full-time students. University Career Services will provide the names of these students to the Office of the Registrar.

Students who have completed cooperative education experiences on a full-time basis as part of their academic programs will have a transcript notation stating which semesters were spent in cooperative education employment.

Interested students should contact University Career Services, 210 University Center, [http://www.gsu.edu/career](http://www.gsu.edu/career).

1310.80 International Student and Scholar Services

International Student & Scholar Services (ISSS) provides support for Georgia State University’s non-immigrant international student, faculty, and researcher population, their dependents, and any foreign-born citizens and permanent residents of the United States who may need services. Services include orientations, immigration advisement, international student and scholar insurance support, student advocacy, and other personal assistance in adjusting to and joining the university community. The office staff serves as a liaison with all academic departments, the diplomatic corps, and a variety of international agencies and publishes a newsletter focusing on issues of interest to international students. International Services also offers assistance to academic departments wishing to invite foreign scholars or hire foreign faculty. Information concerning programs and services is available in 252 Sparks Hall, by calling 404/463-9073, or online at [http://www.gsu.edu/isss](http://www.gsu.edu/isss).

Small loans are available for non-tuition personal expenses through the Eva Whetstone International Student Emergency Loan. Out-of-state tuition waivers may be available to F-1 and J-1 status degree-seeking international students on a competitive, need-based basis after completion of one academic year of study.

**International Student Orientation.** Prior to registration at the beginning of each semester, an orientation program is offered to provide assistance to new students on nonimmigrant status. Students receive information and advice concerning federal immigration regulations, the academic system in the United States, academic advisement and registration, the Atlanta community, and the mandatory health and accident insurance.

**International Student Associations.** Georgia State University has approximately twenty international student organizations that focus on celebrating the many countries and cultures represented on campus. They provide assistance for new and continuing international students, present cultural activities and events, and seek ways to share their culture with the campus. Information about the various associations and their umbrella group, the International Student Association Council, is available in the International Services office, and online at [http://www2.gsu.edu/~wwwsta/org.htm](http://www2.gsu.edu/~wwwsta/org.htm).

**International Student Health Insurance.** International Student Health Insurance is mandatory for all international students and scholars in F and J status enrolled at Georgia State, and it is optional for other nonimmigrant status students. A special international student health and accident insurance policy is made available each academic year, and payment of the insurance premiums is collected along with tuition during the process of registration. Individuals who may already be covered by a policy are required to submit information about the existing policy to [www.studentinsurance.com](http://www.studentinsurance.com) for review and exemption approval the semester before enrollment.

1320 Course Credit

This section describes the various ways students may earn credit for Georgia State University courses without actually taking those courses at Georgia State.

1320.10 Transfer Credit Policy

When an applicant is accepted for undergraduate transfer admission, courses completed with grades of C or higher that parallel the curriculum of Georgia State University will be accepted for transfer credit. As discussed below, some credit may be awarded for courses completed with a grade of D. Developmental, vocational, and occupational courses will not be accepted for transfer credit. Credit must have been earned at institutions of higher education with full accreditation by a regional association of colleges and schools and, where appropriate, the Commission on Colleges. The determination of how transfer credit may be used to satisfy the specific course requirements for a degree is made by the Student Advisement Center or the college that administers the degree program requirements. The college may also choose to test the student’s proficiency in transferred coursework.

- A maximum of 12 semester hours where grades of D have been earned may be applied toward degree requirements. These 12 semester hours include both resident credit (earned at Georgia State) and transfer credit. Transfer credit
will not be given for English composition courses where grades of D have been earned. Additional restrictions in credit accepted for courses where grades of D have been earned are included in certain degree programs. Be sure to check the description of your planned program in this catalog.

- No credit will be awarded for a grade earned at a foreign institution that is equivalent to a grade of D in the United States.
- A maximum of 60 semester hours from a two-year college or 81 semester hours from a four-year college may be applied in the program for which the applicant enrolls. Courses completed at a two-year college will be granted lower-division credit. The total number of hours that may be earned toward a degree by extension or correspondence courses may not exceed 30 semester hours.
- Because the university has a minimum academic residence requirement, the amount of transfer credit applicable to a degree program may be further limited (see Section 1430).
- Georgia State does not grant credit for College-Level General Educational Developmental Tests, USAFI courses, or courses completed at any United States armed forces service schools, with the exception of the military academies. For information on DANTES examinations, see Section 1320.40.

For those students seeking a baccalaureate degree, transfer credit for degrees previously awarded by other institutions will be granted as follows.

1. Students will be granted credit for all of Areas A-E of the core and the Regents’ Test if they hold one of the following:
   - a baccalaureate degree from a regionally accredited institution of higher education in the United States
   - the equivalent of a baccalaureate degree from a regionally accredited institution of higher education in the United States (as certified by Georgia State or a Georgia State-approved agency such as Joseph Silny and Associates, Inc.)
   - an associate’s degree designed to transfer to a baccalaureate program from a USG institution

2. However, there are two exceptions to the policy stated in 1 above.
   - Students seeking a baccalaureate degree in biology, chemistry, computer science, geology, mathematics, physics, science education, or math education who do not hold a baccalaureate degree in one of these fields will only be granted credit for all of Areas B, C, and E. They will be granted credit in Areas A and D on a course-by-course basis.
   - Students seeking a baccalaureate degree in nursing, nutrition or respiratory therapy will only be granted credit for all of Areas A, B, C, and E. They will be granted credit in Area D on a course-by-course basis.

3. Students who hold any other associate’s degree, such as an associate’s degree from a non-USG institution or an associate’s degree not designed to transfer to a baccalaureate program, will be granted transfer credit on a course-by-course basis.

1320.20 Credit Transfer for Transient Students

The following regulations pertain to academic credit earned by a Georgia State University degree-seeking undergraduate as a transient student at another accredited institution that the student wishes to receive transfer credit toward a degree at Georgia State. Terms other than transient (such as visiting student, unclassified student, or special student) may be used at other institutions to describe this status. Whatever the term used to describe the student’s status, these regulations are applicable to Georgia State students who enroll temporarily at the other institution, with the intention of returning to Georgia State, rather than to students who officially transfer to another institution. These regulations are in addition to those described in this chapter regarding correspondence and extension work.

These regulations do not apply to credit earned through cross registration, which is considered resident credit.

In general, the philosophy that underlies these regulations is the desire to allow students the opportunity to take courses not available at Georgia State that would enhance their degree programs. In addition, for students who have moved from the metropolitan Atlanta area, these provisions allow for possible progress toward the degree during the time away from Atlanta if the move is temporary or for possible completion of the degree if the move is permanent. These regulations are not primarily for the short-term convenience of the students. The following procedures apply:

1. A degree-seeking undergraduate student who wishes to take academic courses elsewhere as a transient student and apply those credits toward the Georgia State degree must obtain written approval in advance from the Student Advisement Center or the Office of Academic Assistance of his or her college. Failure to obtain written approval in advance may preclude acceptance of the transfer credit and/or will result in the student being required to meet the degree requirements of the catalog in effect at the time he or she reenrolls at Georgia State. The student’s advisement office should be consulted to determine the proper procedure for requesting to take courses as a transient student and to learn of any additional regulations applicable to the individual college;
   2. a. A student must have a minimum Georgia State cumulative GPA of 2.00 and the GPA required to enroll in the Georgia State course which is most similar to the course the student wishes to take as a transient.
   b. A currently enrolled student who does not have the required Georgia State cumulative GPA cannot be approved until the current semester’s grades are available and the current academic standing can be determined.
   c. Approval will not be granted more than three months in advance of the semester the student wishes to enroll elsewhere.
3. The content of each course to be taken elsewhere must correspond to that of a course allowed or a Georgia State course required in the student’s degree program. Course outlines (syllabi) and catalog information may be required so content can be evaluated before approval is granted.

4. A course cannot be taken at an institution in the metropolitan Atlanta area as a transient student if either of the following conditions apply:
   a. the course has previously been attempted at Georgia State (including attempts which resulted in a withdrawal);
   b. the course or an appropriate substitute is routinely available at Georgia State (that is, offered each semester or on a specified regular basis, such as every fall); determination of whether the course is routinely available is made by the advisement office in consultation with the chair or director of the academic unit that offers the course.

5. A student may not take courses for degree credit at another institution during the semester he or she expects to graduate from Georgia State.

6. In general, a minimum grade of C is required in any course taken elsewhere. A grade lower than C can be accepted only if both of these conditions exist: the student has not yet earned the maximum number of grades of D permitted in his or her program AND the student’s degree program allows a grade of D in the particular course taken elsewhere.

7. Approval to take courses as a transient cannot be given if such approval will cause the student to violate any aspect of the university’s residence requirement (see Section 1430).

8. It is the student’s responsibility to comply with application procedures and any other requirements that the other institution may have regarding establishing status as a transient student there.

9. After completing the course, it is the student’s responsibility to promptly request that an official transcript be sent from the other institution to: Georgia State University, Office of Undergraduate Admissions, P.O. Box 4009, Atlanta, GA 30302-4009.

1320.30 Credit for Correspondence or Extension Programs

Students may apply no more than 30 semester hours of work earned through correspondence or extension programs of other institutions toward the requirements for an undergraduate degree. Students are cautioned to consult with their academic adviser for additional college regulations on correspondence or extension work. Students must obtain the permission of the dean of their college, or the designated college representative, prior to taking correspondence courses to be applied toward the completion of the degree program.

1320.40 Credit by Examination

Georgia State University recognizes that learning can take place in various modes and places other than the traditional college classroom. Knowledge gained through experiential learning and other means is evaluated for possible college credit through examination. The Advanced Placement Program (AP), the College Level Examination Program (CLEP), and the International Baccalaureate Program (IB) are the most commonly used tests for this purpose. These are standardized examinations administered nationally each year. For information on CLEP, contact the University Testing Office, http://www.gsu.edu/testing. For information on AP and IB, contact your high school guidance counselor.

Other standardized exams or special departmental examinations may be approved for credit. For further information, contact the appropriate college.

For information on approved examinations, course equivalents, and credit award policies and requirements, please review the sections below.

Georgia State awards credit for some DANTES (Defense Activity for Non-Traditional Education Support) Program subject examinations. Please contact the Office of Undergraduate Admissions, http://www.gsu.edu/admissions, for information.

1320.60 College-Level Examination Program (CLEP)

Georgia State University awards credit for some College-Level Examination Program (CLEP) subject exams but does not award credit for the General Exam. Tests should not be scheduled during the last semester before graduation because the limited time remaining may not be sufficient to allow for course validation and the awarding of credit. 1330 Registering for Classes

1330.05 Office of the Registrar

2nd Floor Sparks Hall, Located in the Enrollment Services Center
http://www.gsu.edu/es/office_of_the_registrar.html

1330.10 Registration Procedures

Students may not attend a course unless they have registered for that course. Detailed information concerning the registration process, registration time-ticket assignments, and GoSOLAR registration can be found online at http://www.gsu.edu/es/office_of_the_registrar.html. Each semester students should go online for specific instructions for registering as well as a list of courses offered for the semester. Students are urged to become knowledgeable about registration instructions and to follow them exactly. Registering students are expected to have prepared a registration work sheet before accessing the university’s registration system. Unless approved by the department chair, a student may only register for one section of a given course in a given session. Any deviation from the prescribed procedure may result in unnecessary delays in registration or errors in the resulting schedule. The Office of the Registrar cannot be held responsible for errors resulting from the student’s failure to follow the prescribed registration and schedule revision procedures. Any problems experienced with registration should be reported to the Enrollment Services Center in person at 227 Sparks Hall or by e-mail to onestopshop@gsu.edu within 24 hours of the occurrence.

1330.15 Registration Time-Ticket Assignments

Students who are eligible to register will be given a registration time-ticket assignment. The first ten days of registration are the only days of registration that are time-ticketed. Approximately one week before registration begins students can find their registration time-ticket assignment by entering the GoSOLAR website at https://www.gosolar.gsu.edu/webforstudent.htm. Students will also receive an email referring them to the GoSOLAR website where they can view their registration time-ticket assignment.

A student’s time-ticket assignment is valid beginning at the student’s assigned time and continues through the last day of registration. Time-tickets are assigned with priority to students scheduled to graduate for the upcoming registration term and then to continuing students according to the total credit hours earned. Once a student is allowed access, he or she can adjust their schedule on a first-come, first-served basis during the remaining registration period. It is to the student’s advantage to attempt to register as soon as he or she is allowed access to the registration system because many classes fill up quickly.

1330.18 Late Registration

During late registration, access is on a first-come, first-served basis. If a student’s first attempt to register is during late registration, a $50 non-refundable late fee will be charged. This $50 fee will also be charged if a student is dropped for nonpayment of fees and attempts to reregister during late registration.

If a student appeals to add a class after late registration has ended and if the appeal is approved, the student will be charged a $37.50 manual schedule adjustment fee. This fee is charged for each appeal approved. Appeals should be directed to the department that teaches the course the student wishes to add.

1330.20 Immunizations

All new students attending regularly scheduled classes on campus or receiving resident credit are required to submit a certificate of immunization prior to registering for and attending such classes.

The immunizations required are Measles, Mumps & Rubella (MMR), Tetanus/Diphtheria (Td), Varicella (chicken pox) and Hepatitis B. In addition, the Meningitis Law requires students residing in university housing to have the Meningococcal vaccine. For more information, see the GSU Clinic website updates at http://www.gsu.edu/health.

Every student attending classes on campus must complete the immunization requirements of the University System of Georgia. The requirement varies according to the age of the student as follows:
• Students 18 years or younger at the beginning of the term must show proof of immunity to Hepatitis B, MMR, Tetanus/diphtheria, and Varicella (chickenpox).
• Students 19 years and older at the beginning of the term are strongly recommended to be immunized for Hepatitis B but they are not required to show proof of immunity to Hepatitis B. They are required to show proof of immunity to MMR, Tetanus/diphtheria and Varicella.
• Students born outside the United States on or before 12/31/1956 must show proof of immunity to Tetanus/Diphtheria and Varicella only.
• Students born in the United States on or before 12/31/1956 are required to show proof of Tetanus/diphtheria only.
• Students born in the United States on or before 12/31/1965 are exempt from showing proof of the Varicella vaccine. They are required to submit proof immunity for MMR, Tetanus/diphtheria.
• Students born outside the United States 01/01/1957 or later must provide proof of MMR, Tetanus/diphtheria, and Varicella.

The Immunization Office must receive these records before the last day of late registration. Immunization holds will be placed on student accounts to prevent registration, drop/add until the requirement is satisfied.

Students seeking exemption for religious reasons must submit a completed Georgia State University Certificate of Immunization form to the Immunization Office indicating their religious exemption request. Students with medical reasons for exemption must submit a doctor’s letter indicating if this is a permanent or temporary exemption, and, if temporary, the date of expiration. When the temporary exemption expires, the student must complete all immunization requirements. In the event of an epidemic or a threatened epidemic of any disease preventable by immunization, and when an emergency has been declared by appropriate health authorities, additional steps will be undertaken to protect the health of the university community. In the event of a declared public health emergency, persons who do not have proof of immunization on file will not be allowed to participate in classes or other activities on campus.

Additional information and copies of the immunization certification form may be obtained by contacting the Immunization Office located in 147 Sparks Hall, or by telephone at 404/651-1171, or online at http://www.gsu.edu/immunizations.

**Meningitis:** Georgia law requires that students residing in campus housing be provided information on meningococcal disease and vaccination. After reviewing information about the risks for the disease and the benefits of prevention by the meningitis vaccine, students 18 years and older are required to sign a form kept on file in the Housing Office. Students less than 18 years of age must show their parent or guardian’s signature on the form. This “Meningococcal Disease Notification” form documents that the information was reviewed and the option of the vaccine was provided, and/or date of the vaccination was elicited. Compliance with the state law is a requirement for residing in campus housing and is part of the housing contract. Forms and further information are available from the Housing Office at 404/463-9052 or by email at housing@gsu.edu.

### 1330.25 Audit Status

Enrolled students who wish to audit a course must get approval from the course instructor. Registration for an audit is done in the Enrollment Services Center, 227 Sparks Hall. Any fees for auditing a class are assessed just as they are for courses taken for credit. Any requirements for prerequisites must be satisfied before registering to audit a course. No academic credit is earned in this status. Audit status is not covered by financial aid, and audit hours do not apply toward full-time enrollment. Students may not transfer from audit to credit status or vice-versa after the last day to register for course credit.

### 1330.30 Course Load

**Full-time Course Load:** To be certified as full-time students, students must carry a minimum of 12 semester hours. A course load of 30 semester hours per year is required in order to complete an undergraduate degree program in four years.

A student who is enrolled in less than a full-time course of study at Georgia State may be in jeopardy of:
1. Losing insurance coverage under his or her parent/guardian’s insurance policy;
2. Being placed on a loan repayment schedule by a lender or guarantor if the student is the recipient of federal financial aid; and/or
3. Losing a scholarship if the guidelines for receiving the scholarship require full-time enrollment.

**Half-time Course Load:** Half-time enrollment is 6 to 11 semester hours for students.

**Increased Course Load:** A student may schedule as many as 18 semester hours without special permission. See the on-line Registration Guide at [http://www.gsu.edu/es/registration_guide.html](http://www.gsu.edu/es/registration_guide.html) for additional information about taking an increased course load. Requests for exceptions to the maximum course load of 18 semester hours will be considered by the Student Advisement Center or the Office of Academic Assistance of a student’s college if the student has completed a course load of 15 semester hours in some previous semester at Georgia State University with a grade point average of at least 3.00 for the semester and if either of the following conditions is met:

1. The student attained the Faculty Scholar designation during his or her most recent enrollment at Georgia State and, if a reentering student, has achieved a grade of A for all credit hours earned elsewhere since the most recent enrollment at Georgia State; or

2. The student has earned 60 semester hours of credit and has a cumulative grade point average of at least 3.00 for the preceding two semesters of residence.

**International Students:** International students in the student visa status of F and J are required to carry a full-time course load as defined by the Department of Homeland Security (currently 12 credit hours per semester for undergraduate students). An international student who is enrolled on a student visa may be in jeopardy of being out of compliance with the Department of Homeland Security if enrolled in less than a full-time course of study. Additionally, those F and J international students enrolling for the first time in summer school must carry six credit hours to be considered full-time for immigration purposes.

### 1330.33 Registration Restrictions for 3000/4000-level Courses

Registration in 3000 and 4000-level courses in the following departments or areas require a specific Georgia State University cumulative GPA (see Section 1350.20 for details on how the cumulative GPA is calculated).

- All departments in the Robinson College of Business: 2.50 required
- Computer Science: 2.30 required
- Criminal Justice: 2.00 required
- Film and Video: 2.50 required
- Journalism: 2.50 required (excluding Jour 3500)

In addition, registration in all 3000 and 4000-level courses in the Robinson College of Business require a total of 45 semester hours earned.

Some departments also have minimum GPA requirements to obtain admission to a particular major or degree. These requirements are specified in the college chapters of this catalog when applicable.

### 1330.35 Taking a Course More Than Once

Colleges may limit the number of times a student can take a course for a grade. Colleges may place this limit on some courses but not others, and different courses may have different limits. All limits are stated in the catalog. For purposes of this policy, a student takes a course for a grade when they receive a grade notation included in the grade point average calculation. For example, a student who earns an A or a WF has taken the course for a grade, but a student who earns an S or W has not. A student who wishes to take a course more times than authorized by the college must enroll as an auditor.

### 1330.40 Cross Registration

Georgia State University students may enroll in courses offered by member institutions of the Atlanta Regional Consortium for Higher Education (ARCHE) under a cross registration agreement provided they meet the academic eligibility and other requirements of the agreement. Students may learn more about cross registration or obtain an ARCHE Cross Registration form at [https://www.gosolar.gsu.edu/webforstudent.htm](https://www.gosolar.gsu.edu/webforstudent.htm).

Students who wish to cross register must complete and submit an ARCHE Cross Registration form to the Enrollment Services Center (227 Sparks Hall) at Georgia State. An approval signature of a representative of the Student Advisement Center or the Office of Academic Assistance in the student’s college of study is required. To participate in this program, students must be concurrently enrolled in at least one Georgia State course and meet the following minimum requirements: students must have at least a 2.0 GPA and the GPA required to enroll in the Georgia State course which is most similar to the course that the student wishes to take as a cross-registrant. Courses taken through cross registration count as residence credit, and grades are included in the Georgia State grade point average.

Students are not allowed to pre-register for cross registration courses. Registration will be on a space-available basis, and the host institution will specify the time and date on which a student must register.

For all courses taken as an ARCHE cross registration student, the tuition and fees will be at the rate of the home institution and paid to the home institution. Georgia State students pay fees after the cross registration is confirmed by the host institution.

Students must request that the Registrar’s Office of the host institution send an official transcript to their home institution upon completion of the term.

Students must complete new cross registration forms for any subsequent terms in which they plan to participate in the cross registration program.

Cross registration is available in the summer on a limited basis. Consult the cross registration office for more information.

The other ARCHE member institutions are: Agnes Scott College, Atlanta College of Art, Brenau University, Clark Atlanta University, Clayton and State University, Columbia Theological Seminary, Emory University, Georgia Institute of Technology, Interdenominational Theological Center, Kennesaw State University, Mercer University Atlanta Campus, Morehouse College, Morehouse School of Medicine, Oglethorpe University, Southern Polytechnic State University, Spelman College, State University of West Georgia, and University of Georgia.
1330.50 Changes in Personal Data

GoSOLAR is a computerized system that allows students to update some of their student records (address, phone number, etc.) using a terminal or personal computer. Any student or applicant can log on to the system from a terminal in an on-campus lab or any computer with an Internet connection. Students who wish to change their name should contact the Enrollment Services Center, Room 227 Sparks Hall, to complete forms and provide the legal documents required for a name change. As correct personal data is vital to the student’s record, students are urged to have their records updated when these changes occur.

1330.55 Off-Campus Courses

Many courses are offered to Georgia State University students at satellite locations. Students taking these courses must meet the same academic requirements and deadlines as students attending classes at the downtown campus. Each semester a list of off-campus courses can be found on GoSOLAR.

1330.60 Transcript Request

A student who has discharged all obligations to Georgia State University is entitled to receive, upon request, a copy of his or her transcript. Official transcripts of academic work completed at Georgia State University may be ordered via Georgia State’s website (https://www.gosolar.gsu.edu/webforstudent.htm). A student is entitled to five free lifetime transcripts. Once a student has exhausted the five free transcripts, Georgia State will charge a $10.00 processing fee for each transcript processed thereafter. There is a three to four business day processing period for requests. Picture identification is required to pick up transcripts. Transcript requests will not be processed until complete payment is received. Credit card payment is required for web requests.

Copies of official transcripts received from other institutions will not be made. Such requests must be directed to the institution holding the student’s original records.

Routine copies of other information in the student’s education records, with the exception of transcripts from other institutions and other items excluded from copying by practice or regulation, will be provided upon written request. A fee may be charged to cover the cost of copying. Special certifications based on educational records will be provided upon written request when permissible.

1330.70 Enrollment Verification

Enrollment verification is obtained via the web at no cost to students and takes approximately 7 business days to process.

Enrollment Verification

To obtain proof of enrollment, students should access GoSOLAR. At this site, students can do the following:
1. Print a Certificate of Enrollment that can be forwarded to a health insurer, housing provider, employer, credit issuer, or other student services provider;
2. View the electronic notification and deferment forms that have been sent to a lender; and
3. View a list of lenders and real-time student loan information detail, such as outstanding principal balance and next due date that some lenders provide.

Once a student drops a course, those hours cannot be used for verification of enrollment purposes. A student’s enrollment status may change if he/she drops or withdraws from a course or withdraws from the university. If a student is co-enrolled at another collegiate institution during the same semester he or she is enrolled at Georgia State University, only the enrolled hours at Georgia State can be used for enrollment verification purposes.

Degree Verification

To obtain proof that a degree has been awarded, students should go to http://www.degreeverify.com. At this site, students can provide proof of degree to such agencies as third-party verifiers, credit card companies, and credit approval agencies. This is a website of the National Student Clearinghouse. The Clearinghouse provides degree verification services to Georgia State students.

1330.80 Directory Information

An enrolled student may request that directory information (name, address, etc) not be public. To make this request, a student should fill out a Suppress Information Form, available at http://www.gsu.edu/es/student_information_suppression.html and turn it in to the Enrollment Services Center, 227 Sparks Hall.
1332 Revision of Class Schedules (Add/Drop/Withdraw)

Students desiring to revise their class schedule must follow the procedure appropriate for the period of time in the semester (see section 1332.10 below). During the published registration periods for each semester students will revise their schedule on GoSOLAR. Schedule revisions are defined as any changes to a student's schedule and include dropping and/or adding classes. Dropped courses do not appear on the student’s official record. To remove a course from a class schedule during the published registration period is referred to by the university community as “dropping” a course. After the last day to add/drop a course, students may “withdraw” from a course when they decide to stop attending. Withdrawing from a course makes the student eligible for a grade of W or WF. This grade is reflected on the student’s official record.

All schedule revisions must be completed by the official last day to register for course credit as published in the online Registration Guide at http://www.gsu.edu/es/registration_guide.html. Students who wish to request to be allowed to register for a course after the deadline based on institutional error, should contact the department offering the course.

1332.10 Dropping Classes and Voluntary Withdrawal

Georgia State University reserves the right at any time during the semester to drop any student from classes for failure to pay tuition and fees. Students who cease to attend, but do not formally drop their classes using GoSOLAR at https://www.gosolar.gsu.edu/webforstudent.htm, will suffer financial and academic consequences.

A. Withdrawal Periods and Grades of W and WF

1. During registration:
   When the registration system is open to students at the beginning of each term, students may drop or add classes using GoSOLAR. When a class is dropped during this period, no grade is recorded and no record of the student’s being enrolled in the class appears on the student’s transcript. Registration ends at the end of the first week of classes.

2. During the second week of classes:
   During the second week of classes, faculty have the discretion to request to add or drop students from classes. Factors such as space availability and health and safety regulations may apply to such requests. When a class is dropped during this period, no grade is recorded and no record of the students being enrolled in the class appears on the student’s transcript.

3. After registration and before the midpoint of the term:
   During this period, students may withdraw from a class or classes using GoSOLAR. Students will receive a grade of W or WF for any class dropped during this period depending on whether or not they have exceeded their limit of withdrawals with a grade of W. Specifically, students will automatically be awarded a W if they have not exceeded their limit and a WF if they have. Grades of W and WF appear on the student’s transcript. (Note: A grade of WF is treated as an F for GPA calculation purposes.)

4. After the midpoint of the term and until two weeks before the last day of classes:
   During this period, students may withdraw from a class or classes using GoSOLAR. Students will automatically receive a grade of WF for any class dropped during this period. (Note: A grade of WF is treated as an F for GPA calculation purposes.)

5. During the two weeks before the last day of classes:
   During the two weeks before the last day of scheduled classes for the term, voluntary withdrawals cannot occur.

B. Limits on Withdrawals with a Grade of W

1. Students are allowed to withdraw with a grade of W a maximum of six times in their undergraduate careers at Georgia State.

2. The limit on withdrawals does not apply if a student withdraws from all classes during a term before the midpoint. However, students are only allowed to withdraw from all classes prior to the midpoint twice without having their withdrawals count against the limit. Students who withdraw from all classes a third or subsequent time will automatically receive a grade of WF in their classes if they have reached their limit of Ws.

3. It is possible that a student will withdraw from more than one class in a particular semester and not have enough Ws left to use a W in all those classes. In that case, classes will be awarded a W based on the date and time the student initiated the withdrawal from that class. For example, if a student had taken five Ws in their career at Georgia State and then withdrew from three of the four classes in which the student is enrolled, the student’s sixth W allowed would be assigned to the class...
from which the student withdrew first. The student would receive a WF in the other two classes. In these cases, students may make an appeal to the Student Advisement Center or their Office of Academic Advisement to shift the W from one class to another. Such requests must be made no later than the end of the semester after the semester in which the student withdrew from the classes. (Whether a student is enrolled in the semester after the semester in which the student withdrew from the classes does not change this time limit.) Students may not shift Ws between semesters.

4. The following sorts of withdrawals do not count against the limit on withdrawals with a grade of W.
   a. Hardship withdrawals (see Section 1332.40).
   b. Grades of WF (withdrawal failing).
   c. Grade of WM (withdrawal military).
   d. Withdrawals taken in semesters before Fall Semester 2006.
   e. Withdrawals taken at other institutions.

5. This policy applies to all degree seeking undergraduate students. It does not apply to non-degree students (such as postbaccalaureate students).

6. This policy became effective Fall Semester 2006.

Students formally withdrawing from all classes may be entitled to a refund of a portion of their fees (see Section 1240).

In an emergency situation that precludes personal action to withdraw from classes, a student may communicate with the Office of the Dean of Students, [http://www.gsu.edu/deanofstudents](http://www.gsu.edu/deanofstudents).

### 1332.20 Withdrawals and Drops from Off-Campus Courses and Cancelled Courses

In general, if a student voluntarily withdraws from an off-campus course, then the normal withdrawal policy applies (see section 1332.10). If the off-campus course’s schedule does not match a Georgia State University term, then the mid-point of the course will be the mid-point of the period from the first off-campus meeting of the course to the last meeting of the course.

If a course is cancelled by Georgia State after the first week of classes, then the student may choose between three options:
1. They may have the course dropped from their schedule (even if the course is cancelled after the end of Late Registration), or
2. They may take a W in the course, or
3. In coordination with the course instructor and the department chair, the student may develop an academically appropriate plan to complete the course. These plans must be approved by the instructor and the department chair.

### 1332.30 Involuntary Withdrawal

Students are expected to observe all policies governing the class. Faculty must clearly state these policies in the course syllabus. When a faculty member determines that a student is in violation of one of the class policies (for example, has missed a required assignment or has excessive absences), that faculty member may withdraw the student from the course. Students involuntarily withdrawn prior to the midpoint of the course will be assigned a grade of W unless they’ve exceeded their maximum number of withdrawals allowed (see Section 1332.10). Students involuntarily withdrawn after the midpoint of the course will be assigned a grade of WF. Note that a WF is treated as an F for GPA calculation purposes. Using the official Georgia State University email system, the instructor will notify a student who is involuntarily withdrawn, and within ten days of this notification, the student may petition to the department chair for reinstatement in the course.

Students involuntarily withdrawn from all classes may be entitled to a refund of a portion of their fees (see Section 1240).

### 1332.40 Hardship Withdrawal

Students may be granted hardship withdrawals when non-academic emergency situations occur which prevent them from completing their coursework (e.g., severe medical problems, traumatic events/circumstances that cause them to miss numerous classes.). Hardship withdrawals are subject to the following restrictions:
1. Students are not eligible for hardship withdrawals in any course in which they have completed the course requirements (for example, taking the final exam or submitting the final project).
2. Students must initiate an application for a hardship withdrawal no later than one academic year after the semester in which the courses were taken.

Hardship status normally applies to all of your courses for the semester but in some cases may be granted for some and not others. Students requesting a hardship withdrawal in some but not all of their courses must provide documentation to justify such a partial withdrawal. If a student is granted a hardship withdrawal (full or partial), the instructors of the courses from which
the student is withdrawing must award a grade of “W” or “WF,” depending on whether the student was doing passing work as of the effective date of the hardship.

For further information on hardship withdrawals, contact the Office of the Dean of Students at http://www.gsu.edu/deanofstudents.

1332.45 Military Withdrawal

A student who is on active duty or is a military reservist (including members of the National Guard) may withdraw from the university if called for active duty or reassignment. The student must officially withdraw and submit Official Orders to Active Duty to the Enrollment Services Center, 227 Sparks Hall. A student is not eligible for a military withdrawal in any course in which the student has completed the course requirements (for example, taking the final exam or submitting the final project). Elective fees are to be prorated according to the date on which the student officially withdraws. Students who withdraw and receive a full tuition refund will receive a grade of “WM” (military withdrawal) for all courses from which the student has withdrawn.

1332.50 Non-Academic Withdrawal

A student may be withdrawn from the university for non-academic reasons when in the judgment of the Dean of Students, it is determined that the student has demonstrated behavior that: (a) poses a significant danger or threat of physical harm to self or to the person or property of others; or (b) interferes with the rights of other members of the university community or with the exercise of any proper activities or functions of the university or its personnel. Except in situations where the student is believed to be an imminent threat to self or others, as determined at the sole discretion of the University, a student shall, upon request, be accorded an appropriate hearing prior to the final decision concerning his or her continued enrollment at the university. In situations involving an imminent threat, the student will be provided a hearing as soon as possible after the withdrawal occurs. The instructor will assign students who are non-academically withdrawn a grade of W or WF (depending on whether they have exceeded their maximum number of withdrawals allowed) if they are withdrawn before the semester midpoint and a WF if they are withdrawn after the semester midpoint.

1334 Class Attendance

The resources of the university are provided for the intellectual growth and development of its students; it is expected that students should attend class regularly.

The Department of Veterans Affairs requires that institutions of higher learning immediately report to them when a student discontinues attendance. Georgia State University institutional policy requires that professors report the absence of a veteran student as soon as it is known that the student will not be returning to class. Generally, this should be reported after one week of absences and no later than two weeks of nonattendance by a student.

All matters related to student absences, including the making up of work missed, are to be arranged between the student and the professor. All professors will, at the beginning of each semester, make a clear statement in the course syllabus to each of their classes, describing their policies for handling absences. Professors will also be responsible for counseling with their students regarding the academic consequences of absences from their classes or laboratories. Students are obligated to adhere to the requirements of each course and of each professor.

Students must be present for announced quizzes, laboratory periods, or final examinations unless the reasons for the absence are acceptable to the professors concerned. A student who is absent because of participation in activities approved by the Provost’s Office will be permitted to make up work missed during his or her absence, provided that the student misses no more than 15 percent of class hours per course per semester. If requested, the appropriate university official will provide a memo stating the official nature of the university business in advance of the activity. Faculty are strongly encouraged to take into consideration religious holidays of the student’s faith, summons, jury duty, or similar compelling reasons for absence.

1336 Final Examinations

A student shall not be required to take more than two examinations within one 24-hour period during the published final examination period. More than two examinations within 24 hours are referred to as clustered examinations.

A student is considered to have an inappropriate clustering of final examinations when more than two examinations fall within 24 hours (for example, examinations at 8:30 a.m., 11:30 a.m., and 6:00 p.m. on the same day, or examinations at 6 p.m. on one day, and at 8:30 a.m. and 2:30 p.m. on the following day); the student is not considered to have an inappropriate clustering of examinations if the third examination in sequence begins at the same time on the subsequent day as the first examination (for example, 6:00 p.m. on one day, and 2:30 p.m. and 6:00 p.m. on the following day).

Students who have three or more clustered examinations may request of one professor that the examination be rescheduled according to the following procedure:
• If a final examination was rescheduled and thereby created a “cluster,” the instructor of the rescheduled examination will provide a special administration for the adversely affected student.

• If one or more of the clustered examinations is a “common examination” with an established conflict resolution time, the student will request to resolve the conflict by taking one of the common examinations in the conflict resolution time. If two or more of the examinations are “common examinations,” the student may choose which “common examination(s)” is to be rescheduled.

• If one of the clustered examinations is not a common examination or the result of rescheduling, the instructor of the middle examination(s) will provide a special administration for the adversely affected student.

Students must inform the instructor, in writing and at least 14 days before the beginning of the final exam period, that a clustered examination situation exists with respect to that instructor’s course and that the student will need to take the final examination as a special administration. If a student fails to inform the instructor, in writing and at least 14 days before the beginning of the final exam period, the instructor is not required to provide a special administration of the final examination.

Once a student has taken an examination, he or she cannot request a reexamination on the basis of this policy.

1340 Classification of Students and Courses

1340.10 Class Standing

Students are classified on the basis of total earned hours of academic credit as follows:

<table>
<thead>
<tr>
<th>Student Status</th>
<th>Semester Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>0-29</td>
</tr>
<tr>
<td>Sophomore</td>
<td>30-59</td>
</tr>
<tr>
<td>Junior</td>
<td>60-89</td>
</tr>
<tr>
<td>Senior</td>
<td>90 or more</td>
</tr>
</tbody>
</table>

The classification under which a student registers at the beginning of any semester will continue through that semester.

1340.20 Change of Catalog Edition

Students must normally satisfy the degree requirements of the catalog in effect at the time they enter Georgia State University. However, in some circumstances, revisions may be required to provide more effective programs. The term “degree requirements” refers to the courses and grades required to earn the degree. Changes in academic regulations affect all students, regardless of the catalog edition; examples include the scholastic discipline policy, procedures for removing incomplete grades, and appeals procedures.

There are several instances when a student will be required to change catalog editions and satisfy the curricular degree requirements of the catalog in effect at the time he or she:

1. Officially changes colleges within the university;
2. Officially changes majors within a college;
3. Officially changes from postbaccalaureate status to any degree-seeking status;
4. Reenters the university after a period of two or more consecutive years during which time he or she did not earn academic credit at Georgia State;
5. Reenrolls at Georgia State after attending another institution as a transient student with the intention of transferring credits earned at the other institution to Georgia State without having received written authorization in advance from his or her college. This regulation applies to any length of absence from the university. In such cases, students are considered to be transfer students;
6. Reenrolls at Georgia State after attending another institution as a transfer student. This regulation applies to any length of absence from the university; and
7. Has not graduated by the time his or her catalog edition is ten years old.

Students may choose to satisfy the degree requirements of a later catalog, but, if they choose to do this, they must meet all the requirements of the later catalog. Degree requirements of more than one catalog edition cannot be combined. Students who choose to satisfy requirements of a later catalog must notify the Student Advisement Center or the Office of Academic Assistance of their college.
1340.30 Declaration of Major

All applicants other than freshman must declare a degree and major at application. All freshman must declare a degree and major one calendar year after their first enrollment at Georgia State. Students are encouraged to declare a major as early as possible. This is especially true for students following a track in natural sciences, health sciences, or mathematics. Colleges and departments may require students to declare a degree and major earlier than indicated above. The Director of the Student Advisement Center is authorized to grant exemptions to this policy.

1340.35 Change of Major and College

Students may request to change majors within one college at Georgia State University or change to another college. If the request is approved, students will transfer their academic standings (good, warning, supervision, or probation). Some programs have special requirements for admission, so students should contact the Student Advisement Center or the Office of Academic Assistance of the desired college to determine if special criteria apply.

To request a change of major or college, students should contact the Student Advisement Center or the Office of Academic Assistance of the college in which they are currently enrolled. Students who change majors or colleges will be required to satisfy the degree requirements in effect at the time the change is officially recorded. Students who have applied to graduate must declare their degree, major, and minor/concentration (if applicable) with their advisement office prior to their final semester to avoid a possible delay in graduating.

1340.40 Dual Degrees

Dual degrees are earned when a student satisfies all requirements for two different baccalaureate degrees (for example, B.A. and B.S.) within one or more colleges of Georgia State University. The minimum residence requirement of 39 semester hours at Georgia State University in courses numbered 3000 or above must be met for the first degree. If the second degree is completed concurrently with the first degree, or within five calendar years of the first degree, this requirement shall be deemed to have been satisfied for both degrees. Regardless of when the second degree is completed, the requirements for the second degree will come from the catalog edition that the student followed for the first degree.

After five years from the date of the award of the first degree, credit that has been used to satisfy the university’s academic residence requirement for this degree cannot be applied toward the university’s minimum academic residence requirement for the second degree. Regardless of when the second degree is completed, both degrees require that at least one-half of the courses comprising the major or 11 semester hours in the major, whichever is less, must be taken at Georgia State. If a department offers more than one degree, it may prohibit a student from earning more than one degree in that department. This restriction will appear in the Program Degree Requirements section of the description of the major.

Students who wish to earn dual degrees should consult with the Student Advisement Center or the Office of Academic Assistance of their current college and, if the second degree is offered by another college of this university, with the Office of Academic Assistance of the relevant college for information on procedures to follow.

1340.50 Double Major

A double major consists of two separate majors in the same baccalaureate degree (for example, B.S. with majors in Criminal Justice and Psychology), regardless of the college or colleges in which that degree is awarded. A double major is earned when the student completes all requirements for each of the majors and all requirements for the degree. The minimum residence requirement of 39 semester hours at Georgia State University in courses numbered 3000 or above must be met for the first major. If the second major is completed concurrently with the first major, or within five calendar years of the first major, this requirement shall be deemed to have been satisfied for both majors. Regardless of when the second major is completed, the requirements for the second major will come from the catalog edition that the student followed for the first major.

After five years from the date of the awarding of the first major, credit that was used to satisfy the university’s academic residence requirement cannot be applied toward the university’s residence requirement for the second major. Regardless of when the second major is completed, at least one-half of the courses comprising both majors or 11 semester hours in the major, whichever is less, must be taken at Georgia State.

Whether in one degree or two, a student may not graduate with more than two majors. (For example, a student may not earn a B.S. with a double major in Economics and Psychology and also a B.A. in English. This would constitute three majors and would not be permissible.)

Students who wish to earn double majors should consult with the Student Advisement Center or the Office of Academic Assistance of their current college and, if the second major is offered by another college in the university, with the Office of Academic Assistance of the relevant college for information on procedures to follow.
1340.60 Classification of Courses

Courses are numbered as follows:

<td>0001-0099</td>

1350 The Grading System

1350.10 Grades

The following grades are used to specify level of performance in academic courses:

A: Excellent

B: Good

C: Average

Minimum grade required for certain courses, as specified elsewhere in this catalog.

D: Poor

A grade of D, while giving credit hours, will not apply toward the degree in courses requiring a grade of C or higher. (See Section 1440.)

F: Failure

This grade indicates failure. No credit toward graduation is given for a course in which a grade of F was received.

WF: Withdrawal While Failing

This grade indicates failure. No credit toward graduation is given for a course in which a grade of WF was received. A WF and F are treated the same for GPA calculation purposes. WF indicates that the student

1. Voluntarily withdrew from a course after the midpoint of the grading period and was not awarded a hardship withdrawal, or
2. Was involuntarily withdrawn from a course after the midpoint of the grading period and was not awarded a hardship withdrawal.

(See “W: Withdrawal”, below, and Section 1332.)

The following grades are approved for use in the cases indicated but will not be included in the determination of a student’s cumulative grade point average:

W: Withdrawal

This symbol indicates that a student was permitted to withdraw from the course without penalty. (See “WF: Withdrawal While Failing”, above, and Section 1332.)

WM: Military Withdrawal

This symbol indicates that active duty military personnel and military reservists (including members of the National Guard) received emergency orders to active duty or reassignment during the term (see Military Withdrawal, Section 1332.45).

I: Incomplete

The notation of I may be given to a student who, for nonacademic reasons beyond his or her control, is unable to meet the full requirements of a course. In order to qualify for an “I”, a student must:

1. Have completed most of the major assignments of the course (generally all but one); and
2. Be earning a passing grade in the course (aside from the assignments not completed) in the judgment of the instructor.
When a student has a nonacademic reason for not completing one or more of the assignments for a course, including examinations, and wishes to receive an incomplete for the course, it is the responsibility of the student to inform the instructor in person or in writing of the reason. A grade of incomplete is awarded at the discretion of the instructor and is not the prerogative of the student. Conditions to be met for removing a grade of incomplete are established by the instructor. Registering in a subsequent semester for a course in which a grade of incomplete has been received will not remove the grade of incomplete. (See Section 1350.30, paragraph 2.) No student may graduate with an “I” on his or her record.

**IP: In Progress**

This symbol indicates that credit has not been given in courses that require a continuation of work beyond the term for which the student registered for the course. The use of this symbol is approved for dissertation, thesis, and project courses (such as student teaching, clinical practice, and internships). The IP notation may be replaced with an appropriate grade by the instructor. This symbol cannot be substituted for an “I.”

This grade is used in the Learning Support Program (LSP) to indicate that a student has demonstrated academic growth in the course; however, the level of achievement is not sufficient to meet all of the course requirements. In LSP, the grade of IP is a permanent grade and does not meet the minimum exit criteria for any course in the program.

**S: Satisfactory**

This symbol indicates that credit has been given for completion of degree requirements other than academic course work. The use of this symbol is approved for dissertation and thesis hours, student teaching, clinical practicum, internship, and proficiency requirements in graduate programs. This symbol is also used in a Regents’ Test Preparation Course when the Regents’ Test was passed.

**U: Unsatisfactory**

This symbol indicates unsatisfactory performance in an attempt to complete degree requirements other than academic course work. No credit will be given. The use of this symbol is approved for dissertation and thesis hours, student teaching, clinical practicum, internship, and proficiency requirements in graduate programs. This symbol is also used in a Regents’ Test Preparation Course when the Regents’ Test was not passed.

**V: Audit**

This notation is used when a student has audited a course. Students do not earn academic credit for such courses. See Section 1330.25.

**K: Credit-by-examination**

This symbol indicates that a student was given credit for a course based on successful performance on an examination approved for this purpose.

**NR: Not Reported**

This symbol indicates that a student’s grade was not reported to the Registrar’s Office by the deadline for reporting grades for the term as published in the on-line Registration Guide. The grade will be updated as soon as the instructor reports the grade.

**GP: Grade Pending**

This symbol indicates a grade will be assigned pending the outcome of an academic honesty case. See Section 1380.

### 1350.20 Cumulative Grade Point Average

The cumulative grade point average is calculated by dividing all hours carried at Georgia State University into total quality points earned. Quality points are calculated by multiplying hours earned for each course by the numerical value of the grade earned. (See the following table for numerical equivalents of letter grades.) Grade point averages are rounded to the hundredth place. For example, 2.676 is rounded to 2.68.

All attempts at all academic courses taken are included in these calculations of total number of grade points earned and the total number of semester hours attempted. Credits earned in other institutions, credit by examination, credits which carry S/U grades, CLEP credit, AP credit, institutional credit courses, and courses specifically excluded by university policy are not used in computing the cumulative grade point average.

The numerical value (grade point) for academic letter grades are as follows:

- A: 4.00
- A-: 3.70
- B+: 3.30
<table>
<thead>
<tr>
<th>Grade</th>

The symbols I (Incomplete), IP (In Progress), W (Withdrawal), S (Satisfactory), U (Unsatisfactory), V (Audit), K (Credit-by-examination), and NR (Not Reported) do not have numerical equivalents and are not used in calculating grade point averages. The Department of Veterans Affairs defines the U and V as non-punitive grades; however, veteran students should notify the veterans’ counselor immediately upon receiving a grade of U or V.

### 1350.30 Changes in Grade

A course grade that has been reported by the instructor to the Office of the Registrar and recorded cannot be changed except in the following circumstances:

1. Error in grade. If a student believes that there is an error in a grade, the student should discuss the situation with the instructor. A request for a change of grade assigned by an instructor who has left the university should be addressed to the chair of the department.

2. Removal of an Incomplete. A student receiving a grade of I (incomplete) is expected to consult with the instructor within the prescribed time limit and to complete all necessary work. The period of time given to a student to remove a grade of I is established by the instructor, subject only to the maximum time limit set by the university. The university requires that a grade of I be removed not later than the end of the second academic term after the grade of I was assigned (whether or not the student was enrolled during these two terms). The Office of the Registrar will assign a grade of F at the end of the second academic term unless the Office of the Registrar receives an approved grade adjustment request from the instructor. (If the student enrolled for S/U grading, a U will be assigned.) Using the grade adjustment form, instructors may or may not change this F/U to an authorized academic grade (i.e., A, B, C, D, S or WF) but may not change it back to an I. Instructors may not change an I to a W unless a Hardship Withdrawal is awarded. In exceptional cases, departments may authorize students to have an I grade for more than two semesters. Such authorizations must be approved by the department chair. The authorization to extend the I beyond two semesters must be renewed each semester. Students need not be enrolled to complete assignments for a course in which a grade of I has been assigned. Auditing or retaking the same course will not remove a grade of I. No student may graduate with an incomplete grade.

### 1352 Academic Recognitions

#### 1352.10 Semester Recognition

**Faculty Scholar:** Degree-seeking students with a minimum Georgia State University cumulative grade point average (GPA) of 2.00 who complete at least nine semester hours of academic credit in fall or spring term (or six semester hours in summer term) with no Incompletes for the semester and who earn a 4.00 GPA shall be named Faculty Scholars for the semester.

**Dean’s List:** Degree-seeking students with a minimum Georgia State cumulative grade point average (GPA) of 2.00 who complete at least nine semester hours of academic credit in fall or spring term (or six semester hours in summer term) with no Incompletes for the semester and who earn a GPA of at least 3.50 shall be placed on the appropriate Dean’s List for the semester.

#### 1352.20 Cumulative Recognition

**Dean’s Scholarship Key:** Degree-seeking students shall be awarded the Dean’s Scholarship Key for outstanding academic achievement at four milestones in their course work at Georgia State University. To be eligible to receive this recognition, a student must not have any outstanding grades of Incomplete on his or her record and must meet the following minimum grade point average requirements for the four 30-semester-hour blocks of course work:

<table>
<thead>
<tr>
<th>Course Work</th>
<th>GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>30 semester hours in residence</td>
<td>4.00</td>
</tr>
<tr>
<td>60 semester hours in residence</td>
<td>3.80</td>
</tr>
<tr>
<td>90 semester hours in residence</td>
<td>3.65</td>
</tr>
<tr>
<td>120 semester hours in residence</td>
<td>3.50</td>
</tr>
</tbody>
</table>
Faculty Scholarship Award: To acknowledge a continuous and long-term commitment to academic excellence, the Faculty Scholarship Award is given to those students who maintain a 4.0 grade point average in the course of accruing a minimum of 36 semester hours with no incompletes over a period of no more than four consecutive semesters in residence at Georgia State and within a period of 36 months.

1352.30 Honors Program Recognitions

All honors recognitions require participation in two honors colloquia or forums. Grade point average and distribution requirements apply. See the “Honors Program” section in the “College of Arts and Sciences” chapter of this catalog or contact the Honors Program Office, http://www.gsu.edu/honors, for further details.

General Honors recognize successful completion of honors studies at the lower-division level in general (liberal arts) course work. Students must complete 25 semester hours in lower-division honors classes in at least three areas.

Advanced Honors recognize honors achievement at the upper-division level and reflect commitment to excellence in the major or allied field. Students must complete 20 semester hours of upper-division honors course work.

Research Honors recognize pursuit of excellence at the upper-division level by completion of independent study and research, thereby encouraging students to learn methods of inquiry within a discipline. Students complete ten semester hours of a research project and thesis plus ten additional semester hours of upper-division honors course work.

Honors Program Alumni Association Scholarship: These scholarships are awarded each year to students enrolled in the Honors Program of the university who have completed at least two honors courses prior to their application. Funded by the Alumni Association, the awards are based on scholarly performance and academic excellence. Information about these awards is available in the Honors Program Office.

1360 Academic Support

1360.10 Scholastic Discipline

There are four levels of scholastic discipline for students: warning, supervision, probation, and exclusion. A student who is eligible to enroll in courses is in good standing.

Students are placed on warning when their cumulative Georgia State University GPA is below 2.0 and they were not on supervision or probation the previous semester in attendance.

Students are placed on supervision when their cumulative Georgia State GPA is below 2.0 and they were on warning the previous semester in attendance. However, students on warning who attempt 6 or more semester hours and earn a Georgia State term GPA of 2.3 or better will remain on warning.

Students are placed on probation when their cumulative Georgia State GPA is below 2.0 and they were on supervision the previous semester in attendance. However, students on supervision who attempt 6 or more semester hours and earn a Georgia State term GPA of 2.3 or better will remain on supervision.

Students are placed on exclusion when their cumulative Georgia State GPA is below 2.0 and they were on probation the previous semester in attendance. However, students on probation who attempt 6 or more semester hours and earn a Georgia State term GPA of 2.3 or better will remain on probation.

Students on supervision or probation may be allowed to enroll with specific restrictions (see Section 1360.20). Students on exclusion are not eligible to enroll in any undergraduate program or under any status at Georgia State. No transfer credit will be accepted for courses taken at other institutions while on probation or exclusion.

Students on warning, supervision, or probation should refer to Section 1360.20 and consult with an adviser in the Student Advisement Center for additional information about scholastic discipline.

1360.20 Academic Improvement Program (AIP)

The Academic Improvement Program (AIP) is intended to assist students in extricating themselves from scholastic discipline and to meet the graduation requirement of a cumulative Georgia State University GPA of 2.0 or higher. The elements of AIP are registration approvals by an adviser, course load limits, and survival skills instruction. For further information about the AIP, please contact the Student Advisement Center at http://www.gsu.edu/es/advisement.html.

Students on warning may register for no more than 13 semester hours. They are not required to meet with an academic adviser although are encouraged to do so as necessary for help selecting courses, understanding degree requirements and academic regulations, and developing strategies for returning to a 2.0 cumulative GPA.

Students on supervision are required to participate in AIP as follows: (a) have their registration approved by an academic adviser; (b) register for no more than 13 semester hours; (c) and take any other steps required by the academic adviser (for example, seeing their major adviser, participating in an assessment by the Counseling Center, etc.). Students on supervision for a second or subsequent semester must continue to participate in AIP until their cumulative Georgia State GPA is 2.0 or higher.
A college may, at its option, require students on **probation** not to enroll at Georgia State for one semester. If students on probation are allowed to enroll, they are required to participate in AIP as follows: (a) have their registration approved by an academic adviser; (b) register for no more than 13 semester hours; and (c) take any other steps required by the academic adviser (for example, seeing their major adviser, participating in an assessment by the Counseling Center, etc.). Students enrolling while on probation must continue to participate in AIP until their cumulative Georgia State GPA is 2.0 or higher.

Students participating in AIP may be assigned GSU 1050, Survival Skills for College. GSU 1050 may be taken only once and does not count toward credit hour requirements for graduation. Credit hours enrolled in GSU 1050 count toward the 13-semester course load limit for students participating in AIP. Grades received for GSU 1050 are used to calculate the cumulative GPA and the term GPA.

Students on **exclusion** are not eligible to enroll in any undergraduate program or under any status at Georgia State and may not participate in AIP.

Appeals for exemption from some or all of the requirements of AIP should be submitted to the director of the Student Advisement Center. Appeals of decisions by the director of the Student Advisement Center may be filed in accordance with the procedure for petition of university regulations. Information about AIP and appeals of AIP requirements is available from the Student Advisement Center.

### 1360.30 Academic Renewal

Under certain conditions, Georgia State University allows its former undergraduate students to apply for academic renewal. This provision is intended to allow Georgia State degree-seeking students who have experienced academic difficulty to make a fresh start and to give them a final opportunity to earn a bachelor’s degree. It can apply to individuals on scholastic exclusion. These are the provisions of academic renewal:

#### Eligibility for Academic Renewal

1. A minimum of five calendar years must have passed since last enrollment at Georgia State University.
2. Former Department of Academic Foundations (formerly Division of Learning Support Programs and Developmental Studies) students may apply for academic renewal only if they completed all learning support programs requirements prior to the five-year absence.
3. A student can be granted academic renewal only one time.
4. A student who was excluded from Georgia State and has attended another college or university during the absence from Georgia State is not eligible for academic renewal.
5. A student who was not excluded from Georgia State but attended another college or university during an absence of five or more years may choose one of these options, but not both:
   a. Return to Georgia State as a transfer student, subject to all relevant transfer and reentry policies. The student will not be eligible for academic renewal but transfer credit will be granted for applicable courses taken during the absence and previously earned Georgia State credit is retained.
   b. Apply for academic renewal. If academic renewal is approved, no transfer credit will be granted for coursework completed during the absence.

#### Effects of Academic Renewal

1. A cumulative GPA that reflects all attempts at all courses taken at Georgia State continues to be recorded on the student’s official transcript. A new renewal GPA is begun when the student has been approved for academic renewal and is also recorded on the student’s official transcript. The renewal GPA will be used for determining academic standing and eligibility for graduation.
2. Academic credit for previously completed course work including transfer course work will be retained only for courses in which an A, B, or C grade has been earned.
3. The grades in Georgia State academic credit that is retained are not calculated in the institutional GPA. This credit, therefore, is placed in the same category as transfer credit, credit by examination, and courses with grades of S.
4. Courses for which academic credit is not retained (those with grades of D or lower) must be repeated at Georgia State if they are required in the student’s degree program. All remaining degree requirements must be completed at Georgia State. No transient or transfer credit will be accepted.
5. Whether the retained academic credit is still applicable for degree credit will depend on the degree requirements currently in effect at the time the student returns to Georgia State and on specific program regulations.
6. All courses taken at Georgia State remain on the student’s official Georgia State transcript. At the time academic renewal is approved, this approval is noted on the student’s transcript. Any Georgia State course work for which credit can be retained is listed below the academic renewal notation.
7. Reentry into a program that has specific admission requirements is not automatic. Academic renewal students who wish admission to such a program must apply directly to the program.
8. Students must meet the academic residence requirement (see section 1430) using only course credit earned after academic renewal.
9. To be eligible for honors at graduation, students must earn at least 60 hours of credit after academic renewal.

Applying for Academic Renewal
1. To apply for academic renewal, the student must obtain approval both from the Office of Undergraduate Admissions and from the Student Advisement Center.
   a. File an application for reentry to the university with the Office of Undergraduate Admissions, 200 Sparks Hall, http://www.gsu.edu/returning.html.
   b. File an application for academic renewal with the Student Advisement Center. The deadlines for applying for academic renewal in order to enroll for a semester are:

<table>
<thead>
<tr>
<th>To return in</th>
<th>Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall</td>
<td>July 1</td>
</tr>
<tr>
<td>Spring</td>
<td>December 1</td>
</tr>
<tr>
<td>Summer</td>
<td>May 1</td>
</tr>
</tbody>
</table>

Application for Academic Renewal before the prescribed deadlines will aid in the timely return of a decision. Those students whose return to Georgia State University is dependent on approval for academic renewal should be especially diligent in their timely submission of their application.
2. If a student does not apply for academic renewal at the time of enrollment, it can be requested after reenrollment if the application is filed within one calendar year.
3. A student whose application for academic renewal is not approved will be notified by letter from the Student Advisement Center. Unless specific information to the contrary is given in the letter, the student may reapply for academic renewal after one year has passed.
4. Evaluation of a student’s application for academic renewal will be based on the student’s:
   a. Previous academic record;
   b. Previous student discipline record; and
   c. Current commitment to academic work.

1380 Academic Honesty

I. Introduction
As members of the academic community, students are expected to recognize and uphold standards of intellectual and academic integrity. The university assumes as a basic and minimum standard of conduct in academic matters that students be honest and that they submit for credit only the products of their own efforts. Both the ideals of scholarship and the need for fairness require that all dishonest work be rejected as a basis for academic credit. They also require that students refrain from any and all forms of dishonorable or unethical conduct related to their academic work.

The university’s policy on academic honesty is published in the Faculty Affairs Handbook and On Campus: The Student Handbook and is available to all members of the university community. The policy represents a core value of the university and all members of the university community are responsible for abiding by its tenets. Lack of knowledge of this policy is not an acceptable defense to any charge of academic dishonesty. All members of the academic community — students, faculty, and staff — are expected to report violations of these standards of academic conduct to the appropriate authorities. The procedures for such reporting are on file in the offices of the deans of each college, the office of the dean of students, and the office of the provost.

In an effort to foster an environment of academic integrity and to prevent academic dishonesty, students are expected to discuss with faculty the expectations regarding course assignments and standards of conduct. Students are encouraged to discuss freely with faculty, academic advisers, and other members of the university community any questions pertaining to the provisions of this policy. In addition, students are encouraged to avail themselves of programs in establishing personal standards and ethics offered through the university’s Counseling Center.

II. Definitions and Examples
The examples and definitions given below are intended to clarify the standards by which academic honesty and academically honorable conduct are to be judged. The list is merely illustrative of the kinds of infractions that may occur, and it is not intended to be exhaustive. Moreover, the definitions and examples suggest conditions under which unacceptable behavior of the indicated
types normally occurs; however, there may be unusual cases that fall outside these conditions that also will be judged unacceptable by the academic community.

**Plagiarism:** Plagiarism is presenting another person’s work as one’s own. Plagiarism includes any paraphrasing or summarizing of the works of another person without acknowledgment, including the submitting of another student’s work as one’s own. Plagiarism frequently involves a failure to acknowledge in the text, notes, or footnotes the quotation of the paragraphs, sentences, or even a few phrases written or spoken by someone else. The submission of research or completed projects by someone else is plagiarism, as is the unacknowledged use of research sources gathered by someone else when that use is specifically forbidden by the faculty member. Failure to indicate the extent and nature of one’s reliance on other sources is also a form of plagiarism. Any work, in whole or in part, taken from the Internet or other computer-based resource without properly referencing the source (for example, the URL) is considered plagiarism. A complete reference is required in order that all parties may locate and view the original source. Finally, there may be forms of plagiarism that are unique to an individual discipline or course, examples of which should be provided in advance by the faculty member. The student is responsible for understanding the legitimate use of sources, the appropriate ways of acknowledging academic, scholarly, or creative indebtedness, and the consequences of violating this responsibility.

**Cheating on Examinations:** Cheating on examinations involves giving or receiving unauthorized help before, during, or after an examination. Examples of unauthorized help include the use of notes, computer-based resources, texts, or “crib sheets” during an examination (unless specifically approved by the faculty member), or sharing information with another student during an examination (unless specifically approved by the faculty member). Other examples include intentionally allowing another student to view one’s own examination and collaboration before or after an examination if such collaboration is specifically forbidden by the faculty member.

**Unauthorized Collaboration:** Submission for academic credit of a work product, or a part thereof, represented as its being one’s own effort, which has been developed in substantial collaboration with another person or source or with a computer-based resource is a violation of academic honesty. It is also a violation of academic honesty knowingly to provide such assistance. Collaborative work specifically authorized by a faculty member is allowed.

**Falsification:** It is a violation of academic honesty to misrepresent material or fabricate information in an academic exercise, assignment, or proceeding (for example, false or misleading citation of sources, the falsification of the results of experiments or of computer data, false or misleading information in an academic context in order to gain an unfair advantage).

**Multiple Submissions:** It is a violation of academic honesty to submit substantial portions of the same work for credit more than once without the explicit consent of the faculty member(s) to whom the material is submitted for additional credit. In cases in which there is a natural development of research or knowledge in a sequence of courses, use of prior work may be desirable, even required; however, the student is responsible for indicating in writing, as a part of such use, that the current work submitted for credit is cumulative in nature.

III. Evidence and Burden of Proof

In determining whether or not academic dishonesty has occurred, the standard that should be used is that guilt must be proven by a preponderance of the evidence. This means that if the evidence indicating that academic dishonesty occurred produces a stronger impression and is more convincing as to its truth when weighed against opposing evidence, then academic dishonesty has been proved. In other words, the evidence does not have to be enough to free the mind from a reasonable doubt but must be sufficient to incline a reasonable and impartial mind to one side of the issue rather than to the other. Evidence as used in this statement can be any observation, admission, statement, or document that would either directly or circumstantially indicate that academic dishonesty has occurred.

IV. Procedures for Resolving Matters of Academic Dishonesty

The following procedure is the only approved means for resolving matters of academic dishonesty, except for matters arising in the College of Law which has its own Honor Code for handling such matters. It is available to all members of the academic community who wish to pursue an action against a student for academic dishonesty.

1. **Initiation:** If a member of the academic community believes that a student has engaged in academic dishonesty in a course, on a test, or as a part of an academic program, that individual is responsible for initiating action against the student or bringing the matter to the attention of an individual who may initiate action against the student. In allegations of academic dishonesty involving course requirements, the course faculty member is generally responsible for initiating the action. If the alleged violation involves a departmental program requirement (for example, comprehensive examination or language competency examination) or an institutionally-required test (for example, test of Georgia/United States history or Georgia/United States constitutions), or if the individual who discovers the incident is not a faculty member, the individual should bring the matter to the attention of the faculty member and administrator who has responsibility of overseeing the activity (for example, departmental chair, director of the Testing Office). If that administrator decides to bring charges of academic dishonesty against the student, then that administrator becomes the initiator. (Test proctors, laboratory assistants, and other individuals who are not course faculty members should bring any instances of alleged academic dishonesty to the attention of the course faculty member or their administrative superior. That individual, after weighing the evidence, may become the initiator by formally
charging the student with academic dishonesty.) The channel of review, recommendation, and decision-making follows the administrative lines associated with the course or program requirement involved. In any instance, however, when the alleged incident does not occur within the context of a course and when it is unclear which college of more than one college involved should have jurisdiction in review and decision-making, either unit may initiate the case. For the sake of brevity the following processing procedures are written from an “academic unit/college” perspective. Nonacademic units (i.e., Testing Center) would substitute appropriate supervisory personnel at the respective levels. Herein the “initiator” will be referred to as “faculty member” and the “administrative unit head” will be referred to as “chair,” designating the departmental chair. “Dean” will refer to appropriate administrative supervisory personnel at the overall college or division level. While the matter of academic dishonesty is pending, the student will be allowed to continue in the course and register for upcoming semesters. Should a grade be due to the registrar before the matter is resolved, a grade of GP (grade pending) will be reported for the student in the course involved. Withdrawal from a course does not preclude the imposition of penalties for academic dishonesty.

2. Penalties to be Imposed: Penalties to be imposed in incidents of academic dishonesty are classified as “academic” or “disciplinary.” Academic penalties include such sanctions as assignment of a failing grade for a particular course requirement, or for the course itself, or for other tests or program assignments. Academic penalties are set by the faculty member. Disciplinary sanctions can be sought in addition to those considered academic and could include, but are not limited to, the following penalties: suspension, expulsion, transcript annotations. Disciplinary penalties can be requested by the faculty member in consultation with the department chair or director, must be reviewed by the University Senate Committee on Student Discipline, and are set by the provost.

3. Action at Administrative Unit (Department Level): As soon as possible after the alleged incident, the faculty member should discuss the matter with the student. This discussion should be conducted in a manner that protects the rights and confidentiality of students. If the faculty member believes that academic dishonesty has occurred, the faculty member (with the advice of the chair if necessary) will determine the appropriate academic penalty. The faculty member will complete a “notice of academic dishonesty” form describing the incident and indicating the academic penalty imposed. Any recommendation for a disciplinary penalty must be reviewed in consultation with the chair. The faculty member will deliver to the student the notice of academic dishonesty that includes a statement of appeal rights. If there is difficulty in delivering the notice to the student, the faculty member/chair should request assistance from the college dean in determining the most expeditious way to inform the student that a notice of academic dishonesty has been filed.

Once the student has been informed, the chair forwards the documentation, including the notice of academic dishonesty and an indication of when the student was informed, to the dean to be held pending possible appeal. Until the student has been given the opportunity to appeal, a grade of GP (grade pending) should be submitted for the student for the course involved.

4. Student Action: The student will have 20 business days after receipt of the notice of charges of academic dishonesty to submit a written appeal denying the charges and providing any rationale for the appeal. The appeal should be addressed to the college dean of the initiator. In the event the student is found guilty of academic dishonesty, the student does not have the right to appeal the academic penalty assessed by the faculty member, unless the student can prove that such penalty was arbitrarily imposed or discriminatorily applied. If the student wishes to challenge a disciplinary penalty, the student must submit a written rationale for challenging the disciplinary penalty within 20 business days of receipt of the notice of charges of academic dishonesty. The statement of challenge should be addressed to the college dean. The college dean will forward the challenge to the dean of students for inclusion in the review of the disciplinary penalty by the University Senate Committee on Student Discipline. The University Senate Committee on Student Discipline automatically reviews all disciplinary penalties regardless of student appeal.

If the student has also filed an appeal denying the charges of academic dishonesty, any review of disciplinary penalty recommended will be delayed pending review of the charges of academic dishonesty by the college hearing committee.

5. College Action:

5.1. No Appeal by the Student: If the student does not submit a written appeal to the college dean within 20 business days, the dean will notify the chair/faculty member to post any pending grade(s) immediately. The dean will then forward the notice of academic dishonesty to the dean of students for inclusion in the student’s disciplinary file. The Senate Committee on Student Discipline also will forward any recommendation of a disciplinary penalty to the dean of students for appropriate review.

5.2. Appeal by the Student: If the student submits a written appeal within 20 business days, the dean will notify the registrar to issue a grade of GP (grade pending) for the course(s) in question on all transcript requests for the student pending outcome of the appeal. The dean will forward the charges of academic dishonesty to the chair of a college hearing committee and will notify the faculty member to set forth in writing a comprehensive statement describing the incident of academic dishonesty. This statement will be presented to the committee and to the student at least five business days prior to the hearing.

5.3. Student Hearing Committee Process: The college student hearing committee will use the following guidelines to govern the hearing of the appeal:

a. Within ten business days after the committee receives the charges of academic dishonesty, a hearing date will be determined. The committee will notify the faculty member and the student of the time, date, and the place of the hearing. Copies
of all charges of academic dishonesty and related materials for the hearing will be provided to the student at least five business days in advance of the hearing.

b. The faculty member and the student will be allowed to make oral presentations, call witnesses, and present any documentary evidence regarding the incident in question. The hearing will be recorded on an audiotape. The hearing will not be open to observers.

c. At the conclusion of the hearing, the committee will meet in closed session and will make its recommendation as to the guilt or innocence of the student based on a preponderance of evidence with respect to the charge of academic dishonesty. The committee chair will forward to the college dean its findings and recommendations in a written report within five business days of the hearing.

5.4. College Decision on Appeals: Within five business days of receiving the committee’s written report, the college dean will make the final decision regarding guilt or innocence. The dean will notify all appropriate parties of the decision. If the dean finds the student “not guilty,” the matter will be terminated, and no notice of charges will be filed with the dean of students. The dean will notify the chair to post the pending course grade promptly and will notify the registrar to remove the GP (grade pending) on the student’s transcript. If the dean finds the student “guilty,” the notice of charges of academic dishonesty will be forwarded to the dean of students for inclusion in the student’s disciplinary file. The academic penalty stipulated by the faculty member will be imposed. The dean will notify the chair to insure that any pending grade is posted promptly. The dean will notify the registrar to remove the GP (grade pending) on the student’s transcript if only an academic penalty was involved. If a disciplinary penalty has been recommended, the dean will notify the registrar to continue the GP (grade pending) annotation until the disciplinary penalty can be reviewed by the University Senate Committee on Student Discipline.

5.5. Appeal of the Decision of the Dean: If the student or initiator wishes to appeal the decision of the college dean regarding guilt or innocence of the charges of academic dishonesty, the student or initiator may appeal to the provost. The subsequent appeal route would be to the provost and then the Board of Regents. The student or initiator must submit a written statement of appeal to the provost within 20 business days of notification of the dean’s decision. The basis of the appeal must be on the grounds that the decision was arbitrary, capricious, or discriminatory.

6. University Senate Committee on Student Discipline Action: In cases where a disciplinary penalty has been recommended, the Senate Committee on Student Discipline will conduct a hearing to review the disciplinary penalty. The committee will review the faculty member’s notice of academic dishonesty and the student’s statement of challenge of the disciplinary penalty, if any. The faculty member and the student will be allowed to appear at the hearing to discuss the imposition of disciplinary penalties. Only the recommendation concerning the disciplinary penalty to be imposed will be considered by this committee. Issues of guilt or innocence are determined at the college level (see above). The Senate Committee will conduct the hearing in accordance with its regular hearing procedures. Copies of these procedures may be obtained from the Provost’s Office and/or the Dean of Students. The Senate Committee on Student Discipline will provide its recommendation within five business days of its hearing to the provost regarding appropriateness of the disciplinary penalty recommended by the college and/or whether other disciplinary penalties are to be imposed in addition to or in lieu of those already recommended by the college.

7. Provost Action:

7.1. Decision of the Provost: The role of the provost in handling student appeals regarding the charge of academic honesty has been explained (see above). Based on the recommendation, the provost will render a decision within ten business days of receipt of the recommendation of the Senate Committee. The provost will notify the student, the referring dean, the department chair, and the faculty member of the Senate Committee’s recommendations and of the provost’s decision. At that time the provost will also notify the registrar to annotate the student’s transcript, if necessary.

7.2. Appeal of the Decision of the Provost: If the student wishes to appeal the decision of the provost regarding the imposition of a disciplinary penalty, the student may appeal to the president and then to the Board of Regents. The student must submit a written statement of appeal to the provost within 20 business days of notification of the provost’s decision. The basis for such an appeal must be on the grounds that the decision was arbitrary, capricious, or discriminatory.

8. Students Involved in Two or More Incidents of Academic Dishonesty: A student is subject to disciplinary action in addition to any already undertaken once it is determined that the student has been found guilty in a previous incident of academic dishonesty. In such cases, the dean of students will forward a report to the University Senate Committee on Student Discipline regarding the incidents of academic dishonesty that have been reported. The dean of students is responsible for initiating this report within 20 business days of completion of proceeding of any subsequent finding of academic dishonesty. The University Senate Committee on Student Discipline will review the report of the dean of students. The student may submit supplemental written documents for the committee’s review and may request to appear before the committee in its deliberations. After reviewing the matter, the committee will send a report to the provost with the recommendation for disciplinary penalty to be imposed. The provost will proceed as in IV.7. of this policy.

Once the student has been informed, the chair forwards the documentation, including the notice of academic dishonesty and an indication of when the student was informed, to the dean to be held pending possible appeal. Until the student has been given the opportunity to appeal, a grade of GP (grade pending) should be submitted for the student for the course involved.
1382 Access to Student Records (FERPA)

Georgia State University is covered by the Family Educational Rights and Privacy Act of 1974 (FERPA), as amended, which is designed to protect your rights with regard to education records maintained by the institution. Under the Act, you have the following rights:

1. The right to inspect and review education records maintained by the institution that pertain to you;
2. The right to challenge the content of records (except grades which can only be challenged through the academic appeal procedure) on the ground that they are inaccurate, misleading, or a violation of your privacy or other rights; and
3. The right to control disclosures from your education records with certain exceptions.

Directory information will be treated as public information and be generally available on all students and former students, at the discretion of the university. Directory information includes the student’s name; address; telephone number; email address; date and place of birth; major field of study; full-time or part-time status; participation in officially recognized activities and sports; height, weight, age, hometown, hobbies, and general interest items of members of athletic teams; dates of attendance; degrees applied for or received; honors and awards received; and previous educational institutions attended by the student.

Any student, or parent of a student under 18, may refuse to permit the release of directory information by submitting a written request to the university’s registrar within ten days of the beginning of fall semester. This time requirement is necessary to ensure that directory information that is desired to be withheld is not included in the various university publications during the year. Of course, requests to withhold the release of directory information will be honored at any time, but the university cannot be reasonably certain that some directory information will not be released if the aforementioned time limits are not met. The Student Directory is usually published during the spring semester using the fall semester student database. Requests received after press time cannot delete information from this and similar publications, and previously released information cannot be recalled. To file a request for suppression of directory information, a student should fill out a Suppress Directory Information Form, available at [http://www.gsu.edu/es/records_and_registration.html](http://www.gsu.edu/es/records_and_registration.html), and turn it in to the Enrollment Services Center, 227 Sparks Hall.

Inquiries about students or former students should be directed to the Registrar. Georgia State’s written policy on “Access to Student Records” complies with the provisions of the Act. A copy of this policy and a copy of a summary of the FERPA regulations may be obtained in the Enrollment Services Center. Students also have the right to file complaints with the Family Policy Compliance Office, U.S. Department of Education, 600 Independence Avenue, Washington, D.C. 20202-4605, regarding alleged violations of the Act.

1384 Student Petitions

Georgia State University seeks to maintain the highest standards of integrity and fairness in its relationships with students. Students are expected to know and follow the policies and procedures of the institution (as written in the General Catalog and the Student Code of Conduct). They may, however, seek relief when they believe that the application of these policies and procedures will create undue hardship for them or will not recognize extraordinary or extenuating circumstances affecting them. Such petitions will generally not be granted when doing so would set aside the academic standards of the institution.

I. Applicability:

These procedures apply to petitions brought by students of Georgia State University.

A. Applicants to the university are not considered students. Thus, this process is not open to applicants. Concerns related to admission, however, may be addressed directly to the responsible office, either the Office of Admissions for undergraduate students or the college graduate office for graduate students.

B. These procedures do not apply to students in the College of Law, which has its own petition procedures.

C. Once a degree has been received, any petition related to that degree program must be initiated within the next six months of the date of graduation.

II. Definitions:

A. Petition: A request by or on behalf of a student for a waiver or variance of an established policy, procedure, rule, or guideline.

B. Petitioner: Student who brings a petition; or the student on whose behalf a petition is brought.

C. Petition Decision Maker: Individual or committee designated to make decisions regarding petitions (see list of decision makers for various types of petitions immediately following this section).

I. Some policies, procedures, rules, or guidelines are under the purview of a college; others are established by the university, and others are governed by the Board of Regents of the University System of Georgia.

Petitions of college rules are filed with the college that established the rule. Petitions of university rules or Board of Regents rules are filed through the Office of the Associate Provost, 404/651-1187.

a. Policies and procedures of the Board of Regents, however, which pertain only to students in one college or unit will be handled as though they were college rules, and the process for handling such petitions shall be
b. Petitions related to the Regents' Test, the College Preparatory Curriculum, Learning Support Program, and the Academic Improvement Program are handled through the Student Advisement Center as though they were “college” rules of that academic unit.

2. In the case of college and university rules, the authority for making such decisions rests with the faculty.
   a. The faculty of a college may designate a committee to rule on petitions of college rules or may delegate the authority to the dean of the college who may designate an individual to make decisions for him or her. The faculty may delegate some decision-making authority to the dean or designee and reserve others for a faculty committee. College procedures or bylaws must specify how the “petition decision maker” is determined.
   b. For petitions of university rules and Board of Regents’ rules (with the exceptions noted in C.1.a. and C.1.b.), the University Senate Admissions and Standards Committee represents the university faculty in determining the appropriate petition decision-making entity. It may delegate petition decision authority to the Office of the Provost and retain other authority for itself.

D. Appeal: A request by a petitioner that a decision on a petition be reviewed through administrative channels.
   1. Such appeals will generally be decided “on the record” based on a review of the written materials. An appeal of a petition “on the record” means that the appeal will be decided only on the basis of a review of the written materials which comprised the original petition, subsequent written materials of the petition decision maker, and the petitioner’s written statement of appeal.
   2. The purpose of the review is to decide if the original decision was flawed because it was made in an arbitrary, capricious, or discriminatory manner, or the decision maker did not follow established procedures.

E. Working Day: For the purpose of counting days for appeal deadlines, a working day is a weekday (Monday-Friday) on which classes or exams are scheduled in the college applicable to the petition, during any of the academic terms of the institution.

1400 University Degree Requirements and Graduation

A degree will be awarded only to a student who meets both the university requirements and the standards of performance, academic requirements, and residence requirements of their college and of their degree program. See below for a complete explanation of university requirements. Consult your college’s chapter of this catalog for your degree program’s requirements.

1405 Learning Outcomes

Learning outcomes are the goals students achieve in their programs of study. They represent the knowledge, skills and attitudes that students should gain to successfully complete the requirements of a course, major, and degree. A special set of general learning outcomes cover the goals for all students at the University. Students begin mastery of the University’s learning outcomes in the core (first two years of study) and continue to develop these skills throughout their major. The learning outcomes for all students are:

**Goal I. Communication**
- Students communicate effectively using appropriate writing conventions and formats.
- Students communicate effectively using appropriate oral or signed conventions and formats.

**Goal II. Collaboration**
- Students participate effectively in collaborative activities.

**Goal III. Critical Thinking**
- Students formulate appropriate questions for research.
- Students effectively collect appropriate evidence.
- Students appropriately evaluate claims, arguments, evidence, and hypotheses.
- Students use the results of analysis to appropriately construct new arguments and formulate new questions.

**Goal IV. Contemporary Issues**
- Students effectively analyze contemporary issues within the context of diverse disciplinary perspectives.
- Students effectively analyze contemporary multicultural, global, and international questions.

**Goal V. Quantitative Skills**
- Students effectively perform arithmetic operations, as well as reason and draw appropriate conclusions from numerical information.
- Students effectively translate problem situations into symbolic representations and use those representations to solve problems.

**Goal VI. Technology**
- Students effectively use computers and other technology appropriate to the discipline.

1410 Core Curriculum Requirements

Georgia State University requires all students seeking a baccalaureate degree to satisfactorily complete a basic core of general education subjects. Georgia State’s core curriculum provides students with a broad background in general education and reflects the special mission of this university as an urban research institution with an international, multi-ethnic, and multicultural focus. Because of ongoing evaluation changes may occur in the core curriculum. Every attempt will be made to notify students when these changes occur.

Areas A through E of the core curriculum are designed to provide students with a wide array of courses as a means of gaining a basic education in the liberal arts and assisting students in their choice of a major. Students should normally choose among the courses in areas A to E and select a major before taking courses in Area F. Students who have chosen a major before the completion of Areas A through E can review the departmental sections of the catalog to see specific recommendations for course selection. Some programs, such as art, music, and nursing, require students to begin major-related coursework in their freshman year to meet course sequencing requirements.

There are restricted choices for some majors in Areas A and D. Students must follow the degree-specific requirements listed in Areas A and D for the programs they are pursuing.
Students who are planning to transfer to Georgia State from other institutions in the University System of Georgia should note that this is Georgia State’s core curriculum and is to be followed by students who choose to complete the core curriculum at this university. The core curriculum at a student’s current University System of Georgia institution may contain different courses. However, Georgia State will grant credit for any approved core curriculum course taken at a student’s current University System of Georgia home institution even if it is different from the course offered at Georgia State. Students should also remember that they may have only one University System of Georgia home institution at a time. Students who have transferred to Georgia State must petition for permission to take core curriculum courses elsewhere after they have enrolled.

The core curriculum completed at one System institution is fully transferable to another System institution for the same major. However, specific situations may result in minor exceptions to this general rule. Students seeking credit for University System of Georgia core curriculum courses that were not accepted during Georgia State’s admissions process or who believe that the system rules of transferability of the core curriculum are not being honored can make an appeal to the Core Curriculum Transfer Ombudsperson, Dr. George Rainbolt, at grainbolt@gsu.edu. Appeals should be initiated by filling out a form available in the Student Advisement Center, 255 Sparks Hall.

1410.05 Regents’ Reading and Writing Requirements (6)

RGTR0198  Regents’ Reading Skills
RGTE0199  Regents’ Writing Skills

Instead of taking these courses, students may satisfy these requirements by passing the Regents’ Reading Test and the Regents’ Writing Test. Waivers based on SAT, ACT, AP and IB scores are also possible. Students must register for RGTR 0198 and RGTE 0199 if they’ve earned 45 hours and have not passed both tests or have not satisfied both requirements by waiver. The tests are the final exams for the courses and must be passed to pass the courses. RGTR 0198 and RGTE 0199 do not count towards the 120 hours required for graduation. For details, see Section 1420.

1410.10 Area A: Essential Skills (9)

   If a 4 hour course is selected, the additional hour will be counted in Area F or Area G.

   Majors in biology, chemistry, computer science, geology, mathematics, science and math education, and physics are required to take Math 1113 or higher in Area A. Business students are encouraged to take Math 1113 or higher in Area A. Exercise Science students are encouraged to take Math 1111 in Area A.

   Note: A math placement test is recommended for all students who do not have credit for an Area A math course and is required for students who wish to take Math 1111, College Algebra, or higher. The test is offered at scheduled times in the university’s testing center. See http://www.gsu.edu/testing and click on Math Placement.

Students in these degree programs should follow departmental recommendations on foreign language selection in Area F. The Andrew Young School of Policy Studies requires B.A. students majoring in economics to complete a foreign language in Area F.

Some foreign language courses are not open to native speakers of that language. Please consult the course description before making a selection in this area.

These listings should also be consulted to see if there are any courses recommended from among the offerings in areas A to E. Students seeking a B.S. in mathematics and secondary school teaching will be required to take an additional nine semester hours of introductory education courses above the general requirement of 18 semester hours.

1415 Area G & Beyond

1420 Regents’ Reading and Writing Requirements
To demonstrate competence in reading and writing, the Board of Regents of the University System of Georgia requires that students pass RGTR 0198, Regents’ Reading Skills, and RGTE 0199, Regents’ Writing Skills. Students will demonstrate their competence in reading and writing by passing the Regents’ Reading Test and the Regents’ Writing Test. The Regents’ Reading Test and the Regents’ Writing Test are the final exams for RGTR 0198 and RGTE 0199 respectively. Students must pass the Tests to pass the courses. The courses do not count toward the 120 hours requirement (See Section 1470). Students with certain SAT, ACT, AP or IB scores, non-native speakers of English, students who hold a baccalaureate degree, and students with documented disabilities are subject to modified rules regarding these requirements. (See below.) After reading this material, students with questions should contact the Student Advisement Center, http://www.gsu.edu/es/advisement.html.

Description of the courses: RGTR 0198 and RGTE 0199 are designed to help students gain the reading and writing competence necessary to pass the Regents’ Tests and be successful in college-level work. The Regents’ Tests are the final exams for the courses. The courses are graded S/U. Students will be awarded an S if they pass the test and a U if they do not pass the test.

Description of the tests: The Regents’ Reading Test is a multiple-choice test taken in one hour. This test consists of a series of reading passages with five to eight questions about each passage. The passages cover a variety of subjects (for example, social science, math, natural science, humanities, etc). The Regents’ Writing Test is a one-hour essay exam in which students are asked to write an essay on one of four topics. Students are allowed to use dictionaries during the last 15 minutes of the Writing Test. Both tests are taken at one time with the Writing Test coming first.

Administration: Initially, students must take both tests at the same time. If a student has passed one test but not the other, the student will retake only the test that was failed.

The Regents’ Tests are given during the semester at a time specified by the Board of Regents. The tests may be taken only once per semester.
Students are encouraged to take the Regents’ Tests upon completion of Engl 1101. Students may take the Regents’ Tests during a semester in which they have not enrolled in any classes. Students who have a cumulative GPA of 2.0 or higher and have earned a grade of U at least two times in the relevant preparation course will be allowed two hours each test. To take advantage of this option, students must bring a current copy of their academic evaluation to the Testing Office at least seven days prior to the date scheduled for the extended time test.

Students entering Georgia State University with no transfer credits: If they have not met the Regents’ Reading and Writing Requirements, students must take the tests or enroll in both preparation courses in their first semester of enrollment after earning 30 semester hours. Students who have earned 45 college-level semester hours and who have not passed the Regents’ Tests must take RGTR 0198 and/or RGTE 0199 in each semester of attendance until they have passed both tests. Students who have not passed the Reading Test must take RGTR 0198, students who have not passed the Writing Test must take RGTE 0199, and students who have not passed either test must take both courses. Students who have not passed both tests before earning 75 hours will have a hold placed on their registration that will be lifted after speaking with a Student Advisement Center staff member.

Students entering Georgia State with AP/CLEP/IB/JE credits: Students entering with Advanced Placement, College Level Examination Program, International Baccalaureate, and/or Joint Enrollment credit are not required to take RGTR 0198 or RGTE 0199 until they have earned at least 45 hours and been enrolled at least two semesters.

USG transfer students: All students transferring from University System of Georgia (USG) programs leading to the baccalaureate degree must follow the rules for students with no transfer credits.

Non-USG transfer students: Students with 30 or more semester credit hours transferring from outside of the System are strongly encouraged to take the tests during their first semester of enrollment in a program leading to the baccalaureate degree. Those who have not met the requirement before their third semester at Georgia State are subject to the remediation requirements for students entering Georgia State University with no transfer credits.

SAT, ACT, AP, and IB waivers:
RGTR 0198: Students who have a score of 510 or better on the SAT I Verbal test or a score of 23 or better on the ACT Reading Test (given on a national examination day) have automatically passed RGTR 0198.
RGTE 0199: Students who fulfill one of the waiver options/combinations listed below have automatically passed RGTE 0199:
- SAT-I Verbal score of 530 or better AND A in Engl 1101 or Engl 1102
- SAT-I Verbal score of 590 or better AND B in Engl 1101 or Engl 1102
- ACT English exemption score of 23 or better AND A in Engl 1101 or Engl 1102
- ACT English exemption score of 26 or better AND B in Engl 1101 or Engl 1102
- SAT II English Writing Test score of 650 or better
- AP English Language and Composition Test score of 3 or better
- AP English Literature and Composition Test score of 3 or better
- International Baccalaureate English test score of 4 or better

Students who have earned these scores should request to have scores sent electronically directly from the testing agency.

Nonnative speakers of English: Nonnative speakers of English (NNS) will be certified as meeting Regents’ requirements by passing RGTR 0198 and RGTE 0199. However, NSS students may demonstrate their competence in reading and writing and automatically pass these courses by passing the Reading and Writing Tests of the Georgia State Test of English Proficiency (GSTEP), taking the regular Regents’ Test, or taking the Test of English as a Foreign Language (TOEFL). NNS students who have a TOEFL score of 23 or higher on the reading section of the computer-based TOEFL exam or a score of 57 or higher on the reading section of the paper-based TOEFL exam have automatically passed RGTR 0198. NNS students who have Test of Written English (TWE) score of 4 or higher have automatically passed RGTE 0199. NNS students may not take the GSTEP and the regular Regents’ Test in the same semester.

NNS students who must take RGT courses may take the regular RGT courses or they may take RGT courses for NNS students that specifically address the GSTEP. These courses are offered by the Department of Applied Linguistics & English as a Second Language. For more information, contact the department, http://www.gsu.edu/gstep.

Students with a baccalaureate degree: Students holding a baccalaureate or higher degree from an accredited institution of higher learning have automatically passed RGTR 0198 and RGTE 0199.

Students with disabilities: Students with documented disabilities may arrange for appropriate administration of the Regents’ Tests and for any necessary remediation. Contact the Office of Disability Services, http://www.gsu.edu/disability. Appropriate accommodation will be made based upon the student’s functional limitations as presented in their documentation.

Appeal of a failing score on the writing test: A student may request a formal review of his or her failure on the Writing Test if that student’s essay received at least one passing score among the three scores awarded. Students who wish to appeal should contact the Director of the Writing Studio in the Department of English. The review procedures shall be as follows. A student should initiate the review procedure within the first three weeks of his or her first semester of enrollment after the semester in which the Writing Test was failed. If this deadline is missed, students may initiate an appeal within one calendar year from the semester in which the failure occurred.
The appeals review will be conducted by three members of the Department of English chosen by the Director of the Writing Studio. The review panel may (a) sustain, by majority opinion, the essay’s failing score, thus terminating the review process, or (b) recommend, by majority opinion, the rescoring of the essay by the Regents’ Testing Program central office. The student will be notified concerning the results of the on-campus review.

If the Georgia State University panel recommends re-scoring of the essay, that recommendation will be transmitted in writing, along with the essay, to the office of the system director of the Regents’ Testing Program.

All applicable regulations of the Regents’ Reading and Writing Requirements Policy remain in effect for students whose tests are under review, including those regulations relating to remediation and to retaking the test.

1425 Federal and State Constitution and History Requirements

As required by Georgia law, all students must demonstrate knowledge of the history and constitutions of the United States and of Georgia. To demonstrate this knowledge, students must pass Hist 2110 and PolS 1101 or pass examinations prepared by the history and political science departments to fulfill these requirements. Study aids are offered by the history and political science departments to assist students preparing for the examinations. If the examinations are passed, students must select additional course(s) from Section 3, Social Science Foundations in Core Area E. Transfer students who have fulfilled any or all parts of this requirement will be advised of that fact at the time of admission and evaluation of transfer credit.

1430 Academic Residence Requirement

Academic residence is defined as being enrolled in one or more courses at Georgia State University; this is not to be confused with status as a legal resident of the State of Georgia for fee determination purposes. The minimum academic residence requirement for each baccalaureate degree is as follows:

1. The candidate must earn 39 semester hours at Georgia State in courses numbered 3000 or above with an average grade of at least a C (2.00 GPA); and
2. At least one-half of the courses comprising the major or 11 semester hours in the major, whichever is less, must be taken at Georgia State.

Credit by examination, credit by validation, CLEP credit, AP credit, and courses specifically excluded by university policy cannot be used to meet the academic residence requirement.

1440 D Grade Credit Restriction

Georgia State University will allow no more than 12 semester hours of D grades to apply toward degree requirements of a baccalaureate program of study. This 12 semester hours includes both credit completed at Georgia State (resident credit) and transfer credit. Certain degree programs may designate a lesser number of D grades as acceptable. Consult your college’s chapter of this catalog for stricter requirements.

1450 GPA Requirement

In order to earn any Georgia State University baccalaureate degree a student must have at least a 2.00 cumulative grade point average. All attempts are included in the calculation of the GPA (see Section 1350.20). If a student takes a course multiple times at another institution or at Georgia State, the grade earned in the final attempt will determine the applicability of the course to the degree requirements. (For example, some programs require a grade of C or better in a particular course). For details on taking a course more than once, see Section 1330.35.

1460 No “I”s Requirement

No student may graduate with a grade of “I” (Incomplete) on his or her record. All permanent grades for incomplete grades and grade changes for previous semesters should be received in the Office of the Registrar, Academic Records, in writing at least
two weeks prior to the commencement date. It is the student’s responsibility to see to it that incomplete grades are properly recorded in the appropriate offices by this deadline.

1470 Semester Hours Requirement

The curriculum for a baccalaureate degree at Georgia State University requires a minimum of 120 semester hours. Some programs require a higher number of semester hours. Students should consult the description of their program in this catalog to determine the number of semester hours required.

The semester hours for graduation are calculated as follows:

**Semester hours included:**
- Academic credit (transfer and Georgia State) in which grades A, B, C, D, S, or P are earned (except as excluded below) and
- Credit earned through the College-Level Examination Program (CLEP), Advanced Placement (AP), International Baccalaureate (IB), and any other approved credit-by-examination.

**Semester hours excluded:**
- All hours earned in courses that are repeated except the final attempt.
- Hours earned in courses with course numbers below 1000.
- Courses (transfer and Georgia State) that are required to meet College Preparatory Curriculum deficiencies.
- GSU 1010, GSU 1050, and GSU 1060.
- Physical education “skills” courses KH 1010, 1020, 1030 (previous course prefixes: HPRD, HPRS, PE).

1480.10 Application for Graduation

All candidates for a degree must file a formal application for graduation with the Graduation Office. Baccalaureate candidates must apply by the following deadlines before their expected term of graduation:

<table>
<thead>
<tr>
<th>Term of Expected Graduation</th>
<th>Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall Semester</td>
<td>June 1</td>
</tr>
<tr>
<td>Spring Semester</td>
<td>September 1</td>

</table>

This allows the university to audit the student’s records for problems while there is still time for the student to correct those problems.

The Graduation Office will inform the student’s college when the application is filed. The Office of Academic Assistance of the student’s college will conduct an audit and inform the student of any remaining requirements. The Graduation Office conducts an independent audit the expected semester of graduation to ensure that all degree requirements will be satisfied.
Students who wish to change their semester of graduation may do so by one of two means: the Change of Graduation Date form, or, by e-mailing the graduation office at graduation@langate.gsu.edu. The Change of Graduation Date form must be delivered to the Graduation Office at 231 Sparks Hall. The email must state student’s name and Student ID number. If changing date by email, the student must receive a confirmation number back from the Graduation Office to be considered officially received.

Official transcripts of prior term course grades from institutions other than Georgia State University must be in the Office of Undergraduate Admissions by the last day of registration of the semester of graduation. Any other documentation pertaining to non-Georgia State courses which is needed to determine if transfer credit can be granted (such as catalog descriptions or course outlines) must be received by the student’s Office of Academic Assistance by the last day of registration of the semester of graduation.

Students who wish to be transient students or who wish to participate in cross-registration for their remaining course work will graduate one semester after the term in which the last course to be transferred to Georgia State University has been taken. Such students must obtain advance permission to complete their degree elsewhere from their college’s Office of Academic Assistance.

1480.20 Graduation with Honors

Scholastic recognition at graduation will be given to each baccalaureate student who graduates with a high grade point average. The specific award, based on the cumulative grade point average at Georgia State University, will be one of the following:

- Cum Laude 3.50-3.69
- Magna Cum Laude 3.70-3.89
- Summa Cum Laude 3.90-4.00

1480.30 Exit Examinations

The university and the student’s college may require the completion of additional competency tests appropriate to a student’s program of study prior to graduation. Information relative to these tests is available in the student’s college.

Any student failing to demonstrate required proficiency on any competency test may be required to complete such additional courses as are necessary to correct the deficiency. Courses required and completed under this provision may be with or without academic credit and may be required without regard to prior course credits in these disciplines.

1480.40 Posthumous Undergraduate Degrees

A posthumous undergraduate degree shall be awarded at the request of or with concurrence of the family or friends of the deceased if, at the time of death, the student was 15 or fewer semester hours short of the semester hours required to complete the degree the student was seeking and the student had a minimum Georgia State University cumulative GPA of 2.00. Additionally, a posthumous degree may be awarded through the normal process of petition for a waiver of the university’s graduation requirements. A request for a posthumous degree should be made to the University Registrar, Georgia State University.

The university offers a wide range of educator preparation programs for students who wish to become public school teachers. Some of these programs are administered within the College of Arts and Sciences and some are administered within the College of Education. All undergraduate educator preparation programs are overseen by the Professional Education Faculty, which has membership from both colleges and is advised by Atlanta-area schools. The undergraduate programs and college of enrollment are listed below:

Initial certification programs in behavior/learning disabilities, communications disorders (speech-language pathology), early childhood education, educational leadership, English education, mathematics education, media specialist, middle childhood education, multiple and severe disabilities, reading specialist, school counseling, school psychology, science education, social studies education, special education, and teaching English as a second language are offered at the graduate level.

Educator preparation programs at Georgia State University are field-based; that is, much of the coursework requires structured participation in school settings. Therefore, students must be available for coursework that will be scheduled during elementary, middle, and secondary school hours, typically 8 a.m. to 3:30 p.m. Students will find it necessary to be free of other obligations during the term of student teaching and will find it highly desirable to have few other commitments during the term in which blocks of coursework must be taken. Blocks are comprised of 6 or 12 hours of coursework, which are taken in the same academic term (i.e., fall semester only) and are field-based. Exit requirements for teacher education are satisfied by successful completion of student teaching. Additional requirements exist for specific programs.

Preparation for Prospective Teachers at the Middle Childhood (4-8) or Secondary Level (6-12) or of ESOL students (P-12)

Students interested in applying to a Master of Arts in Teaching program in the Department of Middle and Secondary Education and Instructional Technology or who wish to explore the possibility of teaching in a content area (gr. 4-8 or 6-12) or in English as a Second Language classrooms (ESOL, preschool -12) are encouraged to take pre-education courses such as the following as part of their undergraduate preparation: EDCI 3250 Introduction to Teaching in the Secondary School; EDLA 3200 Topics in Middle Grades Language Arts; EDMT 3350 Topics in Middle Grades Math; EDSC 3250; EDSS 3400 Topics in Middle Grades Social Science and History; EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities; or IT 3210 Teaching, Learning, and Technology Integration.
General information for preparing to teach in these areas can be found below. For more information on specific program admission requirements for the various M.A.T. programs in the Department of Middle-Secondary Education and Instructional Technology, see those program descriptions in the GSU Graduate Catalog.

**English as a Second Language Education (P-12).** Prospective teachers of ESOL students in Georgia may choose any major but should complete at least two sequential semesters of a foreign language. Courses in applied linguistics and English grammar are also encouraged. Upon completion of an undergraduate degree, students should apply for the M.A.T. in Reading, Language, and Literacy Education which leads to certification as an ESOL teacher (P-12) and a reading endorsement.

**Middle Grades Education (4-8).** Prospective teachers of middle childhood education (MCE) level should focus on two content areas, either Language Arts/Social Studies or Math/Science, as part of their undergraduate preparation.

- For MCE language arts and social studies, students should major in either English or history and take at least 12 hours of upper division coursework in the second area. Within their undergraduate program, students should address the following areas: children’s literature, grammar, composition, literature or folklore, geography, world history, Georgia history, and US history.

- For MCE mathematics and science, students should take at least 12 hours of mathematics and 12 hours of science as part of the undergraduate preparation. Within the undergraduate program, students should address the following areas: life science, earth science, physical science, geometry, algebra, number theory, and probability/statistics.

- Upon completion of an undergraduate degree, students should apply for the M.A.T in Middle Childhood education which leads to certification in grades 4-8 in two areas of concentration (either Language Arts/Social Studies or Math/Science.)

- Students who do not follow the suggested preparation for Middle Grades Education may be able to enroll in the M.A.T program, but additional coursework will be necessary prior to completion of the program and recommendation for certification.

**Secondary Education (6-12).** Students interested in teaching English, Mathematics, Science, or Social Studies (history, political science, economics, geography or behavioral science) at the middle and secondary level should major in Arts and Sciences in the concentration in which they would like to teach. Upon completion of an undergraduate degree, students should then apply to the appropriate MSIT Master of Arts in Teaching program in the College of Education.

### 1605 Entry into Teacher Education

Admission to Georgia State University and to the College of Arts and Sciences or the College of Education (as indicated above) is prerequisite to entry into teacher education. The minimum criteria for entry into teacher education are listed below.

1. Students must have successfully completed Area A (Essential Skills) of the undergraduate core curriculum with a grade of “C” or higher for each course.

2. Students must demonstrate competence in oral communication. Screening takes place in all education courses. At any time during their courses of study, students may be referred to the Georgia State Speech–Language–Hearing Clinic. There, screening assesses the basic communication skills adults are expected to exhibit during communication in professional settings: hearing, articulation, fluency, appropriate grammar, comprehension of spoken language, and the ability to use appropriate voice quality. Completion of referral, evaluation, and the remedial process is necessary for continuation in the program.

3. Students must have demonstrated competence in mathematics and science by successfully completing Area D (Science, Mathematics, and Technology) of the undergraduate core curriculum.

4. Students must have a minimum grade point average of 2.50 based on all undergraduate coursework attempted. For students pursuing degrees in some majors, the minimum grade point average requirement is 2.75. Students are encouraged to contact their academic advisers for information regarding the grade point average requirement for their specific majors.

5. Students must have successfully completed the Regents’ Test.

6. Students must have successfully completed EPSF 2010 (Introduction to Educational Issues) with a grade of “C” or higher.

7. Students must have earned passing scores on the three sections of the Praxis I Assessment (subject fall 2006 to change to the Georgia Assessment for Certification of Educators [GACE]; visit [http://www.gapsc.com](http://www.gapsc.com) for additional information or by achieving a passing composite score. Contact the Counseling Center (404/651-2211) or the College of Arts and Sciences Office of Academic Assistance or College of Education Office of Academic Assistance and Graduate Admissions for an examination schedule and application form. Students interested in teacher education are encouraged to take the Praxis I Assessment as soon as they complete Area A of the undergraduate core curriculum. Students who present sufficiently high SAT, ACT, or GRE scores may exempt the Praxis I Assessment requirement.
Additional criteria, including departmental requirements, may be added. Students are assigned an adviser to plan an appropriate course of study within the guidelines provided by this catalog. Entry into teacher education is a prerequisite for courses designated “(TE)” in the course description section.

1610 Educational Field Experiences and Student Teaching

Student Teaching

Educational field experiences and student teaching are clinical in nature. They are designed to complement the humanistic, behavioral, and pedagogical studies in teacher education and to offer experiences in a variety of settings.

At the baccalaureate level, a sequence of clinical and field experiences is planned to complement the professional education courses included in the students’ programs of study.

The Opening School Experience provides practical experience in the school and classroom setting during the week of preplanning and the first week of school. Students learn effective procedures necessary for setting up a classroom at the beginning of the year. This takes place at the beginning of the students’ junior or senior year prior to the student teaching experience. Students in early childhood education and health and physical education must apply for this experience in advance and must register for the course during early registration of the fall term of the year in which the experience takes place.

Opening School Experience Application Deadline

Fall Semester April 1*

* Health and Physical Education students must apply by February 15.

Student teaching is the culmination of the clinical field experiences. Student teaching involves full participation by the students for at least one full academic term. Because student teaching constitutes a full load of academic credit, it is recommended that the students attempt neither regular employment nor other courses during the term of student teaching.

To be eligible for enrollment in student teaching, students must be admitted to teacher education and have:

- successfully completed the specific required courses of the program;
- earned an overall grade-point average no less than 2.50 (2.75 for early childhood education majors) the term prior to the student teaching experience;
- earned a minimum grade-point average of 2.50 (2.75 for early childhood education majors) in the major teaching area courses and in professional education courses. (Students who earn a grade of “D” or “F” in a major teaching field or professional education course must repeat that course and earn a grade of “C” or higher. The grade of “D” or “F” will still be included in the overall grade-point average.)

The Professional Education Faculty believes that all students who are in field experiences must be personally and psychologically equipped as well as academically prepared. Students may be denied entry to field experiences based on departmental prerequisites or the professional judgment of faculty based on observed performance and behavior. This policy is based on the premise that educators should be part of the evaluation of the students’ ability to function adequately and safely in classrooms and that educators have a right and responsibility to make such judgments prior to placing students in schools.

The practicum or student teaching supervisor has the authority to withdraw students from their classroom experience if their performance constitutes a detriment to the children in the class. If such removal is necessary, students will be given an F in each corresponding course.

Applications for student teaching must be submitted according to the following schedule for all majors except early childhood education.

General Student Teaching Application Deadline Dates*

<th>Deadline</th>

<tbody>
<tr>
<td>Fall</td>
<td>February 1*</td>

*For Health and Physical Education, the deadline is February 15.

Failure to submit applications on or before prescribed deadline dates will result in a delay of one or more terms in student teaching or practicum placement. Further information regarding educational field experiences, practicum, and student teaching
experiences for each major is available from the appropriate department in the College of Arts and Science or the College of Education.

An additional lab fee of $125 will be charged at the time students register for the student teaching experience. Educator preparation students must be aware that extra costs such as tort liability and transportation will be incurred at various times during the completion of the various teacher education field experiences, particularly during the students’ senior year.

**Final Student Teaching Seminar**

At the completion of the student teaching semester, all students who are eligible for certification must attend a final seminar to complete all requirements. Information concerning this seminar will be sent to the students.

**Criminal Background Investigations**

It is expected that prospective teachers maintain the highest professional standards of public responsibility. Such standards have been written and adopted by the Georgia Professional Standards Commission as *The Code of Ethics for Educators*. It is the intent of the Code to “protect the health, safety and general welfare of students and educators, and ensure the citizens of Georgia a degree of accountability within the education profession.” The first standard states, “An educator should abide by federal, state, and local laws and statutes.”

All students who are not already certified teachers employed in Georgia must consent to a criminal background investigation before they will be placed by the college for field experiences. The results of the background check could disqualify students from completing the program, because many school systems do not allow persons with criminal records to teach in their schools. To consent to the background check, students must complete a *Criminal Background Consent Form*, obtainable at the Office of Academic Assistance and Graduate Admissions, 300 College of Education Building, or online at [http://education.gsu.edu/aae](http://education.gsu.edu/aae). The form must be submitted along with a check or money order for $10.00 (made out to Georgia State University), a photocopy of their state-issued driver’s license, and their Georgia State University PantherCard to the Office of Academic Assistance by the deadline for applying for field experiences. This deadline is published on the OAA Web site. Students must report any circumstance in which they were convicted of a crime, paid a fine, forfeited a bond, sentenced (by a judge) to perform community service, pled *nolo contendere*, pled guilty, or received a suspended sentence from jail or prison. (Minor traffic offenses are excluded; however, DUI convictions must be reported.) All information obtained through the criminal background search will be kept confidential to the extent allowed by Georgia and Federal laws. Cooperating school systems may also request a separate background check before a placement is finalized.

When applying for certification with the Georgia Professional Standards Commission, they will conduct and evaluate background checks independently of the examinations performed by the institutions. Admission to a program and/or placement for field experiences does not guarantee that the Professional Standards Commission will ultimately certify an individual for teaching in Georgia.

**1615 Teacher Certification**

Teachers and other educational personnel must be certified by the Georgia Professional Standards Commission to be employed in the state’s elementary, middle, and secondary public schools. Private elementary and secondary schools may also require state certification for employment.

Completion of Teacher Education Requirements: A requirement for initial certification in Georgia is completion of teacher education requirements. This may be accomplished in one of the following ways at Georgia State University. (Options vary by program.) In all cases, “Entry into Teacher Education” criteria apply.

- Students may complete an approved educator preparation degree program as described in the College of Arts and Sciences or the College of Education chapter of this catalog.
- Students may complete or present a noneducator preparation bachelor’s degree and all additional components of an approved educator preparation degree program.

Initial certification programs in Communication Disorders, Educational Leadership, English Education, Health and Physical Education, Library Media Technology, Middle Childhood Education, Reading Specialist, School Counseling, School Psychology, Science Education, Social Studies Education, and Special Education are available only at the graduate level. The College of Education offers nine Master of Arts in Teaching programs which prepare students for initial certification in the following fields: Behavior/Learning Disabilities, Early Childhood Education, English Education, Mathematics Education, Middle Childhood Education, Multiple and Severe Disabilities, Reading, Language and Literacy Education (ESOL), Science Education, and Social Studies Education. “Entry into Teacher Education” criteria must be met for admittance into any of these Alternative Preparation Programs. See the current *Georgia State University Graduate Catalog* for more information on the university’s master’s level programs.
1620 University Recommendation

Students who complete a Georgia State University educator preparation program by one of the three methods above and who present a passing score or scores on the appropriate GACE Content Assessments may be eligible for the Georgia State recommendation for teacher certification. The College of Education’s Office of Academic Assistance and Graduate Admissions can issue the recommendation to the prospective teacher shortly after Commencement following the term of completion of requirements.

1625 Application for Teacher Certification

Prospective teachers must apply for teacher certification. Applications are available online at http://www.gapsc.com. It is the students’ responsibility to request the application and complete the submission process with the College of Education. The students, in a single package, must forward the application, the completed recommendation form, and official transcripts from all colleges attended to the Professional Standards Commission.

1630 GACE Content Assessments

The Georgia Assessments for the Certification of Educators is developed and administered by National Evaluation Systems, Inc. (NES®). Subject Assessments include the Professional Pedagogy Assessment, Paraprofessional Assessments, and Content Assessment Area tests. The GACE program helps the PSC meet its goal of ensuring that candidates have the knowledge and skills needed to perform the job of an educator in Georgia public schools. The GACE are aligned with state and national standards for educator preparation and with state standards for the P–12 student curriculum (Georgia Performance Standards). Information about the assessments is available at http://www.gace.nesinc.com and http://www.gapsc.com/.

A requirement for teacher certification in the State of Georgia is a passing score on appropriate tests of the GACE Content Assessment series. This test is administered at various times throughout the year. Test applications are available at http://www.gace.nesinc.com. Unless otherwise indicated in a program description, passing the GACE Content Assessment is not a degree-program requirement. All initial certification students must submit copies of complete GACE Content Assessment scores in order to be recommended for teacher certification by Georgia State University. Students are encouraged to take the test during the last term of enrollment.

Questions about teacher certification in other states should be addressed to the State Department of Education in the capital city of that state.

1635 Teacher Education Core

The teacher education core is common to all educator preparation programs in the College of Arts and Sciences and the College of Education. The core is comprised of the following three courses:

- EDUC2110 Investigating Critical and Contemporary Issues in Education
- EDUC2120 Exploring Socio-Cultural Perspectives on Diversity in Educational Contexts
- EDUC2130 Exploring Learning and Teaching

1640 Professional Education Faculty

The Dean of the College of Education is the presiding officer of the Professional Education Faculty. The faculty meets at least twice each year, once during Fall Term and once during Spring Term.

Quotidian governance of the Professional Education Faculty is conducted by the Professional Education Council, which consists of faculty members elected from the various teacher education areas, faculty members appointed by the Dean of the College of Education, students appointed by their departments, and school personnel representing Metro-Atlanta school systems. The chair of the Professional Education Council is elected annually, and the position alternates between members of the College of Arts and Sciences and members of the College of Education.

The Professional Education Faculty’s primary duty is to promote and facilitate constructive interaction of the members of the Professional Education Faculty, especially along interdisciplinary lines, in the interest of maintaining excellence in professional education programs at Georgia State University. The council is served by four committees: The Executive Committee, which reviews the work of other committees and sets the agenda for council meetings; the Curriculum Committee, which reviews existing and proposed professional education programs; the Diversity Committee, which monitors and makes recommendations
regarding the faculty’s progress toward goals and outcomes stated in its Diversity Plan; and the Standards and Accreditation Committee, which reviews the Conceptual Framework, legislative and Professional Standards Commission actions affecting curriculum, criteria used by accrediting bodies in their periodic reviews of programs, and programmatic recommendations of relevant scholarly and professional associations.

Additional information about the Professional Education Faculty and its activities is available through the Internet at http://pef.gsu.edu/.

2010.40 Facilities/Services
AYSPS Research Support Center
14 Marietta St. N. W., Suite G49
404/651-3913
http://www.gsu.edu/~wwwfnd/index.htm

The school research support center, formerly known as the Information Center, collects selected literature and data sets on fiscal policy, public administration, and economic issues to support ongoing research projects of the faculty and its research centers. See the website for beginning a search of the literature of regional, national, and international policy issues: http://www.gsu.edu/~wwwfnd/.

The center and university liaison librarians work to link pertinent sites to reduce search time for electronic journals licensed to the Georgia State University student and faculty community, as well as those licensed by the powerful statewide Galileo database system.

Sources of interest which are available include EuroMonitor World Marketing Data, which gives country’s macroeconomic indicators. A Lexis-Nexis statistical search yields tabular data by specific field, including geographic, demographic, income, and time series data in downloadable files from licensed on-campus computers.

The center’s sources include data sets and documentation from the Bureau of Labor Statistics, the Census Bureau, and the Bureau of Economic Analysis, among others.

Database training materials, data set manuals, and website lists are provided.

2010.50 Research Centers and Programs
Domestic Programs
http://domestic.gsu.edu/

Domestic Programs is home to several separate programs and activities. Some of these programs link the School with the community. Other activities and projects aim to inform the debate on public policy in the metropolitan Atlanta area, the state of Georgia, and the nation through research and education. The issues that are addressed include those associated with the structure of urban area, government tax and expenditure policy, education, program evaluation, social policies, and economic development. Some of the specific topics include the evaluation of pre-K programs, analysis of the transition from welfare to work, studies of teacher retention, a multi-year study of public housing transformation, and studies of the labor market opportunities of low-skilled workers. Domestic Programs also houses Atlanta Census 2000 — a portal that allows easy mapping of census data.

Domestic Programs has extensive experience in measuring performance of programs in areas as diverse as education, transportation, and information systems. The evaluation and policy analysis projects have included many studies of educational programs. The office’s work in analyzing the effects of Georgia’s innovative HOPE Scholarship and in evaluating the nation’s first universal pre-kindergarten program has brought national attention. Evaluations conducted by the office’s staff range from large-scale statewide and national programs to school based innovations. Funding for the Domestic Programs comes from a variety of governmental, foundation, and business sources.

The Experimental Economics Center
http://excen.gsu.edu/

The Experimental Economics Center (ExCen) supports research, teaching, and policy applications involving controlled experiments with human decision makers. Its central objective is to promote the development and application of economics and related academic disciplines as empirical social science. Ongoing research in the Center involves development of economic theory supported by data. Research and teaching support facilities developed and maintained by the Center include the AYSPS experimental economics laboratory and EconPort (http://econport.org), an economics component of the National Science Digital Library. External funding is provided by the National Science Foundation and core support comes from the Georgia Research Alliance and the state government. Projects currently receiving grant support include the following: “Collaborative Research: IT-Enhanced Market Design and Experiments”; “Disseminating Experiments in Economics with the EconPort Digital Library”; “Choosing Among Risky Alternatives: An Experimental Investigation of the Impact of Insurance on Biases in Decision-Making”; “Game Theory and Social Interactions: A Virtual Collaboratory for Teaching and Research”; “Ethnic and Social Barriers to

Fiscal Research Center
http://frc.gsu.edu/

The Fiscal Research Center was established in 1995 to provide a stronger research foundation for setting fiscal policy for state and local governments and for better-informed decision-making. The FRC helps stimulate debate on fiscal policy and provides nonpartisan research, technical assistance, and education in the evaluation and design of state and local fiscal and economic policy, including both tax and expenditure issues. The FRC mission is to promote the development of sound public policy and public understanding of issues concerning state and local governments.

The research agenda of the Fiscal Research Center is composed of three broad categories: Intergovernmental Issues, Tax Policy, and the Georgia Economy. Intergovernmental Issues conducts research related to education financing and the delivery of education in Georgia as well as understanding inherent in relationships between state and local governments. Tax Policy includes: the taxation of banking, insurance, and corporations; the structure and impact of income taxation; the structure, administration, and effects of property taxation and sales/excise taxation; alternatives in the taxation of public utilities; and policy issues associated with government budgeting. The Georgia Economy research includes issues relevant to the state’s economic development efforts, studies of various sectors and aspects of the Georgia economy, and development/maintenance of a database built on the Unemployment Insurance records from the Department of Labor, welfare records for the Department of Human Resources, and other agency databases.

The Georgia Health Policy Center
http://www.gsu.edu/~wwwghp/

The Georgia Health Policy Center, established in 1995, provides evidence-based research, program development and policy guidance on local, state and national levels to improve health status at the community level. The Center distills qualitative and quantitative research findings to connect decision makers with the evidence-based research and guidance needed to make informed decisions about health policy and programming. The Center is at work nationwide focusing on some of the most complex policy issues facing healthcare today including public and private health insurance coverage, the uninsured, long-term care, public health, children’s health and community health system development.

This program is recognized worldwide for its contributions to economic and policy reform.

ISP faculty and staff, other Andrew Young School faculty, affiliates, and a network of consultants serve as project directors, senior advisers, chiefs-of-party, or lead economists for major projects in areas including fiscal policy, tax administration, economic analysis and revenue forecasting, fiscal decentralization and intergovernmental fiscal relations, and public administration, budgeting, and financial management. These experts work together to implement technical assistance projects for clients and have assisted more than 60 countries.

The United States Agency sponsors ISP projects for International Development (USAID), The World Bank, the United Nations Development Program, the Asian Development Bank, the Inter-American Development Bank, and other regional and national funding agencies.

ISP annual summer training programs provide training on fiscal decentralization and budgeting for senior government officials from developing and transitional countries and for donor agency representatives from other countries. These training programs are in such great demand that ISP added an additional program on revenue forecasting and fiscal management. ISP also develops specially tailored training focused on specific policy topics as requested by its clients. More on the International Studies Program is found online at http://isp-aysps.gsu.edu/.

Although independent, RACL is housed at the Andrew Young School, which partners with the RACL.

2020 Academic Regulations

2020.10 Transient Status at Other Institutions

Students enrolled in the Andrew Young School of Policy Studies who wish to take course work in transient status at another institution, whether as a full-time or part-time student, must have prior written approval from the Office of Academic Assistance if they wish to apply the credit to a degree program.

2020.11 Directed Readings (Econ 4380/PAUS 4901)

Courses designated Econ 4380 and PAUS 4901 in the various undergraduate programs are intended to allow students of proven performance to do independent study in a specific subject area. Enrollment in a directed readings course requires prior consent of the instructor. Enrollment for PAUS 4901 is limited to undergraduate students with a grade point average of 3.0 or higher. A maximum of one directed readings course may count toward fulfillment of degree requirements, and the course may not be substituted for a core course requirement. The subject of the independent study will be determined in consultation with the faculty member responsible for supervising the independent work. A faculty member may seek the assessment of a second faculty reader on any directed readings paper. Letter grades, rather than grades of S or U (satisfactory or unsatisfactory), will be assigned for all directed readings courses.

2020.12 Modification of Degree Requirements

Students may petition for modifications of the degree requirements of the Andrew Young School of Policy Studies. Degree modification petitions are granted only in the case of extenuating circumstances and only when an educationally acceptable substitution is proposed. Petition forms and information are available in the Office of Academic Assistance and online at http://aysps.gsu.edu/acassist/resources/index.htm.

2020.13 Undergraduate and Postbaccalaureate Admission into a Graduate Course

Under certain conditions, an undergraduate or postbaccalaureate student may be admitted into a graduate course. To be eligible, an undergraduate student generally must have a cumulative grade point average of 3.5 or higher and be within 18 semester hours of graduation; a postbaccalaureate student generally must have a cumulative grade point average of 3.5 or higher in his or her undergraduate work as well as any graduate work taken at this or any other institution.

Eligibility does not guarantee admission into a course. The interested student must apply through the Office of Academic Assistance for special graduate student status. Approval of that status requires the concurrence of the student’s academic adviser, the chair of the department in which the student is enrolled, and the director of the Office of Academic Assistance. Once the status has been approved, the student is permitted to enroll in a graduate course only with the permission of the instructor and the chair of the department in which the course is taught.
2020.14 Awards, Honors and Scholarships

The Andrew Young School of Policy Studies recognizes the academic achievements and service of its students each spring semester at an Honors Day ceremony. A number of awards, honors, and scholarships are presented annually to outstanding undergraduate students, including: the Carolyn McCain Young Leadership Fund Award, Jack Blicksilver Scholarship, Economics Award, Andrew Young School of Policy Studies Honors Program Award, Wall Street Journal Student Achievement Award in Economics, William R. Gable Award, Dan Sweat Award, and the Governor Joe Frank Harris Scholarship. Further information is available through the Office of Academic Assistance.

2040 Academic Advisement

Office of Academic Assistance
14 Marietta St. N.W., Suite G52
http://aysps.gsu.edu/acassist/index.htm
Sue Fagan, Director
Wanda Cooley, Associate Director
Mathieu Arp, Administrative Specialist-Curriculum

Academic advisement is required of all students in the Andrew Young School of Policy Studies. The school has developed a system of advisement that integrates the Office of Academic Assistance and faculty advisers within the school. Through the advisement process, students will be able to know the requirements and policies of the university, college, and department as they relate to their educational experiences and goals. Students will be able to identify and utilize university resources effectively to: satisfy degree requirements; plan programs of study, including selection of appropriate courses and registration; discover how interests, skills and goals connect to fields of study and careers; and be able to formulate appropriate questions, seek information, and evaluate and apply academic advise. The office is open from 8:30 a.m. to 5:15 p.m. Mondays, Thursdays and Fridays and from 8:30 a.m. to 6:00 p.m. Tuesdays and Wednesdays (when school is in session).

2050 Student Appeals and Petitions Procedures (See Addendum)

The appeals procedure for students in the Andrew Young School of Policy Studies will follow different courses depending on the nature of the student’s appeal. The various types of situations and the appropriate appeals avenues are as follows:

Admissions Appeals: at the undergraduate level, the university rather than the colleges makes admissions decisions. The university’s Office of Undergraduate Admissions should be contacted for the proper procedure.

Appeal of Course Grades: An instructor shall not be required to answer to any authority concerning the basis of the instructor’s judgment about the academic performance of a student, unless the petitioner is able to document clear evidence of arbitrariness, capriciousness, bad faith, or abuse of discretion. The following information applies:

1. A student should first review the situation with the instructor who assigned the grade. If the question is not resolved, the student may appeal, in writing, to the department chair of the instructor who assigned the grade, sending a copy of the letter to the instructor. The letter must include all points that the student considers to be germane to the appeal; additional points not contained in the initial letter cannot be considered subsequently. The written appeals should include: (a) a statement of the complaint/grievance, with specifics as to event(s) or incident(s) in question, and including evidence to support the student’s allegation(s) of discrimination and/or arbitrary or capricious action on the part of the instructor; (b) a statement of the redress being sought; (c) steps already taken; and (d) reasons for dissatisfaction with the decision from the informal process. The written appeal must be sent to the department chair within 30 calendar days of the first day of classes of the semester immediately following the semester in which the grade was given. If the final grade assignment occurred at a time other than the normal grade reporting process at the end of the semester, the written appeal must be sent to the department chair within 30 calendar days of the date the final grade was assigned. Normally, the chair’s decision will be conveyed to the student, in writing, within three weeks of the date the student’s written appeal is received.
2. A student who wishes to appeal the decision at the department level may appeal in writing to the associate dean. The written appeal must be received within 14 days of the date of the letter from the department chair, and it must indicate specifically why the student believes that due process was not exercised at the department level. The associate dean will examine the facts and review the appeal with the dean of the school. The dean will then render a written decision for the school within 45 days of the date of the letter from the department chair.

3. A subsequent appeal requires a written statement to the vice president for academic affairs indicating the basis of the appeal. The statement must be received within 14 days of the date of the dean’s letter to the student.

Appeal of Suspension and Exclusion: At the undergraduate level, appeals related to scholastic suspension or scholastic exclusion are considered by the university’s Student Advisement Center. That office should be contacted for the proper procedure.

Other Appeals: Appeals not specifically covered in the foregoing procedures should normally follow the pattern outlines for the appeal of a course grade or the appeal of a suspension, whichever is appropriate. Students may contact the Office of Academic Assistance for clarification of the Andrew Young School of Policy Studies appeal procedures.

Career Opportunities and Related Courses: A recent study by the U.S. Census Bureau showed that college graduates who majored in economics were among the highest paid employees (economics ranked as the third most lucrative major). An undergraduate degree in economics furnishes a valuable background for a domestic or international career in law, government, business or education. Government service provides many opportunities at the federal, state, and local level that require only an undergraduate degree in economics. What economists do in business is as broad and varied as the full scale of managing a firm’s operations; economists are found in staff departments handling marketing, business planning and policy, finance, international operations, government relations, and even purchasing and operating logistics. An economics degree also combines well with training in other disciplines such as finance, real estate, political science, journalism, history, law, and foreign languages.

Students who plan to have a career or pursue graduate work that uses economics should consider the courses listed below. The listings are suggestions for broad categories and do not exclude other offerings. These suggestions do not replace advisement or override any degree requirements regarding choices of major or elective courses.

Business: Econ 4500, 4950, 4300, 4470, 4700, 4800, 4810, 4960.

2110 Economics
Programs Offered:
Bachelor of Arts Major in Economics
Bachelor of Science Major in Economics
Bachelor of Arts Major in International Economics and Modern Language

For information about the B.B.A. degree with a major in business economics offered by the J. Mack Robinson College of Business, please refer to that college’s chapter in this catalog.
Economics provides a way of thinking about everyday decision-making in a world of limited options. It explains the economy as a whole, how it is best organized to provide goods, services, jobs, stable prices, and other economic goals. Economists study the ways a society distributes scarce resources such as land, labor, raw materials, and machinery to produce goods and services choices that must be made because time, income, wealth, workers, and natural resources are limited. Principles of economics are useful at all levels of decision-making, and provide an essential framework for analyzing and understanding such major issues as inflation, unemployment, deregulation of banking, tax reform, fluctuations in foreign exchange rates, labor productivity, and foreign debt crises.

Most economists are concerned with practical applications of economic policy in a particular area. They use their understanding of economic relationships to advise businesses and other organizations, including insurance companies, banks, securities firms, computer and data processing companies, management consulting firms, industry and trade associations, labor unions, and government agencies. Some economists work abroad for companies with international operations and for organizations like the World Bank and United Nations.

Economists use mathematical models to develop programs that predict, for example, the nature and length of business cycles, the effects of inflation on the economy, or the effects of tax legislation on unemployment levels. Preparing reports on the results of their research is an important part of the economist’s job. Being able to present economic concepts in a meaningful way is particularly important for economists who are involved in making policy for their organizations.

The student with a major or minor in economics may choose from a broad array of topics including foreign trade, environmental and natural resources economics, money and credit, public sector economics, labor economics, economic development, international finance, urban and regional economics, economic history, industrial organization and antitrust policies, and mathematical economics. Majors may pursue careers in many areas, some of which are listed below along with courses applicable to the career choice.

Economics majors who are considering graduate study in economics are encouraged to take Math 2211 and Math 2212 in place of Math 1111 and Math 1220. Consult the course descriptions for the Department of Mathematics and Computer Science for prerequisites before taking these courses.

For degree credit, a minimum grade of C must be attained in ENGL 1101 and 1102 and all courses in the major common core curriculum and electives.

2130.10 Bachelor of Science Major in Public Policy

The essence of a public policy degree is to educate students to be able to provide valuable advice to governments – federal, state and local; domestic and foreign – on choosing, implementing, and evaluating policy. While many disciplines in the arts and sciences contribute knowledge that is useful to public policy, no single discipline, whether economics, political science, sociology, or the natural sciences, will give students the ability to synthesize information and knowledge from across the disciplines to formulate comprehensive analyses of existing or proposed public policies, and to be able to present these analyses to decision-makers.
Although programs in public administration have existed since the early twentieth-century, there has been a more recent increased demand for analysts who can contribute to the formulation and evaluation of policy, as well as its administration and management.

The BSPP allows students to study a wide variety of policy areas through different departments, and so develop an understanding of the interdisciplinary nature of public policy. The degree gives students the freedom to work in a variety of policy areas through their elective courses. The underpinning for the study of policy areas is a common core of courses which provides students with an understanding of:

- The environment and the processes in which public policy is proposed, formed, and implemented;
- How the economy works, how we evaluate the outcomes of the market economy, how people and firms respond to incentives;
- The goals and tools of public policy;
- The quantitative and qualitative methods useful in the design and evaluation of policy;
- The means by which we evaluate and recommend policy.

Program Degree Requirements
For degree credit, a minimum grade of C must be attained in ENGL 1101 and 1102 and all courses in the major core curriculum and specializations.

2130.10 Bachelor of Science Major in Urban Policy Studies
The interdisciplinary undergraduate urban policy studies program provides students with both a general background in urban policy studies and the specialized knowledge necessary for professional positions in a variety of related fields. The
general background is obtained from completing a common core curriculum that is required of all students. This curriculum examines the functioning of cities and suburbs, the roles of the public, private, and nonprofit sectors in this functioning, and the special importance of public policy in linking these sectors in metropolitan areas.

Choice of a specialization beyond the core curriculum permits the student to develop additional skills appropriate for professional positions in a particular field. Students are also encouraged to undertake field instruction and action research, with public, private, and nonprofit agencies in the Atlanta area offering ample opportunities for applied learning experiences. Many opportunities are available through the various research centers and community outreach efforts of the Andrew Young School of Policy Studies. These opportunities enhance the education students receive and often open doors to attractive jobs.

**Career Opportunities:** Graduates of the urban policy studies program work as planners, economic development specialists, public policy analysts, pilots, and managers of aviation or transportation agencies, to name just a few of the positions. The choice of such public service careers, whether in the public, nonprofit, or private sector, offers many rewards, including a sense of purpose in attempting to enhance the quality of life for individuals and society. The degree in urban policy studies also provides excellent preparation for master’s and doctoral work in a number of disciplines, with many program graduates having achieved advanced degrees at Georgia State and at other prestigious universities around the country.

3000 College of Arts and Sciences

3010 General Information

The College of Arts and Sciences consists of 23 departments/schools/institutes within the areas of the fine arts, the humanities, the natural and computational sciences, and the social and behavioral sciences. The college has approximately 10,000 undergraduate students and 2,000 graduate students. The college also has the primary responsibility for the two-year general education curriculum required of all students in the university.

The liberal arts education offered by the College of Arts and Sciences prepares students for professional careers and provides them with the foundation for lifelong learning, enabling them to meet the challenges of career development. Programs in the liberal arts promote the independent discovery of knowledge, an appreciation of the arts, and the ability to think critically and analytically.

On the undergraduate level, the College of Arts and Sciences offers the Bachelor of Arts, the Bachelor of Science, the Bachelor of Interdisciplinary Studies, the Bachelor of Music, and the Bachelor of Fine Arts degrees. The requirements for these degrees build directly upon the broad educational foundation provided by the core curriculum.

Within the framework of the various degree offerings, specific programs have been designed for students who wish to pursue a career in teaching. These teacher education programs provide for a major concentration within a special field of knowledge suitable for teaching at the various school levels. The programs prepare a student to meet the certification requirements of the Professional Standards Commission of the State of Georgia.

The College of Arts and Sciences, through its Division of Graduate Studies, offers graduate degrees and programs in numerous fields. A list of the degrees and areas is shown at the end of this chapter (section 3560). The university publishes a graduate catalog that includes complete descriptions of all of the graduate programs offered at Georgia State University (available online through the Office of the Registrar website: http://www.gsu.edu/es/office_of_the_registrar.html.)

The collection is used extensively for instruction and learning by university faculty and students as well as visual arts professionals throughout the region. The school has recently acquired ArtStor, a database of over 300,000 images of the history of art. This addition will be a valuable resource for the School of Art and Design.

Writing Studio
976 General Classroom Building
http://www.writingstudio.gsu.edu/
404/651-2906

The Writing Studio offers space for conversation, coffee, and writers, by creating a welcoming community for undergraduate and graduate students to practice the art of writing. Its purpose is to enhance the writing instruction that happens in academic classrooms by pairing writers with an experienced Reader. Readers, Graduate Assistants in the departments of English and Applied Linguistics/ESL, engage student writers in talk about their writing assignments and ideas, and familiarize them with
audience expectations and academic genre conventions. We focus on invention (coming up with ideas), drafting (expanding ideas and supporting arguments), and arrangement (figuring out the best structure and organization for a text). Readers focus on the rhetorical aspects of the student text, and provide one-on-one, student-centered teaching of works-in-progress. The Writing Studio does not provide editorial or proofreading services. Readers will not write on student papers or in any way “correct” a student text. Readers can also provide coaching for the Regents’ Essay Exam, and students may work on course assignments or application materials for graduate and professional programs and scholarships. The Writing Studio is open only to currently enrolled students and recent alumni. The Studio is open the second week of each semester and closes the last Thursday before the end of classes. The Studio is closed between terms and for all university holidays. Students are welcome to drop in without appointments. More information is located on the website.

3020 College Academic Regulations

The requirements for entrance into Georgia State University are found in the section of this catalog devoted to undergraduate admissions. A transfer student must comply with all academic regulations of the university. The College of Arts and Sciences reserves the right to validate by examination any credits accepted by transfer. This provision in no way affects the acceptance of courses used to satisfy core curriculum requirements at another unit of the University System of Georgia.

Students holding a baccalaureate degree from an accredited college or university who wish to complete another undergraduate degree are urged to clear all requirements with an advisor in the Office of Academic Assistance.

Grades of C in Major/Minor

Grades in the major and minor require a grade of C or higher. Certain departments/schools/institutes may also require a grade of C or higher in their introductory courses.

Credit by Examination

A maximum of 18 semester hours of degree credit may be granted before or after matriculation to a student who receives satisfactory scores on certain subject examinations of the College Level Examination Program of the College Entrance Examination Board. The student should consult the appropriate department or school or the Office of Academic Assistance for further information.

A maximum of 18 hours, but not more than 6 hours from one department or school, may be granted to entering freshmen who achieve satisfactory scores on the Advanced Placement Program of the CEEB. Credit awarded by examination by the academic departments within the College of Arts and Sciences does not apply toward the academic residence requirement.

Credit for Transient Work

Arts and Sciences students who wish to take course work at another institution, whether as a full-time or as a part-time student, must have prior written approval from the Office of Academic Assistance if they wish to apply the credit hours to a degree program. Failure to obtain the required prior approval will prevent the acceptance of such credits. Approval will be granted for no more than two terms of work and only if the student is in good academic standing at Georgia State University. No approval of requests to take courses in Atlanta-area colleges will be granted if the course is readily available from Georgia State offerings. During the term in which the student is scheduled to graduate, all courses must be taken at Georgia State unless prior written approval has been obtained from the Office of Academic Assistance. The acceptance and application of all course work taken as a transient student is subject to any limitations imposed by the student’s major department, school, or program of study.

Please consult the “Academic Regulations” section of this catalog for further clarification in regard to transient credit.

Credit for Veteran’s Service

University students who are veterans of any service, active, reserve, or National Guard, or who have attended a service academy, may receive advanced placement in the Department of Military Science and Leadership (ROTC).

Course 4999 - Directed Readings

Course 4999, Directed Readings, in any department/school/institute that offers a major in the College of Arts and Sciences is designed to assist seniors who are within two terms of graduation and who have curriculum difficulties in fulfilling the requirements necessary for graduation. One to four credit hours may be earned. The supervising professor, the departmental chair/school director, and the dean of the college must approve registration for the course. Forms for Course 4999 must be completed at the time of regular registration for the term in which the credit is to be earned and can be obtained through department/school offices or the college’s Office of Academic Assistance.
Undergraduate and Postbaccalaureate Admission into a Graduate Course

Under certain conditions, an undergraduate or postbaccalaureate student may be admitted into a graduate course. The dean’s office of the college will determine a student’s eligibility for admission into a graduate course.

To be eligible, an undergraduate student generally must have a cumulative grade-point average of 3.5 or higher and be within 18 semester hours of graduation; a postbaccalaureate student generally must have a cumulative grade-point average of 3.5 or higher in his or her undergraduate work as well as any graduate work taken at this or any other institution.

Eligibility does not guarantee admission into a course. Once a student’s eligibility is determined, admission must be approved by the instructor for the course, the department’s/school’s director of graduate studies, the chair/director of the department/school offering the course, and the graduate director of the College of Arts and Sciences.

3030 College Degree Requirements

3030.10 Foreign Language Requirement for B.A./B.I.S. Majors

The College of Arts and Sciences requires the completion of a foreign language at the 1002 level for all students seeking a Bachelor of Arts degree or a Bachelor of Interdisciplinary Studies degree. This requirement can be met by taking a course numbered 1002 or higher.

The foreign language requirement for students enrolled in the Bachelor of Arts and the Bachelor of Interdisciplinary Studies programs is most commonly included in core curriculum Area F (Courses Appropriate to the Major); however, programs may also require students to complete foreign language courses in Area G, the 60 semester hours beyond the core curriculum. Students transferring to Georgia State with a completed core curriculum Area F, yet without sufficient course work to meet a program’s foreign language requirement, will be required to fulfill the necessary courses in the second 60 semester hours. Students who take a language course in Area C and subsequently declare a major in a program leading to a Bachelor of Arts and the Bachelor of Interdisciplinary Studies will find that the language course no longer counts in Area C but in Area F or Area G. For this reason, the college recommends that students in the Bachelor of Arts and the Bachelor of Interdisciplinary Studies programs not include a foreign language course in core curriculum Area C (Fine Arts and Humanities).

Students who would like to begin a new foreign language, or to take a second foreign language, should consult a program adviser concerning the possibility of earning credit for the first semester of elementary foreign language (1001) in either core curriculum Area F or in the second 60 hours.

3030.20 B.A. in French, German, or Spanish and M.I.B. Joint Degree Program

Highly qualified and highly motivated students interested in languages and international business may apply for this joint-degree program that leads to an undergraduate degree in French, German, or Spanish and a Master of International Business. It is a demanding program that combines classroom study in the chosen second language with the international business curriculum. There will be at least one mandatory internship abroad in the final year, with a second strongly recommended study or work experience abroad, usually during the third or fourth year. Completion of the program in five years will mean that students must be willing to attend classes in the summer, as necessary. For further information please contact: Department of Modern and Classical Languages, 841 General Classroom Building, 404/651-2265, e-mail: mclinfo@gsu.edu.

For students interested in Japanese, the Bachelor of Interdisciplinary Studies in Japanese/Asian Studies can also be combined with the MIB in the Joint Degree Program. For more information, contact Yuki Takatori, 404/651-2265 or mcllyyt@langate.gsu.edu.

3030.30 Bachelor of Interdisciplinary Studies

The Bachelor of Interdisciplinary Studies degree provides educational opportunities not available through the existing, traditional degree programs. The purpose of the program is to offer students an avenue by which they may take advantage of the rich offerings available in the several colleges at the university. An individual student, in consultation with a faculty adviser, may tailor a program of study that meets his or her particular educational needs, desires, and interests.

A student can pursue either a college-planned or a student-planned interdisciplinary program. The established college-planned programs address the needs of many students interested in a multidisciplinary, non-traditional education. Existing areas of concentration include Arts Administration-Speech/Theatre, Asian Studies, Classical Studies, Community Studies, Environmental Science, International Studies, Language Studies, Law and Society, Middle East Studies, and Theatre. Students interested in developing a student-planned program have the option of choosing one of the following program plans: (1) two areas of concentration; (2) one area of concentration and two allied fields; or (3) one area of concentration, one allied field, and electives.

Information about the B.I.S. program, including program options and the application process, is available from the college’s Office of Academic Assistance, 724 General Classroom Building, 404/651-2291.
Purpose

The Bachelor of Interdisciplinary Studies degree provides educational opportunities not readily available through traditional departmental degree programs. Students have flexibility in developing a course of study appropriate to their goals by selecting courses from several departments/schools/institutes in the College of Arts and Sciences. Students may also include courses from other colleges of this university in their interdisciplinary program.

It is not the function of the interdisciplinary program to pull together an assortment of course work as a last-minute effort to facilitate a student’s graduation. A proposal should be planned by the time a student has earned 42 credit hours and should reflect a logical, consistent course of study that is based on acceptable and germane student objectives.

Program Admission

Applicants to the Bachelor of Interdisciplinary Studies program must satisfy the admission requirements for Georgia State University and, in addition, must have a Georgia State cumulative grade-point average of 2.0. Matriculation into the program can occur only after the B.I.S. Council approves a student’s program of study. There is a special application procedure for this degree program and faculty advisement is a mandatory component of this process.

Program Degree Requirements

There are two options in the Bachelor of Interdisciplinary Studies program, the student-planned option and the college-planned option. Descriptions are listed below.

Option One: Bachelor of Interdisciplinary Studies Student-Planned Program

Students may choose the option to propose their own program of study for approval by the B.I.S. Council responsible for the oversight of the degree. Students may select their proposed courses from any college in the university, as long as at least 50 percent of the hours in the program are chosen from courses in the College of Arts and Sciences. Students should have their proposed student-planned programs reviewed by the B.I.S. Council by the time they have earned 42 hours.

To gain approval into the program, students must articulate a reasonable and educationally justifiable course of study. Proposed interdisciplinary degree programs cannot resemble current programs offered at the university. Students interested in initiating the application process must first schedule an appointment with an academic adviser in the Office of Academic Assistance (404/651-2291). Students must also select an appropriate faculty adviser to provide guidance in developing the interdisciplinary program.

Course of Study Outline for Student-Planned Programs

Areas A-E: Core Curriculum (42)
All undergraduate students satisfy a common core curriculum. These requirements are printed in the “Academic Regulations” section of this catalog.

Area F: Courses Appropriate to the Major Field (18)
Courses in this area should be included in the program proposal. The courses selected for this area must be at the lower division level and judged to be programmatically appropriate to the intent of the proposed program. Foreign Language 1002 must be included in Area F of all student-planned programs, except for those in science.

Area G: Area of Concentration (similar to a traditional major area, except interdisciplinary in content).

Area H: Allied Field (similar to a minor, except interdisciplinary in content).

Area J: Electives

When developing a student-planned program, the student may choose one of the following structures:

Program Plan Structure One: An area of concentration (27-33 semester hours*) with an allied field (15-21 semester hours*) and electives (6-18 semester hours*).

Program Plan Structure Two: An area of concentration (27-33 semester hours*) with two allied fields (15-21 semester hours each*).

Program Plan Structure Three: Two areas of concentration (27-33 semester hours each*).

* No more than 12 hours of the requirements in an area of concentration, and no more than 6 hours of the requirements in an allied field, may be taken from the offerings of any one department/school/institute in the university. Courses in the area of concentration and allied field must be at the 3000-4000 level. Also, a grade of C or higher is required in all courses in the area
of concentration and allied field. Electives are used to build the hours in Areas G-J to 60 hours, have 39 hours at Georgia State University taken at the 3000-4000 level for residency, and complete 120 hours required for graduation. The last 27 semester hours prior to graduation must be completed while formally enrolled in the program.

**Option Two: Bachelor of Interdisciplinary Studies College-Planned Programs**

Students may choose a program designed by the College as follows: Arts Administration–Speech/Theatre, Asian Studies, Classical Studies, Community Studies, Environmental Science, International Studies, Language Studies, Law and Society, Middle East Studies, and Theatre. For information about the college-planned programs, see the alphabetical list of majors later in this chapter of this catalog. Environmental Science has specific core curriculum requirements listed.

**3030.40 The Interdisciplinary Minor**

The interdisciplinary minor provides educational opportunities not otherwise available and allows students the flexibility to select courses for the minor from several departments/schools/colleges at the university. Students must propose their interdisciplinary minor of 15-18 hours for approval by the Bachelor of Interdisciplinary Studies Advisory Council. A proposal must identify the way in which the minor fits into the context of the student’s entire degree program. To gain approval, students must articulate a reasonable and educationally justifiable course of study and must keep in mind that this course of study may not duplicate what is currently available. Students can choose to pursue either a college-planned or a student-planned interdisciplinary minor.

The following requirements apply to the interdisciplinary minor:

1. The student must have a Georgia State University cumulative grade-point average of 2.0;
2. All courses included must be at the 3000 level or above;
3. No more than six hours may be taken in any one department or school and courses cannot be from the major area; and
4. At least 50 percent of the minor must be completed after the semester in which the B.I.S. Advisory Council approves the minor program plan.

Students should contact the Office of Academic Assistance at 404/651-2291 for information on the application procedure. Guidelines for college-planned interdisciplinary minors in Advanced Leadership and Management, Gerontology, Jewish Studies, Language Studies, Latin American Studies, and Middle East Studies are also available.

**3040 Office of Academic Assistance**

724 General Classroom Building  
404/651-2291  
[http://www.cas.gsu.edu/dept/oaa](http://www.cas.gsu.edu/dept/oaa)  
Director: Tammy Patterson-Hill  
Academic Advisers: Bradford, King, Meier, Murphy

The Office of Academic Assistance supports departments and schools in providing academic advisement for students in the college. This office also works with students on career development and on marketing a liberal arts background in the current job environment. The Office of Academic Assistance prepares evaluations of transfer work done at other institutions as well as academic program reviews for each major offered through the college. It also assists with course selections and schedule revisions and provides information concerning college and university policies. Students are advised on an appointment basis, or they may come by the Academic Assistance office at any time during office hours for brief consultations. During the academic year, the office is open until 6:00 p.m. on Tuesday and Wednesday and until 5:15 p.m. on Monday, Thursday and Friday. Students seeking a degree in the College of Arts and Sciences should become familiar with the academic regulations of the university stated elsewhere in this catalog.

**Academic Advisement for Majors**

Although the College of Arts and Sciences will endeavor to provide timely and accurate advisement, it is the responsibility of the student to know and to satisfy the degree requirements of his or her academic program.

The College of Arts and Sciences encourages its majors to receive regular academic advisement in their major departments/schools/institutes. This position reflects the belief that a strong undergraduate program is possible only if there are frequent opportunities for students to discuss their academic work and career goals with one of their major professors. In a large urban institution such as Georgia State University, contact is essential if students are to receive individual attention and enjoy the full benefits of a liberal arts education. Students should call their major department/school/institute to make advisement appointments and/or find out the department’s/school’s/institute’s walk-in advisement schedule.
3050 Appeals and Petitions Procedures (See Addendum)

The appeals policies and procedures for students enrolled in courses or academic programs in the College of Arts and Sciences are available in the departmental/school and administrative offices of the college.

Appeals of Course Grades: The process of appealing a course grade is as follows:

1. A student should first review the situation with the instructor who assigned the grade. If the question is not resolved, the student may appeal in writing to the department chair of the instructor who assigned the grade, sending a copy of the letter to the instructor. The letter must include all points that the student considers to be germane to the appeal; additional points not contained in the initial letter cannot be considered subsequently. The written appeal must be sent to the department chair no later than the midpoint of the semester (as indicated by the last day to withdraw with a “W”) immediately following the semester in which the grade was assigned. If the final grade assignment occurred at a time other than the normal grade reporting process at the end of the semester, the written appeal must be sent to the department chair within 30 calendar days of the date the final grade was assigned. Normally, the chair’s decision will be conveyed to the student in writing within three weeks of the date the student’s written appeal is received.

2. A student who believes that the appeal was handled in an arbitrary, capricious, or discriminatory manner at the departmental level may appeal in writing to the associate dean. The written appeal must be received within 20 days of the date of the letter from the department chair, and it must indicate specifically why the student believes that due process was not exercised at the department level. The associate dean will examine the facts and review the appeal with the dean of the college. The dean will then render a written decision for the college within 50 days of the date of the letter from the department chair.

3. A subsequent appeal requires a written statement to the vice president for academic affairs indicating the basis of the appeal. The statement should be received within 20 days of the date of the dean’s letter to the student.

Appeals of Suspension and Exclusion: At the undergraduate level, appeals related to scholastic suspension or scholastic exclusion are considered by the university’s Student Advisement Center. That office should be contacted for the proper procedure.

Modification of College Degree Requirements

The college Committee on Undergraduate Studies reviews petitions for modifications of the degree requirements of the college. Degree modification petitions are granted only in the case of extenuating circumstances and only when an educationally acceptable substitution is proposed. Petition forms and information on deadlines are available in the Office of Academic Assistance.

Department of Applied Linguistics and English as a Second Language
Gayle Nelson, Chair
Sara Weigle, Director of Undergraduate Studies

Applied linguistics is an interdisciplinary field that integrates many perspectives on the study of human language. Studying linguistics is not a matter of learning many different languages, but rather it is the study of the nature of language in general. Applied Linguistics is the study of language and communication in relation to real-world problems such as language acquisition and teaching, language assessment, improving intercultural communication, and understanding the relationship between language and social organization.

The Department of Applied Linguistics and English as a Second Language offers (1) a B.A. degree in Applied Linguistics; (2) undergraduate courses leading to the Bachelor’s of Interdisciplinary Studies (B.I.S.) degree in Language Studies (see Section 3370), (3) a certificate in Teaching English as a Foreign Language (TEFL), (4) ESL credit-bearing courses for non-native speakers of English, and (5) Intensive English Program (IEP) courses for non-native speakers of English.

The B.A. in Applied Linguistics and the B.I.S. in Language Studies provide the opportunity for students to explore the field of linguistics from an interdisciplinary perspective. Dr. Sara Weigle is Director of Undergraduate Studies for the department and can be contacted at 404/651-3223 or sweigle@gsu.edu.

The TEFL certificate program provides students with appropriate skills and a credential that will enable them to teach English as a foreign language abroad. The School of Art and Design offers degree programs in studio, art education, and art history. The Bachelor of Fine Arts professional degree is available in studio and art education. Within the studio degree, students may choose from these concentrations: drawing, painting, and printmaking; graphic design; interior design; photography; textiles; or three-dimensional studies.

The School of Art and Design offers the Bachelor of Arts degree for students who wish to pursue a liberal arts education. They may select a concentration in studio art or in art history. The Studio B.A. program covers a range of art courses and a studio concentration. Art history is a more academic liberal arts program devoted to preparing future scholars and curators.

The school seeks to provide an educational environment that encourages the creation and presentation of the visual arts, the study of visual culture, and the education of the larger community in the visual arts. Graduates of the school carry their knowledge forward and contribute to the cultural conscience of the community. A strong corps of the school’s graduates is found in the state’s art centers and schools. Others hold prominent positions with local and national design firms. Faculty, student artists, and alumni frequently exhibit in national and international galleries and competitions. Their works are in numerous private and corporate collections.

The School of Art and Design is professionally accredited by the National Association of Schools of Art and Design.

Program Admission

Students who wish to pursue a Bachelor of Fine Arts (B.F.A.) degree must apply to seek this degree. Students may pursue the B.F.A. by being accepted either into a major in studio art or into a major in art education. The studio art program requires a concentration in one of the following areas: drawing, painting, and printmaking; graphic design; interior design; photography; textiles; or three-dimensional studies (ceramics or sculpture). Acceptance to a major is determined by application and portfolio review following completion of the art core sequence. Students should consult with the undergraduate adviser or a faculty adviser for details.

Portfolios and applications are reviewed fall and spring semesters on Portfolio Review Day. Students should check with the School of Art and Design office for information about Review Day.

Admission to Art Education

Application to the art education major should occur upon completion of the 18 semester hours required in Area F and at the end of the semester in which the student has taken the introductory art education course (AE 4200). Application to the major must occur prior to completing 15 additional semester hours in art. Students must have earned a 2.5 overall cumulative GPA, earned a 3.0 GPA in all art content courses, and passed the Praxis I for entrance to the major.

Admission to Studio Art

Upon completion of the 18 semester hours required in Area F and prior to completion of 15 additional semester hours, each student who wishes to seek a B.F.A. in Studio Art must submit an application and pass a portfolio review for acceptance into a major concentration. Applications to concentrate in a discipline are available in the School of Art & Design office and are reviewed fall and spring semesters on Portfolio Review Day scheduled prior to Phase I registration. Students should meet with an adviser in the concentration they are considering one semester before they apply for the concentration. In the event that a student is not accepted into the concentration, the student should see the School of Art and Design undergraduate adviser to explore other options.

Program Academic Regulations

Evaluation of transfer credits should be completed during the first semester of attendance at the university.

Program Degree Requirements

Art students should seek regular advisement from the Undergraduate Adviser or a faculty adviser (once accepted into their concentration) in the School of Art and Design. In order to facilitate advisement, students in the Bachelor of Arts degree program should declare their major and area of concentration (studio or art history) prior to completion of their Area F courses. Students in the Bachelor of Fine Arts degree program should declare their intention to pursue a B.F.A. degree to the Office of Academic Assistance in the College of Arts and Sciences when they initiate their Area F requirements. Upon completion of the Area F requirements and prior to completion of 15 additional hours in art, students who intend to pursue the Bachelor of Fine Arts degree program must submit an application and portfolio to the concentration faculty for review and approval.

A grade of C or higher is required in all major courses, a grade of B or higher is required in all art education courses, and a GPA of 3.0 is required for all art content courses.
In addition to the Program Degree Requirements, students must fulfill the College of Arts and Sciences Degree Requirements (see section 3030) and the University Degree Requirements (see section 1400).

Biology, the science of life and life processes, includes the study of structure, function, growth, development, reproduction, origin, evolution, and distribution of living organisms.

A degree in biology provides students with a variety of career opportunities. Potential careers range from applied or basic laboratory research and field studies in numerous state and federal organizations and industry, to education in public and private school systems. Furthermore, the degree provides the ideal preparation for entry into medical, dental, and veterinary schools and other health-related professions. Finally, a bachelor’s degree in biology provides a good foundation for advanced studies at the M.S. or Ph.D. level in biological sciences.

As an alternative to the General Biology Studies program (and in addition to the core degree requirements), courses in one of several areas of concentration, listed below, are available. Interdisciplinary programs with other departments/schools/institutes (such as Behavioral Biology or Environmental Science) are also an option. To plan the major according to the particular needs and goals, students should consult the “Undergraduate Program” area of the Biology Department Website (biology.gsu.edu) for information about the major. For advisement questions, students should contact the Undergraduate Coordinator (404/651-3136) who will help connect them with an appropriate faculty advisor.

Program Degree Requirements

Alternatives are available for some requirements in Areas A-F. Please see a degree program adviser for specific guidelines.

In addition to the Program Degree Requirements, students must fulfill the College of Arts and Sciences Degree Requirements (see section 3030) and the University Degree Requirements (see section 1400).

Minor Offerings and Double Major in Biology

Students who wish to minor in biology must take 15-18 hours in courses in biology, including at least nine hours at the 3000 level or above. Students are responsible for meeting all prerequisite requirements (such as Chem 1211K/1212K) for the biology courses they choose to take, and are strongly encouraged to take these prerequisites as early as possible in their academic career. Students taking more than 15 hours in courses in biology may count the additional hours toward their electives or may consider completing a double major. A grade of C or higher is required in all courses counting toward the minor.

Honors Program

The department encourages qualified students to participate in the Honors Program (see “Honors Program” previously described or visit http://www.gsu.edu/~wwwhon/). The department sponsors a Biology Club and the Eta Psi chapter of Beta Beta Beta, the national honorary biological society. Interested students are encouraged to participate in these organizations.

Internships

Internships with collaborating institutions and programs (including ZooAtlanta, the Georgia Aquarium and the Bio-Bus program) are available on a limited basis. Students interested in receiving course credit for an internship should consult with the Undergraduate Director or Undergraduate Coordinator for more information.

Undergraduate Research Programs

Students are particularly encouraged to participate in the Undergraduate Research Program after completion of core requirements. Participation in an ongoing research activity provides the student with experience in experimental design and interpretation that is typically not available in routine laboratory courses. Students may enroll in Biol 4910 for a total of 10 hours. Interested students should consult the departmental brochure on faculty research interests and contact one or more faculty members for development of a specific project.

3180 Chemistry

Programs Offered:

- Bachelor of Science in Chemistry
- Concentration in Pre-Medicine
- Certification by the American Chemical Society
- Minor in Chemistry

Department of Chemistry
Chemistry deals with the nature of all substances and the changes that occur therein. It ranges from the study of the structure of atoms and molecules to that of the reactions occurring in living organisms. The study of chemistry can provide knowledge that will give students a greater understanding and appreciation of the world in which they live. In addition, knowledge of chemistry is a great asset in areas such as biology, physics, and health-related fields. It is a logical basis for pre-medical training.

Each student is urged to consult with a faculty adviser at the earliest possible time (even before the first semester) to outline a curriculum to meet his or her needs. A typical program of study for chemistry majors is outlined below. Although not required, several minors are possible for chemistry majors.

**Program Academic Regulations**
A grade of C or higher is required for all major and minor courses.

**Program Degree Requirements**
Alternatives are available to some core and major requirements. Please see a faculty adviser for specific guidelines.
In addition to the Program Degree Requirements, students must fulfill the College of Arts and Sciences Degree Requirements (see section 3030) and the University Degree Requirements (see section 1400).

**Chemistry Courses for Science Majors**
Detailed descriptions of the objectives and prerequisites of each course are available in the Department of Chemistry. The student is urged to consult these descriptions if there is any doubt about requirements or qualifications. Laboratory courses and courses on principles are designed to be mutually reinforcing. The laboratory is the real basis for the science, but the lecture courses are designed to speed the learning process. The two parts are separated only to provide added flexibility in scheduling and to meet individual needs, particularly for transfer students. Great care should be exercised in scheduling one course without the other.

**Chemistry Courses for Non-Science Majors**
Chemistry 1050, 1101K-1102K and 1151K-1152K are of primary interest to students in liberal arts, health sciences, education, business administration, and policy studies. Students in specific programs should consult with an adviser in their program to verify applicability of the above-named courses to their specific needs. These courses cannot be applied to a science degree program in the College of Arts and Sciences.

Minor in Computer Science

Department of Computer Science
Ste. 1450, 34 Peachtree Street Building
404/463-2888
http://www.cs.gsu.edu
Yi Pan, Chair
Anu Bourgeois, Director of Undergraduate Studies
Jaman Bhola, Undergraduate Adviser

Computer science is the systematic exploration of all aspects of computation. Computer science as a discipline seeks to build a scientific foundation for topics such as computer design, computer programming and software, information processing, algorithmic solutions to problems, and the algorithmic process itself. Computer science provides underpinnings for today’s applications in industry, science, government, and business and prepares the foundation for tomorrow’s applications in ubiquitous computing, medical cures for diseases, and instant access to information by everyone.

The B.S. degree program in computer science provides preparation in the fundamental principles and processes of computation and training in applying these principles in application areas in industry, science, government, and business. The student completes a basic group of required courses in the early stages and chooses courses from several concentrations in the later stages to provide for appropriate breadth and depth of knowledge in the discipline. In parallel, the student takes relevant courses in mathematics and physics that complement the study of computer science.

A B.S. degree in computer science provides a good foundation for advanced studies at the M.S. or Ph.D. level as well as for careers in industry, science, government, and business. To plan the major according to particular goals, students are encouraged to consult with an adviser in the department. Majors who are interested in having a paid work experience related to their area of study should contact the university’s Office of Cooperative Education, which coordinates the university’s cooperative education programs.

The courses are structured, and the department enforces the prerequisites for its courses. Students are urged to check and take the prerequisites for computer science courses and any computer science requirement as listed by their major department/school/institute. Refer any questions to that major department/school/institute or to the Department of Computer Science.

Program Academic Regulations
A minimum grade of C is required in all mathematics and computer science courses and all 3000-level or above courses that are used to fulfill the undergraduate programs of this department.

As part of the core curriculum, students must receive credit for the three calculus courses: Math 2211, Math 2212, and Math 2215. (When counting the number of semester hours in Areas A, D, and F, only 3 of the 4 credit hours of each calculus course will be counted in Area A and/or D. The fourth hour, or the “rollover hour,” will be counted in Area F.)
Prerequisites and co-requisites are strictly enforced in all computer science courses. Students must maintain a 2.3 Georgia State University GPA to take Computer Science courses numbered 3000 or above.

Program Degree Requirements
In addition to the Program Degree Requirements, students must fulfill the College of Arts and Sciences Degree Requirements (see section 3030) and the University Degree Requirements (see section 1400).

   Math 2420 and Math 2215 are prerequisites for Math 3030. Phys 2212K is a prerequisite for Phys 3500. A note for computer science majors transferring to Georgia State University: Board of Regents’ rules may have required Georgia State University to award credit for Math 2420, Math 2215, and/or Phys 2212K even though a student did not take this course at the sending institution. Math 3030 and Phys 3500 are demanding courses, and the Department of Computer Science believes that there is almost no chance of passing them if one has not taken the proper prerequisites. Transfer students are strongly advised to take all prerequisites.

Department of English

Matthew Roudané, Chair
Randy Malamud, Associate Chair
Audrey Goodman, Director of Undergraduate Studies
Marti Singer, Director of Lower Division Studies
John Holman, Director of Creative Writing

The Department of English is concerned with the study of language and literature and with the craft of writing considered
integral to education since ancient times. Although the department concentrates on texts written in English by authors from Great
Britain, Ireland, and the United States, it also examines translations of texts from other languages as well as newly emerging
literatures in English from other cultural perspectives. Students may also encounter practices that are not, strictly speaking,
“writing” at all, such as oral compositions, hypertexts, and folk art.

At the freshmen level, all students in the university take courses in the fundamentals of college-level writing and in the
reasoned analysis of texts. Other English courses that form part of the core curriculum provide students with opportunities to
study topics in world literature or surveys of British, American, and World literature.

English majors may concentrate in one of four areas: literature, advanced composition and rhetoric, creative writing, and
secondary English (pre-education). Before choosing their concentrations, all English majors have the opportunity at the sopho-
more level to gain a broad foundation in English and American literature and studies in literature or rhetoric. Then, with the help
of their advisers, majors choose upper-division courses, which allow them to pursue their interests in more depth. Finally,
students study within their chosen concentrations in seminars designed as capstones for the major.
In addition, the department’s joint studies program with the University of Northumbria in Newcastle, England, offers Georgia State University English and history majors the opportunity to complete their degrees with a concentration in British and American Cultures.

On successfully completing their studies, English majors will have acquired a sensitivity to the written word and an appreciation for the creative process. They will have developed their skills in organization, writing, and interpretation. English courses offer students the opportunity to discover their own insights and to articulate them with precision.

Majors who concentrate in literature take a range of courses that afford them opportunities to read poetry, prose, and drama from a variety of historical periods and cultural groups. These literature courses seek to promote students’ verbal acuity and abilities at thoughtful evaluation.

Closely related to the study of literature is the department’s creative writing program. Faculty in this program guide students as they practice and refine their work in the genres of poetry and fiction.

Students who concentrate in advanced composition and rhetoric learn about the history, theory, and practice of writing to specific audiences for particular purposes. In this concentration, students may focus on either historical rhetoric and the teaching of composition or writing within business and technical environments. Courses in this area allow students to explore the history and theory of writing as they apply to the teaching of composition and to writing practices in the workplace.

English majors who wish to teach English in secondary schools combine studies of literature, language, and composition with a senior seminar that combines these areas with pedagogy.

The Department of English offers courses in the related field of folklore. Georgia State University is the only institution in the state offering a wide selection of folklore courses.

A number of courses in the Department of English have an interdisciplinary approach, and several are crosslisted with other units within the university, such as the Department of African-American Studies and the Women’s Studies Institute.

Because of the dynamic and varied nature of our discipline, many of the courses offered (especially on the 4000 level) focus on specific topics not indicated in detail here. Students should inquire in the department office for further information about courses.

**Program Degree Requirements**

All English majors planning to take any upper-division literature courses must fulfill the appropriate three prerequisite courses with a grade of C or higher. All English minors who plan to take British Literature courses must have completed Engl 2120 with a grade of C or higher and all English minors planning to take American literature courses must have completed Engl 2130 with a grade of C or higher.

The department requires a minimum of 27 semester hours in upper-division English, with no more than 11 being transferred credits. The College of Arts and Sciences requires that students pass all upper-division courses in their majors with a grade of C or higher.

In addition to the Program Degree Requirements, students must fulfill the College of Arts and Sciences Degree Requirements (see section 3030) and the University Degree Requirements (see section 1400).

English majors with the secondary English (pre-education) concentration are encouraged to apply to the College of Education Master of Education Alternative Preparation Program (TEEKS) for certification preparation. The Alternative Preparation Program has a master’s degree track of four semesters begun in the summer term and a three-semester certification track also begun in the summer and completed in the spring. Hours earned in the certification track can be applied later toward the completion of the master’s degree.

Students should consult the department for specific information about which courses offered in each two-year sequence will fit the requirements for each concentration.

English majors who want to pursue certification to teach at the middle or secondary school level should seek advisement from the College of Education Office of Academic Assistance (300 College of Education Building, 404/651-2539) and the Middle Secondary Education and Instructional Technology Department (639 College of Education Building, 404/651-2510). Georgia State University offers a Master’s of Education Alternative Preparation degree in Middle Childhood or in English Education that is a four-semester program beginning summer and a Master’s of Education Alternative Preparation Certification Track that is a three-semester program also beginning in the summer. Area H: Minor and Additional Courses

English majors have three options: a minor, a double major, or additional courses in the major. One of these options, combined with electives, will complete their degree requirements. Each student should discuss these options with a department adviser and choose the one that will best serve the student’s long-term goals.

1. Minor: at least 15 semester hours, 9 hours of which must be taken at the 3000 level or above, from one department, school, or institute other than the English department, or in Folklore. The requirements for a minor must be fulfilled in a department, school, or institute that offers a baccalaureate degree. Students interested in an interdisciplinary minor should consult their advisers. The College of Arts and Sciences requires a grade of C or higher in each course counted toward the minor.

2. Double major: course work to satisfy requirements for a second major in addition to English; all college and departmental requirements apply to this as to the first major.

3. Further course work in the major: three courses (9 hours) beyond the nine courses (27 hours) required for the major. Additional courses from departments, schools, or institutes other than the major must be taken to complete a minimum of 120 hours, exclusive of 1000-2000 level physical education. One of these courses must be Lang 2002 (see “Major Courses” above).

Departmental Student Assessment: Senior Exit Portfolio

In order to graduate, English majors must submit an exit portfolio designed appropriate to their concentration. All portfolios include a statement of self-assessment and four to six substantial pieces of writing that demonstrate their skills appropriate to their concentration. Specific information about the exit portfolio for each concentration is available from the department. Portfolios are due at the mid-point of the semester of graduation.
Graduation with Distinction in English

Departmental distinction is separate from the Honors Program. Majors who have an average of at least 3.5 in upper-division English courses are eligible to undertake a project that could lead to graduation with distinction.

Two academic terms prior to the one in which the student proposes to graduate, student and adviser should plan the project. Students may undertake a critical paper on a literary topic, a creative writing project, or a reading list on which they will write an examination paper. A brief proposal (two or three pages) describing the project should be sent to the Events and Awards Committee. More information about graduation with distinction is available in the department.

Minor in English or Folklore

Students who minor in English or Folklore must complete at least 15-18 hours of course work in English or Folklore, including 12 hours at the 3000 level or above (and any prerequisites required). Students taking more than 15 hours in courses in English may count the additional hours toward their electives or may consider completing a double major. (A grade of C or higher is required in all courses counting toward the minor.)

Ethical conduct is a vitally important part of any good life. There is a growing recognition that ethical behavior cannot be assumed. It often requires an education as to how to act ethically. Instead, it seeks to give them the skills and knowledge needed to confront the ethical dilemmas of life and work in a thoughtful and critical manner. The minor is designed to complement any major. Students with a major in business, education, the natural sciences, the social sciences, or the health and human sciences are particularly encouraged to consider a minor in Ethics.

Department of Communication
1040 One Park Place South
404/651-3200
http://communication.gsu.edu
David Cheshier, Chair
Kathryn Fuller-Seeley, Associate Chair
The disciplines of communication are concerned with the processes and effects of human communication in a variety of contexts ranging from interpersonal communication through the mass media. The Department of Communication provides courses of study that develop knowledge and skills in managing face-to-face communication, knowledge about the nature and social functions of the mass media, and the skills necessary for communication careers. Majors are offered in the areas of film and video, journalism, and speech.

The major in film and video is designed to provide the student with the knowledge and skills necessary to understand and apply this complex discipline in both an intellectual and artistic way. This is reflected in the program structure, which includes critical studies (history, theory, industry, and criticism), production (film, video, digital), and writing. Students will cover all of these areas but may specialize in one or two in their work. Internships are available in the Atlanta metro area and beyond.

Credit for special projects and internships is available in all majors and concentrations. Internships enable students who already have completed the appropriate course work and have met departmental eligibility criteria to take advantage of expertise in a variety of professional sectors in the metropolitan area and to tailor programs to their specific career goals.

Program Academic Regulations

All 3000-4000 level Film/Video courses require students to have an overall Georgia State University Institutional GPA of 2.5 prior to enrollment. See the Department of Communication’s website for more information at http://communication.gsu.edu.

Department of Modern and Classical Languages
841 General Classroom Building
404/651-2265
http://www.gsu.edu/languages
Kathleen Hardesty Doig, Chair
Fernando Reati, Associate Chair
Georges Perla, Undergraduate Director

The Department of Modern and Classical Languages serves a threefold purpose: to encourage an appreciation of humanistic values through the study of foreign languages, literatures, and cultures; to teach foreign languages as a means of communication; and to prepare students for academic careers and the opportunities available in the field of international business. As part of a dynamic urban university in a city of growing international awareness and status, the department is fulfilling its responsibility to meet the increasing foreign language needs of the governmental, business, and professional communities.
The department recognizes that an active command of the foreign language and a thorough exploration of the foreign culture form an essential basis for further study in the various areas of its curriculum. To this end, the department sponsors a study-abroad program in Tours (France).

The department maintains a state-of-the-art multimedia Language Acquisition and Resource Center (LARC) with a digital audio laboratory with 50 student computer workstations. The digital lab serves a dual purpose in allowing both independent student access to digitized audio files and interactive software that accompanies the language texts, and also in providing a multimedia environment for teacher-led listening, speaking, and recording activities. In addition to the audio lab, the LARC features a tutoring center and resource library, as well as five stand-alone computers for student use. To assist in the development of the student’s active language skills and to provide added cultural enrichment, the LARC contains a wide range of audiovisual materials, including a growing collection of videos, CD Roms and DVDs.

The department sponsors two Freshman Learning Communities each year. One group is designed for students interested in using their foreign language in international business. The other, sponsored jointly by the Department of Applied Linguistics/ESL, is in Language Studies.

For students who hope to teach at the K-12 levels, the department offers concentrations that lead to certification in French, German, Latin, and Spanish.

For students who view language study as a preparation for a career in the business world, the department has two special programs: a concentration in the business language of French, German, and Spanish; and a practicum in an internationally oriented business or service organization in the metro area for qualified and interested students in their senior year.

The department is also a testing center for diplomas certifying proficiency in business language and procedures. These diplomas are granted by chambers of commerce in various countries.

All foreign language majors are encouraged to consult regularly with their departmental adviser in designing and following a program of study that fits their own career objective and the requirements of their particular concentration.

Program Degree Requirements

In addition to courses in the language major, students are advised to choose courses in other areas that complement their language study. Such courses include other languages, history, philosophy, art and music, business, and education. Faculty advisers in the department are eager to discuss students’ academic plans as they design their course of study.

In addition to the Program Degree Requirements, students must fulfill the College of Arts and Sciences Degree Requirements (see section 3030) and the University Degree Requirements (see section 1400).

Hassan A. Babaie, Undergraduate Director for Geology

Geoscience is the broad study of the earth, including the earth’s interior, its surface, its atmosphere, and its people. Traditionally these subjects have been separated into several fields that include Geology and Geography, and this distinction may still be somewhat appropriate; however, some of the subject matter with which Geography and Geology are concerned can be claimed by both. Taking advantage of this, the Department of Geosciences seeks to make available to students instruction and experiences that exploit the complementary nature of Geology and Geography.

The Department of Geosciences offers the B.A. degree in Geography with five concentrations: General Geography, Human Geography, Physical Geography, Geographic Information Science, and Pre-Education; and the B.S. degree in Geology with three concentrations: General Geology, Environmental Geology, and Earth Science.

3280.10 Geography Program
Jeremy E. Diem, Undergraduate Director for Geography

Geography is the study of the relationships among people, places, society, and the environment. The geography major has been designed to enable the student to develop a broad understanding of social and environmental issues, attain depth in a specialized area within geography, and acquire skills needed to gain employment and carry out lifelong learning. In order to assist students in attaining depth, the following concentrations are offered: human geography, physical geography, and geographic information science. General geography and pre-education are two additional concentration options.
An undergraduate degree in geography affords someone many opportunities for employment in both the public sector and the private sector. Geographers generally find employment as cartographers, city/regional planners, conservationists, environmental managers, environmental regulators, Geographic Information System (GIS) specialists, historic preservationists, location analysts, and as physical scientists working for the government. In addition, with the diversity of their liberal arts training, geographers also qualify for professional management positions as well as more traditional work as teachers.

An undergraduate degree in geography also provides a solid intellectual foundation for people getting advanced degrees in either the social or natural sciences. In addition, to being given substantial flexibility with respect to their selection of undergraduate courses, geography majors are required to take multiple upper-division courses in human geography, physical geography, and geographic information science. Finally, the concentration within geography enables geography majors to begin to find their intellectual niche.

Students interested in any geography course, or in majoring or minoring in the geography program, are invited to contact the geography undergraduate adviser to discuss how the geography program may best help make their college experience positive and productive.

3280.20 Geology Program
Hassan A. Babaie, Undergraduate Director for Geology
Philosopher Will Durant once remarked, “Civilization exists by geological consent, subject to change without notice.” Almost every day we are reminded how large a role geology plays in our lives, whether it be earthquakes, volcanic eruptions, tsunamis, contaminated water supplies, rising oil prices, or the cost of emeralds, sapphires, and gold.

Geology is the science of the earth. Geological research includes studies of minerals and rocks that compose the earth’s surface and interior, the geometry and interrelationships of rock masses, the structural configuration of the earth, and fluids within the earth. Geology also includes the study of modern physical processes and interpretation of the earth’s physical and biological evolution through billions of years of geologic time and into the future. Because of our critical dependence on the earth, appreciation of geology is essential if we are to make informed and enlightened decisions on how to use and protect our planet.

Many career opportunities allow for practical application of geology in industry, consulting firms, and governmental agencies at all levels. Practical and essential applications of geology include development and wise use of water resources, both surface and subsurface; land-use planning for urban, suburban, and rural development; exploration for and development of mineral and energy resources including petroleum; and development of environmentally sound strategies for hazardous waste disposal and treatment. The curriculum leading to the B.S. degree in geology is excellent preparation for graduate work in geoscience and environmental science. For students who are interested in geoscience and environmental science but who intend to pursue graduate or advanced study in other fields, for example environmental law or business, the geology B.S. degree may still be an appropriate choice.

The Department of Geosciences offers the B.S. degree with three concentrations: General Geology, Environmental Geology, and Earth Science. The Environmental and Earth Science concentrations are for students seeking strong preparation for entering the work force with the B.S. degree.

The Environmental concentration emphasizes the study of ground water and the delicate environmental balances of the natural world. The Earth Science concentration emphasizes the measure and graphical depiction of geological features and processes. Both are excellent preparation for jobs in the environmental area and for graduate work in environmental geology. The concentration in general geology is the most traditional of the programs, designed to prepare the student for graduate studies or employment in a wide variety of geoscience areas. It features the greatest flexibility in selection and scheduling of courses. Specific requirements for the concentrations are shown below.

Majors should be aware that there are prerequisites for many geology courses and that several courses are offered only once a year. As soon as they have selected the geology major, students must consult with department advisers to be informed in these matters and to ensure that programs of study accord with their specific career aspirations and needs. The department participates actively in the university’s Cooperative Education Program, whereby the student can work and attend school at the same time or in alternate years. The program enables students to develop long-term career opportunities while in school. Because of the potential complexities of such a program, students are encouraged to seek early advisement in the department. Co-op students also should discuss their academic plans and curriculum options with their employers.

Program Financial Information
Courses with labs and/or field trips require purchase of lab fee cards. A field camp fee is required for Geol 4120/4121.

Program Degree Requirements
All curricula leading to a B.S. degree in geology include the following requirements: Geol 1121K, 1122K, 3002, 4006, 4013, 4015, 4016, 4095, 4120, 4121; Chem 1211K, 1212K. All students must also take one of the following allied science sequences: Biol 1103K/1104K; or Biol 2107K/2108K; or Phys 1111K/1112K; or Phys 2211K/2212K. Note: Physics recommended.

Students in all concentrations must take either the Math 2211/2212 sequence or the following pair of math courses: Math 1070 and 1220. The Math 2211/2212 sequence is strongly recommended for students planning to go to graduate school in geology or any other natural science, or to seek employment where a year of calculus is required or expected. Students are strongly urged to consult with the departmental adviser to determine which pair of mathematics courses would be more appropriate.

In completing their requirements, all students follow a concentration in General Geology, Environmental Geology, or Earth Science. The choice should be based on the student’s interests and expectations, within the context of the concentration differences described above.

In addition to the Program Degree Requirements, students must fulfill the College of Arts and Sciences Degree Requirements (see section 3030) and the University Degree Requirements (see section 1400).

Kathleen Hardesty Doig, Chair
Fernando Reati, Associate Chair
Georges Perla, Undergraduate Director

The Department of Modern and Classical Languages serves a threefold purpose: to encourage an appreciation of humanistic values through the study of foreign languages, literatures, and cultures; to teach foreign languages as a means of communication; and to prepare students for academic careers and the opportunities available in the field of international business. As part of a dynamic urban university in a city of growing international awareness and status, the department is fulfilling its responsibility to meet the increasing foreign language needs of the governmental, business, and professional communities.

The department recognizes that an active command of the foreign language and a thorough exploration of the foreign culture form an essential basis for further study in the various areas of its curriculum.

The department maintains a state-of-the-art multimedia Language Acquisition and Resource Center (LARC) with a digital audio laboratory with 50 student computer workstations. The digital lab serves a dual purpose in allowing both independent student access to digitized audio files and interactive software that accompanies the language texts, and also in providing a multimedia environment for teacher-led listening, speaking, and recording activities. In addition to the audio lab, the LARC features a tutoring center and resource library, as well as five stand-alone computers for student use. To assist in the develop-
ment of the student’s active language skills and to provide added cultural enrichment, the LARC contains a wide range of audiovisual materials, including a growing collection of videos, CD Roms and DVDs.

The department sponsors two Freshman Learning Communities each year. One group is designed for students interested in using their foreign language in international business. The other, sponsored jointly by the Department of Applied Linguistics/ESL, is in Language Studies.

For students who hope to teach at the K-12 levels, the department offers concentrations that lead to certification in French, German, Latin, and Spanish.

For students who view language study as a preparation for a career in the business world, the department has two special programs: a concentration in the business language of French, German, and Spanish; and a practicum in an internationally oriented business or service organization in the metro area for qualified and interested students in their senior year.

The department is also a testing center for diplomas certifying proficiency in business language and procedures. These diplomas are granted by chambers of commerce in various countries.

All foreign language majors are encouraged to consult regularly with their departmental adviser in designing and following a program of study that fits their own career objective and the requirements of their particular concentration.

Program Degree Requirements

In addition to courses in the language major, students are advised to choose courses in other areas that complement their language study. Such courses include other languages, history, philosophy, art and music, business, and education. Faculty advisers in the department are eager to discuss students’ academic plans as they design their course of study.

In addition to the Program Degree Requirements, students must fulfill the College of Arts and Sciences Degree Requirements (see section 3030) and the University Degree Requirements (see section 1400).

The undergraduate Certificate in Gerontology gives students throughout the university the option of combining their major field of study with an emphasis in gerontology. It is designed to prepare students for: (1) admission to graduate and professional schools, such as medicine, nursing, psychology, public administration, sociology, and social work, in which they plan to pursue a specialization in gerontology, or (2) entry-level professional jobs in direct services to older persons in nutrition programs, senior centers, volunteer programs, nursing homes, and residential and assisted living facilities.

The curriculum provides an overview of the biological, psychological, and sociological aspects of aging; health care and social service programs for older persons; and contemporary aging policy issues. Through both course work and internship experience, students gain specialized knowledge and skills needed to live and work in today’s aging society.

Currently, 25 faculty members from business to law, the social and biological sciences, and the health and human service professions are associated with the Gerontology Institute. They bring a diverse, interdisciplinary perspective to the institute’s instructional programs and are engaged in a wide range of research in the areas such as long term care, assisted living, ethnicity and aging, learning and memory, retirement, aging among minorities, intergenerational care giving, and marketing to seniors.

**Program Admission**

To be admitted to the undergraduate Certificate in Gerontology, students must be regularly enrolled in a degree program at Georgia State University. Historians study various aspects of humanity’s recorded past. Some historians explore the rise and fall of empires, while others describe the everyday lives of men and women. They are interested in every period of the past and all parts of the world.
Historians also examine the principles and theories that influence the writing of history. They seek to understand the forces that have structured human life and the ideas that have shaped the way people perceive and experience their worlds. Historians are concerned with change and continuity within societies and interactions among cultures. Historians pay particular attention to the effect of perspectives and values because their discipline involves the interpretation of findings, not just the collection of facts. History can teach us many lessons, not simply about our past but also about the paradoxes and potentials of our present.

The Department of History offers a wide range of courses in African, Asian, European, Latin American, Middle Eastern, and United States history. Arranged in three levels—introductory, intermediate, and advanced—these courses afford students an opportunity not only to become familiar with a body of historical knowledge but also to enhance their skills as readers, discussants, writers, and researchers. Because it emphasizes analytic and critical thinking, history prepares students for further professional training in education, international studies, journalism, law, politics, and public policy, and for all manner of careers. All students can benefit from the insights history provides into the human condition.

Program Degree Requirements

Students should complete the freshman courses in history in the core curriculum and Hist 3000 (Introduction to Historical Studies) before enrolling in other history courses numbered 3000 and above. In all lower-division history courses the department requires that majors attain a minimum grade of C.

The department requires a total of 30 hours in upper-division history. At least one course must be taken from each of the areas of American, European, and African/Asian/Latin American/Middle Eastern History. All majors must take Hist 4990 (Historical Research) after completing Hist 3000 and at least four other upper-division courses. No more than 15 hours of upper-division history may be transfer credits.

In addition to the Program Degree Requirements, students must fulfill the College of Arts and Sciences Degree Requirements (see section 3030) and the University Degree Requirements (see section 1400).

B.A. in History

Area F: Courses Appropriate to the Major Field (18)

1. Select one (whichever is not taken in Area E). (3)
   - Hist 1111 Survey of World History to 1500 (3)
   - Hist 1112 Survey of World History since 1500 (3)
   - Hist 2110 Survey of United States History (3)

2. Foreign Language (3) The Department of History recommends that all majors complete the foreign language sequence Lang 1002, 2001 and 2002. (See “Foreign Language Requirement for B.A. and B.I.S. Majors,” previously described.)
   Required Course:
   - Lang 1002 Elementary Foreign Language II (3)
   Recommended Course (listed as an elective):
   - Lang 2001 Intermediate Foreign Language I (3)

3. Electives (12)

Area G: Major Courses (30)

Unless otherwise specified, Hist 1111, 1112, and 2110 are prerequisites for all advanced course work in history. History majors may complete no more than eight hours of 3000-4000 level history courses before completing History 3000.

A minimum total of 30 hours must be taken from courses at the 3000-4000 level, and must include one course from each of the following:

1. Hist 3000 Introduction to Historical Studies (4) (should be taken first among upper-division courses)
2. U.S. History (one course)
3. European History (one course)
4. African, Asian, Latin American, or Middle Eastern History (one course)
5. Hist 4990 Historical Research (4) (Prerequisite: Hist 3000 and at least four other upper-division courses.)

Pre-Education Concentration

The Department of History offers a pre-education track for those students who plan to teach at the middle school or high school level. Students have the opportunity to take a variety of courses in U.S., European, and world history, which will provide the analytic and writing skills, the global perspective, and the historical content that they will need to teach in the public schools. Along with the B.A. in History, students earn a certificate in Pre-Education Broad Field Social Science before they enter the Alternative M.Ed. Program in Social Studies Education in the College of Education at Georgia State or a similar program elsewhere to complete the requirements for state certification.
Students in the pre-education track will take seven history courses at the 3000-4000 level distributed as follows:

1. Hist 3000 Introduction to Historical Studies (4) (should be taken first among upper-division courses).
2. Two courses in U.S. history. The department strongly recommends that one of these be History 4310 (Georgia).
3. One course in European history.
4. One course in African, Asian, Latin American, Middle Eastern, or world history.
5. Two electives in history at the 3000-4000 level.

Students in the pre-education track will also complete course work in three of the following allied fields:

1. Political Science
2. Geography
3. Economics
4. One of the behavioral sciences: anthropology, sociology, or psychology

History as an allied field consists of three courses at the 3000-4000 level: one in U.S. history, one in European history, and one in African, Asian, Latin American, or Middle Eastern history.

Area H: Minor and Additional Courses

1. History majors must select a minor consisting of at least 15 hours in one department other than history, including at least nine hours at the 3000 level or above. The requirements for a minor must be fulfilled in a department that offers a baccalaureate degree and with courses at the 3000-4000 level, unless the courses are otherwise specified by the minor-granting department/school/institute. A grade of C or higher is required in all minor courses.
2. Additional courses from departments other than the major must be taken to complete a minimum of 120 hours, exclusive of 1000/2000-level physical education or military science. The department strongly recommends that majors take the fourth semester of a foreign language: Lang 2002.

Minor in History

Students who wish to minor in history must take 15-18 hours in history courses, including at least three courses at the 3000 level or above. Students taking more than 15 hours in courses in history may count the additional hours toward their electives or may consider completing a double major. A grade of C or higher is required in all courses counting toward the minor.

3320 Honors Program

Suite 428, University Center
404/651-2924
http://www.gsu.edu/honors/

Robert D. Sattelmeyer, Director
April Lawhorn, Academic Specialist

Purpose

The Honors Program provides a unique educational experience for students who are willing to accept the challenge to excel. In this program, students gain the advantage of small classes and close contact with outstanding faculty members. Honors sections of a number of regular courses, many of which meet core curriculum requirements, are offered throughout the academic year. In addition, students in the Honors Program can enroll in special interdisciplinary courses, help design a colloquium on a topic of their choice, and, at the upper division, research and write an honors thesis. Through honors work, students can achieve honors recognitions which are noted on their diplomas and transcripts, and they can pursue unusual opportunities to enrich the quality of their education and enhance their chances of future success.

Admission

The Honors Program staff welcomes the opportunity to discuss the program with any interested student. Normally, entering freshmen should have a 3.5 high school grade-point average and a combined SAT score of 1200 with a minimum of 500 on both verbal and math sections. High school students who are jointly enrolled will also be considered. Typically, a student already enrolled at the university should have a cumulative grade-point average of at least 3.3 based on a minimum of 12 credit hours completed at the university. Normally, a transfer student should have an overall grade-point average of at least 3.3 based on a minimum of 12 credit hours (or the equivalent) of college work. Students who do not meet these academic requirements in full but wish to pursue honors work should contact the Honors Program staff. An interview with a member of the staff is required for admission into the program.
Honors students are invited to use the student lounge and the computer lab, located in the Honors suite, to apply for Honors Program Alumni Association Scholarships (see the General Scholarships section of this catalog), and to enroll in the Honors Freshman Learning Community.

**One-Semester Registration**

Any student in the university with a 3.0 or higher GPA may take one honors course without being admitted to the program. Authorization for all honors courses must be obtained prior to registration from the Honors Program Office.

**Scholastic Standard**

A student in the Honors Program will be required to maintain at least a 3.3 cumulative grade-point average in order to take honors courses. A student whose average falls below 3.3 will be given up to three academic terms in which to attain a 3.3 average again, at which point the student may continue to take honors courses.

**Active-Inactive Status**

Although there is no minimum number of courses required to remain enrolled in the Honors Program, students who are in good academic standing in the program (see above) and who have taken at least one honors course in the past three academic terms (including summer session) will be considered active in the program. Students newly admitted to the program will be counted as active during their first four academic terms. All others will be considered inactive.

**Honors Recognitions and Requirements**

Students may choose to work toward any of three formal recognitions. These are recorded on transcripts and on diplomas with seals, and acknowledged in Honors Day proceedings. Honors recognitions require 3.3 grade-point averages overall and in honors course work. No courses with grades of D or F may be applied toward the satisfaction of the requirements for honors recognitions. Each of the three honors recognitions require the student to successfully complete a total of two honors colloquia (Hon 2260/3260, 1-3 semester hours) and/or forums (Hon 3570, 1-3 semester hours).

- **General Honors:** Granted to students who successfully complete at least 12 credit hours of course work in lower-division honors classes at Georgia State University, plus two honors forums or colloquia. The 12 hours of lower-division course work must be in classes selected from at least three major areas of study with no more than two classes in any one area (see Honors Program Office for listing of major areas).

- **Advanced Honors:** May be granted to students who complete at least 12 semester hours of honors course work at the upper division, plus two honors forums or colloquia. A maximum of three semester hours of thesis course work, a maximum of nine hours of honors dimensions, and a maximum of nine semester hours of graduate courses may be applied toward this recognition. Courses that are applied toward Advanced Honors may not be applied toward Research Honors.

- **Research Honors:** May be granted to students who complete at least 12 semester hours of honors course work at the upper division, which includes at least six semester hours and not more than nine semester hours of honors thesis course work, plus two honors forums or colloquia. A maximum of six semester hours of honors dimensions and six semester hours of graduate courses may be applied toward this recognition. Courses that are applied toward Research Honors may not be applied toward Advanced Honors.

The disciplines of communication are concerned with the processes and effects of human communication in a variety of contexts ranging from interpersonal communication through the mass media. The Department of Communication provides courses of study that develop knowledge and skills in managing face-to-face communication, knowledge about the nature and social functions of the mass media, and the skills necessary for communication careers. Majors are offered in the areas of film and video, journalism, and speech.

Journalism is the study of the collection, evaluation, and dissemination of current information and opinion. The journalism major seeks to prepare students for newspaper and magazine careers (print journalism), radio and television careers (telecommunication), or public relations careers. In addition, the courses in journalism are designed to be useful electives for students planning to enter other vocations who wish to become media-literate individuals.

Credit for special projects and internships is available in all majors and concentrations. Internships enable students who already have completed the appropriate course work and have met departmental eligibility criteria to take advantage of expertise in a variety of professional sectors in the metropolitan area and to tailor programs to their specific career goals.

Program Academic Regulations

All 3000-4000 level journalism courses (excluding JOUR 3500) require students to have an overall Georgia State University Institutional GPA of 2.5 prior to enrollment. See the Department of Communication’s website for more information at http://communication.gsu.edu.

3370 Language Studies

Programs Offered:
Bachelor of Interdisciplinary Studies with a Concentration in Language Studies

This program provides the opportunity for students to explore the field of linguistics from an interdisciplinary perspective. The framework is based on the study of the fundamentals of linguistic inquiry and discourse. An individual program can be designed around advanced topics in general linguistics, a second and third language, the English language, language acquisition, or the field of communication. A major in Language Studies can prepare students for graduate work and careers in many areas, among them linguistics, second/foreign language teaching (including English as a Second Language), communication, anthropology, as well as neighboring disciplines such as psycholinguistics and sociolinguistics. Note: Students desiring certification in a foreign language or ESL should contact the respective departments for information on those programs. Please contact Dr. Sara Weigle, faculty adviser for the program, at 404/651-3223 or sweigle@gsu.edu for further information.

Program Admission
A 2.0 Georgia State University GPA is required in order to apply to the program. Application materials can be obtained from the Office of Academic Assistance, 724 General Classroom Building, 404/651-2291. Students should apply to the program by the time they have earned 42 credit hours to avoid a delay in graduation.

Program Degree Requirements
Please refer to the Bachelor of Interdisciplinary Studies section 3030.50 of this catalog for academic regulations for this program.

All freshmen entering Georgia State University are required to take either the College Entrance Examination Board Scholastic Aptitude Test (SAT) or the assessment of the American College Testing Program (ACT). The results of the test, performance in and time of previous mathematical education, and the student’s intended major or career goals are all factors to be considered when registering for any mathematics course. In order to register for courses numbered 1111 or higher, students must make an appropriate score on the mathematics placement test (see Section 1410.10) or have other appropriate prerequisite work. Therefore, students are urged to check the prerequisites for mathematics courses, and the mathematics requirement as listed by their major department/school/institute. Refer any questions to that department/school/ institute or to the Department of Mathematics and Statistics.

Mathematics is one of the great unifying themes in our modern culture. It is a language, a science, an art form, and a tool of tremendous power. The Department of Mathematics and Statistics, in its courses for both majors and non-majors, seeks to introduce students to this vast area of knowledge and to show them how mathematics can be used to solve problems.

The B.S. degree program in mathematics prepares a student for positions in business, industry, and government; a career in the teaching of mathematics at the secondary level; or further study in mathematics or statistics leading to graduate degrees.

Six concentrations are offered within the B.S. degree in mathematics. The concentration in actuarial science prepares a student to work as an actuary. The concentration in computer information systems prepares students for work in the field of management information systems. The concentration in computer science provides education in more scientific aspects of computing. The concentration in managerial sciences provides training in management modeling, problem solving, and computer-
assisted decision support/expert systems technologies. The concentration in secondary school teaching prepares a student for high school teaching in mathematics. Finally, the concentration in statistics prepares students for work as applied statisticians.

Guidelines for minors in the Department of Mathematics and Statistics are given after the program descriptions.

In addition to immediate employment, there are opportunities for good students to pursue further study at the graduate level in mathematics, statistics, and other fields.

In 1978, the department initiated a cooperative education program with International Business Machines, Inc. Over the years, the program has expanded to include many other firms. Hundreds of majors have benefited from a co-op experience. Majors have an opportunity for paid work experience related to their area of study. They may also make important contacts that may lead to full-time employment after graduation. The Office of Cooperative Education has been established to coordinate the university’s cooperative education programs.

Majors are asked to consider carefully the career objectives they wish to pursue after graduation. A particular career objective may suggest a special choice for the minor or concentration that would prepare one for that career. It also might suggest that a co-op experience would be useful. Faculty who serve as academic advisers for majors can discuss choices and concentrations that are available to majors.

Program Financial Information

There are no extra fees, scholarships or other expenses outside of regular Georgia State University fees applicable to a B.S. degree in mathematics, other than those associated with teacher preparation (see Sections 1605 and 1610).

Program Academic Regulations

Students must earn a grade of C or higher in all mathematics courses, including those in the core. There are course GPA requirements for all teacher preparation programs that apply to the secondary school teaching concentration (see Section 1600 for specifics).

Program Degree Requirements

As part of the core curriculum, students must receive credit for the three calculus courses Math 2211, Math 2212, Math 2215, and Discrete Mathematics (Math 2420). (When counting the number of semester hours in Areas A, D, and F, only 3 of the 4 credit hours of each calculus course will be counted in Area A and/or D. The fourth hour, or the “rollover hour,” will be counted in Area F.)

In addition to the Program Degree Requirements, students must fulfill the College of Arts and Sciences Degree Requirements (see section 3030) and the University Degree Requirements (see section 1400).

**Secondary School Teaching Concentration**

This program is currently in the process of deactivation and the following program is being provided for informational and advisement purposes only for students currently enrolled in the program. No new students will be admitted to this program effective fall semester 2006.

The Department of Mathematics and Statistics offers the Bachelor of Science degree in mathematics with a concentration in secondary school teaching. One of the assumptions about teaching upon which the program is based is that an effective learning environment requires mutual respect between teacher and student. Another assumption is that effective teaching makes use of a variety of teaching techniques, including technology, and actively involves students in the learning process. The theme of the program is understanding, enthusiasm, and communication.

The secondary school teacher of mathematics has the important task of introducing students to many areas of mathematics. This task requires the teacher to have a broad education in the liberal arts; a strong background in mathematics, including algebra, analysis, and geometry; and appropriate professional education courses. Students must apply and be accepted into Teacher Education before being allowed to register for the upper-level education courses (see Section 1600 Teacher Education). A minimum overall GPA of 2.5 is required. In addition, students will need to take the Praxis I exam or have sufficient SAT scores to exempt the Praxis.

Students must receive credit for the calculus courses Math 2211, 2212, and 2215, and for Math 2420, CSc 2010, and 2310 in the core curriculum Areas A-F or as electives.

Statistics Concentration

Statisticians give advice on the statistical design of experiments, conduct surveys, and analyze data. They use computers, often writing their own programs. They collaborate with specialists in fields such as biology, health sciences, medicine, economics, marketing, psychology, and sociology as well as in business and industry. They are employed in business, industry, and government. The Department of Mathematics and Statistics offers the Bachelor of Science degree in mathematics with a concentration in statistics. Students in this program should select a minor from those fields to which statistics can be applied. Such a selection is called a related field and must be pre-approved by a departmental adviser. Examples of seven related fields are shown in section 4.

Students must receive credit for the calculus courses Math 2211, 2212, and 2215 and Math 2420, for CSc 2010, and CSc 2301 or CSc 2310 in the core curriculum Areas A-F or as electives.

3420 Military Science and Leadership

Programs Offered:

Minor in Advanced Leadership and Management
Concentration in Human Behavior
Concentration in Military History
Concentration in Management
Concentration in National Security Studies

Department of Military Science and Leadership
120 Courtland Building
404/651-2275
http://www.gsu.edu/rotc
Kevin S. Anderson, Chair

The Department of Military Science and Leadership, most often referred to as the Reserve Officer’s Training Corps (ROTC), offers an introduction to the management opportunities available in the United States Army, Army Reserve, and Army National Guard.

The basic course (MSL 1000 and 2000 series) provides college freshman and sophomores a unique and challenging curriculum, and it requires no obligation to military service. The advanced program (MSL 3000 and 4000 series) is designed for students with two years of undergraduate or graduate study remaining. The upper-level program requires service, only under contract, an obligation for the student to serve in the Army National Guard, Army Reserve, or on Active Duty as a commissioned officer. The summer between MSL 3000 and 4000-level classes, students will attend a 32-day leadership internship at Ft Lewis, Washington.
that certifies their capability to serve as an officer in the Army National Guard, Army Reserve, or on Active Duty. Entering ROTC can be personally, physically, and financially rewarding. Stipends of $450-500 per month as well as scholarship opportunities are available.

An interdisciplinary minor in advanced leadership and management is designed specifically for those individuals who are planning a career in the U.S. Army as commissioned officers. This minor may not be used as a substitute for any minor required by a student’s academic major and cannot be considered as a student’s area of concentration. The undergraduate minor in advanced leadership and management is intended for any student whose major does not require a specific minor, thereby permitting this minor to fulfill that requirement. Students who complete the minor will be prepared for military service and positions of higher responsibility and leadership within the civilian work place.

The mission of the School of Music is to provide a comprehensive, rigorous, and innovative academic program that is consistent with the urban context and mission of Georgia State University and that serves the pursuit of artistic, professional, and scholarly excellence through experiences of lasting value for all stakeholders.
The School of Music meets this mission by providing all university students with courses designed to help them understand and enjoy music, and by offering Bachelor of Music and Bachelor of Science degrees that prepare students for careers in music or further study at the graduate level. The undergraduate degrees in music include specializations in performance (brass, percussion, strings, woodwinds, keyboard, guitar, and voice), music education, music composition, jazz studies, music recording technology, and music management. In addition to courses and degree programs, the School of Music offers concerts, recitals, lectures, and workshops that are open to all students and the community.

The School of Music is an accredited institutional member of the National Association of Schools of Music. It participates in the Honors program and offers Honors courses in music. The School of Music also offers scholarships that are awarded to students based on their academic achievement and musical merit.

The School of Music is located in the historic Fairlie-Poplar District in downtown Atlanta. Four buildings comprise the Music Complex: the Haas-Howell Building at 75 Poplar Street; the Rialto Center for the Performing Arts at 80 Forsyth Street; the Standard Building at 92 Luckie Street; and the Aderhold Learning Center at 60 Luckie Street, which houses instrumental and choral rehearsal halls. Some classes are held in the Arts and Humanities Building at 10 Peachtree Center Avenue. Chamber music, faculty, and student recitals are presented in the Kopleff Recital Hall in the Arts and Humanities Building. Large ensembles perform throughout the academic year in the Rialto Theater, an 850-seat, state-of-the-art performance venue located in the heart of downtown Atlanta.

Every student registering for an Applied Music course will be charged an Applied Music fee, in addition to matriculation and tuition fees and
music program fees. For each 1000 or 6000-level Applied Music course, a $75.00 fee will be charged. For all other Applied Music courses, a $150.00 fee will be charged.

**Program Academic Regulations**

Undergraduate music degrees (B. Mu and B.S.) require students to take general education courses in the sciences and humanities (see section listing general degree requirements), courses in musical foundations, and courses in a concentration of their choice. Foundation courses include music performance (described below under “The Applied Cluster”), piano, music theory, and music history/literature. In addition to foundation courses, students must complete courses in a concentration. Available concentrations for the B. Mus degree include performance (voice, guitar, keyboard, and orchestral instruments), composition, music technology (recording), music education, and jazz. The music management curriculum is available only through the B.S. degree. Some concentrations have specializations or emphases that are detailed below.

**Advisement**

Students are expected to meet with their faculty advisers every semester of residence. At first, a student should meet with the associate director of the School of Music to receive advisement. Once a decision has been made regarding a student's choice of concentration, the student will be assigned a faculty adviser. Thereafter, the student will meet with this adviser each semester. Should a student decide that a change of concentration is desired, the student should apply for such a change with the associate director of the School of Music.

**Explanation of Applied Music Levels**

Applied music consists of individual or small-group performance instruction in a student’s principal performing medium (voice, piano, trumpet, flute, etc.). All music majors must study applied music as part of their degree programs.

- **1000 level**: Introductory. May be used by students who are admitted to the music degree program but who wish to study in a secondary area. With permission, introductory level courses may also be used by music minors or approved non-majors. Is not applicable to degree requirements in one’s principal performing medium. Authorization is required. One credit hour per semester; one half-hour lesson each week.

- **2000 level**: Lower level. For entering freshmen and sophomores in all music concentrations. One or two credit hours per semester; one hour lesson per week.

- **3000 level**: Concentration. Required of juniors and seniors whose concentration is not in performance. One or two credit hours per semester; one-hour lesson per week.

- **4000 level**: Major. Required of all juniors and seniors with a concentration in performance or jazz studies; juniors and seniors in the composition concentration are required to enroll at this level for their applied composition studies. Two or three credit hours per semester; one-hour lesson per week.

**Musical Ensembles**

Musical ensembles (choral groups, jazz ensembles, orchestra, and wind ensembles) are open to all Georgia State University students by audition. Non-music majors should contact the School of Music or the appropriate instructor for information on scheduling an audition.

Every student who is registered for applied music is required to enroll in a conducted ensemble. String, woodwind, brass, and percussion students are generally assigned to symphonic band, symphonic wind ensemble, and/or orchestra. Voice and keyboard students typically enroll in choral society, university singers, or women’s chorus. A music student may be required to perform in more than one ensemble. Factors considered in making assignments will include the specific needs and abilities of the student and the requirements of the various ensembles.

All music majors (except music education) are required to complete a minimum of eight credit hours of ensemble. Only one credit hour of ensemble per semester may be applied to the total. Assignments to specific ensembles are made each fall semester through “pool” auditions, which are required for all students in the school. Students are required to perform in those ensembles to which they are assigned.

**The Applied Cluster**

To ensure comprehensive development in performing, all music majors are required to register for and participate in the following performing activities: a) private study (applied music); b) chamber music/performance laboratory; and c) large conducted ensemble, i.e., wind ensemble/band, choir/chorus, or orchestra (jazz band may count 4 semesters only for students in jazz studies concentration; vocal jazz does not count as a large ensemble). Students may be required to participate in studio classes as scheduled by private instructors. In addition, students must attend labs/master classes as required by studio instructors. Some programs require that students register for credit in chamber music. Those not required to register for credit must register for chamber music under Mus 4010. These activities are collectively known as the Applied Cluster. Students must register for large ensemble and chamber music or performance laboratory during each semester of applied music study.
In general, music majors must register for the applied cluster for eight academic terms. The exceptions to this policy are in the music education and music management concentrations.

**Concert Attendance (Mus 1100)**

Concert attendance (Mus 1100) is required of all music majors. Although the course shows on a student’s transcript, it carries zero credit; there is no fee for concert attendance. To fulfill the requirements for the Bachelor of Music degree, students must receive a grade of “S” for the number of semesters of Mus 1100 required by their concentration. Transfer students must fulfill Mus 1100 for the number of semesters required to earn their degree, to a maximum of six. Credit may be granted for documented concert/recital attendance requirements at prior institutions.

**Program Degree Requirements**

In addition to the Program Degree Requirements, students must fulfill the College of Arts and Sciences Degree Requirements (see section 3030) and the University Degree Requirements (see section 1400).

Additional electives and requirements as stipulated in information provided by the Associate Director’s office and the student’s academic adviser in the School of Music.

**Selecting and Applying to a Concentration**

Undergraduate students who plan to complete a Bachelor of Music degree in any of the following concentrations offered by the school must pass the Qualifying Exam for entrance to these concentrations during their fourth semester of applied study: Performance, Theory, Jazz Studies, Recording Technology, Composition, and Music Education.

Requirements for each concentration are available from the School of Music office. Students wishing to become candidates for music management degrees should consult with their music management program adviser regarding concentration requirements.

**Pre-Education Concentration**

The School of Music offers a concentration in music education to prepare students for teaching in elementary and secondary schools in the specialties of choral/general music and instrumental music.

In addition to the general requirements for entry into teacher education (“Teacher Preparation” section 1600), students who plan to concentrate in music education must meet the following requirements of the School of Music: they must be interviewed by the music education faculty, who will evaluate (1) their statement of career goals and philosophy of teaching, (2) academic and musical achievements, and (3) personal characteristics.

Students who meet the above requirements may enroll in music education methods courses at the 3000 and 4000 levels. To be retained in the music education concentration, students must maintain musical and academic standards, which consist of grades of B or higher in all music education methods courses and proficiency in keyboard, guitar and, depending on the specialization, voice, brass, woodwind, strings or percussion.

Prior to student teaching, students will be evaluated by the faculty to determine their qualifications for student teaching. These qualifications are (1) an overall GPA of 2.5 or above, (2) a GPA of at least 2.5 in all music courses, (3) grades of C or higher in all of the courses in the concentration, and (4) grades of B or higher in all music education methods courses. In addition, students must have demonstrated their teaching competence as determined by the music education faculty and must demonstrate a record of professional attributes and personal behaviors suitable for placement in a school with children.

**Application for Entry to Teacher Education**

Music education majors must file a formal application for entry into teacher education using the form available in the College of Education’s Office of Academic Assistance (also available at http://education.gsu.edu/aae/index_Under.htm) or supplied by the music education faculty. Students must apply for entry into teacher education concurrent with their applications for practicum/internship (MUS 4260 or 4310). This normally occurs upon completion of 60 hours of course work, including courses required in Areas A through D and EDUC 2110. An overall cumulative GPA of 2.50 is required, and students must have passed the GACE I (a test of basic reading, writing, and mathematics skills) and Regents’ exams.

Minor in Music

The School of Music offers minors in music and music management. A background in music is helpful but not necessary. Each minor requires 18 semester hours of course work in music, 9 of which must be at the 3000-4000 level. Courses include music theory, music history, performance, and electives. Certain courses entail prerequisites that may not count toward the 18 credits required for the minor. Students interested in either minor should contact the School of Music main office at 404/651-3676 for further information. An advising appointment and approval by the associate director of the School of Music are required before students may accumulate credits toward the minor.

3440 Philosophy

Programs Offered:
Bachelor of Arts in Philosophy
Concentration in Pre-Law
Minor in Philosophy

Department of Philosophy
34 Peachtree St., 11a Floor
404/651-2277
http://www.gsu.edu/philosophy
George Rainbolt, Chair
Eddy Nahmias, Director of Undergraduate Studies

Philosophy is the study of the principles of knowledge and valid reasoning; the foundations of morality, law, and society; and the fundamental structures of reality. It is an attempt to understand the basic commitments concerning human beings, God, and nature that guide the personal and professional lives of people and that constitute an essential aspect of human culture. It is also a search for critical tools to evaluate these commitments and to ensure objectivity, disciplined insight, and rational argument.

The Department of Philosophy offers two undergraduate degree programs, the Bachelor of Arts in Philosophy and the Bachelor of Arts in Philosophy with a Pre-Law Concentration. Majors are urged to consult with their advisers in order to prepare the course of study most appropriate to their individual interests and needs. All majors planning to attend graduate school
should consult closely with their advisers concerning courses appropriate for their anticipated graduate programs. Philosophy minors and all students intending to take departmental courses are invited to discuss their goals and needs with members of the Department of Philosophy. The department maintains an extensive website, http://www.gsu.edu/philosophy.

Major in Philosophy

Philosophy is an appropriate study for anyone wishing a broad liberal education that teaches one how to think and that promotes self-awareness. It is particularly appropriate as a major or minor for those contemplating a career in law, administration, public service, politics, business, education, or religion. Students in other fields are encouraged to consider the possibility of a double major with philosophy.

The Department of Philosophy offers a wide variety of courses especially developed for students in business, health sciences, education, and public and urban affairs, as well as for those who pursue a scientific or humanistic career. For those studying the humanities or the sciences, philosophy provides invaluable critical skills, insight into methodological presuppositions, and an appreciation of the intellectual currents that have shaped history.

A special component of the department’s program is a series of courses in applied philosophy, the study of which provides skills having practical application in one’s personal, social, and professional life. Courses in this area include philosophy of law, biomedical ethics, and business ethics.

Major in Philosophy with a Pre-Law Concentration

The study of philosophy is excellent preparation for law school. The critical thinking skills, clarity in writing and argumentative rigor required in philosophy provide students with the tools they need to be successful in law school and as lawyers. Moreover, philosophy majors have had traditionally the highest average scores on the LSAT and the highest admission rates to law school of any major. (For this data, see http://www.gsu.edu/philosophy, and click on “Major.”) Students interested in the major in philosophy with a pre-law concentration, should consult with the Department’s pre-law adviser, Dr. Andrew I. Cohen, aicohen@gsu.edu.

Program Academic Regulations

A 2000 or 3000-level philosophy course is a prerequisite for all 4000-level philosophy courses. Majors are urged to take Phil 2010 and Phil 2050 before taking 4000-level courses.

Program Degree Requirements

In addition to the Program Degree Requirements, students must fulfill the College of Arts and Sciences Degree Requirements (see section 3030) and the University Degree Requirements (see section 1400).

All degree programs described below are built on a core of 22 semester hours of physics numbered 3400 or above and establish a strong background in mathematics by providing nine semester hours of 3000 and 4000-level courses. The standard program is designed to prepare the student for graduate school or immediate employment upon graduation. Students selecting the standard program must complete 15 semester hours of physics and mathematics beyond the core set of physics and mathematics courses listed below. As an alternative to the standard program, courses in one of several specific areas of concentration may be chosen as described below. The available areas of concentration are applied physics, astronomy, pre-medicine, biophysics, geology, and computer science.

A central objective of Georgia State University is that all graduates from its programs will be proficient in writing, critical and analytical thinking, and use of information resources. In support of this objective, the Department of Physics and Astronomy explicitly incorporates activities to develop these skills as appropriate in each course.

To schedule an effective program of study, it is very important that all students intending to major in physics consult with the physics faculty adviser as soon as possible. Physics majors should pay special attention to the early completion of the mathematical requirements if they are to complete their physics requirements during the usual four-year span. The first calculus course should be taken during the freshman year, and the second and third calculus courses should be completed during the sophomore year. The department recommends that General Chemistry I and II be taken during the freshman year. The beginning physics sequence (Physics 2211K-2212K) should be completed before the end of the sophomore year. Students who enter the physics major after completing a non-calculus level elementary physics sequence should consult with their departmental adviser on the best method of preparing for more advanced courses in physics.

The degree programs described below do not require a foreign language. However, the department recommends that students continue their high school experience to a level of competency equivalent to Georgia State’s 1002 level or higher.

Program Degree Requirements

In addition to the Program Degree Requirements, students must fulfill the College of Arts and Sciences Degree Requirements (see section 3030) and the University Degree Requirements (see section 1400).

Students taking more than 15 semester hours in these courses may count the additional hours toward their electives or may consider completing a double major. A grade of C or higher is required in all courses counting toward the minor.

**3460 Political Science**

**Programs Offered:**

- Bachelor of Arts in Political Science
  - Concentration in General Political Science
  - Concentration in International Affairs
  - Concentration in Pre-Law
  - Concentration in Pre-Education
- European Union Studies Certificate
- Minor in Political Science
Political science is the study of “who gets what, when, and how” in the distribution of goods and values in society and in groups. Specifically, political scientists study the determinants of such distributions, including political parties and voters, public opinion, interest groups, bureaucracies and administrative behavior, public law, international relations, international law and organizations, national security, intergovernmental relations, political behavior, political philosophy, comparative politics, public policy, and conflict.

Students may specialize in any of the five fields of the discipline: American politics and government, comparative politics, international politics, political theory, and public policy and administration. The department also provides specific concentrations for majors and minors in pre-law and in international affairs. The department sponsors intercollegiate academic teams for Mock Trial, Model United Nations, and Model Arab League. The department sponsors student honor societies and clubs in pre-law, international relations, and political science. In addition, the department provides advisement for pre-law students.

The proximity of Georgia State University to the center of government for the Southeast and the State of Georgia and its location in an international city of business, communication, and transportation provide unique opportunities for students to observe and participate in government and politics. For example, many qualified students serve as interns as part of their academic program.

3470 Pre-Law Programs

The College of Arts and Sciences offers four different pre-law preparatory programs:
- Bachelor of Interdisciplinary Studies in Law and Society (Section 3390)
- Bachelor of Arts in Philosophy with a Pre-Law Concentration (Section 3440)
- Bachelor of Arts in Political Science with a Pre-Law Concentration (Section 3460)
- Minor in Political Science/Pre-Law (Section 3460)

Students interested in a career in law are encouraged to consult these sections of this catalog.

3480 Pre-Medical Programs

The College of Arts and Sciences offers three different pre-medical programs:
- Bachelor of Science in Biology with a Pre-Professional/Physiology Concentration (Section 3170)

Students interested in a career in medicine are encouraged to consult these sections of this catalog.

Faculty from these departments compose the Premedical Professions Advisory Committee and advise pre-med students. This committee maintains contact with medical schools concerning specific requirements and selection criteria and helps students design specific programs of study for dentistry, medicine, optometry, osteopathic medicine, pharmacy, podiatry, or veterinary medicine. While most premedical students major in biology, chemistry or physics, requirements for admission to medical or dental schools may be met by other majors, provided the requisite science courses are completed.

A student interested in one of these preparatory medical programs should contact the Office of Academic Assistance, 724 General Classroom Building, 404/651-2291. This office serves as a liaison to the Premedical Professions Advisory Committee and maintains pertinent information such as entrance exam applications and other appropriate materials.

Sarah L. Cook, Director of Undergraduate Studies

Psychology is the science of the behavior of humans and animals. The topics of investigation range from the life sciences to the social sciences, and applications occur in clinical, industrial, community, and other social contexts. Psychological knowledge contributes to the understanding of experience and behavior and to the formation of optimal personal relations.

A career in psychology usually requires a graduate degree. An undergraduate major in psychology can serve as a prerequisite for graduate study in psychology or as background for other careers, e.g., business, law, medical or allied health sciences, and teaching. A major in psychology also can serve the general interest of liberal arts education. The department maintains
reference materials, including videotapes and an Internet website to assist in career advisement. Students wishing to be psychology majors must first be advised by Academic Assistance of the College of Arts and Sciences and then by the psychology undergraduate adviser.

Program Academic Regulations

Before taking upper-division courses, students must have completed 60 hours or have the permission of the instructor. All majors must complete the courses in Areas 1, 2, and 3, as specified below. Concentrations have more specific requirements (for more details see the concentration requirements that are listed after the area requirements). Majors who meet the requirements in Areas 1, 2, and 3 and do not choose to pursue a concentration will graduate in the general program.

B.A. Degree
Students must take a foreign language and six additional hours from courses in Area E. (See “Foreign Language Requirement for B.A. and B.I.S. Majors,” previously described.)

B.S. Degree
Students must take nine semester hours from the courses listed below. We strongly recommend a two-course lab sequence in Principles of Biology, Introduction to Chemistry, or Introduction to Physics.

Program Degree Requirements

The Department of Psychology offers a general program in psychology plus concentration in specific areas of psychology. The general program offers the most choice in courses for a degree in psychology. Concentrations have more restrictive curricula than the general program and are intended to prepare students for a more specific career path. Most students will be in the general program. Students planning graduate school or other advanced training in an area related to one of the concentrations should consider applying for admission to that concentration.

In addition to the Program Degree Requirements, students must fulfill the College of Arts and Sciences Degree Requirements (see section 3030) and the University Degree Requirements (see section 1400).

**Concentrations**
Psychology majors wishing to graduate in a concentration must be accepted into the concentration and meet the requirements for graduation listed below. They also must meet all general program requirements listed above.

Students must complete all lower-division requirements prior to being admitted to a concentration. Application for a concentration may be made during the semester when the lower-division requirements will be completed or a later semester. Students completing a concentration will receive a certificate and will have an appropriate annotation placed on their transcript.

**Community Psychology Concentration (32)**
Community Psychology is an area of psychology that aims to apply psychology toward improving the well being of human groups. An ecological perspective, a prevention orientation, and an appreciation of diversity characterize this area. Often community psychology takes the form of “action research” in which knowledge gained from basic research or psychological theory is applied in real-world settings. At other times it takes the form of relatively more basic research on social problems or community functioning. The concentration is most appropriate for students who want to apply psychology theories and methods to solving social and environmental problems, such as drug abuse, homelessness, and violence. The curriculum should prepare graduates either to pursue graduate education in community psychology or to work in community-based organizations.

Area 1: Basic Requirements
(See “General Program in Psychology,” Area 1, described above.)

Area 2: Advanced Core (9)
1. Required Courses (6)

Program in Social Studies Education in the College of Education at Georgia State University or a similar master’s degree at another university. Contact the department for additional information.

Pre-Medicine Concentration
Students interested in attending medical school are advised to consider the pre-medicine concentration. Those wishing to pursue this concentration should be aware that the requirements will differ from those listed in the regular psychology curriculum. The Department of Psychology has a pre-medicine adviser. Minor in Psychology
Students who wish to minor in psychology must take 15 hours in courses in psychology including at least nine semester hours at the 3000 level or above. Students taking more than 15 hours in courses in psychology may count the additional hours toward their electives or may consider completing a double major. (A grade of C or higher is required in all courses counting toward the minor.)

Honors Program and Psi Chi
The department participates in the Honors Program (See “Honors Program,” described previously) and sponsors a chapter of Psi Chi, the national honor society in psychology. Qualified students are encouraged to participate in these programs. The diplomas of students who complete the University Honors Program indicate that they graduate with honors in psychology.

Graduation with Distinction in Psychology
Departmental distinction is separate from the Honors Program. Majors who have an overall average of at least 3.5 and have demonstrating outstanding research, leadership, or service to the department may be nominated by faculty members for graduation with distinction. More information about graduation with distinction is available in the department.

Timothy Renick, Chair
Jonathan Herman, Director of Undergraduate Studies

Offerings in religious studies, all of which are taught from a non-sectarian perspective, include comparative courses on such topics as world religions, religious thought, religious ethics, mysticism, and women and religion, as well as a host of courses on specific religious traditions including Buddhism, Hinduism, Shinto, Taoism, Confucianism, Judaism, Christianity, and Islam. Students majoring in religious studies have the opportunity to take and have counted toward their major select courses in other departments and programs in the College of Arts and Sciences including African American studies, anthropology, art history, classics, history, music, political science, and sociology. Courses in religious studies contribute to a student’s understanding of the beliefs and actions of diverse peoples and cultures. They also contribute to the student’s self understanding through uncovering and exploring major tenets of his or her own culture. The major in religious studies is designed to provide a rich training in the liberal arts and is particularly appropriate for those students considering careers in government, health, law, education, international business, social work, the ministry, or media. Students in other fields are encouraged to consider the possibility of a double major with religious studies. Students can find a more detailed description of the Religious Studies Program and its offerings, as well as news about its faculty and upcoming events, on the Web at http://ww.gsu.edu/religion.
Program Admission
All undergraduates in good academic standing are eligible for the major and minor in religious studies.

Program Academic Regulations
Only courses in which students earn a C or higher may be applied to the major and minor in religious studies.

Department of Modern and Classical Languages
841 General Classroom Building
404/651-2265
http://www.gsu.edu/languages
Kathleen Hardesty Doig, Chair
Fernando Reati, Associate Chair
Georges Perla, Undergraduate Director

The Department of Modern and Classical Languages serves a threefold purpose: to encourage an appreciation of humanistic values through the study of foreign languages, literatures, and cultures; to teach foreign languages as a means of communication; and to prepare students for academic careers and the opportunities available in the field of international business. As part of a dynamic urban university in a city of growing international awareness and status, the department is fulfilling its responsibility to meet the increasing foreign language needs of the governmental, business, and professional communities.

The department recognizes that an active command of the foreign language and a thorough exploration of the foreign culture form an essential basis for further study in the various areas of its curriculum. To this end, the department sponsors study-abroad programs in Madrid and Guadalajara (Mexico).

The department maintains a state-of-the-art multimedia Language Acquisition and Resource Center (LARC) with a digital audio laboratory with 50 student computer workstations. The digital lab serves a dual purpose in allowing both independent student access to digitized audio files and interactive software that accompanies the language texts, and also in providing a multimedia environment for teacher-led listening, speaking, and recording activities. In addition to the audio lab, the LARC features a tutoring center and resource library, as well as five stand-alone computers for student use. To assist in the development of the student’s active language skills and to provide added cultural enrichment, the LARC contains a wide range of audiovisual materials, including a growing collection of videos, CD Roms and DVDs.

The department sponsors two Freshman Learning Communities each year. One group is designed for students interested in using their foreign language in international business. The other, sponsored jointly by the Department of Applied Linguistics/ESL, is in Language Studies.
For students who hope to teach at the K-12 levels, the department offers Spanish with a concentration that leads to certification.

For students who view language study as a preparation for a career in the business world, the department has two special programs: a concentration in the business language of Spanish, and a practicum in an internationally oriented business or service organization in the metro area for qualified and interested students in their senior year.

The department is also a testing center for diplomas certifying proficiency in business language and procedures. These diplomas are granted by chambers of commerce in various countries.

All Spanish majors are encouraged to consult regularly with their departmental adviser in designing and following a program of study that fits their own career objective and the requirements of their particular concentration.

Program Degree Requirements

In addition to courses in the language major, you are advised to choose courses in other areas that complement your language study. Such courses include other languages, history, philosophy, art and music, business, and education. Faculty advisers in the department are eager to discuss your academic plans with you as you design your course of study.

In addition to the Program Degree Requirements, students must fulfill the College of Arts and Sciences Degree Requirements (see section 3030) and the University Degree Requirements (see section 1400).

Students who believe they have suffered academically because of such treatment should contact the department that offers the course or program in which the treatment occurred to obtain a Student Petition for Resolution form. Within 10 days following the students’ written requests, the department chair schedules meetings with the students and their professor. Students must submit the Student Petition for Resolution and required attachments to the appropriate department chair before the end of the term in which the academic problem occurred or in the case of a final grade within 30 calendar days after the first week of classes of the following term.

Appeal Procedure: Students in the College of Education may appeal to the College of Education Student Affairs Committee for review of a College of Education petition (Petition for Waiver or Variance; Student Petition for Resolution) decision thought by the student to be arbitrary, capricious, or discriminatory. This appeal must be initiated within 30 working days following the decision of the petition process. To initiate an appeal, students must Shea Allman, Liaison to the Appeals Panel, Office of the Dean, 404/651-1006, for an appointment.

Educator preparation students must be aware that extra cost such as tort liability and transportation will be incurred at various times during the completion of various teacher education field experiences, particularly during the students’ senior year.

Program Academic Regulations
Students must complete 42 semester hours in Areas A-E of the Undergraduate Core Curriculum. Courses in Area A must be completed with “C” or higher grades. A grade of “C” or higher is required in all courses in Areas F-H. Semester hours are shown in parentheses following an entry.

Entry into the program does not guarantee continuation in the program, graduation from the program and/or recommendation for certification even if all requirements have been met. Students may graduate from the program with a “C” without recommendation for certification even if the certification test has been passed.

Program candidates may be placed on a Professional Development Plan (PDP). The HPE faculty has many options to choose from for determining a PDP for individuals. These options may include but are not limited to retaking courses; taking additional courses; and taking speech or writing workshops.
As the courses progressively become more field-based, program faculty, cooperating teachers, and school administrators may also recommend that program candidates be placed on a PDP, removed from a course or removed from the program. The HPE program faculty has a personal and professional responsibility to ensure that the teacher candidates that enter and graduate from the program exhibit professional behaviors. The HPE faculty is obligated to follow university policy set forth in the following excerpt from the GSU catalog:

The Professional Education Faculty believes that all students who are in field experiences must be personally and psychologically equipped as well as academically prepared. Students may be denied entry to field experiences based on departmental prerequisites or the professional judgment of faculty based on observed performance and behavior. This policy is based on the premise that educators should be part of the evaluation of the students’ ability to function adequately and safely in classrooms and those educators have a right and responsibility to make such judgments prior to placing students in schools. The practicum or student teaching supervisor has the authority to withdraw students from their classroom experience if their performance constitutes a detriment to the children in the class. If such removal is necessary, students will be given an F in each corresponding course.

*Tort liability and criminal background check requirement: all students must show proof of tort liability insurance and consent to a criminal background investigation prior to enrollment in KH 3200 Instructional Skills for Health and Physical Education, 9-12 and at the time of application for student teaching (KH 4710 Student Teaching in Health and Physical Education, P-5, and KH 4720 Student Teaching in Health and Physical Education, 6-12). Students may obtain the appropriate forms from departmental advisers.

5010.70 Admission to Professional Programs

Acceptance to Georgia State University into a major in the College of Health and Human Sciences allows a student to take prerequisite course work leading to a professional program. A separate application process through the individual school or division is required for acceptance into the professional programs in nursing, nutrition, respiratory therapy and social work. No separate admission is required in the criminal justice program.

The professional programs in nutrition, respiratory therapy, and social work begin annually in the fall semester only. The professional program in nursing begins semi-annually in the fall and spring semesters. Admission to these programs is highly competitive, and students are encouraged to inquire about admission criteria, policies, and deadlines as soon as possible. Admission information and requirements for each program are included in the section on the major.

It is highly recommended that a student wishing to enter the programs in nursing, nutrition, and respiratory therapy take one year of biology and one year of chemistry in high school.

Applicants for admission to the professional programs in nursing, nutrition, respiratory therapy, and social work must be able to demonstrate prior to admission an ability to meet certain technical standards of performance which are necessary to carry out their activities as health and human service professionals. They must demonstrate the functional use of their senses that will allow them to elicit appropriate information, as well as to perceive nonverbal communications from patients or clients whom they are serving. They must be able to communicate effectively and efficiently in oral and written form. Additionally, each applicant should be able physically to provide reasonable care and emergency treatment when necessary.

The schools and divisions in the College of Health and Human Sciences reserve the right to require the withdrawal of any student at any time in order to preserve and maintain the program’s standards of scholarship and conduct.

International applicants to the professional programs whose native language is not English, regardless of language of instruction, may be required to submit acceptable results from an English proficiency examination.

Each school or division may require other, more specific, technical abilities in its consideration of candidates for admission to its program.

5020 College Academic Regulations

5020.10 Credit for Transfer Work

The specific credit for work done at other institutions that may apply toward a degree from the College of Health and Human Sciences is determined by the Undergraduate Admissions Office, the Student Advisement Center, the Office of Academic Assistance, and, if appropriate, the school or department concerned. Allowance of transfer credit by the Office of Admissions does not mean necessarily that all such credit will be accepted toward a degree from the College of Health and Human Sciences.

5020.20 Credit for Transient Work

Students in the College of Health and Human Sciences who wish to take course work at another college must have prior written approval from the Office of Academic Assistance if they wish to apply that credit to a degree program. The student must be in good academic standing at Georgia State University. Transient approval will not be granted to take courses at Atlanta-area colleges when the course is readily available at Georgia State. Please consult the “Academic Regulations” section of this catalog for additional regulations pertaining to transient status.

5020.30 Clinical, Field Experience, or Internship

As part of the degree completion requirements for some of the programs in the College of Health and Human Sciences, the student will be placed in a clinical setting which requires the student to care for and/or be exposed to individuals and patients of all ages and with a variety of diagnoses and symptoms, some of which are communicable and infectious. However, unless otherwise required by law, the Georgia State University College of Health and Human Sciences does not grant special consideration or waiver of any degree completion requirements, including placement in a clinical setting.
Please note that some majors must complete a clinical program, field experience or internship during their program. Some students will be placed with a clinical affiliate that gives care to vulnerable populations or deals with sensitive information. As a result, the affiliate may request a criminal background check and/or drug screen as a prerequisite for placement. If students use illegal drugs, have a criminal record before they declare their major, or acquire a criminal record after declaring their major, they might be prohibited from participating in the clinical program, field experience or internship. Because the program or internship is a requirement, the student might be prevented from completing the degree program. Students are referred to the College’s Statement on Criminal Background Checks and Drug Screens at http://chhs.gsu.edu.

5020.40 Graduation

Coursework with a grade of D can satisfy no more than 12 semester hours of degree requirements. A minimum grade of C is required in all major courses, including HHS courses. Certain programs may require a grade of C or higher in other courses as well. A 2.00 grade point average is required for graduation.

Any deviations from catalog requirements are unauthorized except by approval of the department, school or division, or by written petition filed through the Office of Academic Assistance and properly approved by the appropriate committee.

Please note that licensing boards or agencies for program-related occupations may deny, suspend or revoke a license if an applicant has a criminal history or licensee is convicted, pleads guilty or nolo contendere to a felony or other crime. Students should consult the licensing board corresponding to their intended occupations for more details. Successful completion of a program of study in the College of Health and Human Sciences does not guarantee licensure, certification, or employment in the relevant occupation.

5030 College Degree Requirements

All undergraduate programs offered by the College of Health and Human Sciences are designed to comply with the University System of Georgia core curriculum requirements. The program requirements for Undergraduate Core Curriculum Areas A through E are listed in the “Core Curriculum” chapter of this catalog. 5110 Criminal Justice
Program Offered:
B.S. in Criminal Justice

Department of Criminal Justice
1201 Urban Life Building, 404/651-3515
http://www.cjgsu.net
Richard J. Terrill, Acting Chair

The term “criminal justice” refers to public safety agencies, courts, and corrections as a system for the administration of city, county, state, and federal laws. The curriculum also focuses on the causes of crime and theoretical explanations relating to the crime problem. The Department’s curriculum is designed to provide students with a liberal arts education that focuses upon basic skills such as the ability to read critically, to write clearly, to speak effectively, and to think analytically. The criminal justice curriculum in this department represents a broad range of study designed to meet the academic needs of both pre-professional students and those already employed in a wide range of agencies that make up the criminal justice and juvenile justice systems.

Both the justice system and the causes and consequences of criminal behavior are the focus of this program of study. The juvenile or adult who is accused of conduct that violates the law will be affected by law enforcement, prosecutorial, judicial, and correctional agencies. The requirements of degree programs in this department stress an integrated view of the criminal justice system. In this view all components of the system interrelate with all other components to provide coordinated justice administration. The criminal justice curriculum is designed to give students an understanding of the developing theoretical knowledge base in this field of study while simultaneously providing an understanding of how each of the component parts relate to one another. Additionally, students learn how the justice system influences and is influenced by other institutions in society.

Student’s learning in the classroom is enhanced as faculty bring forth a myriad of expertise in criminal justice and criminology. Currently, faculty research topics highlight legal issues in the criminal justice system; the impact of race, sex, and class in criminal justice processing; communities and police; evaluation of criminal justice programs; comparative criminal justice; crime and the media; domestic terrorism; healthcare fraud; crime in organizations; juvenile delinquency; criminological theory; and the role of aggression in crime and delinquency. Faculty conduct research drawing on their expertise in a variety of quantitative and qualitative research methods, thus allowing them to bring not only their topical expertise, but also their methodological experience, into the learning environment.

Degree programs offered through the Department of Criminal Justice include Bachelor of Science in criminal justice and Master of Science in criminal justice. The bachelor’s degree program complies with the core curriculum requirements of the University System of Georgia.
Program Admission
There are no admission requirements specific to the Bachelor of Science degree program in Criminal Justice beyond the admission requirements to the University. A student should complete the lower-division core curriculum requirements prior to taking upper-division courses. To enroll in 3000/4000-level Criminal Justice courses, students must have a 2.00 grade point average at Georgia State University.

Program Financial Information
No special fees are associated with the Bachelor of Science degree program in Criminal Justice. Students must pay all tuition and fees required by the University.

Program Academic Regulations
1. A grade of C or higher is required in CrJu 1100 (or equivalent transfer course) and all 3000/4000-level Criminal Justice courses at Georgia State University (GSU). A grade of C or higher is required in all courses in Areas G-L.
2. A minimum 2.00 cumulative grade point average at GSU is required to register for 3000/4000-level criminal justice courses. There are no exceptions to this policy.
3. A minimum of 45 semester hours (15 courses) must be completed in 3000/4000-level criminal justice courses at Georgia State University. HHS 3000 is included in the 45 hours; CrJu 1100/3100 and CrJu 2200 are not included.
4. The Department of Criminal Justice believes that all students who are in internship experiences (class and field) must be personally and psychologically equipped as well as academically prepared. A student may be denied entry into internship field experience based on departmental prerequisites or the professional judgment of faculty based on observed performance, behavior, or documentation which indicates erratic, unpredictable, or unsuitable conduct. This policy is based on the premise that criminal justice faculty should be part of the evaluation of a student’s ability to function adequately and safely in a criminal justice setting and that faculty has a right and responsibility to make such judgments prior to placing a student in an internship. The internship coordinator has the authority to withdraw a student from a classroom and/or field experience (i.e., CrJu 4930, CrJu 4940) if the student’s performance constitutes a detriment to the students in the class and/or to personnel at the field internship site. If such removal is necessary, the student will be given an F for the course(s).
5. All completed applications and contracts must be turned in to the Department of Criminal Justice by the following dates in order to be considered for an internship that particular semester. There will be no exceptions. January 15 for summer semester; March 15 for fall semester; September 15 for spring semester.
6. Please note that all criminal justice majors must complete an internship during their final semester in the program. Some students will select placement with an agency that deals with sensitive information. As a result, a background check might be a requirement for placement. Background checks include prior arrests and convictions, abuse of illegal drugs, and DUI convictions. If students have a criminal record either before they declare their major or acquire a criminal record after declaring their major, they might be prohibited from participating in the internship. Since the internship is a requirement, they might be excluded from the degree program.
7. The Department has two options from which students must choose: the Crime and Justice Track or the Legal Track. The Crime and Justice Track includes the traditional curriculum for criminal justice majors. The Legal Track is designed for criminal justice majors who are interested in an intensive exposure to law in preparation for law school. Students who fail to choose a track will automatically be placed in the Crime and Justice Track.

**Programs Offered:**

- B.S. in Nursing
- R.N. to B.S. Bridge Program in Nursing

Brydine F. Lewis School of Nursing
960 Urban Life Center, 404/651-3040
http://chhs.gsu.edu/nursing
Krista M. Meinersmann, Associate Director for Undergraduate Programs

The Byrdine F. Lewis School of Nursing offers a curriculum leading to the Bachelor of Science degree with a major in nursing. Upon the completion of the baccalaureate program and subject to the rules of the Georgia Board of Nursing, the graduate becomes eligible to write the National Council Licensure Examination required for becoming a registered professional nurse. Generic students may enter the nursing program in the fall semester or the spring semester, RN-BS completion students may enter the nursing program in the fall only.

The university catalog in effect at the time a student is admitted to the nursing program will normally apply to a student. However, the nursing curriculum and other requirements are subject to change in order to comply with regulations of accrediting agencies or with institutional or university-system policies. Every effort will be made to notify students of such changes; however, it is the student’s responsibility to become aware of all current program and college requirements. Students who withdraw from the nursing sequence may enter under the current catalog if space is available in nursing courses with a clinical requirement. Academic credit for nursing courses for a student who withdraws from the nursing program is valid for a five-year period. Abnormal Psychology (Psyc 3140) and Anatomy and Physiology I and II (Biology 1110K - 1120K) must be completed within five years prior to beginning the nursing sequence. Special exceptions may be made to this policy with the director’s permission.

Academic advisers work closely with students to plan programs; however, it is the student’s responsibility to see that course prerequisites are met as required. The student is expected to follow the program planned in conjunction with the assigned academic and faculty advisers.

In order to provide appropriate learning experiences nursing classes will be scheduled during the day and evening hours. In the event these experiences require the student to return to the clinical setting at times other than scheduled laboratory times, it is the student’s responsibility to be there as requested for the duration of the learning experience. Students’ personal schedules must be flexible to meet clinical requirements. Students will be expected to provide their own transportation to the clinical setting.

The School of Nursing reserves the right to make those program changes deemed appropriate. Curriculum changes are made whenever necessary to keep the learning experiences up to date in this rapidly changing field. Students will be expected to subscribe to these changes whenever they can do so without increasing the number of hours required for completion of the degree. The student is responsible for adhering to policies and procedures specified in the School of Nursing Undergraduate Student Handbook. Degree requirements must be completed in order to meet the eligibility requirements for writing the professional nurse licensure examination.

**Program Admission**

The student must meet the general admission requirements of Georgia State University and the College of Health and Human Sciences. Acceptance to the university allows the student to register for prerequisite course work leading to the professional program in nursing and does not guarantee automatic admission into the nursing program. Acceptance into the professional program requires a separate application and admissions process. Students will be admitted on a space-available basis.

Two program options are available in the undergraduate nursing program: the traditional option and the accelerated option. The traditional option is six semesters and does not require summer classes. The accelerated option is four semesters, including summer over a 16-month period. Students in both options have identical degree requirements; however, the accelerated option has more stringent application requirements.

**Traditional Option Prerequisites:** The following courses are prerequisites, which must be completed before entering the traditional option in the fall or spring semester.

- Area A courses of the Core Curriculum
• Biol 1110K, Biol 1120K - Anatomy & Physiology 1 & 2
• Biol 2300, Biol 2310 - Microbiology with lab

It is recommended that Nurs 2010 be taken before beginning the nursing courses, but it is not required.

**Traditional Option Requirements:**
1. Acceptance to Georgia State University.
2. Completion of prerequisite courses.
3. A minimum grade point average of 2.80. Higher grade point averages receive preference for admission.
4. Successful completion of the Nursing Entrance Test.
5. A two-page typed paper discussing the applicant’s position on a current social or health-related issue.
6. Two letters of reference. One should be academic (high school or college instructor); one should be professional (employer, volunteer organization, etc.).
7. An Application Cover Sheet form.
8. Answers to a short list of questions that are included with the Application Cover Sheet form.

**Accelerated Option Prerequisites:** The accelerated option requires the following prerequisites, in addition to those listed for the traditional option, be completed before entering the first semester of the accelerated option.
• All Core Curriculum requirements, Areas A-E
• Nurs 2010 (Health and Human Development Across the Lifespan)
• HHS 3000 (Communication and Cultural Diversity)
• Psyc 3140 (Abnormal Psychology)

**Accelerated Option Requirements:**
1. Acceptance to Georgia State University.
2. Completion of prerequisites courses.
3. A minimum grade point average of 3.0 for applicants already holding a bachelor’s degree; a minimum grade point average of 3.25 for applicants who do not yet hold any bachelor’s degree. Higher grade point averages receive preference for admission.
4. Successful completion Nursing Entrance Test.
5. A two-page typed paper discussing the applicant’s position on a current social or health-related issue.
6. Two letters of reference. One should be academic (high school or college instructor); one should be professional (employer, volunteer organization, etc.).
7. An “Application Cover Sheet” form.
8. Answers to a short list of questions that are included with the “Application Cover Sheet” form.
10. Successful completion of the Regents’ Writing and Reading requirements OR a Bachelor’s degree

Admissions selection for both options is based on GPA, number of and grades earned in required science courses taken, score on the nursing entrance exam, letters of reference, and a social/health issue paper. If the applicant’s native language is not English, regardless of language of instruction, he or she may be required to submit acceptable results on the Georgia State Test of English Proficiency (GSTEP) or the Test of English as a Foreign Language (TOEFL).

It is important that students are aware of the current level of competition for admission. The program can accommodate only a limited number of students each year.

The application deadline for the fall semester is March 1. The application deadline for the spring semester is October 1. Early applications are advisable. Application requirements and information about the Nursing Entrance Test are available on the web at [http://chhs.gsu.edu/nursing](http://chhs.gsu.edu/nursing). The cost of the exam is the applicant’s responsibility.

Upon receipt of an acceptance letter from the School of Nursing, the student will be required to complete the School of Nursing’s WebCT Program Introduction and attend an orientation meeting before the first semester of nursing classes begin. The student must complete required forms and health-related requirements prior to the first semester of nursing classes. The accepted student must submit to the School of Nursing a current health record (and must keep this record current). Evidence of in-force liability insurance and current cardiopulmonary resuscitation certification by the American Heart Association is required for enrollment in clinical nursing courses. Students may be required to have a criminal background check and a drug screen based on hospital policy.

When applying to sit for the Georgia Board of Nursing licensing examination (NCLEX) upon graduation, students will be asked to respond to a question regarding any violations of federal, state, or local law. Students may be required to provide documentation to the Board explaining any such circumstance. The Georgia Board of Nursing has the exclusive authority to issue a license for the Registered Professional Nurse and could decline to issue a license based on an applicant’s prior criminal record. Further information regarding this requirement can be obtained from the Georgia Board of Nursing or any other state licensing board where practice is contemplated.
Admission to the RN to BS Bridge Program

The RN to BS Bridge program is designed for licensed Registered Nurses (R.N.) with an associate’s degree or nursing diploma to earn a B.S. in nursing. This program admits for the fall semester only. The deadline is March 1.

1. Acceptance to Georgia State University.
2. Graduation from an NLN-accredited associate degree or diploma program.
3. Current registration to practice as a registered professional nurse in Georgia.
4. Evidence of practice as a registered nurse in the United States for at least one year within the three years immediately preceding the semester of enrollment in the clinical nursing courses.
5. Grade point average of at least 2.7.
6. Successful completion of a Nursing Entrance Test.
7. An RN-BS Bridge Application.
8. Three letters of reference. [one academic; one professional (related to employment; and one from a previously attended school of nursing OR another nurse.]
10. Upon receipt of an acceptance letter from the School of Nursing, the student will be required to meet with an adviser and to complete required forms and health-related requirements prior to entry into the nursing sequence.

The student must present his or her current license to practice as a registered nurse in the State of Georgia to the School of Nursing no later than the time of registration for the first nursing course. The license number will be recorded at that time. The Georgia Board of Nursing recommends that copies not be made due to the risk of unauthorized duplications. Each student must be advised by an academic adviser and retain a signed copy of their program plan. Evidence of in-force liability insurance and current cardiopulmonary resuscitation certification by the American Heart Association is required for enrollment in clinical nursing courses.

Program Financial Information

The accepted student is required to submit a percentage of his or her first semester’s tuition at the time of acceptance into the nursing sequence. The advance tuition, which is nonrefundable, guarantees the student’s placement in the class. Clinical practice will require that the applicant obtain student uniforms that meet School of Nursing standards. Additional costs that are the responsibility of the student include 1) the cost of cardiopulmonary resuscitation certification and liability insurance; 2) the cost of lab supplies; 3) the cost of a standardized total testing program; and 4) the cost of criminal background checks and urine drug screens.

Program Academic Regulations

No grade below a grade of C in a major course will be credited toward a degree. Every student must attain a passing grade of C in every nursing and allied field course. A minimum grade of C is also required in statistics. All nursing majors must maintain a minimum GPA of 2.0 to remain in the nursing sequence.

A student may be terminated from a clinical course prior to the completion of that course if, in the judgment of the student’s clinical instructor, the student’s clinical practice jeopardizes the safety of a patient. Course failure would violate the grade of C or higher rule and result in dismissal from the clinical nursing course sequence. A student may repeat a nursing or allied field course in which a grade of D, U, F or WF was received one time only. Failure of the repeated course or a second nursing or allied field course results in termination from the program. In the event a student is unsuccessful in Nurs 3510, Nurs 3610, Nurs 3710 or Nurs 3810, the student may take one new clinical course (Nurs 3510, Nurs 3610, Nurs 3710, Nurs 3810) concurrently with the course that must be repeated, or the student may take one new course prior to repeating the failed course, based on space availability.

The Byrdine F. Lewis School of Nursing reserves the right to require the withdrawal of any student at any time in order to preserve and maintain the school’s standards of scholarship and conduct. Furthermore, if the student has been sanctioned for any violation of university rules, procedures, or policies, an automatic review and determination of that student’s progress in the program will occur.

The procedure for reentering students may be found in the previous section entitled “Admission Requirements.” Each teaching team establishes the attendance policies for classroom and clinical experiences. In general, however, all learning experiences are required. Due to the complexity involved in selecting and supervising clinical learning experiences, students are required to complete all assignments promptly.

Traditional program students are expected to have completed the Regents’ Test requirements by the end of the sophomore year. Selected achievement tests are required throughout the program. An end-of-program exit activity will be required of all nursing students. Generic students will be given an exit exam at the midpoint of the last semester before graduation. RN students will submit a social or health care issue paper as a required exit activity. A passing score is required to meet graduation and program completion requirements.
Additional information, including regulations on program probation, suspension, and dismissal, is included in the School of Nursing’s Undergraduate Student Handbook. Students are responsible for the information in this handbook as well as that in other university publications.

The program is accredited by the Commission on Accreditation for Dietetics Education of the American Dietetic Association (CADE), 120 South Riverside Plaza, Chicago, IL 60606, 312/899-5400. Graduates of the DPD are eligible for any dietetic internship accredited by the CADE, which is required to take the national examination to become a registered dietitian. An accredited dietetic internship program is also available in the Division of Nutrition. Contact the division for more information about the dietetic internship.

Mission Statement—Didactic Program in Dietetics (DPD)

To graduate students with the knowledge, insight, and skills to participate effectively as dietetic professionals in a contemporary society:

Didactic Program Goals

Upon completion of the requirements for the Didactic Program in Dietetics (DPD), the graduate will:
1. Possess a broad educational background in the physical, biological, social, and communication sciences, along with advanced knowledge in the areas of food and nutrition as evidenced by successful completion of courses in the curriculum;
2. Have the comprehensive background needed to successfully complete a supervised practice experience (DI) and the registration examination as evidenced by supervised practice placements and pass rates on the registration examination for dietitians;
3. Have the didactic knowledge necessary to become competent, entry-level dietitians who can function in a variety of settings as evidenced by job placement and pass rates on the registration examination for dietitians; and
4. Have the ability to effectively use resources and apply research principles to investigate and resolve issues related to the dietetics field as evidenced by problem-solving and critical thinking skills.

Program Admission

The DPD, because of its professional nature, has more stringent admission requirements than those of Georgia State University. Students will be formally admitted into the DPD program for the nutrition degree at the beginning of the fall semester of the junior year.

Admission to the DPD requires completion of prerequisite courses and an application to the division. Application packets are available in February of each year and must be returned to the Office of Academic Assistance, College of Health and Human Sciences for review. Applicants will be reviewed throughout the year for applicants who have met prerequisite requirements. May 1st is the deadline for fall admission. Applicants who plan to complete their prerequisite requirements after May 1 should submit their applications by the May 1 deadline, but they will be reviewed once final transcripts are received. Courses in nutrition, organic chemistry, human physiology, microbiology, and biochemistry must be completed within ten years prior to beginning the DPD. A student must have a minimum 2.5 GPA and must have a letter grade of C or higher in all science and nutrition courses. Selection will be based upon academic performance, a letter of reference from a college professor, and a statement of professional goals.

Nutrition courses completed at other institutions may be considered for transfer credit if they have been completed within ten years prior to beginning the DPD.

Program Financial Information

Students are required to purchase consumable materials in some laboratory courses.

Program Academic Regulations

Once admitted to the DPD, a student must maintain a 2.5 GPA and receive a grade of C or higher in all science and major courses. If the GPA drops below a 2.5 or a letter grade of C is not received in science or major classes, the student is ineligible to continue in the DPD until the GPA reaches a 2.5 or a grade of C or higher is earned in the science or major class.

5140 Respiratory Therapy
Program Offered:
B.S. in Respiratory Therapy

Division of Respiratory Therapy
School of Health Professions
1228 Urban Life Building, 404/651-3091
http://chhs.gsu.edu/rt
Lynda T. Goodfellow, School Director and Division Head
Cindy D. Powell, Medical Director

Respiratory therapy is a health care profession dedicated to the support and management of individuals with abnormalities or deficiencies of the cardiopulmonary system. The respiratory therapist is an expert in therapeutic and diagnostic modalities associated with the pulmonary system, as well as the heart. He or she must have a working knowledge of chemistry, microbiology, and physiology as well as respiratory therapy. This background affords the therapist the ability to become proficient in working with respiratory life support systems. Under the guidance and supervision of a physician, the therapist treats by employing academic knowledge and technical skill for direct patient care. For a dedicated man or woman who finds a service field rewarding, respiratory therapy offers a career opportunity as a vital member of the health care team that is both personally and financially rewarding.

The Division of Respiratory Therapy offers a program that leads to a Bachelor of Science degree. The program provides classroom study with observation, clinical experience, independent study, and seminars. The Georgia State University respiratory therapy program is fully accredited by the Commission on Accreditation for Respiratory Care (CARC) in collaboration with the committee on Accreditation of Allied Health Programs (CAAHEP). The program provides classroom study, laboratory study and observation, clinical experience, computer-assisted instruction and simulation, seminars, and independent study. Classes generally meet on a daily basis from approximately 8:00 AM to 3:00 PM. Clinical courses in area hospitals (clinical affiliates) meet from 6:45 AM to 3:15 PM.
The overall purpose of the Division of Respiratory Therapy is to provide a quality education that is relevant and professionally sound to meet the respiratory therapy needs of the health care community. Inherent to this purpose is the goal to prepare respiratory therapy practitioners who can demonstrate the attitudes, skills, and knowledge required to meet the changing needs of the community. It will be necessary for the respiratory therapist to cooperate with all members of the health care team in identifying and solving the problems related to respiratory diseases and disorders of the cardiopulmonary system. The respiratory therapist must be able to think critically, communicate effectively, demonstrate good judgment, and provide self-direction. It is a primary objective of the respiratory therapy program to educate well-qualified, competent respiratory therapists who demonstrate leadership ability.

The baccalaureate degree program in respiratory therapy seeks to establish an atmosphere in which the student achieves respect for the dignity and worth of the individual, the capacity for critical thinking, a genuine desire for knowledge, and the realization of his or her own potential. Graduates of the baccalaureate program are qualified to enter the Registry Examination System of the National Board for Respiratory Care (NBRC).

Program Admission

Admission to the Division of Respiratory Therapy is limited. In addition to meeting the general admission requirements of the university, the applicant must meet the specific admission requirements and regulations of the Division of Respiratory Therapy. Acceptance into the program is based competitively on the factors of demonstrated academic ability, consistency of performance, personal qualifications, including motivation and interpersonal abilities.

International applicants whose native language is not English, regardless of language of instruction, must submit acceptable results from the Georgia State Test of English Proficiency (GSTEP). Because of the communication demands in the profession of respiratory therapy, both with patients and staff members, and the critical nature of clinical care, adequate verbal and written comprehension of English is necessary.

Individuals who desire to pursue respiratory therapy as a profession and show academic ability may apply for admission. Enrollment in the Division of Respiratory Therapy is limited and, therefore, early application is advisable. The application deadline is July 1 preceding the fall semester in which admission is desired. The Office of Admissions evaluates the credentials of students transferring from other colleges and universities. Acceptance into the university does not ensure admission into the respiratory therapy program.

Students taking the prerequisite courses in colleges or universities other than Georgia State University should take equivalent course work.

Students are admitted into the professional courses in the fall of the junior year. A minimum grade point average of 2.50 is required. Higher GPAs receive preference for admission.

A.S. to B.S. Bridge Program

The Division of Respiratory Therapy has a comprehensive advanced standing policy. Students who are graduates of CoARC-approved A.S. degree programs may apply for advanced standing to the B.S. degree program. The department utilizes the following mechanisms to assess the awarding of credit in advanced standing: transfer credit and credit for professional credentials. The department maintains a philosophy of educational flexibility to meet the needs of the profession.

An integrated B.S. to M.S. degree is an option to those who have a bachelor’s degree in another field and wish to enter the respiratory therapy profession. See the Graduate Catalog for details.

Program Financial Information

During the junior year, students can expect to pay approximately $750 for uniforms, stethoscopes, student liability insurance, and books. In the senior year, expenses are estimated at approximately $1200. This includes books and expenses related to NBRC self-assessment and credentialing exams.

Program Academic Regulations

A minimum grade of C is required in all major, major-field-related, and mathematics and natural sciences courses for graduation. If a student’s progress is interrupted at any point in the program through withdrawal or unsatisfactory performance, the student will no longer be in the program. If an individual applies to reenter the program, consideration will be given on the same basis as any new applicant. Curriculum changes are made whenever necessary to keep the learning experiences up to date and relevant in this rapidly changing technological field. Students will be expected to subscribe to these changes whenever they are necessary.

Students are expected to provide their own transportation to clinical training sites. Students are expected to comply with the policies and regulations of the division regarding absences, tardiness, standards of performance, conduct, dress code for the
clinical areas, and other regulations as specified. A copy of these policies and regulations may be obtained from the division and will be given to all entering students.

Although respiratory therapy courses are intended to be taken by students majoring in the Division of Respiratory Therapy, selected courses may be taken by nonmajors with written permission of the instructor of each course and the division head. All professional courses involving a component of clinical training are open only to professional program majors.

### 5150 Social Work

**Program Offered:**

**Bachelor of Social Work (BSW)**

School of Social Work
1242 Urban Life Building, 404/651-3526
[http://www.gsu.edu/socialwork](http://www.gsu.edu/socialwork)

Elizabeth L. Beck, BSW Program Director
The purpose of social work education is to prepare competent, effective social work professionals who are committed to practice that includes service to socially marginalized populations, and who work to alleviate poverty, oppression, and discrimination. Social work education is based upon a specific body of knowledge, values, and professional skills, and is grounded in the profession’s history and philosophy. Education for the profession promotes the development and advancement of knowledge, practice skills, and services that further the well-being of people and promote social and economic justice. Social work education is responsible for the production and application of research and scholarship aimed at advancing social work practice. ("Curriculum Policy Statement for Baccalaureate Degree Programs in Social Work Education," Council on Social Work Education, Handbook of Accreditation Standards and Procedures, 4th Edition, p. 96.)

The School of Social Work offers a Bachelor of Social Work degree (BSW) through an educational program accredited by the Council on Social Work Education (CSWE). Both the academic content of the program and its administrative procedures are consistent with the accreditation standards of CSWE. The social work curriculum represents a highly developed plan of professional education that consistently emphasizes the interface between theory and practice. The curriculum for the BSW degree may be viewed in two major sections. The lower division (60 semester hours), a liberal arts foundation, reflects those content areas which meet the standards prescribed by the Board of Regents of the University System of Georgia and by the College of Health and Human Sciences. The upper division courses (60 semester hours) have been developed to meet the guidelines for baccalaureate social work education as prescribed by CSWE, particularly as those courses can maximize appropriate knowledge and skills for entry-level, generalist social work practice.

The goal of the School of Social Work is to prepare students for competent and ethically responsible generalist social work practice. Specific objectives of the school are: (1) to enable students to demonstrate appropriate knowledge, skills, and values necessary for the beginning level of professional generalist social work practice with individuals, families, groups, organizations, and communities in an urban setting; and (2) to prepare academically qualified students for graduate social work. Successful completion of this program may lead to advanced standing in many accredited graduate programs of social work.

Program Admission

The requirements and procedures for admission to Georgia State University are summarized in the university section of this General Catalog. That application process permits a potential student to indicate the college in which the individual wishes to register upon acceptance and to indicate the intended major. Based upon that application, an individual may be accepted by the university and by the College of Health and Human Sciences. Entering students who wish to major in social work begin their affiliation with the School of Social Work in a Pre-Social Work (PSW) status. A later, separate application and decision process is required before a student can be formally accepted into the Bachelor of Social Work (BSW) status. The priority application deadline is May 15 prior to the junior year. However, applications will be accepted after that date.

Pre-Social Work (PSW) Student

All students admitted to the School of Social Work begin as Pre-Social Work (PSW) students and change their status only after the student has made formal application and formal admission has been granted. PSW status is assigned to students who have not completed all lower-division courses in Areas A-F or have not met GPA eligibility requirements. To complete these areas, PSW students must register only for the lower-division courses specified in their advisement files.

Bachelor of Social Work (BSW) Student

For a student to be considered for BSW status, the student must:

1. Be in good standing at Georgia State University with a minimum institutional GPA of 2.0.
2. File a formal application in the school for BSW status.
3. Have grades of C or higher in English 1101 and 1102.
4. Have successfully completed Areas A through F (except SW 2000).
5. Have a minimum grade point average of 2.5 or better in the lower-division courses counted for completion of Areas A-F and a minimum grade of C or higher in SW 2000, if completed.

BSW status indicates that a student has demonstrated commitment to professional social work and has been recognized by the school as being ready to utilize that commitment in the demanding preparation for practice in this field. A student with BSW status is expected to internalize the values and ethics of social work and to develop and enhance professional practice skills. In this process, the BSW student is expected to abide by the academic regulations related to the program as outlined in this catalog and in the school’s Student Handbook. Among those academic regulations is the requirement that a student have a grade of C (2.0) or better in each of the social work major courses that are required in Area G.

Entry into the BSW program is a selective process on a space availability basis. A student who meets only the minimum GPA or other criteria is not necessarily guaranteed acceptance. Qualified students who are denied entry at one point in time will be placed on a competitive waiting list in the order of their denial to await possible access to the program at a subsequent time.
Program Financial Information

No special fees are associated with the Bachelor of Social Work program. Students must pay all tuition and fees required by the University.

Program Academic Regulations

Students in the School of Social Work are required to participate in academic advisement. Each entering PSW student is assigned to a professional staff member in the Student Advisement Center or in the college’s Office of Academic Assistance who serves as the student’s academic adviser. PSW students should meet with that assigned academic adviser prior to registering for any courses, and those advisement appointments are available during any semester. When the student achieves BSW status, the student will be reassigned to the director of the BSW program for initial program advisement. Before the end of the junior year, the student will be assigned to a social work faculty adviser. The student is expected to meet with that assigned academic adviser at least once each academic semester for the purpose of beginning or enhancing acculturation to the field of social work, as well as for sequencing course selections in accordance with school procedures. BSW advisement appointments are scheduled only during the fall and spring semesters, so students are expected to plan accordingly. In an emergency situation, the student (PSW or BSW) may discuss advisement needs with the BSW program director.

Course sequencing in the BSW program begins only in the fall semester, and a student is admitted to BSW status in accordance with that schedule. PSW and BSW students are expected to follow the written course advisement plan developed in the advisement process, both in terms of course selections and in the sequencing of those courses. Deviations from the advisement plan without the written authorization of the assigned academic adviser or the BSW program director may result in the school’s blocking future registrations that do not conform to the advisement plan or may result in an extension of their course of study. In addition to the review and possible withdrawal of a student from the program, as described in “Review of Academic and Professional Practice Demands,” a student who misses or fails a course but is permitted by the school to continue in the program must work closely with the assigned academic adviser and the BSW program director to determine the most appropriate point at which to continue degree-related course work. If a student in BSW status is inactive for two academic semesters, the student will be returned to PSW status and must file a new, competitive application to reenter the BSW status.

Field Education

Field education is an integral component of the BSW curriculum and involves the placement of social work students in educationally supervised agency settings. The primary purpose of field education is to enable students to integrate social work theory and practice through the direct application of social work knowledge, values, and skills. Field education provides opportunities to test and refine classroom learning in professional social work settings. BSW students must have a minimum of 400 supervised hours of field education over a period of two consecutive semesters. Students are required to attend a classroom-setting field integrative seminar as part of their field education. The purpose of the integrative seminar is to provide field education students a forum for the synthesizing of classroom learning with their field-based internship.

Students may apply for field education only after lower-division and prescribed social work courses and other requirements have been satisfactorily completed, as explained in the school’s Student Handbook. Students enroll in field education for the fall-spring semesters. Field education applications must be turned in to the Director of Field Education by February 15 for the following fall semester placement.

Grant—Child Welfare

The School of Social Work, in partnership with the Georgia Department of Human Resources, has scholarships available under the Title IV E, Child Welfare Training. The scholarship includes tuition and fees, books, and mileage. Recipients must take specific child welfare electives and must complete a field placement in a public child welfare setting. Upon graduation, recipients must commit to work for the Division of Family and Children Services on a year-for-year basis.

School of Social Work Policies and Procedures

Georgia State University is an equal educational opportunity institution. Faculty, staff, and students are admitted, employed, and treated without regard to race, sex, color, age, religion, national origin, sexual orientation, or disability. Georgia State University complies with Title IX of the Education Amendments of 1972, Titles VI and VII of the Civil Rights Act of 1964, the Civil Rights Act of 1991, Sections 503/504 of the Rehabilitation Act of 1973, the American with Disabilities Act of 1990, the Vietnam Era Veterans Readjustment Assistance Act, as well as other applicable federal and state laws.

Students should refer to the current Undergraduate Catalog to ensure compliance with university policies and procedures.

Codes of Ethics

All students admitted into the B.S.W. program are expected to read, understand, and follow the National Association of Social Workers (NASW) Code of Ethics. Each student who is admitted into the program is given a copy of the current code of
ethics. This code provides a set of values, principles, and standards to guide conduct and decision making when interacting with clients and colleagues and for when critical issues arise. A copy can also be found at the NASW website (www.naswdc.org)

**Review of Academic and Professional Standards – The Policy**

Students admitted into the School of Social Work will be held by the academic standards set by the University and the College of Health and Human Sciences. Students will be held to the professional standards set by the school and the National Association of Social Workers. Students should familiarize themselves with these requirements as found in the undergraduate and graduate catalogs for the university and the College of Health and Human Sciences.

**A. Academic Competence**

Undergraduate students are required to maintain at least a grade of C (2.00) or better in each of the social work major courses in Area G, and be in academic good standing with the University (an institutional GPA of 2.00). In cases where a student has a grade of D or F in an Area G course, the student must meet with the BSW Director and another faculty member of the BSW Committee to determine whether the student is eligible to continue in the program. If the student is allowed to continue in the program, he or she must retake the course and receive a grade of C or higher. Due to course sequencing, graduation date may be postponed in this situation. Undergraduates must also complete a minimum of 400 hours of field placement.

**B. Professional Competence**

Georgia State University’s School of Social Work has the goal of educating competent social work practitioners. If a student fails to meet the standards set by the National Association of Social Workers and/or the School of Social Work, corrective action may be taken. Corrective action is intended to provide students and faculty with the opportunity to openly discuss problems and issues identified, and to seek a solution to correct the situation or problem presented. Dismissal from the program is an option and may supercede any discussion of corrective action. Professional incompetence signifies that a student is not adequately or appropriately performing at his or her program level.

Failure to comply with the policies and procedures of Georgia State University and/or the College of Health and Human Sciences and/or the School of Social Work may result in a student’s dismissal from the program.

The accounting programs of the college also hold accounting accreditation granted by the AACSB. The Institute of Health Administration is accredited by the Accrediting Commission on Education for Health Services Administration. The program in hospitality administration is accredited by the Accreditation Commission on Programs in Hospitality Administration.
7010.40 Bachelor’s Degree Offered

The Robinson College of Business offers the Bachelor of Business Administration with ten majors. The requirements for the B.B.A. degree are shown later in this chapter. A degree is awarded only after admission to and completion of the prescribed program in accordance with the specific degree requirements and academic regulations of the college and the university.

7010.50 Tutorial Facilities

Tutorial facilities are available to students who may need assistance with writing or mathematics and are described in the “College of Arts and Sciences” chapter of this catalog.

7020 Academic Regulations

Students seeking a degree in the Robinson College of Business are encouraged to become familiar with the academic regulations of the university that are given elsewhere in this catalog. The sections concerning transfer requirements and the university degree policies, including the residence requirement, the core curriculum, the constitutions and histories requirement, the Regents’ Test, application for graduation, academic recognitions, withdrawal from classes, incomplete grades, and scholastic discipline, are of particular importance. (Consult the index for the page numbers of these sections.) The college regulations discussed below should also be read carefully.

7020.10 Credit Transferred from Other Institutions

1. Some majors require that transfer credit for upper-level major courses be no more than five years old at the time the student enrolls in the B.B.A. program. Contact the Office of Undergraduate Academic Assistance for further information.
2. Course credit transferred from two-year colleges shall apply only toward freshman- or sophomore-level credit.
3. No more than 27 semester credit hours of course work earned through correspondence or extension will be accepted toward the B.B.A. degree. Courses completed through correspondence or extension may not apply toward junior- or senior-level credit.
4. Reenrollment after Transferring Elsewhere: Undergraduate students who enroll at another institution as regular students (as opposed to transient- or visiting-student status) will be considered as having transferred to that institution. If such students later reenroll in the B.B.A. program, regardless of the length of the absence, they will be subject to the curricular degree requirements in effect at the time of their return. Such students are encouraged to discuss their transfer to the other institution with their academic advisor in the Office of Undergraduate Academic Assistance in advance if they intend to apply this work toward a degree of the Robinson College of Business. Students may not take courses for degree credit at another institution during the semester they expect to graduate from Georgia State University.

7020.20 Policy on Allowing Undergraduates to Take Graduate Courses

Students with a cumulative grade point average of 3.50 or higher who have at least 18 semester hours of credit at Georgia State University and who are in their senior year may petition to take up to two graduate courses in the Robinson College of Business in lieu of undergraduate courses. Students interested in petitioning should contact the Office of Undergraduate Academic Assistance for a statement of restrictions and procedures pertaining to this policy.

7020.30 Minimum Grade Requirements for B.B.A. Students

1. A grade of C- or higher is necessary to receive degree credit in the following required courses in the B.B.A. degree program: Engl 1101-1102, Acct 2101-2102, Econ 2105-2106, CIS 2010, BusA 2106; all the courses in the junior-year business core; the junior-year communication requirement; all the courses in the major; BusA 4980; the junior/senior RCB electives.
2. Students may not register for Engl 1102 or Acct 2102 until the first course in the given paired sequence is passed with degree credit (i.e., a grade of C or higher).
   In addition to the minimum grade requirements in these courses, a grade of C- or higher must be earned by actuarial science majors in Math 2215.

7020.40 Minimum GPA Requirement for All Students Enrolled in RCB Courses

Students, regardless of degree program or status, may not enroll in upper-level courses (those numbered 3000-4999) offered by the Robinson College of Business if their cumulative Georgia State University grade point average is below 2.50. Students should be aware of the following information and responsibilities:
1. This regulation will apply in early registration if the current cumulative Georgia State GPA is below 2.50.
2. Students who register for 3000/4000-level RCB courses in early registration but whose cumulative GPA falls below 2.50 at the end of the semester must amend their next semester’s schedule in regular or late registration. The 3000/4000-level RCB course(s) must be dropped. The college’s expectation is that students will act in a responsible manner in abiding by this regulation of the RCB faculty.
3. Students in their first semester at Georgia State are not affected by this regulation for that semester only.
4. Having only 3000/4000-level RCB courses remaining for degree credit is not justification for an exception to this regulation. The college encourages students to put forth their maximum effort throughout their academic career at Georgia State if they wish to avoid the time and expense involved in taking courses that do not count for degree credit. When this situation occurs, however, it is the college’s position that students can always benefit from any course taken regardless of whether the course is part of the students’ program of study.

7020.50 Course Sequencing Requirements
Students are expected to proceed through the B.B.A. program in proper sequence to receive maximum benefit from their studies. Courses that are intended for the freshman through senior years are indicated by the course numbering system (1000 level through 4000 level, respectively). The lower-level courses taken in the freshman and sophomore years provide a foundation of general education on which the junior and senior years are based.

Sequencing requirements for all students and specifically for B.B.A. students follow. Students who violate any of the course sequencing requirements are subject to disenrollment by the college regardless of performance or time lapse and will be allowed a tuition refund in accordance with the university’s refund schedule.

7020.60 Sequencing for All Students Enrolled in RCB Courses
Students may not register for any 3000/4000-level course taught by the Robinson College of Business until they have earned at least 45 semester hours of college-level credit.

7020.70 Sequencing for B.B.A. Students
B.B.A. students may not register for a course in the junior-year business core until Acct 2101, Acct 2102, Econ 2105, Econ 2106, and Math 1070 are completed with degree credit.

7020.80 Business Residence Requirement
At least 50 percent of the business credit hours required for the B.B.A. degree must be taken in residence at Georgia State University. This regulation is a requirement of the college’s accrediting body. These are the courses in the B.B.A. program that are considered “business credit hours:” Acct 2101, Acct 2102, BusA 2106, CIS 2010, Fi 3300, MGS 3100, MGS 3400, Mk 3010, BusA 4980, courses in the major (18-21 semester hours, depending on the major chosen), RCB electives (9-12 hours).

7020.90 Core Curriculum
As stated in the “Core Curriculum” section (1410) of the “University Degree Requirements and Graduation” section of this catalog, the university complies with the requirements of the core curriculum of the University System of Georgia. The 60 semester hours of course work for the freshman and sophomore years of the B.B.A. program are designed to conform to that core.

Transfer students from institutions in the University System of Georgia who followed the core curriculum at their previous institution and earned sufficient grades in courses listed in areas A through E of the core curriculum will be granted transfer credit for those relevant courses. This may mean that credit will be granted for courses that differ from those which would be taken at Georgia State University, as shown in the curriculum listed below.

Transfer credit will be given in Core Area F of the B.B.A. program for students who were following the business transfer program at a two-year college or the business curriculum for a bachelor’s degree at a four-year college or university in the University System of Georgia.

If a portion of a core area has been completed, then transfer credit for the corresponding portion at Georgia State will be granted.

7030 B.B.A. Degree Requirements
Areas A through E of the undergraduate core curriculum make up the first 42 semester hours of the freshman and sophomore years of the Bachelor of Business Administration degree program. These requirements are listed in the “University Degree Requirements and Graduation” chapter of this catalog as part of the description of the university’s core curriculum. Courses in the core curriculum that are recommended by the Robinson College of Business faculty are given in that description.
These suggestions reflect choices that will be particularly helpful in providing B.B.A. students with a strong foundation for Core Area F and the junior and senior years of the program.

The hours and course requirements for Core Area F, Business Foundation, and the junior and senior years are listed in this chapter. Please note the following information:

Refer to the “Business Residence Requirement” section, listed previously in this chapter, for information on the business credit hours that must be completed in residence at Georgia State University.

Students must have completed no fewer than 45 semester hours of college-level course work before taking 3000/4000-level courses in the Robinson College. Refer to the heading “Sequencing for All Students Enrolled in RCB Courses,” listed previously in this chapter.

Consult the course descriptions section for prerequisites and descriptions of courses listed below.

**Junior Communication Course.** (Minimum of grade of C- or higher is required in this course.)

- BCom 3950 Managerial Communication

*Major.* (Minimum of grade of C- or higher is required in each course.) The following major requires 18 semester hours in this portion of the curriculum:

**Finance***

The following majors require 21 semester hours in this portion of the curriculum:
Accounting  
Actuarial Science  
Computer Information Systems  
Economics  
Hospitality Administration  
Managerial Sciences  
Marketing  
Real Estate  
Risk Management and Insurance

Courses for each major should be selected after reviewing the appropriate school or department descriptions for each major that follow and, if needed, after consultation with a faculty adviser in the school or department that offers the major. The catalog describes each major and, if applicable, lists possible areas of specialization within the major. The required courses in each major, if any, are also listed in the school or department descriptions. The college reserves the right to amend this list of majors at the end of any semester.

**Junior/Senior RCB Electives.** (Minimum of grade of C- or higher is required in each course.)

Major requiring six semester hours of RCB electives: Actuarial Science. AS 4120 must be one of the RCB electives for actuarial science majors.

Major requiring nine semester hours of RCB electives: Accounting, **** Computer Information Systems, Economics, Finance,*** Hospitality Administration, Managerial Sciences, Marketing, Real Estate, Risk Management and Insurance.

These electives must be selected from 3000/4000-level courses in the Robinson College of Business that are outside the student’s major and are not cross-listed with courses in the student’s major. Majors other than economics may also select from the 3000/4000-level courses in the Department of Economics in the Andrew Young School of Policy Studies.

Refer to the online course listing at [http://www.gosolar.gsu.edu/webforstudent.htm](http://www.gosolar.gsu.edu/webforstudent.htm) to determine the Georgia State college that teaches a course. Do not refer only to the course title. For example, course titles with the words “business,” “management,” or “administration” in them are not necessarily RCB courses.

A cross-listed course is indicated by the parenthetical statement “Same as...” after the title in the course descriptions.

**Junior/Senior Electives Outside RCB.** These electives must be selected from the 3000/4000-level courses taught by Georgia State colleges other than the Robinson College of Business. These electives enable the B.B.A. program to meet the breadth requirement of the college’s accrediting body and cannot be taken in the Robinson College. Economics majors may not choose any economics courses for these electives.

Exceptions to the requirement that non-RCB electives be 3000- or 4000-level courses: Math 1070, 2211, 2212, 2215, and 2420 may be taken to satisfy all or part of the non-RCB elective requirement if the student will still have a minimum of 39 upper-level semester hours to complete at Georgia State. This provision ensures that the student will meet the university’s academic residence requirement.

For the following two specific majors, these required 2000-level mathematics courses may be used to satisfy part of the non-RCB elective requirement:

Actuarial Science: Mathematics 2211, Mathematics 2212, and Mathematics 2215 (grade of C- or higher required in Math 2215). These courses carry four semester hours of credit each. If the student’s mathematics background permits beginning this calculus sequence in Core Area A or D (in place of college algebra and/or precalculus), three-semester-hour courses that meet the requirements for non-RCB electives will replace Mathematics 2211 and/or Mathematics 2212. Thus, this portion of the curriculum can range from 10 to 12 semester hours.

Computer Information Systems: Mathematics 2420.

**Business Policy.** (Minimum of grade of C- or higher is required in this course.)

BusA 4980 Strategic Management Policy

* Students who transfer from other institutions in the University System of Georgia and have taken other approved courses in the Core Area F for business will take CIS 2010 and/or BusA 2106, as appropriate, in the Junior/Senior RCB electives section.

** Majors in actuarial science take AS 4130, Mathematical Theory of Statistics II.

*** Finance majors must take Acct 4210 as one of the RCB electives. The finance major requires an additional three semester hours that are either an RCB elective or a 4000-level finance course.
7030.20 Information Technology Access and Skill Requirements

Access Requirements: Because information technology is an integral part of business decision-making, courses in the Robinson College of Business frequently incorporate assignments that require computing skills. Consistent with university policy available at http://www.gsu.edu/~wwwist/policies.html, the Robinson College requires students to be responsible for providing computer and Internet access for all RCB courses and programs.

Hardware and Software Requirements: Georgia State has standardized on the Microsoft Office Suite in the student computer labs. For current information about hardware and software configurations and Internet service providers, see the website at http://www2.gsu.edu/~wwwets/index.html. Students may consult the university’s Office of Student Financial Aid for information about possible funding opportunities for computer and Internet access expenses.

Skill Requirements: Although students can expect to enhance their information technology skills as they work toward their degrees, the college expects all students to have certain basic skills before enrolling in any business course. These skills are defined as Basic Microcomputing Skills and are described below in the CSP 1 skills definition.

When courses require additional computing skills, these Computing Skill Prerequisites (CSP’s) are listed by number in the catalog course description.

Students should regularly consult the following website for updates and changes to the B.B.A. program and college regulations that occur after publication of this catalog and for other notices of interest to undergraduate students:

http://robinson.gsu.edu/academic/ouaa/updates.html.

The Robinson College of Business provides the Office of Undergraduate Academic Assistance for the benefit of its students.

**Mission:** This office supports the college’s mission of and commitment to academic excellence by assisting enrolled students in the development of meaningful educational plans that are compatible with their life goals. The office helps undergraduate students become knowledgeable about academic programs, pertinent regulations, and services available throughout the university.

**Areas of responsibility:** To support the undergraduate aspects of its mission, the Office of Undergraduate Academic Assistance works with B.B.A. students in these areas:

- to provide programs of study for each major offered by the college;
- to indicate to transfer students the specific credits for work done at other institutions which can be applied toward the B.B.A. degree;
- to assist students in course selections and schedule revisions each semester;
- to explain catalog regulations;
- to administer policies for the college and the university;
- to refer students to other sources of help in the university.

Students are advised by appointment except during walk-in times that are provided for brief questions that can be resolved in ten or fewer minutes. Walk-in advisement is 10 a.m. - 11 a.m. on Monday, Wednesday and Friday and 2 p.m. - 3 p.m. on Tuesday. Additional walk-in hours are available during some phases of registration. Contact the Office of Undergraduate Academic Assistance for dates and times. Appointment hours are 8:30 a.m. - 5 p.m. on Monday, Tuesday, Wednesday, and Friday and 8:30 a.m. - 1 p.m. on Thursday.

### 7040.10 Advisement

To ensure orderly progression through the degree program, students are urged to keep their catalogs and evaluations of credits readily available and to refer to them frequently as they schedule courses each semester. Students’ familiarity with their degree requirements is the foundation for advisement provided by the college.

B.B.A. students can be advised by academic advisers in the Office of Undergraduate Academic Assistance as described in the preceding section. Advisement from this office is not mandatory for the B.B.A. program, but the college encourages students with questions about their degree requirements or the academic regulations of the college or university to contact their adviser.

All students also may consult faculty members in the academic units of the college with questions about course content or for help in selecting major courses after reviewing the description of the major in the catalog. Students should contact the academic unit in advance to arrange a conference with a faculty adviser.

Professional assistance in selecting a career area is available through the university’s Counseling Center, 106 Courtland Street; the services of this center are described in the “Student Life and Services” chapter of this catalog.

### 7040.20 Robinson Career Management

7050 Student Appeals Procedure (See Addendum)

Admissions Appeals: At the undergraduate level, admission decisions are made by the university rather than the colleges. The university’s Office of Undergraduate Admissions should be contacted for the proper procedure.

Appeal of Course Grades: The process of appealing a course grade is as follows:

1. A student should first review the situation with the instructor who assigned the grade. If the question is not resolved, the student may appeal, in writing, to the department chair of the instructor who assigned the grade, sending a copy of the letter to the instructor. The letter must include all points that the student considers to be germane to the appeal; additional points not contained in the initial letter cannot be considered subsequently. The written appeal must be sent to the department chair within 30 calendar days of the first day of classes of the semester immediately following the semester in which the grade was given. If the final grade assignment occurred at a time other than the normal grade reporting process at the end of the semester, the written appeal must be sent to the department chair within 30 calendar days of the date the final grade was assigned. Normally, the chair’s decision will be conveyed to the student, in writing, within three weeks of the date the student’s written appeal is received.

2. A student who believes that the appeal was handled in an arbitrary, capricious, or discriminatory manner at the departmental level may appeal in writing to the associate dean. The written appeal must be received within 14 days of the date of the letter from the department chair, and it must indicate specifically why the student believes that due process was not exercised at the departmental level. The associate dean will examine the facts and review the appeal from the department chair. The dean will then render a written decision for the college within 45 days of the date of the letter from the department chair.

3. A subsequent appeal requires a written statement to the vice president for academic affairs indicating the basis of the appeal. The statement must be received within 14 days of the date of the dean’s letter to the student.

Appeals of Suspension and Exclusion: At the undergraduate level, appeals related to scholastic suspension or scholastic exclusion are considered by the university’s Student Advisement Center. That office should be contacted for the proper procedure.

7050.10 Student Petitions Procedure

Requests from students for waiver of specific requirements of the college or substitution of courses in the B.B.A. degree program should be submitted in writing to the Office of Undergraduate Academic Assistance four weeks prior to the event to which the petition relates. No guarantee can be made that decisions on petitions will be made before registration if they are submitted close to the beginning of or during a registration period.

Using the college’s standard petition form is encouraged; students must follow the directions given on the form for presenting a properly prepared petition. A letter may be acceptable without the standard petition form if the letter states clearly and completely the facts relevant to the petition. For any situation or claim that can be documented, proper documentation should be submitted with the petition. Only circumstances described in the written and signed petition will be accepted from the student; oral petitions are not permitted, nor are requests to submit additional information after the petition has been reviewed.

Appropriate faculty and/or administrative staff, as determined by the dean of the college, will review the petitions. Students will receive a written response from the dean’s designee normally within 15 workdays from the date the petition is received. (Work days are counted as Monday through Friday except university holidays.)

7060 College Honors Day

Each spring semester a College Honors Day is observed to recognize students in the Robinson College of Business for their academic excellence.
7070 Beta Gamma Sigma

Membership in Beta Gamma Sigma is the highest general scholastic honor a business student can receive at Georgia State University, and it is recognized as such throughout the academic and business communities. Nominations for membership in this national honorary business fraternity occur early in spring semester. Second-semester juniors who are in the upper seven percent of their class and seniors in the upper ten percent of their class are eligible for nomination.

7080 Business Learning Community

The Robinson College of Business offers a special Business Learning Community (BLC) for sophomore students in the fall and spring semesters. The BLC builds on the successful model of the Freshman Learning Community, giving students an integrated business curriculum and providing them with an introduction to the many programs offered in the Robinson College of Business. (See the Freshman Learning Community heading in a later chapter of this catalog.) Enrollment in the BLC is on a first-come/first-serve basis and requires a minimum 3.00 Georgia State GPA.

Students who are not a declared major in the Robinson College may be interested in the BLC program as the basis for a business minor. For students who are undecided about their major but have an interest in business, the BLC is a good way to get exposure to some business disciplines with required courses in the B.B.A. program. One of the major benefits of the BLC program is that its structure allows students to take multiple classes with a group of classmates, providing opportunities to work and learn together. The classes in the learning community are limited to 40 students, providing opportunities for more interaction with professors.

The Business Learning Community consists of the following grouping of courses:

**Fall Semester:**
- Econ 2105 Principles of Macroeconomics
- Acct 2101 Principles of Accounting I
- BusA 3000 Globalization and Business Practices
- Plus two additional three-hour courses of the student’s choice.

**Spring Semester:**
- Econ 2106 Principles of Microeconomics
- Acct 2102 Principles of Accounting II
- BusA 2106 Legal Environment of Business
- Plus two additional three-hour courses of the student’s choice.

For questions, phone (404/651-2895) or Email Dr. Marta Szabo White (mwhite@gsu.edu), BLC Faculty Adviser and Assistant Professor of Managerial Sciences.

5th floor, Robinson College of Business Building,  
404/651-2611  
Galen R. Sevcik, Director  
Siva Nathan, Undergraduate Program Coordinator  
Course prefix: Acct

The undergraduate accounting program is designed to provide the foundation-level technical and analytical accounting knowledge and skills needed to become a professional in the accounting field and to pursue a fifth (graduate) year of accounting study. The primary emphasis of the program is preparation for students who wish to apply for admission to the Master of Professional Accountancy program. In addition, the program is designed to provide appropriate preparation for entry-level positions in business and for graduate study in law or other business fields. The B.B.A. in accounting focuses on broad business and accounting exposure based on a sound foundation of general education.

Accountants today are expected to participate extensively in the general area of business management. The profession of accountancy is becoming increasingly divergent, encompassing such areas as financial and operational auditing, operations research, information systems development and assurance, financial reporting, corporate tax planning, and cost analysis and control.

In recognition of the advisability of acquiring a broadly based education in liberal arts and general business subjects, as well as the necessity of a thorough foundation in the highly specialized and diversified fields of accounting, a person desiring a career in accounting is encouraged to complete the entire professional program of study leading to the Master of Professional Accountancy degree.

7100.40 Certified Public Accountant (CPA) Examination

Taking the Uniform Certified Public Accountant (CPA) examination in the state of Georgia: Beginning with the November 2003 administration of the Uniform CPA Examination, candidates may qualify to take the examination based on having earned a baccalaureate degree with a concentration in accounting. A concentration in accounting is defined as completion of 20 semester hours in accounting subjects above the principles level at a 4-year accredited college or university that offers a baccalaureate degree.

Obtaining a license to practice as a Certified Public Accountant (CPA) in the state of Georgia: A candidate must pass the CPA Exam and meet additional educational and work experience requirements, to obtain a license to practice as a CPA. Students must have completed no fewer than 150 semester hours of college credit, of which 30 semester hours have to be in accounting above the principles level and 24 semester hours in general business subjects. An applicant who meets the general, educational, and examination requirements will be issued a license to practice as a CPA upon presenting evidence that such applicant has attained two years, including 4,000 hours, of continuous experience in public accounting, under the supervision of a person licensed to practice public accounting, immediately preceding the date of application for the certificate. Five years, including 10,000 hours, of continuous employment in the accounting field in business or industry, under the supervision of a person licensed to practice public accounting, or in government or college teaching, may be accepted in lieu of the aforementioned experience requirement. Part-time experience is permitted if it is continuous.

Students may take the CPA Exam after obtaining their undergraduate degree in accounting from Georgia State University. However, the School of Accountancy recommends that students meet the licensing requirements of the law by being admitted to either the Master of Professional Accountancy or Master of Taxation degree programs after completing an undergraduate degree. Students who plan to enroll at the master’s level should become aware of the admission requirements early in their undergraduate studies; a strong academic record and satisfactory scores on the Graduate Management Admission Test are important factors in master’s-level admission.

Health Informatics

The healthcare sector plays an increasingly important role in the US society and there is growing pressure to implement innovations that make it possible to deliver health services of higher quality and at lower costs. Healthcare institutions and processes are information-intensive in nature and the use of information technology (IT) to enable innovations has therefore been, and continues to be, in focus. On this background, there is a strong need for graduates that know how to effectively deploy information technology to innovate medical services and administrative processes within the healthcare industry. To graduate with a specialization in Health Informatics, students are required to complement a CIS major with the following RCB electives in Health Administration (9 hours): The Health Care System (HA 3900); Health Policy in the U.S. (HA 3910); Health Information Systems (HA 3970).

James R. Alm, Chair
Course Prefix: Econ

The Department of Economics is part of the Andrew Young School of Policy Studies. For economics faculty listing, see the Department of Economics heading in the “Andrew Young School of Policy Studies” chapter of this catalog.

Economics examines the material prosperity of countries and their citizens in an interdependent world of limited resources and technological change. In doing so, it studies how decisions are made by private businesses, governments, and households in producing, consuming, and distributing goods. In general, economics is concerned with how society can obtain the greatest output from its limited resources. Economics is also concerned with monetary arrangements and their impact upon purchasing power and economic performance.

Economic principles yield basic insights into the workings of the market system and the national and international environment within which business operates. These principles provide analysis that is fundamental to understanding the organization and decisions of the government, business, and financial sectors. Economics also develops criteria for assessing the
performance of the market systems and of governments regarding their efficiency and their impact upon the well being of consumers and workers.

Recent graduates with majors in economics have accepted positions as financial analysts for a real-estate financing firm and a major bank and as general manager for a recording studio, as well as having been accepted to prominent graduate programs in law and economics.

Andrew T. Sumner, Director
Course Prefix: HA

Health care represents the largest single sector of the economy, and many students will ultimately assume professional roles in fields that interact with health care in some manner. Health administration careers are available in many businesses and health care organizations in areas such as hospital and health system administration, physician practice management, consulting, research, marketing, information systems, managed care administration, finance, accounting, compliance, and human resources management. Since all consumers are part of an increasingly complex health care system, health administration courses are relevant and appropriate for all undergraduate majors.

Upper-level elective courses in health administration, perspectives courses in the core curriculum, and freshman learning communities are offered for those interested in acquiring general knowledge of the health care system, particularly those considering careers related to health care such as physicians, nurses, or other providers. Specifically, HA 3900, Introduction to the U.S. Health Care System, which offers introduction to the organization of health care delivery in the U.S., HA 3910, Health Policy in the United States, which examines how health care policy is developed, and HA 3970, Health Information Systems, which provides an overview of information systems in healthcare, are three elective courses. A health informatics specialization is available in the BBA computer information systems major. Although no BBA major is available in health administration, graduate degree programs are offered: Master of Business Administration/Master of Health Administration joint programs, Master of Science in Health Administration, and the MBA with a concentration in health administration.

**Programs Offered:**

**B.B.A. in Hospitality Administration**

210 Robinson College of Business Building
404/651-3512
Debra F. Cannon, Director
Course Prefix: HAdm

The mission of the Cecil B. Day School of Hospitality Administration is to provide leadership in the development of students for managerial roles in the hospitality and tourism industries, scholastic contributions to its constituencies, and service to the industry at the local, regional, national, and international level.

The primary goal is to provide a well-integrated curriculum incorporating courses in the arts, sciences, general business theory, and hospitality applications that will prepare our students for management positions in the hospitality industry.

The Cecil B. Day School of Hospitality Administration was named in honor of the late founder of the Days Inn Hotel chain. Cecil B. Day is remembered as an astute businessman who developed Days Inn to national prominence. He was equally respected because he gave freely of his time and wealth to worthy organizations. His legacy of excellence is the foundation upon which the program bases its philosophy for preparing future generations of hospitality executives.

The Cecil B. Day School of Hospitality Administration prepares its graduates for management careers in the following hospitality industry segments: hotel, restaurant, private club, food service, tourism, event planning, meeting planning, festivals, and trade shows. Graduates are awarded a bachelor of business administration degree with a major in hospitality administration.

Students majoring in hospitality administration will take 21 semester hours of required HAdm courses. These core courses will give the student a general knowledge of all segments of the hospitality industry. Specialized elective courses and work study experience allow students to gain additional insight regarding specific industry segments.

The school has the support of local, regional, and national hospitality executives. Georgia State University was the first institution of higher education to offer specialized courses in fair and trade show management. The school was chosen by the Club Managers Association of America to develop, produce, and direct their Business Management Institute for certification of
club managers across the United States. The school is an approved location for testing for the National Restaurant Association and the Educational Institute of the American Hotel and Motel Association’s certification courses.

The program was accredited in 1992 by the Accreditation Commission on Programs in Hospitality Administration, a specialized accrediting body. The program is an institutional member of the International Council on Hotel, Restaurant and Institutional Education, the principle academic and professional association for hospitality education programs.

The faculty of the program call upon practitioners to lecture on specialized industry topics. Industry managers and executives work with faculty and college administration to maintain a program relevant to industry needs. The school offers a mentoring program for hospitality majors as well as scholarships awarded annually.

Each student is matched with a senior executive who brings a wealth of experience and insight to the practice of international business. Applications accepted during the summer term for this annual program that begins each fall.

7180.40. Certificate in Entrepreneurship

The Certificate in Entrepreneurship program is designed for students from any undergraduate business major to complement that major with a focused study in entrepreneurship. Admission to the Certificate in Entrepreneurship program is subject to the minimum Georgia State University cumulative GPA requirement for entrance into RCB upper-level classes. Obtaining the Certificate in Entrepreneurship is based on completion of at least three specified courses with a minimum combined GPA of 3.3 for these courses, with no grade in any of them lower than a B.

Students in a variety of majors (for example, Computer Information Systems, Finance, Real Estate, Marketing, Hospitality, and Accountancy) may start or work in an entrepreneurial venture. The Certificate in Entrepreneurship, combined with the knowledge gained in their major, will help those students realize those career plans. Some students may use their major as they join a family-owned or other closely held company. Those students will also benefit from complementing their major with a focused study in entrepreneurship.

Certificate Requirements: Take any three of the following courses. Be aware that some have prerequisites and other requirements for enrollment. Although students are permitted to take MGS 4590 twice for graduation credit, it may count only once for the certificate.

MGS 4500 Entrepreneurial and New Venture Management
MGS 4550 Managing a Family Business
MGS 4560 Small Business Management
MGS 4590 Entrepreneurship Field Study

**Programs Offered:**

- B.B.A. in Actuarial Science
- B.B.A. in Risk Management and Insurance

11th floor, Robinson College of Business Building

Sanjay Srivastava, Chair

The Department of Risk Management and Insurance is an interdisciplinary academic unit. It offers undergraduate majors in actuarial science and in risk management and insurance, together with courses in the areas of legal studies and personal financial planning.

**7220 Actuarial Science**

**Course Prefix:** AS

Actuaries have been called financial architects and social mathematicians because of their unique blend of analytical and business skills in the insurance and financial services industry, as consultants in firms that specialize in employee benefits and pensions, in the government sector, and in a variety of other roles. To be recognized as a qualified actuary, a person should become a member of the Society of Actuaries or the Casualty Actuarial Society. Admission to membership is obtained by passing a series of examinations given by the societies. Completion of the actuarial science program at Georgia State University greatly enhances the possibility of passing the examinations given by the actuarial societies.

The tremendous demand for such highly trained persons makes a career in this area very rewarding financially and in providing the satisfaction that comes from membership in a well-recognized profession.

In order to meet the critical shortage of actuarial personnel in this region, the Southeastern Actuaries Club endorsed the establishment of the actuarial program at Georgia State University as part of the university’s comprehensive insurance educational activity. The program continues to have the strong support of the actuarial profession. Inquiries concerning the actuarial profession or the details of the program at Georgia State University should be directed to the department.

**7220.10 Program Admission**

There are no admission requirements specific to the Actuarial Science program. However, Actuarial Science students are required to meet all University and College admission requirements.
7220.20 Program Financial Information

Other Required Courses: The calculus sequence, Math 2211, 2212, 2215, is taken in place of the non-RCB electives. For students with appropriate mathematics background, Math 2211 and Math 2212 can be taken in place of Math 1111 (college algebra) in core area A and in place of Math 1113 (precalculus) in core Area D. Students who can make one or both of these substitutions will choose one or two non-RCB electives, as appropriate.

Math 2215 must be completed with a grade of C or higher.

AS 4120 is taken in place of an RCB elective, and AS 4130 is taken in place of MGS 3100 in the junior business core; grades of C or higher are required.

It is highly recommended that new actuarial science majors consult with their major adviser at their earliest convenience so that an efficient program can be constructed in accordance with the unique nature of the actuarial science major and course scheduling requirements.

7230 Legal Studies
Course Prefix: LglS

Mack Robinson College of Business serve the needs of the college and the university for legal education other than the professional education offered by the College of Law. Specific law courses also are offered to assist the undergraduate student who has an established career objective within a specialized area. For example, Principles of Business Law (LglS 4050) is designed for accounting majors. This course covers contracts, sales, commercial paper, secured transactions, bankruptcy and accountants’ professional liability. The course provides a foundation for topics on the CPA examination. Real Estate Law (LglS 4490) is an important course for undergraduate real estate majors. Introduction to the Law (LglS 3020), a comprehensive orientation to the American legal system, has primary appeal to political science, urban studies, and prelaw students.

No academic major is available in legal studies. No legal studies course may be used for credit toward a College of Law degree.

8020 European Union Studies Certificate Program

Department of Political Science
1005 General Classroom Building
404/651-3152
William M. Downs, Campus Representative

The certificate in European Union Studies is operated under the supervision of the European Council of the University System of Georgia. The program is open to all institutions and students of the University System as well as to professionals with an undergraduate degree. The program’s purpose is to promote knowledge of the European Union (EU) and certify individuals as competent in the subject area of EU studies. Since the EU is the most important economic and political partner of the United States, this certification demonstrates valuable professional expertise to potential employers. For students in the academic track, this interdisciplinary certificate can be earned as a supplement to any conventional undergraduate degree.

Admission to the Program

A certificate in European Union Studies can be earned in one of two ways. Under the academic track, a certificate is taken in tandem with an undergraduate degree program. Students from all academic majors are eligible to participate so long as they possess a minimum 2.75 cumulative grade point average (GPA). Under the professional track, non-degree seeking students—such as business executives—are eligible to enroll in the program upon proof of a valid undergraduate degree from an accredited institution. The minimum GPA requirement is waived.

Under either track, an application to the program cannot be made until successful completion of the following: (1) the introductory course on the European Union (PolS 4242) with a grade of “C” or better, (2) 30 semester hours of academic credit, and (3) a course in world or western civilization (Hist 1111 or 1112).

The European Union Studies Certificate

To earn the EU Studies Certificate, students must complete the certificate curriculum (18 hours) and fulfill the practicum experience requirement. Students must have a 3.0 cumulative GPA in curriculum courses upon completion of the program. An official certificate is awarded upon graduation, and the certificate is noted on a student’s permanent transcripts.

The EU Studies Certificate Curriculum (18):

- The European Union (PolS 4242) (3)
- Multidisciplinary Menu (12)

A student must complete four courses from an approved menu of courses dealing substantially with the EU. These courses must be distributed among at least three different discipline areas: Social Sciences, Humanities and Fine Arts, Business and Economics, and Natural and Health Sciences. The program’s campus representative decides which courses qualify for the certificate and maintains an updated list of approved courses in the different discipline areas. No more than one course in this menu can be taken at the 1000-2000 level, with the exception of EU Studies online courses (see below) and study abroad courses. Students may substitute for up to two menu courses by performing an internship and/or composing a thesis.
Capstone Seminar in EU Studies (3)

Taken either as a Directed Study (PolS 4920) or online course, this is ideally the last course in the certificate program. It has three learning objectives: (1) to update students on EU developments and reinforce their general knowledge of the EU, (2) to provide in-depth knowledge of important EU issues, and (3) to allow students to conduct intensive research on EU-related topics.

Practicum Experience

Since it is deemed crucial that students demonstrate more than an academic knowledge of the European Union to be certified as adequately prepared in the subject, a “real-life” practicum experience pertaining to the EU must be performed either in the form of an overseas visit or an internship. The overseas option is broadly defined and can be accommodated by a wide range of activities, including study or research abroad. The same flexibility applies to the internship, which can be served domestically or internationally. A student’s specific practicum experience must be approved by the program’s campus representative.

Online Courses and Transatlantic Joint Certificate

The EU Studies program has developed a curriculum of online courses in conjunction with European university partners. These are courses in different discipline areas that deal with various aspects of the EU and are taught jointly by University System institutions and European universities at specified times throughout the academic year. The program’s campus representative maintains an updated list of these courses and a teaching schedule, as well as information about course registration.

The EU Studies program offers the option of acquiring a certificate that is jointly conferred with a European institution. This option requires students to complete—with a grade of “B” or better—a minimum of two online courses that are co-taught with European partner universities. Students completing this option have the EU Studies certificate awarded by both their home institution and one in Europe, thus giving them an academic credential from a respected European university.

Areas of Distinction

In addition to acknowledging competence in the EU generally, the certificate also highlights special achievements by providing a notation of “distinction” in two areas: (1) foreign language proficiency (six semester hours at or above the 2000 level) and (2) composition of a thesis.

The foreign language distinction must be earned in a European language approved by the program’s campus representative as appropriate to the certificate’s objectives. A student with prior language skills can earn a distinction by successful completion of an examination demonstrating competency equivalent to the 2000 level. The exam is administered at the student’s home institution.

The thesis can be written anytime during the final year of study. It is supervised by a committee composed of three faculty members representing at least two different academic disciplines. The program’s campus representative maintains a more detailed description of thesis requirements.

10,010 The University System of Georgia

The University System of Georgia includes all state-operated institutions of higher education in Georgia; four research universities, two regional universities, 13 state universities, three state colleges, and 13 two-year colleges. These 35 public institutions are located throughout the state.

A 18-member constitutional Board of Regents governs the University System, which has been in operation since 1931. Appointments of board members, five from the state-at-large and one from each of the state’s thirteen congressional districts, are made by the governor and are subject to confirmation by the State Senate. Regular terms of board members are seven years.

The chairperson, vice chairperson, and other officers of the Board of Regents are elected by the members of the board. The chancellor, who is not a member of the board, is the chief executive officer of the board and the chief administrative officer of the University System.

The overall programs and services of the University System are offered through three major components: instruction, public service and continuing education, and research.

Instruction consists of programs of study leading toward degrees, ranging from the associate (two-year) level to the doctoral level, and certificates.

Standards for admission of students to instructional programs at each institution are determined by the institution pursuant to policies of the Board of Regents. The board establishes minimum standards and leaves to each institution the prerogative to establish higher standards. Applications for admission should be addressed to the institutions.

Public service and continuing education consist of non-degree activities, primarily, and special types of college degree credit courses. The non-degree activities include short courses, seminars, conferences, and consultative and advisory services in many areas of interest. Typical college degree credit courses are those offered through extension center programs and teacher education consortiums.

Research encompasses scholarly investigations conducted for discovery and application of knowledge. Most of the research is conducted through the universities; however, some of it is conducted through several of the senior colleges. The research investigations cover matters related to the educational objectives of the institutions and to general social needs.

The policies of the Board of Regents provide a high degree of autonomy for each institution. The executive head of each institution is the president, whose election is recommended by the chancellor and approved by the board.
