These catalogs provide information regarding all of the undergraduate and graduate programs offered by Georgia State University during the 2016-2017 academic year. The statements made in this catalog are for informational purposes only and should not be construed as the basis of a contract between a student and this institution.

Although Georgia State University has made every reasonable effort to present the information contained in this catalog with factual accuracy, no responsibility is assumed by the university for editorial or clerical errors. At the time of production and posting to the website, the text of this catalog most accurately described the course offerings, programs, faculty listings, policies, procedures, regulations, and requirements of the university. While the provisions of this catalog will ordinarily be applied as stated, Georgia State University reserves the right to change any provision listed in this catalog, including but not limited to academic requirements for graduation, without actual notice to individual students. Every effort will be made to keep students advised of any such changes. Information on changes will be available online in Catalog Addendums. Changes by colleges are also available in the Office of the Dean. It is the student’s individual responsibility to be aware of current graduation requirements for his or her particular degree program.

1000 University Information

Georgia State University is one of the nation’s largest universities, with more than 32,000 students on its Atlanta campus and another 21,000 on its five suburban campuses. An enterprising public research university, it is a national leader in graduating students from diverse backgrounds. Its Atlanta campus in the heart of the city provides its students and faculty with unsurpassed connections to the city’s business, government, nonprofit and cultural communities as well as opportunities in an environment of varied ideas, cultures, ages, lifestyles and experiences. Atlanta, home to more than a dozen headquarters of Fortune 500 companies, provides Georgia State’s faculty and students with an urban laboratory, enabling them to draw creative inspiration and address critical societal issues locally and in cities around the world.

Through its consolidation with Georgia Perimeter College in early 2016 Georgia State offers at its Perimeter College campuses two-year and online programs that provide access to higher education for students from all walks of life and streamlines their pursuit of a four-year degree at Georgia State.

Georgia State has a university-wide commitment to student advising and attention to student progress to graduation. The university is nationally recognized as a leader in creating innovative approaches that foster the success of students from all academic, socio-economic, racial and ethnic backgrounds. Georgia State is one of a handful of large institutions nationwide using technology to track students from the moment they arrive on campus until they graduate to ensure progress. With the university’s early warning tracking system, struggling students get the intervention they need to get back on track, improve or change their academic path. Georgia State is among the most diverse universities in the nation.

The university’s 10-year strategic plan, introduced in 2011, aims to enhance research and discovery, in part by implementing a faculty hiring initiative to build scholarly strength around interdisciplinary research themes. It also focuses on efforts to make the university a leader in undergraduate student success and puts renewed emphasis on improving graduate education. The plan emphasizes the university’s commitment to addressing issues and problems confronting cities around the globe and establishes as a priority the institution’s initiatives to extend its global involvement and influence.

Georgia State, founded in 1913, is central to the revitalization of downtown Atlanta, expanding its campus and building a more growing student residential community. More than 4,000 students now live in residence halls on a campus that once served commuting students exclusively. Its efforts to enhance student life and campus involvement included the introduction of a Division 1 football program in 2010 and membership in the Sun Belt athletic conference of the NCAA’s Football Bowl Subdivision in 2013.

On its Atlanta campus, the university offers 55 undergraduate and graduate degree programs in more than 250 fields of study in its eight academic colleges and schools, the Andrew Young School of Policy Studies, the Byrdine F. Lewis School of Nursing and Health Professions, the College of Arts and Sciences, the College of Education and Human Development, the College of Law and the J. Mack Robinson College of Business. Its recently established Honors College attracts students with outstanding academic credentials. Perimeter College offers 33 associate degree programs at its campuses in Alpharetta, Clarkston, Decatur, Dunwoody and Newton, and it has a robust online academic program.

1010 Mission Statement
Georgia State University, an enterprising public research university, transforms the lives of students, advances the frontiers of knowledge and strengthens the workforce of the future. The university provides an outstanding education and exceptional support for students from all backgrounds. Georgia State readies students for professional pursuits, educates future leaders, and prepares citizens for lifelong learning. Enrolling one of the most diverse student bodies in the nation at its urban research campus, at its vibrant branch campuses, and online, the university provides educational opportunities for tens of thousands of students at the graduate, baccalaureate, associate, and certificate levels.

Georgia State’s scholarship and research focus on solving complex issues ranging from the most fundamental questions of the universe to the most challenging issues of our day. The scholarly work and artistic expression of the university’s faculty create new knowledge, extend the boundaries of imagination, and enhance student learning. The university’s presence in the Atlanta metropolitan area provides extraordinary experiential learning opportunities and supports the work of faculty tackling the challenges of an urbanizing nation and world.

1020 Accreditation

Georgia State University is accredited by the Southern Association of Colleges and Schools: Commission on Colleges (SACS-COC) to award associate’s, baccalaureate, masters, specialist and doctorate degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097 or call 404-679-4500 for questions about the accreditation of Georgia State University.

1030 Degrees and Certificates Offered by Georgia State

1030.05 Perimeter College

Associate of Arts

Associate of Science

Guided Pathways in Art, Biology, Business Administration, Chemistry, Computer Science, Criminal Justice, Education (Early Childhood), Education (Middle Grades), Education (Special), Education (Health and Physical), Education (Secondary), Engineering, General Studies, Geology, Health Sciences (Health Information Administration), Health Sciences (Health Science Professions), Health Sciences (Medical Technology), Health Sciences (Radiologic Technology), Health Sciences (Respiratory Therapy), Kinesiology and Health (Exercise Science/Health Coach/Personal Training), Music, Physics, Psychology, Social Work, and Sport Management.
Associate of Science in Dental Hygiene

Associate of Science in Nursing

Associate of Science in Radiologic Technology

- in cooperation with DeKalb Medical School of Radiologic Technology
- in cooperation with Grady Health System School of Radiology Technology

1030.10 Andrew Young School of Policy Studies

Criminal Justice B.S., M.S., Ph.D.
Disaster Management G. Cert.

1040 Academic Resources

1040.10 Libraries

Georgia State University is served by two libraries on the Atlanta campus: the University Library and the College of Law Library, and library services at each of the Perimeter College campuses. The University Library occupies two buildings, North and South, bridged by a four-story glass link. The building includes 55 group study rooms, v-rooms equipped with 60 inch wall monitors and multimedia connection table boxes, a one-button studio to create high-quality and polished video projects using a flash drive and the push of a single button, quiet study on the 5th floor and a variety of other comfortable study spaces. Through the library website, students can access millions of resources instantly, including ebooks, databases, journals, and government documents. The library holds 1.5 million print volumes, and has borrowing agreements with libraries worldwide. Subject-specialist librarians consult with students and faculty, and assistance with basic research is available in person and online. A variety of technology services are provided and supported, including over 400 computers, plus wireless access. Laptops and tablets are among equipment available for checkout. The library’s Collaborative University Research and Visualization Environment (CURVE) provides access to high end computing resources, including a 24-foot-wide video wall designed for collaborative visual and data-rich research projects, seven additional collaborative workstations, some with 4K displays, and high-powered PCs and Mac Pros that allow users to work with and manipulate large images and datasets. Each workstation is equipped with a large display that can accommodate up to six people, allowing multiple groups to work together on a research problem. The University Library’s Special Collections and Archives preserve and digitize rare and historical materials. Library services at each of the five Perimeter College campuses provide collections, computer workstations, in-person assistance and online support for two-year degree and certificate programs in arts and humanities, science, business, health sciences, education and social science. For information about the University Library and its hours, visit library.gsu.edu or call 404-413-2820. For information about Perimeter College library services, visit library.gsu.edu/home/information-for-you/perimeter-college/

The College of Law Library provides faculty, students, and staff with the information resources and services that are necessary to support effective legal instruction and research. The Law Library is open 103 hours per week, seven days a week. Assistance is accessible remotely via e-mail and chat with librarians, and the library provides 24/7 access to online collections and resources. Primary service areas are circulation, reference, faculty research support, legal research instruction, interlibrary loan, and student law journal support. For information about the Law Library and its hours, visit lawlibrary.gsu.edu.
Information Systems and Technology (IS&T) provides students with innovative technology services, learning tools and computing support. Services include access to campus wireless, email, online storage and file-sharing, and free software, such as Microsoft Office Suite and anti-virus. Open-access computer labs across campus offer printing stations, device charging stations, equipment checkout, and specialized academic software. Free on-demand technology training is available online from Lynda.com and Skillsoft, and students are invited to attend complimentary, in-person technology workshops.

For a complete list of available services and instructions for getting started with campus technology, visit: technology.gsu.edu. For technical support, contact the IS&T Help Center at help@gsu.edu, 404-413-HELP (4357), or visit the Walk-Up Help Desk on the concourse level of Aderhold Learning Center.

In addition to the downtown campus, Georgia State University provides instruction at the Alpharetta Center. At the Alpharetta Center, the university offers graduate business and education credit classes, as well as non-degree programs for those living or working in the northern metropolitan area. The Alpharetta Center is located at 3705 Brookside Parkway, Alpharetta, Georgia. For Alpharetta Center information, call 404-413-2200.

The Robinson College of Business also offers the Executive MBA program, Professional MBA, Executive Doctorate in Business, Global Partner's MBA, One Year Master of Science Programs as well as non-degree Executive Education at a Buckhead location, Tower Place 200, 3348 Peachtree Road, Suite 400, Atlanta, Georgia. The Peachtree-Dunwoody location is for the PMBA Program and is located at the Palisades Building D, Suite 100, 5959 Peachtree-Dunwoody Road, NE, Atlanta, GA 30328.

The Welcome Center provides an official reception area and introduction to Georgia State University. Prospective students, visitors, alumni, faculty and staff can stop by for information about the university, its programs and activities.

The Welcome Center offers daily visit opportunities Monday through Friday, with 30-minute information sessions at 10:00 a.m. and 2:00 p.m., and 90-minute campus Atlanta tours at 10:30 a.m. and 2:30 p.m. Both will help familiarize you with our campus and downtown Atlanta.

The bus and walking tour highlights the advantages and excitement of going to school in Downtown Atlanta. The walking tour includes the University Center, Library, Recreation Center and various administrative and academic buildings. Guests will then ride Panther Express buses to see the modern residential halls. Complimentary parking is provided to visitors who register in advance for any of these sessions. For more information or to schedule a tour, please visit the Welcome Center online at welcome.gsu.edu. To schedule a special group tour for 10 to 50 people, please register online at http://welcome.gsu.edu/campus-visits/group-tour-request-form/ or call the Welcome Center at
404-413-2063. It is recommended that large groups have one adult chaperone for every 20 students, and
dates are requested at least two weeks in advance of the desired visit.

The Welcome Center is located on the ground floor of Centennial Hall at 100 Auburn Avenue (corner of
Courtland Street and Auburn Avenue). You may contact the Welcome Center at 404-413-2063 or by email
to tourguide@gsu.edu.

1040.50 Alumni Association

The Georgia State University Alumni Association provides a wide variety of programs and services to keep
alumni and students in touch, informed, involved and invested in their Alma Mater. The Alumni
Association provides networking opportunities through academic, professional, special interest and regional
alumni groups; leadership and volunteer opportunities in student recruitment and community service; the
Student Alumni Association, which is a program that links current students to alumni; and social activities
for rekindling friendships and fostering new ones.

The Alumni Association invites graduates back to campus during the year for special celebrations and life-
long learning and keeps graduates connected to Georgia State and to each other through the Georgia State
University magazine and an electronic newsletter, Panther News.

In addition, the Alumni Association adds to the vitality of the university by annually awarding 25 student
scholarships and honoring outstanding alumni and faculty through the Distinguished Faculty Awards and
Distinguished Alumni Awards.

The Alumni Association also sponsors several programs for current students including the “Lunch and
Learn” series of educational programs and the “Graduating Senior” series of informational seminars.

Anyone who has attended Georgia State is considered an alumnus or alumna. The Alumni Association is
governed by a volunteer board of directors, and specific programs are carried out with the assistance of
alumni volunteers and the Alumni Association staff. For more information, please call 404-413-2190 or
1-800-GSU-ALUM or visit the website at www.pantheralumni.com.

1040.60 Foundation

The Georgia State University Foundation is the primary destination for all gifts to the university. The
foundation is an independent, nonprofit, tax-exempt organization incorporated under Section 501(c) (3) of
the Internal Revenue Code. The foundation is classified as a public charity and contributions to the
foundation qualify as charitable donations. Management of the foundation is vested in a self-perpetuating
Board of Trustees, and the foundation receives an annual independent audit. Through its board and
committee structure, the foundation gives alumni and other volunteers personal opportunities to help
Georgia State accomplish its mission and goals.

The mission of the foundation is to raise, receive, manage, and disburse private gift funds for the benefit of
Georgia State University. The majority of private support for scholarships, academic disciplines,
endowments and other programs from individuals and organizations is contributed through the foundation.
Several facilities, including 25 Park Place, the University Commons, the Rialto Center for the Arts, the Alpharetta Center, the Lofts and the Student Recreation Center were acquired as a result of the efforts of the foundation.

### 1050 Policies and Disclosures

#### 1050.10 Equal Opportunity Policy

Georgia State University is an equal opportunity educational institution. Faculty, staff and students are admitted, employed, and treated without regard to race, sex, color, age, religion, national origin, sexual orientation, or disability. Georgia State University complies with Title IX of the Education Amendments of 1972, Titles VI and VII of the Civil Rights Act of 1964, the Civil Rights Act of 1991, Sections 503/504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, the Vietnam Era Veterans Readjustment Assistance Act, as well as other applicable federal, state and local laws. In compliance with these laws and regulations, Georgia State University has established the following specific policies:

**Civil Rights and Equal Employment Opportunities** — Georgia State provides equal employment and educational opportunities for all individuals without regard to race, sex, age, religion, color, national origin, sexual orientation or disability. All Georgia State University educational and personnel actions will be governed by an affirmative action program developed in compliance with applicable federal and state law and regulations, and the policies of the Board of Regents of the University System of Georgia.

**Discriminatory and Sexual Harassment** — In an effort to foster a community in which there can be a free and open development and discussion of ideas, Georgia State University is committed to maintaining a working and learning environment free of discriminatory and sexual harassment. Georgia State University has adopted policies and procedures concerning such forms of harassment that may be obtained from the Office of Opportunity Development/Diversity Education Planning, the Ombudsperson, or Dean of Students. In addition to the procedures outlined in these policies and procedures, a person alleging an instance of discriminatory or sexual harassment may file a complaint with the Office of Opportunity Development/Diversity Education Planning, the Ombudsperson, the Dean of Students, the respective college administrative unit and the appropriate state or federal agencies. Students can file complaints of sex discrimination with the Title IX coordinator, Linda J. Nelson, Assistant Vice President for Opportunity Development/Diversity Education Planning, in person at 460 Ten Park Place, by email at afaljn@langate.gsu.edu, by telephone at 404-413-3300 or by fax at 404-413-2560.

**Disabilities** — Georgia State University provides program accessibility and reasonable accommodations for persons with disabilities. Specifically, the university provides evaluation of individual needs, advisement, and appropriate support for academic programs for identified persons with disabilities. A student with a disability has the responsibility of contacting the Office of Disability Services for an intake interview to assess his or her needs prior to the first semester of enrollment at Georgia State University. Should any problems arise concerning his or her academic program, the student should contact the Office of Disability Services at 230 Student Center (404-413-1560) as soon as possible.

#### 1050.20 Disability Complaint Policy
Disability Accommodation Complaints

**Students** who disagree with eligibility or accommodation decisions made by the Office of Disability Services (ODS) may appeal the decision. The appeal must be submitted to the Director of ODS in writing within twenty (20) business days of the date of the decision. Further appeals will proceed up the line of report in accordance with the University’s established practices. **Employees** who disagree with eligibility or accommodation decisions made by the Office of Disability Services (ODS) may appeal the decision to the Assistant Vice President for Opportunity Development/Diversity Education Planning in writing within twenty (20) working days of the date of the decision. A copy of the Employee ADA Accommodation Policy and Procedures is located at http://odaa.gsu.edu/policies-procedures/equal-opportunity/equal-opportunity-and-affirmative-action-policy/.

Disability Discrimination Complaints

Georgia State University adheres to the Americans with Disabilities Act (ADA) of 1990 that was enacted to protect individuals with disabilities against discrimination. A **student or employee** of the University who believes they have been discriminated against on the basis of their disability may file a complaint with the Office of Opportunity Development. Complaints must be in writing and a discrimination complaint form is located at https://gsu-gme-advocate.symplicity.com/public_report. For more information, contact the Office of Opportunity Development, P.O. Box 3983, Atlanta, GA 30302-3983. Phone: 404-413-2567 Fax: 404-413-3295

1050.30 Disruptive Behavior Policy

The University has a policy that addresses student behavior in the learning environment that disrupts the educational process. In accordance with this policy, the University seeks resolution of disruptive conduct informally when possible. However, student conduct that disrupts the learning environment may result in sanctions up to and including withdrawal of the student from class. Students withdrawn from a course for disruptive behavior receive a grade of “W” or “WF”. The full text of the Disruptive Student Conduct Policy is available in the Office of the Dean of Students and at http://codeofconduct.gsu.edu/.

1050.40 University Code of Conduct

The University has established the policies and procedures that comprise the Student Code of Conduct to both promote the university mission and protect the rights of students, faculty and staff. The official University rules and regulations are contained in the Georgia State University General Catalog and the student handbook, On Campus. The most current version of the Student Code of Conduct may be found online at http://codeofconduct.gsu.edu/ each semester. In the event of a conflict between the Student Code of Conduct and other University policies, the most current version of the Code governs.

1050.50 Federal and State Law Disclosure Requirements

Federal and state laws require all colleges and universities receiving federal funds to establish certain programs, policies and procedures and to distribute an annual report describing the information and
providing statistics regarding: graduation rates; drug, alcohol and weapon violations; and certain crimes on campus, which include murder, robbery, aggravated assault, burglary, motor vehicle theft and sex offenses. The Georgia State University annual report and information regarding these programs, policies, procedures and statistics are available upon a written request directed to the Georgia State University Office of Public Information, 530 One Park Place Place South, Atlanta, Georgia 30303.

1050.60 Integrity in Research, Scholarly and Creative Activities

Georgia State University maintains high ethical standards in research and requires all faculty, staff and students engaged in research to comply with those standards. Cases of misconduct in research present a serious threat to continued public confidence in the integrity of the research process and the stewardship of federal funds. Misconduct includes fabrication or falsification of data, research procedures, or data analysis; destruction of data for fraudulent purposes; plagiarism; abuse of confidentiality; omission in publication of conflicting or non-conforming observations; theft of research methods or data; false attribution of authorization or creation of the creative works of another; and other practices that seriously deviate from those that are commonly accepted within the scholarly community for proposing, conducting or reporting research or creative works. Georgia State University will pursue allegations of misconduct to timely resolve all instances of alleged or apparent misconduct. To obtain a copy of the Research and Scholarly Misconduct Policy, the General Principles for Scholarly Integrity, and the Responsible Conduct of Research at Georgia State University publication, contact University Research Services and Administration, 217 Dahlberg Hall, 404-413-3500.

1050.70 Intellectual Property

In complying with the policies of the Board of Regents, Georgia State University has adopted an Intellectual Property Policy concerning the ownership and subsequent rights to intellectual property created by faculty, staff and students. The Intellectual Property Policy pertains to any patentable inventions, biological materials, copyrightable materials, software and trade secrets regardless of whether formal protection is sought. It is the responsibility of individual creators to disclose intellectual property to the University in a timely manner in accordance with the policy. To obtain a copy of the Intellectual Property Policy, contact University Research Services and Administration, 217 Dahlberg Hall, 404-413-3500.

1050.80 Student Complaints, Petitions for Policy Waivers and Variances, and Appeals

I. PURPOSE AND APPLICABILITY

Georgia State University seeks to maintain the highest standards of integrity and fairness in its relationships with students. The Undergraduate Catalog and the Graduate Catalog (both found at enrollment.gsu.edu/catalogs), and the Student Code of Conduct set forth policies and requirements for Georgia State students. Students are expected to know and comply with these policies. Students may, however, seek relief or resolution when they believe that:

A. The application of these policies and procedures will create undue hardship for them or will not recognize their extraordinary or extenuating circumstances; or
B. Specific actions, practices, or decisions on academic or non-academic matters have been made or carried out in an arbitrary, discriminatory, or inequitable manner.

The procedures set forth below cover complaints, petitions, and appeals related to University-wide and college-based policies. Individual colleges or departments may have additional or more specific procedures that may also apply to complaints, petitions, and appeals. Students are referred to the office of the dean of the particular college for information about additional or more specific procedures that apply. In case of conflict among policies, this University policy takes precedence over College and Departmental policies.

The following policies include their own complaint, petition and waiver procedures. This policy may not be used in lieu of these policies:

1. Any policy for anyone other than a student to make a complaint, file a grievance, or request a waiver, such as policies that govern faculty and staff.
2. All policies in the student code of conduct
3. Hardship withdrawal policy
4. Discriminatory and sexual harassment policies
5. Disability policies
6. College of Law Honor Code
7. Student parking policy

The procedures set forth below are applicable to undergraduate and graduate students of the University.

All appeals under these procedures will be made based only on the written record. A student’s appeal under these procedures will be granted only if the student can prove by preponderance of evidence that a decision was arbitrary, discriminatory, or inequitable.

II. STUDENT COMPLAINTS ON ACADEMIC MATTERS

A. College-Level Academic Complaints
   1. Final Course Grade Appeals
      - Students are encouraged to discuss concerns and disputes over final course grades with the instructor prior to filing a formal grade appeal, in an effort to gain understanding about the basis of his/her grade. Instructors are encouraged to be available to students for such discussion regarding grades so that grade disputes, to the extent possible, are resolved informally. The Office of the Ombudsperson can provide assistance to students, instructors and administrators with resolving disputes informally through voluntary facilitated discussions, in an effort to bring resolution to the matter prior to the initiation of a formal complaint.
      - In situations where such informal resolution does not occur or is not successful, the student may appeal the final course grade to the Department Chair. The appeal must be in writing and describe the precise reason for the appeal. Any pertinent information must be submitted with the appeal in order to be considered in this or subsequent appeals. The appeal must be submitted within 10 business days of the beginning of the academic term (fall, spring, and summer) that follows the term in which the final grade was submitted by the instructor. For example, if a student took an incomplete in a fall term course and completed the course works in the following
spring semester, then an appeal of that grade must be submitted within 10 business days of the beginning of the summer term. The Department Chair will provide a decision in writing to the student, normally within 10 business days of the receipt of the complaint in the Department.

- The student may appeal the decision of the Department Chair, as described in section 2-c through 2-e below.

2. Other College-Level Academic Complaints

- Judgments on the suitability of academic decisions made within a college are most appropriately made by individuals with expertise in the particular academic discipline involved. For this reason, resolution of student complaints about college level academic decisions, actions, or practices is the responsibility of the department and college involved. Normally, such complaints can be resolved quickly and informally through discussion with the faculty member directly involved. The Office of the Ombudsperson can provide assistance to students, instructors and administrators with resolving disputes informally through voluntary facilitated discussions, in an effort to bring resolution to the matter prior to the initiation of a formal complaint.

- In situations where such informal resolution does not occur or is not successful, the student may submit a formal complaint to the Chair of the appropriate academic department. The student’s complaint must be submitted in writing and be accompanied by pertinent documentation describing (a) the specific action, practice, or decision that is problematic; (b) the impact of that decision; (c) what resolution is being sought; (d) and why it should be granted. To promote prompt resolution, complaints must include current contact information and be submitted at the earliest possible time. Consideration will not be given to any complaint submitted later than the end of the term immediately following the term in which the matter in question arose. The Department Chair will provide a decision in writing to the student, normally within 10 business days of the receipt of the complaint in the Department.

- The student may appeal the Department Chair’s decision within 10 business days of being notified of the Chair’s decision. Such appeal will be made, in writing, to the Dean of the College in which the Department is located. At the discretion of the Dean, an advisory panel may be appointed to review the written documentation and make a recommendation to the Dean. The Dean will issue a decision to the student in writing, normally within 10 business days of the receipt of the appeal.

- The student may appeal the Dean’s decision to the Provost, in writing, within 10 business days of being notified of the Dean’s decision. The Provost will issue a decision to the student, in writing, within 20 business days of receiving the appeal.

- The student may appeal the Provost’s decision to the President, in writing, within 10 business days of being notified of the Provost’s decision. The President will issue a decision to the student in writing within 20 business days of receiving the appeal.

- The student may appeal the President’s decision to the Board of Regents, in writing, within 20 business days of being notified of the President’s decision. Decisions regarding grades may not be appealed to the Board of Regents (BOR Policy 407.01).

B. University-Level Academic Complaints

1. Judgments on the suitability of academic decisions made at the University level are most appropriately made by individuals with expertise in the particular area. Normally, such complaints can be resolved quickly through discussion with the Academic Administrator directly involved. (See the University Organizational Chart at
Students can contact the Office of the Ombudsperson for assistance in preparing for discussion with academic administrators. The Office of the Ombudsperson can also provide assistance to students and academic administrators with resolving disputes informally through voluntary, facilitated discussions, in an effort to bring resolution to the matter prior to the initiation of a formal complaint.

2. In situations where such informal resolution does not occur or is not successful, the student may submit a formal complaint to the Associate Provost for Academic Programs. The student’s complaint must be submitted in writing, and be accompanied by pertinent documentation describing (a) the specific action, practice, or decision that is problematic; (b) the impact of that decision; (c) what resolution is being sought; and (d) why it should be granted. To promote prompt resolution, complaints must include current contact information and be submitted as early as possible, but no later than the end of the term immediately following the term in which the matter arose. The Vice Provost for Academic Programs will normally issue a decision to the student in writing, within 10 business days of receiving the complaint.

3. The student may appeal the Vice Provost’s decision to the Provost within 10 business days of being notified of the decision. The Provost will respond in writing to the appeal within 20 business days of receiving the appeal.

4. The student may appeal the Provost’s decision to the President in writing within 10 business days of being notified of the Provost’s decision. The President will respond in writing to the appeal within 20 business days of receiving the appeal.

5. The student may appeal the President’s decision to the Board of Regents in writing within 20 business days of being notified of the President’s decision. Decisions regarding residency and the Guaranteed Tuition Plan may not be appealed to the Board of Regents (BOR Policy 407.01).

III. NON-ACADEMIC COMPLAINTS

1. Judgments on the suitability of non-academic decisions are most appropriately made by individuals with expertise in the particular area. Normally, such complaints can be resolved quickly through discussion with the Administrator in charge of the department making the decision. (See the University Organizational Chart at http://www.gsu.edu/about/governance-and-strategy/administrative/.) Students can contact the Office of the Ombudsperson for assistance in preparing for discussion with non-academic administrators. The Office of the Ombudsperson can also provide assistance to students and non-academic administrators with resolving disputes informally through voluntary, facilitated discussions, in an effort to bring resolution to the matter prior to the initiation of a formal complaint.

2. In situations where such informal resolution does not occur or is not successful, the student may submit a formal complaint to the Vice President or Vice Provost who oversees the area. The student’s complaint must be submitted in writing, and be accompanied by pertinent documentation describing (a) the specific action, practice, or decision that is problematic; (b) the impact of that decision; (c) what resolution is being sought; and (d) why it should be granted. To promote prompt resolution, complaints must include current contact information and be submitted as early as possible, but no later than the end of the term immediately following the term in which the matter arose. The Vice President or Vice Provost will provide a decision to the student in writing, normally within 10 business days of the receipt of the complaint.
3. The student may appeal the Vice President’s or Vice Provost’s decision to the Provost in writing within 10 business days of being notified of the decision. The Provost will respond in writing to the appeal within 20 business days of receiving the appeal.

4. The student may appeal the Provost’s decision to the President in writing within 10 business days of being notified of the Provost’s decision. The President will respond in writing to the appeal within 20 business days of receiving the appeal.

5. The student may appeal the President’s decision to the Board of Regents in writing within 20 business days of being notified of the President’s decision. Decisions regarding traffic citations may not be appealed to the Board of Regents (BOR Policy 407.01).

IV. STUDENT PETITIONS FOR ACADEMIC POLICY WAIVER or VARIANCE

A. College-Level Policy Waiver or Variance Petitions
   1. Students may petition for a waiver or variance of a department-level or college-level policy. The appropriate College Office of Academic Assistance can provide the student with college policies and petition procedures.
   2. The student must submit a petition, in writing, to the Office of Academic Assistance of the College which has made the policy in question. The petition must include the following: (a) the policy from which the student is seeking a waiver or variance, (b) the deviation being sought; and (c) the reason(s) why the exception should be granted. The Office of Academic Assistance representative will determine whether the petition needs to be addressed at the departmental or college level, and will forward the petition to the appropriate administrator who will notify the student of his or her decision.
   3. The student may appeal the decision, in writing, following the procedures stated in Section II.A.2.c through f above, the College-Level Academic Complaint Policy and Procedures. If the original decision was rendered by a Department Chair, the appeal should be initiated at the level of the Dean; if the original decision was rendered by the Dean (or his or her designate), the appeal should be initiated at the level of the Provost.

B. University-Level Policy Waiver or Variance Petitions
   1. Students may request a waiver or variance of a policy established by the University or the Board of Regents (BOR).
   2. All requests for waivers or variances from university and BOR level policies will be made based only on the written record.
   3. All petitions must include the following:
      - The section number from the Catalog (or other official University document) of the policy or requirement from which the student is requesting a waiver
      - the deviation being sought;
      - the reason(s) why the exception should be granted
      - a current copy of the student’s academic evaluation record
      - a current copy of the student’s Georgia State University transcript (unless the petitioner is not yet a Georgia State student)
      - transcripts from all other colleges the student has attended (if the petitioner has attended other colleges).
   4. Financial Aid Appeals (Appeals of Rules Currently in Section 1200 of the Catalog)
      - Appeals of financial aid rules will be made in the first instance by the Director of Financial Aid.
      - If the petition is denied, the student may appeal to the Financial Aid Appeals
Committee, a committee appointed by the Vice Provost for Academic Programs. The student must appeal in writing and within 10 business days of being notified of the decision of the Director of Financial Aid.

5. Add, Drop and Withdraw Appeals (Appeals of Rules Currently in Section 1332 of the Catalog)
   - Appeals of the add, drop and withdrawal rules will be made in the first instance by the University Registrar.
   - If the petition is denied, the student may appeal to the Registration Appeals Committee, a subcommittee of the Senate Committee on Admissions and Standards. The student must appeal in writing and within 10 business days of being notified of the decision of the University Registrar.
   - The Registrar will copy the Chair of the Registration Appeals Committee on all letters to students notifying them of results of their petitions. Every semester, the University Registrar will distribute to the Senate Committee on Admissions and Standards a report that indicates (at a minimum) the number of petitions filed, the number granted, and the number denied. Any member of Admissions and Standards may review the documents of any petition when there is a legitimate educational interest.

   - This motion policy does not change the Emergency Withdrawal policy.

6. Course Load, Scholastic Discipline, Course Substitution in the Core, and Regents Test Appeals (Appeals of Rules Currently in Sections 1330.30, 1360, 1410, and 1420 of the Catalog)
   - Appeals of rules regarding course load, scholastic discipline, course substitution in the core, and Regents Test will be made in the first instance by the Director of the University Advisement Center. However, appeals for waivers of Section 1330.30 (Course Load) will be considered by the student’s college if the student has declared a college and will follow the procedure outlined in Section IV.A above.
   - If the petition is denied by the Director of the University Advisement Center, the student may appeal to the Academic Regulations Appeals Committee, a subcommittee of the Senate Committee on Admissions and Standards. The student must appeal in writing and within 10 business days of being notified of the decision of the Director of the University Advisement Center.
   - The Director of the University Advisement Center will copy the Chair of the Academic Regulations Appeals Committee on all letters to students notifying them of results of their 2 petitions. Every semester, the Director of the University Advisement Center will distribute to the Senate Committee on Admissions and Standards a report that indicates (at a minimum) the number of petitions filed, the number granted, and the number denied. Any member of Admissions and Standards may review the documents of any petition when there is a legitimate educational interest.

7. Academic Regulation and Graduation Requirement Appeals (Appeals of Rules currently in other parts of Sections 1300 and 1400 of the Catalog)
   - Appeals of other university-level academic rules and graduation requirements will be made in the first instance by the Assistant Vice President of Student Retention.
   - If the petition is denied, the student may appeal to the Academic Regulations Appeals Committee, a subcommittee of the Senate Committee on Admissions and Standards. The student must appeal in writing and within 10 business days of being notified of the decision of the Assistant Vice President of Student Retention.
   - The Assistant Vice President of Student Retention will copy the Chair of the
Academic Regulations Appeals Committee on all letters to students notifying them of results of their petitions. Every semester, the Assistant Vice President of Student Retention will distribute to the Senate Committee on Admissions and Standards a report that indicates (at a minimum) the number of petitions filed, the number granted, and the number denied. Any member of Admissions and Standards may review the documents of any petition when there is a legitimate educational interest.

8. Subsequent Appeals

- The student may appeal the decisions of the Admissions Appeal Committee, Financial Aid Appeals Committee, the Registration Appeals Committee, and the Academic Regulations Appeals Committee to the Vice Provost for Academic Programs in writing within 10 business days of being notified of the decision. The Associate Provost will respond in writing to the appeal within 20 business days of receiving the appeal.
- The student may appeal the Vice Provost’s decision to the Provost in writing within 10 business days of being notified of the decision. The Provost will respond in writing to the appeal within 20 business days of receiving the appeal.
- The student may appeal the Provost’s decision to the President in writing within 10 business days of being notified of the Provost’s decision. The President will respond in writing to the appeal within 20 business days of receiving the appeal.
- The student may appeal the President’s decision to the Board of Regents in writing within 20 business days of being notified of the President’s decision.

V. DEADLINES

A. The University strives to resolve complaints and petitions by the deadlines established in this Policy. However, each situation is unique and may prevent the meeting of a deadline. Every effort will be made by the parties involved to minimize the delay and proceed through the processes outlined in this Procedure as close to the deadlines as possible.

B. All deadlines established in this Policy are stated in terms of business days. If a deadline falls on a weekend or scheduled holiday, the deadline will be the next scheduled workday of Georgia State University.

C. Students lose their right to continue to the next step of the procedures if they miss a stated or agreed-upon deadline.

VI. MEDIATION

Students who have filed formal complaints or petitions or those who have had formal complaints filed against them under Sections II A or B of this Policy (except for grade appeals) may request that the matter be submitted to mediation in an effort to achieve resolution. Mediation is a voluntary, confidential process whereby a neutral person facilitates discussion between the parties in a mutual attempt to reach resolution on the issues raised by the parties.

In the event mediation is agreed upon by both parties, the timelines under this policy shall be suspended until which time the mediation is completed. In the event that mediation results in agreement, the student’s complaint will be considered resolved. In the event that mediation does not result in resolution of the matter, the student may appeal to the next level of review under this policy.
Information derived from mediation discussion may not be used as the basis for higher levels of appeal, nor can the mediator be asked to provide information or make any decision at any level of the formal appeals process. Persons interested in mediation should contact the Office of the Ombudsperson.

GLOSSARY
POLICIES, PROCEDURES AND PRACTICES

Policy: A written statement (rule or principle) used to govern the actions of Georgia State University’s employees, faculty, students, visitors, and others who come in contact with Georgia State University. For the purposes of this document, academic policies are those pertaining to scholarly programs (e.g., program degree requirements), or the students’ progress through those programs (e.g., program prerequisites, financial aid, registration). Non-academic policies are those pertaining to functions that only indirectly support the students’ academic endeavors (such as housing, recreation, or parking).

University-Level Student Policies: Policies established under the authority of the university and applied to all students in all colleges. These policies are implemented and enforced by central academic or administrative offices (for example, the Registrar’s Office, the Student Financial Aid Office, or the University Library).

College-Level Student Policies: Policies established under the authority of a college and applied to all students enrolled in courses or programs offered by that college: Andrew Young School of Policy Studies; College of Arts and Sciences; College of Education; Lewis School of Nursing; School of Health Professions; School of Public Health; Robinson College of Business.

Procedure: A guideline that explains how policies are to be carried out or implemented; may or may not be in writing.

Practice: A commonly accepted way or pattern of doing things; typically not in writing.

ARBITRARY, DISCRIMINATORY, INEQUITABLE

Arbitrary: In an unreasonable or capricious manner, in disregard of facts, or without determining principle.

Discriminatory: In a manner that is unfair or denies privileges to persons because of their race, sex, color, age, religion, national origin, sexual orientation, or disability.

Inequitable: In a manner that fails to treat similarly situated persons the same way.

COMPLAINTS, PETITIONS and APPEALS

Complaint: An objection to a decision, action or practice with a request that it be changed or reversed; a claim seeking remedy, relief, or resolution. Complaints may be against a decision or action that was based on either University-level or College-level policy.

Petition for Waiver or Variance: A request for a suspension (waiver) or modification (variance) of a particular policy which, if applied normally, would cause undue hardship for the individual.
Waiver: An agreement that suspends a particular policy for an individual in a specific situation due to the special circumstances of that individual. (When a waiver (or suspension) of a policy is granted, the individual does not have to comply with some or all of the particular requirements set within that policy).

Variance: An agreement that modifies a particular policy for an individual in a specific situation due to the special circumstances of that individual. (When a variance (modification) of a policy is granted, the individual must comply only with the modified requirements.)

Appeal: A request that a decision on a complaint or petition be reconsidered at a higher level in the University.

PEOPLE

Academic Administrator: The head of a centralized university office or department that has responsibility for academic-related student processes (such as the Registrar’s Office, the Office of Admissions, the Student Financial Aid Office, the Office of Student Accounts, the Student Advisement Center); typically reports through an Associate Provost.

Administrator in Charge: The head of a University office with responsibility for non-academic student processes (such as the Housing Office, the Office of Parking and Transportation, the Bookstore); typically reports through a Vice President.

1050.90 Criminal & Disciplinary History: Continuing Duty to Report

Disclosure of criminal/disciplinary history is required on the Georgia State University admission application. Georgia State students have a continuing duty to report criminal/disciplinary events that occur after submission of their admission application. The criminal/disciplinary events that must be reported under this continuing duty are described below and reports must be made to the Office of the Dean of Students within 72 hours of student’s notice of the event. Failure to comply with this requirement may result in sanctions up to and including immediate withdrawal from the University.

- Conviction of a crime other than a minor traffic violation
- Criminal charges filed against the student
- Entering a plea of guilty, a plea of no contest, a plea of nolo contendere, an Alford plea, or a plea under any first offender act in response to charges filed against the student
- Disciplinary or academic misconduct charges initiated or sanctions imposed against the student from a high school, trade school or other college or university.

1055 Family Educational Rights and Privacy Act (FERPA)

I. Introduction

The Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. § 1232g; 34 CFR Part 99) is a Federal law that protects the privacy of student education records. The law applies to all schools that receive funds under an applicable program of the U.S. Department of Education. FERPA rights are
provided only to University applicants upon actual acceptance to and subsequent enrollment for classes at the University. Under FERPA, students attending an institution of postsecondary education may:

A. Consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that such disclosures are authorized without consent as more fully described below in Paragraph IX (A);
B. Choose to suppress (i.e., keep from being disclosed) their directory information per the process identified below in Paragraph IX (B);
C. Inspect and review their education records;
D. Seek amendment of those education records believed to be inaccurate, misleading or otherwise in violation of their privacy rights; and
E. File complaints with the Department of Education about alleged failures by the University to comply with the requirements of FERPA.

II. Definitions

A. Student: any person who attends or has attended the University. For purposes of FERPA, Georgia State University considers an admitted student to be “in attendance” upon enrollment/registration for classes. Note: The definition of “student” set forth above is only for use in connection with this guidance. For the official University definition of “student”, please refer to the Georgia State University Student Code of Conduct.

B. Education Records: any records (in handwriting, print, tapes, film, computer or other medium) maintained by the University or an agent of the University which are directly related to a student except:

1. A personal record kept by a faculty or staff member if it is kept in the sole possession of the maker of the record, is not accessible or revealed to any other person except a temporary substitute for the maker of the record and is not used for purposes other than a memory or reference tool.
2. Records created and maintained by the Georgia State University Police Department for law enforcement purposes.
3. An employment record of an individual whose employment is not contingent on the fact that he or she is a student.
4. Records made or maintained by a physician, psychiatrist, psychologist or other recognized professional or paraprofessional if the records are used only for treatment of a student and made available only to those persons providing the treatment.
5. Alumni records which contain information about a student after he or she is no longer in attendance at the University and which do not relate to the person as a student.

C. Directory Information: information contained in an education record of a student that would not generally be considered harmful or an invasion of privacy if disclosed. Georgia State University has designated the following types of information to be directory information: student name, mailing addresses, telephone number, date and place of birth, major field of study, full or part-time status, participation in officially recognized activities and sports, degrees and awards applied for and/or received, dates of attendance, previous educational institutions attended by the student, photographs and other recorded images, and, with respect to members of athletic teams, height, weight, age, hometown, hobbies, and general items of interest.

III. Federal Student Records Law
Annually, Georgia State University informs students of the protections afforded by the Family Educational Rights and Privacy Act (FERPA) of 1974. (20 U.S.C. 1232g and 34 C.F.R., 99.1-99.67) This Act, with which the institution endeavors to fully comply, was designed to protect the privacy of educational records, and to establish the right of students to inspect and review their non-privileged educational records. The act also provides guidelines for the correction of inaccurate or misleading data through informal and formal hearings. Students have the right to file complaints with the U.S. Department of Education Family Policy Compliance Office concerning alleged failures by the University to comply with the Act. An informal complaint may be filed within the University by contacting the Registrar. This guidance explains in detail the procedures to be used by the University for compliance with the provisions of the Act. Questions concerning the Family Educational Rights and Privacy Act may be referred to the Office of the Registrar or the Office of Legal Affairs.

IV. University-Maintained Student Records

The student records maintained by the University are classified as follows:

A. Official academic records are maintained in the Office of the Registrar. They include admission applications and associated documentation; the registration records for each semester in residence; the records of grades and credits received in courses at this University or accepted here from another institution; and other documents directly relating to academic progress and status. The dean of each college is the custodian of records for all college and departmental records regarding students not of the type maintained by the Registrar’s Office.

B. Disciplinary records are maintained by the Office of the Dean of Students. They include information about the investigation, adjudication and imposition of sanctions by the University against an individual student for breach of the University’s Code of Conduct or other written policies.

C. Financial records: Fee payment records are maintained by the Office of Student Accounts. Financial aid application records, including tax forms, are maintained by the Financial Aid Office.

D. Employment records of students receiving financial aid consist of work-study authorizations and are maintained by the Financial Aid Office. Non-work study employment records of students are maintained by the Office of Human Resources. Graduate student teaching and research appointment records are maintained by the involved College or department. Some employment records of students with graduate teaching and research appointments may also be maintained by the Office of Human Resources.

E. Medical, psychological and counseling records are maintained by the University department providing the involved health care (i.e., Health Clinic, University Counseling & Testing Center). They include records of examinations and treatments.

F. Career and job search records are maintained by University Career Services.

G. Housing records are maintained by University Housing. They include housing applications/agreements and related information.

H. PantherCard and parking records are maintained by Auxiliary and Support Services.

Student educational records maintained on Banner are covered by this guidance and should only be accessed by University employees with a legitimate educational interest or whose access is otherwise undertaken to comply with FERPA. Unauthorized access is a violation of federal law and University policy.
No record shall be kept of the political views of students or of student membership in any organization except for academic, honorary, professional and social organizations directly related to University life. Records maintained by student organizations are not considered University records. Student organizations are, however, expected to take reasonable steps to protect student information they maintain from unwarranted invasions of privacy and to permit students to access their records.

V. Student Access to Records

Access to a student’s official academic record, disciplinary record and financial aid record is guaranteed to him or her subject only to reasonable regulation as to time, place and supervision with the exceptions of those types of documents identified below:

- Any and all documents written or solicited prior to Jan. 1, 1975, on the presumption that they were intended to remain confidential and privileged.
- Any and all documents to which access has been waived by the student.
- Any and all records which are excluded from the FERPA definition of educational records.
- Any and all financial data and income tax forms submitted in confidence by a student’s parent(s) in connection with an application for or receipt of financial aid.
- Any and all records connected with an application to attend Georgia State University or a component unit of Georgia State University if that application was denied or, in the alternative, if the application was accepted but the applicant never enrolled (FERPA rights extend only to applicants upon actual acceptance and subsequent enrollment).
- Those records which contain information on more than one student to the extent that a requesting student has the right to view only those portions of the record which pertain to his or her own educational records.
- Confidential recommendations and evaluations (Placement records maintained by the University Career Services may be inspected by the subject of the file with the exception of recommendations or evaluations to which the student has waived his or her access. Confidential recommendations and evaluations are only included in a student’s placement file if the student has voluntarily submitted a written waiver of access to the recommendations and evaluations. If a student has not waived access, then recommendations and evaluations submitted on condition of confidentiality are returned to the sender).

A. Inspection of records is granted only upon written request, presented in person with appropriate identification, and must be made in the presence of designated personnel of the office maintaining the records. All requests shall be granted as soon as practicable, but in no event later than 45 days after the date of request. No documents or files may be altered or removed once a request has been filed. When an original record is shown to the student, examination will be permitted only in the presence of a University employee and any other conditions deemed necessary to prevent the alteration, mutilation, or loss of such original records. Upon reasonable request by the student, verbal explanations and interpretations of education records will be promptly provided except where a verbal response is not practical or appropriate. Requests for written explanations/interpretations of education records must be made in writing. If an education record is not in a form readily reviewable by the student (e.g., records stored in microfilm or electronically), a true and correct copy of the record will be provided for the student’s inspection.

B. Copies of Records
   1. Copies to students will be provided to students in good standing upon written request and
payment of fees for copies (see the Request for Access to Student Record Form in the Academic Records area of the Registrar’s site), with the exception of transcripts received from other educational institutions and any documents the student has waived his or her right to see. Copies of education records may be withheld by the University when the student is not in good standing as a result of such conditions as unmet financial obligations and violations of institutional regulations. Such records to be withheld may include, but are not limited to, grade reports, transcripts, and certifications of student achievement and performance. A transcript of a student’s official academic record contains information about his or her academic attainment and status exclusively. Only the Registrar is authorized to issue transcripts or to certify in any way the official academic record of a student. An official transcript is issued only when requested by the student in writing.

2. Copies to third parties will be provided upon receipt of the student’s written and signed consent for disclosure of the records. Such a written consent must:
   1. identify the records to be disclosed,
   2. identify the person or class of persons to whom the disclosure may be made,
   3. specify the time period during which consent is applicable, and*
   4. be signed and dated.

* A Consent to Release Information to Third Parties form is available online in the Academic Records area of the Registrar’s website.

VI. Requests for Amendment and Challenge Hearings

If, upon inspection and review of his or her record, a student believes that the record is inaccurate, misleading or otherwise in violation of his or her privacy rights, he or she may request that the record be corrected. A request for correction must be submitted in writing and must specify the information being questioned, the revision requested, and the reasons the student has for disagreeing with the entry in question. Any supporting documentation should be attached to the request. Where possible, disagreements should be resolved informally. This provision does not apply to grade appeals, and students wishing to appeal the assignment of a grade should refer to the Policy and Procedures for Student Complaints, Petitions for Policy Waivers and Variances, and Appeals.

Only the Registrar, upon consultation with the respective dean, may authorize a correction in a record within the academic file of a student. Similar authority is held by the Vice President for Student Affairs, the Director of Admissions, the Director of Financial Aid, the respective College Dean and the Director of Personnel for the records which are maintained under the authority of these various University officials.

The University representative to whom a request for correction of a non-academic file is properly addressed will notify the student of his or her decision within 21 days after receipt of the written request. If the University decides that the information in a student’s education record is inaccurate, misleading or in violation of the student's right of privacy, it will amend the record and notify the student, in writing, that the record has been amended. If the University decides that the challenged information is not inaccurate, misleading or in violation of the student’s right of privacy, it will notify the student of the right to place in the record a statement commenting on the challenged information and a statement setting forth reasons for disagreeing with the decision. Such a statement shall become a part of the information contained in the education record and will be disclosed with it.
Should the University decide the challenged information is not inaccurate, misleading or in violation of the student’s right of privacy, then the student will also be advised of the right to appeal the University’s decision and challenge the information believed to be inaccurate, misleading or in violation of the student’s privacy rights. The appeal may extend only to the material in the respective University file. While it may extend to the correct recording of a grade, it may not include a challenge to the assignment by the instructor of the grade. The student has 20 days to appeal the decision in writing to the Provost and ask for a hearing. On behalf of the President of the University, the Provost shall refer the appeal to an existing committee or designate a hearing committee comprised of University officials who do not have a direct interest in the outcome of the hearing. Georgia State University will notify the student, reasonably in advance, of the date, place and time of the hearing. The student shall be afforded a full and fair opportunity to present evidence relevant to the issues raised in the original request to amend the student’s education records. The student may bring one individual to act as an advisor but the individual may not address the committee. The committee will prepare a written recommendation based solely on the evidence presented at the hearing and submit it to the Provost who will make a determination on the matter. The recommendation will include a brief summary of the evidence presented and the reasons for the decision. The decision of the Provost may be appealed in writing to the President within 20 days of the date of the decision. The appeal to the President shall be made on the record.

VII. University Career Services

The file of a student maintained in the University Career Services is assembled at the initiative of the student. The extent of disclosure to prospective employers, graduate schools, organizations awarding fellowships and the like shall be made clear to the student when he or she requests that the file be assembled and shall be agreed to by him or her on a form specifically provided for that purpose.

The student may make a specific waiver of access to evaluations solicited and/or received under condition of confidentiality, but the waiver must be made by the student without pressure or coercion. Any evaluation received under such condition of confidentiality without the student’s waiver of access or without the student’s knowledge shall not be incorporated in the file but shall be returned to the sender.

VIII. Addition to Records

No entry may be made on a student’s official records and no document or entry may be placed in such records without written notice to the student by the administrative officials responsible for the specific category of information, as identified in Paragraph IV. For purposes of this guidance, notification of grades, written communication to a student of school or departmental evaluation and announcement of honors shall constitute adequate notice. A document or entry supplied by or at the request of the student may be placed in the student’s record without additional notice to him or her. In the case of student records maintained in deans’ offices and departmental offices, additions other than those mentioned in the preceding paragraph require the permission of the Registrar, who in turn is responsible for notification of the student.

IX. Release of Student Information

A. Georgia State University will disclose information from a student’s education records only with the written consent of the student, except that the records may be disclosed without consent when the disclosure is:
1. To school officials who have a legitimate educational interest in the records.
   - A school official is:
     - A person employed by the University (which, for purposes of this guidance includes persons employed by the Board of Regents of the University System of Georgia) in an administrative, supervisory, academic or research, or support staff position, including health or medical staff.
     - A person or entity employed by or under contract to the University to perform a special task, such as a University affiliated organization, attorney, auditor, or outside vendor.
     - A person who is employed by the Georgia State University law enforcement unit.
     - A student serving on an official committee, such as a disciplinary or grievance committee, or who is assisting another school official in performing his or her tasks.
   - A school official has a legitimate educational interest if the official is:
     - Performing a task that is specified in his or her position description or contract agreement.
     - Performing a task on behalf of the University/Board of Regents in connection with his or her job responsibilities.
     - Performing a task related to a student’s education.
     - Performing a task related to the discipline of a student.
     - Providing a service or benefit relating to the student or student’s family, such as health care, counseling, job placement or financial aid.
     - Maintaining the safety and security of the campus.
   - The determination as to whether or not a legitimate educational interest exists will be made by the custodian of the records on a case-by-case basis. When the custodian has any question regarding the request, the custodian should withhold disclosure unless the custodian obtains consent from the student, or the concurrence of a supervisor or other appropriate official that the record may be released.

2. Upon request of officials of another school at which a student seeks or intends to enroll, the University will attempt to notify the student of the disclosure unless the student initiated the disclosure.

3. Information the University has designated as “directory information,” unless the student has made a written request to suppress (i.e., to refuse to allow disclosure of) their directory information as more fully described below in Paragraph IX (B).

4. To school officials or lending institutions, in connection with financial aid for which the student has applied or which the student has received, if the information is necessary for such purposes as to:
   - Determine eligibility for the aid;
   - Determine the amount of the aid;
   - Determine the conditions for the aid; or
   - Enforce the terms and conditions of the aid.

5. To parents of a dependent student, as defined in Section 152 of the Internal Revenue Code of 1954. The parents must provide a copy of their most recent federal income tax return establishing the student’s dependency. Full rights under the act shall be given to either parent, unless the institution has been provided with evidence that there is a court order, state statute or legally binding document relating to such matters as divorce, separation or custody that specifically revokes those rights. Georgia State University does not have an obligation to disclose any financial information about one parent to another. If a parent
claims a student as a dependent and does not want his or her financial information disclosed to his or her spouse or former spouse, the parent may make that request to the institution.

6. In connection with an emergency, to appropriate persons if the knowledge of such information is believed necessary to protect the health or safety of the student or others.

7. To comply with a judicial order or lawfully issued subpoena, provided the University makes a reasonable effort to notify the student of the order or subpoena in advance of compliance. Notification may be prohibited if the University receives a federal grand jury subpoena or any other subpoena which states that the student should not be notified. The University will comply with such process only upon the advice of counsel. All subpoenas received by the University should be immediately forwarded in person or by facsimile (404-413-0518) to the Office of Legal Affairs to evaluate the validity of the subpoena. In the case of a subpoena which can be disclosed to a student, the Office of Legal Affairs will inform the student of the subpoena and give the student an opportunity to file an objection to the subpoena before responding on behalf of the University.

8. To an alleged victim of any crime of violence, as that term is defined in Section 16 of Title 18, United States Code, or a non-forcible sex offense, the final results of any disciplinary proceeding conducted by the University against the alleged perpetrator of that crime or offense with respect to that crime or offense. For the purpose of disclosure under this paragraph, the final results of any disciplinary proceeding shall include only the name of the student, the violation committed and any sanction imposed by the institution on that student and may include the name of any other student, such as a victim or witness, only with the written consent of that other student. The Office of Legal Affairs shall be consulted prior to release of the record.

9. Subject to the conditions set forth in 34 CFR 99.35 authorized representatives of the Comptroller General of the United States, the Secretary of the U.S. Department of Education, authorized representatives of the Attorney General for law enforcement purposes (investigation or enforcement of federal legal requirements of federally supported education programs), or state and local educational authorities.

10. To state and local officials or authorities to which such information is specifically required to be reported or disclosed pursuant to the state statute adopted prior to Nov. 19, 1974, if the allowed reporting or disclosure concerns the juvenile justice system and the system’s ability to effectively serve the student whose records are released; or information that is allowed to be reported pursuant to a state statute adopted after 1974, which concerns the juvenile justice system and the system’s ability to effectively serve, prior to adjudication, the student whose records are released. Nothing in this paragraph shall prevent the state from further limiting the number or type of state or local officials who will continue to have access thereunder.

11. To organizations conducting studies for, or on behalf of, educational agencies or institutions for the purpose of developing, validating or administering predictive tests, administering student aid programs and improving instruction, if such studies are conducted in such a manner as will not permit the personal identification of students and their parents by persons other than representatives of such organizations and such information will be destroyed when no longer needed for the purpose for which it is conducted.

12. To accrediting organizations in order to carry out their accrediting functions.

13. To Department of Veterans Affairs Officials pursuant to 38 USC 3690©.

14. To the court those records that are necessary to defend the institution when a student initiates legal action against the institution.

B. Choosing to Suppress Directory Information – Directory Information is treated as public
information. Students may choose to keep their directory information from being disclosed ("suppressed") by submitting a written request to the University’s Registrar at any time. However, to keep the directory information from being included in various printed University publications, such requests should be made before the end of the drop/add period for Fall Semester. Information cannot be deleted after printed publications have gone to press and information previously-released in printed publications cannot be recalled. Information contained in electronic publications may generally be changed upon 48 hours notice. Students having opted to suppress their directory information may change their position at a later date by notifying the Office of the Registrar in writing. Please note: refusing to permit the release of directory information means that a student’s history at Georgia State will be suppressed in full, preventing the verification by future employers and others of degrees earned and dates of enrollment. Exception to Directory Suppression: Due to system constraints, final graduation lists and official programs will include all students who are graduating, regardless of Directory Suppression, unless otherwise stated on the Graduation Application.

C. Records of Deceased Students will be made available to the parents of the deceased student and other authorized parties upon written request. The request must include the need for the records and must identify the requestor’s relationship to the deceased student. An official copy of the death certificate must accompany the request, if the University does not have prior notice of the student’s death.

D. The University has the discretion to disclose to any parent or legal guardian of a student under the age of 21 information about a violation of any federal, state or local law, or any rule or policy of the institution governing the use or possession of alcohol or a controlled substance if the institution determines that the student has committed a disciplinary violation with respect to such use or possession.

X. Recordkeeping Requirements

Georgia State University will maintain a record of requests for and/or disclosures of information from a student’s education records which record may be reviewed by the student. The record will indicate the name of the party making the request and what records, if any, were received, as well as the interest in the records. Such recordkeeping is not required if the request was from, or the disclosure was to:

1. The student;
2. A school official determined to have a legitimate educational interest;
3. A party with written consent from the student;
4. A party seeking directory information; or
5. A federal grand jury or law enforcement agency pursuant to a subpoena that by its terms requires nondisclosure.

Recognition is given to The Catholic University of America upon whose FERPA Policy Georgia State University’s FERPA Policy was modeled.

This FERPA policy was approved by the Administrative Council on March 5, 2008.
1060 Access to Student Records

To file a request for suppression of directory information, a student should fill out a Suppress Directory Information Form, available on the Academic Records webpage at http://registrar.gsu.edu/files/2013/02/Request_for_Student_Information_Suppression_Form.pdf, and turn it in to the Enrollment Services Center, 227 Sparks Hall.

Inquiries about students or former students should be directed to the Office of the Registrar. Georgia State’s written policy on “Access to Student Records” complies with the provisions of the Act. Students also have the right to file complaints with the Family Policy Compliance Office, U.S. Department of Education, 600 Independence Avenue, Washington, D.C. 20202-4605, regarding alleged violations of the Act.
1100 Graduate Admissions

First-time, prospective students who want to apply for admission at the graduate level must refer to the college sections in this catalog for admission requirements of the particular graduate programs.

Georgia State University welcomes applications from all qualified individuals regardless of race, color, sex, religion, creed, age, sexual orientation, gender, disability, veteran status or national origin. Admission is based on a number of factors including, but not limited to, an applicant’s academic record, test scores, experience, circumstances, good conduct and character. Admission is a competitive, selective process and meeting minimum requirements does not guarantee acceptance.

Absent extenuating circumstances, good disciplinary standing at previously attended colleges and universities is a condition of admission for all applicants. For purposes of admission, good disciplinary standing means that the applicant has no pending disciplinary charges, outstanding disciplinary sanctions or disciplinary issues that would prevent the applicant from re-enrolling at previously attended postsecondary institutions.

Applicants with a criminal and/or disciplinary history who are determined to be otherwise admissible for a respective term based on their academic record and other credentials are required to complete an admissions background review process before an admission decision is made by the university. Instructions for completing that review process are communicated to the applicant after the university has determined that the applicant is otherwise admissible for that term.

Omissions or misrepresentations on an application for admission are grounds for automatically invalidating consideration by, acceptance to and continuation at Georgia State. Applicants have a duty to update their application with Georgia State when information changes after application submission.

1110 Re-entry Applicants

1110.10 Definition

A graduate re-entry applicant is a student who previously enrolled at Georgia State University and who wishes to re-enroll in the same graduate program for one of the following reasons:

- The student is on inactive status as a result of three or more semesters of non-registration.
- The student has received a registration hold due to violation of the continuous enrollment policy (see section 1312.40 for additional details regarding the continuous enrollment policy).

Students that have only attended Georgia State University at the graduate level cannot apply for re-entry to enroll at the undergraduate level. Graduate students wishing to enroll at the undergraduate level should complete a new application for undergraduate admission and submit the appropriate application fee and all transcripts to the Office of Undergraduate Admissions. Students should refer to the appropriate area of Section 1100 for deadlines, admission requirements and other policies related to transfer, transient and postbaccalaureate admission.
All re-entry students must notify their college’s Office of Academic Assistance/Office of Graduate Studies prior to registering if any of the following conditions apply:

- The student has attended another school since last attending Georgia State University.
- The student has disciplinary actions pending at the last institution attended since matriculation at Georgia State.
- The student has been convicted of a crime other than a minor traffic violation since last attending Georgia State.

Failure to notify the university of the above conditions could result in university sanctions, including expulsion.

1110.20 Deadlines

Applications for re-entry admission and the nonrefundable re-entry application fee must be submitted by the deadlines established by the college to which the student wishes to return. Students should visit the website for their college’s Office of Academic Assistance/Office of Graduate Studies to access the specific deadlines and to download the complete re-entry application. Students who have attended other colleges and/or universities since last registering at Georgia State must have official transcripts of all coursework submitted prior to their college’s re-entry deadline for the appropriate semester.

1115 Graduate Admissions Appeals

The Chair of the academic department of the graduate program and the Vice President for Enrollment Management and Student Success and Vice Provost are the President’s designees for purposes of hearing Graduate Admissions Appeals.

Applicants for graduate program admissions who are denied admission due to academic ineligibility may appeal the denial to the department chair within twenty (20) calendar days of the date of the denial letter. The decision of the Vice President for Enrollment Management and Student Success and Vice Provost is final.

Applicants for graduate admission who are denied for reasons related to disciplinary/criminal history or falsification of application may appeal the denial to the Vice President for Enrollment Management and Student Success and Vice Provost within twenty (20) calendar days of the date of the denial letter. The decision of the Vice President for Enrollment Management and Student Success and Vice Provost is final.

1120 Academic Advisement

Academic advisement is an essential component of an education at Georgia State University, and the university is committed to providing the individual advice and assistance that students need at every step of their degree programs. All graduate students are advised in their respective colleges or departments. Contact your college’s Office of Academic Assistance/Office of Graduate Studies if you have questions about advisement resources available to you.
1130 Changing Catalog Editions

Students must normally satisfy the curricular degree requirements of the catalog in effect at the time they enter Georgia State University. In some circumstances, revisions may be required to provide more effective programs. The term “curricular degree requirements” refers to the courses and grades required to earn the degree. Changes in academic regulations affect all students, regardless of the catalog edition; examples include the scholastic discipline policy, procedures for removing incomplete grades, and appeals procedures.

Graduate students should consult their college’s chapter of this catalog for information on the instances when a student will be required to change catalog editions.

Students may choose to satisfy the curricular degree requirements of a later catalog, but, if they choose to do this, they must meet all the requirements of the later catalog. Curricular degree requirements of more than one catalog edition cannot be combined. Students who choose to satisfy requirements of a later catalog must notify the Office of Academic Assistance/Office of Graduate Studies of their college.

Degrees will be awarded only to students who have satisfied all of the academic and administrative requirements of the university and the college awarding the degree.
1200 Financial Information

The Office of Student Accounts, 100 Sparks Hall, sfs.gsu.edu/tuition-fees/, is responsible for assessing tuition and fees and processing payments. The Office of Student Financial Aid, 102 Sparks Hall, sfs.gsu.edu/the-financial-aid-process/ provides financial assistance to students who, without such help, would be unable to attend Georgia State University. These offices work closely together to serve students.

It is the responsibility of the student to be informed of, and to observe, all regulations and procedures regarding tuition, fees, payments, refunds and financial aid. In no case will a regulation be waived or an exception granted because a student pleads ignorance of the regulation or asserts that he or she was not informed of it by an advisor or other authority. Verbal misinformation is not grounds for a waiver of a regulation.

1210 Tuition and Fees

Tuition and fees charged by Georgia State University are set and approved by the Board of the Regents of the University System of Georgia. Tuition and fees are subject to change without notice. For information about resident status, see Section 1220. The Office of Student Accounts, 100 Sparks Hall, is responsible for assessing tuition and mandatory student fees. Current tuition and fee rates are available at sfs.gsu.edu/tuition-fees/. The specific amount of a student's tuition and fees for a semester depends on a number of things, the most important of which are:

- The number of courses taken
- The nature of the courses
- The number of credit hours assigned to the course
- The residency status of the student

Actual tuition and mandatory fee charges are determined when a student registers for classes each semester and can be viewed online via PAWS at paws.gsu.edu. Registration is not complete until all tuition and fees have been paid in full.

1210.10 Waivers of Tuition and Fees

All requests for waivers of tuition and fees are due no later than two weeks before the end of regular registration. Requests made after that date will be considered for the subsequent semester.

Waivers of All Tuition

All tuition is waived for students who fall into one of the following categories:

- GSU-62 students who register during late registration. See section 1155.
- Employee tuition remission students who take no more than 8 hours and register during late registration.
Waivers of the Difference between Resident and Nonresident Tuition

The Board of Regents specifies that certain non-residents are granted waivers of the difference between resident and nonresident tuition. (See section 1220 for residency status rules.) These waivers are restricted to small classes of students. For more information, see www.usg.edu/regents/policymanual/700.phtml.

In addition to the Board of Regents authorized waivers, non-resident students who are enrolled only in courses which meet more than 50 miles from Georgia State and are part of an official Georgia State off-campus study program pay in-state tuition plus $250.

To apply for a waiver of the difference between resident and nonresident tuition, go to sfs.gsu.edu/tuition-fees/tuition-classification/.

Waivers of All Fees

All fees are waived for graduate students who fall into one of the following categories:

- GSU-62 students
- Employee tuition remission students who take no more than 8 hours and register during late registration
- US Military Reserve and Georgia National Guard Combat Veterans

Waivers of All but Technology Fee

Enrollment fees are reduced to only the technology fee for students who fall into the categories below.

- Students enrolled only in courses offered under a tuition agreement between Georgia State University and a corporation, organization, educational institution or other legal entity if the tuition agreement specifies that fees will be waived.
- Students enrolled only in courses which meet more than 50 miles from Georgia State University if taking those courses at that location is required by their program of study. Such courses may include: practicum, student teaching, internship, directed reading, independent study, thesis research, or dissertation research. If the program of study allows (but does not require) that the courses be taken more than 50 miles from campus, then the students will not be granted a fee waiver.
- Students enrolled only in courses that meet more than 50 miles from Georgia State University if those courses are part of an official Georgia State University off-campus study program. Such programs may include field study programs and study abroad programs.
- Students enrolled in a faculty-led study abroad program will have all fees waived, except for the Board of Regents Institution Fee and Technology Fee. For more information see the Study Abroad website: http://mystudyabroad.gsu.edu/.

All mandatory fees except the technology fee and USG Institution fee may be waived in certain cases, based on Board of Regents policy. For more information on Tuition & Fee Waivers, visit http://sfs.gsu.edu/tuition-fees/tuition-fee-waivers/.

1210.20 Payment of Tuition and Fees
Georgia State University reserves the right at any time during the semester to drop or withdraw any student from classes for failure to pay tuition and fees. Students who cease to attend but do not formally drop their classes using PAWS at paws.gsu.edu will suffer financial and academic consequences. A student who attends a class without being formally registered or continues to attend a class after being dropped due to nonpayment will be held liable for the tuition and/or fees due plus any service fees assessed, applicable collection costs, court costs, and legal fees. A hold will be placed on the records of any student who has a financial obligation to the university. Until all financial obligations are met, a student is not permitted to register for further course work, receive grades for current course work, or access transcripts. If a student’s account is sent to a collection agency, the student is responsible for the amount owed to the university as well as any collection costs and legal fees.

Payment Deadline

All tuition and fees must be paid by the dates published each semester in the online Academic/Registration calendar at registrar.gsu.edu/registration/semester-calendars-exam-schedules/. Failure to meet payment deadlines will have financial and academic consequences.

Payment by Credit Card

Georgia State University accepts Visa, MasterCard, Discover and American Express for payment of tuition and fees. Students choosing this option may register and pay fees by going to the Georgia State University PAWS student registration website at paws.gsu.edu. A service fee of 2.75% (or $3 minimum) is assessed by the payment processor for each credit card transaction. Credit card payments must be made on PAWS and are not accepted via telephone or in person at the cashier windows.

Payment by Check

Georgia State University offers the option of paying online from a bank checking or savings account. Students choosing this option may register and pay fees by going to the Georgia State University PAWS student registration website at paws.gsu.edu. No service fee is assessed when paying online via check. Checks must be payable in United States currency and drawn on a financial institution located in the United States of America. The university reserves the right to determine the acceptability of all checks.

Checks are also accepted at the cashier windows located at the downtown and perimeter campuses. Directions and other information about in-person payments is available on the Student Account website at sfs.gsu.edu/tuition-fees/payments/. Students may also mail a check or money order to: Georgia State University, Cashier’s Office, P.O. Box 4029, Atlanta, GA 30302-4029. Checks must be made payable to Georgia State University and have an encoded checking account number on the face of the check. All checks not drawn in this manner will be returned. To ensure proper credit, the student’s Panther ID should be included on all checks. To avoid cancelation of classes, payment by check must be received, not post marked, by the fee payment deadline.

If a check given in payment of a student’s fees is not paid upon presentation to the banking institution, a hold is placed on the student’s records. All returned checks are assessed a returned check fee of $35.00. Georgia State University reserves the right to place a student on “cash only” status for issuing a check that is not honored upon presentation to the bank.
Payment in Cash

Cash payments may be made at the Cashier’s Office located at the downtown and perimeter campuses. Directions and other information about in-person payments is available on the Student Account website at sfs.gsu.edu/tuition-fees/payments/. It is unadvisable to send cash payments through the mail or to place them in the cashier’s drop box.

1210.30 Refund of Tuition and Fees

Students who formally withdraw or who are formally withdrawn from all classes (see Section 1332.10) will be subject to the refund policy for tuition and other fees. This policy decreases the amount of refund available at regular intervals during the term. **Students must withdraw from all classes to be eligible for a refund.** After a time during the term, no refund will be available. Complete information about the refund policy throughout the term is available in each term’s online Registration Guide located at http://registrar.gsu.edu/registration/registration-guide/.

Placing a stop payment on a check with the banking institution from which the check is drawn does not constitute a formal withdrawal from courses. Students must withdraw using the procedures outlined in the Registration Guide.

A student is not entitled to any refund of tuition or fees paid if the student leaves the university when disciplinary action is pending, suspended for disciplinary reasons, or does not formally withdraw from the class or classes in which he or she is enrolled, or if other restrictions apply. See the online Registration Guide.

Student Account refunds are paid by electronic transfer to the student’s bank account via direct deposit, electronic transfer to the student’s Money Network enabled PantherCard, or by check mailed to the student using the mailing address on file with Georgia State. The refund for a student who received financial aid will be audited to determine the amounts to be returned to financial aid programs, and the student will receive any remaining balance. Students who sign up for direct deposit or the PantherCard refund program receive their refunds faster and in a more secure manner than students whose refunds are mailed. Mailing addresses must be kept current by going to the Georgia State University PAWS student website at paws.gsu.edu to ensure proper mailing of refund checks.

1210.40 Housing Fees

Housing fees for each semester are due when tuition and other fees are due. The housing fees include utilities, cable television service, internet connection, and laundry rooms. University Housing offers a variety of choices from which you may select. On-Campus Housing is located in the following facilities:

- The University Loft are apartment style with kitchens and living area
- The University Commons are apartment style with kitchens and living area
- Greek Row are town-house units with kitchens and living area on the first level
- Freshman Hall are suite style units with a bathroom that connects a single room with a shared room
- Piedmont North are traditional style residential rooms with a bathroom inside unit
Parking at University Commons and Piedmont North is an additional fee. Please check the housing website at myhousing.gsu.edu/ for specific rates, room type, room descriptions, and how to apply for Housing. Housing fees are subject to change. For more information, contact University Housing at 250 Student Center, 404-413-1800, housing@gsu.edu.

For information regarding Lofts Tenant parking, visit Auxiliary and Support Services at http://services.gsu.edu/.

1220 Georgia Resident Status

Residents of Georgia pay lower tuition rates than those who are not residents of Georgia. Establishing residency for tuition purposes as defined by the Board of Regents is different than residency for purposes such as voting, obtaining a Georgia driver’s license/tag, etc., and requires more than establishing eligibility to vote, securing a driver’s license, and/or paying taxes. Georgia residency status is also distinct from the academic residency requirement for graduation.

A person may be a Georgia resident for tuition purposes if, and only if, either one of the following two criteria are met.

Criterion 1

A person may be a Georgia resident for tuition purposes if that person, that person’s parents, or (if the person is a minor) that person’s court-appointed guardian meets all of the following conditions:

- The person has always resided in Georgia or can demonstrate that they currently reside in Georgia and residency in any other state or country has been abandoned. Maintenance of ties with another state or country will contribute to a non-resident decision including: financial support from a person who is a resident of another state or country, payment of income taxes to another state, and payment of property taxes. Registering a vehicle or securing a driver’s license in that state or country may be considered.
- The person has lived in Georgia for the 12 consecutive months immediately preceding the start date for the term and their 12-month durational requirement has not included time attending any educational institution in Georgia.
- The person can demonstrate that they moved to Georgia for purposes other than attending any educational institution in the State of Georgia.
- The person can demonstrate economic self-sufficiency and has contributed to the state by paying meaningful taxes.
- The person is a U.S. citizen, Resident Alien or is in a visa status permitting indefinite or permanent residence in the United States.

Criterion 2

A person may be a Georgia resident for tuition purposes if that person meets all of the following conditions:

- The person is a U.S. citizen, Resident Alien or is in a visa status permitting indefinite permanent
residence in the United States and
- The person can demonstrate that she or he previously held residency status in Georgia but moved from the state and returned within the last 12 months.

If a parent or legal guardian of a student is a Georgia resident and then changes his or her legal residence to another state, the student may retain his or her classification as a resident student as long as he or she remains continuously enrolled at an institution in the University System of Georgia.

Please note that these regulations are subject to change by the Board of Regents. The most current regulations can be found on the Board of Regents’ website at www.usg.edu/regents/policymanual/400.phtml.

1220.10 Petitioning for Georgia Residency for Fee Payment Purposes

Prospective students and accepted applicants who have questions regarding their residence status should contact the Office of Graduate Admissions in their college.

Students classified as out-of-state shall retain that status until officially reclassified as in-state. A student classified as out-of-state who can subsequently provide clear and convincing evidence that he/she meets the requirements for in-state classification can be reclassified as in-state. The burden to support the contention that he/she qualifies for in-state tuition classification under University System of Georgia policy and applicable laws always rests with the student. The petition form for Georgia tuition classification is located at http://sfs.gsu.edu/tuition-fees/tuition-classification/petition-for-georgia-tuition-classification/.

Deadlines for Petitions

To ensure timely processing, petitions and all required documents must be submitted to the Registration and Compliance department within the Office of the Registrar, 225 Sparks Hall, no later than the deadlines listed below. Final determination of Georgia tuition classification prior to the deadline date for fee payment cannot be guaranteed for petitions received after the priority date. Petitions filed after the final deadline will be considered for the subsequent semester.

<table>
<thead>
<tr>
<th>Term</th>
<th>Priority</th>
<th>Final</th>

</thead>
<tbody>
<tr>
<td>Fall</td>
<td>June 1</td>
<td>Aug 1</td>
</tr>
<tr>
<td>Spring</td>
<td>Nov 1</td>
<td>Dec 1</td>
</tr>
<tr>
<td>Summer</td>
<td>Mar 1</td>
<td>May 30</td>
</tr>
</tbody>
</table>

If a petition is approved, classification will not be retroactive to prior semesters. A student wishing to appeal the decision resulting from his or her Petition for Georgia Tuition Classification may request a review of that decision by the University Committee on Residency and must submit such request in writing to the Office of the Registrar within 5 days of the decision.

1230 Financial Aid

Financial aid is any scholarship, grant, loan, or part-time employment offered for the purpose of helping a
student meet their educational expenses. Aid is usually provided by federal, state, institutional or private agencies. In order to apply, a student must complete the Free Application for Federal Student Aid (FAFSA) or the Renewal Application. Students are encouraged to apply online at www.fafsa.ed.gov.

Recipients are selected on the basis of demonstrated financial need and/or academic achievement. Information concerning application for financial assistance is available from the Office of Student Financial Aid. Application packets for the next school year are available after January 1. Students are urged to apply early for optimum financial aid benefits at www.fafsa.ed.gov. April 1 is the priority date for submission of completed financial aid applications to the Office of Student Financial Aid. The Office of Student Financial Aid cannot guarantee that applications made after April 1 will be processed before the beginning of the fall semester.

In order for a Georgia State University student to continue to receive financial aid from federal or state financial assistance programs, the student must exhibit satisfactory academic progress. Copies of Georgia State University's policy for determining satisfactory academic progress are available in the Office of Student Financial Aid and also on the Financial Aid website at http://sfs.gsu.edu/the-financial-aid-process/policies/satisfactory-academic-progress-sap/.

Some programs offering financial assistance to students are administered by offices or organizations other than the Office of Student Financial Aid. Contact information concerning a particular program or group of programs appears with each listing.

Audited, orientation, and certificate courses are not covered by financial aid. Students are not eligible to receive financial aid for a course attempted more than three times.

For more information on financial aid see http://sfs.gsu.edu/the-financial-aid-process/.

1230.10 Scholarships

A scholarship is financial assistance which does not have to be repaid and is awarded to students based on academic excellence, civic achievements, course of study, or other specific criteria developed by the sponsor. For further details about scholarships available at Georgia State University, see our website at http://sfs.gsu.edu/scholarships-grants/.

Teach Grant

The TEACH Grant Program provides grants to full-time students who plan to teach full-time in high-need subject areas at schools serving students from low income families. Students attending less than full-time will have the grant reduced.

For more on the Teach Grant, visit http://sfs.gsu.edu/scholarships-grants/grants/.

1230.20 Student Loans

A loan is a form of financial assistance which must be repaid. While Georgia State University does not
encourage borrowing, loans are frequently necessary to meet educational costs not covered by the student’s income, the family’s contribution, or grant and scholarship awards. When student loans are necessary, Georgia State University advises borrowing conservatively.

Graduate students who meet federal eligibility requirements are able to borrow under one or more of the loan programs described below. All recipients must be enrolled at least half-time in a degree seeking program, be a United States citizen or an eligible non-citizen; be making satisfactory academic progress; cannot be in default or owe a repayment on a previous financial aid award; and must register with the Selective Service if required to do so. Upon acceptance of a loan, a first-time borrower must complete entrance loan counseling at StudentLoans.gov. The student must also complete a Master Promissory Note (MPN) at StudentLoans.gov, the student is required to use the FSA ID to complete the MPN. If a student does not have an FSA ID, the FSA ID can be created at https://fsaid.ed.gov/npas/index.htm.

Federal Direct Loan borrowers who are leaving school, dropping below half-time enrollment, or graduating must complete exit counseling at StudentLoans.gov. Exit counseling provides you with information about repayment and your rights and responsibilities.

There are several types of Financial Aid available to graduate students:

- **Federal Stafford Unsubsidized Student Loan Program**
  Students may borrow up to $20,500, each academic year, with a cumulative maximum of $138,500. This loan is not based on need therefore the interest on this loan accrues while students are in school.

- **Ford Federal Direct Grad PLUS Loan**
  Ford Federal Direct Grad PLUS (Grad PLUS) is loans from the U.S. Department of Education (ED) which provide additional funds for educational expenses not met by other types of aid. They enable a graduate/professional student to borrow up to the cost of education minus other aid.

- **Private Loans**
  Also known as Alternative or Commercial Loans help bridge the gap between the actual cost of your education and the limited amount the government allows you to borrow in its programs. Private loans are offered by many lending institutions, terms and conditions can vary significantly from one institution to another.

### 1230.30 Graduate Assistants

Graduate Assistants are defined as full-time graduate students providing a service to the university in exchange for a stipend and, in some cases, additional benefits such as a tuition waiver or employer-based health insurance. Students generally may hold the equivalent of up to 50% FTE (approximately 20 hours per week). However, students must have the permission of their degree program to hold an assistantship and cannot exceed their program’s limitation on the number of hours to be worked. Students must be eligible to work in the United States and cannot exceed any hourly limitations placed on them by a visa.

Graduate Assistant types include Graduate Research Assistants, Graduate Teaching Assistants, Graduate Computing Assistants, and Graduate Administrative Assistants. Types of Graduate Assistantships may also be combined to reflect a combination of assistantship duties. Any student accepted into a graduate degree program may be appointed depending on credentials, such as (1) admission test scores, (2) grade point
averages in previous course work or in the degree program, (3) previous experience, and (4) the nature of the work for which the assistantship is funded.

Additional information on employment and funding opportunities can be found at the Graduate Programs website at http://graduate.gsu.edu.

1230.40 Other Sources of Financial Assistance

Veterans Benefits

The Office of the Registrar offers services to certify and assist students who are eligible for veterans educational benefits. Any veteran who wishes to attend Georgia State University under any of the veterans educational benefit programs provided by public law must apply to the Georgia State University Office of Admissions in the normal manner. It is advisable for a veteran who has not previously used any educational benefits to apply to the Department of Veterans Affairs for those benefits. For a veteran who will be transferring to Georgia State University from another institution where educational benefits were received, a veteran must submit a Request for Change of Program or Place of Training form (VA Form 22-1995 for veterans and VA Form 22-5495 for family members) with the Department of Veterans Affairs concurrently with his or her application to Georgia State. As soon as the Georgia State University Office of Undergraduate Admissions notifies the applicant of his or her acceptance, the applicant should contact the Office of the Registrar at veterans.gsu.edu.

Continuing students who wish to receive benefits must complete the Online Veterans’ Enrollment Verification Form located on University’s web site, gsu.edu, under the Registrar’s page each academic term. Students are certified on a term-by-term basis. Students whose attendance was interrupted must renew their certifications at the beginning of the next academic term of attendance in which they wish to receive benefits. Those students who are certified on a term by term basis will routinely experience a break in benefit payments between academic terms and should contact the Veterans Administration Regional Office to determine the amount and schedule of their benefit payments at www.gibill.va.gov.

Vocational Rehabilitation

Certain physically or mentally disabled individuals enrolled at Georgia State University may qualify to receive financial aid through the State Vocational Rehabilitation Program. Students who think they may qualify under this program should contact one of the area vocational rehabilitation centers.

1230.50 International Students, Students with Non-U.S. Academic Credentials, and Non-Native Speakers of English

Only United States citizens or eligible non-citizens may receive federal financial aid or State of Georgia financial aid. Permanent residents, asylees, and refugees are eligible non-citizens. Holders of A, B, E, F, G, H, I, J, K, L or M visas are not eligible non-citizens.

An individual who has applied for permanent resident status is not eligible until that status is approved. An individual may have resident status in the State of Georgia but not be considered a United States citizen or
eligible non-citizen. An individual is not eligible on the basis of the status of family members, for example a parent or a spouse.

All students that are not confirmed as U.S. citizens or eligible non-citizens by United States Citizenship and Immigration Services (CIS) on their initial application for financial aid are required to submit appropriate documentation to the Office of Financial Aid. The Office of Financial Aid is required to submit this documentation to CIS for secondary confirmation. Until secondary confirmation is received, an individual cannot be approved to receive financial aid.

Students with Non-United States Academic Credentials

There are no special financial aid rules for students with non-United States academic credentials.

Non-Native Speakers of English

There are no special financial aid rules for students who are non-native speakers of English.

1240 Scholarships and Awards Offered Through a College or Department

Some of the assistance opportunities listed in the following sections may be scholarships that require an application from the student, while others are awards that do not require application from the student. For questions concerning a particular program, please call the department, school, or college listed.

1240.10 Andrew Young School of Policy Studies Scholarships

For more information about these scholarships, contact the Office of Academic Assistance for the Andrew Young School of Policy Studies at 404-413-0021.

- **Andrew Young School Undergraduate Scholarship**: This scholarship was established to provide financial assistance to outstanding leaders and scholars in the Andrew Young School of Policy Studies. Awards of up to $2,000 will be made based on academic merit, leadership and need to undergraduate students enrolled in AYSPS degree programs.

- **Bobby Joe Chancey Sr. Memorial Scholarship**: This scholarship was established by the Camden County (Georgia) Sheriff’s Office in honor of Mr. Bobby Joe Chancey Sr. who had a long and distinguished career in law enforcement. Preference is given to a full-time criminal justice student planning a career in law enforcement that is entering the sophomore or junior year and is considered to be “at risk” and to have a financial need. Preference is also given to applicants who are or have been residents of Camden County or nearby counties. The recipient of this scholarship may continue to receive it each year until graduation as long as s/he remains in good academic standing.

- **Robert Hinrichs Memorial Scholarship**: Created in honor of Robert Hinrichs, an administrator with the Social Security Administration Office, this is the highest academic award/honor the School of Social Work gives to an M.S.W. student.

- **Chris Perrin Memorial Scholarship**: This award was established by the Georgia Council of Juvenile Court Judges in honor of Chris Perrin, a long-time advocate for children, executive director of the council and an alumnus of Georgia State University. This award, shared by the Department
of Criminal Justice and the School of Social Work, is given annually to one social work and criminal justice student.

- **Jean Childs Young Scholarship**: This scholarship was established in 2005 by Charles Loudermilk Sr. to provide financial support for AYSPS graduate students in honor of Ambassador Young’s deceased wife, Jean Childs Young. The fellowship may be used for tuition, books, room, board and other associated expenses incurred by graduate students.

- **James L Maddex, Jr. Scholarship**: This scholarship was established in honor of Dr. James L. Maddex, Jr., Professor Emeritus of Criminal Justice, who retired in 2000. The merit-based scholarship is awarded to an undergraduate or graduate criminal justice student.

- **Nance Lu Mescon Scholarship**: This scholarship was established by Dr. Michael and Mrs. Enid Mescon to honor the memory of their beloved daughter, who passed away in 2011 after a long battle with anorexia. With this scholarship, the Mescon family seeks to raise awareness and stimulate scholarship around the issues relating to eating disorders. The scholarship provides financial support for undergraduate students, and preference will be given to qualified applicants currently enrolled at the Andrew Young School of Policy Studies.

Awards are contingent on final clearance by the Office of Student Financial Aid. Any student receiving aid under any federal financial aid program is limited by the student’s “estimated cost of attendance” as to the total amount of aid that may be received. This applies to aid from all sources, public and private. You will find this information in your aid letter from the financial aid office or online in your financial aid record in PAWS.

### 1240.20 College of Arts and Sciences Scholarships

For more information about these scholarships, contact the Dean’s office at 404-413-5114.

- **Lucile Sauls Allen Memorial Theory/Composition Scholarship**: Awarded to a student majoring in music who demonstrates exceptional talent and academic achievement in music theory/composition. This scholarship was established in 1991 by Susan Tepping, music faculty, and friends.

Established in January 1985, this scholarship is endowed by a gift to the Georgia State University Foundation from Mr. and Mrs. Thomas G. Cousins in memory of his grandfather, Charles Thomas Wurm.

1240.40 Awards, Fellowships and Scholarships

- **Lanette L. Suttles Scholarship**: Dr. William Suttles established this scholarship in honor of his wife Lanette, who has dedicated her life to teaching young children. The purpose is to provide on-campus childcare for Georgia State University students who would otherwise be unable to attend the university. Scholarships are awarded once each year, and are based primarily on financial need.

- **The George J. Malanos Economics Doctoral Scholarship**: Given in honor of Dr. George Malanos, late professor of economics and first chair of the department, to the Ph.D. student selected by the department as best exemplifying a commitment to the exchange of ideas and the creation of a community of scholars.
- **Lettie Pate Whitehead Scholarship**: Awarded annually to outstanding students enrolled in the Byrdine F. Lewis School of Nursing and Health Professions or Criminal Justice. Recipients are selected on the basis of need, scholastic ability, residence in one of the nine Southern states, and good character. Applicants can obtain additional information from the Byrdine F. Lewis School of Nursing and Health Professions.

### 1240.50 College of Education and Human Development Scholarships

- **College of Education and Human Development Scholarship**: Two scholarships are awarded each fall and each spring to one undergraduate and one graduate student in the College of Education and Human Development. Applications are available from the Office of Academic Assistance and Graduate Admissions, 300 College of Education Building, 404-413-8000. Application deadlines are October 1 and March 1.

- **The Margaret Jones Scholarship**: This scholarship is awarded annually to an undergraduate or graduate student who is either preparing to teach or is currently teaching health and physical education at the elementary or middle school level. An undergraduate grade point average of 3.0 is required. Application forms may be obtained from the Department of Kinesiology and Health (404-413-8050) at the beginning of spring term.

- More information for scholarships in the College of Education and Human Development can be found at education.gsu.edu/student-services/scholarships-fellowships/.

### 1240.60 Byrdine F. Lewis School of Nursing and Health Professions Scholarships

- **Lettie Pate Whitehead Scholarship**: Awarded to students enrolled in the Nursing, Nutrition and Respiratory Therapy Programs in the School of Nursing and Health Professions. Recipients are selected on the basis of need, scholastic ability and residency in one of the nine Southern states. Applicants can obtain additional information from the Office of the Dean, Byrdine F. Lewis School of Nursing and Health Professions.

- **James Ancil Lewis Award**: This award is given annually in memory of Jim Lewis, a 1973 graduate of the respiratory therapy program. The scholarship award recognizes the respiratory therapy student who shows concern for others in the clinical care of patients.

- **Merle Kennon Lott Scholarships**: These annual nursing scholarships provide funding for one returning RN-BS student and one MS or RN-MS student in the amount of $1500 for each student. There is also a $1000 dissertation award to a doctoral nursing student engaged in research that contributes to the body of Public Health Nursing knowledge. RN-BS and MS students must have worked in Public Health and have plans to continue their career in Public Health. For the dissertation award, the candidate must show how the outcome of their research will add to the body of Public Health/Primary Care Nursing knowledge. Eligibility requirements may be obtained from the Office of Records and Information in the School of Nursing.

- **Kaiser Permanente Doctoral Student Award**: To provide scholarships to PhD students studying to become nurse educators. Please contact the department for further information.

- **Kaiser Permanente Endowed Nursing Scholarship**: To provide scholarships for graduate students interested in pursuing a career as a nurse educator. Recipients must have a minimum GSU program GPA of 3.0 and documented financial need.

- **Gordon Seagraves Cummings Scholarship**: Professor Gordon Cummings taught in the Georgia...
State University Physical Therapy Department for 27 years. This award was established to recognize those individuals whose work, like that of Professor Cummings, promotes self-learning, critical thinking, caring and competence.

- **Maymi Walker Chandler Memorial Scholarship:** To provide scholarships to female GSU students who are legal residents of Georgia. Students in the School of Nursing will be considered first, but the scholarships may be awarded to students in any program in the Byrdine F. Lewis School of Nursing and Health Professions.

- **Pediatric Healthcare Endowed Nursing Scholarship:** To provide scholarships to Georgia State University undergraduate and graduate nursing students enrolled in the Byrdine F. Lewis School of Nursing. Students must have a GSU program GPA of 3.0 or higher, and be presently studying or will be studying pediatric nursing at the time of the awarding of the scholarship. Financial need will be taken into consideration.

**1240.70 J. Mack Robinson College of Business Scholarships**

For more information about these assistance opportunities, contact the department or school that offers the scholarship or award. Phone numbers and locations for all RCB departments are listed in the RCB chapter of this catalog.

- **The American Hotel & Lodging Association Scholarships:** The AH&LA administers several scholarships for hospitality majors including the Hyatt Hotels Fund for Minority Lodging Management Studies and the Arthur Packard Memorial Scholarship. These scholarships, awarded through a national competition, are based on academic performance, industry work experience, extracurricular involvement and career objectives. Applications are submitted through the School of Hospitality.

- **John W. Cook Scholarship:** Each year, a Masters of Professional Accountancy student with high academic achievement receives a cash award up to $1,000 in honor of Dr. John W. Cook.

- **The John H. Cowart Award:** Funded by an endowment established by John H. Cowart, Sr. (John Cowart Homes, Inc.), this award is given annually to one or more real estate students to pursue promising research under the direction of faculty in the Department of Real Estate. Both merit and need of candidates are evaluated. Information is available from the Department of Real Estate. The application deadline is January 31.

- **Cecil B. Day Endowment Scholarships:** Hospitality majors and certificate students are eligible to apply for these scholarships awarded based on exemplary academic performance and a commitment to the hospitality industry through work experience and involvement in professional associations and/or extracurricular activities. Contact the School of Hospitality for more information.

- **Cecil B. Day Memorial Scholarships:** Administered by the American Hotel & Lodging Association, these scholarships are based on academic, work and campus/community involvement. Contact the School of Hospitality for additional information.

- **Deloitte & Touche Excellence Award in International Taxation:** Each year, an undergraduate student with high academic standing and leadership receives a cash award.

- **Norman X. Dressel Scholarship:** Each year, a student with good character and demonstrated scholastic achievement in the MBA or Masters of Professional Accountancy program is given a cash award up to $1,500 in honor of Dr. Norman X. Dressel.

- **Educational Foundation, Inc. Scholarship.** This scholarship is awarded to an undergraduate or graduate student majoring in a program offered by the Department of Risk Management and Insurance. The amount of award varies, and selection is based on merit. Candidates should apply to the Scholarship/Fellowship Committee of the Department of Risk Management and Insurance by February 1.
• **Eric & Barbara Joiner Scholarship**: Each year, a student majoring in international business, is awarded a monetary scholarship based on need, merit and academic achievement.

• **Ernst & Young Excellence in Taxation Award**: Each year, an outstanding graduate student in taxation receives a cash award up to $1,000 sponsored by Ernst & Young.

• **Federation of Schools of Accountancy Student Award**: Each year, the Federation of Schools of Accountancy awards an outstanding student with a recognition plaque and a cash award up to $500 based on academic achievement.

• **Frazier & Deeter Scholarship**: Each year, Frazier and Deeter honors a Georgia State University student of high academic achievement with a cash award.

• **Georgia CCIM Chapter Scholarship**: Funded by the Commercial Investment Real Estate Institute, the scholarship is given annually to one undergraduate real estate major planning a career in commercial real estate. In addition to the cash award, the recipient receives complimentary enrollment in the first course toward receiving the CCIM designation. The selection criteria include academic achievement, extracurricular activities, communication skills, and professional commitment. Information is available from the Department of Real Estate.

• **Grant Thornton Achievement Awards**: Each year, two outstanding accounting students with high academic achievement receive a cash award of $1,000 sponsored by Grant Thornton.

• **John W. Hall Scholarship**: This award up to $3,000 was named in honor of Professor John W. Hall, whose 19-year tenure as chair of GSU’s RMI Department was noted as a period of growth and excellence. This scholarship is awarded annually to a graduate student majoring in a program offered by the RMI Department. Candidates should apply to the Scholarship/Fellowship Committee of the Department of Risk Management and Insurance by February 1.

• **Austin C. Hansen Memorial Scholarship**: In memory of a past chairperson of the School of Hospitality’s industry board, Austin Hansen, this scholarship is based on academic and work achievements in the hospitality industry. Contact the School of Hospitality for additional information.

• **Floyd S. Harper Award**: The late Dr. Harper was instrumental in the formation of the Georgia State Actuarial Science Program in 1958. The Department of Risk Management and Insurance presents this award annually upon graduation to the senior in actuarial science who exemplifies the qualities that Dr. Floyd S. Harper strove to develop in his students: scholastic achievement and character.

• **Sidney and Mary Harris Travel Award**: Dr. Sidney E. Harris, former dean of the J. Mack Robinson College of Business, and his wife, Dr. Mary Harris, established the Sidney and Mary Harris Travel Award to support Robinson College of Business students to internationalize their program of study.

• **Elmer Hedge Institute of Real Estate Management Chapter 67 Scholarship**: This scholarship is awarded to a real estate major based on sincere interest in the property management field, financial need, and academic performance. Information is available from the Department of Real Estate. The application deadline is January 31.

• **Leyton B. Hunter Fellowship**: Fellowships are awarded to doctoral students with concentrations or research in risk management. This fund was established by friends of Leyton B. Hunter in honor of his numerous contributions to the insurance industry.

• **Klaus Inkamp Scholarship**: Established by the International Special Events Education Foundation (ISEF), this scholarship is in memory of Klaus Inkamp, founding ISEF president and director of meetings and special events for Coca-Cola USA. The Coca-Cola USA Foundation underwrites the scholarship. Eligible students will be hospitality majors who are specializing in special event planning through coursework and industry experience. Contact the School of
Hospitality for additional information.

- **Insurance Professionals of Atlanta Scholarship**: This scholarship of up to $2,000 is awarded to an undergraduate or graduate female student who is a risk management and insurance major and plans to pursue a career in the insurance field. Selection is based on need and scholarship. Candidates should apply to the Scholarship/Fellowship Committee of the Department of Risk Management and Insurance by February 1.

- **The E. A. Isakson Scholarship**: This scholarship established by the Atlanta Board of Realtors is in honor of Mr. Ed A. Isakson, past president of the Atlanta Board of Realtors. One or more scholarships will be provided each year for outstanding students majoring in real estate. The criteria for selection are need, scholastic achievement, and expression of a sincere interest in a professional career in real estate. Information is available from the Department of Real Estate. The application deadline is January 31.

- **Josephine J. Isakson Scholarship**: This award is presented in memory of a prominent Atlanta-area real estate family to recognize superior academic achievement and potential. It may be awarded to either a graduate or an undergraduate student. Information may be obtained from the Department of Real Estate. The application deadline is January 31.

- **Mrs. Tommie Jackson Scholarship**: This scholarship, established by realtors, honors Mrs. Tommie Jackson, executive vice president of the Atlanta Board of Realtors. The earnings from this fund are to be used to provide one or more scholarships each year for outstanding students majoring in real estate. The criteria for selection are scholarship, achievement, and an expression of a sincere interest in a professional career in real estate. Information is available from the Department of Real Estate. The application deadline is January 31.

- **Eric Joiner Scholarship (MIB students only)**: Mr. Eric Joiner is co-founder and Vice Chairman of the Atlanta based AJC International, a world leader in marketing frozen and refrigerated food products. AJC International is also a leader in global logistics; it brings together producers and customers who span across 140 countries in six continents. Mr. Joiner, a 1969 alumnus of the Robinson College of Business with BBA and MBA degrees, is a visionary business leader. He served as President and COO of AJC International for some 20 years, and expanded the company’s research through China, South America and Russia. Mr. Joiner regularly serves as a mentor for RCB students and is a frequent speaker at RCB events. This need-based scholarship is targeted for a student majoring in International Business, with a GPA of 3.0 or higher.

- **John Jordan Scholarship in Club Management**: This scholarship was established in honor of one of the club industry’s preeminent leaders, retired general manager of the Cherokee Town and Country Club in Atlanta, John Jordan, MCM, CCM. Eligible students will be hospitality majors concentrating in club management through elective courses and work experience. Contact the School of Hospitality for information regarding the application process.

- **The Clyde Kitchens Delta Sigma Pi Award**: This award was established by the Clyde Kitchens Foundation, Inc., to provide a $1,000 scholarship to be awarded to an outstanding student in the Robinson College of Business. The award recipient is selected on the basis of academic performance and potential in the field of business.

- **KPMG Academic Excellence Scholarships**: KPMG recognizes two undergraduate accounting students and two graduate accounting/tax students who have excelled academically with cash awards.

- **Helen C. Leith Fellowship**: Endowed by the Helen C. Leith Foundation, this program awards fellowships to doctoral students pursuing research in an insurance related field. Selection is based on merit.

- **Catherine E. Miles Doctoral Fellowship**: Each year, in honor of the former director of the School
of Accountancy, Dr. Catherine E. Miles, a doctoral student with high scholarly ability receives a cash award up to $5,000.

- **John W. Morgan Scholarship**: This $2,500 annual scholarship was endowed by Pritchard & Jerden, Inc. and 11 of its employees in honor of their friend and colleague John W. Morgan. The scholarship will be awarded to an undergraduate or graduate student who exhibits a strong interest in the claims function and is majoring in risk management and insurance. Selection will be made on the basis of scholarship, character, and need. Candidates should apply to the Scholarship/Fellowship Committee of the Department of Risk Management and Insurance by February 1.

- **The James W. Morton, Jr., Memorial Scholarship**: This up to $2,500 scholarship is awarded annually to a junior or senior majoring in risk management and insurance. The scholarship honors James W. Morton, Jr., a man instrumental in the development of the State Farm Insurance organization in Georgia. Selection is based on merit. Candidates should apply to the Scholarship/Fellowship Committee of the Department of Risk Management and Insurance prior to February 1.

- **Lori Muse Study Abroad Scholarship Endowment**: The Lori Muse Study Abroad Scholarship Endowment was established in memory of a former student, Lori Muse and her love for international travel.

- **National Association of Black Accountants Leadership Award**: Each year, a member of the National Association of Black Accountants receives a cash award up to $500 in recognition of leadership ability and contributions to the Georgia State University chapter of the National Association of Black Accountants.

- **The National Association of Computer Consulting Businesses Scholarship (NACCB)**: This scholarship was established in 1998 by a consortium of Atlanta businesses to assist a qualified undergraduate or graduate student (full-time). The annual award of $1000 is presented to a computer information system major who best demonstrates a combination of academic excellence and financial need.

- **National Restaurant Association Scholarships**: For hospitality majors specializing in the restaurant and foodservice areas, the NRA offers a number of scholarships that are awarded nationally. Contact the School of Hospitality for information on the specific scholarships and application details.

- **New York Life International Fellows Program**: This fellowship is available for international undergraduate or graduate actuarial science or risk management and insurance majors. The New York Life Foundation selects recipients, and selection is based on merit. The award amount varies. Recipients are selected by New York Life.

- **New York Life Minority Fellows Program**: This scholarship is available for undergraduate, graduate actuarial science, risk management and insurance majors. The New York Life Foundation selects recipients, and the selection is based on merit. The award amount varies. Recipients are selected by New York Life.

- **Outstanding Minority Marketing Student Scholarship**: Awarded annually to one or more outstanding undergraduate or master’s level marketing students, who are members of underrepresented minority groups. Students must be marketing majors with outstanding records and have the potential for successful careers in marketing. Deadline: mid-January; contact the Department of Marketing for details.

- **Hammill Scholarship**: This scholarship is in honor of Richard Hammill, past Senior Vice-President of Marketing at Home Depot. The criteria for selection are need, scholastic achievement and high potential for a successful career in marketing.

- **Fletcher Martin Scholarship**: The criteria include scholarship, interest in the field, leadership,
and character. Ideally the student should have completed the advertising sequence. The recipient is chosen by the faculty who teach advertising.

- **PLUS Foundation Graduate Research Assistantship (GRA):** This is an award up to $3,000 stipend given to one graduate student in the RMI department. Candidate must be a full time student enrolled in any of the RMI Department’s graduate degree programs. Interested candidate should apply to the Scholarship/Fellowship Committee of the Department of Risk Management and Insurance by February 1.

- **PriceWaterhouseCoopers Excellence Award in Corporate Tax:** Each year, a graduate student with outstanding achievement in Taxation of Corporations and Shareholders (TX 8120) receives a $500 cash award sponsored by PricewaterhouseCoopers.

- **PriceWaterhouseCoopers Excellence Award in Tax Research:** Each year, a graduate student with outstanding achievement in Tax Research (TX 8030) receives a $500 cash award sponsored by PricewaterhouseCoopers.

- **The Rama Scholarship for the American Dream:** The Rama brothers, principals of JHM Hotels, established this scholarship. The scholarship is awarded annually to an undergraduate or graduate hospitality major. It is based on academic performance, hospitality work experience, financial need and extracurricular involvement. Administered by the American Hotel & Lodging Association, contact the School of Hospitality for additional information.

- **Real Estate Education Association Harwood Memorial Scholarship:** Named in honor of Dr. Bruce Harwood, these $250 scholarships are awarded to up to 10 students nationwide who plan careers in real estate. Recipients are selected based on academic achievement and letters of recommendation. Applications are available from the Department of Real Estate and should be returned directly to REEA by January 31.

- **Real Estate Educators Association Technology Scholarship:** Two $500 scholarships are awarded nationwide in honor of Dr. Donald E. Bodley. Recipients are selected based on academic achievement, letters of recommendation, and an essay on the role of technology in the future of the real estate profession. Applications are available from the Department of Real Estate and should be returned directly to REEA by January 31.

- **The Pickett Riggs Scholarship:** This scholarship was established by the Young Alumni Council of Georgia State to honor Mrs. Pickett Riggs, former teacher of quantitative methods (decision sciences), who was one of the university's most highly esteemed teachers. The scholarship will be awarded each year to the graduate or undergraduate student in the Robinson College of Business who exemplifies those ideals which Mrs. Riggs valued and encouraged: high scholastic achievement, leadership abilities, and commitment to Georgia State University. Applications may be obtained from the Office of Academic Assistance in the Robinson College of Business. Completed applications must be returned to the Alumni Office, G88 Dahlberg Hall, by February 28.

- **Nita Robinson Scholars:** In honor of Mrs. Nita Robinson, J. Mack Robinson has pledged $1 million to perpetuate a program to encourage Robinson College of Business students to further their understanding of the global business environment. Awards are made to students who are involved in the College’s Institute of International Business or who plan to undertake a study abroad program or international internship. The Nita Robinson Scholars program will annually recognize up to 25 undergraduate and master’s-level students. Eligibility is based on having a 3.5 or higher GPA and being currently enrolled in a RCB degree program AND completing the third year of the BBA program OR completing the first year of a Robinson College master’s program. Applications may be obtained from the Institute of International Business or the IIB Web site: iib.gsu.edu/NitaRobinson/about.html.

- **The James R. Rozelle Memorial Fund:** This fund is awarded annually for the computer
information system undergraduate major who has shown the greatest aptitude for computer programming as determined by grade point average and instructor nomination. This award was established to honor the late Dr. James Rozelle who was on Georgia State University faculty for over 25 years.

- **Henry F. Stabler Award:** Each year, in honor of Dr. Henry F. Stabler, an accounting graduate student with high academic qualifications receives a cash award up to $1,500.

- **C. V. Starr Scholarship Fund:** This fund, endowed by the Starr Foundation in honor of Cornelius Vander Starr, founder of the American International Group (AIG), provides scholarships of up to $4,000 to full-time students majoring in actuarial science or risk management and insurance. Priority is given to graduate students, although undergraduate students who have completed at least two years of course work and have outstanding potential may be considered. The scholarship may be held for two years. The amount of the scholarship may be adjusted on the recommendation of the Scholarship/Fellowship Committee. The scholarship is paid on a semester basis after review of the recipient’s record. Candidates should apply to the Scholarship/Fellowship Committee of the Department of Risk Management and Insurance by February 1.

- **Bennett Thrasher Accounting Scholarship:** An outstanding senior involved in Beta Alpha Psi receives a cash award from Bennet Thrasher.

- **Sam and Joyce Turner Scholarship:** This scholarship is named after Sam Turner, an actuarial science graduate of the Department of Risk Management and Insurance at Georgia State University, who had a long and distinguished career as an actuary with Tillinghast, IT&T International, Life of Virginia, and ING North America. Up to $5,000 is awarded to a full time undergraduate or graduate Actuarial Science student. Selection is based upon criteria and need. Candidates should apply to the Scholarship/Fellowship Committee of the Department of Risk Management and Insurance by February 1.

- **Winham Brannon Financial Group Scholarship:** In support of the Financial Planning profession and Georgia State University’s Personal Financial Planning programs, Windham Brannon Financial Group, Inc. has established this annual scholarship in support of an outstanding PFP student. This scholarship is awarded to an outstanding graduate student enrolled in the Robinson College of Business MS-PFP or MBA degree program with a major in or concentration in personal financial planning. Candidates may not receive the award more than once. Selection is based on merit. Candidates should apply to the Scholarship/Fellowship Committee of the Department of Risk Management and Insurance by February 1.

- **Gary Winkle Award:** Each year, in honor of Dr. Gary Winkle, a student in the Masters of Professional Accountancy program with high scholastic achievement receives a cash award up to $1,500.

- **Leland Whetten Award:** This award is presented to an outstanding student in accounting theory or a senior accounting major. This award is given in honor of Dr. Leland C. Whetten, former professor of accounting at Georgia State University.

### 1240.80 School of Public Health Scholarships

For more information about financial assistance, contact the School of Public Health at 404-413-1452.

- **The Georgia Health Foundation Scholarship:** The Georgia Health Foundation Scholarship provides one-time awards of $5,000 to qualified students enrolled in the MPH program at Georgia State University.
1300 University Academic Regulations

This chapter describes academic regulations that apply to all graduate students. See subsections within this chapter for specific policies and procedures.

1310 General Information

1310.10 University Degree Policies

All students at Georgia State University are responsible for learning and observing all regulations and procedures required by the University and by the college and program or status in which they are enrolled. In no case will a regulation be waived or an exception granted because a student pleads ignorance of the regulation or asserts that he or she was not informed of a specific requirement by an advisor or other university authority. This chapter contains the academic regulations of the University. See the other parts of this catalog for information on the academic regulations of the various colleges and departments.

All students must become especially familiar with (1) this chapter, (2) the following chapter on university degree requirements and graduation, (3) their college’s chapter of this catalog, (4) the offerings and requirements of their major, and (5) the enrollment process found by accessing PAWS (Panther Access to Web Services) at paws.gsu.edu and found on the University’s web site gsu.edu, particularly under the Registrar’s, Student Accounts and Financial Aid pages, which contain more detailed information on the registration process.

While the provisions of this catalog will ordinarily be applied as stated, Georgia State reserves the right to change any provision listed in this catalog, including, but not limited to, academic requirements for graduation, without actual notice to individual students. The University will make every effort to keep students advised of any such changes. Students must note their responsibility to keep apprised of current graduation requirements for their particular degree programs.

1310.15 Student Computer Access Requirement

Each student enrolled at Georgia State University must have access to a computer, and any course offered at the University may require computer-based work. Further, the student’s computer must provide access to e-mail accounts, the World Wide Web using a current browser, and spreadsheet and word processing software. Departments and other units may establish minimum machine capability and software requirements, including the requirement that a student in a certain degree program must own a computer. It is the responsibility of each student to ensure his or her access to a computer. Computers are available in the open-access computer laboratories on campus that provide the basic level of computer capabilities, but these laboratories are heavily used and cannot guarantee a student access to a computer at a particular time.

1310.20 Georgia State University Email

Every student is assigned an official Georgia State University email address at the time of acceptance. It is
essential that students regularly check this email account. Academic departments and student service units across campus use the University-assigned email as a means of communicating with students about official university business, and students are held responsible for this information. Email from Georgia State will be sent to the student’s official Georgia State email address. It will not be sent to any other address (such as a Gmail or Yahoo account). However, students may configure their Georgia State account to forward to another address.

1310.25 Academic Calendar

Georgia State University is on a semester system, and academic credit is awarded in semester hours. The fall and spring semesters are approximately 14 weeks each. Summer semester is composed of three-week classes in May as well as six-week and seven-week classes beginning in June. Enrollment in the three-week classes, six-week classes, or seven-week classes counts as having been enrolled in summer semester.

1310.30 Academic Progression

Each student will progress toward his or her degree by following certain predefined steps, which will be repeated each term. Listed below are sections that describe academic advisement, registration, and dropping and withdrawing from classes. Following these sections are those that describe events associated with the completion of a term, such as a description of the grading policy and procedures for changing grades.

1312 Registration Procedures

Review Enrollment Process Instructions

Students may not attend a course unless they have registered and paid for that course. Each semester students should go online for detailed information concerning the enrollment and registration process. Registration information can be at registrar.gsu.edu and by accessing PAWS (Panther Access to Web Services) at paws.gsu.edu.

Students are urged to become knowledgeable about the entire enrollment process, which includes ensuring financial aid eligibility for the term and ensuring paying of tuition and fees by the payment deadline for that particular term. Information on payment deadlines can be found on sfs.gsu.edu under Tuition and Fees.

Where Registration Takes Place

Registration for courses takes place on PAWS where a list of courses offered for the semester can be found, as well as time ticket information, the registration agreement and student holds that need to be addressed to permit registration for the term.

Preparing and Registering for Classes – Enrollment Process

Registering students should prepare a registration work sheet and ensure they meet all course prerequisites.
Unless approved by the department chair, a student may only register for one section of a given course in a given session/term.

Step 1: Run a Program Evaluation to Review Remaining Course Requirements on PAWS and Schedule Advisor Appointments as Necessary

Step 2: Register for Classes

Step 3: Check Financial Aid Requirements for Eligibility and Accept Aid

Step 4: View and Pay Charges on Panther Pay through PAWS

Step 5: Print your Course Schedule on PAWS

Step 6: Print the Semester Calendar on the Registrar’s page

Any deviation from the prescribed procedure may result in unnecessary delays in registration or errors in the resulting schedule. The Office of the Registrar cannot be held responsible for errors resulting from the student’s failure to follow the prescribed registration and schedule adjustment procedures. Any problems experienced with registration should be reported to the Enrollment Services Center, in person, at 227 Sparks Hall or by phone at 404-413-2600 within 24 hours of the occurrence.

1312.10 Registration Notifications

All graduate students must notify the Office of Academic Assistance or the Office of Graduate Studies in their college prior to registering if any of the following conditions apply:

- The student has attended another school since last attending Georgia State. The student must have an official transcript of credits sent from the school he or she attended. The student must be eligible to reenroll at the last school attended before he or she returns to Georgia State University. Failure to submit this transcript by the midpoint of the first term after returning to Georgia State could result in the placing of a registration hold on the student’s record.
- The student has disciplinary actions pending at the last institution attended since matriculation at Georgia State.
- The student has been convicted of a crime other than a minor traffic violation since last attending Georgia State. Failure to notify the University of any of the above conditions could result in university sanctions, including expulsion.

1312.15 Registration Time-Ticket Assignments

Students who are eligible to register will be given a registration time-ticket assignment approximately two weeks before registration begins. Students can find their registration time-ticket assignments by accessing PAWS at paws.gsu.edu.

Students will also receive an email referring them to PAWS where they can view their registration time-
ticket assignments.

A student’s time-ticket assignment is valid beginning at the student’s assigned time and continues through the last day of registration. Time-tickets are assigned with priority to students scheduled to graduate during the upcoming term and then to continuing students according to the total credit hours earned. Once a student is allowed access, the student can adjust his or her schedule on a first-come, first-served basis during the remaining registration period. Many classes fill up quickly. It is to the student’s advantage to attempt to register as soon as he or she is allowed access to the registration system.

1312.20 Late Registration

Registrations are considered late once the semester has begun. During late registration, access is on a first-come, first-served basis. It is important that students register prior to the semester beginning in order to have the best opportunity to enroll in courses needed for degree completion. If a student’s first attempt to register is during late registration, a $50 non-refundable late fee will be charged. This $50 fee will also be charged if a student is dropped for nonpayment of fees and attempts to re-register during late registration.

If a student appeals to add a class after late registration has ended, after the 1st Friday of the term, is approved, the student will be charged a $37.50 manual schedule adjustment fee. This fee is charged for each appeal approved. Appeals should be directed to the department that teaches the course the student wishes to add. If a student decides not to attend the course once the appeal has been approved by the academic department and the course has been added by the Office of the Registrar, the student must officially withdraw from the course on PAWS prior to the semester midpoint.

1312.25 Immunizations

Immunization Office
141 Piedmont Avenue, Suite D
health.gsu.edu

All new students attending regularly scheduled classes on campus or receiving resident credit are required to submit a certificate of immunization prior to registering for and attending such classes.

The immunizations required are Measles, Mumps & Rubella (MMR), Tetanus/Diphtheria/Pertussis (Tdap), Varicella (chicken pox), and Hepatitis B. In addition, the Meningitis Law requires students residing in university housing to have the Meningococcal vaccine. For more information, see the Georgia State Clinic website updates at health.gsu.edu.

Every student attending classes on campus must complete the immunization requirements of the University System of Georgia. The requirement varies according to the age of the student as follows:

- Students 18 years or younger at the beginning of the term must show proof of immunity to Hepatitis B, MMR, Tdap, and Varicella (chickenpox).
- Students 19 years and older at the beginning of the term are strongly recommended to be immunized for Hepatitis B, but they are not required to show proof of immunity to Hepatitis B.
They are required to show proof of immunity to MMR, Tdap and Varicella.

- Students born outside the United States on or before 12/31/1956 must show proof of immunity to Tdap and Varicella only.
- Students born in the United States on or before 12/31/1956 are required to show proof of Tdap only.
- Students born in the United States on or before 12/31/1980 are exempt from showing proof of the Varicella vaccine. They are required to submit proof of immunity for MMR, Tdap.
- Students born 12/31/1980 or later must submit proof of MMR, Varicella and Tdap.
- Students born outside the United States 01/01/1957 or later must provide proof of MMR, Tdap, and Varicella.

The Immunization Office must receive these records two weeks before the last day of late registration. It will take two to three business days to enter the data into the system. Immunization holds will be placed on student accounts to prevent registration and drop/add until the requirement is satisfied.

Students seeking exemption for religious reasons must submit a completed Georgia State University Certificate of Immunization form to the Immunization Office indicating their religious exemption request. Students with medical reasons for exemption must submit a doctor’s letter indicating if this is a permanent or temporary exemption, and, if temporary, the date of expiration. When the temporary exemption expires, the student must complete all immunization requirements. In the event of an epidemic or a threatened epidemic of any disease preventable by immunization, and when an emergency has been declared by appropriate health authorities, additional steps will be undertaken to protect the health of the University community. In the event of a declared public health emergency, persons who do not have proof of immunization on file will not be allowed to participate in classes or other activities on campus.

Students seeking military exemptions must show their DD214 form or Military ID proving active within the last 2 years.

Additional information and copies of the immunization certification form may be obtained by contacting the Immunization Office located in 141 Piedmont Avenue, Ste. D, or by telephone at 404-413-1940, or online at health.gsu.edu.

**Meningitis:** Georgia law requires that students residing in campus housing be provided information on meningococcal disease and vaccination. After reviewing information about the risks for the disease and the benefits of prevention by the meningitis vaccine, students 18 years and older are required to sign a form kept on file in the Housing Office. Students less than 18 years of age must show their parent or guardian’s signature on the form. This “Meningococcal Disease Notification” form documents that the information was reviewed and the option of the vaccine was provided, and/or date the vaccination was elicited. Compliance with the state law is a requirement for residing in campus housing and is part of the housing contract. Forms and further information are available from the Housing Office at 404-413-1800 or by email at housing@gsu.edu.

**1312.30 Classification of Courses**

Courses are numbered as follows:
<table>
<thead>
<tr>
<th>Student Status</th>
<th>Number Range</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prefreshman</td>
<td>0001-0099</td>
</tr>
<tr>
<td>Freshman</td>
<td>1000-1999</td>
</tr>
<tr>
<td>Sophomore</td>
<td>2000-2999</td>
</tr>
<tr>
<td>Junior</td>
<td>3000-3999</td>
</tr>
<tr>
<td>Senior</td>
<td>4000-4999</td>
</tr>
<tr>
<td>Graduate</td>
<td>5000 or higher</td>
</tr>
</tbody>
</table>

1312.35 Course Load

**Full-time Course Load:** To be certified as full-time students, graduate students must carry a minimum of nine semester hours in the fall and spring semesters and a minimum of six hours in the summer semester. Undergraduate courses taken by graduate students may be counted toward their academic load as specified in writing by their graduate college.

A student who is enrolled in less than a full-time course of study at Georgia State may be in jeopardy of:

- losing insurance coverage under his or her parent/guardian’s insurance policy;
- being out of compliance with the Department of Homeland Security if enrolled at Georgia State University on a student visa;
- being placed on a loan repayment schedule by a lender or guarantor if the student is the recipient of federal financial aid;
- losing a scholarship if the guidelines for receiving the scholarship require full-time enrollment; and/or
- losing an assistantship and/or graduate assistant tuition waiver.

**Half-time Course Load:** Half-time enrollment is a minimum of 4.5 semester hours for graduate students.

**International Students:** International students in the student visa status of F and J are required to carry a full-time course load as defined by the Department of Homeland Security.

1312.40 University Policy on Continuous Enrollment

Students in all graduate programs must maintain enrollment totaling 6 hours (or more) over all consecutive three semester periods (including summers). In other words, the total enrollment of the current term plus the two terms preceding it must add to 6 hours or more at all times. The status of all students will be checked by the midpoint of each term for compliance with the continuous enrollment requirement. Any student whose enrollment is out of compliance will receive a registration hold preventing all current and future registration. Those students will be notified by an email message sent to their official Georgia State University’s email account. In order to graduate, students must be actively enrolled in the program of study during the semester in which they finish degree requirements for graduation.

To resume their programs, students with continuous enrollment holds must file for re-entry by the published deadline and must enroll at a level sufficient to satisfy the continuous enrollment criterion. That
is, their enrollment in the re-entry term plus the two terms preceding it must total to 6 hours or more. The maximum required enrollment level for the re-entry term is 6 hours. For more information on the re-entry process, contact your college’s advisement/admissions office.

**1314 Revision of Class Schedules**

Students who wish to revise their class schedules must follow the procedure appropriate for the period of time in the semester (see section 1314.10 below). During the published registration periods for each semester, students may revise their schedules by accessing PAWS. Schedule revisions are defined as any changes to a student’s schedule and include dropping and/or adding classes.

To remove a course from a class schedule during the published registration period is referred to by the University community as “dropping” a course. Dropped courses do not appear on the student’s official record. After the last day to add/drop a course, students may “withdraw” from a course when they decide to stop attending. Withdrawn courses appear on the student’s official record. This grade is reflected on the student’s official record. After midpoint, the student will receive the grade the instructor assigns.

All schedule adjustments must be completed by the official last day to register for course credit as published in the online Semester Calendars at paws.gsu.edu. Printable calendars can also be found on gsu.edu under the Registrar’s page. If an institutional error has occurred, and a student wishes to be allowed to register for a course after the deadline, the student should contact the department offering the course.

**1314.10 Dropping Classes and Voluntary Withdrawal**

Students are responsible for formally dropping or withdrawing from courses using the online registration system, PAWS at paws.gsu.edu. Students should not simply stop attending. Students should be aware of the financial and academic consequences of dropping and withdrawing from courses by consulting with an academic advisor and referring to information concerning the tuition refund schedule found on the Office of Student Accounts’ web page and by referring to information on the Office of Financial Aid’s web page, which are located on the Student Financial Services website at sfs.gsu.edu.

Georgia State University reserves the right, at any time during the semester, to drop any student from classes for failure to pay tuition and fees. However, students should not assume that Georgia State will drop them from classes for failure to pay tuition and fees.

Registration Time Period:

1. **Adding/Dropping Time Period:** When registration opens for the term up until 5 p.m. the first Friday of the term, students may:
   - Add courses on PAWS
   - Drop courses on PAWS to no longer appear on the student’s official transcript. Note:
     Students will no longer be charged tuition for courses that are dropped at this time unless an equal credit hour course is added as well. (Refer to the tuition refund schedule on the Student Account web page at gsu.edu. Note: dropping courses and lowering your credit
hours for the term may have consequences academically and for financial aid eligibility)
  o After this time, students will not be able to add or drop courses on their own.

2. Schedule Adjustment – After the first week of classes up until the Midterm:
   • Students may withdraw from a class or classes on PAWS
   • Note: The last day for a student to add a class in PAWS is the first Friday of the term at 5 p.m.
   • As of the second week of classes, faculty have the discretion to request to add or drop students from classes if an administrative error has occurred. Factors such as space availability and health and safety regulations may apply to such requests. During the second week of classes, faculty have until Friday at 5 p.m. to submit request to add or drop students from classes. When a class is dropped during this period, no grade is recorded and no record of the student being enrolled in the class appears on the student’s transcript.
   • After the first week of classes and before the midpoint of the term: During this period, students may withdraw from a class or classes using the online registration system in PAWS. Students will receive a grade of W or WF for any class withdrawn during this period. Grades of W and WF appear on the student’s transcript. (Note: A grade of WF is treated as an F for GPA calculation purposes.)

3. After the midpoint of the term:
   • Students can no longer voluntary withdrawal from classes
   • Grades will be posted based on those assigned by instructors.
   • Students are responsible for consulting the course syllabus for specific instructor policies regarding such matters as penalties for missing the first class, an exam, an assignment or a project. These may include, among the other things, being dropped or withdrawn from a course.

1314.15 Withdrawals and Drops from Off-Campus Courses and Cancelled Courses

In general, if a student voluntarily withdraws from an off-campus course, then the normal withdrawal policy applies (see section 1314.10). If the off-campus course’s schedule does not match a Georgia State University term, then the mid-point of the course will be the mid-point of the period from the first off-campus meeting of the course to the last meeting of the course.

If a course is cancelled by Georgia State after the first week of classes, then the student may choose between the following options:

• They may have the course dropped from their schedule (even if the course is cancelled after the end of Late Registration), or
• They may take a W in the course, or
• In coordination with the course instructor and the department chair, the student may develop an academically appropriate plan to complete the course. These plans must be approved by the instructor and the department chair.

1314.20 Involuntary Withdrawal

Students are expected to observe all policies governing the class. Faculty must clearly state these policies in
the course syllabus. When a faculty member determines that a student is in violation of one of the class policies (for example, has missed a required assignment or has excessive absences), that faculty member may withdraw the student from the course. Students involuntarily withdrawn prior to the midpoint of the course will be assigned a grade of W or WF at the discretion of the professor. Students involuntarily withdrawn after the midpoint of the course will be assigned a grade WF. Note that a WF is treated as an F for GPA calculation purposes. A grade notation of – before the grade of W indicates non attendance documented by the professor. Using the official Georgia State University email system, the instructor will notify a student who is involuntarily withdrawn, and within ten days of this notification, the student may petition to the department chair for reinstatement in the course.

Students involuntarily withdrawn from all classes may be entitled to a partial refund of their fees (see Section 1210).

1314.25 Emergency Withdrawal

Students may request an emergency withdrawal when a non-academic emergency situation occurs that prevents them from completing their course work (e.g., severe medical problems, traumatic events) and when the timing or nature of the emergency prevents them from voluntarily withdrawing from their classes. (See Section 1314.10.) Emergency withdrawals are subject to the following restrictions:

- Students must initiate an application for an emergency withdrawal no later than two academic years after the semester in which the courses were taken.
- Students may request emergency withdrawals in a maximum of two semesters of their enrollment at Georgia State.
- Students may not request an emergency withdrawal after degree conferral.

Emergency withdrawals normally apply to all the courses a student took in a semester. In exceptional cases, emergency withdrawals may be granted for some of a student’s courses. Students requesting an emergency withdrawal in some but not all of their courses must provide documentation to justify a partial withdrawal.

If a student is granted an emergency withdrawal, W grades will automatically be awarded. W grades awarded as a result of the emergency withdrawal process do not count against the student’s voluntary withdrawal limits.

For further information on emergency withdrawals, contact the Office of the Dean of Students at deanofstudents.gsu.edu.

1314.30 Military Withdrawal

Withdrawal for Military Service: Refunds and Grades

Full refunds of tuition and mandatory fees and pro rata refunds of elective fees may be considered for students who are:

1. Military reservists (including members of the National Guard) who, after having enrolled in courses
and paid tuition and fees, receive orders without prior notice to active duty, reassigned for temporary duty, or mandatory training and the orders prevent completion of the term;

2. Commissioned officers of the United States Public Health Service Commissioned Corps (PHSCC) who receive deployment orders in response to a public health crisis or national emergency after having enrolled in courses and paid tuition and fees and the orders prevent completion of the term;

3. Active duty military personnel who, after having enrolled in courses and paid tuition and fees, receive reassignment, a temporary duty assignment, or a training assignment without prior notice and the orders prevent completion of the term; or,

4. Otherwise unusually and detrimentally affected by the activation of members of the reserve components or the deployment of active duty personnel of the Armed Forces of the United States who demonstrate a need for exceptional equitable relief.

This policy does not apply to a student enlisting in the Armed Forces prior to or during a semester, unless the student presents documentation showing his/her date to report to initial training was changed without the student’s prior knowledge and the new reporting date prevents completion of the term.

Students must officially withdraw and submit official orders to the Office of the Registrar, Military Outreach Center prior to leaving for the assignment. The student is not eligible for a military withdrawal in any course in which the student has completed the course requirements (for example, taking the final exam or submitting the final paper) and/or a grade has been assigned. Elective fees are to be prorated according to the date on which the student officially withdraws. Students who withdraw and receive a full tuition refund will receive a grade of “WM” (military withdrawal) for all courses from which the student has withdrawn.

**Appeals Committee**

Per the BOR’s policy on Military Service Refunds, 7.3.5.3, requests for exceptional relief are made directly to the president of the institution and the president will make a determination on each request expeditiously.

Requests for course withdrawals due to military service will first be considered by the certifying officials in the Office of the Registrar, Military Outreach Center. If a student’s request is denied and the student feels his/her case requires exceptional relief due to an unusual or detrimental activation, then the request will be considered by the Military Outreach Committee.

The Military Outreach Committee consists of academic advisors, VA benefit certifying officials, ROTC representatives, associate deans and university representatives from the Counseling Center and Affirmative Action. This committee will make recommendations to approve or deny students’ requests to the Vice President for Enrollment and Provost/VP for Academic Affairs.

Appeals of the decision of the Vice President for Enrollment and Provost/VP for Academic Affairs may be initiated by the student within 5 business days of notification of the Vice President for Enrollment’s decision and will be considered by the Provost.

Appeals of the decision of the Provost may be initiated by the student within 5 business days of notification of the Provost’s decision and will be considered by the President.
1314.35 Non-Academic Withdrawal

In the judgment of the Dean of Students, a student may be withdrawn from the university for non-academic reasons when it is determined that the student has demonstrated behavior that: (a) poses a significant danger or threat of physical harm to the person or property of others; or (b) interferes with the rights of other members of the university community or with the exercise of any proper activities or functions of the university or its personnel. Except in situations where the student is believed to be an imminent threat to others, as determined at the sole discretion of the University, a student shall, upon request, be accorded an appropriate hearing prior to the final decision concerning his or her continued enrollment at the university. In situations involving an imminent threat, the student will be provided a hearing as soon as possible after the withdrawal occurs. The instructor will assign students who are non-academically withdrawn a grade of W if they are withdrawn before the semester midpoint and a WF if they are withdrawn after the semester midpoint.

1316 Changes in Personal Data

As correct personal data is vital to the student’s record, students are urged to have their records updated when these changes occur. PAWS (Panther Access to Web Services) at paws.gsu.edu allows students to update some of their student records (address, phone number, etc.) using a terminal or personal computer. Students who wish to change their names and other personal data not allowed on PAWS should contact the Enrollment Services Center, Room 227 Sparks Hall, to complete forms and provide the legal documents required for a name change.

1318 Off-Campus Courses

Many courses are offered to Georgia State University students at satellite locations. Students taking these courses must meet the same academic requirements and deadlines as students attending classes at the downtown campus. Each semester a list of off-campus courses can be found by accessing the online registration system in PAWS at paws.gsu.edu.

1320 Cross Registration

Georgia State University students may enroll in courses offered by member institutions of the Atlanta Regional Consortium for Higher Education (ARCHE) under a cross registration agreement. Students who wish to cross register must meet all eligibility requirements under the ARCHE agreement and the University. Courses taken through cross registration are considered resident credit. Students may learn more about cross registration or obtain an ARCHE Cross Registration Application at http://registrar.gsu.edu/registration/cross-registration/.

Cross Registration Application Deadlines:

- Fall Semester: July 26
- Spring Semester: December 1
- Summer Semester: May 1

Student Eligibility Criteria:

- Students must be in good standing and have a minimum Georgia State University cumulative GPA of 3.0 GPA.
- Students must be concurrently enrolled in at least one Georgia State course.
- Students must meet prerequisites for requested course(s) as defined by Georgia State University and the host institution.
- Students must meet the host institution’s immunization and health requirements.
- First-semester graduate students may not cross register (unless cross registering in courses for purposes of ROTC training or marching band).

Course Restrictions:

Students may not cross register for a course if

- The course is offered at Georgia State that semester.
- The course has been previously attempted at Georgia State (including attempts which resulted in a withdrawal or an unsatisfactory grade).
- The course or an appropriate substitute is routinely available at Georgia State (that is, offered each semester or on a specified regular basis, such as every fall). Determination of whether the course is routinely available is made by the advisement office in consultation with the chair or director of the academic unit that offers the course.
- The College and/or degree program has restrictions or departmental requirements for the specific course.
- The student expects to graduate from Georgia State during the semester the student wishes to cross register a course.

Students are limited to two cross-registered courses per semester, and the combined course load at Georgia State University and the host institution may not exceed 18 credit hours. The student’s transfer credit, cross registration credit, and credit by examination applicable to their degree program may not exceed a third of their degree requirements.

Procedures:

Students who wish to cross register must complete and submit an ARCHE Cross Registration Application to the Office of the Registrar, room 225, Sparks Hall. Cross Registration Applications are available online: http://registrar.gsu.edu/registration/cross-registration/.

Students who wish to take academic courses at an ARCHE institution must obtain written approval in advance from the University Advisement Center or the Office of Academic Assistance in the student’s college. Course outlines (syllabi) and catalog information may be required so content can be evaluated before approval is granted by the Office of Academic Assistance.

Students are not allowed to pre-register in courses they wish to cross register. Once all approvals have been
obtained, the host institution’s Cross Registration Coordinator will register students for the approved course(s) on a space-available basis after the host institution’s regularly enrolled or continuing students have had first priority for registration. The host institution’s Cross Registration Coordinator will inform the student of approval and registration status.

Georgia State University’s students will pay Georgia State University’s tuition and fee rates via PAWS. However, special fees (lab fees, parking and equipment lease) and security deposits must be paid to the host institution.

Students must abide by all host institutions’ policies and schedules regarding grades, exam dates, absences, and add/drop/withdrawal deadlines. To withdraw from a course, both Georgia State University and the host institution’s withdrawal procedures must be followed. Changes in registration must be approved by Georgia State University and the host institution’s Cross Registration Coordinators.

Upon completion of the course, the host institution’s Cross Registration Coordinator will send a final transcript to Georgia State University. Students who receive a grade of Incomplete at a host institution should recognize that the time limit for removal of a grade of Incomplete must not exceed Georgia State University’s deadline for removal of a grade of incomplete (see section 1350.30 Changes in Grade). It is the student’s responsibility to request an official transcript from the host institution once the grade of Incomplete has been satisfied and a final grade has been assigned.

Students must complete a new ARCHE Cross Registration Application for any subsequent term.

Cross registration is available in the summer on a limited basis. Consult the Office of the Registrar for more information. The participating ARCHE member institutions are: Agnes Scott College, Atlanta College of Art, Brenau University, Clark Atlanta University, Clayton State University, Columbia Theological Seminary, Emory University, Georgia Gwinnett College, Georgia Institute of Technology, Interdenominational Theological Center, Kennesaw State University, Mercer University Atlanta Campus, Morehouse College, Morehouse School of Medicine, Oglethorpe University, Savannah College of Art and Design – Atlanta, Southern Polytechnic State University, Spelman College, State University of West Georgia, and University of Georgia.

1322 Transcript Request

A student who has no unmet financial obligations to Georgia State University is entitled to receive, upon request, a copy of his or her transcript. Official transcripts of academic work completed at Georgia State University may be ordered via PAWS at paws.gsu.edu. A student is entitled to five free lifetime official transcripts. Once a student has requested the five free, official transcripts, Georgia State will charge a $10.00 processing fee for each transcript processed thereafter. Students can print unofficial transcripts at no charge on PAWS. Processing an official transcript may take up to five to ten business days depending on when the request is made. Picture identification is required to pick up transcripts.

Transcript requests will not be processed until complete payment is received. Credit card payment is required for web requests.

Requests for copies of official transcripts received from other institutions will not be granted. Such requests
must be directed to the institution holding the student’s original records.

Routine copies of other information in the student’s education records, with the exception of transcripts from other institutions and other items excluded from copying by practice or regulation will be provided upon written request. A fee may be charged to cover the cost of copying. Special certifications based on educational records will be provided upon written request when permissible.

Additional information on transcripts can be found in PAWS and on the Registrar’s website at registrar.gsu.edu/academic-records/transcripts.

1324 Enrollment and Degree Verification

Enrollment verification is obtained via the web at no cost to students and takes approximately 7 business days to process. Official enrollment verifications can be requested after the second week of the term.

Enrollment Verification

To obtain proof of enrollment, students should access PAWS at paws.gsu.edu. At this site, students can do the following:

- Print a Certificate of Enrollment that can be forwarded to a health insurer, housing provider, employer, credit issuer, or other student services provider;
- View the electronic notification and deferment forms that have been sent to a lender; and
- View a list of lenders and real-time student loan information detail, such as outstanding principal balance and next due date that some lenders provide.

Once a student drops a course, those hours cannot be used for verification of enrollment purposes. A student’s enrollment status may change if he/she drops or withdraws from a course or withdraws from the university. If a student is co-enrolled at another collegiate institution during the same semester he or she is enrolled at Georgia State University, only the enrolled hours at Georgia State can be used for enrollment verification purposes.

Degree Verification

To obtain proof that a degree has been awarded, students should go to http://registrar.gsu.edu/graduation/degree-conferral-and-diploma-information.

At this site students can provide proof of degree to such agencies as third-party verifiers, credit card companies, and credit approval agencies. This is a website of the National Student Clearinghouse. The Clearinghouse provides degree verification services to Georgia State students.

Additional information on enrollment and degree verification can be found on the Office of the Registrar web site at http://registrar.gsu.edu.

1326 Directory Information
Directory Information is defined based on the Family Educational Rights and Privacy Act, which can be located in section 1050 of this Catalog. An enrolled student may request that directory information (name, address, etc) not be public. To make this request, a student should fill out a Suppress Directory Information Form, available on the Academic Records webpage at http://registrar.gsu.edu/academic-records/, and turn it in to the Enrollment Service Center, 227 Sparks Hall.

1328 The Grading System

1328.10 Grades

The following grades are used to specify level of performance in academic courses:

- **A**: Excellent
- **B**: Good
- **C**: Average
  (Minimum grade required for certain courses, as specified elsewhere in this catalog.)
- **D**: Poor
  A grade of D, while earning credit hours, will not apply toward the degree in courses requiring a grade of C or higher.
- **F**: Failure
  This grade indicates failure. No credit toward graduation is given for a course in which a grade of F was received.
- **WF**: Withdrawal while Failing
  This grade indicates failure. No credit toward graduation is given for a course in which a grade of WF was received. A WF and F are treated the same for GPA calculation purposes.

The following grades are approved for use in the cases indicated but will not be included in the determination of a student’s cumulative grade point average:

- **W**: Withdrawal
  This symbol indicates that a student was permitted to withdraw from the course without penalty. (See “WF: Withdrawal While Failing”, above, and Section 1314.10)
- **WM**: Military Withdrawal
  This symbol indicates that active duty military personnel and military reservists (including members of the National Guard) received emergency orders to active duty or reassignment during the term (see Military Withdrawal, Section 1314.30).
- **I**: Incomplete
  The notation of I may be given to a student who, for nonacademic reasons beyond his or her control, is unable to meet the full requirements of a course. In order to qualify for an “I”, a student must:
  - Have completed most of the major assignments of the course (generally all but one); and
  - Be earning a passing grade in the course (aside from the assignments not completed) in the judgment of the instructor.
When a student has a nonacademic reason for not completing one or more of the assignments for a course, including examinations, and wishes to receive an incomplete for the course, it is the responsibility of the student to inform the instructor in person or in writing of the reason. A grade of incomplete is awarded at the discretion of the instructor and is not the prerogative of the student. Conditions to be met for removing a grade of incomplete are established by the instructor. Registering in a subsequent semester for a course in which a grade of incomplete has been received will not remove the grade of incomplete. (See Section 1332.) No student may graduate with an “I” on his or her record record for that degree program. If the requirements to remove a grade of incomplete are not met prior to the deadline, the grade of I will convert to a grade of F.

- **IP: In Progress**
  This symbol indicates that credit has not been given in courses that require a continuation of work beyond the term for which the student registered for the course. The use of this symbol is approved for dissertation, thesis, study abroad and project courses (such as student teaching, clinical practice, and internships). The IP notation may be replaced with an appropriate grade by the instructor. This symbol cannot be substituted for an “I.”

- **S: Satisfactory**
  This symbol indicates that credit has been given for completion of degree requirements other than academic course work. The use of this symbol is approved for dissertation and thesis hours, student teaching, clinical practicum, internship, and proficiency requirements in graduate programs.

- **U: Unsatisfactory**
  This symbol indicates unsatisfactory performance in an attempt to complete degree requirements other than academic course work. No credit will be given. The use of this symbol is approved for dissertation and thesis hours, student teaching, clinical practicum, internship, and proficiency requirements in graduate programs.

- **V: Audit**
  This notation is used when a student has audited a course. Students do not earn academic credit for such courses. See Section 1342.

- **K: Credit-by-examination**
  This symbol indicates that a student was given credit for a course based on successful performance on an examination approved for this purpose.

- **NR: Not Reported**
  This symbol indicates that a student’s grade was not reported to the Registrar’s Office by the deadline for reporting grades for the term as published in the on-line Registration Guide. The grade will be updated as soon as the instructor reports the grade.

- **GP: Grade Pending**
  This symbol indicates a grade will be assigned pending the outcome of an academic honesty case. See Section 1350.

### 1330 Cumulative Grade Point Average

Georgia State University has two cumulative grade point averages that are used to determine academic progress and appear on student’s permanent records.

**Institutional GPA – Based on courses taken at Georgia State University**

This cumulative grade point average is calculated by dividing all hours attempted at Georgia State
University into total quality points earned. Quality points are calculated by multiplying hours earned for each course by the numerical value of the grade earned. (See the following table below for numerical equivalents of letter grades.) Credits earned in other institutions, credit by examination, credits which carry S/U grades, CLEP credit, IB credit, AP credit, remedial courses and courses specifically excluded by University policy are not used in computing the grade point average.

The institutional grade point average is used in determining your academic standing, and determines your eligibility for graduation. (A 3.00 is required for graduate students for graduation.)

Overall Grade Point Average – Based on courses taken at Georgia State University and transfer grades

The overall grade point average is calculated by dividing all hours attempted at Georgia State University and those transferred into total quality points earned. Quality points are calculated by multiplying hours earned for each course by the numerical value of the grade earned. (See the following table for numerical equivalents of letter grades.) Credit by examination, credits which carry S/U grades, CLEP credit, IB credit, AP credit, remedial courses, and courses specifically excluded by University policy are not used in computing the grade point average.

This GPA is used by some departments that require admission to a major. See specific admission requirements within the program descriptions.

All grade point averages are rounded to the hundredth place. For example, 2.676 is rounded to 2.68.

All attempts at all academic courses taken are included in these calculations, based on the definitions listed above, of total number of grade points earned and the total number of semester hours attempted.

The numerical equivalents (grade point) for academic letter grades are as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Grade Point</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.30</td>
</tr>
<tr>
<td>A</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>3.70</td>
</tr>
<tr>
<td>B+</td>
<td>3.30</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>2.70</td>
</tr>
<tr>
<td>C+</td>
<td>2.30</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
</tr>
<tr>
<td>C-</td>
<td>1.70</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
</tr>
<tr>
<td>F</td>
<td>0.00</td>
</tr>
<tr>
<td>WF</td>
<td>0.00</td>
</tr>
<tr>
<td>IP</td>
<td>0.00</td>
</tr>
</tbody>
</table>

The symbols I (Incomplete), IP (In Progress), W (Withdrawal), S (Satisfactory), U (Unsatisfactory), V (Audit), K (Credit-by-examination), and NR (Not Reported) do not have numerical equivalents and are not used in calculating grade point averages. The Department of Veterans Affairs defines the U and V as non-punitive grades; however, veteran students should notify the veterans’ counselor immediately upon
receiving a grade of U or V.

1332 Changes in Grades

A course grade that has been reported by the instructor to the Office of the Registrar and recorded cannot be changed except in the following circumstances:

- **Error in grade** – If a student believes that there is an error in a grade, the student should discuss the situation with the instructor. A request for a change of grade assigned by an instructor who has left the University should be addressed to the chair of the department.

- **Removal of an Incomplete** – A student receiving a grade of I (incomplete) is expected to consult with the instructor within the prescribed time limit and to complete all necessary work. The period of time given to a student to remove a grade of I is established by the instructor, subject only to the maximum time limit set by the university. The university requires that a grade of I be removed not later than the end of the second academic term after the grade of I was assigned (whether or not the student was enrolled during these two terms). The Office of the Registrar will assign a grade of F at the end of the second academic term unless the Office of the Registrar receives an approved grade change request from the instructor. (If the student enrolled for S/U grading, a U will be assigned.). Using the change request process, instructors may or may not change this F/U to an authorized academic grade (i.e., A,B,C,D,S or WF) but may not change it back to an I. Instructors may not change an I to a W unless an Emergency Withdrawal is awarded. In exceptional cases, departments may authorize students to have an I grade for more than two semesters. Such authorizations must be approved by the department chair. The authorization to extend the I beyond two semesters must be renewed each semester. Students need not be enrolled to complete assignments for a course in which a grade of I has been assigned. Auditing or retaking the same course will not remove a grade of I. No student may graduate with an incomplete grade for that particular degree program.

1334 Posthumous Grades

When a student passes away before completing all assignments in a course, that student will be awarded a grade of W in the course. However, if the student has completed more than half the work required for the course and earned a grade of A or B in that work, the instructor may award the student an A or a B.

1336 Graduation

Graduation Office, Office of the Registrar
75 Piedmont Avenue, Suite 1190
http://registrar.gsu.edu/graduation

1336.10 Application for Graduation

All candidates for a degree must file a formal application for graduation with the Graduation Office. Students apply online and pay the graduation fee by logging into PAWS. To access the Graduation
Application, select the Enrollment tab. The Application for Graduation link is located under the Updates/Requests Student Record section of the page. Once the link is selected, step-by-step instructions will be provided regarding the application process.

Students should apply two semesters prior to their anticipated term of completion. Masters and Doctoral candidates must apply by the following deadlines before their expected term of graduation:

<table>
<thead>
<tr>
<th>Term of Expected Graduation</th>
<th>Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall Semester</td>
<td>June 15</td>
</tr>
<tr>
<td>Spring Semester</td>
<td>September 15</td>
</tr>
<tr>
<td>Summer Semester</td>
<td>January 15</td>
</tr>
</tbody>
</table>

This allows the university to audit the student’s records for problems while there is still time for the student to correct those problems.

The Office of Academic Assistance or Office of Graduate Studies in the student’s college will inform the student’s college when the application is filed. The Office of Academic Assistance of the student’s college will conduct an audit and inform the student of any remaining requirements. The Graduation Office conducts an independent audit the expected semester of graduation to ensure that all degree requirements will be satisfied.

Once a student applies for graduation by the deadline, the student can change his or her graduation date to a future date by completing the Change of Graduation form, located on the graduation web site.

Official transcripts of prior term course grades from institutions other than Georgia State University must be received by the last day of registration of the semester of graduation. Any other documentation pertaining to non-Georgia State courses which is needed to determine if transfer credit can be granted (such as catalog descriptions or course outlines) must be received by the student’s Office of Academic Assistance by the last day of registration of the semester of graduation.

Students who wish to be transient students or who wish to participate in cross-registration for their remaining course work will graduate one semester after the term in which the last course to be transferred to Georgia State University has been taken. Such students must obtain advance permission to complete their degree elsewhere from their college’s Office of Academic Assistance or Office of Graduate Studies.

**1336.15 Graduation Requirements**

A degree will be awarded only to a student who meets both the university academic and residence requirements and the standards of performance, academic requirements, and residence requirements of their college. Students should examine the earlier sections of this chapter for university requirements and consult their college’s chapter of this catalog for degree meeting program’s requirements. Students must earn 1/3 or more of the credit hours required for the degree through Georgia State direct instruction.

Graduation requirements for all graduate degrees include at least a 3.00 minimum cumulative grade point average; however, some graduate programs require a higher grade point average. The minimum cumulative GPA includes all work attempted at the graduate level even if taken in two or more programs or
departments. If a student takes a course multiple times at another institution or at Georgia State, the grade earned in the final attempt will determine the applicability of the course to the degree requirements.

All grades for courses taken during the semester of graduation at Georgia State University and all grades of incomplete for previous semesters must be received in the Registrar’s Office in writing by 5 p.m. the Friday preceding the graduation date. Students whose grades are received after this deadline will graduate in the following semester.

Official transcripts of prior term course grades from institutions other than Georgia State University must be in the Office of the Registrar by the last day of registration of the semester of graduation. Any other documentation pertaining to non-Georgia State University courses which is needed to determine if transfer credit can be granted (such as catalog descriptions or course outlines) must be received by the student’s Office of Academic Assistance/Office of Graduate Studies by the last day of registration of the semester of graduation. It is the student’s responsibility to see to it that incomplete grades are properly recorded in the appropriate offices by the deadline stated in this section.

1336.20 Graduation Ceremonies

University Commencement Ceremonies are held at the end of the fall and spring academic terms. Individual academic areas may hold convocations at the end of both the fall and spring terms. You should consult with your academic college. In order to participate in the University Commencement ceremony, a student must have completed all degree requirements in accordance with rules and regulations found in this catalog. Students who have registered for all remaining degree requires in the summer and have applied for summer degree conferral may elect to participate in the spring ceremony. However, degree conferral will not occur until successful completion of the summer term. While the University holds only two Commencement ceremonies, degrees are conferred at the end of each term; fall, spring and summer, and diplomas are mailed approximately four weeks following degree conferral. Diplomas are mailed to the student’s mailing address of record. Students should keep their mailing addresses updated through PAWS at paws.gsu.edu. Allow four weeks following the official date of degree conferral for delivery of the diploma.

Students who indicated on the graduation application that they are attending the commencement ceremony are to purchase their regalia from the Georgia State University Bookstore. The bookstore can be reached at 404-413-9700, by e-mail at bookstore@gsu.edu, or online at services.gsu.edu/service/bookstore/. Commencement photography is also available. Complete information will be sent to degree candidates by the midpoint of their scheduled semester of graduation. If a student later decides not to attend the ceremony, he or she must notify the Graduation Office at 404-413-2248 or email at graduation@gsu.edu.

Additional information concerning graduation procedures can be obtained through the graduation website at registrar.gsu.edu/graduation.

1340 Class Attendance

The resources of the University are provided for the intellectual growth and development of its students. The University expects each student to take full responsibility for his or her academic work and academic
progress. Students are expected to attend classes in order to gain command of the concepts and materials of their courses of study. As such, the University does not mandate the number or percentage of absences that are acceptable but suggests a guideline of 15% for determining an excessive level of absence. The specific class attendance policies for each class are at the discretion of the instructor, in accordance with the policies of the department and college.

All matters related to student absences, including making up work missed, are to be arranged between the student and the instructor before the semester begins or on the first week of classes. All instructors will, at the beginning of each semester, make a clear statement in the course syllabus for each of their classes, describing their policies for handling absences. Students are obligated to adhere to the requirements of each course and of each instructor. Instructors are encouraged to provide avenues for students to make up examinations and other work missed due to an excused absence.

Excused absences are recognized in the following cases:

1. **University-Sponsored Events.** Absences due to activities approved by the Office of the Provost, in which a student is an official representative of the University will be recognized as excused when the student informs the instructor in writing during the first week of the semester of his or her participation in an activity that may generate excused absences and the dates of planned absences for the semester. If requested, the appropriate university official will provide a memo stating the official nature of the university business in advance of the activity. Absences due to similar events, which could not have been anticipated earlier in the semester, will be recognized as excused absences upon advance notification of the instructor by an appropriate faculty advisor or administrator.

2. **Legal Obligations.** Absences due to legal obligations (for example, jury duty, military orders) will be recognized as excused absences. The student must provide the instructor with written documentation of such absences at the earliest possible date.

3. **Religious Observances.** Students wishing to have an excused absence due to the observation of a religious holiday of special importance must provide advance written request to each instructor by the end of the first week of classes.

**Class Attendance by Veterans**

The Department of Veterans Affairs requires that institutions of higher learning immediately report to them when a student discontinues attendance for any reason. Instructors must report to the Registrar’s Office the absence of a veteran student as soon as it is known that the veteran student will not be returning to class. Generally, this should be reported after one week of absences and no later than two weeks of nonattendance by a veteran student.

In addition, it is suggested that the faculty give due consideration to absences relating to the following events: death or major illness in student’s immediate family, illness of a dependent family member, illness that is too severe or contagious for students to attend class.

**1342 Audit Status**

Enrolled students who wish to audit a course must get approval from the course instructor. Registration for an audit is done in the Office of the Registrar, 227 Sparks Hall. Students should not pre-register for courses.
they wish to audit. Any fees for auditing a class are assessed just as they are for courses taken for credit. Any requirements for prerequisites must be satisfied before registering to audit a course. No academic credit is earned in this status. Audit status is not covered by financial aid, and audit hours do not apply toward full-time enrollment. Students may not transfer from audit to credit status or vice-versa after the last day to register for a course.

1344 Final Examinations

A student shall not be required to take more than two examinations within one 24-hour period during the published final examination period. More than two examinations within 24 hours are referred to as clustered examinations.

A student is considered to have an inappropriate clustering of final examinations when more than two examinations fall within 24 hours (for example, examinations at 8:30 a.m., 11:30 a.m., and 6:00 p.m. on the same day, or examinations at 6 p.m. on one day, and at 8:30 a.m. and 2:30 p.m. on the following day); the student is not considered to have an inappropriate clustering of examinations if the third examination in sequence begins at the same time on the subsequent day as the first examination (for example, 6:00 p.m. on one day, and 2:30 p.m. and 6:00 p.m. on the following day).

Students who have three or more clustered examinations may request of one professor that the examination be rescheduled according to the following procedure:

- If a final examination was rescheduled and thereby created a “cluster,” the instructor of the rescheduled examination will provide a special administration for the adversely affected student.
- If one or more of the clustered examinations is a “common examination” with an established conflict resolution time, the student will request to resolve the conflict by taking one of the common examinations in the conflict resolution time. If two or more of the examinations are “common examinations,” the student may choose which “common examination(s)” is to be rescheduled.
- If one of the clustered examinations is not a common examination or the result of rescheduling, the instructor of the middle examination(s) will provide a special administration for the adversely affected student.

Students must inform the instructor, in writing and at least 14 days before the beginning of the final examination period, that a clustered examination situation exists with respect to that instructor’s course and that the student will need to take the final examination as a special administration. If a student fails to inform the instructor, in writing and at least 14 days before the beginning of the final examination period, the instructor is not required to provide a special administration of the final examination.

Once a student has taken an examination, he or she cannot request a reexamination on the basis of this policy.

1346 University Career Services

260 Student Center West
career.gsu.edu
The central office for **University Career Services** (UCS) houses the comprehensive career center for the campus with programs, services, information, and counseling to assist students with career decisions, as well as preparation for and implementation of successful job and graduate/professional school searches. The central UCS office works with undergraduate and graduate students from the first year on campus through the one year anniversary of their graduation. Alumni beyond a year of graduation may enroll in **Alumni Career Services**, a program also housed within the office (Note: an Alumni Career Services fee is associated with some services). Students from all majors and areas of study, from all class levels, and from all colleges, are served.

**Career Development services are** available by appointment. Individual and group sessions are offered, always with the goal of helping students and alumni connect their passion and purpose with career opportunities. The career counselors also provide career assessments, which aid students in exploring career possibilities based on values, interests, and personality.

Workshops, information and career counselors are available to help students and alumni with their **career exploration** and assess their individual talents, skills, and interests, and to set career goals. Programs and materials, employer panels, employer information sessions, and career fairs provide up-to-date information for use in exploring careers and researching employers.

Through the **Employer Relations** team, University Career Services has programs and services that connect students, alumni, and employers for internship and career opportunities, as well as employment to meet expenses while attending school. Regular workshops, employer events such as mock interviews and résumé critique days, and online information help students prepare résumés, and develop interviewing and other job search skills.

The **Graduate and Professional School Planning** program assists students exploring advanced degree opportunities, either here at Georgia State University or at another campus within the United States or abroad. This program has materials to assist students in researching programs as well as support in making application. This program also sponsors the fall Graduate and Professional School Fair, which brings graduate school recruiters from across the country to meet interested Georgia State students.

The **Career Resource Center** (CRC) is the central point of contact for students and contains workstations with access to online career guidance, job postings, graduate/professional school information, and employer research databases. The CRC also houses career-oriented books and multimedia materials for researching career and advanced degree opportunities.

Résumania is the walk-in résumé and c.v. review service, available Monday through Friday, 9am to 3pm. No appointment is needed. Résumania takes place in the CRC, Room 260 Student Center West.

All Georgia State University students have an account on **Panther Career Net**, a web-based career management system utilized by students, employers and the career services staff. Panther Career Net is free to all enrolled students. Activation of the account (completing a profile and uploading a résumé if seeking employment) provides 24/7 on and off-campus access to many of the Career Resource Center’s online resources, as well as easy application to jobs, and information about career events and employers. Activation requires use of one’s campus ID and password and can be done remotely.

For more information on career counseling, career assessment, career exploration, graduate and
professional school planning, internship and career opportunities, and job search support, visit the central office of University Career Services in 260 Student Center West or call 404-413-1820 or visit the website at career.gsu.edu.

1348 International Student & Scholar Services (ISSS)

252 Sparks Hall
iss.s.gsu.edu

International Student & Scholar Services (ISSS) provides support for Georgia State University’s non-immigrant international student, faculty, and researcher population, their dependents, and any foreign-born citizens and permanent residents of the United States who may need services. Services include orientations, immigration advisement, international student and scholar insurance support, student advocacy, and other personal assistance in adjusting to and joining the university community. The office staff serves as a liaison with all academic departments, the diplomatic corps, and a variety of international agencies and publishes a newsletter focusing on issues of interest to international students. International Services also offers assistance to academic departments wishing to invite foreign scholars or hire foreign faculty. Information concerning programs and services is available in 252 Sparks Hall, by calling 404-413-2070 or online at isss.gsu.edu.

International Student Orientation – Prior to the beginning of each semester, an orientation program is offered to provide assistance to new students on nonimmigrant status. Students receive information and advice concerning federal immigration, the academic system in the United States, academic advisement and registration, the Atlanta community, and the mandatory health and accident insurance.

International Student Associations – Georgia State University has approximately twenty international student organizations that focus on celebrating the many countries and cultures represented on campus. They provide assistance for new and continuing international students, present cultural activities and events, and seek ways to share their culture with the campus. Information about the various associations and their umbrella group, the International Student Association Council, is available in the International Services office, and online at isss.gsu.edu.

International Student Health Insurance – Health insurance is mandatory for all international students and scholars in F and J status enrolled at Georgia State, and is optional for other nonimmigrant status students. A special international student health and accident insurance policy is made available each academic year, and payment of the insurance premiums is collected along with tuition during the process of registration. Individuals who may already be covered by a policy are required to request a waiver with the insurance company the semester before enrollment. More information is available online at www.studentcenter.uhcsr.com/gsu or through Student Accounts.

1350 Academic Honesty

1. Introduction

As members of the academic community, students are expected to recognize and uphold standards of
intellectual and academic integrity. The University assumes as a basic and minimum standard of conduct in academic matters that students be honest and that they submit for credit only the products of their own efforts. Both the ideals of scholarship and the need for fairness require that all dishonest work be rejected as a basis for academic credit. They also require that students refrain from any and all forms of dishonorable or unethical conduct related to their academic work.

The University’s policy on academic honesty is published in the Faculty Handbook (http://www2.gsu.edu/~wwsfhb/fhb.html) and the Student Handbook, On Campus, which is available to all members of the University community (http://studenthandbook.gsu.edu/). Academic honesty is a core value of the University and all members of the University community are responsible for abiding by the tenets of the policy. Georgia State students, faculty, and staff, are expected to report all instances of academic dishonesty to the appropriate authorities. The procedures for such reporting are outlined below and on file in the offices of the deans of each college, the Office of the Dean of Students, and the Office of the Provost.

Lack of knowledge of this policy is not an acceptable defense to any charge of academic dishonesty. In an effort to foster an environment of academic integrity and to prevent academic dishonesty, students are expected to discuss with faculty the expectations regarding course assignments and standards of conduct. Students are encouraged to discuss freely with faculty, academic advisors, and other members of the University community any questions pertaining to the provisions of this policy. In addition, students are encouraged to avail themselves of programs in establishing personal standards and ethics offered by the university.

No instructor or department may impose academic or disciplinary penalties for academic dishonesty outside the parameters of this policy. This policy applies to all incidents of academic dishonesty, including those that occur before a student graduates but are not discovered until after the degree is conferred. In such cases, it is possible that the application of this policy will lead to a failure to meet degree completion requirements and therefore a revocation of a student’s degree.

Many colleges and/or departments provide statements of what constitutes academic dishonesty within the context of their discipline, and recommend penalties for specific types of academic dishonesty. As noted in the Faculty Handbook, all syllabi are required to make reference to the Academic Honesty Policy; syllabi should also include a link to departmental standards where they exist.

2. Definitions and Examples
The examples and definitions given below are intended to clarify the standards by which academic honesty and academically honorable conduct are to be judged. The list is merely illustrative of the kinds of infractions that may occur, and it is not intended to be exhaustive. Moreover, the definitions and examples suggest conditions under which unacceptable behavior of the indicated types normally occurs; however, there may be unusual cases that fall outside these conditions which also will be judged unacceptable by the academic community.

**Plagiarism.** Plagiarism is presenting another person’s work as one’s own. Plagiarism includes any paraphrasing or summarizing of the works of another person without acknowledgment, including the submitting of another student’s work as one’s own. Plagiarism frequently involves a failure to acknowledge in the text, notes, or footnotes the quotation of the paragraphs, sentences, or even a few phrases written or spoken by someone else. The submission of research or completed papers or projects by someone else is plagiarism, as is the unacknowledged use of research sources gathered by someone else when that use is specifically forbidden by the faculty member. Failure to indicate the extent and nature of one’s reliance on
other sources is also a form of plagiarism. Failure to indicate the extent and nature of one’s reliance on other sources is also a form of plagiarism. Any work, in whole or part, taken from the internet without properly referencing the corresponding URL (along with the author’s name and title of the work, if available) may be considered plagiarism. Finally, there may be forms of plagiarism that are unique to an individual discipline or course, examples of which should be provided in advance by the faculty member. The student is responsible for understanding the legitimate use of sources, the appropriate ways of acknowledging academic, scholarly or creative indebtedness, and the consequences of violating this responsibility.

**Cheating on Examinations.** Cheating on examinations involves giving or receiving unauthorized help before, during, or after an examination. Examples of unauthorized help include the use of notes, texts, or “crib sheets” during an examination (unless specifically approved by the faculty member), or sharing information with another student during an examination (unless specifically approved by the faculty member). Other examples include intentionally allowing another student to view one’s own examination and collaboration before or after an examination if such collaboration is specifically forbidden by the faculty member.

**Unauthorized Collaboration.** Unauthorized collaboration means working with someone or getting assistance from someone (a classmate, friend, etc.) without specific permission from the instructor on any assignment (e.g., exam, paper, homework) that is turned in for a grade. It is also a violation of academic honesty to knowingly provide such assistance to another student. Collaborative work specifically authorized by a faculty member is allowed.

**Falsification.** It is a violation of academic honesty to misrepresent material or fabricate information in an academic exercise, assignment or proceeding (e.g., false or misleading citation of sources, the falsification of the results of experiments or of computer data, false or misleading information in an academic context in order to gain an unfair advantage).

**Multiple Submissions.** It is a violation of academic honesty to submit substantial portions of the same work for credit more than once without the explicit consent of the faculty member(s) to whom the material is submitted for additional credit. In cases in which there is a natural development of research or knowledge in a sequence of courses, use of prior work may be desirable, even required; however, the student is responsible for indicating in writing, as a part of such use, that the current work submitted for credit is cumulative in nature.

3. **Information and Burden of Proof**

In determining whether or not academic dishonesty has occurred, the standard which should be used is that guilt must be proven by a preponderance of the information. This means that if the information which indicates that academic dishonesty occurred produces a stronger impression and is more convincing as to its truth when weighed against opposing information, then academic dishonesty has been proved. In other words, the information does not have to be enough to free the mind from a reasonable doubt but must be sufficient to incline a reasonable and impartial mind to one side of the issue rather than to the other.

Information as used in this statement can be any observation, admission, statement, or document which would either directly or circumstantially indicate that academic dishonesty has occurred.

4. **Procedures for Resolving Matters of Academic Honesty**
The following procedure is the only approved means for resolving matters of academic dishonesty, except for matters arising in the College of Law, which has its own Honor Code for handling such matters. It is available to all members of the academic community who wish to pursue an action against a student for academic dishonesty. A brief summary of the procedures is presented here; details of these procedures are found in the following sections.

1. The faculty member should discuss the incident with the student before filing a charge of academic dishonesty. The faculty member, in consultation with the department chair, prepares the Notice of Academic Dishonesty. The chair forwards the notice to the college dean, who sends the notification to the student by university email or by certified mail.

2. The student must appeal in writing to the College Dean within 10 business days of the date the email was sent or the certified mail was received if the student wishes to deny the finding of academic dishonesty.

3. If the student does not appeal within 10 business days, the College Dean forwards the notice of academic dishonesty to the Dean of Students.

4. If the student appeals the charges, a College Hearing Committee conducts a hearing and reports its findings to the College Dean regarding guilt or innocence. If the student is found not guilty, the faculty member is notified to assign an appropriate grade. If the student is found guilty, the dean forwards the notice of academic dishonesty to the dean of students.

5. Any recommendation for a disciplinary penalty and a challenge of that disciplinary penalty submitted by the student, if any, is reviewed by the University Senate Committee on Student Discipline. Based on the committee’s recommendation, the provost makes a decision and takes action regarding any disciplinary sanction.

6. The dean of students maintains the disciplinary records on all findings of academic dishonesty and is responsible for forwarding notice of multiple findings to the Senate Committee on Student Discipline for review. Multiple findings may result in a disciplinary penalty even if one was not recommended by the faculty member.

5. Initiation of Action

If a member of the academic community believes that a student has engaged in academic dishonesty in a course, on a test, or as a part of an academic program, that individual is responsible for initiating action against the student or bringing the matter to the attention of an individual who may initiate action against the student (i.e., complete and submit a notification of academic honesty). In allegations of academic dishonesty involving course requirements, the course faculty member is required to initiate the action. If the alleged violation involves a departmental program requirement (e.g., comprehensive examination or language competency examination) or an institutionally-required test (e.g., test of Georgia/United States history or Georgia/United States constitutions), or if the individual who discovers the incident is not a faculty member, the individual should bring the matter to the attention of the faculty member and administrator who has responsibility of overseeing the activity (e.g., departmental chair, director of the Testing Office). If that administrator decides to bring charges of academic dishonesty against the student, then that administrator becomes the initiator. (Test proctors, laboratory assistants, and other individuals who are not course faculty members should bring any instances of alleged academic dishonesty to the attention of the course faculty member or their administrative superior. That individual, after weighing the information, may become the initiator by formally charging the student with academic dishonesty.)

The channel of review, recommendation, and decision-making follows the administrative lines associated with the course or program requirement involved. In any instance, however, when the alleged incident does not occur within the context of a course, and when it is unclear which college should have jurisdiction in review and decision-making, any unit may initiate the case.
For the sake of brevity the following processing procedures are written from an academic unit/college perspective. Nonacademic units (i.e., Testing Center) would substitute appropriate supervisory personnel at the respective levels. Herein the initiator will be referred to as faculty member and the administrative unit head will be referred to as chair, designating the departmental chair. Dean will refer to appropriate administrative supervisory personnel at the overall college or division level.

When an allegation of academic dishonesty is made, the relevant dean will inform the Office of the Registrar to place a grade of GP (grade pending) for the student in the course involved. Withdrawal from a course does not preclude the imposition of penalties for academic dishonesty. While the matter of academic dishonesty is pending, the student will be allowed to continue in the course and register for upcoming semesters.

A. Penalties to be Imposed
Penalties to be imposed in incidents of academic dishonesty are classified as academic or disciplinary. Academic penalties include assignment of a failing grade for a particular course requirement, or for the course itself, or for other tests or program assignments. They are set by the faculty member, in consultation with the department chair. Disciplinary penalties can be sought in addition to those considered academic and could include, but are not limited to, the following: suspension, expulsion, transcript annotations (temporary for a period of five years or permanent, as designated). Course credit earned at other institutions while on suspension may not be transferred to GSU. Disciplinary penalties can be requested by the faculty member, in consultation with the chair; they must be reviewed by the University Senate Committee on Student Discipline and they are set by the provost.

B. Action at Administrative Unit (Department and College Level)
As soon as possible after the alleged incident, the faculty member should discuss the matter with the student. This discussion should be conducted in a manner which protects the rights and confidentiality of students. If the faculty member believes that academic dishonesty has occurred, the faculty member, in consultation with the department chair, will determine the appropriate academic penalty. The faculty member and the chair will complete a notice of academic dishonesty form describing the incident and indicating the academic penalty imposed and any recommended disciplinary penalty. The chair will forward the notice of academic dishonesty, which includes a statement of the right to appeal, to the dean of the college, who delivers it a either through the student’s official university email address or by certified mail.

C. Student Action
The student will have 10 business days after receipt of the notice of charges of academic dishonesty (i.e., the date that the email was sent or that the certified mail was received) to submit a written appeal denying the charges and providing any rationale for the appeal. The appeal should be addressed to the college dean of the initiator. In the event the student is found guilty of academic dishonesty, the student does not have the right to appeal the academic penalty assessed by the faculty member, unless the student can prove that such penalty was arbitrarily imposed or applied in a discriminatory manner.

If the student wishes to challenge a disciplinary penalty, the student must submit a written rationale for challenging the disciplinary penalty within 10 business days of receipt of the notice of charges of academic dishonesty. The statement of challenge should be addressed to the college dean. The college dean will forward the challenge to the dean of students for inclusion in the review of the disciplinary penalty by the
University Senate Committee on Student Discipline. All disciplinary penalties are automatically reviewed by the University Senate Committee on Student Discipline, regardless of student appeal.

If the student has also filed an appeal denying the charges of academic dishonesty, any review of disciplinary penalty recommended will be delayed pending review of the charges of academic dishonesty by the college hearing committee.

D. College Action

1. No Appeal by the Student. If the student does not submit a written appeal to the college dean or challenge the disciplinary penalty within 10 business days, the college dean will notify the chair/faculty member to post any pending grade(s) immediately. The college dean will then forward the notice of academic dishonesty to the dean of students for inclusion in the student’s disciplinary file. Any recommendation of a disciplinary penalty will also be forwarded to the dean of students for appropriate review by the Senate Committee on Student Discipline.

2. Appeal by the Student.

a. If the student submits a written appeal of the charges of academic honesty, the college dean will forward the charges to the chair of a college hearing committee and will notify the faculty member to set forth in writing a comprehensive response describing the incident of academic dishonesty. This statement will be presented to the committee and to the student at least five (5) business days prior to the hearing.

b. If the student wishes to challenge the disciplinary penalty without appealing the charges of academic honesty, a college hearing committee will not be convened; instead, the college dean will forward the challenge to the dean of students for inclusion in the review of the disciplinary penalty by the University Senate Committee on Student Discipline.

3. Student Hearing Committee Process. Guidelines that Govern the Hearing of the Appeal by the College Student Hearing Committee

a. Within ten (10) business days after the committee receives the charges of academic dishonesty, a hearing date will be determined. The committee will notify the faculty member and the student of the time, date, and the place of the hearing. Copies of all charges of academic dishonesty and related materials for the hearing will be provided to the student at least five (5) business days in advance of the hearing.

b. The faculty member and the student will be allowed to make oral presentations, call witnesses, and present any documentary information regarding the incident in question. The hearing will be recorded on audio tape. The hearing will not be open to observers.

c. At the conclusion of the hearing, the committee will meet in closed session and will make its recommendation as to the guilt or innocence of the student based on a preponderance of information with respect to the charge of academic dishonesty. The committee chair will forward to the college dean its findings and recommendations in a written report within five (5) business days of the hearing.

4. College Decision on Appeals. Within five (5) business days of receiving the committee’s written report, the college dean will make the final decision regarding guilt or innocence. The college dean will notify all appropriate parties of the decision.

If the college dean finds the student not guilty, the matter will be terminated and no notice of charges will be filed with the dean of students. The college dean will notify the chair to post the pending course grade promptly and will notify the registrar to remove the GP (grade pending) on the student’s transcript.

If the college dean finds the student guilty, the notice of charges of academic dishonesty will be forwarded to the dean of students for inclusion in the student’s disciplinary file. The academic penalty stipulated by the faculty member will be imposed. The college dean will notify the chair to insure that any pending grade is posted promptly. The college dean will notify the registrar to remove the GP (grade pending) on the
student’s transcript if only an academic penalty was involved. If a disciplinary penalty has been recommended, the college dean will notify the registrar to continue the GP (grade pending) annotation until the disciplinary penalty can be reviewed by the University Senate Committee on Student Discipline.

5. Appeal of the Decision of the Dean. If the student or initiator wishes to appeal the decision of the college dean regarding guilt or innocence of the charges of academic dishonesty, the student or initiator may appeal to the provost. The subsequent appeal route would be to the president and then the Board of Regents. The student or initiator must submit a written statement of appeal to the provost within 10 business days of notification of the dean’s decision. The basis of the appeal must be on the grounds that the decision was arbitrary, capricious, or discriminatory.

E. UNIVERSITY SENATE COMMITTEE ON STUDENT DISCIPLINE ACTION
In cases where a disciplinary penalty has been recommended, the Senate Committee on Student Discipline will conduct a hearing to review the disciplinary penalty. The committee will review the faculty member’s notice of academic dishonesty and the student’s statement of challenge of the disciplinary penalty, if any. The faculty member and the student will be allowed to appear at the hearing to discuss the imposition of disciplinary penalties. Only the recommendation concerning the disciplinary penalty to be imposed will be considered by this committee. Issues of guilt or innocence are determined at the college level (see II.4 C and D above).

The Senate Committee will conduct the hearing in accordance with its regular hearing procedures. Copies of these procedures may be obtained from the Provost’s Office.

The Senate Committee on Student Discipline will provide its recommendation within five (5) business days of its hearing to the provost regarding appropriateness of the disciplinary penalty recommended by the college and/or whether other disciplinary penalties are to be imposed in addition to or in lieu of those already recommended by the college.

F. PROVOST ACTION
1. Decision of the Provost. The role of the provost in handling student appeals regarding the charge of academic honesty has been explained (see II.E.5 above). Based on the recommendation, the Provost will render a decision within ten (10) business days of receipt of the recommendation of the Senate Committee. The provost will notify the student, the referring dean, the department chair and the faculty member of the Senate Committee’s recommendations and of the provost’s decision. At that time the provost will also notify the registrar to annotate the student’s transcript, if necessary.

2. Appeal of the Decision of the Provost. If the student wishes to appeal the decision of the provost regarding the imposition of a disciplinary penalty, the student may appeal to the president, and then to the Board of Regents. The student must submit a written statement of appeal to the president within ten (10) business days of notification of the provost’s decision. The basis for such an appeal must be on the grounds that the decision was arbitrary, capricious, or discriminatory.

G. STUDENTS INVOLVED IN TWO OR MORE INCIDENTS OF ACADEMIC DISHonesty
A student is subject to disciplinary action in addition to any already undertaken once it is determined that the student has been found guilty in a previous incident of academic dishonesty. In such cases, the dean of students will forward a report to the University Senate Committee on Student Discipline regarding the incidents of academic dishonesty which have been reported. The dean of students is responsible for initiating this report within ten (10) business days of notification of the proceedings of any subsequent finding of academic dishonesty.

The University Senate Committee on Student Discipline will review the report of the dean of students.
The student may submit supplemental written documents for the committee’s review and may request to appear before the committee in its deliberations. After reviewing the matter, the committee will send a report to the provost with the recommendation for disciplinary penalty to be imposed. The provost will proceed as in G above.

**H. GRIEVANCE PROCEDURES FOR ACADEMIC MATTERS**

1. Each of the undergraduate colleges has stated policies for settling grievances of students for academic matters. Refer to the office of the dean of each college for policies.
2. Obligation to Report Suspected Violations. Members of the academic community, students, faculty and staff are expected to report all instances of academic dishonesty to the appropriate authorities. The procedures for such reporting are on file in the offices of the deans of each college.
3. Penalties. The University takes the matter of academic honesty most seriously. Penalties for violations vary, but include both suspension and permanent expulsion from the institution.

**1352 Student Complaints, Petitions for Policy Waivers and Variances, and Appeals**

The appeals procedure for students will follow different courses depending on the nature of the student’s appeal. Please refer to University Information Section 1050.80 under Polices and Disclosures in this catalog or visit http://enrollment.gsu.edu/assistance/ online for details.
1500 Student Life and Services

Georgia State University is committed to the idea that total education involves more than academic pursuit. While students are maturing intellectually, they also are developing physically, psychologically, socially, aesthetically, sexually and spiritually. The philosophy of student development is embodied in the areas of responsibility of the office of the Vice President for Student Affairs and the Division of Student Affairs.

The Division of Student Affairs provides a network of support and encouragement for students through counseling, advocacy, advisement, recreation, health, leadership training and opportunities for personal growth. Further, the division seeks to provide an enriching environment that allows for and encourages cross-cultural interaction, an appreciation of diversity and ethical decision making.

1504 Auxiliary and Support Services

The departments in Auxiliary and Support Services supplement the academic campus experience by providing services and facilitating the sale of merchandise to faculty, staff, and students. These departments include the following: ATM Banking, PantherDining, Graduation Regalia and Photography Services, Mail Services, PantherCard, Parking and Transportation Services, Rialto Center for the Arts, Safety and Risk Management, Travel Services, University Bookstore, University Printing and Copy Services, and Vending Services.

The Auxiliary and Support Services office is located on the second floor of Student Center West. Hours of operation are from 8:30 a.m. to 7:00 p.m., Monday through Thursday and from 8:30 a.m. to 5:15 p.m. on Fridays. Semester breaks and holiday hours are from 8:30 a.m. to 5:15 p.m., Monday through Friday. Phone: 404-413-9500. Fax: 404-413-9525. Email: auxiliary@gsu.edu. Web: http://services.gsu.edu/.

1504.10 ATMs

ATM banking machines from several financial institutions are located on campus at such locations as the University Bookstore Building, first floor; Student Center, first floor; Urban Life, second floor. Phone: 404-413-9500. Fax: 404-413-9525. Email: auxiliary@gsu.edu. Web: http://services.gsu.edu/service/atm-banking/.

1504.15 University Bookstore

The University Bookstore, located on the third floor of Student Center West, offers a complete selection of new and used textbooks with a guaranteed lowest price, in comparison with competing downtown bookstore textbook prices. The lowest textbook price guarantee assures that the University Bookstore will match lower textbook pricing, for customers who present lower pricing among competing downtown bookstores to authorized University Bookstore personnel. The rent-a-text (www.rentatext.com) program provides students with the option of renting a new or used textbook for an academic term rather than purchasing it. At the end of the term, students simply bring or ship the textbook back to the University Bookstore. Renting instead of buying can save you more than 50% on average up front, as opposed to having to wait until buyback cash at the end of the term. The University Bookstore also buys used
textbooks in some cases paying as much as 50% of the purchase price. The University Bookstore offers a variety of name brand computer products including Acer and Samsung computers built to university specifications, educational discounted computer software, supplies, and related class needs. Officially licensed Georgia State apparel and gifts are also sold in the University Bookstore. Purchases can also be made online at www.gsubookstore.com. Cash, credit cards, checks, and PantherCash are accepted for purchases. Special discounts are available on Fridays when purchases are made with PantherCash. Phone: 404-413-9700. Fax: 404-413-9709. Email: gsu@bkstr.com. Web: www.gsubookstore.com.

1504.20 Graduation Regalia and Photography

Auxiliary and Support Services provides Portrait and Ceremony Photographs for your Commencement memories. Logo Regalia are available for online purchase for pick-up at the Commencement Fair. Graduation Photography is available through a vendor managed by Auxiliary and Support Services. For more information on graduation photography call toll-free 1-800-424-3686. Information on other Commencement items from diploma frames, class rings, invitations, as well as stoles of gratitude are available at the University Bookstore. Phone: 404-413-9700. Fax: 404-413-9709. Email: gsu@bkstr.com. Web: www.gsubookstore.com.

1504.25 PantherDining

Meal Plans PantherMeals offer unlimited access to an "all you care to eat" dining experience in the Patton Hall and Piedmont North Dining Halls and is an academic year meal plan. Academic Year 2015-2016 7-Day Meal Plan » The 7-Day Meal Plan includes breakfast, lunch, and dinner Monday through Friday, and brunch and dinner on Saturday and Sunday. » $3,796 (Two installments of $1,898 per semester). Only $101 per semester more than the 5-day plan. Academic Year 2015-2016 5-Day Meal Plan » The 5-Day Meal Plan includes breakfast, lunch, and dinner Monday through Friday. » $3,594 (Two installments of $1,797 per semester). PantherMeals descriptions, pricing and application details are available at dining.gsu.edu.

- Patton Dining Hall: Located at Edgewood and Piedmont at 160 Edgewood Ave., this Dining Hall serves a large variety of choices in an all you care to eat style dining environment, and is available to the entire Georgia State University Community Monday through Friday. Phone: 404-413-9630. Web: dining.gsu.edu

### 1504.30 PantherCard

The PantherCard is the official Georgia State University identification card, library card, access card to some campus facilities, and provides PantherCash (a debit card) and PantherMeals accounts. PantherCard is issued to all currently registered students and to faculty, staff, and affiliates of Georgia State University. PantherCash accounts can be opened at the Auxiliary and Support Services office with cash, check MasterCard, Visa, or American Express. **PantherCash** PantherCash accounts enable students to add value to their PantherCard and receive discounts on some on-campus purchases. Additional PantherCash deposits to the account can be made online at panthercard.gsu.edu, or at the Auxiliary and Support Services office, at the PantherCash Online Card Office, at the value transfer stations (VTS), or any Payment Headquarters In Location (PHIL) machines on-campus. More information regarding these debit accounts and their uses on campus is available at the PantherCard website. Use PantherCash to receive vending discounts on the purchase of soft drinks or water at vending machines displaying the PantherCash sign, discounts on Fridays at the University Bookstore, and other on and off-campus locations. Phone: 404-413-9508. Fax: 404-413-9525. Email: panthercard@gsu.edu. Web: panthercard.gsu.edu. **Money Network Financial Aid Refund Authorization**: Take advantage of a quick and easy way to receive your financial aid refund. First, you must activate a Money Network Discover Card account on your PantherCard. To do this up the newest PantherCard with the Discover Card logo on it. Call 1-800-822-4283 and follow the system prompts. To authorize your student account refund on your PantherCard follow these steps:

1. Log into PAWS at https://paws.gsu.edu
2. Select the “Finances” tab
3. Select the “Refund Information” section
4. Select the “Panther Card Authorizations” link
5. Select “Authorize” from the dropdown menu under the “PantherCard Money Network® Authorization” section
6. Click Submit

### 1504.40 Parking and Transportation

Georgia State University offers students options for traveling to and from campus: driving to campus and parking on-site, driving to an off-site parking area, and discounted monthly MARTA and GRTA cards. Parking Budget Cards can also be purchased for on-campus parking at a reduced rate. Panther Express Shuttle services transport students from off-campus and housing parking, and other campus locations at no additional charge.
On-Campus Parking

- Students should register their vehicle at parking.gsu.edu
- A valid PantherCard is required for all parking transactions.
- The Auxiliary and Support Services office accepts cash, checks, Visa, MasterCard, American Express and PantherCash.
- Parking enforcement is a year-round program. Consult the Motor Vehicle Parking information brochure for details as to specific violations and fines.
- Daily Parking requires payment upon entry to parking areas with no in and out or unlimited entries. A Budget Card is a recommended option for those individuals parking daily and allows persons to park in the parking decks and lots on campus at a reduced price per entry.
- The Parking Budget Card allows persons to park in the parking decks and lots on campus at a reduced price per entry.
- M Deck, Non-Resident Lofts and T Deck parking semester passes are available through an online waitlist while supplies last online at parking.gsu.edu at the beginning of each Fall, Spring, and Summer semester at a semester-flat-rate, guaranteed parking permit with unlimited entries. Information on M Deck is available at parking.gsu.edu.
- Each Semester parking at the Lofts Parking Deck is available for Freshman Hall, Lofts, and Greek Housing residents at the customer service windows of Parking and Transportation.

Student parking is available in the following locations (with parking attendants on duty from 6:30 a.m. – 10:00 p.m., Monday – Friday); some restrictions or requirements may apply.

- M Deck
- S Deck (top two levels for student parking only)
- K Deck
- N Deck
- G Deck (Students after 4:00 pm, Monday – Friday, or all day on weekends)
- Lofts Deck (No parking attendant on duty)
- T Deck
- Turner Field Blue Lot as specified for students

Panther Express Shuttle Services and Off-Campus Parking

- The Panther Express Shuttle Service allows students to park their vehicles with a valid parking permit at the Blue Lot, Turner Field. This parking space is limited as to availability, and is on a first-come-first-served-basis. For information regarding restricted parking dates such as on dates of Braves Baseball games when the PantherExpress Shuttle and lot will not be available.
- Panther Express Shuttle services transport students to and from the University Commons, Aderhold Learning Center, and off-campus University provided parking areas at no charge.
- Panther Express shuttles are accessible to persons with mobility impairments and feature automated passenger lift equipment for safe loading and unloading of passengers in wheelchairs or who otherwise require such assistance. Panther Express shuttle drivers are fully trained in use of accessibility equipment and are committed to providing courteous and helpful services for all PantherExpress passengers. For additional information regarding on-campus assistance for persons with disabilities, please contact the Office of Disabilities at 404-413-1560.
- You can follow Parking and Transportation on Twitter at www.twitter.com/gsuparking. You can
also download the University App and follow the latest on Parking and Transportation on your smart phone.

Phone: 404-413-9500. Fax: 404-413-9525. Email: parkingandtransportation@gsu.edu. Web: transit.gsu.edu

MARTA AND GRTA

Customer Service Area. Students who wish to purchase a Georgia State discounted monthly MARTA pass for each month need to pick up a specially marked MARTA Breeze card from the Auxiliary and Support Services Customer Service Area located in Suite 200, University Bookstore Building. A valid PantherCard is necessary in order to purchase specially marked Georgia State University discounted plastic Breeze Cards initially. Once a new MARTA Breeze Card is obtained, students will need to log on to ParkingWeb at http://parking.gsu.edu/ between the 1st and 15th of each month to purchase the following month's card in order to receive the maximum discount available for their card. **ENJOY THE BENEFITS Easy to Reload** The new Breeze Card is reloadable online through ParkingWeb at parking.gsu.edu. **Discounted** If reloaded online between the 1st and 15th of each month, students pay $61 and staff pay $77 instead of the full retail price of $95 if purchased directly through MARTA. **Durable** Breeze Cards are made of durable plastic, and can either be reloaded online or through any MARTA kiosk although kiosk prices are higher because they do not receive the University subsidy. **Limited Protection Plan** There is also a limited protection plan on all Breeze Cards purchased. As long as the card is reported lost, stolen, damaged, or non-functional before the 22nd of each month at Auxiliary and Support Services, the card will be replaced and will still have that month's benefits. There is a small administration fee for replacement. A valid PantherCard is required to receive the discount. Students, faculty and staff. **GRTA passes are also available for purchase at the Auxiliary and Support Services customer service windows.**

1504.45 University Printing and Copy Services

University Printing and Copy Services consists of University Printing and Copy Corner along with self-operated copy machines on campus, and is dedicated to providing quality and timely printing and copy services to the University community. In addition to contacting each entity directly for your needs, University Printing and Copy Corner have a shared online printing site which can be used by students, University employees, and the community. Access to the site can be requested at gsuprints.nowdocs.com.

- **University Printing:** University Printing offers a full range of services, offset printing; color printing of newsletters, brochures and posters; faxing; and folding, cutting, binding, etc. Work may be completed from printed originals or from electronic media such as email (printcopyservices@gsu.edu) flash drives, CD, DVD and FTP. Accepted methods of payment include cash, check, major credit/debit cards, and interdepartmental charge cards. Phone: 404-413-9586. Web: services.gsu.edu/printing/.
- **Copy Corner:** located in Kell Hall, adjacent to Mail Services, offers a full range of digital copy services, including fast black and white copying, color copying, brochures and posters; faxing; and folding, cutting, binding, etc. Work may be completed from printed originals or from electronic media such as email (copycorner@gsu.edu) flash drives, CD, FTP, and diskettes. Accepted methods of payment include PantherCash, cash, major credit/debit cards, and interdepartmental charge cards.
- **Numerous self-operated copy machines are available in University Library North:** located on
the 1st, 2nd, and 3rd floors, and University Library South, located on the 2nd floor. The Law
Library has self-operated copy machines in its Copy Room. In addition, copiers are available in the
Aderhold Learning Center Concourse Level and adjacent to Mail Services in Kell Hall. Accepted
methods of payment include PantherCash, coins, and cash. The use of PantherCash provides a
discounted cost per copy. Phone: 404-413-9660. Email: copycorner@gsu.edu.
Web: services.gsu.edu/printing/.

1504.50 Mail Services

Mail Services manages the incoming and outgoing mail flow for University departments and through
United States Postal Service (USPS), Mail Services operates an authorized Post Office selling stamps and
providing for the mailing of parcels and other mail. The GSU Post Office also offers the sale of money
orders and the processing of notary services. The GSU Post Office is open Monday – Friday, 8:30 a.m. –
4:30 p.m. Mail Services hours of operation are Monday – Friday, 8:30 a.m. – 5:15 p.m. Mail Services
Phone: 404-413-9653; GSU Post Office Phone: 404-413-9656.
Web: http://services.gsu.edu/service/mailservices/. Please note that Georgia State Housing manages the
mail for all students residing in on-campus housing.

1504.55 Rialto Center for the Arts

Georgia State University’s Rialto Center for the Arts hosts a range of exciting performances from theater to
dance to music to film. Offerings feature jazz legends, modern dance, and international performers of all
kinds. The Rialto is the proud home to the School of Music's jazz, wind, percussion, and classical
ensembles. The Rialto's Visual Art Series, Feed Your Senses, and many of the School of Music
performances are free. Check upcoming Rialto events at www.rialtocenter.org or contact the Box Office
Monday-Friday from 10:00 a.m. - 4:30 p.m. Faculty, staff and students receive a 15% discount off tickets
in advance. Georgia State Student "Rush" tickets — 50% off day of show. Phone: 404-413-9489. Email:
info@rialtocenter.org. Web: www.rialtocenter.org.

1504.60 Safety and Risk Management

Safety and Risk Management offers administrative assistance and support training programs for Risk and
Insurance management, Occupational Health, Right to Know, Workers Compensation, Training Programs,
and Georgia's Clean Air Campaign. Phone: 404-413-9547. Web: http://safety.gsu.edu/risk-management/.

1504.65 Vending

Vending machines are available in several locations throughout the campus, including canned/bottled
beverage machines, featuring a large selection of popular brands, beverage machines with coffees and hot
chocolate, and a variety of snack items. Cash and either PantherCash readers or credit/debit card readers
are accepted at most vending machines with PantherCash discounts available on select vending beverage
machines. Phone: 404-413-9500. Web: http://services.gsu.edu/vending/.

1506 Child Development Center
The University maintains the Lanette L. Suttles Child Development Center located in Dahlberg Hall. The center is designed for children of students with limited space available for the children of faculty and staff. Full-time child care is available in addition to flexible blocks of time. Information regarding hours, registration, fees and ages of children accepted into the program may be obtained from the center at 404-413-8460.

1508 Civic Engagement

Civic Engagement provides assistance to students, student organizations, faculty and staff concerning volunteer and community service opportunities. Community service offers students the opportunity to gain hands-on experience while preparing for their professional futures. Civic Engagement connects the Georgia State University community with the greater Atlanta community by creating partnerships which foster service-learning opportunities and revitalize the community. Individuals who become engaged with Civic Engagement strengthen their career readiness and capacity to help solve the problems faced by society while learning the importance of being an active, engaged citizen.

Through OrgSync, Civic Engagement is able to provide service opportunities for individuals and groups based on personal interest while allowing participants to log and track volunteer hours. Students and student organizations that engage in service projects and log their hours in OrgSync are able to create a permanent record of their service hours.

Panther Breakaway, one of Civic Engagement’s signature programs, offers students the opportunity to spend their academic breaks in service to others. In the past, students have worked in various locations around the southeast and internationally, including Washington D.C., Florida, Tennessee, Louisiana and Costa Rica. Students are educated on a specific social issue prior to the trip and then immersed in the community where they complete service projects related to that specific issue. Previous trips have addressed social issues such as literacy, poverty, hunger, homelessness and environmental awareness.

For more information, visit Civic Engagement located in Student Center West, Suite 475, call 404-413-1550 or visit the Civic Engagement website http://service.gsu.edu/.

1510 Counseling and Testing Center

The comprehensive services of the Counseling and Testing Center reflect the university’s concern for the many needs of currently enrolled students. Counseling is available free of charge to students having educational, personal or relationship concerns. The center offers individual, couples and group counseling. Groups include several interpersonal process groups including general growth groups, an African-American women’s support group, African-American co-ed support group, GLBT support group, a graduate student support group, a grief support group, a stress management group and a substance abuse group. Individual stress management sessions are also available to students. Psychiatric services to evaluate the need for medications are available for those in counseling in the Counseling and Testing Center or in the Psychology Clinic located in the Psychology department. Referral services for students having needs that go beyond the scope of the Counseling and Testing Center are also available.
Students may come in for an initial counseling consultation on a walk in basis every day during business hours. The purpose of this visit is to assess the student’s concerns and develop a plan to address these concerns. Follow up counseling visits are by appointment. Faculty, staff or students concerned about a student’s health and well-being are encouraged to phone the Counseling and Testing Center to consult with the senior emergency on call counselor. A counselor will assist in determining the most appropriate course of action.

The Counseling and Testing Center’s testing services offers many national examinations, certifications, psychological assessments, math placement and testing for institutional programs. Test proctoring and test scoring services, complete with statistical analyses, are available to the faculty through testing services.

Educational workshops are designed to respond to the variety of needs that students experience during their academic careers, including stress management, time management, study skills, performance enhancement, relationship enhancement and anger management. Psychologists from the center are also available for guest lectures in classrooms and for student organizations.

All clinicians in the center have advanced degrees in psychology, counseling or social work, are licensed or supervised by a licensed clinician and have a special interest and skills in relating to university students and their concerns. Visits to the Counseling and Testing Center are private and confidential. No one outside the Counseling and Testing Center is given any information regarding any appointments that have been made or what is revealed in counseling sessions without the written release from the student according to Georgia law. The records kept by the Counseling and Testing Center do not become part of a student’s academic record.

For more information, visit the Counseling and Testing Center located in 75 Piedmont Ave., Suite 200A, call 404-413-1640, or visit the Counseling and Testing Center website http://counselingcenter.gsu.edu.

1511 Student Victim Assistance

For students who have experienced a traumatic event, have been the victim of sexual assault or have been a victim of other crimes, Student Victim Assistance provides support services such as crisis intervention, referrals (Counseling and Testing Center, Student Health Clinic, Georgia State University Police, etc.), advocacy and support during all phases of legal or criminal proceedings, information (victim rights, typical responses to trauma and victimization, safety planning), consultation and education to students, faculty and staff and ongoing follow up. For more information, visit Student Victim Assistance located in 75 Piedmont Ave., Suite 239, call 404-413-1965 or visit the Student Victim Assistance website http://victimassistance.gsu.edu.

1512 Dean of Students

1512.10 Student Advocacy and Outreach

Knowledgeable staff assist and empower students in conducting their university affairs by listening and analyzing the student’s issues, questions or concerns, talking with the student to help devise a problem-
solving strategy and referring the student to appropriate staff members and departments. This advocacy
and outreach is designed to facilitate student success and retention by helping students understand and
utilize the resources and systems within the university. For more information, visit the Dean of Students
located in Student Center East, Suite 303, call 404-413-1514 or visit the Dean of Students website
http://deanofstudents.gsu.edu.

1512.20 Emergency Assistance

Information regarding students’ class schedules cannot be released for any purpose by the Dean of
Students. However, in the event of a verified family emergency such as a life threatening situation or
serious illness that occurs during regular business hours (Monday-Friday, 8:30 a.m. – 5:15 p.m.), staff will
make an attempt to deliver a message or contact a student in class regarding the emergency information.

The Dean of Students office can provide assistance to a students who have experienced a verifiable
emergency circumstance which prevents them from attending class by coordinating with relevant campus
resources to support the student’s successful return to the university. In the event a student is hospitalized
and unable to contact their professors, the professors can be notified of the absence so that, upon returning
to the university, the student can follow up with their professors to complete any missed assignments. If the
student is unable to remain enrolled due to the nature of the emergency situation, the student can receive
guidance and assistance regarding the withdrawal process.

For more information, visit the Dean of Students located in Student Center East, Suite 303, call
404-413-1515 or visit the Dean of Students website http://deanofstudents.gsu.edu.

1512.25 Student Conduct

The Georgia State University Student Code of Conduct contains policies and procedures to both promote
the university mission and protect the rights of students, faculty and staff. Students are obligated to be
knowledgeable of and to comply with the university’s rules, policies and procedures. Students are also
individually responsible for understanding and exercising their rights, fulfilling their obligations and
respecting the rights of others. The Student Code of Conduct articulates the types of actions that infringe
upon the campus climate of civility and the academic integrity of the university. An overarching philosophy
of the student conduct process is to provide students with the opportunity to reflect upon their actions, take
responsibility for the outcomes of their life and to develop ethical approaches to their decision-making
process. A copy of the most current Student Code of Conduct may be accessed on the web at
http://codeofconduct.gsu.edu. For more information, visit the Dean of Students located in Student Center
East, Suite 303, call 404-413-1515 or visit the Dean of Students website http://deanofstudents.gsu.edu.

1512.55 Student Health Insurance

The following groups of Georgia State University students are required to have health insurance.

- All graduate students awarded a full tuition waiver as part of their graduate assistantship
- All undergraduate, graduate and English as a Second Language (ESL) international students
holding F1 and J1 visas

- All graduate students receiving fellowships fully funding their tuition

For those students not covered under the mandatory plan, a voluntary plan is also available. Eligible students include all undergraduate students enrolled in at least 6 credit hours and graduate students enrolled in the graduate or professional degree program taking at least one graduate level course. The link https://www.uhcsr.com/gsu outlines the coverage, benefits and premium for an insurance program specifically designed for Georgia State University students and their dependents.

1514 Disability Services

Students with disabilities can receive services and programs through the Margaret A. Staton office of Disability Services. New students with disabilities are encouraged to register with Disability Services prior to their first semester to ensure that appropriate accommodations are made. Current Georgia State University students with disabilities may register with Disability Services throughout the semester. Disability Services also provides information and resources to the campus regarding accessibility and accommodations issues throughout the university. Visit Disability Services located in Student Center East, Suite 205, call 404-413-1560 (TTY) or 404-413-1564 or visit the Disability Services website http://disability.gsu.edu.

1517 Georgia Career Information Center

The Georgia Career Information Center (GCIC) contractually provides online career exploration tools and up-to-date career information to the citizens of the state of Georgia, primarily in the public schools (K-12) and the technical colleges. GCIC also assists with state-level employment initiatives and agencies by providing career development software solutions. The core tool that GCIC maintains is the Georgia Career Information System, which supports the State of Georgia in meeting state educational mandates with regard to career exploration and planning for students at all grade levels in the public schools. Georgia State University students can access GCIS for career exploration at gcic.gsu.edu.

The Georgia Career Information Center is a part of the University Career Services, which offers to all Georgia State University students, graduate and undergraduate, a wide range of highly supportive personal and professional development opportunities and services. University Career Services is comprised of Employer Relations, Cooperative Education and Internships, Graduate and Professional School Planning, Career Development and the Georgia Career Information Center.

More information is available at gcic.gsu.edu or 404-413-1720. GCIC is located at One Park Place South, Suite 823.

1518 Intercollegiate Athletics

Georgia State University has an intercollegiate athletics program that competes as a member of the National Collegiate Athletic Association (NCAA) Division I Football Bowl Subdivision level and as a member of the Sun Belt Conference. Other members of the Sun Belt include: Appalachian State, Arkansas
State, Coastal Carolina, Georgia Southern, Little Rock, UL-Lafayette, UL Monroe, South Alabama, UT Arlington, Texas State and Troy.

Georgia State sponsors 16 sports programs, including baseball, basketball, football, golf, soccer, and tennis, for men, as well as basketball, cross country, golf, beach volleyball, soccer, softball, tennis, track and field and court volleyball for women. Additional participation opportunities for female students will be added in the near future.

Georgia State abides by all rules and regulations of the NCAA and Sun Belt for all athletics competition, and student-athletes must meet all admission and eligibility requirements in order to compete.

Georgia State’s athletics teams, known as the Panthers, compete not only against conference opponents but also against other top-ranking teams around the nation. Georgia State teams and individual student-athletes have gained regional and national recognition.

For further information call 404-413-4000 or visit the athletics website at www.GeorgiaStateSports.com.

1519 Leadership Development

Leadership is a characteristic that serves all students well as they embark on their careers and move forward in their lives. In order to assist students to grow and develop as leaders on and off campus, Leadership Development provides services and programs, such as round table discussions and the annual Leadership Conclave. Leadership Development addresses the needs of experienced as well as emerging leaders. Student organizations looking for specific leadership training for members are encouraged to contact Leadership Development to set up training sessions. For more information, visit Leadership Development located in Student Center West, Suite 475, call 404-413-1588 or visit the Leadership Development website http://leadership.gsu.edu.

1520 Multicultural Programs and Services

1520.05 Black Student Achievement

Through academic coaching, peer and faculty mentoring, graduate school preparation, fostering cultural awareness, student leadership development and academic tutoring, Black Student Achievement supports undergraduate and graduate students’ academic and social life. While Black Student Achievement is open to all students, it is charged with helping to support the retention and progression of black students in particular. Black Student Achievement strives to foster an environment that is welcoming and which demonstrates an appreciation for multiculturalism and diversity among the many different cultural groups found on campus. For more information, visit Black Student Achievement located in Student Center East, Suite 300, call 404-413-1530 or visit the Black Student Achievement website http://blackstudentachievement.gsu.edu

1520.10 Multicultural Center
A unique place for every member of Georgia State University’s diverse community to learn, grow and explore, the Multicultural Center promotes cross-cultural interactions, awareness, communication, dialogue and mutual learning through engaging activities. The programs offered allow individuals from different cultural backgrounds and social identities to engage in meaningful experiences that assist in building a culture of care.

Programs and events include Heritage/History Month recognition events, Martin Luther King, Jr. Commemoration, community office hours, book discussions, classroom presentations on multicultural and diversity topics and conversations on contemporary social concerns. The Multicultural Center has a Multicultural Programming Council and a library of books, videos and training resources. In addition, the Panther Ambassadors for a Culturally Competent Campus (PAC3) Ambassadors are a group of student leaders who work in collaboration with the Multicultural Center and University Housing to raise cultural competence on campus. For more information, visit the Multicultural Center located in Student Center East, Suite 206, call 404-413-1584 or visit the Multicultural Center website http://multicultural.gsu.edu.

1522 Student Involvement

1522.20 Parent Relations and Parents Association

In order to provide parents of Georgia State University students with an opportunity to remain actively involved with their student through the college experience, Parent Relations provides programs and services such as Family Weekend. Parents are also invited to join the Georgia State University Parents Association. Membership in the association gives family members access to newsletters, programming opportunities and a scholarship for their students. The Parents Association is led by an executive board of parents of current Georgia State University students. The Parents Association holds at least one general membership meeting a year and several executive board meetings each semester. For more information, call 404-413-1580 or visit the Parent Relations website http://parents.gsu.edu.

1522.40 Student Organizations

More than 400 chartered student organizations offer Georgia State University students a wide variety of involvement opportunities. From community service and cultural groups to political and recreational groups, these student organizations reflect a vast array of interests. In addition to providing students with a connection to others with like interests, active involvement in student organizations also offers opportunities for students to gain valuable leadership skills by serving as an officer or planning events and programs. A listing of all chartered student organizations as well as the requirements to charter new groups can be found online. For more information, visit Student Organizations located in Student Center East, Suite 304, call 404-413-1580 or visit the OrgSync website http://gsu.orgsync.com.

1522.50 Honor Societies and Professional Organizations

Honor societies recognize success of students and can be joined based on year in school, major or involvement. The honor societies on campus consist of both nationally recognized and local organizations.
Professional organizations connect students to their desired profession. The professional organizations are often affiliated with national organizations that further broaden the opportunity to connect with others in the profession. Honor societies and professional organizations encourage student excellence in both academic and co-curricular activities. For more information, visit Student Organizations located in Student Center East, Suite 304, call 404-413-1580 or visit the OrgSync website http://gsu.orgsync.com or call 404-413-1580.

1522.60 Religious Activities

The Council of Interfaith Concerns is a coordinating body for the religious organizations at Georgia State University. It meets regularly to plan and implement interfaith programs and activities, sponsors special worship services throughout the school year and provides a resource for those interested in learning about religious ministry on campus. Catholic, Jewish and Protestant chaplains are available through the council; contacts and referrals from students, faculty and staff are welcomed. For more information, visit the Council of Interfaith Concerns located in Student Center West, Suite 452.

1524 Ombudsperson

The Office of the Ombudsperson confidentially assists all members of the campus community with informally resolving conflict or other concerns and issues. The Ombudsperson listens, answers questions, makes referrals, explains University policies and procedures, and mediates between individuals or groups in a dispute to resolve conflict. Mediation and facilitation services offered by the office give all persons involved in conflict the opportunity to discuss problems and cooperate in generating options for resolving disputes. The office also provides training and education in several areas including conflict resolution, respectful communication, cultural awareness and civility. The Ombudsperson does not have power to adjudicate, arbitrate or investigate complaints. Individuals who have questions or concerns about classroom environment, interpersonal conflicts, appeals processes, university policies, fair treatment, communication difficulties or need help with resolving other university concerns are encouraged to call or visit the office to attempt informal resolution prior to filing formal complaints. The Office of the Ombudsperson is located at 215 One Park Place and can be reached by telephone at 404-413-2510, or via the web at www.gsu.edu/ombuds.

1526 Recreational Services

Recreational Services promotes healthy lifestyles through exceptional programs, services and facilities. Three facilities within Recreational Services include the Recreation Center and two off campus facilities, Indian Creek Recreation Area and Panthersville. The Recreation Center is a four-story, award winning, 161,000 square foot facility available to Georgia State University students, faculty, staff and alumni. The facility includes a game room with billiards, darts, table tennis, foosball, air hockey and Wii games, a 35-foot climbing wall and bouldering cave, racquetball courts, a squash court, basketball courts, a multi-sport auxiliary court, two weight rooms with cardio, selectorize weight machines and free weights, an indoor track, an aquatic center with lap pool, spa, sauna, sundeck and wet classroom, three studios for aerobics/dance, martial arts and indoor cycling/yoga, an outdoor equipment rental shop, a vending area and a cyber-lounge. The auxiliary gym has spectator bleachers and is lined for seven different sports. The
equipment issue desk provides locker rentals, sports equipment rental, towel service, gym clothing rental and general information. Registering for programs and services, purchasing memberships and obtaining general information are all available at the service counter. All first time users must complete an online waiver. A current, validated PantherCard is required for entry into the facility, participation in any recreation activity and all rentals.

The Indian Creek Recreation Area (ICRA), a 16-acre wooded site in DeKalb County, is host to the Indian Creek Lodge that is available for use, for a fee, by chartered university student organizations and departments for retreats, parties and meetings. Recreation members can also rent the facility for personal events, pending approval. The ICRA offers a challenge course with three zip lines and multi-tiered ropes course that is perfect for team building initiatives. The property also includes a large event lawn, a large outdoor swimming pool for use during the summer, a sand volley ball court and picnic areas.

Located on a 100-acre site in southern DeKalb County, the Panthersville Recreation Complex provides lighted playing fields and other accommodations for sport clubs, intramural activities and varsity athletic competitions.

Recreational Services offers a wide variety of programs that serve a diverse student body including aquatics, instructional clinics, fitness classes, personal training, nutritional counseling, outdoor adventure, intramural competition, sport clubs and drop in play. Supported by student fees, many of the programs are free of charge; however, those with a fee are very reasonably priced. Whether you enjoy a playing flag football, skiing in Colorado or learning to salsa, there is a program for you.

Information is available in Recreation RAP-UP, available every semester. For more information, visit Recreational Services located in the Recreation Center, Suite 200, call 404-413-1750 or 404-413-1780 or visit the Recreational Services website http://recreation.gsu.edu.

1528 Student Health Promotion and Education

Student Health Promotion values cultural diversity, inclusiveness, social justice efforts in all public health programming and supports a campus community where all its members are healthy, safe and drug free. The mission is to provide and support health promotion services, events, programs and community partnerships that increase health literacy, communication, choices and/or advocacy in five key areas of public health:

1. Alcohol, Tobacco and Other Drug Prevention: includes events and programs related to substance risk reduction and tobacco cessation.
2. Healthy Sexuality: includes events and programs on topics such as safer sex, communicating assertively, contraception and prevention of sexual assault. Services also include free, confidential HIV testing and coaching about risk reduction behaviors.
3. Violence Prevention: includes events and programs on topics such as prevention of sexual assault and intimate partner violence, prevention of stalking, anger management and suicide prevention.
4. Health and Safety: includes events and programs on topics such as cancer prevention, illness prevention, pedestrian and driver safety, sun and water safety and stress management.
5. Healthy Nutrition: includes events and programs on topics such as healthy eating habits, healthy cooking demonstrations, eating disorders and healthy body image.
For more information, visit Student Health Promotion located in 75 Piedmont, Suite 241, call 404-413-1577 or visit the Student Health Promotion website http://healthpromotion.gsu.edu.

1529 Health Services

Many primary care and urgent health care needs on campus can be met at the Student Health Clinic. The staff includes physicians, nurse practitioners, nurses and medical assistants. The clinic is located in 141 Piedmont Avenue, Suite D, and office hours are 8 a.m. – 7 p.m. Monday – Thursday and 8 a.m. – 5 p.m. Fridays with the last appointment 30 minutes prior to closing. During spring break and summer, the clinic hours are 8 a.m. – 5 p.m. Appointments are required for visits, but urgent visits may walk in and be seen on a priority basis.

Students must be currently registered to receive services. A Panther Card and picture identification is required. The Student Health Clinic files Georgia State student insurance, but other insurance plans are not accepted. Payment is expected at the time of service by cash, check, credit or debit card. The clinic can take payments over the phone.

- **Primary Care:** Visits and medical advice are **free**. Fees are charged for tests, supplies and medicines. Primary care includes diagnosis and treatment of common illnesses and chronic medical problems, wellness visits, annual physicals, STD checks and treatments.
- **Minor Emergency:** Wound care including stitches, asthma care, first aid, assessments and referrals are provided. The clinic does not treat serious, life threatening or limb threatening illnesses or injuries. In case of a true emergency on campus, please call 911 for an ambulance and then call the university police at 404-413-3333. The police can direct the ambulance to the location of the emergency. The university police can also assist if someone has a minor emergency while on campus and cannot get to the clinic without assistance. Clinic personnel cannot leave the clinic to attend to minor emergencies that occur at other campus locations, so please call the campus police to help bring the patient to the clinic.
- **Sports Medicine:** Sports participation physicals are provided free.
- **Women’s Health:** Please schedule appointments for gynecological exams, PAP smears and birth control advice. Contraceptive pills and shots along with emergency contraception and pregnancy tests are available and can be provided for a fee. Prenatal care is not provided.
- **Health Education:** A variety of topics are offered such as safe sex information, weight control advice, healthy lifestyles and diabetes management.
- **Prescriptions Dispensed:** As part of your visit to the clinic, the doctor can dispense pre-packaged prescription medicines at a discounted price, such as antibiotics, allergy and cold medicines, ear and eye drops, birth control pills, dermatological creams and more. Outside prescriptions cannot be filled at the clinic. Students with the Georgia State student insurance may receive medications without a co-payment. Otherwise, there is a co-pay for laboratory tests, medical procedures and immunizations.
- **Immunizations:** All shots and laboratory tests (titers) needed to complete the immunization requirement for registration (Board of Regents policy) are available at the Student Health Clinic through the immunization department. Please call 404-413-1940 for information. Vaccinations and tests provided by the immunization department are MMR, Rubella, Meningitis, Hepatitis A and B, Tetanus/Diphtheria, Varicella (chickenpox) and PPD (tuberculosis) skin tests. Allergy shots can be given only after a consultation visit with the clinic doctor, along with a previous diagnosis and
prescription of serum from an allergy specialist.

- **Laboratory Tests:** Affordable testing is available at deeply discounted prices. A few examples are urinalysis, urine culture, throat culture, thyroid panel, lipids (cholesterol) panel, gonorrhea-chlamydia, HIV blood test and pregnancy tests. You must have an office visit with the doctor or nurse practitioner before a laboratory test can be ordered.

For more information, visit the Student Health Clinic located in 141 Piedmont Avenue, Suite D, call 404-413-1930 or visit the Student Health Clinic website http://health.gsu.edu

---

**1530 Student Government Association**

As the representative body for students at Georgia State University, the Student Government Association promotes student self governance and enables elected students to express the opinions of their fellow students. The university adheres to the philosophy that student representation within the larger university structure is a catalyst for student growth and development. The Student Government Association Senate meets every other Thursday during the fall and spring semesters at 7:15 p.m. on the fourth floor of Student Center West. Services provided by the Student Government Association include free blue books and scantron forms (limit two per day), local facsimile use (one per day), free black and white copies (10 per day) and local phone use. A listing of open positions and information on elections is available online. For more information, visit the Student Government Association located in Student Center West, Suite 450, call 404-413-1600 or visit the Student Government Association website http://sga.gsu.edu.

---

**1534 Student Center**

The Student Center is a place where students can study, grab a bite to eat or hang out with friends; it is a place where all students can feel welcome. The Student Center is comprised of two buildings: Student Center East and Student Center West. The Student Center is home to many campus traditions, large scale programs and student services. Meeting rooms and event spaces provide places for students to experience quality programs aimed at enriching the Georgia State experience.

Numerous offices and programs that promote student growth and development, enhance academic success and connect students with the university community are located in the Student Center. Each building houses an ATM, food court, courtesy cell phone charging stations, lounges and comfortable seating. Student Center East houses the Digital Aquarium, Disability Services, the Dean of Students office, Student Involvement and the Information Center, staffed to help students navigate the facilities. Student Center West houses Civic Engagement, Leadership Development, Student Government Association, Student Media, University Career Services and Campus Tickets where students can purchase tickets to popular campus programs, advance movie screenings and special Georgia State programs around Atlanta. Student Center West is connected to the Bookstore Building, which also houses Auxiliary and Support Services (Bookstore, PantherCard and Parking).

For more information, visit the Student Center Information Center located in Student Center East, first floor, call 404-413-1850 or visit the Student Center website http://studentcenter.gsu.edu.
1534.10 Student Programs

Spotlight Programs Board is a university sponsored student-driven organization that coordinates activities to enhance and enrich the quality of student life at Georgia State University. Spotlight addresses the needs and interests of its diverse student body by providing social, cultural and educational events on campus. Most events are free and open to the Georgia State University community and include concerts, movies, speakers, novelty events, exposure to local Atlanta attractions and much more. Spotlight also oversees Cinefest, a 133-seat theater used to show blockbuster, independent and cult classics films free to students. Spotlight coordinates the art exhibits in the gallery lounge on the 3rd floor of Student Center East, a place for students to exhibit their work in a gallery setting while learning to curate their own shows.

Spotlight Programs Board brings a variety of quality educational, enrichment and entertainment programs to the Georgia State community, including the Distinguished Speakers Series, Panther Prowls, Homecoming festivities, Courtyard Music Series, Campus Movie Fest, Georgia State Nights at local Atlanta attractions and both small and large scale concerts, such as Pantherpalooza.

Spotlight Programs Board is always looking for committee members to assist with the planning programs as well as volunteers to help with events throughout the year. Stay connected with Spotlight through Twitter, Facebook and Instagram. For more information, visit Spotlight Programs Board located in Student Center East, Suite 314, call 404-413-1610 or visit the Spotlight Programs Board website http://spotlight.gsu.edu.

1534.30 Student Media

All students are invited to become involved with the student media organizations on campus. Whether it is music, writing, reporting, editing, producing videos, photography or just great experience and friendships, these organizations offer something for everyone.

GSTV, the student-run television station, streams its content live on its website, http://www.gstvonline.org. Students interested in TV editing and production are encouraged to volunteer. GSTV is located in Student Center West, Suite 251.

Album 88 (WRAS) is the student radio voice of Georgia State. It has won local and national awards for its cutting edge format. Student programming is featured on WRAS-FM/HD-1 from 7 p.m. – 5 a.m., 24/7 on WRAS-HD-2 and online at http://www.wras.org. Album 88 is located in Student Center West, Suite 271.

The Signal is the university’s student newspaper, which serves as a learning workshop and source of journalistic, marketing and photographic skills. The Signal is published every Tuesday during the fall and spring semesters. Current issues can be found in over 50 locations on campus. Read online at http://www.georgiastatesignal.com. The Signal is located in Student Center West, Suite 250.

New South and Underground are the university’s literary magazines edited by students and showcasing literary and artistic contributions from across the country. Both organizations also stage on and off campus readings from Georgia State students throughout the year. Underground focuses on the publication of poetry, literature and photography produced solely by current Georgia State University students. The New South office is located in Langdale Hall, Suite 946, and the Underground office is located in Student
1536 University Career Services

The central office for University Career Services (UCS) houses the comprehensive career center for the campus with programs, services, information, and counseling to assist students with career decisions, as well as preparation for and implementation of successful job and graduate /professional school searches. The central UCS office works with undergraduate and graduate students from the first year on campus through the one year anniversary of their graduation. Alumni beyond a year of graduation may enroll in Alumni Career Services, a program also housed within the office (Note: an Alumni Career Services fee is associated with some services). Students from all majors and areas of study, from all class levels, and from all colleges, are served.

Career Development services are available by appointment. Individual and group sessions are offered, always with the goal of helping students and alumni connect their passion and purpose with career opportunities. The career counselors also provide career assessments, which aid students in exploring career possibilities based on values, interests, and personality.

Workshops, information and career counselors are available to help students and alumni with their career exploration and assess their individual talents, skills, and interests, and to set career goals. Programs and materials, employer panels, employer information sessions, and career fairs provide up-to-date information for use in exploring careers and researching employers.

Through the Employer Relations team, University Career Services has programs and services that connect students, alumni, and employers for internship and career opportunities, as well as employment to meet expenses while attending school. Regular workshops, employer events such as mock interviews and résumé critique days, and online information help students prepare résumés, and develop interviewing and other job search skills.

The Cooperative Education and Internships program helps students prepare for in-depth co-op and internship learning experiences, which build skills and strengthen students’ competitiveness for future opportunities. The program also works with colleges and employers in supporting their co-op and internship initiatives. The Co-op Program is the formal hub for the Georgia State University Cooperative Education initiative.

The Graduate and Professional School Planning program assists students exploring advanced degree opportunities, either here at Georgia State University or at another campus within the United States or abroad. This program has materials to assist students in researching programs as well as support in making application. This program also sponsors the fall Graduate and Professional School Fair, which brings graduate school recruiters from across the country to meet interested Georgia State students.

The Career Resource Center (CRC) is the central point of contact for students and contains workstations with access to online career guidance, job postings, graduate/professional school information, and employer
research databases.

Résumania is the walk-in résumé and c.v. review service, available Monday through Friday, 9am to 3pm. No appointment is needed. Résumania takes place in the CRC, Room 270 Student Center West.

All Georgia State University students have an account on Panther Career Net (http://career.gsu.edu), a web-based career management system utilized by students, employers and the career services staff. Panther Career Net is free to all enrolled students. Activation of the account (completing a profile and uploading a résumé if seeking employment) provides 24/7 on and off-campus access to many of the Career Resource Center’s online resources, as well as easy application to jobs, and information about career events and employers. Activation requires use of one’s campus ID and password and can be done remotely.

University Career Services at Georgia State University is a consortium of student-focused departments and programs within the Division of Enrollment Management and Student Success, offering to all Georgia State students, graduate and undergraduate, a wide range of highly supportive personal and professional development opportunities and services. University Career Services is comprised of the following areas: Employer Relations, Cooperative Education and Internships, Graduate and Professional School Planning, Career Development, and the Georgia Career Information Center.

For more information on career counseling, career assessment, career exploration, graduate and professional school planning, internship and career opportunities, and job search support, visit the central office of University Career Services in 270 Student Center West or call 404-413-1820 or visit the website at career.gsu.edu.

1538 University Committees

1538.10 University Senate Committee on Student Life and Development

The University Senate Committee on Student Life and Development is a joint student, faculty and staff committee that advises and make recommendations to the vice president for student affairs concerning matters relating to student organizations and the following student programs and services: student activities, student conduct, recreation, housing, student media, orientation, leadership, student facilities, volunteerism, disability services, multicultural center, health services, career services and honors and awards. For more information, visit the Senate website http://senate.gsu.edu/committees/student-life-development/?gf_search=student%20life.

1538.20 Student Activity Fee Committee

The Student Activity Fee Committee, including nine fee councils, is comprised of students, faculty and staff members. The committee is responsible for reviewing requests for funds generated by the Student Activity Fee and making recommendations for the allocation of those funds to the dean of students. For more information, visit the Division of Student Affairs website http://studentaffairs.gsu.edu/student-activity-fee/.
1538.30 Committee on Student Communications

The Committee on Student Communications is an advisory committee to the vice president for student affairs and has decision-making responsibility in relation to the business of and annual budget allocations for all student-operated media. Its primary functions are to interview candidates to fill the editorial and managerial positions for each of the student-operated media, make recommendations for general policy to the vice president for student affairs and resolve disputes between members. For more information, visit the Student Media website http://studentmedia.gsu.edu/csc/.

1538.40 Student Technology Fee Subcommittee

The Student Technology Fee (STF) Subcommittee of the Senate Committee on Information Systems and Technology (IS&T) meets annually to review proposals for expenditures of monies from the Student Technology Fee and makes recommendations for allocations to the Fiscal Advisory Committee to the President. For more information, visit the Technology Solutions website http://solutions.technology.gsu.edu/ and the Senate website http://senate.gsu.edu/committees/fiscal-advisory-committee-to-the-president.

1540 University Housing

Housing accommodations are available in the Georgia State University Commons, University Lofts, Patton Hall, Piedmont North and Greek Housing. These residence halls offer a variety of lifestyle living options.

The University Commons houses approximately 2,000 Georgia State students and offers convenient, apartment style housing in a quadrangle of four residence halls. The two and four bedroom apartments include a full sized kitchen, a fully furnished living and dining room, a bathroom for every two residents and private bedrooms. Private bedrooms have basic cable television and internet connections. The kitchen features a refrigerator, dishwasher and oven. Each floor includes a study or community lounge space, and each building has a fully equipped laundry facility, community offices and mail room. The University Commons is home to all of the Living-Learning Communities, specifically in Hall A and Learning Center in Hall D. This complex includes covered parking spaces, the 911 center for the university, a police substation, a convenience store, the Student Health Clinic and a MILE computer lab for university classes.

The University Lofts residence hall houses approximately 550 residents and is primarily an upper-classman, undergraduate apartment style residence hall. The Lofts are fully furnished loft style apartments that blend urban style with modern day conveniences. There are studios and one, two and four bedroom apartments. The apartments include living areas, private and shared bedrooms, a full bath for every three residents and a full kitchen with a refrigerator, dishwasher and stove with oven. The Lofts community spaces include an activity lounge, multipurpose room, laundry room and the Lofts Learning Center and classroom. Lofts resident parking is managed by Auxiliary and Support Services and is available at an additional monthly cost.

Patton Hall offers one and two person rooms that are adjoined by a full bathroom. Students are provided with a furnished room, including a bed, desk, chair and closet. This residence hall offers a comprehensive first year experience student program and a state of the art, all you can eat dining facility. A meal plan is
required for students who reside in Patton Hall.

Piedmont North is a traditional, suite style residence hall. Students share a bedroom and a bathroom. Similar to Patton Hall, a state of the art, all you can eat dining facility is also located in the hall, and a meal plan is required for all students in Piedmont North. Students may use their meal plan at either location. Student rooms in Piedmont North are also furnished, including a bed, desk, chair and closet. Piedmont North also offers a comprehensive first year experience student program like Patton Hall. This area includes several community spaces, a courtyard and a learning center.

Piedmont Central opened in August 2016 adding 1,152 beds to our growing university. This new housing facility is part of Georgia State University's continued mission to provide top-quality housing that enhances students’ personal and academic development by offering modern, safe and secure facilities and provides opportunities for intellectual and social engagement while promoting meaningful interactions between residents and staff. The new housing will allow Georgia State University to keep up with its significant growth while building a cohesive and unified campus community.

The Greek Housing community consists of four fraternities and five sororities housed in three story town homes, which range in size from nine to 19 beds per unit. Each town home features a spacious living room and kitchen, and all bedrooms are furnished with standard residential furniture. There is a large community center within the complex with mail service and laundry facilities available next door at Patton Hall.

University Housing residence halls are in highly desirable downtown locations that are within minutes of academic buildings, the Recreation Center, the Student Center and most major attractions in Atlanta. Sign up to live on campus and begin enjoying all the advantages University Housing has to offer. All University Housing residence halls meet all requirements of the Americans with Disabilities Act.

Housing costs for all facilities include rent, furniture, all utilities, wireless internet in specific building areas, basic cable television and internet connections. To maintain safety and security, all residence halls have card key access, camera systems, security staff and operate a guest check in process. For more information, visit University Housing located in 75 Piedmont, Suite 110, call 404-413-1800 or visit the University Housing website http://myhousing.gsu.edu.

1542 Off-Campus Housing

The Dean of Students has partnered with an off campus housing website to provide students with a tool to find a place to live off campus and search for a roommate. Because the Dean of Students office does not approve, inspect or assume responsibility for those facilities listed on the off campus housing website, it is strongly recommended that a visit be made to the apartment or home prior to making lease or rental arrangements. If possible, schedule more than one interview with a prospective house share or roommate and always request references. For more information, visit the Dean of Students located in Student Center East, Suite 303, call 404-413-1515 or visit the Dean of Students website http://deanofstudents.gsu.edu/student-assistance/off-campus-living/.
1600 Educator Preparation

Initial and advanced educator preparation programs at the undergraduate and master’s levels are administered by the Professional Education Faculty, an organization of faculty members from the College of Arts and Sciences and the College of Education and Human Development and local public school teachers and administrators. The Professional Education Faculty is a multidisciplinary team committed to teaching, research, and service in partnership with school and community agencies. Its mission is to prepare educators as leaders, thinkers, and change agents who are grounded in theory, content, and practice. Advanced educator preparation programs beyond the master’s level are administered by the College of Education and Human Development.

The Professional Education Faculty at Georgia State University is accredited by the National Council for Accreditation of Teacher Education (NCATE), www.ncate.org. This accreditation covers initial teacher preparation programs and advanced educator preparation programs at Georgia State University. However, the accreditation does not include individual education courses that the institution offers to P-12 educators for professional development, relicensure, or other purposes.

Teacher preparation programs in Music Education are accredited by the National Association of Schools of Music, and teacher preparation programs in Art Education are accredited by the National Association of Schools of Art and Design. The Master of Education program in School Counseling is accredited by the Council for Accreditation of Counseling and Related Programs; and the Master of Science program in Communication Sciences and Disorders is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association.

1610 Organization of the Professional Education Faculty

The Professional Education Faculty’s primary duty is to promote and facilitate constructive interaction of the members of the Professional Education Faculty, especially along interdisciplinary lines, in the interest of maintaining excellence in professional education programs at Georgia State University.

The Dean of the College of Education and Human Development is the presiding officer of the Professional Education Faculty. The faculty meets at least twice each year, once during Fall Term and once during Spring Term. Quotidian governance of the Professional Education Faculty is conducted by the Professional Education Council, which consists of faculty members elected from the various teacher education areas, faculty members appointed by the Dean of the College of Education and Human Development, students appointed by their departments, and is advised by representatives from various Atlanta area schools, which are a part of the Metro-Atlanta P-16 Community Council. The chair of the Professional Education Council is elected annually, and the position alternates between members of the College of Arts and Sciences and members of the College of Education and Human Development.

Additional information about the Professional Education Faculty and its activities is available at http://mycehd.gsu.edu/faculty/resources-policies-forms/.

1620 Conceptual Framework
The Professional Education Faculty’s conceptual framework illustrates its philosophies and purposes in regard to effective teacher preparation. The framework builds on the College of Education and Human Development mission statement and includes the Professional Education Faculty’s purpose, assumptions underlying educator preparation, and candidate outcomes. The conceptual framework is described fully at http://mycehd.gsu.edu/faculty/resources-policies-forms/.

1630 Programs

Initial Certification Programs

The following majors provide initial teacher preparation to qualified students:

1. Master of Art Education with a major in Art Education (College of Arts and Sciences)
2. Master of Art in Teaching with a major in
   - Early Childhood Education
   - English Education
   - English to Speakers of Other Languages (ESOL) Education
   - Health and Physical Education
   - Mathematics Education
   - Middle Level Education (Language Arts and Social Studies or Mathematics and Science)
   - Science Education
   - Social Studies Education
   - Special Education
3. Master of Education with a major in
   - Early Childhood Education—Urban Accelerated Certification and Master's Program
   - M.Ed. Literacy Education (Reading Instruction/Specialist)
   - School Counseling
4. Master of Science with a major in Communication Sciences and Disorders
5. Master of Education and Specialist in Education with a major in School Psychology

Advanced Programs

The following degree programs provide advanced teacher preparation for qualified students:

1. Master of Art Education with a major in Art Education (College of Arts and Sciences)
2. Master of Education with a major in
   - Elementary Education
   - English Education
   - Health and Physical Education
   - Literacy Education
   - Mathematics Education
   - Reading, Language, and Literacy Education Online
   - Science Education
3. Master of Music with a major in Music Education (College of Arts and Sciences)

4. Specialist in Education with a major in
   - Educational Leadership
   - School Counseling
   - School Psychology

5. Doctor of Education with a major in
   - Curriculum and Instruction
   - Educational Leadership

6. Doctor of Philosophy with a major in
   - Counseling Psychology
   - Counselor Education and Practice
   - Early Childhood and Elementary Education
   - Education of Students with Exceptionalities (with concentrations in Autism Spectrum Disorders; Behavior Disorders, Communication Disorders; Deaf/Hard of Hearing; Early Childhood Special Education, Intellectual Disabilities, Learning Disabilities, Physical and Health Disabilities (Orthopedic Impairments)
   - Educational Policy Studies (Educational Leadership)
   - Educational Psychology
   - Instructional Technology (with concentrations in Alternative Instruction Delivery Systems, Instructional Design, , Management, Research and Consulting)
   - Kinesiology (with concentrations in Biomechanics and Physical Rehabilitation, Exercise Physiology, Exercise Psychology, and Physical Education Teacher Education),
   - School Psychology
   - Teaching and Learning (with concentrations in Language and Literacy, Mathematics Education, Music Education, Science Education, Social Studies Education, or Teaching and Teacher Education)

**Teacher Education Warranty**

Georgia State University teacher education programs provide a limited warranty and guarantee the following:

- The Professional Education Faculty of Georgia State University guarantees the quality of any educator that they recommend for initial certification in Georgia.
- Georgia State University guarantees educators during the first two years immediately following graduation from Georgia State or following recommendation by Georgia State for an initial certificate, whichever occurs first.
- Any Georgia State University educator in a Georgia school who fails to demonstrate essential skills can receive additional training at no expense to the educator or the employer.

**1640 Graduate Professional Education Core**

All students enrolled in professional education programs at the master's level must complete the graduate professional education core as it is described in the program requirements for their major. The professional
core consists of three areas of study: research, social foundations, and psychology of learning. The Professional Education Faculty has designated the following courses as fulfilling the professional education core requirements:

**Research (minimum of 3 semester hours)**

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)
- EPRS 7920 Classroom Testing, Grading, and Assessment (3)

**Social Foundations (minimum of 3 semester hours)**

- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)

**Psychology of Learning (minimum of 3 semester hours)**

- EPY 7080 The Psychology of Learning and Learners (3)
- EPY 7090 The Psychology of Learning and Learners: The Young Child (3)

**1650 Georgia Assessments for the Certification of Educators (GACE)**

This information is for candidates seeking admission to or enrolled in a teacher preparation program. The state of Georgia requires such candidates to take various GACE and Educator Ethics assessments as part of the educator certification process. These computer-delivered assessments have been developed by the Georgia Professional Standards Commission (GaPSC) and are delivered by the Education Testing Service (ETS). You will take these tests at different times.

**Program Admission and Content Assessments:**

Program Admission Assessment [Combined Test I, II, and III (700)] is an admission requirement (unless candidate meets qualifications for exemption – scroll down to “Options to Satisfy the Program Admission Assessment Requirement”). When registering for the assessment, program entry candidates must add your program provider (Georgia State University – school code 5090) as a score recipient when you register or we will not receive notification that you have completed the assessment.

Content Assessment (different content assessments for each program) tests your content knowledge and is taken after enrollment and prior to program completion. You will receive specific information regarding this test as you near completion of your program (required for certification).

**Georgia Educator Ethics Assessment:**

Georgia Educator Ethics – Program Entry (350) Assessment is an admission requirement. Completion of this assessment is required for admission, though there is no “Pass/Fail” grade assigned. Program entry candidates must add your program provider (Georgia State University – school code 5090) as a score
recipient when you register or we will not receive notification that you have completed the assessment.

Georgia Ethics for Educational Leadership – Program Entry (370) Assessment is an admission requirement for the Educational Leadership programs (M.Ed., Ed.S., and Ed.D). Completion of this assessment is required for admission, though there is no “Pass/Fail” grade assigned. Program entry candidates must add your program provider (Georgia State University – school code 5090) as a score recipient when you register or we will not receive notification that you have completed the assessment.

Georgia Educator Ethics – Program Exit (360) Assessment is taken after enrollment and prior to program completion. You will receive specific information regarding this test as you near completion of your program (required for certification).

Georgia Ethics for Educational Leadership – Program Exit (380) Assessment is taken after enrollment in your Educational Leadership program, and prior to program completion. You will receive specific information regarding this test as you near completion of your program (required for certification).

How to Register:

Educational Testing Service (ETS) is the test supplier for the GACE and for the Georgia Educator Ethics Assessment.

Important Step: you must first establish a MyPSC account at the MyPSC website. As you create your account, you will indicate a different “Reason for Testing” specific to the test and your student status:

-Program Admission — select Reason for Testing #1. Program entry candidates must add your program provider (Georgia State University – school code 5090) as a score recipient when you register or we will not receive notification that you have completed the assessment.

-Georgia Educator Ethics – Program Entry (or Program Exit) — select Reason for Testing #7 (Be sure to review the 4-step registration process on the link provided here: Register for the Georgia Educator Ethics Assessment). Program entry candidates must add your program provider (Georgia State University school code 5090) as a score recipient when you register or we will not receive notification that you have completed the assessment. NOTE: Step #3 of registration — check your email SPAM folder for the email from ETS. Step #4 of registration is tricky — you are now in the ETS portal (not MyPSC) and you must create a new account under “Registration”…choose the option: Test Takers.

– Content Assessments – Undergraduate students (or graduate students in Educational Leadership, School Psychology, or Counseling): select Reason for Testing #2
– Content Assessments – Graduate students (except in Educational Leadership, School Psychology, or Counseling): select Reason for Testing #3 (students in Educational Leadership, School Psychology, or Counseling select Reason for Testing #2)

1655 edTPA

Teacher preparation candidates will be required to pass an externally scored portfolio assessment (edTPA) to be eligible for certification. This portfolio assessment requires candidates to submit evidence of ability to teach in a subject-specific classroom. Candidates must develop and teach a unit of instruction and then submit materials based on three to five lessons from this unit. The portfolio includes video clips of student-
teacher interactions, lesson plans, learner work samples, and candidates’ reflective analysis. The cost of the edTPA portfolio submission is $300.00, which will be associated with student teaching courses.

In the event a candidate has passed their student teaching/practica course included in their teacher preparation program but fails to pass edTPA, candidates may be eligible to graduate but not be eligible for certification. Students in this situation may enroll in EDUC 4750 Clinical Experience for one credit hour to participate in a practicum experience to create and implement a unit of instruction and complete a new edTPA portfolio.

1660 Educational Field Experiences

All Georgia State University students who are accepted into a teacher education program and will be completing a field placement must complete the requirements to obtain a Pre-Service Certificate through the Georgia Professional Standards Commission which includes a criminal background check and the ethics module.

All teacher preparation programs require an Opening School experience in addition to practicum and student teaching placements. Opening school experiences vary by program and can include the Georgia State student spending 1-2 weeks with a mentor teacher during pre-planning and the first week of school. Due to the schedules of the county schools where Georgia State places students, the opening school experience may occur prior to the start of the Georgia State fall term. Students should check with their program faculty regarding the specific number of days/hours required for their opening school experience for their program.

Students accepted into teacher education programs, will not be able to begin their field placement(s) until they receive their Pre-Service certificate number from the GaPSC and provide proof to the Office of Field Placements.

Upon admission to a teacher education program, you will receive an email from the Office of Academic Assistance with instructions for how to apply for your Pre-Service certificate. Do not submit your Pre-Service Certificate application before you are admitted.

Extended field experiences, opening school, practicum and/or student teaching (i.e. experiences involving interactions with students, tutoring or classroom teaching in school settings) will be arranged by the Office of Field Placements and program coordinators in the educator preparation departments of the students’ major fields of study.

Students must successfully complete the prerequisite courses in their program of study with respect to securing a placement.

It is the responsibility of the student to check with their faculty advisor regarding specific departmental procedures required to request a practicum or student teaching placement.

Students may not contact a school or school system office or report to a school site until they are notified by their department or the Office of Field Placements of their placement confirmation.
An additional lab fee of $125.00 will be charged at the time students register for selected field experiences. Educator preparation students must be aware that extra costs such as tort liability, criminal background check, and transportation will be incurred at various times during the completion of educational field experiences.

Teacher education and counseling students are required to purchase tort liability prior to placements in field experience courses, practicum, or student teaching. Students will be expected to show proof of coverage to program coordinators/supervisors prior to field placements.

Continuing Duty to Report Criminal Events

In addition to the continuing duty Georgia State University students have to report criminal events that occur after application to the University per the Georgia State Student Code of Conduct, students enrolled in educator preparation programs or in education coursework requiring field-based experiences must (1) report to the Office of Field Placement any criminal events described below that occur after the criminal background check required for field placements was conducted (notice to Office of Field Placement must be made within 72 hours of the student’s notice of the event); (2) consent to a new criminal background check; and (3) provide written consent for the release of the criminal background report and all information about the criminal event to any field placement site at which the student is currently student teaching or at which Georgia State attempts to place the student in the future. Failure to comply with the notice requirement described herein may result in sanctions up to and including immediate withdrawal from the University. Failure to comply with the criminal background check and release of information requirement described herein will result in immediate removal from all current field placements and courses and denial of future requests for field placement.

1. Conviction of a crime other than a minor traffic violation.
2. Criminal charges filed against the student.
3. Entering a plea of guilty, a plea of no contest, a plea of nolo contendere, an Alford plea, or a plea under any first offender act in response to charges filed against the student.

1670 Criteria on Academic and Professional Integrity

The College of Education and Human Development is committed to upholding standards of academic and professional integrity. These standards require that students enrolled in undergraduate and graduate programs within the College of Education and Human Development adhere to both the University’s Student Code of Conduct as described on-line at http://codeofconduct.gsu.edu/ as well as their individual degree program’s Policy on Student Professionalism, Integrity and Retention. Students should contact their department for a copy of their degree program’s policy.
2000 Andrew Young School of Policy Studies

Graduate programs in the Andrew Young School of Policy Studies are described in detail in this chapter. See subsections for specific program information as well as policies and procedures.

2010 Office of the Dean

14 Marietta St. N.W., Suite 635
404/413-0000
aysps.gsu.edu
Mary Beth Walker, Dean
Sally Wallace, Associate Dean
Cynthia Searcy, Assistant Dean

2010.10 Purpose

Changing the World: One Student at a Time, One Idea at a Time.

The Andrew Young School of Policy Studies strengthens communities across the globe through policy research, scholarship, public engagement, and the development of leaders.

The school is committed to quality education, offering a variety of academic undergraduate and graduate degree programs as well as nondegree training programs. It engages in basic and applied research and outreach addressed to the ongoing management of policies and programs, as well as effective delivery of human welfare services. The school houses several prestigious research centers focusing on the practical needs of governmental, nonprofit, and private-sector organizations in Atlanta, the state of Georgia, and the broader national and global communities. Degree programs in criminal justice and criminology, economics, policy studies, public administration, and social work integrate individual academic career preparation with addressing those needs.

For current information, visit the Andrew Young School of Policy Studies’ website: aysps.gsu.edu.

2010.20 Accreditation

The Master of Public Administration degree is accredited by The National Association of Schools of Public Affairs and Administration. The School of Social Work is accredited by the Council on Social Work Education.

2010.30 Academic Advisement

Office of Academic Assistance
14 Marietta St. N.W., Suite G-52
404/413-0021
aysps.gsu.edu/student-resources/oaa/
The Office of Academic Assistance (OAA) supports the school’s commitment to quality education in the field of policy studies by advising seniors and coordinating the recruitment, admission and advising of graduate students. The OAA also serves as the administrative and regulatory office for student programs within the Dean’s Office in the Andrew Young School of Policy Studies.

Academic advisement is required of all students in the Andrew Young School of Policy Studies. The school has developed a system of advisement that integrates the Office of Academic Assistance and faculty advisors within the school. Through the advisement process, students learn to identify and use university resources effectively to: satisfy degree requirements; plan programs of study; and, discover how interests, skills and goals connect to fields of study and careers. The office is open from 8:30 a.m. to 5:15 p.m. Monday through Friday. Walk-in advisement without an appointment is scheduled on Mondays and Thursdays from 2:30 p.m. to 4:00 p.m., and Tuesdays and Wednesdays from 9:30 a.m. to 11:00 a.m.

2010.35 Study Abroad Opportunities

The Andrew Young School of Policy Studies is committed to providing students the opportunity to study abroad through Maymester/Summer or exchange programs. Currently the school sponsors four Maymester/Summer and four exchange programs:

Maymester/Summer programs:

1. Europe (France, Germany, The Netherlands & Czech Republic): a three-week Maymester program open to all students interested in critical appraisals of different policies, administrative structures and political processes in Europe and the United States. Co-Program directors – Dr. Greg Streib (gstreib@gsu.edu) or Dr. Cynthia Searcy (csearcy@gsu.edu).
2. South Africa: a three-week Maymester program that provides a broad understanding of the workings of the South African economy, its infrastructure, its environment and its governance, as well as the accompanying social issues. Program director – Dr. Glenwood Ross (gross@gsu.edu).
3. Trinidad and Tobago: a Maymester program that explores crime and justice from an international, comparative perspective and examines public policy issues related to crime and violence in developing nations. Program director – Cyntoria Johnson (cjohnson5@gsu.edu).
4. Ghana: A three-week Maymester program that allows students to delve into the topic of international development and its effects on the challenges of eradicating poverty and helping communities become sustainable. Program Director – Dr. K. Jurée Capers (kcapers@gsu.edu).

Exchange programs:

1. England, Northumbria University: an exchange program for one semester that gives undergraduate or graduate students from any AYSPS degree program an opportunity to take courses in the social sciences. Program director – Dr. Cynthia Searcy (csearcy@gsu.edu).
2. Italy and France, University of Venice – Ca’Foscarì and France, University of Versailles Saint-Quentin: an exchange program for economics undergraduates that grants students a degree from Georgia State University (most likely a B.A. or B.S. in economics, or a B.A. in International Economics and Modern Languages) and a degree in Economics and Management from the University of Venice Ca’Foscarì, after one year of study in Italy and a semester in France. Program director – Dr. Shelby Frost (sfrost@gsu.edu).
3. Lausanne, Switzerland, University of Lausanne Faculté des Hautes Études Commerciales: an exchange program for graduate students of economics to gain expertise in the areas of international economies and economic policy through coursework, while living in a new cultural setting. Program director – Dr. Felix Rioja (frioja@gsu.edu).

4. Istanbul, Turkey, Marmara University: a semester or year-long exchange program between GSU and Marmara University for economics undergraduates and graduate students. Students take classes conducted in English. Program Director – Dr. Cynthia Searcy (csearcy@gsu.edu).

2010.40 Academic Resources and Services

AYSPS Career Services & Alumni Relations

14 Marietta St. N.W., Suites G47-51
404/413-0069
career.aysps.gsu.edu

The Andrew Young School provides career support and leadership development services to all AYSPS current students and alumni. Students are invited to attend career events and workshops as well as meet one-on-one with a career coach to discuss individual career questions. Career Services can help with the career exploration and search process, resume writing, interviewing skills, developing a LinkedIn profile, navigating the job or internship search process, and networking. To see a listing of current career events, please visit: career.aysps.gsu.edu/calendar. The Career Services Office also supports all AYSPS student clubs and organizations. Take a look at the range of groups available within the college, and consider getting involved: career.aysps.gsu.edu/organizations/. Make the most of your education by utilizing these great resources! The AYSPS Career Services & Alumni Relations office is located on the ground floor of the Andrew Young Building, in rooms G47-51.

AYSPS Research Vault

14 Marietta St. N.W., Vault Floor
404/413-0019

The Research Vault offers research tools in policy studies and economics for faculty, staff and students at the AYSPS. It provides students with an introduction to relevant databases, data set manuals, and websites. The Vault also houses selected literature and data sets on fiscal policy, public administration, and economic issues to support ongoing research projects of AYSPS faculty and its research centers. The website above is available to assist patrons in searching the literature of regional, national, and international policy issues located in the Vault.

Research Vault staff, along with university liaison librarians, develop links to electronic journals and databases licensed to Georgia State University for the use of its student and faculty community, as well as those licensed by the powerful statewide Galileo system. Available are such sources as the Web of Science, a leading citation index, access to social science data from the Inter-university Consortium for Political and Social Research (ICPSR), and Lexis-Nexis statistical tables for geographic, demographic, income and time series. The Vault holds data sets and publications from agencies in state government as well as the international community, especially in taxation.
The reading room has student workstations and provides copies of *Wall Street Journal*, *New York Times*, *Financial Times*, and *The Economist*. Such periodicals as *Tax Analysts Tax Notes*, *Journal of Economic Literature*, *Journal of Econometrics*, and the *Nonprofit Quarterly* are available upon request.

**Economics Tutoring Lab**

14 Marietta St. N.W., Room 526  
404/413-0141  
economics.gsu.edu/programs/undergraduate/undergraduate-economics-tutoring-lab/

The Economics Tutoring Lab provides tutoring for students in undergraduate economics classes, particularly in principles of microeconomics and macroeconomics (ECON 2105 and ECON 2106). Day and evening sessions are available; contact the Department of Economics for a schedule.

**2010.50 Research Centers and Programs**

**Center for Collaborative Social Work**

140 Decatur Street, 12th Floor  
404/413-1050  

The Center for Collaborative Social Work developed out of the School of Social Work’s need for an organizational structure that extended the school’s founding principles beyond the classroom and into the community. The School of Social Work is the first school in the country to offer a Master of Social Work with a sole concentration in community partnerships. The school’s commitment to community partnerships grew out of collaborative efforts with community stakeholders from a variety of social service agencies in the greater Atlanta area. Together, they developed a program based on the following principles:

- “Partnership is critical for human service delivery and building communities;
- challenges facing individuals and communities are interrelated and that solutions must be as well;
- students should commit themselves to addressing social and economic justice issues that test the spirit of individuals and communities;
- students should be educated for leadership roles to facilitate partnerships; and
- the program must continue to be relevant to the professional lives of students and practitioners and to the needs of diverse communities.” (Wertheimer, et al. 2004)

**Center for State and Local Finance**

14 Marietta St. N.W., 4th Floor  
404/413-0098  
cslf.gsu.edu

The Center for State and Local Finance’s (CSLF) mission is to develop the people and ideas for next
generation public finance by bringing together the Andrew Young School’s nationally-ranked faculty and the broader public finance community. Established in 2014, CSLF conducts and publishes innovative, nonpartisan research on economic development and urban policy, education finance, tax policy and reform, and budget and financial management. Additionally, it provides premier executive education classes in public finance for state and local finance officials in Georgia and nationwide. CSLF also works with governmental, non-profit, and for-profit groups to conduct fiscal and economic impact studies, forecast revenues and expenditures, and assist with local and state tax policy and reform efforts. CSLF supports several graduate students pursuing their degrees in public management and policy or economics through its fellowship and graduate research assistantships.

Experimental Economics Center
14 Marietta St. N.W., 4th Floor
404/413-0194
excen.gsu.edu/

The Experimental Economics Center (ExCEN) supports research, teaching, and policy applications involving controlled experiments with human decision-makers. Its central objective is to promote the development and application of economics and related academic disciplines as empirical social science. Research conducted by center faculty covers many topics: theoretical modeling and laboratory experiments with trust, reciprocity, and altruism; small- and large-stakes risk aversion; public goods and common pool resources; centipede games vs. Dutch auctions; risk perception; technology adoption; time preferences; gambling disorders; health seeking behavior in less developed countries; ambiguity attitudes; insurance demand; financial risk management of poor working households; and congestion pricing in transportation. Collaborative research with surgeons is in progress on improving hospital discharge decision-making and analysis of decision-making for human organ rejections or acceptances for transplantation. Research and teaching support facilities developed and maintained by ExCEN include the AYSPS experimental economics laboratory, a mobile laboratory and EconPort (www.econport.org), an economics digital library and virtual laboratory containing Internet software for experiments.

Fiscal Research Center
14 Marietta St. N.W., 4th Floor
404/413-0249
frc.gsu.edu

Established in 1995, the Fiscal Research Center (FRC) provides nonpartisan research, technical assistance and education in the evaluation and design of state tax and economic policy. It leverages the Andrew Young School’s expertise in public finance to assist Georgia’s policymakers on questions of tax and economic policy. FRC’s responsibilities include developing estimates for tax-related fiscal notes for the state of Georgia, writing the Georgia State Tax Expenditure Budget, supporting the state economist, and conducting policy and academic research on a variety of topics associated with state tax policy issues. FRC also maintains a data warehouse of domestic data sources that are used by FRC staff, Andrew Young School faculty and students, and external organizations. FRC supports several graduate research assistantships for students pursuing their degrees in public management and policy or economics.

The Georgia Health Policy Center
The Georgia Health Policy Center (GHPC) integrates research, policy and programs to advance health and well-being. GHPC works locally, statewide, and nationally to connect decision makers with the evidence-based research and guidance needed to make informed decisions about health policy and programming. The center focuses on the most complex health care issues today including: public and private health insurance coverage, health care reform, long-term services and supports, public health, children’s health and well-being, behavioral health, and the development of urban and rural health systems. GHPC offers a wide range of services to public and private clients, including research and evaluation, policy analysis, program development, technical assistance, meeting design and facilitation, grants management, strategic planning, and health impact assessment. The center has worked in nearly 1,000 communities in all 50 states to achieve health improvement.

Georgia International Law Enforcement Exchange

P.O. Box 3992, Atlanta, GA 30302-3992
404/413-1035
www.gilee.org

The Georgia International Law Enforcement Exchange (GILEE) was established in 1992. Its mission is to enhance law enforcement executive development and international cooperation for the provision of better law enforcement services and public safety through the protection of civil rights. GILEE’s focus has been on anti-terrorism training; initially to protect the 1996 Centennial Olympic Games and later to improve preparedness for terror threats. Following the 9-11 atrocity, GILEE focuses on enhancing homeland security efforts through international cooperation and training programs. GILEE operates on the principle of providing peer-to-peer professional training through the introduction of best practices and sources of excellence in order to enhance agency capabilities to better deal with threats to public safety and improve security. GILEE offers executive law enforcement training programs and special briefings in and for more than 20 states and more than 20 countries.

International Center for Public Policy

14 Marietta St. N.W., 5th Floor
404/413-0239
icepp.gsu.edu/

Mission: “To expand knowledge, instill optimal practice and build capacity in the public sector around the world to improve human well-being through better public policy.”

The International Center for Public Policy (ICePP) is an interdisciplinary public policy research center that engages faculty members from within the Andrew Young School of Policy Studies (AYSPS) and other departments at Georgia State University who pursue this mission through internationally oriented research, academic programs and technical assistance, and training activities for developing countries. The core expertise of the center lies in its economics and fiscal policy analysis. It serves a diverse client base that
includes multilateral donor agencies (e.g. USAID, World Bank, UNDP, ADB, etc.), foreign ministries, government organizations, legislative bodies and private institutions.

ICePP brings together the strengths of cutting-edge technical expertise, extensive real-world policy experience and solid project management capabilities. ICePP faculty have extensive experience in resolving real-world policy challenges, with combined work experience in over 70 developing and transition economies around the world. At the same time, ICePP’s international technical assistance and training efforts uniquely complement the academic research and the educational mission of the Andrew Young School. The exposure to international policy challenges that ICePP brings to the school and its interaction with government leaders and policy-makers from around the world enriches the school’s academic environment and deepens its commitment to resolving international policy challenges.

ICePP has built a strong visiting scholars program and has hosted over 40 scholars since 2007. In addition to the various books, peer reviewed journal articles and policy reports generated by its faculty and research associates, ICePP publishes a working paper series and occasional papers that include research from GSU faculty, research associates, graduate students and external professors, policy-makers and government officials that have participated in ICePP research activities.

Nonprofit Studies Program
14 Marietta St. N.W., 3rd Floor
404/413-0133
nsp.gsu.edu/

The Nonprofit Studies Program (NSP) was organized in 2001 to foster collaborative research on the nonprofit sector within the academic community, to promote policy research that is relevant in today’s political and economic environment, to educate nonprofit managers and leaders, and to serve as a link between scholars and nonprofit practitioners in creating and disseminating knowledge about the sector. The program involves educational, research and service activities focused on helping nonprofit organizations address their social missions effectively through problem-solving, policy advocacy and effective deployment of their resources. The program is interdisciplinary, and has special strengths in economic analysis, resource development and management, and policy analysis applied to the concerns of nonprofit organizations. It includes over 30 core and associated faculty from the Andrew Young School, other schools and colleges of Georgia State University and other universities.

Public Performance and Management Group
14 Marietta St. N.W., Suite 316
404/413-0180
ppmgsu.org

The Public Performance and Management Group (PPM) offers an array of resources and solutions to assist public administrators to strengthen strategic and operational performance. Core activities include executive level training and development; applied research projects; short or long-term assistance with planning and performance improvement; and dissemination of effective practices. PPM supports improved public performance by providing real-world solutions to today’s public management problems. All activities are practitioner-oriented and customized for a wide range of state and local government settings. Funding for
PPM projects comes from federal grants as well as state and local contracts.

Usery Workplace Research Group

14 Marietta St. N.W., 5th Floor
404/413-0880
uwrg.gsu.edu/

The W.J. Usery Workplace Research Group (UWRG) includes scholars at the Andrew Young School conducting research on the economics of the workplace, labor markets, education, health, and related areas. Activities include the annual Usery Distinguished Lecture Series, which brings the nation’s leading labor economists to the Andrew Young School. Research by UWRG faculty are circulated widely through the Usery Workplace Research Group Paper Series. UWRG sponsors Andrew Young School seminar speakers, plus various research activities and occasional research conferences on and off campus. UWRG activities are coordinated and financed through the W.J. Usery Chair of the American Workplace.

2010.60 Student Organizations

Alpha Phi Sigma

The purposes of Alpha Phi Sigma shall be to recognize and promote high scholarship among students actively engaged in college study in the Criminal Justice area, to keep abreast of the advances in scientific research, to elevate the ethical standards of the Criminal Justice professions, and to establish in the public mind the benefit and necessity of education and professional training. For more information, contact Dr. Leah Daigle at ldaigle@gsu.edu. National Website: www.alphaphisigma.org

Andrew Young Circle of Enterprising Scholars (AYCES)

AYCES is a brand new student club. The purpose of AYCES is to strengthen student relationships and develop professional skills while fostering a long term professional community within the Andrew Young School of Policy Studies. AYCES is open to any undergraduate or graduate student that AYSPS. To learn more, contact AYS Career Services and Alumni Relations (404-413-0069).

Criminal Justice Graduate Student Association

The Criminal Justice Graduate Student Association will assist members with adjustment into the Criminal Justice Graduate Program, act as student-faculty liaisons for the purpose of addressing student body concerns, organize events designed to promote graduate research, encourage student involvement in academic and social events within the Department of Criminal Justice and Criminology, and assist graduating students in transitioning into graduate careers. For more information visit their website at: criminaljustice.gsu.edu/student-resources/student-organizations/criminal-justice-graduate-student-association/.

The Graduate Student Association (Economics)

The Economics Department’s Graduate Student Organization (GSA) is a non-profit, student-run organization established for the benefit of all economics graduate students at the Andrew Young School of
Policy Studies at Georgia State University. All officially-enrolled economics graduate students are automatically members of the GSA, and the GSA levies no dues. The GSA promotes scholarship, develops a spirit of cooperation and fellowship among economics graduate students, and fosters interaction between graduate students and faculty. For more information, visit their website at: economics.gsu.edu/students/graduate-student-association.

The Nonprofit Leadership Alliance Club (NLA)

The Department of Public Management and Policy in the Andrew Young School is affiliated with the Nonprofit Leadership Alliance, a national alliance of colleges, universities and nonprofit organizations dedicated to strengthening the leadership of the social sector and sustaining the ability of nonprofits to fulfill their mission with a talented and prepared workforce. The NLA Club focuses on professional leadership development, fundraising, and career networking within the nonprofit community. While optional, students are strongly encouraged to pursue NLA’s Certified Nonprofit Professional (CNP) credential by meeting the NLA national office’s five requirements. These requirements include:

1. Completing a bachelor’s degree;
2. Demonstrating proficiency in NLA’s 10 competencies;
3. Demonstrating Leadership & Service;
4. Completing a 300-hour internship; and
5. Attending one AMI (NLA’s annual national conference in January).

The club is open to all GSU majors (undergraduate and graduate) who are interested in working and/or volunteering in a nonprofit environment. For more information about meeting times and a calendar of events, please visit their website at pmap.gsu.edu/student-organizations/nonprofit-leadership-alliance-student-organization/.

Phi Alpha Social Work Honor Society

Students within the School of Social Work are eligible for induction into the Phi Alpha Honor Society for Social Work. The GSU School of Social Work Chapter is Omicron Gamma, and was chartered in November 2007. Undergraduate membership requirements include being a social work major, achieving sophomore status, completing 8 semester hours of required social work course, and achieving an overall 3.0 GPA and a 3.25 social work GPA. Membership meetings are held twice yearly; once in the Fall and again in the Spring semesters. For more information, visit their website at: socialwork.gsu.edu/phi-alpha-honor-society/.

Master of Social Work Club: Bridge Builders

Bridge Builders is the graduate level social work club within the School of Social Work. Bridge Builders offers monthly events that bring together all MSW students through social and educational activities. The club partners with one social service agency each semester to participate in a group community service event. Activities primarily focus on career and professional opportunities within the field of Community Social Work. Bridge Builders also supports the undergraduate social work club and serves as a resource to the undergraduates as they explore graduate school possibilities. Visit their website for more information: socialwork.gsu.edu/student-engagement/msw-bridge-builders/.
2010.70 Academic Units

Department of Criminal Justice and Criminology

1201 Urban Life Building
404/413-1020
criminaljustice.gsu.edu/

Richard T. Wright, Chair
Volkan Topalli, Director of Graduate Studies

Degrees Offered:

- Doctor of Philosophy in Criminal Justice and Criminology
- M.S. in Criminal Justice

Department of Economics

14 Marietta St. N.W., 5th floor
404/413-0141
economics.gsu.edu/

Shiferaw Gurmu, Chair
Master's Faculty Program Director: Felix Rioja
Doctoral Faculty Program Director: Rusty Tchernis

Prefix: ECON

Degrees offered:

- Doctor of Philosophy in Economics
- Master of Arts in Economics
- Master of Arts in Economics – Policy Track

Department of Public Management and Policy

14 Marietta St. N.W., 3rd Floor
404/413-0107
pmap.gsu.edu/

Gregory B. Lewis, Chair
Master's Faculty Program Director: John C. Thomas
Doctoral Faculty Program Director: Christine Roch

Prefix: PMAP

Degrees offered:
Doctor of Philosophy in Public Policy
Master of Public Administration
Master of Public Administration/Juris Doctor
Master of Public Policy

Graduate Certificates Offered:

- Disaster Management
- Nonprofit Management & Social Enterprise
- Planning and Economic Development

School of Social Work

1242 Urban Life Building
404/413-1050
socialwork.gsu.edu/

Brian Bride, Director
M.S.W. Program Director: Mindy Wertheimer
Director of Student and Community Services: Renanda Wood Dear

Degrees offered:

- Master of Social Work
- Advanced Standing Master of Social Work

2020 Graduate Admissions

All documents and other materials submitted by or for persons in connection with their interest in consideration for admission to a program become the property of this institution and cannot be returned at any time. It is the responsibility of each applicant to follow the application procedures completely and correctly and to be certain that all required materials have been submitted to the Office of Academic Assistance by the application deadline. Incomplete applications will not be processed.

No guarantee regarding admission can be made before an applicant’s file is complete and has been reviewed by the Graduate Admissions Committee. Applicants must assume responsibility for all costs related to applying for admission regardless of the admission decision.

Admission is for entry in a specific program or status and for a specific semester. The Andrew Young School of Policy Studies does not offer deferment of enrollment.

2020.10 Graduate Admissions Committee

The Graduate Admissions Committee for each degree program is composed of faculty members from the relevant department. Membership on the committees varies, depending on the academic program. The
charge of each admissions committee is to review and make admissions decisions on the completed applicant files for a particular graduate program. Hereafter, all references to the “Graduate Admissions Committee” refer to one of these admissions decision-making bodies.

2020.20 Retention of Records

If an applicant does not complete enrollment for the semester in which admission is sought, the applicant must reapply. Additional credentials and information may be required. Incomplete application files are retained for a maximum of one year.

A student who earns credit in a master’s-level program and later becomes inactive may be required to reestablish his or her file. The Office of the Registrar will maintain a transcript of graduate credit earned at Georgia State University indefinitely.

2020.30 Application Deadlines

Applicants are encouraged to apply before the deadline to allow time for processing and ensure applicant files are complete.

If an application deadline falls on a weekend or university holiday, online applications must be submitted by the deadline and supporting materials will be accepted until the next business day following the application deadline.

Master’s Programs and Certificates in Criminal Justice, Economics, Public Policy and Public Administration

**Fall Semester:** April 1 (February 15 is the priority deadline for consideration for Graduate Research Assistantship-GRA-funding)

**Spring Semester:** October 1

Note: No applications, except transient and nondegree, will be accepted for summer semester.

Master of Social Work Program

Admission into the Master of Social Work program will occur twice each year. For both the two-year, full-time program and the part-time programs, students will be admitted only for fall semester. Please see the School website msw.gsu.edu/ for current information about admission years. The priority deadline for all applications is February 1. The late deadline is April 1.

For the Advanced Standing Program (B.S.W. from an accredited program), students will be admitted during the summer session. The priority deadline for applications for the Advanced Standing Program is February 1. The late deadline is April 1.

The School of Social Work requires students newly accepted into the M.S.W. program to submit a portion of their first semester’s tuition at the time of acceptance. The advanced tuition, which is nonrefundable, guarantees the student’s place in the class.
Doctoral Programs in Criminal Justice and Criminology, Economics, and Public Policy

**Fall Semester**
Criminal Justice & Criminology  January 15
Economics  January 15
Public Policy  January 1

Note: No applications, except transient and non-degree, will be accepted for summer semester.

**2020.40 Application Procedures**

**Self-Managed Applications**

The Andrew Young School of Policy Studies uses self-managed applications to its graduate programs. The application process begins with the completion of the online application: aysps.gsu.edu/admissions/. It is the applicant’s responsibility to collect all required materials other than test scores and submit them at one time to the Office of Academic Assistance (OAA) at the mailing address below:

**Mailing Address:**

AYSPS Office of Academic Assistance  
P.O. Box 3992  
Atlanta, GA 30302-3992  
USA

**Express/Overnight Delivery:**

AYSPS Office of Academic Assistance  
14 Marietta Street NW, G-52  
Atlanta, GA 30303  
USA

This procedure eliminates any question about whether the applicant’s transcripts or other documents have been received. It also requires careful planning by the applicant well in advance of the desired semester of entry. There is no provision for temporary or trial admission pending completion of the application procedures. The closing dates for receipt of all application materials for each of the academic terms are listed under the “Application Deadlines” heading above.

All inquiries should be made to:

Office of Academic Assistance  
Andrew Young School of Policy Studies  
Phone: 404/413-0021  
Fax: 404/413-0023  
E-mail: GradAYS@gsu.edu

To apply online, visit our website aysps.gsu.edu/admissions/. The following supplemental materials are
required. (Refer to the degree-specific application checklists at the end of this section for a summary of requirements for each degree program.)

Transcripts

One official copy of the transcript of all previous college work are required from each institution previously attended, including community colleges. Each set of transcripts must be in an envelope from the institution, closed with the institution’s official seal, and must be submitted unopened by the applicant. If an institution’s policies do not permit it to send official transcripts to applicants for use with self-managed applications, the transcripts may be sent directly to the Office of Academic Assistance using the addresses given above.

Transcripts are required from each institution the applicant has attended, regardless of the length of time the applicant attended the institution or the applicant’s status while at the institution, whether the grades are listed on another institution’s transcript or whether a student received a degree from that institution. EXCEPTION: Applicants who have attended Georgia State University must list their dates of attendance on their applications, but they do not have to request their Georgia State transcript. The OAA will obtain a record of the Georgia State coursework.

An applicant who may have been granted admission pending completion of the undergraduate degree must file an official copy of a supplementary transcript showing the awarding of the degree as soon as it is available but at the latest by the end of late registration the first semester of enrollment. International students must submit proof of degree earned.

Test Requirements

All applicants to the graduate programs must submit official scores on the entrance test required for the program they are requesting. (Refer to the list below for degree-specific test requirements.) Test scores must be reported directly from the Educational Testing Service; candidate’s copies will not be used.

Degree-specific test requirements are as follows:

Applicants for the following graduate and certificate programs must submit official scores of the aptitude section of the Graduate Record Examination (GRE) of the Educational Testing Service:

- Graduate Certificate in Disaster Management
- Graduate Certificate in Nonprofit Management & Social Enterprise
- Graduate Certificate in Planning & Economics Development
- Master of Science in Criminal Justice
- Master of Arts in Economics
- Master of Public Administration*
- Master of Public Policy
- Master of Social Work
- Doctor of Philosophy in Economics
- Doctor of Philosophy in Criminal Justice and Criminology
- Doctor of Philosophy in Public Policy
*Applicants to the joint Master of Public Administration/Juris Doctor degree program who have completed their application and have been admitted to the College of Law at the time they apply to the M.P.A. program may substitute the Law School Admission Test (LSAT) for the GRE.

International applicants whose native language is not English must provide official scores on the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). EXCEPTION: This is not required of international applicants who have received an accredited degree from a U.S. institution. However, applicants must demonstrate proficiency in English. Such applicants who are current residents of Georgia may demonstrate English proficiency through testing in the Georgia State University Office of Applied Linguistics and English as a Second Language; call 404/413-5200 for information.

Applicants should take the appropriate test as early as possible so that scores will be received before the application deadline for the desired semester of enrollment. When taking these tests, applicants must indicate on the test application that their scores should be reported to Georgia State University (see institution codes listed below). GRE scores may not be more than five years old at the desired semester of entry; TOEFL or IELTS scores may not be more than two years old at the desired semester of entry. To arrange to take a test or to have scores reported from a previous administration, contact the appropriate testing service:

**GRE/ETS**, P.O. Box 6000, Princeton, NJ 08541, 609/771-7670, www.gre.org (have scores reported to code 5251)

**TOEFL/ETS**, P.O. Box 6151, Princeton, NJ 08541, 609/771-7100, www.toefl.org (have scores reported to code 5251)

**IELTS**, www.ielts.org

**Letters of Recommendation**

Letters of recommendation are required of applicants to all (M.A., M.P.A., M.P.A./J.D., M.S., M.P.P., M.S.W., and Ph.D.) programs with the exception of the graduate certificate programs. The online application web address aysps.gsu.edu/admissions/instructions/ provides information about submitting letters of recommendation.

**Professional Goals Statement (Master’s Applicants) or Biographical/Statement of Interest (Doctoral Applicants)**

Applicants to the master’s degree programs of the Andrew Young School of Policy Studies must submit a statement of personal and professional goals as they relate to the degree program sought. Most applicants write the equivalent of approximately two to three typed pages, summarizing their work experience, the reason they have chosen the degree program, why they want to attend Georgia State University and how the degree fits in with their career goals. Applicants to the Ph.D. programs statement of professional and academic goals should contain fields of interest and how the program will contribute those goals.

**Academic Writing Sample for Ph.D. in Criminal Justice and Criminology**
This can be a chapter from a thesis, an honor’s paper, a sole authored published paper or a term/research paper. Academic writing samples are not required for application to any other graduate program in the Andrew Young School.

Interviews

Interviews are usually not part of the admissions process for the master’s degree programs. Prior to final decisions for admission to the doctoral programs, selected applicants may be interviewed either in person or by telephone. If an interview is needed after the Graduate Admissions Committee has reviewed the applicant’s file, the applicant will be contacted to arrange an appointment for this purpose. Applicants are therefore encouraged to provide complete answers to all questions asked on the applications.

Applicants who have questions about the information in this catalog concerning admissions, the programs, application instructions, or related matters, are encouraged to contact the Office of Academic Assistance at any time during the application process.

Immunization Certification

The Board of Regents of the University System of Georgia requires that accepted applicants who have never attended Georgia State University submit proof of immunization before being allowed to register for classes. A form for providing this certification to the Georgia State University Department of Health Services may be obtained online at health.gsu.edu/general-information/103-2/.

International Applicant Immigration Form (International Applicants Only)

International applicants who are admitted to Georgia State University must also provide federally required financial documentation showing they have enough funding to attend the University. Only after the financial information is approved will an I-20 document be issued. Forms for providing this information may be obtained online at isss.gsu.edu/about/forms/. Questions about the requirement may be directed to International Student and Scholar Services (252 Sparks Hall, 404/413-2070).

Lawful Presence Requirement

The Board of Regents of the University System of Georgia requires that any student applying to Georgia State University will be required to provide verification of their lawful presence in the United States before admission to the university can be finalized. Specific information on this requirement is located at admissions.gsu.edu/how-do-i-apply/citizenship-verification-and-lawful-presence/.

Program-Specific Application Checklists

Graduate Certificate Programs

1. Online application.
2. Application fee of $50.
3. One official copy of transcript from each post-secondary institution attended.
4. Official scores on the GRE.
5. Professional goals statement submitted online.
Master of Science in Criminal Justice

1. Online application.
2. Application fee of $50.
3. One official copy of transcript from each post-secondary institution attended.
4. Official scores on the GRE.
5. Three letters of recommendation submitted online.
6. Professional and academic goals statement submitted online.

Master of Arts in Economics

1. Online application.
2. Application fee of $50.
3. One official copy of transcript from each post-secondary institution attended.
4. Official scores on the GRE.
5. Three letters of recommendation submitted online.
6. Professional goals statement submitted online.

Master of Public Administration

1. Online application.
2. Application fee of $50.
3. One official copy of transcript from each post-secondary institution attended.
4. Official scores on the GRE.
5. Three letters of recommendation submitted online.
6. Professional goals statement submitted online.

Master of Public Administration/Juris Doctorate

Applicants to the joint Master of Public Administration/Juris Doctorate degree program must be separately admitted to both the J.D. and M.P.A. programs and must request admission to the joint program. The Andrew Young School will permit a law student to begin the joint degree program only if he or she has completed 40 or fewer hours of coursework. The College of Law will allow M.P.A. students to begin the joint program only if they have completed 20 or fewer hours of coursework.

1. Online application.
2. Application fee of $50.
3. One official copy of transcript from each post-secondary institution attended.
4. Official scores on the GRE or official LSAT* scores.
5. Three letters of recommendation submitted online.
6. Professional goals statement submitted online.

Some required materials, including transcripts and test scores, may be obtained from the applicant’s College of Law application file. The applicant is responsible for requesting materials be sent to the Office of Academic Assistance from the College of Law. Applicants who have not completed their application to the College of Law at the time they apply to the M.P.A. program must submit all required materials directly to the Andrew Young School. To apply to the Georgia State University College of Law, go
*LSAT scores are only used for admission to the M.P.A. program if the applicant is also admitted to the College of Law. If the student is not admitted to the College of Law and still wishes to be considered for the M.P.A program, he/she will need to submit GRE scores.

Master of Public Policy

1. Online application.
2. Application fee of $50.
3. One official copy of transcript from each post-secondary institution attended.
4. Official scores on the GRE.
5. Three letters of recommendation submitted online.
6. Professional goals statement submitted online.

Master of Social Work

1. Online Application.
2. Application fee of $50.
3. One official copy of transcript from each post-secondary institution attended.
4. Official scores on the GRE.
5. Statement of Purpose submitted online.
6. Three letters of recommendation submitted online.

Doctor of Philosophy in Criminal Justice and Criminology

1. Online application.
2. Application fee of $50.
3. One official copy of transcript from each post-secondary institution attended.
4. Official scores on the GRE.
5. Writing sample submitted online.
6. Three letters of recommendation submitted online.
7. Statement of professional and academic goals submitted online.

Doctor of Philosophy in Economics

1. Online application form.
2. Application fee of $50.
3. One official copy of transcript from each post-secondary institution attended.
4. Official scores on the GRE.
5. Three letters of recommendation submitted online.

Doctor of Philosophy in Public Policy

1. Online application form.
2. Application fee of $50.
3. One official copy of transcript from each post-secondary institution attended.
4. Official scores on the GRE.
5. Three letters of recommendation submitted online.

Nondegree Status

1. Online application.
2. Application fee of $50.
3. One official copy of transcript from each post-secondary institution attended.
4. Official scores on the GRE.
5. Statement of purpose with list of courses applicant wishes to take in the Andrew Young School submitted online.

Transient Status

Refer to the “Transient Student” heading below for detailed information on this status.

1. Online application.
2. Application fee of $50.
3. Letter/Certification of Good Standing from the applicant’s home institution.
4. List of courses applicant wishes to take in the Andrew Young School submitted online.

International Applicants are required to submit:

1. Official score on the TOEFL or IELTS unless applicant has received a degree from a regionally accredited U.S. institution.
2. Georgia State University International Applicant Immigration Form for issuance of student visa.

2020.50 General Admissions Criteria

The Graduate Admissions Committee determines the eligibility of each person who applies for graduate-level admission. Admission decisions are competitive. Each applicant is evaluated individually and among the current group of candidates. In this evaluation, consideration is given to the applicant’s academic record, scores on the entrance test(s), educational background, educational objectives, narrative information, work experience, professional activities, and character. These elements together must indicate a favorable prospect of success in graduate study for an offer of admission to be made. In making the decision, the committee must consider at all times the optimum number of students in the program. This could result in the denial or deferral of otherwise qualified applicants. Please see the GSU General Admissions statement in section 1100 of the Graduate Catalog.

A bachelor’s degree in any field of study from a regionally accredited college or university is required for admission to all of the degree programs. Only coursework from institutions with accreditation equivalent to that granted by the Commission on Colleges of the Southern Association of Colleges and Schools is considered in evaluating an applicant for admission.
In reviewing the past academic work of applicants, the Graduate Admissions Committee evaluates both the overall undergraduate GPA and the junior/senior GPA, taking into consideration the institution(s) attended and program of study completed. In evaluating scores on the GRE, the committee looks for a balance between verbal, quantitative and analytical writing scores in addition to considering the total score, because all of the graduate programs require strong communication skills and quantitative ability.

In cases where the applicant has done additional accredited undergraduate work beyond the bachelor's degree or has done accredited graduate work, a “most recent two-year GPA” will be calculated. This is defined as the most recent ninety quarter hours or sixty semester hours of coursework (to the nearest whole term). If this GPA shows more academic promise than the overall GPA, it will be given more weight in the admission consideration.

Applicants are not required to submit a general certification of their state of health but are required to submit proof of immunization in accordance with the immunization requirements at Georgia State University.

At the discretion of the Graduate Admissions Committee, some applicants may be admitted to provisional status in the M.A. or M.S. programs. Relevant work experience, recommendation letters, and the applicant’s statement of professional objectives will weigh heavily in these admission decisions. A student who is admitted in such status must earn a grade of “B” or better in each of the courses specified by the Graduate Admissions Committee, and/or complete other requirements specified by the Graduate Admissions Committee, in order to be admitted to full status. Students who are admitted in provisional status will receive an outline of these requirements as part of their admission decision letter.

Admission decisions are communicated in writing to applicants as soon as practical after all application materials have been received and evaluated. Admission decisions cannot be given by telephone, nor can they be given to any person other than the applicant without written release from the applicant to do so.

2020.55 Detailed Requirements for the School of Social Work

Requirements include the following:

1. Possess a bachelor’s degree from a college or university accredited by a regional agency recognized by the Commission on Recognition of Postsecondary Education.
2. Have earned an overall grade point average of at least 3.0 on a 4.0 scale for all undergraduate course work attempted OR have earned a grade point average of at least 3.25 on a 4.0 scale for the equivalent of the last 60 semester hours of undergraduate course work.
3. Complete a liberal arts perspective which generally should include two courses in humanities, 12 semester hours in the social sciences, one course with human biology content, two courses in English composition, and college algebra or higher-level math. In addition, students must have one course in statistics and a second in research methods.

Advanced Standing Social Work Program

Admission to the Advanced Standing Program will be available to students who meet all of the above admission requirements and who also:
1. Possess a bachelor’s degree in social work from a program accredited by the Council on Social Work Education. The bachelor’s degree must have been earned within five years of the time applying to Georgia State University’s Master of Social Work program.
2. Have earned an overall grade point average of at least a 3.25 on a 4.0 scale, with no less than a grade of B in any graded field education course or at least the equivalent of “satisfactory” in an ungraded field education course.
3. Have earned a grade of C or better in the following courses: Human Behavior and the Social Environment, Research Methods, Social Welfare Policy, and Social Work Practice.

Transfer Admission for the School of Social Work

Students who have successfully completed one full academic year of M.S.W. course work and at least 400 clock hours of field placement in a program accredited by the Council on Social Work Education are eligible to apply to the Advanced Standing program. All other transfer requests can be made on a case-by-case basis, not to exceed 6.0 hours of approved transfer credit. Students wishing to transfer are advised to contact the Director of Student and Community Services.

2020.60 Master’s-Level Nondegree and Postgraduate Status Transient Students

The master’s-level nondegree and postgraduate classifications are provided by the Andrew Young School of Policy Studies in recognition of the fact that education is a lifelong process and that people may wish to enroll in one or more graduate courses at various times for personal or professional reasons without completing an entire degree program.

Neither nondegree status nor postgraduate status in the Andrew Young School of Policy Studies is provided for students who intend to qualify for any degree, certification or other status in another college of Georgia State University. Students with this goal must, at the first opportunity, contact the appropriate graduate admissions office for procedures and criteria for establishing graduate status in that college.

Definition of Nondegree Status: Nondegree students are those who have followed the same admissions procedures and met the same admissions deadlines and criteria as applicants to the various master’s programs, but do not wish to pursue a graduate degree. These students are admitted to enroll in graduate courses of their choice in the Andrew Young School of Policy Studies. They may enroll for credit or for audit. International students will not be admitted in nondegree status.

Note: The School of Social Work does not accept graduate students in the nondegree category.

Definition of Postgraduate Status: Postgraduate students are those who have received a graduate degree from the Andrew Young School of Policy Studies and wish to reenter to take additional graduate courses in this school, but do not wish to pursue another graduate degree. They may also enroll for credit or for audit. Students seeking postgraduate status must submit an application seeking nondegree status and submit all required materials for nondegree status.

Responsibilities/Continued Enrollment: Nondegree and postgraduate students are responsible for meeting all academic regulations of the school and the university, including the requirements for maintaining good academic standing. It is therefore important that those students be familiar with the
provisions of the Graduate Catalog in effect at the time of their enrollment in either status. Students may continue to enroll in nondegree or postgraduate status for two consecutive semesters as long as at least a 3.00 GPA is maintained. No more than six hours of coursework taken in nondegree or postgraduate status, however, may be subsequently applied toward a graduate degree of this school.

Nondegree and postgraduate students must follow proper registration procedures each semester they wish to enroll; these classifications do not waive the responsibility to register correctly and on a timely basis. All prerequisites to any course taken must be met. These classifications are not intended as a means to circumvent proper course sequencing.

**Changing from Nondegree or Postgraduate Status to Degree Status:** Students who wish to change to degree seeking status must file an application for the program desired and all supporting documents by the appropriate deadline for the semester for which admission is sought. Further information on application procedures for admission to degree programs in the Andrew Young School of Policy Studies may be obtained from the Office of Academic Assistance: aysps.gsu.edu/admissions/instructions/.

Any credit earned while in nondegree or postgraduate status must be no more than six years old at the time the student graduates if it is to be counted for credit toward the degree program to which the student is changing.

Grades from all attempts at all courses that are taken at the graduate level will become part of the student’s GPA. This means that the nondegree and postgraduate status are not intended as a means to make attempts at courses that are anticipated to be difficult with the intention of having only the final attempt count in the GPA for the degree program.

**2020.70 Transient Students**

Students enrolled in a graduate degree program at another accredited institution may take graduate courses in the school. A maximum of nine semester hours may be taken as a transient student unless approval for additional hours is requested from the student’s home institution. Transients who later enroll in an Andrew Young School of Policy Studies master’s level program may apply a maximum of six appropriate graduate credit hours earned in transient status toward the requirements for the AYSPS program.

To be admitted to transient status, applicants must complete:

1. Online application.
2. Application fee of $50.
3. A Letter/Certification of Good Standing completed by the home institution. After an appropriate official at the home institution has completed this form, it should be placed in an envelope, sealed with the official’s signature across the sealed portion of the envelope and returned to the applicant for mailing.
4. A list of courses applicant wishes to take in the Andrew Young School submitted online.

A transient student should come prepared with alternative courses approved by the home institution. Georgia State University does not guarantee that a transient student will be able to secure the courses desired. If, for example, courses are full when a transient student becomes eligible for registration, the
student will not be allowed to register in these classes. A transient student must meet all the prerequisites for Georgia State courses as defined by Georgia State University.

If a transcript is needed by the home institution, the student must order a transcript via the university website. The university does not automatically forward transcripts to the home institution.

A student who attends Georgia State University as a transient student normally will only be allowed to attend the semester in which acceptance was granted. A transient student who wishes to enroll for a subsequent semester must submit a new application.

The school reserves the right to request a new Certification of Good Standing before the expiration date and/or a transcript from the home institution. If this information is deemed necessary, the transient student will be notified.

Transient students who apply are cautioned that approval may not be granted by the OAA if the grade-point-average in the course(s) taken at Georgia State University is lower than 3.00, which is the minimum required to maintain good standing at the graduate level.

Deadlines for receipt of all materials required for admission as a transient student in each term are shown below:

- **Fall semester**: April 1
- **Spring semester**: October 1
- **Summer semester**: April 1

### 2020.80 International Students

It is the policy of Georgia State University to encourage the enrollment of students from other countries. The institution subscribes to the principles of international education and to the basic concept that only through education and understanding can mutual respect, appreciation, and tolerance of others be accomplished. The recognition of the values of cultural exchange is inherent in our philosophy of education and is predicated on an awareness of the need to foster better cooperation, friendship, and understanding among the peoples of the world. In this regard, we welcome international students to our campus, because we believe in a cultural exchange program that will be beneficial to our own student body, to the international students involved, and to metropolitan Atlanta.

**English Proficiency:** In addition to meeting the regular admission requirements, an international applicant whose native language is other than English must submit official scores on the Test of English as a Foreign Language (TOEFL) before admission can be considered. EXCEPTION: The TOEFL or IELTS is not required of international applicants who have received a post-secondary degree from an accredited U.S. institution.

Georgia State University also requires that all accepted international applicants demonstrate proficiency in English when they arrive on campus. This testing will be conducted during the international student orientation program that is held each semester before classes begin. Orientation is mandatory. Details can be found at isss.gsu.edu/future-students/next-steps-for-accepted-international-students/mandatory-orientation-program/.
An accepted international applicant whose test results indicate a lack of proficiency in English will be required to enroll in and satisfactorily complete English courses deemed appropriate as a result of evaluation by the Office of Applied Linguistics and English as a Second Language (ESL). Any English courses needed as a result of this evaluation become a formal part of the international student’s degree requirements and must be given first priority in registering for courses. Detailed information on the English proficiency requirements for graduate students in the Andrew Young School of Policy Studies is available from the Office of Academic Assistance.

**Academic Credentials:** Each applicant must present “official” credentials attesting to academic achievement as to level and performance. “Official” documents will vary from country to country, but should be original documents with authoritative signatures, seals, stamps, or other verifications. Whenever possible, these should be sent by the institution responsible for issuing such documents. In cases where it is impossible for an applicant to have these credentials sent from such institution(s), the applicant should forward a duly “notarized” or “attested to” copy. This certification should be done by the Academic Institution or a proper government official.

When the documents are in a language other than English, they must be accompanied by translations. These translations must be the original form and contain acceptable notarization as described above for a copy of the original documents. Translations should be made by the American Embassy, the home country Embassy, or an appropriate government official. As a general rule, documents translated by the Office of the American Friends of the Middle East (AFME) and the Institute of International Education (IIE) will be acceptable.

In some cases, the OAA may require that the applicant have his or her international educational credentials evaluated by an evaluation service. In such cases, the applicant will be notified to complete the credential evaluation application forms of Josef Silny & Associates, Inc. or ECE (Educational Credential Evaluators, Inc.), whose services the university frequently uses. There is an additional fee charged by these companies for this evaluation. Applicants with questions regarding credential evaluation or the service used should contact the OAA.

Course descriptions (syllabi) and any other information submitted in an attempt to qualify for exemption from course requirements must meet the same criteria for “official” documents as described above. These documents must be received directly from the institution and have a cover letter written on the institution’s letterhead mentioning the student’s name and certifying that the outline is comparable to the way the course was taught when the student took the course.

**Financial Resources:** Georgia State encourages the enrollment of students from other countries. International applicants who are admitted to Georgia State University must provide federally required financial documentation showing they have enough funding to attend the University. Only after the financial information is approved will an I-20 document be issued. Forms for providing this information may be obtained online at isss.gsu.edu/current-students/f-1-status/. Questions about the requirement may be directed to International Student and Scholar Services (252 Sparks Hall, 404-413-2070).

International applicants should be aware that the minimum financial resources requirement for a certificate of eligibility is based on an extremely modest budget and standard of living and does not include the cost of owning a car. Tuition expenses are based on the minimum enrollment required for a graduate international student, which are three courses (nine hours) per semester for two semesters a year. (For these purposes,
students who plan to attend in summer must plan for additional tuition and books.

Financial aid from the university is not available for international students. International students may be considered for graduate assistantships and waivers of nonresident fees, but the stipends associated with assistantships and tuition reduction associated with the waivers may not be counted toward the minimum financial resources required for issuance of the certificate of eligibility.

It is extremely unwise for students who receive assistantships or nonresident fee waivers not to continue to include full nonresident tuition in their budgets. No guarantee can be made that either award will continue to be available from semester to semester.

Full-time Course Load: The international student with a student visa is required to carry a full course of study for fall and spring terms; summer is an optional vacation semester. Students who choose to enroll during the summer semester must meet the minimum course load required for an assistantship or a nonresident fee waiver if either is received during that semester.

A full course of study at Georgia State is nine semester hours for graduate students.

2020.90 Waivers of Nonresident Tuition

The Andrew Young School of Policy Studies has a limited number of out-of-state tuition waivers available for accepted applicants and students in the college. Most of these waivers are awarded at the time the applicant is accepted to the graduate program. These waivers are provided by the Board of Regents of the University System of Georgia and are limited to full-time students. Awarding of waivers is competitive and based on academic merit.

Because these waivers are not guaranteed, international applicants cannot exclude nonresident tuition from the financial resources they are required to document as part of the admissions process. Current students in the college who did not receive a waiver as part of the admissions process may complete an application obtained from the Office of Academic Assistance. New applications are required each semester unless otherwise specified.

2020.95 Graduate Research and Teaching Assistantships

Graduate students in the Andrew Young School of Policy Studies are eligible for Graduate Research Assistantships (GRAs). Doctoral students in the school may also be eligible for Graduate Teaching Assistantships (GTAs).

Master’s Students

Students interested in graduate assistantships can find the application form online at //aysps.gsu.edu/student-resources/oaa/graduate-research-assistantship-information/. Assistantships are decided by the academic department. Notification of an award will be sent directly from the department or unit awarding the assistantship.
Doctoral Students

Doctoral students in the Andrew Young School of Policy Studies are automatically eligible for Graduate Research Assistantships (GRAs) and Graduate Teaching Assistantships (GTAs) and are automatically considered during the admissions process. All students who receive an assistantship stipend also receive a tuition waiver. For first-year students, the average award for the past two years has been approximately an $18,000 stipend plus a tuition waiver.

Almost all doctoral students requesting it receive some type of financial assistance. After admission to the doctoral programs, students who are seeking a GRA or GTA will be informed in writing of the type and number of appointments, if any, which they have been awarded.

Second-year students and beyond are also eligible for research and teaching assistantships, and the program has a history of continuing to fund students who are demonstrating progress in the program at a level of support equal to or greater than what they received during the first year.

Students hired as graduate research assistants work with faculty members in the Andrew Young School of Policy Studies on research projects in their area of interest. (Students in the joint Ph.D. in Public Policy may also work with faculty in the School of Public Policy at Georgia Tech.) The partnerships between the Andrew Young School of Policy Studies, its research centers and a number of nonpartisan, nonprofit research organizations give students working as GRAs the opportunity to perform research which can have immediate application to problems of city, county, state, and federal policy-makers. Additionally, a number of GRAs have been involved in international policy projects, most recently on tax reform in Russia and environmental issues in South America.

2030 Graduate Enrollment

2030.10 Students’ Responsibility

Graduate students must assume full responsibility for knowledge of the rules and regulations of the school and the university, and of departmental requirements concerning their individual programs. Enrollment in a graduate program of this school constitutes students’ acknowledgment that they are obligated to comply with all academic and administrative regulations and degree requirements. Students are encouraged to read carefully the regulations that follow.

2030.15 Time Limit for Completion of Degree/Graduate Certificates

Before deciding to enroll in a graduate program at this school, students must examine seriously and realistically their abilities to adjust their personal and professional schedules to accommodate the challenge of graduate study. The maximum time limits set by the faculty for completing a graduate degree program are: six years from the first semester of admission for the master’s programs; three years from the first semester of admission for the certificate programs and seven years from the first semester of admission for the doctoral programs. Students or applicants with questions about the commitment needed to complete the graduate programs should schedule an appointment with the school’s Office of Academic Assistance.
2030.20 Changing Semester of Entry/Application

Admission to a graduate program is for the specific semester stated in the acceptance letter. An admitted applicant who does not enroll for the semester for which acceptance was granted must reapply each semester of desired entry.

Applicants who are denied admission to a graduate program and wish to be reconsidered must reapply to the desired program of entry by the applicable deadline.

2030.25 Changing Programs/Status Master’s-Level

A master’s student who wishes to change programs or status must submit an online application and required supplemental materials for consideration to the desired program by the application deadline for the desired term of entry. Application materials already on file may be used to complete the application process. For further details, students may contact the Office of Academic Assistance.

2030.30 Catalog Editions

Normally, students will be permitted to graduate under the provisions of the graduate catalog in effect at the time of first enrollment. Students may choose to graduate under the provisions of a subsequent graduate catalog; that is, they may choose to change their “catalog edition.” Students who choose to do this must meet all provisions of the subsequent graduate catalog.

Students are required to change to the current catalog edition when they change programs/statuses or after certain absences from the program, as explained below. (See also the preceding heading “Changing Programs/Status.”)

2030.35 Noncontinuous Enrollment and Requests to Reenter

Students who have not attended Georgia State University within one calendar year are required to complete an online Reentry Application form obtained from the Office of Academic Assistance website: aysps.wufoo.com/forms/ays-graduate-reentry-application-form/.

Students who do not attend the semester for which reentry was originally required must complete a new reentry form for subsequent semesters.

All students who wish to reenter one of the graduate level programs or nondegree status after an absence of one year must meet the degree requirements and academic regulations of the graduate catalog current upon return, along with other reentry provisions as may be in effect.

Reentering students who have earned a minimum of 18 hours of appropriate credit at Georgia State University with a minimum GPA of 3.00 will be eligible for reentry without being required to meet current admissions criteria.

“Appropriate credit” means assigned preparatory courses and/or other courses that are applicable to the student’s current program.
Students who have not earned at least 18 hours of appropriate credit at Georgia State University with a minimum GPA of at least 3.00 must reapply and meet current admissions criteria. The provision to meet current admissions criteria includes submission of current scores on the Graduate Record Examination if the latest score on file will be more than five years old at the time of reentry.

All students who are approved to re-enroll will be eligible to retain all Georgia State credit (and already approved transfer credit, if any) earned previously if their program can be completed within the time limit that was applicable to their program before the absence. The cumulative graduate GPA calculations will include all attempts in all graduate courses at Georgia State. Current time limits would apply.

Students who plan not to register for a particular semester but who intend to continue the program at some later semester should discuss such plans with an academic advisor in order to facilitate reentry at a subsequent time. Failure to comply with this request may complicate reentry in the semester preferred. An absence from the program, whether planned or unplanned, does not exempt students from the requirement to complete the program within the appropriate time limit.

2030.40 Course Load

The course load of a master’s student may vary with the circumstances of the program and individual student each semester. A graduate student is considered full time if enrolled in nine semester hours; enrollment in less than nine hours is considered part-time status. For the M.S. Criminal Justice, the M.A. Economics, the M.P.P. and the M.P.A., enrolling in more than 9 hours is not recommended and students should seek advisement with the Office of Academic Assistance prior to registration unless employed as a GRA with the university. For the M.S.W. program, full time students typically enroll in up to 12 hours. A full course of study for graduate students at Georgia State University is nine semester hours.

In determining each semester’s course load, a student must balance other time constraints (work, family, civic, and other responsibilities) with the need to make reasonable and timely progress toward completion of the program. The maximum time limits set by the faculty for completion of a degree program are: three years for certificate programs; six years from the first semester of admission for the master’s programs; seven years from the first semester of admission for the doctoral programs.

2030.45 Enrollment in Approved Courses

Students must enroll for courses that are part of the approved curriculum for the program to which they have been accepted. Students who do otherwise are subject to loss of credit and/or loss of eligibility to continue to register. For students to follow the program of study for an AYSPS degree, they must qualify for admission to the AYSPS program.

2030.50 Computer Use Policy

Each student enrolled at Georgia State University must have access to a computer, and any course offered at the University may require computer-based work. Further, the student’s computer must provide access to e-mail accounts, and the internet using a current browser, and spreadsheet and word processing software. Departments and other units may establish minimum machine capability and software requirements, including the requirement that a student in a certain degree program must own a computer.
It is the responsibility of each student to ensure his or her access to a computer. Computers are available in the open-access computer laboratories on campus that provide the basic level of computer capabilities, but these laboratories are heavily used and cannot guarantee a student access to a computer at a particular time.

Courses in the Andrew Young School of Policy Studies frequently incorporate assignments that require computing skills, and at the graduate level, for some courses, it is essential that the student have computer skills. Courses requiring special skills are listed in this catalog. Overall, the Department of Public Management and Policy requires students to have access to Microsoft Office (including Word, Excel, and PowerPoint).

Students who believe they lack either basic or advanced computing skills are expected to acquire this knowledge through whatever means they deem most appropriate before they enter a course.

There are several computer labs on campus available for students with varying hours including some locations that are open 24 hours a day.

**2030.55 Separate Graduate and Undergraduate Programs**

Except for the circumstances described in the regulation below titled “Policy on Allowing Undergraduates to Take Graduate Courses,” the graduate and undergraduate programs of the school are entirely separate and only those persons who have been admitted to a graduate program may enroll in courses numbered 6000 or higher. No undergraduate course credit, including that obtained in required background work for a graduate degree, may be applied toward any of the graduate-level programs.

**2030.60 Policy on Independent Studies/Directed Readings at the Master’s Level**

Enrollment in independent study/directed readings is limited to graduate students with a grade-point average of 3.50 or higher. A student may not take more than one independent study or independent readings course to count toward fulfillment of degree requirements. An independent studies/directed readings course may not be substituted for a core course requirement. Faculty will assign letter grades, rather than “S” or “U,” for all independent studies and directed readings. A faculty member may seek the assessment of a second faculty reader on any independent study paper. This choice is wholly at the discretion of the faculty member who is principally responsible for supervising the independent work.

Students interested in enrolling in independent studies/directed readings should contact the Office of Academic Assistance three weeks in advance of registration for the semester they wish to take the course. A form for directed reading must be completed by the student and processed with all the appropriate approval signatures to be considered for authorization to register for an independent studies/directed readings course.

**2030.65 Policy on Transfer Credit at the Master’s Level**

Transfer of credit will be approved under the following conditions. The course, if completed at an institution in the United States, must have been completed at an institution recognized by a regional accrediting body as degree granting for higher education at the time the course was taken.
• The course must have been restricted to graduate students only.
• A grade of B or higher must have been received in the course.
• The content of the course must correspond to that of a Georgia State University course required or permitted in the student’s program.
• Degree credit completed before enrollment in the current Georgia State program will be considered if it will not be more than six years old at the time the student graduates.
• Credit completed elsewhere after enrollment in the current Georgia State program will be considered for transfer credit if it is within the time limit allowed for completion of the current program.
• Transfer credit will be limited to a maximum of 6 semester hours.

A request for transfer credit form must be completed. The request must indicate the specific course(s) for which transfer credit is sought. A copy of the other institution’s catalog must be submitted to verify that the course was limited to graduate students only. The Office of Academic Assistance must have an official transcript on file showing course completion for the course being requested. Requests for transfer of graduate credit cannot be processed until all necessary information has been received.

Transfer credit will not be considered for master’s students admitted in special status or provisional status until the student has completed the special coursework requirements and has been admitted to full status in the master’s programs. Once the student has completed these requirements, he or she may follow the procedures outlined above to request transfer credit.

2030.70 Out-of-Residence Credit and Graduation

Students who wish to take graduate courses at another institution to complete the coursework for their Georgia State degree should provide the information listed above (except the transcript) to the Office of Academic Assistance before enrolling at the other institution. Advance approval will ensure that the transfer credit can be granted if a “B” or higher is earned in the course(s) and the coursework is completed within the time limit allowed for the student’s degree program. Such students should plan to graduate at least one semester after the quarter/semester in which the last course to be transferred has been taken. This will allow adequate time for the necessary transcript to be received and for the transfer credit to be processed. Please refer to the graduation office website for complete instructions and information concerning applying for graduation and the graduation fee: registrar.gsu.edu/graduation/. A letter certifying completion of degree requirements and stating the date the degree will be conferred can be furnished to the student by the Office of Academic Assistance.

2030.75 Grade Requirements for Graduation

A cumulative GPA of 3.00 or higher is required for graduation in all attempts of graduate courses taken while a student at Georgia State University. No grade of C- or below is acceptable. No course in which a grade of B or higher has been earned may be repeated for degree credit.

For a master’s student, no more than three credit hours of coursework with a grade of C or C+ may be counted toward the degree. For a doctoral student, no more than six credit hours of coursework with a grade of C or C+ may be counted toward the degree. A grade of C- or below will not count towards degree requirements. Students can repeat a course one time. When a course is repeated, both grades count in the
student’s cumulative grade point average.

2030.80 Multiple Master’s Degrees

A student may participate in a particular master’s degree program only once. However, a student who holds a master’s degree of this school may qualify for a different master’s degree of this school. To so qualify, he or she must meet all admission requirements in effect for the second degree and thereafter fulfill all requirements for the second master’s degree. Along with all other requirements, the student must meet the 24-hour minimum residence requirements for the second degree with appropriate grades and coursework that has not been applied in satisfaction of the requirements of any other degree.

2030.85 Standards of Performance

The dean or associate dean of the school may require that a student withdraw from a particular course or courses, from a graduate program, or from the school because of unsatisfactory academic work or for any other adequate reason. To continue in a graduate program, a student must make reasonable and timely progress in terms of grades, courses, and other requirements toward the degree concerned.

The student’s progress may be reviewed each semester. As a result of this review, any student whose scholastic performance does not indicate appropriate progress may be required to reduce the course load or may be required to withdraw from the program.

2030.90 Scholastic Discipline: Master’s Programs and Status

Each student admitted to a graduate program, as a nondegree seeking student, or as a transient student of the school must maintain a cumulative grade-point average (GPA) in the program of 3.00 or higher in all attempts at all courses numbered 6000 and higher. (This means that the original grade in a course that is repeated is not dropped from the cumulative GPA for purposes of determining good academic standing.) Also included in this GPA are all graduate level courses at the university in addition to those in another degree program. Therefore, a student who wishes to take a course for personal enrichment or for other purposes not related to the pursuit of the graduate degree should audit the course.

The GPA calculation on the university transcript includes all attempts of all graduate courses taken at Georgia State University. This means that for a student who has previously taken graduate courses, the cumulative GPA may differ from the GPA for the current program. To graduate, a student must have a cumulative GPA in all graduate courses completed at Georgia State University of 3.0 or higher.

Questions about the calculation of the GPA for determining academic standing should be directed to the Office of Academic Assistance. Any student with unusual circumstances (such as credit lost due to the time limit for completing a program) must contact the Office of Academic Assistance for further information. The interpretation of the school’s scholastic discipline policy as it applies to unusual situations is the responsibility of the dean of the school as represented by the Office of Academic Assistance.

2030.95 Scholastic Warning, Exclusion and Termination (Master’s-Level)

A master's student in the school whose cumulative grade point average falls below 3.00 at the end of a
semester will be placed on “scholastic warning.” After being placed on scholastic warning, a student must
attain a 3.00 cumulative grade point average within two consecutive semesters of enrollment; otherwise, the
student will be terminated from the master’s program.

Students who are admitted to provisional status in a master’s program who fail to meet the special
admission requirements for the program as outlined in their admission decision letter will be permanently
excluded from that program.

Doctoral students should refer to the “Scholastic Warning and Termination” heading in the “Doctoral
Programs” section of this chapter.

**2040 Student Appeals Procedures**

The appeals procedure for graduate students in the Andrew Young School of Policy Studies will follow
different courses, depending on the nature of the student’s appeal. The various types of situations and the
appropriate appeals avenues are as follows:

**2040.10 Admissions Appeals**

At the graduate level, a person who wishes to appeal an admission decision first discusses the matter with
the Office of Academic Assistance. If the question is not settled there, a written appeal must be submitted
to the director of academic assistance within 10 working days of the date of the denial. (Workdays are
counted as Monday through Friday except university holidays.) The director will present the appeal to the
Graduate Admissions Committee, which will examine the facts presented. The director, on behalf of the
committee, will make a recommendation to the associate dean for academic programs. The associate dean
will render a written decision to the applicant normally within 10 workdays of the date the applicant’s letter
was received by the director of academic assistance. See Section 1100 of the Graduate Catalog for
University level appeals of admission decisions.

**2040.20 Student Complaints, Petitions for Policy Waivers and Variances, and Appeals**

The appeals procedure for students will follow different courses depending on the nature of the student’s
appeal. Please refer to University Information Section 1050.80 under Polices and Disclosures in this catalog
or visit enrollment.gsu.edu/assistance/ online for details.

**2040.30 Appeal of Exclusions and Terminations**

Terminated or excluded graduate students with questions about their status should first discuss their
situation with an advisor in the Office of Academic Assistance. Following this discussion, students who
believe they have extenuating circumstances may submit a written appeal of their termination or exclusion
to the director of the Office of Academic Assistance. The director will review the information submitted in
support of the appeal and the student’s total record. The director will then make a recommendation to the
associate dean for academic programs, who will make the decision regarding acceptance or denial of the
appeal. The student will receive a written response from the school normally within 10 workdays of the date
the appeal is received. (Workdays are counted as Monday through Friday except university holidays.)
Having been enrolled in too many courses relative to job requirements or other responsibilities, or having continued to enroll while experiencing personal, work, or health-related problems very rarely constitutes such extenuating circumstances.

Requests for such consideration must be submitted, in writing, to the director of academic assistance within 10 workdays (defined as Monday through Friday except university holidays). Students should write their appeals completely, but concisely, and include all facts germane to their case. Documentation should be provided, where possible, to substantiate statements made. Specific dates of the beginning and ending of particular problems should be included. Only circumstances described in the written and signed appeal as initially submitted will be accepted from the student; oral appeals are not permitted, nor are requests to submit additional information after the appeal has been reviewed. Appeals must be dated, signed, and include the student’s home address and telephone numbers (work and home).

Petitions

A master’s student requesting course substitution within the M.P.A., M.P.P., or PMAP Graduate Certificate programs may complete a petition form. This form is available online at aysps.gsu.edu/student-resources/oaa/student-forms/.

A master’s student within the M.S. Criminal Justice or M.A. Economics programs must submit an updated and approved Program of Study form for any changes to their curriculum.

M.S.W. students wishing to substitute a Social Work elective must submit a petition. This form is available online at aysps.gsu.edu/student-resources/oaa/student-forms/.

A doctoral student who believes that unusual circumstances invalidate any of the regulations or requirements relating to the degree may write a petition letter to the doctoral coordinator for exemption or change in the policy. If the doctoral coordinator supports the request, a letter of support will be submitted to the director of the Office of Academic Assistance for a decision after consultation with the associate dean.

2050 Master’s Programs

2050.10 Master of Science in Criminal Justice

The Master of Science (M.S.) degree in criminal justice represents a broad range of study designed to meet the academic needs of students seeking further graduate education, pre-professional students, and those already employed in the wide range of agencies that make up the criminal justice and juvenile justice systems.

In each degree program, the focus of study includes the justice system as well as the nature, causes, and control of criminal behavior. The requirements of degree programs in this department stress an integrated view of the criminal justice system. In this view, all components of the system interrelate with all other components to provide coordinated justice administration. The curriculum is designed to give students an understanding of the developing theoretical knowledge base in this area of study, while simultaneously providing an understanding of how each of the component parts relates in forming the justice system, and how offenders and victims fit within it.
In addition, students learn how the justice system influences, and is influenced by other institutions in society. An adequately functioning criminal justice system participates in appropriate structuring of legislation, providing information and education within the system and to the public, crime prevention, psychological counseling, and prisoner rehabilitation. Also included among its many roles is work with juveniles, quantitative and qualitative scholarly research, guidance to probationers and parolees, assistance to citizen groups and crime victims, and many other tasks.

Students’ learning in the classroom is enhanced as members of the faculty bring forth a myriad of expertise in criminal justice and criminology. Currently, faculty research topics include but are not limited to: sex differences in criminality and criminal justice processing; specialty courts; community policing; public defense systems; domestic violence; elder abuse; sexual harassment; comparative criminal justice; drugs and crime; homicide co-victimization; legal issues in policing; evaluation research; community differences in the nature of crime; place-based criminology; private security; electronic monitoring; informal social control; domestic terrorism; homeland security; healthcare fraud; mental health; organizational misconduct; juvenile delinquency and youth violence; criminological theory; active offender decision-making; drug markets and urban violence; crime victimization; and community corrections. Faculty members conduct research drawing on their expertise in a variety of quantitative and qualitative research methods, thus allowing them to bring not only their topical expertise, but also their methodological experience into the learning environment.

Mission

The mission of the Department of Criminal Justice and Criminology is to generate and disseminate knowledge and information that is theoretically driven and policy relevant for the fields of criminal justice and criminology. This is accomplished by engaging in research and scholarly activities to address issues of crime and justice affecting diverse populations in urban settings; producing students who are critical and ethical thinkers, knowledgeable about the issues of crime and justice, and prepared for leadership positions in the public and private sector that address crime and justice problems; and collaborating with communities, including public and private agencies through education, training, and research ventures that enhance our understanding of, and response to, issues associated with crime and the administration of justice. Through these activities, the Department promotes excellence in teaching, scholarship, and service that enhances the criminal justice profession and benefits the community at large.

Program Objectives

At the time of graduation, students who successfully complete the master's degree program will be able to:

1. Demonstrate a working understanding of the theoretical knowledge base in criminal justice and criminology.
2. Critically analyze crime and justice issues and/or information utilizing theoretical, methodological, and statistical skills
3. Apply learned terminology and theory to real-world situations that both relate to and expand outside the fields of criminology and criminal justice.
4. Communicate effectively, in oral and written form, their understanding and analyses of crime and justice issues as they apply their knowledge to real-world problems and questions.
5. Apply acquired research and statistical skill bases to evaluate the quality of scholarly products and their contribution to the fields of criminology and criminal justice.
6. Discuss an integrated view of crime and criminal justice systems and processes and how the components interact and intersect to provide coordinated justice administration.

Program Academic Regulations

Students in the M.S. program must maintain a minimum cumulative grade point average of 3.0 to remain in good standing and to graduate. It is expected that all required courses in criminal justice will be completed with a grade of B- or above.

A grade lower than a grade of B- in more than one required course will prohibit registration for thesis credits until one of these required courses has been completed with a grade of B- or higher. Students may not register for thesis credit unless all other required courses have been completed successfully.

For a master’s student, no more than three semester hours of coursework with a grade of C or C+ may be counted toward the degree. A grade of C- or below will not be counted toward the degree. Only in a course in which a grade of C or lower is earned may a student repeat the course and only one such course may be repeated, one time. When a course is repeated both grades count in the student’s cumulative grade point average. Please refer to section 2030.75 “Graduate Requirements for Graduation,” in the Andrew Young School of Policy Studies’ section of the Graduate Catalog.

Degree Requirements for the Master of Science in Criminal Justice Program

The master’s degree program in criminal justice (M.S. program) requires completion of 36 credit hours based on the approved Program of Study plan, of which 15 credit hours are required courses, 15-18 credit hours are elective courses, and 3-6 credit hours comprise the capstone experience. Semester hours are shown in parentheses after each entry. See the section “Program of Study for the M.S. Degree” further below for details about completing your Program of Study plan.

1. Required Courses (15):
   - CRJU 7010 Crime and the Criminal Justice System (3)
   - CRJU 8050 Criminological Theory (3)
   - CRJU 8610 Research Methods in Criminal Justice (3)
   - CRJU 8620 Statistics in Criminal Justice (3)
   - CRJU 8710 Legal Aspects of Criminal Justice (3)

2. Elective Courses (15-18):
   - CRJU 6040 Comparative Criminal Justice Systems (3)
   - CRJU 6060 Ethics in Criminal Justice (3)
   - CRJU 6070 Family Violence and Criminal Justice (3)
   - CRJU 6230 Prevention and Correctional Strategies for Juvenile Offenders (3)
   - CRJU 6920 Community Policing (3)
   - CRJU 6940 Internship in Criminal Justice (3)
   - CRJU 6960 Domestic Terrorism (3)
   - CRJU 7510 Organization and Management Theory in Criminal Justice (3)
   - CRJU 7630 Applied Regression Analysis for Criminal Justice (3)
   - CRJU 7730 Workplace Law for Criminal Justice Managers (3)
   - CRJU 7920 Independent Study in Criminal Justice (3)
   - CRJU 8110 Law Enforcement Issues (3)
Required Courses

The required courses provide a strong background in criminological theory, legal issues, statistics, and research methods. Students take 15 credit hours in required courses.

Elective Courses

The elective courses provide concentrations and expertise in a variety of specialized areas. A student is required to complete 15 or 18 credit hours from the elective course offerings, depending upon whether he or she chooses to complete the thesis or nonthesis option of the capstone experience. The selection of elective courses will depend on the student’s needs in terms of academic and career goals, and must be made in consultation with and approved by the department’s Director of Graduate Studies through an approved Program of Study (described below). Students not in the Public Administration Track (described below) can take no more than six credit hours or two courses outside of regularly scheduled department courses. Students in the Public Administration Track are required to take 12 credit hours or four courses offered by the Department of Public Management and Policy.

Capstone Experience

The capstone experience functions as an integrative experience and provides students with a choice of activities designed to enhance their knowledge of criminal justice and the research process to prepare them for entry into a doctoral program or a professional career. All master’s students will be required to complete a capstone experience during the latter part of their degree program. All students will complete one of the following two options for their capstone experience:

A. Thesis Research (CRJU 8990). Thesis research includes individual study of a selected research problem in criminal justice or criminology under the direction of an approved thesis chair and thesis committee. A thesis track student must take 12 credit hours of elective courses and a minimum of six continuous hours of thesis credit. Students may not register for thesis credit unless all other required courses have been completed successfully. See “Program Academic Regulations” above for minimum grade requirements.

B. Capstone Seminar in Criminal Justice (CRJU 8980). The capstone seminar requires nonthesis students to complete written and oral critical analyses of scholarly literature, applying their core knowledge to real-world problems and questions within the fields of criminal justice and criminology. The seminar provides students with an integrative experience whereby theory, scholarly research, and practice are integrated to solve specific organizational challenges and policy
concerns involving crime and justice issues. A nonthesis track student must take 18 semester hours of elective coursework. Students choosing the nonthesis option will be required to enroll in the capstone seminar during the Spring semester (the course will not be offered during the Fall semester or Summer session). Students who have completed successfully at least 21 credit hours toward the degree, including all of the required courses, will be permitted to enroll in the capstone seminar.

Public Administration Area of Specialization (Track) in the M.S. Criminal Justice Degree Program

The M.S. degree program in Criminal Justice offers an area of specialization track to provide M.S. CJ students with an in-depth exposure to concepts and practices within public administration. The courses in the Public Administration (PA) track are offered by the Department of Public Management and Policy. The track includes 2 required courses and 2 elective courses selected from a set of options. Completion of the PA track will be shown on the M.S. CJ student’s transcripts. The 12 credit hours in the PA Track are subtracted from the 18 hours of elective courses in #2 above that describes the M.S. CJ curriculum. Thus, M.S. CJ students in the PA Track enroll in 12 hours of PMAP courses, and six hours of CJ elective courses.

1. Required Courses (6):
   - PMAP 8141 Microeconomics for Public Policy (3)
   - PMAP 8431 Leadership and Organizational Behavior (3)

2. Elective Courses (6) – select two of the following:
   - PMAP 8161 Public Budgeting and Finance (3)
   - PMAP 8171 Public Management Systems and Strategies (3)
   - PMAP 8210 Introduction to the Nonprofit Sector (3)
   - PMAP 8231 Nonprofit Leadership and Management (3)
   - PMAP 8271 Disaster Management (3)
   - PMAP 8411 Law for Public and Nonprofit Managers (3)
   - PMAP 8521 Evaluation Research: Design and Practice (3)
   - PMAP 8561 GIS Applications to Planning and Policy Analysis (3)

Students who choose to complete the PA track are automatically placed within the M.S. CJ nonthesis track, requiring the completion of the capstone seminar. The thesis option is not available for PA track students. It is the discretion of the Director of Graduate Studies to substitute other courses to meet the requirements of the PA track.

Program of Study for the M.S. Criminal Justice Degree

A program of study plan must be completed by the student in consultation with and approved by the department’s Director of Graduate Studies. The program of study plan lists the required and elective courses to be taken by the graduate student to meet the degree requirements of the master’s degree program. The student also must declare whether s/he will take the thesis or the nonthesis option. The program of study must be approved by the Director of Graduate Studies and submitted to the Office of Academic Assistance by the end of the first year or after eighteen (18) semester hours of coursework have been completed. The Program of Study form is available at: criminaljustice.gsu.edu/files/2014/08/CRJU-MS-Program-of-Study_1282013-2.pdf.
2050.20 Master of Arts in Economics

- **Important Note:** For information on the Master of Business Administration with a major in economics or the Master of Science with a major in business economics, refer to the “J. Mack Robinson College of Business” chapter of the graduate catalog.

The Master of Arts in Economics program is designed to meet the needs of students planning careers in local, state, and federal government and in the private sector. Emphasis is placed upon analytical skills; micro and macroeconomic theory and mathematical statistics are required. At the same time, the program is sufficiently broad to satisfy the needs of social science and economics teachers at the secondary and college level. An economics degree also combines well with training in other disciplines such as finance, real estate, political science, or history.

Economists study the ways a society distributes scarce resources such as land, labor, raw materials, and machinery to produce goods and services—choices that must be made because time, income, wealth, workers, and natural resources are limited. Economic principles are useful at all levels of decision-making and provide an essential framework for analyzing and understanding such issues as inflation, unemployment, deregulation of banking, tax reform, fluctuations in foreign exchange rates, labor productivity and foreign debt crises.

Economists use mathematical models to develop programs that predict, for example, the nature and length of business cycles, the effects of inflation on the economy, or the effects of tax legislation on unemployment levels. Being able to present these concepts in a meaningful way is particularly important for economists involved in making policy for their organizations. Most economists are concerned with the practical applications of economic policy in a particular area. They use their understanding of economic relationships to advise businesses and other organizations, including insurance companies, banks, securities firms, computer and data processing companies, management consulting firms, industry and trade associations, labor unions, and government agencies. Some economists work abroad for companies with international operations and for organizations like The World Bank and the United Nations.

Students may choose from a broad array of elective course areas including monetary economics, urban economics, public finance, economic development, international economics, labor economics, industrial organization, economic forecasting, economic history, and history of economic thought.

There are two programs of study leading to the Master of Arts in Economics degree—thesis option and nonthesis option. A student enrolling in either of these programs whose preparation is found to be deficient in basic economics, elementary statistics, or mathematics will be required to take additional undergraduate coursework without graduate credit.

Degree Requirements for the Master of Arts in Economics Program

**Prerequisite Courses**

The courses listed below are in addition to the 33 hours required for the degree and will normally have been completed in a previous undergraduate degree program. However, they may be assigned as part of the admissions process based on a review of each student’s transcript. Prerequisite courses can be exempted if...
equivalent coursework has been previously completed with grades of B or higher. (If a student received a grade lower than a B in a principles class, but subsequently received a grade of B or higher in an intermediate level class in the same subject, the requirement may also be exempted.)

- ECON 3900 Macroeconomics
- ECON 3910 Microeconomics

**Program of Study for the M.A. Economics Degree**
A program of study plan must be completed by the student in consultation with and approved by the department’s Faculty Program Director. The Program of Study plan lists the required and elective courses to be taken by the graduate student to meet the degree requirements of the master’s degree program. The student also must declare whether s/he will take the thesis or the nonthesis option. The Program of Study must be approved by the department’s Faculty Program Director and submitted to Office of Academic Assistance by the end of the first year or after eighteen (18) semester hours of coursework have been completed. The Program of Study form for the Thesis Track, Nonthesis Track, and Policy Track are available at: economics.gsu.edu/programs/graduate/master-of-arts/.

**Thesis Option**
To receive the M.A. Economics degree with the completion of a thesis paper, 33 hours of graduate coursework as approved by the Faculty Program Director through a signed Program of Study plan (described above) and a thesis must be completed.

1. **Required courses (9):**
   - ECON 8100 Applied Microeconomic Analysis
   - ECON 8110 Macroeconomic Analysis
   - Choose one of the following two courses: ECON 8740 Applied Statistics and Econometrics OR MATH 6751 Mathematical Statistics I

2. **Research skill requirement (3)** – select one of the following:
   - ECON 8840 Applied Statistics and Econometrics II
   - MATH 6752 Mathematical Statistics II
   - A course chosen in consultation with the Faculty Program Director

3. **Elective Fields (6)** – a minimum of two courses in one of the following areas must be completed:
   - Environmental, Urban, and Regional Economics (EURE)
   - Experimental Economics
   - International Economics
   - Labor Economics
   - Public Finance
   - Program Evaluation

The list of courses available for each of these fields is provided below. The list is not exhaustive as in many cases there may be several different courses that could satisfy the field requirement. Students should consult and obtain approval for the courses that will constitute their field from the Faculty Program Director as part of the Program of Study plan.

a. **EURE:**
   - ECON 8300 Urban Economics
b. Experimental Economics:
- ECON 8230 Experimental Economics
- Other related courses with approval from the Faculty Program Director

c. International Economics:
- ECON 8470 International Public Economics
- ECON 8600 Economics of Development
- ECON 8850 International Trade
- ECON 8860 Economics of Global Finance
- Other related courses with approval from the Faculty Program Director

d. Labor Economics:
- ECON 8220 Human Resources and Labor Markets
- ECON 8210 Health Economics and Policy
- ECON 8899 Causal Inference and Evidence Based Policy
- ECON 8310 Economics of Educational Policy
- Other related courses with approval from the Faculty Program Director

e. Public Finance:
- ECON 8080 Economics of the Public Sector
- ECON 8450 Issues in Public Programs and Tax Policy
- ECON 8460 Economics of the State and Local Public Sector
- ECON 8470 International Public Economics
- Other related courses with approval from the Faculty Program Director

f. Program Evaluation:
- ECON 8899 Causal Inference and Evidence Based Policy
- PMAP 8521 Evaluation Research
- ECON 8310 Economics of Educational Policy
- Other related courses with approval from the Faculty Program Director

4. Choose four economic courses chosen in consultation with the Faculty Program Director and approved on your Program of Study (12).

5. Thesis Paper (3):
   - ECON 8990 Thesis Research (3)

   Thesis – The thesis is directed by a three-member faculty committee and requires unanimous approval of this committee and the department’s Faculty Program Director. At the time the electronic version of the student’s thesis (ETD) is posted on the Georgia State University Library server, students must choose the availability option, “Release the entire work immediately for access worldwide,” unless they have received approval to restrict distribution from the AYSPS Associate Dean. A letter showing this approval, which will be granted only for a maximum of one year, must be on file in the Office of Academic Assistance prior to graduation.

Nonthesis Option

To receive the M.A. Economics degree with the completion of a nonthesis paper, 33 hours of graduate coursework as approved by the Faculty Program Director through an approved Program of Study plan (described above) and a nonthesis paper must be completed.
1. **Required courses (9):**
   - ECON 8100 Applied Microeconomic Analysis
   - ECON 8110 Macroeconomic Analysis
   - Choose one of the following two courses: ECON 8740 Applied Statistics and Econometrics
     OR MATH 6751 Mathematical Statistics I

2. **Research skill requirement (3) – select one of the following:**
   - ECON 8840 Applied Statistics and Econometrics II
   - MATH 6752 Mathematical Statistics II
   - A course chosen in consultation with the Faculty Program Director

3. **Elective Fields (6) – a minimum of two courses in one of the following areas must be completed:**
   - Environmental, Urban, and Regional Economics (EURE)
   - Experimental Economics
   - International Economics
   - Labor Economics
   - Public Finance
   - Program Evaluation

The list of courses available for each of these fields is provided below. The list is not exhaustive as in many cases there may be several different courses that could satisfy the field requirement. Students should consult and obtain approval for the courses that will constitute their field from the Faculty Program Director as part of the Program of Study plan.

a. **EURE :**
   - ECON 8300 Urban Economics
   - ECON 8320 Environmental & Natural Resource Economics and Theory
   - Other related courses with approval from the Faculty Program Director

b. **Experimental Economics:**
   - ECON 8230 Experimental Economics
   - Other related courses with approval from the Faculty Program Director

c. **International Economics:**
   - ECON 8470 International Public Economics
   - ECON 8600 Economics of Development
   - ECON 8850 International Trade
   - ECON 8860 Economics of Global Finance
   - Other related courses with approval from the Faculty Program Director

d. **Labor Economics:**
   - ECON 8220 Human Resources and Labor Markets
   - ECON 8210 Health Economics and Policy
   - ECON 8899 Causal Inference and Evidence Based Policy
   - ECON 8310 Economics of Educational Policy
   - Other related courses with approval from the Faculty Program Director

e. **Public Finance:**
   - ECON 8080 Economics of the Public Sector
   - ECON 8450 Issues in Public Programs and Tax Policy
   - ECON 8460 Economics of the State and Local Public Sector
   - ECON 8470 International Public Economics
   - Other related courses with approval from the Faculty Program Director
f. Program Evaluation:
   - ECON 8899 Causal Inference and Evidence Based Policy
   - PMAP 8521 Evaluation Research
   - ECON 8310 Economics of Educational Policy
   - Other related courses with approval from the Faculty Program Director

4. **Choose five economic courses chosen in consultation with the Faculty Program Director and approved on your Program of Study (15)**

5. **Nonthesis Paper**: A high-quality paper, approved by the student’s major professor and the department’s Faculty Program Director, demonstrating that the student has the ability to examine an economic problem at a level consistent with advanced graduate coursework.

**Dual Degree BS/BA in Economics and BA in IEML with MA in Economics**

The department offers a dual degree combining the BS/BA in Economics and BA in IEML with the MA in Economics. The dual degree opportunity enables qualified students to enroll in graduate courses late in their undergraduate program and apply the coursework toward both the bachelor’s and master’s programs.

Students must be formally accepted into the dual degree program by the department and by AYSPS to be able to take graduate courses as an undergraduate. Additionally, acceptance into the dual program does not constitute admission to the master’s program. Students must fulfill regular graduate admissions requirements and apply for the master’s program following college processes.

Information about the dual program, including application instructions and program requirements, can be found in the undergraduate catalog.

**2050.30 Master of Arts in Economics: Policy Track**

The Master of Arts in Economics Policy Track is intended to prepare professionals for careers in the formation and/or implementation of economic policy or for professionals in the evaluation and interpretation of such policy to a wider audience. This degree will expose the student to the fundamental issues in critical areas of economic policy and equip the student to understand and utilize economic data and analysis in evaluating the potential for economic policy to influence outcomes. This focus on policy is distinct from traditional master’s degree programs in economics that have an emphasis on “analytic skills, micro and macroeconomics theory and mathematical statistics.”

**Degree Requirements**

**Prerequisite Courses**: The courses listed below are in addition to the 36 hours required for the degree and will normally have been completed in a previous undergraduate degree program. However, they may be assigned as part of the admissions process based on a review of each student’s transcript. Prerequisite courses can be exempted if equivalent coursework has been previously completed with grades of B or higher. (If a student received a grade lower than a B in a principles class, but subsequently received a grade of B or higher in an intermediate level class in the same subject, the requirement may also be exempted).

- ECON 3900 Macroeconomics
- ECON 3910 Microeconomics
Program of Study for the M.A. Economics – Policy Track Degree

A program of study plan must be completed by the student in consultation with and approved by the department’s Faculty Program Director. The Program of Study plan lists the required and elective courses to be taken by the graduate student to meet the degree requirements of the master’s degree program. The student also must declare whether s/he will take the thesis or the nonthesis option. The Program of Study must be approved by the department’s Faculty Program Director and submitted to Office of Academic Assistance by the end of the first year or after eighteen (18) semester hours of coursework have been completed. The Program of Study form for the Thesis Track, Nonthesis Track, and Policy Track are available at: economics.gsu.edu/programs/graduate/master-of-arts/.

Thirty-six hours of graduate coursework, including 12 credit hours of required courses and 24 credit hours of designated elective courses and submission of a portfolio are required to complete the degree program.

1. **Required Core Courses (12):** Twelve semester hours of course work that provides coverage of areas essential to economic policy concerns, such as the private sector, the public sector, and essential quantitative analysis skills.
   - ECON 8100
   - ECON 8110
   - ECON 8840 (prerequisite ECON 8740 or equivalent)
   - Choose one additional course: ECON 8740 Applied Statistics and Econometrics OR Econometrics course in consultation with the Faculty Program Director

2. **Designated Elective Courses (18):** These courses provide coverage in additional areas of economic policy concern. Eighteen credit hours (six elective courses) selected from the courses listed below are required. The student’s Faculty Program Director must approve designated electives in advance.
   - ECON 8220 Human Resources and Labor Markets
   - ECON 8300 Urban Economics
   - ECON 8320 Environmental and Natural Resource Economics and Policy
   - ECON 8440 Industrial Organization and Anti-trust Economics
   - ECON 8460 Economics of the State and Local Public Sector
   - ECON 8470 International Public Economics
   - ECON 8600 Economic Development
   - ECON 8850 International Trade
   - ECON 8860 Economics of Global Finance
   - HA 8250 Health Economics and Financing
   - PMAP 8621 Urban Transportation and Land Use Economics
   - SW 7350 Economics of Poverty and Public Policy

3. **Elective Fields (6)** – A minimum of two courses in one of the following areas must be completed:
   - Environmental, Urban, and Regional Economics (EURE)
   - Experimental Economics
   - International Economics
   - Labor Economics
   - Public Finance
   - Program Evaluation

The list of courses available for each of these fields is provided below. The list is not exhaustive as in many cases there may be several different courses that could satisfy the field requirement. Students should consult and obtain approval for the courses that will constitute their field from the Faculty.
Program Director as part of the Program of Study plan.

a. EURE:
- ECON 8300 Urban Economics
- ECON 8320 Environmental & Natural Resource Economics and Theory
- Other related courses with approval from the Faculty Program Director

b. Experimental Economics:
- ECON 8230 Experimental Economics
- Other related courses with approval from the Faculty Program Director

c. International Economics:
- ECON 8470 International Public Economics
- ECON 8600 Economics of Development
- ECON 8850 International Trade
- ECON 8860 Economics of Global Finance
- Other related courses with approval from the Faculty Program Director

d. Labor Economics:
- ECON 8220 Human Resources and Labor Markets
- ECON 8210 Health Economics and Policy
- ECON 8899 Causal Inference and Evidence Based Policy
- ECON 8310 Economics of Educational Policy

e. Public Finance:
- ECON 8080 Economics of the Public Sector
- ECON 8450 Issues in Public Programs and Tax Policy
- ECON 8460 Economics of the State and Local Public Sector
- ECON 8470 International Public Economics
- Other related courses with approval from the Faculty Program Director

f. Program Evaluation:
- ECON 8899 Causal Inference and Evidence Based Policy
- PMAP 8521 Evaluation Research
- ECON 8310 Economics of Educational Policy
- Other related courses with approval from the Faculty Program Director

4. Portfolio of coursework materials. Students will assemble a Portfolio composed of materials from their course work. The Portfolio will be submitted during their proposed graduating semester. These materials may include items such as term papers, annotated bibliographies, and the like.

2050.40 Master of Public Administration

Dr. John C. Thomas, Faculty Program Director
jctomas@gsu.edu

The Master of Public Administration (M.P.A.) degree is the preferred professional graduate degree for those wishing to enter or advance in careers at all levels of government. It is also an appropriate degree for management of nonprofit agencies and professional associations. The M.P.A. is a broad-based, interdisciplinary program designed to prepare graduates for leadership positions as managers, analysts and policy specialists in government and nonprofit organizations. In addition to the high-quality, generalist core
curriculum, the program offers opportunities to develop specialized knowledge and skills in such areas as public management, public budgeting and finance, and public policy analysis and evaluation.

Public administration, the art and science of effectively managing the public’s business, contributes to the health, prosperity and security of every country. The actions of public administrators influence and improve our lives in innumerable ways. One out of every six persons in the U.S. work force is employed by government, and government spending accounts for almost a third of the gross national product. In addition, those who do not work in government increasingly work with government as a consequence of increasing interaction between the public and private sectors, the growth of nonprofit organizations, and the blurring of lines between the sectors, making an understanding of government and public administration essential.

Contemporary public administrators must meet the challenges of changing social needs and priorities, new directions in public policy, pressures for increased accountability and productivity in government, and demands for greater citizen involvement in decision making. The “information revolution” and the boom in computer-assisted management systems also challenge the way in which organizations do business. Meeting these challenges requires greater sophistication and skill from professional public administrators.

**A Top Ranked Program:** The Andrew Young School of Policy Studies (AYSPS) is nationally recognized as having one of the elite programs in the field of public policy and management. The *U.S. News and World Report’s “2013 Edition America’s Best Graduate Schools”* ranked the AYSPS program 23rd overall among 269 public affairs schools in the United States, and in the top 12 programs in public finance and budgeting, nonprofit management, and city management and urban policy. The school’s many research centers and community outreach efforts provide opportunities to enhance students’ education, as well as often opening doors to attractive jobs.

The AYSPS M.P.A. program, the school’s flagship program in public policy and management, is designed for a diverse student body, as is appropriate for a multicultural city such as Atlanta. It is tailored to meet the needs of both in-service and pre-service students, with classes scheduled principally in the late afternoon and evening. The curriculum provides a two-year course of study including a common core curriculum focused on developing skills in such areas as planning, policy development and implementation, leadership, organizational behavior, decision making, managing people, money and resources, and representing the public interest. Core courses are supplemented by elective coursework in one of a number of concentrations, including management and finance, nonprofit management, planning and economic development, policy analysis and evaluation, criminal justice, and public health.

Students have the option to develop an individualized specialization, such as disaster management, in consultation with the Faculty Program Director.

Students may also apply for the joint Master of Public Administration and Juris Doctor degree program offered in collaboration with the College of Law. See section 2050.50 of this graduate catalog for details about the M.P.A./J.D. program.

**Degree Requirements**

The M.P.A. degree requires 39 hours of graduate coursework, comprised of 24 credit hours of required courses, 12 credit hours in a concentration, and 3 credit hours of internship or practicum.
1. Required Core Courses (24):
   - PMAP 8111 Public Service and Democracy (Note: Nonprofit Management concentration students must take PMAP 8210, Introduction to the Nonprofit Sector)
   - PMAP 8121 Applied Research Methods and Statistics I
   - PMAP 8131 Applied Research Methods and Statistics II
   - PMAP 8141 Microeconomics for Public Policy
   - PMAP 8161 Public Budgeting and Finance (Note: Nonprofit Management concentration students must take PMAP 8261, Nonprofit Financial Management)
   - PMAP 8171 Management Systems and Strategies
   - PMAP 8411 Law for Public Managers (Note: Nonprofit Management concentration students must take PMAP 8203, Nonprofit Advocacy, Law, and Policy)
   - PMAP 8431 Leadership and Organizational Behavior

2. Concentrations (12):
   - Each student must develop special competence by completing 12 hours in one of 6 concentrations listed below. Students must formally declare the concentration they wish to complete prior to registering for their first elective course.
   - Students also have the option of developing an individualized concentration in consultation with the Faculty Program Director. Approval of individual concentrations is required. Students must complete the online graduate petition form found here to request approval from the department: aysps.wufoo.com/forms/graduate-petition/.

Management and Finance Concentration:
The management and finance concentration prepares students for careers in what has traditionally been called the public service. Where this once meant a government job, today’s public service is far more dynamic. Graduates may find themselves working for a government and interacting regularly with private companies, consultants, and nonprofit organizations; or, they might work outside government in organizations that also pursue public goals. While management and finance graduates often work as analysts, this track is best suited for students who see themselves eventually in roles that involve leadership and management. The coursework has an analytical, problem-solving orientation, and focuses on the effective management of people, programs, resources, and information in complex environments. This concentration concludes with a capstone experience requiring the application of classroom knowledge to a challenging problem or issue facing a government or nonprofit organization.

   a. Required courses (9):
      - PMAP 8501 Managing Public Money
      - PMAP 8521 Evaluation Research: Design and Practice
      - PMAP 8900 Public Service Capstone

   b. Concentration Electives (3) – select one course from the following:
      - PMAP 8223 Nonprofit Human Resources
      - PMAP 8271 Disaster Policy and Emergency Management
      - PMAP 8311 Urban Demography and Analysis
      - PMAP 8321 Economic Development, Policy and Planning
      - PMAP 8351 Local Government Management
      - PMAP 8505 Local Government Debt Issuance and Administration
      - PMAP 8899 Causal Inference and Evidence-based Policy
      - ECON 8460 Economics of the State and Local Public Sector
Nonprofit Management Concentration:
Nonprofit organizations employ one of every 12 paid workers in the nation and as many volunteers, and generate more than $800 billion in revenues each year. This concentration prepares students to meet the challenges of this growing, diverse and critical part of our society. Its twin goals are to help nonprofit managers already working in the field to advance their careers and to assist those just beginning their careers to gain the skills needed to become effective professionals.

a. Required courses (6):
   - PMAP 8213 Nonprofit Financial Resources
   - PMAP 8223 Nonprofit Human Resources

b. Concentration Electives (6) – select two courses from the following:
   - PMAP 8010 Social Policy
   - PMAP 8111 Public Service and Democracy
   - PMAP 8161 Public Budgeting and Finance
   - PMAP 8201 International NGOs
   - PMAP 8232 Social Enterprise
   - PMAP 8251 Grant Writing and Management
   - PMAP 8271 Disaster Policy and Emergency Management
   - PMAP 8281 Disaster Relief and Humanitarian Assistance
   - PMAP 8900 Public Service Capstone
   - MBA 8145, OR MK 8200, OR MK 8210

Planning and Economic Development Concentration:
This program of study prepares students to be better decision makers on planning and economic development issues at the scale of the neighborhood, city, county, and metropolitan region, for individual private employers and nonprofit agencies, for public agencies, and for elected or appointed officials. It prepares students for jobs responsible for selecting locations, planning services and facility investments, providing analyses on policy alternatives, and advocating change and improvement within organizations and society. Students are exposed to theory drawn from planning, economics, and other social science literature, and to a critical view of current practice. They are introduced to the history and professional culture of the planning profession and to the planning process as a systematic approach to problem solving, and they learn about data sources and how to use them appropriately.

a. Required courses (9):
   - PMAP 8021 Scope and Theory of Planning
   - PMAP 8321 Economic Development, Policy and Planning
   - PMAP 8561 GIS Applications

b. Concentration Electives (3) – select one course from the following:
   - PMAP 8010 Social Policy
   - PMAP 8031 Urban Political Economy
   - PMAP 8300 Planning for Resilient Communities
   - PMAP 8311 Urban Demography and Analysis
   - PMAP 8331 Urban Development and Sustainable Cities
   - PMAP 8341 Urban Transportation Planning
   - PMAP 8351 Local Government and Management
   - PMAP 8900 Public Service Capstone
A graduate certificate in planning and economic development is also available, as described in section 2060.30 of this graduate catalog.

**Policy Analysis and Evaluation Concentration:**
This concentration provides students with the basic skills needed to work as policy analysts and program evaluators. Two required courses offer a foundation in evaluation strategies and analytical techniques for assessing public programs and analyzing policy alternatives. This track also affords students practical research experience in applying these skills.

a. Required courses (6):
   - PMAP 8521 Evaluation Research: Design and Practice
   - PMAP 8531 Policy Analysis

b. Concentration Electives (6) – select two courses from the following:
   - PMAP 8010 Social Policy
   - PMAP 8011 Politics and Policy
   - PMAP 8311 Urban Demography and Analysis
   - PMAP 8561 GIS Applications
   - PMAP 8899 Causal Inference and Evidence-based Policy
   - PMAP 8900 Public Service Capstone
   - ECON 8740 Applied Statistics and Econometrics

**Public Health Management Concentration:**
This concentration is designed for M.P.A. students with career goals in health management and leadership in the public or nonprofit sectors. It introduces students to management concepts as they are applied to healthcare systems. Students learn skills in planning, financing, implementing, evaluating and maintaining health programs. Graduates may find positions in institutions that deliver health care, government and non-governmental agencies that deliver public health services, organizations that fund health sector programs or pay for healthcare as well as entities providing goods and/or services to support the healthcare and public health delivery systems.

a. Required Courses (9):
   - HA 8160 or PH 7160 – Health Care System
   - HA 8250 or PH 7250 or ECON 8210 – Health Care Economics and Financing
   - SOCI 9230 (Sociology of Health and Illness) or PH 7011 (Epidemiology) or PH 7140 (Social and Behavioral Aspects of Public Health)

b. Concentration Electives (3) – select one course from the following:
   - PMAP 8251 Grant Writing and Management
   - PMAP 8232 Social Enterprise
   - PMAP 8900 Public Service Capstone
   - PH 7130 Leadership and Public Health
   - PH 7012 Health Program Planning, Implementation, and Evaluation
   - HA 8450 The Legal Environment of Health Care
   - HA 8670 Health Information Systems
   - HA 8700 Health Services Research and Evaluation Methods
   - HA 8190 Health Policy and Ethics
Criminal Justice Concentration
The Criminal Justice concentration prepares students for managerial, planning, and development careers in the court system, corrections, and law enforcement, as well as positions in local, state, or national government. Students will develop knowledge and skills necessary for effective public management: planning and decision making, managing people, money and programs. It also enables those who currently carry out administrative responsibilities with the opportunity for substantial professional development.

a. Required courses (6):
   - CRJU 7010 Crime & the Criminal Justice System and/or
   - CRJU 8050 Criminological Theory and/or
   - CRJU 8710 Legal Aspects of Criminal Justice

b. Concentration Electives (6) – select two courses from the following:
   - CRJU 6040 Comparative Criminal Justice
   - CRJU 6070 Family Violence and Criminal Justice
   - CRJU 7010 Crime & the Criminal Justice System
   - CRJU 8050 Criminological Theory
   - CRJU 8110 Law Enforcement Issues*
   - CRJU 8210 Juvenile Justice Issues*
   - CRJU 8310 Correctional Issues*
   - CRJU 8410 Criminological Issues*
   - CRJU 8710 Legal Aspects of Criminal Justice
   - CRJU 8720 Legal Issues in Criminal Justice
   - CRJU 8900 Special Topics
   - PMAP 8900 Public Service Capstone

*Indicates courses that can be repeated for up to 6 credits (these are special topics courses)

3. Internship or Practicum (3):
   a. PMAP 8941 Internship:
      - Internships provide students the opportunity to apply concepts and skills gained from their graduate curriculum and are required for all M.P.A. students who lack significant prior administrative experience in a public or nonprofit agency or a related organization. The department’s faculty internship coordinators assist in the search for an appropriate internship opportunity, but students are expected to take the lead. An internship requires enrollment in three hours of PMAP 8941 and the completion of 300 hours of work in the intern position. Students are free to work full-time or part-time, according to their needs and those of their internship sponsor. Many students find paid internships, but unpaid internships can also be very rewarding. Students should consider the value of the experience that an internship provides, in addition to the pay. Internship information and applications are available from the Department of Public Management and Policy, or the PMAP internship homepage on the web at career.aysps.gsu.edu/finding-job-internship/. Students with substantial prior administrative experience may petition to waive the internship requirement by completing the online Graduate Internship Waiver Petition form: aysps.wufoo.com/forms/graduate-internship-waiver-petition/.

b. PMAP 8981 Practicum:
   - MPA students have the option to conduct a practicum—an applied research project in
a work setting—in lieu of an internship. The practicum option is designed principally for working students who do not qualify for an internship waiver. In a practicum, the student plans and conducts a research project in their employing agency in consultation with a PMAP faculty supervisor and a supervisor at the employing agency. The project should involve application of material learned in the MPA curriculum, and should result in a substantial combined final report and term paper. The student receives three credits upon successful completion of PMAP 8981. Pursuit of the practicum option requires prior approval of a faculty supervisor and the Director of PMAP Master’s Programs. Any student who might be interested in a practicum should review the Practicum Proposal Guidelines.

2050.50 Master of Public Administration/Juris Doctor

Professor Jim Martin, Faculty Program Contact
jimmartin@gsu.edu

The College of Law and the Andrew Young School of Policy Studies offer a joint Master of Public Administration/Juris Doctor degree. This joint program provides an opportunity to pursue studies in law and public affairs and public management concurrently. Students in the joint program use credit hours earned in one program to satisfy some or all of the elective course requirements for the other program, thus earning both degrees one to two terms earlier than would be required to earn each separately.

A joint M.P.A./J.D. enhances the employment opportunities for graduates of both programs by preparing students to meet the growing demands for lawyers with expertise in public management and for public administrators with legal expertise. Many recent law graduates are employed directly by government agencies, and others are employed by private and nonprofit sector organizations concerned with issues of public policy and public administration. Training in public administration is also changing, with greater emphasis now on administrative law in M.P.A. curricula and greater attention to legal requirements in the training of public managers.

This joint degree is especially valuable to Georgia State University graduates, given the university’s location in downtown Atlanta and proximity to numerous federal, state, and local government agencies and to other private and nonprofit organizations with broad public affairs interests. The credibility of the joint degree nationally is evident through the many elite institutions that currently offer comparable programs.

Applicants must be separately admitted to both the J.D. and M.P.A. programs and must request admission to the joint program. The Andrew Young School will permit a law student to begin the joint degree program only if he or she has completed 40 or fewer hours of coursework. The College of Law will allow M.P.A. students to begin the joint program only if they have completely 20 or fewer hours of coursework.

For information about applying into the M.P.A./J.D. program, see section 2020.40 Application Procedures within this graduate catalog. To apply to the College of Law, go to law.gsu.edu/admissions/.

Degree Requirements
The M.P.A./J.D. curriculum consists of 21 hours of required courses, a minimum of 15 hours of electives, and a three-hour internship. Courses are three credit hours unless otherwise indicated.

1. **Required Core Courses (21):**
   - PMAP 8111 Public Service and Democracy
   - PMAP 8121 Applied Research Methods and Statistics I
   - PMAP 8131 Applied Research Methods and Statistics II
   - PMAP 8141 Microeconomics for Public Policy
   - PMAP 8161 Public Budgeting and Finance
   - PMAP 8171 Management Systems and Strategies
   - PMAP 8431 Leadership and Organizational Behavior

2. **Electives (15):** Students in the joint program use credit hours earned in one program to satisfy elective course requirements for the other program. The College of Law accepts up to 15 semester hours of approved 8000-level M.P.A. coursework with grades of “B” or better, and the M.P.A. program accepts up to 15 semester hours of approved law coursework. Typically, the student completes the first year of law courses prior to taking any public administration coursework. This is consistent with the College of Law requirement that students complete their first year without outside electives. Public administration courses are taken as electives during the second year and/or during summer sessions.

3. **Internship or Practicum (3):**
   - **a. PMAP 8941 Internship:**
     - An internship is required of M.P.A./J.D. students who do not have significant prior administrative experience in a public or nonprofit agency or related organization. The internship is expected to provide the student with an opportunity to apply concepts and skills associated with their M.P.A. curriculum. This opportunity for professional growth and development requires enrollment in three hours of PMAP 8941. Students in the joint M.P.A./J.D. program can fulfill this requirement through internships in legal affairs and administrative law offices and law firms. Students who are taking an externship through the College of Law may be able to use that work experience to fulfill the requirements of the M.P.A. internship. That option should be discussed with the M.P.A./J.D. Faculty Program Director and the M.P.A. faculty internship coordinators prior to beginning the externship. Students with substantial prior administrative experience may petition to waive the internship requirement by completing this online Graduate Internship Waiver Petition form: asps.wufoo.com/forms/graduate-internship-waiver-petition/.
   - **b. PMAP 8981 Practicum:**
     - M.P.A./J.D. students have the option to conduct a practicum—an applied research project in a work setting—in lieu of an internship. The practicum option is designed principally for working students who do not qualify for an internship waiver. In a practicum, the student plans and conducts a research project in their employing agency in consultation with a PMAP faculty supervisor and a supervisor at the employing agency. The project should involve application of material learned in the MPA curriculum, and should result in a substantial combined final report and term paper. The student receives three credits upon successful completion PMAP 8981. Pursuit of the practicum option requires prior approval of a faculty supervisor and the Director of PMAP Master’s Programs. Any student who might be interested in a practicum should review the Practicum Proposal Guidelines.
The Master of Public Policy (M.P.P.) is an interdisciplinary degree program designed to prepare students for work in the analysis, development, and evaluation of public policies. In all levels of government and on a global scale, public needs and limited resources require public policy choices that are at once economically efficient, socially and technically effective, and politically responsive. Such choices confront policymakers on a broad range of critical issues, including health, education, economic development, public finance, social policy, nonprofit policy, and disaster policy.

Decision-makers often lack the knowledge and skills needed to interpret the full social, political, economic, and technical dimensions of the policy issues they face. In response, state and local governments, business, and federal agencies have turned to trained policy analysts for assistance in assessing policy options and in evaluating public programs. The same is true for nonprofit agencies, such as hospitals, schools, emergency preparedness and relief agencies, and regional planning organizations.

Graduates of the M.P.P. program typically work in analytical and leadership positions in a wide array of governmental, public service, private sector, consulting, and nonprofit organizations. Metropolitan Atlanta serves as a laboratory for students, who are encouraged to undertake field instruction and action research with public, private, and nonprofit agencies in the Atlanta area. Opportunities are also available through the various research centers and community outreach efforts of the Andrew Young School. These opportunities enhance the education students receive and often open doors to attractive jobs.

Degree Requirements

The curriculum is a two-year course of study of 36 hours of graduate coursework, comprised of 18 credit hours of required core courses, 15 hours of coursework in a concentration area, and 3 hours in an internship, practicum, or thesis.

1. Required Core Courses (18):
   - PMAP 8011 Politics and Policy
   - PMAP 8121 Applied Research Methods and Statistics I
   - PMAP 8131 Applied Research Methods and Statistics II
   - PMAP 8141 Microeconomics for Public Policy
   - PMAP 8521 Evaluation Research
   - PMAP 8531 Policy Analysis

2. Concentration Courses (15):
   - Every student also chooses a concentration from one of the following approved options: Disaster Policy, Nonprofit Policy, Planning and Economic Development, Public Finance Policy, and Social Policy. Concentrations are described below.
   - Students also have the option of developing an individualized concentration in consultation with the Master’s Faculty Program Director. Approval of individual concentrations is required. Students must complete the online graduate petition found here:
aysps.wufoo.com/forms/graduate-petition/ to request approval from the department.

**Disaster Policy Concentration:**
This concentration focuses on local, state, national, and international policies to manage risks related to natural, technological, and other man-made hazards and on the linkages among disaster, environmental, public health, sustainable development, and related policies. The disaster policy concentration of the M.P.P. takes advantage of the courses available in the Andrew Young School and the School of Public Health. The concentration in disaster policy would provide preparation for a career in a variety of public agencies at all levels of government that deal with disaster mitigation planning and policy. This concentration complements our existing graduate certificate program in disaster management.

a. Required Courses (6):
   - PMAP 8271 Disaster Policy and Emergency Management
   - PMAP 8281 Disaster Relief and Humanitarian Assistance

b. Concentration Electives (9) – select three courses from the following:
   - PMAP 8201 International NGOs
   - PMAP 8021 Scope and Theory of Planning
   - PMAP 8311 Urban Demography and Analysis
   - PMAP 8900 Public Service Capstone
   - ECON 8320 Environmental and Natural Resource Economics and Theory
   - PH 7011 Epidemiology for Public Health
   - PH 7150 Environmental Health

**Nonprofit Policy Concentration:**
The mission of the concentration in nonprofit policy is to educate talented and motivated individuals with knowledge of the nonprofit sector as well as the skills and values to become visionary leaders. Graduates become researchers, policymakers, and advocates in their communities after enhancing their understanding of relationships between nonprofit organizations, government and the policy making process.

a. Required Courses (9):
   - PMAP 8210 Introduction to the Nonprofit Sector
   - PMAP 8203 Nonprofit Advocacy, Law, and Policy

b. Concentration Electives (6) – select two courses from the following:
   - PMAP 8010 Social Policy
   - PMAP 8201 International NGOs
   - PMAP 8213 Nonprofit Financial Resources
   - PMAP 8223 Nonprofit Human Resources
   - PMAP 8232 Social Enterprise
   - PMAP 8521 Grant Writing and Management
   - PMAP 8900 Public Service Capstone

**Planning and Economic Development Policy Concentration:**
This concentration prepares students to be better decision makers on planning and economic development issues for public, private, and nonprofit employers and to be more informed and effective as citizens. It provides appropriate academic background for jobs responsible for selecting locations, planning services and facility investments, providing analysis of policy alternatives, and advocating change and improvement within organizations and society. The concentration relies on theory drawn from planning, economics, and
other social science literature and provides a critical view of current practice. It introduces students to the history and professional culture of the planning profession and to the planning process as a systematic, yet creative approach, to problem solving. The required courses are also designed to acquaint students with common planning and economic development data sources and methods and how to use them appropriately.

a. Required Courses (9):
   - PMAP 8021 Scope and Theory of Planning
   - PMAP 8321 Economic Development Policy
   - PMAP 8561 GIS Applications

b. Concentration Courses (6) – select two courses from the following:
   - PMAP 8010 Social Policy
   - PMAP 8031 Urban Political Economy
   - PMAP 8300 Planning for Resilient Communities
   - PMAP 8311 Urban Demography and Analysis
   - PMAP 8331 Urban Development and Sustainable Cities
   - PMAP 8341 Urban Transportation Planning
   - PMAP 8351 Local Government and Management
   - PMAP 8900 Public Service Capstone
   - ECON 8300 Urban Economics

Public Finance Policy Concentration:
The mission of the public finance policy concentration is to prepare students to analyze public budget and finance policy. These analysts are in demand by a variety of public agencies. The public finance policy concentration takes advantage of the top twelve US News & World Report ranking of the Andrew Young School in the area of public finance. The program should be ideal preparation for a variety of positions in the fields of budget analysis and finance policy.

a. Required Courses (6):
   - PMAP 8161 Public Budgeting and Finance
   - ECON 8080 Economics of the Public Sector

b. Concentration Electives (9) – select three courses from the following:
   - PMAP 8501 Managing Public Money
   - PMAP 8900 Public Service Capstone
   - ECON 8110 Macroeconomic Analysis
   - ECON 8460 Economics of the State and Local Public Sector
   - ECON 8470 International Public Economics
   - HA 8250 Health Economics and Financing

Health Policy Concentration:
This concentration prepares students to utilize their analytic skills to plan, implement, and evaluate health policy, analyze factors that impact the organization and financing of health care delivery systems, and produce research evidence to inform policy development and support decision making. Graduates may find health policy analyst positions in provider organizations, health service delivery systems, government and non-profit health agencies, academic institutions, think tanks, healthcare research and consulting firms as well as community-based organizations.
a. Required Courses (9):
   - HA 8160 or PH 7160 – Health Care System
   - HA 8250 or PH 7250 or ECON 8210 – Health Care Economics and Financing
   - SOCI 9230 (Sociology of Health and Illness) or PH 7011 (Epidemiology) or PH 7140 (Social and Behavioral Aspects of Public Health)

b. Concentration Electives (6) – select three courses from the following:
   - PMAP 8561 GIS Applications
   - PMAP 8900 Public Service Capstone
   - PH 7012 Health Program Planning, Implementation, and Evaluation
   - PH 7535 Intervention and Implementation Research
   - PH 7170 Public Health Policy
   - PH 7340 Built Environment and Health
   - PH 7150 Environmental Health
   - PH 7285 Social Determinants of Public Health
   - PH 7025 Health Disparities
   - PH 7265 Disability Policy
   - SOCI 7110 or GERO 7110 Aging Policy and Services
   - LAW 7244 Public Health Law
   - HA 8190 Health Policy and Ethics
   - HA 8700 Health Services Research and Evaluation Methods

Social Policy Concentration:
A concentration in social policy is designed to give the student an understanding of policies addressing issues such as poverty, crime, and education—including how these policies develop, what effects they have, and how they can be assessed. This concentration provides a good preparation for students interested in careers in the analysis of social policies and for students intending to pursue doctoral work in public policy or a related field.

a. Required Course (3):
   - PMAP 8010 Social Policy

b. Concentration Courses (12) – select four courses from the following:
   - PMAP 8321 Economic Development Policy
   - PMAP 8899 Causal Inference & Evidence-based Policy
   - PMAP 8900 Public Service Capstone
   - AAS 6042 Diversity & Aging
   - EPSF 7110 Multicultural Education
   - EPSF 8320 Politics & Policy in Education
   - SOCI 7110 Aging Policy & Services
   - SOCI 8226 Urban Sociology
   - WGSS 8216 Gender & Society
   - SW 7600 Social Welfare Policy
   - SW 8490 Child Welfare Practice, Policy & Research
   - HA 8190 Health Policy & Ethics
   - PH 7170 Public Health Policy
   - CRJU 9010 Contemporary Criminal Justice Policy
   - ECON 8310 Economics Educational Policy

c. Internship, Practicum, or Thesis (3 hours):
a. **PMAP 8941 Internship:** Internships provide students the opportunity to apply concepts and skills gained from their graduate curriculum and are required for all M.P.P. students who lack significant prior administrative experience in a public or nonprofit agency or a related organization. The department’s faculty internship coordinators assist in the search for an appropriate internship opportunity, but students are expected to take the lead. An internship requires enrollment in three hours of PMAP 8941 and the completion of 300 hours of work in the intern position. Students are free to work full-time or part-time, according to their needs and those of their internship sponsor. Many students find paid internships, but unpaid internships can also be very rewarding. Students should consider the value of the experience that an internship provides, in addition to the pay. Internship information and applications are available from the Department of Public Management and Policy, or the PMAP internship homepage on the web at career.aysps.gsu.edu/finding-job-internship/. Students with substantial prior administrative experience may petition to waive the internship requirement by completing the online Graduate Internship Waiver Petition form: aysps.wufoo.com/forms/graduate-internship-waiver-petition/.

b. **PMAP 8981 Practicum:** MPP students have the option to conduct a practicum—an applied research project in a work setting—in lieu of an internship. The practicum option is designed principally for working students who do not qualify for an internship waiver. In a practicum, the student plans and conducts a research project in their employing agency in consultation with a PMAP faculty supervisor and a supervisor at the employing agency. The project should involve application of material learned in the MPP curriculum, and should result in a substantial combined final report and term paper. The student receives three credits upon successful completion of PMAP 8981. Pursuit of the practicum option requires prior approval of a faculty supervisor and the Director of PMAP Master’s Programs. Any student who might be interested in a practicum should review the Practicum Proposal Guidelines.

c. **PMAP 8991 Thesis:** Candidates for the Master’s degree in Public Policy have the option to submit an approved thesis to complete the requirements for the degree. A thesis would replace the requirement for an internship or a practicum, the options most students are encouraged to pursue. A thesis may be more appropriate for a student who expects to pursue a doctoral degree, although other students may also pursue this option. The decision to write a thesis is made by the student in consultation with and with the approval of the department’s Faculty Program Director (hereafter referenced as “the Director”) for the Department of Public Management and Policy (PMAP). Before approval is given, the student must demonstrate that an appropriate member of the faculty of PMAP is willing to chair the thesis committee, and that two other appropriate faculty members are willing to serve on the committee. A student must have completed at least 18 hours of graduate credit in the M.P.P., including PMAP 8111, PMAP 8011, and PMAP 8121, before registering for thesis hours.

**Initiating a Thesis Proposal.** Any student who is considering or planning to write a thesis should meet with the Director to discuss personal interests and career objectives and to learn more about the expectations and requirements for the thesis. That meeting should occur before the end of the student’s first year of master’s degree work or before twelve (12) semester hours of coursework have been completed. If approved to pursue a thesis, the student should follow these steps:

- Choose a topic with the assistance of the thesis committee chair. Students typically approach an instructor about a topic with the intent of asking the instructor to serve as the thesis chair. The thesis chair must hold primary
appointment in PMAP as a tenured or tenure-track faculty member. The student should consult with the prospective thesis chair at least one full semester before planning to register for thesis hours.

- In consultation with the committee chair, the student should select and receive agreement to serve from two additional faculty members who have appropriate academic preparation and/or experience relative to the thesis topic. (A student may also elect to have more than three members on the committee.) Faculty from other departments or institutions or from a public or nonprofit agency may serve on the committee with the approval of the Director. Composition of the committee should be determined by the time the student has completed eighteen (18) semester hours of graduate credit.

- After selection of the committee, the student must submit to the Director the online Thesis Proposal and Committee Request Form for approval. The Director must approve the composition of the thesis committee and any subsequent changes in that composition.

- During registration, the PMAP staff will input the authorization on the system and you should be able to register (using the computer number obtained the thesis committee chair or from PMAP staff).

- **Thesis Credit.** Six (6) semester hours of thesis credit PMAP 8991 are required. Three (3) of those credits may be used for elective credits in the student’s concentration. Typically, the student should enroll for those credits in the last two semesters of their programs.

- **Grades.** The chair of the thesis committee will submit a grade of either IP or U for the student enrolled in PMAP 8991 until the semester in which the thesis is defended and completed. A grade of IP indicates that the student did not complete the thesis during the semester, but was making satisfactory progress. A grade of U indicates that progress was unsatisfactory. At the end of the semester during which the thesis is defended and completed, the chair of the thesis committee will submit a grade of S or U. A grade of S indicates that the thesis was successfully completed and defended. A grade of U indicates that the thesis was not successfully defended or was not successfully completed following a successful defense. A student receiving a grade of U must petition for permission to register for additional thesis credits. Such permission is not automatic, but depends upon the thesis committee chair’s determination that the student can complete the thesis satisfactorily in the succeeding semester. The grades of IP or U assigned to thesis work prior to the completion of the thesis will remain on the student’s record.

- **Thesis Proposal.** The choice of a thesis topic is the responsibility of the student, assisted by the committee chair. Typically, the student should have a reasonably well-defined topic in mind before requesting faculty to chair or serve on a thesis committee. That topic should take the form of a brief statement of the research problem and research design. The thesis committee must approve this statement before the student may register for thesis hours. The thesis proposal consists of the first three chapters of the thesis, including the introduction, the review of the literature, and discussion of methods and procedures. References also must be included. In addition, before any data collection or analysis can begin, the student must obtain approval from GSU’s Institutional Review Board (IRB) if the research involves human subjects. (Students are encouraged to seek IRB approval before
completion of the thesis proposal, in consultation with the thesis committee chair.) The committee must approve the proposal before the student completes a significant amount of the data collection and/or analysis. The thesis committee chair and other members of the committee are responsible for providing guidance and assistance and ultimately for evaluating the thesis. The student is the investigator and author of the thesis.

- **Thesis Standards and Style.** The thesis constitutes a significant part of the work toward a Master’s degree and is the culmination of all other activities. The thesis must represent high standards of scholarly inquiry, technical mastery, and literary skill. It should be a contribution to the student’s area of study and should reflect the student’s independent efforts with guidance from the thesis committee. The thesis must conform either to the American Psychological Association (APA) Style Manual (latest edition) or to a citation style approved by the thesis committee. The thesis must comply with the format, style, and procedural instructions included in the Thesis Guidelines: aysps.gsu.edu/student-resources/oaa/thesis-guidelines/.

- **Final Defense.** Every student who completes a thesis is subject to a final oral examination or defense. Prior to scheduling the defense, the student must submit a final draft of the thesis to all members of the committee, who will determine the feasibility of a final defense. The thesis committee must receive and approve the final draft of the thesis prior to the scheduling of the final defense. The student may schedule the final defense of the thesis only in a semester when all other degree requirements will be satisfied. The student and thesis committee must agree upon the date, time, and place of the final thesis defense, which must occur prior to the final two weeks of scheduled classes for the semester of anticipated graduation. With the committee’s approval, the student must announce the date, time, and place for the final thesis defense at least two weeks prior to the date of the defense. The student must deliver the original copy of the Thesis Defense Announcement to the departmental office to become a part of the student’s file. No fewer than three members of the student’s thesis committee must attend the thesis defense. The defense will be open to all faculty members and the general public. Approval of the thesis requires a majority favorable vote by the thesis committee. Should an attempt be unsuccessful, the thesis committee has the prerogative for how to proceed, including the latitude to recommend additional requirements or the student’s termination from the program. The student is allowed two attempts to successfully defend the thesis. Immediately following the thesis defense, the committee chairperson should report the results to the AYSPS Office of Academic Assistance.

- **Submission of the Thesis.** Having successfully defended and completed the final document, the student is required to submit the original thesis and the required number of copies to the Director for final inspection and appraisal. Instructions for submission of the final documents are found in the Thesis Guidelines online: aysps.gsu.edu/student-resources/oaa/thesis-guidelines/.

- **Reproduction and Publication.** The completed thesis must be approved by the Office of Academic Assistance (OAA) and electronically submitted through the Georgia State University Library. The student should login to the Electronic Thesis and Dissertations website, enter personal information and other committee and thesis information. Once the thesis is approved, the student should upload the document in PDF format to the database. Contact OAA for procedural questions, and refer to the
2050.70 Master of Social Work

The Master of Social Work (M.S.W.) program prepares students for social work leadership roles in the effort to solve, in partnerships with others, the existing and developing challenges that confront communities in the United States and internationally. Community partnerships, based on a generalist practice model foundation, is the sole focus of the M.S.W. program. Students in the community partnerships concentration are educated to advance the needs and capacities of the total community by promoting social and economic justice and maximizing human potential. They are educated to commit themselves to addressing the life circumstances, such as poverty, violence, discrimination, and disparities in social and economic justice that fall disproportionately on vulnerable groups and challenge the spirit of the entire community.

To accomplish the mission of the M.S.W. program, the School of Social Work has set forth these goals: (1) students will be able to think critically and communicate effectively in the application of social work knowledge, skills, and values to community partnerships practice; and (2) students will be able to engage as social work leaders to build and strengthen communities.

The competencies and practice behaviors of the M.S.W. program are designed to be consistent with the mission and goals of the M.S.W. program, the Andrew Young School of Policy Studies, and Georgia State University. They are aligned with the Council on Social Work Education's Educational Policy and Accreditation Standards.

M.S.W. Program Competencies and Practice Behaviors:

1. Competency 1: Identify as a professional social worker and conduct oneself accordingly.
   ○ 1st Year:
   - Advocate for client access to the services of social work
   - Practice personal reflection and self-correction to assure continual professional development
   - Attend to professional roles and boundaries
   - Demonstrate professional demeanor in behavior, appearance, and communication
   - Engage in career-long learning
   - Use supervision and consultation
   ○ 2nd Year:
   - Integrate personal reflection, self-correction, and feedback in your professional leadership role in working with organizations and communities.
   - Identify professional strengths, limitations, and challenges

2. Competency 2: Apply social work ethical principles to guide professional practice.
   ○ 1st Year:
   - Recognize and manage personal values in a way that allows professional values to guide practice
   - Make ethical decisions by applying standards of the NASW Code of Ethics
   - Tolerate ambiguity in resolving ethical conflicts
Apply strategies of ethical reasoning to arrive at principled decisions

2nd Year:
- Engage in ethical decision making working with organizations and communities.
- Manage conflicting priorities that emerge from working in community partnerships

3. Competency 3: Apply critical thinking to inform and communicate professional judgments.
   1st Year:
   - Distinguish, appraise, and integrate multiple sources of knowledge, including research-based knowledge, and practice wisdom
   - Analyze models of assessment, prevention, intervention, and evaluation
   - Demonstrate effective oral and written communication in working with individuals, families, groups, organizations, communities, and colleagues
   2nd Year:
   - Synthesize models of community practice in making professional decisions
   - Apply logic, critical thinking, and creativity in oral and written communications in community partnership practice

   1st Year:
   - Recognize the extent to which a culture’s structures and values may oppress, marginalize, alienate, or create or enhance privilege and power
   - Gain sufficient self-awareness to eliminate the influence of personal biases and values in working with diverse groups
   - Recognize and communicate understanding of the importance of difference in shaping life experiences
   - View themselves as learners and engage those with whom they work as informants
   2nd Year:
   - Engage in community partnership practices that are responsive to diversity and difference
   - Engage with others as reciprocal resources for learning in community partnership practice

5. Competency 5: Advance human rights and social and economic justice
   1st Year:
   - Understand the forms and mechanisms of oppression and discrimination
   - Advocate for human rights and social and economic justice
   - Engage in practices that advance social and economic justice
   2nd Year:
   - Analyze ways in which differential power and privilege shape communities and society
   - Advocate for/engage in participatory practices that are inclusive and increase empowerment for those organizations/community groups who have been marginalized or excluded

   1st Year:
   - Use practice experience to inform scientific inquiry
   - Use research evidence to inform practice
   2nd Year:
   - Advance research that is participatory and inclusive of the community.
   - Use macro-focused, evidence informed research to inform community partnership
practice

7. **Competency 7: Apply knowledge of human behavior and the social environment**
   - **1st Year:**
     - Utilize conceptual frameworks to guide the processes of assessment, intervention, and evaluation
     - Critique and apply knowledge to understand person and environment
   - **2nd Year:**
     - Synthesize the impact of organizations and communities as complex social systems on community partnerships outcomes
     - Assess the interconnection between individuals/groups and their environment in developing community partnership strategies

8. **Competency 8: Engage in policy practice to advance social and economic well-being and to deliver effective social work services**
   - **1st Year:**
     - Analyze, formulate, and advocate for policies that advance social well-being
     - Collaborate with colleagues and clients for effective policy action
   - **2nd Year:**
     - Engage in community practice that reflects understanding of organizational policies and their impact on the delivery of community services
     - Engage in community practice that reflects understanding of social policies and their impact on service delivery

9. **Competency 9: Respond to contexts that shape practice**
   - **1st Year:**
     - Continuously discover, appraise, and attend to changing locales, populations, scientific and technological developments, and emerging societal trends to provide relevant services
     - Promote sustainable changes in service delivery and practice to improve the quality of social services
   - **2nd Year:**
     - Develop strategies to adapt to changing circumstances and emerging societal trends
     - Provide leadership in promoting changes to improve community well-being

10. **Competency 10: Engage, assess, intervene, and evaluate.**
    - **1st Year:**
      - Individuals, families, groups, organizations and communities.
    - **2nd Year:**
      - Groups, organizations and communities.

a. **Competency 10a: Engagement**
   - **1st Year:**
     - Substantively and affectively prepare for action with individuals, families, groups, organizations, and communities
     - Use empathy and other interpersonal skills
     - Develop a mutually agreed-on focus of work and desired outcomes
   - **2nd Year:**
     - Apply a range of written, oral, and electronic modes of communication in relationship-building and interactions among groups, organizations, and communities
     - Identify and define community as a client system
b. Competency 10b: Assessment
   o 1st Year:
     ■ Collect, organize, and interpret client data
     ■ Assess client strengths and limitations
     ■ Develop mutually agreed-on intervention goals and objectives
     ■ Select appropriate intervention strategies
   o 2nd Year:
     ■ Identify and assess organizational and community needs and assets
     ■ Contribute to the development of shared goals/outcomes
     ■ Contribute to the development and selection of strategies and tactics for community intervention

c. Competency 10c: Intervention
   o 1st Year:
     ■ Initiate actions to achieve organizational goals
     ■ Implement prevention interventions that enhance client capacities
     ■ Help clients resolve problems
     ■ Negotiate, mediate, and advocate for clients
     ■ Facilitate transitions and endings
   o 2nd Year:
     ■ Create a resource development strategy and identify diverse funding sources
     ■ Develop, monitor, and/or strengthen collaborative relationships that focus on building healthy communities
     ■ Evaluate collaborative relationships that focus on building healthy communities
     ■ Engage in leadership behaviors
     ■ Synthesize knowledge and skills in the management of projects, partnerships, and organizations

d. Competency 10d: Evaluation
   o 1st Year:
     ■ Critically analyze, monitor, and evaluate interventions
   o 2nd Year:
     ■ Apply research methods in evaluating work with organizations and communities
     ■ Apply technological processes in evaluating work with organizations and communities

Master of Social Work Curriculum

The Curriculum Structure for the M.S.W. program consists of three components: (1) Liberal Arts Perspective; (2) Social Work Foundation; (3) Social Work Concentration. The M.S.W. program can be completed in two calendar years of full-time study and three calendar years of part-time study. Total degree hours: 60 semester hours for full-time and part-time students; 39 semester hours for advanced standing students.

The School of Social Work in the Andrew Young School of Policy Studies at Georgia State University defines the liberal arts perspective in terms of disciplinary areas which will comprise the undergraduate educational background of every student admitted to the M.S.W. program. The liberal arts core will
include course work in humanities and social sciences, a course with human biology content, statistics, and research.

The purpose of the professional graduate social work foundation curriculum is two-fold. First, the professional foundation provides core knowledge for competent social work practice through the presentation of new advances in practice knowledge, as well as the accumulated knowledge of social work education and the social work profession. The professional foundation curriculum includes content on social work values and ethics, diversity, social and economic justice, populations-at-risk, human behavior and the social environment, social welfare policy and services, social work practice and research, and the completion of a two-semester supervised field placement. Second, the professional foundation serves as preparation for the specialized knowing and learning in a concentration. This content is designed to give students not only a general overview of the social work profession but also practical knowledge that can be used in work with individuals, families, and groups as well as with organizations and communities. The first year courses are constructed and sequenced to accomplish these purposes.

Concentration: Community Partnerships

The sole concentration for the School of Social Work’s Master of Social Work is community partnerships. Social work practice occurs in the context of communities where partnerships are developed for promoting social and economic justice and maximizing human potential. Community partnerships are predicated upon an empowerment orientation that acknowledges and develops the strengths and creativity of all members. In this framework, social work practice integrates and applies values, principles, and techniques of the professional to bring about planned change in social systems (e.g. individuals, families, groups, organizations, and institutions).

Community partnerships recognize and explore the importance of community demographics, politics, economics, geography, and human service delivery systems. These components encourage partnerships that focus social work engagement, assessment, intervention, and evaluation at the community level with the capacity to intervene at community subsystem and/or suprasystem levels. It requires social work practitioners to consider and respond to the broader community dynamics that impact individuals, families, and groups with a particular emphasis on those considered to be vulnerable and at risk. The second year courses are constructed and sequenced to prepare social work practitioners with skill sets for this level of macro practice.

Program Degree Requirements

Master of Social Work

1. Social Work Foundation (30):
   - SW 7100 Foundations of Community Partnerships (3)
   - SW 7200 Human Development Through the Life Course (3)
   - SW 7300 Methods of Community Research (3)
   - SW 7400 Social Work Practice I (3)
   - SW 7500 Foundation Field Education I (5)
   - SW 7501 Diversity and Social Justice (1)
   - SW 7600 Social Welfare Policy (3)
   - SW 7800 Social Work Practice II (3)
2. **Concentration – Community Partnerships (24):**
   - SW 8100 Skills and Techniques of Community Partnerships I (3)
   - SW 8200 Skills and Techniques of Community Partnerships II (3)
   - SW 8300 Leadership and Management (3)
   - SW 8500 Community Field Education I (6)
   - SW 8800 Community Project (3)
   - SW 8900 Community Field Education II (6)

3. **Social Work Electives (6):**
   M.S.W. students are required to take two elective courses. At least one of those courses must be a social work elective. It is strongly recommended that the second elective support the community partnerships concentration. The social work electives include:
   - SW 8450 Child Maltreatment Practice, Policy, and Research
   - SW 8460 Aging Practice, Policy, and Research
   - SW 8470 Substance Abuse Practice, Policy, and Research
   - SW 8490 Child Welfare Practice, Policy, and Research
   - SW 8310 Group Facilitation
   - SW 8315 Social Media Tools for Community Partnerships Practice
   - SW 8320 Grant Writing
   - SW 8330 Health Challenges
   - SW 8340 Social Work and the Law
   - SW 8350 Economics of Poverty and Public Policy
   - SW 8360 Forensic Social Work
   - SW 8370 Psychopathology
   - SW 8480 Disabilities Practice, Policy, and Research
   - SW 7950 Selected Topics
   - SW 7990 Directed Individual Study

**Master of Social Work – Advanced Standing Status**

Students who are admitted to and enter the Master of Social Work program as advanced standing students have met the 30 credit hours of Social Work Foundation course work as a result of their bachelor’s degree in social work from a program accredited by the Council on Social Work Education. The students will be expected to take nine semester hours of bridge course work in the summer prior to beginning the concentration year course work. The nine semester hours will consist of:

   - SW 7100 Foundations of Community Partnerships, (3)
   - SW 7501 Diversity and Social Justice (1)
   - SW 7700 Community Foundation Integrative Seminar (2)
   - SW Elective (3)

Given the nature of the knowledge and skills expected of advanced standing students, the purpose of the bridge course work is to provide students with the foundation content that is essential for entering the community partnerships concentration year.

**Part-Time Study**
Students who are admitted to and enter the Master of Social Work program in part-time study can complete their program of study in three years. A cohort of part-time students will be admitted every year and a hybrid program of study has been developed specifically for part-time students. Students can expect to attend campus once a month while all other course work is completed online. This curriculum design provides a structure to ensure part-time continuous program progression to graduation.

**Total degree hours:** 60 semester hours for full-time and part-time students; 39 semester hours for advanced standing students.

**Program Financial Information**

**Grant – Child Welfare**

The School of Social Work, in partnership with the Georgia Department of Human Resources, has scholarships available under the Title IV-E, Child Welfare Training. The scholarship includes tuition, fees, books, and mileage. Recipients must take specific child welfare electives and complete a two-semester field placement in a public child welfare setting. Upon graduation, recipients must commit to work for the Division of Family and Children Services on a year-for-year basis. This scholarship is awarded each year based on available funds. Please contact the School of Social Work for the most up to date information regarding scholarship availability.

**2060 Certificate Programs**

**2060.10 Graduate Certificate in Disaster Management**

**Ann-Margaret Esnard, Faculty Contact**

aesnard@gsu.edu

The Graduate Certificate in Disaster Management is intended to provide professional education for students preparing for careers in emergency management and practitioners seeking to broaden their knowledge and skills in this field. The certificate provides a professional credential for emergency managers preparing to apply for the Certified Emergency Manager (CEM) program; emergency responders and public health personnel needing to know how their professions fit into the national, state, and local emergency management systems; administrators in educational, business, and other settings where a knowledge of emergency management policies and programs may be needed; and students preparing for academic careers teaching emergency management or related courses. The course requirements are designed to satisfy most of the educational requirements of the Certified Emergency Manager program administered by the International Association of Emergency Managers.

Atlanta is home to a number of large emergency management agencies, including the Federal Emergency Management Agency's Region IV office; the Georgia Emergency Management Agency; the Atlanta-Fulton County Emergency Management Agency; several large international humanitarian organizations, including CARE-USA and the International Rescue Committee; numerous nonprofit agencies that deal with disasters, including the American Red Cross and the Salvation Army; and numerous public safety and emergency response agencies. Students without professional work experience in the field are strongly encouraged to complete an internship with one of these agencies.
Regulations for the Certificate in Disaster Management Program

Applicants to the certificate program will be subject to the same admissions requirements (with the exception of the submission of letters of recommendation) that exist for the Master of Public Administration (M.P.A.) and Master of Public Policy (M.P.P.) degrees. Obtaining the certificate will be based on the completion of the four stipulated courses with a minimum GPA in these courses of 3.0. No grade of a C- or lower will count for credit towards the certificate, nor will more than one grade of C+ or C be allowed for credit towards the certificate. The time limit for completing the certificate program is three years from the term of entry.

1. **Required Courses (6):**
   - PMAP 8271 Disaster Policy and Emergency Management
   - PMAP 8281 Disaster Relief and Humanitarian Assistance

2. **Elective Courses (6) – select two courses from the following:**
   - PMAP 8021 Scope and Theory of Planning
   - PMAP 8201 International NGOs
   - PMAP 8561 GIS Applications
   - ECON 8320 Environmental and Natural Resource Economics and Policy
   - PH 7011 Epidemiology
   - PH 7150 Environmental Health

3. **Awarding of the Certificate:**
   After completing the requirements for the certificate according to these regulations, the student must submit an online request for award by completing the PMAP Graduate Certificate Award Request Form located on the Office of Academic Assistance Student Forms web page: aysps.wufoo.com/forms/graduate-certificate-award-request-form/. The Office of Academic Assistance will verify that all certificate requirements have been met. If all requirements have been met, the certificate will be mailed to the student by the Registrar’s office. The Office of Academic Assistance will also inform the Graduation Office that all requirements have been met. The Graduation Office will subsequently note certificate completion on the official Georgia State University transcript.

---

**2060.20 Graduate Certificate in Nonprofit Management and Social Enterprise**

**John O’Kane, Faculty Contact**
jokane@gsu.edu

The Graduate Certificate program in Nonprofit Management and Social Enterprise has two focuses. First, it covers the skills in management, economic decision making, marketing, fundraising, and financial management that graduates can use (but which they are unlikely to get on the job) in any part of the nonprofit sector: social service provision, education, health, the arts, the environment, international relief, or religion. Second, while most nonprofit management certificates have an exclusively practitioner focus, the Andrew Young School of Policy Studies program prepares students interested in pursuing nonprofit studies within graduate programs in Public Administration, Policy Analysis, or Economics.

This certificate will serve two main groups of professionals: those currently in the nonprofit sector who...
want to acquire new skills or need a credential to advance professionally, and those outside the sector wishing to enter.

- Many professionals in the nonprofit sector seek to improve their skills in ways not available through on-the-job training, such as those in strategic management, leadership theories, and managerial economics.
- As the nonprofit section “professionalizes,” there is an increasing demand from employees currently in the sector for a credential that lies between in-house training programs and actual academic degrees.
- The third sector’s rise in importance in the local and national economies is indicative of a net movement of labor out of government and the private sector and into nonprofit organizations. Sector-changing employees provide a constant source of demand for the skills and credentials appropriate for such a switch.

The mission of the certificate program in nonprofit management and social enterprise is to educate program professionals with general leadership education and experience to the particular nuances and requirements of leading a not-for-profit organization. Advisement is required for the selection of the two-course elective sequence.

Regulations for the Certificate in Nonprofit Management & Social Enterprise Program

Applicants to the certificate program will be subject to the same admissions requirements (with the exception of the submission of letters of recommendation) that exist for the Master of Public Administration (M.P.A.) and Master of Public Policy (M.P.P.) degrees. Obtaining the certificate will be based on the completion of the four stipulated courses with a minimum GPA in these courses of 3.0. No grade of a C- or lower will count for credit towards the certificate, nor will more than one grade of C+ or C be allowed for credit towards the certificate. The time limit for completing the certificate program is three years from the term of entry.

1. **Required Course (3)** – select one of the following courses:
   - PMAP 8210 Introduction to the Nonprofit Sector
   - PMAP 8232 Social Enterprise

2. **Approved Electives (6)** – select two of the following courses:
   - PMAP 8210 Introduction to the Nonprofit Sector
   - PMAP 8213 Nonprofit Financial Resources
   - PMAP 8261 Nonprofit Financial Management
   - PMAP 8223 Nonprofit Human Resources
   - PMAP 8232 Social Enterprise

3. **Elective (3)** – select one of the following courses:
   - PMAP 8201 International Nongovernmental Organizations
   - PMAP 8203 Nonprofit Advocacy, Law, and Policy
   - PMAP 8271 Disaster Policy and Management
   - PMAP 8281 Disaster Relief and Humanitarian Assistance
   - PMAP 8900 Public Service Capstone (with a Social Enterprise focus)
   - Other approved electives (with consent of Master’s Program Director)

4. **Awarding of the Certificate:**
   After completing the requirements for the certificate according to these regulations, the student
must submit an online request for award by completing the PMAP Graduate Certificate Award Request Form located on the Office of Academic Assistance Student Forms web page: aysps.wufoo.com/forms/graduate-certificate-award-request-form/. The Office of Academic Assistance will verify that all certificate requirements have been met. If all requirements have been met, the certificate will be mailed to the student by the Registrar’s office. The Office of Academic Assistance will also inform the Graduation Office that all requirements have been met. The Graduation Office will subsequently note certificate completion on the official Georgia State University transcript.

2060.30 Graduate Certificate in Planning and Economic Development

Cathy Liu, Faculty Contact
cyliu@gsu.edu

The Graduate Certificate in Planning and Economic Development is intended to provide a credential for students preparing for careers in the public, private, or third sectors requiring familiarity with planning and economic development concepts and methods. This certificate is not intended as a substitute for a professional degree in planning, but as an opportunity to supplement another graduate degree. The certificate will provide courses covering planning theory, planning methods and urban and regional theory, plus an opportunity to select electives in a single substantive planning specialization such as economic development planning, health planning, transportation planning, environmental planning or land use planning.

Regulations for the Certificate Program

Applicants to the certificate program will be subject to the same admissions requirements (with the exception of the submission of letters of recommendation) that exist for the Master of Public Administration (M.P.A.) and Master of Public Policy (M.P.P.) degrees. Obtaining the certificate will be based on the completion of the four stipulated courses with a minimum GPA in these courses of 3.0. No grade of a C- or lower will count for credit towards the certificate, nor will more than one grade of C+ or C be allowed for credit towards the certificate. The time limit for completing the certificate program is three years from the term of entry.

1. **Required Courses (9):**
   - PMAP 8021 Scope and Theory of Planning
   - PMAP 8321 Economic Development Policy
   - PMAP 8561 GIS Applications

2. **Elective Course (3)** – select one of the following courses:
   - PMAP 8010 Social Policy
   - PMAP 8031 Urban Political Economy
   - PMAP 8300 Planning for Resilient Communities
   - PMAP 8311 Urban Demography and Analysis
   - PMAP 8331 Urban Development and Sustainable Cities
   - PMAP 8341 Urban Transportation
   - PMAP 8351 Local Government and Management
3. **Awarding of the Certificate:**

After completing the requirements for the certificate according to these regulations, the student must submit an online request for award by completing the PMAP Graduate Certificate Award Request Form located on the Office of Academic Assistance Student Forms web page: aysps.wufoo.com/forms/graduate-certificate-award-request-form/. The Office of Academic Assistance will verify that all certificate requirements have been met. If all requirements have been met, the certificate will be mailed to the student by the Registrar’s office. The Office of Academic Assistance will also inform the Graduation Office that all requirements have been met. The Graduation Office will subsequently note certificate completion on the official Georgia State University transcript.

**2060.40 Nonprofit Leadership Alliance Certified Nonprofit Professional (CNP) Credential**

The Department of Public Management and Policy is affiliated with the Nonprofit Leadership Alliance, a national alliance of colleges, universities and nonprofit organizations dedicated to preparing graduates and undergraduates for careers in nonprofit leadership. Graduate and undergraduate students from all majors are welcome to learn more about the criteria for earning NLA’s Certified Nonprofit Professional (CNP) credential by visiting Georgia State University’s NLA website: pmap.gsu.edu/student-organizations/nonprofit-leadership-alliance-student-organization/.

**2070 Doctoral Programs**

**2070.10 Doctor of Philosophy in Criminal Justice and Criminology**

The Doctor of Philosophy (Ph.D.) degree program in criminal justice and criminology provides in-depth training in criminological theory as well as advanced statistics and research methodology. The Ph.D. program prepares students for careers in research, teaching, management, and community service.

In each degree program, the focus of study includes the justice system as well as the nature, causes, and control of criminal behavior. The requirements of degree programs in this department stress an integrated view of the criminal justice system. In this view, all components of the system interrelate with all other components to provide coordinated justice administration. The curriculum is designed to give students an understanding of the developing theoretical knowledge base in this area of study, while simultaneously providing an understanding of how each of the component parts relates in forming the justice system, and how offenders and victims fit within it.

In addition, students learn how the justice system influences, and is influenced by other institutions in society. An adequately functioning criminal justice system participates in appropriate structuring of legislation, providing information and education within the system and to the public, crime prevention, psychological counseling, and prisoner rehabilitation. Also included among its many roles is work with juveniles, quantitative and qualitative scholarly research, guidance to probationers and parolees, assistance to citizen groups and crime victims, and many other tasks.
Students’ learning in the classroom is enhanced as members of the faculty bring forth a myriad of expertise in criminal justice and criminology. Currently, faculty research topics include but are not limited to sex differences in criminality and criminal justice processing; specialty courts; community policing; public defense systems; domestic violence; elder abuse; sexual harassment; comparative criminal justice; drugs and crime; homicide co-victimization; legal issues in policing; evaluation research; community differences in the nature of crime; place-based criminology; private security; electronic monitoring; informal social control; domestic terrorism; homeland security; healthcare fraud; mental health; organizational misconduct; juvenile delinquency and youth violence; criminological theory; active offender decision-making; drug markets and urban violence; crime victimization; and community corrections. Faculty members conduct research drawing on their expertise in a variety of quantitative and qualitative research methods, thus allowing them to bring not only their topical expertise, but also their methodological experience into the learning environment.

Mission

The mission of the Department of Criminal Justice and Criminology is to generate and disseminate knowledge and information that is theoretically driven and policy relevant for the fields of criminal justice and criminology. This is accomplished by engaging in research and scholarly activities to address issues of crime and justice affecting diverse populations in urban settings; producing students who are critical and ethical thinkers, knowledgeable about the issues of crime and justice, and prepared for leadership positions in the public and private sector that address crime and justice problems; and collaborating with communities, including public and private agencies through education, training, and research ventures that enhance our understanding of, and response to, issues associated with crime and the administration of justice. Through these activities, the Department promotes excellence in teaching, scholarship, and service that enhances the criminal justice profession and benefits the community at large.

Program Objectives

At the time of graduation, students who successfully complete the doctoral program will be able to:

1. Demonstrate a working understanding of the theoretical knowledge base in criminal justice and criminology.
2. Critically analyze crime and justice issues and/or information utilizing theoretical, methodological, and statistical skills
3. Apply learned terminology and theory to real-world situations that both relate to and expand outside the fields of criminology and criminal justice.
4. Communicate effectively, in oral and written form, their understanding and analyses of crime and justice issues as they apply their knowledge to real-world problems and questions.
5. Apply acquired research and statistical skill bases to evaluate the quality of scholarly products and their contribution to the fields of criminology and criminal justice.
6. Discuss an integrated view of crime and criminal justice systems and processes and how the components interact and intersect to provide coordinated justice administration.
7. Demonstrate scholarly expertise in one or more specialty areas within the field of criminal justice or criminology.
8. Develop advanced conceptual and technical skills to conduct high-quality, independent research.
9. Teach undergraduate courses in criminology or criminal justice.
Students in the doctoral program must maintain a minimum cumulative grade point average of 3.0 to remain in good standing and for graduation. It is expected that all required courses will be completed with a grade of B- or above. If a lower grade is earned in a required course, it must be retaken. A required course may only be retaken once. A grade lower than a grade of B- in any required course will prohibit registration for dissertation credits until the required course has been completed with a grade of B- or higher. Students may not register for dissertation credit unless all other required courses have been completed successfully.

If a doctoral student’s cumulative GPA drops below 3.0 at the end of a semester, the student will receive a warning from the college. If a 3.0 cumulative GPA is not achieved by the end of the next twelve (12) semester hours of enrollment or two semesters (whichever is longer), the student will be withdrawn from the graduate program. Students who are withdrawn may apply for readmission after a period of one year. In the readmission process, students must outline the reasons for their dismissal from the program and how they now intend to overcome the causes for that dismissal.

The minimum requirement for admission to the doctoral program in Criminal Justice and Criminology is a Bachelor’s degree in a related field. Students admitted without a master’s degree must meet the following requirements in addition to requirements for the doctoral program:

1. Complete all degree requirements for the M.S. in Criminal Justice including 36 credit hours of Master’s level course work.
2. Complete a Master’s thesis (the nonthesis track is not an option for students in the doctoral program).

**Degree Requirements for the Ph.D. Program**

The doctoral program in criminal justice and criminology requires completion of 54 credit hours beyond the Master’s degree. This includes 24 credit hours of required courses, 12 credit hours in electives/concentration area courses, and 18 credit hours in directed work, including dissertation credits. In addition to these courses students must successfully pass a written comprehensive exam and a dissertation proposal defense, write a dissertation, and successfully defend it. Semester hours are shown in parentheses after each entry.

1. **Required Courses (24):**
   - CRJU 9010 Contemporary Criminal Justice Policy (3)
   - CRJU 9030 Graduate Orientation Seminar (3)
   - CRJU 9450 Contemporary Criminological Theory (3)
   - CRJU 9550 Directed Teaching Seminar (3)
   - CRJU 9610 Quantitative Research Methods II (3)
   - CRJU 9630 Statistics in Criminal Justice II (3)
   - CRJU 9920 Qualitative Methods (3)
   - CRJU 9830 Comprehensives Seminar (3)

2. **Elective Courses (12):**
   - Twelve hours (or 3 courses) of elective course work

3. **Directed Work (18):**
   - Students register for 18 hours of directed work, including dissertation research (CRJU 9900)
2070.20 Doctor of Philosophy in Economics

The Ph.D. in Economics program seeks to develop in the student a high level of competence in conducting basic and applied research and to prepare the student for a career requiring a doctoral degree in economics. To accomplish these objectives, the program provides a rigorous and in-depth course of study emphasizing the latest theoretical knowledge, quantitative techniques, research methodology, and empirical evidence in the student’s field of specialization.

The doctoral program requires the student to demonstrate mastery of a large and complex body of knowledge and a high degree of proficiency in the techniques of teaching and research. This is evidenced by the successful completion of coursework and examinations, effective performance in classroom instruction, participation with faculty members in research, presentation of papers and reports, and the writing of a dissertation. Given the substantial commitment of intellectual effort and time required to achieve these competencies, students are expected to enroll on a full-time basis.

The Department of Economics has designated a faculty member to serve as doctoral coordinator for the Ph.D. in Economics program. The doctoral coordinator is charged with oversight of the program. This faculty member also serves as an advisor and liaison for students, and is available to provide assistance in developing a program of study.

Requirements and Regulations Specific to the Degree:

1. Program of Study

The student’s doctoral coordinator must approve a program of study indicating how the student will fulfill each of the degree requirements by the end of the first semester of enrollment. This program of study becomes part of the student’s file; it may be revised, as appropriate, but must be kept current, as it will be a key factor in determining satisfactory progress in the program. Fifty-seven semester hours of coursework, as a minimum, must be successfully completed for graduation. When feasible, registration in 15 hours per semester is encouraged; at a minimum, students must register for nine hours per semester (excluding summer session). Information on this requirement and program of study forms may be obtained from the Office of Academic Assistance. The following courses may not be used for degree credit toward the Ph.D. in Economics: ECON 8080, ECON 8150, ECON 8180, ECON 8220, ECON 8230, ECON 8300, ECON 8320, ECON 8850, and ECON 8860. Exceptions may be granted by the doctoral coordinator. All programs of studies are subject to final approval by the doctoral coordinator.

2. Foundation Coursework.

Students entering the doctoral program are presumed to have background and current knowledge in the following areas:

- multivariable calculus including integrals, partial derivatives, and infinite series
- matrix algebra including linear transformations, determinants, and inverses
- computer skills for empirical research including statistical packages and the use of data tapes and files
Students may remedy a deficiency in any or all of these areas by taking credit or noncredit courses, auditing appropriate graduate or undergraduate classes, and/or attending tutorial sessions. Students who believe their background is not adequate may consult with the doctoral coordinator or Office of Academic Assistance for recommendations on overcoming deficiencies. Courses at the university that provide these foundations are as follows:

- multivariable calculus: ECON 6030 (3) or MATH 2215 (4)
- matrix algebra: ECON 6030 (3) or MATH 3435(3)
- computer skills/data files: BA 6000 (2)
- macroeconomics: ECON 3900 (3)
- microeconomics: ECON 3910 or MBA 8403 (3)

3. Areas of Study.

Students are required to take coursework in the following areas of study:

a. Economic Theory and History (15)
   1. Economic Theory: ECON 9010, ECON 9020, ECON 9030, ECON 9040 (12)
   2. History of Economic Thought: ECON 8500 (3)

b. Mathematical and Statistical Tools (12)
   1. Mathematics for Economists: ECON 8030 or a designated alternative specified by doctoral coordinator (3)
   2. Mathematical Statistics: ECON 9710 (3)
   3. Econometrics II: ECON 9720 (3) Students may not enroll for courses that satisfy this requirement until the program of study is approved.
   4. Advanced Econometrics: ECON 9730 (3)

c. Applied Economics (12). A minimum of four courses must be completed in the area of applied economics, chosen from:
   - ECON 8440 Industrial Organizations and Antitrust Economics
   - ECON 8460 Economics of the State and Local Public Sector
   - ECON 8600 Economics of Development
   - ECON 9080 Topics in Macroeconomic Theory
   - ECON 9190 Applied Game Theory
   - ECON 9150 Advanced Monetary Theory
   - ECON 9180 Economics of Uncertainty
   - ECON 9220 Advanced Labor Economics
   - ECON 9230 Topics in Advanced Labor Economics
   - ECON 9300 Seminar in Urban Economics
   - ECON 9310 Environmental and Resource Economics I
   - ECON 9320 Environmental and Resource Economics II
   - ECON 9330 Regional Economics
   - ECON 9340 Experimental Economics
   - ECON 9450 Advanced Public Economics I
   - ECON 9460 Advanced Public Economics II
   - ECON 9520 Special Topics in Economics
ECON 9800 International Trade Theory
ECON 9880 International Monetary Economics
* or a designated alternative specified by the doctoral coordinator.

d. Elective Fields (9). Each doctoral student must complete a minimum of three courses in one of the following areas:

- Environmental Economics
- Experimental Economics
- Health Economics
- Labor Economics
- Public Finance
- Urban and Regional Economics

The courses available in these fields are listed below:

**Environmental Economics:**

*Primary:*
- ECON 9310 Environmental and Resources I
- ECON 9320 Environmental and Resources II

*Secondary:*
- Select one of the Primary courses from another Economics Field

**Experimental Economics:**

*Primary:*
- ECON 9340 Experimental Economics
- ECON 9940 Workshop Experimental Economics

*Secondary:*
- Select one of the Primary courses from another Economics Field, or
- ECON 9180 Economics of Uncertainty, or
- ECON 9190 Applied Game Theory

**Health Economics:**

*Primary:*
- ECON 9610 Health Economics I: The Economics of Health Care Supply
- ECON 9620 Health Economics II: Demand for Heath and Health Care

*Secondary:*
- Select one of the Primary courses from another Economics Field, or
- ECON 9750 Topics in Econometrics, or
- ECON 8899 Causal Inference and Evidence Based Policy, or
- A course broadly related to health economics, subject to the approval of the labor committee

**Labor Economics:**

*Primary:*
- ECON 9220 Advanced Labor Economics
- ECON 9230 Topics in Advanced Labor Economics
Secondary:
- Select one of the Primary courses from another Economics Field, or
- ECON 9750 Topics in Econometrics, or
- MGS 9300 Seminar in Human Resource Management, or
- A course broadly related to labor economics, subject to the approval of the labor committee

Public Finance:

Primary:
- ECON 9450 Advanced Public Economics I
- ECON 9460 Advanced Public Economics II

Secondary:
- Select one of the Primary courses from another Economics Field, or
- ECON 8460 Economics of the State and Local Public Sector, or
- ECON 8470 International Public Economics

Urban and Regional Economics:

Primary:
- ECON 9300 Seminar in Urban Economics
- ECON 9330 Regional Economics

Secondary:
- Select one of the Primary courses from another Economics Field

5. Optional Secondary Field (6). A minimum of two courses will be selected by the student with approval from the doctoral coordinator. The two courses must fit together in one of the sub-disciplines of economics. There is no comprehensive examination required for this secondary field. Students are not required to claim a secondary field, in which case they still must select two courses (6) to fulfill this requirement.

6. Dissertation Research. All doctoral students must register for a minimum of three credit hours of ECON 9510, Dissertation Workshop.

4. Required Examinations

a. Theory:
   - Written examinations in macroeconomic and microeconomic theory must be completed successfully by each student. Students will be expected to take these examinations, when first offered, at the end of the theory sequence. This requirement must be satisfactorily completed within one year after completion of the prescribed coursework in economic theory. Students will not be permitted a second attempt to pass each theory examination except upon request and approval by doctoral coordinator. A maximum of two attempts is permitted to pass each examination.
   - Students can apply for an exemption from taking a theory examination. Separate applications are required for each exam (macroeconomics and microeconomic theory). To qualify for an exemption students must have a 3.85 GPA in the theory sequence associated with the examination and no grade lower than a B- in other first year courses. Exemptions may be denied for students who violate the student code of conduct and/or who do not meet the graduate assistantship expectations.
b. Elective Fields:
   - Students must successfully complete a written or oral examination in one elective field. This examination must be taken at the first time it is offered following completion of all field-related coursework.
   - Students will not be permitted a second attempt to pass the field examination except upon request and approval by doctoral coordinator. A maximum of two attempts is permitted.

5. Regulations for the Degree:

a. Transfer Credit.
   - A maximum of 15 semester hours may be transferred from other institutions. Transfer credit, whether from other institutions or from Georgia State University, must have been completed within five years of the semester of entry to the doctoral program. The course must have been limited to graduate students only and a grade of A or B must have been received.
   - At the time the program of study is planned with the doctoral coordinator, the student who requests transfer credit must submit a course description from the catalog of the institution, a syllabus or course outline, and written justification stating why the course is relevant to the program of study. Final approval for the acceptance of transfer credit rests with the doctoral coordinator and the Office of Academic Assistance.

b. Scholastic Warning and Termination.
   - The doctoral grade-point average (GPA) is defined as the GPA for all courses numbered 6000 or higher taken after admission to the doctoral program which applies toward the degree as listed on the program of study. Each student must maintain a 3.00 doctoral GPA (B average). A student whose doctoral GPA falls below 3.00 is on “scholastic warning.” After being placed on scholastic warning, a student must attain a 3.00 doctoral GPA within two consecutive semesters; otherwise the individual will be terminated from the doctoral program. The doctoral GPA could differ from the GPA calculated by the university and reported on the student’s official transcript, since the university GPA could also include the grades from all courses taken at Georgia State before admission to the doctoral program. For graduation, a student may have a cumulative GPA of 3.00 or above in all courses at Georgia State taken at the graduate level, regardless of the degree program.
   - No student, without permission of doctoral coordinator, will be permitted to sit for any examination required for the doctoral degree, other than course examinations, without having a minimum 3.00 doctoral program GPA at the time the examination is to be taken. A student with a doctoral GPA below 3.00 is ineligible for graduate assistantship appointments as either a GRA or GTA. A student who has been terminated from the doctoral program will not be permitted to reapply or reenter the program. Should a student be granted the opportunity to miss a sitting of one of the theory examinations, with specific approval by doctoral coordinator, the student is required to take the exam at the next available sitting.

c. Standards of Performance.
   - The requirements and regulations listed in this catalog refer to minimum standards of performance. The department may have additional requirements, as set forth in writing that exceeds the minimum standards outlined here. If a student fails to meet these additional requirements, either the department or the doctoral coordinator may require that the student withdraw or be terminated from doctoral study.
To continue in the program, a student must make reasonable and timely progress toward the degree in terms of coursework completed and examinations. If a student fails to make reasonable and timely progress, either the department or the doctoral coordinator may require that the student withdraw or be terminated from doctoral study.

The determination of a student’s reasonable and timely progress is to be made by the doctoral coordinator.

d. Petitions.

Where a student believes that unusual circumstances invalidate any of the regulations or requirements relating to the degree in his or her particular case, the student may write to the doctoral coordinator and request exemption from or change in the policy. The petition by the student must be submitted with accompanying justifications. If the doctoral coordinator supports the request, he or she will write a letter of support for the student and submit the material to the Office of Academic Assistance for a decision in consultation with the associate dean.

e. Continuous Registration.

Beginning with the semester of acceptance, a doctoral student must register for a minimum of nine hours a semester (excluding summer session) until graduation. ECON 9000, Doctoral Research, may be used to satisfy this requirement until the student has passed the theory and field examinations. ECON 9500, Dissertation Research, may be used to satisfy this requirement once the student has passed the field examination. Students who fail to meet the continuous registration requirements are subject to withdrawal from the program.

f. The Dissertation.

The purpose of the dissertation is for the Ph.D. candidate to demonstrate his or her ability to conduct a research program leading to a significant contribution to the candidate’s discipline.

g. The Dissertation Committee.

After successfully completing the three qualifying examinations, the student forms a Dissertation Committee. The Dissertation Committee is to consist of a chair plus three members. One of the committee members must be from outside the department. The Office of Academic Assistance, based on the recommendation of the doctoral coordinator, appoints the committee, and any subsequent change in its membership. As the student develops an interest in a potential dissertation topic, he or she should discuss this topic with individual faculty members, both to determine the topic’s feasibility and merit and the faculty members’ interest and expertise in that area. When the student is ready to begin initial work on the dissertation, he or she must first discuss with the doctoral coordinator who among the faculty would be the most appropriate person to serve as chair of the dissertation committee. Only after the doctoral coordinator has agreed with the choice should the student invite the faculty member to chair the committee. Once the dissertation chair has been chosen, the chair, in consultation with the student, will recommend the selection of three additional committee members to the doctoral coordinator.

h. The Dissertation Proposal Defense.

Prior to admission to candidacy for the degree, a dissertation proposal defense must be held. After the student completes a written proposal that the Dissertation Committee judges to be ready for a final defense, a dissertation proposal defense will be held before the Dissertation Committee.

The student’s dissertation proposal should include a summary of the following: the purpose of the study; the nature of the subject to be investigated and its importance; a brief review of the literature; the theory, if any, to be developed; the empirical methodology, techniques, and
data sources, if any, to be used; the nature of the hypotheses to be developed or tested; and a
time frame for completion of the dissertation. Normally the proposal should not exceed 40
pages.

1. The proposal defense will be open to all interested faculty and doctoral students and will be
announced two weeks prior to the date it is scheduled so that interested faculty and students
may attend. After the proposal defense has been held, the committee members will vote to
determine if the student is deemed to have a satisfactory research topic. A unanimous
decision by the student’s Dissertation Committee is required. The approving members will
sign the dissertation proposal defense approval form.
2. Submission of the approval form does not constitute a contractual agreement between the
student and the Dissertation Committee. It is within the scope and function of the
Dissertation Committee to recommend modifications to the research as it proceeds. Upon
submission of the proposal defense approval form, the student is admitted to candidacy for
the degree.

i. Final Dissertation Defense and Graduation.

1. When the candidate’s Dissertation Committee judges that the dissertation is complete, it
must be defended orally in a final dissertation defense. At least two weeks in advance of the
final dissertation defense, an abstract of the dissertation should be submitted to the Office of
Academic Assistance and an announcement will be made to all academic units regarding the
scheduling of the candidate’s dissertation defense. While any interested faculty member or
graduate student may attend the examination and participate in the discussion, only those
individuals who are members of the candidate’s Dissertation Committee may vote on the
dissertation’s approval or disapproval. Upon successful defense of the dissertation, a
dissertation defense approval form will be signed by the members of the Dissertation
Committee and submitted to the Office of Academic Assistance. Unanimous approval is
required.
2. Six weeks prior to graduation, the candidate must submit an electronic copy of the
dissertation the candidate believes is in final form to the Office of Academic Assistance. After
the Office of Academic Assistance has reviewed the dissertation and the final oral has been
held, the candidate will make any recommended changes to the dissertation. Guidelines for
the dissertation are available from the Office of Academic Assistance or online at
aysps.gsu.edu/oaa/dissertation-guidelines.
3. At the time the electronic version of the student’s dissertation (ETD) is posted on the
Georgia State University Library server, students must choose the availability option,
“Release the entire work immediately for access worldwide,” unless they have received
approval to restrict distribution from the AYSPS Associate Dean. A letter showing this
approval, which will be granted only for a maximum of one year, must be on file in the Office
of Academic Assistance prior to graduation.

j. Time Limits for the Degree.

1. These time limits should be interpreted as the maximum amount of time students may take
to complete each of the degree requirements. It is anticipated that most students will
complete the requirements much earlier than the maximum time limits specified below:

   1. All coursework on the program of study and required theory and field examinations
      must be completed within four years from the semester of entry into the doctoral
      program.

   2. The Dissertation Committee must be appointed; the dissertation proposal defense
      must be held and approved within 15 months after completion of the theory and field
3. All requirements for the degree, including the dissertation, must be completed within seven years from the semester of entry into the doctoral program. Failure to do so will result in penalties under the Standards of Performance clause, section 2070.10.5c.

Special Notes for Dual Degree Students completing the M.A. in Economics and Ph.D. in Economics:

Students completing the M.A. and Ph.D. in Economics concurrently must complete a minimum of 15 semester hours (5 classes) that are unique to the second degree (i.e., are not counted in both programs).

2070.30 Doctor of Philosophy in Public Policy

Societal needs—for economic growth, better health care, environmental protection, etc.—and resource limitations challenge policymakers to make difficult public policy choices. The doctoral program in public policy prepares its graduates to conduct original research to help scholars and policymakers understand the tradeoffs involved in such choices across a broad range of critical issues. In particular, students can focus on:

a. **Policy analysis and program evaluation**: How can we predict the consequences of our policy choices? What values should drive those choices? How can we determine which government and nonprofit programs work – producing benefits that exceed their costs?

b. **Public budgeting and finance**: How can governments raise the funds necessary to provide public services in an equitable manner as possible without impeding economic growth? How should and do governments decide which services and programs to fund? How can taxes achieve socially desirable goals?

c. **Public and nonprofit management**: How should functions be divided among the governmental, nonprofit, and for-profit sectors? How should managers allocate financial and human resources to meet public needs? How should managers balance equity and efficiency claims?

Students can also choose to focus on such substantive policy areas as health, education, economic development, social policy, and disaster management.

The doctoral program prepares its graduates to take positions as college professors or as research-oriented policy analysts in research centers, nonprofit organizations, and government agencies. The program assumes that new students have a master’s degree in public policy, public administration, health policy, or a related field, but students may also fulfill master’s prerequisite courses after entering the program. The core courses in the doctoral program build on those master’s prerequisites, providing a strong foundation in policy analysis, program evaluation, microeconomics, quantitative methods, and research design and implementation. Students choose two fields of specialization in which to focus their coursework and research.

The program is intended primarily for full-time students, and the Andrew Young School has been able to fund virtually all full-time students for at least three years. Graduate research assistants work with individual faculty members or with one of the Andrew Young School’s policy research centers, including
the Fiscal Research Center, the International Studies Program, the Health Policy Center, and the Nonprofit Studies Program. Over the course of their studies, most students work on both academic and more practical policy-related research projects. Third- and fourth-year students typically have opportunities to teach undergraduate classes.

In recent years, graduates have taken positions with universities (e.g., Syracuse University, Indiana University, University of Wisconsin-Milwaukee, American University, George Washington University, University of Alabama-Birmingham, Florida International University, Sam Houston State University, and California State University- both the Monterey Bay and Stanislaus County campuses) and research-oriented government agencies, nonprofit organizations, and consulting firms (e.g., the Centers for Disease Control and Prevention, the Government Accountability Office, the World Bank, the International Food Policy Research Institute, CARE International, RTI International, and BearingPoint).

Georgia State also participates in a joint doctoral program in public policy with Georgia Tech. Students in both programs take core courses on both campuses, but students in the joint program may also major in science and technology policy, economic development policy, and environmental policy – which are also fields of research interest for the Georgia Tech faculty.

**A Top Ranked Program:** The Andrew Young School of Policy Studies (AYSPS) is nationally recognized as a top school in public policy and management. Its many research centers and community outreach efforts provide opportunities to enhance students’ education, as well as often opening doors to attractive jobs. In its “2012 Edition America’s Best Graduate Schools,” the *U.S. News and World Report* ranked the AYSPS 23rd overall among the top 166 public affairs schools in the United States. It also ranked AYSPS in the top dozen programs in public finance and budgeting, city management and urban policy, and nonprofit management, and in the top 26 programs in public policy analysis and public management administration.

**Requirements and Regulations for the Doctor of Philosophy in Public Policy (Georgia State):**

1. **Program Requirements.**

To earn the Ph.D., a student must satisfactorily complete six general requirements:

  a. Core master’s-level curriculum or its equivalent;
  b. The doctoral core curriculum;
  c. Seven 3-hour core courses in areas of specialization (four in the major field and three in the minor field);
  d. Full-time enrollment for one academic year;
  e. Doctoral qualifying examinations; and;

2. **Core Master’s Program Curriculum**

The core master’s program curriculum consists of nine 3-hour courses in the six areas that follow. Students may document completion of the core curriculum through coursework taken elsewhere or may select from the courses listed in the current master’s program of the Department of Public Management and Policy, AYSPS. Alternative courses can be taken with permission of the program director.
**Policy Analysis:** Two courses covering the policy process, policy formulation and implementation, and an introduction to policy analysis. Options include: PMAP 8011 Politics and Policy (3), PMAP 8111 Public Service and Democracy (3), and PMAP 8531 Policy Analysis (3).

**Organizational Analysis:** One course offering broad coverage of the theories and concepts of organizational behavior and administrative theory and the analysis of organizational processes. Options include: PMAP 8171 Management Systems and Strategies (3) and PMAP 8431 Leadership and Organizational Behavior (3).

**Techniques of Analysis:** Two courses that cover basic statistical analysis (descriptive and inferential statistics to include multiple regression analysis), research design, and an applied research experience. Options include: PMAP 8121 Applied Research Methods and Statistics I (3) and PMAP 8131 Applied Research Methods and Statistics II (3).

**Economics and Public Finance:** Two courses that cover the theories and concepts of micro- and/or macroeconomics and an introduction to public finance. Options include: PMAP 8141 Microeconomics for Public Policy (3), PMAP 8161 Public Budgeting and Finance, and ECON 8460 Economics of the State and Local Public Sector (3).

**Calculus:** One course covering differential and integral calculus and matrix algebra. Options include: ECON 6030 Introduction to Mathematics for Economists (3) and MATH 2211 Calculus of One Variable I (3).

3. **Program of Study**

a. Core Curriculum.

Building on skills developed at the master’s level, the doctoral core curriculum provides students with an in-depth survey of public policy theory and research; a firm grounding in the philosophy of science; rigorous training in econometric and other quantitative methods, microeconomics, program evaluation, and policy analysis; practical experience in designing and conducting empirical research; and a capstone class to prepare for the dissertation. Core courses are generally offered once a year and are shared between the AYSPS at Georgia State and the School of Public Policy at Georgia Tech. All courses in the core curriculum are three semester hours. Students must earn a grade of B or higher in all core courses to maintain their doctoral candidacy.

Required Courses (24):

1. PMAP 9111 Advanced Research Methods I
2. PMAP 9121 Advanced Research Methods II
3. PMAP 9171 Logic of Policy Inquiry
4. ECON 8100 Applied Microeconomic Analysis
5. PMAP 9131 Research Seminar in Public Policy
6. PMAP 9141 Advanced Topics in Program Evaluation
7. PMAP 9151 Scope and Theory of Public Policy
8. PMAP 9181 Dissertation Colloquium

b. Major Fields.
All doctoral students must complete a minimum of four courses (12) in one of three major fields of study. At least one course must be taken at the doctoral level. The major field must be chosen from the following specializations:

1. Public Finance and Budgeting
2. Public and Nonprofit Management
3. Policy Design, Analysis, and Evaluation

c. Minor Fields.

All doctoral students must also complete a minimum of three courses (9) in a minor field of study. At least one course must be taken at the doctoral level. Students are strongly encouraged to construct their minor field in one of the following ways:

1. Select a minor field from the specialty fields described above. One might, for instance, use Policy Design, Analysis, and Evaluation as a methods field.
2. Select a minor field in a different substantive policy area, such as health policy, education policy, or emergency management.
3. Select a minor field in a discipline that supports the student’s main course of study, such as economics, political science, or psychology.

**Public Finance and Budgeting**
This specialization provides students with the theoretical and empirical tools necessary to analyze the adequacy of tax expenditure policies on income and other disparities; and the fiscal role of governments at different levels.

**Required courses:**

1. PMAP 9381 Public Budgeting Theory and Research
2. PMAP 9391 Public Financial Management Theory and Research

**Elective courses:** Elective courses (six credits: Choose two courses from the following list. One course may be substituted with an alternative course or directed reading on a topic related to the field through a petition to the program director:

1. ECON 8460 Economics of the State and Local Public Sector*
2. ECON 8470 International Public Economics*
3. ECON 9450 Advanced Public Economics I
4. ECON 9460 Advanced Public Economics II

* Please note that when taking a master’s level course, students must work with the professor to develop coursework with a Ph.D. level emphasis. Appropriate assignments include more advanced reading, literature reviews, and research on key topics.

**Public and Nonprofit Management**
This specialization encompasses the legal and political context of public and nonprofit management, the
governance and management of public and nonprofit organizations, the management of volunteer and charitable resources, the economics and financing of public and nonprofit organizations, and the process of advocacy and public policy development. Emphasis is given to the roles and relationships of government and nonprofit organizations in civil society, democracy, the delivery of public services and the functioning of a market economy.

**Doctoral Courses (choose at least one 3-hour course):**

1. PMAP 9331 Foundations of Public Administration
2. PMAP 9341 Policy Design and Implementation
3. PMAP 9381 Public Budgeting Theory and Research
4. PMAP 9221 Seminar in Nonprofit Research

**Master's Courses:**

1. PMAP 8161 Public Budgeting and Finance
2. PMAP 8201 International NGOs
3. PMAP 8203 Nonprofit Advocacy, Law, and Policy
4. PMAP 8210 Introduction to the Nonprofit Sector
5. PMAP 8213 Nonprofit Financial Resources
6. PMAP 8223 Nonprofit Human Resources
7. PMAP 8261 Nonprofit Financial Management
8. PMAP 8351 Local Government Management
9. PMAP 8431 Leadership and Organizational Behavior
10. PMAP 8761 Public Management Systems and Strategies

**Policy Design, Analysis, and Evaluation**

This specialization prepares students to conduct research on the design, analysis, and evaluation of public policies. The design of public policies encompasses the choice of tools for pursuing policy goals; the assessment of the influence of the larger economic, political, and governmental context on public policies; and an understanding of the effect of policies on target groups, institutions, and society more generally. Policy analysis, which includes program evaluation, uses theoretical frameworks and empirical methods to assess the potential and actual effects of public policies and their alternatives.

**Doctoral Courses (choose at least one):**

1. PMAP 9341 Policy Design and Implementation
2. PMAP 9381 Public Budgeting Theory and Research

**Master's Courses:**

1. PMAP 8010 Social Policy
2. PMAP 8521 Evaluation Research: Design and Practice
3. PMAP 8531 Policy Analysis
4. PMAP 8551 Survey Research Methods
5. ECON 8230 Experimental Economics
6. ECON 8300 Urban Economics
7. ECON 8310 Economics of Educational Policy
8. ECON 8320 Environmental and Natural Resource Economics and Theory
9. ECON 8730 Econometrics I: Statistical Foundations
10. ECON 8760 Advanced Econometrics
11. ECON 8770 Topics in Econometrics

4. Full-time Residency Requirement:

Before taking the final written qualifying examination, a student must complete one year (two consecutive semesters) of full-time residency. For this requirement, full-time enrollment is 12 credit hours per semester and must include three credit hours of research assistantship or directed research experience. In addition, throughout the period before completing the prescribed coursework, a student must take at least 12 credit hours in every twelve-month period.

5. Doctoral Qualifying Examinations:

Students must pass all parts of a comprehensive qualifying examination within one year of completing the prescribed coursework. The comprehensive qualifying examination will consist of:

a. Written Qualifying Examinations

Students will take two written examinations, one in the theory and methods of public policy studies and one in their major area of specialization. Examinations will be given twice per year, and students must notify the program director in writing of their intention to take the examinations one month before they occur.

b. Oral Qualifying Examination.

At the discretion of the Examining Committee, an oral examination may be required as part of the qualifying examination process prior to a determination as to whether the written examination is satisfactory.

c. Students will only be permitted a second attempt to pass any qualifying examination they fail upon the recommendation, by majority vote, of the group of faculty members who graded the examination. A maximum of two attempts is permitted.

6. The Dissertation:

The dissertation allows the Ph.D. candidate to demonstrate his or her ability to conduct a research program leading to a significant contribution to the candidate’s discipline. Students must obtain approval of their dissertation proposal within one calendar year after completing their comprehensive exams. Dissertation guidelines are available at aysps.gsu.edu/oaa/dissertation-guidelines.

At the time the electronic version of the student’s dissertation (ETD) is posted on the Georgia State University Library server, students must choose the availability option, “Release the entire work immediately for access worldwide,” unless they have received approval to restrict distribution from the AYSPS Associate Dean. A letter showing this approval, which will be granted only for a maximum of one
year, must be on file in the Office of Academic Assistance prior to graduation.

a. The Dissertation Committee.

After successfully completing the two qualifying examinations, the student forms a Dissertation Committee. The Dissertation Committee consists of a chair plus four additional members. Students are encouraged to include outside members on their committees as appropriate. Students will choose a committee chair with the advice and approval of the program director and will choose the remaining members of the committee with the advice and approval of the committee chair and program director. Once the committee is chosen, the student may change the membership of the committee only with the advice and approval of the program director.

1. In consultation with the Dissertation Committee, the student will develop a dissertation proposal. The proposal should include a summary of the following: the purpose of the study; the nature of the subject to be investigated and its importance; a brief review of the literature; the nature of the hypotheses to be developed or tested; the empirical methodology, techniques, and data sources, if any, to be used; and a time frame for completion of the dissertation. Normally, the proposal should not exceed 40 pages.

2. The student will present and defend the dissertation proposal in a public presentation that will be open to faculty and graduate students from both schools and announced two weeks prior to the date it is scheduled. The Dissertation Committee will question the student in a two-hour oral examination, and then vote to determine whether the student has a satisfactory research topic and design. A unanimous decision by the student’s Dissertation Committee is required. The approving members will sign the dissertation proposal defense approval form. Upon submission of the proposal defense approval form, the student is admitted to candidacy for the degree.

3. Submission of the approval form does not constitute a contractual agreement between the student and the Dissertation Committee. It is within the scope and function of the Dissertation Committee to recommend modifications to the research as it proceeds.

When the candidate’s Dissertation Committee judges that the dissertation is complete, the student must defend it orally in a final dissertation defense, subject to rules governing Georgia State University graduate study. At least two weeks before the final dissertation defense, the student must submit an abstract of the dissertation to the program director, who will issue an announcement of the scheduling of the candidate’s dissertation defense. Any interested faculty member or graduate student may attend the examination and participate in the discussion. At the completion of the oral defense, members of the dissertation committee will vote on the dissertation’s approval or disapproval. Unanimous approval is required.

7. Regulations for the Degree:

a. Oversight.

An Admissions and Coordinating (A & C) Committee, consisting of five tenure-track faculty, four from the Department of Public Management and Policy and one from the Department of Economics, has
jurisdiction over and is chiefly responsible for policy relating to admissions, program curriculum, rules and regulations, and operations of the degree program. The faculty of the Department of Public Management and Policy, in accordance with its procedures and bylaws, select members of the A & C Committee.

b. Scholastic Warning and Termination.

The doctoral grade-point average (GPA) is defined as the GPA for all courses numbered 6000 or higher taken after admission to the doctoral program. Each student must maintain a 3.00 doctoral GPA (B average). The doctoral GPA could differ from the GPA calculated by the university and reported on the student's official transcript, since the university GPA could also include the grades from all courses taken at Georgia State before admission to the doctoral program. For graduation, a student may have a cumulative GPA of 3.00 or above in all courses at Georgia State taken at the graduate level, regardless of the degree program.

c. Standards of Performance.

To continue in the program, a student must make reasonable and timely progress toward the degree in terms of coursework completed and examinations. A determination that a student is not making satisfactory progress and should be terminated from the program may be made at several points in his or her program, including failure to achieve and maintain a doctoral GPA of at least 3.00, failure to pass 12 credit hours within a twelve-month period, failure of the comprehensive qualifying examination, or failure to successfully defend a dissertation proposal or dissertation. In all such cases, a recommendation of dismissal must be made to the Admissions and Coordinating Committee, which will review the case and issue a final decision regarding termination from the program.

de. Appeals.

All student appeals regarding grades and other faculty actions affecting students will be adjudicated through the appeals process governing the Andrew Young School. If the appeal concerns an Admissions & Coordinating Committee action, the student must appeal the action to the Chair of the Department of Public Management and Policy, then to the Academic Program Committee of the school (with approval required to overturn the action), then to the Dean of the school.

df. Time Limits for the Degree.

These time limits should be interpreted as the maximum amount of time students may take to complete each of the degree requirements. It is anticipated that most students will complete the requirements much earlier than the maximum time limits specified below:

1. All required coursework and both written examinations must be completed within four years from the semester of entry into the doctoral program.

2. Both qualifying examinations must be successfully completed within one year after completion of coursework.

3. The Dissertation Committee must be appointed and the dissertation proposal must be defended and approved within one year after completion of comprehensive examinations.
4. All requirements for the degree, including the dissertation, must be completed within seven years from the semester of entry into the doctoral program.

Requirements and Regulations for the Joint Doctor of Philosophy in Public Policy (Georgia State & Georgia Institute of Technology):

1. Program Requirements.

To earn the joint Ph.D., a student must satisfactorily complete seven general requirements:

   a. A core master’s-level curriculum or its equivalent;
   b. Eight core courses in the Ph.D. program;
   c. Seven courses in two elective fields (areas of specialization);
   d. Full-time enrollment for one academic year;
   e. At least three courses with faculty from each school;
   f. Doctoral qualifying examinations;
   g. Defense of a dissertation.

2. Core Master’s Program Curriculum

The core master’s program curriculum consists of nine courses in the following areas. Students may document completion of the core curriculum through coursework taken elsewhere or may select from the listed courses offered in the master’s program at either institution. Alternative courses can be taken with permission of the program director.

Policy Analysis: Two courses covering the policy process, policy formulation and implementation, and an introduction to policy analysis. Options include: PMAP 8011, PMAP 8111, PMAP 8531, PUBP 6012, and PUBP 6018.

Organizational Analysis: One course offering broad coverage of the theories and concepts of organizational behavior and administrative theory and the analysis of organizational processes. Options include: PMAP 8171, and PUBP 6014.

Techniques of Analysis: Two courses that cover basic statistical analysis (descriptive and inferential statistics to include multiple regression analysis), research design, and an applied research experience. Options include: PMAP 8121, PMAP 8131, PMAP 8521, PMAP 8551, PUBP 6112, and PUBP 6114.

Economics and Public Finance: Two courses that cover the theories and concepts of micro- and/or macroeconomics and an introduction to public finance. Options include: PMAP 8141, PMAP 8161, ECON 8460, PUBP 6116, and PUBP 6118.

Calculus: One course covering differential and integral calculus and matrix algebra. Options include: ECON 6030, MATH 2211.

3. Program of Study

a. Core Curriculum.
Building on skills developed at the master’s level, the core doctoral curriculum provides students with an in-depth survey of public policy theory and research; a firm grounding in the philosophy of science; rigorous training in econometric and other quantitative methods, microeconomics, program evaluation, and policy analysis; practical experience in designing and conducting empirical research; and a capstone class to prepare for the dissertation. Core courses are generally offered once a year and can be taught on either campus. All courses are three semester hours. Students must earn a grade of B or higher in all core courses to maintain their doctoral candidacy.

Required courses (24):

a. PMAP 9111/PUBP 8200 Advanced Research Methods I
b. PMAP 9121/PUBP 8205 Advanced Research Methods II
c. PMAP 9171/PUBP 8510 Logic of Policy Inquiry
d. ECON 8100/PUBP 8211 Applied Microeconomic Analysis
e. PMAP 9131/PUBP 8500 Research Seminar in Public Policy
f. PMAP 9141/PUBP 8813 Advanced Topics in Program Evaluation
g. PMAP 9151/PUBP 8520 Scope and Theory of Public Policy
h. PMAP 9181/PUBP 8590 Dissertation Colloquium

b. Major Fields.

All doctoral students must complete a minimum of four courses (12) in their major field of study. At least one course must be taken at the doctoral level. The major field must be chosen from the following specializations:

a. Environmental Policy
b. Health Policy
c. Policy Design and Evaluation
d. Public Finance and Budgeting
e. Public and Nonprofit Management
f. Science and Technology Policy
g. Urban and Regional Economic Development

c. Minor Fields.

All doctoral students must also complete a minimum of three courses (9) in their minor field of study. At least one course must be taken at the doctoral level. They are strongly encouraged to construct their minor field in one of three ways:

a. Select a minor field from the specialty fields described above. One might, for instance, use Policy Design and Evaluation as a methods field.
b. Select a minor field in a different substantive policy area, such as education policy or emergency management.
c. Select a minor field in a discipline that supports their main course of study, such as economics, political science, or psychology.

Environmental Policy:
Environmental issues increasingly confront policymakers and affect economic development. This program of study is designed to prepare students to evaluate the impact of various environmental policies and acquire the necessary tools to develop new policies that address environmental issues and needs.

**Doctoral courses (choose at least one):**

- a. ECON 9310 Environmental and Resource Economics I
- b. ECON 9320 Environmental and Resource Economics II
- c. ECON 9520 Special Topics in Economics: Experimental Laboratory
- d. PUBP 8540 Advanced Topics in Environmental Policy

**Master's courses:**

- a. PMAP 8271 Disaster Policy and Emergency Management
- b. PMAP 8331 Urban Development and Sustainable Cities
- c. PUBP 6300 Earth Systems
- d. PUBP 6310 Environmental Issues
- e. PUBP 6312 Economics of Environmental Policy
- f. PUBP 6314 Policy Tools for Environmental Management
- g. PUBP 6320 Sustainable Systems: Concepts and Measures
- h. PUBP 6324 Environmental and Technological Risk Management
- i. PUBP 6326 Environmental Values and Policy Goals
- j. PUBP 6329 Environmental Policy and Implementation
- k. PUBP 6330 Environmental Law

**Health Policy:**

The courses in this specialization link health-related research, policy, and programs by focusing on knowledge utilization, policy implementation, and outcome evaluation. Central issues are contributors to health, issues of equity, and understanding of social and economic contexts of health. Prerequisite: master’s level health economics course (HA 8250 or equivalent).

**Doctoral courses:**

- a. PMAP 9211 Applying Research to Policymaking: Examples from Health Care Policy
- b. PMAP 9361 Health Policy Research Issues

**Master’s courses:**

- a. HA 8190 Health Policy and Ethics, or
- b. POLS 870 Studies in Public Policy: Health Policy and Politics

**Electives at Georgia State:**

- a. HA 8450 Legal Environment of Health Care
- b. HA 8630 Managed Care and Vertically Integrated Systems
- c. PH 7530 Prevention Effectiveness and Economic Evaluation
d. PSYC 8200 Introduction to Community Psychology  
e. SOCI 7110 Aging Policy and Services  
f. SOCI 8430 Medical Sociology  
g. SNHP 8000 Trends Affecting Health Policies, Practices, and Laws  
h. NURS 8000 Human Environment Interactions and Health  
i. LAW 7239* Health Law: Liability and Bioethics  
j. LAW 7240* Health Law: Regulation  
k. LAW 7241* Seminar in Health Law  

Electives at Georgia Tech:  

a. PUBP 6324 Environmental and Technological Risk Management  
b. HS 4001 Introduction to Health Systems  
c. HS 6000 Introduction to Healthcare Delivery  
d. HS 6100 Healthcare Delivery Systems Models  
e. HS 6200 Healthcare Financial Management  
f. HS 6300 Healthcare Information Systems  
g. HS 6400 Health Systems Practice  
h. MGT 6788 Legal Issues in Biomedical Engineering  
i. MGT 6789 Technology Transfer in Biomedical Engineering  

* Law courses have the first year of law school as a prerequisite, so they will not be appropriate for most students.  

Policy Design, Analysis and Evaluation:  

This specialization prepares students to conduct research on the design, analysis, and evaluation of public policies. The design of public policies encompasses the choice of tools for pursuing policy goals, the assessment of the influence of the larger economic, political, and governmental context on public policies, as well as an understanding of the larger economic, political and governmental context on public policies, as well as an understanding of the effect of policies on target groups, institutions, and society more generally. Policy analysis, which includes program evaluation, involves the use of theoretical frameworks and empirical methods to answer questions applied to substantive policy issues about the potential and actual effects of public policies as well as the valuation of policy alternatives.  

Doctoral courses (choose at least one):  

a. PMAP 9341 Policy Design and Implementation  
b. PMAP 9381 Public Budgeting Theory and Research  

Master’s courses:  

a. PMAP 8010 Social Policy  
b. PMAP 8521 Evaluation Research: Design and Practice  
c. PMAP 8531 Policy Analysis  
d. ECON 8230 Experimental Economics  
e. ECON 8300 Urban Economic  

220
Public Finance and Budgeting:

This specialization provides students with the theoretical and empirical tools necessary to analyze the adequacy of tax expenditure policies on income and other disparities; and the fiscal role of governments at different levels.

Required courses:

- PMAP 9381 Public Budgeting Theory and Research
- PMAP 9391 Public Financial Management Theory and Research

Elective courses: Elective courses (six credits: Choose two courses from the following list. One course may be substituted with an alternative course or directed reading on a topic related to the field through a petition to the program director:

- ECON 8460 Economics of the State and Local Public Sector*
- ECON 8470 International Public Economics*
- ECON 9450 Advanced Public Economics I
- ECON 9460 Advanced Public Economics II

* Please note that when taking a master’s level course, students must work with the professor to develop coursework with a Ph.D. level emphasis. Appropriate assignments include more advanced reading, literature reviews, and research on key topics.

Public and Nonprofit Management:

This specialization encompasses the legal and political context of public and nonprofit management, the governance and management of public and nonprofit organizations, the management of volunteer and charitable resources, the economics and financing of public and nonprofit organizations, and the process of advocacy and public policy development. Emphasis is given to the roles and relationships of government and nonprofit organizations in civil society, democracy, the delivery of public services and the functioning of a market economy.

Doctoral courses (choose at least one):

- PMAP 9331 Foundations of Public Administration
- PMAP 9341 Policy Design and Implementation
- PMAP 9381 Public Budgeting Theory and Research

Master’s courses:
through this program of study, students examine the interaction between science, technology, and the policy process. Students will explore the range of policies used by the governments in promoting and regulating science, technology, and innovation across the globe. Coursework will cover the sources and stimuli for innovation, the roles of universities, industry-government agreements, joint R&D ventures, and technology transfer. Students will also examine science and technology as social institutions. Particular attention is given to understanding the production and diffusion of scientific and technological knowledge.

Doctoral course:

- PUBP 8530 Advanced Topics in Technology and Science Policy

Master's courses:

- PUBP 6401 Science, Technology, and Public Policy
- PUBP 6402 Research Policy and Management
- PUBP 6414 Technological Innovation and Government Policy
- PUBP 6415 Technology, Regions, and Policy
- PUBP 6417 Critical Perspectives on Science and Technology
- PUBP 6418 Comparative Science and Technology Policy
- PUBP 6421 Development of Large-Scale Socio-Technical Systems

Urban and Regional Economic Development:

At the heart of this program is an exploration of government policies designed to stimulate economic development. Particular emphasis is given to exploring the competitiveness of small business and the modernization of manufacturers. Students will also explore the physical urban infrastructure such as water, sewer, transportation, and waste disposal systems. They are also presented the policy tools for analyzing this class of public issue.

Doctoral courses (choose at least one):

- ECON 9300 Seminar in Urban Economics
- PUBP 8550 Advanced Topics in Urban and Regional Economic Development Policy
Master’s courses:

a. ECON 8300 Urban Economics  
b. PMAP 8021 Scope and Theory of Planning  
c. PMAP 8031 Urban Political Economy  
d. PMAP 8311 Urban Demography and Analysis  
e. PMAP 8331 Urban Development and Sustainable Cities  
f. PUBP 6600 Foundations of Local Economic Development Planning and Policy  
g. PUBP 6602 Economic Development Analysis and Practice  
h. PUBP 6604 Methods of Urban Policy Analysis and Planning  
i. PUBP 6606 Urban Development Policy  

4. Full-time Residency Requirement:

Before taking the final written qualifying examination, a student must complete one year (two consecutive semesters) of full-time residency. For this requirement, full-time enrollment is 12 credit hours per semester and must include three credit hours of research assistantship or directed research experience. In addition, throughout the period before completing the prescribed coursework, a student must take at least 12 credit hours in every twelve-month period.

5. Joint Enrollment Residency Requirements:

Students must satisfactorily complete (with a grade of “B” or better) at least nine credit hours of coursework taught by Georgia State faculty and at least nine credit hours of coursework taught by Georgia Tech faculty (exclusive of dissertation credit). Courses taught jointly by Georgia Tech and Georgia State faculty may be counted toward fulfillment of either requirement. Courses that are simply cross-listed in both schools will not meet the standard of being jointly taught.

6. Doctoral Qualifying Examinations:

Students must pass all parts of a comprehensive qualifying examination within one year of completing the prescribed coursework. The comprehensive qualifying examination will consist of:

a. Written Qualifying Examinations.

Students will take two written examinations, one in the theory and methods of public policy studies and one in their major area of specialization (elective fields). Examinations will be given twice per year, and students must notify the program director in writing of their intention to take the examinations one month before they occur.

b. Oral Qualifying Examination.

At the discretion of the Examining Committee, an oral examination may be required as part of the qualifying examination process prior to a determination as to whether the written examination is satisfactory.

c. Students will only be permitted a second attempt to pass any qualifying examination they fail upon the
recommendation, by majority vote, of the group of faculty members who graded the examination. A maximum of two attempts is permitted.

7. The Dissertation:

The dissertation allows the Ph.D. candidate to demonstrate his or her ability to conduct a research program leading to a significant contribution to the candidate’s discipline. Students must obtain approval of their dissertation proposal within one calendar year after completing their comprehensive exams. Dissertation guidelines are available at aysps.gsu.edu/oaa/dissertation-guidelines.

At the time the electronic version of the student’s dissertation (ETD) is posted on the Georgia State University Library server, students must choose the availability option, “Release the entire work immediately for access worldwide,” unless they have received approval to restrict distribution from the AYSPS Associate Dean. A letter showing this approval, which will be granted only for a maximum of one year, must be on file in the Office of Academic Assistance prior to graduation.

a. The Dissertation Committee.

After successfully completing the two qualifying examinations, the student forms a Dissertation Committee. The Dissertation Committee consists of a chair plus four additional members. At least three members must be core faculty of the joint doctoral program, meaning faculty of the School of Public Policy at Georgia Institute of Technology or the Andrew Young School of Policy Studies. The committee must include at least one member from each School. Students are encouraged to include outside members on their committees as appropriate. Students will choose a committee chair with the advice and approval of the program director and will choose the remaining members of the committee with the advice and approval of the committee chair and program director. Once the committee is chosen, the student may change the membership of the committee only with the advice and approval of the program director.

   a. In consultation with the Dissertation Committee, the student will develop a dissertation proposal. The proposal should include a summary of the following: the purpose of the study; the nature of the subject to be investigated and its importance; a brief review of the literature; the nature of the hypotheses to be developed or tested; the empirical methodology, techniques, and data sources, if any, to be used; and a time frame for completion of the dissertation. Normally, the proposal should not exceed 40 pages.

   b. The student will present and defend the dissertation proposal in a public presentation that will be open to faculty and graduate students from both schools and announced two weeks prior to the date it is scheduled. The Dissertation Committee will question the student in a two-hour oral examination, and then vote to determine if the student has a satisfactory research topic and design. A unanimous decision by the student’s Dissertation Committee is required. The approving members will sign the dissertation proposal defense approval form. Upon submission of the proposal defense approval form, the student is admitted to candidacy for the degree.

   c. Submission of the approval form does not constitute a contractual agreement between the students and the Dissertation Committee. It is within the scope and function of the Dissertation Committee to recommend modifications to the research as it proceeds.

When the candidate’s Dissertation Committee judges that the dissertation is complete, the student must defend it orally in a final dissertation defense, subject to rules governing Georgia Institute of Technology and Georgia State University graduate study. At least two weeks before the final dissertation defense, the student must submit an abstract of the dissertation to the program director, who will issue an announcement of the scheduling of the candidate’s dissertation defense. Any interested faculty member or graduate student may attend the examination and participate in the discussion. At the completion of the oral defense, members of the dissertation committee will vote on the dissertation’s approval or disapproval. Unanimous approval is required.

8. Regulations for the Degree:

a. Joint Oversight.

An Admissions and Coordinating (A & C) Committee, consisting of six tenure-track faculty, three from Georgia State University and three from Georgia Institute of Technology, has jurisdiction over and is chiefly responsible for policy relating to admissions, program curriculum, rules and regulations, and operations of the joint degree program. The faculties of the Andrew Young School of Policy Studies and the School of Public Policy, in accordance with their procedures and bylaws, select members of the A & C Committee.

b. Scholastic Warning and Termination.

The doctoral grade-point average (GPA) is defined as the GPA for all courses numbered 6000 or higher taken after admission to the doctoral program. Each student must maintain a 3.00 doctoral GPA (B average). The doctoral GPA could differ from the GPA calculated by the universities and reported on the student’s official transcript, since the university GPA could also include the grades from all courses taken at Georgia State or Georgia Tech before admission to the doctoral program. For graduation, a student may have a cumulative GPA of 3.00 or above in all courses at Georgia State taken at the graduate level, regardless of the degree program.

c. Standards of Performance.

To continue in the program, a student must make reasonable and timely progress toward the degree in terms of coursework completed and examinations. A determination that a student is not making satisfactory progress and should be terminated from the program may be made at several points in his or her program, including failure to achieve and maintain a doctoral GPA of at least 3.00, failure to pass 12 credit hours within a twelve-month period, failure of the comprehensive qualifying examination, or failure to successfully defend a dissertation proposal or dissertation. In all such cases, a recommendation of dismissal must be made to the Admissions and Coordinating Committee, which will review the case and issue a final decision regarding termination from the program.

d. Petitions.

Where a student believes that unusual circumstances invalidate any of the regulations or requirements relating to the degree in his or her particular case, the student may write to the A & C Committee and
request exemption from or change in the policy. The petition by the student must be submitted with accompanying justifications. In all such cases, the A & C Committee will review the case and issue a final decision regarding the petition.

e. Appeals.

All student appeals regarding grades and other faculty actions affecting students will be adjudicated through the appeals process governing the School where the action occurred. If the appeal concerns an A & C Committee action or other joint program action, the student must appeal the action first to the faculties of both schools (with approval from both required to overturn the action), then to the graduate committees of both institutions (with approval from both required to overturn the action).

f. Time Limits for the Degree.

These time limits should be interpreted as the maximum amount of time students may take to complete each of the degree requirements. It is anticipated that most students will complete the requirements much earlier than the maximum time limits specified below:

1. All required coursework and both written examinations must be completed within four years from the semester of entry into the doctoral program.
2. Both qualifying examinations must be successfully completed, the Dissertation Committee must be appointed, and the dissertation proposal must be defended and approved within one year after completion of coursework.
3. All requirements for the degree, including the dissertation, must be completed within seven years from the semester of entry into the doctoral program.
3000 College of Arts and Sciences

Graduate programs in the College of Arts and Sciences are described in detail in this chapter. See subsections for specific program information as well as policies and procedures.

3010 General Information

The College of Arts and Sciences consists of 26 departments/schools/institutes within the areas of the fine arts, the humanities, the natural and computational sciences, and the social and behavioral sciences. The college has over 13,000 undergraduate and 2,000 graduate students.

Graduate programs offered by the College of Arts and Sciences prepare students for professional careers and provide them with the foundation for meeting the challenges of career development. For these purposes, the College of Arts and Sciences offers the Master of Arts, the Master of Science, the Master of Music, the Master of Fine Arts, the Master of Heritage Preservation, the Master of Art Education and the Doctor of Philosophy degrees. Within the framework of the various degree offerings, specific programs have been designed for students who wish to pursue a career in teaching.

3020 Office of the Dean

25th Floor, 25 Park Place Building
404-413-5114
cas.gsu.edu

Dean to be named
Yi Pan, Interim Associate Dean and Interim Chair of Biology
Donald Reitzes, Associate Dean for the Social and Behavioral Sciences
MaryAnn Romski, Associate Dean for Research and Graduate Studies
Binghe Wang, Associate Dean for the Natural and Computational Sciences
Wade Weast, Associate Dean for the Fine Arts and Director of the School of Music
Carol Winkler, Associate Dean for the Humanities
Amber Amari, Assistant Dean for Graduate Services
John Medlock, Assistant Dean for Academic Services
Fred Mote, Assistant Dean for Administration and Finance
Eric Friginal, Director of International Programs

3020.10 Office of Graduate Services

Suite 800 Haas-Howell Building
404-413-5040
Fax: 404-413-5036
cas.gsu.edu/graduate/

Amber Amari, Assistant Dean for Graduate Services
3030 Academic Programs

The College of Arts and Sciences offers the following graduate degrees:

- Master of Art Education
- Master of Arts in African-American Studies; Anthropology; Applied Linguistics; Art History; Communication; English; French; Gerontology; History; Philosophy; Political Science; Psychology; Religious Studies; Sociology; Spanish; and Women’s, Gender, and Sexuality Studies
- Master of Fine Arts in Creative Writing, with concentrations in Fiction and Poetry; and Studio Art, with concentrations in Ceramics, Drawing, Graphic Design, Interior Design, Painting, Printmaking, Photography, Sculpture, and Textiles
- Master of Heritage Preservation
- Master of Music, with concentrations in Performance (Orchestral Instruments, Organ, Piano, and Voice), Instrumental Conducting, Composition, Choral Conducting, Piano Pedagogy, Jazz Studies, and Music Education
- Master of Science in Biology, Chemistry, Computer Science, Geosciences, Mathematics, Neuroscience, and Physics

Specialist in Education Degree

A Specialist in Education degree with a major in Teaching and Learning and a concentration in art education, foreign language education, or music education is offered by the College of Education and Human Development in conjunction with the Ernest G. Welch School of Art and Design, the Department of World Languages and Cultures, and the School of Music, respectively, in the College of Arts and Sciences. Descriptions of admission and program requirements are outlined in the College of Education and Human Development section of this catalog.

Dual Degrees

The College of Arts and Sciences offers dual degree programs within departments and the college and with other colleges within the university. These programs enable approved students from one degree program to fulfill requirements of another. For more details on dual degrees, please visit cas.gsu.edu/dual-degrees/ and program information in this catalog.

Certificate Programs

The College of Arts and Sciences offers a number of professional certificates in addition to traditional graduate degrees. Each certificate is outlined in the department section of this catalog and on the individual department websites. The college offers graduate certificates offered in the following areas:

- Applied Philosophy (Philosophy)
- Geographic Information Sciences (Geosciences)
Gerontology
Historic Preservation (History)
Interpretation (World Languages and Cultures)
Latin American Studies (History)
Music Performance (Music)
Teaching English to Speakers of Other Languages (Applied Linguistics and ESL)
Translation (World Languages and Cultures)
Women’s, Gender, and Sexuality Studies

Applicants not currently in a degree program in the College of Arts and Sciences must apply according to the general application instructions. Currently active degree-seeking students who wish to add to their academic curriculum one of the certificate programs must apply for the certificate but are exempt from the standard admissions fee. Such qualified students should submit an application to the Office of Graduate Services.

3040 Admission Policies

A person seeking to pursue any of the programs of graduate study described in this section of this catalog must be admitted to Georgia State University through the College of Arts and Sciences. The requirements for admission stated in the following sections are those established by the University and the College. Additional requirements, if any, established by the separate departments/schools can be found in the descriptions of their programs and on their respective websites.

There are four categories of admission to graduate study in the College of Arts and Sciences: Full Status, Special Status, Non-Degree Status, and Transient Status. A student must achieve Full Status in order to be eligible for a graduate degree. The category of Special Status is designed to accommodate, when practical, applicants with promise who may have certain limited deficiencies in admission requirements. Non-Degree Status is provided for non-degree seeking students who wish to take a limited number of graduate courses. Transient Status is available for graduate students in good standing attending another institution.

The Office of Graduate Services reserves the right to require prerequisites as conditions of admission. Visit the admissions section of the Graduate Services website for detailed information and application at cas.gsu.edu/graduate-studies/admissions/.

Application Completion Deadlines

The Office of Graduate Services lists on its website the dates by which an application to degree programs must be completed. These are the dates that all materials required for admission must be collected in the Office of Graduate Services. Departments have different application completion deadlines, especially for applicants wishing to receive financial assistance. Applicants should check the Office of Graduate Services website at cas.gsu.edu/graduate-studies/admissions/application-deadlines/ and with the department to which they plan to apply for specific application instructions and deadlines.

International applicants must have all application materials in the Office of Graduate Services, College of Arts and Sciences, as early as possible in order to allow sufficient time for the application materials to be
reviewed by the department and, if appropriate, for the preparation of necessary visa documents.

Application and Admission

The selection of applicants for admission to graduate study is competitive. Given limited university resources, even applicants with strong credentials may not gain admission to a specific graduate program. Admission is based upon a variety of factors among which is the quality of the applicant’s undergraduate record, achievement on required admissions tests, the degree of preparation for the specific academic program to be pursued, and available space in the program. In addition to these general criteria, individual departments may consider additional factors in making admission decisions. Applicants should be aware that exceptional performance in an undergraduate or a graduate program in one discipline does not guarantee acceptance into another graduate program. Following initial recommendation by the department, the associate dean for Graduate Studies of the college shall make the final decision concerning the acceptance or rejection of an applicant.

A prospective student seeking admission must be a graduate of an accredited college with a four-year baccalaureate degree or the equivalent that reflects superior quality work at the undergraduate level. Each applicant must complete and submit the application for admission to graduate study, any required application materials and the application fee. The College of Arts and Sciences requires all prospective students to submit applications and supporting documents electronically (with the exception of transcripts). The online graduate application can be found at: cas.gsu.edu/graduate-studies/admissions/.

Application materials required for admission to graduate study include the following:

1. One official transcript, mailed directly to the Office of Graduate Services, from each college or university, domestic or overseas, from which applicants received a degree, or where they were enrolled in a degree program for more than a single semester. In addition, applicants should send transcripts from all institutions where they were enrolled in coursework relevant to the degree program for which they are applying. This may include courses taken in non-degree status, in transient status, or in post-baccalaureate status and is regardless of whether or not the courses led to a degree. Separate transcripts are not required for AP credit given for high school courses. As well, separate transcripts are not required for enrichment activities (e.g., summer abroad, summer internship, etc.) that did not involve enrollment in a degree program unless the work is relevant to the program for which they are applying.

2. Official records of scores on the General Test of the Graduate Record Examination (GRE) or similar national examination (see specific departmental requirements) must be directed specifically to Georgia State University from the relevant testing agency. Some departments also require an acceptable score on the Subject Test of the Graduate Record Examination. Several programs accept the Miller Analogies Test. Review the detailed admission process at cas.gsu.edu/graduate-studies/admissions/ for complete instructions. Please note that applicants to the MFA program in Art and Design and to the Master of Music with concentrations in piano performance, organ performance, orchestral instrument performance, voice performance, choral conducting, instrumental conducting, piano pedagogy, and jazz studies are not required to submit national test scores.

3. Any supplemental materials required by the major department beyond transcripts and test scores must be submitted via the online graduate application. These materials may include but are not limited to a statement of purpose, writing sample, cv/resume, letters of recommendation and
creative portfolios. Required supplemental materials vary greatly by program. Applicants should visit cas.gsu.edu/graduate-studies/admissions/program-specific-application-information/ for a full list of the materials required and application instructions specific to their department/program of interest.

Admission to the College of Arts and Sciences can only be granted by an Associate Dean of the College. Correspondence from individual departments, professors, or outside agents does not constitute official admission.

Special Status Admission

The use of Special Status admission is solely the prerogative of the department to which application has been made. Special Status admission may be given to applicants who show promise but are not able to fulfill all the requirements for admission to Full Status at the time they apply. Students admitted under the Special Status category are informed of expectations or conditions in the letter of admission. Students admitted to Special Status may be dismissed from their programs if their departments feel that they are not making satisfactory progress toward promotion to Full Status.

A student must be in Full Status in order to earn a degree. At least 20 semester hours of graduate coursework must be completed after the student is admitted to full status to qualify for graduation.

Non-Degree Admission

Non-Degree Status is provided for students who wish to take a limited number of graduate courses (typically not more than two) that relate to their academic or professional backgrounds but do not lead to an advanced degree. A student seeking admission to Non-Degree Status should complete the online application form at cas.gsu.edu/graduate-studies/admissions/non-degree/ and submit the $50 application fee, transcripts from all colleges or universities attended, and a list of courses he or she wishes to take.

A student is admitted to this status at the option of the department and when adequate resources are available. Applicants for the Non-Degree Status should consult the departmental director of graduate studies to learn about any additional requirements or policies that pertain to non-degree admission.

Admission to Non-Degree Status does not warrant or secure admission to any degree program. Some departments do not accept non-degree students. Please contact the departmental director of graduate studies for further information.

Transient Admission

An applicant seeking admission as a transient student must be a graduate student in good standing at another institution. Admission requirements include completed application forms, application fee, a list of courses the applicant wishes to take, and a letter of good standing from either the graduate dean or the registrar of the student’s institution.

Admission to transient status is for one semester only on a space-available basis. A student who is not in good standing or who is ineligible to return to his or her institution will not be admitted. No guarantee is made that a transient student will be able to secure the courses desired. The reporting of grades earned to
the student’s institution is the responsibility of the student.

The College of Arts and Sciences does not allow transient students to reenter. A complete application form, fee, list of courses, and letter of good standing must be sent to the Office of Graduate Services for every semester the transient student wishes to attend Georgia State University.

Deadlines for transient applications are as follows: Summer – May 15; Fall – June 15; Spring – December 1.

Changing Semester of Entry

Admission to a graduate program is valid only for the semester, degree, and major specified in the letter of acceptance. An applicant who is admitted and does not intend to enroll should notify the Office of Graduate Services in writing of this decision as soon as possible. If an accepted applicant wishes to defer entry within one year, the admitting department/school reserves the right to review the application materials again and decide if postponement is appropriate. Applicants wanting to change their date of matriculation must notify the department with this request.

Reentry Students

Students of Georgia State University who are on inactive status, or who have received registration holds due to violation of the continuous enrollment policy, must file a reentry application and $25 fee in the Office of Graduate Services by the appropriate deadline for the semester they wish to reenter. The complete reentry application can be downloaded at cas.gsu.edu/graduate-studies/admissions/reentry/. Students who have attended other colleges and/or universities since last registering at Georgia State must have official transcripts of all coursework sent to the Office of Graduate Services, prior to the reentry deadline for the appropriate semester. Degree programs must approve all reentry applications and may deny reentry for a variety of reasons such as a student’s previous academic performance, a student’s progress in the program, the length of time not enrolled, and availability of space in the program. Reentry applications from students whose cumulative grade-point average is below 3.0 require a plan from the program’s graduate director describing how the grade-point average can be improved to 3.0 or better within 18 hours of graded coursework over the next three consecutive terms.

Reentering students are subject to the regulations of the Graduate Bulletin and the degree program current at the time of reentry.

Deadlines for reentry applications are as follows: Summer – April 1; Fall – June 1; Spring – November 1.

3050 International Students

Georgia State University encourages the enrollment of students from other countries. Applicants needing a student visa are required to provide proof of financial support for at least the first year of their degree program. International students with a student visa are required to carry a full course of study during every semester except the summer semester. Applicants requesting a student visa may not be considered for Non-Degree Status.
In addition to meeting the regular admission requirements, prospective international applicants must demonstrate proficiency in the English language by taking either the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). Applicants with a score under 550 on the paper-based TOEFL, 213 on the computer-based TOEFL, 80 on the internet-based TOEFL, or 6.5 on the IELTS cannot be considered for Full Graduate Status; they may, however, be considered for Special Status admission.

Additional testing of skills in English will be required of all newly-admitted international students who come from non-English speaking countries. Prior to registration for the first semester, international students are required to attend a special orientation, held by the Office of International Student and Scholar Services, where they must take the Georgia State Test of English Proficiency (GSTEP) offered by the Department of Applied Linguistics and English as a Second Language. Students who miss the orientation should arrange with the department to take the GSTEP before classes begin or as soon as possible thereafter. Students with acceptable scores on the examination may proceed with their regular academic coursework. Students whose scores indicate a lack of English proficiency will be required to take ESL course or courses as a regular part of their graduate coursework. Any ESL courses required under this provision will be considered part of the student’s normal course load but will not count toward the total hours of coursework a student must take in order to obtain a degree.

GSTEP scores for each student will be sent by the Department of Applied Linguistics and English as a Second Language to the Office of Graduate Services along with a recommendation regarding the additional language course(s) that the student should take. The Office of Graduate Services will then send the information to the appropriate departmental director of graduate studies, who will ensure that the student takes the recommended ESL course(s). Graduate Services will monitor the implementation of this procedure.

Academic credentials must be original documents with authorized signatures, seals, stamps, etc. Whenever possible, these should be sent by the institution responsible for issuing such documents. In cases where it is impossible for an applicant to have these credentials sent from such institutions, the applicant should forward a duly “notarized” or “attested to” copy. The notarization should be done by the proper institutional official or by the Ministry of Education in the home country. Documents in a language other than English must be accompanied by translations. Translations should be made by the home country embassy or an appropriate official, and the original copies of the translations, acceptably notarized as described above, must be provided. As a general rule, documents translated by the Office of the American Friends of the Middle East (AFME), the Institute of International Education (IIE), the student’s home embassy, the American embassy, or the language faculty of a regionally accredited U.S. college or university will be acceptable. Students who already attend school in the U.S. can arrange to have their institutions certify photocopies of original documents, and students in the Atlanta area can arrange for the Office of Graduate Services to certify photocopies of required foreign academic credentials.

3060 Graduate Teaching and Research Assistantships

Each academic department in the College of Arts and Sciences offers opportunities for qualified students who have been accepted into one of the graduate degree programs to work as laboratory, research, or teaching assistants. Graduate assistants work as tutors, aid faculty members in research projects, supervise laboratories, and teach undergraduate courses. Assistantships normally are awarded only to students
enrolled full time in their degree programs. For the expected level of enrollment, see “Courses and Course Load” in section 3100 below. Students interested in graduate assistantships should contact the directors of graduate studies in their departments for specific information.

Students receiving assistantships as well as financial aid should be aware that receiving an assistantship can reduce the amount of financial aid awarded.

**Graduate Assistantship Deadlines**

Most departments/schools have early deadlines for graduate teaching or research assistantships. If you would like to be considered for an assistantship, please consult the appropriate departmental section of this catalog or departmental websites to obtain the deadline for the program to which you plan to apply.

**Graduate Study Funding**

In addition to graduate assistantships, the college and university offer a variety of fellowships, scholarships, and other sources of financial support for graduate education. Information about many of these offerings is available at cas.gsu.edu/graduate-studies/financing-your-education/.

**3070 Calculation of Grade-Point Average**

In departments where a new application is required from the master's to the doctoral program, master's and doctoral cumulative GPAs will be calculated separately. In departments where only one application is required for entry into a continuous graduate program, the cumulative GPA will remain combined. All credits earned while a student is in non-degree status that are approved for, and used to fulfill requirements to the master's degree will be calculated into the cumulative master's GPA. In order to qualify for graduation with a degree from the College of Arts and Sciences, a student must have a minimum GPA of 3.0.

**3080 Scholastic Warning & Scholastic Termination**

**Scholastic Warning**

Graduate students are personally responsible for knowing and maintaining department and College academic standards. A graduate student whose cumulative grade-point average falls below 3.0 at the end of a semester or who fails to maintain the level of academic performance required by the major department will be sent a letter of scholastic warning from the associate dean for Graduate Studies in the College of Arts and Sciences. Some departments have additional requirements for academic performance and progress. In these instances, the departmental graduate director will attempt to warn the student. However, the receipt or non-receipt of academic warning does not exempt the student from stated requirements. Students in Warning Status must achieve a 3.0 cumulative grade-point average within 18 hours of graded coursework over the next three consecutive terms.

**Scholastic Termination**
A graduate student is subject to scholastic termination from the degree program for the following reasons:

1. Failure to achieve a 3.0 cumulative grade-point average by the end of the next 18 semester hours of enrollment or next three consecutive terms in letter-graded courses after the GPA has fallen below a 3.0;
2. Failure to maintain the level of academic performance and progress required by the major department;
3. A second failure on the General Examination in the M.A., M.S., or Ph.D. degree programs.

The student who may be subject to scholastic termination will be notified of termination by the associate dean for Graduate Studies the College of Arts and Sciences.

3090 Foreign Language or Equivalent Research Skill Requirement

Some departments in the College of Arts and Sciences require students to demonstrate proficiency in either one or two foreign languages, in an alternative research skill, or in a combination of the two. An alternative research skill is a proficiency obtained in an adjunct area that is ordinarily not a degree requirement in the student’s degree program. Students should consult their individual directors of graduate studies for specific departmental requirements.

An international student whose native language is not English and who demonstrates proficiency in English to the Department of Applied Linguistics and English as a Second Language may be exempted from one foreign language requirement. Exceptions to this policy may be allowed only with departmental approval and by means of approved substitutions of equivalent research skills. The English for Foreign Language Requirement Exam (EFLRE) requires students to perform satisfactorily on the GSTEP, including the oral interview.

International students who will be using English to satisfy the foreign language requirement will take the EFLRE, and the result will be sent to the student’s academic department. Because GSTEP results are considered by the Department of Applied Linguistics and English as a Second Language to be current for two years, students who wish to satisfy the foreign language requirement within the first two years of their arrival at Georgia State may use the GSTEP results already on file in the Department of AL/ESL if those results are satisfactory. If students were not required to take the oral interview section of the GSTEP when they arrived, they will need to contact the Department of AL/ESL to take it to fulfill the EFLRE requirement. Students who wait longer than the two year period will be required to take the complete EFLRE, which means retaking all sections of the GSTEP.

Courses taken to satisfy the foreign language requirement will not count toward the total hours of coursework a student must take in order to obtain a degree.

3100 Requirements and Time Limits

Program requirements are established based on the Graduate Catalog active at the time of the student’s initial acceptance and matriculation (first registration). All credits presented for the master’s degree must have been earned within seven calendar years of the date of the degree. All credits presented for the
doctrinal degree must have been earned within ten years of the date of the degree.

Continuous Enrollment

Students in all graduate programs must maintain enrollment totaling 6 hrs (or more) over all consecutive three semester periods (including summers). In other words, the total enrollment of the current term plus the two terms preceding it must add to 6 hrs or more at all times. The status of all students will be checked by the midpoint of each term for compliance with the continuous enrollment requirement. Any student whose enrollment is out of compliance will receive a registration hold preventing all current and future registration. Those students will be notified by an e-mail message sent to their official GSU e-mail account.

To resume their programs, students with continuous enrollment holds must file for reentry by the published deadline and must enroll at a level sufficient to satisfy the continuous enrollment criterion. That is, their enrollment in the reentry term plus the two terms preceding it must total to 6 hrs or more. The maximum required enrollment level for the reentry term is 6 hours. For more information on the reentry process, see section 3400.

Limits to Financial Aid

For purposes of financial aid and compliance with Federal regulations, graduates students may receive aid for a maximum of 90 hours unless they are receiving a graduate assistantship. Ph.D. students are exempted from the Satisfactory Academic Progress process. Students receiving financial aid and receiving graduate assistantships may be subject to reduced financial aid awards.

Students’ Responsibility

Graduate students must assume full responsibility for knowledge of the rules and regulations of the college, the university, and those departmental requirements concerning their individual curricula. Enrollment in a graduate program in the College of Arts and Sciences constitutes students’ acknowledgement that they are obligated to comply with all academic and administrative regulations and degree requirements.

Academic Advisement

It is the responsibility of the student to know and to satisfy any and all conditions that pertain to admission and to the satisfactory completion of degree requirements. Students may obtain advisement from the appropriate graduate faculty adviser or from the director of graduate studies of their departments. A complete listing of department directors and advisors is available at cas.gsu.edu/role/graduate-directors/. Advisors are also available in Graduate Services in order to assist with admissions and other administrative actions related to admission and graduation. A list of office contacts is available at cas.gsu.edu/department/graduate-services/.

Courses and Course Load

Courses numbered 6000 and above are normally open only to graduate students (see exceptions below). Each graduate course will carry three semester hours of academic credit unless otherwise indicated. Twenty-five semester hours is the maximum student load per semester; eighteen semester hours is considered to be the normal load for graduate students with graduate assistantships in the College of Arts and Sciences,
while nine semester hours is the load for defining a full-residence semester for most financial aid and loans. Students who wish to register for more than twenty-five hours of course work must obtain the approval of the department director of graduate studies.

Policy on Allowing Undergraduates to Take Graduate Courses

Under one of the following conditions, an undergraduate student may be permitted to take a graduate course:

1. Dual Degree Enrollment: The student has been formally accepted into an official university dual degree program that links an undergraduate degree program with a graduate degree program. Students in dual degree programs are granted permission to enroll in specified graduate courses when they reach a designated program milestone. Students who are accepted into the affiliated graduate program upon completion of the undergraduate degree may count specified course work toward fulfillment of the graduate degree requirements. A current listing of official undergraduate/graduate dual degree programs is available at cas.gsu.edu/dual-degrees/.

2. College Approval of Enrollment: The dean’s office of the college will determine a student’s eligibility for admission into a graduate course. To be eligible, an undergraduate student generally must have a cumulative grade-point average of 3.5 or higher and be within 18 semester hours of graduation, and be enrolled in an undergraduate degree program. Eligibility does not guarantee permission to take a course. Once a student’s eligibility is determined, permission must be granted by the instructor for the course, the department’s/school’s director of graduate studies, the chair/director of the department/school offering the course, and the Associate Dean of Graduate Studies in the College of Arts and Sciences. The request form is located at cas.gsu.edu/dual-degrees/. Please note, graduate courses taken by an undergraduate student cannot be applied toward fulfillment of graduate degree requirements unless the student has been formally accepted into an official university dual degree program.

(This approval process does not apply to postbaccalaureate students. Postbaccalaureate students wishing to take graduate courses must be admitted as non-degree seeking students. See cas.gsu.edu/graduate-studies/admissions/non-degree/ or additional information.)

Transfer Credit

A maximum of six semester hours of approved graduate credit from other institutions may be accepted toward a master’s degree program, a maximum of 30 semester hours may be accepted toward a doctoral degree and a maximum of three semester hours of approved graduate credit from other institutions may be accepted toward a graduate certificate program. Transfer credit must be approved no later than the end of the second semester in Full Status. Transferred credits will be included in the time limitations placed on credits applicable to graduate degrees. For the policy concerning application of work taken at other institutions in the doctoral program, see the departmental requirements for the Doctor of Philosophy degree.

Please note that the acceptance of transfer credit is not automatic; it must be approved and documented by the departmental director of graduate studies and the appropriate associate dean.

Curriculum Adjustment
Course 6999 in any department that offers graduate work is designed only to assist the graduate student with a particular curriculum problem. Credit of one to a maximum of four semester hours may be earned. To be eligible, a student must have Full Status and must have the approvals of the instructor, the chair of the department, and the appropriate associate dean of the college. Application forms for Course 6999 may be obtained from either the academic department or the Dean’s Office and must be submitted for approval prior to the close of registration for the semester in which the credit is to be earned. Registration for Course 6999 will be permitted only when an alternative course is not available.

Research Requirements

Most departments that offer graduate degrees also offer Course 8999, Research, for which credit from one to a maximum of 15 hours per semester may be earned. In some departments, 8999 may be taken to a maximum of 25 hours per semester. These courses generally are acceptable to reach minimal continuous enrollment standards.

Responsible Conduct in Research

All undergraduates, graduate students, and post-docs involved in empirical research at Georgia State University are required to undertake Responsible Conduct in Research (RCR) education and training as part of their requirements for graduation or employment. As part of this educational requirement, web-based training thru the Collaborative Institutional Training Initiative (CITI) has been made available to meet this requirement. More information on the university's RCR training requirement can be found at ursa.research.gsu.edu/ursa/compliance/human-subjects/required-education-and-training/.

3110 Degree Requirements

Candidates for graduation in a degree program offered by the College of Arts and Sciences must be officially registered for classes the semester of completing all academic requirements, including thesis/dissertation defense, performance, or gallery show. Departments may determine the extent and type of hours that must be taken by the candidate during the concluding semester. Every candidate for completion must apply at least two semesters in advance of expected graduation with the Graduation Office of Enrollment Services/Registrar’s Office. These regulations are explained in the general university-wide section of this catalog. The semester of completion is defined as extending until the last day of the semester on the academic calendar as published by Enrollment Services.

While the provisions set forth in this catalog will ordinarily be applied as stated, Georgia State University and the College of Arts and Sciences have the right to change any provision, including, but not limited to, academic requirements for graduation, without actual notice to individual students. Every effort will be made to advise students of any such changes. It is especially important that each student note that it is the individual student’s responsibility to keep apprised of current degree requirements for his or her particular program.

Graduation Requirement

All students must be enrolled in the term in which they complete the requirements for their degree.
Normally, this is the term in which they will graduate. However, if the requirements are completed after the deadline for graduation in a term, but before the first day of classes in the subsequent term, then it is not necessary to enroll in the subsequent term. If the continuous enrollment criterion is not met in the term in which degree requirements are completed, then it must be met in the term of graduation.

**Doctor of Philosophy**

The Doctor of Philosophy degree is awarded in recognition of the attainment of independent and comprehensive scholarship in a selected field. The Ph.D. emphasizes research in conjunction with the mastery of a substantial body of knowledge. Specific degree requirements may be tailored by the faculty to meet the needs of the individual student.

In order to qualify for the Doctor of Philosophy degree, the student must fulfill the following general requirements:

- **Residence:** Four semesters of residence are required, two of which must be consecutive; during all four semesters the student must register for at least six hours of coursework. A Doctor of Philosophy degree shall be conferred only on that student who holds a distinguished record of academic achievement and has maintained a cumulative grade-point average of at least 3.0 for a minimum period of three academic years of post baccalaureate study. On the recommendation of the major department and with the approval of the appropriate associate dean, up to one-half of the residence requirement may be waived on the basis of competence obtained through coursework completed elsewhere.
- **Foreign Language Requirement:** Some departments require students to demonstrate proficiency in either one or two foreign languages, in an alternative research skill, or in a combination of the two. For specific departmental requirements, students should consult their departmental director of graduate studies.
- **General Examination:** Students must pass a departmentally administered general examination. An Examination Committee shall be appointed by the chair of the major department. The committee shall consist of a minimum of three members, at least two of whom shall be on the faculty of the major department. The general examination shall be written or oral, or both. The examination may be repeated once following a minimum interval of six months either with the original committee or a duly constituted new committee. The examination must be passed at least one academic year prior to the conferral of the degree. The student who fails the examination for the second time will be subject to termination.
- **Admission to Candidacy:** In order to be admitted to candidacy, the student must have met the language or equivalent research skill requirement, if any; must have passed the general examination; and must have a departmentally approved dissertation proposal. Graduate students who have completed these requirements except for their dissertation and related defenses or oral exams may be admitted into ABD (all but dissertation) status. This title will be based on the positive recommendation of the graduate program director and following successful review and certification of other doctoral program requirements by the Office of Graduate Services. This designation does not change any time limits or registration requirements for completion of the degree program.
- **Dissertation:** A dissertation is required of all candidates for the doctoral degree. A Dissertation Committee, of which the dissertation adviser shall be chair, shall pass on the acceptability of each dissertation. The committee shall be nominated by the student and appointed by the chair of the major department. Two-thirds of the committee must approve the dissertation in order for it to be
acceptable as a fulfillment of degree requirements. Currently, dissertations must be microfilmed by ProQuest. The student, with the concurrence of his or her adviser and the chair of the department, may stipulate that microfilming be delayed for a period of two years. A student may choose to have the dissertation copyrighted. The deadlines and procedures for submitting dissertations are available at cas.gsu.edu/graduate-studies/graduation/graduation-requirements/. Research Hours: Each student must register for a minimum of 20 semester hours of dissertation research.

- Final Examination: There shall be a final oral examination that should be directed primarily to the defense of the dissertation. This examination shall be administered by a committee appointed by the chair of the department.

Master of Arts/Master of Science

The requirements stated below are the minimum requirements established by the College of Arts and Sciences for the awarding of the Master of Arts and the Master of Science degrees. In addition to any other departmental requirements, the student seeking either of these degrees must fulfill the following general requirements.

- Coursework: A minimum of 27 semester hours of graduate coursework with a minimum cumulative grade-point average of 3.0 is required. At least 20 hours of graduate coursework must be completed after admission to Full Graduate Status. In addition, students taking the thesis option must successfully complete at least six semester hours in Course 8999 in the major department. If desired, up to 6 semester hours of the 27-hour requirements may be taken in a related field or fields of study.
- Foreign Language: Some departments require students to demonstrate a reading proficiency in a foreign language or an approved equivalent research skill.
- General Examination: Some departments require students to pass a departmentally administered general examination.
- Demonstration of Research Competence.
- Thesis: Ordinarily a thesis is required of all candidates for a master’s degree. A Thesis Committee, of which the thesis adviser shall be chair, shall pass on the acceptability of the thesis. The committee consisting of at least two members shall be nominated by the student and appointed by the chair of the major department. Two-thirds of the committee must approve the thesis in order for it to be acceptable to the Office of Graduate Services. The deadlines and procedures for submission of a thesis are available on the web at cas.gsu.edu/graduate-studies/graduation/graduation-requirements/.
- Non-thesis: A non-thesis option is available in some departments. In lieu of the thesis, research competence must be demonstrated on the basis of a research paper or a creative project. A committee of at least three members of the faculty, of which the student’s adviser will serve as chair, will pass on the acceptability of the paper or project. Two-thirds of the committee must indicate approval. This approval must be submitted in writing to the Office of Graduate Services by the appropriate deadline (cas.gsu.edu/graduate-studies/graduation/graduation-requirements/).

Master of Fine Arts/Master of Art Education

The Ernest G. Welch School of Art and Design offers graduate degrees in seven studio disciplines and in art education. Applicants to studio disciplines are expected to have an undergraduate art degree or its equivalent and appropriate professional skills. Applicants to art education are expected to have an undergraduate art degree or its equivalent and a bachelor’s level teaching certificate. Details for degree
requirements and application procedures are listed under the “Art and Design” section of this catalog.

The Department of English offers a Master of Fine Arts degree in creative writing. Applicants should submit strong portfolios of poetry or fiction. Details for degree requirements and application procedures are listed under the “English” section of this catalog and on the department website.

Master of Music

The School of Music offers graduate degrees in several areas of music. Applicants to these programs are expected to have an undergraduate major in music or its equivalent. All students pursuing the Master of Music degree must pass a general examination, which shall include written and/or oral parts, the precise combination of which is to be at the discretion of the major area advisers. See the “Music” section of this catalog or the departmental website for details.

Master of Heritage Preservation

The College of Arts and Sciences offers a Master of Heritage Preservation degree program. This program is interdisciplinary in nature, but currently is housed in the Department of History. For further information, refer to the description in the “Heritage Preservation Program” section of this catalog, the program website at heritagepr.gsu.edu, or consult Professor Richard Laub, director of the program, at 404/413-6365.

3120 Student Exceptions Procedure

The grievance and appeals procedure for students enrolled in courses or academic programs in the College of Arts and Sciences is available in the departmental and administrative offices of the college and on the university website at enrollment.gsu.edu/assistance/.

Students may request deviations from the regulations in the College of Arts and Sciences section of this catalog by applying for approval to the Graduate Petitions Board. Students considering such a petition should consult the Office of Graduate Studies to determine procedures and to obtain appropriate forms or download them from http://cas.gsu.edu/graduate-studies/graduate-student-advising/. This petition procedure does not apply to department-based regulations.
3010 General Information

The College of Arts and Sciences consists of 26 departments/schools/institutes within the areas of the fine arts, the humanities, the natural and computational sciences, and the social and behavioral sciences. The college has over 13,000 undergraduate and 2,000 graduate students.

Graduate programs offered by the College of Arts and Sciences prepare students for professional careers and provide them with the foundation for meeting the challenges of career development. For these purposes, the College of Arts and Sciences offers the Master of Arts, the Master of Science, the Master of Music, the Master of Fine Arts, the Master of Heritage Preservation, the Master of Art Education and the Doctor of Philosophy degrees. Within the framework of the various degree offerings, specific programs have been designed for students who wish to pursue a career in teaching.
3020 Office of the Dean

25th Floor, 25 Park Place Building
404-413-5114
cas.gsu.edu

Dean to be named
Yi Pan, Interim Associate Dean and Interim Chair of Biology
Donald Reitzes, Associate Dean for the Social and Behavioral Sciences
MaryAnn Romski, Associate Dean for Research and Graduate Studies
Binghe Wang, Associate Dean for the Natural and Computational Sciences
Wade Weast, Associate Dean for the Fine Arts and Director of the School of Music
Carol Winkler, Associate Dean for the Humanities
Amber Amari, Assistant Dean for Graduate Services
John Medlock, Assistant Dean for Academic Services
Fred Mote, Assistant Dean for Administration and Finance
Eric Friginal, Director of International Programs

3020.10 Office of Graduate Services

Suite 800 Haas-Howell Building
404-413-5040
Fax: 404-413-5036
cas.gsu.edu/graduate/

Amber Amari, Assistant Dean for Graduate Services
3030 Academic Programs

The College of Arts and Sciences offers the following graduate degrees:

- Master of Art Education
- Master of Arts in African-American Studies; Anthropology; Applied Linguistics; Art History; Communication; English; French; Gerontology; History; Philosophy; Political Science; Psychology; Religious Studies; Sociology; Spanish; and Women’s, Gender, and Sexuality Studies
- Master of Fine Arts in Creative Writing, with concentrations in Fiction and Poetry; and Studio Art, with concentrations in Ceramics, Drawing, Graphic Design, Interior Design, Painting, Printmaking, Photography, Sculpture, and Textiles
- Master of Heritage Preservation
- Master of Music, with concentrations in Performance (Orchestral Instruments, Organ, Piano, and Voice), Instrumental Conducting, Composition, Choral Conducting, Piano Pedagogy, Jazz Studies, and Music Education
- Master of Science in Biology, Chemistry, Computer Science, Geosciences, Mathematics, Neuroscience, and Physics

Specialist in Education Degree

A Specialist in Education degree with a major in Teaching and Learning and a concentration in art education, foreign language education, or music education is offered by the College of Education and Human Development in conjunction with the Ernest G. Welch School of Art and Design, the Department of World Languages and Cultures, and the School of Music, respectively, in the College of Arts and Sciences. Descriptions of admission and program requirements are outlined in the College of Education and Human Development section of this catalog.

Dual Degrees

The College of Arts and Sciences offers dual degree programs within departments and the college and with other colleges within the university. These programs enable approved students from one degree program to fulfill requirements of another. For more details on dual degrees, please visit cas.gsu.edu/dual-degrees/ and program information in this catalog.

Certificate Programs

The College of Arts and Sciences offers a number of professional certificates in addition to traditional graduate degrees. Each certificate is outlined in the department section of this catalog and on the individual department websites. The college offers graduate certificates offered in the following areas:

- Applied Philosophy (Philosophy)
- Geographic Information Sciences (Geosciences)
- Gerontology
- Historic Preservation (History)
- Interpretation (World Languages and Cultures)
- Latin American Studies (History)
- Music Performance (Music)
- Teaching English to Speakers of Other Languages (Applied Linguistics and ESL)
- Translation (World Languages and Cultures)
- Women’s, Gender, and Sexuality Studies

Applicants not currently in a degree program in the College of Arts and Sciences must apply according to the general application instructions. Currently active degree-seeking students who wish to add to their academic curriculum one of the certificate programs must apply for the certificate but are exempt from the standard admissions fee. Such qualified students should submit an application to the Office of Graduate Services.
A person seeking to pursue any of the programs of graduate study described in this section of this catalog must be admitted to Georgia State University through the College of Arts and Sciences. The requirements for admission stated in the following sections are those established by the University and the College. Additional requirements, if any, established by the separate departments/schools can be found in the descriptions of their programs and on their respective websites.

There are four categories of admission to graduate study in the College of Arts and Sciences: Full Status, Special Status, Non-Degree Status, and Transient Status. A student must achieve Full Status in order to be eligible for a graduate degree. The category of Special Status is designed to accommodate, when practical, applicants with promise who may have certain limited deficiencies in admission requirements. Non-Degree Status is provided for non-degree seeking students who wish to take a limited number of graduate courses. Transient Status is available for graduate students in good standing attending another institution.

The Office of Graduate Services reserves the right to require prerequisites as conditions of admission. Visit the admissions section of the Graduate Services website for detailed information and application at cas.gsu.edu/graduate-studies/admissions/.

Application Completion Deadlines

The Office of Graduate Services lists on its website the dates by which an application to degree programs must be completed. These are the dates that all materials required for admission must be collected in the Office of Graduate Services. Departments have different application completion deadlines, especially for applicants wishing to receive financial assistance. Applicants should check the Office of Graduate Services website at cas.gsu.edu/graduate-studies/admissions/application-deadlines/ and with the department to which they plan to apply for specific application instructions and deadlines.

International applicants must have all application materials in the Office of Graduate Services, College of Arts and Sciences, as early as possible in order to allow sufficient time for the application materials to be reviewed by the department and, if appropriate, for the preparation of necessary visa documents.

Application and Admission

The selection of applicants for admission to graduate study is competitive. Given limited university resources, even applicants with strong credentials may not gain admission to a specific graduate program. Admission is based upon a variety of factors among which is the quality of the applicant’s undergraduate record, achievement on required admissions tests, the degree of preparation for the specific academic program to be pursued, and available space in the program. In addition to these general criteria, individual departments may consider additional factors in making admission decisions. Applicants should be aware that exceptional performance in an undergraduate or a graduate program in one discipline does not guarantee acceptance into another graduate program. Following initial recommendation by the department, the associate dean for Graduate Studies of the college shall make the final decision concerning the acceptance or rejection of an applicant.
A prospective student seeking admission must be a graduate of an accredited college with a four-year baccalaureate degree or the equivalent that reflects superior quality work at the undergraduate level. Each applicant must complete and submit the application for admission to graduate study, any required application materials and the application fee. The College of Arts and Sciences requires all prospective students to submit applications and supporting documents electronically (with the exception of transcripts). The online graduate application can be found at: cas.gsu.edu/graduate-studies/admissions/.

Application materials required for admission to graduate study include the following:

1. One official transcript, mailed directly to the Office of Graduate Services, from each college or university, domestic or overseas, from which applicants received a degree, or where they were enrolled in a degree program for more than a single semester. In addition, applicants should send transcripts from all institutions where they were enrolled in coursework relevant to the degree program for which they are applying. This may include courses taken in non-degree status, in transient status, or in post-baccalaureate status and is regardless of whether or not the courses led to a degree. Separate transcripts are not required for AP credit given for high school courses. As well, separate transcripts are not required for enrichment activities (e.g., summer abroad, summer internship, etc.) that did not involve enrollment in a degree program unless the work is relevant to the program for which they are applying.

2. Official records of scores on the General Test of the Graduate Record Examination (GRE) or similar national examination (see specific departmental requirements) must be directed specifically to Georgia State University from the relevant testing agency. Some departments also require an acceptable score on the Subject Test of the Graduate Record Examination. Several programs accept the Miller Analogies Test. Review the detailed admission process at cas.gsu.edu/graduate-studies/admissions/ for complete instructions. Please note that applicants to the MFA program in Art and Design and to the Master of Music with concentrations in piano performance, organ performance, orchestral instrument performance, voice performance, choral conducting, instrumental conducting, piano pedagogy, and jazz studies are not required to submit national test scores.

3. Any supplemental materials required by the major department beyond transcripts and test scores must be submitted via the online graduate application. These materials may include but are not limited to a statement of purpose, writing sample, cv/resume, letters of recommendation and creative portfolios. Required supplemental materials vary greatly by program. Applicants should visit cas.gsu.edu/graduate-studies/admissions/program-specific-application-information/ for a full list of the materials required and application instructions specific to their department/program of interest.

Admission to the College of Arts and Sciences can only be granted by an Associate Dean of the College. Correspondence from individual departments, professors, or outside agents does not constitute official admission.

Special Status Admission

The use of Special Status admission is solely the prerogative of the department to which application has been made. Special Status admission may be given to applicants who show promise but are not able to fulfill all the requirements for admission to Full Status at the time they apply. Students admitted under the Special Status category are informed of expectations or conditions in the letter of admission. Students
admitted to Special Status may be dismissed from their programs if their departments feel that they are not making satisfactory progress toward promotion to Full Status.

A student must be in Full Status in order to earn a degree. At least 20 semester hours of graduate coursework must be completed after the student is admitted to full status to qualify for graduation.

Non-Degree Admission

Non-Degree Status is provided for students who wish to take a limited number of graduate courses (typically not more than two) that relate to their academic or professional backgrounds but do not lead to an advanced degree. A student seeking admission to Non-Degree Status should complete the online application form at cas.gsu.edu/graduate-studies/admissions/non-degree/ and submit the $50 application fee, transcripts from all colleges or universities attended, and a list of courses he or she wishes to take.

A student is admitted to this status at the option of the department and when adequate resources are available. Applicants for the Non-Degree Status should consult the departmental director of graduate studies to learn about any additional requirements or policies that pertain to non-degree admission.

Admission to Non-Degree Status does not warrant or secure admission to any degree program. Some departments do not accept non-degree students. Please contact the departmental director of graduate studies for further information.

Transient Admission

An applicant seeking admission as a transient student must be a graduate student in good standing at another institution. Admission requirements include completed application forms, application fee, a list of courses the applicant wishes to take, and a letter of good standing from either the graduate dean or the registrar of the student’s institution.

Admission to transient status is for one semester only on a space-available basis. A student who is not in good standing or who is ineligible to return to his or her institution will not be admitted. No guarantee is made that a transient student will be able to secure the courses desired. The reporting of grades earned to the student’s institution is the responsibility of the student.

The College of Arts and Sciences does not allow transient students to reenter. A complete application form, fee, list of courses, and letter of good standing must be sent to the Office of Graduate Services for every semester the transient student wishes to attend Georgia State University.

Deadlines for transient applications are as follows: Summer – May 15; Fall – June 15; Spring – December 1.

Changing Semester of Entry

Admission to a graduate program is valid only for the semester, degree, and major specified in the letter of acceptance. An applicant who is admitted and does not intend to enroll should notify the Office of Graduate Services in writing of this decision as soon as possible. If an accepted applicant wishes to defer entry within one year, the admitting department/school reserves the right to review the application.
materials again and decide if postponement is appropriate. Applicants wanting to change their date of matriculation must notify the department with this request.

Reentry Students

Students of Georgia State University who are on inactive status, or who have received registration holds due to violation of the continuous enrollment policy, must file a reentry application and $25 fee in the Office of Graduate Services by the appropriate deadline for the semester they wish to reenter. The complete reentry application can be downloaded at cas.gsu.edu/graduate-studies/admissions/reentry/. Students who have attended other colleges and/or universities since last registering at Georgia State must have official transcripts of all coursework sent to the Office of Graduate Services, prior to the reentry deadline for the appropriate semester. Degree programs must approve all reentry applications and may deny reentry for a variety of reasons such as a student’s previous academic performance, a student’s progress in the program, the length of time not enrolled, and availability of space in the program. Reentry applications from students whose cumulative grade-point average is below 3.0 require a plan from the program’s graduate director describing how the grade-point average can be improved to 3.0 or better within 18 hours of graded coursework over the next three consecutive terms.

Reentering students are subject to the regulations of the Graduate Bulletin and the degree program current at the time of reentry.

Deadlines for reentry applications are as follows: Summer – April 1; Fall – June 1; Spring – November 1.
Georgia State University encourages the enrollment of students from other countries. Applicants needing a student visa are required to provide proof of financial support for at least the first year of their degree program. International students with a student visa are required to carry a full course of study during every semester except the summer semester. Applicants requesting a student visa may not be considered for Non-Degree Status.

In addition to meeting the regular admission requirements, prospective international applicants must demonstrate proficiency in the English language by taking either the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS). Applicants with a score under 550 on the paper-based TOEFL, 213 on the computer-based TOEFL, 80 on the internet-based TOEFL, or 6.5 on the IELTS cannot be considered for Full Graduate Status; they may, however, be considered for Special Status admission.

Additional testing of skills in English will be required of all newly-admitted international students who come from non-English speaking countries. Prior to registration for the first semester, international students are required to attend a special orientation, held by the Office of International Student and Scholar Services, where they must take the Georgia State Test of English Proficiency (GSTEP) offered by the Department of Applied Linguistics and English as a Second Language. Students who miss the orientation should arrange with the department to take the GSTEP before classes begin or as soon as possible thereafter. Students with acceptable scores on the examination may proceed with their regular academic coursework. Students whose scores indicate a lack of English proficiency will be required to take ESL course or courses as a regular part of their graduate coursework. Any ESL courses required under this provision will be considered part of the student’s normal course load but will not count toward the total hours of coursework a student must take in order to obtain a degree.

GSTEP scores for each student will be sent by the Department of Applied Linguistics and English as a Second Language to the Office of Graduate Services along with a recommendation regarding the additional language course(s) that the student should take. The Office of Graduate Services will then send the information to the appropriate departmental director of graduate studies, who will ensure that the student takes the recommended ESL course(s). Graduate Services will monitor the implementation of this procedure.

Academic credentials must be original documents with authorized signatures, seals, stamps, etc. Whenever possible, these should be sent by the institution responsible for issuing such documents. In cases where it is impossible for an applicant to have these credentials sent from such institutions, the applicant should forward a duly “notarized” or “attested to” copy. The notarization should be done by the proper institutional official or by the Ministry of Education in the home country. Documents in a language other than English must be accompanied by translations. Translations should be made by the home country embassy or an appropriate official, and the original copies of the translations, acceptably notarized as described above, must be provided. As a general rule, documents translated by the Office of the American Friends of the Middle East (AFME), the Institute of International Education (IIE), the student’s home embassy, the American embassy, or the language faculty of a regionally accredited U.S. college or university will be acceptable. Students who already attend school in the U.S. can arrange to have their institutions certify photocopies of original documents, and students in the Atlanta area can arrange for the
Office of Graduate Services to certify photocopies of required foreign academic credentials.
3060 Graduate Teaching and Research Assistantships

Each academic department in the College of Arts and Sciences offers opportunities for qualified students who have been accepted into one of the graduate degree programs to work as laboratory, research, or teaching assistants. Graduate assistants work as tutors, aid faculty members in research projects, supervise laboratories, and teach undergraduate courses. Assistantships normally are awarded only to students enrolled full time in their degree programs. For the expected level of enrollment, see “Courses and Course Load” in section 3100 below. Students interested in graduate assistantships should contact the directors of graduate studies in their departments for specific information.

Students receiving assistantships as well as financial aid should be aware that receiving an assistantship can reduce the amount of financial aid awarded.

Graduate Assistantship Deadlines

Most departments/schools have early deadlines for graduate teaching or research assistantships. If you would like to be considered for an assistantship, please consult the appropriate departmental section of this catalog or departmental websites to obtain the deadline for the program to which you plan to apply.

Graduate Study Funding

In addition to graduate assistantships, the college and university offer a variety of fellowships, scholarships, and other sources of financial support for graduate education. Information about many of these offerings is available at cas.gsu.edu/graduate-studies/financing-your-education/.
In departments where a new application is required from the master's to the doctoral program, master's and doctoral cumulative GPAs will be calculated separately. In departments where only one application is required for entry into a continuous graduate program, the cumulative GPA will remain combined. All credits earned while a student is in non-degree status that are approved for, and used to fulfill requirements to the master's degree will be calculated into the cumulative master's GPA. In order to qualify for graduation with a degree from the College of Arts and Sciences, a student must have a minimum GPA of 3.0.
3080 Scholastic Warning & Scholastic Termination

Scholastic Warning

Graduate students are personally responsible for knowing and maintaining department and College academic standards. A graduate student whose cumulative grade-point average falls below 3.0 at the end of a semester or who fails to maintain the level of academic performance required by the major department will be sent a letter of scholastic warning from the associate dean for Graduate Studies in the College of Arts and Sciences. Some departments have additional requirements for academic performance and progress. In these instances, the departmental graduate director will attempt to warn the student. However, the receipt or non-receipt of academic warning does not exempt the student from stated requirements. Students in Warning Status must achieve a 3.0 cumulative grade-point average within 18 hours of graded coursework over the next three consecutive terms.

Scholastic Termination

A graduate student is subject to scholastic termination from the degree program for the following reasons:

1. Failure to achieve a 3.0 cumulative grade-point average by the end of the next 18 semester hours of enrollment or next three consecutive terms in letter-graded courses after the GPA has fallen below a 3.0;
2. Failure to maintain the level of academic performance and progress required by the major department;
3. A second failure on the General Examination in the M.A., M.S., or Ph.D. degree programs.

The student who may be subject to scholastic termination will be notified of termination by the associate dean for Graduate Studies the College of Arts and Sciences.
Some departments in the College of Arts and Sciences require students to demonstrate proficiency in either one or two foreign languages, in an alternative research skill, or in a combination of the two. An alternative research skill is a proficiency obtained in an adjunct area that is ordinarily not a degree requirement in the student’s degree program. Students should consult their individual directors of graduate studies for specific departmental requirements.

An international student whose native language is not English and who demonstrates proficiency in English to the Department of Applied Linguistics and English as a Second Language may be exempted from one foreign language requirement. Exceptions to this policy may be allowed only with departmental approval and by means of approved substitutions of equivalent research skills. The English for Foreign Language Requirement Exam (EFLRE) requires students to perform satisfactorily on the GSTEP, including the oral interview.

International students who will be using English to satisfy the foreign language requirement will take the EFLRE, and the result will be sent to the student’s academic department. Because GSTEP results are considered by the Department of Applied Linguistics and English as a Second Language to be current for two years, students who wish to satisfy the foreign language requirement within the first two years of their arrival at Georgia State may use the GSTEP results already on file in the Department of AL/ESL if those results are satisfactory. If students were not required to take the oral interview section of the GSTEP when they arrived, they will need to contact the Department of AL/ESL to take it to fulfill the EFLRE requirement. Students who wait longer than the two year period will be required to take the complete EFLRE, which means retaking all sections of the GSTEP.

Courses taken to satisfy the foreign language requirement will not count toward the total hours of coursework a student must take in order to obtain a degree.
3130 African-American Studies

Programs Offered:

- Master of Arts in African-American Studies
  - Concentration in Community Empowerment
  - Concentration in Culture and Aesthetics

Department of African-American Studies
962 One Park Place South
Georgia State University
P.O. Box 4109
Atlanta, Georgia 30302
404-413-5135
aas.gsu.edu

Akinyela Umoja, Chair
Sarita Davis, Graduate Director

The Department of African-American Studies offers a vibrant and highly competitive graduate program. The department’s Master of Arts degree is designed to provide students with a rigorous interdisciplinary training in the scholarly investigation of people of African descent. The faculty and the courses of the graduate program are drawn from the department and other academic units throughout the university.

The Master of Arts degree in African-American Studies offers two areas of concentrations: the Community Empowerment track and the Culture and Aesthetics track. The Community Empowerment concentration focuses on the historical and contemporary strategies to empower people of African descent. This track exposes the student to the political, economic, and policy responses to the impediments of African/African-American community development. The Culture and Aesthetics concentration focuses on the understandings and the interpretations of the philosophical, literary, and artistic contributions of people of African descent.

Students are prepared to pursue a doctorate in African-American Studies or other related disciplines in the social-sciences or the humanities. The M.A. degree in African-American Studies also enhances a career in government, education, the professional fields, and the non-profit sector.

Students seeking admission to the graduate program are admitted once a year to begin in the fall semester. All application materials are due by March 15th. Applicants may obtain additional information about the Department of African-American Studies by contacting the Director of Graduate Studies at the addresses above.

Additional Admission Requirements

In addition to the general admission requirements of the College of Arts and Sciences, the Department of African-American Studies has the following admission requirements:

1. Although an undergraduate degree in African-American Studies is not required, applicants are
expected to have taken extensive coursework in African-American Studies.
2. Applicants must submit scores on the verbal, quantitative, and analytical sections of the GRE.
3. Applicants must have a 3.0 cumulative undergraduate grade point average.
4. Applicants must submit a career goals statement (2-3 pages).
5. Applicants must submit a writing sample of their previous scholarly work (10-20 pages)
6. Applicants must submit three letters of recommendation which assess the ability of the student to undertake graduate study.

Degree Requirements

In order to earn a Master of Arts degree in African-American Studies, a student must complete 36 credit hours of graduate coursework:

1. Students must complete fifteen (15) hours of core requirements
   - AAS 6000 Proseminar in African-American Studies (3)
   - AAS 6005 Theories in African-American Studies (3)
   - AAS 6007 Black Feminist Thought (3)
   - AAS 6010 Research Methods in African-American Studies (3)
   - AAS 6012 Qualitative Research Methods (3)
   - AAS 6052 African Women and Social Political Changes (3)

2. Students must complete three (3) hours of global competency by completing either
   - AAS 6050 African Social Movements (3), or
   - AAS 6052 African Women and Social Movements (3)

3. Students must complete twelve (12) credit hours of coursework in one of two areas of concentrations: Community Empowerment or Culture and Aesthetics:
   - Community Empowerment: (12 credit hours)
     Students who select the Community Empowerment concentration must complete at least twelve (12) credit hours of designated Community Empowerment coursework:
     - AAS 6015 Methods in African American Oral History (3)
     - AAS 6016 Critical Pedagogy and African American Education (3)
     - AAS 6020 African-American Social Movements (3)
     - AAS 6022 The New African American Urban History and the Intervention of the Black Southern Diaspora (3)
     - AAS 6025 Seminar in African-American History (4)
     - AAS 6026 Seminar in African-American Women’s History (4)
     - AAS 6027 Seminar in Southern Black Freedom Struggle (4)
     - AAS 6029 African-American Political Participation (3)
     - AAS 6030 Dynamics of the African American Family (3)
     - AAS 6032 African-American Masculinity (3)
     - AAS 6034 African-American Women in the U.S. (3)
     - AAS 6040 African-American Community Empowerment (3)
     - AAS 6042 Diversity and Aging (3)
     - AAS 6044 African-American Anthropology (3)
     - AAS 6050 African Social Movements (3)
     - AAS 6052 Africana Women and Social Political Change (3)
     - AAS 6055 African Politics (3)
- AAS 6056 Geography of Africa (3)
- AAS 6095 Race, Class and Gender in Contemporary South Africa (3)

○ Culture and Aesthetics: (12 credit hours)

Students who select the Culture and Aesthetics concentration must complete at least twelve (12) credit hours of designated Culture and Aesthetics coursework:

- AAS 6060 African Art (3)
- AAS 6062 Contemporary African Art (3)
- AAS 6063 Art of Egypt, Nubia & Maghrib (3)
- AAS 6070 African-American Literary Theory (3)
- AAS 6073 19th Century African-American Literature (3)
- AAS 6075 20th Century African-American Literature (3)
- AAS 6079 African American Language (3)
- AAS 6080 The Black Arts Movements (3)
- AAS 6082 African-American Art (3)
- AAS 6090 African-American Religion (3)
- AAS 6065 Black Visual Representation: The Iconography of the African Diaspora (3)

4. Students non-designated African-American Studies coursework requires prior approval from the graduate director.

5. Students must complete at least six (6) credit hours of AAS 8999 Thesis Research.

7. Students must satisfactorily pass an oral thesis defense.
3140 Anthropology

Programs Offered:

- Master of Arts in Anthropology

Department of Anthropology
33 Gilmer Street
Georgia State University
P.O. Box 3998
Atlanta, Georgia 30303
404-413-5156
anthropology.gsu.edu

Kathryn A. Kozaitis, Chair
Emanuela Guano, Director of Graduate Studies

The Master of Arts (M.A.) degree program in anthropology provides rigorous training in anthropological theories, methods, and skills. The program is dedicated to the investigation of a broad range of social, cultural, political-economic, and biological issues, processes, and problems pertaining to the human experience in its present and past dimensions. The Department of Anthropology program utilizes resources in metropolitan Atlanta to promote student learning.

Students may select to conduct basic or applied research in consultation with their primary advisor and in line with career aspirations. They may seek comprehensive training in anthropological methods and theory in anticipation of pursuing an academic career in anthropology or enhancing their education in another discipline. Alternatively, they may pursue specialized training in methods, problems, and theories for a career in urban applied anthropology—applications of anthropological knowledge to assess and help meet community needs, identify and help solve social problems, or write and help to implement policy. For example, students who seek training in applied sociocultural anthropology conduct participatory action research in urban domains of policy and practice, including medical, educational, and other social services settings. Students with career interests in public archaeology study within cultural resource management (CRM) firms and museums. All students have the option to complete an internship for academic credit as part of their curriculum in such agencies as CARE, the Carter Center, the Georgia Bureau of Investigation, and at any of the multiple human service organization that serve immigrants and refugees in metropolitan Atlanta.

In order to provide graduate students with training specific to their career goals, the program offers a Thesis Option and a Practicum Option. Students may choose either option in consultation with their advisor. The Thesis Option requires primary basic research on an issue relative to the student’s subdiscipline of concentration, e.g. archaeological, biological, cultural, or linguistic anthropology. The Practicum Option requires primary applied research on a problem relative to the student’s chosen domain of professional anthropology, e.g. health, education, business, cultural preservation, museums, forensics, development, advocacy, policy, community building, and other programs and interventions to advance social justice. The M.A. program is designed to be completed in two years. During the first year, all students are required to demonstrate competence in topics, theories, and methods of anthropology through completion of a four-course core curriculum. This includes training in the use of qualitative and
quantitative methods to develop critical perspectives on socio-cultural issues. Additional coursework is completed in consultation with the faculty. During their second year, students are expected to develop their own areas of interest and expertise within the broader framework of the program. Students are encouraged to take advantage of resources in other departments and schools at Georgia State University, and of neighboring institutions such as Emory University, the Georgia Institute of Technology, the Atlanta University Center, the Center for Disease Control and Prevention, the University of Georgia, and the Georgia Regents University in Augusta. Students can also choose to participate in our department’s collaborative programs with the Fernbank Museum of Natural History, the Atlanta History Center, the Georgia State University’s Heritage Preservation Program, the Atlanta Zoo, and a number of local museums and CRM firms.

Applicants may obtain additional information about the Department of Anthropology by contacting the Director of Graduate Studies at the addresses above.

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Anthropology has the following requirements:

A. Two letters of recommendation from individuals who can evaluate the applicant’s potential to do graduate work in anthropology.
B. A supplemental application form provided by the department.
C. Curriculum vita or resume.
D. Writing sample

Degree Requirements

• Thesis Option (33 hours)
• Practicum Option (33 hours)
• Internship Option

The following courses are required:

1. ANTH 8000 Anthropological Theory and Praxis (3)
   • ANTH 8040 Seminar in Anthropology (3) or ANTH 8050 Seminar in Applied Anthropology (3)
   • One course at the 6000 or 8000 level in Biological Anthropology
   • One course at the 6000 or 8000 level in Archaeology
2. One of the following methods courses (as relevant to the student’s MA concentration):
   • ANTH 6670 Methods in Sociocultural Anthropology (3) or ANTH 8010 Qualitative Methods in Anthropology (3)
   • ANTH 6360 Methods and Theories in Biological Anthropology (4) or ANTH 6370 Forensic Anthropology (3)
   • ANTH 6590 Archaeological Methods (4)
3. Additional 6000/8000-level anthropology courses in area of specialization to achieve a total of 33 semester hours for thesis option and 36 semester hours for practicum and internship options. Up to six hours of graduate courses may be taken outside the anthropology program.
4. Proficiency in a foreign language or approved research skill
5. A general written and oral examination must be passed on or near the completion of coursework requirements.
6. Thesis option: Either six credit hours of ANTH 8999* (Thesis Research), or three credit hours of ANTH 8999* plus ANTH 8060 (Writing Seminar in Anthropology).
7. Practicum option: Either three credit hours of ANTH 8990* (Research Practicum), or ANTH 8060 (Writing Seminar in Anthropology).
8. Internship option: Three credit hours of ANTH 8910* (Internship).

* Indicates courses graded on a satisfactory/unsatisfactory basis. Grades do not affect GPA.
The department offers a Master of Arts (M.A.) degree in applied linguistics that integrates the study of second language acquisition theory with practical applications. Both the theoretical and practical aspects of the program focus on the language acquisition needs of adolescent and adult learners of English as a second language or English as a foreign language.

The department participates in the Master’s International Program with the Peace Corps. This program enables students to obtain an M.A. degree and serve in the Peace Corps. Students take one year of coursework, serve two years in the Peace Corps (receiving 6 hours of course credit), and return to Georgia State University to finish their coursework.

Students may obtain additional information about the Department of Applied Linguistics and English as a Second Language by contacting the Director of Graduate Studies at the addresses above.

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Applied Linguistics and English as a Second Language have the following requirements:

1. A typed statement of professional and academic goals that is at least two to three pages in length.
2. Three letters of recommendation, preferably from academic references.
3. For non-native speakers of English, official scores on the TOEFL (Test of English as a Foreign Language) or IELTS (International English Language Testing System).

Degree Requirements

Master of Arts (36-hour program)

1. The following core courses:
   a. AL 8240 General Linguistics (3)
Ph.D. Program in Applied Linguistics

The Department offers a Doctor of Philosophy (Ph.D.) program in response to societal needs resulting from the current status of English as the language of international communication. This worldwide use of English in programs and institutions of higher education has created a need in two areas. The first urgent need is research on an assortment of interrelated topics: language learning by adults who will use English for academic purposes, effective teaching of adult language learners, and the nature of English as an academic language. The second need is for doctoral faculty who can teach in educational programs that prepare master’s level teachers of English as a Second/Foreign Language.

Ph.D. students may focus on a range of topics. Research, for example, may be related to issues in second language writing, reading, listening, or speaking; analysis of academic language; assessment; teacher cognition; classroom dynamics; sociolinguistics; or the role of culture in second language acquisition.

Admission to the Ph.D. Program

Requirements for admission include (1) a master’s degree in applied linguistics or a related field, (2) teaching experience in a second or foreign language, and (3) GRE scores appropriate for doctoral level work. Non-native speakers of English must submit TOEFL scores of at least 600 on the paper-based test or 250 on the computer-based test and a score of at least 5 on the Test of Written English or the TOEFL Writing Test, or if the Internet-based TOEFL is taken, a composite score of 97 and writing score of 22 and speaking score of 24 are required. At the master’s level, successful Ph.D. applicants would have had at least a GPA of 3.5 on a 4.0 scale with the strength of the M.A. program taken into consideration. Students who demonstrate prior experience with adult language learners and/or English for Academic Purposes will be preferred. In addition, students who demonstrate research potential based on an M.A. thesis or research papers submitted as part of the application process will be preferred. New students will be admitted only in the fall semester.
Applicants must submit the following materials:

1. Completed graduate program application form;
2. Two copies of official transcripts from all colleges attended;
3. Official verbal, qualitative and analytic scores on the GRE and, if applicable, official scores on the TOEFL or IELTS;
4. Three letters from academic references;
5. Sample of academic writing (published or unpublished);
6. Statement of professional and academic goals that includes a response to the following: Why are you seeking a Ph.D. in Applied Linguistics (specifically in the Department of Applied Linguistics and ESL at Georgia State University)? What are your research interests? With what faculty member are you interested in studying?
7. Current C.V.

Ph.D. Program: Components and Requirements

The Ph.D. program in applied linguistics consists of five main components and requirements:

1. Required and elective coursework, with a GPA of 3.5 or higher
2. Language requirement
3. Qualifying paper
4. Comprehensive exams
5. Dissertation

Coursework

In the first two years of doctoral study, students will take five required core courses (15 semester hours) in conjunction with an additional 15 semester hours of coursework and 21 semester hours of dissertation credit. For students whose M.A. is not in Applied Linguistics, check the website for prerequisite courses.

The courses in the program over three content areas include the following:

- **Area I: Research Methods and Applications**
- **Area II: Language, Cognition, and Communication**
- **Area III: Language Teaching and Teacher Development**

The five required core courses from Areas I through III are the following:

**Area I:**

- AL 8960 Quantitative Research Methods
- AL 8961 Qualitative Research Methods

**Area II:**

- AL 8970 Linguistic Analysis (phonetics-phonology topic)*
- AL 8970 Linguistic Analysis (morphology-syntax-semantics topic)*
• AL 8980 Current Issues in Adult Second Language Acquisition

Area III:

• AL 8990 Current Issues in the Preparation of Second Language Teachers

*Students are required to fulfill breadth and depth requirements in linguistic theory. The preferred way to do this is by taking both versions of AL 8970. However, students may be exempted from one of the AL 8970 courses if they have taken AL 8240 General Linguistics or an equivalent course from another institution. (General Linguistics itself does not count toward the 30-hour requirement.) Those who wish to teach Introduction to Linguistics need to have taken both Linguistic Theory courses.

Additionally, all PhD students must have taken a course comparable to AL 8550 Second Language Evaluation and Assessment either at the MA level or while in the PhD program in AL/ESL. If it is taken during the PhD program, it counts as 3 of the 6 hours that can be taken in courses that are aimed at both MA and PhD students (see below).

Language Requirement

Teacher-scholars who work in the field of applied linguistics need to experience second language study and use. This experience may take different forms.

• Successful completion (a grade of “B” or higher) in a minimum of four semesters of university language study, or
• A minimum of one year living in a country where English is not the primary language and learning and using a language of the country, or
• The acquisition of additional language(s) as a child or adult.

Students whose language study does not fit one of these three categories are required to successfully complete four semesters of language study or an intensive program that covers at least four semesters of work.

Qualifying Exam

The purpose of the Qualifying Exam is for the PhD student to demonstrate theory and content knowledge, research and methodology competence, and communication skills, as well as to develop a plan of study. It consists of a Qualifying Paper and a meeting with a faculty committee (the “exam” proper).

The Qualifying Paper is an empirical paper that is completed in a course during their first year in the program. The goals of the meeting with the faculty are to discuss the paper and to advise the student on a plan for the rest of their program.

Comprehensive Examination

After students complete their coursework, they take comprehensive exams. Students receive three topics and have two weeks to write responses to all three. The questions will require the student to address issues in theory, research methodology, research topics of importance in the field, and/or topics related to the
student’s intended dissertation research. At least one of the topics will require consideration of issues that overlap the boundaries between language, cognition & communication and language teaching & language teacher development.

Dissertation

When students have passed their comprehensive exams, they officially begin work on their dissertation. The dissertation process consists of three stages: a proposal, research and writing, and an oral defense.

Dual B.A./M.A. Program in Applied Linguistics

The department offers a dual Bachelor of Arts and Master of Arts in Applied Linguistics. The dual degree opportunity enables qualified students to enroll in graduate courses late in their undergraduate program and apply the coursework toward both the bachelor’s and master’s programs.

Students must be formally accepted into the dual degree program by the department and College of Arts and Sciences to be able to take graduate courses as an undergraduate. Additionally, acceptance into the dual program does not constitute admission to the master’s program. Students must fulfill regular graduate admissions requirements and apply for the master’s program following college processes.

Information about the dual program, including application instructions and program requirements, can be found at cas.gsu.edu/dual-degrees/.

Graduate Certificate in Teaching English to Speakers of Other Languages

The Graduate Certificate in Teaching English to Speakers of Other Languages (TESOL) will be awarded to students who successfully complete a series of five graduate courses (15 hours) offered by the Department of AL/ESL. The Graduate TESOL Certificate is an entry-level credential for those who plan short-term stays overseas or who are interested in employment in adult schools, private language institutes, or non-profit organizations that offer adult English language courses.

Through this certificate program, students will:

- Learn language teaching methodology and principles of second language acquisition
- Study the nature of language and the structure of English
- Gain practical experience in language classrooms

Program Requirements:

- Required foundational courses: 9 hours of the following courses
  - Approaches to Teaching English as a Second/Foreign Language (AL 8450)
  - General Linguistics (AL 8240)
  - Practicum (AL 8900), Classroom Practices (AL 8480), or International Internship (AL 8410)
- Elective courses: 6 credit hours from the following courses
  - Second Language Acquisition (AL 8250)
  - Sound System of English (AL 8320)
  - English Grammar for ESL/EFL Teachers (AL 8460)
3160 Art & Design

Programs Offered:

- Master of Arts in Art History
- Dual B.A. in Art (Art History Concentration) / M.A. in Art History
- Master of Art Education
- Master of Fine Arts

Ernest G. Welch School of Art and Design
Georgia State University
P.O. Box 4107
Atlanta, GA 30302-4107

artdesign.gsu.edu
E-mail: artgrad@gsu.edu

Michael White, Director
Craig Drennen, Director of Graduate Studies

The Master of Arts (M.A.) degree in art history prepares candidates for professional activities in museums, and galleries, and in the fields of historic preservation, conservation, and art criticism. The program also prepares students for graduate work at the doctoral level.

The Master of Art Education (M.A.Ed.) degree allows students to strengthen art content while developing skill in the teaching of art at all levels. Students who hold degrees in either art or art education and have obtained Tier 4 (T4) certification are encouraged to apply. The Master of Art Education program structure is based on a cohort group of students who progress through course work together. Both traditional master students with teaching certification and graduate students seeking certification may be included in the cohort. Graduate students seeking certification must complete some additional course work for certification as advised by graduate faculty based on the portfolio review. The program is designed so that graduates may pursue further study at the doctoral level.

Students seeking a graduate degree with certification may apply to the MAT in ArtEd. Candidates for the MAT may be asked to complete additional coursework as advised by graduate faculty based on the portfolio review.

The Master of Fine Arts (M.F.A.) degree program in studio arts is subdivided into the following areas of specialization: Ceramics (CER); Drawing and Painting (DP); Graphic Design (GRD); Interior Design (ID); Photography (PHOT); Printmaking (PRT); Sculpture (SCU); and Textiles (TXT). Each specialization requires course work within the discipline. Students should stay in close contact with their faculty advisers to determine which particular classes are best suited to their development as artists and designers.

All degree programs of the Welch School of Art and Design are accredited by the National Association of Schools of Art and Design (NASAD).
Applicants may obtain additional information about the Welch School of Art and Design by contacting the Director of Graduate Studies at the addresses above.

Application Procedures

The Welch School of Art and Design admits students from a variety of undergraduate backgrounds who have a record of academic excellence and demonstrated skill in a visual art discipline. The applicant must specify one of the above degrees and the area of concentration on the application form. Applicants interested in an assistantship should fill out an assistantship form and submit it with their application. All accepted applicants are considered for scholarships—no form is necessary.

Applications for the Art History and Studio programs are reviewed once a year, in the spring, for fall admissions. Applications for the M.A.Ed programs are reviewed in the spring (for fall admissions). Each applicant must satisfy the general requirements of the Office of Graduate Services of the College of Arts and Sciences. Incomplete or improperly prepared applications and portfolios will not be reviewed.

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Welch School of Art and Design have the following requirements:

M.A. Degree

Applicants for the M.A. degree must submit the following items:

1. Three letters of recommendation. No form is required.
2. A one-to-two-page statement of purpose describing current academic interests, proposed area of specialization, and long-range career goals. The statement should also explain how the art history graduate program at Georgia State will serve those interests and goals.
3. A writing sample such as a term paper from an upper-level art history course.
4. GRE scores.

The statement and writing sample should be included with the other application materials sent to the Office of Graduate Services, College of Arts and Sciences.

Specific admission requirements for the M.A. degree in art history include the following:

1. A high standard of overall undergraduate achievement.
2. Undergraduate coursework in art history. Applicants normally should have a minimum of five upper-level courses or the equivalent.

Applicants to the art history graduate program are also encouraged to meet personally with a member of the art history faculty.

Please note: Deadlines are not postmark deadlines but deadlines for completion of applications.

All materials must be in the College of Arts and Sciences Office of Graduate Services by the deadline. Due
to the volume of applications submitted each year, a return receipt is highly recommended. It is also recommended that you submit all your materials a month in advance.

M.A.Ed. Degree (36 hours)

Applicants for the M.A.Ed. degree must submit the following items:

1. Three letters of recommendation. No form is required.
2. Statement of Intent: A one-to-two-page statement of purpose describing current academic interests, proposed area of specialization, and long-range career goals. The statement should also explain how the graduate program at Georgia State will serve those interests and goals.
   The letters of recommendation and the statement of intent should be included with the other application materials sent to the College of Arts and Sciences Office of Graduate Services.
3. Portfolio: A successful portfolio demonstrates creativity and commitment in a cohesive body of work. The portfolio should contain both two- and three-dimensional work. It should reflect basic skills in drawing and design and sufficient advanced skill in one area. A total of twenty images should be submitted if the applicant is not a practicing art educator. If the applicant is a practicing art teacher, a minimum of ten images of personal studio work and up to ten images of student work are acceptable. Under no circumstances should more than twenty images be submitted. Examples of work by the applicant’s students should represent a variety of media and reflect quality in design, craftsmanship, originality, complexity, and historical or cultural content.
   Submission guidelines for the statement and portfolio preparation are the same as the M.F.A. degree (listed below).
4. GRE or MAT scores.

Specific admission requirements for the M.A.Ed. degree include the following:

1. An undergraduate major appropriate to the intended major at Georgia State University.
2. A high standard of overall undergraduate achievement, usually a grade-point average of 3.0 or higher.
3. Proof of Tier 4 teaching certification (from Georgia or other state).

Applicants to the M.A.Ed. degree program who would like to supplement their portfolios before making official application are encouraged to enroll in the Welch School of Art and Design as post baccalaureate or non-degree graduate students. Application forms for post baccalaureate status may be requested from the Undergraduate Admissions Office at Georgia State University. Application forms for non-degree graduate status are available from the Office of Graduate Services of the College of Arts and Sciences, 404/413-5040. Applicants are encouraged to meet personally with a member of the art education faculty to familiarize themselves with requirements of the program before application.

Please note: Deadlines are not postmark deadlines but deadlines for completion of applications.

All materials must be in the College of Arts and Sciences Office of Graduate Services by the deadline. Due to the volume of applications submitted each year, a return receipt is highly recommended. It is also recommended that you submit all your materials a month in advance.

Program Financial Information
Effective summer 2009, lab fees will be assessed automatically for students who register for certain courses. As a result, students will no longer be required to purchase lab fee cards. For more information, please feel free to contact the department or review the GoSolar or catalog course listings to determine if a course includes a lab fee.

M.F.A. Degree:

Applicants for the M.F.A. degree must submit the following items:

1. Three letters of recommendation. No form is required.
2. A one-to-two-page statement of purpose describing current academic interests, proposed area of specialization, and long-range career goals. The statement should also explain how the graduate program at Georgia State would serve those interests and goals.
3. Portfolio: A successful portfolio demonstrates creativity and commitment in a cohesive body of work. Admissions portfolios may include still images; film/video projects; musical performances/compositions; videos of acting/dance/performance. The portfolio may include one of the following:
   - 20 examples of work on CD
   - Film/video projects – DVD or Quicktime on CD. Six minutes maximum.
   - Musical performances/sound work/compositions. Six minutes maximum.

Please do not send original work. Deadlines are not postmark deadlines but deadlines for completion of applications.

All materials must be in the College of Arts and Sciences Graduate Services Office by the deadline. It is recommended that you submit all your materials a month in advance.

Still image submissions:

Label all materials with name and area of study. Include no more than 20 images. Be sure to include the title of the work, date, medium and dimensions as part of your file and metadata. Include 20 images in JPEG format (150 DPI, 1500 pixels on greatest dimension).

Moving image/sound submissions:

Label all materials with name and area of study. Include no more than 6 minutes of audio-visual material. Work must be accompanied by a list with the title of the work, date, full running time, and the student’s role (e.g., director, actor, etc.) in each work and must be submitted in the appropriate file format for the medium.

If an applicant wishes to include a mixture of stills, sound, or moving images, then the materials will be divided evenly. For example, if still and moving images are submitted, 10 stills and 3 minutes of motion are allowed.

Degree Requirements
Master of Arts in Art History (36 hours)

The Master of Arts in Art History offers two tracks: a thesis track and a non-thesis track. Students declare which track they intend to pursue after having completed 18 hours of coursework, with the art history faculty then determining whether or not they may continue in their chosen track. Students who do not have a GPA of at least 3.7 (A-) will generally not be allowed to continue in the program, and students who have not demonstrated sufficiently strong research and writing skills will not be allowed to pursue the thesis track. Students who plan to continue graduate work after the Master of Arts in Art History at Georgia State University are urged to pursue the thesis-track option.

Each student will be assigned an adviser upon acceptance into the program, but may change advisers contingent upon acceptance by the subsequent adviser. Students are responsible for making appointments with their advisers and for being familiar with the requirements for the degree. Students must work closely with their advisers to determine the best distribution of art history courses and the most pertinent electives, as well as to make sure that they correctly progress towards the degree.

All candidates for the Master of Arts degree in Art History must demonstrate a reading knowledge of either French or German. The language requirement should be fulfilled no later than the end of the first year (or 18 hours) of graduate work. This requirement may be adjusted by petition of the student if his/her major area of research requires learning a language other than French or German. The foreign language reading requirement may be satisfied by:

1. Completing or providing evidence of completion of two years of college coursework in the requisite language.
2. Passing a reading examination administered by the Department of World Languages and Cultures. The reading tests, offered once a semester, emphasize translation ability. Students are permitted to take the exam more than once, if necessary.
3. Receiving a B or better in FREN 7151 French for Reading, GRMN 7151 German for Reading, or, with permission, SPAN 7151 Spanish for Reading.

Courses taken to satisfy the foreign language requirement will not count toward the total hours of coursework a student must take in order to obtain a degree. Graduate-level language courses can be taken as electives, and FREN 7151, GRMN 7151, or SPAN 7151 can be taken as an elective once the student has already fulfilled the foreign language reading requirement in another language.

Thesis Track (33 hours):

1. Eighteen hours of coursework consisting of six art history lecture courses or seminars with a minimum of three seminars (AH 6000 or AH 8000 level).
2. Three hours of AH 8010 Methodology and Historiography of Art.
3. Six hours of electives in related areas
4. Thesis proposal approved by the thesis committee.
5. Six hours of AH 8999 Thesis Research.
6. Thesis approved by the thesis committee.

(In regard to 4, 5, and 6, students should consult the latest art history thesis guidelines.)
Students should take at least one course in three of five general areas of study. These areas are: Ancient Art; Medieval, Renaissance, and Baroque Art; Modern Art; Art of Africa and the African Diaspora; and Art of the Americas.

Non-Thesis Track (36 hours):

1. Twenty-seven hours of coursework consisting of nine art history lecture courses or seminars with a minimum of four seminars (AH 6000 or AH 8000 level).
2. Three hours of AH 8010 Methodology and Historiography of Art.
3. Six hours of electives in related areas.

Students should take at least one course in three of five general areas of study. These areas are: Ancient Art; Medieval, Renaissance, and Baroque Art; Modern Art; Art of Africa and the African Diaspora; and Art of Asia and the Americas.

Dual B.A. in Art (Art History Concentration) / M.A. in Art History

The department offers a dual Bachelor of Arts with an Art History concentration and Master of Arts in Art History. The dual degree opportunity enables qualified students to enroll in graduate courses late in their undergraduate program and apply the coursework toward both the bachelor’s and master’s programs.

Students must be formally accepted into the dual degree program by the department and College of Arts and Sciences to be able to take graduate courses as an undergraduate. Additionally, acceptance into the dual program does not constitute admission to the master’s program. Students must fulfill regular graduate admissions requirements and apply for the master’s program following college processes.

Information about the dual program, including application instructions and program requirements, can be found at cas.gsu.edu/dual-degrees/.

Master of Art Education (36 hours)

Course of Study

1. Three hours of art history coursework
2. Nine hours of coursework in a studio concentration
3. Nine hours of 8000 level art education coursework
4. Three hours of coursework in the area of the psychology of learning, to be selected from:
   - *EPY 7080 The Psychology of Learning and Learners (3)
   - EPY 7090 The Psychology of Learning and Learners: The Young Child (3)
5. Three hours of coursework in the areas of philosophical and social foundations of education, to be selected from:
   - EPSF 7100 Critical Pedagogy (3)
   - EPSF 7110 Multicultural Education (3)
   - *EPSF 7120 Social and Cultural Foundations of Education (3)
6. Three hours of research methodology, to be selected from:
   - *EPRS 7900 Methods of Research in Education (3)
   - EPRS 7910 Action Research (3) (preferred)
   - EPRS 7920 Classroom Testing, Grading, and Assessment (3)
7. Six hours of AE 8999, Thesis Research.

*These specific education courses are offered on-line and are aligned with the low-residency MAEd cohort program structure.

The thesis in art education may concentrate solely on an art education issue, or explore a studio or art history oriented problem that is tied to an art education issue. Research in art education may focus on action research in the candidate’s own classroom as well as other research methodologies. Thesis research that includes a thesis exhibition is also acceptable.

Master of Fine Arts, Studio (72 hours)

MFA with Concentrations in Ceramics (CER), Drawing and Painting (DP), Graphic Design (GRD), Interior Design (ID), Printmaking (PRT), Photography (PHOT), Sculpture (SCU), and Textiles (TXT)

In general, the requirements for an MFA are as follows:

<table>
<thead>
<tr>
<th>Category of Work</th>
<th>Units Required</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Studio-Specific Courses</td>
<td>30</td>
<td>Graduate Studio/Design Seminars and Graduate Studio/Design Practice</td>
</tr>
<tr>
<td>Electives</td>
<td>6</td>
<td>Variable – must be outside area of specialization, can be outside School of Art and Design</td>
</tr>
<tr>
<td>Art History</td>
<td>12</td>
<td>Graduate-level courses in Art History</td>
</tr>
<tr>
<td>Thesis</td>
<td>12</td>
<td>Intensive work with a thesis committee to prepare your written thesis and exit show, lecture, presentation, or screening</td>
</tr>
</tbody>
</table>

Total 72

All MFA candidates in CER, DP, PHOT, PRT, SCU, and TXT must complete a written thesis and an exit exhibition. Normally, ID and GRD students will also complete a written thesis and exit show, though there may be exceptions for those fields of study.

While there may be some variations, the MFA at the Ernest G. Welch School of Art and Design is a three-year degree. A typical three-year course of study will proceed as follows:

Fall, Year 1

Course         | Units | Description
---------------|-------|---------------
<table>
<thead>
<tr>
<th>Course</th>
<th>Units</th>
<th>Description</th>

</table>

* For PHOT students, typically the first semester Art History course will be the Photo History Seminar. For ID students, typically the first semester Art History course will be the History of Interior Design. For GRD students, typically the first semester Art History course will be the history of Graphic Design.

** Assistantship hours do not count toward the 72 hours required for the MFA degree.

**24 Hour Review**: At the end of your first year of study, you will undergo a review to determine your progress through the program. For more information on this process, see “24 Hour Review Process” in the policies section, below.

Policies

The following policies are not exhaustive of the guidelines applicable to students in the Ernest G. Welch School of Art and Design. For a fuller list of policies, see the student handbook. The policies contained herein are only those that most directly impact the above-stated curriculum.

24 Hour Review Process

At the end of 24 hours of MFA course work, you will undergo a 24-hour review. This review will occur typically at the end of your first year of study. This review is meant to assess your progress, and to give you feedback on your strengths and weaknesses.

You will work with your faculty adviser to schedule an individual review. Scheduling of reviews will begin mid-Spring semester so that each candidate has an appointment time and day for the end of the semester. The review will consist of an overview of all the work you have produced as an MFA candidate in the first year of study. As a result, it is important for you to produce a body of work consistent with the expectations of your area of specialization. Each area will have a presentation preference (i.e. physical or digital) as well as a minimum/maximum number of works expected. It is your responsibility to work with your adviser to ensure that you follow the preferred format for your area. Your faculty adviser and members of your area of specialization will conduct a formal review and critique of your work. This is a critical assessment of your first year of production as well as your future potential as an MFA-level artist or designer. Your faculty adviser and review committee will also assess your readiness to pursue further course work needed to reach the thesis level. You must ensure that your work is of high quality and reflects your capabilities, vision, and voice. Each review is highly individualized, and will include opportunities for dialogue between you and your reviewers. You should be able to discuss and defend your work in a cogent, articulate, and professional manner. At the end of the process, the review committee will meet and come to a decision regarding the outcome. There are three possible decisions and outcomes for the review process:

<table>
<thead>
<tr>
<th>Decision</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full Pass</td>
<td>Proceed with course work under the supervision of your faculty adviser</td>
</tr>
<tr>
<td>Provisionary Pass</td>
<td>You are on probation and must address the concerns of the committee. Typically, you will be given a remediation plan. Failure to complete this satisfactorily will result in dismissal from the program. Students receiving a provisional pass must apply for and complete another review to be readmitted to full status. Typically, students must wait until the start of the following Fall semester to reapply for review.</td>
</tr>
<tr>
<td>Failure</td>
<td>Students who fail the 24-hour review will be dismissed from the program immediately and may not apply for re-entry to that program.</td>
</tr>
</tbody>
</table>

In order to document the outcome of your review, you will submit a copy of the **Graduate Review Record** to the department graduate office. The Graduate Review Record is used to track your progress through the various steps toward graduation including your 24-hour review. The form is available in the student handbook.
MFA candidates normally are required to complete a written thesis. At the end of the second year of course work, candidates will constitute a thesis committee and will submit a thesis topic to their faculty advisers for approval. Committees will consist of at least three faculty members, two of whom must be from the Ernest G. Welch School of Art and Design. The proposal must be a written document that cogently states the topic the candidate wishes to pursue and should include an overview of the relevant scholarship on the subject.

The thesis is a scholarly document meant to reflect your research. As such, it should be well written and carefully argued, and should meet the highest academic standards. Theses not meeting these expectations will be refused, which will result in graduation delays and may result in the withholding of the MFA degree. In addition to these departmental expectations, each thesis must conform to the formatting guidelines set out by Georgia State University and the Board of Regents, as well as the submission deadlines established each year. The guidelines for theses at GSU undergo periodic revision, so it is the student’s responsibility to ensure that they follow the guidelines published by Graduate Services. Failure to meet published guidelines and/or deadlines will result in delays and may result in the withholding of the MFA degree.

<table>
<thead>
<tr>
<th>Document</th>
<th>Minimum Requirements</th>
</tr>
</thead>
<tbody>
<tr>
<td>Thesis Proposal</td>
<td>Prepare a cogent statement of the proposed topic Include a thorough overview of the relevant scholarship on the subject Submit at the end of the second year of course work Receive approval of faculty adviser and thesis committee</td>
</tr>
<tr>
<td>Written Thesis</td>
<td>Present a well written, carefully argued document Meet academic standards for theses in your area Conform to published GSU and BOR guidelines Meet all published submission deadlines Receive approval of faculty adviser and thesis committee</td>
</tr>
</tbody>
</table>

Exit Show

Thesis candidates typically are required to carry out an exit show at the end of the third year of the MFA program. The exit show is not meant as a recapitulation of the student’s career as an artist or designer. It is meant to show the work carried out in thesis. In some cases, the exit show may consist of a public lecture, presentation, or screening. In all cases, the thesis committee will approve the final form of the show, lecture, presentation, or screening, to ensure that it conforms to best practices in each area of specialization.

Candidates will work closely with their faculty advisers and committee members to determine the content and scope of the show. This collaboration is not meant to censure the exhibition or to impinge in any way on the academic freedom of the candidate. The dialogue fostered by this process is meant as a teaching and mentoring opportunity in which experienced faculty members help introduce the candidate to the rigorous professionalism expected of MFA-level artists and designers. Each candidate must work with the Gallery Director to schedule the show. Students are required to prepare, mount, and hang their own shows as well as to produce all necessary collateral materials. Once the show has closed, students are responsible for taking down the show and restoring the gallery to its proper condition. Each exit show is unique to the
student; determining what is necessary and appropriate must be a collaborative effort between the candidate and the committee. Like the thesis, the work offered for the exhibition should meet the highest academic standards for works in the student’s area. The exit show is not a pro forma exercise. It is an integral part of the curriculum; failure to complete the show in a satisfactory manner (including, but not limited to, abiding by appropriate gallery regulations) may result in the withholding of the MFA degree. Each candidate’s committee and faculty adviser will critique the final show in order to ensure that it meets appropriate standards of professionalism. Failure to secure final committee and faculty adviser approval for the exit show may result in withholding of the MFA degree.

Minimum Requirements

Exit Show
Meet the academic standards of the area of specialization, both in the quality of work and in the design of your show.
Finalize the content and scope of exhibition in collaboration with your faculty adviser and committee.
Schedule the show with the Gallery Director according to established timelines.
Follow all gallery rules and regulations.
Prepare, mount and hang your own show.
De-install your show and return the gallery to its proper condition.
3170 Astronomy

Programs Offered:

- **Master of Science**
  - See: Physics Master of Science with a Concentration in Astronomy
- **Doctor of Philosophy in Astronomy**

Department of Physics and Astronomy
Room 605, 25 Park Place
Atlanta, Georgia 30302-4106
404-413-6033
phy-astr.gsu.edu
E-mail (admissions secretary): dwendler1@gsu.edu
E-mail: slepine@astro.gsu.edu

D. Michael Crenshaw, Chair
Sebastien Lepine, Director of Graduate Studies, Astronomy

The Department of Physics and Astronomy works closely with the graduate students on theoretical and experimental research in the following areas: atomic physics, biophysics, molecular physics, nuclear physics, condensed matter physics, astronomy, and astrophysics. See the Physics degree section for studies in the first five subjects.

Applicants may obtain additional information about the Department of Physics and Astronomy by contacting the Director of Graduate Studies at the address above.

Degree Requirements

**Doctor of Philosophy in Astronomy (71 hours beyond the baccalaureate degree)**

1. Students must either complete or exempt Phys 6510, 6520, 6810 and 7600. Exemption from these courses may be granted on the basis of testing or of having successfully completed similar courses elsewhere. Students not exempting at least two courses must take more than the 71 minimum hours required for the degree.
2. Students must have competence in the following areas of mathematics: matrix algebra, vector and tensor analysis, partial differential equations, Fourier series and boundary value problems, and complex variables.
3. Students seeking a Ph.D. degree in astronomy must complete at least fifteen hours of core courses including:
   - ASTR 6000 Fundamentals of Astrophysics (3)
   - ASTR 6100 Astronomical Techniques and Instrumentation (3)
   - And at least three of the following:
     - PHYS 8010 Advanced Classical Mechanics (4)
     - PHYS 8100 Electromagnetic Theory I (3)
     - PHYS 8110 Electromagnetic Theory II (3)
     - PHYS 8150 Computational Methods for Physics and Astronomy (3)
- PHYS 8210 Quantum Mechanics I (3)
- PHYS 8310 Statistical Mechanics (3)

4. Students seeking a Ph.D. degree in Astronomy must complete at least 21 additional hours of 8000-level astronomy courses, including at least two (but no more than three) hours of ASTR 8900 (Seminar). No more than three hours of either ASTR 8710 Research Topics in Astronomy or ASTR 8910 Directed Study can count towards the degree.

5. Satisfactory completion of one hour of ASTR 6300 (Teaching Astronomy) and two hours of ASTR 6310 (Teaching Astronomy Lab Practicum).

6. A minimum of 20 hours of ASTR 9999 (Doctoral Dissertation Research) must be completed; only 21 hours of these count towards the 71 hours for the Ph.D.

7. Satisfaction of the foreign language/research skill requirement. (Contact the department for details.)

8. General Examinations:
   - Students seeking a Ph.D. degree in Astronomy must take the first astronomy general examination, administered as a written examination covering the fundamentals of astronomy, within a year of entering the program.
   - Students seeking a Ph.D. degree in Astronomy must also take the second general examination, administered as a written and oral examination, after passing at least twelve hours of 8000-level astronomy courses.

9. Students pursuing the Ph.D. degree are strongly urged to satisfy the requirements for the Physics M.S. with a Concentration in Astronomy (non-thesis option) as soon as possible after entering the program. See the director of graduate studies for details.

10. An oral presentation discussing the student’s proposed dissertation research.

Prior to registration each semester, students should be advised by either the chair of the department or the director of graduate studies.
**3180 Biology**

**Programs Offered:**

- Master of Science in Biological Sciences
- Dual B.S./M.S. in Biology
- General degree
  - Concentration in Applied and Environmental Microbiology (AEM)
  - Concentration in Biotechnology
  - Concentration in Cellular and Molecular Biology and Physiology (CMBP)
  - Concentration in Molecular Genetics and Biochemistry (MGB)
  - Concentration in Neurobiology and Behavior (NB&B)
  - Concentration in Bioinformatics
- Doctor of Philosophy in Biology
  - Concentration in Applied and Environmental Microbiology (AEM)
  - Concentration in Cellular and Molecular Biology and Physiology (CMBP)
  - Concentration in Molecular Genetics and Biochemistry (MGB)
  - Concentration in Neurobiology and Behavior (NB&B)
  - Concentration in Molecular Genetics and Biochemistry with Interdisciplinary Specialization in Bioinformatics

Department of Biology  
Georgia State University  
P.O. Box 4010  
Atlanta, Georgia 30302-4010  
Phone: 404-413-5300  
E-mail: tfhudson@gsu.edu  
biology.gsu.edu

Yi Pan, Interim Chair  
Ritu Aneja, Director of Doctoral Program  
William Walthall, Director of Master’s Program

Biology faculty members are actively engaged in a wide variety of research endeavors. Research efforts are concentrated in the following specific areas: applied and environmental microbiology (AEM), cellular and molecular biology and physiology (CMBP), molecular genetics and biochemistry (MGB), and neurobiology and behavior (NB&B).

Graduate research assistantships and teaching assistantships in the department are available to qualified students admitted to the graduate program. In addition, students may also qualify for support from grants and contracts in connection with their research programs.

The Department of Biology accepts applications for all semesters. In order to be considered for graduate assistantships, applicants must have all application materials in the department by the posted deadline. Foreign applicants should allow at least two months for processing of their application materials.

Applicants may obtain additional information about the Department of Biology or specific disciplines by
contacting the Graduate Coordinator, Tameka Hudson, at the addresses above.

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Biology has the following requirement. Applicants must complete and submit the Supplemental Application form for Biological Sciences to the Biology Department.

Degree Requirements

Master of Science

Students may choose between two degree options. The non-thesis option emphasizes coursework and the thesis option emphasizes research. However, students enter under the non-thesis track. Transfer to the thesis option requires the approval of a thesis proposal by a three-member faculty committee that includes the thesis adviser.

In addition to the general degree plan, there are six discipline specific concentrations: applied and environmental microbiology (AEM), cellular and molecular biology and physiology (CMBP), molecular genetics and biochemistry (MGB), neurobiology and behavior (NB&B), bioinformatics, and biotechnology. Students wishing to concentrate in AEM or Biotechnology must apply directly to those programs.

All entering M.S. students should obtain a copy of the departmental M.S. Policy Document. The document is available on the biology website or in the Graduate Coordinator’s office.

Non-Thesis Option (40 hours):

1. Forty hours of classroom coursework, to be selected from 6000 and 8000-level courses, must include:
   - One course in biochemistry. This requirement may be waived if the student has taken and successfully completed an equivalent undergraduate course with a grade of B or higher.
   - Two hours of Seminar (Biol 6960/6970 or 8700). Students may take one 6960 and one 2 hour section of 8700 or two 2 hour sections of 8700. Each 2 hour section is equivalent to one credit hour.

2. The successful completion of a laboratory or literature-based research paper. In order to satisfy this requirement, the student must select a major professor and enroll in BIOL 8888, Non-Thesis MS Research. A maximum of four credit hours of BIOL 8888 may be counted toward the 40-hour course requirement.

Thesis Option (40 hours):

1. Twenty-six hours of classroom coursework, selected from 6000 and 8000-level courses, must include:
   - One course in biochemistry. This requirement may be waived if the student has taken and successfully completed an equivalent undergraduate course with a grade of B or higher.
   - Two hours of Seminar (Biol 6960/6970 or 8700). Students may take one 6960 and one 2 hour section of 8700 or two 2 hour sections of 8700. Each 2 hour section is equivalent to one credit hour.
credit hour.
2. An orally defended thesis proposal
3. Fourteen hours of BIOL 8999, Thesis Research.
5. A final presentation, directed primarily to the defense of the thesis.

M.S. in Biology with a concentration in Biotechnology

Application/Acceptance:

Interested students must apply for admission to the M.S. program and the biotechnology concentration. In addition to the personal statement, a second letter must be submitted that provides a rationale for entering this concentration and a description of three specific areas of training that the individual would like to pursue. In addition to the M.S. program admission requirements, applicants to the Biotechnology concentration must have completed CHEM 6600 (Biochemistry) or its equivalent with a grade of “B” or higher. Admission to the concentration will be made by the Biotechnology Area Committee on the basis of credentials and is dependent on space availability.

Non-Thesis Option (40 hours):

1. Prerequisite (5):
   o CHEM 6600 Biochemistry I (5)
2. Core Courses (5):
   o BIOL 6696 Laboratory in Molecular Biological Techniques (4)
   o BIOL 8970 Topics in Molecular Biological Sciences (Instrumentation) (1)
3. Laboratory Practica (15):
   o BIOL 6440 Practica in Biotechnology (15) (Mini-mester; 5 credit hours each time taken)
   o BIOL 8888 Non-Thesis Master’s Research (4)
5. Seminar (2 sections):
   o BIOL 8700 Biology Seminar (1)
6. Electives (9) (Approved by Biotechnology Committee)
7. Laboratory Practica: Both technique-based and project-based rotations will be offered. Students will meet with an adviser upon entering the concentration to determine rotations that best suit the student’s goals and needs.
8. Research Paper: Upon completing of each rotation, the student will submit a progress report covering activities engaged in during the rotation. An adviser will mentor the student in the writing process. The three progress reports will constitute the non-thesis research paper and will comprise the basis of a portfolio, which the student can use as evidence of training and accomplishments.

Thesis Option (40 hours):

For admission into the Thesis option, the student must have a Thesis proposal accepted.

1. Prerequisite (5):
   o CHEM 6600 Biochemistry I (5)
2. Core Courses (5):
- BIOL 6696 Laboratory in Molecular Biological Techniques (4)
- BIOL 8970 Topics in Molecular Biological Sciences (1)

3. Laboratory Practica (15):
   - BIOL 6440 Practica in Biotechnology (150) (Mini-mester; 5 credit hours each time taken)

4. Thesis Research (4):
   - BIOL 8999 Thesis Research (4) (Up to 10 credit hours of BIOL 8800 (Practica) can be applied towards the Thesis Research requirement. 4 credits must come from 8999.)

5. Seminar (2 sections):
   - BIOL 8700 Biology Seminar (1)

6. Electives (9) (Approved by Biotechnology Committee)

7. Laboratory Practica: Both technique-based and project-based rotations will be offered. Students will meet with an adviser upon entrance into the concentration to determine rotations that best suit the student’s goals and needs.

8. Research Paper: The student will submit a Thesis proposal to be accepted by a Thesis Committee. The student will complete a Thesis to be defended before the Thesis Committee. The thesis may be based upon research done during the rotations.

Requirements for Biology M.S. Program with Interdisciplinary Emphasis in Bioinformatics

Bioinformatics has grown from the creation of large biological databases that required computational approaches for efficient manipulation and analysis to a multi-faceted discipline that also includes microarray technology, statistical analysis, and molecular modeling. We offer non-thesis and thesis options for this interdisciplinary degree. The non-thesis option requires a minimum of 40 semester credit hours of coursework and a non-thesis report. The thesis option requires a minimum of 26 semester hours of coursework and 14 credit hours of research.

Biology and Chemistry courses must be selected from courses numbered 6000 and 8000. (Biol and Chem 7000-7999 are not applicable toward the M.S. Degree in Biology.) Math and Computer Science courses at the 7000 level that serve as prerequisites for 6000 and 8000-level interdisciplinary courses may be applied towards the coursework requirement.

Coursework must include:

1. One course in biochemistry of at least three hours [normally CHEM 6600 (5 hours) or CHEM 6610 (3 hours)], although higher level courses may be selected. This requirement may be waived if the student has successfully passed an equivalent undergraduate course with a grade of B or better (in the case that the biochemistry work is waived, the student must still complete requisite hours of coursework).

2. BIOL 6564 Advanced Genetics (4)

3. BIOL 6640 Fundamentals of Bioinformatics (4)

4. Two seminar courses this must include at least one BIOL 8700 and can include a second BIOL 8700 or BIOL 6960 or BIOL 6970.

5. Fifteen hours of interdisciplinary coursework to be selected from among the following:
   - CSC 6310 Parallel and Distributed Computing (4) [Prerequisites: CSC 7350 (Python Programming I for Bioinformatics), CSC 7351 (Python Programming II for Bioinformatics), and CSC 7352 (Unix/C Programming for Bioinformatics)].
- CSC 6350 Software Engineering (4) [Prerequisites: CSC 7352 (Python Programming II for Bioinformatics); CSC 7351 is a prerequisite for CSC 7352].
- CSC 6710 Database Systems (4) [Prerequisites: CSC 7352 (Python Programming II for Bioinformatics); CSC 7351 is a prerequisite for CSC 7352].
- CSC 6730 Data Visualization (4) [Prerequisites: CSC 7350 (Python Programming I for Bioinformatics), CSC 7351 (Python Programming II for Bioinformatics), and CSC 7352 (Unix/C Programming for Bioinformatics)].
- CSC 6740 Data Mining (4) [Prerequisite: CSC 7350 (Python Programming I for Bioinformatics) and CSC 7351 (Python Programming II for Bioinformatics II)].
- CSC 6810 Artificial Intelligence (4) [Prerequisite: CSC 7351 (Python Programming I for Bioinformatics) and CSC 6330 (Programming Lang Concepts)].
- CSC 8630 Advanced Bioinformatics (4) [Prerequisite: BIOL 6640/CSC 6640 (Fundamentals of Bioinformatics)].
- CSC 8850 Machine Learning (4) [Prerequisite: CSC 6520 (Design & Analysis-Algorithms)].
- MATH 6544 Biostatistics (3)
- MATH 6548 Methods of Regression and Analysis of Variance (3) [Prerequisite: MATH 6544 or BIOL 6744 (Biostatistics)].
- STAT 8050 Statistics for Bioinformatics (3) [Prerequisite: MATH 6544 or BIOL 6744 (Biostatistics)].
- STAT 8540 Advanced Methodologies in Biostatistics (3) [Prerequisite: MATH 6752 (Mathematical Statistics II)].

* Course counts towards degree requirements.

For the Non-Thesis Option:

1. Thirteen hours of electives which may include:
   a. Biology courses including four hours of research (BIOL 8800)
   b. CHEM 6110, Physical Chemistry I (3) and CHEM 6450, Molecular Modeling Methods (3)
   c. Additional computer science or math and statistics courses in excess of the 12 hour requirement.
2. The successful completion of a laboratory or literature-based research paper on a topic that includes a relevant bioinformatics component. The guidelines for the research paper are similar to those for the Biology, M.S. non-thesis research paper; however, one of the committee members must be from the math or computer science department.

For the Thesis Option:

1. An approved and successfully defended thesis proposal. The guidelines for the written proposal and oral defense are similar to those for the Biology M.S. thesis proposal; however, the thesis topic must be on a topic that includes a relevant bioinformatics component and one of the thesis committee must be from the math or computer science department.
2. Fourteen hours of BIOL 8999 (Thesis Research).
4. A final oral presentation directed primarily to defense of the thesis.

Dual B.S./M.S. Program in Biology
The department offers a dual Bachelor of Science and Master of Science in Biology. The dual degree opportunity enables qualified students to enroll in graduate courses late in their undergraduate program and apply the coursework toward both the bachelor’s and master’s programs.

Students must be formally accepted into the dual degree program by the department and College of Arts and Sciences to be able to take graduate courses as an undergraduate. Additionally, acceptance into the dual program does not constitute admission to the master’s program. Students must fulfill regular graduate admissions requirements and apply for the master’s program following college processes.

Information about the dual program, including application instructions and program requirements, can be found at cas.gsu.edu/dual-degrees/.

Doctor of Philosophy

The Department of Biology offers programs leading to the Doctor of Philosophy (Ph.D.) degree in Biological Sciences. Specialized programs of study are provided in the following core disciplines: applied and environmental microbiology, cellular and molecular biology and physiology, molecular genetics and biochemistry, and neurobiology and behavior, molecular genetics & biochemistry with interdisciplinary specialization in bioinformatics.

General Requirements: At least 90 hours of graduate credit are required for the Ph.D. in Biological Sciences. To satisfy the minimum requirements for the degree, the student must complete successfully:

1. 32 hours of graduate classroom coursework, which must include:
   - Discipline-specific core courses (8 hours)
   - Discipline-specific electives (8 hours)
   - Discipline-specific topics/concepts and seminar (14 hours, which must include at least 6 hours of topics or concepts and two hours of BIOL 8550 and three hours of BIOL 6801)
   - BIOL 9991 or BIOL 9992 (2 hours to be taken during qualifying exam)
2. Proficiency in biochemistry. This requirement can be fulfilled by completion of CHEM 6600 or waived if the student has completed an equivalent undergraduate or graduate level course with a grade of B or higher. Substitution of an equivalent discipline-related subject (appropriate to the student’s program of study) will be considered on a case-by-case basis and requires prior written approval of the Area Program Director.
3. 58 hours of biology research (BIOL 8800 or BIOL 9999). At least 30 hours must be BIOL 9999.
4. A qualifying examination.
6. A final oral presentation, directed primarily to the defense of the dissertation.

Specific Requirements: The following coursework constitutes the minimum core requirements for each discipline. Substitutions in the curriculum may be made based on the recommendation of the student’s research adviser and require the prior written approval of the Biology Graduate Committee. Students will be expected, however, to demonstrate knowledge of all material covered in discipline-specific core courses (below) during the qualifying examination.

- Applied and Environmental Microbiology: BIOL 8410 and BIOL 8610.
- Cellular and Molecular Biology and Physiology: BIOL 8220 and BIOL 8248.
- Molecular Genetics and Biochemistry: BIOL 8610 and BIOL 8620.
- Molecular Genetics & Biochemistry with Interdisciplinary Specialization in Bioinformatics: BIOL 8610 and BIOL 8620.
- Neurobiology and Behavior: BIOL 8010 and BIOL 8020.

Requirements for Biology (MGB) Ph.D. Program with Interdisciplinary Specialization in Bioinformatics

Departmental Requirements (4 hours; may be used to meet Elective requirement)

- BIOL 6640 Fundamentals of Bioinformatics (4)

Interdisciplinary Requirements (12 hours)

Courses in Bioinformatics offered by the Mathematics and Statistics and/or Computer Science Departments (specified prerequisites may be used to satisfy the 12 hour requirement). In consultation with the Major adviser, the student will submit a course plan to meet these requirements for approval by the MGB Graduate Director. Interdisciplinary courses include:

- MATH 6544 Biostatistics (3)
- MATH 6548 Methods of Regression and Analysis of Variance (3) [Prerequisite: MATH 6544 or BIOL 6744 (Biostatistics)]
- STAT 8050 Statistics for Bioinformatics (3) [Prerequisite: MATH 6544 or BIOL 6744 (Biostatistics)]
- STAT 8540 Advanced Methodologies in Biostatistics (3) [Prerequisite: MATH 6752 (Mathematical Statistics II)]
- CSC 6310 Parallel and Distributed Computing (4) [Prerequisites: CSC 7350 (Java Programming for Bioinformatics) and CSC 7351 (Unix/C Programming for Bioinformatics)] (these two programming courses provide credits toward the Bioinformatics degree.)
- CSC 6350 Software Engineering (4) [Prerequisites: CSC 7352 (Data Structures for Bioinformatics); CSC 7351 is a prerequisite for CSC 7352]
- CSC 6710 Database Systems (4) [Prerequisites: CSC 7352 (Data Structures for Bioinformatics); CSC 7351 is a prerequisite for CSC 7352]
- CSC 6730 Data Visualization (4) [Prerequisites: CSC 7350 (Java Programming for Bioinformatics) and CSC 7351 (Unix/C Programming for Bioinformatics)]
- CSC 8630 Advanced Bioinformatics (4)
- CSC 8710 Deductive Databases and Logic Programming (4) [Prerequisite: CSC 6710]
3190 Chemistry

Programs Offered:

- Master of Science in Chemistry*
- Dual B.S./M.S. in Chemistry
- Doctor of Philosophy*
  - Concentration in Biochemistry
  - Concentration in Organic Chemistry
  - Concentration in Biophysical Chemistry
  - Concentration in Analytical Chemistry
  - Concentration in Geology

*Interdisciplinary Emphasis in Bioinformatics is available.

Department of Chemistry
Georgia State University
P.O. Box 4098
Atlanta, Georgia 30302-4098
Phone: 404-413-5500

E-mail: chemgradstudent@gsu.edu
chemistry.gsu.edu

Chair to be named
Giovanni Gadda, Director of Graduate Studies
Markus Germann, Associate Director of Graduate Studies

Chemistry faculty members are actively engaged in a wide variety of research projects. Active research programs are pursued in analytical, organic and biophysical/computational chemistry and biochemistry with an option in bioinformatics. The department currently brings in over five million dollars in external research funds annually.

Over 25 prestigious fellowships and assistantships including the Ambrose Pendergrast Fellowship, the David Withers Boykin Graduate Fellowship in Medicinal Chemistry, and the Solvay Fellowship are awarded by the department to outstanding Ph.D. students. In addition graduate assistantships are offered in Molecular Basis of Disease (MBD) and Brains and Behavior (BB) research areas and include a stipend of at least $22,000 annually, waived tuition, and subsidized health insurance. Outstanding students may receive an initial offer of support as high as $25,000, with waived tuition and subsidized health insurance. Support is contingent on remaining in good standing and maintaining satisfactory progress toward the degree. Inquiries concerning assistantships and other support should be made to the Graduate Coordinator in the Department of Chemistry. The Department of Chemistry accepts applications for all semesters. Early submission is encouraged for assistantship considerations.

Applicants may obtain additional information about the Department of Chemistry by contacting the Graduate Coordinator at chemgradstudent@gsu.edu.
Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Chemistry has the following requirements:

1. Applicants should have an undergraduate degree in chemistry. However, consideration will be given to applicants with undergraduate degrees in biology, physics, or related fields who have substantial background in and knowledge of chemistry.

2. M.S. program: Applicants to the M.S. program must submit a list of three individuals who can evaluate the applicant’s potential to do graduate work in chemistry (submission of reference letters helpful but optional), and a statement of educational/career goals.

3. Ph.D. program:
   a. Applicants to the Ph.D. program must arrange for submission of three letters of recommendation from individuals who can evaluate the applicant’s potential to do graduate work in chemistry.
   b. A detailed statement of educational/career goals and research interests must be provided.

Degree Requirements

Students should refer to the departmental program brochures for the specific details for each degree program. The following information is a brief overview of the various degree options.

Master of Science, thesis option (32 hours)

Satisfactory completion of:

1. Twenty-six hours of approved graduate coursework selected from 6000 and 8000-level courses. Eight of the 26 hours may be taken in a related field or fields (upon approval). Two hours of CHEM 8800 are required.
3. Proficiency in a foreign language (French, German, or Russian) or in an approved research skill.
4. A general examination.
5. A thesis.

Master of Science, non-thesis option (36 hours)

Satisfactory completion of:

1. A minimum of 36 hours of approved coursework to be selected from 6000 and 8000-level courses:
   a. Eight hours of graduate-level biology or related field coursework may be applied toward the degree upon departmental approval.
   b. One hour of CHEM 8800, Seminar in Chemistry, must be included.
   c. Three hours of CHEM 8910 may be counted toward the 36-hour required course requirement.
   d. The coursework must be approved by the Director of Graduate Studies in the Department of Chemistry.
2. Proficiency in a foreign language (French, German, or Russian) or in an approved research skill.
3. The successful completion of an approved laboratory or literature research paper under the direction of a faculty adviser.

Chemistry M.S. Program with Interdisciplinary Emphasis in Bioinformatics

Bioinformatics has grown from the creation of large databases that required computational approaches for efficient manipulation and analysis to a multi-faceted discipline that also includes microarray technology, statistical analysis, and molecular modeling.

The department M.S. degree with emphasis in bioinformatics is available in both the non-thesis and thesis options described above with the following modifications.

Math and computer science classes at the 7000 level that serve as prerequisites for 6000 and 8000-level interdisciplinary classes may be applied toward interdisciplinary coursework requirement. At least one course in biochemistry (CHEM 6600 or above) and CHEM 6640 or equivalent must be included in the above. In addition, 12 hours of interdisciplinary coursework may be applied toward the degree selected from the following partial listing:

- BIOL 6500 Human Genetics (4)
- BIOL 6564 Advanced Genetics (4)
- CHEM 8630 Advanced Bioinformatics (4)
- CSC 6310 Parallel and Distributed Computing (4)
- CSC 6730 Data Visualization (4)
- MATH 6548 Methods of Regression and Analysis of Variance (3)
- STAT 8050 Statistics for Bioinformatics (3)
- STAT 8540 Advanced Methodology in Biostatistics (3)
- CHEM 8630 Advanced Bioinformatics (3) (also cross-listed as CSC 8630 and BIOL 8630)
- BIOL 6744/MATH 6544 (Biostatistics) (3) is required to fulfill the research skill requirement.

For the non-thesis option, the approved laboratory or literature research paper must be on a topic within the area of bioinformatics. For the thesis option, one of the thesis committee members must be from outside the department.

Dual B.S./M.S. Program in Chemistry

The department offers a dual Bachelor of Science and Master of Science in Chemistry. The dual degree opportunity enables qualified students to enroll in graduate courses late in their undergraduate program and apply the coursework toward both the bachelor's and master's programs.

Students must be formally accepted into the dual degree program by the department and College of Arts and Sciences to be able to take graduate courses as an undergraduate. Additionally, acceptance into the dual program does not constitute admission to the master's program. Students must fulfill regular graduate admissions requirements and apply for the master's program following college processes.

Information about the dual program, including application instructions and program requirements, can be found at cas.gsu.edu/dual-degrees/.
Doctor of Philosophy

The Department of Chemistry offers a program leading to the Doctor of Philosophy (Ph.D.) degree in Chemistry. The Ph.D. degree is offered in biochemistry, organic chemistry, biophysical/computational chemistry, and analytical chemistry. A bioinformatics option is available in each of the four core disciplines. A Ph.D. is also offered in geochemistry in collaboration with the Department of Geosciences. Please contact the Department of Geosciences directly for details on the Geology Ph.D. degree.

At least 80 hours of graduate credit are required for the Ph.D. degree. In order to satisfy the minimum requirements for the degree, students must complete successfully:

1. Thirty hours of approved graduate core coursework.
2. Forty hours of research, at least 20 hours of which must be Dissertation Research.
3. Ten additional hours of graduate course electives or research.
4. Satisfaction of the foreign language (research skill) requirement.*
5. A written and an oral qualifying general examination.
7. A final oral examination, directed primarily to the defense of the dissertation.

*Foreign Language/Research Skill Requirement: A reading proficiency in French, German or Russian, or an equivalent research skill—e.g., computer language, technical writing, advanced statistics, electronics, etc.—(departmental approval necessary) is required. Students with M.S. degrees have already satisfied the language requirement. Credit hours used to fulfill this requirement do not count in the 80 hours.

Specific requirements: The following coursework illustrates the minimum curriculum requirements for each discipline. Substitutions in the curriculum may be made based on the recommendation of the student’s research adviser and require the prior written approval of the Director of Graduate Studies and the departmental chair. Students will be expected to demonstrate knowledge of all material covered in the core or designated courses during the qualifying examination.

Biochemistry

A. Core courses (9 hours) – To be selected from Chem 6600, 6610, 6230, 6630, 8360, 8370, or approved substitutes;
B. Area Electives (6 hours) – To be selected from Chem 6400, 6410, 6015, 8510, or approved substitutes;
C. Interdisciplinary Electives in Biology (6 hours) or approved substitutes;
D. Topics, Electives and Seminar (6-19 hours) – To be selected from Chem 6050, 6450, 8800, 8900, 8910, 8970, or approved substitutes;
E. Research (40 hours) Chem 8900, 8910, or 9999 (at least 20 hours must be 9999).

Biophysical Chemistry

A. Core courses (9 hours) – Chem 6110, 6120, and/or 8510 and choice of Chem 6190, 6370, 6450, 6590, 6780, 8450, or approved substitutes;
B. Area Electives: (6 hours) – To be selected from Chem 6600, 6610, 6015, 8360, 8370 and/or Chem 6410 and/or Biol 6890, 8500, 8750 or approved substitutes;
C. Interdisciplinary Electives in Biology (6 hours) or approved substitutes;
D. Topics, Electives and Seminar (6-19 hours) – To be selected from Biol/Chem 8970, Biol 8700; Chem 6050, 6450, 8800 and other approved electives;
E. Research (40 hours) Chem 8900, 8910, or 9999 (at least 20 hours must be 9999).

Organic Chemistry

A. Core courses (9 hours) – Chem 6400, 6410, 6430, 6650, 6330, 8400, or approved substitutes;
B. Area Electives (6 hours) – To be selected from Chem 6600, 6610, 6370, 8510, or approved substitutes;
C. Interdisciplinary Electives in Biology (6 hours) or approved substitutes;
D. Topics, Electives and Seminar (6-19 hours) – To be selected from Biol/Chem 8970, Biol 8700; Chem 6050, 6450, 8800, 8900, 8910, 8970, or approved substitutes;
E. Research (40 hours) Chem 8900, 8910, or 9999 (at least 20 hours must be 9999).

Analytical Chemistry

A. Core courses (9 hours) – CHEM 6850, CHEM 6015 and CHEM 6871, or approved substitutes;
B. Area Electives (6 hours) to be selected from Chem 6370, 6400, 6410, 6600, 6610, 8510, or approved substitutes;
C. Interdisciplinary Electives in Biology (6) or approved substitutes;
D. Topics, Electives and Seminar (6-19 hours) to be selected from Biol/Chem 8970, Biol 8700; Chem 6050, 6450, 8800, 8900, 8910, 8970, or approved substitutes;
E. Research (40 hours) Chem 8900, 8910, or 9999 (at least 20 hours must be 9999).

Bioinformatics

A. Core courses (9 hours) – Biochemistry/Organic/Biophysical Analysis
B. Area Electives: Appropriate electives for core discipline selected in A or approved substitutes.
C. Interdisciplinary Electives in Biology (6) or approved substitutes.
D. Computer Science Courses (Electives and Seminar) (19)
   1. 12 hours from CSc, Math and/or Chem/Biol Informatics courses or approved substitutes [CSc 6260, 6310, 6730, 6840, 8710, 8711, and Stat 8090, 8440, 8540, 8561, 8630, 8660, and 8670 are possible choices.]
   2. Chem/Biol courses to fulfill requirement or approved substitutes.
E. Research (40) Approved research courses (at least 20 hours must be 9999).

Geology – Please refer to the Geosciences section for PhD degree requirements
Programs Offered:

- Master of Arts in Communication
  - Concentration in Film, Video, and Digital Imaging
  - Concentration in Human Communication
  - Concentration in Mass Communication
- Dual B.A. in Film and Video/ M.A. in Communication, Film/Video Concentration
- Doctor of Philosophy in Communication Studies
  - Concentration in Public Communication
  - Concentration in Moving Image Studies

Department of Communication
Georgia State University
8th Floor, 25 Park Place
Atlanta, GA 30302-4000
404-413-5600
Email: ntindall@gsu.edu or jmbarker@gsu.edu
communication.gsu.edu

Greg Lisby, Chair
Jaye Atkinson and Gregory Smith, Associate Chairs
Natalie Tindall, Area Director of Graduate Studies (M.A. in Human Communication and Mass Communication; Ph.D. in Public Communication)
Jennifer Barker, Area Director of Graduate Studies (M.A. in Film, Video, and Digital Imaging; Ph.D. in Moving Image Studies)

The Master of Arts degree in Communication is a multidisciplinary degree designed to prepare communication professionals and academicians for the demands of the twenty-first century. Each student may select an area of concentration from the following: (1) film, video, and digital imaging; (2) human communication and social influence; and (3) mass communication. Required core classes are designed to provide coherence to the multidisciplinary offerings of the program by providing an overview of the communications field and by introducing concepts common and debated in all areas of communication.

The Ph.D. in Communication Studies is mainly designed to prepare students for positions in academia, but also equips those seeking professional advancement in research-based communication industry careers. Students may select one of two potential areas of emphasis: Public Communication and Moving Image Studies.

Drawing theoretical perspectives from film, television, and new media and performance studies, the Moving Image Studies program prepares students to investigate how moving images are constructed and perceived, how they impact the culture, and how the visual and performing arts are being transformed in the digital age.

Based on theoretical perspectives from rhetoric, public argument, audience research, mass communication, international communication, and new media, the Public Communication program is engaged in the
exploration of public discourse and mass-mediated environments, with the purpose of preparing students to investigate how persuasive practices are transforming culture at home and abroad.

Applicants may obtain additional information about the Department of Communication by contacting the Director of Graduate Studies at the addresses above.

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Communication has the following requirements:

1. Applicants to the M.A. program must submit:
   - A statement of educational or career goals.
   - Two letters of recommendation from individuals who can evaluate the applicant’s potential to do graduate work in Communication.
   - An above-average undergraduate grade-point average (a minimally qualified applicant typically will achieve at least a 3.0).
   - A sufficiently high score on the verbal portion of the Graduate Records Examination prior to consideration for acceptance into the graduate degree program.

2. Applicants to the Ph.D. program must submit:
   - A statement of educational or career goals.
   - Three letters of recommendation from individuals who can evaluate the applicant’s potential to do graduate work in Communication.
   - An above average undergraduate and master’s grade point average.
   - Satisfactory scores on the General Test of the GRE (and, for international students, the TOEFL Examination).
   - A writing sample that demonstrates their ability to conduct and effectively present academic research.

NOTE: All applicants for the Ph.D. in Communication must have earned a master’s degree before entering the program.

Students who have substantial records of professional experience in a communication field may also provide a one-page summary of their experience.

The Department of Communication reviews applications for spring and fall semesters for applicants to most M.A. programs. Applicants for the digital production emphasis of the Film/Video/Digital Imaging concentration and Ph.D. applicants will be admitted in the fall only. To be assured of consideration for funding, applications must be received in the department by February 15. Deadline for application for domestic students is April 15 for fall semester and October 15 for spring semester. Deadline for applications for international students is March 15 for fall semester and September 15 for spring semester. The department will not consider requests for Special Graduate Status admission.

Program Financial Information

Effective summer 2009, lab fees will be assessed automatically for students who register for certain courses. As a result, students will no longer be required to purchase lab fee cards. For more information, please feel
free to contact the department or review the GoSolar or catalog course listings to determine if a course includes a lab fee.

Degree Requirements

Master of Arts (Research Thesis option: minimum 36 hours)

1. Six hours of core courses: COMM 6010 and COMM 6030.
2. Eighteen to twenty-four hours of courses designated by the area of concentration.
3. Up to six hours of coursework in related fields.
4. Proficiency in a foreign language or approved research skill.
5. Six hours of COMM 6990, Thesis Research.
6. A successful prospectus defense.
8. A successful research thesis defense.

Master of Arts (Creative thesis option: minimum 36 hours)

1. Six hours of core courses: COMM 6010 and COMM 6030.
2. Eighteen to twenty-seven hours of courses designated by the area of concentration.
3. Up to nine hours of coursework in related fields.
4. Proficiency in a foreign language or approved research skill.
5. Three hours of COMM 6990, Thesis Research.
6. A successful prospectus defense.
7. A creative thesis project.

Doctor of Philosophy in Communication Studies (Minimum of 68 hours beyond the master's degree)

1. Nine hours of core courses (Ph.D. Proseminar and three hours of Communication Pedagogy).
2. Twenty-seven hours in area of concentration (public communication or moving image studies).
3. Nine to twelve hours of research tools (approved courses that fall within the general categories of research design, observational methods, ethnography, computer programming, statistics, foreign language, and digital media methods).
4. Twenty hours of dissertation research.
5. A written comprehensive examination.
6. An oral examination.

Dual B.A. in Film and Video/ M.A. in Communication, Film/Video Concentration

The department offers a dual B.A. in Film and Video / M.A. in Communication with a concentration in Film and Video. The dual degree opportunity enables qualified students to enroll in graduate courses late in their undergraduate program and count the coursework toward both the bachelor's and master's programs.

Students must be formally accepted into the dual degree program by the department and College of Arts and Sciences to be able to take graduate courses as an undergraduate. Additionally, acceptance into the dual
program does not constitute admission to the master’s program. Students must fulfill regular graduate admissions requirements and apply for the master’s program following college processes.

Information about the dual program, including application instructions and program requirements, can be found at cas.gsu.edu/dual-degrees/.
3210 Computer Science

Programs Offered:

- Master of Science (M.S.) in Computer Science
- Master of Science (M.S.) in Computer Science (Bioinformatics Concentration)
- Dual B.S./M.S. Program in Computer Science
- Doctor of Philosophy (Ph.D.) in Computer Science
- Doctor of Philosophy (Ph.D.) in Computer Science (Bioinformatics Concentration)

Department of Computer Science
Georgia State University
7th Floor, 25 Park Place Bldg.
P.O. Box 3994
Atlanta, GA 30302-3994
404-413-5700
cs.gsu.edu

Rajshekhar Sunderraman, Interim Chair and Director of Graduate Studies

The Department of Computer Science offers a program leading to the Doctor of Philosophy (Ph.D.) degree in Computer Science. A bioinformatics concentration is available. A baccalaureate or master’s degree in computer science, or its equivalent, is required for admission. The department encourages applications from high-tech and teaching professionals and those with non-computer science but closely related degrees. Pursuing the Ph.D. program part-time is possible, so working professionals are encouraged to consider applying. Competitive financial aid is available for full-time Ph.D. students along with tuition waivers.

The M.S. degree program in computer science provides students with advanced training in the fundamental principles and processes of computation. The program focuses on the technical aspects of both software and hardware. Computer Science faculty are actively engaged in a wide variety of research endeavors. Research efforts are concentrated in artificial intelligence and neural nets, computer architecture, database, graphics and visualization, networks, parallel and distributed computing, programming languages, simulation, and software engineering. A bioinformatics concentration is available. Graduate laboratory, research, and teaching assistantships are available to graduate students.

The computer science department accepts applications for the M.S. program each semester and for the Ph.D. program only fall semester with the general deadlines applying. However, in order to be considered for graduate assistantships, applicants must have all application materials in by February 15 for fall semester and by August 15 for spring semester. No financial aid is offered to new applicants for summer semesters.

Applicants may obtain additional information about the Department of Computer Science by contacting the Director of Graduate Studies.

Admission Requirements

Master of Science
In addition to the general requirements of the College of Arts and Sciences, the Department of Computer Science has the following requirements:

1. A baccalaureate degree in computer science, or equivalent. While we welcome capable students with non-computer-science degrees, they may need some foundation courses.
2. A supplemental application for computer science.
3. A statement of background and goals.
4. Three letters of recommendations from individuals who can evaluate the applicant’s potential for graduate work in computer science.
5. GRE (General) score.

**Doctor of Philosophy**

In addition to the general requirements of the College of Arts and Sciences, the Department of Computer Science has the following requirements:

1. A baccalaureate or master’s degree in computer science or its equivalent. While we welcome capable students with non-computer science degrees, they may need some foundation courses.
2. A supplemental application for computer science.
3. A statement of background and goals.
4. Three letters of recommendation from individuals who can evaluate the applicant’s potential for Ph.D. work in computer science.
5. GRE (General) score.
6. Minimum GPA 3.0/4.0.

**Degree Requirements**

**M.S. Computer Science**

1. Foundation coursework: If any of the following foundation courses in Computer Science or Mathematics have not been taken in another program, these must be completed at the earliest. 4000-level foundation courses must be taken as their 6000-level counterparts by graduate students.
   - Foundation coursework in computer science with a grade of B or higher in each.
     - CSC 2510 Theoretical Foundations of Computer Science (3)
     - CSC 3410 Data Structures (3)
     - CSC 4210/CSC 6210 Computer Architecture (4)
     - CSC 4320/CSC 6320 Operating Systems (4)
     - CSC 4330/CSC 6330 Programming Language Concepts (4)
     - CSC 4350/CSC 6350 Software Engineering (4)
     - CSC 4510/CSC 6510 Automata (4)
     - CSC 4520/CSC 6520 Design and Analysis of Algorithms (4)
   - Foundation coursework in mathematics that includes a standard elementary calculus sequence (MATH 2211 and MATH 2212) with a grade of B or higher in each.
2. CSC 8900 Seminar in Computer Science (1 hour). A research training course which must be taken in the first semester.
3. Graduate-level coursework (24 hours): To be taken in consultation with an academic adviser, and approved by the Director of Graduate Studies, with a grade of B or higher in each course.
Sixteen hours of computer science courses at the 8000-level, exclusive of Research, Thesis Research, and Independent Study courses.

An additional eight hours of graduate-level coursework, exclusive of Research, Thesis Research and Independent Study courses.

4. Thesis/Project/Course Only (6-8 hours)
   - Thesis Option: Six hours of Thesis Research (CSC 8999). A thesis committee must be set up no later than two semesters after completing any foundation courses. This work should culminate in the writing of a thesis. The thesis must be defended successfully in an oral examination. This examination will pertain to, but is not limited to, the subject matter of the thesis.
   - Project Option: Four hours of CSC 8930 in which the student completes a project and an additional four hours of graduate-level coursework in computer science at the 6000 level or above exclusive of Foundation Research, Thesis Research, and Independent Study courses. The project must be supervised by a computer science graduate faculty adviser. The student must write a report on the project and pass an oral final examination given by an ad hoc faculty committee headed by the project adviser. This examination will pertain to, but is not limited to, the subject matter of the project.
   - Course Only Option: Two additional courses, one at the 6000-level or above in computer science exclusive of Foundation, Research, Thesis Research, and Independent Study courses and the other at the 8000-level exclusive of Research, Thesis Research, and Independent Study courses.

M.S. Computer Science (Bioinformatics Concentration)

1. Foundation Coursework (any that are not done): Math 2211, 2212, CSc 2510, 3410, 4210, 4320, 4330, 4350, 4510, 4520 with B or better in each. 4000-level foundation courses must be taken as their 6000-level counterparts by graduate students.

2. Graduate Coursework (30 hours): Computer Science (16 hours):
   - CSC 6640, CSC 8630 and two other 8000-level classroom taught courses.
   - Biology (8 hours): BIOL 7800, Molecular Cell Biology; BIOL 7810, Molecular Cell Biology Laboratory; and BIOL 7900, Genetics; or BIOL 6564, Advanced Genetics.
   - Chemistry (3 hours): CHEM 6150, Introduction to Biophysical Chemistry. Alternatives to Chem 6150 include Chem 6110 or 6120, or 6600 or 8900.
   - Mathematics/Statistics (3 hours): MATH 6544, Biostatistics.

3. Thesis/Project/Course Only (6-8 hours):
   - Thesis option requires 6 hours of CSC 8999.
   - Project option requires 4 hours of CSC 8930 (project) and an additional classroom taught 6000-level or higher computer science course.
   - Course Only option requires one additional classroom taught 6000-level or higher computer science course and another 8000-level classroom taught course.

Dual B.S./M.S. in Computer Science

The department offers a dual Bachelor of Science and Master of Science in Computer Science. The dual degree opportunity enables qualified students to enroll in graduate courses late in their undergraduate program and apply the coursework toward both the bachelor’s and master’s programs.
Students must be formally accepted into the dual degree program by the department and College of Arts and Sciences to be able to take graduate courses as an undergraduate. Additionally, acceptance into the dual program does not constitute admission to the master’s program. Students must fulfill regular graduate admissions requirements and apply for the master’s program following college processes.

Information about the dual program, including application instructions and program requirements, can be found at cas.gsu.edu/dual-degrees/.

**Ph.D. Computer Science**

Note: Students enrolled in this program must maintain 3.5 GPA in coursework at Georgia State University.

1. **Foundation Coursework.** If any of the following foundation courses in computer science or mathematics has not been taken in another program, these must be completed at the earliest. 4000-level foundation courses must be taken as their 6000-level counterparts by graduate students.
   - Foundation coursework in computer science with a grade of B or higher in each.
     - CSC 2510 Theoretical Foundations of Computer Science (3)
     - CSC 3410 Data Structures (3)
     - CSC 4210/CSC 6210 Computer Architecture (4)
     - CSC 4320/CSC 6320 Operating Systems (4)
     - CSC 4330/CSC 6330 Programming Language Concepts (4)
     - CSC 4350/CSC 6350 Software Engineering (4)
     - CSC 4510/CSC 6510 Automata (4)
     - CSC 4520/CSC 6520 Design and Analysis of Algorithms (4)
   - Foundation coursework mathematics that includes a standard elementary calculus sequence (MATH 2211 and MATH 2212) with a grade of B or higher in each.

2. **Ph.D. Coursework (48 hours)**
   Of these 48 hours, no more than 12 hours can be taken at the 6000 level. These 12 hours exclude any of the foundation courses previously listed.
   - CSc 9900 Seminar in Computer Science (1 hour). A research training course which must be taken in the first semester.
   - Core Coursework (12 hours). Take one from each of the following three groups:
     - **ALGORITHMS (8520, 8530, 8550, 8560)**
     - **ARCHITECTURE (8210, 8270, 8251)**
     - **SYSTEMS (8220, 8320, 8370)**
   - Breadth Coursework (12 hours). Take one each from three of the following groups:
     - Bioinformatics (8050, 8540, 8630)
     - Database and Artificial Intelligence (8710, 8711, 8712, 8810)
     - Distributed Computing (8223)
     - Graphics and Visual Computing (8260, 8720, 8820)
     - Networks (8221, 8222, 8250)
     - Numerical and Scientific Computing (8610, 8620)
     - Software Engineering and Simulation/Modeling (8350, 8840)
   - Electives (23 hours).
     - To be chosen in concert with dissertation committee and approved by dissertation
committee and should reflect student interest, coursework related to research area, etc.

- A maximum of 8 hours can be directed study/research or seminars (6999, 8950, or 8910).
- A minimum of 3 hours and a maximum of 9 hours from outside the department.
- 6 to 20 hours of depth computer science classroom taught non-foundation courses.

3. Qualifying Process. The qualification process consists of two parts:
   - Curriculum Requirement: The student is required to complete one course in each of the three CORE areas (Algorithms, Architecture, and Systems) and receive at least 2 A’s and 1 B in these courses to meet the curriculum requirement of the qualifying process.
   - Research Examination: The objective of the research examination is to assess the student’s potential to begin doctoral-level research. The examination will assess the student’s abilities to:

   - Read and understand research papers in their field.
   - Formulate a problem clearly and provide the motivation and requirements for a solution.
   - Determine if a solution is correct.
   - Assess to what extent a presumably correct solution solves the problem.
   - Clearly identify potential next research problems and provide solutions.
   - Communicate effectively, both in writing and orally.
   - Answer questions related to the problem and its solutions.

   The student will request the research examination in an area/subarea of computer science. A committee of 3 faculty members will choose two advanced research papers and assign to the student. After a period of time, the student will present a written report and schedule an oral defense in which there will be general questioning by the committee. The result of the exam is PASS/FAIL. A student who receives a FAIL in the first attempt will be given a second and final attempt.

   **Timeline:** A typical student (one who is admitted to the Ph.D. program with very few foundation courses to take) is expected to qualify by the end of the third semester (excluding summers) after admission.

4. Dissertation Committee. Must be formed immediately after completing the qualification process.
   - Major adviser plus at least three other members.
   - One member must be from outside the department. Major adviser and at least two other members must be computer science graduate faculty.
   - This committee should be consulted to plan electives and possibly required courses to ensure depth in the research area.
   - This committee may suggest additional technical writing, mathematics, or computer skill courses depending on the student’s background.

5. Candidacy Examination. To be taken within two years of qualifying. A written proposal on the research to be carried out will be submitted and defended in front of the dissertation committee. Upon successful completion of the candidacy examination, a student is declared a candidate for the doctoral degree. An unsuccessful result in the candidacy examination would require the student to take the candidacy examination a second and last time within three semesters (excluding summer).

7. Written dissertation and oral defense.
Ph.D. Computer Science (Bioinformatics Concentration)

Note: Must maintain 3.5 GPA in coursework at Georgia State University.

1. Foundation Coursework. If any of the following foundation courses in computer science or mathematics has not been taken in another program, these must be completed at the earliest. 4000-level foundation courses must be taken as their 6000-level counterparts by graduate students.
   - Foundation coursework in computer science with a grade of B or higher in each.
     - CSC 2510 Theoretical Foundations of Computer Science (3)
     - CSC 3410 Data Structures (3)
     - CSC 4210/CSC 6210 Computer Architecture (4)
     - CSC 4320/CSC 6320 Operating Systems (4)
     - CSC 4330/CSC 6330 Programming Language Concepts (4)
     - CSC 4350/CSC 6350 Software Engineering (4)
     - CSC 4510/CSC 6510 Automata (4)
     - CSC 4520/CSC 6520 Design and Analysis of Algorithms (4)
   - Foundation coursework mathematics that includes a standard elementary calculus sequence (MATH 2211 and MATH 2212) with a grade of B or higher in each.

2. Ph.D. Coursework (48 hours)
   - CSC 9900 Seminar in Computer Science (1). A research training course which must be taken in the first semester.
   - Core Coursework (12 hours). Take one from each of the following three groups:
     - Algorithms (8520, 8530, 8550, 8560)
     - Architecture (8210, 8270)
     - Systems (8220, 8320, 8370)
   - Bioinformatics (12 hours): Take CSc 6640 and two from of CSc 8050, 8540, 8630.
   - Electives (23 hours)
     - Must include Biology (8 hours): BIOL 7800 Molecular Cell Biology, BIOL 7810 Molecular Cell Biology Laboratory, and BIOL 7900 Genetics or BIOL 6564 Advanced Genetics; Chemistry (3 hours): CHEM 6150 Introduction to Biophysical Chemistry. Alternatives to CHEM 6150 include CHEM 6110, CHEM 6120, CHEM 6660, or CHEM 8900; Math/Stat (3 hours): MATH 6544 Biostatistics.
     - May include a maximum of 5 credits of independent research or seminars (CSc 8950 or 8910).

3. Qualifying Process: same as in regular Ph.D. requirements.
4. Dissertation Committee: same as in regular Ph.D. requirements except one member must be a biologist or chemist.
5. Candidacy Examination: same as in regular Ph.D. requirements.
Programs Offered:

- **Master of Arts in English**
  - Concentration in Literary Studies
  - Concentration in Creative Writing
  - Concentration in Rhetoric and Composition
- **Master of Fine Arts in Creative Writing**
  - Concentration in Fiction
  - Concentration in Poetry
- **Doctor of Philosophy in English**
  - Concentration in Literary Studies
  - Concentration in Creative Writing
  - Concentration in Rhetoric and Composition

Department of English
23 Floor, 25 Park Place Building
404-413-5800
E-mail: ckocela@gsu.edu
english.gsu.edu

Lynee’ Gaillet, Chair
Audrey Goodman, Associate Chair
Chris Kocela, Director of Graduate Studies
Tanya Caldwell, Associate Director of Graduate Studies
Jody Brooks, Assistant Director of Graduate Studies

The Department of English offers the Master of Arts (M.A.), the Master of Fine Arts (M.F.A.), and the Doctor of Philosophy (Ph.D.) degrees. The M.A. and Ph.D. degree programs provide concentrations in literary studies, creative writing, and rhetoric and composition; the M.F.A. degree program allows students to concentrate in either poetry or fiction. The M.A. degree program prepares students for further graduate study or for careers in writing, editing, technical communications, research, or business. Time to degree for the M.A. program depends on whether students choose the M.A. thesis track (available in all concentrations), or the M.A. independent study track, (available only in the literary studies and rhetoric and composition concentrations). The M.A. thesis track usually requires two to three years of study, while the M.A. independent study track is designed to enable students to complete the degree within four semesters. The M.F.A. and Ph.D. degree programs prepare students to write, to teach at the college level, and to conduct scholarly research. The M.F.A. degree usually requires three to four years of study, including coursework, examinations, and a substantial creative thesis. The Ph.D. degree usually requires four to six years of study, including coursework, examinations, and a dissertation. In addition to its course offerings in British, American, and Transnational Literatures, as well as literary theory, folklore, rhetoric, composition, technical/professional writing, and creative writing, the department provides opportunities for training in scholarly and textual editing through several long-term publishing and editing projects.

Applicants may obtain additional information about the Department of English by contacting the Director of Graduate Studies at the addresses above.
Transfer Credit

No more than six semester hours or two courses of graduate work completed at another accredited college or university and approved by Georgia State University may be applied to a graduate degree in English. All transferred coursework must correspond to courses offered in the Georgia State Department of English. Such transferred coursework must have a grade of B (3.0 grade-point average) or higher.

Financial Aid

Students interested in scholarships and student loans should consult the Office of Student Financial Aid. The Department of English currently provides financial support primarily in the form of Graduate Teaching Assistantships, which carry full tuition waivers. Graduate Teaching Assistantships are available on a competitive basis to a limited number of M.F.A., Ph.D., and second-year M.A. students with superior qualifications (the Department cannot fund M.A. students in their first years). The Paul Bowles Graduate Fellowship, the Virginia Spencer Carr Graduate Fellowship, and the Scholarship Endowment in Creative Writing are awarded to entering fiction writing students who have been admitted to the M.F.A. or Ph.D. program. Again, Graduate Teaching Assistantships are awarded on a competitive basis, and admission alone to any graduate program in English does not automatically guarantee funding. Further information and application forms are available from the Department of English.

Grades

Throughout their coursework students must maintain a B average or higher. Only those courses in which students earn an A or a B will be credited toward a degree.

Academic Warning and Dismissal

A graduate student whose cumulative grade-point average (GPA) falls below 3.0 at the end of any semester will receive a warning from the associate dean for Graduate Studies of the College of Arts and Sciences. At the end of the next 18 hours of enrollment, the student must achieve a 3.0 cumulative GPA, or the College of Arts and Sciences will dismiss the student.

Non-Degree and Transient Student Admission

Students may be admitted on a non-degree status only if classroom space is available. Preference will be given to degree students. Students must complete an application, submit two transcripts of all previous college or university work, and provide a list of courses they wish to take. Only six credit hours earned while on non-degree status may later be applied to degree programs. Transient students must reapply each semester.

Further Information

Application forms and information about the Graduate Record Examination (GRE) and other materials are available at http://cas.gsu.edu/graduate-studies/admissions/. If you have any questions about graduate studies in English, please call 404-413-5800 to make an appointment to see the Director of Graduate Studies.
The Department of English offers four master’s degree programs:

1. Master of Arts, Concentration in Literary Studies;
2. Master of Arts, Concentration in Rhetoric and Composition;
3. Master of Arts, Concentration in Creative Writing; and
4. Master of Fine Arts in Creative Writing (M.F.A.).

Admission

Applicants should be aware that admission is competitive and that meeting the minimum admission requirements does not guarantee admission to the M.A. program. Before entering the program a student must have completed a bachelor’s degree with a major in English or its equivalent from an accredited college or university with at least a B average (3.0) in the undergraduate major. The Department of English admits students to its graduate programs only in the fall semester of the academic year. The Director of Graduate Studies in English will consider only complete admission files. Applicants are responsible for seeing that their admission files are complete by the deadlines for admission published in the current edition of this catalog.

The applicant should supply the following materials:

1. A statement of purpose that includes a brief explanation of what the student hopes to accomplish, a clear indication of which degree program the applicant is seeking admission to, and (if the applicant has not yet completed a bachelor’s degree) an indication of the term in which the applicant expects to receive the degree;
2. Competitive scores (no more than five years old) on the general GRE test;
3. Official transcripts of all previous college or university work;
4. Two letters of recommendation sent directly from persons who testify to the applicant’s ability to do graduate work;
5. A critical writing sample of approximately eight to twelve pages. The critical sample is not required for the Creative Writing M.A. or M.F.A.
6. Applications for the M.A., Concentration in Creative Writing, and the M.F.A. program must also contain the following: a portfolio consisting of a minimum of 10 poems; or 2 or 3 stories totaling no fewer than 30 and no more than 50 pages. One of the 2 or 3 fiction samples may be an excerpt of a longer work (novel, novella, etc.), but we ask that you send at least one complete, stand-alone example of your short fiction. On the first page of the creative sample, the applicant should list her or his name, email address, phone number, and program she or he is applying to (M.F.A. Fiction, M.F.A. Poetry, M.A. Fiction, M.A. Poetry.)

The M.F.A. is a more rigorous and substantial degree than the M.A. with an emphasis in creative writing. Only students whose portfolios show exceptional promise will be admitted to the M.F.A. program. The Master of Arts in English, Concentration in Creative Writing is appropriate for those prospective students who wish to complete a non-terminal degree, and can also serve as an initial graduate degree for those who plan to continue their work at the doctoral level.

Registration and Advisement
Approximately one week before registration begins, the Office of the Registrar will post registration time-ticket assignments on the web and students can find out the date and time of their registration by entering the GoSOLAR website. The Director of Graduate Studies in the Department of English will act as adviser to all entering M.A. students. Students are responsible for making appointments with the Director of Graduate Studies for advisement and for being familiar with the requirements for their degree as set forth here. Students are encouraged to select a faculty adviser early in the program.

The Graduate Research Skill Requirement

The Graduate Research Skill Requirement will connect to, and further, a graduate student’s selected field of study and program emphases. Graduate Research Skill may be defined as the acquiring and practice of specialized skills, methods, and linguistic or language studies that include foreign languages (spoken fluency, written competency, reading knowledge, or translating from English into a foreign language, or translating from a foreign language into English), translation studies, or a specialized language system, such as digital humanities and/or emerging communication technologies.

The Graduate Research Skill Requirement may be fulfilled with or by:

1. A sequence of undergraduate courses in a foreign language (French, German, Italian, Spanish, etc.) culminating in a grade of B or better in an intermediate course (numbered 2002 or higher) completed within five years of admission to the graduate program;
2. A grade of B or better in a foreign language course numbered 2002 or higher taken while in the graduate program;
3. Passing a CLEP examination in a foreign language;
4. Passing a translation examination administered by the Department of World Languages and Cultures;
5. Passing any other course (with a grade of B or better) or examination representing the acquisition and practice of a research skill that may be proposed by the student and approved by the Graduate Admissions and Review Committee.

The Graduate Research Skill Requirement may be fulfilled at the level of the M.A., M.F.A., or Ph.D. Students who fulfill the requirement during their M.A. or M.F.A. programs will have no further research skill requirement to fulfill at the doctoral level. Doctoral students who did not satisfy the requirement during their M.A. or M.F.A. programs must do so before taking any doctoral exams.

Time Limit

All requirements for a master's degree must be completed within seven years.

Master of Arts, Concentration in Literary Studies

Candidates for the M.A. with concentration in literary studies may choose either the thesis or independent study track.

Thesis Track

This track requires completion of 30 credit hours (10 courses), plus 6 hours of thesis credit, and a critical
thesis (40-60 pages excluding notes and reference material) approved by a thesis committee consisting of a director and two other faculty members.

Coursework

In the interests of facilitating broad historical and disciplinary coverage across the areas of language, literature, and culture, the following courses are required:

1. ENGL 8000 Bibliography and Research Methods (should be taken in the first semester);
2. ENGL 8001 M.A. Proseminar (should be taken in the second semester);
3. Three hours in English language study (8005: Practical Grammar; 8080: Modern Grammar; 8090: History of the English Language; 8210: Old English; 8250: Middle English; 8230: American English; 8245: African-American English);
4. Three hours in literary theory/critical methodology/cultural studies (6020, 6100, 6110, or 8200: Folklore; 8060: Literary Criticism; 8065: Foundations of Modern Critical Theory; 8070: Contemporary Literary Theory; 8075: Feminist Literary Theory; 9050: Topics in Contemporary Literary Theory and Criticism);
5. Nine hours in literature before circa 1800;
6. Nine hours literature after circa 1800;
7. Of the eighteen hours in areas 5 and 6, six hours must be in British literature; six hours must be in American literature; and three hours must be in transnational, diasporic, multi-ethnic, racially diverse, and/or postcolonial Anglophone literature (African, African-American, Irish, Native-American, Caribbean, Asian-American, Southeast Asian, Hispanic, etc.)
8. In the interests of fostering interdisciplinary study, and with written approval by the Director of Graduate Studies, up to six hours of electives may be substituted for any two courses described in areas 3-7 above. Electives may include transfer courses; GSU English Department courses outside the Literary Studies concentration (e.g., Rhet/Comp); courses taken from other GSU departments (History, Communications, Philosophy, etc.); or courses taken through the GSU cross-registration system. However, in ordinary circumstances, no substitutions within the Lit Studies concentration will be approved (no swapping a second course in theory for a pre-1800 lit); moreover, to be approved, any course proposed as a substitute must clearly and strongly relate to the area of the targeted course (Renaissance Art History or Colonial American History for a pre-1800 lit course, or a seminar on Hegel, Nietzsche, or Marx from Philosophy as a substitute for Foundations of Modern Critical Theory, for examples).

Thesis

It is the student’s responsibility to select a topic and to find a faculty member who will direct the thesis and two others who will serve on the thesis committee. Only members of the graduate faculty may direct theses. The semester before beginning to write the thesis, M.A. students must submit a written proposal for approval by their thesis committee. The proposal should include the following:

1. A description of the subject, including a statement of the way the proposed approach to the subject differs from, contributes to, or modifies the existing scholarship on the subject;
2. A description of the proposed method of treatment and an account of the research necessary to
complete it; and
3. A preliminary bibliography, including a discussion of the availability of materials.

The thesis must conform in all matters of documentation to the most recent edition of *The MLA Style Manual*. The Office of Graduate Services of the College of Arts and Sciences has specific standard requirements for format. The student is responsible for conforming to those standards. The thesis must be between 40 and 60 pages in length, excluding notes and reference material. By the time the thesis is completed, a student must have registered for at least six hours of English 8999 (Thesis Research).

**Independent Study Track**

This track requires completion of 27 hours of graduate coursework (9 courses), plus three hours of thesis credit, and an Independent Study Project (20-25 pages excluding notes and reference material) approved by a committee as described below.

**Coursework**

1. ENGL 8000 Bibliography and Research Methods
2. Three hours in English language study from among the following: ENGL 8005 Practical Grammar; ENGL 8080 Modern Grammar; ENGL 8090 History of the English Language; ENGL 8210 Old English; ENGL 8250 Middle English; ENGL 8230 American English; ENGL 8245 African-American English)
3. Three hours in literary theory/critical methodology/cultural studies from among the following: FOLK 6020 America’s Folk Crafts, FOLK 6100 British Folk Culture, FOLK 6110 Irish Folk Culture, or FOLK 8200 Folklore; ENGL 8060 Literary Criticism; ENGL 8065 Foundations of Modern Critical Theory; ENGL 8070 Contemporary Literary Theory; ENGL 8075 Feminist Literary Theory; ENGL 9050 Topics in Contemporary Literary Theory and Criticism)
4. Nine hours in literature before circa 1800
5. Nine hours in literature after circa 1800
6. Of the eighteen hours in areas 4 and 5, three hours must be in British literature; three hours must be in American literature, and three hours must be in transnational, diasporic, multi-ethnic, racially diverse, and/or postcolonial Anglophone literature
7. Up to three hours of internships can be used to satisfy requirements in areas 4 and 5.
8. Three hours of ENGL 8999 Thesis Research.

**Independent Study Project**

This project will consist of a substantial, article-length treatment of a research topic 20-25 pages in length, excluding critical apparatus. The Independent Study Project could originate as an essay written in one of the courses taken by the student toward completion of the degree, in which case the Project Advisor may be the professor who taught that course. As per College of Arts and Sciences requirements, the Independent Study Project must also be read by two other faculty members in the department, one of whom, in addition to the Project Advisor, must approve the project by the appropriate College deadline for graduation. Readers of the Project are to be selected by the student in consultation with his/her Advisor.
Information about the rhetoric and composition program is available at www.rhetcomp.gsu.edu.

Candidates for the M.A. with concentration in rhetoric and composition may choose either the thesis or independent study track.

**Thesis Track**

This track requires completion of 30 hours of graduate coursework (10 courses), plus 6 hours of thesis research credit, and a substantial (40–60 pages excluding notes and reference material) academic paper or a digital media project approved by a thesis committee consisting of a director and two other faculty members.

**Coursework**

In the interests of facilitating broad historical and disciplinary coverage across the areas of rhetoric, composition, professional writing, and technical communication, the following courses are required:

1. ENGL 8125 Writing and Research Methodology (should be taken in the first semester, if possible, and at the latest, the semester before writing the thesis), ENGL 8170 Classical Rhetoric: Greek, ENGL 8120 Writing for Academic Publication (ProSeminar), and ENGL 8180 Composition Theory;
2. Twelve additional hours of rhetoric and composition courses and strongly related courses;
3. Six hours of electives (may be taken in any related fields of study);

**Thesis**

Thesis research may involve digital and workplace projects as well as textual studies, and the thesis can be a substantial (40–60 pages) academic paper or a digital project with approval of the director. The proposal for thesis research must be submitted and approved by the student’s committee the semester prior to writing the thesis.

**Graduate Research Skill Requirement**

Candidates for the M.A. with an emphasis in rhetoric, composition, and technical and professional writing are expected to fulfill the graduate research requirement or to have received a grade of B or higher in both ENGL 8121 (Rhetoric of Digital Media) and ENGL 8123 (Digital Media Production).

**Independent Study Track**

This track requires completion of 27 hours of graduate coursework (9 courses), plus three hours of thesis credit, and an Independent Study Project (20-25 pages excluding notes and reference material) approved by a committee as described below. Completion of an internship as substitute for 3 to 6 hours of required coursework is strongly recommended.

**Coursework**
1. ENGL 8180 Composition Theory (should be taken in the first semester); ENGL 8170 Classical Rhetoric: Greek (should be taken in the first semester); ENGL 8125 Writing and Research Methods and Methodology (should be taken in the second semester)
2. Nine hours of rhetoric and composition or strongly related courses from among the following:
   ENGL 6510 Grant and Proposal Writing; ENGL 8115 Technical Writing; ENGL 8121 Digital Rhetoric; ENGL 8123 Digital Media Production; ENGL 8150 Modern and Contemporary Rhetorical Theory; ENGL 8005 Practical Grammar; ENGL 8080 Modern Grammar
3. Three hours Directed Reading in the area of specialization in which Independent Study Project is to be written.
4. Six hours electives (may be taken in related fields of study) and/or Internship(s).
5. Three hours of ENGL 8999 Thesis Research.

**Independent Study Project:**

This project may involve digital and workplace projects as well as textual studies, and can be either a substantial (20-25 pages) academic paper or equivalent digital project. In any event, the Independent Study Project must originate as a text/assignment within one of the courses taken by the student toward completion of the degree, and the Project Advisor will be the professor who taught the course in which the text/assignment originated. As per College of Arts and Sciences requirements, the Independent Study Project must also be read by two other faculty members in the department, at least one of whom, in addition to the Project Advisor, must approve the project by the appropriate College deadline for graduation. Readers of the Project are to be selected by the student in consultation with his/her Advisor.

**Graduate Research Skill Requirement**

Satisfaction of this requirement remains the same as for the thesis track M.A in English, Concentration in Rhetoric and Composition.

**Master of Arts, Concentration in Creative Writing**

The Master of Arts in English, Concentration in Creative Writing is appropriate for those students who wish to complete a non-terminal degree, and can also serve as an initial graduate degree for those who plan to continue their work at the M.F.A. or doctoral level. Upon attaining the M.A. degree, students will have acquired a productive specific knowledge of their chosen genre/area of specialization (either Poetry or Fiction).

The M.A., Concentration in Creative Writing student must satisfactorily complete 27 credit hours of graduate coursework (9 courses), plus 6 hours of thesis research credit.

All Poetry and Fiction workshops (ENGL 8020 Poetry Writing, ENGL 8030 Fiction Writing), creative writing craft courses (ENGL 8201 Contemporary Poetry, ENGL 8202 Contemporary Fiction Craft, ENGL 8203 20th-Century American & British Poetry Craft I), and form and theory coursework (ENGL 8160 Form and Theory of Literary Craft ) must be completed at Georgia State University during the degree program.

**Coursework**
Candidates for the M.A., Concentration in Creative Writing must satisfactorily complete 27 hours of graduate coursework, including

1. Twelve hours of either ENGL 8020 Poetry Writing or ENGL 8030 Fiction Writing depending on the program to which the student was admitted;
2. Six hours of either ENGL 8160 Form and Theory of Literary Craft, ENGL 8201 Contemporary Poetry, ENGL 8202 Contemporary Fiction Craft, or ENGL 8203 20th-Century American & British Poetry Craft I depending on the program to which the student was admitted;
3. Six hours of literature courses. (Rather than narrowly specializing in a particular area, a student should select courses that help her or him to achieve a lively understanding of a broad range of English, American, and World literature.);
4. Three hours of literature, rhetoric and composition, or folklore courses;
5. Six hours of ENGL 8999 Thesis Research.

Thesis

The M.A., Concentration in Creative Writing thesis must contain at least 35 pages of poetry or 60 pages of fiction. It must include an introduction or an afterword in which the student discusses his or her approaches, styles, methods, and influences. The semester before beginning to write the thesis, students must submit for approval by their thesis director and the Director of Creative Writing a written proposal detailing the thesis project.

Master of Fine Arts in Creative Writing

The Master of Fine Arts in Creative Writing is a terminal degree that prepares students to write and to teach at the college level. It also provides students an excellent foundation if they choose to continue their graduate work at the doctoral level. Upon attaining the M.F.A. degree, students will have acquired a productive specific knowledge of their chosen genre/area of specialization (either Poetry or Fiction).

The M.F.A. student must complete satisfactorily at least 42 hours of graduate coursework (14 courses), plus 6 hours of thesis research credit.

All Poetry and Fiction workshops (ENGL 8020 Poetry Writing, ENGL 8030 Fiction Writing), creative writing craft courses (ENGL 8201 Contemporary Poetry, ENGL 8202 Contemporary Fiction Craft, ENGL 8203 20th-Century American & British Poetry Craft I), and form and theory coursework (ENGL 8160 Form and Theory of Literary Craft) must be completed at Georgia State University during the degree program.

Coursework

Fiction Writers:

1. Fifteen to eighteen hours of ENGL 8030 Fiction Writing;
2. Six to nine hours of English and American literature and/or folklore; **24 hours are required for Areas 1 and 2 combined.**
3. Three hours of ENGL 8160 Form and Theory of Literary Craft in Fiction;
4. Three hours of [Engl8202] Contemporary Fiction Craft; and
5. Six hours of ENGL 8999 Thesis Research.

Poets:

1. Fifteen hours of ENGL 8020 Poetry Writing;
2. Six hours of English and American literature and/or folklore;
3. Three hours of ENGL 8160 Form and Theory of Literary Craft in Poetry;
4. Three hours of ENGL 8201 Contemporary Poetry;
5. Three hours of ENGL 8203 20th-Century American & British Poetry Craft I;

M.F.A. Examination

Before students can take the M.F.A. examination, they must have completed all coursework and the graduate research skill requirement.

The M.F.A. comprehensive examination in Fiction is a one-day, on-site examination. The examination period is four hours. The examination includes a section of identifications and either two or three essays based on the M.F.A. reading list. The examination director will decide on the final format of the examination.

The M.F.A. comprehensive examination in Poetry is a two-part exam. Part 1 is on-site, and the examination period is four hours. The Part 1 examination includes a section of identifications and either two or three essays based on the M.F.A. reading list. Part 2 is a take-home examination, and the examination period is 72 hours. The student completes an essay based on a topic provided by her or his exam director and based on the MFA reading list. The examination director will decide on the final format for the examination.

Thesis

The M.F.A. thesis must be a minimum of 50 pages long for a manuscript of poems or a minimum of 150 pages for a manuscript of prose fiction. M.F.A. theses in fiction must include an introduction or an afterword in which the student discusses his or her approaches, styles, methods, and influences. The semester before beginning to write the thesis, students must submit for approval by their thesis director and the Director of Creative Writing a written proposal detailing the thesis project.

Doctor of Philosophy

The Ph.D. degree programs prepare students to write, to teach on the college and university levels, and to conduct scholarly research. At the end of their Ph.D. coursework, students will have acquired a productive general knowledge of the various fields of literary study in English and will have developed a concentrated preparation in their areas of specialization.

Admission

Applicants should be aware that admission is competitive and that meeting the minimum admission requirements does not guarantee admission to the Ph.D. program. Before entering the Ph.D. program,
students are generally expected to have completed a master’s degree in English or a closely related discipline from an accredited college or university. The Department of English admits students to its doctoral programs only in the fall semester of the academic year. The Director of Graduate Studies in English will consider only complete admission files. Applicants are responsible for seeing that their admission files are complete by the deadlines for admission published in this catalog.

All applicants must submit the following materials:

1. Official transcripts of all previous college or university work;
2. Three letters of recommendation sent directly from persons who testify to the applicant’s ability to do graduate work. Applicants from the M.A. program in English at Georgia State must submit new letters of recommendation, preferably from English department faculty;
3. Competitive scores (no more than five years old) on the General portion of the GRE;
4. An essay composed by the applicant stating goals and career objectives; and
5. A 10-20 page critical writing sample.
6. For Creative Writing applicants only: a portfolio consisting of a minimum of 10 poems; or 3 stories totaling no fewer than 30 and no more than 50 pages. One of the 3 fiction samples may be an excerpt of a longer work (novel, novella, etc.), but we ask that you send at least one complete, stand-alone example of your short fiction. On the first page of the creative sample, the applicant should list her or his name, email address, phone number, and program she or he is applying to (PhD Fiction, PhD Poetry).

Advisement

The Director of Graduate Studies will serve as the student’s initial faculty adviser, whom the student should consult regularly. However, very early in the program, the student should begin to design a course of study leading towards areas of primary and secondary specialization. The student will be tested on the primary specialization (the doctoral examination and the coursework required for taking it are described below). Optimally in the first semester of the doctoral program, but certainly before the end of the second semester, the student should form a three-member faculty advisory committee composed of at least two faculty members in the primary area of specialization. Working with this committee, the student will define and develop the areas of specialization and determine the courses that can be used to satisfy the specialization requirements.

Doctoral Degree Plans

Students may choose to follow one of three plans. Plan 1 focuses on literary studies. Plan 2 emphasizes rhetoric and advanced writing courses. Plan 3 emphasizes creative writing.

Basic Coursework and Residency Requirements

Depending on the plan chosen by a student, the total credit hours required vary from 50 to 59 beyond the M.A. (30-39 hours of coursework plus 20 hours of dissertation research). To fulfill the residency requirement for the Ph.D. degree, students must enroll for a minimum of 6 hours per term for 4 semesters. Two of these semesters must be consecutive. Each plan has further particular coursework requirements which are specified below.
Doctoral Examinations

After completing coursework and the graduate research skill requirement (see above), students in all concentrations must pass the examination specific to their concentrations.

In the Creative Writing concentration, the doctoral examination in poetry is a two-day, on-site exam. Each examination period is four hours. The examination on Day 1 includes a section of identifications and either two or three essays dealing with the works and authors pre-1900 drawn from the Ph.D. reading list. The examination administered on Day 2 is comprised of three or four essays about the works and authors post-1900 drawn from the Ph.D. reading list. The examination director will decide on the final format for the examination.

In the Creative Writing concentration, the doctoral comprehensive examination in fiction is a two-day, on-site exam. Each day a four-hour examination is administered. The examination on Day 1 includes a section of identifications and either two or three essays dealing with works and authors pre-1900 drawn from the Ph.D. reading list. The examination director will decide on the final format for the examination.

In the Rhetoric and Composition concentration, the doctoral examination is a seven-day, off-site examination. The examination draws on both a primary field of specialization and a research focus within that field. Further information on the format of the doctoral examination in Rhetoric and Composition is available at www.rhetcomp.gsu.edu.

In the Literary Studies concentration, the doctoral examination will be in the area in which the student plans to write the dissertation. The examination consists of three parts: a two and a half hour on-site written, a seventy-two hour off-site written, and a ninety-minute oral. As described in the list of required courses below, in order to take the examination, the student must have completed 12 credit hours (4 courses) in or strongly related to that area. The exam itself will be based on a reading list composed of no fewer than forty texts, devised by the student in consultation with the faculty adviser who will be the primary reader of the exam. The examination reading list must be composed, and approved by the faculty adviser, at least one semester prior to the semester in which the student will take the exam. The examination questions must be approved by the Director and Associate Director of Graduate Studies.

Examinations are not offered in the summer. Students must give the Director of Graduate Studies in English written notification of their intention to take the primary examination by the departmental deadline. Each doctoral examination will be graded by at least three faculty members. A student must pass the examination on either the first or second try in order to remain in the Ph.D. program. Examples of past examination questions and of successful answers are available to students preparing for the examination.

Dissertation

Doctoral students must submit a dissertation acceptable to the Department of English and to the Office of Graduate Services of the College of Arts and Sciences. Stages in the preparation of the dissertation include the following: choosing a dissertation director and dissertation committee, submitting a dissertation proposal, defending the dissertation proposal, writing the dissertation, defending the dissertation.

Soon after completing the doctoral examination, a doctoral student must submit to his or her dissertation committee a written dissertation proposal that should include the following:
1. A description of the subject, including a statement of the way the proposed approach to the subject differs from, contributes to, or modifies the existing scholarship on the subject;
2. A description of the proposed method of treatment and an account of the research necessary to complete it; and
3. A preliminary bibliography, including a discussion of the availability of materials.

After consulting informally with the dissertation director and the other members of the student’s dissertation committee, the student must defend the proposal orally in a meeting with the committee and the Director of Graduate Studies. If the committee judges the student’s proposal to be acceptable, the student will be given permission to proceed with the project.

While writing the dissertation, the student must register for at least 20 hours of ENGL 8999 (Thesis Research). Each student must pass an oral defense of the dissertation administered by the members of the student’s dissertation committee and the departmental Director of Graduate Studies.

**Time Limit**

Work on the doctorate must be completed within ten years of admission to the program.

**Particular Requirements of Individual Ph.D. Plans:**

**Plan 1: Literary Studies:**

In the interests of facilitating professional specialization within the broad fields of linguistic, literary, and cultural study, the following are required:

1. Thirty hours of course work beyond the M.A. degree (including, if desired, a maximum of nine hours of coursework in related fields offered by other departments);
2. Fulfillment of areas 1, 3, 4, 5, 6, and 7 of the M.A. course requirements;
3. An additional three hours in English language study OR literary theory/critical methodology/cultural studies;
4. In preparation for the doctoral examination and dissertation, twelve hours of coursework in or strongly related to an area of primary specialization (may include courses taken at the M.A. level and a maximum of one course in a strongly related field offered by another department);
5. Nine hours of coursework in or strongly related to an area of secondary specialization (may include courses taken at the M.A. level and a maximum of one course in a strongly related field offered by another department);
6. For the purposes of fulfilling requirements 4 and 5, an area of specialization may be defined in terms of geographical region and historical period; literary genre; theory or methodology; or some combination of the preceding. Students should begin to craft their courses of study by meeting with appropriate faculty advisors early in their doctoral program and by meeting with their advisors thereafter on a regular basis to make revisions as the student’s goals evolve. For a list of possible areas of specialization, please refer to the Department of English website.
7. Electives as needed to complete the 30-hour requirement;
8. Twenty hours ENGL 8999 (Thesis Research).

**Plan 2: Rhetoric and Composition**
Information about the rhetoric and composition program is available at www.rhetcomp.gsu.edu. Dissertation research may involve digital and workplace projects as well as textual studies, and the dissertation can be a substantial academic project or a digital project with approval of the director. In the interests of facilitating professional specialization within the broad fields of rhetoric, composition, professional writing, and technical communication, the following courses are required:

1. A total of thirty hours of course work beyond the M.A. level (including, if desired, a maximum of six hours of coursework in related fields offered by other departments);
2. Six hours of language, theory, or literature courses, or in any strongly related fields of study outside of English upon approval from the student’s advisor and the Director of Graduate Studies;
3. ENGL 8125 (if not taken at the M.A. level; should be taken in the first semester, if possible), ENGL 8170 Classical Rhetoric: Greek, ENGL 8120 Writing for Academic Publication (Pro Seminar), and ENGL 8180 (Composition Theory) (the student can enter the Ph.D. program with this requirement fulfilled if these courses or their equivalent were taken at the M.A. level);
4. Twelve hours of rhetoric, composition courses, technical communication and strongly related courses;
5. Electives as needed to complete the 30-hour requirement;
6. Twenty hours of ENGL 8999 (Thesis Research)

**Plan 3: Creative Writing:**

Students in creative writing select either Poetry or Fiction as their primary specialization and the other genre as their secondary specialization.

All Poetry and Fiction workshops (ENGL 8020 Poetry Writing, ENGL 8030 Fiction Writing), creative writing craft courses (ENGL 8201 Contemporary Poetry, ENGL 8202 Contemporary Fiction Craft, ENGL 8203 20th-Century American & British Poetry Craft I), and form and theory coursework (ENGL 8160 Form and Theory of Literary Craft ) must be completed at Georgia State University during the degree program.

In the interests of facilitating professional specialization within the field of creative writing, the following are required:

**Fiction Writers:**

The Ph.D. student in Fiction must complete satisfactorily at least 36 hours of graduate coursework beyond the M.A. or M.F.A. (12 courses), plus 20 hours of thesis research credit. Any student who receives more than one C during his or her program will be dropped from the Ph.D. program.

For fiction writers, the following courses and research hours are required:

1. Twelve hours of ENGL 8030 Fiction Writing);
2. Three hours of ENGL 8160 Form and Theory of Literary Craft in Fiction;
3. Three hours of ENGL 8202 Contemporary Fiction Craft;
4. Three hours of courses in or strongly related to area of primary specialty;
5. Three hours of ENGL 8160 Form and Theory of Literary Craft in Poetry;
6. Six hours of courses in or strongly related to area of secondary specialty;
7. Three hours of language study, unless satisfied at M.A. level (ENGL 8005 Practical Grammar; 8080 Modern Grammar; 8090 History of the English Language; 8210 Old English; 8250 Middle English; 8230 American English; 8245 African American English)

8. Three hours of literary theory/ critical methodology/ cultural studies, unless satisfied at the M.A. level (FOLK 6020, FOLK 6100, FOLK 6110 or FOLK 8200; ENGL 8060 Literary Criticism; ENGL 8065 Foundations of Modern Critical Theory; ENGL 8070 Contemporary Literary Theory; ENGL 8075 Feminist Literary Theory; ENGL 9050 Topics in Contemporary Literary Theory and Criticism);

Poets:

The Ph.D. student in Poetry must complete satisfactorily at least 39 hours of graduate coursework beyond the M.A. or M.F.A. (13 courses), plus 20 hours of thesis research credit. Any student who receives more than one C during his or her program will be dropped from the Ph.D. program.

For poets, the following courses and research hours are required:

1. Twelve hours of ENGL 8020 Poetry Writing;
2. Three hours of ENGL 8160 Form and Theory of Literary Craft in Poetry;
3. Three hours of ENGL 8201 Contemporary Poetry;
4. Three hours of ENGL 8203 20th-Century American & British Poetry Craft I;
5. Three hours of ENGL 8160 Form and Theory of Literary Craft in Fiction;
6. Three hours of courses in or strongly related to area of primary specialty;
7. Six hours of courses in or strongly related to area of secondary specialty;
8. Three hours of language study, unless satisfied at M.A. level (ENGL 8005 Practical Grammar; ENGL 8080 Modern Grammar; ENGL 8090 History of the English Language; ENGL 8210 Old English; ENGL 8250 Middle English; ENGL 8230 American English; ENGL 8245 African-American English);
9. Three hours of literary theory/ critical methodology/ cultural studies, unless satisfied at the M.A. level (FOLK 6020, FOLK 6100, FOLK 6110 or FOLK 8200; ENGL 8060 Literary Criticism; ENGL 8065 Foundations of Modern Critical Theory; ENGL 9050 Topics in Contemporary Literary Theory and Criticism);
10. Twenty hours of ENGL 8999 Thesis Research.
**3230 French**

Program Offered:

- Master of Arts in French
  - Concentration in Literature
  - Concentration in Language, Pedagogy, and Applied Linguistics
  - Concentration in French Studies
- Dual B.A./M.A. in French

Department of World Languages and Cultures
841 Langdale Hall
404-413-5980
E-mail: wlcgraduate@gsu.edu
wlc.gsu.edu

William Nichols, Chair
Peter Swanson, Director of Graduate Studies

The Department of World Languages and Cultures offers the Master of Arts (M.A.) degree in French and Spanish. The Master of Arts degree emphasizes advanced study in the language, culture, and literature of the student’s specialty, including courses of particular interest to foreign language teachers.

Applicants may obtain additional information about the Department of World Languages and Cultures by contacting the Director of Graduate Studies at the addresses above.

**Additional Admission Requirements**

In addition to the general requirements of the College of Arts & Sciences, the Department of World Languages and Cultures has the following requirements:

1. An undergraduate major or its equivalent in the language to be studied.
2. A minimum of three literature courses, including the introductory course, or equivalent.
3. A complete dossier which must include: (a) a letter of intent expressing the objectives of the student in entering the program; (b) two letters of recommendation from people familiar with the candidate’s academic work (dossiers will not be considered without both letters); and (c) a writing sample of an analytical nature in the target language. (At the discretion of the Graduate Committee, an entrance exam may be required.)

**Degree Requirements**

Master of Arts

Concentration in Literature (30 hours):

1. Basic Requirements:
   a. Twenty-four hours of coursework of which 18 hours must be taken in literature in the
student’s major field
b. A written exit examination
c. An oral exit examination
d. Proficiency in a foreign language other than the student’s major

2. Thesis/Non-Thesis Options
   a. Thesis Option:
      i. A written thesis proposal
      ii. Six hours of thesis research
      iii. A thesis
   b. Non-Thesis Option:
      i. Six hours of additional graduate coursework in the student’s major field or in related fields
      ii. A research paper.

Concentration in Language, Pedagogy, and Applied Linguistics (30 hours):

1. Basic Requirements:
   a. Eighteen hours of coursework in Literature, Language, and Culture in the student’s major field
   b. Twelve hours of coursework in Applied Linguistics and Pedagogy
   c. A written examination
   d. An oral examination
   e. A portfolio

Concentration in French Studies (30 hours):

1. Basic Requirements:
   a. Twenty-four hours in Literature, Language, and Culture in the student’s major field
   b. A written exit examination
   c. An oral exit examination
   d. Proficiency in a foreign language other than the student’s major

2. Thesis/Non-Thesis Options
   a. Thesis Option:
      i. A written thesis proposal
      ii. Six hours of thesis research
      iii. A thesis
   b. Non-Thesis Option:
      i. Six hours of additional graduate coursework in the student’s major field or in related fields
      ii. A research paper.

A student must have a grade-point average of 3.0 or higher in all courses counting towards the Master of Arts degree. Only courses passed with a grade of B or higher will count toward the degree.

Dual B.A./M.A. Program in French

The department offers a dual Bachelor of Arts and Master of Arts in French. The dual degree opportunity
enables qualified students to enroll in graduate courses late in their undergraduate program and apply the coursework toward both the bachelor’s and master’s programs.

Students must be formally accepted into the dual degree program by the department and College of Arts and Sciences to be able to take graduate courses as an undergraduate. Additionally, acceptance into the dual program does not constitute admission to the master’s program. Students must fulfill regular graduate admissions requirements and apply for the master’s program following college processes.

Information about the dual program, including application instructions and program requirements, can be found at cas.gsu.edu/dual-degrees/.
3240 Geosciences

Programs Offered:

- Master of Science in Geosciences
- Doctor of Philosophy in Chemistry with Concentration in Geology
- Professional Certificate in Geographic Information Science
- Dual B.A. or B.S. / M.S. in Geosciences

Department of Geosciences
24 Peachtree Center Ave.

P.O. Box 4105
Atlanta, Georgia 30303
404-413-5750
Fax: 404-413-5768
geosciences.gsu.edu

Daniel Deocampo, Chair
Jeremy E. Diem, Director of Graduate Studies for Geosciences, jdiem@gsu.edu

Applicants may obtain additional information about the Department of Geosciences by contacting the Director of Graduate Studies at the addresses above.

Master of Science in Geosciences (Geography Concentration)

The Department offers the Master of Science in Geosciences with a Geography concentration. Students seeking this degree and concentration are offered a broad range of courses that prepare students for research and professionals careers. Areas of specialization include: urban studies, geospatial technologies, or physical geography/environmental studies. Further information concerning specific courses applicable to each of these specializations is available in the departmental publication, *Guide to Graduate Studies in Geosciences*, which may be obtained from the department.

Students with professional goals are encouraged to enroll in the departmental internship course. This program is coordinated by the geoscience faculty members who assist students in selecting an appropriate sponsor. Our students have interned with a diverse group of sponsors, including local and regional planning agencies, federal and state governments, and numerous private corporations. Graduate credit earned in the internship course may be applied toward minimum credit requirements. Applications and internship qualifications can be obtained from the department. Thirty-six hours are required for completion of this degree. Thesis and non-thesis options are available and this option is normally selected in the first year of study. Further information is provided at geosciences.gsu.edu.

Master of Science in Geosciences (Geology Concentration)

The Master of Science (M.S.) degree program with a Geology concentration in the Department of Geosciences offers a broad range of courses that prepare students for research and professionals careers. Both thesis and non-thesis option programs are offered. The non-thesis option is normally selected within
the first year of study. Research efforts are in the following broad areas: geochemistry (analytical, aqueous, environmental, igneous, metamorphic, and sedimentary), mineralogy, hydrogeology, petrology, sedimentology, structural geology, and geoinformatics. Thirty-six hours are required for completion of this degree. Further information is provided at geosciences.gsu.edu.

**Master of Science in Geosciences (Water Sciences Concentration)**

A strong demand exists in the public sector and private industry for understanding of aquatic systems. The Master of Science (M.S.) degree program with a Water Sciences concentration is designed to provide students with a working knowledge of both the quality and quantity of water in the environment, and modern techniques to assess, model, and remediate aquatic environmental problems, and understand the social context and implications of water resources. Both thesis and non-thesis options are offered. Thesis research and non-thesis projects with faculty are carried out in the following broad areas: aqueous geochemistry, hydrogeology, watershed hydrology, water resources, ecohydrology, urban hydrology, meteorology, and applied climatology. Thirty-six hours are required for completion of this degree. Further information is provided at geosciences.gsu.edu.

**Doctor of Philosophy in Chemistry (Geology Concentration)**

The Doctor of Philosophy degree in Chemistry with a concentration in Geology is offered in collaboration with the Department of Chemistry. This program culminates in a dissertation containing the results of distinctive and original research scholarship carried out by the candidate. The dissertation must be defended publicly and judged to be a significant contribution in the advancement of science.

Graduate assistantships are available for qualified thesis-option M.S. and Ph.D. students. Masters students in the non-thesis option must participate in an internship or equivalent limited research project as a directed study and submit a report to the graduate faculty on the findings of this project. The non-thesis M.S. degree students must also pass the departmental comprehensive exam.

Applications for admission are accepted for all three semesters. International students and students requesting graduate assistantships must have submitted their complete application by April 15 to be considered for admission fall semester and by November 15 for spring semester.

**Additional Admission Requirements for the Geography Concentration**

In addition to the general requirements of the College of Arts and Sciences, the Department of Geosciences has the following admission requirements for the Geography Concentration:

1. Applicants to the M.S. degree program in Geosciences with Geography concentration must submit three letters of recommendation from professional sources.
2. A statement of educational/career goals.

**Additional Admission Requirements for the Geology Concentration**

In addition to the general requirements of the College of Arts and Sciences, the Department of Geosciences has the following admission requirements for the Geology Concentration:
1. Three letters of recommendation from individuals who can evaluate the applicant’s potential for graduate work in Geology.
2. A statement of educational or career goals.
3. A bachelor’s degree in Geology or other physical science or engineering. Students with a B.S. degree in other fields other than Geology are also welcome but are expected to take the Foundational courses listed below.
4. Foundation coursework (0-46 hours)
   These courses are assigned as part of the admission process. They can be exempted if equivalent work has been completed with grades of C or higher. Note: Field Geology requirement may be satisfied by presenting evidence of supervised field work in Geology performed at the upper-division undergraduate level. Graduate students who are required to take the Geology Foundation courses should take them at the graduate level (i.e., 6000 and higher) if available.

   a. Geology (0-26 hours)
      - GEOS 1121K Introductory Geosciences I (4)
      - GEOS 1222K Introductory Geosciences II (4)
      - GEOS 3002 Introduction to Earth Materials (4)
      - GEOS 4006 Sedimentary Environments and Stratigraphy (4)
      - GEOS 4013 Structural Geology (4)
      - GEOS 4120 Basic Field Geology (3) and
      - GEOS 4121 Advanced Field Geology (3)

   b. Allied Disciplines (0-20 hours)
      - Calculus: MATH 2211 (4) and MATH 2212 (4)
      - Physics: PHYS 1111K (4) or PHYS 2211K (4)
      - Chemistry: CHEM 1211K (4) and CHEM 1212K (4)

Additional Admission Requirements for the Water Sciences Concentration

In addition to the general requirements for the College of Arts and Sciences, the Department of Geosciences has the following admission requirements for the Water Sciences Concentration:

1. Three letters of recommendation from individuals who can evaluate the applicant’s potential for graduate work in Water Sciences.
2. A statement of educational, research, and/or career goals.
3. A bachelor’s degree in geography, geology, or related field.
4. Foundational coursework. These courses are normally expected to have been completed as part of the applicant’s undergraduate education. However, students who are otherwise qualified may be accepted under Special Status, with the condition that this coursework is completed as part of their graduate study:
   a. Minimum 1 semester of calculus
   b. Minimum 1 semester of physics
   c. Minimum 1 semester of chemistry
   d. 2 semesters of introductory physical geography or geology

Degree Requirements

Master of Science in Geosciences, Geography Concentration
**Thesis option (36 hours)**

Early in their coursework, students must select advisers to direct their programs of study and to appoint their general examination and thesis committees. A timeline is provided in the *Guide to Graduate Studies*.

1. GEOS 8002 (Geoscience Research Methods) to be taken the first time offered after the student’s admission to the program.
2. Techniques training equivalent by completion of one of the following courses: GEOS 6518 (Digital Cartography); (GEOS 6530 (Introduction to Remote Sensing); GEOS 6532 (Introduction to Geographic Information Systems); GEOS 6534 (Advanced Geographic Information Systems). This course may count toward the departmental minimum credit hour requirements.
3. GEOS 6515 (Qualitative Methods in Geography) or GEOS 6520 (Quantitative Spatial Analysis). This requirement may be waived if student has equivalent training.
4. Six semester hours of coursework at the 8000 level in addition to GEOS 8002.
5. Seminar (1-2 hours) GEOS 6095 Seminar in Geological Sciences
6. Remaining hours in student’s area of specialization chosen from graduate level courses.
7. Six semester hours of GEOS 8999 (Thesis Research) for thesis option or three semester hours of GEOS 8990 (Research Practicum) for non-thesis option.
8. Proficiency in a foreign language or in an approved research skill. Courses taken to fulfill this requirement may not count towards the departmental minimum credit hour requirements.

**Non-Thesis Option (36 hours)**

In addition to the requirements 1-7 above for the thesis option, students taking the non-thesis option must take three additional semester hours of graduate level coursework in lieu of GEOS 8999 and complete a non-thesis research project (GEOS 8990 Research Practicum). Students may attempt to fulfill the practicum requirement twice, but only three semester hours of GEOS 8990 can be counted toward their degree requirements. Students must pass a written comprehensive examination and pass an oral examination of the research project.

**Degree Requirements**

**Master of Science in Geosciences, Geology Concentration**

**Thesis Option (36 hours)**

1. GEOS 8002 (Geoscience Research Methods) to be taken the first time offered after the student’s admission to the program.
2. Techniques training equivalent by completion of one of the following courses: GEOS 6518 (Digital Cartography); (GEOS 6530 (Introduction to Remote Sensing); GEOS 6532 (Introduction to Geographic Information Systems); GEOS 6534 (Advanced Geographic Information Systems). This course may count toward the departmental minimum credit hour requirements.
3. Geology courses (14-20 hours)
   - GEOS 6000 Advanced Topics in Physical and Historical Geology (4)
   - GEOS 6003 Aqueous Geochemistry (4)
   - GEOS 6005 Geology of Georgia (3)
- GEOS 6006 Sedimentary Environments and Stratigraphy (4)
- GEOS 6007 Hydrogeology (4)
- GEOS 6011 Principles of Paleontology (4)
- GEOS 6013 Structural Geology (4)
- GEOS 6097 Topics in Geological Sciences (1-3)
- GEOS 6120 Basic Field Geology (3)
- GEOS 6121 Advanced Field Geology (3)
- GEOS 8001 Soils, Clays, and Weathering (4)
- GEOS 8003 Radiogenic Isotope Geology (3)
- GEOS 8097 Directed Study in Geology (1-3)

4. Seminar (1-2 hours) GEOS 6095 Seminar in Geological Sciences
5. Extra departmental courses (3-6 hours): An approved list of courses is available from the Department of Geosciences.
6. Foreign language: Proficiency in a foreign language or in an approved research skill in computer programming. This requirement can be fulfilled by taking an approved course or by taking an examination.
7. Thesis Research (GEOS 8999) (9 hours).

Non-Thesis Option (36 hours)

1. GEOS 8002 (Geoscience Research Methods) to be taken the first time offered after the student’s admission to the program.
2. Techniques training equivalent by completion of one of the following courses: GEOS 6518 (Digital Cartography); (GEOS 6530 (Introduction to Remote Sensing); GEOS 6532 (Introduction to Geographic Information Systems); GEOS 6534 (Advanced Geographic Information Systems). This course may count toward the departmental minimum credit hour requirements.
3. Geology Courses (14-20 hours)
   - GEOS 6000 Advanced Topics in Physical and Historical Geology (4)
   - GEOS 6003 Aqueous Geochemistry (4)
   - GEOS 6005 Geology of Georgia (3)
   - GEOS 6006 Sedimentary Environments and Stratigraphy (4)
   - GEOS 6007 Hydrogeology (4)
   - GEOS 6011 Principles of Paleontology (4)
   - GEOS 6013 Structural Geology (4)
   - GEOS 6097 Topics in Geological Sciences (1-3)
   - GEOS 6120 Basic Field Geology (3)
   - GEOS 6121 Advanced Field Geology (3)
   - GEOS 8001 Soils, Clays, and Weathering (4)
   - GEOS 8003 Radiogenic Isotope Geology (3)
   - GEOS 8097 Directed Study in Geology (1-3)
4. Seminar (1-2 hours) GEOS 6095 Seminar in Geological Sciences
5. Extra departmental Courses (6-9 hours). An approved list of courses is available from the department
6. Directed Study (3 hours) GEOS 8097 Directed Study in Geology
7. Comprehensive Examination: Pass a general written examination taken within the first year of study
8. Foreign language: Proficiency in a foreign language or in an approved research skill in computer
programming. This can be fulfilled by taking a course or taking an examination.
9. Submission and approval of research project paper and pass oral examination of research project.

Degree Requirements

Master of Science in Geosciences, Water Sciences Concentration

Thesis Option (36 credit hours)

Early in their graduate studies, students must select a faculty advisor to direct their programs of study and to appoint their committee. Students should consult with faculty members to align their course of study with desired professional licensure and certification appropriate to their desired career trajectory – for example, either the American Institute of Hydrology's Professional Hydrologist Certification, or the Association of State Boards of Geology’s Professional Geologist Licensure Examination.

1. Department Requirements (13 credit hours):
   a. GEOS 8002 Geoscience Research Methods (3)
   b. GEOS 6095 Seminar (1)
   c. GEOS 8999 Thesis Research (9)
   d. Successfully defend thesis in public presentation
2. Core Required Water Sciences Courses (8 credit hours):
   a. GEOS 6650 Surface Water Hydrology (4)
   b. GEOS 6007 Hydrogeology (4)
3. Elective Water Sciences Courses (Minimum 8 hours):
   a. GEOS 6003 Aqueous Geochemistry (4)
   b. GEOS 6642 Advanced Weather and Climate (4)
   c. GEOS 6646 Water Resources Management (4)
   d. GEOS 8040 Seminar in Hydrology and Geomorphology (4)
   e. BIOL 6451 Aquatic Pollution and Toxicology (4)
4. Related Geoscience Skills Courses (Minimum 6 hours):
   a. GEOS 6520 Quantitative Spatial Analysis (OR APPROVED statistics substitute) (3-4)
   b. GEOS 6532 GIS (4)
   c. GEOS 6534 Advanced Geographic Information Systems (4)
   d. Geos 6xxx GIS Programming (OR APPROVED Comp Sci substitute) (4)
   e. GEOS 6123 Geoinformatics (4)
   f. GEOS 6042 Environmental Instrumentation (4)
   g. PH 7299 Sampling of the Environment (3)
5. Other Water Related Elective Courses (Maximum 8 hours toward degree):
   a. GEOS 6644 Environmental Conservation (4)
   b. GEOS 6640 Geomorphology (4)
   c. GEOS 6017 Environmental Geology (4)
   d. GEOS 6784 Climatic Change (4)
   e. PH 7297 Global Water, Sanitation, & Hygiene (3)

Non-Thesis Option

1. All above requirements, except 1-C and 1-D.
2. An additional 6 (or more) credits of GEOS graduate courses.
3. Pass a written comprehensive examination.
4. GEOS 8990 (3) – Research Practicum (in consultation with a faculty member)
5. Pass an oral examination of the research project carried out in GEOS 8990.

Doctor of Philosophy

The Doctor of Philosophy (Ph.D.) degree in Chemistry with a concentration in Geology is offered in collaboration with the Department of Chemistry. At least 80 hours of graduate credit are required for the Ph.D. degree. In order to satisfy the minimum requirements for the degree, students must complete successfully:

1. Thirty hours of approved graduate core coursework.
2. Forty hours of research, at least 20 hours of which must be Dissertation Research.
3. Ten additional hours of graduate course electives.
4. Satisfaction of the foreign language (research skill) requirement.
5. A written and oral qualifying general examination.
7. A final oral examination directed primarily to the defense of the dissertation.

Specific requirements: In the list of requirements that follows, the minimum number of credit hours required in each category is indicated and the courses that can be taken to fulfill these requirements are listed in parentheses. Credit will be given only for those Geology courses in which the student receives a grade of B or higher. Category C may be used as the minor area of specialization if approved by the examination committee. Substitutions may be made by the graduate director in Category C with written approval of the Department of Geosciences.

A. Core courses: Geology (11 hours). To be selected from Geos 6003, 8001, 8003, 8010, or other approved substitutes;
B. Minor Area electives: (13 hours). To be selected from: Geos 6004, 6006, 6009; Analytical Chemistry: Chem 6850, 6860, 6800, 8900; Biophysical Chemistry: Chem 6000, 6010, 6190, 6110, 6580; Organic Chemistry: Chem 6400, 6410, 6450, 8900; or other approved substitutes;
C. Interdisciplinary elective: (6 hours). To be selected from Chemistry or Biology or approved substitutes;
D. Special Topics, Electives and Seminar: (10 hours). To be selected from Geos 6008, 6095, 6097, 6640, 6650; Biol 6439, 6458; Chem 6600, 6610, 6490; or other approved substitutes; and
E. Research: (40 hours). To be selected from GEOS 8097 or GEOS 9999 (a minimum of 20 hours are selected from GEOS 9999).

Foreign language/research skill requirement: A reading proficiency in one foreign language is required. An equivalent research skill such as computer language, technical writing, advanced statistics, electronics, etc. may be substituted for the foreign language (departmental approval required). Students with M.S. degrees which had a foreign language requirement satisfy the foreign language requirement. Note: credit hours used to fulfill the language requirement do not count in the 80 hours.

Professional Certificate in Geographic Information Science
Geographic Information Science (GIS) is a rapidly growing discipline, with applications in many fields. A strong demand exists for proficient users of geospatial technology. The graduate-level Professional Certificate Program in GIS is designed to facilitate those students working toward graduate degrees in a variety of disciplines, as well as those who use GIS in the workplace and would like to obtain systematic training in the technology without having to complete a graduate degree. The Certificate Program consists of five courses with a total of 20 credit hours, including elective courses from a variety of departments/programs. Please contact the Department of Geosciences for more information.

GIS Certificate Requirements (20)

1. Admission to the program: B.A. or B.S. in a related field. A statement of intent, GRE scores, and transcripts must be provided to the Graduate School as part of the application. Students lacking appropriate background may be required to take prerequisite courses:

2. Required Courses (16) The student must take the following courses:
   - GEOS 6518 Digital Cartography (4)
   - GEOS 6530 Introduction to Remote Sensing (4)
   - GEOS 6532 Introduction to Geographic Information Systems (4)
   - GEOS 6534 Advanced Geographic Information Systems (4)

3. Elective Courses (4) The student must take one of the following courses:
   - GEOS 6520 Quantitative Spatial Analysis (4)
   - GEOS 6834 Applied Research in GIS (4)
   - GEOS 8001 Methods of Geographic Research (4)
   - GEOS 8030 Seminar in Cartography (4)
   - GEOS 8035 Seminar in Geographic Information Systems (4)
   - GEOS 6123 Geoinformatics (4)

4. Examination

5. The student must pass an examination of GIS knowledge and applications. The certificate will be issued to students who complete the above requirements, including graduate students enrolled in the non-degree program.

Dual B.A./M.S. and Dual B.S./M.S. Programs in Geosciences

The department offers a dual Bachelor of Arts or Bachelor of Sciences and Master of Science in Geosciences. The dual degree opportunity enables qualified students to enroll in graduate courses late in their undergraduate program and count the coursework toward both the bachelor’s and master’s programs.

Students must be formally accepted into the dual degree program by the department and College of Arts and Sciences to be able to take graduate courses as an undergraduate. Additionally, acceptance into the dual program does not constitute admission to the master’s program. Students must fulfill regular graduate admissions requirements and apply for the master’s program following college processes.

Information about the dual program, including application instructions and program requirements, can be found at cas.gsu.edu/dual-degrees/.
3260 Gerontology

Programs Offered:

- Master of Arts in Gerontology
  - Concentration in Program Administration
  - Concentration in Research
- Dual B.A. in Sociology / M.A. in Gerontology
- Graduate Certificate in Gerontology

Gerontology Institute
605 One Park Place
404-413-5210
E-mail: gerontology@gsu.edu
gerontology.gsu.edu

Elisabeth Burgess, Director
Candace L. Kemp, Director of Graduate Studies

Gerontology is more than an academic subject; it provides a way of understanding ourselves and our families as we move across the life course, and it seeks to explain how our society and the world are being revolutionized by an aging population. We know that the aging process is universal. Gerontology shows us how this process is bounded by our genes, our mind, our culture, and our social networks. It acknowledges the realities that often beset old age, but recognizes that the aging process also is malleable and meaningful. Gerontology provides us with powerful tools for understanding the forces that are fundamentally altering our society as well as how they will shape our own future selves.

The Gerontology Institute offers a Master of Arts (M.A.) and a Certificate in Gerontology for students who wish to prepare for careers in the field of aging and focus their graduate studies in the area of gerontology. Students pursuing the M.A. degree may choose either the program administration concentration or the research concentration. The program administration concentration prepares students to work in aging services and administration and emphasizes program design and management. The research concentration prepares students to enter doctoral programs in gerontology, sociology, psychology, policy studies, family studies, or related fields and for beginning careers with organizations engaged in aging research.

The Graduate Certificate in Gerontology is designed to integrate knowledge of gerontology into students’ own disciplinary fields. It is offered for students preparing for a variety of careers in the aging field and for professionals already working in such areas as health care, social services, recreation, government, and business.

Applicants may obtain additional information about the Gerontology Institute by contacting the addresses above.

Admission Requirements
Master of Arts-Requirements for Admission

1. The general requirements of the College of Arts and Sciences.
2. Graduate Record Exam (GRE) scores.
3. Three letters of recommendation.
4. A statement of educational and career goals.
5. A current resume.

Graduate Certificate-Requirements for Admission

A. Internal Applicants (Students currently enrolled in graduate degree programs at Georgia State University).
   1. The general requirements of the College of Arts and Sciences. (an application fee is not required).
   2. Two letters of recommendation.
   3. A statement of educational and career goals.
   4. A current resume.
B. External Applicants (Those not currently enrolled who plan to pursue the certificate program independently of a degree).
   1. The general requirements of the College of Arts and Sciences.
   2. Two letters of recommendation.
   3. A statement of educational and career goals.
   4. A current resume.

Degree Requirements

Master of Arts (36 hours)

Prerequisite required of students without previous coursework in statistics.

SOCI 3010 Social Statistics (3) or another approved statistics course

1. Core courses (15 hours)
   a. Required:
      ■ GER 8000 Seminar in Gerontology (3)
      ■ GER 8100 Research Methods in Gerontology (3)
      Select three additional core courses (9 credits):
      ■ GER 7110 Aging Policy Services
      ■ GER 7200 Health and the Older Adult
      ■ GER 8116 Sociology of Aging
      ■ GER 8320 Psychology of Aging
      ■ GER 8124 Diversity and Aging

2. Concentration requirements (9 hours). Select one of the following tracks.
   a. Administration Concentration (9 hours)
      ■ GER 8200 Aging Program Administration (3)
      ■ GER 8910 Gerontology Internship (3)
GERO 8850 Capstone Seminar (3)

b. Research Concentration (9 Hours)

- Approved Advanced Methods Course (3) (such as GERO 8110; GERO 8115; HIST 6920; PH 7521; PT 8500; SOCI 8342)
- GERO 8999 Thesis Research (6 hours)
- A thesis approved by the student’s thesis committee and the director of the Gerontology Institute

3. Select four elective courses (12 hours)

Choose four electives from this list of approved electives:

- GERO 6475 Communication and Aging (3)
- GERO 7110 Aging Policy Services (3) (if not taken in the core)
- GERO 7200 Health and the Older Adult (3) (if not taken in the core)
- GERO 7260 Aging Practice, Policy, and Research (3)
- GERO 8102 Life Course Sociology (3)
- GERO 8110 Evaluation Research in Gerontology (3) (if not taken as a concentration requirement)
- GERO 8115 Qualitative Gerontology (3) (if not taken as a concentration requirement)
- GERO 8116 Sociology of Aging (3) (if not taken in the core)
- GERO 8119 Global Aging and Social Policies (3)
- GERO 8122 Death, Dying, and Loss (3)
- GERO 8124 Diversity and Aging (3) (if not taken in core)
- GERO 8130 Intimate Ties in Later Life (3)
- GERO 8200 Aging Program Administration (3) (if not required in concentration)
- GERO 8320 Psychology of Aging (3) (if not taken in the core)
- GERO 8330 Mental Health and Aging (3)
- GERO 8340 Dementia (3)
- GERO 8700 Special Topics in Gerontology (3)
- GERO 8800 Directed Reading in Gerontology (3)
- GERO 8910 Gerontology Internship (3) (if not taken in the core)
- NUTR 7105 Geriatric Nutrition (3)

Dual B.A. in Sociology / M.A. in Gerontology Program

In partnership with the Department of Sociology, the Institute offers a dual Bachelor of Arts in Sociology and Master of Arts in Gerontology. The dual degree opportunity enables qualified students to enroll in graduate courses late in their undergraduate program and apply the coursework toward both the bachelor’s and master’s programs.

Students must be formally accepted into the dual degree program by the department and College of Arts and Sciences to be able to take graduate courses as an undergraduate. Additionally, acceptance into the dual program does not constitute admission to the master’s program. Students must fulfill regular graduate admissions requirements and apply for the master’s program following college processes.

Information about the dual program, including application instructions and program requirements, can be found at cas.gsu.edu/dual-degrees/.
Graduate Certificate in Gerontology

The certificate program is open to students enrolled in graduate degree programs and in good standing at Georgia State University. In addition, non-enrolled students may apply for the certificate program.

Certificate Requirements (18 hours)

1. Core courses (9 hours)
   Select three of the following core courses:
   - GER0 7110 Aging Policy and Services (3)
   - GER0 7200 Health and the Older Adult (3)
   - GER0 7260 Aging Practice, Policy, and Research (3)
   - GER0 8116 Sociology of Aging (3)
   - GER0 8320 Psychology of Aging (3)

2. Select two elective courses (6 hours)
   - GER0 6475 Communication and Aging (3)
   - GER0 7110 Aging Policy and Services (3) (if not taken in core)
   - GER0 7200 Health and the Older Adult (3) (if not taken in the core)
   - GER0 7260 Aging Practice, Policy, and Research (3) (if not taken in core)
   - GER0 8000 Seminar in Gerontology (3)
   - GER0 8102 Life Course Sociology (3)
   - GER0 8116 Sociology of Aging (3) (if not taken in the core)
   - GER0 8119 Global Aging and Social Policies (3)
   - GER0 8122 Death, Dying, and Loss (3)
   - GER0 8124 Diversity and Aging (3)
   - GER0 8130 Intimate Ties in Later Life (3)
   - GER0 8200 Aging Program Administration (3)
   - GER0 8320 Psychology of Aging (3) (if not taken in the core)
   - GER0 8330 Mental Health and Aging (3)
   - GER0 8340 Dementia (3)
   - GER0 8700 Special Topics in Gerontology (3)
   - GER0 8800 Directed Reading in Gerontology (3)

3. Internship (3 hours)
   - GER0 8910 Gerontology Internship (3) or an approved alternate internship course
3270 Heritage Preservation

Program Offered:

- Master of Heritage Preservation
  - Concentration in Historic Preservation
  - Concentration in Public History
- Certificate in Heritage Preservation
- Dual B.A. in History and Master of Heritage Preservation

Heritage Preservation Program
Department of History
20th floor, 25 Park Place Bldg.
404-413-6365
E-mail: rlaub@gsu.edu
heritagepreservation.gsu.edu

Richard Laub, Director, Heritage Preservation Program
Robin Jackson, Administrative Specialist- (Graduate Program Coordinator)
404-413-6385, rmjackson@gsu.edu

The Master of Heritage Preservation (M.H.P.) degree program is designed to train professionals in the fields of cultural resource management and public history. The program seeks first to acquaint students with the broad range of disciplines that constitute the field of heritage preservation. Second, it seeks to develop skills in administration, research, analysis, field survey interpretation, and historic site management that will be necessary in professional practice. Third, it provides practical experience in heritage conservation and public history through classroom practica, team and individual research projects, and internships in the field.

The Program in Heritage Preservation offers a degree in which the student can choose to concentrate in either historic preservation or public history.

The program seeks to provide trained personnel for careers in (1) cultural resource planning and management on the local, state, and federal levels; (2) administration of historical sites, historical societies and commissions, and museums; and (3) historical research positions in public and private agencies.

The program consists of a series of overview courses in the field including archeology, public history, folklore, architectural history, and preservation planning that are complemented by specialized courses in preservation history, administration and law. Students can choose a specialty area for more coursework, such as archeology, planning, architectural history, public history, or historical research. Finally, students engage in research projects through an interdisciplinary research seminar and an internship with an agency or organization that specializes in historic preservation or public history.

Students in the Master of Heritage Preservation program must maintain a 3.0 grade point average in order to receive a degree.

Applicants may obtain additional information about the Program in Heritage Preservation by contacting
the Director at the addresses above.

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Program in Heritage Preservation has the following requirements:

1. Three letters of recommendation from individuals who can evaluate the applicant’s potential to do graduate work.
2. A statement of educational and career goals.

Degree Requirements

Master of Heritage Preservation

Historic Preservation Track (42 hours)

Area 1: Cultural Resources (12 hours)

To gain an overview of the field of heritage preservation, students must take four of the following courses. Students with undergraduate or graduate backgrounds in one of these disciplines may be exempted by the program director from one or more courses in Area 1.

- FOLK 6020, FOLK 6100, FOLK 6110 or FOLK 8200 Folklore (3)
- HIST 8600 Introduction to Historic Preservation (3)
- HIST 8690 American Architectural History (3)
- HIST 8620 Conservation of Historic Building Materials (3)

Area 2: Buildings and Environment (15 hours)

In order to understand the preservation of building interiors, legal, cultural, and landscaped environments, students will take courses in the history of preservation law, interior design, and landscape architecture as well as courses in preservation planning and public archaeology. Students should select five out of the seven courses below.

- ANTH 8240 Public Archaeology (3)
- HIST 8610 Preservation Law (3)
- HIST 8630 The American Built Environment (3)
- HIST 8640 Preservation Planning (3)
- HIST 8645 Historic Resource Evaluation (3)
- HIST 8650 Historic American Landscapes and Gardens (3)
- ID 8650 History of Interior Design I: Antiquities to the Nineteenth Century (3)

Area 3: Area of Concentration (9 hours minimum)

In order to tailor their programs to such career interests as neighborhood revitalization, preservation
planning, preservation administration, research and analysis, restoration finance, or architectural evaluation, students will select appropriate elective courses from preservation disciplines represented in the program. Courses may be taken from one or several disciplines and will be selected with the approval of the program director. Below is a list of possible options:

- ANTH 6200 Urban Anthropology (4)
- ANTH 6480 Ethnographic Analysis (4)
- ANTH 6590 Archeological Methods (4)
- FOLK 6020 American Folk Crafts (3)
- FOLK 6100, FOLK 6110 or FOLK 8200 Folklore (3)
- GEOS 6532 Introduction to Geographic Information Systems (4)
- GEOS 6644 Environmental Conservation (4)
- GEOS 6774 Contemporary Urban Theory and Issues (3)
- HADM 8500 Economic and Cultural Impact of Travel and Tourism (3)
- HIST 6320 Metropolitan Atlanta (3)
- HIST 6920 Oral History (4)
- HIST 6940 Administration and Use of Historical Archives (3)
- HIST 7040 Issues and Interpretation in Public History (3)
- HIST 8050 Southern Cities (3)
- HIST 8060 Seminar in the History of the South (4)
- HIST 8640 Preservation Planning (3)
- HIST 8645 Historic Resources Evaluation (3)
- HIST 8655 The American Suburb (3)
- HIST 8660 Case Studies in International Preservation (3)
- HIST 8710 History and the Public (3)
- HIST 8720 Museum Studies (3)
- HIST 8730 Exhibit Planning and Production (3)
- HIST 8740 Material Culture (3)
- PMAP 8021 Scope and Theory of Planning (3)
- PMAP 8211 Nonprofit Management (3)
- PMAP 8231 Nonprofit Leadership, Governance and Ethics (3)
- PMAP 8241 Nonprofit Marketing and Communications (3)

Area 4: Applied Studies (6-9 hours)

In order to gain experience in the practical work of heritage preservation, students will take courses that require preservation research projects and that offer the opportunity to see the operations of preservation organizations. For these purposes, there are internships, directed studies, and thesis options available to students where classroom and seminar knowledge may be applied to actual preservation needs. Students will take the following courses, or appropriate substitutes, approved by the program director:

- HIST 8700 Case Studies in Historic Preservation (3)
- HIST 8680 Internship (3-6 hours)

Area 5: Oral Examination

Students must pass a general oral examination in order to graduate.
Master of Heritage Preservation

Public History Track (42 hours)

Area 1: Historical Foundations (15 hours)

To gain an overview of the field of public history, students must take five out of the nine courses listed.

- HIST 6920 Oral History (4)
- HIST 7000 Introduction to Historical Methods and Theory (4)
- HIST 7010 Issues and Interpretations in American History (4)
- HIST 7040 Issues and Interpretation in Public History (3)
- HIST 8000 Introduction to Historical Methods and Theory (4)
- HIST 8050 Southern Cities (3)
- HIST 8060 Seminar in the History of the South (4)
- HIST 8635 U.S. Cities (3)
- HIST 8890 (Special Topics) Georgia History (4)

Area 2: Professional Concentrations (15 hours)

In order to understand the diverse options in the field of public history, students will take courses in folk studies, archives, preservation, and museum operations. Students should select five out of the courses listed below.

- FOLK 6020, FOLK 6100, FOLK 6110, or FOLK 8200 Folklore (3)
- HIST 6940 Administration and Use of Historical Archives (3)
- HIST 8600 Introduction to Historic Preservation (3)
- HIST 8640 Preservation Planning (3)
- HIST 8700 Case Studies in Historic Preservation (3)
- HIST 8720 Museum Studies (3)
- HIST 8730 Exhibit Planning and Production (3)
- HIST 8740 Material Culture (3)
- PMAP 8211 Nonprofit Management (3)

Area 3: Electives (6 hours)

In order to tailor their programs to such career interests, students will select appropriate courses from preservation and public history disciplines represented in the program. Other graduate courses in history may be substituted at the discretion of the program director. Other courses in documentary film, etc., can be substituted at the discretion of program director and with permission of other program directors. Below is a list of possible options:

- ANTH 6480 Ethnographic Analysis (4)
- ANTH 8240 Public Archaeology (3)
- FOLK 6020 American Folk Crafts (3)
- FOLK 8200 Folklore (3)
- GEOS 6644 Environmental Conservation (4)
Area 4: Capstone Courses (6 hours).

In order to gain experience in the practical work of public history, students will take courses that require research projects and that offer the opportunity to see the operations of public history organizations. For these purposes, there are internships, directed studies, and thesis options available to students where classroom and seminar knowledge may be applied to actual preservation needs. Students will take the following courses, or appropriate substitutes, approved by the program director:

- HIST 8680 Internship (3-6)
- HIST 8800 Directed Study in Public History (3)

Area 5 Oral Examination

Students must pass a general oral examination in order to graduate.

Certificate Program in Heritage Preservation

The College of Arts and Sciences offers a graduate certificate in Heritage Preservation with tracks in Historic Preservation and in Public History. The certificate program is open to students who are enrolled in graduate degree programs and in good academic standing at Georgia State University or other graduate institutions in such programs as history, architecture, planning, anthropology, geography, urban studies, public administration, and real estate. Others may apply for the certificate program using the same procedure as that used to apply for the MHP degree, and the same standards will apply. Students accepted into the certificate program will have student standing, with all the attendant responsibilities and privileges.

The Certificate in Heritage Preservation requires completion of 18 hours of course work and successful completion of a general examination. Students must maintain a 3.0 grade-point average in order to receive a certificate. While graduate credit from other institutions may, by petition, be applied toward the certificate, normally not more than six hours will be accepted.
Historic Preservation Track

Students must complete 18 hours of graduate study divided among the three following areas:

Area 1: Preservation Overview (6 hours)

- HIST 8600 Introduction to Historic Preservation (3)
- HIST 8700 Case Studies in Historic Preservation (3)

Area 2: Cultural Resources (6 hours)

- ANTH 8240 Public Archaeology (3)
- FOLK 8200 Folklore (3)
- HIST 8635 U.S. Cities (3)
- HIST 8645 Historic Resource Evaluation (3)
- HIST 8690 American Architectural History (3)

Area 3: Preservation Specialties (6 hours)

- HIST 6320 Metropolitan Atlanta (3)
- HIST 8050 Southern Cities (3)
- HIST 8610 Preservation Law (3)
- HIST 8620 Conservation of Historic Building Materials (3)
- HIST 8640 Preservation Planning (3)
- HIST 8650 Historic American Landscapes and Gardens (3)
- HIST 8660 Case Studies in International Preservation (3)

Other courses may be approved by the director of the program.

Students must pass a general written examination.

Public History Track

Students must complete 18 hours of graduate study divided among the three following areas:

Area 1: Public History Overview (6 hours)

- HIST 7040 Issues and Interpretation in Public History (3)
- HIST 8800 Directed Study in Public History (3)

Area 2: Historical Foundations (6 hours)

- HIST 6920 Oral History (4)
- HIST 6940 Administration and Use of Historical Archives (3)
- HIST 7000 Introduction to Historical Methods and Theory (4)
- HIST 7010 Issues and Interpretations in American History (4)
- HIST 8000 Introduction to Historical methods and Theory (4)
- HIST 8060 Seminar in the History of the South (4)
- HIST 8635 U.S. Cities (3)

Area 3: Public History Specialties (6 hours)

- FOLK 6020 American Folk Crafts (3)
- HIST 6940 Administration and Use of Historical Archives (3)
- HIST 8640 Preservation Planning (3)
- HIST 8650 Historic American Landscapes and Gardens (3)
- HIST 8690 American Architectural History (3)
- HIST 8700 Case Studies in Historic Preservation (3)
- HIST 8720 Museum Studies (3)
- HIST 8730 Exhibit Planning and Production (3)
- PMAP 8211 Nonprofit Management (3)

Other courses may be approved by the director of the program.

Students must pass a general written examination.

Dual Bachelor's/Master's Degree Programs

The Department of History offers a dual B.A. in History and Master of Historic Preservation. The dual degree opportunity enables qualified students to enroll in graduate courses late in their undergraduate program and apply the coursework toward both the bachelor’s and master’s programs.

Students must be formally accepted into the dual degree program by the department and College of Arts and Sciences to be able to take graduate courses as an undergraduate. Additionally, acceptance into the dual program does not constitute admission to the master’s program. Students must fulfill regular graduate admissions requirements and apply for the master’s program following college processes.

Information about the dual program, including application instructions and program requirements, can be found at cas.gsu.edu/dual-degrees/.
3280 History

Programs Offered:

- Master of Arts in History
  - Concentration in World History
- Dual B.A./M.A. in History
- Combined Master of Arts/Doctor of Philosophy in History
- Doctor of Philosophy in History

Department of History
20th floor, 25 Park Place Bldg.
404-413-6385
E-mail: Director of Graduate Studies (DGShistory@gsu.edu)
history.gsu.edu

Michelle Brattain, Chair
Denise Davidson, Director of Graduate Studies
Robin Jackson, Graduate Studies Program Coordinator

The Master of Arts (M.A.) degree program prepares students to teach in junior, community, or small liberal arts colleges; for careers in the management and use of historical records in archives or museums and in historic preservation; and for admission into a doctoral program in history.

The Doctor of Philosophy (Ph.D.) degree program prepares students for positions in junior, community, small liberal arts, and senior colleges and universities; for productive postdoctoral research in history; and for careers in public service.

Major fields of study for the M.A. and Ph.D. degrees include: Colonial/Early National United States; 19th and 20th Century United States; Early Modern Europe; Modern Europe; World History; Regional and Global History; and Public History. The department also offers a number of regional fields as well as topical fields in a variety of subjects, including legal and constitutional history, labor history, urban studies, women's and gender history, transnational and postcolonial studies, history of science, and historic preservation.

Applicants may obtain additional information about the Department of History by contacting the Director of Graduate Studies at the addresses above.

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of History has the following requirements:

Master of Arts—Requirements for Full Graduate Status Admission

1. An undergraduate major in history or its equivalent, which includes survey courses in American, World, and/or European history.
2. Acceptable scores on the General (Aptitude) Test of the Graduate Record Examination.
3. A high standard of undergraduate achievement, especially in the major.
4. A statement of the applicant’s educational and professional goals.
5. A writing sample.
6. Three letters of recommendation from faculty members (preferably in history) with whom the applicant has studied.
7. Official transcripts of all previous college and graduate level work.

Doctor of Philosophy–Requirements for Full Graduate Status Admission

1. A high standard of undergraduate achievement, in undergraduate and graduate work, especially in the major field.
2. Ordinarily, the M.A. degree in history. Additional course work may be required if the department deems previous graduate work inadequate for Ph.D. study in history.
3. Acceptable scores on the General (Aptitude) Test of the Graduate Record Examination.
4. Language skills deemed adequate by the department. This will normally include evidence of proficiency in at least one alternate language.
5. Positive evidence of research aptitude and skill, such as the M.A. thesis, and a sample of the applicant’s research and written work.
6. A statement of the applicant’s educational and professional goals.
7. Recommendations from three faculty members (preferably in history), who have had the student in graduate courses.
8. Official transcripts of all previous college and graduate level work.

Combined Master of Arts/Doctor of Philosophy–Requirements for Full Graduate Status Admission

Admission requirements for the Combined M.A. / Ph.D. program are the same as for the Ph.D. track (omitting the M.A. in history), with the following additions:

1. Recommended, an overall Grade Point Average of at least 3.5
2. Recommended, a Grade Point Average in the major of at least 3.8.
3. Recommended, a score in the 90th percentile or higher on the Graduate Record Exam.

Procedural Rules

1. The Department of History may require a personal interview with the Ph.D. applicant.
2. Admission to the Ph.D. program is not automatic on the completion of the M.A. in history at Georgia State University.
3. Normally, a student may not take three degrees—the bachelor’s, master’s, and doctorate—in the Department of History at Georgia State University.

Degree Requirements

Master of Arts

1. Coursework:
   a. Students are required to take a total of nine courses. The distribution of courses is described
b. HIST 7000 Introduction to Methods and Theory

c. One course selected from HIST 7010, 7020, 7030 and 7040, to support the student’s major field.

d. HIST 7050 Introduction to Graduate Studies and Pedagogy. Students not intending to teach may request permission from the Director of Graduate Studies to take 7045, a one-hour version of HIST 7050.

e. Research Seminar: Thesis students must take HIST 7060; Non-thesis students can fulfill this requirement with HIST 7060 or any graduate course designated as a research seminar.

f. Students may take up to two directed readings courses to fulfill their course requirements.

g. All new students should take HIST 7050 in their first semester of study and HIST 7000 in their second semester of study.

h. Major Field: Students must complete 3 courses in the major field and may apply HIST 7010, 7020, 7030, or 7040 to their major field. HIST 7060 may not apply to major field course requirements.

**Major Fields include:**

- Colonial/Early National U.S.
- 19th and 20th Century US
- Early Modern Europe
- Modern Europe
- World History
- Regional and Global History
- Public History

9. Geographic Distribution: In addition to the regular M.A. requirements, students whose major field is in US history must also complete one course each in (a) European; and (b) African, Asian, Latin American, or Middle Eastern history. Students whose major field is in European history must also complete one course each in (a) US; and (b) African, Asian, Latin American, or Middle Eastern history.

10. Electives: Remaining courses are electives.

2. Language Requirement: Proficiency in one alternate language.

3. Comprehensive Examination: A comprehensive examination to be taken within one semester after completion of coursework. The comprehensive examination may written or oral; the choice of format will be determined by the major adviser in consultation with the student. The examination will be conducted by a committee that will consist of at least three faculty members with whom the student has taken coursework. The examination may be repeated once following a minimum interval of three months. A student who fails the examination for the second time will be subject to scholastic termination. Committees for both the thesis and the non-thesis option are nominated by the student and appointed by the chair of the department.

4. Continuous Enrollment: In order to remain in compliance with the university’s policy on continuous enrollment, students must maintain enrollment totaling 6 hours or more over all consecutive three-semester periods.

5. Thesis/Non-Thesis Options

   a. Thesis option requirements:
      
      i. 6 hours of HIST 8999 Thesis Research
      
      ii. A thesis prospectus, approved by a director and a second reader, and a thesis.

   b. Non-Thesis Option requirements:
c. One additional graduate history class. A second comprehensive examination, either written or oral, to be administered by an examination committee, which will consist of the advisor and one additional faculty member.

6. Graduation: Students must be registered for a minimum of one hour during the term of their graduation.

World History Concentration

The History Department offers a concentration in World History at the M.A. level. The concentration combines the theoretical and empirical frameworks of world history with opportunities to conduct more detailed research within chosen areas of interest. Students will apply theoretical approaches and empirical methodologies that support the comparative and global study of societies and cultures as well as the interconnections among different world regions. The requirements fit into the framework of a regular M.A. in history, with several more specific stipulations as noted below:

1. Coursework:
   a. As in the regular History M.A., students must take nine courses. The distribution of courses is described below.
   b. HIST 7000: Introduction to Methods and Theory
   c. HIST 7030: Issues and Interpretations in World History
   d. Either 7010, 7020, or 7040
   e. HIST 7050: Introduction to Graduate Studies and Pedagogy. Students not intending to teach may request permission from the Director of Graduate Studies to take 7045, a one-hour version of HIST 7050.
   f. Research Seminar: Thesis students must take HIST 7060; Non-thesis students can fulfill this requirement with HIST 7060 or any graduate course designated as a research seminar.
   g. Major Field: Students must declare World History as their major field and complete 3 courses in the major field. One of these courses must be a research seminar or HIST 7060. Students may also apply HIST 7030 to the major field. Courses in the major field should demonstrate a conspicuous world history dimension.
   h. Geographic Distribution: In addition to the regular M.A. requirements, students completing the world history concentration must also complete one course each in (a) U.S.; (b) European; and (c) African, Asian, Latin American, or Middle Eastern history. Either the U.S. or the European course should have a world dimension, which is also desirable for the course chosen above under (c).
   i. Electives: Any of the remaining required nine courses are electives. Students are encouraged to select electives that include a world history dimension.

2. Any courses taken as part of the major field or the geographic distribution or to meet the basic M.A. requirements may be applied elsewhere to meet the requirements of the concentration.

3. Foreign language, oral examination, and requirements for the thesis or non-thesis option are the same as for a regular M.A.

The Program Director will advise students on courses qualifying as world history. Students may petition the World History Committee for the inclusion of other courses with conspicuous world dimensions.

Master of Heritage Preservation
The Department offers a Masters Degree in Heritage Preservation. This program is divided into two tracks of study: one in Historic Preservation and one in Public History. The program is designed to train professionals in the fields of cultural resource management and the interpretation of history to a broad audience. For more information about the Heritage Preservation Program contact the Director of visit the program website at heritagepr.gsu.edu.

**Dual Bachelor’s/Master’s Degree Programs**

The department offers the following dual degree program:

- Dual B.A./M.A. in History
- Dual B.A. in History and Master of Historic Preservation

These dual degree opportunities enable qualified students to enroll in graduate courses late in their undergraduate program and apply the coursework toward both the bachelor’s and master’s programs.

Students must be formally accepted into the dual degree program by the department and College of Arts and Sciences to be able to take graduate courses as an undergraduate. Additionally, acceptance into the dual program does not constitute admission to the master’s program. Students must fulfill regular graduate admissions requirements and apply for the master’s program following college processes.

Information about the dual program, including application instructions and program requirements, can be found at cas.gsu.edu/dual-degrees/.

**Doctor of Philosophy**

1. Coursework:
   a. Students will complete 10 graduate level history courses. The distribution of courses is described below.
   b. HIST 7000 Introduction to Methods and Theory
   c. One course selected from HIST 7010, 7020, 7030, and 7040, to support the student’s major field.
   d. HIST 7050 Introduction to Graduate Studies and Pedagogy. Students not intending to teach may request permission from the Director of Graduate Studies to take 7045, a one-hour version of HIST 7050.
   e. HIST 7060 Research Seminar.
   f. Students who enter the Ph.D. program with an MA in history earned at GSU may replace two HIST 7000-level core courses with two sections of HIST 8890 (Special Topics in History).
   g. All new students should take HIST 7050 in their first semester of study and HIST 7000 in their second semester of study.
   h. Students may take up to two directed readings courses to fulfill their coursework requirements.
   i. Major Field: Students must complete 3 courses in the major field and may apply HIST 7010, 7020, 7030, or 7040 to their major field. HIST 7060 may not apply to major field course requirements.

Major Fields Include:
10. Minor Fields: Students must declare two minor fields and complete at least 2 courses in each of their minor fields, which may include the appropriate 7000-level course. Minor fields must demonstrate temporal, methodological, or geographical diversity from the major field. **Minor Fields include:**

- Any of the Major Fields
- African Diaspora
- East Asia
- African-America
- South Asia
- Atlantic, Indian or Pacific Oceans
- Mediterranean
- Economic, Labor or Working Class History
- Ancient
- Legal and Constitutional History
- Medieval
- History of Science
- Early Modern Britain
- Immigration and Ethnicity
- Modern Britain, Ireland, British Empire
- Islamic World
- American South
- Russia and the Soviet Union
- France
- Germany
- Religion
- Women’s History
- Sexuality
- Gender
- Historic Preservation
- World
- Empires

Students may define an alternative minor field in consultation with their advisor and the Director of the Graduate Studies.

1. Language Requirement: The student must demonstrate reading proficiency in two alternate languages, through successful completion of a graduate language course or successfully completing a reading knowledge examination. Students whose major field is U.S. history may substitute an alternate research skill for one foreign language. In certain circumstances students whose major
field is not U.S. history may substitute an alternate research skill for one foreign language.

2. Residency: Students in the doctoral program are required to be in residence for four semesters, two of which must be consecutive. In all four semesters the students must register for at least eight hours of coursework.

3. Continuous Enrollment: In order to remain in compliance with the university’s policy on continuous enrollment, students must maintain enrollment totaling 6 hours or more over all consecutive three-semester periods.

4. Examinations: Upon completion of the language requirements and the coursework in the doctoral program, the doctoral student will be required to complete successfully a comprehensive examination (consisting of written and oral parts) in his/her major and minor fields. These examinations, administered by an examination committee consisting of two examiners for each field, will be offered twice a year in the Fall and Spring semesters on days and at times to be announced at least one month in advance. The student will normally complete the oral examination in the major and minor fields with two weeks of the written examination. At the conclusion of the comprehensive examination, the members of the examination committee will determine whether the student has passed or failed. A unanimous vote of the committee is required to pass. Should a student fail the comprehensive examination, the committee shall determine the conditions under which the student will be permitted to re-take the examination or portions thereof in accordance with the regulations of the Graduate Division of the College of Arts and Sciences. The examination may be repeated once following a minimum interval of six months. A student who fails the examination a second time will be subject to termination. The examination must be passed at least one academic year prior to the conferral of the degree.

5. Dissertation Prospectus: On the successful completion of the written and oral parts of the general examination, the student will be required to submit a prospectus of the dissertation to a scheduled meeting of members of the dissertation committee (which will normally comprise three professors of the Department of History faculty), who are nominated by the student and appointed by the chair of the department. The prospectus will include a carefully prepared and closely reasoned statement or exposition of the topic or subject that the student has chosen to research in consultation with the dissertation adviser. An oral defense of the dissertation prospectus will normally follow within six months of exams and will be administered by the dissertation committee.

6. Candidacy: After completing the language, coursework, general examination and dissertation prospectus requirements, the student will be admitted to candidacy for the degree.

7. Dissertation: The student must complete satisfactorily a dissertation and earn not less than twenty hours of credit in HIST 9999 (Dissertation Research), supervised by the dissertation director.

8. Dissertation Defense. Upon completion of the dissertation, the candidate will be required to complete a dissertation defense, conducted by members of the dissertation committee, that shall be devoted to a defense of the dissertation.

9. Graduation: Students must be registered for a minimum of one hour during the term of their graduation.

Combined Master of Arts / Doctor of Philosophy

The requirements for the M.A. / Ph.D. degree are the same as for the Ph.D., except in the area of coursework. Students are required to complete at least twelve graduate level courses, which are distributed as follows.

A. Coursework:
1. Students will complete 12 graduate level history courses. The distribution of courses is described below.

2. HIST 7000 Introduction to Methods and Theory

3. One course selected from HIST 7010, 7020, 7030, and 7040, to support the student’s major field.

4. HIST 7050 Introduction to Graduate Studies and Pedagogy. Students not intending to teach may request permission from the Director of Graduate Studies to take 7045, a one-hour version of HIST 7050.

5. HIST 7060 Research Seminar.

6. All new students should take HIST 7050 in their first semester of study and HIST 7000 in their second semester of study.

7. Students may take up to two directed readings courses to fulfill their coursework requirements.

8. Major Field: Students must complete 3 courses in the major field and may apply HIST 7010, 7020, 7030, or 7040 to their major field. HIST 7060 may not apply to major field course requirements. For list of fields see above.

9. Minor Fields: Students must declare two minor fields and complete at least 2 courses in each of their minor fields, which may include the appropriate 7000-level course. Minor fields must demonstrate temporal, methodological, or geographical diversity from the major field. For list of fields see above.

10. Electives to complete the required total of 12 courses.

B. Award of M.A. degree:

Students may apply to earn a non-thesis M.A. degree on route to completing the doctoral program after completing 10 courses and passing their Ph.D. comprehensive exams, normally in the third year of coursework. Students who wish to leave the program may opt in to the M.A. degree program and may earn a non-thesis or thesis M.A. degree after completing all requirements for that degree.
The Graduate Certificate in Latin American Studies offered by the Center for Latin American and Latino/a Studies (CLALS) of Georgia State University attests to the recipient’s knowledge and understanding of Latin American culture, economy, history, and politics, as well as to his or her competence in one or more of the principal languages of the region. Its purpose is to give students a broad knowledge of Latin America that will help prepare them to work or study in Latin America or to work with individuals and groups of Latino or Latin American origin in the United States.

The Certificate is particularly well suited to students pursuing graduate degrees in Anthropology, Art History, Business, History, Modern Languages, Political Science, or Sociology, who have a concentration or a definite interest in Latin American issues or who want to expand their understanding of the region by taking related course work. It is also well suited to individuals who desire to enhance their marketability and skills in relation to a region whose economy and culture have become increasingly important to the United States in recent years. The Certificate may be earned alone or in conjunction with a graduate program in one of the academic departments of Georgia State University; courses included in an academic program may be used for credit toward a Certificate. The GRE (Graduate Record Examination) is not required for acceptance into the Certificate program.

Applicants may obtain additional information about the Graduate Certificate by contacting the coordinator of the program at the addresses above.

Additional Admission Requirements

Admission to the Certificate program is on the basis of:

1. A BA/BS or graduate degree;
2. Prior course work indicated in valid transcripts;
3. A statement of purpose;
4. Two letters of recommendation;
5. Competence in Spanish or Portuguese.

Competence is attested by completion of a four-semester sequence of the language at the undergraduate
level, by completion of at least one graduate course in Spanish, or by an entrance language exam administered by the Department of World Languages and Cultures. Candidates who have completed the four semester sequence more than three years before applying for admission to the Certificate program will be required to take the entrance language exam. Students should consult with their advisor on how best to fulfill this requirement.

Applicants who are already enrolled in a graduate program at Georgia State University should submit all of the above to:

Director of the Center for Latin American and Latino/a Studies
Department of World Languages and Cultures
Georgia State University
Atlanta, GA 30303-3088

Applicants who are NOT already enrolled in a graduate program at Georgia State University should send a College of Arts and Sciences application, fee, transcripts, statement of purpose and the two letters of recommendation directly to:

Office of Graduate Services
College of Arts and Sciences
Georgia State University
Atlanta, GA 30303-3993

An ad-hoc committee chaired by the Director of CLALS will review the material, decide on admission, and assign an appropriate adviser.

Degree Requirements

The minimum requirements for the Certificate are 15 graduate-level hours (five courses) in courses with a significant Latin American content and a grade of B or better in each course. These courses must be selected from at least three different academic departments and may include, but are not necessarily limited to this list.

The following graduate courses from affiliated departments are eligible for credit toward the Graduate Certificate in Latin American Studies.

- AH 6630 Pre-Colombian Art (3)
- AH 6660 Nineteenth and Twentieth-Century Art in Latin America (3)
- AH 6900 Special Studies Seminar (3) (when the course deals with Latin America)
- AH 6980 Special Problems (3) (when the course deals with Latin America)
- COMM 6180 International Cinemas (3) (when the course deals with Latin America)
- ECON 8600 Economics of Development (3)
- HIST 8080 Seminar in the International/Transnational History of the United States (4) (when the course deals with Latin America)
- HIST 8420 Seminar in Latin American History (4) (may be repeated if topics vary)
- HIST 8660 Case Studies in International Preservation (3) (when the course deals with Latin America)
- IB 8190 Doing Business in World Regions (3) (when the course deals with Latin America)
- POLS 8250 Latin American Politics (3)
- SPAN 6603 Cultural Studies (Latin America)
- SPAN 8845 Latin American Literature from the Conquest to the 1900s (3)
- SPAN 8850 The Traditional Latin American Novel (3)
- SPAN 8855 The Latin American “Boom” Novel (3)
- SPAN 8860 The Contemporary Latin American Novel (3)
- SPAN 8865 Latin American Short Story (3)
- SPAN 8870 Latin American Poetry (3)
- SPAN 8875 Women Writers (3)
- SPAN 8885 Special Topics in Latin American Literature and/or Culture (3) (may be repeated)
- SPAN 8890 Contemporary Mexican Fiction (3)
Programs Offered:

- **Master of Science in Mathematics**
  - Concentration in Bioinformatics
  - Concentration in Biostatistics
  - Concentration in Discrete Mathematics
  - Concentration in Scientific Computing
  - Concentration in Statistics
  - Concentration in Statistics and Allied Field
- **Doctor of Philosophy in Mathematics and Statistics**
  - Concentration in Bioinformatics
  - Concentration in Biostatistics
  - Concentration in Mathematics

Department of Mathematics and Statistics
750 College of Education Building

mathstat.gsu.edu

Guantao Chen, Chair
Alexandra Smirnova, Associate Chair
Florian Enescu, Director of Graduate Studies

The Master of Science (M.S.) degree programs in mathematics provide education at the graduate level in algebra, analysis, applied mathematics, and statistics. Students completing these degrees are prepared for positions in industry, government, business, college teaching, and for advanced study in mathematics.

The M.S. degree in mathematics is offered with no concentration, or with one of six possible concentrations. Four of the concentrations are in statistics, one is in discrete mathematics, and one is in scientific computing. The concentrations in statistics are programs designed for persons who wish to prepare for careers as professional statisticians in industry, business, or government. These programs provide advanced training in applied statistics for those who are presently working in areas that use statistics, as well as for those who plan to enter these areas. The programs present an optimal balance among the broad range of statistical techniques, mathematical methods, and computation. The concentrations in discrete mathematics and scientific computing are designed for persons who wish to combine their study of mathematics with selected areas in discrete mathematics and computer science. Opportunities exist to apply this study to related areas outside the department.

The Ph.D. degree program in Mathematics and Statistics includes concentrations in bioinformatics, biostatistics, and mathematics. These concentrations address the critical need for mathematics faculty and the need for highly trained specialists in the areas of bioinformatics and biostatistics. The concentrations in bioinformatics and biostatistics will graduate strong bioinformaticians and biostatisticians with a broad background in applied areas for direct placement in business, industry, governmental institutions and research universities. The mathematics concentration will graduate mathematicians with broad knowledge of core areas of pure and applied mathematics.
Majors are encouraged to consider carefully the career objectives they wish to pursue after graduation. Early selection of these objectives may suggest the degree programs or concentrations that will prepare students for their chosen careers. Faculty who serve as advisers for graduate majors will discuss with majors the degree programs and concentrations available to them.

The Department of Mathematics and Statistics accepts applications for all three semesters. However, in order to be considered for graduate assistantships for the fall semester, applicants must complete the application process in the Office of Graduate Services in sufficient time for the department to receive it by March 1. This process often takes several weeks. International applicants should allow at least two additional months for processing of applications for admission.

Applicants may obtain additional information about the Department of Mathematics and Statistics by contacting the Directors of Graduate Studies at the addresses above.

Master of Science in Mathematics (with thesis)

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Mathematics and Statistics has the following requirements:

1. A baccalaureate degree in mathematics or its equivalent.
2. Courses in mathematics equivalent to the following:
   - MATH 4435/MATH 6435 Linear Algebra II (3)
   - MATH 4441/MATH 6441 Modern Algebra I (3)
   - MATH 4661/MATH 6661 Analysis I (3)

Degree Requirements

1. Twenty-four hours of graduate-level courses (exclusive of 8820 and 8999 courses).
   a. The following courses are required:
      - MATH 8110 Real Analysis I (3)
      - MATH 8120 Real Analysis II (3)
      - MATH 8200 Advanced Matrix Analysis (3)
      - MATH 8220 Abstract Algebra I (3)
   b. One additional three-hour 8000-level course in Mathematics.
   c. Nine additional hours of graduate-level coursework from the Department of Mathematics and Statistics or in a related field selected in consultation with an adviser and approved by the Director of Graduate Studies. These may include no more than six hours (e.g. two courses) in a related field. Any courses which are used in area 2 of the “Additional Admission Requirements” section of this catalog cannot be applied toward the degree.
2. Six hours of Thesis Research (MATH 8999)
3. Additional Requirements
   a. A thesis
   b. A thesis defense

Master of Science in Mathematics (non-thesis option)
Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Mathematics and Statistics has the following requirements:

1. A baccalaureate degree in mathematics or its equivalent.
2. Courses in mathematics equivalent to the following:
   - MATH 4435/MATH 6435 Linear Algebra II (3)
   - MATH 4441/MATH 6441 Modern Algebra I (3)
   - MATH 4661/MATH 6661 Analysis I (3)

Degree Requirements

1. Thirty hours of graduate-level courses (exclusive of MATH 8820).
   a. The following courses are required:
      - MATH 8110 Real Analysis I (3)
      - MATH 8200 Advanced Matrix Analysis (3)
      - MATH 8220 Abstract Algebra I (3)
   b. One additional three-hour 8000-level course in Mathematics.
   c. Eighteen additional hours of graduate-level coursework from the Department of Mathematics and Statistics or in a related field selected in consultation with an advisor and approved by the Director of Graduate Studies. These may include no more than nine hours (or three courses) in a related field. Any courses which are used in area 2 of the “Additional Admission Requirements” above cannot be applied toward the degree.
2. Three hours of Research (MATH 8820)
3. A literature-based research paper completed under the direction of a graduate faculty advisor within the department.

Concentration in Bioinformatics (with thesis)

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Mathematics and Statistics has the following requirements:

1. A baccalaureate degree in mathematics, statistics, or its equivalent.
2. Courses in mathematics equivalent to:
   - MATH 4435/MATH 6435 Linear Algebra (3)
   - MATH 4751/MATH 6751 Mathematical Statistics I (3)
   - MATH 4752/MATH 6752 Mathematical Statistics II (3)

Degree Requirements

1. A minimum of 27 hours of graduate-level courses (exclusive of 8820 and 8999 courses) selected from the list below are required.
   - MATH 6010 Mathematical Biology (3)
   - MATH 6265 Partial Differential Equations (3)
   - MATH 6275 Applied Dynamical Systems (3)
MATH 6610 Numerical Analysis I (3)
MATH 8510 Applied Mathematics (3)
MATH 8525 Applied Stochastic Processes (3)
MATH 8540 Advanced Topics in ODEs and Dynamical Systems (3)
MATH 8500 Systems Biology (3)
MATH 8501/PH 7280 Infectious Disease Epidemiology (3)
MATH 8505 Advanced Mathematical Biology (3)
MATH 8515 Mathematical Neuroscience (3)
MATH 8520 Applied Combinatorics and Graph Theory (3)
MATH 8560 Informatics of Biological Systems (3)
STAT 8050 Statistics for Bioinformatics (3)
STAT 8540 Advanced Methods in Biostatistics (3)
STAT 8561 Linear Statistical Analysis I (3)
STAT 8670 Computational Methods in Statistics (3)

2. Six hours of Thesis Research (MATH 8999/STAT 8999)

3. Additional requirements:
   - thesis
   - thesis defense

Concentration in Bioinformatics (non-thesis option)

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Mathematics and Statistics has the following requirements:

1. A baccalaureate degree in mathematics, statistics, or its equivalent.
2. Courses in mathematics equivalent to:
   - MATH 4435/MATH 6435 Linear Algebra (3)
   - MATH 4751/MATH 6751 Mathematical Statistics I (3)
   - MATH 4752/MATH 6752 Mathematical Statistics II (3)

Degree Requirements

1. A minimum of 30 hours of graduate-level courses (exclusive of MATH 8820) selected from the list below are required.
   - MATH 6010 Mathematical Biology (3)
   - MATH 6265 Partial Differential Equations (3)
   - MATH 6275 Applied Dynamical Systems (3)
   - MATH 6610 Numerical Analysis I (3)
   - MATH 8510 Applied Mathematics (3)
   - MATH 8525 Applied Stochastic Processes (3)
   - MATH 8540 Advanced Topics in ODEs and Dynamical Systems (3)
   - MATH 8500 Systems Biology (3)
   - MATH 8501/PH 7280 Infectious Disease Epidemiology (3)
   - MATH 8505 Advanced Mathematical Biology (3)
   - MATH 8515 Mathematical Neuroscience (3)
   - MATH 8520 Applied Combinatorics and Graph Theory (3)
MATH 8560 Informatics of Biological Systems (3)
STAT 8050 Statistics for Bioinformatics (3)
STAT 8540 Advanced Methods in Biostatistics (3)
STAT 8561 Linear Statistical Analysis I (3)
STAT 8670 Computational Methods in Statistics (3)

2. Three hours of Research (MATH 8820 or STAT 8820)
3. A lab or literature-based research paper completed under the direction of a graduate faculty advisor within the department.

Concentration in Biostatistics (with thesis)

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Mathematics and Statistics has the following requirements:

1. A baccalaureate degree in mathematics, statistics, or its equivalent.
2. Courses in mathematics equivalent to:
   - MATH 4435/MATH 6435 Linear Algebra II (3)
   - MATH 4751/MATH 6751 Mathematical Statistics I (3)
   - MATH 4752/MATH 6752 Mathematical Statistics II (3)

Degree Requirements

1. Twenty-four hours of graduate-level courses (exclusive of 8820 and 8999 courses).
   a. The following courses are required:
      - STAT 8440 Survival Analysis (3)
      - STAT 8540 Advanced Methodologies in Biostatistics (3)
      - STAT 8561 Linear Statistical Analysis (3)
   b. Nine additional hours of Statistics courses at the 8000-level, from the Department of Mathematics and Statistics.
   c. Six additional hours of graduate-level coursework from the Department of Mathematics and Statistics or in a related field selected in consultation with an adviser and approved by the Director of Graduate Studies. The courses listed as Additional Admission Requirements in section 2 above and other 6000-level Statistics courses are excluded.

2. Six hours of Thesis Research (MATH 8999).
3. Additional Requirements
   a. A thesis
   b. A thesis defense

Concentration in Discrete Mathematics (with thesis)

Additional Admission Requirements

In addition to the general examinations of the College of Arts and Sciences, the Department of Mathematics and Statistics has the following requirements:

1. A baccalaureate degree in mathematics or its equivalent.
2. Courses in mathematics equivalent to at least two of the following:
Degree Requirements

1. Twenty-four hours of graduate-level courses (exclusive of 8820 and 8999 courses).
   a. The following courses are required:
      - MATH 8200 Advanced Matrix Analysis (3)
      - MATH 8220 Abstract Algebra I (3)
      - MATH 8420 Advanced Graph Theory (3)
      - MATH 8440 Combinatorics (3)
   b. One additional 8000-level course in mathematics
   c. Nine additional hours of graduate-level coursework from the Department of Mathematics and Statistics or in a “related field” selected in consultation with an adviser, and approved by the Director of Graduate Studies. These may include no more than six hours (e.g., two courses) in a related field. At most one of the courses listed in section 2 of “Additional Admission Requirements” above can be applied toward the degree.

2. Six hours of Thesis Research (MATH 8999)

3. Additional requirements
   a. thesis
   b. thesis defense

Concentration in Discrete Mathematics (non-thesis option)

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Mathematics and Statistics has the following requirements:

1. A baccalaureate degree in mathematics or its equivalent.
2. Courses in mathematics equivalent to at least two of the following:
   - MATH 4420/MATH 6420 Graph Theory (3)
   - MATH 4435/MATH 6435 Linear Algebra II (3)
   - MATH 4441/MATH 6441 Modern Algebra I (3)
3. Thirty hours of graduate-level courses (exclusive of 8820).
   a. The following courses are required:
      - MATH 8200 Advanced Matrix Analysis (3)
      - MATH 8220 Abstract Algebra I (3)
      - MATH 8420 Advanced Graph Theory (3)
      - MATH 8440 Combinatorics (3)
   b. One additional 8000-level course in mathematics
   c. Fifteen additional hours of graduate-level coursework from the Department of Mathematics and Statistics or in a “related field” selected in consultation with an advisor, and approved by the Director of Graduate Studies. These may include no more than six hours (e.g., two courses) in a related field. At most one of the courses listed in section 2 of “Additional Admission Requirements” above can be applied toward the degree.
4. Three hours of Research (MATH 8820)
5. A literature-based research paper completed under the direction of a graduate faculty advisor within the department.

Concentration in Scientific Computing (with thesis)

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Mathematics and Statistics has the following requirements:

1. A baccalaureate degree in mathematics, computer science, or its equivalent.
2. Courses in mathematics and computer science equivalent to the following:
   - MATH 3260 Differential Equations (3)
   - MATH 4435/MATH 6435 Linear Algebra II (3)
   - MATH 4610/MATH 6610 Numerical Analysis I (3)

Degree Requirements

1. Twenty-four hours of graduate-level courses (exclusive of 8820 and 8999 courses).
   a. The following courses are required:
      - MATH 8200 Advanced Matrix Analysis (3)
      - MATH 8610 Advanced Numerical Analysis (3)
      - MATH 8620 Numerical Linear Algebra (3)
      - If an equivalent course has not already been taken as part of another program:
        - MATH 6265 Partial Differential Equations (3)
        - MATH 6620 Numerical Analysis II (3)
   b. Six additional hours of 8000-level coursework selected in consultation with an adviser and approved by the Director of Graduate Studies.
   c. Additional graduate-level courses in mathematics, computer science, or a related field to total 24 hours selected in consultation with an adviser and approved by the Director of Graduate Studies. There are many options for coursework in this area, including:
      - MATH 6211 Optimization (3)
      - MATH 6253 Introduction to Operations Research (3)
      - MATH 8510 Applied Mathematics (3)
      - MATH 8530 Topics in Applied Mathematics (3)
      - CSC 6330 Programming Language Concepts (4)
      - CSC 6730 Scientific Visualization (4)
      - CSC 6820 Computer Graphics Algorithms (4)
      - CSC 8520 Applied Combinatorics and Graph Theory (3)
2. Six hours of Thesis Research (MATH 8999)
3. Additional Requirements
   a. A thesis
   b. A thesis defense

Concentration in Scientific Computing (non-thesis option)
Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Mathematics and Statistics has the following requirements:

1. A baccalaureate degree in mathematics, computer science, or its equivalent.
2. Courses in mathematics and computer science equivalent to the following:
   - MATH 3260 Differential Equations (3)
   - MATH 4435/MATH 6435 Linear Algebra II (3)
   - MATH 4610/MATH 6610 Numerical Analysis I (3)

Degree Requirements

1. Thirty hours of graduate-level courses (exclusive of 8820).
   a. The following courses are required:
      - MATH 8200 Advanced Matrix Analysis (3)
      - MATH 8610 Advanced Numerical Analysis (3)
      - MATH 8620 Numerical Linear Algebra (3)
      - If an equivalent course has not already been taken as part of another program:
        - MATH 6265 Partial Differential Equations (3)
        - MATH 6620 Numerical Analysis II (3)
   b. Six additional hours of 8000-level coursework selected in consultation with an advisor and approved by the Director of Graduate Studies.
   c. Additional graduate-level courses in mathematics, computer science, or a related field to total 30 hours selected in consultation with an advisor and approved by the Director of Graduate Studies. There are many options for coursework in this area, including:
      - MATH 6211 Optimization (3)
      - MATH 6253 Introduction to Operations Research (3)
      - MATH 8510 Applied Mathematics (3)
      - MATH 8530 Topics in Applied Mathematics (3)
      - CSC 6330 Programming Language Concepts (4)
      - CSC 6730 Scientific Visualization (4)
      - CSC 6820 Computer Graphics Algorithms (4)
      - CSC 8520 Applied Combinatorics and Graph Theory (3)
2. Three hours of Research (MATH 8820)
3. A literature-based research paper completed under the direction of a graduate faculty advisor within the department.

Concentration in Statistics (with thesis)

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Mathematics and Statistics has the following requirements:

1. A baccalaureate degree in mathematics, statistics, or its equivalent.
2. Courses in mathematics equivalent to:
MATH 4435/MATH 6435 Linear Algebra II (3)
MATH 4751/MATH 6751 Mathematical Statistics I (3)
MATH 4752/MATH 6752 Mathematical Statistics II (3)

Degree Requirements

1. Twenty-four hours of graduate-level courses (exclusive of 8999 courses).
   a. The following courses are required:
      - MATH 8535 Applied Matrix Algebra (3)
      - STAT 8561 Linear Statistical Analysis I (3)
   b. Twelve additional hours of Statistics courses at the 8000-level, from the Department of Mathematics and Statistics.
   c. Six additional hours of graduate-level coursework from the Department of Mathematics and Statistics or in a related field selected in consultation with an adviser, and approved by the Director of Graduate Studies. The courses listed as Additional Admission Requirements in section 2 above and other 6000-level Statistics courses are excluded.

2. Six hours of Thesis Research (MATH 8999).

3. Additional Requirements
   a. A thesis
   b. A thesis defense

Concentration in Statistics (non-thesis option)

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Mathematics and Statistics have the following requirements:

1. A baccalaureate degree in mathematics, statistics or its equivalent
2. Courses in mathematics equivalent to:
   - MATH 4435/MATH 6435 Linear Algebra II (3)
   - MATH 4751/MATH 6751 Mathematical Statistics I (3)
   - MATH 4752/MATH 6752 Mathematical Statistics II (3)

Degree Requirements

1. Thirty-six hours of graduate-level courses (exclusive of 8999 courses).
   a. The following courses are required
      - MATH 8535 Applied Matrix Algebra (3)
      - STAT 8561 Linear Statistical Analysis I (3)
   b. Eighteen additional hours of Statistics courses at the 8000-level from the Department of Mathematics and Statistics.
   c. Twelve additional hours of graduate-level coursework. At least six of these from the Department of Mathematics and Statistics, and at most six hours in a related field selected in consultation with an adviser and approved by the Director of Graduate Studies. The courses listed as Additional Admission Requirements in section 2 above and other 6000-level statistics courses are excluded.
d. At most three hours of the 36 can be in STAT 8820.

2. Additional Requirements: A research paper or written report of a laboratory experience. This requirement can be satisfied by taking STAT 8820 Research.

Concentration in Statistics and Allied Field

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Mathematics and Statistics have the following requirements:

1. A baccalaureate degree in mathematics, statistics, or its equivalent.
2. Courses in mathematics equivalent to:
   - MATH 4435/MATH 6435 Linear Algebra II (3)
   - MATH 4751/MATH 6751 Mathematical Statistics I (3)
   - MATH 4752/MATH 6752 Mathematical Statistics II (3)

Degree Requirements

1. Thirty-six hours of graduate-level courses (exclusive of 8999 courses).
   a. The following courses are required:
      - MATH 8535 Applied Matrix Algebra (3)
      - STAT 8090 Applied Multivariate Statistics (3)
      - STAT 8561 Linear Statistical Analysis I (3)
      - STAT 8630 Experimental Designs (3)
   b. Twelve additional hours of graduate Statistics courses, at least six hours of which must be taken at the 8000-level from the Department of Mathematics and Statistics. The courses listed as Additional Admission Requirements in section 2 above and other 6000-level Statistics courses are excluded.
   c. Twelve hours of graduate courses in an allied field a single area of application selected in consultation with an adviser and approved by the Director of Graduate Studies.
   d. At most three hours of the 36 can be in STAT 8820.

2. Additional Requirements: A research paper or a written report of a laboratory experience. This requirement can be satisfied by taking STAT 8820 Research.

Doctor of Philosophy in Mathematics and Statistics

Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Mathematics and Statistics have the following requirements for students who wish to enter into the Ph.D. program, regardless of concentration:

1. A baccalaureate degree in mathematics, statistics, or a related field with a grade point average of 3.0 out of 4.0. Students with a grade point average of 2.75 will be considered for conditional admission.
2. Three letters of reference,
3. Recent GRE scores,
4. A statement describing study plans.
5. Applicants from non-English speaking countries must achieve a satisfactory score on the Test of English as a Foreign Language (TOEFL).

Students must have completed courses in mathematics equivalent to the following with a grade of B or higher:

- MATH 4435/MATH 6435 Linear Algebra II (3)
- MATH 4661/MATH 6661 Analysis I (3)
- MATH 4662/MATH 6662 Analysis II (3)

Degree Requirements

Each of the concentrations requires 54 hours of coursework and 30 hours of dissertation research.

Students must take four of the six following common core courses (12 credit hours):

- MATH 8110 Real Analysis I (3)
- MATH 8200 Advanced Matrix Analysis (3)
- MATH 8510 Applied Mathematics (3)
- STAT 8600 Probability Theory (3)
- STAT 8561 Linear Statistical Analysis I (3)
- MATH 9116 Teaching College Math Sciences (3)

Concentration in Bioinformatics

1. The bioinformatics concentration requires that a student takes three qualifying exams. At least two of the qualifying exams must be chosen from the required courses for the bioinformatics concentration. One of the qualifying exams can be the required (core) course either from concentration in mathematics or from concentration in statistics.
2. Students must take five of the following six required courses (15 credit hours):
   - MATH 8500 Systems Biology (3)
   - MATH 8505 Advanced Mathematical Biology (3) (if not taken as a required course)
   - MATH 8515 Mathematical Neuroscience (3)
   - MATH 8520 Applied Combinatorics and Graph Theory (3)
   - MATH 8525 Applied Stochastic Processes (3)
   - MATH 8560 Informatics of Biological Systems (3)
3. Students must take at least 9 credit hours selected from the list below (9 credit hours).
   - MATH 6010 Mathematical Biology (3)
   - MATH 6275 Applied Dynamical Systems (3)
   - MATH 8501/PH 7280 Infectious Disease Epidemiology
   - MATH 8510 Applied Mathematics (3) (if not taken as a common core course)
   - MATH 8505 Advanced Mathematical Biology (3)
   - MATH 8540 Advanced Topics in ODEs and Dynamical Systems (3)
   - STAT 8050 Statistics for Bioinformatics (3)
   - STAT 8561 Linear Statistical Analysis I (3)
   - STAT 8581 Statistical Theory I (3)
4. Students must take at least 18 credit hours that should be selected from other graduate level courses in the Department of Mathematics and Statistics and courses from other departments listed below. The total number of required hours of coursework is 54; if STAT 8561 is taken as part of the core and used to also satisfy the 9 required hours above, a student must take additional coursework in Mathematics and Statistics or from the list below.

- BIOL 6102 Neurobiology (4)
- BIOL 6248 Cell Physiology (4)
- BIOL 6428 Medical Microbiology (4)
- BIOL 6500 Human Genetics (4)
- BIOL 6564 Advanced Genetics (4)
- BIOL 6565 Oncology (4)
- BIOL 6575 Virology (4)
- BIOL 6595 Microbial Physiology and Genetics (4)
- BIOL 6800 Principles of Cellular Biology (4)
- BIOL 7240 Human Physiology (3)
- BIOL 7430 Biotechnology (3)
- BIOL 7800 Molecular Cell Biology (3)
- BIOL 7880 Microbiology (3)
- BIOL 7900 Genetics (3)
- BIOL 8010 Neurobiology I, Cellular Neurobiology (4)
- BIOL 8020 Neurobiology II, Integrative Neurobiology (4)
- BIOL 8220 Advanced Molecular Cell Biology (4)
- BIOL 8248 Advanced Cellular Physiology (4)
- BIOL 8278 Molecular Immunology (4)
- BIOL 8310 Concepts in Cell Biology and Physiology (3)
- BIOL 8360 Protein Structure and Function (3)
- BIOL 8410 Advanced Microbiology (4)
- BIOL 8510 Concepts in Microbiology (2)
- BIOL 8610 Physiology and Genetics of Prokaryotes (4)
- BIOL 8620 Eukaryotic Molecular Genetics (4)
- BIOL 8675 Molecular Virology (4)
- BIOL 8710 Concepts in Molecular Genetics (2)
- CHEM 6110 Physical Chemistry I (3)
- CHEM 6120 Physical Chemistry II (3)
- CHEM 6150 Introduction to Biophysical Chemistry (3)
- CHEM 6410 Bioorganic Chemistry (3)
- CHEM 6420 Drug Discovery (3)
- CHEM 6450 Molecular Modeling Methods (3)
- CHEM 6590 Special Topics in Physical Chemistry (3)
- CHEM 6600 Biochemistry I (5)
- CHEM 6610 Biochemistry II (3)
- CHEM 6630 Enzymology (3)
- CHEM 6640 Fundamentals of Bioinformatics (4)
- CHEM 6780 Biomolecular Simulations (3)
- CHEM 8360 Protein Structure and Function (3)
5. Dissertation Research (30 hours of MATH 9999 or STAT 9999)

Concentration in Biostatistics

1. The following two courses should be included if they are not selected in the core courses:
   - STAT 8600 Probability Theory (3)
   - STAT 8561 Linear Statistical Analysis I (3)

2. The following courses (27 credit hours) are required:
   - STAT 8440 Survival Analysis (3)
   - STAT 8540 Advance Methodologies in Biostatistics (3)
   - STAT 8562 Linear Statistical Analysis II (3)
   - STAT 8581 Statistical Theory I (3)
   - STAT 8582 Statistical Theory II (3)
   - STAT 8630 Experimental Designs (3)
   - STAT 8678 SAS programming (3)
   - STAT 8700 Categorical Data Analysis (3)
   - PH 7011 Epidemiology for Public Health (3)

3. At least 15 credit hours should be selected from other graduate-level courses in the Department of Mathematics and Statistics and courses from other departments listed as follows:
   - BIOL 6564 Advanced Genetics (4)
   - BIOL 7800 Molecular Cell Biology (3)
   - BIOL 7900 Genetics (3)
   - BIOL 8010 Neurobiology I: Cellular (4)
   - BIOL 8220 Molecular Cell Biology (4)
   - BIOL 8630 Bioinformatics (4)
   - CSC 6520 Design & Analysis-Algorithms (4)
   - CSC 6810 Artificial Intelligence (4)
   - CSC 8220 Advanced Computer Networks (4)
   - CSC 8221 Optical/Wireless Networks (4)

   - PH 7011 Epidemiology for Public Health (3)
   - PH 7170 Research in Health Policy (3)
Concentration in Mathematics

1. The mathematics concentration requires that a student chooses three of the following six areas as subjects for the qualifying exam and take the two required courses for the topic if they were not taken as part of the common core. The qualifying exam is comprised of three separate written exams on each of the three chosen areas. The exam is administered by the department.
   - Analysis: MATH 8110 Real Analysis I and MATH 8120 Real Analysis II
   - Matrix Theory: MATH 8200 Advanced Matrix Analysis and one of MATH 8210 Topics in Applied Matrix Analysis or MATH 8201 Combinatorial Matrix Theory or MATH 8620 Numerical Linear Algebra
   - Algebra: MATH 8220 Abstract Algebra I and MATH 8221 Abstract Algebra II
   - Discrete Mathematics: MATH 8420 Advanced Graph Theory and MATH 8440 Combinatorics
   - Applied Mathematics: MATH 8150 Applied Mathematics and MATH 8610 Advanced Numerical Analysis
   - Collegiate Mathematics Education: MATH 9126 Epistemology of Advanced Mathematical Concepts and MATH 9136 Learning Theories Relevant to Collegiate Mathematics Education

2. For breadth and specialization a student following the concentration in mathematics will take at least 8 additional courses (24 hours) chosen from the following. At least three but no more than six should be 8000 and/or 9000-level courses within the student’s chosen area of specialization. Students are not permitted to take 6000 or 7000-level courses in an area in which they have taken a qualifying exam. Topics courses can be taken more than once if the topic is different. The total number of hours of coursework should not be less than 54 hours. If there is overlap between courses taken for the qualifying exam and the common core, then additional courses from the following list should be taken to meet the requirement for 54 hours. Two of the 8000-level courses within the student’s specialty will be chosen by the student as the basis for the candidacy exam. No student will be permitted to take a candidacy exam based on a course that was used for a qualifying exam.
   - Analysis:
     - MATH 6250 Complex Analysis (3)
     - MATH 6258 Vector Calculus (3)
     - MATH 6265 Partial Differential Equations (3)
     - MATH 6661 Analysis I (3)
     - MATH 6662 Analysis II (3)
- MATH 8310 Theory of Functions of a Complex Variable (3)
- MATH 8110 Real Analysis I (3)
- MATH 8120 Real Analysis II (3)

○ Matrix Theory:
  - MATH 6435 Linear Algebra II (3)
  - MATH 8200 Advanced Matrix Analysis (3)
  - MATH 8210 Topics in Applied Matrix Analysis (3)
  - MATH 8201 Combinatorial Matrix Theory (3)
  - MATH 8620 Numerical Linear Algebra (3)

○ Algebra:
  - MATH 6441 Modern Algebra I (3)
  - MATH 6442 Modern Algebra II (3)
  - MATH 6444 Polynomials (3)
  - MATH 6450 Theory of Numbers (3)
  - MATH 6455 Error Correcting Codes (3)
  - MATH 6460 Cryptography (3)
  - MATH 8220 Abstract Algebra I (3)
  - MATH 8221 Abstract Algebra II (3)
  - MATH 8230 Topics in Algebra (3)
  - MATH 8240 Introduction to Commutative Algebra and Algebraic Geometry (3)
  - MATH 8250 Commutative Ring Theory (3)

○ Discrete Mathematics:
  - MATH 6420 Graph Theory (3)
  - MATH 8420 Advanced Graph Theory (3)
  - MATH 8440 Combinatorics (3)
  - MATH 8450 Probabilistic Method in Combinatorics (3)
  - MATH 8520 Applied Combinatorics and Graph Theory (3)

○ Applied Mathematics:
  - MATH 6010 Mathematical Biology (3)
  - MATH 6211 Optimization (3)
  - MATH 6253 Introduction to Operations Research (3)
  - MATH 6275 Applied Dynamical Systems (3)
  - MATH 6610 Numerical Analysis I (3)
  - MATH 6620 Numerical Analysis II (3)
  - MATH 6650 Inverse and Ill-posed Problems (3)
  - MATH 6671 Transforms in Applied Mathematics (3)
  - MATH 8501/PH 7280 Infectious Disease Epidemiology
  - MATH 8510 Applied Mathematics (3)
  - MATH 8515 Mathematical Neuroscience (3)
  - MATH 8530 Topics in Applied Mathematics (3)
  - MATH 8540 Advanced Topics in Ordinary Differential Equations and Dynamical Systems (3)
  - MATH 8610 Advanced Numerical Analysis (3)
  - MATH 8620 Numerical Linear Algebra (3)

○ Collegiate Mathematics Education:
  - MATH 6301 College Geometry (3)
  - MATH 6371 Modern Geometry (3)
- MATH 6381 General Topology (3)
- MATH 6250 Complex Analysis (3)
- MATH 6258 Vector Calculus (3)
- MATH 6265 Partial Differential Equations (3)
- MATH 6661 Analysis I (3)
- MATH 6662 Analysis II (3)
- MATH 6435 Linear Algebra II (3)
- MATH 6441 Modern Algebra I (3)
- MATH 6444 Polynomials (3)
- MATH 6450 Theory of Numbers (3)
- MATH 7820 Historical and Cultural Development of Mathematics I (3)
- MATH 7821 Historical and Cultural Development of Mathematics II (3)
- MATH 9126 Epistemology of Advanced Mathematical Concepts (3)
- MATH 9136 Learning Theories Relevant to Collegiate Mathematics Education (3)
- MATH 9166 Internship in Teaching College Mathematics (3)
- MATH 9185 Research Seminar in Undergraduate Mathematics Education (3)
- MATH 8110 Real Analysis I (3)
- MATH 8120 Real Analysis II (3)
- MATH 8310 Theory of Functions of a Complex Variable (3)
- MATH 8540 Ordinary Differential Equations and Dynamical Systems (3)
- MATH 8320 Functional Analysis (3)
- MATH 8210 Topics in Applied Matrix Analysis (3)
- MATH 8201 Combinatorial Matrix Theory (3)
- MATH 8220 Abstract Algebra I (3)
- MATH 8221 Abstract Algebra II (3)
- MATH 8230 Topics in Algebra (3)
- MATH 8440 Combinatorics (3)

3. Dissertation Research (30 hours of MATH 9999 or STAT 9999)

**Transfer credit hours:** Students can transfer at most 24 semester credit hours to the program with the approval of the appropriate Graduate Director of the Department. Petition documents include the transcript, the course syllabi, exams and course notes or the textbook.
**Qualifying exam:** Students must pass a qualifying exam set by the appropriate graduate committee in accordance with any further requirements specified in the previously described concentrations. Students who fail the exam on the first attempt may take it only one more time. Students must pass the qualifying exam within two calendar years of admission.

**Candidacy exam:** Students must pass an oral candidacy exam before a committee that includes at least two final members of the student’s dissertation committee. The candidacy exam is set by the committee and covers course material within the student’s area of specialization or a proposed topic of thesis research. The details are determined by the committee in a manner consistent with any guidelines stated above for the student’s concentration. A student must advance to candidacy by the fourth year. The candidacy exam can be taken only twice.

**Dissertation Committee:** The student and his/her dissertation adviser shall form a dissertation committee. The committee should consist of at least four faculty members. For students in the bioinformatics and biostatistics concentrations, one committee member should be from another department such as the School of Public Health, the Department of Biology or another institution.

**Final dissertation defense:** Upon completion of the research, the student must defend his/her dissertation publicly.
Programs Offered:

- **Master of Music**
  - Concentration in Choral Conducting
  - Concentration in Composition
  - Concentration in Guitar Performance
  - Concentration in Instrumental Conducting
  - Concentration in Jazz Studies
  - Concentration in Music Education
  - Concentration in Orchestral Instrument Performance
  - Concentration in Piano Pedagogy
  - Concentration in Piano Performance
  - Concentration in Voice Performance
- **Artist Certificate in Music**
- **Dual B.Mu./M.Mu. Program**
- **Doctor of Philosophy in Teaching and Learning with Concentration in Music Education (in cooperation with the College of Education and Human Development)**

Office of Admissions and Enrollment
School of Music
Haas Howell Building Room 520
404-413-5900
Email: somadmissions@gsu.edu
music.gsu.edu

Wade Weast, Director
Joanna (Katie) Carlisle, Director of Graduate Studies

The mission of the School of Music is to provide a comprehensive, rigorous, and innovative academic program that is consistent with the urban context and mission of Georgia State University, and that serves the pursuit of artistic, professional, and scholarly excellence.

The School of Music offers a Master of Music degree that prepares students for careers in music and for further specialized study in music at the doctoral level. The graduate degree includes specializations in performance (keyboard instruments, orchestral instruments, and voice), composition, choral conducting, instrumental conducting, piano pedagogy, jazz studies, and music education. Complete descriptions of these programs may be obtained by contacting the Admissions and Enrollment Office of the School of Music. In addition to courses and degree programs, the School of Music offers concerts, recitals, lectures, and workshops that are open to all students and to the community. The School of Music is an accredited institutional member of the National Association of Schools of Music.

The School of Music is located in the historic Fairlie Poplar District in downtown Atlanta. The four buildings which comprise the Music Complex are all located in the same block. They are the Haas-Howell Building at 75 Poplar Street; the Rialto Center for the Performing Arts at 80 Forsyth Street, the Standard Building at 92 Luckie Street, and the Aderhold Learning Center. Some classes are held in the Art and
Humanities Building at 10 Peachtree Center Avenue. Chamber music concerts and faculty and student recitals are presented in the Florence Kopleff Recital Hall in the Art and Humanities Building while large ensembles perform in the newly renovated Rialto Center Theater, a state-of-the-art performance venue seating 950. The administrative offices are on the fifth floor of the Haas-Howell Building.

A Ph.D. in Teaching and Learning with a concentration in music education is offered by the College of Education and Human Development in conjunction with the School of Music. General admission and program requirements are outlined in the College of Education and Human Development chapter of this catalog and at www.music.gsu.edu.

Applicants may obtain additional information about the School of Music by contacting the Director of Graduate Studies at the addresses above.

**Additional Admission Requirements**

In addition to the general requirements of the College of Arts and Sciences, the School of Music has the following requirements:

1. Applicants must have an undergraduate degree or concentration in music, or the equivalent.
2. Applicants in music education and composition must submit GRE scores. Miller Analogies Test (MAT) may be substituted in music education.
3. Applicants in some programs must audition and/or submit a portfolio (see below).
4. Applicants are required to take placement examinations in music history and music theory before registering for coursework. Those applicants whose examination scores reveal deficiencies will be required to take appropriate additional coursework, which will not be applied to the graduate degree.

**Degree Requirements**

**Master of Music (35 hours)**

**Concentration in Choral Conducting**

Additional Admissions Requirements

Applicants must submit the following materials: an audio or video recording of a recent choral concert; at least three printed programs of concerts or church services that have been performed within the last four years; a repertory list of choral music conducted and sung and of music performed in applied areas.

Degree Requirements

1. Thirty-five hours of graduate-level courses.
   a. The following courses are required:
      - APVC 6000 Applied Voice (1) [two semesters]
      - APPF 6000 Applied Piano (1)
      - MUS 6480 Choral Conducting (2)
      - MUS 6440 Vocal Pedagogy (2)
MUS 6650 Choral Literature (3)
MUS 7080 Ensemble (1) [four semesters]
MUS 7220 Workshop Seminar in Choral Conducting and Performance (2) [two semesters]
MUS 7430 Choral Methods and Materials (3)
MUS 8000 Introduction to Graduate Studies (2)
One 8000-level course in music history (3)
MUS 6450 Advanced Tonal Analysis (3)
MUS 8830 Renaissance Music (3)
MUS 6490 Instrumental Conducting (2)
MUS 7083 Master Singers (0) [four semesters]
[MUS 6470] Graduate Choral Conducting Recital (1)

2. Comprehensive examination:
   By the midpoint of the final semester of study, the student will schedule an oral and/or written examination. The committee should include at least three faculty members (including the Director of Choral Activities and a theory or history faculty member). The examination will assess the student’s knowledge regarding repertoire, pedagogy, music theory, and music history. The student will be expected to synthesize his/her knowledge and demonstrate a high level of musical understanding. Preparation should include a detailed review of all graduate courses taken and a review of the music that has been studied and performed as part of the master’s program. It is the student’s responsibility to provide a copy of all literature studied (both solo and chamber) and a listing of all graduate courses taken during the Master’s program for each committee member at least one week before the scheduled examination date. The scheduled date of the comprehensive examination must be submitted to the Director of Graduate Studies no later than the midpoint of the final semester of study. Students planning to graduate in the Fall or Spring must complete the comprehensive examination by the end of the twelfth week of classes. Students planning to graduate in the Summer must complete the comprehensive examination by the end of the fourth week of classes.

Concentration in Composition

Additional Admissions Requirements

Applicants must submit GRE scores, a portfolio of original music scores, and recordings of composed works.

Degree Requirements

1. Thirty-six hours of graduate-level courses.
   a. The following courses are required:
      ■ APCP 8001 Applied Composition—Graduate 1 (3)
      ■ APCP 8002 Applied Composition—Graduate 2 (3)
      ■ APCP 8003 Applied Composition—Graduate 3 (3)
      ■ APCP 8004 Applied Composition—Graduate 4 (3)
      ■ APCP 6210 Composition Seminar (2), four semesters]
      ■ MUS 6460 Analysis of Post-Tonal Music (3)
      ■ MUS 6480 Choral Conducting (2) or MUS 6490 Instrumental Conducting (2)
MUS 8000 Introduction to Graduate Studies (2)
MUS 8870 Twentieth Century Music (3)
MUS 8890 Composition Recital (1)
MUS 8910 Final Project in Composition (3)

b. Up to two credit hours of electives chosen from the following:
- MUS 6110 Orchestration and Instrumentation (3)
- MUS 6450 Advanced Tonal Analysis (3)
- MUS 6500 Historical Counterpoint (3)
- MUS 6971 Survey of Electroacoustic Music (3) (Prerequisite: MUS 6730 or equivalent)
- MUS 6980 Electroacoustic Music Composition (3)
- MUS 6981 Computer Music (3) (Prerequisite: MUS 6030 or equivalent)
- MUS 6982 Adv. Topics in Computer Music (3) (Prerequisite: MUS 6981 or equivalent)

2. A piano proficiency examination to be taken after the second semester of enrollment or 20 hours of study.
3. MUS 6760 or proficiency in keyboard harmony.
4. MUS 6770 or proficiency in aural skills.
5. Comprehensive examination:
   By the midpoint of the final semester of study, the student will schedule an oral and/or written examination. The committee should include at least three faculty members (including the composition instructor and a theory or history faculty member). The examination will assess the student’s knowledge regarding repertoire, pedagogy, music theory, and music history. The student will be expected to synthesize his/her knowledge and demonstrate a high level of musical understanding. Preparation should include a detailed review of all graduate courses taken and a review of the music that has been studied and performed as part of the master’s program. It is the student’s responsibility to provide a copy of all literature studied (both solo and chamber) and a listing of all graduate courses taken during the Master’s program for each committee member at least one week before the scheduled examination date. The scheduled date of the comprehensive examination must be submitted to the Director of Graduate Studies no later than the midpoint of the final semester of study. Students planning to graduate in the Fall or Spring must complete the comprehensive examination by the end of the twelfth week of classes. Students planning to graduate in the Summer must complete the comprehensive examination by the end of the fourth week of classes.

Concentration in Guitar Performance

Additional Admissions Requirements

Applicants for the Master of Music (Guitar Performance) must audition and complete the audition form located on the School of Music website: http://music.gsu.edu

Applicants may contact the Music Admissions and Enrollment Office directly at 404-413-5955 with questions regarding audition dates and appointments. Applicants are advised to audition on one of the School’s regularly scheduled audition days. Individual appointments may be permitted in certain cases. Decisions for admittance are made after all required application materials and audition results are on file.
Degree Requirements: Guitar Concentration

1. Thirty-six hours of graduate-level courses.
   a. The following courses are required:
      - [APGT 8001] Applied Composition—Graduate 1 (3)
      - [APGT 8002] Applied Composition—Graduate 2 (3)
      - [APGT 8003] Applied Composition—Graduate 3 (3)
      - [APGT 8004] Applied Composition—Graduate 4 (3)
      - MUS 6010 Performance Laboratory (0) [four semesters]
      - [Mus 6910] Chamber Literature (3) or MUS 6940 Orchestral Literature (3)
      - MUS 6480 Choral Conducting (2) or MUS 6490 Instrumental Conducting (2)
      - MUS 7060, MUS 7070, MUS 7080 Large Ensembles (1) [four semesters]
      - MUS 7150 Guitar Ensemble (0.5) [four semesters]
      - MUS 8000 Introduction to Graduate Studies (2)
      - MUS 8490 Chamber Recital (1)
      - MUS 8590 Solo Recital (1)
   
      b. One 8000-level course in music history (3)
   
   c. MUS 6450 or MUS 6460 (3)
   
   d. Five credit hours of graduate-level electives in music

2. Comprehensive examination: By the midpoint of the final semester of study, the student will schedule an oral and/or written examination. The committee should include at least three faculty members (including the applied instructor and a theory or history faculty member). The examination will assess the student’s knowledge regarding repertoire, pedagogy, music theory, and music history. The student will be expected to synthesize his/her knowledge and demonstrate a high level of musical understanding. Preparation should include a detailed review of all graduate courses taken and a review of the music that has been studied and performed as part of the master’s program. It is the student’s responsibility to provide a copy of all literature studied (both solo and chamber) and a listing of all graduate courses taken during the Master’s program for each committee member at least one week before the scheduled examination date. The scheduled date of the comprehensive examination must be submitted to the Director of Graduate Studies no later than the midpoint of the final semester of study. Students planning to graduate in the Fall or Spring must complete the comprehensive examination by the end of the twelfth week of classes. Students planning to graduate in the Summer must complete the comprehensive examination by the end of the fourth week of classes.

Concentrations in Instrumental Conducting

Additional Admissions Requirements

Applicants must submit the following: a video of a rehearsal and an audiotape or videotape of one or more recent performances by an ensemble that they have conducted; a list of works that they have conducted in the past three years; a list of works performed on their major instrument at the undergraduate level; evidence of current employment as an instrumental conductor or access to an appropriate instrumental ensemble; applicants should expect to demonstrate their conducting and rehearsal techniques in a live performance with their own ensemble or a university ensemble.
Degree Requirements: Orchestral Track

1. Thirty-six hours of graduate-level courses.
   a. The following courses are required:
      - APCD 8001 Applied Instrumental Conducting—Graduate 1 (3)
      - APCD 8002 Applied Instrumental Conducting—Graduate 2 (3)
      - APCD 8003 Applied Instrumental Conducting—Graduate 3 (3)
      - APCD 8004 Applied Instrumental Conducting—Graduate 4 (3)
      - MUS 6110 Instrumentation and Orchestration (3)
      - MUS 6940 Orchestral Literature (3) [two semesters]
      - MUS 8000 Introduction to Graduate Studies (2)
      - MUS 8970 Instrumental Conducting Project (3)
   b. One 8000-level course in music history (3)
   c. MUS 6450 or MUS 6460 (3)
   d. Seven credit hours of graduate-level electives in music

2. Comprehensive examination:
   By the midpoint of the final semester of study, the student will schedule an oral
   and/or written examination. The committee should include at least three faculty
   members (including the Charles Thomas Wurm Distinguished Professor of
   Orchestral Studies and a theory or history faculty member). The examination will
   assess the student’s knowledge regarding repertoire, pedagogy, music theory, and
   music history. The student will be expected to synthesize his/her knowledge and
   demonstrate a high level of musical understanding. Preparation should include a
detailed review of all graduate courses taken and a review of the music that has been
studied and performed as part of the master’s program. It is the student’s
responsibility to provide a copy of all literature studied (both solo and chamber) and a
listing of all graduate courses taken during the Master’s program for each committee
member at least one week before the scheduled examination date. The scheduled date
of the comprehensive examination must be submitted to the Director of Graduate
Studies no later than the midpoint of the final semester of study. Students planning to
graduate in the Fall or Spring must complete the comprehensive examination by the
end of the twelfth week of classes. Students planning to graduate in the Summer must
complete the comprehensive examination by the end of the fourth week of classes.

Degree Requirements: Wind Band Track

1. Thirty-six hours of graduate-level courses.
   a. The following courses are required:
      - APCD 8001 Applied Instrumental Conducting—Graduate 1 (3)
      - APCD 8002 Applied Instrumental Conducting—Graduate 2 (3)
      - APCD 8003 Applied Instrumental Conducting—Graduate 3 (3)
      - APCD 8004 Applied Instrumental Conducting—Graduate 4 (3)
      - MUS 6770 Advanced Aural Skills (1)
      - MUS 7060 Wind Ensemble (1) [two semesters]
      - MUS 8000 Introduction to Graduate Studies (2)
      - MUS 8800 Wind Band Literature (3)
      - MUS 8970 Instrumental Conducting Project (3)
   b. One 8000-level course in music history (3)
c. MUS 6450 or MUS 6460 (3)
d. Seven credit hours of graduate-level electives in music

2. Comprehensive examination:
The Instrumental Conducting (Wind Band Conducting Track) follows a portfolio format, with a combined written and oral exam. Please see Dr. Robert Ambrose for more detailed information about the exam.

Concentration in Jazz Studies

Additional Admissions Requirements

Admission to the concentration in jazz studies is based on examination of one or more of the following: original compositions, arrangements, scholarly papers, audition, and professional experience.

An audition is required. The applicant must have had prior experience in improvisation. At the audition the applicant must demonstrate an acceptable level of proficiency in the styles of swing, bebop, funk, and contemporary jazz.

Degree Requirements

1. Thirty-six hours of graduate-level courses.
   a. The following courses are required:
      o APxx 7000] Applied Instruction (2) [four semesters]
      o MUS 6100 Jazz Combo Arranging (1)
      o MUS 6170 Arranging for Large Jazz Ensemble (1)
      o MUS 6792 Jazz Theory (2)
      o MUS 6850 Jazz Styles (2)
      o MUS 7081 Vocal Jazz (1) or MUS 7090 Jazz Band (1) [three semesters]
      o MUS 7160 Jazz Combo (.5) [four semesters]
      o MUS 8000 Introduction to Graduate Studies (2)
      o MUS 8220 Jazz Pedagogy (2)
      o MUS 8230 Jazz Program Administration (2)
      o One 8000-level course in music history (3)
      o MUS 6450 or MUS 6460 (3)
   b. One elective course in music education (3)
   c. Two credit hours of electives chosen from the following:
      o MUS 6730 Computer Applications in Music (2)
      o MUS 6750 Group Instruction in Jazz Piano (1)
      o MUS 6790 Advanced Jazz Improvisation I (1)
      o MUS 6791 Advanced Jazz Improvisation II (1)

2. A final project consisting of a public performance.
3. Comprehensive examination:
   By the midpoint of the final semester of study, the student will schedule an oral and/or written examination. The committee should include at least three faculty members (including the applied instructor and a theory or history faculty member). The examination will assess the student’s knowledge regarding repertoire, pedagogy,
music theory, and music history. The student will be expected to synthesize his/her knowledge and demonstrate a high level of musical understanding. Preparation should include a detailed review of all graduate courses taken and a review of the music that has been studied and performed as part of the master’s program. It is the student’s responsibility to provide a copy of all literature studied (both solo and chamber) and a listing of all graduate courses taken during the Master’s program for each committee member at least one week before the scheduled examination date. The scheduled date of the comprehensive examination must be submitted to the Director of Graduate Studies no later than the midpoint of the final semester of study. Students planning to graduate in the Fall or Spring must complete the comprehensive examination by the end of the twelfth week of classes. Students planning to graduate in the Summer must complete the comprehensive examination by the end of the fourth week of classes.

**Concentration in Music Education**

Additional Admissions Requirements

Each applicant should (1) have either a teaching certificate in music from the state of Georgia or an equivalent certificate, or be eligible to receive such certification, and (2) have concurrent or prior teaching experience of at least one year. Applicants to this concentration must submit acceptable scores from either the Graduate Record Examination or from the Miller Analogies Test.

Note: Courses Under a, b, c, d, and i require B or better.

Degree Requirements

1. Thirty-six hours of graduate-level courses. The following courses are required:
   a. Select twelve hours from:
      - EPRS 7900 Methods of Research in Education (3)
      - EPSF 7120 Social and Cultural Foundations of Education (3)
      - EPY 7080 Psychology of Learning and the Learner (3)
      - MUS 7400 Foundations of Music Education (3)
      - MUS 7590 Seminar in Music Teaching and Learning (3)
      - MUS 8240 Research in Music Education (3)
      - MUS 8260 Curriculum and Assessment in Music Education (3)
   b. Select three hours from:
      - MUS 7200 Principles and Strategies of General Music Instruction (3)
      - MUS 7250 Music in the Education of Special Needs Children (3)
      - MUS 7430 Choral Methods and Techniques (3)
      - MUS 7560 Winds: Organization and Development of Instrumental Music (3)
      - MUS 7570 Strings: String Literature and Materials (3)
   c. Select three hours from:
      - MUS 7230 Special Topics in Music Education (3)
      - MUS 7700 Psychology of Music Learning (3)
      - MUS 8210 Arts, Education, and the Community (3)
      - MUS 8400 Contemporary Issues and Philosophies in Music Education
d. Select three additional hours from:
   - MUS 7200 Principles and Strategies of General Music Instruction (3)
   - MUS 7230 Special Topics in Music Education (3)
   - MUS 7250 Music in the Education of Special Needs Children (3)
   - MUS 7430 Choral Methods and Techniques (3)
   - MUS 7560 Winds: Organization and Development of Instrumental Music (3)
   - MUS 7570 Strings: String Literature and Materials (3)
   - MUS 7700 Psychology of Music Learning (3)
   - MUS 8210 Arts, Education, and the Community (3)
   - MUS 8400 Contemporary Issues and Philosophies in Music Education (3)
   - MUS 8580 Leadership and Supervision of Music Education (3)

e. One 8000-level course in music history (3)

f. MUS 6450 or MUS 6460 (3)

g. MUS 6730 Computer Applications in Music (2)

h. One 6000-level elective course in music (3)

i. Research or Pedagogy Project in Music Education (4). These four credits are to be taken concurrently. Research projects (MUS 7300) must be focused on the application of research in music education. The practicum option (MUS 8950) is open only to those currently employed as music teachers. Formal presentation of the project or analysis of the practicum (MUS 8900) may take a number of forms, including a paper, a presentation, or a workshop for teachers.
   - MUS 8900 Non-Thesis Research in Music (1) and MUS 7300 Directed Study in Music Education (3) OR
   - MUS 8900 Non-Thesis Research in Music (1) and MUS 8950 Practicum in Music Education (3)

2. Comprehensive examination: The comprehensive examination in Music Education will take the form of a cumulative paper and portfolio.
   - CUMULATIVE PAPER AND PORTFOLIO: Students are required to fulfill two parameters during the final semester of coursework toward the MM in Music Education. These comprise the presentation of a cumulative paper and cumulative portfolio.
   - CUMULATIVE PAPER: The cumulative paper will be a research paper of substantial scope and length (60 to 100 pages in length) that will be developed throughout a student’s tenure at GSU. The cumulative paper development may (or may not) involve a research project overseen by the GSU Institutional Review Board. The cumulative paper will be presented to the review committee in written form one month prior to an oral defense. The defense will consist of a research poster presentation, a PowerPoint-based overview of the content, and responses to questions from the review committee.
   - CUMULATIVE PORTFOLIO: The portfolio will be evaluated by the review committee at the time of the cumulative paper presentation. The portfolio should consist of at least seven sections: one section of each of the four core
courses (MUS 7400, MUS 7590, MUS 8240, and MUS 8260), one section for
the primary methods course, one section for the Research or Pedagogy Project,
and one section for the courses in Musical Studies. Each section should
include at least one paper (or substantive project not limited to print form)
that demonstrates substantial learning. The opening pages of the portfolio
should include the student’s current resume, a list of professional development
activities undertaken during the course of study (conferences attended,
workshops given, articles written, etc.), and a 1500 word (minimum) statement
about how the specific contents of the portfolio demonstrate both the breadth
and depth of learning during the course of study.

Concentrations in Performance

Additional Admissions Requirements

In order to be admitted to these concentrations, applicants must demonstrate outstanding performance
ability in an audition before a faculty committee. Auditions should be arranged in accordance with the
schedule available from the School of Music Admissions and Enrollment Office. Applicants for a
concentration in performance should contact the School of Music for details concerning audition
requirements and to obtain an audition appointment.

Degree Requirements: Orchestral Instrument

1. Thirty-six hours of graduate-level courses.
   a. The following courses are required:
      - APxx 8001 Applied Music—Graduate 1 (3)
      - APxx 8002 Applied Music—Graduate 2 (3)
      - APxx 8003 Applied Music—Graduate 3 (3)
      - APxx 8004 Applied Music—Graduate 4 (3)
      - MUS 6910 Chamber Literature (3) or MUS 6940 Orchestral
        Literature (3)
      - Mus 7060,7070 Large Ensembles (1) [four semesters]
      - Mus 7110-7150 Chamber Ensembles (0.5) [four semesters]
      - MUS 8000 Introduction to Graduate Studies (2)
      - MUS 8490 Chamber Recital (1)
      - MUS 8590 Solo Recital (1)
   b. One 8000-level course in music history (3)
   c. MUS 6450 or MUS 6460 (3)
   d. Five credit hours of graduate-level electives in music
2. Comprehensive examination:
   By the midpoint of the final semester of study, the student will schedule an oral
   and/or written examination. The committee should include at least three faculty
   members (including the applied instructor and a theory or history faculty member).
   The examination will assess the student’s knowledge regarding repertoire, pedagogy,
   music theory, and music history. The student will be expected to synthesize his/her
   knowledge and demonstrate a high level of musical understanding. Preparation should
   include a detailed review of all graduate courses taken and a review of the music that
has been studied and performed as part of the master’s program. It is the student’s responsibility to provide a copy of all literature studied (both solo and chamber) and a listing of all graduate courses taken during the Master’s program for each committee member at least one week before the scheduled examination date. The scheduled date of the comprehensive examination must be submitted to the Director of Graduate Studies no later than the midpoint of the final semester of study. Students planning to graduate in the Fall or Spring must complete the comprehensive examination by the end of the twelfth week of classes. Students planning to graduate in the Summer must complete the comprehensive examination by the end of the fourth week of classes.

Degree Requirements: Organ

1. Thirty-six hours of graduate-level courses.
   a. The following courses are required:
      - APOR 8001 Applied Organ—Graduate 1 (3)
      - APOR 8002 Applied Organ—Graduate 2 (3)
      - APOR 8003 Applied Organ—Graduate 3 (3)
      - APOR 8004 Applied Organ—Graduate 4 (3)
      - MUS 6010 Performance Laboratory (0) [four semesters]
      - MUS 6200 Service Playing & Church Music Skills (2)
      - MUS 6420 Organ Pedagogy (3)
      - MUS 6710 Organ Literature (3)
      - MUS 6760 Advanced Keyboard Harmony (1)
      - MUS 7080 Choral Ensemble (1) [two semesters]
      - MUS 8000 Introduction to Graduate Studies (2)
      - MUS 8490 Chamber or Ensemble Recital (1)
      - MUS 8500 Performance Seminar Keyboard Instruments (2)
      - MUS 8590 Solo Recital (1)
   b. One 8000-level course in music history (3)
   c. MUS 6450 or MUS 6460 (3)
   d. One elective hour

2. Comprehensive examination:
   By the midpoint of the final semester of study, the student will schedule an oral and/or written examination. The committee should include at least three faculty members (including the applied instructor and a theory or history faculty member). The examination will assess the student’s knowledge regarding repertoire, pedagogy, music theory, and music history. The student will be expected to synthesize his/her knowledge and demonstrate a high level of musical understanding. Preparation should include a detailed review of all graduate courses taken and a review of the music that has been studied and performed as part of the master’s program. It is the student’s responsibility to provide a copy of all literature studied (both solo and chamber) and a listing of all graduate courses taken during the Master’s program for each committee member at least one week before the scheduled examination date. The scheduled date of the comprehensive examination must be submitted to the Director of Graduate Studies no later than the midpoint of the final semester of study. Students planning to graduate in the Fall or Spring must complete the comprehensive examination by the end of the twelfth week of classes. Students planning to graduate in the Summer must
complete the comprehensive examination by the end of the fourth week of classes.

Degree Requirements: Piano

1. Thirty-six hours of graduate-level courses.
   a. The following courses are required:
      - APF 8001 Applied Piano—Graduate 1 (3)
      - APF 8002 Applied Piano—Graduate 2 (3)
      - APF 8003 Applied Piano—Graduate 3 (3)
      - APF 8004 Applied Piano—Graduate 4 (3)
      - MUS 6010 Performance Laboratory (0) [four semesters]
      - MUS 6410 Piano Pedagogy I (3) or MUS 6411 Piano Pedagogy II (3)
      - MUS 6530 Accompanying (1) [two semesters]
      - MUS 6610 Piano Literature (3)
      - MUS 8000 Introduction to Graduate Studies (2)
      - MUS 8490 Chamber or Ensemble Recital (1)
      - MUS 8500 Solo Performance Seminar (2)
      - MUS 8590 Solo Recital (1)
   b. One 8000-level course in music history (3)
   c. MUS 6450 or MUS 6460 (3)
   d. Two credit hours of graduate-level electives chosen from the following:
      - MUS 6500 Historical Counterpoint (3)
      - MUS 6620 Solo Song Literature I(3)
      - MUS 6680 The Piano: It’s Historical Development, Construction and Technology (2)
      - MUS 6730 Computer Applications in Music (2)
      - MUS 6750 Group Instruction in Jazz Keyboard (1)
      - MUS 6792 Jazz Theory (2)
      - MUS 6910 Chamber Literature (3)
      - MUS 6940 Orchestral Literature (3)
      - MUS 8030 Pedagogy of Music Theory (3)

2. A piano proficiency examination to be taken after the second semester of enrollment or 20 hours of study, or successful completion of MUS 6360 Advanced Keyboard Skills.

3. Comprehensive examination:
   By the midpoint of the final semester of study, the student will schedule an oral and/or written examination. The committee should include at least three faculty members (including the applied instructor and a theory or history faculty member). The examination will assess the student’s knowledge regarding repertoire, pedagogy, music theory, and music history. The student will be expected to synthesize his/her knowledge and demonstrate a high level of musical understanding. Preparation should include a detailed review of all graduate courses taken and a review of the music that has been studied and performed as part of the master’s program. It is the student’s responsibility to provide a copy of all literature studied (both solo and chamber) and a listing of all graduate courses taken during the Master’s program for each committee member at least one week before the scheduled examination date. The scheduled date of the comprehensive examination must be submitted to the Director of Graduate
Studies no later than the midpoint of the final semester of study. Students planning to graduate in the Fall or Spring must complete the comprehensive examination by the end of the twelfth week of classes. Students planning to graduate in the Summer must complete the comprehensive examination by the end of the fourth week of classes.

Degree Requirements: Voice

1. Thirty-six hours of graduate-level courses.
   a. The following courses are required:
      - APVC 8001 Applied Voice—Graduate 1 (3)
      - APVC 8002 Applied Voice—Graduate 2 (3)
      - APVC 8003 Applied Voice—Graduate 3 (3)
      - APVC 8004 Applied Voice—Graduate 4 (3)
      - MUS 6010 Performance Laboratory (0) [four semesters]
      - MUS 6620 Solo Song Lit I (2)
      - MUS 6621 Solo Song Lit II (2)
      - MUS 7080 Choral Ensemble (1) [two semesters]
      - MUS 8000 Introduction to Graduate Studies (2)
      - MUS 8590 Solo Recital (1)
      - MUS 8620 Opera Theatre Workshop (2-3) [two semesters]
      - MUS 8625 Opera Production (2)
   b. One 8000-level course in music history (3) or MUS 6660 Dramatic Music (3)
   c. MUS 6450 or MUS 6460 (3)
   d. Three credit hours of graduate-level electives in music

2. Comprehensive examination:
   By the midpoint of the final semester of study, the student will schedule an oral and/or written examination. The committee should include at least three faculty members (including the applied instructor and a theory or history faculty member). The examination will assess the student’s knowledge regarding repertoire, pedagogy, music theory, and music history. The student will be expected to synthesize his/her knowledge and demonstrate a high level of musical understanding. Preparation should include a detailed review of all graduate courses taken and a review of the music that has been studied and performed as part of the master’s program. It is the student’s responsibility to provide a copy of all literature studied (both solo and chamber) and a listing of all graduate courses taken during the Master’s program for each committee member at least one week before the scheduled examination date. The scheduled date of the comprehensive examination must be submitted to the Director of Graduate Studies no later than the midpoint of the final semester of study. Students planning to graduate in the Fall or Spring must complete the comprehensive examination by the end of the twelfth week of classes. Students planning to graduate in the Summer must complete the comprehensive examination by the end of the fourth week of classes.

3. Proficiency in Italian, German, French, and English diction.

Concentration in Piano Pedagogy

Additional Admissions Requirements:
Applicants to this concentration are required to play an audition including works from four historical periods. All works must be performed from memory.

Degree Requirements:

1. Thirty-six hours of graduate-level courses.
   a. The following courses are required:
      - APPF 8001 Applied Piano—Graduate 1 (3)
      - APPF 8002 Applied Piano—Graduate 2 (3)
      - APPF 8003 Applied Piano—Graduate 3 (3)
      - MUS 6010 Performance Laboratory (0) [three semesters]
      - MUS 6080 Practicum in Piano Pedagogy (2)
      - MUS 6410 Piano Pedagogy I (3)
      - MUS 6411 Piano Pedagogy II (3)
      - MUS 6530 Accompanying (1) [one semester]
      - MUS 6610 Piano Literature (3)
      - MUS 7970 Piano Pedagogy III (2)
      - MUS 8000 Introduction to Graduate Studies (2)
      - MUS 8420 Degree Recital (1)
      - MUS 8500 Performance Seminar Keyboard Instruments (2)
   b. One 8000-level course in music history (3)
   c. MUS 6450 or MUS 6460 (3)
   d. Two credit hours chosen from the following:
      - MUS 6360 Advanced Keyboard Skills
      - MUS 6500 Historical Counterpoint (3)
      - MUS 6620 Solo Song Literature I (3)
      - MUS 6680 The Piano: Historical Development, Construction and Technology (2)
      - MUS 6730 Computer Applications in Music (2)
      - MUS 6792 Jazz Theory (2)
      - MUS 6910 Chamber Music Literature (3)
      - MUS 6940 Orchestral Literature (3)
      - MUS 8830 Renaissance Music (3)

2. Piano proficiency examination to be taken after the second semester of enrollment or 20 hours of study, or successful completion of MUS 6360 Advanced Keyboard Skills.

3. Teaching in the Piano Pedagogy Laboratory Program.

4. Comprehensive examination:
   By the midpoint of the final semester of study, the student will schedule an oral and/or written examination. The committee should include at least three faculty members (including the applied instructor and a theory or history faculty member). The examination will assess the student’s knowledge regarding repertoire, pedagogy, music theory, and music history. The student will be expected to synthesize his/her knowledge and demonstrate a high level of musical understanding. Preparation should include a detailed review of all graduate courses taken and a review of the music that has been studied and performed as part of the master’s program. It is the student’s responsibility to provide a copy of all literature studied (both solo and chamber) and a listing of all graduate courses taken during the Master’s program for each committee.
member at least one week before the scheduled examination date. The scheduled date of the comprehensive examination must be submitted to the Director of Graduate Studies no later than the midpoint of the final semester of study. Students planning to graduate in the Fall or Spring must complete the comprehensive examination by the end of the twelfth week of classes. Students planning to graduate in the Summer must complete the comprehensive examination by the end of the fourth week of classes.

Applied Music Levels

Applied music at the 6000 (1 credit), 7000 (2 credits), and 8000 (3 credits) levels is available for students who have been admitted to a degree program in the School of Music in Full or Special Graduate Status. Applied music levels carrying one, two, or three hours of credit are assigned to individuals by the School of Music, and lessons are arranged by the student and the assigned instructor. Students should consult the School of Music office for the appropriate course and computer number. The 6000 level is generally for secondary study or for students in programs that do not require applied music lessons. The 7000 level is a one-hour lesson per week for students in jazz studies or in piano pedagogy. The 8000 level is for a one-hour lesson in performance programs. There is an applied music fee of $150 per semester for a one-hour lesson and $75 per semester for a half-hour lesson.

Dual B.Mu./M.Mu. Program

The school offers a dual Bachelor of Music and Master of Music program. The dual degree opportunity enables qualified students to enroll in graduate courses late in their undergraduate program and apply the coursework toward both the bachelor’s and master’s programs.

Students must be formally accepted into the dual degree program by the school and College of Arts and Sciences to be able to take graduate courses as an undergraduate. Additionally, acceptance into the dual program does not constitute admission to the master’s program. Students must fulfill regular graduate admissions requirements and apply for the master’s program following college processes.

Information about the dual program, including application instructions and program requirements, can be found at cas.gsu.edu/dual-degrees/.

Artist Certificate in Music

To be admitted into the Artist Certificate program, students must have either a master's degree in music or equivalent professional experience.

Concentrations in Performance (Orchestral Instrument, Piano, Voice)

Additional Admissions Requirements

In order to be admitted to these concentrations, applicants must demonstrate outstanding performance ability in an audition before a faculty committee. Applicants may contact the Music Admissions and Enrollment office directly at 404-413-5955 with questions regarding audition dates and appointments.

Concentration in Orchestral Instrument Performance (18 hours)
- APXX 8001 (3) Applied Music
- APXX 8002 (3) Applied Music
- MUS 7060 (1) or MUS 7070 (1) Wind Ensemble or Orchestra [two semesters]
- MUS 7110, 7120, 7130, or 7140 (0.5) Chamber Music [two semesters]
- MUS 8590 (1) Solo Recital
- Electives (8)

Concentration in Piano Performance (18 hours)

- APPF 8001 (3) Applied Piano
- APPF 8002 (3) Applied Piano
- MUS 6010 (0) Performance Laboratory [two semesters]
- MUS 7071 (1) Collaborative Piano [two semesters]
- MUS 8590 (1) Solo Recital
- Electives (9)

Concentration in Voice Performance (18 hours)

- APVC 8001 (3) Applied Voice
- APVC 8002 (3) Applied Voice
- MUS 6010 Performance Laboratory [two semesters]
- MUS 8620 (2) Opera Theatre Workshop [two semesters]
- MUS 8590 (1) Solo Recital

Concentrations in Conducting (Choral Conducting, Orchestral Conducting, Wind Band Conducting)

Additional Admissions Requirements

In order to be admitted to these concentrations, applicants must demonstrate outstanding performance ability in an audition before a faculty committee. Applicants may contact the Music Admissions and Enrollment office directly at 404-413-5955 with questions regarding audition dates and appointments.

Concentration in Choral Conducting (18 hours)

- APCD 8001 (3) Applied Conducting
- APCD 8002 (3) Applied Conducting
- MUS 7080A (1) University Singers [two semesters]
- MUS 7220 (2) Workshop Seminar in Choral Conducting [two semesters]
- MUS 8690 (3) Choral Conducting Project
- Electives (3)

Concentration in Orchestral Conducting (18 hours)

- APCD 8001 (3) Applied Conducting
- APCD 8002 (3) Applied Conducting
- MUS 7070 (1) Orchestra [two semesters]
- MUS 8680 (2) Seminar in Instrumental Conducting [two semesters]
- MUS 8970 (3) Instrumental Conducting Project
- Electives (3)

Wind Band Conducting (18 hours)

- APCD 8001 (3) Applied Conducting
- APCD 8002 (3) Applied Conducting
- MUS 7060 (1) Wind Ensemble [two semesters]
- MUS 8680 (2) Seminar in Instrumental Conducting [two semesters]
- MUS 8970 (3) Instrumental Conducting Project
- Electives (3)
3320 Neuroscience

Programs Offered:

- Doctor of Philosophy in Neuroscience
  - Concentration in Neuroethics
- Dual B.S./M.S. Program in Neuroscience

Neuroscience Institute
Georgia State University
P.O. Box 5030
Atlanta, Georgia 30302-5030
404-413-5387
neuroscience.gsu.edu

Geert de Vries, Director
Charles Derby, Graduate Director

The Neuroscience Institute admits students into a program leading to the Doctor of Philosophy (Ph.D.) degree. A Master of Science is earned en route to the Neuroscience Ph.D. degree. The Neuroscience Institute is affiliated with multiple departments and emphasizes an interdisciplinary approach to graduate training. Using state of the art facilities and equipment, Neuroscience Institute faculty are actively engaged in basic research that ranges from molecular, cellular and computational to behavioral. For more specific details about the Neuroscience Institute and for all application materials, please visit the following website: neuroscience.gsu.edu.

Admission Deadlines

Applications are considered for admission in the fall semester. The Application for Graduate Study, application fee, and all supporting materials (transcripts, GRE scores, letters, and Supplementary Form for Graduate Study in Neuroscience) must be received by Jan 5.

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Neuroscience Institute has the following additional requirements:

1. A strong record of coursework and/or experience in a discipline related to the Neurosciences.
2. Strong performance on the Graduate Record Examination.
3. Students with prior laboratory experience relevant to the Neurosciences will be viewed favorably.

Degree Requirements

Master of Science (36 hours)

A Master of Science is earned en route to the Neuroscience Ph.D. degree. A minimum of 36 hours of graduate coursework is required for the Master of Science Degree in Neuroscience. To satisfy the
minimum requirements for the degree, the student must complete successfully:

1. A minimum of 28 hours of graduate classroom coursework, which must include:
   a. Neuroscience core courses (11 hours).
   b. Neuroscience electives (3-4 hours).
   c. Statistics core course (3 hours).
   d. Introduction to Graduate Studies core courses (4 hours).
   e. Topics, Concepts and Seminar courses (7-8 hours).
2. A minimum of 8 semester hours of research credit. This requirement can be satisfied by enrolling in NEUR 8800 Master’s Research or the equivalent.
3. A qualifying exam.

Students admitted for graduate study that have already taken relevant graduate classes or who are in possession of a graduate degree may be accorded advanced standing after an evaluation of previous graduate work. This evaluation would normally be conducted by the Director of Graduate Studies before entry into the program or at the very latest during the first semester of enrollment.

Doctor of Philosophy (90 hours)

A minimum of 90 hours of graduate credit is required for the Ph.D. degree in Neuroscience. To satisfy the minimum requirements for the degree, the student must complete successfully:

1. The Master of Science in Neuroscience (36 hours).
2. A minimum of 54 semester hours of research credit. This requirement can be satisfied by a combination of NEUR 9910 Advanced Research, 9999 Dissertation Research (minimum 20 hours) and NEUR 9920 Advanced Directed Readings or the equivalent.
5. A final oral presentation, directed primarily to the defense of the dissertation.

Concentration in Neuroethics

Students in the Neuroscience Ph.D. program can earn a concentration in Neuroethics. This interdisciplinary field considers how ethical theories inform neuroscientific practice and how neuroscientific discoveries inform ethical theorizing. Neuroethics PhD students must satisfy all requirements described above for the Ph.D. degree in Neuroscience plus take 12 hours of coursework in Neuroethics to satisfy the concentration, and receive a grade of B or better in each of these courses.

- Neuroethics (PHIL 6780/NEUR 6530, 3 credits) is required for the concentration.
- One course on the elective list for the concentration (any with Neur 6000-level numbers) may be used to satisfy the Neuroscience Elective requirement as described in 1b. above.
- One course on the elective list for the concentration (any with Neur 8000-level numbers) may be used to satisfy 3 of the required 7-8 hours of the topics/concepts/seminar requirement as described in 1e. above.
- The additional 6 hours in Neuroethics courses can be taken in lieu of additional credit hours in research (NEUR 9910) or directed readings (NEUR 9920) that current Neuroscience doctoral students currently take in excess of the minimum 54 credit hours required for the PhD.
Dual B.S./M.S. Program in Neuroscience

The institute offers a dual Bachelor of Science and Master of Science in Neuroscience. The dual degree opportunity enables qualified students to enroll in graduate courses late in their undergraduate program and apply the coursework toward both the bachelor's and master's programs.

Students must be formally accepted into the dual degree program by the institute and College of Arts and Sciences to be able to take graduate courses as an undergraduate. Additionally, acceptance into the dual program does not constitute admission to the master's program. Students must fulfill regular graduate admissions requirements and apply for the master's program following college processes.

Information about the dual program, including application instructions and program requirements, can be found at cas.gsu.edu/dual-degrees/.
Programs Offered:

- Master of Arts in Philosophy
  - Concentration in Neurophilosophy
- Dual Master of Arts in Philosophy and Juris Doctor in Law (in cooperation with the College of Law)
- Graduate Certificate in Applied Philosophy

The department’s M.A. program serves two different communities of students. First, it serves those who seek the M.A. as preparation before seeking admission to a philosophy Ph.D. program. Second, it serves those who seek the M.A. as a terminal degree to advance their chosen careers. In addition to a traditional M.A. in Philosophy, the Department offers two special programs: an M.A. in Philosophy with a specialization in empirically based philosophy of mind (the Neurophilosophy Track) and, in conjunction with the College of Law, a J.D./M.A. program. The J.D. /M.A. track allows students to receive the M.A. in philosophy and the J.D. in four years instead of five that would normally be required.

Applicants may obtain additional information about the Department of Philosophy by contacting the Director of Graduate Studies at the address above.

Degree Requirements, Thesis Option

1. Twenty-seven hours of graduate coursework in philosophy.
2. Distribution requirements
   a. Logic requirement: PHIL 6500 Symbolic Logic
   b. History Requirement: at least one history course. See below for the list of courses in this area.
   c. Value Theory Requirement: at least one course in value theory. See below for the list of courses in this area.
   d. Metaphysics and Epistemology Requirement: at least one course in metaphysics or epistemology. See below for the list of courses in this area.
   e. Seminar requirement: at least four letter-graded courses with the word “Seminar” in the title. This requirement is exempt from the usual “no double-counting” rule for distribution requirements; e.g. PHIL 8030 can count both toward this requirement and the history requirement.
3. Six hours of thesis research.
5. An oral thesis defense.

Degree requirements, non-thesis option

The non-thesis option requires thirty-three hours of graduate coursework in philosophy (six more than the thesis option), and it has the same distribution requirements as the thesis option. It does not require six hours of thesis research, a thesis, or an oral thesis defense. Students taking the non-thesis option are not eligible to graduate with distinction and should expect to receive no letters of recommendation to philosophy Ph.D. programs.

History Courses

- PHIL 6010 Plato (3)
- PHIL 6020 Aristotle (3)
- PHIL 6030 Topics in Ancient Philosophy (3)
- PHIL 6040 Augustine and Aquinas (3)
- PHIL 6050 Topics in Modern Philosophy (3)
- PHIL 6055 Hume (3)
- PHIL 6060 Kant (3)
- PHIL 6070 Marxism (3)
- PHIL 6075 Topics in 19th Century Philosophy (3)
- PHIL 6085 Topics in History of Philosophy (3)
- PHIL 6090 Topics in Continental Philosophy (3)
- PHIL 6095 Topics in Analytic Philosophy (3)
- PHIL 8030 Seminar in Ancient Philosophy (3)
- PHIL 8050 Seminar in Analytic Philosophy (3)
- PHIL 8060 Seminar in Modern Philosophy (3)
- PHIL 8090 Seminar in Continental Philosophy (3)

Value Theory Courses

- PHIL 6700 Ethics (3)
- PHIL 6720 Environmental Ethics (3)
- PHIL 6740 Biomedical Ethics (3)
- PHIL 6750 Topics in Ethics (3)
- PHIL 6770 Moral Psychology (3)
- PHIL 6780 Neuroethics (3)
- PHIL 6790 Topics in Neuroethics (3)
- PHIL 6800 Social and Political Philosophy (3)
- PHIL 6820 Philosophy of Law (3)
- PHIL 6830 Philosophy of Art (3)
- PHIL 6855 Advanced Topics in Political Theory
- PHIL 6860 Philosophical Perspectives on Women (3)
- PHIL 6890 Topics in Social and Political Philosophy (3)
- PHIL 8700 Seminar in Ethics (3)
- PHIL 8740 Seminar in Biomedical Ethics (3)
• PHIL 8770 Seminar in Moral Psychology
• PHIL 8810 Seminar in Social and Political Philosophy (3)
• PHIL 8820 Seminar in Philosophy of Law (3)
• PHIL 8855 Seminar in Political Theory (3)

Metaphysics and Epistemology Courses

• PHIL 6100 Epistemology (3)
• PHIL 6130 Philosophy of Science (3)
• PHIL 6150 Topics in Epistemology (3)
• PHIL 6300 Metaphysics (3)
• PHIL 6330 Philosophy of Mind (3)
• PHIL 6340 Philosophy and Cognitive Science
• PHIL 6350 Topics in Metaphysics (3)
• PHIL 6530 Philosophy of Language (3)
• PHIL 8100 Seminar in Epistemology (3)
• PHIL 8130 Seminar in Philosophy of Science
• PHIL 8300 Seminar in Metaphysics (3)
• PHIL 8330 Seminar in Philosophy of Mind (3)
• PHIL 8340 Seminar in Philosophy and Cognitive Science
• PHIL 8520 Seminar in Logic (3)
• PHIL 8530 Seminar in Philosophy of Language (3)

Neurophilosophy Concentration

In addition to meeting the requirements noted above, students seeking the M.A. with a Neurophilosophy concentration have the following additional requirements

1. PHIL 6330, Philosophy of Mind, PHIL 6340, Philosophy and Cognitive Science, PHIL 8330, Seminar in Philosophy of Mind, or PHIL 8340, Seminar in Philosophy and Cognitive Science. This requirement is exempt from the usual “no double-counting” rule for distribution requirements; e.g. PHIL 8330 can count both toward this requirement and the seminar requirement.
2. Six hours at the graduate level of courses relevant to neurophilosophy from other departments, such as Neuroscience or Psychology. (These courses count towards the 27-hour requirement and must be approved, in advance, by the Philosophy Neurophilosophy Faculty and the Philosophy Director of Graduate Studies.) For the purposes of the rule below that only six hours of credit earned outside the Department of Philosophy at Georgia State University may be applied towards the Georgia State M.A. in philosophy, these courses count as courses taken in the Department of Philosophy at Georgia State.) 3.
3. Must take least three letter-graded courses with the word “Seminar” in the title. (This is one less than the number required of other students.)
4. Must write a thesis on a topic related to Neurophilosophy (topic will be approved by the Philosophy Neurophilosophy Faculty and the Philosophy Director of Graduate Studies).

The J.D./M.A. Track

The J.D./M.A. track, offered in conjunction with the College of Law at Georgia State University, allows
students to receive the M.A. in philosophy and the J.D. in four years instead of the usual five.

The J.D./M.A. track is a demanding course of study. Each student in the track is assigned an adviser from the College of Law faculty and an adviser from the faculty of the Department of Philosophy. Students must work closely with their advisers to make sure that they correctly progress towards the degrees.

1. Nine hours of qualifying courses in law. (The student will, in consultation with her or his advisers, select the most appropriate three courses.)

2. Eighteen hours of graduate coursework in philosophy with the following distribution requirements:
   a. Two seminar courses.
   b. Either PHIL 6700 Ethics or PHIL 6800 Social and Political Philosophy.
   c. In addition to the courses taken to fulfill requirements 2.b., at least one of the following courses:
      - PHIL 6700 Ethics (3)
      - PHIL 6740 Biomedical Ethics (3)
      - PHIL 6820 Philosophy of Law (3) (If the student has already taken LAW 7295 Jurisprudence, credit for PHIL 6820 will be given only if the J.D. adviser and the M.A. adviser determine that PHIL 6820 Philosophy of Law, would not substantially duplicate LAW 7295.)
      - PHIL 6800 Social and Political Philosophy (3)
      - PHIL 6822 Topics in Philosophy of Law (3)
      - PHIL 6850 African American Ethical and Legal Issues (3)
      - PHIL 6860 Philosophical Perspectives on Women (3)
      - PHIL 8700 Seminar in Ethics (3)
      - PHIL 8740 Seminar in Biomedical Ethics (3)
      - PHIL 8810 Seminar in Social and Political Philosophy (3)
      - PHIL 8820 Seminar in Philosophy of Law (3)
   d. Epistemology Requirement—at least one of the following courses:
      - PHIL 6100 Epistemology (3)
      - PHIL 6130 Philosophy of Science (3)
      - PHIL 8100 Seminar in Epistemology (3)
   e. Metaphysics Requirement—at least one of the following courses:
      - PHIL 6300 Metaphysics (3)
      - PHIL 6330 Philosophy of Mind (3)
      - PHIL 6530 Philosophy of Language (3)
      - PHIL 8300 Seminar in Metaphysics (3)
      - PHIL 8330 Seminar in Philosophy of Mind (3)
      - PHIL 8530 Seminar in Philosophy of Language (3)

3. Either PHIL 6820 Philosophy of Law or LAW 7295 Jurisprudence. PHIL 6820 Philosophy of Law counts towards requirement 2.C. and LAW 7295 Jurisprudence, counts towards requirement 1. (If one of these two courses has been taken, credit for the second will be given only if the J.D. adviser and the M.A. adviser determine that the second would not substantially duplicate the first.)

4. Six hours of thesis research.
5. A thesis.

Other Notes Concerning the J.D./M.A. Track
Students must independently meet the admission requirements of the Department of Philosophy and the College of Law. Admission to the College of Law creates no presumption favoring admission to the Department of Philosophy. Admission to the Department of Philosophy creates no presumption favoring admission to the College of Law.

Students on the J.D./M.A. track may, if they wish, count one seminar course towards both the seminar requirement and one other requirement. For example, PHIL 8300 might fulfill both the seminar requirement and the Metaphysics Requirement.

The Department of Philosophy will only grant credit for those law courses in which the student earns a grade of 80 or higher.

Law students may not take any philosophy courses while completing the first year law curriculum.

The J.D. degree must be completed within six years of the initial semester of enrollment in the J.D. program.

Students enrolled in the J.D./M.A. program may subsequently elect not to pursue both degrees and may remain in either the J.D. or M.A. program, but any hours earned in a degree program from which a student withdraws will not be credited toward a degree granted by the program in which the student remains.

Additional Restrictions Which Apply to All Tracks

1. Only three credit hours of PHIL 8950 Directed Readings may be counted towards the degree. Additional hours of PHIL 8950 may be taken, but they will not count towards the degree.
2. Other than the exceptions specifically indicated above, only six hours of credit earned outside the Department of Philosophy at Georgia State University may be applied towards the Georgia State M.A. in philosophy.

The M.A. with Distinction

Students who meet all of the following three requirements shall be awarded the M.A. with distinction:

1. A graduate Georgia State philosophy GPA of 3.85 or higher.
2. A thesis and thesis defense that, upon vote of the committee grading the thesis, are judged to merit distinction.
3. The Director of Graduate Studies judges that the student’s record at Georgia State University is one of distinction.

Applicants are strongly encouraged to review the additional information about the Department of Philosophy which has been placed on its website, www.gsu.edu/philosophy.

Graduate Certificate in Applied Philosophy

A Graduate Certificate in Applied Philosophy requires successfully completing five graduate courses (15 credit hours) in Philosophy, numbered from PHIL 6010 to PHIL 8950. Before taking any courses
numbered 8000 or higher, certificate students must successfully complete at least two 6000-level courses. See below for the distribution requirements pertaining to each track.

Certificate Tracks

- **Politics, Law, and Society**: Students on this track must complete at least three courses from the following:
  - PHIL 6800 Social and Political Philosophy
  - PHIL 6820 Philosophy of Law
  - PHIL 6855 Advanced Topics in Political Theory
  - PHIL 6870 Feminist Philosophy
  - PHIL 6890 Topics in Social and Political Philosophy
  - PHIL 8810 Seminar in Social and Political Philosophy
  - PHIL 8820 Seminar in Philosophy of Law
  - PHIL 8855 Seminar in Political Theory
  - PHIL 8870 Seminar in Feminist Philosophy.

- **Neuroethics**: Students on this track must complete at least three courses from the following:
  - PHIL 6700 Ethics
  - PHIL 6770 Moral Psychology
  - PHIL 6780 Neuroethics
  - PHIL 6790 Topics in Neuroethics
  - PHIL 8700 Seminar in Ethics
  - PHIL 8740 Seminar in Bioethics
  - PHIL 8770 Seminar in Moral Psychology.

- **Philosophy and the Sciences of the Mind**: Students on this track must complete at least three courses from the following:
  - PHIL 6330 Philosophy of Mind
  - PHIL 6340 Philosophy and Cognitive Science
  - PHIL 6770 Moral Psychology, PHIL 6780 Neuroethics
  - PHIL 6790 Topics in Neuroethics, PHIL 8330 Seminar in Philosophy of Mind
  - PHIL 8340 Seminar in Philosophy and Cognitive Science
  - PHIL 8770 Seminar in Moral Psychology.

- **Individual and Society in Germany Philosophy**: Students on this track must complete at least three courses from the following:
  - PHIL 6060 Kant
  - PHIL 6070 Marxism
  - And the following with approval of department when topic is suitable:
    - PHIL 6050 Topics in Modern Philosophy
    - PHIL 6075 Topics in 19th Century Philosophy
    - PHIL 6090 Topics in Continental Philosophy
    - PHIL 8060 Seminar in Modern Philosophy
    - PHIL 8075 Seminar in 19th Century Philosophy
    - PHIL 8090 Seminar in Continental Philosophy

**Graduate Certificate Scholastic Discipline Policy**

After completing six credit hours and at the end of each term thereafter, certificate students are evaluated
for continuation in the program. Unless exceptional circumstances are present, students with a GPA below 2.7 in graduate-level philosophy classes will be scholastically terminated.
3340 Physics

Programs Offered:

- **Master of Science in Physics**
  - Standard Program
  - Concentration in Astronomy
- **Doctor of Philosophy in Physics**
  - Concentration in Atomic Physics
  - Concentration in Biophysics
  - Concentration in Molecular Physics
  - Concentration in Nuclear Physics
  - Concentration in Condensed Matter Physics
  - Concentration in Astrophysics
  - Concentration in Applied Physics

Department of Physics and Astronomy
Georgia State University
Room 605, 25 Park Place
Atlanta, Georgia 30302-4106

phy-astr.gsu.edu
E-mail (Administrative Coordinator): dwendler1@gsu.edu
E-mail: xhe@gsu.edu

D. Michael Crenshaw, Chair
Xiaochun He, Director of Graduate Studies, Physics

The Department of Physics and Astronomy works closely with graduate students on theoretical and experimental research in the following areas: atomic physics, biophysics, molecular physics, nuclear physics, condensed matter physics, astronomy, and astrophysics.

Applicants may obtain additional information about the Department of Physics and Astronomy by visiting the departmental website or by contacting the admissions secretary and/or Director of Graduate Studies at the addresses above. Applications can be downloaded from the departmental and college websites, filled out and mailed. However, online applications (link available both on the departmental and college websites) are encouraged.

Degree Requirements

Master of Science in Physics (30 hours)

1. Twenty-four hours of graduate coursework, which must include the following 13 hours of 8000-level courses:
   - PHYS 8010 Advanced Classical Mechanics (4)
   - PHYS 8100 Electromagnetic Theory I (3)
   - PHYS 8110 Electromagnetic Theory II (3)
PHYS 8210 Quantum Mechanics I (3)

Other course requirements may apply for Biophysics and Applied Physics options. Contact the relevant graduate director for details.

2. No more than one hour of ASTR 6300/PHYS 6300 and one hour of ASTR 6310/PHYS 6310 can be applied to the M.S. degree requirements.

3. Proficiency in a foreign language or in an approved research skill. Contact the department for details.

4. A general examination.

5. Six hours of PHYS 8999 Thesis Research.

Master of Science in Physics, Concentration in Astronomy (30 hours)

1. Twenty-four hours of graduate coursework, which must include:
   - ASTR 6000 Fundamentals of Astrophysics.
   - Nine additional hours of 8000-level graduate astronomy courses.
   - No more than one hour of ASTR 6300/PHYS 6300 and one hour of ASTR 6310/PHYS 6310 can be applied to the M.S. degree.

2. Proficiency in a foreign language or in an approved research skill. Contact the department for details.

3. A general examination.

5. A thesis.

Master of Science in Physics, Non-Thesis Option (36 hours)

1. Students pursuing a non-thesis M.S. with a concentration in Physics must complete all four of the following core courses. Students pursuing a non-thesis M.S. with a concentration in Astronomy must complete Astr 6000 and at least two of the following four core courses:
   - PHYS 8010 Advanced Classical Mechanics (4)
   - PHYS 8100 Electromagnetic Theory I (3)
   - PHYS 8110 Electromagnetic Theory II (3)
   - PHYS 8210 Quantum Mechanics I (3)
   - All students must also complete at least two of the following courses:
     - PHYS 8120 Plasma Physics (3)
     - PHYS 8220 Quantum Mechanics II (3)
     - PHYS 8310 Statistical Mechanics (3)
     - PHYS 8410 Atomic Physics (3)
     - PHYS 8510 Solid State Physics (3)
     - PHYS 8610 Nuclear Physics (3)
     - PHYS 8650 Fundamentals of Particles and Interactions (3)
     - ASTR 8000 Stellar Atmospheres (3)
     - ASTR 8100 Stellar Structure and Evolution (4)
     - ASTR 8200 Galactic Structure (3)
     - ASTR 8300 The Interstellar Medium (3)
2. No more than one hour of ASTR 6300/PHYS 6300 and one hour of ASTR 6310/PHYS 6310 can be applied to the M.S. degree requirements.
3. Proficiency in a foreign language or in an approved research skill. Contact the department for details.
4. A general examination.
5. A research paper.

Doctor of Philosophy in Physics (71 hours beyond the baccalaureate degree)

1. Students must either complete or exempt Phys 6510, 6520, 6810 and 7600. Exemption from these courses may be granted on the basis of testing or of having successfully completed similar courses elsewhere. Students not exempting at least two courses must take more than the 71 minimum hours required for the degree.
2. Students must have competence in the following areas of mathematics: matrix algebra, vector and tensor analysis, partial differential equations, Fourier series and boundary value problems, and complex variables.
3. Students seeking a Ph.D. degree in Physics must complete at least 22 hours of core courses (biophysics or applied physics options may replace some of the core courses with other relevant courses) including:
   - PHYS 8010 Advanced Classical Mechanics (4)
   - PHYS 8100 Electromagnetic Theory I (3)
   - PHYS 8110 Electromagnetic Theory II (3)
   - PHYS 8210 Quantum Mechanics I (3)
   - PHYS 8310 Statistical Mechanics (3)
   - And two of the following courses with a minimum of six credits. Course choices should be selected after discussion with the research adviser, and approval of the graduate director. Other options may be possible. (Applied Physics options may replace some of the above core courses with other relevant courses). See graduate director for details.
     - ASTR 6000 Fundamentals of Astrophysics (3)
     - ASTR 8000 Stellar Atmospheres (3)
     - ASTR 8100 Stellar Structure and Evolution (3)
     - ASTR 8200 Galactic Structure (3)
     - ASTR 8300 The Interstellar Medium (3)
     - ASTR 8400 Extragalactic Astronomy (3)
     - ASTR 8700 Relativistic Astrophysics and Cosmology (4)
     - PHYS 8120 Plasma Physics (3)
     - BIOL 6094 Developmental Neurobiology (4)
     - BIOL 6180 Neurobiology Laboratory (4)
     - BIOL 6680 Biological Imaging (4)
     - BIOL 6696 Laboratory in Molecular Biological Techniques (4)
     - BIOL 8060 Behavioral Neuroscience (3)
     - BIOL 8010 Neurobiology I: Cellular Neurobiology (4)
     - BIOL 8020 Neurobiology II: Integrative (4)
     - BIOL 8040 Functional Human Neuroanatomy (3)
Students seeking a Ph.D. degree in physics in any concentration other than Biophysics must complete:

- PHYS 8220 Quantum Mechanics II (3)

At least 12 additional hours of 8000-level physics courses. No more than three hours of PHYS 8910 (Directed Study) can count towards the degree. Courses should be selected in consultation with the student’s research adviser and the graduate director.

- Students seeking a Ph.D. degree in Physics with concentration in Biophysics must complete 15 additional hours of 8000 level courses, of which 9 hours must be in the area of concentration. The remaining hours may be in the area of concentration or in physics. No more than three hours of directed study (PHYS 8910) can count towards the degree. Courses should be selected in consultation with the student’s research adviser and the graduate director.

5. Satisfactory completion of one hour of PHYS 6300 or ASTR 6300 (Teaching Physics/Astronomy) and two hours of PHYS 6310 or ASTR 6310 (Teaching Physics/Astronomy Lab Practicum).

6. A minimum of 20 hours of either PHYS 9999 or ASTR 9999 (Doctoral Dissertation Research) must be completed; only 21 counts towards the 71 hours for the Ph.D. Only fifteen hours of PHYS 9999 counts towards the 71 hours for the students in Biophysics concentration. The Applied Physics option will have more specific requirements. Contact the research adviser/graduate director for details.

7. Proficiency in a foreign language or in an approved research skill. (Contact the department for details.)

8. Students seeking a Ph.D. degree in Physics must take the physics general examination, administered as a written examination, after taking Phys 8210, 8010, 8100, and either ASTR 6000 or PHYS 8310, CHEM 6190. The qualifying exam for the graduate program in Physics with a concentration in Astrophysics or Biophysics will include three out of four exams standard for the Physics program, and will replace the fourth area examination with one in Astrophysics or Biophysics as appropriate. This replacement needs to be approved in advance by the student’s adviser and the Graduate Director of the program.

9. Students pursuing the Ph.D. degree are strongly urged to satisfy the requirements for the M.S. (non-thesis option) as soon as possible after entering the program. See the appropriate director of graduate studies for details.

10. An oral presentation discussing the student’s proposed dissertation research.

Prior to registration each semester, students must be advised by either the chair of the department or the appropriate director of graduate studies.
3350 Political Science

Programs Offered:

- Master of Arts in Political Science
  - General Political Science
  - Concentration in American Politics
  - Concentration in International and Comparative Politics
  - Concentration in Professional Political and Governmental Practices
- Dual B.A./M.A. in Political Science
- Doctor of Philosophy in Political Science

Department of Political Science
1005 Langdale Hall
Tel: 404-413-6159
Fax: 404-413-6156
E-mail: polsci@gsu.edu
politicalscience.gsu.edu

Carrie Manning, Chair
Sarah Roberts Gershon, Director of Graduate Studies

The purpose of the Master of Arts (M.A.) degree program is to guide students in the development of analytical and critical capabilities through inquiry into political and governmental processes. The objective of the program is to provide education for persons interested in pursuing careers in research, teaching, or the professional practice of public service and politics. Students can choose a degree program that will provide them with a general knowledge of the discipline, or one that will provide them with a specialization in American politics, international and comparative politics, or the professional practices of government and politics.

A Doctor of Philosophy (Ph.D.) prepares students for careers in research and teaching. Students enhance their skills by furthering their knowledge of the literature of the discipline, increasing their methodological ability, and writing a publishable dissertation. The Ph.D. program produces scholars who are experts in their substantive field of study and who are able to combine theoretical sophistication with methodological rigor.

Applicants may obtain additional information about the Department of Political Science by contacting the Director of Graduate Studies at the addresses above.

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Political Science has the following requirements:

1. Applicants to the M.A. degree program must:
   a. Submit acceptable scores on the verbal, quantitative, and analytical sections of the GRE.
   b. Have a 3.0 cumulative undergraduate grade-point average and the equivalent of at least a
minor in political science.
c. Submit two letters of recommendation from individuals who can evaluate the applicant's potential to do graduate work in political science.
d. Submit official transcripts from all colleges and/or universities applicant has attended.
e. Submit a statement of research interest and goals for political science degree.
f. Submit a writing sample demonstrating graduate level research capabilities

2. Applicants to the Ph.D. degree program must:
   a. Submit acceptable scores on the verbal, quantitative, and analytical sections of the GRE.
   b. Have a 3.3 cumulative master's grade-point average and substantial prior coursework in political science, preferably with a thesis.
   c. Submit three letters of recommendation from individuals who can evaluate the applicant’s potential to do graduate work in political science.
   d. Submit official transcripts from all colleges and/or universities attended.
   e. Submit a statement of research interests and goals for political science degree.
   f. Submit a writing sample demonstrating graduate level research capabilities
   g. Applicants who intend to pursue comparative politics as their major field should have at least one year of college level training in a foreign language.

Degree Requirements

Both masters and doctoral students must be registered for a minimum of three (3) semester hours the semester of completion of all degree requirements.

Master of Arts (33 hours)

- General Political Science
- Concentration in American Politics
- Concentration in International and Comparative Politics
- Concentration in Professional Political and Governmental Practices
- Specialization in Public Law
- Joint Master of Arts in Political Science and Master of International Business

General Political Science (33)

1. Required Methods Sequence (9 hours)
   a. POLS 8800 Elements of Research Design (3)
   b. POLS 8805 Introduction to Qualitative Analysis (3)
   c. Either POLS 8810 Uses of Intermediate Statistical Methods in Political Science Research or POLS 8840 Qualitative Research Methods (3). Students who wish to substitute another course for the third required methods course (either POLS 8810 or POLS 8840) may do so with advance permission of the departmental Director of Graduate Studies.

2. Six additional graduate Political Science courses (18 hours). Students should take one course in three of the five major areas of study. These areas include American government and politics, comparative politics, international politics, political theory and public law. Two of the six courses may be taken outside the department, with the advance approval of the departmental Director of Graduate Studies.

3. Thesis Option:
a. A minimum of six hours of POLS 8999 Thesis Research.
b. A thesis, written following successful defense of proposal before three-member faculty committee. The chair and at least one member of this committee must come from the department’s graduate faculty, but the third member may come from the graduate faculty of another department at Georgia State University or from among the department’s permanent non-graduate faculty. Subject to the approval of the Director of Graduate Studies, additional members beyond the required three may also come from outside the university, normally among members of the political science graduate faculty at an MA or PhD granting institution.
c. A thesis defense.

4. Non-Thesis Option (Students wishing to pursue a doctoral degree should not choose this option):
   a. Six additional hours of graduate courses in political science.
   b. A research paper completed according to departmental guidelines. First readers on this paper should be chosen from among the department’s graduate faculty, but second readers may also be chosen from among the department’s permanent non-graduate faculty or from among the graduate faculty of other departments at Georgia State University, subject to the approval of the Director of Graduate Studies.

Concentration in American Politics (33)

1. Required Methods Sequence
   a. POLS 8800 Elements of Research Design (3)
   b. POLS 8805 Introduction to Quantitative Analysis

2. Either POLS 8810 Uses of Intermediate Statistical Methods in Political Science Research or POLS 8840 Qualitative Research Methods (3). Students who wish to substitute another course for the third required methods course (either POLS 8810 or POLS 8840) may do so with the advance permission of the departmental Director of Graduate Studies.

3. POLS 8100 Seminar in American Politics (3)

4. Five additional courses (15 hours) chosen from general American offerings, Public Law, American Institutions, or American Political Behavior (POLS 6100-6180, POLS 8100-8180). One course may be taken in a different political science concentration with the advance approval of the departmental Director of Graduate Studies. Two of these courses may be taken in another department with the advance approval of the departmental Director of Graduate Studies.

5. Thesis Option:
   a. A minimum of six hours of POLS 8999 Thesis Research.
   b. A thesis, written following successful defense of proposal before three-member faculty committee.
   c. A thesis defense.

6. Non-Thesis Option (Students wishing to pursue a doctoral degree should not choose this option):
   a. Six additional hours of graduate courses in American politics (POLS 6100-6180, POLS 8100-8180)
   b. A research paper completed according to departmental guidelines

Concentration in International and Comparative Politics (33)

1. Required Methods Sequence
   a. POLS 8800 Elements of Research Design (3)
b. POLS 8805 Introduction to Quantitative Analysis

2. POLS 8200 Comparative Political Analysis (3) and POLS 8400 International Politics (3).

3. Four additional courses (12 hours) chosen from the areas of comparative (PolS 6200-6280, PolS 8200-8280) and international politics (PolS 6400-6480, PolS 8400-8480). Two of these courses may be taken in other departments with the advanced approval of the departmental Director of Graduate Studies. One may be taken in a different political science concentration with the advanced approval of the departmental Director of Graduate Studies.

4. Thesis Option:
   a. A minimum of six hours of POLS 8999 Thesis Research
   b. A thesis, written following successful defense of proposal before three-member faculty committee
   c. A thesis defense.

5. Non-Thesis Option (Students wishing to pursue a doctoral degree should not choose this option):
   a. Six additional hours of graduate courses in comparative (PolS 6200-6280, PolS 8200-8280) and international politics (PolS 6400-6480, PolS 8400-8480).
   b. A research paper completed according to departmental guidelines.

Concentration in Professional Governmental and Political Practices (33)

Based on the belief that career paths in public service and politics require individuals to have multiple professional and political skills, the department offers this concentration. This program also offers students the ability to gain hands-on experience with an experiential learning project requirement, as well as multi-disciplinary learning by encouraging students to take related courses in other departments within the University. This program is offered as a terminal degree with a non-thesis option.

1. Required Methods Sequence (6)
   a. POLS 8800 Elements of Research Design (3)
   b. POLS 8805 Introduction to Quantitative Analysis (3)

2. Each student should take 6 additional graduate Political Science courses selected from the following three practice areas. Additional research methods courses can be counted under any of the practice areas. [Note: potential class options are listed under each practice area, but other courses may be used as well] (18):
   a. Political Communication & Campaign Practices
      ■ Public Opinion & Attitudes
      ■ Comparative Electoral Systems
      ■ War & Public Opinion
      ■ Theories of Democracy
      ■ Electoral Behavior
      ■ Campaign Organization and Management
      ■ Political Parties and Interest Groups
      ■ African-American Political Participation
      ■ Seminar in American Politics
3. Experiential Learning Project (9 hours) – Students must complete one experiential learning project for 9 credit hours; students may choose to find an internship with an organization or political campaign or create another experiential learning project related to their main practice area. All experiential learning projects must receive the advance permission of the departmental Director of Graduate Studies before students will be allowed to register for POLS 8995 (Administrative & Policy Internship) hours. Students may choose to take an additional graduate-level course (3 hours), and thus complete a 6-hour experiential learning project, with the advance permission of the Director of Graduate Studies.

4. We encourage students to take courses in other departments within the University. Up to three courses (9 hours) in departments outside of Political Science may be used if relevant and with advance permission of the departmental Director of Graduate Studies.

5. A non-thesis research paper completed according to departmental guidelines
8139 Constitutional Theory (3)

6. Choose one additional Public Law or Public Law-related course (3). One course may be taken in a different political science concentration with the advance approval of the departmental Director of Graduate Studies. Potential courses include, but are not limited to:
   a. POLS 6130 Constitutional Law
   b. POLS 6131 Civil Rights & Liberties
   c. POLS 6420 International Law
   d. POLS 6425 International Criminal Justice
   e. POLS 8421 International Institutions & Organizations

7. Choose one elective course in consultation with the departmental Director of Graduate Studies (3). Two of the above courses may be taken in another department with the advance approval of the departmental Director of Graduate Studies.

8. Thesis Option:
   a. A minimum of six hours of POLS 8999 Thesis Research.
   b. A thesis, written following successful defense of proposal before three-member faculty committee.
   c. A thesis defense.

9. Non-Thesis Option (Students wishing to pursue a doctoral degree should not choose this option):
   a. Six additional hours of graduate courses in Public Law or Public Law-related courses.
   b. A research paper completed according to departmental guidelines.

Dual B.A./M.A. Program in Political Science

The department offers a dual Bachelor of Arts and Master of Arts in Political Science. The dual degree opportunity enables qualified students to enroll in graduate courses late in their undergraduate program and apply the coursework toward both the bachelor’s and master’s programs.

Students must be formally accepted into the dual degree program by the department and College of Arts and Sciences to be able to take graduate courses as an undergraduate. Additionally, acceptance into the dual program does not constitute admission to the master’s program. Students must fulfill regular graduate admissions requirements and apply for the master’s program following college processes.

Information about the dual program, including application instructions and program requirements, can be found at cas.gsu.edu/dual-degrees/.

Doctor of Philosophy

1. POLS 8800 Elements of Research Design (3)
2. POLS 8805 Introduction to Quantitative Analysis (3)
3. POLS 8810 Uses of Intermediate Statistical Methods in Political Science Research (3)
4. Either POLS 8830 Advanced Quantitative Methods or POLS 8840 Qualitative Research Methods (3). Students intending to write their dissertations in Political Theory may make a request to the departmental Director of Graduate Studies that up to two of the four courses in the required methods sequence be waived.
5. An additional twenty-four hours of coursework beyond the M.A. (excluding the required methods sequence). For students without an M.A. in hand, 54 hours of coursework must be completed,
including the required methods sequence.

6. Distribution Requirement: To ensure a broad knowledge of the discipline of Political Science, all students must take at least one course each in two fields that will not serve as comprehensive exam fields. For the purposes of this requirement, the fields are: American Politics, Comparative Politics, International Politics, Political Theory, and Public Law. The remaining courses should be chosen by the student in consultation with the Director of Graduate Studies in accordance with the student’s planned comprehensive exam fields (PolS 6130-8980).

7. Students admitted to the program without a previously earned MA will earn an ‘MA in passing’ consisting of a rigorous research paper. This requirement must be met by the completion of 33 hours of coursework.

8. Comprehensive Exams and Field Paper Requirements
   a. All doctoral students must pass a written examination in two of the following fields: American Politics, Comparative Politics, International Politics, Political Theory, Public Law, and Research Methods. All students are expected to take their comprehensive exams after completing no more than 42 credit hours of coursework in political science at Georgia State beyond the M.A. In order to take these exams, a student must have a 3.4 grade-point average in political science courses taken in the Ph.D. program at Georgia State University. Students who do not have the required 3.4 GPA for graduate Political Science courses taken at Georgia State after 36 hours will be issued a scholastic warning. Students who have failed to achieve the required 3.4 GPA to take the comprehensive exams after 42 hours will be subject to scholastic termination. Students must also have taken at least three courses in each of their examining fields in preparation for the comprehensive exams. Students must register for PolS 8900 during the semester of the exams. Individual exam committees, at their discretion, may require students to complete an oral examination as part of their comprehensive exams. Students may take the exams twice if necessary.
   b. All doctoral students must also write one “major area” paper; this requirement must be completed within 90 days of successful completion of the written comprehensive exam requirement. Major area paper topics must be related to the student’s proposed dissertation interests, and approved by the Director of Graduate Studies as well as a member of the graduate faculty from the student’s primary field.
   c. Major area papers will be read and reviewed at a set date each semester (90 days after the last comprehensive exams were returned) by committees composed of three members of the graduate faculty of the Department of Political Science. Two members of the major area paper committee will be specialists in the chosen topic area or in a related field; the third committee member will be someone whose primary research is in a separate field. Outside readers will be selected by the Director of Graduate Studies at the outset of each academic year. The other two committee members will be chosen by the student in consultation with the Director of Graduate Studies and the student’s major advisor; the major advisor may serve as one of the committee members.

9. Foreign Language and Research Skill Requirement: In addition to the required methods sequence, students must demonstrate further research competency by either taking one additional methodology course (to be approved by the Director of Graduate Studies) or passing a foreign language proficiency examination administered by the Department of World Languages and Cultures. Ph.D. students with a major in Comparative Politics must present a foreign language. The Department strongly urges students to complete this requirement before taking the comprehensive examination.

10. Professionalization/Research Presentation Requirement: All doctoral students will be required by
the time they have completed 36 hours of coursework to present a major research paper at the annual GSA Graduate Student Conference. Doctoral students will also be expected to attend Departmental colloquia, workshops, and other events and presentations on a regular basis as part of their ongoing professionalization activities.

11. Twenty hours of POLS 8999 Thesis Research. Students must defend their dissertation proposal no later than 90 days after their major area papers are approved.

12. Dissertation written and approved by a three-member faculty committee. The chair and at least one member of this committee must come from the department’s graduate faculty, but the third member may come from the graduate faculty of another department at Georgia State University. Subject to the approval of the Director of Graduate Studies, additional members beyond the required three may also come from outside the university, normally among members of the political science graduate faculty at a PhD granting institution.

13. First & Second Year Process

   a. First Year Review: Based on each first year doctoral student’s research interests, he or she will be assigned a faculty mentor in that area. All doctoral students will be evaluated at the end of their first year by the Department’s graduate faculty as to their performance in the program to date. An unsatisfactory review may result in dismissal from the program.

   b. Second Year Review: All doctoral students will again be evaluated at the end of their second year by the Department’s graduate faculty as to their performance in the program to date. An unsatisfactory review may result in dismissal from the program.

No grade below a “C” may be used towards the M.A. or Ph.D. degrees. In addition, because the field of political science changes so quickly, the department will not normally support the use of coursework and other qualifications older than seven years towards the M.A. and ten years towards the Ph.D.
3360 Psychology

Programs Offered:

- Master of Arts in Psychology
- Doctor of Philosophy in Psychology
  - Concentration in Clinical Psychology
  - Concentration in Community Psychology
  - Concentration in Clinical/Community Psychology
  - Concentration in Clinical/Neuropsychology
  - Concentration in Developmental Psychology
  - Concentration in Neuroethics
  - Concentration in Neuropsychology and Behavioral Neuroscience
  - Concentration in Cognitive Sciences Psychology

Chris Henrich, Chair
Lindsey Cohen, Director of Graduate Studies

The Department of Psychology offers courses of study leading primarily to the Doctor of Philosophy (Ph.D.) degree. A Master of Arts (M.A) degree is completed by students as part of their courses of study. The master's level education of graduate students focuses upon basic psychological knowledge and methodologies common to the science and profession of psychology across program areas. Although students typically begin specialized coursework at this level, the master’s degree is intended as preparation for continued learning in pursuit of the doctoral degree. Doctoral-level study then provides students the opportunity to acquire the additional knowledge and skills necessary for professional careers in teaching, research, clinical service, and consultation.

The doctoral-level education of advanced graduate students focuses upon specialized coursework and supervised experiences in the department’s five program areas. The program areas are Clinical Psychology, Community Psychology, Clinical/Community Psychology, Clinical/Neuropsychology, Developmental Psychology, Neuroethics, Neuropsychology and Behavioral Neuroscience, and Cognitive Sciences Psychology. The areas of specialization within the programs are defined by the interests and expertise of the faculty and, thus, will change within a scholarly context that encourages diversity, growth, and change.

The facilities of the department permit work in cognition, development, behavioral neuroscience, neuropsychology, learning, infant behavior, sensation and perception, motivation, aging, social psychology, assessment, individual psychotherapy, group and family therapy, behavior therapy, and community psychology. Students may work with both human and nonhuman populations. Human populations include all age ranges and a variety of ethnic and socioeconomic backgrounds. Nonhuman populations include several rodent and primate species.
The graduate program in clinical psychology is accredited by the American Psychological Association.

Applicants may obtain additional information about the Department of Psychology by contacting the Director of Graduate Studies at the addresses above.

Policy on Non-Degree Admission

Students may take no more than six hours of coursework in non-degree status without petitioning the department for an exception to this policy. Students enrolled in non-degree status in a psychology graduate course may not at the same time be applicants to a degree program and may not apply for admission to a graduate degree program in the department for one year following the semester in which the non-degree course was taken. Applications for non-degree admission may be obtained from the College of Arts and Sciences. Application deadlines for non-degree status are the same as the general deadlines for the College of Arts and Sciences and can be found in the section of the catalog entitled “Admission Policies.”

Admission Deadlines

Applications for all programs are considered for the fall semester only. The Application for Graduate Study, $50 application fee, and all supporting materials (transcripts, GRE scores, letters, and supplemental form) must be postmarked by the posted deadline for admission the following fall.

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Psychology has the following requirements:

1. Applicants are expected to have a background in psychology, although an undergraduate major is not required. A minimum of four courses is required: psychological statistics, a course in research methods in psychology, plus two or more content courses in psychology at the junior or senior level. It is recommended that applicants to the clinical program take abnormal psychology as one of the content courses.
2. The applicant must submit scores that are well above average on the general test of the Graduate Record Examination.
3. A student in possession of a graduate degree or coursework who is admitted to graduate study may be accorded advanced standing after an evaluation of previous graduate work. The evaluation ordinarily will be conducted during the first semester of enrollment. If the student’s previous graduate work did not include courses equivalent to the required core courses and a thesis, these will be required. Students given full credit for master’s work elsewhere will have one year in which to complete all work stipulated as conditions of admission or transfer of credit.
4. Each student must fill out the Supplementary Form for Graduate Study in Psychology.

Degree Requirements

Master of Arts (33 hours)

A complete statement of the departmental requirements for the Master of Arts and Doctor of Philosophy degrees may be obtained from the Department of Psychology. General requirements are indicated below.
Satisfactory progress through the program is expected in a timely manner, and when students fail to meet progress guidelines set by the department they may be dismissed. Furthermore, there are departmental regulations concerning maintenance of active status, leaves of absence, and reentry into the program. Graduate students must be aware of these regulations. The M.A. degree requires a thesis and 33 hours of coursework as outlined below:

1. Fifteen hours of core courses.
2. Twelve additional hours of graduate psychology courses.
3. Six hours of PSYC 8999 Master’s Thesis Research.
5. A thesis defense.

Doctor of Philosophy

A minimum of 95 post baccalaureate hours, the majority of which must be taken at Georgia State University, are required for the Doctor of Philosophy degree. Credit for up to 30 hours is possible for students with master’s degrees from other institutions with the approval of the departmental Graduate Program Committee and the Office of Graduate Services of the College of Arts and Sciences. Upon petition, 6 hours of work may be taken at other institutions. Students meeting particular program area requirements frequently find it necessary to take more than the minimum of 95 hours of credit.

Additional requirements include:

1. A master’s degree based on a written thesis.
2. A minimum of one year’s full-time residence.
3. Sixty-two credit hours of coursework beyond the master’s degree.
4. Nine hours of PSYC 9980 Readings for General Examination.
5. Twenty hours of PSYC 9999 Doctoral Dissertation Research.
6. A general examination, which consists of both written and oral parts, to be taken after the student has completed the coursework required by the program.
Founded in the past century, the modern field of Religious Studies endeavors to better understand religion by means of modern academic approaches. The Department of Religious Studies offers a Masters of Arts in Religious Studies that trains students in a range of world religious traditions and theoretical perspectives. All students gain a general understanding of comparative approaches to the study of religion while having the opportunity to specialize in one or more specific religion(s). Graduates of the program have gone on to study at Harvard, Yale, Oxford, Cambridge, Chicago, Berkeley, and other top graduate programs and have entered successful careers in such fields as academia, international journalism, immigration law, public service, and the ministry.

Students who plan to seek a Ph.D. in the field are strongly encouraged to discuss their intentions with the Religious Studies faculty as soon as possible so that a course of study can be determined to prepare them for doctoral work.

Applicants may obtain additional information about the Department of Religious Studies by contacting the Director of Graduate Studies at the address above.

Additional Admissions Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Religious Studies has the following requirements:

1. Three letters of recommendation addressing the ability of the student to undertake graduate study.
2. All applicants should submit a sample of their written work. See the electronic application for details.

Degree Requirements

The Masters of Religious Studies offers two tracks: a thesis track and a course work intensive track.
Students declare which track they intend to pursue after they have completed 24 hours of course work, usually at the end of the first year of study. The requirements are as follows:

**Track 1 (Thesis track):**

In order to receive the Masters of Religious Studies, a student must complete 30 hours of course work. These courses must include:

1. Twenty-four hours of non-thesis course work. As part of these twenty-four hours, a student successfully must complete:
   a. One course in theory and methods in the study of religion (3):
      - RELS 8200 Pro-Seminar in Advanced Theory and Method (3)
   b. At least one course from each of the following areas (6):
      - History of Religions (Abrahamic Traditions): RELS 6040, RELS 6200, RELS 6250, RELS 6450, RELS 6460, RELS 6480, RELS 6490, RELS 6570, RELS 6580
      - History of Religions (non-Abrahamic Traditions): RELS 6610, RELS 6612, RELS 6615, RELS 6620, RELS 6625, RELS 6628
   c. One course in comparative / thematic approaches to religions (3):
      - RELS 6240 Death and the Afterlife (3)
      - RELS 6060 Evil and God (3)
      - RELS 6080 Religious Dimensions in Human Experience (3)
      - RELS 6225 Psychology and Religion (3)
      - RELS 6270 Women and Religion (3)
      - RELS 6630 Comparative Study of Mysticism (3)
   d. One course in religion and ethics / politics (3):
      - RELS 6650 Religion and Ethics (3)
      - RELS 6670 Church and State (3)
      - RELS 6675 Christianity and Democracy (3)
      - RELS 6680 War, Peace and Religion (3)
      - RELS 6690 Secularism, Liberalism & Religion (3)
   e. Additional electives (9 graduate level hours) from either Religious Studies or affiliated courses (see below) to bring the total to twenty-four hours. Because the interests and goals of each student are distinct, students are highly encouraged to consult their academic adviser when selecting courses to complete the program of study.

2. Six hours of RELS 8999 Thesis Research
3. A thesis
4. An oral thesis defense

**Track 2 (Course work Intensive track)**

In order to receive the Masters of Religious Studies, a student must complete 36 hours of course work. These courses must include:

1. Thirty-six hours of intensive coursework. As part of these thirty-six hours, a student successfully must complete:
   a. One course in theory and methods in the study of religion (3):
      - RELS 8200 Pro-Seminar in Advanced Theory and Method (3)
b. At least one course from each of the following areas (6):
   - History of Religions (Abrahamic Traditions): RELS 6040, RELS 6200, RELS 6210, RELS 6215, RELS 6250, RELS 6450, RELS 6460, RELS 6480, RELS 6490, RELS 6570, RELS 6580
   - History of Religions (non-Abrahamic Traditions): RELS 6610, RELS 6612, RELS 6615, RELS 6620, RELS 6625, RELS 6628

c. One course in comparative / thematic approaches to religions (3):
   - RELS 6240 Death and the Afterlife (3)
   - RELS 6060 Evil and God (3)
   - RELS 6080 Religious Dimensions in Human Experience (3)
   - RELS 6225 Psychology and Religion (3)
   - RELS 6270 Women and Religion (3)
   - RELS 6630 Comparative Study of Mysticism (3)

d. One course in religion and ethics / politics (3):
   - RELS 6650 Religion and Ethics (3)
   - RELS 6670 Church and State (3)
   - RELS 6675 Christianity and Democracy (3)
   - RELS 6680 War, Peace and Religion (3)
   - RELS 6690 Secularism, Liberalism & Religion (3)

e. Additional electives (21 graduate level hours) from either Religious Studies or affiliated courses (see below) to bring the total to twenty-four hours. Because the interests and goals of each student are distinct, students are highly encouraged to consult their academic adviser when selecting courses to complete the program of study.

f. Research competence must be demonstrated on the basis of a research paper. A committee of at least three members of the faculty will pass on the acceptability of the paper or project. Two-thirds of the committee must indicate approval. This approval must be submitted in writing to the Office of Graduate Services by the appropriate deadline (cas.gsu.edu/graduate-studies/admissions/application-deadlines/).

Students who intend to pursue additional graduate work after the Masters of Religious Studies at Georgia State University are urged to pursue the thesis track option.

Affiliated Courses

Most students will concentrate their coursework within the Religious Studies Department. (See course listings under Religious Studies later in this catalog.) Other departments and programs within Georgia State University also offer courses directly bearing on the academic study of religion. When Religious Studies Masters students satisfy the prerequisites for the courses, they may take and have applied toward their degree requirements no more than two of the following non-departmental courses:

- AH 6000 African Art (3)
- AH 6010 Art of Ancient Egypt and Nubia (3)
- AH 6011 Art and Architecture of Ancient Egypt I: 4000-1600 B.C. (3)
- AH 6012 Art and Architecture of Ancient Egypt II: 1600-31 B.C. (3)
- AH 6020 Art and Architecture of the Ancient Near East (3)
- AH 6200 Art and Architecture of the Middle Ages (3)
- AH 6310 Art of Northern Europe in the Renaissance Era (3)
• ENGL 8290 Topics in Medieval Literature (3)
• ENGL 8390 Milton (3)
• FOLK 6110 Irish Folk Culture (3)
• FOLK 8200 Folklore (3)
• GEOS 6404 Geography of East Asia (4)
• GEOS 6408 Geography of the Middle East and North Africa (4)
• HIST 6920 Oral History (4)
• HIST 8210 Seminar in Medieval History (4)
• HIST 8430 Seminar in South Asian History (4)
• HIST 8440 Seminar in East Asian History (4)
• HIST 8450 Seminar in Middle Eastern History (4)
• PHIL 6300 Metaphysics (3)
• PHIL 8090 Seminar in Continental Philosophy (3)
• POLS 8215 Politics of Peace (3)
• POLS 8260 Politics of the Middle East and North Africa (3)
• SOCI 8122 Death, Dying and Loss (3)
• SOCI 8156 Sexuality and Society (3)
• SOCI 8212 Race and Ethnic Relations (3)
• SOCI 8220 Social Movements (3)
• SOCI 8360 Sociology of Religion (3)
• WGSS 6210 Women in Cross-Cultural Perspective (3)
• WGSS 6370 Women and Religion (3)
• WGSS 8002 Globalization and Gender (3)

Note: While the above courses have particular pertinence to the Masters in Religious Studies, not all listed courses will be appropriate for the program of study of every student. Students should select courses in consultation with their advisers. Additionally, courses not included on the above list may be appropriate to the program of study of certain students within the Religious Studies M.A program. Upon approval of the Director of Graduate Studies, such courses may be counted toward the degree on a case-by-case basis.

Restrictions

1. Only six hours of credit transferred from another institution may be applied towards the Georgia State M.A.
2. Of the hours taken at Georgia State and applied toward the M.A, no more than six hours may be from outside the Department of Religious Studies.

Foreign Language Competencies

Depending upon their area(s) of concentration, students who wish to go on to pursue a Ph.D. in Religious Studies may need to initiate or complete studies in a particular language or languages before beginning doctoral studies. Students are urged to consult with their advisers for advice and direction concerning language competencies.

The M.A. with Distinction

Students who meet all of the following requirements shall be awarded the M.A. with distinction:
1. A graduate Georgia State GPA of 3.50 or higher in courses applicable to the Religious Studies M.A.
2. A thesis that, upon vote of the committee grading the thesis, is judged to merit distinction.
3. A determination by the Director of Graduate Studies that the student’s graduate record at Georgia State University is one of distinction.

Applicants are strongly encouraged to review the additional information about the Department of Religious Studies which is on its website at religiousstudies.gsu.edu.

Concentration in Non-Profit Management

The department offers a concentration in Non-Profit Management for the Master of Arts in Religious Studies. Please contact the department graduate director for program curriculum and other details.

Dual B.A./M.A. Program in Religious Studies

The department offers a dual Bachelor of Arts and Master of Arts in Religious Studies. The dual degree opportunity enables qualified students to enroll in graduate courses late in their undergraduate program and apply the coursework toward both the bachelor's and master’s programs.

Students must be formally accepted into the dual degree program by the department and College of Arts and Sciences to be able to take graduate courses as an undergraduate. Additionally, acceptance into the dual program does not constitute admission to the master's program. Students must fulfill regular graduate admissions requirements and apply for the master’s program following college processes.

Information about the dual program, including application instructions and program requirements, can be found at cas.gsu.edu/dual-degrees/.
3380 Sociology

Programs Offered:

- Joint Master of Arts in Sociology and Doctor of Philosophy in Sociology
  - Concentration in Family, Health and Life Course
  - Concentration in Gender and Sexuality
  - Concentration in Race and Urban Studies
- Doctor of Philosophy in Sociology
  - Concentration in Family, Health and Life Course
  - Concentration in Gender and Sexuality
  - Concentration in Race and Urban Studies

Department of Sociology
1041 Langdale Hall
Tel: 404-413-6500
Fax: 404-413-6505
sociology.gsu.edu

To Be Announced, Chair
Erin Ruel, Director of Graduate Studies
Reginald Butler, Coordinator of Graduate Studies

The Department of Sociology offers the Doctor of Philosophy (Ph.D.) degree program the Joint Master of Arts (M.A.) and Doctor of Philosophy (Ph.D) degree program, providing students with both a broad exposure to the discipline of sociology as well as in-depth study in special areas of expertise. Qualified students are accepted into the Joint M.A./Ph.D. Program after their completion of a baccalaureate degree or are accepted into the Ph.D.-Only Program after their completion of a master's degree in sociology or a closely related field. The broad knowledge of sociology comes through coursework in a variety of substantive areas, as well as through training in research methodology, statistics, and theory. Most of the faculty’s interest and expertise lie in three broad areas: (1) Family, Health and the Life Course, (2) Gender and Sexuality, (3) and Race and Urban Studies. The department’s approach is to enable students to apply sociological principles in a real-world environment and to foster a close working relationship between faculty and graduate students.

The goals of the Department are to provide: A general intellectual foundation that supports the student’s analytic understanding of social life; a sound methodological background that prepares the student for social research; and a rich and specialized body of knowledge that equips the student for the practice of sociology in both the public and private sectors. Students are offered many opportunities to become actively involved in the discipline at the state, regional, or national levels. Applicants may obtain additional information about the Department of Sociology by contacting the Director of Graduate Studies at the addresses above.

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Department of Sociology
has the following requirements:

1. Students applying for the M.A. only program from a baccalaureate program:
   - Applicants must submit scores on the verbal, quantitative, and analytical sections of the GRE.
   - Applicants must submit three (3) letters of recommendation from faculty personally acquainted with the applicant’s academic achievements.
   - Applicants must submit a sample of their written scholarly work (e.g., their term/research paper).

2. Students applying for the Doctor of Philosophy program from a baccalaureate program (Joint M.A./Ph.D. Track):
   - Applicants must submit scores on the verbal, quantitative, and analytical sections of the GRE.
   - Applicants must submit three (3) letters of recommendation from faculty personally acquainted with the applicant’s academic achievements.
   - Applicants must submit a sample of their written scholarly work (e.g., their term/research paper).

3. Students applying for the Doctor of Philosophy program from a master’s program (Ph.D.-Only Track):
   - Applicants must submit scores on the verbal, quantitative, and analytical sections of the Graduate Record Examination.
   - Although a master’s degree in sociology is not required, only students who have an accredited master’s degree, in a closely related field, or who have nearly completed the master’s degree, will be considered for the Ph.D. program. Applicants should have completed master’s level coursework in research methods, statistics, and sociological theory. If they have not had these courses, they must complete them as additional courses prior to enrolling in Ph.D. courses in these areas.
   - Applicants must submit three (3) letters of recommendation from faculty personally acquainted with the applicant’s academic achievements.
   - Applicants must submit a sample of their written scholarly work (e.g., their Master’s thesis or term/research paper).

Degree Requirements

**M.A. ONLY in Sociology–Data Analysis**

The M.A. Only Program is a 31 credit hour degree program beyond the Bachelor’s degree (25 credit hours of course work and 6 credit hours of internship and capstone paper). If a student needs to take SOCI 3010: Social Statistics, SOCI 3020: Research Methods, and/or SOCI 3030: Sociological Theory (or their equivalents, as determined by the Director of Graduate Studies), these courses must be taken as non-credit prerequisites for SOCI 8010, SOCI 8020, and SOCI 8030. The M.A.-Only Program consists of a Master’s Core (A), Master’s Electives (B), and Other Master’s Requirements (C).

A. Master’s Core Course Work (16 hours):
   - SOCI 8010: Intermediate Social Statistics (3)
   - SOCI 8020: Research Methodology (3)
SOCI 8342: Qualitative Methods in Sociology (3)
SOCI 9010: Advanced Social Statistics (4)
SOCI 9020: Advanced Research Methodology (3)

B. Master’s Elective Course Work (9 hours or 3 courses):
   o Students will take an additional three substantive sociology courses or advanced data analysis courses as electives.

C. Other Master’s Requirements (6 hours):
   o SOCI 8980: Internship (3)
   o SOCI 8900: Capstone (3)

Students with post-Bachelor’s degree course work from other accredited institutions may petition to transfer up to 6 hours (2 courses) of course work towards the M.A. degree following petition to, and approval by, the departmental Director of Graduate Studies. With the approval of the departmental Director of Graduate Studies, up to 6 hours (2 courses) of advanced data analysis may be taken in a related field or fields with approval of graduate director.

NOTES:

1. Students must maintain a cumulative grade point average of 3.0 (“B”) or better and must receive a grade of “B” or better in each of the required courses. If a student receives a lower grade in a required course, the student must repeat the course the very next time the course is offered to rectify the grade.
2. The total number of hours must include a minimum of 25 hours in sociology in the Department of Sociology at Georgia State University.

Joint M.A./Ph.D. Track

Ninety semester credit hours (52 semester hours of course work and 38 semester hours of non-course work) beyond the Baccalaureate degree, consisting of a Master’s Core (A), Master’s Electives (B), Other Master’s Requirements (C), Doctoral Core (D), Doctoral Specialty Core (E), Doctoral Electives (F), and Other Doctoral Requirements (G).

@. Master’s Core Required Course Work (16 hours):
   o SOCI 8000 Proseminar in Sociology (3)
   o SOCI 8010 Intermediate Sociological Statistics (3)
   o SOCI 8020 Research Methodology (3)
   o SOCI 8030 Sociological Theory 1 (3)
   o SOCI 9010 Multivariate Sociological Data Analysis (4)

@. Master’s Elective Course Work (9 hours or 3 courses):
   o Students with post-Bachelor’s degree course work from other accredited institutions may petition to transfer up to 6 hours (2 courses) of course work towards the M.A. degree following petition to, and approval by, the departmental Director of Graduate Studies. With the approval of the departmental Director of Graduate Studies, up to 3 hours (1 course) may be taken in a related field or fields and/or up to 3 hours of SOCI 8970 Directed Readings may be taken.

@. Other Master’s Requirements (6 hours of non-course work):
   o SOCI 8999 Thesis Research (6)

@. Doctoral Core Required Course Work (9 hours):
   - SOCI 8342 Qualitative Methods in Sociology (3)
   - SOCI 9020 Advanced Research Methodology (3)
   - SOCI 9030 Sociological Theory II (3)

@. Select at least two from the core areas (6 hours)
   1. Health and Life Course (HLC) Specialty Required Course Work:
      - SOCI 8102 Life Course Sociology (3)
      - SOCI 9230 Medical Sociology (3)
   2. Gender and Sexuality (GS) Specialty Required Course Work:
      - SOCI 8156 Sexuality and Society (3)
      - SOCI 8216 Gender and Society (3)
   3. Race and Urban Studies (RUS) Specialty Required Course Work:
      - SOCI 8212 Race and Ethnic Relations (3)
      - SOCI 8226 Urban Sociology (3)

@. Doctoral Elective Course Work (12 hours or 4 courses):
   - With the approval of the departmental Director of Graduate Studies, up to 3 hours (1 course) may be taken in a related field and/or up to 3 hours of SOCI 8970: Directed Readings may be taken.

@. Other Doctoral Requirements (32 hours of non-course work):
   - SOCI 9999 Dissertation Research (32)
   - Written doctoral exams, a dissertation proposal, dissertation, and oral defense.

NOTES:

1. Students must maintain a cumulative grade point average of 3.0 ("B") or better. Students may not earn two or more grades of "C" or lower in graduate Sociology courses. Students who fail to meet either of these requirements will be scholastically terminated from the Sociology graduate program.
2. Students must maintain a cumulative grade point average of 3.0 ("B") or higher and must receive a grade of B or higher in each of the required courses. If a student receives a grade below a B in a required course, the student must repeat the course the very next time the course is offered to rectify the grade.
3. Students must register for SOCI 8990 Research Practicum and SOCI 8991 Teaching Practicum while they are appointed as a GRA, GTA, and/or GLA.
4. Students who are appointed as a GTA B must successfully complete SOCI 9000 Teaching Sociology and SOCI 9001 Teaching Internship prior to their appointment.
5. SOCI 9001 Teaching Internship hours cannot be applied to the Ph.D. degree.
6. Students must take 3 hours of SOCI 8000 in the Fall semester of their first year in the Joint M.A./Ph.D. Program.

Ph.D.-Only Track

Sixty-three semester credit hours (31 semester hours of course work and 32 semester hours of non-course work) beyond the Master's degree, consisting of a Doctoral Core (A), Doctoral Specialty Core (B), Doctoral Electives (C), and Other Doctoral Requirements (D).

A. Doctoral Core Required Course Work (16 hours):
SOCI 8000 Proseminar in Sociology (3)
SOCI 8342 Qualitative Methods in Sociology (3)
SOCI 9010 Multivariate Sociological Data Analysis (4)
SOCI 9020 Advanced Research Methodology (3)
SOCI 9030 Sociological Theory II (3)

NOTE: If a student needs to take SOCI 8010 Intermediate Social Statistics, SOCI 8020 Research Methods, and/or SOCI 8030 Sociological Theory I (or their equivalents, as determined by the Director of Graduate Studies), these courses must be taken as non-credit prerequisites for SOCI 9010, SOCI 9020, and SOCI 9030.

B. Select at least two from the core areas (6 hours):
   1. Health and Life Course (HLC) Specialty Required Course Work:
      - SOCI 8102 Life Course Sociology (3)
      - SOCI 9230 Medical Sociology (3)
   2. Gender and Sexuality (GS) Specialty Required Course Work:
      - SOCI 8156 Sexuality and Society (3)
      - SOCI 8216 Gender and Society (3)
   3. Race and Urban Studies (RUS) Specialty Required Course Work:
      - SOCI 8212 Race and Ethnic Relations (3)
      - SOCI 8226 Urban Sociology (3)

C. Doctoral Elective Course Work (9 hours or 3 courses):
   - With the approval of the departmental Director of Graduate Studies, up to 3 hours (1 course) may be taken in a related field and/or up to 3 hours of SOCI 8970: Directed Readings may be taken.

D. Other Doctoral Requirements (32)
   - SOCI 9999 Dissertation Research (32)
   - Written doctoral exams, a dissertation proposal, a dissertation, and oral defense

NOTES:

1. Students must maintain a cumulative grade point average of 3.0 (“B”) or better. Students may not earn two or more grades of “C” or lower in graduate Sociology courses. Students who fail to meet either of these requirements will be scholastically terminated from the Sociology graduate program.
2. Students must maintain a cumulative grade point average of 3.0 (“B”) or better and must receive a grade of B or better in each of the required courses. If a student receives a grade below a B in a required course, the student must repeat the course the very next time the course is offered to rectify the grade.
3. Students must register for SOCI 8990 Research Practicum and SOCI 8991 Teaching Practicum while they are appointed as a GRA, GTA, and/or GLA.
4. Students who are appointed as a GTA B must successfully complete SOCI 9000 Teaching Sociology and SOCI 9001 Teaching Internship prior to their appointment.
5. SOCI 9001 Teaching Internship hours cannot be applied to the Ph.D. degree.
6. Students must take 3 hours of SOCI 8000 in the Fall semester of their first year in the Ph.D.-Only Program.
3390 Spanish

Program Offered:

- Master of Arts in Spanish
- Dual B.A./M.A. Program in Spanish

Department of World Languages and Cultures
841 Langdale Hall
404-413-5980
wlc.gsu.edu

William Nichols, Chair
Germán Torres, Associate Chair
Peter Swanson, Director of Graduate Studies

The Department of World Languages and Cultures offers the Master of Arts (M.A.) degree in Spanish. The Master of Arts degree emphasizes advanced study in the language, culture, and literature of the student’s specialty, including courses of particular interest to foreign language teachers.

Applicants may obtain additional information about the Department of World Languages and Cultures by contacting the Director of Graduate Studies at the address above.

Additional Admission Requirements

In addition to the general requirements of the College of Arts & Sciences, the Department of World Languages and Cultures has the following requirements:

1. An undergraduate major or its equivalent in the language to be studied.
2. A complete dossier which must include: (a) a letter of intent expressing the objectives of the student in entering the program; (b) two letters of recommendation from people familiar with the candidate’s academic work (dossiers will not be considered without both letters); and (c) a writing sample of an analytical nature in the target language. (At the discretion of the Graduate Committee, an entrance exam may be required.)

Program Financial Information

Effective summer 2009, lab fees will be assessed automatically for students who register for certain courses. As a result, students will no longer be required to purchase lab fee cards. For more information, please feel free to contact the department or review the GoSolar or catalog course listings to determine if a course includes a lab fee.

Degree Requirements

Master of Arts (30 hours):

1. Basic Requirements:
a. Students may choose to emphasize a particular field of study — literature, culture, or linguistics/pedagogy — by (A) selecting a faculty advisor in that field, (B) taking a minimum of 2 courses in that field, and (C) writing a thesis or a non-thesis paper in that field. (See 2a. & 2b. below)

b. A written exit examination
c. An oral exit examination
d. Proficiency in a foreign language other than the student’s major

2. Thesis/Non-Thesis Option
   a. Thesis Option:
      i. Twenty-four hours of graduate coursework
      ii. A written thesis proposal
      iii. Six hours of thesis research
      iv. A thesis
   b. Non-Thesis Option:
      i. Thirty hours of graduate coursework
      ii. A research paper. (See MCL graduate handbook

A student must have a grade-point average of 3.0 or higher in all courses counting towards the Master of Arts degree. Only courses passed with a grade of B or higher will count toward the degree.

Dual B.A./M.A. Program in Spanish

The department offers a dual Bachelor of Arts and Master of Arts in Spanish. The dual degree opportunity enables qualified students to enroll in graduate courses late in their undergraduate program and apply the coursework toward both the bachelor’s and master’s programs.

Students must be formally accepted into the dual degree program by the department and College of Arts and Sciences to be able to take graduate courses as an undergraduate. Additionally, acceptance into the dual program does not constitute admission to the master’s program. Students must fulfill regular graduate admissions requirements and apply for the master’s program following college processes.

Information about the dual program, including application instructions and program requirements, can be found at cas.gsu.edu/dual-degrees/.
3400 Translation and Interpretation

Programs Offered:

- Graduate Certificate in Translation (French, German, Spanish)
- Graduate Certificate in Interpretation (Spanish)

Department of World Languages and Cultures
Georgia State University
P.O. Box 3970
Atlanta, Georgia 30302-3970
404-413-5980
E-mail: wclgraduate@gsu.edu
wlc.gsu.edu

Annette G. Cash, Director
acash@gsu.edu

Qualification for entrance into either program is based on achievements on an appropriate proficiency examination. Candidates for the program in translation must pass a written examination in English and in the language of specialization. Candidates for the program in interpretation must pass written and oral examinations in both the source and target languages. Candidates who are not considered admissible because of insufficient knowledge of the proposed working language or deficiencies in their general backgrounds will be advised to consider preparatory courses in the Department of World Languages and Cultures or in another department. The entrance examination is offered at regular intervals each year for entrance in the fall semester. However, the course sequence in Translation or Interpretation cannot be initiated unless there is a sufficient enrollment. Thus, there is no guarantee that the Translation and Interpretation programs in French, German, and Spanish can be offered routinely every year. In some cases there will be a delay in initiating a sequence until a critical mass of qualified students is available.

In addition to demonstrating proficiency by means of the admission examination(s), candidates must demonstrate an appropriate educational background. Normally, applicants will be expected to have an American undergraduate degree or the equivalent. Candidates without a baccalaureate degree must provide evidence of educational and professional activities and accomplishments indicating that they have the prior experience needed to be successful in translation or interpretation. Students accepted into the program will not be permitted to enroll in graduate courses taught outside the Program in Translation and Interpretation unless they have applied and been admitted to the M. A. program in the Department of World Languages and Cultures. Students with a baccalaureate degree (or the equivalent) from an accredited institution are eligible to take undergraduate courses.

Applicants may obtain additional information about the Program in Translation and Interpretation by contacting the Director at the addresses above.

Translation

This program provides professional training in written translation for students who wish to acquire proficiency in a specific language combination. The student’s progress will be monitored closely, and the
student’s potential for completing the program will be evaluated at the end of each individual course.

The program includes one class in comparative stylistics, one class in general translation, two classes in specialized translation, and a final translation workshop. Students must complete each one of these courses with a grade of B or higher and must receive a score of at least a grade of B on the exit examination in order to receive a certificate.

Interpretation

This program provides professional training in both medical and legal interpretation for those who wish to become interpreters. At the present time, the program is only offered in Spanish. Admission to the program in interpretation presupposes completion of the course of study in translation, or demonstration of proficiency in written translation at a comparable level, in addition to oral proficiency in the student’s source and target languages.

The program is comprised of classes in medical and legal (state court) interpretation. The interpretation program involves a class in the introduction to the field of interpretation, a class in consecutive, simultaneous and sight interpretation, a class in medical interpretation, and a class in legal interpretation (state court system). Each student’s progress and potential for successful completion of the program will be evaluated each semester. Students must complete these courses with a grade of B or higher, and must receive a score of at least a B on the exit examination in order to receive a certificate.

Although individual courses in both areas are assigned graduate credit, none of the 7000-level courses listed below may be used to fulfill requirements in regular degree programs of the World Languages and Cultures.

All courses in each program are required and should be taken in the prescribed sequence.

The following courses comprise the translation sequence in French, German, and Spanish: Fren 7135, 7140, 7142, 7145, and 7146; Grmn 7135, 7140, 7142, 7145, and 7146; Span 7135, 7140, 7142, 7145, and 7146.

The following courses comprise the interpretation sequence in Spanish: Span 7150, 7152, 7154, and 7157.
3410 Women's, Gender, and Sexuality Studies

Programs Offered:

- Master of Arts in Women’s, Gender, and Sexuality Studies
- Graduate Certificate in Women’s, Gender, and Sexuality Studies

Institute for Women’s, Gender, and Sexuality Studies
Georgia State University
22 floor, 25 Park Place Bldg. (starting spring 2016)
P.O. Box 3969
Atlanta, GA 30302-3969
Tel: 404-413-6587
Fax: 404-413-6585
E-mail: wgss@gsu.edu
wgss.gsu.edu

Amira Jarmakani, Director
Megan Sinnott, Director of Graduate Studies

Our MA program offers innovative, interdisciplinary approaches to the study of gender, sexuality, race, class, and nation. The Institute for Women’s, Gender, and Sexuality Studies’ cutting edge academic program focuses on three crucial issues: globalization, sexuality, and social change. The interests of our five core faculty members span the globe, including the African diaspora, the Arab and Islamic worlds, Latin America, and Southeast Asia, with an emphasis on issues related to globalization, sexualities, and culture, as well as local and transnational articulations of feminism. The MA prepares students for doctoral work in Women’s, Gender, and Sexuality Studies and other disciplines, as well as careers in non-profit organizations, the social service sector, the political arena, and private enterprise. Some of our students pursue work in creative fields as artists, musicians, poets, journalists, or filmmakers.

To prepare for these career possibilities, WGSS provides three research options:

- Action Research Project: Examples include internships or community organizing accompanied by a theoretical essay.
- Creative Project: Examples include filmmaking, fiction writing, photography, or performing arts, accompanied by a theoretical essay.
- Thesis Research.

Applicants may obtain additional information about the Institute for Women’s, Gender, and Sexuality Studies by contacting the Director of Graduate Studies at the addresses above.

Additional Admission Requirements

In addition to the general requirements of the College of Arts and Sciences, the Institute for Women’s, Gender, and Sexuality Studies has the following requirements:

1. Three letters of recommendation addressing the ability of the student to undertake graduate study.
2. A statement of educational and/or career goals.
3. A writing sample of up to 30 pages in length.
4. Students seeking a M.A. degree are admitted to the program once a year (to begin in fall semester). Applicants seeking graduate assistantships must submit all application materials to the Office of Graduate Services of the College of Arts and Sciences by February 1 to be considered for the first decision-making process. Later applications may be considered. All applicants are considered for graduate assistantships.

Degree Requirements

Master of Arts (36 hours)

1. Thirty hours of graduate coursework, 15 hours of which are required (WGSS 8001, WGSS 8002, WGSS 8003, WGSS 8004, and WGSS 8005) and 15 hours of elective WGSS courses, including those with a WGSS prefix cross listed with other departments, or approved courses in other departments. Students must receive a B minus or above in all core and elective WGSS courses, and maintain a minimum overall GPA of 3.0.
2. A minimum of six hours of Thesis Research (WGSS 8999)
3. A thesis or project approved by the student’s committee.

Graduate Certificate in Women’s, Gender, and Sexuality Studies

Requirements:

A Graduate Certificate in Women’s, Gender, and Sexuality Studies is available to eligible graduate students who successfully complete five graduate courses (15 credits) in Women’s, Gender, and Sexuality Studies. “Successful completion” means a grade of B or higher in each. Three of these courses must be in the core classes (WGSS 8001 Feminist Theories, WGSS 8002 Globalization and Gender, WGSS 8003 New Directions in Feminism, WGSS 8004 Feminist Methodologies, or WGSS 8005 Proseminar in WGSS. The other two courses may be in a WGSS elective (drawn from courses bearing a WGSS prefix), only one of which can originate from the student’s home department.

Eligibility:

All students seeking the WGSS Graduate Certificate must submit a formal application through the College of Arts and Sciences Office of Graduate Services. Applications are accepted three times per year: July 1 (for Fall semester), November 15 (for Spring semester), and April 1 (for Summer semester). The following individuals are eligible:

- Students who are enrolled in an M.A. or Ph.D. program in another department or institute at Georgia State University—such students must apply, but existing materials on file can be used for the application and the application fee will be waived;
- Students in the Institute for Women’s, Gender, and Sexuality Studies M.A. degree program who are unable to complete the program and who have completed the requisite coursework—these students must apply, but existing materials on file can be used for the application and the application fee will be waived;
- Students who apply solely for the Graduate Certificate in Women’s, Gender, and Sexuality Studies—these students must submit a complete application and pay the requisite fee.
Graduate programs in the College of Education and Human Development are described in detail in this chapter. See subsections for specific program information as well as policies and procedures.

General Information

The information contained in this chapter applies to programs, course offerings, and requirements specific to the College of Education and Human Development. However, the information in this chapter is to be considered supplemental to the general university information found in the preceding chapters of this catalog. Therefore, students should familiarize themselves thoroughly with general information on registration, fees and refunds, academic regulations, student life, and campus services. All policies, regulations, and requirements explained in the preceding chapters of this catalog also apply to the College of Education and Human Development.

Office of the Dean

1000 College of Education Building (10th floor)

http://education.gsu.edu/

Paul Alberto, Dean
Gwen Benson, Associate Dean for School, Community and International Partnerships
Walt Thompson, Associate Dean of Graduate Studies and Research
Joyce Many, Associate Dean for Undergraduate Studies and Educator Preparation
Matthew Gillett, College Administrative Officer

Accreditation

The Professional Education Faculty at Georgia State University is accredited by the National Council for Accreditation of Teacher Education (NCATE), www.ncate.org. This accreditation covers initial teacher preparation programs and advanced educator preparation programs at Georgia State University. However, the accreditation does not include individual education courses that the institution offers to P-12 educators for professional development, relicensure, or other purposes.

The Mental Health Counseling MS, the School Counseling M.Ed., and the Counselor Education and Practice Ph.D. programs are accredited by The Council for the Accreditation of Counseling and Related Educational Programs (CACREP) The Council on Rehabilitation Education (CORE) accredits the Rehabilitation Counseling program in the College of Education and Human Development. The American Psychological Association (APA) accredits the doctoral programs in Counseling Psychology and School Psychology.

The Master of Science (M.S.) program in Communication Sciences and Disorders (speech-language pathology) at Georgia State University is accredited by the Council on Academic Accreditation in
4010 Research and Instructional Resources

Alonzo A. Crim Center for Urban Educational Excellence

350 College of Education Building
404/413-8070
http://crim.education.gsu.edu/

The Alonzo A. Crim Center for Urban Educational Excellence works in partnership with the larger Georgia State community, other universities, school systems, social agencies, and community organizations. Current work includes: (1) Benjamin E. Mays Lecture Series, an annual program which brings nationally prominent educators to Atlanta to address critical issues facing education; (2) Coalition Urban Affiliate Liaisons, meetings between College of Education and Human Development and Atlanta Public Schools urban affiliates to develop research agendas and to discuss difficult issues related to providing excellent education for those children who traditionally have been least well-served by schools; (3) Quarterly Forums, events which address the topic, “Tapping Into the Genius of Our Children,” which allows teachers and educators to participate in dialogue with outstanding people who have demonstrated success in fostering academic excellence for economically disenfranchised children in urban schools; (4) The Peachtree Urban Writing Project, a national writing project site and a collaborative of the Atlanta Public School System, Georgia State University, Morehouse College, and Spelman College; (5) National Board Certification Resource Center, provides awareness training to principals and teachers who are going through National Board Certification (NBC), places special emphasis on the recruitment of minority candidates and houses an information library for NBC literature; (6) Martin Luther King, Jr. Curriculum Project, lesson plans developed and designed to encourage hands-on, interactive exploration of materials available in The King Center, while providing historical and sociological knowledge to students as well as in social studies, civics, history, writing and language arts; (7) Staff Development and Curriculum Enhancement, facilitates and hosts ongoing workshops and training sessions that promote professional development for in-service teachers, and identifies supplemental learning resources that will compliment the curriculums that are currently used by teachers. The director of the center is Dr. Brian Williams.

Applied Physiology Laboratory

G18 Sports Arena
http://kh.education.gsu.edu/kh-facilities/applied-physiology-lab/

The Applied Physiology Laboratory serves the research, teaching, and service needs of the Department of Kinesiology and Health. The director of the laboratory is Dr. Andy Doyle.

Biomechanics Laboratory

137 Sports Arena
404/413-8056
http://kh.education.gsu.edu/kh-facilities/biomechanics-lab/
The Georgia State University Biomechanics Laboratory was established in 1989 to enhance biomechanical research productivity in the areas of sport and exercise activities, medical rehabilitation, and industrial and occupational activities. The director of the laboratory is Dr. Mark Geil.

Center for Pediatric Locomotion Sciences

http://education.gsu.edu/research/center-for-pediatric-locomotion-sciences/

The mission of the Center for Pediatric Locomotion Sciences is to perform innovative, interdisciplinary research to improve the lives of children and adolescents with mobility disorders. Currently, the center is conducting exploratory research in four primary areas that challenge children: idiopathic toe walking, Down syndrome, lower limb amputation and cerebral palsy, and has already made important gains in each of these areas. The co-directors of the center are Dr. Mark Geil and Dr. Jerry Wu.

Center for Research on School Safety, School Climate and Classroom Management

351 College of Education Building
404/413-8074
http://schoolsafety.education.gsu.edu/

The Center for Research on School Safety, School Climate and Classroom Management consists of faculty and staff members representing a broad span of academic orientations including education, psychology, nursing, social work, law, and criminal justice. The mission of the Center is to coordinate and support scholarly efforts to gain a fuller understanding of the variables affecting school safety, school climate and classroom management. This is accomplished by stimulating interdisciplinary basic and applied research in these areas, and by facilitating educational and outreach efforts that focus on our growing understanding of variables and interventions that affect school safety, school climate and classroom management. The director is Dr. Joel Meyers.

Educational Research Bureau

330 College of Education Building
404/413-8090
http://education.gsu.edu/research/educational-research-bureau/

The Educational Research Bureau provides assistance to students and faculty with grant searches, proposal processing, and post-award management. The director of the bureau is Dr. Susan Ogletree.

Instructional Technology Center

2nd floor, College of Education Building
404/413-8080
itc.gsu.edu/

The Instructional Technology Center serves faculty, students, and prekindergarten through twelfth-grade educators by encouraging and supporting technological confidence and expertise in the areas of teaching, collaboration, and consulting. The ITC serves as a resource center providing learning spaces, technology
workshops, student computer access, and specialized educational technology resources. Our resources include computers, peripheral equipment, productivity and educational software titles, audio/video production and reproduction technology and over 100 years of combined educational technology expertise from our experienced staff.

The ITC will provide customized workshops for faculty and instructor-led classes on topics that support instruction. The ITC can create workshops for a variety of instructional technologies. It has a variety of purpose-built teaching facilities including smart classrooms, computer classrooms, a conference room and a student computing commons.

The director of the center is Mr. Randy Jones. Call the Instructional Technology Center for information and appointments or visit their website at itc.gsu.edu.

Principals’ Center

Fourth floor, College of Education Building
404/413-8256
www.principalscenter.org/

The Principals’ Center provides continuing professional development for Georgia State University graduates and other educational professionals from Georgia’s public and private K-12 schools with a focus on Instructional Leadership for Schools that Succeed for All Students. This professional development agenda is implemented under various formats which target principals, assistant principals, aspiring leaders and other practitioners interested in improving their leadership and school reform skills. Some programming is assisted through various partnerships with school systems in Georgia. The Center is administered within the Department of Educational Policy Studies.

- **The Expert Leaders Series** is a series of professional learning opportunities that builds awareness of innovative thinking on education issues or practical strategies for school improvement. Led by visionary thinkers, researchers, and practitioners through presentations and group discussions, the series is designed to inspire principals to leadership that will create schools where all children achieve.

- **The Tool Box Series** is a series of full-day learning opportunities highlighting the work of current K-12 school practitioners and their teams in focused areas of interest. These teams share successes, challenges, and strategies that have worked for them in order to inspire others to begin or improve their own skills and expertise. This series is designed to cover subjects that are relevant, current, and of pressing interest or need in Georgia’s K-12 schools.

- **The Aspiring Leaders Institute** is designed to prepare future principals, recommended by their school districts, to become leaders of high achieving schools. Members of the institute participate in interactive learning sessions, large and small groups, and self-assessments designed to strengthen leadership skills and in the monthly program meet to study issues of race and ethnicity, culture, equity, efficacy, change, community involvement and other topics that have an impact on increasing student achievement.

- **The Beginning Principals Academy** is a one year professional development and support program for principals, in their first and second year as a school leader, under the guidance of experienced mentor principals. Members of the Academy: receive advice, guidance and support from distinguished, experienced principals; develop a broadened understanding of the instructional
leadership process, enhance their decision-making skills; learn how to transform schools into Professional Learning Communities; and expand their network of professional colleagues.

- **The Institute for Assistant Principals** is a one year professional development and support program for assistant principals, in their first or second year, under the guidance of experienced mentor assistant principals. Members of the AP Institute receive advice, guidance and support from distinguished, experienced assistant principals; develop a broadened understanding of school processes in relation to successful schools, enhance their decision-making skills; and expand their network of professional colleagues.

- **Academic Coaches Seminar Series** is designed to provide professional development for educators who are in their first, or second, year as an academic or instructional coach, or who are aspiring to this role, within a school or at central office. Members of the Seminar will engage in interactive learning sessions that model the coach/teacher relationship to foster instructional improvement and student academic achievement. The Seminar Series is led by an experienced educational leader who has a proven track record in instructional leadership.

Saturday School

367 College of Education Building
404/413-8029
http://saturdayschool.education.gsu.edu/

Saturday School for Scholars and Leaders is offered by the Department of Early Childhood Education in the College of Education and Human Development at Georgia State University. Saturday School provides a wide variety of enrichment classes for gifted students in grades K-8. Classes are held on the downtown campus during 5 sessions per year. Two 5-week sessions are held in the fall and spring semesters and one 4-week session is held each July. The director of the Saturday School is Dr. John Kesner.

Speech-Language-Hearing Clinic

8th floor, College of Education Building
404/413-8044
http://speechlanguagehearing.education.gsu.edu/

The Speech-Language-Hearing Clinic is operated by the Department of Educational Psychology and Special Education to provide practicum and experience for students in the master’s level Communication Sciences and Disorders program offered through the College of Education and Human Development. Students who are identified by faculty as needing evaluation may be referred to the clinic. Students can also receive evaluation and treatment at their own request. The director of the clinic is Dr. Debra Schober-Peterson.

**4020 Students’ Responsibilities**

Knowledge of Regulations

Graduate students must assume full responsibility for knowledge of the policies, rules, and regulations of the College of Education and Human Development and the university as well as the departmental
requirements concerning their individual programs.

It is the responsibility of the students to become knowledgeable of and to observe all regulations and procedures required by the program being pursued. In no case will a regulation be waived or an exception granted because a student pleads ignorance of the regulation or asserts that an adviser or other university authority did not inform the individual of a specific requirement. Each student should become especially familiar with the chapters of this catalog that present the academic requirements for the degree being sought, the offerings and requirements of the students’ major department, and any changes published in the online Schedule of Classes each academic term.

While the provisions set forth in this catalog will ordinarily be applied as stated, Georgia State University and the College of Education and Human Development have the right to change any provision, including but not limited to academic requirements for graduation, without actual notice to individual students. Every effort will be made to keep students advised of any such changes. Information on changes will be available in the Office of the Dean and Office of Academic Assistance and Graduate Admissions when changes are made by the College of Education and Human Development. It is especially important that each student note that it is the individual student’s responsibility to keep apprised of current graduation requirements for his or her particular degree program.

Criteria on Academic and Professional Integrity

The College of Education and Human Development is committed to upholding standards of academic and professional integrity. These standards require that students enrolled in undergraduate and graduate programs within the College of Education and Human Development adhere to both the University’s Student Code of Conduct as described on-line at http://codeofconduct.gsu.edu/ as well as their individual degree program’s Policy on Student Professionalism, Integrity and Retention. Students should contact their department for a copy of their degree program’s policy.

Continuous Enrollment

Graduate students must register for at least a total of six semester hours of course work during any period of three consecutive terms (fall, spring, summer) until completion of degree. In other words, the total enrollment of the current term plus the two terms preceding it must add to six hours or more at all times. In order to graduate, students must be actively enrolled in the program of study during the semester they finish degree requirements for graduation.

The minimum registration for the semester of completion of all degree requirements is one semester hour. This could be for a course, a special topics seminar, or thesis research, etc. If only an incomplete “I” grade is pending, the student will not have to register for the term of graduation.

In addition to this university policy, the College of Education and Human Development has a specific requirement for all Ph.D. candidates. Enrollment for a minimum of three semester hours of credit is required during at least two out of each three-term period following successful completion of the comprehensive examination until graduation. These hours of credit must include a minimum of 15 semester hours of dissertation (9990) credit but may also include other coursework. Doctoral students must be enrolled in and successfully complete three semester hours of graduate credit (typically dissertation hours) the term all degree requirements are completed. Students must be enrolled in at least three semester
hours of coursework during the academic term in which they defend the dissertation.

4030 Teacher Certification

Authority to recommend for certification rests with the dean of the College of Education and Human Development. Questions about certification and certification requirements should be directed to the appropriate department. Instructions for applying for certification can be found here: http://education.gsu.edu/student-services/office-of-academic-assistance/applying-for-certification/certification-requirements/.

Graduate admission information may be obtained from the Office of Academic Assistance and Graduate Admissions, 300 College of Education Building, 30 Pryor Street 404/413-8000 or online at http://education.gsu.edu/admissions/graduate-admissions/. Teachers interested in adding art, music, or foreign language certification should contact the College of Arts and Sciences Graduate Office, 800 Haas-Howell Building 404/413-5040. Add-on certification at the master's and specialist degree levels requires admission at the graduate level. Certification at either of these degree levels requires a grade point average of “B” or higher in the certification courses. Some programs require a grade of “B” or higher in specific courses.

4040 Office of Academic Assistance and Graduate Admissions

http://education.gsu.edu/student-services/office-of-academic-assistance/
300 College of Education Building
404-413-8000

Nancy A. Keita, Director
Stephen Mendenhall, Assistant Director, Academic Assistance
Lashawndra Vannice, Assistant Director, Graduate Admissions and Student Services
Carla Woods, Academic Advisor III
Basja Tibbs, Certification Officer

The College of Education and Human Development’s Office of Academic Assistance and Graduate Admissions serves the college’s students and applicants to its graduate programs. This office:

- Provides application information and materials;
- Receives and evaluates application materials for graduate study in the College of Education, and for the college’s undergraduate degree programs;
- Explains catalog regulations;
- Recommends candidates for certification by the Georgia Professional Standards Commission;
- Audits and clears students for graduation;
- Administers appropriate policies for the college and the university; and
- Refers students to other sources of assistance in the university.

The Office of Academic Assistance and Graduate Admissions will counsel applicants who are denied admission into the College’s graduate programs, as needed, by appointment only.
Any student or applicant needing assistance may send questions via email to EducAdmissions@gsu.edu or call 404-413-8000. Students should always provide their Panther ID # when seeking advise or assistance.

Department and Faculty Advisement

Each department in the college provides advisement and counseling to students enrolled in its graduate programs. All admitted students are assigned a faculty adviser for academic and career development, the selection of electives, and any aspect of a student’s major area of study. The initiative for contact with the faculty adviser lies with the student, who may also have ready access to other members of the faculty.

4050 Changing Major or Degree Status

Georgia State University graduate students in the College of Education and Human Development who wish to change to a different graduate major must complete a “Change of Major or Degree Status” form and supply all required admission materials for the new major. In the College of Education and Human Development, coursework completed in the previous program may be counted toward the requirements for the new major if the courses match those described in the new major’s program description and the credits meet all other College of Education and Human Development guidelines for degree completion and if the student’s new program adviser approves the use of previously earned credits toward the new program. If another college offers the new major, the students should contact the appropriate graduate office in that college for information about applying to its graduate program.

Graduate students admitted in nondegree status who wish to become admitted in a degree-seeking status must complete the online application, pay the $50 application fee, and supply all required admission materials for the new degree program. No more than nine (9) semester hours of coursework taken in a nondegree status may be applied to a master’s or doctoral program in the College of Education and Human Development. Nondegree credits may not apply to any specialist degree program.

4060 Required Change of Catalog Edition

College of Education and Human Development students (a) who reenter the university after a period of one or more years during which time they did not earn academic credit at Georgia State University or (b) who re-enroll at Georgia State University after having attended another institution in any status other than as a college-approved transient student must change to the current catalog edition, or petition with their reentry application to retain their current catalog. They must meet all requirements of the current catalog edition.

4070 Courses

Prerequisite Courses

The faculty have designated prerequisites for many College of Education and Human Development courses. Students are expected to have completed a course’s prerequisites prior to the first day of class. If students have appropriate academic and professional experience, they may ask the instructor or department to allow them to register for a course without having completed the published prerequisites.
for a course; however, the instructor and department are under no obligation to allow the students to enroll without having completed the prerequisites. In some courses, the students may be administratively withdrawn from the course if the instructor or department discovers that they have not completed the course’s prerequisites.

Separate Graduate and Undergraduate Programs

The graduate and undergraduate programs of the college are entirely separate and only those persons who have been admitted to a graduate program may enroll in courses numbered 6000 or higher.

Level of Courses

No undergraduate course credit may be applied toward any of the graduate-level program degree requirements. Undergraduate courses may be used to satisfy program prerequisites, if approved by the advisor. No course numbered 5000 to 5999 may be applied toward the requirements of any degree program offered by the college.

Only those persons who have been admitted to a graduate program may enroll in courses numbered 6000 or higher.

College of Education and Human Development courses numbered 9000 or higher are restricted to students admitted to a doctoral program. Other graduate students may be eligible to enroll with consent of the instructor.

Minimum Grade in Courses

The formal coursework requirement is satisfied through successful completion of each course in the program of study with a grade of “C” or higher. Coursework in which a grade below “C” is earned may not be applied to a program.

Directed Readings Course

A directed readings course is assigned for an individual project or readings under supervision. An application for a directed readings course is available from the Office of Academic Assistance and requires consultation with the instructor of choice to develop the topic of study, approval of the students’ adviser, and approval of the department chair of the chosen instructor’s department. Directed reading courses may not substitute for courses that are part of the regular course offerings of the college.

4080 Practicum and Student Teaching Internships

Pre-Service Certificate

All Georgia State University students who are accepted into an educator preparation program and will be completing a field placement must complete the requirements to obtain a Pre-Service Certificate from the Georgia Professional Standards Commission (which includes a criminal background check and the ethics module).
Once students are admitted to an educator preparation program, they will receive an email from the Office of Academic Assistance and Graduate Admissions with instructions on how to apply for the Pre-Service certificate. Do not apply for the Pre-Service certificate prior to admission.

**Application Deadlines**

Graduate students enrolled in initial teacher preparation programs will receive information from their department faculty regarding the process to request a field placement associated with the required courses in their program of study including the type of experience needed and application deadlines. The GSU Office of Field Placements will assist the departments by processing the paperwork required for the placements and will notify the department of the approved placements when received. Information for the Office of Field Placements can be found online at [http://education.gsu.edu/student-services/office-of-field-placements/](http://education.gsu.edu/student-services/office-of-field-placements/).

**Policies and Criteria**

Specific information regarding policies related to practicum and student teaching internship placements may be obtained from the student’s department. In addition, all students are required to contact their advisers and chair of the department in which the internship is to take place for additional criteria and specific requirements of the experience.

The practicum or student teaching supervisor has the authority to withdraw students from a classroom experience if the students’ performance constitutes a detriment to the students in the class, and if such removal is necessary, the students will be given a grade of “F” for the course. If a student is removed from their practicum or student teaching placement, it is not guaranteed that an alternate placement will be obtained for the student in the same semester which may result in delaying the students’ completion of their program.

**4090 Student Complaints, Petitions for Policy Waivers and Variances, and Appeals**

The appeals procedure for students will follow different courses of action depending on the nature of the student’s appeal. Please refer to University Information Section 1050.80 under Policies and Disclosures in this catalog or visit [http://enrollment.gsu.edu/assistance/](http://enrollment.gsu.edu/assistance/) for details.

Georgia State University seeks to maintain the highest standards of integrity and fairness in its relationships with students. The Undergraduate Catalog and the Graduate Catalog Student Code of Conduct set forth policies and requirements for Georgia State students. Students are expected to know and comply with these policies. Students may, however, seek relief or resolution when they believe that:

- The application of these policies and procedures will create undue hardship for them or will not recognize their extraordinary or extenuating circumstances; or
- Specific actions, practices, or decisions on academic or non-academic matters have been made or carried out in an arbitrary, discriminatory, or inequitable manner.
To adhere to University policy, the College of Education and Human Development has developed three forms: Petition for Admission, Petition for Waiver or Variance, and Student Petition for Resolution. Students should complete these forms and submit to the appropriate department for review. Forms are available at http://education.gsu.edu/student-services/forms-policies-regulations/.

Petition for Admissions

Applicants denied admissions who wish to appeal an admission decision or who desire a request for exception should complete the Petition for Admission Form available in the College of Education and Human Development Office of Academic Assistance and Graduate Admission.

Petition for Waiver or Variance

Any student in the College of Education and Human Development may petition for a waiver or variance of established policy, procedure, rule, or guideline governed by the college. This form should be used for requests of substitutions of required courses, waivers of college policies governing graduate students, or waivers of college policies governing doctoral students. The Student Petition for Waiver or Variance form must be submitted by the end of the term prior to the term in which the exception is needed. The form can be found at http://education.gsu.edu/student-services/forms-policies-regulations/.

Student Petition for Resolution

Students are encouraged to discuss academic or non-academic problems or grade concerns with the instructor prior to filing a formal petition, in an effort to gain understanding about the basis of the treatment or grade. If the issue is not resolved informally, students should complete the Student Petition for Resolution process. The form can be found at http://education.gsu.edu/student-services/forms-policies-regulations/.

4100 Academic Discipline

Scholastic Warning

Graduate students whose cumulative grade point average (GPA) falls below a 3.00 at the end of a term or who fail to maintain the level of academic performance required by the department of their major will be placed on scholastic warning. GPA will be calculated based on all attempts at courses numbered 6000 or higher and will include any such courses whether or not they are required in the students’ program of study. The original grade in a course that has been repeated is not dropped from the cumulative GPA for purposes of determining academic standing. Upon completion of the subsequent term of required coursework, if the cumulative GPA is at least 3.00, then the students will return to good standing.

Students who wish to take a course or courses for personal enrichment or for other purposes not related to pursuit of a degree or certification program may audit those courses unless he or she wishes to have grades from that course or courses included in the cumulative grade point average for academic standing purposes.

Graduate students on scholastic warning whose GPA is not at least 3.00 upon completion of the subsequent term of required coursework but whose latest term’s grade point average is at least 3.00 will remain on
scholastic warning until the cumulative grade point average of 3.00 is achieved. At that time, the students will return to good standing. Students may not graduate while on scholastic warning.

Scholastic Suspension

Graduate students on scholastic warning whose grade point average is not at least 3.00 and whose latest term’s GPA is not at least 3.00 will be suspended from the university for one academic term. During the term of suspension, the students may petition for readmission by completing a Petition for Readmission After Scholastic Suspension form and a reentry form and submitting them to the Office of Academic Assistance and Graduate Admissions (300 College of Education Bldg) by the following deadlines:

- To reenter Fall Semester August 1
- To reenter Spring Semester December 1
- To reenter Summer Semester April 1

There is no guarantee that students will be readmitted.

Scholastic Probation

Students who are reinstated after scholastic suspension will be on scholastic probation. If the students’ graduate grade point average for any term following reinstatement falls below 3.00, the students will be scholastically excluded from the College of Education and Human Development. If the students’ cumulative GPA is less than 3.00, they will be given 12 semester hours in which to raise the cumulative grade point average to at least 3.00.

Scholastic Exclusion

Students may be scholastically excluded from the College of Education and Human Development for one or more of the following three reasons:

1. The students completed an academic term in which they did not earn a term GPA of at least 3.00 while they were on academic probation.
2. The students did not achieve or maintain a cumulative graduate GPA of at least 3.00 by the end of the first 12 semester hours completed following reinstatement.
3. The students failed to maintain the level of academic performance required by the department of their major.

Students scholastically excluded from the College of Education will not be admitted to any College of Education and Human Development program and may never enroll in any College of Education and Human Development course offerings.

4110 Graduate Admissions

All documents and other materials submitted by or for persons in connection with their interest in consideration for admission to a program become the property of this institution and cannot be returned at any time. It is the responsibility of each applicant to follow the application procedures completely and
correctly and to be certain that all materials have been submitted to the Office of Academic Assistance and Graduate Admissions by the application deadline. Incomplete application files will not be reviewed until complete.

Admission is for entry in a specific major and concentration, when appropriate. Students who have been admitted to a graduate degree program may not change to a different major without receiving formal approval of an application for the new major. The applicant must meet all College of Education and Human Development and departmental minimum criteria and all prerequisites for the new major.

General Application Procedures and Information

Applications for graduate study are available online at http://education.gsu.edu/admissions/graduate-admissions/. The University requires applicants who have a criminal or disciplinary history to complete a background review. Please refer to section 1100 Graduate Admissions for details.

Applications and supporting materials must be filed with the Office of Academic Assistance and Graduate Admissions at the addresses listed at http://education.gsu.edu/admissions/graduate-admissions/ well in advance of the desired term of entry. Each applicant must allow adequate lead-time for admissions processing. International applicants should refer to the “International Applicant Admission” section of this chapter for additional admissions information.

Application deadlines vary by program. Please check the application completion date for your degree program of interest at to http://education.gsu.edu/admissions/graduate-admissions/graduate-degree-programs-application-completion-deadlines/or for your nondegree program of interest at http://education.gsu.edu/admissions/graduate-admissions/non-degree-program-application-completion-deadlines/. The closing dates for receipt of applications and all supporting documents for each of the academic terms are listed in the information about each degree program. Materials submitted are not returned to the applicant and are not transferable to other institutions.

College of Education and Human Development Policy on Admissions

A person seeking to pursue any of the programs of graduate study described in this section of this catalog must be admitted to Georgia State University through the College of Education and Human Development. The requirements for admission stated in the following sections are those established by the University and the College. Additional requirements, if any, established by the separate departments/schools can be found in the descriptions of their programs and on their respective websites.

Visit the admissions section of the Office of Academic Assistance and Graduate Admissions website for detailed information on college requirements, program requirements, and deadlines at http://education.gsu.edu/admissions/graduate-admissions/.

Admission is based upon a variety of factors among which is the quality of the applicant’s undergraduate record (and graduate record if appropriate), achievement on required admissions tests, the degree of preparation for the specific academic program to be pursued, and available space in the program. In addition to these general criteria, individual departments may consider additional factors in making admission decisions.
Each applicant must complete and submit the online application for admission to graduate study, required application materials, and the non-refundable $50.00 application fee.

All applicants must submit the following items and meet stated college minimum criteria:

1. Two official transcripts (just one official transcript if submitting electronically through eSCRIPSAFE or Parchment) from each college or university, domestic or overseas, from which they received a degree, or where they were enrolled in undergraduate or graduate level coursework. This may include courses taken in non-degree status, in transient status, or in post-baccalaureate status and is regardless of whether or not the courses led to a degree or are listed on another institution’s transcript.

2. Applicants must hold a degree from a regionally accredited college or university with a major in or with coursework that meets prerequisites for the planned graduate field of study.
   a. Applicants must have earned a grade point average of no less than 2.50 calculated on all undergraduate work attempted in which letter grades were awarded. Individual programs may have a higher standard.
   b. Applicants for the Specialist in Education (Ed.S.) programs must hold a graduate degree from a regionally accredited college or university unless specified otherwise by the program and have a grade point average of no less than 3.25 on all graduate coursework for which letter grades were awarded.
   c. Applicants for the Doctorate of Philosophy (Ph.D.) programs must have a grade point average of no less than 3.30 on all graduate coursework for which letter grades were awarded.

3. Copies of scores on the General Test of the Graduate Record Examination (GRE). Test scores must be from an examination taken within the last five years prior to the term of admission of the program. In addition to these copies, the applicant must have records of the scores directed specifically to Georgia State University (use University code only; do not use a department code) from their testing agencies. Some departments also require a minimum score or percentile on the Graduate Record Examination. Some programs accept the Miller Analogies Test in lieu of the GRE.

4. Applicants who plan to complete a program for initial teacher certification, along with those who apply to programs that require it, must present passing scores on the GACE Program Admission Assessment (formerly called Basic Skills Assessment) or qualify for exemption. The GACE Program Admissions Assessment can be exempted based on certain scores from the GRE, SAT, or ACT.

5. Applicants who plan to complete a program for initial certification must complete the Georgia Educator Ethics – Program Entry (350) Assessment. Completion of this assessment is required for admission, though there is no “Pass/Fail” grade assigned.

6. Any supplemental application materials required by the major department. Programs may have additional application requirements.

The above list is a general guide. Applicants should visit the Office of Academic Assistance and Graduate Admissions web site at http://education.gsu.edu/admissions/graduate-admissions/ and the individual websites of the department/program of interest to discover the full list of materials required.

Admissions Appeals and Requests for Exceptions to Admissions Criteria

Applicants denied admission who wish to appeal an admission decision or who desire a request for exception should complete the Petition for Admission Form. Contact the Office of Academic Assistance
and Graduate Admissions for more information and the form.

Reentry

A reentry student is one who has been enrolled at Georgia State and who meets at least one of these criteria:

- has not registered for courses at Georgia State during any of the previous three semesters.
- has been on scholastic suspension after an absence of one calendar year.
- has been on scholastic exclusions after an absence of five or more years. (undergraduate students only)
- has attended any semester as a transient and wishes to attend an additional term. (undergraduate students only)

Application Procedures for Reentry

The Reentry Application is available online at http://education.gsu.edu/admissions/graduate-admissions/instructions-for-reentry-into-a-graduate-program/. Students will need to submit a $25.00 application fee with their applications. Reentry students who are accepted but do not attend the semester in which they were admitted must contact the Office of Academic Assistance and Graduate Admissions if they wish to attend the succeeding semester.

Reentry admission is not automatic. A student must reenter the program into which he or she was most recently admitted, and he or she must be able to meet all current admissions criteria for that program. Some graduate programs do not accept reentry students. Students interested in one of these programs must complete a new graduate application and follow the application procedures for that program. Students who have not registered for one calendar year or more must satisfy the degree requirements of the graduate catalog in effect at the time of reentry. If their academic program no longer exists at the time of reentry, they may not reenter but instead apply for a new degree program.

International and Immigrant Status Applicant Admission

It is the policy of Georgia State University to encourage the enrollment of students from other countries. The university subscribes to the principles of international education and to the basic concept that only through education and understanding can mutual respect, appreciation, and tolerance of others be accomplished. The recognition of the values of cultural exchange is grounded in our philosophy of education and is predicated on an awareness of the need to foster better cooperation, friendship, and understanding among the peoples of the world. In this regard, we welcome international students to our campus because we believe such a cultural exchange will be beneficial to our entire student body, to our international students in particular, and to metropolitan Atlanta.

Georgia State reserves the right to admit only those international applicants who are academically qualified. Applicants needing a student visa are required to document the availability of funds equal to the estimated cost of the first academic year at Georgia State before a certificate of eligibility will be issued.

International students applying from abroad must have application, fees, and supporting documentation on file in the Office of Admissions approximately three months prior to the beginning date of the academic term for which they seek admission.
International students with a student visa are required to carry a full course of study in each academic term excluding summer. A full course of study at Georgia State is nine semester hours for graduate students.

In addition to meeting the regular admission requirements, prospective international and immigrant status applicants who come from non-English speaking countries must demonstrate proficiency in the English language by taking the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) test. The TOEFL or IELTS are not required for an applicant holding a degree from a U.S. college or university or whose native language is English.

Prior to registration for the first term, each international student is required to attend an international student orientation offered by International Student and Scholar Services.

The College of Education and Human Development reserves the right to test international applicants with regard to their skills in English. Accepted applicants will be notified if any testing is required.

Academic credentials must be original documents with authoritative signatures, seals, and/or stamps. Whenever possible, these should be sent by the institution responsible for issuing such documents. In cases where it is impossible for an applicant to have those credentials sent from such institutions, the applicant should forward a duly “notarized” or “attested to” copy. The notarization should be done by the proper institutional officer or by the Ministry of Education in the home country. Documents in a language other than English must be accompanied by translations. The home country embassy or an appropriate official should make translations, and the original copies of the translations, acceptably notarized as described above, must be provided. As a general rule, documents translated by the Office of the American Friends of the Middle East (AFME) or the Institute of International Education (IHE) will be acceptable.

The application materials of foreign origin of all international and immigrant status applicants must be evaluated and judged equivalent by an independent evaluation service. Georgia State University accepts course-by-course evaluations from the Josef Silny and Associates and Educational Credential Evaluators (ECE). The evaluations must come directly from the service.

Transient (Visiting) Student Admission

Students enrolled as regular students in a degree program in another accredited college or university may apply to register for a particular academic term at Georgia State University as transient (visiting) students. Such students are ones who expect to return to the college or university in which previously enrolled and must have permission from that institution to attend Georgia State University. Although the university cannot guarantee the availability of specific courses for transient students nor assume responsibility for advisement, every effort will be made to assist students unfamiliar with the university. Visiting student admission is valid for one term only. Enrollment in subsequent terms requires a new application. Visiting student status is limited to nine semester hours of credit.

Applicants desiring to enroll as transient students must submit the following materials to the Office of Academic Assistance and Graduate Admissions, College of Education and Human Development, Georgia State University, 30 Pryor Street, Suite 300, Atlanta, GA 30303 by the deadline date listed in the Transient section at http://education.gsu.edu/wp-content/blogs.dir/92/files/2013/08/Transient_ApplicationP.pdf : (1) Graduate Transient Student Application, (2) a nonrefundable application fee of $50.00, and (3) a “Letter of Good Standing” sent directly to the Office of Academic Assistance and Graduate Admissions
from the institution the applicant is currently attending, indicating the specific Georgia State University course(s) being approved. The Letter of Good Standing should be addressed to Director, Nancy Keita, at the above address.

Georgia State University students currently pursuing degree programs in the College of Education and Human Development and seeking transient (visiting) status at another institution must first secure permission from their academic advisor. Once permission is secured, the Office of Academic Assistance and Graduate Admissions provides a letter of good standing for the student.

Admission for Persons 62 Years of Age or Older

Pursuant to the provisions of an amendment to the Georgia Constitution adopted November 2, 1976, the Board of Regents of the University System of Georgia has established rules with respect to enrollment of persons 62 years of age or older. To establish eligibility for such enrollment, one must:

- Be classified as a resident student under the residency regulations of the Board of Regents; be 62 years of age or older at the time of registration; and present a birth certificate or other comparable written documentation of age to the residence auditor, and
- Meet all regular Georgia State University admissions requirements as an entering undergraduate, transient, or graduate student.

Having established eligibility, individuals may enroll as regular students, for regular credit, in courses offered for resident credit on a “space available” basis without payment of fees, except for supplies or laboratory fees. In addition, students under this program will have all usual student and institutional records maintained. These students must meet all regular, appropriate degree requirements before receiving a degree.

Admission Decisions and Notifications

Admission decisions are based upon official transcripts of all prior college-level work, official results of standardized tests, and other pertinent sources of information. The College of Education and Human Development reserves the right to investigate the health, character, and personality of each applicant.

Admission decisions are securely posted online and communicated in writing to applicants as soon as practical after all application materials have been received and evaluated. Admission decisions cannot be given by telephone, nor can they be given to any person other than the applicant without a written release from the applicant to do so.

Changing Term of Entry

Admission is for the specific academic term the applicant indicates on his or her application unless otherwise indicated by the acceptance letter. An accepted applicant who does not attend the academic term for which acceptance has been granted may reactivate his or her application for up to two academic terms immediately following the original academic term of acceptance, provided the program being applied for admits new students during at least one of those terms. Some programs only admit students one term during the academic year; therefore, postponing enrollment delays beginning the program by a calendar year. In this case, the applicant may not reactivate the application, but must submit a new online
application instead (in keeping with university requirements for residency status verification). The applicant must meet current admission criteria and may also be required to resubmit supporting materials.

A written request for reactivation is required. Address the request to Graduate Admissions, Office of Academic Assistance and Graduate Admissions, Attn: Director. Admission for a subsequent term is not automatic or guaranteed.

Deadlines for notification to change entry term are as follows:

- Fall Semester August 1
- Spring Semester December 1
- Summer Semester April 1

If the deadline falls on a weekend or on a university holiday, requests to change term of entry will be accepted until the end of the next business day following the deadline.

Retention of Records

If an applicant fails to complete enrollment for the term in which admission was sought, the application must be renewed, and submission of such additional credentials and information as may be requested by the Office of Academic Assistance and Graduate Admissions will be required. Application files are retained for a maximum of one year.

Any student who earns credit in a master’s or specialist level program and later become inactive may be required to reestablish his or her file. The Office of the Registrar will maintain a transcript of graduate credit earned at Georgia State University indefinitely.

**4120 Master’s Degree Regulations**

**Dual Enrollment Admission**

A dual enrollment option is available for master’s students who wish to earn simultaneously a Master of Science with majors in educational research and mental health counseling. Only these two majors may be combined in this manner. A description of program requirements for the Educational Research/Mental Health Counseling program is provided following the program description for the master’s program in Educational Research later in this chapter.

Dual enrollment applicants to the M.S. major in educational research and the M.S. major in mental health counseling must meet all entrance requirements and follow the application procedures for each of the separate majors. Participation in the dual enrollment program is contingent upon students being admitted to both majors prior to completion of either program and approval of the program director, Dr. William L. Curlette. Students who apply simultaneously for both majors but who are admitted to only one will be admitted to that major and may reapply for the other by the deadline for a subsequent academic term.

**Concurrent Master’s/Ed.S. Admission**
Applicants for the Master of Education degree in School Counseling may be considered for concurrent admission to the Specialist in Education degree with the same major. The applicant must meet the minimum admission requirements as listed in the “Specialist Programs” section of this chapter. Admission to these programs is concurrent; however, completion of degree requirements occurs sequentially.

Applicants for the Master of Education degree with a major in school psychology must concurrently apply for the Specialist in Education degree with the same major. Completion of both the M.Ed. and Ed.S. in School Psychology can lead to recommendation for initial certification in School Psychology in the State of Georgia. Admission to these programs is concurrent; however, completion of degree requirements occurs sequentially.

Concurrent Master’s/Ph.D. Admission

At the time of admission to the doctoral program in Educational Psychology students entering without a master’s degree in a related field are expected to enroll concurrently in the M.S. and Ph.D. programs. The applicant for concurrent Master’s/Ph.D. admission must have an undergraduate grade point average of 3.30 and meet the relevant admission requirements listed for the doctoral program in Educational Psychology.

Those applying to the doctoral program in School Psychology may apply for admissions after having successfully completed a bachelor’s degree with a major in psychology, education or a related field; a master’s degree in a related field; or a specialist degree in a related field. Those applying with a bachelor’s degree must have an undergraduate GPA of 2.5. Those applying with a master’s degree must have a GPA of 3.3. Students admitted to concurrent enrollment will not be eligible to advance to doctoral candidacy until they have successfully completed the master’s degree.

Multiple Master’s Degrees

Students who hold a degree from the College of Education and Human Development may qualify for a different master’s degree of this college. To qualify, they must meet all admission requirements for the second degree and thereafter fulfill all requirements for the second master’s degree. Along with all other requirements, the students must have received satisfactory credit for a minimum of 27 semester hours of coursework that have not been applied to satisfy the requirements of any other degree.

Minimum Requirements for All Master’s Degrees

1. Students must earn a cumulative grade point average of 3.00 calculated on all graduate coursework attempted at Georgia State University. The formal coursework requirement is satisfied through successful completion of each course in the program of study with a grade of “C” or higher.
2. Coursework in which a grade below “C” is earned may not be applied to the master’s programs.
3. Some departments require a grade of “B” or higher in specific courses and program areas. Students are responsible for contacting their departments regarding specific academic requirements that exceed college-wide minimums.
4. A minimum of 36 semester hours of coursework is required.
5. Students must take a minimum of 27 semester hours of coursework at Georgia State University.
6. No coursework may be more than six calendar years old at the time of graduation except for coursework applied to the degree requirements in Mental Health Counseling, Clinical Rehabilitation.
Counseling, School Counseling, or School Psychology, which may be no more than seven calendar years old.

7. Each student must meet the comprehensive examination (exit) requirement of his or her program.

**Exit Requirement**

All master’s-degree students must successfully complete an exit requirement in at least one of the following ways as determined by program faculty:

1. Students successfully complete a written comprehensive examination which can be taken only after they have completed at least 27 semester hours of coursework in his or her program and which must be passed within three attempts. Students who do not pass their comprehensive examinations after three attempts will be scholastically excluded from the College of Education and Human Development master’s degree program for which they were being examined.

2. Students complete and defend a project, portfolio, or thesis.

**Electronic Master’s Theses and Doctoral Dissertations Policy**

In order to insure that all master’s theses and doctoral dissertations produced at Georgia State University are captured, preserved, and appropriately made available, the University requires all students who produce a master’s thesis or doctoral dissertation in fulfillment of his/her degree to upload the final version of these documents to ScholarWorks@Georgia State University as a condition of the award of the degree.

**4125 Creative and Innovative Education (M.A.)**

**Master of Arts in Creative and Innovative Education**

Department of Early Childhood and Elementary Education
550 College of Education Building, 404/413-8020
http://ece.education.gsu.edu/
Barbara Meyers, Chair

The M.A. in Creative and Innovative Education is designed for people who wish to further their knowledge about children as creative thinkers and innovative makers. With this degree, individuals working in diverse fields and industries such as K-12 education, the creative arts, business, non-profits, and community outreach organizations can extend their knowledge about children’s development and learning with a focus on supporting children’s creativity. Geared for graduate students wanting to work with children in either in- or out-of-school settings, our program allows students to apprentice with community businesses and organizations and to take electives in business, policy, education, and the arts and sciences.

**Program Degree Requirements**

**Master of Arts in Creative and Innovative Education**

**Professional Studies (6)**
- ECE 7930 Research and Theories of Creative Learning (3)
- ECE 9850 Research Seminar in Early Childhood and Elementary Education (3)

**Major Courses (18)**

- ECE 7760 Invent to Learn (3)
- ECE 7800 Capstone (3)
- ECE 7850 Apprenticeship in Creative and Innovative Education (3)
- ECE 7960 Seminar Series (3) (Students will take 1 credit hour for 3 semesters.)
- ECE 8021 Child Development and Beyond (3)
- ECE 8100 Children in Society (3)

**Electives (12)**

Students will select four electives (12 hours) from Georgia State University colleges and schools to fulfill one of the following pathways:

Educational Entrepreneurship and Business
Educational Non-profit Leadership
Arts (including digital arts) Integrated Curriculum Design
Educational Creatives (musicians, visual artists, performers, etc.)

Students’ elective choices must be approved in advance by the faculty advisor for the CIE program.

Examples of possible electives include:

- AE 6200 Art of Preschool Through Fifth Grade (3)
- AE 6400 Media, Technology, and Visual Presentation (4)
- AE 6600 Art Education Practicum (4)
- COMM 8790 Seminar in Public Communication (3)
- MBA 8145 Marketing Management (3)
- MK 8100 Buyer Behavior (3)
- MK 8200 Marketing Research (3)
- MUS 7400 Foundations of Music Education (3)
- MUS 7560 Organization & Development of Instrumental Music in Schools (3)
- MUS 7700 Psychology of Music Learning (3)
- MUS 8260 Curriculum and Assessment in Music Education (3)
- PMAP 8010 Social Policy (3)
- PMAP 8111 Public Service and Democracy (3)
- PMAP 8161 Public Budgeting and Finance (3)
- PMAP 8171 Management Systems and Strategies (3)
- PMAP 8201 International Nongovernmental Organizations (3)
- PMAP 8203 Nonprofit Advocacy, Law, and Policy (3)
- PMAP 8210 The Nonprofit Sector (3)
- PMAP 8213 Financing and Resource Development for Nonprofit Organizations (3)
- PMAP 8223 Nonprofit Human Resources (3)
- PMAP 8232 Social Enterprise (3)
- PMAP 8261 Nonprofit Financial Management (3)
- PMAP 8431 Leadership and Organizational Behavior (3)
Other appropriate courses may be selected with the approval of advisor.

Any changes in the program of study listed above must be approved by the faculty advisor and a copy of the changes sent to the College of Education and Human Development Office of Academic Assistance and Graduate Admissions.

Program Total: minimum of 36 semester hours

4130 Early Childhood Education (M.A.T.)

Master of Arts in Teaching (M.A.T.) in Early Childhood Education

Department of Early Childhood and Elementary Education
550 College of Education Building, 404/413-8020
http://ece.education.gsu.edu/
Barbara Meyers, Chair

The M.A.T. in Early Childhood Education in the Department of Early Childhood and Elementary Education at Georgia State University is an opportunity for post baccalaureate provisionally certified practicing teachers of record or other PK-5th grade classroom-based educators to work toward a graduate degree concurrent with their studies toward elementary teaching certification (grades Pk-5). This cohort based program encourages authentic collaboration around learning, teaching, and advocacy with colleagues similarly committed to pedagogical excellence and equitable educative opportunities for all children.

This five semester program has been intentionally designed to seamlessly link theory, content and practice across all courses. The M.A.T. Early Childhood Education Program of Study aims to promote relevancy, interconnectedness, and applicability for beginning teachers of record. Coursework has been carefully constructed in order to support novice teachers as they work in urban high needs schools in the metro Atlanta area, preparing teachers without previous coursework in education not only to meet the needs of the students they serve, but also to address the challenges in their urban school contexts. To support beginning teachers of record during the vulnerable induction phase of teaching, the M.A.T. emphasizes a scaffolded, developmental, and responsive coaching model over two academic years. Faculty/coaches provide an instructional bridge for beginning teachers as they learn to connect course content and effective pedagogical practices to their own classrooms.

Students who successfully complete the entire program of study and program requirements (44 credit hours of graduate coursework and the successful completion of EXC 4020 or its equivalent) receive a M.A.T. in Early Childhood Education and will be recommended by GSU for a clear renewable certificate (grades PK-5). In the case that students elect to only receive the certification and not complete the Master’s Degree, all coursework and program requirements indicated for certification only on the Program of Study (35 credit hours) must be successfully completed. Due to the permeable and iterative design of the program, all courses must be taken in sequence beginning in the fall.

Program Admission

Admissions criteria help to ensure that candidates are prepared for the rigorous curriculum requirements of
the graduate program.

Candidates must meet all admission requirements of the College of Education as stipulated on the Office of Academic Assistance and Graduate Admissions web site located at http://ece.education.gsu.edu/academics-and-admissions/graduate-admissions/.

Candidates who are considered for the M.A.T. Early Childhood Education program must meet the following criteria prior to program entry:

- undergraduate degree from an accredited college or university
- undergraduate GPA of 2.75 or higher
- official scores on the Graduate Record Exam (GRE) from the past five years
- passing scores on the GACE Program Admission Assessment or exemption from this test based on GRE, SAT, or ACT scores.
- complete the Georgia Educator Ethics – Program Entry (350) Assessment.
- Candidates must also submit academic or professional letters of recommendation.

Program Academic Regulations

Students must post passing scores on the GACE Content Assessment, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA in order to be recommended by Georgia State University for clear, renewable certification.

Program Degree Requirements

Master of Arts in Teaching in Early Childhood Education

Professional Studies (9)

Select one (3):

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)
- EPRS 7920 Classroom Testing, Grading, and Assessment (3)

Required (6):

- EPSF 7100 Critical Pedagogy (3)
- EPY 7090 The Psychology of Learning and the Learner: The Young Child (3)

Content Courses of Teaching Certification In Early Childhood Education

Required (23):

- ECE 6361 Responsive and Student Centered Pedagogy (3)
- ECE 6390 Foundations of Learning and Teaching Mathematics (2)
- ECE 6576 Integrative and Iterative Curriculum Design (6)
- ECE 6586 Advocating for Students through the Descriptive Review of the Child (3)
• ECE 6587 Language and Literacy Development (3)
• ECE 7393 Number and Operation in the Elementary Classroom (3)
• ECE 7576 Teacher Inquiry for Critical Change (3)

Advanced Courses for Endorsement/Specialization (3)
Select three credit hours:

• Courses should be selected from the list of recommended electives after consultation with advisor. Acceptable Prefixes include: CPS, ECE, EPY, EPSF, EDRD, EDLA, TSLE, EXC, EPEL, and EPRS. All courses elected must be at the 6000, 7000, or 8000 level. Courses with other prefixes may be selected with consent of advisor.

Internships (9)

• ECE 4650 Opening School Experience (0)
• ECE 6575 Beginning Teachers of Record as Reflective Practitioners I (2)
• ECE 6585 Beginning Teachers of Record as Reflective Practitioners II (2)
• ECE 7575 Induction Teachers as Change Agents I (2)
• ECE 7585 Induction Teachers as Change Agents II (3)

Students must complete all Professional Studies and Content courses with a grade of “C” or higher and Internship courses (ECE 6575, ECE 6585, ECE 7575, and ECE 7585) must be completed with a “B” or higher in order to continue with the cohort. All courses in the ECE M.A.T. must be taken in sequence.

Students must complete EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3) or its equivalent to be eligible for recommendation for certification in addition to the program of study requirements.

Program Total: minimum of 44 semester hours

Students in this program will be eligible to be recommended for Georgia initial certification after earning passing scores on the GACE Program Admission Assessment, GACE Content Assessment for Early Childhood Education, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA and successfully completing:

• EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (or its equivalent) and EPY 7090
• The content courses of teaching certification in Early Childhood Education: ECE 6361, ECE 6390, ECE 6576, ECE 6586, ECE 6587, ECE 7393, ECE 7576.
• The internship courses: ECE 4650, ECE 6575, ECE 6585, ECE 7575, ECE 7585.

4140 English Education (M.A.T.)

Master of Arts in Teaching (M.A.T.) in English Education
The Master of Arts in Teaching (M.A.T.) in English Education provides initial teacher preparation for individuals holding bachelor’s degrees in English.

Program Admission

All applicants must meet the College of Education’s requirements for admission to graduate study. Additional admission requirements specific to this program include:

- An undergraduate or graduate degree in English or the equivalent from a regionally accredited college or university (Coursework must have included at least 24 semester hours of upper-division or equivalent acceptable credit in English content, including a minimum of three semester hours in each of the following areas: American literature, British literature, written composition, and history or structure of the English language.)
- Two letters of recommendation as follows: (a) one academic or professional letter; (b) one letter from someone who can evaluate the applicant’s personal qualifications, experience, and background in light of potential to work successfully with adolescents, or (c) one letter from a current work supervisor (if applicable).
- Documentation of previous work experience (resume).

Program Academic Regulations

The M.A.T. program is a carefully sequenced program. Students who do not follow the prescribed program sequence will be withdrawn from the program and may reapply to enter the next program cycle.

Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Each student is advised by a committee consisting of faculty from the College of Arts and Sciences and faculty from the College of Education and Human Development. Exit requirements for this program are:

- Completion of all program coursework with a grade point average of no less than 3.00,
- Successful completion of the teaching internships with a grade of “B” or higher, and
- Successful presentation of a professional portfolio.

Students in this program will be eligible to be recommended for Georgia initial certification after earning passing scores on the GACE Program Admission Assessment, GACE Content Assessment for English, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA, and successfully completing:

- All content courses recommended for each individual by MSE and Arts and Sciences faculty upon admission to the program;
Students must complete EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3) or its equivalent to be eligible for recommendation for certification in addition to the program of study requirements;

- EPY 7080, The Psychology of Learning and Learners (3), and
- EDCI 6600, Introduction to Secondary Teaching (3); EDCI 4650 Opening School Experience; EDCI 7660, Practicum I (3); EDCI 7670, Practicum II (3); EDCI 7680, Practicum III (3); EDLA 6550, Principles of English Instruction (3); EDLA 7550, Theory and Pedagogy of English Instruction (3); and EDRD 7630, Literacy in the Content Areas (3); and
- Successful presentation of a professional portfolio.

Program Degree Requirements

Master of Arts in Teaching in English Education

**Professional Studies (9)**
Select one (3):

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)

Select one (3):

- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)

Required (3):

- EPY 7080 The Psychology of Learning and Learners (3)

**Teaching Field/Major (27)**
Required (12):

- EDCI 6600 Introduction to Secondary Teaching (3)
- EDLA 6550 Principles of English Instruction (3)
- EDLA 7550 Theory and Pedagogy of English Instruction (3)
- EDRD 7630 Literacy in the Content Area (3)

**Elective in the Teaching Field/Major (3)**
Select One Course (3):

- EDLA 7150 Children’s and Adolescent’s Literature (3)
- EDLA 7440 Theory and Pedagogy in the Study of Literature (3)
- EDLA 7460 Theory and Pedagogy in the Study of Writing (3)
- EDLA 7480 Theory and Pedagogy in the Study of the English Language (3)
- EDRD 7360 Literacy and Digital Media (3)
Select Advanced Studies in English or Folklore (12)

- In consultation with an advisement committee, students select coursework numbered 6000 to 8999. The coursework should lead to the development of an understanding of the history, philosophy, conceptual underpinnings, and applications of English in secondary education.

Internship (9)
Required (9):

- EDCI 4650 Opening School Experience (0)
- EDCI 7660 Practicum I (3)

- EDCI 7680 Practicum III (3)

Program total: minimum of 45 semester hours

4145 English to Speakers of Other Languages Education (M.A.T.)

Master of Arts in Teaching (M.A.T.) English to Speakers of Other Languages (ESOL) Education

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

The Master of Arts in Teaching major in English to Speakers of Other Languages (ESOL) Education provides initial teacher preparation in ESOL for individuals holding bachelor’s degree and who have an interest in English to speakers of other languages in K-12 settings. The course of study meets the requirements for professional certification at the initial level in ESOL and the requirements for a Reading Endorsement.

Program Admission

All applicants must meet the College of Education and Human Development’s requirements for admission to graduate study. Additional requirements specific to this program include:

- An undergraduate or graduate degree or the equivalent from a regionally accredited college or university.
- The academic preparation of applicants should include the coursework listed below. Students may be admitted to the program and allowed to complete their academic preparation concurrently. Academic preparation must be completed prior to recommendation for certification.
- Characteristics and Instructional Strategies for Students with Disabilities (EXC 4020 or its equivalent)
- Students must meet a language requirement that is intended to ensure that all graduates have had the experience of studying a second or foreign language. This requirement can be met in one of the following ways:
  - Successful completion of one academic year of a university-level foreign language sequence (three quarters or two semesters of the same language), or
  - Successful completion of two quarters or one semester of a non-Western language, or
  - One year living/studying abroad as an adult, or
  - The acquisition of English as a second language for non-native English speakers.
- Two letters of recommendation as follows: (a) an academic or professional letter, (b) a letter from someone who can evaluate the applicant’s personal qualifications, experience, and background in light of the potential to work successfully with students at the K-12 levels, or (c) a letter from a current work supervisor (if applicable).
- Documentation of previous work experience (resume).

Program Academic Regulations

The M.A.T. program is a carefully sequenced program. Students who do not follow the prescribed program sequence will be withdrawn from the program and may reapply to enter the next program cycle.

Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Each student is advised by a committee of education faculty including representatives from the Department of Middle and Secondary Education and the Department of Applied Linguistics. The committee and the students complete a planned program of study in light of the needs of individual students. Exit requirements for this program are:

- Completion of all program coursework with a grade point average of no less than 3.0.
- Successful completion of the teaching internships with a grade of “B” or higher.
- Successful presentation of a professional portfolio.

Students in this program will be eligible to be recommended for Georgia initial certification after earning passing scores on the GACE Program Admission Assessment, GACE Content Assessment for Teaching English as a Second Language, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA, and successfully completing:

- EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (or its equivalent) and EPY 7080.
- AL 8240, TSLE 7250, TSLE 7260 or AL 8330, TSLE 7440, AL 8460, AL 8470, EDRD 7600, EDRD 7630, EDRD 7650, EDCI 4650, EDCI 7660, EDCI 7670, and EDCI 7680.
- Presentation of a professional portfolio.

4146 English to Speakers of Other Languages Education (M.A.T.) Online
The online program in M.A.T. major in English to Speakers of Other Languages (ESOL) Education is offered through the Georgia ONmyLINE (GOML) system. GOML provides access to a full array of online and distance education offerings from the 31 colleges and universities in the University System of Georgia. To find out more about GOML and to apply, please go to http://education.gsu.edu/online-education/.

The M.A.T. major in English to Speakers of Other Languages (ESOL) Education Online Program provides initial teacher preparation in ESOL for individuals holding bachelor’s degree and who have an interest in English to speakers of other languages in P-12 settings. This program addresses the needs of teachers who work with literacy learners from diverse cultures. Although these teachers can have an undergraduate degree in any area, they must have had experience learning a second language. Candidates who are not currently working with P-12 ESOL students will need to work with the Office of Field Placement staff in consultation with the program advisor to help arrange field placements. The ESOL course of study is designed to meet the requirements for professional certification at the initial level in ESOL and the requirements for a Reading Endorsement.

The M.A.T. ESOL Education online program is 45 hours (9 hours of college core courses; 9 hours English as a Second Language; 9 hours reading endorsement; 9 hours of applied linguistics; 9 hours of practicum). Entry into the program could begin in any semester; however, applicants are required to take TSLE 7440 prior to enrolling in practicum hours, and EDRD 7600 or EDRD 7630 prior to enrolling in EDRD 7650. Consequently, M.A.T. students (who are required to complete a year-long fall/spring practicum) could enroll in summer and complete the program in a minimum of 4 semesters; otherwise, the program would take a minimum of 5 semesters. This degree addresses the professional standards from IRA for classroom teachers of reading and from TESOL for teachers of ELL learners.

Program Academic Regulations

Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Each student is advised by a committee of education faculty including representatives from the Department of Middle and Secondary Education and the Department of Applied Linguistics. Exit requirements for this program are:

- Completion of all program coursework with a grade point average of no less than 3.0.
- Successful completion of the teaching internships with a grade of “B” or higher.
- Successful presentation of a professional portfolio.
Students in this program will be eligible to be recommended for Georgia initial certification after earning passing scores on the GACE Program Admission Assessment, GACE Content Assessment for Teaching English as a Second Language, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA, and successfully completing:

- EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (or its equivalent) and EPY 7080.
- AL 8240, TSLE 7250, TSLE 7260 or AL 8330, TSLE 7440, AL 8460, AL 8470, EDRD 7600, EDRD 7630, EDRD 7650, EDCI 4650, EDCI 7660, EDCI 7670, and EDCI 7680.
- Presentation of a professional portfolio.

4150 Mathematics Education (M.A.T.)

Master of Arts in Teaching (M.A.T.) in Mathematics Education

Department of Middle and Secondary Education
The Master of Arts of Teaching (M.A.T.) in Secondary Mathematics Education seeks to advance prospective and/or in-service mathematics teachers’ ability to effectively implement standards-based instructional practices. The program’s chief goal—to strengthen secondary students’ mathematical understandings—is achieved, in part, by providing mathematics teachers with opportunities to deepen their understandings of learners from diverse backgrounds, mathematics content and content pedagogical knowledge. The program prepares teachers to conduct action research in the context of their own classrooms in order to inform instruction, and to share the knowledge gained in a professional community of teachers. Through engaging teachers in advanced mathematics and mathematics education coursework, the program strengthens teachers’ mathematical content knowledge and their proficiency for teaching mathematics. In general, the Program of Study is framed by the principles and standards of the National Council of Teachers of Mathematics (NCTM) and the core propositions of the National Board for Professional Teaching Standards (NBPTS), InTASC, NCATE, and Common Core Georgia Performance Standards in Mathematics (CCGPS-M).

Program Admission

All applicants must meet the College of Education and Human Development’s requirements for admission to graduate study. Additional admission requirements specific to this program include:

- An undergraduate or graduate degree in mathematics or the equivalent from a regionally accredited college or university (Coursework must have included at least 24 semester hours of upper-division or equivalent acceptable credit in mathematics content, including a minimum of three semester hours in each of four of the following areas: modern or abstract algebra [similar to Math 4441], linear algebra [similar to Math 4435], college geometry [similar to Math 4301], mathematical statistics [similar to Math 4751], and advanced calculus [similar to Math 4661]. How recently these courses have been completed will be a consideration.
- A minimum overall grade-point average of 2.75 for the four courses is used to meet the previous requirement.
- Two letters of recommendation as follows: (a)one academic or professional letter; (b) one letter from someone who can evaluate the applicant’s personal qualifications, experience, and background in light of potential to work successfully with adolescent; or (c) one letter from a current work supervisor (if applicable).
- Documentation of previous work experience (resume).

Program Academic Regulations

The department may specify additional requirements.

The M.A.T. program is a carefully sequenced program. Students who do not follow the prescribed program sequence will be withdrawn from the program and may reapply to enter the next program cycle.

Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-
Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Each student is advised by a committee consisting of faculty from the College of Arts and Sciences and faculty from the College of Education and Human Developments. Exit requirements for this program are:

- Completion of all program coursework with a grade point average of no less than 3.00,
- Successful completion of the teaching internships with a grade of “B” or higher, and
- Successful presentation of a professional portfolio.

Students in this program will be eligible to be recommended for Georgia initial certification after earning passing scores on the GACE Program Admission Assessment, GACE Content Assessment for Mathematics, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA, and successfully completing:

- All content courses recommended for students by MSE and Arts and Sciences faculty upon admission to the program;
- Students must complete EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3), or its equivalent to be eligible for recommendation for certification in addition to the program of study requirements;
- EPY 7080, The Psychology of Learning and Learners (3), and
- EDCI 6600, Introduction to Secondary Teaching (3); EDCI 4650 Opening School Experience; EDCI 7660, Practicum I (3); EDCI 7670, Practicum II (3); EDCI 7680, Practicum III (3); EDMT 6560, Principles of Math Instruction (3); EDMT 7560, Theory and Pedagogy of Mathematics Instruction (3).
- Successful presentation of a professional portfolio.

4148 Health and Physical Education (M.A.T.)

Master of Arts in Teaching (M.A.T.) in Health and Physical Education

Department of Kinesiology and Health
137 Sports Arena, 404-413-8050
http://kh.education.gsu.edu/
Mark Geil, Chair

This M.A.T. major in Health and Physical Education is designed for P-12 health and physical educators who wish to extend their content and pedagogical knowledge for improved professional practice. The program features an integration of health and physical education content where it is appropriate and includes a combination of coursework, simulated teaching, field experiences, and school-based inquiry. In the electives area, students can choose an emphasis in health, physical education, or adapted physical education within the program.

Program Academic Regulations

Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field
Students in this program will be eligible to be recommended for Georgia initial certification after earning passing scores on the GACE Program Admission Assessment, GACE Content Assessment, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA, and successfully completing:

EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3)
KH 2122 Applied Health and Wellness (3) or KH 7460 Using Popular Culture to Reduce Youth Risk Behaviors (3)
KH 3010 Skill Themes and Movement Concepts (3)
KH 3020 Fitness and Physical Activity (3)
KH 3030 Invasion Games (3)
KH 3040 Net/Wall Games (3)
KH 3200 Instructional Skills for Physical Education and Physical Activity Professionals (3-4) or KH 7230 Developing Teaching Skills for HPE/APE (3)
KH 3410 Assessment in Health and Physical Education (3) or KH 7470 Using Technology to Assess in Health, Physical Education, and Adapted Physical Education (3)
KH 3420 Curriculum in Health and Physical Education (3) or KH 7480 Curriculum Development for Health, Physical Education, and Adapted Physical Education (3)
KH 3700 Sexuality Education for P-12 (3)
KH 4540 Contemporary Instructional Models for Adapted Physical Education (3) or KH 8650 Physical Education for Students with Developmental, Physical and Sensory Disabilities (3)
KH 4650 Opening School Experience (0-1)
KH 6710 Graduate Practicum for Elementary Physical Education (3)
KH 6720 Graduate Practicum for Secondary Physical Education (3)
KH 7240 Advanced Teaching Skills in Health, Physical Education, and Adapted Physical Education (3)
KH 7250 Teaching Models for Health and Physical Education (3)

Non-coursework requirements for T-4 certification include: Tort Liability Coverage; criminal background check; first aid and CPR proficiency (including infant, child, adult) or completion of KH 3390.

Program Degree Requirements

Master of Arts in Teaching in Health and Physical Education

Professional Studies (9)
Required (9):

- EPRS 7900 Methods of Research in Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)
- EPY 7080 The Psychology of Learning and Learners (3)

Teaching Field (21)
Required (9):

- KH 7240 Advanced Teaching Skills in Health, Physical Education, and Adapted Physical Education (3)
Select four (12 hours) with adviser’s consent or any other courses with adviser’s approval:

- KH 6280 Psychology of Physical Activity (3)
- KH 6940 Workshop in Kinesiology and Health (3)
- KH 6960 Seminar (3)
- KH 7200 Cultural Aspects of Sport (3)
- KH 7230 Developing Teaching Skills for HPE/APE (3)
- KH 7260 Methods of Observation in Physical Education (3)
- KH 7270 Using Popular Culture to Reduce Youth Risk Behaviors (3)
- KH 7470 Using Technology to Assess in Health, Physical Education, and Adapted Physical Education (3)
- KH 7480 Curriculum Development for Health, Physical Education, and Adapted Physical Education (3)
- KH 7500 Physiology of Exercise (3)
- KH 7510 Biomechanics (3)
- KH 8550 Sport and Movement Studies for Athletes with Disabilities (3)
- KH 8650 Physical Education for Students with Developmental, Physical and Sensory Disabilities (3)
- KH 8655 Inclusion through Disability Sport (3)
- KH 8665 Assessment and Curriculum Development for Students with Disabilities (3)
- LT 7360 Integrating Technology in School-Based Learning Environments (3)

**Inquiry for Practice (6)**

**Required (3):**

- KH 7790 Current Issues in School Health and Physical Education (3)

Choose one of the following with permission of adviser (3):

- KH 7370 Foundations for Effective Portfolio Design (3)
- KH 7990 Master’s Thesis (3)

**Program total: minimum of 36 semester hours**

**4160 Middle Level Education (M.A.T.)**

**Master of Arts in Teaching (M.A.T.) Middle Level Education**

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair
The Master of Arts in Teaching in Middle Level Education provides initial teacher preparation for individuals holding bachelor's degrees and who have an interest in teaching students in grades 4-8 in two areas of a concentration. The course of study meets the requirements for professional certification in Middle Level Education (grades 4-8) with concentrations in either language arts and social studies education or mathematics and science education.

Program Admission

All applicants must meet the College of Education and Human Development’s requirements for admission to graduate study.

Additional requirements specific to this program include:

- An undergraduate or graduate degree or the equivalent from a regionally accredited college or university.
- The academic preparation of applicants must include the coursework listed below. Students may be admitted to the program and allowed to complete their academic preparation concurrently. Academic preparation must be completed prior to recommendation for certification.
- Characteristics and Instructional Strategies for Students with Disabilities (EXC 4020 or its equivalent)
- Language Arts and Social Studies Education Concentration
  - 12 hours of English courses with at least 6 hours of upper division coursework.
  - 12 hours of social studies courses with at least 6 hours of upper division coursework.
  - Students must demonstrate academic proficiency in the following areas: (a) literature and folklore, (b) composition, (c) languages and (d) children’s and adolescent’s literature
  - Students must demonstrate academic proficiency in the following areas: (a) Georgia History, (b) geography, (c) World History/studies, (d) U.S. History/studies.
- Mathematics and Science Education Concentration
  - 12 hours of mathematics courses with at least 6 hours of upper division coursework.
  - 12 hours of science courses with at least 6 hours of upper division coursework.
  - Students must demonstrate academic proficiency in the following areas: (a) geometry, (b) algebra, (c) number theory, and (d) probability/statistics.
  - Students must demonstrate academic proficiency in the following areas: (a) biology, (b) physical science, and (c) earth/space sciences.
- Two letters of recommendation as follows: (a) one academic or professional letter, (b) one letter from someone who can evaluate the applicants’ personal qualifications, experience, and background in light of the potential to work successfully with pre-adolescents and adolescents, or (c) one letter from a current work supervisor (if applicable).
- Documentation of previous work experience (resume).

Program Academic Regulations

The M.A.T. program is a carefully sequenced program. Students who do not follow the prescribed program sequence will be withdrawn from the program and may reapply to enter the next program cycle.

Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-
Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Students are advised by a committee of education and arts and sciences faculty including representatives from the students’ two areas of concentration. The committee and the students complete a planned program of study in light of the needs of the individual students. Exit requirements for this program are:

- Completion of all program coursework with a grade point average of no less than 3.00.
- Successful completion of the teaching internships with a grade of “B” or higher.
- Successful presentation of a professional portfolio.

Students in this program will be eligible to be recommended for Georgia initial certification after earning passing scores on the GACE Program Admission Assessment, GACE Content Assessments for Middle Grades, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA, and successfully completing:

- All content courses recommended for all individuals by the advisement committee upon admission to the program.
- EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (or its equivalent) and EPY 7080.
- EDCI 7020, EDRD 7630, EDCI 4650; EDCI 7660, EDCI 7670, EDCI 7680, and either EDCI 6540 and EDCI 7540 (Math/Science option) or EDCI 6560 and EDCI 7560 (Language Arts/Social Studies option).

Program Degree Requirements

Master of Arts in Teaching in Middle Level Education

Professional Studies (9)
Required (3):

- EPY 7080 The Psychology of Learning and Learners (3).

Select one (3):

- EPRS 7900 Methods of Research in Education (3)

Teaching Field/Major (27)
Required (6):
Elective (3):

- Select an elective with the approval of the Middle Level Education Advisor.

Choose one concentration

Mathematics and Science Concentration

Required (6):

- EDCI 6540 Principles of Instruction in Middle Childhood Science and Mathematics (3)
- EDCI 7540 Theory and Pedagogy of Middle Childhood Science and Mathematics Instruction (3)

Advanced Studies – Mathematics (6)
In consultation with their advisement committee, students select coursework numbered 6000 or higher. The coursework should lead to the development of an understanding of the history, philosophy, conceptual underpinnings, and applications of mathematics education at the middle level. One course should be taken from the Department of Mathematics and Statistics and one course from mathematics education in the Department of Middle and Secondary Education.

Advanced Studies – Science (6)
In consultation with their advisement committee, students select coursework numbered 6000 or higher. The coursework should lead to the development of an understanding of the history, philosophy, and conceptual underpinnings of science as well as the applications of science education at the middle level.

Language Arts and Social Studies Concentration

Required (6):

- EDCI 6560 Principles of Instruction in Middle Childhood Language Arts and Social Studies (3)
- EDCI 7560 Theory and Pedagogy of Middle Childhood Language Arts and Social Studies Instruction (3)

Advanced Studies – Language Arts (6)
In consultation with their advisement committee, students select coursework numbered 6000 or higher. The coursework should lead to the development of an understanding of the history, philosophy, conceptual underpinnings, and applications of language arts education at the middle level. One course (ENGL) should be taken from the Department of English and one course (EDLA) from Language and Literacy Education in the Department of Middle and Secondary Education.

Advanced Studies – Social Studies (6)
In consultation with their advisement committee, students select coursework numbered 6000 or higher. The coursework should lead to the development of an understanding of the history, philosophy, conceptual underpinnings, and applications of social studies education at the middle level. One course should be taken from the College of Arts and Sciences and one course (EDSS) from social studies education.
Internship (9)
Required (9):

- EDCI 4650 Opening School Experience (0)
- EDCI 7660 Practicum I (3)
- EDCI 7670 Practicum II (3)
- EDCI 7680 Practicum III (3)

Program total: minimum of 45 semester hours

4190 Science Education (M.A.T.)

Master of Arts in Teaching (M.A.T.) Science Education

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

The Master of Arts in Teaching in Science Education provides initial teacher certification for those holding bachelor’s degrees in engineering, science, or a related area.

Program Admission

All applicants must meet the College of Education and Human Development’s requirements for admission to graduate study. Additional admission requirements specific to this program include:

- An undergraduate or graduate degree in engineering, a science field, or a related field from a regionally accredited college or university. A minimum of a major (24 upper-division semester hours) in a science area must be part of prior coursework.
- Two letters of recommendation as follows: (a) one academic or professional letter, (b) one letter from someone who can evaluate the applicant’s personal qualifications, experience, and background in light of potential to work successfully with adolescents, or (c) one letter from a current work supervisor (if applicable).
- Documentation of previous work experience (resume).

Undergraduate students in the Bachelor of Science with a major in Physics can apply to the M.A.T. in Science Education if they meet the following requirements.

- Students must participate in pre-advising sessions with faculty in the Department of Physics and Astronomy.
- Students must have completed at least 30 hours of academic credit (including MATH 2211 and PHYS 2211K).
- Students must have earned a minimum cumulative GPA of 3.3.
- Students may apply to the option at any time after completing 30 hours but prior to completing 90 hours of undergraduate coursework.
Complete the B.S./M.A.T. application form. This will be kept on file in the Department of Physics and Astronomy and in the Office of Academic Assistance in the College of Arts and Sciences.

- Documentation of previous work experience (resume or curriculum vitae).
- Personal statement of goals and/or reasons for teaching.

Formal acceptance into the M.A.T. portion of the program will be contingent upon the following:

- Filing an application to the M.A.T. program by the appropriate deadline at education.gsu.edu/oaa/4427.html
- Maintaining a cumulative GPA of 3.0 or higher;
- Completion of 90 hours towards the B.S. degree in Physics (including PHYS 7460 and PHYS 7850);
- Submission of passing scores on the GACE Program Admission Assessment or demonstrate an exemption upon application to the program;
- Complete the Georgia Educator Ethics – Program Entry (350) Assessment;
- Submission of acceptable GRE scores;
- Acceptance into the Teacher Education track is contingent upon acceptance into the M.A.T. portion, completion of 24 hours in physics, and passing or exempting the GACE Program Admission Assessment;
- 2-3 letters of recommendation: (a) one academic or professional letter; (b) one letter from someone who can evaluate the applicant’s personal qualifications, experience, and background in light of potential to work successfully with adolescents; (c) one letter from a current work supervisor, if applicable.

Program Academic Regulations

The department may specify additional requirements.

The M.A.T. program is a carefully sequenced program. Students who do not follow the prescribed program sequence will be withdrawn from the program and may reapply to enter the next program cycle.

Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Exit requirements for this program are:

- Completion of all program coursework with a grade point average of no less than 3.00,
- Successful completion of the teaching internships with a grade of “B” or better, and
- Successful presentation of a professional portfolio.

Students in this program will be prepared to teach in broad field science or in one of the science specialties of biology, chemistry, earth/space science and physics in grades 6-12. The student’s advisory committee will approve the student’s planned program of study for either the broad field science preparation or preparation in one of the specialties of biology, chemistry, earth/space science and physics after a transcript analysis of previous work and consultation with the student.
Students in this program will be eligible to be recommended for Georgia initial certification after earning passing scores on the GACE Program Admission Assessment, GACE Content Assessments, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA, and successfully completing:

- All content courses recommended for the students by MSE and Arts and Sciences faculty upon the students’ admission to the program;
- Students must complete EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3) or its equivalent to be eligible for recommendation for certification in addition to the program of study requirements;
- EPY 7080 The Psychology of Learning and Learners (3)
- EDCI 6600 Introduction to Secondary Teaching (3); EDCI 4650 Opening School Experience; EDCI 7660 Practicum I (3); EDCI 7670 Practicum II (3); EDCI 7680 Practicum III (3); EDSC 6550 Principles of Science Instruction (3)
- Successful presentation of a professional portfolio.

**4200 Social Studies Education (M.A.T.)**

Master of Arts in Teaching in Social Studies Education (M.A.T.)

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

The Master of Arts in Teaching in Social Studies Education provides initial teacher preparation for individuals holding bachelor's degrees in history or one or more of the social sciences.

Program Admission

All applicants must meet the College of Education and Human Development’s requirements for admission to graduate study. Admission to the program occurs twice each year. Additional admission requirements specific to this program include:

- An undergraduate or graduate degree in history or in one or more of the social sciences from a regionally accredited college or university. A minimum of a major (24 upper-division semester hours) in history or a social science must be part of prior coursework.
- Two letters of recommendation as follows: (a) one academic or professional letter, (b) one letter from someone who can evaluate the applicant’s personal qualifications, experience, and background in light of potential to work successfully with adolescents, or (c) one letter from a current work supervisor (if applicable)
- Documentation of previous work experience (resume).

Undergraduate students in the Bachelor of Arts with a major in Economics and Bachelor of Science with a major in Economics can apply to the M.A.T. in Social Studies Education if they meet the following requirements.

- Students must participate in pre-advising sessions with Social Studies Education faculty in the Department of Middle and Secondary Education.
- Students may apply to the program at any time after completing 30 hours but prior to completing 90 hours of undergraduate coursework.
  - Students must have earned a minimum cumulative GPA of 3.3.
  - Complete the B.A. or B.S./M.A.T. application form. This will be kept on file in the
Department of Economics.
- Documentation of previous work experience (resume or curriculum vitae).
- Personal statement of goals and/or reasons for teaching.
- 2-3 letters of recommendation: (a) one academic or professional letter; (b) one letter from someone who can evaluate the applicant’s personal qualifications, experience, and background in light of potential to work successfully with adolescents; (c) one letter from a current work supervisor, if applicable.

- Formal acceptance into the M.A.T. portion of the program will be contingent upon the following:
  - Completion of 75-90 hours towards the B.A. or B.S. degree in Economics.
  - Completion of 24 hours in Economics courses.
  - Filing an application to the M.A.T. program by the appropriate deadline.
  - Maintaining a cumulative GPA of 3.0 or higher.
  - Submission of passing scores on the GACE Program Admission Assessment or demonstrate an exemption upon application to the program.
  - Completion of Georgia Educator Ethics – Program Entry (350) Assessment.
  - Submission of acceptable GRE scores.

Students in the Dual program between Economics and Social Studies Education will be allowed to enroll in graduate level coursework in both departments and have the 12 hours count toward both degrees.

Program Academic Regulations

The department may specify additional requirements.

The M.A.T. program is a carefully sequenced program. Students who do not follow the prescribed program sequence will be withdrawn from the program and may reapply to enter the next program cycle.

Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Exit requirements for this program are:

- Completion of all program coursework with a grade point average of no less than 3.00,
- Successful completion of the teaching internships with a grade of “B” or higher, and
- Successful presentation of a professional portfolio.

Students in this program will be eligible to be recommended for Georgia initial certification after earning passing scores on the GACE Program Admission Assessment, and GACE Assessments in Economics, Geography, History, and/or Political Science for licensure in the Social Studies content area(s), Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA, and successfully completing:

- All content courses recommended for the students by MSE and Arts and Sciences faculty upon the students’ admission to the program;
- Students must complete EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3) or its equivalent to be eligible for recommendation for certification in addition to the
program of study requirements;

- EPY 7080 The Psychology of Learning and Learners (3) and
- Successful presentation of a professional portfolio.

Program Degree Requirements

Master of Arts in Teaching in Social Studies Education

Professional Studies (9)
Select one (3):
EPRS 7900 Methods of Research in Education (3)
EPRS 7910 Action Research (3)

Select one (3):
EPSF 7100 Critical Pedagogy (3)
EPSF 7110 Multicultural Education (3)
EPSF 7120 Social and Cultural Foundations of Education (3)

Required (3):
EPY 7080 The Psychology of Learning and Learners (3)

Teaching Field/Major (27)
Required (9):
EDCI 6600 Introduction to Secondary Teaching (3)
EDSS 6560 Principles of Social Studies Instruction (3)
EDSS 7540 Theory and Pedagogy of Social Studies Instruction (3)

Elective in Teaching Field/Major (6)
Select Two Courses:
EDCI 7980 Teaching and Learning in Urban Contexts (3)
EDSS 7560 Teaching History and the Social Sciences (3)
EDSS 7570 Social Studies Concepts and Issues (3)
LT 7360 Integrating Technology in School-Based Learning Environments (3)
TSLE 7260 Cultural Issues for the Bilingual/English as a Second Language Teacher (3)
Other education electives may be selected with consent of the advisor.

Select Advanced Studies in Social Studies (12)
The students select at least 12 semester hours of 6000-level and above coursework related to history and the social sciences in consultation with their advisory committee. Because students will be certified in single fields of social studies, additional undergraduate or graduate coursework may be required for the students to demonstrate competence in these four areas: economics, geography, history, and political science. The advisement committee will approve the students’ planned program of study after a transcript analysis of previous work and consultation with the students.
Internship (9)
Required (9):
EDCI 4650 Opening School Experience (0)
EDCI 7660 Practicum I (3)
EDCI 7670 Practicum II (3)
EDCI 7680 Practicum III (3)

Program total: minimum of 45 semester hours

4205 Special Education (M.A.T.)
Master of Arts in Teaching (M.A.T.) in Special Education

Department of Educational Psychology, Special Education, and Communication Disorders
835 College of Education Building, 404-413-8040
http://esc.education.gsu.edu/
Laura Fredrick, Chair

Certification areas: Special Education Adapted Curriculum (Intellectual Disabilities), Special Education Adapted Curriculum (Autism Spectrum Disorders), Special Education Deaf Education, Early Childhood Special Education, Special Education Physical and Health Disabilities (Orthopedic Impairments), Special Education General Curriculum (Behavior/Learning Disabilities)

The M.A.T. major in Special Education prepares students to teach children with mild to moderate behavior and learning disabilities (e.g., dyslexia and other specific learning disabilities, attention disorders, emotional behavior disorders, mild intellectual disabilities); moderate, severe, and profound intellectual disabilities; autism spectrum disorders; physical and health disabilities (orthopedic impairments); students who are deaf and hard of hearing; or young children with disabilities. The students are provided coursework and practicum experiences resulting in knowledge of characteristics, curriculum, instructional strategies, and classroom management procedures.

The M.A.T. degree program contains those courses required for professional certification within each certification area listed. Students who first complete a planned program of study developed with their faculty advisor, and then successfully complete the entire program of study and program requirements (including prerequisites and required coursework and passing scores on the GACE Content Assessments for their concentration) receive a M.A.T. in Special Education and will be recommended by GSU for a clear renewable certificate in the special education concentration that they completed. In the case students elect to only receive the certification and not the Master’s degree, all coursework and program requirements indicated for certification only on the Program of Study must be successfully completed. Due to the permeable and iterative design of the program, courses in some of the concentrations must be taken in sequence beginning in the fall. Consult your advisor.

Program Admission

Admissions criteria help to ensure that candidates are prepared for the rigorous curriculum requirements of the graduate program. Candidates must meet all admission requirements of the College of Education as
stipulated by the Office of Academic Assistance and Graduate Admissions. Candidates who are considered for the M.A.T. Special Education program must meet the following criteria prior to program entry:

- undergraduate degree from an accredited college or university;
- undergraduate GPA of 2.5 or higher;
- official scores on the Graduate Record Exam (GRE) from the past five years;
- passing scores on the GACE Program Admission Assessment or exemption from this test based on GRE, SAT, or ACT scores;
- Students must complete the Georgia Educators Ethics – Program Entry (350) Assessment; and
- candidates must also submit two academic or professional letters of recommendation, a resume, and a goal statement.

Program Academic Regulations

Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Students may complete the following prerequisite courses at Georgia State University while completing the M.A.T. degree; however, none of this coursework will be counted toward the master’s degree requirements.

Early Childhood Special Education General Curriculum Concentration

- Human Growth and Development (EPY 2050) or its equivalent
- Characteristics and Instructional Strategies for Students with Disabilities (EXC 4020) or its equivalent
- Applied Behavior Analysis (EXC 7030) or its equivalent
- Methods of Teaching Reading (EDRD 6600 or EDRD 7600)
- Literacy Assessment and Curriculum Development (EDRD 7550) or Individualized Literacy Assessment and Instruction (EDRD 7650)
- Mathematics Concepts for Special Learners (EDMT 7400) or its equivalent
- Initial Practicum (EXC 7929) or its equivalent

Special Education Adapted (Autism Spectrum Disorders) Concentration

- Characteristics and Instructional Strategies for Students with Disabilities (EXC 4020) or its equivalent
- Methods of Teaching Reading (EDRD 6600 or EDRD 7600) or its equivalent. (SDU/PLU credits will be accepted for students in ASD who will have a content concentration in an area other than reading.)
- EXC 7250 Characteristics of Severe Intellectual Disability and Autism (3)

Special Education Adapted Curriculum (Intellectual Disabilities) Concentration

- Characteristics and Instructional Strategies for Students with Disabilities (EXC 4020) or its equivalent
• Methods of Teaching Reading (EDRD 6600 or EDRD 7600) or its equivalent

Special Education Deaf Education Concentration

• Human Growth and Development (EPY 2050)
• Characteristics of Students with Disabilities (EXC 4010 preferred; EXC 4020 or its equivalent accepted)
• Methods of Teaching Reading (EDRD 6600 or EDRD 7600)

Special Education General Curriculum (Behavior/Learning Disabilities) Concentration

• Characteristics of Students with Disabilities (EXC 4010) or its equivalent

Special Education Physical and Health Disabilities (Orthopedic Impairments) Concentration

• Characteristics and Instructional Strategies for Students with Disabilities (EXC 4020) or its equivalent
• Applied Behavior Analysis (EXC 7030) or its equivalent
• Methods of Teaching Reading (EDRD 6600 or EDRD 7600) or its equivalent
• Mathematics Concepts for Special Learners (EDMT 7400) or its equivalent

In addition to these prerequisite coursework requirements:

Students in all Special Education programs, except Intellectual Disabilities and Autism Spectrum Disorders, must take the courses and complete the portfolio for the PSC Georgia Reading Endorsement.

Students must earn a grade of “B” or higher in each course in the teaching field/major area (B). If the student earns a grade below “B” in a course, s/he must repeat that course. Students will be allowed to repeat a course in this manner one time. Students who fail to earn a grade of “B” or higher after taking the course a second time will be scholastically excluded from this major.

Evaluation of the student’s performance is continuous and involves consideration of the student’s performance in all academic settings. Inappropriate or unprofessional conduct by a student may result in the student being dropped from a course or a program. If such removal from a course is necessary, the student will receive the grade of “F” and may be judged ineligible to re-enroll in the course.

Program Degree Requirements

Master of Arts in Teaching Special Education

Substitutions may be made for courses previously taken or other appropriate experiences with the consent of the students’ major adviser and the department chairperson.

Professional Education Core (9)
Select one course (3):

• EPSF 7100 Critical Pedagogy (3)
• EPSF 7110 Multicultural Education (3)
• EPSF 7120 Social and Cultural Foundations of Education (3)

Select one course (3):

• EPRS 7900 Methods of Research in Education (3)
• EPRS 7910 Action Research (3)
• EPRS 7920 Classroom Testing, Grading, and Assessment (3)

Required (3);*

• EPY [7080] The Psychology of Learning and Learners (3)

*Early Childhood Special Education concentration students can take EPY 7080 The Psychology of Learning and Learners (3) or EPY 7090 The Psychology of Learning and Learners: The Young Child (3).

Teaching Field/Major (27-30) – Select one of the following six concentration areas:

Early Childhood Special Education Concentration (27)
Required (27):

• EXC 7000 Collaboration with Parents and Professionals (3)
• EXC 7010 Language Development and Language Disabilities (3)
• EXC 7190 Alternative Approaches to Literacy Instruction for Students with Disabilities (3)
• EXC 7300 Assistive Technology: Reading and Academics (3)
• EXC 7320 Methods of Teaching Low-functioning Students with Autism Spectrum Disorders (3)
• EXC 7330 Physical and Health Management of Students with Disabilities (3)
• EXC 7650 Characteristics of Young Children with Disabilities (3)
• EXC 7660 Methods of Teaching Young Children with Disabilities (3)
• EXC 7939 Practicum II: Early Childhood (3)

In the Professional Studies section, Early Childhood Special Education concentration students can take EPY 7080 The Psychology of Learning and Learners (3) or EPY 7090 The Psychology of Learning and Learners: The Young Child (3).

Special Education Adapted (Autism Spectrum Disorders) Concentration (27)
Required (27):

• EXC 7030 Applied Behavior Analysis (3)
• EXC 7190 Alternative Approaches to Literacy Instruction for Students with Disabilities (3)
• EXC 7280 Methods for Teaching Students with Severe Disabilities (3)
• EXC 7310 Strategies for Challenging Behaviors (3)
• EXC 7320 Assessments and Curricular Planning for Students with Autism Spectrum Disorders (3)
• EXC 7325 Methods of Teaching High-functioning Students with Autism Spectrum Disorders (3)
• EXC 7926 Practicum I: Autism (3)
• EXC 7936 Practicum II: Autism (3)
Students who do not have a content concentration based on previous coursework in social science, science, math, or language arts, will complete the Reading Endorsement and will select two of the three “Professional Education Core” courses from the options listed above, plus EDRD 7650 Individualized Literacy Assessment and Instruction (3).

Special Education Adapted Curriculum (Intellectual Disabilities) Concentration (27)
Required (24):

- EXC 7030 Applied Behavior Analysis (3)
- EXC 7250 Characteristics of Severe Intellectual Disability and Autism (3)
- EXC 7260 Characteristics of Severe Physical and Multiple Disabilities (3)
- EXC 7280 Methods for Teaching Students with Severe Disabilities (3)
- EXC 7281 Adapted/Functional Curriculum for Students with Severe Disabilities (3)
- EXC 7290 Methods for Teaching Students with Physical and Multiple Disabilities: Reading/Academics (3)
- EXC 7330 Physical and Health Management of Students with Disabilities (3)
- EXC 7925 Practicum I: Intellectual Disabilities (3)
- EXC 7935 Practicum II: Severe Intellectual Disability (3)
- Other graduate level courses must be approved by major professor.

Students who are not already highly qualified teachers per the federal mandate of No Child Left Behind will select two of three courses listed as “Professional Education Core” in the options listed above plus ECE 7580 or EDLA 7580 Language Foundations of Literacy Learning (3) or EXC 7190 Alternative Approaches to Literacy Instruction for Students with Disabilities (3).

Special Education Deaf Education Concentration (30)
Required (30):

- EDRD 7650 Individualized Literacy Assessment and Instruction (3)
- EXC 6350 Orientation to Deafness (3)
- EXC 6360 Audiological Considerations (3)
- EXC 7190 Alternative Approaches to Literacy Instruction for Students with Disabilities (3)
- EXC 7360 Language Development in Students Who Are Deaf/Hard of Hearing (3)
- EXC 7390 Reading and Writing Instruction for Deaf/Hard of Hearing (3)
- EXC 7400 Methods of Teaching Students Who are Deaf/Hard of Hearing (3)
- EXC 7430 Auditory and Speech Development in Students Who are Deaf/Hard of Hearing (3)
- EXC 7920 Practicum I: Deaf/Hard of Hearing (3)
- EXC 7940 Practicum: Deaf/Hard of Hearing (3)

Students who need an extra practicum prior to student teaching (e.g., for ASL proficiency) may also take EXC 7930 Practicum II: Deaf/Hard of Hearing.

Candidates must post a rating of “Intermediate” on a recognized assessment of their signing skills (e.g. SLPI, ASLPI, EIPA) before admission to EXC 7940 Practicum: Deaf/Hard of Hearing.

Special Education General Curriculum (Behavior/Learning Disabilities) Concentration (27)
Required (27):

- EDRD 7650 Individualized Literacy Assessment and Instruction (3)
- EXC 6350 Orientation to Deafness (3)
- EXC 6360 Audiological Considerations (3)
- EXC 7190 Alternative Approaches to Literacy Instruction for Students with Disabilities (3)
- EXC 7360 Language Development in Students Who Are Deaf/Hard of Hearing (3)
- EXC 7390 Reading and Writing Instruction for Deaf/Hard of Hearing (3)
- EXC 7400 Methods of Teaching Students Who are Deaf/Hard of Hearing (3)
- EXC 7430 Auditory and Speech Development in Students Who are Deaf/Hard of Hearing (3)
- EXC 7920 Practicum I: Deaf/Hard of Hearing (3)
- EXC 7940 Practicum: Deaf/Hard of Hearing (3)
• EXC 6560 Educational Evaluation of Students with Disabilities (3)
• EXC 6570 Individual and Classroom Management (3)
• EXC 6580 Instructional Methods for Students with Behavior Learning Disabilities (3)
• EXC 6590 Functional and Social Methods for Students with Behavior Learning Disabilities (3)
• EXC 6661 Practicum I: Special Education General Curriculum: Consultative (3)
• EXC 6671 Partnerships and Practicum II: Special Education General Curriculum: Consultative (3)
• EXC 7190 Alternative Approaches to Literacy Instruction for Students with Disabilities (3)
• EDRD 6600 Introduction to Material and Methods of Reading Instruction or EDRD 7600 Theory & Pedagogy in the Study of Literacy (3)
• EDRD 7650 Individualized Literacy Assessment and Instruction (3)

Special Education Physical and Health Disabilities (Orthopedic Impairments) Concentration (27)

Required (27):

• EDRD 7650 Individualized Literacy Assessment and Instruction (3)
• EXC 7190 Alternative Approaches to Literacy Instruction for Students with Disabilities (3)
• EXC 7260 Characteristics of Severe Physical and Multiple Disabilities (3)
• EXC 7280 Methods for Teaching Students with Severe Disabilities (3)
• EXC 7290 Methods for Teaching Students with Physical and Multiple Disabilities: Reading and Academics (3)
• EXC 7300 Assistive Technology: Reading and Academics (3)
• EXC 7330 Physical and Health Management of Students with Disabilities (3)
• EXC 7927 Practicum I: Physical and Health Disabilities (3)
• EXC 7937 Practicum II: Physical and Health Disabilities (3)

Program total: minimum of 36 semester hours (Deaf Education concentration is a minimum of 39 hours)

4210 Collaborative Program (M.A.T.)

Georgia Institute of Technology-Georgia State University B.S./M.A.T. Option

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

Undergraduate students in a Bachelor of Science (B.S.) program at the Georgia Institute of Technology can apply to Master of Arts in Teaching (M.A.T.) program at Georgia State University in the Department of Middle and Secondary Education if they meet the following requirements.

• Students must participate in pre-advising sessions with faculty in their academic department and the Director of Pre-Teaching at Georgia Tech.
• Students must have completed at least 30 hours of academic credit at Georgia Tech.
Students must have earned a minimum cumulative GPA of 3.5.

Students may apply to the option at any time after completing 30 hours but prior to completing 90 hours of undergraduate coursework.

Applicants are applying for early acceptance into a M.A.T. program and therefore must submit the following documentation in addition to meeting the GPA requirement.

- Complete the B.S./M.A.T. application form. This will be kept on file in both the student’s academic major department and in the office of the Director of Pre-Teaching at Georgia Tech.
- 2-3 letters of recommendation: (a) one academic or professional letter; (b) one letter from someone who can evaluate the applicant’s personal qualifications, experience, and background in light of potential to work successfully with adolescents; (c) one letter from a current work supervisor, if applicable.
- Documentation of previous work experience (resume or curriculum vitae).
- Personal statement of goals and/or reasons for teaching.
- Successful interview with the faculty in the Department of Middle and Secondary.

Formal acceptance into the M.A.T. portion of the program will be contingent upon the following:

- Maintaining a cumulative GPA of 3.0 or higher at Georgia Tech;
- Completion of an undergraduate degree in a field appropriate for the MAT program;
- Submission of passing scores on the GACE Program Admission Assessment or demonstrate an exemption upon application to the program;
- Complete the Georgia Educator Ethics – Program Entry (350) Assessment;
- Submission of acceptable GRE scores; and
- Filing an application to the M.A.T. program by the appropriate deadline.

4230 Early Childhood Education – UACM (M.Ed.)

Master of Education (M.Ed.) Early Childhood Education – Urban Accelerated Certification and Master’s Program (UACM)

Department of Early Childhood and Elementary Education
550 College of Education Building, 404/413-8020
http://ece.education.gsu.edu/
Barbara Meyers, Chair

This initial certification program for the major in Early Childhood Education prepares teachers of young children (Pre-K through 5th grade) to teach in an urban environment. The program is designed for people who already hold a baccalaureate or higher degree and want to teach in an urban elementary school.

Program Admission and Program Regulations

In addition to the College of Education and Human Development graduate degree admission requirements, applicants for this program must have earned a minimum of 2.75 undergraduate grade-point average calculated on all work attempted. The department requires applicants to submit GRE scores taken within the last 5 years. Students must present passing scores on the GACE Program Admission Assessment or demonstrate an exemption upon application to the program and complete the Georgia Educator Ethics –
Program Entry (350) Assessment. Completion of this assessment is required for admission, though there is no “Pass/Fail” grade assigned. Applicants must also participate in oral and written interviews conducted by faculty and school-based personnel. The Department of Early Childhood and Elementary Education reserves the right to specify additional criteria for applicants.

**Pre-Service Certificate:** All students who are accepted into a teacher education program and will be completing a field placement must complete the requirements to obtain a Pre-Service Certificate through the Georgia Professional Standards Commission which includes a criminal background check and the ethics module. To apply for the Pre-Service certificate, go to the GSU certification page and complete the GaPSC form and submit all required materials to the GSU certification officer in the College of Education and Human Development Office of Academic Assistance and Graduate Admissions on the 3rd floor of the COE building, Suite 300.

Course work is offered in a fixed sequence beginning Summer (May) session of each academic year and runs for six consecutive terms. Successful completion of Phase I of the program (45 prerequisite semester hours) and a passing score on GACE Content Assessments in Early Childhood Education, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA leads to a recommendation for initial certification.

Applicants have the option of completing an English to Speakers of Other Languages (ESOL) Endorsement simultaneously.

Applicants who are recommended to and successfully complete Phase II of the program (30 semester hours) will earn a Master of Education degree (M.Ed.). During Phase II, each applicant is required to be employed as a full-time teacher in an urban classroom and participate in a mentoring experience. The applicant may not complete Phase II course work prior to recommendation to the program. No prerequisite course work may be counted toward fulfillment of the M.Ed. Admission to the program occurs once each year. For application and supporting materials, please contact the Department of Early Childhood and Elementary Education at 404/413-8020.

**Phase I: Prerequisites**

**Summer Semester (17)**

- ECE 6360 Culturally Responsive Pedagogy (6)
- ECE 6370 Classroom Management and Instruction (3)
- ECE 6380 Foundation of Literacy Instruction for Young Children (3)
- ECE 6390 Foundations of Learning and Teaching Mathematics (2)
- EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3)

**Fall Semester (12)**

- ECE 6385 Teaching Literacy to Culturally and Linguistically Diverse Learners I (3)
ECE 6391 Teaching Mathematics, Pre-Kindergarten to Grade Five – I (3)
ECE 6395 Child Growth and Development in Urban Education (3)
ECE 6655 Student Teaching I (3)
ECE 4650 Opening School Experience (0)

**Spring Semester (16)**

ECE 6375 Responsive Practice for Urban Education (3)
ECE 6386 Teaching Literacy to Culturally and Linguistically Diverse Learners II (2)
ECE 6387 ESOL: Language Acquisition (3)
ECE 6392 Teaching Mathematics, Pre-Kindergarten to Grade Five – II (2)
ECE 6405 Science and Social Studies in the Urban Classroom (3)
ECE 6656 Student Teaching II (3)

Optional ESOL Endorsement: If students would like to complete the ESOL Endorsement, they must complete ECE 6657 ESOL Student Teaching (2) [Available in fall and spring semesters].

**Total prerequisite hours: minimum of 45 semester hours**

**Exit Requirements:**

- Completion of all required course work with a 3.00 cumulative grade point average
- Successful completion of Student Teaching I and Student Teaching II with grades of “B” or higher
- Students must post passing scores on the GACE Content Assessment, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA in order to be recommended by Georgia State University for clear, renewable certification.

**Phase II: Program Degree Requirements**

Master of Education in Early Childhood Education UACM

**Professional Studies (9)**

- EPY 7090 The Psychology of Learning and Learners: The Young Child (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)
- EPRS 7920 Classroom Testing, Grading, and Assessment (3)

**Teaching Field/Internship (18)**

- ECE 6415 Curriculum and Assessment for Urban Education I (3)
- ECE 6416 Curriculum and Assessment for Urban Education II (3)
- ECE 6660 Mentorship in the Urban Classroom I (3)
- ECE 6661 Mentorship in the Urban Classroom II (3)
- ECE 6830 Critical Theories and Research in Urban Education I (3)
- ECE 6831 Critical Theories and Research in Urban Education II (3)
Capstone Experience (3)

- ECE 6800 Urban Education Capstone Seminar (3)

Program total: minimum of 30 semester hours

Exit Requirements

- Completion of all required course work with a 3.00 cumulative grade point average
- Successful completion of Mentorship in the Urban Classroom I and II (ECE 6660 and ECE 6661) with a grade of “B” or higher
- Successful completion of the capstone experience.

4240 Educational Leadership (M.Ed.)

Master of Education (M.Ed.) Educational Leadership

Department of Educational Policy Studies
450 College of Education Building, 404/413-8030
http://eps.education.gsu.edu/
William Curlette, Chair

The M.Ed. major in Educational Leadership prepares leaders in the field of educational administration. Specifically, the program is for persons who are beginners in the field and who seek to fill leadership positions at the building level. The program is developed around a set of academic and field experiences that provide basic knowledge and skills for school leadership positions. Completion of the master’s degree program meets the course requirements for the L-5 certification in the State of Georgia.

Program Degree Requirements

Master of Education in Educational Leadership

Professional Studies (9)

Select one (3):

- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)

Select one (3):

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)
• EPRS 7920 Classroom Testing, Grading, and Assessment (3)

Select one (3):

• EPY 7080 The Psychology of Learning and Learners (3)
• EPY 7090 The Psychology of Learning and Learners: The Young Child (3)

Major (24)
The students in a cohort group take the following seven courses in sequence during three consecutive academic terms.

Required (18):

• EPEL 7000 Educational Leadership and Organizational Culture (3)
• EPEL 7020 Leadership in a Diverse Society (3)
• EPEL 7330 Law, Policy, and Governance (3)
• EPEL 7410 Instructional Leadership (3)
• EPEL 7500 Management and School Operations (3)
• EPSF 7450 Curriculum Foundations for the Educational Leader (3)

Required (6):

• EPEL 7680a Practicum Seminar: Data Analysis and School Improvement Processes for School Leaders (3)
• EPEL 7680b Practicum Seminar: Action Research for School Leaders (3)

Elective (3)

• With adviser approval, the students select one additional EPEL course.

Comprehensive Examination Requirement
Each student must complete and successfully defend a master’s project. Contact the department for more information regarding this project.

Program total: minimum of 36 semester hours

4250 Elementary Education (M.Ed.)

Master of Education (M.Ed.) in Elementary Education

Department of Early Childhood and Elementary Education
550 College of Education Building, 404/413-8020
http://ece.education.gsu.edu/
Barbara Meyers, Chair
The M.Ed. in Elementary Education is a graduate degree designed for teachers who wish to pursue advanced preparation in a specific content area at the elementary level (reading, reading recovery, mathematics, science, or Teacher Support and Coaching Endorsement). Successful completion of the program leads to a master’s degree (T-5) and qualifies the candidate for an endorsement in the area of the content concentration. Through an integrated approach that provides choices and opportunities for decision making and dynamic group interactions, teachers participating in one of the master’s program become partners with faculty in shaping the path or paths by which content is learned.

Program Academic Regulations

The Master of Education (M.Ed.) program in Elementary Education is based on the assumption that learning is a constructive process that builds on the knowledge and experience of the learner. The teacher functions as a collaborator with parents and children to focus on strategies for enhancing effective child learning. Therefore, all ECE coursework and instruction will incorporate reflective practice, collaboration, theories of child development, strategies for managing classrooms and affirming diversity. Through advanced study in a specific content area, teachers will become knowledgeable of current research and methods for teaching the content and establishing learner-centered classrooms consistent with the appropriate national and state standards.

Teachers who apply for the program choose one area of content concentration: Elementary Literacy, Elementary Literacy in Reading Recovery, Elementary Mathematics, Elementary Science, or Teacher Support and Coaching Endorsement (TSC). Upon meeting the College of Education and Human Development admissions requirements, students are eligible to pursue either of these courses of study.

All applicants must meet minimum college admission criteria and have obtained teaching certification (Georgia T-4 clear and renewable in Early Childhood Education or equivalent).

- Program begins each semester
- 36 semester hours
- 15 credit hours of coursework in one content concentration: Elementary Literacy, Elementary Literacy in Reading Recovery, Elementary Mathematics Education, Elementary Science Education, or Teacher Support and Coaching Endorsement (TSC).
- Candidates for the Mathematics and Science Endorsements must have one year of teaching before starting the endorsement coursework.
- Commit to three semesters of continuous study with a cohort (9 total credit hours)
- For non-endorsement courses candidate must be currently teaching or working in an early childhood/elementary setting or available to complete teaching assignments in an early childhood/elementary setting.
- IP grading may be assigned for some courses.
- Interviews may be required.

In addition to the college-wide graduation requirement of an overall 3.00 grade point average (calculated on all graduate work attempted), the Department of Early Childhood and Elementary Education requires that the students maintain satisfactory progress as he or she pursues the program of study. Any student who faculty believes is not making satisfactory progress toward fulfillment of degree requirements may be removed from the program.
Students must file a formal application for graduation with the Graduation Office, Office of the Registrar, at least two academic terms in advance of the expected date of graduation to establish eligibility for graduation with the M.Ed. in Elementary Education.

Program Degree Requirements

Master of Education in Elementary Education

Professional Studies (9)
Select One Course (3):

- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)

Select One Course (3):

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)

Select One Course (3):

- EPY 7080 The Psychology of Learning and Learners (3)
- EPY 7090 The Psychology of Learning and Learners: The Young Child (3)

Elementary Education Core (9)
Required (9):
Students must enroll in the ECE Core Courses (ECE 7390, ECE 7400, ECE 7410) as part of a cohort beginning in the fall semester of a year and complete over fall/spring/summer in consecutive semesters. Order of the courses may vary.

- ECE 7390 Curriculum in the Early Childhood Classroom I (3)
- ECE 7400 Curriculum in the Early Childhood Classroom II (3)
- ECE 7410 Critical Issues in Early Childhood Education I (3)

Concentration (15): Select ONE Concentration

Elementary Literacy Concentration (15)
Required (6):

- EDRD 7630 Literacy in the Content Area (3)*
- ECE 7740 Internship in Early Childhood Education Classroom I (3)

Students must enroll in ECE 7740 concurrent with one of the following courses: EDRD 7630, EDRD 6600, EDRD 7600, EDRD 7550, or EDRD 7650.
Select One Course (3):*

- EDRD 6600 Introduction to Materials and Methods in Reading Instruction (3)
- EDRD 7550 Theory and Pedagogy in the Study of Literacy (3)

Select One Course (3):*

- EDRD 7550 Literacy Assessment and Curriculum Development (3)
- EDRD 7650 Individualized Literacy Assessment and Instruction (3)

Select One Course (3):

- ECE 7280 or EDLA 7280 Early Writing Development (3)
- ECE 7580 or EDLA 7580 Language Foundations of Literacy Learning: From Acquiring Oral
  Language to Reading Words (3)
- EDRD 7260 Early Literacy Development and Instruction (3)
- Other courses as approved by the concentration advisor.

*Successful completion of EDRD 7630 and EDRD 6600 or EDRD 7600 and EDRD 7550 or EDRD 7650
and the Reading Endorsement portfolio qualifies an individual for the reading endorsement at the level of
the base certificate.

**Elementary Literacy Concentration in Reading Recovery (15)**

- This concentration includes a fixed sequence of required courses (ECE 7360, ECE 7370, ECE 7380)
  with enrollment fall through spring term.
- Successful completion of ECE 7360, ECE 7370, and ECE 7380 qualifies the individual for the
  Reading Endorsement at the level of the base certificate.
- Prior to enrolling in the required Reading Recovery courses the student must submit a school
district or consortia site application or the school of employment must be an approved Reading
Recovery site.
- The student must complete the Observation Survey Institute in the summer semester prior to
  enrolling in the required course sequence.

**Required (9):**

- ECE 7360 Reading Recovery Clinical For Teachers I (3)
- ECE 7370 Reading Recovery Clinical for Teachers II (3)
- ECE 7380 Reading Recovery Clinical for Teachers III (3)

**Select Two Courses (6):**

- ECE 7280 or EDLA 7280 Early Writing Development (3)
- ECE 7580 or EDLA 7580 Language Foundations of Literacy Learning: From Acquiring Oral
  Language to Reading Words (3)
- EDRD 7260 Early Literacy Development and Instruction (3)
- ECE 8400 Teacher Development (3) [Students must have completed ECE 7390, ECE 7400, ECE
7410, and 6 hours in the content concentration before enrolling in this course.

- ECE 8680 Internship in Teacher Support (3) (prerequisite is ECE 8400)
- Other courses as approved by the concentration advisor.

**Elementary Mathematics Education Concentration (15)**

Candidates must have one year of teaching experience to be eligible to enroll in the mathematics concentration courses for the K-5 Mathematics Endorsement.

**Required (15):**

- ECE 7393 Numbers and Operations in the Elementary Classroom (3)
- ECE 7394 Geometry and Measurement in the Elementary Classroom (3)
- ECE 7395 Rational Numbers and Algebra in the Elementary Classroom (3)
- ECE 7396 Data Analysis and Probability in the Elementary Classroom (3)
- ECE 7740 Internship in Early Childhood Classroom I (3) (Students must enroll in ECE 7740 concurrent with one of the following courses: ECE 7393, ECE 7394, ECE 7395, or ECE 7396.)

Successful completion of ECE 7393, ECE 7394, ECE 7395, ECE 7396, and ECE 7740 qualifies an individual for the K-5 Mathematics Endorsement.

**Elementary Science Education Concentration (15)**

Candidates must have one year of teaching experience to be eligible to enroll in the science concentration courses for the K-5 Science Endorsement.

**Required (12):**

- ECE 8420 Essentials of Elementary Science (3)
- ECE 8430 Mastery of Elementary Science (3)
- ECE 8440 Leadership in Elementary Science (3)
- ECE 7740 Internship in Early Childhood Classroom I (3) (Students must enroll in ECE 7740 concurrent with one of the following courses: ECE 8420,ECE 8430, or ECE 8440.)

Successful completion of ECE 8420, ECE 8430, ECE 8440, and ECE 7740 qualifies an individual for the K-5 Science Endorsement.

**Select One Course (3):**

- ECE 7396 Data Analysis and Probability in the Elementary Classroom (3)
- Other courses as approved by the concentration advisor.

**Teacher Support and Coaching Endorsement (TSC) Concentration (15)**

Candidates must have three years of teaching experience to be eligible to enroll in the 6 hours of Teacher Support and Coaching Endorsement courses. Successful completion of the endorsement courses (ECE 8400 and ECE 8680) qualify an individual for the stand alone TSC Endorsement.

**Required (6):**
• ECE 8400 Teacher Development (3)
• ECE 8680 Internship in Teacher Support (3)

Additional concentration courses – select any three courses (9):

• ECE 7393 Numbers and Operations in the Elementary Classroom (3)
• ECE 7394 Geometry and Measurement in the Elementary Classroom (3)
• ECE 7395 Rational Numbers and Algebra in the Elementary Classroom (3)
• ECE 7396 Data Analysis and Probability in the Elementary Classroom (3)
• ECE 8420 Essentials of Elementary Science (3)
• ECE 8430 Mastery of Elementary Science (3)
• ECE 8440 Leadership in Elementary Science (3)
• ECE 7280 or EDLA 7280 Early Writing Development (3)
• ECE 7580 or EDLA 7580 Language Foundations of Literacy Learning: From Acquiring Oral Language to Reading Words (3)

Capstone (3)
Required (3):

• ECE 7800 Capstone Experience (3)

The Capstone course is completed during the final semester in which the student plans to graduate and with the approval of the concentration advisor.

Program total: minimum of 36 semester hours

**4255 English Education (M.Ed.)**

**Master of Education (M.Ed.) in English Education**

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

The M.Ed. major in English Education requires initial preparation in secondary English education or middle level language arts. This program requires the completion of a professional portfolio in the area of English education.

**Program Degree Requirements**

Master of Education in English Education

**Professional Studies (12)**
The students should take the following professional studies courses early in the program.
Select one (3):

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)

Select one (3):

- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)

Required (3):

- EPY 7080 The Psychology of Learning and Learners (3)

Required (3)

- EDCI 7980 Teaching and Learning in Urban Contexts (3)

Teaching Field/Major (24)
Select English Education Content (15): In consultation with their advisor, students select fifteen hours of coursework appropriate to their interests and goals in English Education and literacy education courses offered at the 7000-or-8000 level.

- EDLA 7150 Children’s and Adolescents’ Literature (3)
- EDLA 7440 Theory and Pedagogy in the Study of Literature (3)
- EDLA 7460 Theory and Pedagogy in the Study of Writing (3)
- EDLA 7480 Theory and Pedagogy in the Study of the English Literature (3)
- EDLA 8330 Language Variation and Learning (3)
- EDRD 7360 Literacy and Digital Media (3)
- EDRD 7550 Literacy Assessment and Curriculum Development (3)
- EDRD 7600 Theory and Pedagogy in the Study of Literacy (3)
- EDRD 7630 Literacy in the Content Areas (3)
- EDRD 7650 Individualized Literacy Assessment and Instruction (3)
- EDRD 8280 Literacy for a Diverse Society (3)
- EDRD 8310 Theoretical Models and Processes for Literacy Learning (3)
- EDRD 8550 Trends and Issues in Language and Literacy Education (3)
- TSLE 7250 Applied Linguistics for the Bilingual/English as a Second Language Teacher (3)
- TSLE 7260 Cultural Issues for the Bilingual/English as a Second Language Teacher (3)
- TSLE 7440 Methods and Materials for the Bilingual/English as a Second Language Teacher (3)

Select English Content (9): In consultation with their advisor, students select nine hours of coursework appropriate to their interests and goals from English courses offered at the 6000, 7000, or 8000 level.

Alternative graduate courses at 6000 and 7000 levels in English, English Education, or related fields may be selected with the consent of the students’ major adviser.
Program total: minimum of 36 semester hours

4260 Health and Physical Education (M.Ed.)

Master of Education (M.Ed.) in Health and Physical Education

Department of Kinesiology and Health
137 Sports Arena, 404/413-8050
http://kh.education.gsu.edu/
Mark Geil, Chair

This M.Ed. major in Health and Physical Education is designed for P-12 health and physical educators who wish to extend their content and pedagogical knowledge for improved professional practice. The program features an integration of health, physical education, and adapted physical education content where it is appropriate and includes a combination of coursework, field experiences, and school-based inquiry. Students can choose to emphasize in health, physical education, or adapted physical education within the program.

Program Admission

Teachers must hold or be eligible for a teacher license to apply for the program. Additionally students will need to submit the following:

- GRE scores within the past 5 years;
- Transcripts (2.5 undergraduate GPA or higher);
- Two letters of recommendation; and
- Statement of professional goals.

Program Academic Regulations

Non-coursework requirements for T-5 certification includes Tort Liability Coverage; first aid and CPR proficiency (including infant, child, adult) or completion of KH 3390.

Program Degree Requirements

Master of Education in Health and Physical Education

Professional Studies (9)
Required (9):

- EPRS 7900 Methods of Research in Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)
- EPY 7080 The Psychology of Learning and Learners (3)

Teaching Field Content (21)
Required (15):
• KH 7400 Leadership and Advocacy in Health, Physical Education, and Adaptive Physical Education (3)
• KH 7420 Curriculum Development for Health, Physical Education, and Adaptive Physical Education (3)
• KH 7855 Instructional Assessment and Program Evaluation in Health, Physical Education, and Adaptive Physical Education (3)
• KH 8350 Supervision in Instructional Settings (3)
• KH 8420 Comprehensive School Physical Activity Programs (3)

Select two courses (6) with advisor’s consent from the list below or any other courses with adviser’s approval:

• KH 7250 Teaching Models for Health and Physical Education (3)
• KH 7390 Technology in the Service of Learning in Health, Physical Education, and Adaptive Physical Education (3)
• KH 7790 Current Issues in School Health and Physical Education (3)
• KH 8410 Classroom Management Theory and Strategy in Health, Physical Education, and Adaptive Physical Education (3)
• KH 8685 Grant Writing and Fundraising in Health, Physical Education, and Adaptive Physical Education (3)

Inquiry for Practice (6)
Required(6):

• KH 7850 Introduction to Action Based Research for Health, Physical Education, and Adaptive Physical Education (3)
• KH 7870 Action Research Project Health and Physical Education, and Adaptive Physical Education (3)

Program total: minimum of 36 semester hours

4265 Literacy Education (M.Ed.)

Master of Education (M.Ed.) in Literacy Education

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

The program for the major in literacy provides for master’s level study of literacy processes and literacy instruction for culturally diverse learners in urban spaces. Students will integrate research and theory in practice and will focus on the following concentrations in the field of literacy: (a) reading specialist, (b) digital literacies, and (c) families, communities, and culture.

This M.Ed. program is a 36-semester hour program (9 hours of Professional Studies; 9 hours in a Literacy
Education Core; 12 hours in a concentration; and 6 hours of electives). The literacy education core meets the requirements for a reading endorsement. The reading specialist concentration is designed to prepare the graduate to work as a teacher of reading and literacy coach in grades P-12 and leads to certification as a Reading Specialist. This degree adheres with the professional standards from the International Literacy Association for reading professionals and classroom teachers of reading/literacy.

Program Admission

Entry into the Reading Instruction/Specialist concentration requires a bachelor’s-level certification in any related area of teaching, three years of teaching experience, competitive GRE scores, 2.5 grade point average, two letters of recommendation, and T4 certification.

Entry into the Digital Literacies concentration and the Families, Communities, and Culture concentration requires a bachelor’s degree, competitive GRE scores, 2.5 grade point average and two letters of recommendation.

Certification Only

Individuals who already have a master’s degree in education will be eligible to be recommended for the Reading Specialist Certification after successfully completing the following course work and key assessments and successfully passing the GACE 117/118 Reading Specialist examinations.

- EDCI 7660 Practicum I (3)
- EDRD 7550 Literacy Assessment and Curriculum Development (3)
- EDRD 7600 Theory and Pedagogy in the Study of Literacy (3)
- EDRD 7630 Literacy in the Content Areas (3)
- EDRD 7650 Individualized Literacy Assessment and Instruction (3)
- EDRD 8610 Professional Learning and Leadership of Literacy (3)

Program Degree Requirements

Master of Education in Literacy Education

Professional Studies (9)

Students are encouraged to complete the following professional studies courses early in their programs.

Select one (3):

- EPRS 7900 Methods of Research (3)
- EPRS 7910 Action Research (3)
- EPRS 7920 Classroom Testing, Grading, and Assessment (3)

Select one (3):

- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)
Required (3):

- EPY 7080 The Psychology of Learning and Learners (3)

Teaching Field/Major (27)

Required Literacy Core (9):

- EDRD 7600 Theory and Pedagogy in the Study of Literacy (3)
- EDRD 7630 Literacy in the Content Areas (3)
- EDRD 7650 Literacy Assessment and Curriculum Development (3)

Choose one concentration (18 hours):

Reading Instruction/Specialist Concentration (18)

Required (15):

- EDCI 7660 Practicum I (3)
- EDLA 7150 Children’s and Adolescents’ Literature (3)
- EDRD 7260 Early Literacy Development and Instruction (3) OR ECE 9420 Early Literacy Learning (3)
- EDRD 7650 Individualized Literacy Assessment and Instruction (3)
- EDRD 8610 Professional Learning and Leadership of Literacy (3)

Teachers who have been selected for training in Reading Recovery may substitute ECE 7370 for EDRD 7650.

Literacy Elective (3):

The course may be selected from the list below (if not taken in a concentration) or from other literacy-related courses with consent of a language and literacy education adviser.

- ECE 7380 Reading Recovery Clinical Teacher III (3)
- ECE 8400 Teacher Development (3)
- ECE 8680 Internship in Teacher Support (3)
- EDCI 7420 Assessment Issues in Middle and Secondary Education (3)
- EDCI 7980 Teaching and Learning in Urban Contexts (3)
- EDCI 8810 Directed Readings and Research in Teaching and Learning (1-3)
- EDLA 7440 Theory and Pedagogy in the Study of Literature (3)
- EDLA 7460 Theory and Pedagogy in the Study of Writing (3)
- EDLA 7480 Theory and Pedagogy in the Study of the English Language (3)
- EDLA 7580/ECE 7580 Language Foundations of Literacy Learning: From Acquiring Oral Language to Reading Words (3)
- EDRD 7360 Literacy and Digital Media (3)
- EDRD 8280 Literacy for a Diverse Society (3)
- EDRD 8550 Trends and Issues in Language and Literacy Education (3)
- EXC 7190 Alternative Approaches to Literacy Instruction for Students with Disabilities (3)
- LT 7360 Integrating Technology in School-Based Learning Environments (3)
• TSLE 7250 Applied Linguistics for the Bilingual/English as a Second Language Teacher (3)
• TSLE 7260 Cultural Issues for the Bilingual/English as a Second Language Teacher (3)
• TSLE 7440 Methods and Materials for the Bilingual/English as a Second Language Teacher (3)

Note: Completion of ECE 8400 and ECE 8680 will qualify candidates for a Teacher Support and Coaching Endorsement.

Digital Literacies Concentration (18)
Choose Four Courses (12):

• ECE 7760 Invent to Learn (3)
• EDLA 7460 Theory and Pedagogy in the Study of Writing (3)
• EDRD 7360 Literacy and Digital Media (3)
• EDRD 8550 Trends and Issues in Language and Literacy Education (3)
• LT 7360 Integrating Technology in School-Based Learning Environments (3)
• Other courses related to this concentration may be selected with consent of advisor.

Literacy Electives (6)
Select 2 courses (6): Courses may be selected from the list below (if not taken in a concentration) or from other literacy-related courses with consent of a language and literacy education adviser.

• ECE 7380 Reading Recovery Clinical Teacher III (3)
• ECE 8400 Teacher Development (3)
• ECE 8680 Internship in Teacher Support (3)
• EDCI 7420 Assessment Issues in Middle and Secondary Education (3)
• EDCI 7980 Teaching and Learning in Urban Contexts (3)
• EDCI 8810 Directed Readings and Research in Teaching and Learning (1-3)
• EDLA 7150 Children’s and Adolescents’ Literature (3)
• EDLA 7440 Theory and Pedagogy in the Study of Literature (3)
• EDLA 7460 Theory and Pedagogy in the Study of Writing (3)
• EDLA 7480 Theory and Pedagogy in the Study of the English Language (3)
• EDLA 7580/ECE 7580 Language Foundations of Literacy Learning: From Acquiring Oral Language to Reading Words (3)
• EDRD 7360 Literacy and Digital Media (3)
• EDRD 7650 Individualized Literacy Assessment and Instruction (3)
• EDRD 8280 Literacy for a Diverse Society (3)
• EDRD 8550 Trends and Issues in Language and Literacy Education (3)
• EDRD 8610 Professional Learning and Leadership of Literacy (3)
• EXC 7190 Alternative Approaches to Literacy Instruction for Students with Disabilities (3)
• LT 7360 Integrating Technology in School-Based Learning Environments (3)
• TSLE 7250 Applied Linguistics for the Bilingual/English as a Second Language Teacher (3)
• TSLE 7260 Cultural Issues for the Bilingual/English as a Second Language Teacher (3)
• TSLE 7440 Methods and Materials for the Bilingual/English as a Second Language Teacher (3)

Note: Completion of ECE 8400 and ECE 8680 will qualify candidates for a Teacher Support and Coaching Endorsement.
Families Communities and Culture Concentration (18)
Required (3):

- EDCI 7660 Practicum I (3)

Select Three Courses (9):
Courses may be selected from the list below or from other literacy-related courses with consent of a language and literacy education adviser.

- EDCI 7980 Teaching Learning in Urban Contexts (3)
- EDLA 8330 Language Variation and Learning (3)
- EDRD 8210 Family and Community Literacies (3)
- EDRD 8280 Literacy for a Diverse Society (3)
- EPY 7500 Individual and Family Over the Lifespan (3)
- TSLE 7250 Applied Linguistics for the Bilingual/English as a Second Language Teacher (3)
- TSLE 7260 Cultural Issues for the Bilingual/English as a Second Language Teacher (3)
- TSLE 7440 Methods and Materials for the Bilingual/English as a Second Language Teacher (3)

Note: Completion of TSLE 7250, TSLE 7260, TSLE 7440, and EDCI 7660 along with a portfolio will qualify candidates for an ESOL Endorsement at the level of their base certificate.

Literacy Electives (6)
Select 2 courses (6): Courses may be selected from the list below (if not taken in a concentration) or from other literacy-related courses with consent of a language and literacy education adviser.

- ECE 7380 Reading Recovery Clinical Teacher III (3)
- ECE 8400 Teacher Development (3)
- ECE 8680 Internship in Teacher Support (3)
- EDCI 7420 Assessment Issues in Middle and Secondary Education (3)
- EDCI 7980 Teaching and Learning in Urban Contexts (3)
- EDCI 8810 Directed Readings and Research in Teaching and Learning (1-3)
- EDLA 7150 Children’s and Adolescents’ Literature (3)
- EDLA 7440 Theory and Pedagogy in the Study of Literature (3)
- EDLA 7460 Theory and Pedagogy in the Study of Writing (3)
- EDLA 7480 Theory and Pedagogy in the Study of the English Language (3)
- EDLA 7580/ECE 7580 Language Foundations of Literacy Learning: From Acquiring Oral Language to Reading Words (3)
- EDRD 7360 Literacy and Digital Media (3)
- EDRD 7650 Individualized Literacy Assessment and Instruction (3)
- EDRD 8280 Literacy for a Diverse Society (3)
- EDRD 8550 Trends and Issues in Language and Literacy Education (3)
- EDRD 8610 Professional Learning and Leadership of Literacy (3)
- EXC 7190 Alternative Approaches to Literacy Instruction for Students with Disabilities (3)
- LT 7360 Integrating Technology in School-Based Learning Environments (3)
- TSLE 7250 Applied Linguistics for the Bilingual/English as a Second Language Teacher (3)
- TSLE 7260 Cultural Issues for the Bilingual/English as a Second Language Teacher (3)
- TSLE 7440 Methods and Materials for the Bilingual/English as a Second Language Teacher (3)
Note: Completion of ECE 8400 and ECE 8680 will qualify candidates for a Teacher Support and Coaching Endorsement.

Students must complete a portfolio as an exit requirement.

Program total: minimum of 36 semester hours

4270 Mathematics Education (M.Ed.)

Master of Education (M.Ed.) in Mathematics Education

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

The mission of the Master of Education (M.Ed.) degree with a major in Mathematics Education is to prepare educators (i.e., teachers and other professional school personnel) who are: 1) informed by research, knowledge, and reflective practice; 2) empowered to serve as change agents; 3) committed to and respectful of all learners; and 4) engaged with learners, their families, schools, and local and global communities. The M.Ed. Mathematics Education program ensures that candidates gain increased mathematics knowledge and pedagogical knowledge, demonstrate success in bringing middle and high school students from diverse backgrounds to high levels of learning, and use technology skillfully as a tool for teaching and learning mathematics.

The program’s chief goal—to strengthen secondary students’ mathematical understandings— is achieved, in part, by providing mathematics teachers with opportunities to deepen their understandings of learners from diverse backgrounds and to explore issues of equity in mathematics classrooms within urban environments. The program prepares teachers to conduct action research in the context of their own classrooms in order to inform instruction, and to share the knowledge gained in a professional community of teachers. Through engaging teachers in advanced mathematics coursework, the program strengthens teachers’ mathematical content knowledge. In general, the Program of Study is framed by the principles and standards of the National Council of Teachers of Mathematics and the core propositions of the National Board for Professional Teaching Standards.

Program Degree Requirements

Master of Education in Mathematics Education

Professional Studies (9)
Select one (3):

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)
Select one (3):

- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)

Required (3):

- EPY 7080 The Psychology of Learning and Learners (3)

Teaching Field/Major (27)
Required (9):

- EDMT 8430 Sociocultural and Sociohistorical Issues of Mathematics Education (3)
- EDMT 8820 Ethnomathematics and the Historical Development of Mathematics (3)
- LT 7360 Integrating Technology in School-Based Learning Environments (3)

Choose One Course (3)

- EDMT 7360 Integration of Technology in Mathematics Instruction (3)
- EDMT 7560 Theory and Pedagogy of Mathematics Instruction (3)
- EDMT 8290 Study of Learning and Instruction in Mathematics (3)
- EDMT 8420 Topics in School Mathematics Curriculum (3)
- EDMT 8550 Trends and Issues of Teaching Mathematics (3)

Required 15 hours with MATH prefix
With the consent of their adviser, students select coursework numbered 6000 or higher related to
mathematics. The coursework should lead to the development of an understanding of the history,
philosophy, conceptual underpinnings, and applications of mathematics.

Program total: minimum of 36 semester hours

4280 Mathematics Education (M.Ed.) Online

Master of Education (M.Ed.) in Mathematics Education Online Program

Department of Middle and Secondary Education
639 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

The online program in M.Ed. major in Mathematics Education is offered through the Georgia
ONmyLINE (GOML) system. GOML provides access to a full array of online and distance education
offerings from the 31 colleges and universities in the University System of Georgia. To find out more about
GOML and to apply, please go to http://education.gsu.edu/online-education/.
The M.Ed. major in Mathematics Education Online Program is a parallel program to the traditional Master of Education Mathematics that has been offered at Georgia State University as a major since Fall 1982. This entirely online program is designed to be completed in four semesters. The M.Ed. major in Mathematics Education seeks to advance early and mid-career mathematics teachers’ ability to effectively implement standards-based instructional practices. The program’s chief goal – to strengthen secondary students’ mathematical understandings – is achieved, in part, by providing mathematics teachers with opportunities to deepen their understandings of learners from diverse backgrounds and to explore issues of equity in mathematics classrooms. The program prepares teachers to conduct action research in the context of their own classrooms in order to inform instruction, and to share the knowledge gained in a professional community of teachers. Through engaging teachers in advanced mathematics coursework, the program strengthens teachers’ mathematical content knowledge. In general the program of study is framed by the Extended Georgia Framework for Teaching, the principles and standards of the National Council of Teachers of Mathematics and the core propositions of the National Board for Professional Teaching Standards.

The online program is 36 hours (9 hours of college core courses; 9 hours mathematics education, 15 hours Mathematics, 3 hours of teachers and technology).

The M.Ed. online program will be available to teachers holding a clear and renewable T4 certificate in Math.

**Program Degree Requirements**

**Master of Education in Mathematics Education Online Program**

**Professional Studies (9)**

Required (9):

- EPRS 7900 Methods of Research in Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)
- EPY 7080 The Psychology of Learning and Learners (3)

**Teaching Field/Major (27)**

Required (12):

- EDMT 7360 Integration of Technology in Mathematics Instruction (3)
- EDMT 7560 Theory and Pedagogy of Mathematics Instruction (3) Take with EPRS 7900
- EDMT 8420 Topics in School Mathematics Curriculum (3)
- EDMT 8430 Sociocultural and Sociohistorical Issues of Mathematics Education (3)

Select 5 courses (15 hours):

- MATH 6301 College Geometry (3)
- MATH 6435 Linear Algebra (3)
- MATH 6547 Introduction to Mathematical Statistics (3)
- MATH 7420 Applied Combinatorics (3)
MATH 7610 Special Problems and Problem Solving (3)
MATH 7820 Historical and Cultural Development of Mathematics I (3)
MATH 7821 Historical and Cultural Development of Mathematics II (3)
With the consent of their adviser, students can select other coursework with the MATH prefix numbered 6000 or higher related to mathematics. The coursework should lead to the development of an understanding of the history, philosophy, conceptual underpinnings, and applications of mathematics.

Program total: minimum of 36 semester hours

4310 Reading, Language, and Literacy Education (M.Ed.) Online

Master of Education (M.Ed.) in Reading, Language, and Literacy Education Online Program

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

The online program in M.Ed. major in Reading, Language, and Literacy Education (ESOL) is offered through the Georgia ONmyLINE (GOML) system. GOML provides access to a full array of online and distance education offerings from the 31 colleges and universities in the University System of Georgia. To find out more about GOML and to apply, please go to http://education.gsu.edu/online-education/.

The M.Ed. major in Reading, Language, and Literacy Education (ESOL) Online Program provides advanced teacher preparation in ESOL for individuals holding bachelor’s degree and who have an interest in English to speakers of other languages in P-12 settings. This program addresses the needs of teachers who work with literacy learners from diverse cultures and is open to all certified teachers, regardless of their initial preparation area. The course of study has been designed to meet the Georgia Professional Standards System requirements for an ESOL Endorsement (P-12) and the requirements for a Reading Endorsement (at the level of the candidate’s base certificate).

The M.Ed. program is 36 hours (9 hours of college core courses; 9 hours English as a Second Language; 9 hours reading endorsement; a choice of 6 out of 9 offered hours of applied linguistics, and 3 hours of practicum). Candidates are required to take TSLE 7440 prior to enrolling in practicum hours and EDRD 7600 or EDRD 7630 prior to enrolling in EDRD 7650. M.Ed. students could enroll in any semester and complete the course work within 4 semesters if they averaged 3 courses per semester. This degree addresses the professional standards from IRA for classroom teachers of reading and from TESOL for teachers of ELL learners.

Program Admission

Entry into the program for the major in reading, language, and literacy education requires a bachelor’s-level certification in any area of teaching or a service certificate in speech-language pathology.
Program Degree Requirements

Master of Education in Reading, Language, and Literacy Education Online Program

Professional Studies (9)
Required (9):

- EPRS 7900 Methods of Research (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)
- EPY 7080 The Psychology of Learning and Learners (3)

Teaching Field/Major (27)
Required (21):

- EDCI 7660 Practicum I (3)
- EDRD 7600 Theory and Pedagogy in the Study of Literacy (3)
- EDRD 7630 Literacy in the Content Areas (3)
- EDRD 7650 Individualized Literacy Assessment and Instruction (3)
- TSLE 7250 Applied Linguistics for the Bilingual/English as a Second Language Teacher (3)
- TSLE 7260 Cultural Issues for the Bilingual/English as a Second Language Teacher (3)
- TSLE 7440 Methods and Materials for the Bilingual/English as a Second Language Teacher (3)

Select two courses (6):

- AL 8240 General Linguistics (3)
- AL 8460 English Grammar for ESL/EFL Teachers (3)
- AL 8470 Socio Linguistics (3)
- EDRD 7550 Literacy Assessment and Curriculum Development (3)*
- EDRD 8610 Professional Learning and Leadership of Literacy (3)*

*NOTE: Successful completion of EDRD 7550 and EDRD 8610 (see * above) and a passing score on the Reading Specialist GACE test will lead to certification as a Reading Specialist in the state of Georgia.

Students must complete a portfolio as an exit requirement.

Program total: minimum of 36 semester hours

4320 School Counseling (M.Ed.)

Master of Education (M.Ed.) in School Counseling

Department of Counseling and Psychological Services
950 College of Education Building, 404/413-8010
http://cps.education.gsu.edu/
Dr. Brian Dew, Chair
The M.Ed. major in School Counseling prepares students for State Certification in Georgia. Degree requirements may exceed the minimum number of hours for professional certification. The Master of Education program in School Counseling is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) and the National Council for Accreditation of Teacher Education. Students who complete the program are prepared to take the GACE (Georgia Assessments for the Certification of Educators) subject tests in school counseling as well as the NCC (National Certified Counselor) exam.

Program Objectives

- Students will develop skills to enable them to provide individual counseling services, group counseling experiences, and developmentally appropriate classroom guidance lessons for children and adolescents that are consistent with the ASCA National Model for School Counseling Programs.
- Students will develop skills to enable them to understand children and adolescents from a holistic, developmental approach, grounded in theory that leads to appropriate strategies to enhance the adjustment and learning of all students.
- Students will develop skills to enable them to use data to develop a comprehensive, developmentally appropriate guidance program and to evaluate the program’s effectiveness.
- Students will develop skills to enable them to understand child and adolescent academic, career, and personal/social needs in the context of a socioculturally diverse school environment.
- Students will develop skills to enable them to provide a career guidance program that is developmentally appropriate.
- Students will develop skills to enable them to provide collaborative consultation services to teachers, parents, administrators, other school professionals and community resources.
- Students will develop skills that will enable them to provide appropriate counseling and consultation services for special needs students, their families and teachers.
- Students will develop leadership skills to enable them to advocate for students, parents, and others especially with regard to closing achievement gaps between diverse groups.
- Students will develop skills that will enable them to work within the framework of ethical guidelines of the American Counseling Association and the American School Counselors Association.
- Students will learn their legal responsibilities as school counselors.
- Students will develop skills that will enable them to work within the framework of an existing school guidance program and work in collaboration with other counseling and educational professionals to enhance learning for all students.
- Students will develop skills that will enable them to use technology in appropriate ways with students, parent, teachers, and other school staff.
- Students will use current school counseling research to develop, monitor, and evaluate effective counseling programs.
- Students in this program are expected to follow the latest version of the American Counseling Association (ACA) Code of Ethics, and the most recent version of the American School Counselor Association (ASCA) Ethical Standards for School Counselors.

Program Academic Regulations

A minimum of 60 semester hours of graduate coursework must be completed with a minimum cumulative
grade point average of 3.00. Degree objectives may require more than the minimum number of hours to meet certain professional standards.

M.Ed. School Counseling curriculum is designed in a cohort format. This requires students take prescribed classes in certain semesters, sharing the educational experience with students who have the same educational needs. If a student must deviate from the cohort schedule there is the possibility the courses may not be available in semesters other than those in which they are scheduled. In addition, students entering the cohort must commit to doing their Practicum/Internship in a Professional Development School.

Delivery systems used for instructions include: lecture, group work, required readings, presentations using advanced technology, simulated activities, and applied practice followed by individual and group supervision in some courses.

During the first term of enrollment, all school counseling students must complete CPS 6020 (Introduction to Elementary and Middle School Counseling) or CPS 6030 (Introduction to Secondary School Counseling) with a grade of “B” or higher. A grade lower than “B” requires repetition of the course. During the academic term in which CPS 6020 or CPS 6030 is first taken, other courses may be taken concurrently. However, when repetition of CPS 6020 or CPS 6030 is necessary, no other CPS coursework may be taken concurrently or prior to successful completion of CPS 6020 or CPS 6030. Students will be allowed to retake CPS 6020 or CPS 6030 for this reason only once. All school counseling students must pass the GACE Content Assessments in school counseling to graduate from the Master of Education program in School Counseling.

For elementary-middle school counseling students to be eligible to begin the applied practice (CPS 7661), the following courses must be successfully completed or taken concurrently with CPS 7661: CPS 6020, CPS 6150, CPS 6410, CPS 6450, CPS 7260, CPS 7300, CPS 7340, CPS 7500 or EPY 7500. Additionally, the following courses must be successfully completed before students are eligible to take internship (CPS 7681): CPS 8260, CPS 8380, CPS 8400 and CPS 8470. CPS 7550 and CPS 8431 or CPS 8600 must be taken concurrently with the internship sequence (CPS 7681). Students are approved to begin the applied practice based upon the number of hours and courses they have completed in their programs.

For secondary school counseling students to be eligible to begin the applied practice CPS 7661, the following courses must be successfully completed or taken concurrently with CPS 7661: CPS 6030, CPS 6150, CPS 6410, CPS 6450, CPS 7260, CPS 7300, CPS 7340, CPS 7500 or EPY 7500. Additionally, the following courses must be successfully completed before students are eligible to take internship (CPS 7681): CPS 8260, CPS 8380, CPS 8470 and one of the following: CPS 8400 or CPS 8460. CPS 7550 and CPS 8431 or CPS 8600 must be taken concurrently with the internship sequence (CPS 7681). Students are approved to begin the applied practice based upon the number of hours and courses they have completed in their programs.

The School Counseling applied practice (CPS 7661) must be taken the spring of the first year of the School Counseling program and the internship sequence (CPS 7681) must be taken in fall and spring semesters of the second year of the School Counseling program. Students cannot register for CPS 7661 and CPS 7681 without being admitted into the School Counseling program.

School counseling students must attend one applied practice/internship orientation workshop before
turning in the applied practice application, and becoming eligible to register for CPS 7661 and CPS 7681. The applied practice internship workshops are held in the student’s first fall semester – dates are posted online at the midpoint of the first fall semester. If students do not attend this workshop, they cannot participate in CPS 7661 in the upcoming spring and CPS 7681 in the upcoming fall and spring.

Evaluation of a student’s performance is continuous and involves consideration of the student’s academic performance as well as the student’s performance in laboratory, applied practice, and internship classes. A student may be dropped from a course, the program, or both if the welfare of the student’s clientele or prospective clientele or the functioning of a school or agency is, in the judgment of the CPS faculty, in jeopardy as a result of the student’s behavior.

School counseling students who do not already have initial certification in the State of Georgia must successfully complete EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities and the appropriate GACE Content Assessment before Georgia State University will recommend them for graduation and/or certification in School Counseling.

Departmental Endorsement Policy

The Department of Counseling and Psychological Services requires that program faculty endorsement be given only for the program for which graduate students have been prepared.

Program Degree Requirements

Master of Education in School Counseling

Professional Studies (9)

Required (9):

- CPS 8260 Program Evaluation, Advocacy, and Leadership in School Counseling (3)
- EPRS 7900 Methods of Research in Education (3)
- CPS 7340 Social/Cultural Issues in Counseling and Psychological Services (3)

Teaching Field/Major (33)

Required (33):

- CPS 6150 Ethical and Legal Standards in Counseling and Psychological Services (3)
- CPS 6410 Basic Counseling Skills (3)
- CPS 6450 Group Counseling Systems (3)
- CPS 7260 Counseling Systems and Interventions (3)
- CPS 7300 Career Theory, Assessment, and Intervention (3)
- CPS 7450 Educational and Psychological Appraisal (3)
- CPS 7500/EPY 7500 Individual and Family Over the Life Span (3)
- CPS 7550 Consultation in School Counseling (3)
- CPS 8380 Family Systems and Interventions (3)
- CPS 8431 Counseling Skills and Strategies for School-Aged Children (3) or CPS 8600 Advanced Play Therapy (3)
Select one of the following two options (9):

**Elementary-Middle Grades School Counseling (9)**
Required (6):

- CPS 6020 Introduction and Professional Orientation to Elementary and Middle School Counseling (3)
- CPS 8400 Introduction to Play Therapy (3)

Elective (3)
Choose One Course (3)

- CPS 8100 Psychobehavioral Diagnosis (3)
- CPS 8300 Traumatology (3)
- CPS 8540 Child/Adolescent Psychopathology (3)
- CPS 8600 Advanced Play Therapy (3)
- EPEL 7000 Educational Leadership and Organizational Culture (3)
- EPEL 7410 Instructional Leadership (3)
- EPRS 7910 Action Research (3)

**Secondary School Counseling (9)**
Required (3):

- CPS 6030 Introduction and Professional Orientation to Secondary School Counseling (3)

Select One Course (3):

- CPS 8400 Introduction to Play Therapy (3)
- CPS 8460 Biopsychosocial Aspects of Addiction (3)

Elective (3)
Choose One Course (3)

- CPS 8100 Psychobehavioral Diagnosis (3)
- CPS 8300 Traumatology (3)
- CPS 8540 Child/Adolescent Psychopathology (3)
- CPS 8600 Advanced Play Therapy (3)
- EPEL 7000 Educational Leadership and Organizational Culture (3)
- EPEL 7410 Instructional Leadership (3)
- EPRS 7910 Action Research (3)

**Applied Practice (9)**
Required (3):

- CPS 7661 Applied Practice I: School Counseling (3)
Required (6):

- CPS 7681 Internship: School Counseling (6)

Program total: minimum of 60 semester hours

4330 School Psychology (M.Ed.)

Master of Education (M.Ed.) in School Psychology

Department of Counseling and Psychological Services
950 College of Education Building, 404/413-8010
http://cps.education.gsu.edu/
Brian Dew, Chair

The professional in school psychology is educated in the major disciplines of education and psychology. He or she is equipped to undertake and manage processes and problems related to the education and development of children within schools. A major portion of his or her training concerns the interaction of the child with the social institution of the school. Because of this special orientation, the school psychologist must be well grounded in the philosophy and methods of education and must achieve a high level of understanding of the psychological processes such as learning, personality, and social competence.

Program Objectives

The school psychologist is an applied psychologist who brings skills, instrumentation, and techniques to bear on learning and behavioral problems in the school setting. He or she must be prepared to:

- Intervene constructively when acute and chronic behavior problems occur.
- Consult effectively with change agents in the child’s life (i.e., parents, administrators, teachers).
- Participate in the assessment of individual learning problems.
- Participate in education program planning and management.
- Provide information to promote effective use of the resources of agencies outside the school setting.
- Design and carry out action and situational research requiring knowledge of the school and of the learner in interaction in such a setting.

Program Academic Regulations

The M.Ed. major in School Psychology requires a minimum of 36 semester hours with a minimum cumulative grade-point average of 3.00.

This program is an integrated component of the combined Master’s/Ed.S. program in School Psychology and is taken concurrently with the Ed.S. program. This program does not lead to certification in the state of Georgia. The Master of Education degree in School Psychology is prerequisite to the Specialist in Education (Ed.S.) degree with a major in School Psychology.
The master’s degree is ideally completed in four consecutive academic terms, commencing fall term. There are two major training thrusts in the School Psychology program. The training first provides a knowledge base about schools, instructional methods, research methods, learning, and developmental issues. Secondly, application skills are developed in the area of cognitive and achievement assessment as well as interviewing. Skills in both teacher and parent consultation are developed.

The M.Ed./Ed.S. School Psychology program is not designed for part-time students. Each semester students are expected to enroll in 12-14 semester credits. Students may distribute their coursework to a maximum of four years rather than the usual three. However, they must maintain continuous enrollment of at least 9 credits per semester during this period (i.e., full time enrollment). The usual period of study in the M.Ed./Ed.S School Psychology program including internship, is three years. Some coursework can be completed during the summers. Under highly unusual circumstances (e.g., medical emergencies) the program faculty will consider requests to extend completion of the program beyond 4 years. Under unusual circumstances, students can apply for a one year leave of absence from the program. Should a student drop out of the program prior to completion, reapplication for admission is necessary. There is no guarantee the student will be readmitted to the program. If a student deviates from a normal schedule, then there is the possibility that the course may not be available in semesters other than those which they are scheduled.

All school psychology students must complete CPS 6040, CPS 7490, CPS 7495, CPS 7510, CPS 7515, CPS 7520, CPS 7570, CPS 8440, and CPS 8570 with grades of “B” or higher. A grade lower than “B” requires repetition of the course. Students cannot repeat a course more than once. Unless otherwise indicated, students may not register for any other CPS course until they have completed CPS 6040 with a grade of “B” or higher. For School Psychology students to be eligible to register for the CPS 7662 Applied Practice I, they must have completed the following courses: CPS 6040, CPS 6150, CPS 6410, CPS 7490, CPS 7495, CPS 7510, CPS 7515, CPS 7520, and CPS 8440.

All master’s students must meet a comprehensive exam requirement to graduate from the School Psychology program. All school psychology students must pass the Praxis II Assessment in school psychology and their test scores must be reported to Georgia State University prior to graduation.

Students seeking certification from the State of Georgia Professional Standards Commission are required to pass the GACE Program Admission Assessment Assessment (or provide an exemption) and GACE Content Assessment in School Psychology.

Evaluation of a student’s performance is continuous and involves consideration of the student’s academic performance as well as the student’s performance in laboratory, applied practice, and internship classes. A student may be dropped from a course, the program, or both if the welfare of the student’s clientele or prospective clientele or the functioning of a school or agency is, in the judgment of the CPS faculty, in jeopardy as a result of the student’s behavior. Students in this program are expected to follow the latest version of the National Association of School Psychologists (NASP) Principles for Professional Ethics.

Departmental Endorsement Policy

The Department of Counseling and Psychological Services requires that program faculty endorsement be given only for the program for which the graduate students have been prepared.
Program Degree Requirements

Master of Education in School Psychology

Professional Studies (9)
Required (6):

- EPRS 7900 Methods of Research in Education (3)
- Any 7000-level or above EPY course in Learning Theory (3)

Select One (3):

- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)

Major (27)
Required (27):

- CPS 6040 Introduction to School Psychological Services (3)
- CPS 6410 Basic Counseling Skills (3)
- CPS 7490 Individual Assessment I (3)
- CPS 7495 Individual Assessment I: Lab (2)
- CPS 7510 Individual Assessment II (3)
- CPS 7515 Individual Assessment II: Lab (2)
- CPS 7520 Data-Based Decision Making for Academic Interventions in School Psychology (2)
- CPS 7570 Psychological Consultation in the Schools I (3)
- CPS 7662 Applied Practice I: School Psychology (3)
- CPS 8440 Social/Emotional Assessment of Children and Adolescents (3)

Program total: minimum of 36 semester hours

4340 Science Education (M.Ed.) Online

Master of Education (M.Ed.) in Science Education Online Program

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

The online program in M.Ed. major in Science Education is offered through the Georgia ONmyLINE (GOML) system. GOML provides access to a full array of online and distance education offerings from the 31 colleges and universities in the University System of Georgia. To find out more about GOML and to apply, please go to http://education.gsu.edu/online-education/.
The M.Ed. major in Science Education Online Program is designed for teachers who already hold a clear, renewable certificate in science at the secondary level. This program will provide students an opportunity to expand their knowledge of science content which will aid them in implementing a standards based curriculum. If teachers become proficient in their implementation of a standards based curriculum then ultimately student performance will improve as well as their knowledge of science. In addition to strengthening their knowledge base, the M.Ed. Science Education (GOML) will enhance the teaching dispositions of the participants which will provide them opportunities to deepen their understandings of learners from diverse backgrounds and to explore issues of equity in the science classroom. A need exists for science teachers to expand their knowledge of research; therefore, program participants will be expected to engage in action research in the context of their own classrooms in order to inform instruction, and to share the knowledge gained in a professional community of teachers. The ultimate goal of the program is to engage teachers in advanced courses that will strengthen their scientific content and broaden their pedagogical practices. In general the Program of Study is framed by the principles and standards of the Next Generation Science Standards and the core propositions of the National Board for Professional Teaching Standards.

Program Degree Requirements

Master of Education in Science Education Online Program

Professional Studies (9)
Required (9):

- EPRS 7900 Methods of Research in Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)
- EPY 7080 The Psychology of Learning and Learners (3)

Teaching Field/Major (27)
Required (12):

- EDSC 7550 Theory and Pedagogy in Science Instruction (3)
- EDSC 8400 Strategies of Instruction in Science (3)
- EDSC 8550 Trends and Issues in Teaching Science (3)
- EDSC 8600 Science in the School Curriculum (3)

Required (15 hours):

- BIOL 7440 Fundamentals of Evolution (3)
- EDSC 8430 Nature of Science (3)
- GEOS 6097 Topics in Geological Sciences (3)
- PHYS 7110 Conceptual Physics I (3)
- PHYS 7120 Conceptual Physics II (3)
- With the consent of their advisor, students select from among 6000 – 8000 level courses with prefixes ASTR, BIOL, GEOL, GEOG, PHIL, PHYS, or NSCI, related to science in terms of its history, philosophy, conceptual underpinnings, applications and relationships to the secondary curriculum.
Students must complete a portfolio as an exit requirement.

Program total: minimum of 36 semester hours

4355 Special Education (M.Ed.)

Master of Education (M.Ed.) in Special Education

Department of Educational Psychology, Special Education, and Communication Disorders
835 College of Education Building, 404-413-8040
http://esc.education.gsu.edu/
Laura Fredrick, Chair

The M.Ed. major in Special Education provides students with the depth of knowledge and breadth of skill in educating students with disabilities required of a “master teacher” across a variety of educational environments (e.g. classrooms, clinics, hospitals, facilities). Students may concentrate on one of five disability areas: early childhood special education; individuals with autism spectrum disorders; hearing loss; mild to moderate behavior and learning disabilities (e.g., dyslexia and other specific learning disabilities, attention disorders, emotional behavior disorders, mild intellectual disabilities); or moderate, severe, and profound intellectual disabilities. The M.Ed. program is an advanced program that emphasizes research-based strategies, effective pedagogy, and data-based decision making. Students are provided advanced instruction on how to select appropriate curricula, employ effective methods of instruction, make assessment based decisions, and utilize effective educational and student management procedures. Additionally, students are prepared to work collaboratively with other educational professionals and families, and exhibit the highest standards of professionalism while maximizing pupil learning and development. Because the M.Ed. is an advanced degree, students entering this program must already hold a bachelor’s degree in a related area from an accredited college/university program.

This major is appropriate for diverse individuals interested in working with students with disabilities.

- **Students with existing teaching certifications.** This M.Ed. will lead to a Level 5 advanced degree and certification upgrade.
- **Students without backgrounds in education.** This M.Ed. may also be appropriate for those who have a background in a related field (e.g. psychology, social work, criminology, speech and language, general education, etc.), do not want to be a classroom teacher, but are interested in obtaining advanced pedagogy, methods, and strategies to work with individuals with disabilities in non-educational settings such as clinics, hospitals, and facilities. Of note, the M.Ed. Special Education program does not result in a teaching certificate for school/classroom licensure.

Students who wish to gain initial certification in special education will need to complete our M.A.T. Special Education program.
Program Admission

Admissions criteria help to ensure that candidates are prepared for the rigorous curriculum requirements of the graduate program. Candidates must meet all admission requirements of the College of Education as stipulated by the Office of Academic Assistance and Graduate Admissions.

Candidates with an existing teacher certification who wish this degree to count for a certification upgrade must meet the following criteria prior to program admission.

- undergraduate degree from an accredited college or university;
- undergraduate GPA of 2.5 or higher;
- official scores on the Graduate Record Exam (GRE) from the past five years;
- evidence of a T4 certificate in Special Education;
- candidates must also submit two academic or professional letters of recommendation, a resume, and a goal statement; and
- candidates may be required to participate in an interview.

Candidates without backgrounds in education must meet the following criteria prior to program admission:

- undergraduate degree from an accredited college or university;
- undergraduate GPA of 2.5 or higher;
- official scores on the Graduate Record Exam (GRE) from the past five years;
- candidates must also submit two academic or professional letters of recommendation, a resume, and a goal statement; and
- candidates may be required to participate in an interview.

Program Academic Regulations

Students in the M. Ed. in Special Education fulfill the college’s Comprehensive Examination requirement by completing one of four capstone scholarly activities, as approved by their major advisor: (1) a master’s research thesis, (2) a master’s action research project, (3) a master’s project, or (4) a master’s examination:

- The master’s research thesis is a basic research project conducted by the student under the supervision of the chair of his or her advisory committee. At the prospectus defense students are required to propose to their committee their detailed plans for data collection, including the timeline, the method, the people involved in data collection, and the potential use of previously collected data related to the thesis. Only after passing the prospectus defense and receiving approval from the GSU Institutional Review Board may students begin to pursue research participants.
- The master’s action research project is an applied project conducted by the student under the supervision of the chair of his or her advisory committee. At the prospectus defense students are required to propose to their committee their detailed plans for data collection, including the timeline, the method, the people involved in data collection, and the potential use of previously collected data related to the project. Only after passing the prospectus defense and receiving approval from the GSU Institutional Review Board may students begin to pursue research participants.
- The master’s project consists of a comprehensive written review of literature on a selected topic. A written prospectus describing in detail the proposed project must be submitted to and approved by
all three members of the students’ advisory committee before the work is begun.

- The master’s examination consists of a 4-hour, in-house written examination on a question or questions to be determined by the program faculty. The purpose of the exam is to allow the student to demonstrate mastery of the critical content within their concentration area in the M.Ed. in Special Education.

In addition to these regulations:

- The Department of Educational Psychology, Special Education, and Communication Disorders requires that students earn a grade of “B” or higher in each course in the teaching field/major. If students earn a grade below “B” in a course, they must repeat that course. Students will be allowed to repeat a course in this manner one time. Students who fail to earn a grade of “B” or higher after taking the course a second time will be scholastically excluded from this major.
- Evaluation of a student’s performance is continuous and involves consideration of the student’s performance in all academic settings. Inappropriate or unprofessional conduct by a student may result in the student being withdrawn from a course or the program. If removal from a course is necessary, the student will receive the grade of “F” and may be judged ineligible to re-enroll in the course.

Program Degree Requirements

Master of Education in Special Education

Professional Studies (9)
Select one course (3):

- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)

Select one course (3):

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)

Required (3):

- EPY 7080 The Psychology of Learning and Learners (3)

Teaching Field/Major and Electives (27-30)
Choose One Concentration: Autism Spectrum Disorders, Behavior/Learning Disabilities, Deaf Education (Deaf/Hard of Hearing), Early Childhood Special Education, Intellectual Disabilities

Autism Spectrum Disorders Concentration (27)
Required (21):
• EPY 8020 Principles of Applied Behavior Analysis
• EPY 8850 Intro to Single-Case Methodology
• EXC 7310 Strategies for Challenging Behaviors (3)
• EXC 7320 Methods of Teaching Low-Functioning Students with Autism Spectrum Disorders (3)
• EXC 7325 Methods of Teaching High-Functioning Students with Autism Spectrum Disorders (3)
• EXC 7941 Current Issues in Special Education (3)
• EXC 7980 Research in Special Education: Master’s Capstone (3)

Elective: choose 2 courses (6):

• EXC 7170 Methods for Teaching Functional Life Skills to Students with Behavior and Learning Disabilities (3)
• EXC 7190 Alternative Approaches to Literacy Instruction for Students with Disabilities (3)
• EXC 7980 Research in Special Education: Master’s Capstone (3): For students who choose to complete the master’s research thesis or action research project, an additional 3 hours of EXC 7980 Research in Special Education: Master’s Capstone (3) must be taken as one of the required electives so that students can complete their capstone scholarly activity.
• Other courses with the approval of the program advisor.

Students who have completed any of the above coursework may choose additional courses of intellectual and professional interest with advisor approval.

Behavior/Learning Disabilities Concentration (27)
Required (21):

• EXC 7130 Assessment for Instructional Planning (3)
• EXC 7150 Methods for Teaching Academics to Students with Behavior and Learning Disabilities (3)
• EXC 7160 Strategies for Social and Emotional Behavior in Students with Behavior and Learning Disabilities (3)
• EXC 7170 Methods for Teaching Functional Life Skills to Students with Behavior and Learning Disabilities (3)
• EXC 7460 Mathematical Instruction in Special Education I (3)
• EXC 7941 Current Issues in Special Education (3)
• EXC 7980 Research in Special Education: Master’s Capstone (3)

Elective (6):

• The student will select 6 semester hours of program-related graduate-level coursework with consent of their advisor. The purpose of the elective hours is to enable students to create a program of study to fit their individual interests as it relates to students with behavior/learning disabilities. Students will be provided with suggested areas of additional study and appropriate coursework (e.g., Language and Literacy; Mathematics; Science/STEM; Urban Education; Challenging Behaviors; Bilingual/English as a Second Language; Research Methods; Learning & Development; Learning & Technology).
• EXC 7980 Research in Special Education: Master’s Capstone (3): For students who choose to complete the master’s research thesis or action research project, an additional 3 hours of EXC 7980...
Research in Special Education: Master's Capstone (3) must be taken as one of the required electives so that students can complete their capstone scholarly activity.

Students who have completed any of the coursework may choose additional courses of intellectual and professional interest with advisor approval.

**Deaf Education Concentration (30)**

**Required (30):**

- EXC 7030 Applied Behavior Analysis (3)
- EXC 7190 Alternative Approaches to Literacy Instruction for Students with Disabilities (3)
- EXC 7325 Methods of Teaching High-Functioning Students with Autism Spectrum Disorders (3)
- EXC 7350 Psychosocial Characteristics of Deafness (3)
- EXC 7360 Language Development in Students Who are Deaf/Hard of Hearing (3)
- EXC 7390 Reading and Writing Instruction for Deaf/Hard of Hearing (3)
- EXC 7410 Educational Assessment of Atypical Deaf Students (3)
- EXC 7420 Methods for Teaching Atypical Students Who are Deaf/Hard of Hearing (3)
- EXC 7941 Current Issues in Special Education (3)
- EXC 7980 Research in Special Education: Master's Capstone (3)

Students who have completed coursework above choose from the following:

- EDRD 7600 Theory and Pedagogy in the Study of Literacy (3)
- EDRD 7650 Individual Literacy Assessment and Instruction (3)
- CSD and Linguistics courses with advisor approval
- EXC 7980 Research in Special Education: Master’s Capstone (3): For students who choose to complete the master’s research thesis or action research project, an additional 3 hours of EXC 7980 Research in Special Education: Master’s Capstone (3) must be taken so that students can complete their capstone scholarly activity.
- Other courses with the approval of the program advisor.

Students who have completed any of the coursework may choose additional courses of intellectual and professional interest with advisor approval.

**Early Childhood Special Education Concentration (27)**

**Prerequisites:**

- EDRD 6600 Introduction to Materials and Methods in Reading Instruction (3) or EDRD 7600 Theory and Pedagogy in the Study of Literacy (3)
- EDRD 7550 Literacy Assessment and Curriculum Development (3) or EDRD 7650 Individualized Literacy Assessment and Instruction (3)
- EDMT 7400 Mathematics Concepts for Special Learners (3) or its equivalent
- EPY 2050 Human Growth and Development (3) or its equivalent
- EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3) or its equivalent
- EXC 7030 Applied Behavior Analysis (3) or its equivalent
• EXC 7929 Practicum I: Early Childhood or its equivalent

Required (27):

• EXC 7000 Collaboration with Parents and Professionals (3)
• EXC 7010 Language Development and Language Disabilities (3)
• EXC 7190 Alternative Approaches to Literacy Instruction for Students with Disabilities (3)
• EXC 7300 Assistive Technology: Reading and Academics (3)
• EXC 7320 Methods of Teaching Low-Functioning Students with Autism Spectrum Disorders (3)
• EXC 7330 Physical and Health Management of Students with Disabilities (3)
• EXC 7650 Characteristics of Young Children with Disabilities (3)
• EXC 7660 Methods of Teaching Young Children with Disabilities (3)
• EXC 7939 Practicum II: Early Childhood (3)

Intellectual Disabilities Concentration (27)
Required (21):

• EXC 7030 Applied Behavior Analysis (3)
• EXC 7280 Methods for Teaching Students with Severe Disabilities (3)
• EXC 7281 Adapted/Functional Curriculum for Students with Severe Disabilities (3)
• EXC 7310 Strategies for Challenging Behaviors (3)
• EXC 7320 Methods for Teaching Low-Functioning Students with Autism Spectrum Disorders (3)
• EXC 7941 Current Issues in Special Education
• EXC 7980 Research in Special Education: Master’s Capstone (3)

Elective: choose 2 courses (6):

• EXC 7290 Methods for Teaching Students with Physical and Multiple Disabilities: Reading and Academics (3)
• EXC 7330 Physical and Health Management of Students with Disabilities (3)
• EXC 7980 Research in Special Education: Master’s Capstone (3): For students who choose to complete the master’s research thesis or action research project, an additional 3 hours of EXC 7980 Research in Special Education: Master’s Capstone (3) must be taken as one of the required electives so that students can complete their capstone scholarly activity.
• Other courses with the approval of the program advisor.

Students who have completed any of the above coursework may choose additional courses of intellectual and professional interest with advisor approval.

Program total: minimum of 36 semester hours (Deaf Education concentration is a minimum of 39 hours)

4350 Social Studies Education (M.Ed.)

Master of Education (M.Ed.) in Social Studies Education
The M.Ed. major in Social Studies Education provides learning experiences for teachers who have been initially prepared in secondary social studies education.

Program Degree Requirements

Master of Education in Social Studies Education

Professional Studies (9)
Select one (3):

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)

Select one (3):

- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)

Required (3):

- EPY 7080 The Psychology of Learning and Learners (3)

Teaching Field/Major (27)
Select four (12):

- EDCI 7980 Teaching and Learning in Urban Contexts (3)
- EDSS 7560 Teaching History and the Social Sciences (3)
- EDSS 7570 Social Studies Concepts and Issues (3)
- EDSS 8420 Topics in the School Social Studies Curriculum (3)
- TSLE 7260 Cultural Issues for the Bilingual/English as a Second Language Teacher (3)
- Other education courses may be substituted with consent of his or her advisor.

Select Advanced Studies in Social Studies (15)
With consent of their adviser, students select coursework numbered 6000 or higher in the following areas: anthropology, economics, geography, history, political science, psychology, and sociology.

Program total: minimum of 36 semester hours

4360 Applied Behavior Analysis (M.S.)
Master of Science (M.S.) in Applied Behavior Analysis

Department of Educational Psychology, Special Education, and Communication Disorders
835 College of Education Building, 404/413-8040
http://esc.education.gsu.edu/
Laura Fredrick, Chair

The coursework and practicum courses completed for the M.S. in Applied Behavior Analysis have been approved by the Behavior Analyst Certification Board, Inc. ® as meeting the coursework and experience requirements for eligibility to take the Board Certified Behavior Analyst Examination ®. Applicants will have to meet additional requirements to apply.

The objectives of the program include mastery of basic behavior-analytic skills (measurement, experimental design, behavior-change considerations, fundamental elements of behavior change, specific behavior-change procedures, and behavior-change systems), client-centered responsibilities (identification of the problem, measurement, assessment, intervention, and implementation, management, and supervision), as well as mastery of foundational knowledge including the Behavior Analyst Certification Board Professional Disciplinary and Ethical Standards and Guidelines for Responsible Conduct for Behavior Analysts.

Program Academic Regulations

Evaluation of the student’s performance is continuous and involves consideration of the student’s performance in all academic settings. Inappropriate or unprofessional conduct by a student may result in the student being dropped from a course or a program. If such removal from a course is necessary, the student will receive the grade of “F” and may be judged ineligible to re-enroll in the course.

Program Degree Requirements

Master of Science in Applied Behavior Analysis

Professional Studies (9)
Required (9):

- EPY 8850 Introduction to Single-Case Methodology (3)
- EPY 8860 Applications of Single-Case Methodology (3)
- EPY 8970 Ethics for Behavior Analysts (3)

Major (15)
Required (12):

- EPY 8020 Principles of Behavior Analysis (3)
- EPY 8030 Advanced Applied Behavior Analysis (3)
- EXC 7310 Strategies for Challenging Behaviors (3)
- EPY 8180 Learning and the school-age child (5-18 years) (3)

Select one course (3):
- EXC 7315 Assessment and Curricular Planning for Students with Autism Spectrum Disorders (3)
- EXC 7320 Methods of Teaching Low Functioning Students with Autism Spectrum Disorders (3)
- EXC 7325 Methods for Teaching Students with High-Functioning Autism Spectrum Disorders (3)

**Applied Practice (9)**

Required (9):

- EPY 7660 Practicum in Applied Behavior Analysis (9)

**Elective (3)**

Students select three semester hours of program-related coursework with consent of their adviser. The purpose of the elective hours is to enable students to shape a program of study to fit their individual intellectual interests. The student and the adviser will discuss potential coursework options in line with the student’s individual goals.

Program total: minimum of 36 semester hours

---

**4370 Communication Sciences and Disorders (M.S.)**

**Master of Science (M.S.) in Communication Sciences and Disorders**

Department of Educational Psychology, Special Education, and Communication Disorders
835 College of Education Building, 404/413-8040
http://esc.education.gsu.edu/
Laura Fredrick, Chair

The Master of Science (M.S.) degree with a major in Communication Sciences and Disorders prepares speech-language pathologists to work with individuals of all ages who have communication disorders. The Council on Academic Accreditation in Audiology and Speech-Language Pathology accredits the program. It is designed to lead to the Professional Standards Commission licensure at the master’s level, licensure by the Georgia Board of Examiners for Speech-Language Pathology and Audiology, and certification in speech-language pathology by the Council for Clinical Certification of the American Speech-Language-Hearing Association (ASHA).

**Program Admission**

Students entering this program must hold a baccalaureate degree in communication disorders or baccalaureate degree in another area and have completed coursework in each of the areas listed below:

- Anatomy and Physiology for Communication
- Augmentative Communication
- Audiologic Rehabilitation
- Behavioral or Social Science
- Biological Science
- Exceptional Children and Youth
Students who have not completed study in each of the areas listed above may still gain admission to the program; however, they will be required to complete this coursework as part of the program of study. Such coursework will not substitute for program courses and will not count toward the master’s degree minimum semester hour requirement.

Program Academic Regulations

Upon enrollment in the Communication Sciences and Disorders program students must complete all required courses at Georgia State University. Requests for exceptions to this policy must have prior approval of the Communication Sciences and Disorders faculty.

Students must earn a grade of “B” or higher in all courses in the teaching field/major (B). If students earn a grade below “B” in a course, that course must be repeated. Students will be allowed to repeat a course one time. Students who fail to earn a grade of “B” or higher after taking the course a second time will be scholastically excluded from this major. If students earn a grade below “B” in a practicum experience or earn a grade below “B” in more than one course, the Communication Sciences and Disorders faculty will review the students’ progress in the program to determine if the students will be allowed to continue the program of study.

In addition to the successful completion of academic coursework and a comprehensive portfolio, the students must also accumulate 400 clock hours of supervised clinical experience during practicum experiences to be eligible for graduation. Of the 400 clock hours, no less than 375 must be earned at the graduate level. The distribution of clock hours must comply with the current requirements as contained in the Communication Sciences and Disorders program Student Handbook.

Students who have successfully completed all master’s-degree program requirements as well as the additional coursework requirements described above will be recommended for professional certification. This recommendation is made only at the conclusion of all master’s degree requirements. Students seeking licensure from the State of Georgia must also achieve a passing score on the Praxis II (ASHA) exam for speech pathology before being recommended by Georgia State University. [Georgia will continue to accept results of the Speech and Language Pathology PRAXIS II test administered by ETS with test code 0330 and passing score 600.]

Evaluation of the student’s performance is continuous and involves consideration of the student’s performance in all academic settings. Inappropriate or unprofessional conduct by a student may result in the student being dropped from a course or a program. If such removal from a course is necessary, the student will receive the grade of “F” and may be judged ineligible to re-enroll in the course.
Program Degree Requirements

Master of Science in Communication Sciences and Disorders

Students must earn a grade of “B” or higher in all courses. If students earn a grade below “B” in a course, that course must be repeated. Students will be allowed to repeat a course one time. Students who fail to earn a grade of “B” or higher after taking the course a second time will be scholastically excluded from this major. If students earn a grade below “B” in a practicum experience or earns a grade below “B” in more than one course, the Communication Sciences and Disorders faculty will review the students’ progress in the program to determine if the students will be allowed to continue the program of study.

Required Courses (63):

- CSD 7450 Language Disorders in Young Children (3)
- CSD 7455 Language Disorders in School Age Children (3)
- CSD 7510 Neuroscience for Communication (3)
- CSD 7520 Speech Sound Disorders (3)
- CSD 7530 Voice Science and Disorders (3)
- CSD 7540 Fluency Disorders (3)
- CSD 7550 Acquired Aphasia (3)
- CSD 7560 Diagnostic Methods of Speech and Language Disorders (3)
- CSD 7570 Advanced Audiological Assessment (3)
- CSD 7590 Contemporary Issues in Communication Disorders (2)
- CSD 7600 Swallowing and Swallowing Disorders (3)
- CSD 7610 Motor Speech Disorders (3)
- CSD 7630 Fundamentals of Clinical Practice (2)
- CSD 7840 Research Methods in Communication Disorders (3)
- CSD 7910 Clinical Practicum in Communication Disorders (8)
- CSD 7950 Communication Disorders Medical Internship (6)
- CSD 7951 Communication Disorders School Internship (6)
- CSD 8330 Acquired Neurocognitive Communication Disorders (3)

Program total: minimum of 63 semester hours

4380 Educational Psychology (M.S.)

Master of Science (M.S.) in Educational Psychology

Department of Educational Psychology, Special Education, and Communication Disorders
835 College of Education Building, 404/413-8040
http://esc.education.gsu.edu/
Laura Fredrick, Chair

Program Theme: Informed, Empowered, Committed, and Engaged Educators
Study in educational psychology involves the application of the principles of psychology to the systematic study of education. A major in educational psychology allows students to emphasize such content areas as learning, instruction, life-span development, applied behavior analysis, cognition, and socialization. The Educational Psychology program prepares students to pursue a variety of career paths, including research, evaluation, and the applied practice of a number of disciplines. Those students who are currently certified or licensed in such fields as teaching, nursing, speech pathology, and physical therapy can further develop their expertise in these fields by studying the psychological principles of development and learning.

Advisory Committee

A committee of three faculty members guides study for the M.S. major in Educational Psychology. After completing nine semester hours of work, the students must select two faculty members to be on their advisory committee. These two faculty members must approve the students’ planned program of study. A third faculty member must be added before the students begin working on their thesis, project, or examination. Two of the three committee members (including the chair) must be from the Educational Psychology faculty.

Program Academic Regulations

Students in Educational Psychology fulfill the college's Comprehensive Examination requirement by completing (1) a thesis, (2) project, or (3) a master’s examination.

1. The master’s thesis is either a basic or applied research project conducted by the students under the supervision of the chair of his or her advisory committee.
2. The project generally consists of a comprehensive review of literature on a selected topic. A written prospectus describing in detail the proposed thesis or project must be submitted to and approved by all three members of the students’ advisory committee before the work is begun.
3. The master’s examination consists of a 4 hour in-house written examination on a question or questions to be determined by the student in collaboration with the committee.

On completion of the thesis, project, or master’s examination, each student must complete an oral examination of approximately two hours. The students’ advisory committee will administer the oral examination, and it will focus on the thesis, project, or examination.

Evaluation of a student’s performance is continuous and involves consideration of the student’s performance in all academic settings. Only courses in which the student earns a grade of “B” or higher will be counted toward degree fulfillment. Failure to make progress in a timely manner or inappropriate or unprofessional conduct by a student may result in the student’s withdrawal from a course or a program. If such removal from a course is necessary, the student will receive the grade of “F” for the course and may be judged ineligible to re-enroll in the course.

Program Degree Requirements

Master of Science in Educational Psychology

Professional Studies (15)
Educational Research (6)
Required (3):

- EPRS 7900 Methods of Research in Education (3)
- Select one (3): One additional EPRS course (3)

Social Foundations of Education (3)
Required (3):

- One course with the EPSF prefix (3)

Educational Psychology (6)

For students completing a thesis:
Required (6):

- EPY 7990 Master's Capstone (6)

For students completing a project:
Required (3):

- EPY 7990 Master's Capstone (3)
  - Select one (3): One course with the EPY prefix (3)

For students completing the Master's examination:
Required (3):

- EPY 7990 Master's Capstone (3)
  - Select one (3): One course with the EPY prefix (3)

Major (15)
The students select a minimum of 15 semester hours of coursework in a field of Educational Psychology. At least 12 hours must be courses with the EPY prefix. One of these courses must be EPY 8961 Professional Development Seminar in Educational Psychology (3). With the consent of the advisor, an additional three hours can be a course with a Non-EPY prefix.

Electives (6)
The students select six semester hours of program-related coursework with consent of their adviser. The purpose of the elective hours is to enable students to create a program of study to fit their individual intellectual interests.

Program total: minimum of 36 semester hours

4390 Educational Research (M.S.)
Master of Science (M.S.) in Educational Research

Department of Educational Policy Studies
450 College of Education Building, 404/413-8030
http://eps.education.gsu.edu/
William Curlette, Chair

Educational research involves the study of quantitative and qualitative research methods as they are applied to the systematic study of education. A major in educational research allows students to have a concentration in statistics, measurement, program evaluation, survey research, computer applications, qualitative research, institutional research, or policy research. This degree prepares graduates to conduct research in the schools and in other settings.

Program Academic Regulations

To complete the degree requirements, students must fulfill the 9-credit master’s core requirement, 18 credit hours of credit for the Educational Research major, including a master’s project or master’s thesis, and three elective courses (9 credits). A committee of three faculty members guides study for the M.S. major in Educational Research. The adviser (committee chair) and one committee member should be from the students’ major area. All members of the committee should hold doctorates.

Program Degree Requirements

Master of Science in Educational Research

Professional Studies (9)
Select one (3):

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)
- EPRS 7920 Classroom Testing, Grading, and Assessment (3)

Select one (3):

- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)

Select one (3):

- EPY 7080 The Psychology of Learning and Learners (3)
- EPY 7090 The Psychology of Learning and Learners: The Young Child (3)

Major (18)
Select courses (18): The students and their advisory committee select 18 semester hours of coursework in a concentration area. These courses are usually selected from EPRS course offerings; however, courses in
other departments may be appropriate to include as part of the students’ program. If the students desire to write a master’s thesis and the advisory committee approves, the students must enroll in EPS 7990 for 6 semester hours as partial fulfillment of the 18 semester hour major requirement. If the students do not intend to write a master’s thesis, then they must enroll in EPS 7991 for 3 semester hours as partial fulfillment of the 18 semester hour major requirement.

Electives (9)
Select three (9): With the consent of their advisory committee, the students select 9 semester hours of electives. These electives must support either the concentration or understanding of the context in which educational research occurs.

Program total: minimum of 36 semester hours

4400 Educational Research (M.S.) Online

Master of Science (M.S.) in Educational Research Online Program

Department of Educational Policy Studies
450 College of Education Building, 404/413-8030
http://eps.education.gsu.edu/
William Curlette, Chair

The Master of Science (M.S.) in Educational Research Georgia ONmyLINE (GOML) program involves the study of quantitative and qualitative research methods as they are applied to the systematic study of education. A major in educational research allows students to take coursework in statistics, measurement, program evaluation, survey research, computer applications, qualitative research, institutional research, or policy research. This degree prepares graduates to conduct research in the schools and in other settings.

Program Academic Regulations

A program coordinator will serve as a point of contact to all students enrolling in the online program track. Students will be assigned academic advisors from the current faculty members in the Educational Research unit. The program coordinator will hold an online orientation each semester that will serve to introduce all programmatic requirements. Using GoView (Desire 2 Learn) as the official delivery system for the online classes to provide real-time voice communication between students and the program coordinator, this orientation will provide new students with an overview of the program, a projected schedule of course offerings, and an in-depth introduction to the master’s project requirements.

Program Degree Requirements

Master of Science in Educational Research Online Program

Professional Studies (9)
Required (9):
Major (27)
Required (3):

- EPS 7991 Master’s Project (3)

4410 Educational Research/Mental Health Counseling (M.S.)

Master of Science (M.S.) in Educational Research/Mental Health Counseling

Department of Educational Policy Studies
450 College of Education Building, 404/413-8030
http://eps.education.gsu.edu/
William Curlette, Chair

Department of Counseling and Psychological Services
950 College of Education Building, 404/413-8010
http://cps.education.gsu.edu/
Brian Dew, Chair

The Department of Educational Policy Studies and the Department of Counseling and Psychological Services offer a dual enrollment, master’s-level program leading to a Master of Science degree with majors in Educational Research and Mental Health Counseling. This program provides the Educational Research students a content area in which to apply the educational research methodology and provides the Mental Health Counseling students the capability to combine research and evaluation with counseling in their work setting. In general, this dual degree program provides the students with increased career opportunities both
within academia and in the work setting.

Program Degree Requirements

Degree requirements are the same as those for each separate major. The one required course from the professional counseling major that may be counted toward the educational research major is EPRS 7900. Additionally, nine semester hours of electives in the Educational Research program may be courses used to complete professional studies or major requirements in the Mental Health Counseling program. Students are responsible for making sure they meet all prerequisites for courses taken in this program.

4420 Exercise Science (M.S.)

Master of Science (M.S.) in Exercise Science

Department of Kinesiology and Health
137 Sports Arena, 404/413-8050
http://kh.education.gsu.edu/
Mark Geil, Chair

The M.S. major in Exercise Science prepares students at the graduate level to enter fields of worksite health promotion or fitness, cardiac rehabilitation, or related clinical programs; or to perform research in exercise science. The program includes classroom, laboratory, research, and field experience in biomechanics, exercise physiology, and psychology of physical activity and related interdisciplinary coursework in areas such as public health, gerontology, and nutrition. The degree program provides advanced academic preparation for a successful career in the health and fitness field or for advancement to doctoral-level study.

Program Academic Regulations

Students holding undergraduate degrees in physical education, exercise science, or health-related fields (e.g., physical therapy, nutrition, respiratory therapy, nursing, or biology) or other departmentally approved degrees will be reviewed to determine if any undergraduate coursework must be completed prior to entry into the Exercise Science program. Minimum undergraduate coursework includes applied human musculoskeletal anatomy (KH 2220), human physiology (KH 2230), exercise physiology (KH 3650), biomechanics (KH 3600), and fitness assessment and exercise prescription (KH 4630). Students with deficiencies in these areas will be required to take remedial coursework upon entry into the program.

Culminating Experience

In consultation with their advisor, students in the Exercise Science program must successfully produce and defend a master’s thesis, master’s internship, or an approved capstone project. Students should contact the Department of Kinesiology and Health (404/413-8050) for additional information about these requirements.

Program Degree Requirements
Master of Science in Exercise Science

**Professional Studies (3)**
Select One Course or an approved equivalent (3):

- EPRS 7900 Methods of Research in Education (3)
- KH 8825 Research Design (3)

**Required Major Courses (12):**

- KH 6280 Psychology of Physical Activity (3)
- KH 7500 Physiology of Exercise (3)
- KH 7510 Biomechanics (3)
- KH 8375 Functional Anatomy for Exercise Science (3)

**Electives (15):**
Select Five Courses (15): In consultation with their advisor, students will select coursework numbered 6000 or higher in a specific area of emphasis.

**Culminating Experience (6):**
Select One Course (6): In consultation with their advisor, students will select one of the following culminating experiences.

- KH 7750 Internship in Exercise Science (6)
- KH 7810 Directed Readings and Research (6)
- KH 7990 Master's Thesis (6)

Program total: minimum of 36 semester hours

---

**4430 Instructional Design and Technology (M.S.)**

Master of Science (M.S.) in Instructional Design and Technology

Learning Technologies Division
233-242, 2nd Floor, College of Education Building
http://ltd.education.gsu.edu/
Stephen Harmon, Chair

The M.S. major in Instructional Design and Technology is offered online and provides students with the basic knowledge, skills, and attitudes required to perform as instructional technologists. An instructional technologist is a professional educator who can combine knowledge of the learning process, knowledge of instructional systems theory, and knowledge of various forms of media and learning environments to create the most effective and efficient learning experiences. The program is designed for individuals interested in working in the field of instructional technology in a wide variety of education, training, and development areas such as those found in P-12 schools, business, and industry. To meet the individual needs and interests of the instructional technology students, the program provides a maximum amount of flexibility in
course selection. In addition, ample opportunities are provided for applying the competencies learned in the classroom to job-related situations.

Program Admission

The applicant must aspire to or currently hold a position related to the application of instructional technology in an education or training environment. In addition, the applicant must possess basic computing technology skills.

Program Degree Requirements

Master of Science in Instructional Design and Technology

Professional Studies (9)
Select one (3):

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)
- EPRS 7920 Classroom Testing, Grading, and Assessment (3)

Select two (6):

- EPSF 8440 Foundations of Curriculum Development (3)
- EPY 7080 The Psychology of Learning and Learners (3)
- EPY 8070 Understanding and Facilitating Adult Learning (3)

Major (24)
Required (15):

- LT 7100 Design of Performance and Instructional Systems (3)
- LT 7150 Analysis of Performance and Instructional Systems (3)
- LT 8000 Foundations of Instructional Technology (3)
- LT 8150 Managing Instructional Technology Projects (3)
- LT 8200 Diffusion and Adoption of Technological innovation (3)

Select three (9):

- LT 7360 Integrating Technology in School-Based Learning Environments (3)
- LT 8050 Evaluation and Assessment of Online Learning (3)
- LT 8090 Internet for Educators (3)
- LT 8360 E-Learning Design and Development (3)
- LT 8390 Analysis of Education, Training, and Performance Support Centers (3)
- LT 8400 Developing Digital Multimedia for Learning (3)
- LT 8420 Topics in Instructional Technology (3)
- LT 8440 eLearning Environments (3)
- LT 8550 Human Performance Technology (3)
Other courses may be selected with consent of advisor.

**Internship (3)**

Required (3):

- LT 8660 Internship in Instructional Technology (3)

Students must have completed at least 24 semester hours of program coursework before taking LT 8660.

Exit Requirement: Students must achieve a satisfactory score on a written departmental examination and successfully present a portfolio of their work in instructional technology.

Program total: minimum of 36 semester hours

**4440 Mental Health Counseling (M.S.)**

Master of Science (M.S.) in Mental Health Counseling

Department of Counseling and Psychological Services
950 College of Education Building, 404/413-8010
http://cps.education.gsu.edu/
Brian Dew, Chair

The M.S. major in Mental Health Counseling is a noncertification program that prepares persons to function as counselors in mental health centers, governmental agencies, labor departments, employee assistance programs, community agencies, religious settings, and correctional agencies.

**Program Objectives**

The counselor employs skills, principles, and techniques to assist people to identify and resolve personal, social, career, intrapersonal, and interpersonal concerns.

The counselor is prepared to:

- work individually and with groups of clients on educational, vocational, social, emotional, or personal problems.
- counsel and consult with diverse populations
- consult with other professionals and administrators concerning the client’s development needs.
- participate in educational, social, and career assessment programs, including the interpretation of test results.
- provide information and understanding to clients in the areas of educational, social, and career planning.
- conduct and facilitate program evaluation and research efforts.
- practice according to the ethical codes of the American Counseling Association.
- use appropriate technology to assist clients with educational, social, and career planning.
further their identity as a professional counselor through advocacy for the profession.

Program Academic Regulations

A minimum of 60 semester hours of graduate coursework must be completed with a minimum cumulative grade point average of 3.00. Degree objectives may require more than the minimum number of hours to meet certain professional standards. The M.S. in Mental Health Counseling program is not designed for part-time students. Students will distribute their required semester hours over a six or seven semester period. It is not feasible for students to work full time while adhering to this model program. Students who are working full or part time must plan to extend their programs over a period of time of more than eight semesters.

Usually, 12 credit hours of the students’ program consist of laboratory experiences. The remainder of the courses occurs in classroom settings. Delivery systems used for instruction include lecture, group work, required readings, presentations using advanced technology, simulated activities, and applied practice followed by individual and group supervision in some courses.

The program culminates in an extensive supervised practicum and internship, consisting of two semesters of work in an agency setting for a minimum of 700 hours over the two semesters. It is not recommended that students attempt to work full time or take more than nine (9) credit hours in either of the semester of practicum or internship.

All mental health counseling students must complete CPS 6010 with a grade of “B” or higher. A grade lower than “B” requires repetition of the course. CPS 6010 is a prerequisite for most CPS courses. During the academic term in which CPS 6010 is first taken, other courses may be taken concurrently. However, when repetition of CPS 6010 is necessary, no other CPS coursework may be taken concurrently or prior to successful completion of CPS 6010.

Students must successfully complete the following courses to take the comprehensive exam: CPS 6010, CPS 6410, CPS 6450, CPS 7000, CPS 7260, CPS 7300, CPS 7340, CPS 7450, CPS 7500/EPY 7500, CPS 8100, CPS 8380, CPS 8430, CPS 8460, CPS 8470, and EPRS 7900. Contact the Department of Counseling and Psychological Services (404/413-8010) for information on the comprehensive examination schedule.

For mental health counseling students to be eligible to begin the applied practice (CPS 7660), the students must successfully complete the following courses: CPS 6010, CPS 6410, CPS 6450, CPS 7000, CPS 7260, CPS 7300, CPS 7340, CPS 7500/EPY 7500, CPS 8100, CPS 8380, and CPS 8460. Students may be required to take CPS 7450 prior to or concurrently with their fall semester of practicum (CPS 7660) and internship (CPS 7680), depending on course offering. Students are approved to begin applied practice based on the number of hours they have completed in their programs and based on space available in applied practice sections. The department may delay students’ beginning their applied practice for one or more academic terms.

Evaluation of a student’s performance is continuous and involves consideration of the student’s academic performance as well as the student’s performance in laboratory, applied practice, and internship classes. A student may be dropped from a course and/or the program if the welfare of the student’s clientele or prospective clientele or the functioning of a school or agency is, in the judgment of the CPS faculty, in
jeopardy as a result of the student’s behavior. Students in this program are expected to follow the latest version of the American Counseling Association (ACA) Code of Ethics.

Departmental Endorsement Policy

The Department of Counseling and Psychological Services requires that program faculty endorsement be given only for the program for which the graduate students have been prepared.

Program Degree Requirements

Master of Science in Mental Health Counseling

Professional Studies (9)
Required (8):

- CPS 7340 Social/Cultural Issues in Counseling and Psychological Services (3)

- CPS 8380 Family Systems and Interventions (3)
- CPS 8430 Advanced Counseling Skills (3)
- CPS 8460 Biopsychosocial Aspects of Addiction (3)
- CPS 8470 Crisis Intervention (3)

Applied Practice Sequence (12)
Required (12):

- CPS 7660 Applied Practice I: Mental Health Counseling (3)
- CPS 7680 Internship: Mental Health Counseling (9)

Elective (3)
A list of approved electives for Mental Health Counseling Master’s Degree students is available in each student’s handbook and in the department at the front desk (COE 950).

Program total: minimum of 60 semester hours
4450 Rehabilitation Counseling (M.S.)

Master of Science (M.S.) in Clinical Rehabilitation Counseling

Department of Counseling and Psychological Services
950 College of Education Building, 404/413-8010
http://cps.education.gsu.edu/
Brian Dew, Chair

The M.S. major in Clinical Rehabilitation Counseling prepares the students for employment in a variety of corporate and agency rehabilitation settings. The Council on Rehabilitation Education (CORE) accredits the Clinical Rehabilitation Counseling program. This program will seek the joint accreditation by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Students who complete the program are prepared to take the examination for certification as a Certified Rehabilitation Counselor, as well as National Certified Counselor exam.

Program Objectives

The rehabilitation counselor employs skills, instrumentation, and techniques to assist people to identify and resolve personal, social, vocational, intrapersonal, and interpersonal concerns.

The rehabilitation counselor is prepared to:

- work individually with clients on educational, vocational, social, emotional, or personal problems.
- consult with other professionals and administrators concerning the client’s development needs.
- participate in psychological assessment programs, including the interpretation of test results.
- provide information and understanding to clients in the areas of educational, social, or vocational planning.
- conduct and facilitate local research efforts.

Program Academic Regulations

A minimum of 60 semester hours of graduate coursework must be completed with a minimum cumulative grade point average of 3.00. Degree objectives may require more than the minimum number of hours to meet certain professional standards.

Usually, nine semester hours of the students’ program consist of laboratory experiences. The remainder of the courses occurs in classroom settings. The program culminates in an extensive supervised practicum and internship.

During their first term of enrollment, all clinical rehabilitation counseling students must complete CPS 6050 with a grade of “B” or higher. If the students do not complete CPS 6050 with a grade of “B” or higher, they may not register for any other CPS course until they have completed CPS 6050 with a grade of “B” or higher. Students will be allowed to retake CPS 6050 for this reason only once. CPS 6050 is offered
only during fall term.

The following courses must be completed before the students may take their comprehensive examination: CPS 6010, CPS 6050, CPS 6410, CPS 6450, CPS 7260, CPS 7300, CPS 7340, CPS 7450, CPS 7500/EPY 7500, CPS 8100, CPS 8320 CPS 8410, CPS 8430, CPS 8460, CPS 8470 and EPRS 7900. Contact the Department of Counseling and Psychological Services (404/413-8010) for information on the comprehensive examination schedule.

For clinical rehabilitation counseling students to be eligible to begin the applied practice (CPS 7663), he or she must have successfully completed the following courses: CPS 6050, CPS 6410, CPS 6450, CPS 7260, CPS 7340, CPS 7450, CPS 7500/EPY 7500, CPS 8100, CPS 8320, CPS 8410, CPS 8430, and CPS 8470. Students must also attend a practicum internship workshop prior to starting internship. These workshop dates are announced on the CPS website during the first fall semester of the program. Students are approved to begin applied practice based on the number of hours and courses they have completed in their programs, and based on space available in applied practice sections. The department may delay students’ beginning their applied practice for one or more academic terms. Students must maintain a 3.00 cumulative GPA to participate in the practicum/internship sequence.

Evaluation of a student’s performance is continuous and involves consideration of the student’s academic performance as well as the student’s performance in laboratory, applied practice, and internship classes. A student may be dropped from a course and/or the program if the welfare of the student’s clientele or prospective clientele or the functioning of a school or agency is, in the judgment of the CPS faculty, in jeopardy as a result of the student’s behavior. Students in this program are expected to follow the latest version of the American Counseling Association (ACA) Code of Ethics, as well as the most recent version of The Commission on Rehabilitation Counselor Certification (CRCC) Code of Professional Ethics.

Departmental Endorsement Policy

The Department of Counseling and Psychological Services requires that program faculty endorsement be given only for the program for which the graduate students have been prepared.

**4460 Social Foundations of Education (M.S.)**

**Master of Science (M.S.) Social Foundations of Education**

Department of Educational Policy Studies
450 College of Education Building, 404/413-8030
http://eps.education.gsu.edu/
William Curlette, Chair

Social foundations of education is a broadly conceived field of educational study that derives its character from a number of academic disciplines and interdisciplinary studies. At Georgia State University, the disciplines involved in social foundations inquiry are history, philosophy, sociology, anthropology, and political science; the interdisciplinary field is cultural studies. The purpose of social foundations study is to bring intellectual resources derived from these areas to bear in developing interpretive, normative, and critical perspectives on education, both inside of and outside of schools. Applicants to the Master of Science program with a major in social foundations of education must, in addition to standard admission requirements, (a) interview with program faculty, (b) submit a writing sample; and (c) submit three letters of recommendation, two of which should represent familiarity with the applicant’s academic ability.
Advisory Committee

A master’s advising committee of three faculty members guides each student’s study for the M.S. degree in Social Foundations of Education in the Department of Educational Policy Studies. One member of the Social Foundations faculty should be selected as the chair of the committee. The students and the chair will select two other members for the committee, at least one of who must be a member of the Social Foundations faculty. The committee is responsible for planning the program of study and for directing master’s thesis research or master’s projects. During the last academic term of coursework, each student will be required to complete an oral examination. The candidate’s committee will administer the examination, which is not to exceed two hours.

Program Degree Requirements

Master of Science in Social Foundations of Education

Professional Studies (15)
Select one (3):

For students completing a master’s project (6)
Required (6):

- EPS 7991 Master’s Project (3)
- Select one course with the EPSF prefix (3)

Major (15)
Taking a minimum of 15 semester hours of coursework from the social foundations offerings fulfills the
major in social foundations of education. Majors may represent the disciplines of history, philosophy, sociology, anthropology, and political science and the interdisciplinary field of cultural studies. These courses are selected from the following list. Courses in other program areas in the Department of Educational Policy Studies or other courses in the college or university may also be appropriate to include as part of the major with approval from the students’ advisory committee.

Select five (15):

- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)
- EPSF 7450 Curriculum Foundations for the Educational Leader (3)
- EPSF 8010 Cultural Studies in Education: Film (3)
- EPSF 8040 Cultural Studies in Education: Gender (3)
- EPSF 8260 Sociology of Inner-City Children (3)
- EPSF 8270 Philosophy of Education (3)
- EPSF 8280 Anthropology of Education (3)
- EPSF 8310 Sociology of Education (3)
- EPSF 8320 Politics and Policy in Education (3)
- EPSF 8330 Globalization and Education Policy (3)
- EPSF 8340 History of American Education (3)
- EPSF 8350 Comparative Educational Systems (3)
- EPSF 8440 Foundations of Curriculum Development (3)

Electives (6)
The elective requirement is fulfilled by taking a minimum of 6 semester hours chosen from graduate courses in other program areas, departments, and/or colleges in the university.

Program total: minimum of 36 semester hours

4470 Sport Administration (M.S.)

Master of Science (M.S.) in Sport Administration

Department of Kinesiology and Health
137 Sports Arena, 404-413-8050
http://kh.education.gsu.edu/
Mark Geil, Chair

The Master of Science in Sport Administration degree program seeks to prepare graduates with professional skills and knowledge for careers in the $300-plus billion dollar sports business industry through an exceptional program inspired by excellence, vision, scholarship, leadership, and entrepreneurship.

The sport industry segment includes careers in youth, amateur, community, professional, and international
sport organizations, in addition to affiliated industries such as event management, media, facilities, merchandising, club management, entrepreneurial enterprising, sports travel and tourism, and athlete representation and management. Potential career paths can be found in such areas as management, marketing, law, finance, media, promotions, public relations, sports information, and coaching. The program is designed to meet the curriculum standards for the Commission on Sport Management (COSMA).

Regulations for the Degree:

1. Prerequisites: This program is specifically designed for students with an undergraduate degree in sport management and a background in the sport business industry. Incoming students without this background may be required to take prerequisite courses. For those students, you will complete any prerequisites required by the faculty advisor prior to your third semester of work in the program.

2. Research Requirement: All students will complete the university’s basic certification course for human subjects research. See the university’s research office website and your faculty advisor for details.

3. Internship/Thesis Requirement: Students have the option to complete the internship requirement or elect to pursue the thesis track. The internship is the cornerstone and culminating experience of the program in which the student will work in an approved sport business enterprise under professional supervision. The student is required to acquire the place for the internship in consultation with a faculty advisor. The internship cannot be taken until all other courses of the program have been completed unless as otherwise specified and permitted by a faculty advisor. Along with the internship requirement, the student will also be required to pass the Comprehensive Exam. The thesis track requires Master’s-level students in sports administration to conduct original research and complete a formal thesis. It must be started two semesters prior to graduating and is overseen by a faculty advisor. The thesis track does not require taking the Comprehensive Exam, but instead requires a formal proposal and defense of the research.

4. Course Requirements: The course requirements for the Master of Science degree in Sport Administration and the format of the program follow. Students should consult with a faculty advisor for any questions or concerns. The Course Descriptions section contains a listing and description of the courses. The Georgia State University Graduate Catalog which includes all regulations concerning graduate programs can be found on the university’s web site.

5. Electives: Students may take courses of their choice in consultation with a faculty advisor from those listed here or from courses in other related such programs as business, management, marketing, hospitality, risk management, law, information technology, finance, education, international business, and research.

Program Degree Requirements

Master of Science in Sport Administration

Major (27)
Required (18):

- KH 6380 Introduction to Sport Management (3)
- KH 6560 Budgeting and Finance in Sports and Recreation (3)
- KH 7100 Sport Management and Leadership (3)
- KH 7200 Cultural Aspects of Sport (3)
- KH 7410 Sport Marketing (3)
- KH 7610 Sport Law (3)

**Research Requirement**
Select One Course (3):

- EPRS 7900 Methods of Research in Education (3)
- KH 8825 Research Design (3)
- MK 8200 Marketing Research (3)

**Internship or Thesis Track Requirement**
Select One Course (6):

- KH 7662 Internship in Sports Management (6)
- KH 7990 Master's Thesis (6)

**Electives (9)**
Select Three Courses (9)

- KH 6960 Seminar (3)
- KH 7150 Development and Revenue Generation in Sports (3)
- KH 7380 Sport Facility Management (3)
- KH 7440 Sport Communication and Media (3)
- KH 7680 Sport Marketing Field Research (3)
- KH 7690 Practicum in Sports Administration (3)
- KH 7810 Directed Readings and Research (3)

**Program total: minimum of 36 semester hours**

**4480 Sports Medicine (M.S.)**

**Master of Science (M.S.) in Sports Medicine**

Department of Kinesiology and Health
137 Sports Arena, 404-413-8050
http://kh.education.gsu.edu/
Mark Geil, Chair

The M.S. major in Sports Medicine prepares students for career opportunities in the field of athletic training. The program includes coursework and laboratory experiences in the prevention, management, evaluation, and rehabilitation of athletic injuries. The purpose of this program is to provide qualified candidates with in-depth experiences beyond entry-level athletic training expectations. Additionally, all students must complete a minimum of 400 hours of clinical experience in an approved setting as part of the degree program requirements.
Program Admission

Candidates for this program must either be National Athletic Trainers Association (NATA) certified athletic trainers or be eligible for certification. Candidates may be eligible for certification upon graduation from a CAATE accredited undergraduate athletic training curriculum.

Additionally, a program applicant must provide three letters of recommendation, including one from the applicant’s supervising certified athletic trainer, resume, and cover letter. Applicants will also be required to participate in an on-campus interview with faculty.

Program Degree Requirements

Master of Science in Sports Medicine

Professional Studies (10)
Required (12):

- EPRS 7900 Methods of Research in Education (3) or KH 8825 Research Design (3)
- KH 7530 Applied Anatomy for Sports Medicine (4)
- KH 8780 Biomechanics of Sports Medicine (3)

Major (26)
Required (18):

- KH 7580 Concepts of Orthopedic Rehabilitation (3)
- KH 7660 Practicum in Athletic Training (4)
- KH 8265 Therapeutic Modalities in Orthopedic Rehabilitation (2)
- KH 8300 Orthopedic Basis of Injury (3)
- KH 8640 Lab Techniques for Sports Medicine (3)
- KH 8900 Evidence Based Practice in Sports Medicine (3)

For students completing a master’s thesis (8)

- Required (5): KH 7990 Master’s Thesis (5)
- Elective (3): Choose one course from elective list (3 hours)

For students completing a master’s project (8)

- Required (2): KH 8820 Scientific Inquiry in Sports Medicine (2)
- Elective (6): Choose two courses from elective list (6 hours)

Elective Course List:

- BIOL 7240 Human Physiology (3)
- BIOL 7250 Human Physiology Laboratory (1)
- EPY 7080 The Psychology of Learning and Learners (3)
- KH 6560 Budgeting and Finance in Sports Recreation (3)
- KH 7200 Cultural Aspects of Sport (3)
- KH 7380 Planning and Management of Sports Facilities (3)
- KH 7500 Physiology of Exercise (3)
- KH 7610 Sport Law (3)
- KH 7780 Drug Use Intervention and Prevention (3)
- KH 8825 Research Design (3)
- RT 6005 Clinical Cardiopulmonary Physiology (3)
- SNHP 6000 Research for the Health Professions (3)
- Other courses may be selected with consent of adviser.

Program total: minimum of 36 semester hours

**4490 Specialist Degree Academic Regulations**

The Specialist in Education (Ed.S.) degree for Educator Preparation Programs is a terminal degree that advances educators in their instructional and leadership skills beyond the master’s level of competence. The purpose of this applied degree is to extend the academic preparation and teaching skills of experienced classroom teachers and instructional leaders and to foster the application of these skills and abilities to a variety of educational settings. Persons interested in a research degree and a career in higher education are encouraged to consider a doctoral degree offered by the College of Education and Human Development.

**Educator preparation Ed.S. programs address the following objectives:**

- To develop advanced theoretical and practical knowledge in the areas of human growth and development, foundations of education, curriculum development, classroom practice, and educational measurement.
- To develop and apply knowledge of theory and research in the areas of supervision and school organization to the development and assessment of staff in-service and supervision.
- To develop and apply knowledge of research methodology to the assessment of curriculum content and organization and classroom practice.

**Specialist Residency**

Specialist residency requires each Ed.S. student to maintain close and continuous involvement with faculty, professional colleagues, and other graduate students in the field. It also provides time for reading, reflection, and research appropriate for an advanced professional degree. Each department within the College of Education and Human Development provides a variety of experiences designed for its Ed.S. students who are fulfilling residency requirements.

Each department determines specific activities and experiences that are required in its Ed.S. programs. These may include specific coursework requirements as well as other professional activities. During his or her first term of enrollment, a student should discuss with his or her Ed.S. adviser the specialist residency requirements specific to their program.
A residency plan must be formulated and reported on the “Ed.S. Residency Form”. This form is available online at http://education.gsu.edu/student-services/forms-policies-regulations/. Each student and his or her adviser must plan activities to enable the students to fulfill the intent of the residency. The residency plan must be approved by the student’s adviser and department chair prior to the commencement of any residency activities. The department is responsible for verifying a student’s completion of specialist residency requirements and for notifying the Office of Academic Assistance and Graduate Admissions of such completion.

Minimum Requirements for All Specialist Degrees

- Only courses taken after admission to the Specialist in Education degree program may be used to fulfill program requirements for the Ed.S. degree.
- Students must earn a cumulative grade point average of 3.00 calculated on all graduate coursework attempted while admitted to the Ed.S. program. The formal coursework requirement is satisfied through successful completion of each course in the program of study with a grade of “C” or higher.
- Coursework in which a grade below “C” is earned may not be applied to the specialist programs.
- Some departments require a grade of “B” or higher in specific courses and program areas. Students are responsible for contacting their departments regarding specific academic requirements that exceed college-wide minimums.
- Students must complete a minimum of 27 semester hours of program coursework at Georgia State University.
- Students seeking specialist-level teacher certification must have completed three years of appropriate school experience prior to completion of the Specialist in Education degree.
- No coursework may be more than six calendar years old at the time of graduation.

Comprehensive Examination

Educational Leadership. The skill development phase of the Ed.S. degree in Educational Leadership culminates with EPEL 8690, in which the students implement a project of their own design in the field. The project is developed, refined, and approved while the students are enrolled in the program. A final written report of the implemented project is required.

School Counseling. Successful completion of CPS 8661 Applied Practice II: School Counseling satisfies the Comprehensive Examination requirement for this program.

School Psychology. Successful completion of CPS 8680 Internship in School Psychology satisfies the Comprehensive Examination requirement for this program.

4500 Educational Leadership (Ed.S.)

Specialist in Education (Ed.S.) in Educational Leadership

Department of Educational Policy Studies
450 College of Education Building, 404/413-8030
http://eps.education.gsu.edu/
William Curlette, Chair

The Ed.S. degree in Educational Leadership is designed to build the capacity of practicing educators and administrators to be effective educational leaders. The program fulfills the requirements of the Performance-Based Educational Leadership certification for the State of Georgia. Applicants for the Ed.S. degree must be full time, practicing educators and be employed in a partnering school system. Because leadership certification is no longer a self-select program in the state of Georgia, applicants must receive written permission from their employers in order to participate. Applicants must hold a master’s degree or higher in any education field or in other Georgia Professional Standards Commission accepted non-education fields.

Program Academic Regulations

To graduate with an Ed.S. major in Educational Leadership, students must earn a “B” or higher in all courses in the Ed.S. degree program. If students earn a grade below a grade of “B” in a required course, the students with the advice and consent of his or her adviser may substitute another course for that requirement.

Program Degree Requirements

Specialist in Education in Educational Leadership

Professional Studies (6)

Select one (3):

- EPSF 8260 Sociology of Inner-City Children (3)
- EPSF 8270 Philosophy of Education (3)
- EPSF 8280 Anthropology of Education (3)
- EPSF 8310 Sociology of Education (3)
- EPSF 8320 Politics and Policy in Education (3)
- EPSF 8340 History of American Education (3)
- Other appropriate courses numbered 8000 to 8999 may be selected with the approval of your advisor.

Select one (3):

- EPY 8050 The Psychology of Instruction (3)
- EPY 8080 Memory and Cognition (3)
- EPY 8180 Development During School Age (5 to 18 Years) (3)
- EPY 8250 Psychology of Inner-City Children (3)

Major (24)

Required (24):

- EPEL 8000 Research in Educational Leadership and Organizational Structure (3)
- EPEL 8020 Leadership for Change in a Diverse Society (3)
Following the completion of coursework, persons wishing to obtain the PL-6 certification in the State of Georgia must receive a passing score on the GACE Educational Leadership Tests.

Program total: minimum of 30 semester hours

4510 School Counseling (Ed.S.)

Specialist in Education (Ed.S.) in School Counseling

Department of Counseling and Psychological Services
950 College of Education Building, 404/413-8010
http://cps.education.gsu.edu/
Brian Dew, Chair

The Ed.S. major in School Counseling (elementary, middle, or secondary) prepares certified school counselors to function at higher levels of competence in their work settings.

Evaluation of a student’s performance is continuous and involves consideration of the student’s academic performance as well as the student’s performance in laboratory, practicum, and internship classes. A student may be withdrawn from a course and/or the program if the welfare of the student’s clientele or prospective clientele or the functioning of a school or agency is, in the judgment of the Department of Counseling and Psychological Services faculty, in jeopardy as a result of the student’s behavior. Students in this program are expected to follow the latest version of the American Counseling Association (ACA) Code of Ethics, and the most recent version of the American School Counselor Association (ASCA) Ethical Standards for School Counselors.

Program Degree Requirements

Specialist in Education in School Counseling

Professional Studies (6)
Required (3):

- EPRS 8530 Quantitative Methods and Analysis in Education I (3)

Required (3):
Select one of the following Social Foundation of Education Courses (3)

- EPSF 8040 Cultural Studies in Education: Gender (3)
- EPSF 8260 Sociology of Inner-City Children (3)
• EPSF 8270 Philosophy of Education (3)
• EPSF 8320 Politics and Policy in Education (3)
• EPSF 8340 History of American Education (3)

**Teaching Field/Major (12)**
**Required (12):**

• CPS 8450 Advanced Group Counseling (3)
• CPS 8480 Supervision of School Counseling Services (3)
• CPS 8490 Current Trends and Ethical Issues in School Counseling (3)
• CPS 8661 Applied Practice II: School Counseling (3)

**Electives (12)**
Students can choose electives that are 7000 level and above in programs from the College of Education and Human Development or the Sociology, Psychology, or Anthropology Departments in College of Arts and Science (with the exception of Master’s level Applied Practice and Internship courses, such as CPS 7660, CPS 7661, CPS 7663, CPS 7680, CPS 7681, and CPS 7683 and Graduate Assistant Seminar courses, such as CPS 7975, ECE 7975, EPY 7975, etc.). Students can contact the Department of Counseling and Psychological Services (404/413-8010) for a School Counseling program outline that offers suggested, appropriate electives.

Program total: minimum of 30 semester hours

**4520 School Psychology (Ed.S.)**

**Specialist in Education (Ed.S.) in School Psychology**

Department of Counseling and Psychological Services
950 College of Education Building, 404-413-8010
http://cps.education.gsu.edu/
Brian Dew, Chair

The professional in school psychology is educated in the major disciplines of education and psychology. He or she is equipped to undertake and manage processes and problems related to the education and development of children within schools. A major portion of his or her training concerns the interaction of the child with the social institution of the school. Because of this special orientation, the school psychologist has to be well grounded in the philosophy and methods of education and must achieve a high level of understanding of psychological processes such as learning, personality, and social competence.

**Program Objectives**

The school psychologist is an applied psychologist who brings skills, instrumentation, and techniques to bear on learning and behavioral problems in the school setting. He or she must be prepared to:

• Intervene constructively when acute and chronic behavior problems occur.
- Consult effectively with change agents in the child’s life (i.e., parents or guardians, administrators, and teachers).
- Participate in the assessment of individual learning problems.
- Participate in education program planning and management.
- Provide information to promote effective use of the resources of agencies outside the school setting.
- Administer programs of psychological services in the educational setting.
- Design and carry out action and situational research requiring knowledge of the school and of the learner in interaction in such a setting.

Program Academic Regulations

The Ed.S. degree is the second major component (in addition to the master’s degree) of the combined Master’s/Ed.S. program in School Psychology. At times, students may enroll concurrently in some courses from the master’s degree and some courses from the Ed.S. degree to meet the requirements of the combined program. In addition to the areas of knowledge covered under the master’s level of training, the specialist program has some advanced focus on emotional and behavioral development of the child’s psychoeducational functions, study in the field of learning disorders, school-based intervention and consultation. Counseling and consultation skills will be employed, with opportunities for utilizing advanced consultation methods in the school setting. The combined Master’s/Ed.S. program meets the State of Georgia renewable certification requirements and requires a minimum of 36 semester hours for a master’s degree in this major and an additional 42 semester hours to qualify for certification recommendation. A two term internship in a public school setting is required as part of the coursework for the Ed.S. degree and is required for successful completion of the combined Master’s/Ed.S. program.

The M.Ed./Ed.S. School Psychology program is not designed for part-time students. Each semester students are expected to enroll in 12-14 semester credits. Students may distribute their coursework to a maximum of four years rather than the usual three. However, they must maintain continuous enrollment of at least 9 credits per semester during this period (i.e., full time enrollment). The usual period of study in the M.Ed./Ed.S School Psychology program including internship, is three years. Some coursework can be completed during the summers. Under highly unusual circumstances (e.g., medical emergencies) the program faculty will consider requests to extend completion of the program beyond 4 years. Under unusual circumstances, students can apply for a one year leave of absence from the program. Should a student drop out of the program prior to completion, reapplication for admission is necessary. There is no guarantee the student will be readmitted to the program. If a student deviates from a normal schedule, then there is the possibility that the course may not be available in semesters other than those which they are scheduled.

All school psychology students must complete CPS 6040, CPS 7490, CPS 7495, CPS 7510, CPS 7515, CPS 7520, CPS 7570, CPS 8440, CPS 8570 with grades of “B” or higher. A grade lower than a “B” requires repetition of the course. A student cannot repeat a course more than once. Unless otherwise indicated, students may not register for any other CPS course until they have completed CPS 6040 with a grade of “B” or higher.

Successful completion of CPS 8680 Internship in School Psychology satisfies the comprehensive examination requirement for this program.

Students seeking certification from the State of Georgia Professional Standards Commission are required to pass the GACE Program Admission Assessment (or provide an exemption) and GACE Content
Assessment in School Psychology.

Evaluation of a student’s performance is continuous and involves consideration of the student’s academic performance as well as the student’s performance in laboratory, practicum, and internship classes. A student may be withdrawn from a course and/or the program if the welfare of the student’s clientele or prospective clientele or the functioning of a school or agency is, in the judgment of the Department of Counseling and Psychological Services faculty, in jeopardy as a result of the student’s behavior. Students in this program are expected to follow the latest version of the National Association of School Psychologists (NASP) Principles for Professional Ethics.

Program Degree Requirements

Specialist in Education in School Psychology

Professional Studies (9)

Required (9):

- EPRS 8530 Quantitative Methods and Analysis in Education I (3)
- EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)
- Any 7000-level or above EXC course with permission of advisor (3)

Teaching Field/Major (34)

Required (31):

- CPS 6150 Ethical and Legal Standards in Counseling and Psychological Services (2)
- CPS 7340 Social/Cultural Issues in Counseling and Psychological Services (2)
- CPS 8540 Child/Adolescent Psychopathology (3)
- CPS 8570 Psychological Consultation in the Schools II (3)
- CPS 8662 Applied Practice II: Consultation and Intervention Practice in School Psychology (3)
- CPS 8665 Intervention Strategies for Students with Learning Problems (3)
- CPS 8680 Internship in School Psychology (12)
- CPS 8760 Topical Seminar in School Psychology (3)

Choose One Course (3):

- CPS 6450 Group Counseling (3)
- CPS 8400 Introduction to Play Therapy (3)
- CPS 8431 Counseling Skills and Strategies for School Aged Children (3)

Program total: minimum of 43 semester hours

4530 Doctoral Programs Admissions

http://education.gsu.edu/admissions/graduate-admissions/
Admission to the doctoral programs in the College of Education and Human Development is competitive and an applicant meeting the published minimum requirements is not guaranteed admission.

All documents and other materials submitted by or for persons in connection with their interest in consideration for admission to a program become the property of Georgia State University and cannot be returned at any time. It is the responsibility of each applicant to follow the application procedures completely and correctly and to be certain that all materials have been submitted to the Office of Academic Assistance and Graduate Admissions by the application deadline. Incomplete applications will not be considered.

Admission to the doctoral program is for the specific academic term the applicant indicates on his or her application unless otherwise indicated on the acceptance letter. An accepted applicant who does not attend the academic term for which acceptance has been granted may reactivate his or her application for up to two academic terms immediately following the original academic term of acceptance, provided the program being applied for admits new students during at least one of those terms. Some programs only admit students one term during the academic year; therefore, postponing enrollment delays beginning the program by a calendar year. In this case, the applicant may not reactivate the application, but must submit a new online application instead (in keeping with university requirements for residency status verification). The applicant must meet current admission criteria, and may also be required to resubmit supporting materials.

A written request for reactivation is required. Address the request to Graduate Admissions, Office of Academic Assistance and Graduate Admissions, Attn: Director. Admission for a subsequent term is not automatic or guaranteed.

Deadlines for notification to change entry term are as follows:

- Fall Semester August 1
- Spring Semester December 1
- Summer Semester April 1

If the deadline falls on a weekend or on a university holiday, requests to change term of entry will be accepted until the end of the next business day following the deadline.

Application Procedures and General Admission Criteria

Every applicant must submit the online application by the deadline and send all supplemental materials to the addresses listed at http://education.gsu.edu/admissions/graduate-admissions/. Go to http://education.gsu.edu/admissions/graduate-admissions/required-application-materials-for-graduate-admissions/ for a current list of required program specific materials.

International Applicants

International applicants must provide materials earlier than other applicants to allow for translation and evaluation of foreign documents and for processing of paperwork related to Visa status as well as to allow for travel arrangements for accepted applicants. Application and supporting materials should be received at
least three months prior to the doctoral deadline. International applicants should refer to http://education.gsu.edu/international-students/ for additional information.

Reentry Applications

Doctoral students in the College of Education and Human Development who do not register at Georgia State University for regular courses during three consecutive academic terms are considered inactive for the purposes of registration. If inactive students wish to register, they must file a Reentry Application with the Office of Academic Assistance and Graduate Admissions. The form, instructions, and the deadline dates are available online at http://education.gsu.edu/student-services/forms-policies-regulations/.

Doctoral students who have not registered for six consecutive academic terms will be withdrawn from the doctoral program. A notation to that effect will be added to the students’ permanent record. Upon notification of withdrawal, the students will have a maximum of 30 days to petition for readmission. If the petition is approved, the students must satisfy the degree requirements of the graduate bulletin in effect at the time of readmission.

Term of Admission and Term of First Matriculation

All doctoral students’ term of admission is the term for which they were accepted into the program. The term of admission is identified on the students’ letters of acceptance. Students are held responsible for the coursework requirements published in the catalog corresponding to their term of admission.

Term of first matriculation refers to the academic term in which the students took the first course they will include in their program of study. For many students, the term of admission and the term of first matriculation will be the same. However, students who wish to include coursework taken prior to the term of admission will have an earlier term of first matriculation. The seven-year time limit for completion of all nondissertation requirements and the nine-year time limit for completing all requirements both begin the term of first matriculation.

4540 Doctor of Education (Ed.D.) General Information

Admission

Applicants to the Professional Doctorate in Education program must complete and submit the online application for graduate study, pay the nonrefundable application fee of $50.00, and send in all required application materials.

Graduate Assistantships

Graduate teaching assistantships (GTAs) and graduate research assistantships (GRAs) are available to selected doctoral students who demonstrate outstanding academic skills and expertise. Assistantships are made available through the student’s department. The number of GTA and GRA positions available depends on current class loads and research needs.
Doctoral Advisory Committee

Upon admission to a cohort, the student is assigned a major adviser. An additional faculty member will become a member of the student’s Doctoral Advisory Committee. Prior to the student’s defense of his or her dissertation, he or she must secure a minimum of one additional member of his or her Doctoral Advisory Committee. This additional member may be a university faculty member or a field-based practitioner who meets the university requirements for membership on a doctoral advisory committee. The major advisor and one of the two additional faculty members must hold graduate faculty status; one of who must hold Graduate Research Faculty Status.

The major advisor serves as the chair of the Doctoral Advisory Committee, is a full-time member of the College of Education and Human Development faculty, holds primary appointment in the College of Education and Human Development, has been a faculty member at Georgia State University for at least one academic year, and holds an earned doctorate.

A second member of the Doctoral Advisory Committee must be a full-time member of the College of Education and Human Development faculty holding an earned doctorate. A third member of the Doctoral Advisory Committee is an individual who can support the student’s dissertation research. The third member must also hold an earned doctorate. After the Doctoral Advisory Committee has been established, the committee, the student, and the department chair must approve any subsequent change of membership.

Dissertation

In addition to the minimum requirements described above, each doctoral student must enroll in a minimum of nine semester hours of dissertation credit. The final grade will be assigned the term the student successfully defends the dissertation.

Comprehensive Examination

The purpose of the comprehensive examination is to evaluate the students’ ability to use the subject content defined in the approved program of study to prepare a dissertation using the “Review and Research Format,” which is currently one of the approved formats in the Georgia State University College of Education and Human Development.

The comprehensive examination includes a written examination and may also include an oral portion. The students have two opportunities to pass the comprehensive examination. Students who do not pass the examination on the second attempt are not permitted to continue in the doctoral program.

Requirements Following Successful Completion of the Comprehensive Examination

Enrollment for a minimum of three semester hours of credit is required during at least two out of each three term period following successful completion of the comprehensive examination until the students have graduated. This enrollment must include a minimum of nine semester hours of dissertation (9990) credit but may also include other coursework.
Enrollment for dissertation credit is permitted only after successful completion of the comprehensive examination.

**Dissertation Prospectus**

The purpose of the dissertation prospectus is to offer the Doctoral Advisory Committee evidence of the significance and rationale of the proposed study. The prospectus presents a statement of the problem or issue, describes the philosophical/theoretical knowledge base within which the dissertation topic is developed, the methodology or procedures to be employed, and the expected implications of findings or conclusions. The prospectus reflects each student's preparedness to conduct the investigation and write the dissertation. Before beginning work on the prospectus, students should review the college’s Guide for Preparing Dissertations at http://education.gsu.edu/student-services/forms-policies-regulations/.

**Presentation of the Dissertation Prospectus**

Students shall publicly present the dissertation prospectus to provide an opportunity for College of Education and Human Development faculty to contribute to a scholarly critique of the proposed research. The announcement of the prospectus presentation includes the date and location of the presentation and an abstract of the prospectus. No fewer than three members of the Doctoral Advisory Committee must attend the prospectus presentation.

**Admission to Doctoral Candidacy**

When students have completed all coursework requirements for the degree except the dissertation the students’ Doctoral Advisory Committee may recommend to the Dean of the College of Education and Human Development that the students are admitted to candidacy for the Professional Doctorate of Education degree. To be recommended for candidacy, students must additionally have successfully completed the comprehensive examination, and submitted and presented an approved dissertation prospectus.

**Dissertation and Final Dissertation Defense**

The dissertation and defense are the culminating activities in the students’ doctoral program, demonstrating high levels of scholarly and intellectual activity. The dissertation is an original contribution to knowledge in the field of study through disciplined inquiry. Conducting, writing, and defending the dissertation are done in accordance with the highest professional standards.

Enrollment for a minimum of three semester hours of credit is required during at least two out of each three-term period following successful completion of the comprehensive examination until graduation. These hours of credit must include a minimum of nine semester hours of dissertation (9990) credit but may also include other coursework. Doctoral students must be enrolled in and successfully complete three semester hours of graduate credit (typically dissertation hours) the term all degree requirements are completed. The students must be enrolled in at least three semester hours of coursework during the academic term in which they defend the dissertation.

All doctoral dissertations must comply with the format, style, and procedural instructions established by
The purpose of the oral defense of the dissertation is to enable the Doctoral Advisory Committee to judge the quality of the investigation and the students’ ability to defend their work.

When the dissertation is completed, a public announcement of the oral defense of the dissertation is disseminated via the Office of Academic Assistance and Graduate Admissions to the College of Education and Human Development faculty. Additionally, the dissertation must be defended between the first day of classes and the last day of final examinations; it cannot be defended between academic terms. Students should consult the current deadlines for doctoral candidates to plan the timely announcement of the dissertation defense.

At the same time the announcement of the oral defense is submitted, two typed copies of the completed dissertation are made available for faculty review in the Office of Academic Assistance and Graduate Admissions. The announcement of the oral defense includes the date and location of the defense and an abstract of the dissertation of no more than 350 words.

The oral defense will be scheduled during regular dates of operation (i.e., between the first day of classes and the last day of final examinations each term, excluding official holidays). The oral defense must be attended by no fewer than three (3) members of the Doctoral Advisory Committee and is open to all College of Education and Human Development faculty and invited guests. The committee will invite other faculty and guests present to question the candidate and to communicate to the committee their professional reactions.

Approval and acceptance of the doctoral dissertation requires a favorable vote of a majority of the Doctoral Advisory Committee.

Electronic Master’s Theses and Doctoral Dissertations Policy

In order to insure that all master’s theses and doctoral dissertations produced at Georgia State University are captured, preserved, and appropriately made available, the University requires all students who produce a master’s thesis or doctoral dissertation in fulfillment of his/her degree to upload the final version of these documents to ScholarWorks@Georgia State University as a condition of the award of the degree.

Requirements for Degree Completion

The purpose of requiring completion of all degree requirements within a fixed period of time is to ensure currency, continuity, and coherence in the academic experiences leading to the degree.

All degree requirements must be successfully completed within five years of the students’ term of first matriculation. Moreover, all requirements for doctoral candidacy (coursework, comprehensive examination, prospectus approval) must be completed within four years of the students’ first term of matriculation. No coursework that was completed more than four years prior to admission to candidacy may be used to meet any doctoral degree requirement with the exception of courses transferred into the program.
credits may be applied to the program if completed no more than seven years prior to admission to candidacy.

Enrollment for a minimum of three semester hours of credit is required during at least two out of each three term period following successful completion of the comprehensive examination until graduation. This enrollment must include a minimum of nine semester hours of dissertation (9990) credit but may also include other coursework.

Students must be enrolled in and successfully complete three semester hours of graduate credit (typically dissertation hours) during the academic term in which all degree requirements are completed.

Graduation

Graduate degree candidates must file a formal application for graduation with the Graduation Office at least two academic terms in advance of their expected graduation dates. Deadlines are published online Registration Guide each term. Students receiving the Ed.D. degree may have some additional cost relative to graduation and should contact the Office of Academic Assistance and Graduate Admissions for further information.

Forms for changing the date of graduation may be obtained from the Graduation Office.

4550 Curriculum and Instruction (Ed.D.)

Doctor of Education (Ed.D.) in Curriculum and Instruction

Department of Middle and Secondary Education
639 College of Education Building
404-413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

Department of Early Childhood and Elementary Education
550 College of Education Building
404-413-8020
http://ece.education.gsu.edu/
Barbara Meyers, Chair

The Doctorate of Education (Ed.D.) in Curriculum and Instruction (C&I) promotes an understanding of the complex dynamics among theory, research, and practice. We believe in preparing empowered scholar-educators who advocate for social justice and educational equity at the classroom, school, district, and state levels. Grounded in rigorous and relevant research, our interdisciplinary courses offer students the opportunity to conceptualize, theorize, dialogue, problem-posses, problem-solve, create, and evaluate a wide range of educational theories, practices, and policies as related to Curriculum and Instruction. Embracing the principles of social justice, the Ed.D. in C&I emphasizes innovation, diversity, and advocacy in PK-12 settings.
The degree is designed for curriculum leaders who may hold other roles in schools such as classroom teachers, assistant principals, coaches, curriculum developers, department chairs, principals, subject/content area coordinators at the school or county level, and clinical faculty. The Doctorate of Education (Ed.D.) in Curriculum and Instruction (C&I) prepares master teachers to become instructional leaders and curriculum specialists at the school and/or school system levels and who wish to develop expertise in the following areas:

- Advocacy for equity in teaching and learning
- Curriculum theory and development
- Pedagogical leadership

The Ed.D. in C&I is a rigorous, collaborative, interdisciplinary program between the departments of Early Childhood and Elementary Education and Middle and Secondary Education, in the College of Education and Human Development and Art, Music, and Foreign Language Education in the College of Arts and Sciences. This degree offers an interdisciplinary approach across Pre-Kindergarten through Secondary levels in multiple content areas, Art, Early Childhood and Elementary, Language and Literacy, Mathematics, Middle Level, Foreign Language, Music, Science, and Social Studies Education.

The program is a three-year, flexible cohort model, which is characteristic of nationally recognized exemplary professional doctorate programs. The program consists of 45 hours of coursework and 9 hours of dissertation work for a total of 54 hours. Degree requirements include coursework, school-based residency requirement embedded in cohort courses (to include engagement in the professional community such as conference presentation, professional development delivery or publication), qualifying paper, prospectus presentation, and a dissertation using the approved dissertation format for the Georgia State University College of Education and Human Development. The dissertation will consist of a research study contextualized in the PK-12 school or family setting. A committee consisting of three faculty members, including a minimum of two College of Education and Human Development graduate or professional faculty members will support the student including review of the qualifying paper and dissertation prospectus proposal and defense.

The Ed.D. in C&I is designed in light of the new Curriculum and Instruction certification rules and graduates of this program will be eligible to obtain the new Curriculum and Instruction service certificate at the S7 level. Students holding a valid Clear Renewable, Level 4 or higher Georgia Teaching (T), Service (S), Technical Specialist (TS), or Leadership (L or PL) certificate at time of admission in their field of study would be eligible to add the Curriculum and Instruction certificate upon completion of the Ed.D. in Curriculum and Instruction program and completion of the Georgia state approved content assessment.

Admissions

The College of Education and Human Development admissions requirements for this degree follow doctoral admission criteria listed at http://education.gsu.edu/admissions/graduate-admissions/.

In addition to the general criteria for doctoral admissions in the College of Education and Human Development, Ed.D. in Curriculum and Instruction applicants will be required to meet the following criteria:

- At least one degree in the desired content area (concentration) or substantial number of years
teaching in desired subject area

- Master’s degree or Ed.S. in education or closely related field with a GPA of 3.30 or higher
- A minimum of three (3) years teaching experience
- 2 professional letters of reference
- Professional Goals Statement
- Resume
- Interview; students applying to the Music Education Concentration includes demonstration of musical skill; students applying to the Art Education Concentration includes professional portfolio
- Writing sample (i.e., print or electronic publication, course paper, professional blog series, etc.)

Program Academic Regulations

Students enrolled in this program are expected to be working professional educators and as such, their position in the school community will serve as an internship/field experience. Students who are not employed while enrolled will arrange with the Program Coordinator to work in a local setting. Residency requirements are embedded within cohort coursework.

Students are required to enroll in cohort courses in sequence with their assigned cohort. Should extenuating circumstances arise, the student’s adviser and Ed.D. Program Committee will consider and approve or deny alternate sequencing. The formal coursework requirement is satisfied through successful completion of each course in the program of study with a grade of “C” or higher, with an overall cumulative grade point average of 3.0 or better. Coursework in which a grade below “C” is earned may not be applied to the Ed.D. program.

This program is designed to lead to a Georgia Curriculum and Instruction service certificate; however, the service certificate and the doctoral degree are not mutually exclusive. To be eligible for the certificate individuals must meet the following requirements:

- An admission requirement of a clear and renewable T4 certificate.
- Completion of a minimum of 9 hours of coursework within a concentration area that aligns with a previously held certification or endorsement field.
- Passage of the GACE content exam in curriculum and instruction (test is under development).

Up to 9 graduate credit hours total may transfer to the Ed.D. in C&I. Transfer courses may substitute for the research or concentration core(s) only; transfer courses may not be used for program cohort courses. Transfer credits may be applied to the program if completed no more than seven years prior to admission to candidacy.

To be recommended for candidacy, students must additionally have successfully completed the comprehensive examination, and submitted and presented an approved dissertation prospectus.

All courses consist of three (3) hours credit each, unless otherwise indicated.

Program Degree Requirements
Doctor of Education in Curriculum and Instruction

Research Core (15 hours)

- EPRS 8500 Qualitative/Interpretive Research in Education I (3)
- EPRS 8530 Quantitative Methods and Analysis in Education I (3)
- EPRS 8620 Program Evaluation I (3)
- EDCI 9900 Critique of Educational Research (3)

Choose one:

- EPRS 8510 Qualitative Research in Education II (3)
- EPRS 8540 Quantitative Methods and Analysis in Education II (3)
- ECE 9380/EPRS 9380 Discourse Analysis (3)

Major in Curriculum and Instruction (30 hours)
Required (18 hours):

- EDCI 8400 Complexities of Teaching, Learning, and Curriculum Design (3)
- EDCI 8650 Curriculum and Instruction in Contemporary Urban Settings (3)
- EDCI 8900 Educational Inquiry and Assessment in Educational Contexts (6)
- EDCI 8980 Seminar in Professional Learning and Development (3)
- EDCI 9850 Research Seminar (3)

Concentrations (12 hours):
Students choose advanced content electives from 8000-9000 level courses in the following concentration areas:

Art Education (12 hours)
Select (12 hours):

- AE 8000 Introduction to Research in Art Education (3)
- AE 8010 Philosophy & Curriculum (3)
- AE 8020 Learning Theory (3)
- AE 8030 Leader Supervision In Art Education (3)
- AE 8050 Computer Imaging & Instructional Technology (3)
- AE 8060 Project in Art Education (3)
- AE 8100 Seminar in Art Education (3)
- AE 8200 History, Culture, & Communication In Art Education (3)
- AE 8300 Research in Art Education (3)
- AE 8400 Aesthetics and Critical Theory (3)
- AE 8500 Directed Study (3)
- AE 8980 Special Problems (3)
- Additional courses may be selected with the consent of the advisor.

Early Childhood and Elementary Education (12 hours)
Required (6 hours):
• ECE 9840 Socio-Cultural Issues in Early Childhood and Elementary Education (3)
• ECE 9960 Advanced Theory and Research in Child Development (3)

Select (6 hours):
• ECE 9393 Number and Operation in the Elementary Classroom (3)
• ECE 9394 Geometry and Measurement in the Elementary Classroom (3)
• ECE 9395 Rational Numbers and Algebra in the Elementary Classroom (3)
• ECE 9396 Data Analysis and Probability in the Elementary Classroom (3)
• ECE 9420 Early Literacy Learning (3)
• ECE 9820 Teacher-child Relationships in Early Childhood (3)
• Additional courses may be selected with the consent of the advisor.

Foreign Language Education (12 hours)
Required (6 hours):
• FORL 8223 Modern Foreign Language Pedagogy: Theory and Practice (3)
• FORL 8227 Teaching Culture in the Foreign Language Classroom (3)

Select (6 hours):
• FORL 8226 Teaching Literature in the Foreign Language Classroom (3)
• FORL 8250 Topics in Pedagogy (3)
• FORL 8800 Research in Foreign / Second Language Education (3)
• Additional courses may be selected with the consent of the advisor.

Language and Literacy Education (12 hours)
Required (6 hours):
• EDRD 8310 Theoretical Models and Processes of Literacy Learning (6) (repeatable)

Select (6 hours):
• ECE 9420 Early Literacy Learning (3)
• EDLA 8330 Language Variation and Learning (3)
• EDRD 8550 Trends and Issues in Language and Literacy Education (3)
• EDRD 8610 Professional Learning and Leadership of Literacy (3)
• Additional courses may be selected with the consent of the advisor.

Mathematics Education (12 hours) **
Required (3 hours):
• EDMT 8430 Sociocultural and Sociohistorical Issues of Mathematics Education (3)

Select three (9 hours):
• ECE 9393 Number and Operation in the Elementary Classroom (3)
Middle Level Education (12 hours)

Required (3 hours):

- EDCI 8550 Trends and Issues in Middle Level Education (3)

Select three (9 hours):

Each student selects an area of advanced study of three courses (9 semester hours) in the content areas of Language Arts, Mathematics, Science, or Social Studies:

Middle Level Language Arts (9 hours)

Required (3 hours):

- EDRD 8310 Theoretical Models and Processes of Literacy Learning (6) (repeatable)
- EDLA 8330 Language Variation and Learning (3)

Middle Level Mathematics (9 hours)

Required (3 hours):

- EDMT 8430 Sociocultural and Sociohistorical Issues of Mathematics Education (3)

Select 2 courses for six (6 hours):

- EDMT 8290 Study of Learning and Instruction in Mathematics (3)
- EDMT 8420 Topics in the School Mathematics Curriculum (3)
- EDMT 8550 Trends and Issues of Teaching Mathematics (3)
- EDMT 9870 Advanced Research Seminar in Mathematics Education (3)

Middle Level Science (9 hours)

- EDSC 8430 Nature of Science (3)
- EDSC 9870 Advanced Research Seminar in Science Education (3) (repeatable)

Middle Level Social Studies (9 hours)

- EDSS 8290 Learning, Curriculum, and Instruction in Social Studies (3) (repeatable)
- EDSS 8420 Topics in the School Social Studies Curriculum (3) (repeatable)
- EDSS 8550 Trends and Issues of Teaching Social Studies (3) (repeatable)

*Additional courses may be selected with the consent of the advisor.
Music Education (12 hours)
Required (12 hours):

- MUS 8260 Curriculum & Assessment in Music Education (3)
- MUS 8900 Non-Thesis Research in Music Education (3)
- MUS 8960 Proseminar in Music Education (3) (repeatable)
- Additional courses may be selected with the consent of the advisor.

Science Education (12 hours)
Choose from the following courses*:

- EDSC 8430 Nature of Science (3)
- EDSC 9870 Advanced Research Seminar in Science Education (3) (repeatable)
- *Additional courses may be selected with the consent of the advisor.

Social Studies Education (12 hours)
Choose from the following repeatable courses*:

- EDSS 8290 Learning, Curriculum, and Instruction in Social Studies (3) (repeatable)
- EDSS 8420 Topics in the School Social Studies Curriculum (3) (repeatable)
- EDSS 8550 Trends and Issues of Teaching Social Studies (3) (repeatable)
- *Additional courses may be selected with the consent of the advisor.

Dissertation (9 hours)
EDCI 9990 Dissertation (9 hours)

Program Total: Minimum of 54 semester hours

**Optional K-5 Mathematics Endorsement:
As part of the coursework leading to the Doctor of Education degree, students who hold a current teaching certification from the Georgia Professional Standards Commission may satisfy part of the K-5 Mathematics Endorsement requirements by completing four 9000-level courses (ECE 9393, ECE 9394, ECE 9395, and ECE 9396). To apply for the K-5 Mathematics Endorsement, students must also complete ECE 7740 Internship in Early Childhood Education I (3) while enrolled in one of the four specified 9000-level endorsement courses. ECE 7740 does not satisfy the 8000-9000 level-course requirements for the College of Education and Human Development courses applicable to the Doctor of Education degree.

4560 Educational Leadership (Ed.D.)

Doctor of Education (Ed.D.) in Educational Leadership

Department of Educational Policy Studies
450 College of Education Building
404-413-8030
http://eps.education.gsu.edu/
William Curlette, Chair
The Ed.D. in educational leadership targets the professional needs of educational leaders whose long-term career goals include leading schools, school districts and other education agencies in a complex, highly competitive global environment.

The purpose of the program is to advance the development and practice of effective educational leadership by providing senior-level administrators with the following:

- the knowledge and skills necessary to deal effectively with the complex issues facing education today
- the methods of inquiry necessary to analyze current educational problems
- the leadership skills necessary to direct the development and implementation of programs to address those problems and to disseminate the results in various professional and public forums
- the knowledge and applied skills rarely provided in traditional advanced degree programs in educational leadership in an alternative format that meets the needs of senior-level administrators.

Program Academic Regulations

The program, delivered in a three-year, closed cohort model, consists of 45 hours of course work and 9 hours of dissertation for a total of 54 hours. Candidates who hold the performance-based Specialist in Education (Ed.S.) or performance-based add-on may transfer up to six courses (18 hours) into the Ed.D. program. A transcript review is required for candidates seeking to transfer courses into the program from institutions other than Georgia State University.

Program Degree Requirements

Doctor of Education in Educational Leadership

Required Courses (54):

- EPEL 8000 Research in Educational Leadership and Organizational Culture (3)
- EPEL 8020 Leadership for Change in a Diverse Society (3)
- EPEL 8330 Advanced Law, Policy, and Governance (3)
- EPEL 8420 Advanced Instructional Leadership (3)
- EPEL 8500 Central Office Leadership (3)
- EPEL 8620 Psychological Aspects of Leadership (3)
- EPEL 8930 Applied Research (3)
- EPEL 9970 Advanced Seminar in Educational Leadership (3)
- EPRS 7920 Classroom Testing, Grading, and Assessment (3)
- EPRS 8500 Qualitative/Interpretive Research in Education I (3)
- EPRS 8530 Quantitative Methods and Analysis in Education I (3)
- EPRS 8620 Program Evaluation I (3)
- EPSF 8440 Curriculum Design and Analysis (3)
- EPS 8360 Educational Policy Making and Analysis (3)
- EPS 9990 Dissertation (9)
- Other appropriate courses numbered 8000 to 8999 may be substituted into the program of study by the Educational Leadership unit and the Ed.D. cohort coordinator.
4570 Doctor of Philosophy (Ph.D.) General Information

The Doctor of Philosophy (Ph.D.) degree offered by the Georgia State University College of Education and Human Development is congruent in purpose with the following statement of the Council of Graduate Schools in the United States:

The Doctor of Philosophy degree is the highest academic degree granted by American universities. It is awarded to those who have demonstrated mastery of the field and successfully completed and defended a dissertation. The degree is a clear recognition that the student has the ability to complete a substantial piece of research work, to present formally the results of this work, and to appreciate its significance in the general field. The degree has always been considered the most significant achievement in preparation for an active career in scholarship and research. The requirements set by American universities for attainment of the Ph.D. degree may vary considerably among universities, but all have a common set of experiences and tasks designed to produce a scholar and researcher with recognized competence in the chosen field. The successful candidate for the Ph.D. is then considered prepared to undertake a career of scholarship, research, and service to society.

Each doctoral major field of study offered by the College of Education and Human Development provides preparation for careers of scholarship, research, and service to society.

Doctoral Assistantships, Instructorships, and Fellowships

Graduate teaching assistantships (GTAs) and graduate research assistantships (GRAs) are available to selected doctoral students who demonstrate outstanding academic skills, expertise, and departmental or college need. Assistantships are made available through the student’s department and a limited number through the Office of the Dean.

Minimum Requirements for Degree Completion

Each doctoral student admitted to the College of Education and Human Development will (a) complete a program of coursework approved by his or her Doctoral Advisory Committee, (b) complete an approved residency, (c) perform successfully on a comprehensive examination, (d) develop and present a dissertation research prospectus, (e) gain admission to candidacy, and (f) submit and successfully defend a doctoral dissertation. Individual programs may have additional requirements that the students must complete. All requirements must be completed within a nine-year time period as described below.

Doctoral Advisory Committee

The Doctoral Advisory Committee assist the students in planning an appropriate program of study and preparing for completion of non-coursework requirements, including the comprehensive examination. The Doctoral Advisory Committee has the supervisory responsibility for approving program coursework and non-coursework requirements up to the point of candidacy to the degree.
Upon admission to a doctoral major in the College of Education and Human Development, each student is assigned a temporary adviser from among the faculty of the major field of study in which admission has been granted. This temporary adviser assists the student until a Doctoral Advisory Committee is established. The student should establish a permanent doctoral adviser and advisory committee early but not later than the accrual of 27 semester hours of coursework nor later than one calendar year from the date of matriculation.

The Doctoral Advisory Committee consists of a minimum of three members:

1. The major adviser serves as the chair of the Doctoral Advisory Committee, is a full-time, tenure track member of the College of Education and Human Development faculty, holds primary appointment in the College of Education and Human Development, has been a faculty member at Georgia State University for at least one academic year, is a member of the faculty of the major to which the students have been admitted, holds an earned doctorate, and holds Graduate Research Faculty Membership.

2. A second member of the Doctoral Advisory Committee must be a full-time member of the College of Education and Human Development faculty holding an earned doctorate and Graduate Research Faculty Membership.

3. A third member of the Doctoral Advisory Committee must represent a major outside the student’s major and holds Graduate Research Faculty Membership.

All appointments to the Doctoral Advisory Committee, including its chair, are subject to approval by each student, the department chair, and the Associate Dean for Graduate Studies and Research of the College of Education and Human Development. After the Doctoral Advisory Committee has been established, the committee, student, department chair, and the Associate Dean for Graduate Studies and Research of the College of Education and Human Development must approve any subsequent change of membership.

Program of Study

The primary emphasis of the Doctor of Philosophy (Ph.D.) degree is the preparation of students as researchers, scholars, and scientist practitioners. Research experiences will be a continual part of students’ learning including completion of substantial coursework focused on research and scholarship as well as participation in research activities. Congruent with this perspective, students will be active participants in ongoing research activities and scholarship with faculty and/or in research teams from the beginning of their enrollment in the doctoral program. Students in College of Education and Human Development Ph.D. programs will continually participate in such activities throughout their doctoral program resulting in conference presentations and scholarship submitted for publication. While these experiences will be time-intensive and may overlap with some coursework, these efforts are expected to occur above and beyond doctoral students’ coursework.

The formal coursework requirement is satisfied through successful completion of each course in the program of study with a grade of “C” or higher (including S), with an overall cumulative grade point average of 3.50 or better. Coursework in which a grade below “C” is earned may not be applied to the doctoral program.

A minimum of 36 semester hours, excluding dissertation credit, is required in each student’s doctoral
program. To meet coursework requirements for the Doctor of Philosophy degree, a minimum of 24 semester hours must be earned in the doctoral program of study at Georgia State University. The 24 semester hour minimum may not include credits transferred from other institutions, from other doctoral programs within the college or university, from a specialist program, or from a nondegree status. All coursework applied to the doctoral program of study must be post-master’s work. The use of credits earned beyond the master’s degree while in a nondegree status is limited to a maximum of nine semester hours and should be counted as part of the 12 semester hours allowed in transfer.

No coursework (transferred or from Georgia State University) that has been completed more than seven years prior to admission to candidacy, after successful completion of coursework and the comprehensive examination, may be used to meet any doctoral degree requirement.

Planning of coursework for doctoral study is done individually with consideration of each student’s career goals, prior academic work, and professional experience; however, all programs of study will foster the development of skills and abilities in a major area and a core area. This catalog is the sole source for approved program requirements. Programs of study should be planned to conform to requirements stated in this catalog. A minimum of 36 semester hours of coursework is required in each student’s doctoral program. College of Education and Human Development courses applied to meet these requirements must be at the 8000 or 9000 level. No dissertation credit may be applied to the minimum requirement of 36 semester hours of coursework. The minimally required 36 semester hours are distributed among the core and major areas as follows:

**Core area**

A minimum of 18 semester hours; the purpose of the core area requirement is to develop general research competence, including expertise in at least one particular research method appropriate to the major field and/or dissertation research. The general requirements of the core area are described later in this chapter. Variations for each program are included with the program’s description.

**Major area**

A minimum of 18 semester hours; the purpose of the major area requirement is to increase the doctoral student’s knowledge base in the academic discipline in which scholarly activity is to be pursued.

**Dissertation**

In addition to the minimum requirements described above, each doctoral student must enroll in a minimum of 15 semester hours of dissertation credit. The final grade will be assigned the term the student successfully defends the dissertation.

**Research**

A minimum of 30 semester hours of research must be completed, which includes 15 semester hours of dissertation and 15 semester hours of coursework as identified by the Doctoral Advisory Committee.

**Doctoral Residency**
The purpose of residency is (a) to provide close and continuous involvement with faculty, professional colleagues, and other graduate students; (b) to provide a supervised opportunity for development in the areas of scholarship, teaching, and service; and (c) to provide a period of time for concentrated study and coursework, reading, reflecting, and research appropriate for the advanced degree.

Doctoral students must complete five of the following six elements for their Residency Program Plan:

1. Participate in ongoing research and scholarly experiences,
2. Submit a research/scholarly manuscript to a peer-reviewed journal as primary or lead author (or as an author with substantial contribution to the research study and manuscript),
3. Participate in identifying and applying for a grant/fellowship,
4. Present at a research/scholarly conference,
5. Engage in university teaching, or
6. Serve the institution and/or profession.

Comprehensive Examination

The purpose of the comprehensive examination is to evaluate the students’ ability to use the subject content of the major, core, and cognate areas (if applicable) as defined in the approved program of study to perform cognitive tasks including recall and application and especially focusing on analysis, synthesis, and evaluation of that content.

The comprehensive examination includes a written examination and may also include an oral examination. Students have two opportunities to pass the comprehensive examination. Those who do not pass the examination on the second attempt are not permitted to continue in the doctoral program.

To be eligible to take the comprehensive examination, the students’ cumulative grade point average in the doctoral program of study must be no less than 3.50. Each student’s doctoral committee determines what coursework must be completed before he or she may take the comprehensive examination.

Requirements Following Successful Completion of the Comprehensive Examination

Enrollment for a minimum of three semester hours of credit is required during at least two out of each three term period following successful completion of the comprehensive examination until the students have graduated. This enrollment must include a minimum of 15 semester hours of dissertation (9990) credit but may also include other coursework.

Enrollment for dissertation credit is permitted only after successful completion of the comprehensive examination.

Review of Research for the Protection of Human Subjects or Animals

Students, faculty, or staff who are planning to conduct research involving human subjects must submit pertinent information for review by the Institutional Review Board (IRB) or Institutional Animal Care and Use Committee (IACUC). These committees are charged with protecting the rights and welfare of human subjects and animals by reviewing the background, purpose, methodology, and instrumentation of all
research conducted by faculty, staff, students, and employees of Georgia State University.

All research requires review by the IRB or IACUC. Procedures and the necessary forms for submitting proposals are available from each student’s department.

For further information regarding this review process, students should contact their respective departments.

On Campus Resources

The Learning Resource Unit in the Counseling and Testing Center offers a variety of services, including writing and editorial services that can be useful to doctoral students. Contact 404/413-1640 for further information.

Dissertation Prospectus and Dissertation Advisory Committee

The purpose of the dissertation prospectus is to offer the Dissertation Advisory Committee evidence of the significance and rationale of the proposed study. The prospectus describes the philosophical/theoretical knowledge base within which the dissertation topic is developed, the methodology or procedures to be employed, and the expected implications of findings or conclusions. The prospectus reflects each student’s preparedness to conduct the investigation and write the dissertation. Before beginning work on the prospectus, students should review the college’s Guide for Preparing Dissertations at http://education.gsu.edu/student-services/forms-policies-regulations/.

Following completion of the student’s comprehensive examination but before approval of the prospectus, the student and the student’s advisor will recommend formation of the Dissertation Advisory Committee. The majority of the committee, including the committee chair, must hold graduate research faculty status in the College of Education and Human Development. The resulting Dissertation Advisory Committee should represent expertise in both the area of the research topic and the proposed research methodology and consist of no fewer than four members with earned doctorates, which means that at least three Dissertation Advisory Committee members must be College of Education and Human Development faculty who hold graduate faculty research status or approved by reciprocal agreements between colleges and schools, which recognizes each others graduate research faculty. Any proposed member of the Dissertation Advisory Committee not meeting these requirements must be approved by the Associate Dean of Graduate Studies and Research.

The Dissertation Advisory Committee aids each student in developing the dissertation prospectus and later the dissertation. The committee is responsible for judging the significance and acceptability of the dissertation prospectus, the soundness and acceptability of the dissertation, and the competence and acceptability of the students’ oral defense of the dissertation.

Presentation of the Dissertation Prospectus

Students shall publicly present the dissertation prospectus to provide an opportunity for College of Education and Human Development faculty to contribute to a scholarly critique of the proposed research. The announcement of the prospectus presentation includes the date and location of the presentation and an
abstract of the prospectus. No fewer than four members of the Dissertation Advisory Committee must attend the prospectus presentation.

Announcement of the prospectus presentation must be made at least 15 calendar days prior to the date of the scheduled prospectus presentation. Additionally, the prospectus must be presented between the first day of classes and the last day of final examinations; it cannot be presented between academic terms. Students should consult the current deadlines for doctoral students to plan the timely announcement of the prospectus presentation.

Approval and acceptance of the dissertation prospectus requires a favorable vote of a majority of the Dissertation Advisory Committee.

Admission to Doctoral Candidacy

When students have completed all coursework requirements for the degree except the dissertation and, in the case of counseling psychology and counselor education and practice majors only, the internship, the students’ Dissertation Advisory Committee may recommend to the Dean of the College of Education and Human Development that they are admitted to candidacy for the Doctor of Philosophy degree. To be recommended for candidacy, students must additionally have fulfilled their department’s residency requirement, completed all required examinations during the comprehensive examination, and submitted and presented an approved dissertation prospectus. Students must be recommended for candidacy within seven years of their term of first matriculation, that is, when they took the first course to be counted toward completion of degree requirements.

Dissertation and Final Dissertation Defense

The dissertation and defense are the culminating activities in the students’ doctoral program, demonstrating high levels of scholarly and intellectual activity. The dissertation is an original contribution to knowledge in the field of study through disciplined inquiry. Conducting, writing, and defending the dissertation are done in accordance with the highest professional standards.

Enrollment for a minimum of three semester hours of credit is required during at least two out of each three-term period following successful completion of the comprehensive examination until graduation. These hours of credit must include a minimum of 15 semester hours of dissertation (9990) but may also include other coursework. Doctoral students must be enrolled in and successfully complete three semester hours of graduate credit (typically dissertation hours) the term all degree requirements are completed. The students must be enrolled in at least three semester hours of coursework during the academic term in which they defend the dissertation.

All doctoral dissertations must comply with the format, style, and procedural instructions established by the College of Education and Human Development in its Guide for Preparing Dissertations at http://education.gsu.edu/student-services/forms-policies-regulations/. The guide should be consulted soon after the students complete their comprehensive examination successfully.

The purpose of the oral defense of the dissertation is to enable the Dissertation Advisory Committee to judge the quality of the investigation and the students’ ability to defend their work.
When the dissertation is completed and ready to defend, a public announcement of the oral defense of the dissertation is disseminated by the Office of Academic Assistance and Graduate Admissions to the College of Education and Human Development faculty. The announcement must be submitted to the Associate Dean for Graduate Studies and Research at least 15 calendar days prior to the scheduled defense. Additionally, the dissertation must be defended between the first day of classes and the last day of final examinations; it cannot be defended between academic terms. Students should consult the current deadlines for doctoral candidates to plan the timely announcement of the dissertation defense.

At the same time the announcement of the oral defense is submitted, a copy of the completed dissertation is uploaded to coedissertations@gsu.edu for faculty review in the Office of Academic Assistance and Graduate Admissions. The announcement of the oral defense includes the date and location of the defense and an abstract of the dissertation of no more than 350 words.

The oral defense is scheduled on the main campus of the university during regular dates of operation (i.e., between the first day of classes and the last day of final examinations each term, excluding official holidays). The oral defense must be attended by no fewer than four (4) members of the Dissertation Advisory Committee and is open to all College of Education and Human Development faculty and invited guests. The committee will invite other faculty and guests present to question the candidate and to communicate to the committee their professional reactions.

Approval and acceptance of the doctoral dissertation requires a favorable vote of a majority of the Dissertation Advisory Committee.

Electronic Master’s Theses and Doctoral Dissertations Policy

In order to insure that all master’s theses and doctoral dissertations produced at Georgia State University are captured, preserved, and appropriately made available, the University requires all students who produce a master’s thesis or doctoral dissertation in fulfillment of his/her degree to upload the final version of these documents to ScholarWorks@Georgia State University as a condition of the award of the degree.

Requirements for Degree Completion

The purpose of requiring completion of all degree requirements within a fixed period of time is to ensure currency, continuity, and coherence in the academic experiences leading to the degree.

All degree requirements must be successfully completed within nine years of the students’ term of first matriculation. Moreover, all requirements for doctoral candidacy (coursework, comprehensive examination, prospectus approval) must be completed within seven years of the students’ first term of matriculation. No coursework that was completed more than seven years prior to admission to candidacy may be used to meet any doctoral degree requirement.

Enrollment for a minimum of three semester hours of credit is required during at least two out of each three term period following successful completion of the comprehensive examination until graduation. This enrollment must include a minimum of 15 semester hours of dissertation (9990) credit but may also include other coursework.
The students must be enrolled in and successfully complete three semester hours of graduate credit (typically dissertation hours) during the academic term in which all degree requirements are completed.

**Graduation**

Graduate degree candidates must file a formal application for graduation with the Graduation Office at least two academic terms in advance of their expected graduation dates. Deadlines are published online at http://registrar.gsu.edu/graduation/. Students receiving the Ph.D. degree may have some additional cost relative to graduation.

The form for changing the date of graduation is also located at http://registrar.gsu.edu/graduation/.

**General Core Area Requirements (18 hours)**

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

**Research Core (15 hours)**

Choose one course(3):

- EPRS 8500 Qualitative/Interpretive Research in Education I (3)
- EPRS 8530 Quantitative Methods and Analysis in Education I (3)

Required (12):

- A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
- Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

**Quantitative Methodology**

- EPRS 8540 Quantitative Methods and Analysis in Education II
- EPRS 8550 Quantitative Methods and Analysis in Education III (3)
- EPRS 8820 Program Evaluation and Institutional Research (3)
- EPRS 8830 Survey Research, Sampling Principles and Questionnaire Design (3)
- EPRS 8840 Meta-Analysis (3)
- EPRS 8660 Bayesian Statistics (3)
- EPRS 9550 Multivariate Analysis (3)
- EPRS 9560 Structural Equation Modeling (3)
- EPRS 9570 Hierarchical Linear Modeling I (3)
- EPRS 9571 Hierarchical Linear Modeling II (3)
- EPRS 9900 Research Design (3)

**Qualitative Methodology**
Single-Case Methodology

- EPY 8850 Introduction to Single-Case Methodology (3)
- EPY 8860 Applications of Single-Case Methodology (3)

Historical/Philosophical Methodology

- EPSF 9850 Historical Research in Twentieth Century American Education (3)
- EPSF 9930 Philosophical Analysis and Method (3)

Measurement Methodology

- EPRS 7920 Classroom Testing, Grading, and Assessment (3)
- EPRS 8920 Educational Measurement (3)
- EPRS 9350 Introduction to Item Response Theory (3)
- EPRS 9360 Advanced Item Response Theory (3)

Social Foundations of Education and Psychology of Learning Core (3 hours)

In addition to highly specialized research in specific areas, doctoral students in the College of Education and Human Development must possess a deep understanding of comprehensive, theoretical principles and broad ideological conceptualizations.

Through historical, philosophical, sociological, and anthropological inquiry, knowledge of social foundations fosters the types of speculative investigations essential for thorough understandings of those theoretical principles and ideological conceptualizations necessary to uphold the integrity of the Ph.D. degree.

The psychology of learning component is based on the following guiding principles: (1) Educational leaders make judgments that affect learning. (2) Doctoral students should have a substantial understanding of the psychology of learning.

Select one (3):

- EPSF 8270 Philosophy of Education (3)
- EPSF 8280 Anthropology of Education (3)
- EPSF 8310 Sociology of Education (3)
- EPSF 8320 Politics and Policy in Education (3)
- EPSF 8340 History of American Education (3)
• EPSF 9260 Epistemology and Learning (3)
• EPY 8030 Advanced Applied Behavior Analysis (3)
• EPY 8050 The Psychology of Instruction (3)
• EPY 8070 Understanding and Facilitating Adult Learning (3)
• EPY 8080 Memory and Cognition (3)
• EPY 8180 Development During School Age (5 to 18 Years) (3)
• EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
• EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

**4580 Counseling Psychology (Ph.D.)**

**Doctor of Philosophy (Ph.D.) in Counseling Psychology**

Department of Counseling and Psychological Services  
950 College of Education Building  
404-413-8010  
http://cps.education.gsu.edu/  
Brian Dew, Chair

The American Psychological Association accredits the Ph.D. major in Counseling Psychology at Georgia State University. It subscribes to a scientist practitioner model for the training of counseling psychologists. Students are prepared to profit from and contribute to the body of knowledge underlying counseling psychology. Graduates are also equipped with a rich array of clinical skills and are eligible for licensure as applied psychologists. The program of study prepares students for employment in academic and private settings.

**Philosophy**

The services of counseling psychology are primarily directed to the problems of everyday living rather than to psychopathology. Although psychopathology is also studied to allow for a more accurate reading of normal behavior, it is not the central focus of the program. It is rather cultural discontinuities, developmental difficulties and challenges, educational and occupational choice making and adjustment, marriage and family problems, high risk behaviors, unhealthy lifestyles, and the like that receive primary attention. In assisting persons to adjust creatively and to fulfill their human potential, the counseling psychologist is expected to perform three complementary roles: a preventative role in helping persons anticipate, circumvent, and forestall future adjustment difficulties; a developmental role in helping persons make use of life experiences in the realization of their potentials; and a remedial role in helping persons overcome personal problems. Students are trained to use individual and group counseling, psycho-educational techniques, and consultation skills to address the above mentioned problem areas.

The program emphasis is on counseling psychology and not psychological counseling. Therefore, students are expected to affiliate with psychology because it is the generic discipline from which the counseling psychology specialty arises. The program seeks to train psychologists who will prepare themselves for licensure, the diplomate, and other forms of professional sanctioning. While the faculty reserves the right to change program requirements as the need arises, the following is representative of current program requirements for the degree. Students in this program are expected to follow the latest version of the
Program Admission

Students beginning the doctoral program in Counseling Psychology should have completed a master’s degree in an appropriate major, such as counseling or clinical psychology. Students lacking an appropriate master’s (or those with a bachelor’s degree) will be required to complete compensatory curricular experiences as stipulated by their doctoral advisory committees.

Program Academic Regulations

The internship (CPS 9680) is an essential component of doctoral training programs in professional psychology. It provides trainees with the opportunity to take substantial responsibility for carrying out major professional functions in the context of appropriate supervisory support, professional role modeling, and awareness of administrative structures. The internship is distinguished from the applied practice experience by the increased responsibility and independence afforded the students and by the more intense nature of client contact. Internships in Counseling Psychology require either a fulltime experience for one academic or calendar year or a halftime experience for two consecutive years.

Program Degree Requirements

Doctor of Philosophy in Counseling Psychology

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):
A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8820 Program Evaluation and Institutional Research (3)
EPRS 8830 Survey Research, Sampling Principles and Questionnaire Design (3)
EPRS 8840 Meta-Analysis (3)
EPRS 8660 Bayesian Statistics (3)
EPRS 9550 Multivariate Analysis (3)
EPRS 9560 Structural Equation Modeling (3)
EPRS 9570 Hierarchical Linear Modeling I (3)
EPRS 9571 Hierarchical Linear Modeling II (3)
EPRS 9900 Research Design (3)

Qualitative Methodology
ANTH 8010 Qualitative Methods in Anthropology (3)
EPRS 8510 Qualitative Research in Education II (3)
EPRS 8520 Qualitative Research in Education III (3)
EPRS 8640 Case Study Methods (3)
EPRS 8700 Visual Research Methods (3)
EPRS 9120 Poststructural Inquiry (3)
EPRS 9400 Writing Qualitative Research Manuscripts (3)

Single-Case Methodology
EPY 8850 Introduction to Single-Case Methodology (3)
EPY 8860 Applications of Single-Case Methodology (3)

Historical/Philosophical Methodology
EPSF 9850 Historical Research in Twentieth Century American Education (3)
EPSF 9930 Philosophical Analysis and Method (3)

Measurement Methodology
EPRS 7920 Classroom Testing, Grading, and Assessment (3)
EPRS 8920 Educational Measurement (3)
EPRS 9350 Introduction to Item Response Theory (3)
EPRS 9360 Advanced Item Response Theory (3)

Social Foundations of Education and Psychology of Learning course (3)

Choose One Course (3):
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

B. Major Area (50-51)

Required (38):
CPS 8350 Biopsychology and Medication (3)
CPS 8370 Advanced Career Counseling (3)
CPS 8450 Advanced Group Counseling (3)
CPS 8530 Professional Issues and Decisions (3)
CPS 8650 Advanced Counseling Theory (3)
CPS 8660 Applied Practice II: Professional and Rehabilitation Counseling (6)
CPS 9480 Supervision of Counseling Services (3)
CPS 9680 Doctoral Internship (3)
CPS 9920 Research and Publication (2)
CPS 9962 Counseling Psychology Seminar (6)
PSYC 8500 History of Psychology (3)
Select one course (3):
PSYC 8510 Advanced Social Psychology (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)
(If EPY 8220 is completed to satisfy the Core area requirements, PSYC 8510 must be completed to satisfy this requirement. EPY 8220 can only be applied to one area of study. It cannot satisfy both the Core Area and the Major Area.)

Select one course (3):
CPS 8100 Psychobehavioral Diagnosis (3)
CPS 8540 Child/Adolescent Psychopathology Assessment (3)

Required (3):
CPS 9665 Assessment Practicum (3)

Select one course (3-4):
CPS 9410 Assessment of Intelligence (3)
CPS 9420 Adult Personality Assessment (3)
PSYC 8030 Assessment II (4)

C. Cognate Area (18)

Required (9):
CPS 8340 Advanced Multicultural Counseling Strategies and Intervention (3)
CPS 9660 Applied Practice III (6)

The cognate area provides the students an opportunity to enrich their preparation as counseling psychologists with further study in a related area of expertise. The students must select one of the following cognate areas (9): child and family, clinical assessment, health psychology, human sexuality, psychotherapy, multicultural, geriatric psychology, organizational development, rehabilitation psychology, or research methodology. Students should contact their Doctoral Advisory Committees for a program outline for Counseling Psychology. The program outline describes the course sequencing and describes additional cognate course requirements.

D. Dissertation (15)

Required (15):
CPS 9990 Dissertation (15)

Program total: minimum of 101-102 semester hours

4590 Counselor Education and Practice (Ph.D.)

Doctor of Philosophy (Ph.D.) in Counselor Education and Practice

Department of Counseling and Psychological Services
The Counselor Education and Practice program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Doctoral training extends beyond course content hours and field experiences. Doctoral students learn to examine critically the state of the art, to generate research inquiries, and to advance the profession of counseling through oral and written contributions. The doctoral level counselor represents a “scientist-practitioner” model and should be both consumer and producer of research. Students in this program are expected to follow the most recent version of the American Counseling Association (ACA) Code of Ethics.

Departmental Endorsement Policy

The Department of Counseling and Psychological Services requires that program faculty endorsement be given only for the program for which the graduate students have been prepared.

Program Degree Requirements

Doctor of Philosophy in Counselor Education and Practice

A. Core Area (21)

The Core Area consists of 18 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (18 hours)

Required (6):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):
A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8820 Program Evaluation and Institutional Research (3)
EPRS 8830 Survey Research, Sampling Principles and Questionnaire Design (3)
EPRS 8840 Meta-Analysis (3)
EPRS 8660 Bayesian Statistics (3)
EPRS 9550 Multivariate Analysis (3)
EPRS 9560 Structural Equation Modeling (3)
In addition to highly specialized research in specific areas, doctoral students in the College of Education and Human Development must possess a deep understanding of comprehensive, theoretical principles and broad ideological conceptualizations.

Through historical, philosophical, sociological, and anthropological inquiry, knowledge of social foundations fosters the types of speculative investigations essential for thorough understandings of those theoretical principles and ideological conceptualizations necessary to uphold the integrity of the Ph.D. degree.

The psychology of learning component is based on the following guiding principles: (1) Educational leaders make judgments that affect learning. (2) Doctoral students should have a substantial understanding of the psychology of learning.

Select one (3):
EPSF 8270 Philosophy of Education (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8310 Sociology of Education (3)
EPSF 8320 Politics and Policy in Education (3)
EPSF 8340 History of American Education (3)
EPSF 9260 Epistemology and Learning (3)
EPY 8030 Advanced Applied Behavior Analysis (3)
EPY 8050 The Psychology of Instruction (3)
EPY 8070 Understanding and Facilitating Adult Learning (3)
EPY 8080 Memory and Cognition (3)
EPY 8180 Development During School Age (5 to 18 Years) (3)
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

B. Major Area (44)

Required (44):
CPS 8370 Advanced Career Counseling (3)
CPS 8450 Advanced Group Counseling (3)
CPS 8530 Professional Issues and Decisions (3)
CPS 8650 Advanced Counseling Theory (3)
CPS 8660 Applied Practice II: Professional and Rehabilitation Counseling (3)
CPS 9480 Supervision of Counseling Services (3)
CPS 9660 Applied Practice III (3)
CPS 9661 Supervision Internship (3)
CPS 9680 Doctoral Internship (9)
CPS 9920 Research and Publication (2)
CPS 9963 Leadership in Counselor Education: Professional and Social Advocacy (6)
EPY 9000 Facilitating College Teaching (3)

C. Cognate Area and Elective (12)

The cognate area provides students an opportunity to enrich their preparation as a counselor with further study in a related area of expertise. Students select one of the following cognate areas:

Clinical Rehabilitation Counseling
Behavior Therapy
Research
Wellness
Multiculturalism
Child Clinical/Family

Students may design an individual cognate area with permission from their Doctoral Advisory Committee. The students’ Doctoral Advisory Committee may require courses in the cognate area be from outside the department, outside the College of Education and Human Development, or both.

D. Dissertation (15)

Required (15):
CPS 9990 Dissertation (15)
**Program total:** minimum of 92 semester hours

### 4600 Early Childhood and Elementary Education (Ph.D.)

**Doctor of Philosophy (Ph.D.) in Early Childhood and Elementary Education**

Department of Early Childhood and Elementary Education  
550 College of Education Building  
404-413-8020  
http://ece.education.gsu.edu/  
Barbara Meyers, Chair

**Philosophy**

The theoretical stance of the Early Childhood and Elementary Education PhD Program is pragmatic. No single theory or research approach can solve the complex issues that impact children in a rapidly changing world; thus, we (the PhD faculty) believe that collaborative, comprehensive research and scholarship is our most powerful tool for investigating and answering questions about children’s learning and education. Our diverse faculty has expertise in qualitative and quantitative research and evaluation. Interweaving theory, research, and practice, we inquire about how children’s learning is shaped by educational inequities across race, gender, (dis)ability, and social class; educational globalization; community, home, and school connections; culturally responsive pedagogy; urban education; and curricular and technological innovations. We leverage this expertise to advocate for children’s learning in multiple contexts, in and out of school.

**Program Academic Regulations**

If students in the Educational Specialist program in Early Childhood Education completed ECE 8400 Teacher Development (3) and ECE 8410 Curriculum Theory, Design, and Application (3), these courses can substitute for ECE 9360 Curriculum, Issues, and Historical Perspectives in Early Childhood and Elementary Education (3) and ECE 9400 Teacher Development (3) in the Ph.D. program in Early Childhood and Elementary Education.

In addition to the college-wide requirements for doctoral students, the department requires that each doctoral student has experience with young children and that each student participate in Residency experiences. For a detailed description of program requirements, please refer to the Program Manual for the Doctor of Philosophy Degree in Early Childhood and Elementary Education available from the department.

**Components**

Each doctoral student’s planned program of study is divided into two academic components: Research and the Major. The Research component includes 21 credit hours, including a Core set of courses that introduce research methods as well as courses that deepen knowledge about a particular set of complementary methods (qualitative, quantitative, and mixed methods). The Major includes a set of 27 hours of courses intended to deepen knowledge of research methodologies that guide scholarly inquiry in...
elementary and early childhood education, theories of human development, curricular issues, and historical perspectives. The Major also includes a set of electives from which students can choose. Electives can also be taken outside the Department of Early Childhood and Elementary Education. Students will choose electives that will, together, create an area of specialization. Each program of study will culminate with a dissertation.

Research and Evaluation Design and Methodology

Doctoral students are expected to be able to design, implement, and interpret research. Therefore, doctoral students are expected to have knowledge of research designs and methods. Doctoral students are also expected to engage in high quality research via a research apprenticeship experience and a dissertation. Courses suggested to develop this competence are listed in the Program Manual for the Doctor of Philosophy Degree in Early Childhood and Elementary Education.

Early Childhood and Elementary Education

All doctoral students in the Early Childhood and Elementary Education Major will be expected to promote scholarly advocacy for children, to understand the nature of children and their development, to understand theories undergirding educational practices and issues, and to excel as teacher educators. Required residency experiences ensure that students develop knowledge and skills about mentoring and teaching educators as well as conducting research. Courses required in the Major ensure that doctoral students share knowledge about historical, political, developmental, and theoretical paradigms that have shaped educational contexts and research. In addition, elective courses allow for individualization of the doctoral program to create an area of expertise within Early Childhood and Elementary Education. The Major course offerings are further described in the Program Manual for the Doctor of Philosophy Degree in Early Childhood and Elementary Education.

Planned Study

Planning doctoral study coursework to address the goals mentioned above is done in consultation with an Advisor with consideration of each student's career goals, prior academic work, and professional experience. Each program, therefore, is unique. However, the following courses are offered:

Program Degree Requirements

Doctor of Philosophy in Early Childhood and Elementary Education

A. Core Area (21)

The Core Area consists of 18 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (18 hours)

Required (6):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)
Required (12):
A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8820 Program Evaluation and Institutional Research (3)
EPRS 8830 Survey Research, Sampling Principles and Questionnaire Design (3)
EPRS 8840 Meta-Analysis (3)
EPRS 8660 Bayesian Statistics (3)
EPRS 9550 Multivariate Analysis (3)
EPRS 9560 Structural Equation Modeling (3)
EPRS 9570 Hierarchical Linear Modeling I (3)
EPRS 9571 Hierarchical Linear Modeling II (3)
EPRS 9900 Research Design (3)

Qualitative Methodology
ANTH 8010 Qualitative Methods in Anthropology (3)
EPRS 8510 Qualitative Research in Education II (3)
EPRS 8520 Qualitative Research in Education III (3)
EPRS 8640 Case Study Methods (3)
EPRS 8700 Visual Research Methods (3)
EPRS 9120 Poststructural Inquiry (3)
EPRS 9400 Writing Qualitative Research Manuscripts (3)

Single-Case Methodology
EPY 8850 Introduction to Single-Case Methodology (3)
EPY 8860 Applications of Single-Case Methodology (3)

Historical/Philosophical Methodology
EPSF 9850 Historical Research in Twentieth Century American Education (3)
EPSF 9930 Philosophical Analysis and Method (3)

Measurement Methodology
EPRS 7920 Classroom Testing, Grading, and Assessment (3)
EPRS 8920 Educational Measurement (3)
EPRS 9350 Introduction to Item Response Theory (3)
EPRS 9360 Advanced Item Response Theory (3)

Social Foundations of Education and Psychology of Learning Core (3 hours)

In addition to highly specialized research in specific areas, doctoral students in the College of Education and Human Development must possess a deep understanding of comprehensive, theoretical principles and broad ideological conceptualizations.

Through historical, philosophical, sociological, and anthropological inquiry, knowledge of social
foundations fosters the types of speculative investigations essential for thorough understandings of those theoretical principles and ideological conceptualizations necessary to uphold the integrity of the Ph.D. degree.

The psychology of learning component is based on the following guiding principles: (1) Educational leaders make judgments that affect learning. (2) Doctoral students should have a substantial understanding of the psychology of learning.

Select one (3):
EPSF 8270 Philosophy of Education (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8310 Sociology of Education (3)
EPSF 8320 Politics and Policy in Education (3)
EPSF 8340 History of American Education (3)
EPSF 9260 Epistemology and Learning (3)
EPY 8030 Advanced Applied Behavior Analysis (3)
EPY 8050 The Psychology of Instruction (3)
EPY 8070 Understanding and Facilitating Adult Learning (3)
EPY 8080 Memory and Cognition (3)
EPY 8180 Development During School Age (5 to 18 Years) (3)
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

B. Major Area (27)

Required (12):
ECE 9360 Curriculum, Issues, and Historical Perspectives in Early Childhood and Elementary Education (3)
ECE 9800 Scholarly Inquiry (3)
ECE 9860 Evaluating and Interpreting Research in Early Childhood and Elementary Education (3)
ECE 9960 Advanced Theory and Research in Child Development (3)

Elective Courses: (minimum 15)
At least 12 hours of elective courses must come from within the department. Doctoral-level elective courses offered within the Department include:
EPRS 9120/ECE 9120 Poststructural Inquiry (3)
ECE 9380/EPRS 9380 Discourse Analysis (3)
ECE 9393 Number and Operation in the Elementary Classroom (3)
ECE 9394 Geometry and Measurement in the Elementary Classroom (3)
ECE 9395 Rational Numbers and Algebra in the Elementary Classroom (3)
ECE 9396 Data Analysis and Probability in the Elementary Classroom (3)
ECE 9400 Teacher Development (3)
ECE 9420 Early Literacy Learning (3)
ECE 9810 Directed Readings (1-3)
ECE 9820 Teacher-Child Relationships in Early Childhood (3)
ECE 9840 Socio-Cultural Issues in Early Childhood and Elementary Education (3)
ECE 9850 Research Seminar in Early Childhood and Elementary Education (3)
K-5 Mathematics Endorsement (optional):

As part of the coursework leading to the Doctor of Philosophy degree, students who hold a current teaching certification from the Georgia Professional Standards Commission may satisfy part of the K-5 Mathematics Endorsement requirements by completing four 9000-level courses (ECE 9393, ECE 9394, ECE 9395, and ECE 9396). To apply for the K-5 Mathematics Endorsement, students must also complete ECE 7740 Internship in Early Childhood Education I (3) while enrolled in one of the four specified 9000-level endorsement courses. ECE 7740 does not satisfy the 8000-9000 level-course requirements for the College of Education and Human Development courses applicable to the Doctor of Philosophy degree.

C. Dissertation (15)

Required (15):
ECE 9990 Dissertation (15)

Program total: minimum of 63 semester hours

4610 Education of Students with Exceptionalities (Ph.D.)

Doctor of Philosophy (Ph.D.) in Education of Students with Exceptionalities

Department of Educational Psychology, Special Education and Communication Disorders
835 College of Education Building
404-413-8040
http://esc.education.gsu.edu/
Laura Fredrick, Chair

Concentration Areas: Autism Spectrum Disorders; Behavior Disorders; Communication Disorders; Deaf/Hard of Hearing; Early Childhood Special Education; Intellectual Disabilities Learning Disabilities; Physical and Health Disabilities (Orthopedic Impairments)

The Ph.D. major in Education of Students with Exceptionalities provides graduates with the skills necessary to succeed in university positions as they perform the roles of teaching, research, and grant writing; and/or to provide a high level of competence for leadership in a variety of community, state, or national service agencies. The program is designed to educate future special education leaders in greater knowledge, understanding, and expertise in one area of concentration in special education, while at the same time making sure that they are fully equipped with a broad knowledge of general special education and with advanced skills in research and design methods.

Evaluation of a student’s performance is continuous and involves consideration of the student’s performance in all academic settings. Students who fail to make progress in a timely manner or who demonstrate inappropriate or unprofessional conduct may be withdrawn from a course or the program. If
such removal from a course is necessary, the student will receive the grade of “F” and may be judged ineligible to reenroll in the course.

Students complete coursework depending on their background and concentration. These could be special education (EXC) courses or any university courses that support the major area of study and are approved by the student’s Doctoral Advisory Committee.

Program Degree Requirements

Doctor of Philosophy in Education of Students with Exceptionalities

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):

A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8820 Program Evaluation and Institutional Research (3)
EPRS 8830 Survey Research, Sampling Principles and Questionnaire Design (3)
EPRS 8840 Meta-Analysis (3)
EPRS 8660 Bayesian Statistics (3)
EPRS 9550 Multivariate Analysis (3)
EPRS 9560 Structural Equation Modeling (3)
EPRS 9570 Hierarchical Linear Modeling I (3)
EPRS 9571 Hierarchical Linear Modeling II (3)
EPRS 9900 Research Design (3)

Qualitative Methodology
ANTH 8010 Qualitative Methods in Anthropology (3)
EPRS 8510 Qualitative Research in Education II (3)
EPRS 8520 Qualitative Research in Education III (3)
EPRS 8640 Case Study Methods (3)
EPRS 8700 Visual Research Methods (3)
EPRS 9120 Poststructural Inquiry (3)
In addition to highly specialized research in specific areas, doctoral students in the College of Education and Human Development must possess a deep understanding of comprehensive, theoretical principles and broad ideological conceptualizations.

Through historical, philosophical, sociological, and anthropological inquiry, knowledge of social foundations fosters the types of speculative investigations essential for thorough understandings of those theoretical principles and ideological conceptualizations necessary to uphold the integrity of the Ph.D. degree.

The psychology of learning component is based on the following guiding principles: (1) Educational leaders make judgments that affect learning. (2) Doctoral students should have a substantial understanding of the psychology of learning.

Select one (3):
- EPSF 8270 Philosophy of Education (3)
- EPSF 8280 Anthropology of Education (3)
- EPSF 8310 Sociology of Education (3)
- EPSF 8320 Politics and Policy in Education (3)
- EPSF 8340 History of American Education (3)
- EPSF 9260 Epistemology and Learning (3)
- EPY 8030 Advanced Applied Behavior Analysis (3)
- EPY 8050 The Psychology of Instruction (3)
- EPY 8070 Understanding and Facilitating Adult Learning (3)
- EPY 8080 Memory and Cognition (3)
- EPY 8180 Development During School Age (5 to 18 Years) (3)
- EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
- EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)
Required (16):
EXC 8961 Professional Development Seminar in Special Education (4)
EXC 8980 Professional Investigation and Writing in Special Education (3)
EXC 9900 Research Seminar in Special Education (3)
EXC 9981 Grant Proposal Writing in Special Education (3)
EXC 9985 Ethics and the Advancement of Research (3)

Select (3): Course will be selected and approved by the student’s Doctoral Advisory Committee.

C. University Teaching Cognate (6)

Required (6):
EPY 9000 Facilitating College Teaching (3)
EXC 9660 Internship in Special Education I (3)

D. Dissertation (15)

Required (15):
EXC 9990 Dissertation (15)

Program total: minimum of 58 semester hours

4620 Educational Policy Studies (Ph.D.)

Doctor of Philosophy (Ph.D.) in Educational Policy Studies

Department of Educational Policy Studies
450 College of Education Building
404-413-8030
http://eps.education.gsu.edu/
William Curlette, Chair

Concentration Areas: Educational Leadership; Research, Measurement, and Statistics; Social Foundations of Education

The Ph.D. major in Educational Policy Studies allows students to examine the philosophy and practice of education and to utilize various methods for the study of educational theory and practice to become policy makers and examiners of policy and the effects of policy on education. The broader requirements of the Department of Educational Policy Studies offer students the opportunity to link their programs of study with broader social and educational issues in such areas as race, gender, class, leadership, and policy. This broader context establishes an understanding of the programs of study as essential components rather than separate structures of our social, economic, and political lives.

Concentration Areas

Students select one of the concentration areas as part of his or her doctoral program. Newly admitted
students will be assigned a temporary adviser from the department at the time of admission.

Concentration in Educational Leadership

This concentration emphasizes organizational leadership, policy development, supervision, and management. The leadership concentration will be designed to satisfy the career objectives of the students. Graduates may anticipate careers in school administration, governmental education agencies, and the professorate.

Concentration in Research, Measurement, and Statistics

This concentration prepares graduates to investigate research methodologies, to conduct research related to schools, and to conduct and critique research in educational practice, policy, and administration. Students develop knowledge and skills in qualitative and quantitative research and evaluation methods.

Concentration in Social Foundations of Education

Social foundations is a broadly conceived field of educational study that derives its character from a number of academic disciplines and interdisciplinary studies. At Georgia State University, the disciplines involved in social foundations inquiry are history, philosophy, sociology, anthropology, and political science; the interdisciplinary field is cultural studies. The purpose of social foundations study is to bring the intellectual resources derived from these areas to bear in developing interpretive, normative, and critical perspectives of educational theory, policy, and practices, both inside of and outside of schools.

Program Degree Requirements

Doctor of Philosophy in Educational Policy Studies

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):

A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
In addition to highly specialized research in specific areas, doctoral students in the College of Education and Human Development must possess a deep understanding of comprehensive, theoretical principles and broad ideological conceptualizations.

Through historical, philosophical, sociological, and anthropological inquiry, knowledge of social foundations fosters the types of speculative investigations essential for thorough understandings of those theoretical principles and ideological conceptualizations necessary to uphold the integrity of the Ph.D. degree.

The psychology of learning component is based on the following guiding principles: (1) Educational leaders make judgments that affect learning. (2) Doctoral students should have a substantial understanding of the psychology of learning.
Select one (3):
EPSF 8270 Philosophy of Education (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8310 Sociology of Education (3)
EPSF 8320 Politics and Policy in Education (3)
EPSF 8340 History of American Education (3)
EPSF 9260 Epistemology and Learning (3)
EPY 8030 Advanced Applied Behavior Analysis (3)
EPY 8050 The Psychology of Instruction (3)
EPY 8070 Understanding and Facilitating Adult Learning (3)
EPY 8080 Memory and Cognition (3)
EPY 8180 Development During School Age (5 to 18 Years) (3)
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

The Social Foundations and Psychology of Learning Core requirements (3) must be completed during the first two years of the students’ program.

B. Major Area (24)

The students must take EPS 9270 during the first year after being admitted and EPS 9260 during the subsequent academic term.

Required (6):
EPS 9260 Issues of Race, Class, and Gender in Education (3)
EPS 9270 Research in Educational Policy Studies (3)

The students select one of the following three concentration areas:

B.1 – Ph.D. Concentration in Educational Leadership (18 hours)

In consultation with your doctoral advisory committee, please choose six courses from one of these specializations: Leadership and Administration (This specialization can be designed to add-on the PL Georgia Leadership certification to a level 6 or level 7 certification. Students interested in the PL certification must meet all prerequisites described for the program.); Leadership and Policy; or Leadership and Urban Education. These specializations are specifically designed for candidates who aspire to positions in academia and other closely related areas. For questions about the PL certification requirements, please contact the coordinator of the educational leadership program.

Leadership and Administration Specialization (18):

This specialization can be designed to add-on the PL Georgia leadership certification to a level 6 or level 7 certificate. Completion of the prerequisite courses – EPEL 7000 and EPEL 7330 is required prior to beginning the concentration courses for those seeking PL leadership certification.

EPEL 8000 Research in Educational Leadership and Organizational Culture (3)
EPEL 8020 Leadership for Change in a Diverse Society (3)
EPEL 8260 Theory in Educational Leadership (3)
EPEL 8330 Advanced Law, Policy, and Governance (3)
EPEL 8420 Advanced Instructional Leadership (3)
EPEL 8500 Central Office Leadership (3)
EPEL 8620 Psychological Aspects of Leadership (3)
EPEL 8650 The Principal (3)
EPEL 8690 Research-Based Decision Making for School Leaders (3)
EPEL 8970 Seminar in Educational Leadership (3) (repeatable)

Leadership and Policy Specialization (18):

This specialization is not designed to meet Georgia PL certification requirements. It is specifically designed for students who seek to gain a clearer understanding of the issues associated with educational leadership and how those issues are related to the policy arena.

EPEL 8020 Leadership for Change in a Diverse Society (3)
EPEL 8260 Theory in Educational Leadership (3)
EPEL 8330 Advanced Law, Policy, and Governance (3)
EPEL 8620 Psychological Aspects of Leadership (3)
EPS 8800 Independent Study (3)
EPS 8810 Directed Reading and Research (1-3)
EPS 8970 Seminar in Educational Policy Studies (3)
EPS 9980 Research Seminar in Educational Policy Studies (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8320 Politics and Policy in Education (3)

Leadership and Urban Education Specialization (18):

This specialization is not designed to meet Georgia PL certification requirements. It is specifically designed for students who seek to better understand educational leadership as it relates to the urban education and the issues associated with educating urban children.

EPEL 8020 Leadership for Change in a Diverse Society (3)
EPEL 8260 Theory in Educational Leadership (3)
EPEL 8970 Seminar in Educational Leadership (3) (repeatable)
EPEL 9000 Concepts of Leadership and Research in Educational Leadership (3)
EPEL 9970 Advanced Seminar in Educational Leadership (3)
EPS 8800 Independent Study (3)
EPS 8810 Directed Reading and Research (1-3)
EPSF 8010 Cultural Studies in Education: Film (3)
EPSF 8040 Cultural Studies in Education: Gender (3)
EPSF 8260 Sociology of Inner-City Children (3)
EPSF 8340 History of American Education (3)

Other appropriate courses numbered 8000 to 8999 may be selected with the consultation of your advisor and the coordinator of educational leadership programs.
B.2 – Ph.D. Concentration in Research, Measurement, and Statistics (18 hours)

Select six courses (18) from the list below:
ECE 9380/EPRS 9380 Discourse Analysis (3)
EPRS 8500 Qualitative/Interpretative Research in Education I (3)
EPRS 8510 Qualitative Research in Education II (3)
EPRS 8520 Qualitative Research in Education III (3)
EPRS 8530 Quantitative Methods and Analysis in Education I (3)
EPRS 8540 Quantitative Methods and Analysis in Education II (3)
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8600 Computer Use in Educational Research (3)
EPRS 8620 Program Evaluation I (3)
EPRS 8640 Case Study Methods (3)
EPRS 8660 Bayesian Statistics (3)
EPRS 8670 Practicum in Research or Program Evaluation (3)
EPRS 8700 Visual Research Methods (3)
EPRS 8820 Program Evaluation and Institutional Research (3)
EPRS 8830 Survey Research, Sampling Principles, and Questionnaire Design (3)
EPRS 8840 Meta-Analysis (3)
EPRS 8920 Educational Measurement (3)
EPRS 9120/ECE 9120 Poststructural Inquiry (3)
EPRS 9350 Introduction to Item Response Theory (3)
EPRS 9360 Advanced Item Response Theory (3)
EPRS 9400 Writing Qualitative Research Manuscripts (3)
EPRS 9550 Multivariate Analysis (3)
EPRS 9560 Structural Equation Modeling (3)
EPRS 9571 Hierarchical Linear Modeling I (3)
EPRS 9570 Hierarchical Linear Modeling II (3)
EPRS 9600 Advanced Computer Methods for Educational Research (3)
EPRS 9900 Research Design (3)
EPRS 9920 Seminar in Special Topics in Qualitative Research (3)
EPS 8950 Professional Development Seminar (1)

B.3 – Ph.D. Concentration in Social Foundations of Education (18 hours)

Select six courses (18) from the list below:
EPSF 8010 Cultural Studies In Education: Film (3)
EPSF 8040 Cultural Studies in Education: Gender (3)
EPSF 8260 Sociology of Inner-City Children (3)
EPSF 8270 Philosophy of Education (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8310 Sociology of Education (3)
EPSF 8320 Politics and Policy in Education (3)
EPSF 8330 Globalization and Education Policy (3)
EPSF 8340 History of American Education (3)
EPSF 8350 Comparative Educational Systems (3)
EPSF 8440 Foundations of Curriculum Development (3)
EPSF 9260 Epistemology and Learning (3)

C. Cognate Area (12)

The major and cognate areas should represent a cohesive program of study.

D. Dissertation (15)

Required (15):
EPS 9990 Dissertation (15)

Program total: minimum of 69 semester hours

4630 Educational Psychology (Ph.D.)

Doctor of Philosophy (Ph.D.) in Educational Psychology

Department of Educational Psychology, Special Education, and Communication Disorders
835 College of Education Building
404-413-8040
http://esc.education.gsu.edu/
Laura Fredrick, Chair

The Ph.D. major in Educational Psychology develops a substantial knowledge base in the related fields defining educational psychology. This program prepares persons for careers as faculty members in colleges and universities, as researchers in departments of education and in government and business, and as professionals in training research programs in government and industry.

Program Academic Regulations

Doctoral students in Educational Psychology who have little or no background in educational psychology may be required to complete additional coursework beyond the minimum requirements described below.

Students must complete the departmental residency requirements. Transfer credit hours may not be used to satisfy more than one third of the credit hours for the major area. Details of these requirements and clarification of other policies are available in the Educational Psychology’s Policy Guide for Doctoral Students available at http://esc.education.gsu.edu/academics-and-admissions/educational-psychology-ph-d/.

Evaluation of a student’s performance is continuous and involves consideration of the student’s performance in all academic settings. Only courses in which a student earns a grade of “B” or higher will be counted toward degree fulfillment. Failure to make progress in a timely manner or inappropriate or unprofessional conduct by a student may result in the students being withdrawn from a course or the program. If such removal from a course is necessary, the student will receive a grade of “F” for the course and may be judged ineligible to reenroll in that course.
Program Degree Requirements

Doctor of Philosophy in Educational Psychology

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):

A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8820 Program Evaluation and Institutional Research (3)
EPRS 8830 Survey Research, Sampling Principles and Questionnaire Design (3)
EPRS 8840 Meta-Analysis (3)
EPRS 8660 Bayesian Statistics (3)
EPRS 9550 Multivariate Analysis (3)

EPRS 9120 Poststructural Inquiry (3)
EPRS 9400 Writing Qualitative Research Manuscripts (3)

Single-Case Methodology
EPY 8850 Introduction to Single-Case Methodology (3)
EPY 8860 Applications of Single-Case Methodology (3)

Historical/Philosophical Methodology
EPSF 9850 Historical Research in Twentieth Century American Education (3)
EPSF 9930 Philosophical Analysis and Method (3)

Measurement Methodology
EPRS 7920 Classroom Testing, Grading, and Assessment (3)
EPRS 8920 Educational Measurement (3)
EPRS 9350 Introduction to Item Response Theory (3)
EPRS 9360 Advanced Item Response Theory (3)

Social Foundations of Education and Psychology of Learning Core (3 hours)

In addition to highly specialized research in specific areas, doctoral students in the College of Education and Human Development must possess a deep understanding of comprehensive, theoretical principles and broad ideological conceptualizations.

Through historical, philosophical, sociological, and anthropological inquiry, knowledge of social foundations fosters the types of speculative investigations essential for thorough understandings of those theoretical principles and ideological conceptualizations necessary to uphold the integrity of the Ph.D. degree.

The psychology of learning component is based on the following guiding principles: (1) Educational leaders make judgments that affect learning. (2) Doctoral students should have a substantial understanding of the psychology of learning.

Select one (3):
EPSF 8270 Philosophy of Education (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8310 Sociology of Education (3)
EPSF 8320 Politics and Policy in Education (3)
EPSF 8340 History of American Education (3)
EPSF 9260 Epistemology and Learning (3)
EPY 8030 Advanced Applied Behavior Analysis (3)
EPY 8050 The Psychology of Instruction (3)
EPY 8070 Understanding and Facilitating Adult Learning (3)
EPY 8080 Memory and Cognition (3)
EPY 8180 Development During School Age (5 to 18 Years) (3)
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

B. Major Area (18-24)

Required (9):
EPY 8010 Professional Studies in Educational Psychology (3)
EPY 8961 Professional Development Seminar in Educational Psychology (3)
EPY 9000 Facilitating College Teaching (3)

Select (9-15): Students must select a minimum of 15 hours of additional credit hours of coursework, a
majority of which must be in educational psychology. As an exception, students who have a Master’s degree in Educational Psychology from Georgia State University select a minimum of 9 additional credit hours.

C. Dissertation (15)

Required (15):
EPY 9990 Dissertation (15)

Program total: minimum of 51-57 semester hours

4640 Instructional Technology (Ph.D.)

Doctor of Philosophy (Ph.D.) in Instructional Technology

Learning Technologies Division
233-242, 2nd Floor, College of Education building
http://ltd.education.gsu.edu/
Stephen Harmon, Chair

The Ph.D. major in Instructional Technology provides specialization for individuals in the following areas: instructional design, alternative instructional delivery systems, research, management, and consulting. The program is designed for highly competent individuals who are working in the instructional technology field in a wide variety of educational, training, and development areas such as those found in schools, higher education, business, industry, and government agencies.

Program Degree Requirements

Doctor of Philosophy in Instructional Technology

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):

A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)

Social Foundations of Education and Psychology of Learning Core (3 hours)

In addition to highly specialized research in specific areas, doctoral students in the College of Education and Human Development must possess a deep understanding of comprehensive, theoretical principles and broad ideological conceptualizations.

Through historical, philosophical, sociological, and anthropological inquiry, knowledge of social foundations fosters the types of speculative investigations essential for thorough understandings of those theoretical principles and ideological conceptualizations necessary to uphold the integrity of the Ph.D. degree.

The psychology of learning component is based on the following guiding principles: (1) Educational leaders
make judgments that affect learning. (2) Doctoral students should have a substantial understanding of the psychology of learning.

Select one (3):
EPSF 8270 Philosophy of Education (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8310 Sociology of Education (3)
EPSF 8320 Politics and Policy in Education (3)
EPSF 8340 History of American Education (3)
EPSF 9260 Epistemology and Learning (3)
EPY 8030 Advanced Applied Behavior Analysis (3)
EPY 8050 The Psychology of Instruction (3)
EPY 8070 Understanding and Facilitating Adult Learning (3)
EPY 8080 Memory and Cognition (3)
EPY 8180 Development During School Age (5 to 18 Years) (3)
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

B. Major Area (27)

The required courses provide a conceptual base of research, emerging issues in education, and an in-depth examination of research in the major field. The internship (LT 8660) facilitates the application of theory to practice in the major field of study.

Required (15):
LT 9850 Research Seminar in Learning Technologies (9)
(Students will take LT 9850 for one hour every semester until they are admitted into candidacy.)
LT 9900 Critique of Educational Research in Learning Technologies (3)
LT 8660 Internship in Instructional Technology (3)

Select (12):
Students and Doctoral Advisory Committee select additional departmental courses relating to instructional technology.

C. Dissertation (15)

Required (15):
LT 9990 Dissertation (15)

Program total: minimum of 60 semester hours

4650 Kinesiology (Ph.D.)

Doctor of Philosophy (Ph.D.) in Kinesiology
Concentration Areas: Biomechanics and Physical Rehabilitation, Exercise Physiology, Exercise Psychology, Physical Education Teacher Education, Sport Administration

The Ph.D. major in Kinesiology is designed to prepare students for research and teaching careers at colleges and universities and for health, physiological performance, rehabilitative science, and related fields. Concentration areas that are available within this program: Biomechanics and Physical Rehabilitation, Exercise Physiology, Exercise Psychology, Physical Education Teacher Education, and Sport Administration.

The concentration in Biomechanics and Physical Rehabilitation focuses on the scientific description of human movement through advanced techniques utilizing computerized film and high speed video graphical analysis systems, computerized force measuring systems, electromyography, and other state-of-the-art instrumentation with applications in many disciplines, including ergonomics, engineering, medicine, sport, and exercise.

The concentration in Exercise Physiology prepares students to teach and to conduct research in areas related to cardiopulmonary and neuromuscular physiology with particular emphases on exercise metabolism and performance in healthy populations, and in populations with chronic diseases (e.g., cardiovascular, metabolic, and neuromuscular diseases).

The concentration in Exercise Psychology prepares students to teach and to conduct research in areas related to the correlates of physical activity, mental health benefits of physical activity, theory-based behavior change strategies, and the design, implementation, and testing of theory-based physical activity interventions. Completion of this concentration will not lead to students becoming licensed psychologists.

The concentration in Physical Education Teacher Education (PETE) prepares students for careers in higher education as scholars, researchers, and teacher educators. Research expertise will be acquired in the areas of instruction, curriculum, assessment, teacher education, and teacher development. The cognate area will prepare students as members of communities of scholars in higher education.

The concentration in Sport Administration prepares students to teach and conduct research in areas related to sport administration, including sport management, marketing, finance, law, or communication.

Program Degree Requirements

Doctor of Philosophy in Kinesiology

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.
Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):

A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology

EPY 8080 Memory and Cognition (3)
EPY 8180 Development During School Age (5 to 18 Years) (3)
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

B. Major Area (19-21)

The students select one of the following four concentration areas:

B1 – Biomechanics and Physical Rehabilitation Concentration (19)

Required (19):
KH 8830 Motion Analysis (4)
KH 8870 Biomechanics of Orthopedic Injuries (3)
KH 9560 Neuromechanics of Human Locomotion (3)
KH 9820 Research in Kinesiology (5)
KH 9960 Advanced Research Seminar in Kinesiology (4)

B2 – Exercise Physiology Concentration (19)

Required (19):
KH 9520 Advanced Exercise Physiology: Energy Metabolism (3)
KH 9530 Advanced Exercise Physiology: Cardiorespiratory (3)
KH 9550 Advanced Exercise Physiology: Myocellular (3)
KH 9820 Research in Kinesiology (6)
KH 9960 Advanced Research Seminar in Kinesiology (4)

**B3 – Exercise Psychology Concentration (19)**

Required (19):
CPS 8820 Health Psychology (3)
KH 8600 Physical Activity Interventions and Behavior Change (3)
KH 9280 Advanced Topics in Exercise Psychology (3)
KH 9820 Research in Kinesiology (6)
KH 9960 Advanced Research Seminar in Kinesiology (4)

**B4 – Physical Education Teacher Education Concentration (21)**

Required (15):
KH 9660 Analysis of Teaching Physical Education (3)
KH 9670 Models of Teacher Education in Physical Education (3)
KH 9820 Research in Kinesiology (3)
KH 9830 Research on Teaching and Learning in Physical Education (3)
KH 9960 Advanced Research Seminar in Kinesiology (3)

Select 6 hours from the list of courses:
KH 8610 Curriculum Theory in Physical Education (3)
KH 8620 Assessment Theory in Physical Education (3)
KH 8630 Instructional Design for Physical Education (3)
KH 8685 Initial Supervision and Teacher Development in Physical Education (3)
KH 8690 Technology in Physical Education Instruction and Teacher Education (3)
Other appropriate courses numbered 8000-8999 may be substituted into the program of study with the approval of the student’s Doctoral Advisory Committee.

**B5 – Sport Administration Concentration (19)**

Required (19):
KH 9290 Current Topics in Sport Administration (3)
KH 9570 Advanced Theory in Sport Administration (3)
KH 9610 Sport Consumer Behavior (3)
KH 9620 Research in Kinesiology (6)
KH 9960 Advanced Research Seminar in Kinesiology (4)

**C. Cognate Area (9)**

Coursework applied to meet the cognate area requirement must be taken outside the major field of study.

**C1 – Biomechanics Concentration (9):**
The purpose of the cognate area requirement is to provide opportunities for doctoral students to develop an extended knowledge base associated with the major field of study. Courses fulfilling the cognate requirement will be determined in consultation with the doctoral advisor and approved by the Doctoral Advisory Committee.

C2 – Exercise Physiology Concentration (9):

The purpose of the cognate area requirement is to provide opportunities for doctoral students to develop an extended knowledge base associated with the major field of study. Courses fulfilling the cognate requirement will be determined in consultation with the doctoral advisor and approved by the Doctoral Advisory Committee.

C3- Exercise Psychology Concentration (9):

The purpose of the cognate area requirement is to provide opportunities for doctoral students to develop an extended knowledge base associated with the major field of study. Courses fulfilling the cognate requirement will be determined in consultation with the doctoral advisor and approved by the Doctoral Advisory Committee.

C4- Physical Education Teacher Education Concentration (9):

The purpose of the cognate area requirement is to provide opportunities for doctoral students to develop an extended knowledge base associated with the major field of study, with an emphasis on careers in higher education. Courses fulfilling the cognate requirement will be determined in consultation with the doctoral advisor and approved by the Doctoral Advisory Committee.

C5- Sport Administration Concentration (9):

The purpose of the cognate area requirement is to provide opportunities for doctoral students to develop an extended knowledge base associated with the major field of study, with an emphasis on careers in higher education. Courses fulfilling the cognate requirement will be determined in consultation with the doctoral advisor and approved by the Doctoral Advisory Committee.

D. Dissertation (15)

Required (15):
KH 9990 Dissertation (15)

Program total (Biomechanics and Physical Rehabilitation): minimum of 61 semester hours
Program total (Exercise Physiology): minimum of 61 semester hours
Program total (Exercise Psychology): minimum of 61 semester hours
Program total (Physical Education Teacher Education): minimum of 63 semester hours
Program total (Sport Administration): minimum of 61 semester hours

4660 School Psychology (Ph.D.)
Doctor of Philosophy (Ph.D.) in School Psychology

Department of Counseling and Psychological Services
950 College of Education Building
404-413-8010
http://cps.education.gsu.edu/
Brian Dew, Chair

The Ph.D. major in School Psychology prepares psychologists for licensure as applied psychologists and focuses on the application of psychological knowledge and skills to school related problems. The American Psychological Association accredits the program. Completion of a bachelor’s degree within a major in psychology, education, or a related field or a master’s degree in an area related to school psychology is required for admission to the program.

Program Academic Regulations

The practicum and internship (CPS 8680 and CPS 9680) are essential components of the doctoral training program in School Psychology. They provide trainees with the opportunity to take substantial responsibility for carrying out major professional functions in the context of appropriate supervisory support, professional role modeling, and awareness of administrative structures. The internship is distinguished from the applied practice experience by the increased responsibility and independence afforded the students and by the more intense nature of client contact. The practicum (CPS 8680) is a one-term, full-time experience or a two-term, halftime experience. The doctoral internship (CPS 9680) in school psychology requires either a full time experience for one calendar year or a halftime experience for two consecutive years.

Evaluation of a student’s performance is continuous and involves consideration of the student’s academic performance as well as the student’s performance in laboratory, practicum, and internship classes. A student may be dropped from a course and/or the program if the welfare of the student’s clientele or the functioning of a school or agency is, in the judgment of Department of Counseling and Psychological Services faculty, in jeopardy as a result of the student’s behavior. Students in this program are expected to follow the latest version of the National Association of School Psychologists (NASP) Principles for Professional Ethics, as well as the most recent version of the American Psychological Association (APA) Ethical Principles of Psychologists and Code of Conduct.

Prerequisites

Students in the B.A.-to-Ph.D. program must complete the M.Ed. in School Psychology and most of the Ed.S. School Psychology program as prerequisites for the Ph.D. portion of the program of study. Specifically, students must complete the M.Ed. and:

- EPRS 8530 Quantitative Methods and Analysis in Education I (3)
- EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)
- Any 7000-level or above EXC course with permission of advisor (3)
- CPS 6150 Ethical and Legal Standards in Counseling and Psychological Services (2)
- CPS 6450 Group Counseling (3) OR CPS 8400 Introduction to Play Therapy (3) OR CPS 8431
Counseling Skills and Strategies for School Aged Children (3)
- CPS 7340 Social/Cultural Issues in Counseling and Psychological Services (2)
- CPS 8540 Child/Adolescent Psychopathology (3)
- CPS 8570 Psychological Consultation in the Schools II (3)
- CPS 8662 Applied Practice II: Consultation and Intervention Practice in School Psychology (3)
- CPS 8665 Intervention Strategies for Students with Learning Problems (3)
- CPS 8680 Internship in School Psychology (note: this is the doctoral advanced practicum and must be taken for at least 6 credits)
- CPS 8760 Topical Seminar in School Psychology (3)

Program Degree Requirements

Doctor of Philosophy in School Psychology

A. Core Area (18; 12 for B.A.-to-Ph.D. students)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):
A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8820 Program Evaluation and Institutional Research (3)
EPRS 8830 Survey Research, Sampling Principles and Questionnaire Design (3)
EPRS 8840 Meta-Analysis (3)
EPRS 8660 Bayesian Statistics (3)
EPRS 9550 Multivariate Analysis (3)
EPRS 9560 Structural Equation Modeling (3)
EPRS 9570 Hierarchical Linear Modeling I (3)
EPRS 9571 Hierarchical Linear Modeling II (3)
EPRS 9900 Research Design (3)

Qualitative Methodology
ANTH 8010 Qualitative Methods in Anthropology (3)
EPRS 8510 Qualitative Research in Education II (3)
EPRS 8520 Qualitative Research in Education III (3)
EPRS 8640 Case Study Methods (3)
EPRS 8700 Visual Research Methods (3)
EPRS 9120 Poststructural Inquiry (3)
EPRS 9400 Writing Qualitative Research Manuscripts (3)

Single-Case Methodology
EPY 8850 Introduction to Single-Case Methodology (3)
EPY 8860 Applications of Single-Case Methodology (3)

Historical/Philosophical Methodology
EPSF 9850 Historical Research in Twentieth Century American Education (3)
EPSF 9930 Philosophical Analysis and Method (3)

Measurement Methodology
EPRS 7920 Classroom Testing, Grading, and Assessment (3)
EPRS 8920 Educational Measurement (3)
EPRS 9350 Introduction to Item Response Theory (3)
EPRS 9360 Advanced Item Response Theory (3)

Social Foundations of Education and Psychology of Learning course (3):
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)
or another course from the Social Foundations of Education and Psychology of Learning as identified by
the Doctoral Advisory Committee:
EPSF 8270 Philosophy of Education (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8310 Sociology of Education (3)
EPSF 8320 Politics and Policy in Education (3)
EPSF 8340 History of American Education (3)
EPSF 9260 Epistemology and Learning (3)
EPY 8030 Advanced Applied Behavior Analysis (3)
EPY 8050 The Psychology of Instruction (3)
EPY 8070 Understanding and Facilitating Adult Learning (3)
EPY 8080 Memory and Cognition (3)
EPY 8180 Development During School Age (5 to 18 Years) (3)
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)

B. Major Area (Required: 38; 35 for B.A.-to-Ph.D. students)

The major area of requirements complete the basic body of knowledge for applied professional practice as a
school psychologist, building upon the foundation acquired at earlier graduate levels school psychology. A
minimum of credits must be earned in the doctoral major, and these must include the courses listed below.
Content for some of the required courses listed below may have been obtained in the master’s or Ed.S.
program prior to admission to the doctoral program. In such cases, appropriate substitutions and/or credit
for prior coursework, may be made with approval of the student’s doctoral advisory committee. Students
who have prior coursework that is judged by the advisory committee to meet some of these course
requirements must earn a minimum of 38 semester hours at Georgia State University to complete the
major area of the doctoral program.
- CPS 8350 Biopsychology and Medication (3)
- CPS 8640 Administration and Supervision in Pupil Personnel Services (3)
- CPS 8760 Advanced Topical Seminar in School Psychology (All Ph.D. students must take 9 credits total; Topical Seminar taken as part of the Ed.S. program may be counted towards the 9 credit requirement.) [Topics rotate]
- CPS 9680 Doctoral Internship (9)
- CPS 9760 School Psychology Research Seminar (3-9) [Must be taken at three times (minimum total = 9 credits). Student must maintain continuous enrollment until doctoral candidacy is reached.]
- CPS 9920 Research and Publication (2)
- PSYC 8500 History of Psychology (3)

Note: CPS 8680 Internship in School Psychology is an Ed.S.-level internship that serves as the doctoral practicum requirement. The student’s doctoral advisory committee will determine whether the student has completed a comparable course in a prior graduate work and has sufficient skills and field experience to meet the criteria for this doctoral practicum. Based on input from the doctoral advisory committee, some students may be required to enroll in an additional practicum experience.

C. Dissertation (15)

Required (15):
CPS 9990 Dissertation (15)

Program total: minimum of 71 semester hours (62 semester hours for B.A.-to-Ph.D. students)

**4670 Teaching and Learning (Ph.D.)**

**Doctor of Philosophy (Ph.D.) in Teaching and Learning**

Department of Middle and Secondary Education
639 College of Education Building
404-413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

Concentration Areas: Language and Literacy Education; Mathematics Education; Music Education; Science Education; Social Studies Education; Teaching and Teacher Education.

The Ph.D. major in Teaching and Learning is designed to prepare scholars for research and leadership positions by developing a substantial knowledge base in one of the following areas of concentration: Language and Literacy Education, Mathematics Education, Music Education, Science Education, Social Studies Education, and Teaching and Teacher Education. In addition, the program prepares professional educators as scholarly inquirers who ask thoughtful questions, who can conduct sound inquiry, and who can recommend informed policy.

Program Degree Requirements for Each Concentration
Doctor of Philosophy in Teaching and Learning with concentrations in Language and Literacy Education; Mathematics Education; Music Education, Science Education, Social Studies Education, and Teaching and Teacher Education

1 – Concentration Area: Language and Literacy Education

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):

A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8820 Program Evaluation and Institutional Research (3)
EPRS 8830 Survey Research, Sampling Principles and Questionnaire Design (3)
EPRS 8840 Meta-Analysis (3)
EPRS 8660 Bayesian Statistics (3)
EPRS 9550 Multivariate Analysis (3)
EPRS 9560 Structural Equation Modeling (3)
EPRS 9570 Hierarchical Linear Modeling I (3)
EPRS 9571 Hierarchical Linear Modeling II (3)
EPRS 9900 Research Design (3)

Qualitative Methodology
ANTH 8010 Qualitative Methods in Anthropology (3)
EPRS 8510 Qualitative Research in Education II (3)
EPRS 8520 Qualitative Research in Education III (3)
EPRS 8640 Case Study Methods (3)
EPRS 8700 Visual Research Methods (3)
EPRS 9120 Poststructural Inquiry (3)
EPRS 9400 Writing Qualitative Research Manuscripts (3)

Single-Case Methodology
EPY 8850 Introduction to Single-Case Methodology (3)
EPY 8860 Applications of Single-Case Methodology (3)
Historical/Philosophical Methodology
EPSF 9850 Historical Research in Twentieth Century American Education (3)
EPSF 9930 Philosophical Analysis and Method (3)

Measurement Methodology
EPRS 7920 Classroom Testing, Grading, and Assessment (3)
EPRS 8920 Educational Measurement (3)
EPRS 9350 Introduction to Item Response Theory (3)
EPRS 9360 Advanced Item Response Theory (3)

Social Foundations of Education and Psychology of Learning Core (3 hours)

In addition to highly specialized research in specific areas, doctoral students in the College of Education and Human Development must possess a deep understanding of comprehensive, theoretical principles and broad ideological conceptualizations.

Through historical, philosophical, sociological, and anthropological inquiry, knowledge of social foundations fosters the types of speculative investigations essential for thorough understandings of those theoretical principles and ideological conceptualizations necessary to uphold the integrity of the Ph.D. degree.

The psychology of learning component is based on the following guiding principles: (1) Educational leaders make judgments that affect learning. (2) Doctoral students should have a substantial understanding of the psychology of learning.

Select one (3):
EPSF 8270 Philosophy of Education (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8310 Sociology of Education (3)
EPSF 8320 Politics and Policy in Education (3)
EPSF 8340 History of American Education (3)
EPSF 9260 Epistemology and Learning (3)
EPY 8030 Advanced Applied Behavior Analysis (3)
EPY 8050 The Psychology of Instruction (3)
EPY 8070 Understanding and Facilitating Adult Learning (3)
EPY 8080 Memory and Cognition (3)
EPY 8180 Development During School Age (5 to 18 Years) (3)
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

B. Major Area (30)

Required (18):
EDCI 8970 Seminar in Teaching and Learning (3)
EDCI 9850 Research Seminar (3)
EDCI 9900 Critique of Educational Research (3)
EDRD 8310 Theoretical Models and Processes of Literacy Learning (language, reading, and writing) (9)
Select (12): The student and Doctoral Advisory Committee select additional coursework (12 hours).

C. Dissertation (15)

Required (15):  
EDCI 9990 Dissertation (15)

Program total: Minimum of 63 semester hours

2 – Concentration Area: Mathematics Education

The Ph.D. in Teaching and Learning with a concentration in Mathematics Education prepares professional mathematics educators to make scholarly contributions to both the theoretical and practical knowledge base of mathematics teaching and learning in a broad range of educational settings. Graduates of this program typically assume positions as college or university professors in schools or colleges of education or departments of mathematics. In these positions, their primary responsibilities are to conduct research on elementary, middle, secondary, or post-secondary mathematics teaching and learning, to teach content and pedagogy courses, and to direct theses and dissertations. Graduates are also qualified to assume positions as mathematics education leaders in school districts, research laboratories, or publishing companies.

During the degree program, students develop advanced professional proficiencies and scholarly knowledges through the successful completion of the (a) Program of Study, (b) Residency Plan, (c) Comprehensive Examination, (d) Research Prospectus, and (e) Dissertation. The degree program, in general, is framed by the principles to guide doctoral programs adopted by the Association of Mathematics Teacher Educators (AMTE) and the National Council of Teachers of Mathematics (NCTM).

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):

A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8820 Program Evaluation and Institutional Research (3)

EPY 8050 The Psychology of Instruction (3)
EPY 8070 Understanding and Facilitating Adult Learning (3)
EPY 8080 Memory and Cognition (3)
EPY 8180 Development During School Age (5 to 18 Years) (3)
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

B. Major Area (18)

Required (9):
EDCI 9850 Research Seminar (3)
EDCI 9900 Critique of Educational Research (3)
EDMT 9870 Advanced Research Seminar in Mathematics Education (3)

Choose three required courses (9 hours):
EDMT 8290 The Study of Learning and Instruction in Mathematics (3)
EDMT 8420 Topics in the School Mathematics Curriculum (3)
EDMT 8430 Sociocultural and Sociohistorical Issues of Mathematics Education (3)
EDMT 8550 Trends and Issues of Teaching Mathematics (3)

C. Cognate Area (18)

Required (6):
EDCI 8970 Seminar in Teaching and Learning (3)
EDCI 9660 Internship (3)

Select (12): The student and Doctoral Advisory Committee select additional coursework (12 hours).

D. Dissertation (15)

Required (15):
EDCI 9990 Dissertation (15)

Program total: Minimum of 69 semester hours

3 – Concentration Area: Music Education

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social
Foundation of Education and Psychology of Learning coursework.

**Research Core (15 hours)**

Choose one course (3):
- EPRS 8500 Qualitative/Interpretive Research in Education (3)
- EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):

A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

EPY 8180 Development During School Age (5 to 18 Years) (3)
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

B. Major Area (18)

Required (18)
EDCI 9850 Research Seminar (3)
EDCI 9900 Critique of Educational Research (3)
EDSC 8430 Nature of Science (3)
EDSC 9870 Seminar in Teaching and Learning (9) (repeatable course taken three times)

C. Cognate Area (18)

Required (6):
EDCI 8970 Seminar in Teaching and Learning (3)
EDCI 9660 Internship (3)

Select (12): The student and Doctoral Advisory Committee select additional coursework (12 hours).

D. Dissertation (15)

Required (15):
EDCI 9990 Dissertation (15)

Program total: Minimum of 69 semester hours

5 – Concentration Area: Social Studies Education

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):
A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8820 Program Evaluation and Institutional Research (3)
EPRS 8830 Survey Research, Sampling Principles and Questionnaire Design (3)
EPRS 8840 Meta-Analysis (3)
EPRS 8660 Bayesian Statistics (3)
EPRS 9550 Multivariate Analysis (3)
EPRS 9560 Structural Equation Modeling (3)
EPRS 9570 Hierarchical Linear Modeling I (3)
EPRS 9571 Hierarchical Linear Modeling II (3)
EPRS 9900 Research Design (3)

Qualitative Methodology
ANTH 8010 Qualitative Methods in Anthropology (3)
EPRS 8510 Qualitative Research in Education II (3)
EPRS 8520 Qualitative Research in Education III (3)
EPRS 8640 Case Study Methods (3)
EPRS 8700 Visual Research Methods (3)
EPRS 9120 Poststructural Inquiry (3)
EPRS 9400 Writing Qualitative Research Manuscripts (3)

Single-Case Methodology
EPY 8850 Introduction to Single-Case Methodology (3)
EPY 8860 Applications of Single-Case Methodology (3)

Historical/Philosophical Methodology
EPSF 9850 Historical Research in Twentieth Century American Education (3)
EPSF 9930 Philosophical Analysis and Method (3)

Measurement Methodology
EPRS 7920 Classroom Testing, Grading, and Assessment (3)
EPRS 8920 Educational Measurement (3)
EPRS 9350 Introduction to Item Response Theory (3)
EPRS 9360 Advanced Item Response Theory (3)

Social Foundations of Education and Psychology of Learning Core (3 hours)

In addition to highly specialized research in specific areas, doctoral students in the College of Education and Human Development must possess a deep understanding of comprehensive, theoretical principles and broad ideological conceptualizations.

Through historical, philosophical, sociological, and anthropological inquiry, knowledge of social foundations fosters the types of speculative investigations essential for thorough understandings of those theoretical principles and ideological conceptualizations necessary to uphold the integrity of the Ph.D. degree.

The psychology of learning component is based on the following guiding principles: (1) Educational leaders
make judgments that affect learning. (2) Doctoral students should have a substantial understanding of the psychology of learning.

Select one (3):
EPSF 8270 Philosophy of Education (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8310 Sociology of Education (3)
EPSF 8320 Politics and Policy in Education (3)
EPSF 8340 History of American Education (3)
EPSF 9260 Epistemology and Learning (3)
EPY 8030 Advanced Applied Behavior Analysis (3)
EPY 8050 The Psychology of Instruction (3)
EPY 8070 Understanding and Facilitating Adult Learning (3)
EPY 8080 Memory and Cognition (3)
EPY 8180 Development During School Age (5 to 18 Years) (3)
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

B. Major Area (33)

Required (18):
EDCI 9660 Internship (6)
EDCI 9850 Research Seminar (3)
EDCI 9900 Critique of Educational Research (3)
EDSS 8290 Learning, Curriculum and Instruction in Social Studies (3)
EDSS 8550 Trends and Issues of Teaching Social Studies (3)

Select (15): The student and Doctoral Advisory Committee select additional coursework (15 hours).

C. Dissertation (15)

Required (15):
EDCI 9990 Dissertation (15)

Program total: Minimum of 66 semester hours

6 – Concentration Area: Teaching and Teacher Education

This concentration prepares scholars for research, practice, and policy work in teaching and the preparation of teachers. Working alongside faculty who have close connections to practice in urban schools and to the development, implementation, and evaluation of teacher education programs, graduate students will be prepared to contribute to the quality of professional practice and policy at the K-12 level, as well as in the education and development of practicing professionals.

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social
Foundation of Education and Psychology of Learning coursework.

**Research Core (15 hours)**

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):

A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)

C. Dissertation (15)

Required (15):
EDCI 9990 Dissertation (15)
Program total: Minimum of 60 semester hours

4680 Add-On PL-6 Leadership Certification

Add-on PL-6 (Performance-Based) Leadership Certification

Department of Educational Policy Studies
450 College of Education Building
404-413-8030
http://eps.education.gsu.edu/
William Curlette, Chair

The add-on in Educational Leadership is designed to build the capacity of practicing educators and administrators to be effective educational leaders. The program fulfills the requirements of the Performance-Based Educational Leadership certification for the State of Georgia. Applicants for the add-on must be full time, practicing educators and be employed in a partnering school system. Because leadership certification is no longer a self-select program in the state of Georgia, applicants must receive written permission from their employers in order to participate. Applicants for the add-on must hold a specialist’s degree or higher in any education field or in other Georgia Professional Standards Commission accepted non-education fields.

Program Academic Regulations

Students must earn a “B” or higher in all courses in the add-on program. If students earn a grade below a grade of “B” in a required course, the students with the advice and consent of his or her adviser may substitute another course for that requirement.

Required (24):

- EPEL 8000 Research in Educational Leadership and Organizational Culture (3)
- EPEL 8020 Leadership for Change in a Diverse Society (3)
- EPEL 8420 Advanced Instructional Leadership (3)
- EPEL 8690 Research-Based Decision Making for School Leaders (3)
- EPEL 8970 Seminar in Educational Leadership (9)
- EPSF 8440 Curriculum Design and Analysis (3)

Following the completion of coursework, persons wishing to obtain the PL-6 certification in the State of Georgia must receive a passing score on the GACE Educational Leadership Tests.

Total hours for certification: minimum of 24 semester hours.

4685 Certificate in Instructional Design and Technology

Learning Technologies Division
The online program is designed for individuals interested in working in a wide variety of education, training, and development areas such as those found in business, industry, government agencies, the military, and nonprofit organizations. This certificate is designed to meet the challenges created by technology training needs. The program emphasizes the competencies required to design, develop, facilitate, and manage education and training programs, including e-learning and human performance support systems.

The goal of the certificate program is to: 1) Help students meet the qualifications to advance within their current field related to designing, developing, facilitating, and managing education and training; and 2) Open up additional avenues for the students to pursue a career in instructional design or human performance technology.

Through a combination of classroom and hands-on activities, this program provides participants with the opportunity to design and produce learning activities that make effective use of technology in instructional development. Ample opportunities are provided for applying the competencies learned in the classroom to job-related situations.

Students who complete the Instructional Design and Technology Certificate will:

- Demonstrate knowledge of learning theories and principles, models, tools, and techniques which are applied to the systematic design of instruction
- Apply instructional design principles to the design, development, and implementation of learning activities in their work environment
- Demonstrate the ability to effectively lead the design of effective instruction through planning, development, evaluation, and management
- Demonstrate the ability to manage and lead all phases of an instructional design project

Program of Study

- LT 7100 Design of Performance and Instructional Systems (3)
- LT 7150 Analysis of Performance and Instructional Systems (3)
- LT 8150 Managing Instructional Technology Projects (3)
- LT 8440 E-Learning Environments (3)

Program Total: minimum of 12 hours

**4695 Certificate in Program Evaluation**

Department of Educational Policy Studies
450 College of Education Building
404-413-8030
The Graduate Certificate in Program Evaluation combines program evaluation models, specialized topics in program evaluation, and issues in program evaluation and policy analysis with practical application of learned abilities in a program evaluation. The certificate is designed for individuals interested in working in a wide variety of education, training, and development areas, including those found in business, industry, government agencies, the military, and nonprofit organizations. There is also the possibility of working independently as a consultant in program evaluation. The certificate targets two goals: (a) providing students who have already earned master’s degrees a concentrated means of preparing themselves to pursue careers in program evaluation and (b) benefiting society by increasing the quality of program evaluators, who can contribute to the improvement of educational and other service programs.

Objectives

Students who complete the Certificate in Program Evaluation will be able to:

- Compare theoretical approaches employed in program evaluation;
- Evaluate program evaluation standards;
- Identify ethical principles in program evaluation;
- Relate the context of a program to its evaluation plan;
- Implement various methodologies involved in program evaluation;
- Conduct various analyses of program evaluation data; and
- Contribute to a comprehensive, context-appropriate program evaluation report.

Program Academic Regulations

To accomplish these objectives, the Graduate Certificate in Program Evaluation is a 15 credit hour program of study beyond the prerequisite requirements. The content includes courses taught in the M.S. in Educational Research and/or Ph.D. in Educational Policy Studies. Through a combination of classroom and hands-on activities, this Certificate Program provides participants the opportunity to design and conduct various aspects of program evaluation. Opportunities are provided for applying the competencies learned in the classroom to job-related situations.

Prerequisites

Applicants must have completed an accredited, master’s degree program prior to admission to the Graduate Certificate in Program Evaluation. Also, students must be prepared in both quantitative methods and qualitative methods. This preparation can be accomplished through completing the following coursework:

- EPRS 8500 Qualitative/Interpretive Research in Education I or equivalent
- EPRS 8530 Quantitative Methods and Analysis in Education I or equivalent
- EPRS 8510 Qualitative/Interpretive Research in Education II or EPRS 8540 Quantitative Methods and Analysis in Education II or equivalent

Program of Study
Graduate level courses equivalent to courses in the program of study may be substituted if the courses are approved based on the existing College of Education and Human Development policy for equivalent courses and approval by the student’s advisor for this certificate.

Program total: minimum of 15 semester hours

4690 Certificate in International Education

A Graduate Certificate in International Education is available from the College of Education and Human Development to eligible students enrolled as non-degree students in the College of Education and Human Development or in graduate programs at Georgia State University. To earn the certificate, students must complete a minimum of 18 credit hours with a collective GPA of 3.0 or higher in those courses.

Students must submit a proposed program of study to the Associate Dean of Associate Dean of School, Community, International Partnerships along with syllabi for each proposed course. The specific courses to be included will be reviewed in light of the guidelines below. The program must be approved by the Associate Dean of Associate Dean of School, Community, International Partnerships and a minimum of two College of Education and Human Development faculty associated with the International Education certificate.

In order to be eligible to earn the certificate, students must:

- be enrolled in a non-degree program in the College of Education and Human Development or in a graduate program at Georgia State University
- submit the proper form to the Associate Dean of Graduate Studies and Research officially indicating an intention to work toward earning the certificate (the form is available from the College of Education and Human Development Office of Academic Assistance and Graduate Admissions), a list of the proposed courses, and accompanying syllabi.
- complete the approved program of study coursework with a 3.0 GPA or higher.

Program of Study

The program of study for the Graduate Certificate in International Education must include the following:

International Education: Core (3 hours)

The program must include a Core course that provides an understanding of teaching, learning, and/or

- EPRS 8620 Program Evaluation I (3)
- EPRS 8670 Practicum in Research or Program Evaluation (3)
- EPRS 8820 Program Evaluation and Institutional Research (3)
- EPRS 8830 Survey/Sampling/Questionnaire Design (3)
- EPSF 8630 Critical Policy Studies (3)
development from an international perspective. The lens framing this course should be comprehensive in the international focus rather than specific to a given area/country.

Select One Course (3):

- EDCI 8970 Seminar in Teaching and Learning: Global Perspectives in Literacy Education (3)
- EDRD 8280 Literacy for a Diverse Society (3)
- EPEL 7020 Leadership for a Diverse Society (3)
- EPEL 8020 Leadership for Change in a Diverse Society (3)
- EPSF 8330 Globalization and Educational Policy (3)
- EPSF 8350 Comparative Educational Systems (3)
- Other international education core courses approved by ICE faculty committee

**International Education: Study Abroad (3 hours)**

The program must include a minimum of 3 graduate credit hours that incorporate a study-abroad experience.

Select One Course (3):

- ECE 9810 Directed Readings in Early Childhood Education (3)
- ECE 8000 Issues in International Education (3)
- EDUC 7777 Field Experiences in International Education (3)
- EDMT 8420 Topics in Mathematics Teaching and Learning (3)
- EDMT 8430 Sociocultural and Sociohistorical Issues of Mathematics Education (3)
- EPEL 8970 Seminar in Educational Leadership (3)
- KH 7810 Directed Readings And Research In Sports Administration (3)
- KH 8680 International Experience in Sport and Exercise Science (3)
- Or other study abroad courses as approved by ICE faculty committee

**International Education: Electives (12 hours)**

Students may choose electives from across the university which may be broadly focused or country/region specific. The course foci may include: (a) educational issues in a specific region/country, (b) development of language expertise or background knowledge associated with a region/country, or involvement in studying/interacting/teaching with international populations who are living in our own country. After having met the Core and Study Abroad area requirements above, students may also count as electives any additional courses taken from the ones listed in those sections.

Select Four Courses (12):

- CPS 7340 Social/Cultural Issues In CPS (3)
- CPS 8340 Advanced Multicultural Counseling Strategies & Interventions (3)
- ECE 6360 Culturally Responsive Pedagogy (3)
- ECE 8100 Social, Cultural, and Political Issues in Teaching and Learning (3)
- EDLA 8020 Social, Cultural, and Political Contexts Shaping Early Literacy Instruction (3)
- EDLA 8330 Language Variation and Learning (3)
A Graduate Certificate in Qualitative Research in Education is available from the College of Education and Human Development to eligible students enrolled in a doctoral program at Georgia State University. To earn the certificate, students must complete a minimum of seven 3-credit-hour doctoral-level qualitative research methods courses with a collective GPA of 3.5 or higher in those courses, with no grade lower than a B in any course to be counted toward the certificate.

Four of the seven courses must be the following:

- EPRS 8500 Qualitative/Interpretive Research in Education I (3)
- EPRS 8510 Qualitative Research in Education II (3)
- EPRS 8520 Qualitative Research in Education III (3)
- EPSF 9260 Epistemology and Learning

The remaining three courses must be doctoral-level qualitative method courses, bearing a call number of 8000 or higher, from the approved list of certificate courses. The list is updated yearly and available in the Department of Educational Policy Studies. A current list of these courses is provided below:

- EPRS 8450 Popular Culture as Qualitative Text (3)
- EPRS 8640 Case Study Methods (3)
- EPRS 8700 Visual Research Methods (3)
- EPRS 9120 Poststructural Inquiry (3)
In addition, students must successfully defend a qualitative or multi-methods research dissertation. Although a faculty member from the Research, Measurement and Statistics (RMS) program of the Department of Educational Policy Studies need not be on the student’s dissertation committee, the prospectus for the dissertation must be endorsed by an appropriate member of the RMS faculty, as determined by the RMS Coordinator.

Eligibility

In order to be eligible to earn the certificate, students must:

- be enrolled in a doctoral program at Georgia State University
- have completed at least three courses from the College of Education and Human Development Doctoral Research Core, with a collective GPA in those courses of 3.5 or higher
- submit the proper form to the Department of Educational Policy Studies officially indicating an intention to work toward earning the certificate (the form is available from the Department of Educational Policy Studies or from the Office of Academic Assistance)

Normal Time to Complete Program

One additional semester with 3 courses is estimated to be additional coursework which would be included within the doctoral program timeframe because it is likely that at least 4 courses meet both the certificate and doctoral requirements. The certificate program requires 7 courses. Courses beyond the three courses in the doctoral core which meet the certificate requirements may be included in the doctoral program of study for the student based on each student’s individualized program. Typically, at least one course meeting certificate requirements beyond the three from the doctoral core would be included in the student’s doctoral program for the student’s doctoral degree.

Learning Outcomes and Assessments

The RMS faculty evaluate students on the following learning outcomes for the certificate:

- Addresses the research question(s) with appropriate methodology
- Demonstrates knowledge of previous research and/or literature in the field
- Document adheres to the standards of quality writing
Oral presentation communicates research in a manner appropriate for the material and audience
Potential for contribution to the discipline
Demonstrates knowledge in the field of the certificate program in the dissertation defense

On-Time Graduation Rates

On-time graduation rate is 100% based on the College of Education and Human Development doctoral program time-frame.

Program Costs*

Graduate Tuition per credit hour: In-State $362.00; Out-of-State $1,223.00
Mandatory Student Fees per term: $1,064.00
Books and Supplies per term: $500.00
Room and Board per term: $5,262.00

*All figures are estimates only and subject to change without notice.

Occupations

The Qualitative Research in Education Certificate aids in the preparation of students to be employed as:
Ethnology Professors (SOC 25-1062)
Ethnologists (SOC 19-3099)
Historians (SOC 19-3093)

You can find additional information on the Standard Occupational Classification (SOC) and occupational profiles on these professions at the U.S. Bureau of Labor Statistics and O*Net web sites: http://www.bls.gov/soc/ and http://www.onetcenter.org/.

Other Certificate Information

There is no state or accrediting agency that requires tracking placement rates. Students who receive a certificate also complete the doctoral program which is a higher credentialed program; thus, calculation of median loan debt for the certificate program is not required.

4710 Certificate in Quantitative Research in Education

A Graduate Certificate in Quantitative Research in Education is available from the College of Education and Human Development to eligible students enrolled in a doctoral program at Georgia State University.
To earn the certificate, students must complete a minimum of seven 3-credit-hour doctoral-level quantitative research methods courses with a collective GPA of 3.5 or higher in those courses, with no grade lower than a B in any course to be counted toward the certificate.

Four of the seven courses must be the following:

- EPRS 8530 Quantitative Methods and Analysis in Education I (3)
- EPRS 8540 Quantitative Methods and Analysis in Education II (3)
- EPRS 8550 Quantitative Methods and Analysis in Education III (3)
- EPSF 9260 Epistemology and Learning (3)

The remaining three courses must be doctoral-level quantitative method courses, bearing a call number of 8000 or higher, from the approved list of certificate courses. The list is updated yearly and available in the Department of Educational Policy Studies. A current list of these courses is provided below:

- EPRS 8600 Computer Use in Educational Research (3)
- EPRS 8620 Program Evaluation I (3)
- EPRS 8660 Bayesian Statistics (3)
- EPRS 8820 Program Evaluation and Institutional Research (3)
- EPRS 8830 Survey Research, Sampling Principles, and Questionnaire Design (3)
- EPRS 8840 Meta-Analysis (3)
- EPRS 8920 Educational Measurement (3)
- EPRS 9350 Introduction to Item Response Theory (3)
- EPRS 9360 Advanced Item Response Theory (3)
- EPRS 9550 Multivariate Analysis (3)
- EPRS 9560 Structural Equation Modeling (3)
- EPRS 9570 Hierarchical Linear Modeling I (3)
- EPRS 9571 Hierarchical Linear Modeling II (3)
- EPRS 9600 Advanced Computer Methods in Educational Research (3)
- EPRS 9900 Research Design (3)
- PSYC 8430 Psychological Research Statistics (3)
- Other Quantitative Methods courses as approved by the Certificate Coordinator and the Department Chair

In addition, students must successfully defend a quantitative or multi-methods research dissertation. Although a faculty member from the Research, Measurement and Statistics (RMS) program of the Department of Educational Policy Studies need not be on the student’s dissertation committee, the prospectus for the dissertation must be endorsed by an appropriate member of the RMS faculty, as determined by the RMS Coordinator.

Eligibility

In order to be eligible to earn the certificate, students must:

- be enrolled in a doctoral program at Georgia State University
- have completed at least three courses from the College of Education and Human Development Doctoral Research Core, with a collective GPA in those courses of 3.5 or higher
• submit the proper form to the Department of Educational Policy Studies officially indicating an intention to work toward earning the certificate (the form is available from the Department of Educational Policy Studies or from the Office of Academic Assistance)

Normal Time to Complete Program

One additional semester with 3 courses is estimated to be additional coursework which would be included within the doctoral program timeframe because it is likely that at least 4 courses meet both the certificate and doctoral requirements. The certificate program requires 7 courses. Books and Supplies per term: $500.00
Room and Board per term: $5,262.00

*All figures are estimates only and subject to change without notice.

Occupations

The Quantitative Research in Education Certificate aids in the preparation of students to be employed as:
Statistics Professors (SOC 25-1022)
Survey Research Professors (SOC 25-1069)
Survey Researchers or Survey Methodologists (SOC 19-3022)
Program Analysts (SOC 13-1111)
Research Methodology and Quantitative Methods (SOC 15-2041) for Statisticians
Research Methodology and Quantitative Methods (SOC 11-9199) for Managers and All Others

You can find additional information on the Standard Occupational Classification (SOC) and occupational profiles on these professions at the U.S. Bureau of Labor Statistics and O*Net web sites: http://www.bls.gov/soc/ and http://www.onetcenter.org/.

Other Certificate Information

There is no state or accrediting agency that requires tracking placement rates. Students who receive a certificate also complete the doctoral program which is a higher credentialed program; thus, calculation of median loan debt for the certificate program is not required.

4720 Coaching Endorsement

Department of Early Childhood and Elementary Education
550 College of Education Building
404-413-8020
http://ece.education.gsu.edu/
Barbara Meyers, Chair
Sue Duncan, Executive Director

The Department of Early Childhood and Elementary Education offers graduate courses in literacy which apply to Georgia’s Coaching Endorsement. These courses focus on four areas (a) understanding literacy – the reading and writing process, (b) linking assessment and instruction, (c) using instructional strategies in specific content areas and (d) professional development, supervision and systematic change.

The Coaching Endorsement – Literacy presupposes certification at least at the Master’s level. Successful completion of application sequences (Reading Recovery Teacher Leader Strand) qualifies a person for the master’s, or specialist level endorsement, depending on the current level of certification. This endorsement qualifies an individual to be considered ‘in field’ as a coach at the level of the base certificate. Teachers pursuing the coaching endorsement are enrolled as non-degree students in specific programs for certification in either the concentration for Reading Recovery Teacher Leaders or the concentration for Literacy Coach Certificate.

Reading Recovery Teacher Leader Concentration

Strand 1:

Understanding Literacy – Reading and Writing Process/Linking Assessment and Instruction

- ECE 8300 Reading Recovery Theory I (3)
- ECE 8360 Reading Recovery Clinical for Leaders I (3)

Strand 2:

Understanding Literacy – Struggling Readers and Writers/Linking Assessment and Instruction

- ECE 8310 Reading Recovery Theory II (3)
- ECE 8320 Reading Recovery Theory III (3)
- ECE 8370 Reading Recovery Clinical for Leaders II (3)

Strand 3: Using Instructional Strategies in Specific Content Areas/Professional Development, Reflective Analysis of Teaching and Systematic Change

- ECE 8380 Reading Recovery Clinical for Leaders III (3)
- ECE 8700 Reading Recovery Supervision (3)

Literacy Coach Certificate Concentration

Theory and Research (6):

- ECE 7980 Theory and Practice in Literacy (3) or EDRD 7600 Theory and Pedagogy in the Study of Reading (3)
- ECE 7964 Comprehensive Literacy Model for School Improvement (3)

Practicum/Field Experience (9):

- ECE 7981 Supervision and Organization of Reading Programs (3) or EDRD 8610 Supervision of School Literacy Programs (3)
- ECE 7982 Professional Experiences in Reading (3) or EDCI 7660 Practicum I (3)
- ECE 7983 Literacy Coaches as Agents of Change (3)

Curriculum Framework (3):

- ECE 7984 Curriculum Design and Evaluation (3)

4730 Comprehensive Intervention Model

Department of Early Childhood and Elementary Education
550 College of Education Building
404-413-8020
http://ece.education.gsu.edu/
Barbara Meyers, Chair
Sue Duncan, Executive Director

The Comprehensive Intervention Model (CIM) is a well-coordinated, Response to Intervention seamless design for providing intervention services to struggling readers. The CIM is a systemic model for reversing the reading failures of struggling readers through layered interventions, including differentiated classroom instruction and supplemental interventions in small groups or one-to-one. The goal is two-fold. In grades K-3 the goal is to increase the overall literacy achievement by the end of the third grade and to reduce the
number of children identified with learning disabilities within 1.5% or less of the general population. In grades 4-6, interventions focus on research-based strategies for reading and writing in the content areas.

The system goal of the CIM is to change the achievement profile of a school by providing:

- research-based interventions that increase the literacy levels of low-performing children, and
- training and professional development for teachers that increase their knowledge and expertise in teaching the lowest performing children.

Prerequisites

In addition to completing the Comprehensive Intervention Model (CIM) Institute the previous summer, participants are required to have completed ECE 7963 Practicum in Interventions or be a trained Reading Recovery teacher, Reading Recovery teacher leader or Literacy Collaborative coordinator. Candidates must be employed as an interventionist in a school setting.

Program of Study

This year-long program of study focuses on preparing K-6 educators to differentiate reading and writing instruction within a range of settings for students experiencing difficulty in literacy learning. The training consists of intensive study of the Comprehensive Intervention Model Framework and focuses on gaining in-depth knowledge and skills in designing and implementing a portfolio of small-group interventions for K-6 students. Intervention candidates complete 6 hours of academic credit. Intervention candidates continue to work full-time in their school districts in addition to completing coursework.

ECE 7963 Practicum in Interventions (3) is required for teachers who have not been Reading Recovery trained.
ECE 7965 Intervention Designs for Struggling Readers (3) is completed in fall and spring semesters for a total of 6 hours. The course is required for teachers who are training in the Comprehensive Intervention Model.

4740 ESOL Endorsement

Department of Middle and Secondary Education
639 College of Education Building
404-413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

English to Speakers of Other Languages (ESOL) Endorsement

The Department of Middle and Secondary Education of the College of Education and Human Development and the Department of Applied Linguistics and English as a Second Language of the College
of Arts and Sciences offer graduate courses in bilingual/English as a second language to give teachers additional training to work with non-English speaking or limited English speaking students at the early childhood, middle childhood, and secondary school levels.

Successful completion of the following coursework and completion of a portfolio demonstrating competencies established for ESOL teachers by TESOL qualifies a person for the bachelor’s, master’s, or specialist level endorsement, depending upon the students’ current level of certification. The program presupposes certification at least at the bachelor’s level. Students must be admitted as graduate students to the College of Education and Human Development. (See the program description for the M.Ed. major in Reading, Language, and Literacy Education for application of TSLE courses to a degree program. Students who do not hold an initial certification in a teaching field may apply to the M.A.T. major in Reading, Language, and Literacy Education to receive initial certification in ESOL and a reading endorsement.)

Required (6):

- EDCI 7660 Practicum I (3)
- TSLE 7440 Methods and Materials for the Bilingual/English as a Second Language Teacher (3)

Select one (3):

- AL 8250 Second Language Acquisition (3)
- TSLE 7250 Applied Linguistics for the Bilingual/English as a Second Language Teacher (3)

Select one (3):

- AL 8330 Intercultural Communication (3)
- TSLE 7260 Cultural Issues for the Bilingual/English as a Second Language Teacher (3)

Total hours for endorsement: minimum of 12 semester hours

4750 ESOL Endorsement Online

Department of Middle and Secondary Education

http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

English to Speakers of Other Languages (ESOL) Online Endorsement

The Department of Middle and Secondary Education offers online graduate courses in bilingual/English as a second language that apply to the Georgia ONmyLINE non-degree English as a Second Language Endorsement. The non-degree GOML ESOL Endorsement provides teachers with additional training to work effectively with non-English-speaking or limited-English-speaking students at the early childhood, middle childhood, and secondary school levels. The GOML non-degree ESOL Endorsement is approved
by the State of Georgia Professional Standards Commission.

Successful completion of the Georgia ONmyLINE non-degree ESOL endorsement course work and a portfolio qualifies a person for the bachelor’s, master’s, or specialist level endorsement, depending upon his or her current level of certification. Students seeking only the non-degree GOML ESOL endorsement must be admitted to the graduate program in the College of Education and Human Development as a non-degree GOML student. All courses in the Georgia ONmyLINE non-degree ESOL Endorsement must be completed online through Georgia ONmyLINE; no other courses may apply.

Required Georgia ONmyLINE Courses for the Non-degree ESOL Endorsement:

- EDCI 7660 Practicum I
- TSLE 7250 Applied Linguistics for the Bilingual/English as a Second Language Teacher
- TSLE 7260 Cultural Issues for Bilingual/English as a Second Language Teacher
- TSLE 7440 Methods and Materials for Bilingual/English as a Second Language Teacher

Total Program Hours: 12 semester hours

4760 Initial Certification in Early Childhood Special Education

Department of Educational Psychology, Special Education, and Communication Disorders
835 College of Education Building
404-413-8040
http://esc.education.gsu.edu/
Laura Fredrick, Chair

The Initial Certification program in Early Childhood Special Education offers two certification options, including:

- Early Childhood Special Education-General Curriculum (certified to teach all core subjects for children from preschool through 5th grade with and without disabilities included in the general curriculum)
- Special Education Preschool (certified to teach children 3-5 years old with disabilities)

Pre-Service Certificate: Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Certification: Students must post passing scores on the GACE Content Assessment, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA in order to be recommended by Georgia State University for clear, renewable certification.

Requirements for Certification in Early Childhood Special Education-General Curriculum:
Prerequisite Courses (21):

- EDMT 7400 Mathematics Concepts for Special Learners (3)
- EDRD 6600 Introduction to Materials and Methods in Reading Instruction (3)
- EDRD 7550 Literacy Assessment and Curriculum Development OR EDRD 7650 Individualized Literacy Assessment and Instruction (3)
- EPY 2050 Human Growth and Development (3)
- EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3)
- EXC 7030 Applied Behavior Analysis (3)
- EXC 4650 Opening School Experience (0)
- EXC 7929 Practicum I: Early Childhood (3)

Program Courses (27):

- EXC 7000 Collaboration with Parents and Professionals (3)
- EXC 7010 Language Development and Language Disabilities (3)
- EXC 7190 Alternative Approaches to Literacy Instruction for Students with Disabilities (3)
- EXC 7300 Assistive Technology: Reading and Academics (3)
- EXC 7320 Methods of Teaching Low Functioning Students with Autism Spectrum Disorders (3)
- EXC 7330 Physical and Health Management of Students with Disabilities (3)
- EXC 7650 Characteristics of Young Children with Disabilities (3)
- EXC 7660 Methods of Teaching Young Children with Disabilities (3)
- EXC 7939 Practicum II: Early Childhood (3)

Requirements for Certification in Special Education Preschool:

- EXC 7010 Language Development and Language Disabilities (3)
- EXC 7650 Characteristics of Young Children with Disabilities (3)
- EXC 7660 Methods of Teaching Young Children with Disabilities (3)

4770 Initial Certification in Special Education Adapted Curriculum

Department of Educational Psychology, Special Education and Communication Disorders
835 College of Education Building
404-413-8040
http://esc.education.gsu.edu/
Laura Fredrick, Chair

Initial Certification in Special Education Adapted Curriculum (Intellectual Disabilities) course of study is for students seeking only teacher certification. Certification only students complete a planned program that leads to a College of Education and Human Development recommendation to the Professional Standards Commission for certification K-12 as a teacher of Special Education Adapted Curriculum. The focus of the coursework is students with moderate, severe, and profound mental retardation.

Pre-Service Certificate: Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program.
and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

**Certification:** Students must post passing scores on the GACE Content Assessment, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA in order to be recommended by Georgia State University for clear, renewable certification.

**Prerequisite Courses**

- EDRD 6600 Introduction to Materials and Methods in Reading Instruction (3)
- EPY 2050 Human Growth and Development (3)
- EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3)
- EXC 4650 Opening School Experience (0)
- EXC 7925 Practicum I: Intellectual Disabilities (3)

**Program Courses**

- EXC 7030 Applied Behavior Analysis (3)
- EXC 7250 Characteristics of Severe Intellectual Disability and Autism (3)
- EXC 7280 Methods of Teaching Students with Severe Disabilities (3)
- EXC 7281 Adapted/Functional Curriculum for Students with Severe Disabilities (3)
- EXC 7935 Practicum II: Severe Intellectual Disability (3)

4780 Initial Certification in Special Education Deaf Education

Department of Educational Psychology, Special Education and Communication Disorders
835 College of Education Building
404-413-8040
http://esc.education.gsu.edu/
Laura Fredrick, Chair

Applicants who hold a bachelor’s degree and clear, renewable teaching certification in an area of regular education or special education and are highly qualified in a content area based on coursework may apply to this program. Applicants must be teachers or paraprofessionals in classrooms of students who are deaf or hard of hearing, or they must submit a letter from a school superintendent verifying access to deaf or hard of hearing students.

**Pre-Service Certificate:** Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

**Certification:** Students must post passing scores on the GACE Content Assessment, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA in order to be recommended by Georgia State University for clear, renewable certification.
Prerequisites

- EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3) or similar introduction to special education course (3)
- EPY 2050 Human Growth and Development or equivalent (3)
- EXC 4650 Opening School Experience (0)

Required Courses

- CSD 6480 Hearing Science and Disorders (3)
- EXC 7350 Psychosocial Characteristics of Deafness (3)
- EXC 7360 Language Development in Students Who are Deaf/Hard of Hearing (3)
- EXC 7390 Reading and Writing Instruction for Deaf/Hard of Hearing (3)
- EXC 7400 Methods of Teaching Students who are Deaf/Hard of Hearing (3)
- EXC 7430 Auditory and Speech Development in Students Who are Deaf/Hard of Hearing (3)
- EXC 7940 Practicum: Deaf/Hard of Hearing (3)

Candidates must post a rating of “Intermediate” on the Signed Language Proficiency Interview (SLPI) before admission to EXC 7940 Practicum.

Total hours for certification: minimum of 21 Hours

4790 Initial Certification in Special Education General/Adapted Curriculum

Department of Educational Psychology, Special Education and Communication Disorders
835 College of Education Building
404-413-8040
http://esc.education.gsu.edu/
Laura Fredrick, Chair

A student can earn a teaching certificate in either “Special Education (P-12) General Curriculum” or “Special Education (P-12) Adapted Curriculum”. The certificate is determined based on the characteristics of pupils with autism spectrum disorders the student is, or plans on, working with and the Praxis II or GACE completed. Either certification results in the student being uniquely qualified to educate children and youth with autism spectrum disorders. Students who wish only certification can apply to the non-degree program and take the courses that lead to certification, enabling them to be better prepared to educate individuals with autism spectrum disorders.

Pre-Service Certificate: Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Certification: Students must post passing scores on the GACE Content Assessment, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA in order to be recommended by Georgia State University for clear, renewable certification.
Required Courses

- EDRD 6600 Introduction to Materials and Methods in Reading Instruction (3)
- EPY 2050 Human Growth and Development (3)
- EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3)
- EXC 4650 Opening School Experience (0)
- EXC 7030 Applied Behavior Analysis (3)
- EXC 7190 Alternative Approaches to Literacy Instruction for Students with Disabilities (3)
- EXC 7250 Characteristics of Severe Intellectual Disability and Autism (3)
- EXC 7280 Methods of Teaching Students with Severe Disabilities (3)
- EXC 7310 Strategies for Challenging Behaviors (3)
- EXC 7315 Assessment and Curricular Planning for Students with Autism Spectrum Disorders (3)
- EXC 7320 Methods for Teaching Low-Functioning Students with Autism Spectrum Disorders (3)
- EXC 7325 Methods for Teaching High-Functioning Students with Autism Spectrum Disorders (3)
- EXC 7926 Practicum I: Autism (3)
- EXC 7936 Practicum II: Autism (3)
- EDRD 7650 Individualized Literacy Assessment and Instruction (3) is also required for students who wish to acquire the Reading Endorsement.

4800 Initial Certification in Special Education General Curriculum P-12

Department of Educational Psychology, Special Education and Communication Disorders
835 College of Education Building
404-413-8040
http://esc.education.gsu.edu/
Laura Fredrick, Chair

The Special Education program a teaching certification sequence in special education for certification in Special Education General Education Curriculum: Consultative. This is a nondegree, initial certification program for students who already hold an undergraduate degree from an accredited college or university. Students seeking admission to this initial certification program must have a minimum cumulative GPA of 2.75 and have passing scores on the GACE Program Admission Assessment or be exempt based on equivalent SAT, ACT or GRE scores, and complete the Georgia Educator Ethics – Program Entry (350) Assessment.

Pre-Service Certificate: Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Certification: Students must post passing scores on the GACE Content Assessment, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA in order to be recommended by Georgia State University for clear, renewable certification.

The sequence of required certification courses are as follows:
- EPY 2050 Human Growth and Development (3)
- EXC 4010 Characteristics of Students with Disabilities (3)
- EXC 4650 Opening School Experience (0)
- EXC 6560 Educational Evaluation of Students with Disabilities (3)
- EXC 6570 Individual and Classroom Management (3)
- EXC 6580 Instructional Methods for Students with Behavior Learning Disabilities (3)
- EXC 6590 Functional and Social Methods for Students with Behavior Learning Disabilities (3)
- EXC 6661 Practicum I: Special Education General Curriculum: Consultative (3)
- EXC 6671 Partnerships and Practicum II: Special Education General Curriculum: Consultative (3)
- EDRD 6600 Introduction to Material and Methods of Reading Instruction (3)
- EDRD 7650 Individual Literacy Assessment and Instruction (3)

**Total hours for certification: 33 semester hours**

Students may not transfer any core special education coursework into the certification program. Students may be given credit for EPY 2050 if prior appropriate coursework can be documented. Students must become highly qualified in reading by completing the Reading Endorsement, through passing EDRD 6600, EXC 7190, and EDRD 7650, and completing a reading portfolio as required. Students must receive a satisfactory grade of “B” or better in all core special education courses. Students who do not receive a grade of “B” or better must retake the course and satisfactorily pass the course prior to taking additional special education core coursework in the program. A course may be repeated once. Students who do not satisfactorily pass a course after two attempts will be administratively withdrawn from the program.

Evaluation of a student’s performance is continuous and involves consideration of each student’s performance in all academic settings. Inappropriate or unprofessional conduct by any student may result in the student being dropped from a course or program. If such removal from a course is necessary, the student will receive the grade of “F” and may be judged ineligible to re-enroll in the course. Georgia State University will only recommend an individual for their certification who has completed a program approved by the College of Education’s Professional Education Faculty and developed under the guidance of a faculty advisor.

**4810 Initial Certification in Special Education Physical and Health Disabilities**

Department of Educational Psychology, Special Education and Communication Disorders
835 College of Education Building
404-413-8040
http://esc.education.gsu.edu/
Laura Fredrick, Chair

The Initial Certification in Special Education Physical and Health Disabilities Program (formally known as the Orthopedic Impairments program) prepares teachers to instruct students in the special education category of orthopedic impairments. This includes students with a wide range of physical impairments, neuromotor impairments, degenerative diseases, and severe health impairments who may have additional
cognitive/learning or sensory impairments. To prepare teachers to instruct students with orthopedic impairments, a wide range of coursework is provided which includes such areas as characteristics, specialized instructional strategies to teach academics, specialized curricular areas, physical and health management, and assistive technology.

Certification only students complete a planned program that leads to the College of Education and Human Development recommendation to Professional Standards Commission for certification in Special Education Physical and Health Disabilities (P-12). This certification will make these teachers eligible to instruct students who are in the special education category of orthopedic impairments.

**Pre-Service Certificate:** Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

**Certification:** Students must post passing scores on the GACE Content Assessment, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA in order to be recommended by Georgia State University for clear, renewable certification.

**Prerequisite Courses**

- EDMT 7400 Mathematics Concepts for Special Learners (3)
- EDRD 6600 Introduction to Materials and Methods in Reading Instruction (3)
- EPY 2050 Human Growth and Development (3)
- EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3)
- EXC 4650 Opening School Experience (o)
- EXC 7030 Applied Behavior Analysis (3)
- EXC 7927 Practicum I: Physical and Health Disabilities (3)

**Program Courses**

- EXC 7260 Characteristics of Severe and Multiple Disabilities (3)
- EXC 7290 Methods for Teaching Students with Physical and Multiple Disabilities: Reading and Academics (3)
- EXC 7300 Assistive Technology: Reading and Academics (3)
- EXC 7330 Physical and Health Management of Students with Disabilities (3)
- EXC 7937 Practicum II: Physical and Health Disabilities (3)

**4820 K-5 Mathematics Endorsement**

Department of Early Childhood and Elementary Education
550 College of Education Building
404-413-8020
http://ece.education.gsu.edu/
Barbara Meyers, Chair
This endorsement is intended for teachers who hold a clear, renewable certificate, level 4 or higher in one of the following areas: Early Childhood Education, Middle Grades – Mathematics, or Special Education General Curriculum/Early Childhood Education. Other areas of Special Education are eligible to enroll if they have a core academic content concentration in mathematics. Requirements for the K-5 Mathematics Endorsement include 15 hours of concentrated coursework in elementary (PreK-5) mathematics education. Students must be admitted to the university and may be enrolled as a non-degree student or pursuing another advanced degree.

Required (15):

- ECE 7393 Number and Operation in the Elementary Classroom (3)
- ECE 7394 Geometry and Measurement in the Elementary Classroom (3)
- ECE 7395 Rational Numbers and Algebra in the Elementary Classroom (3)
- ECE 7396 Data Analysis and Probability in the Elementary Classroom (3)
- ECE 7740 Internship in Early Childhood Classroom I (3)

Total hours for endorsement: minimum of 15 semester hours

**4830 K-5 Science Endorsement**

Department of Early Childhood and Elementary Education
550 College of Education Building
404-413-8020
http://ece.education.gsu.edu/
Barbara Meyers, Chair

This endorsement is intended for teachers who hold a clear, renewable certificate, level 4 or higher in early childhood education (P-5) or another eligible field specified in GaPSC Educator Preparation Rules and are interested in adding additional expertise in science education to their certificate. Requirements for the K-5 Science Endorsement include 12 hours of concentrated coursework in elementary (K-5) science education. Students must be admitted to the university and may be enrolled as a nondegree student or pursuing another advanced degree.

Required (12):

- ECE 8420 Essentials of Elementary Science (3)
- ECE 8430 Mastery of Elementary Science (3)
- ECE 8440 Leadership in Elementary Science (3)
- ECE 7740 Internship in Early Childhood Classroom I (3)

Students must complete a portfolio as an exit requirement.

Total hours for endorsement: minimum of 12 semester hours
The Literacy Coach Certificate is also referred to as the Partners in Comprehensive Literacy (PCL) program.

The Partners in Comprehensive Literacy (PCL) is a research-based companion program to the Comprehensive Intervention Model (CIM). PCL is a systemic school improvement model based on the principles of apprenticeship learning. Inherent to the model is the coaching and mentoring feature. The series of courses for Literacy Coach Certificate are designed to prepare individuals for supporting accountability with a school-wide assessment system using multiple ways for evaluating student achievement; providing embedded professional development for teachers; assisting with the development of a well-designed school-wide literacy plan; and with assisting teachers to expand their knowledge and expertise particularly in providing differentiated classroom instruction.

With the growing need to support classroom teachers serving diverse populations, there is an increased demand for embedded professional development as well as coaching and mentoring within school settings. Thus the demand for school-based literacy coaches has increased over the past few years. Also, teachers serving as literacy coaches desire to further develop their knowledge and expertise to increase their effectiveness as an instructional facilitator/coach.

The certificate program focuses on specialized coursework for preparing teachers to serve as highly qualified teachers/coaches equipped to collaborate across classrooms, with school administrators, parents and community representatives in order to improve student achievement.

The Literacy Coach/Instructional Facilitator certificate program is an 18-hour program of study designed for students who already have a master’s degree or a minimum of 9 hours of appropriate reading coursework, and are seeking specialized training as an Instructional Facilitator/Literacy Coach. The training is restricted to candidates employed as a literacy coach in a school setting.

The admission requirements for the Literacy Coach Certificate program follow the same standards for admission to a non-degree graduate program. A Baccalaureate degree from a regionally accredited college or university with a grade point average of no less than 2.50 (4.0 scale). In addition, the candidate must have a valid teaching license (Georgia or other state); a master’s degree or a minimum of 9 hours of appropriate reading coursework; and be employed as a literacy coach in a school setting.

Program of Study

Theory and Research (6 hours)
• ECE 7980 Theory and Practice in Literacy (3) or EDRD 7600 Theory and Pedagogy in the Study of Literacy (3)
• ECE 7964 Comprehensive Literacy Model for School Improvement (3)

Practicum/Field Experiences (9 hours)

• ECE 7981 Supervision and Organization of Reading Programs (3) or EDRD 8610 Professional Learning and Leadership of Literacy (3)
• ECE 7982 Professional Experiences in Reading (3) or EDCI 7660 Practicum I (3)
• ECE 7983 Literacy Coaches as Agents of Change (3)

Curriculum Framework (3 hours)

• ECE 7984 Curriculum Design and Evaluation

4850 Preschool Special Education Endorsement

Department of Educational Psychology, Special Education and Communication Disorders
835 College of Education Building
404-413-8040
http://esc.education.gsu.edu/
Laura Fredrick, Chair

In addition to full field teacher certification preparation, Georgia State University offers preparation for state certification endorsements in some specific areas of training, service, and leadership. All such programs require acceptable teaching or appropriate school experiences and admission to the College of Education and Human Development as graduate students. Program applicants must be fully certified teachers.

All coursework for the Preschool Special Education endorsement must be completed with a grade of “B” or higher.

Nine semester hours of coursework are required for endorsement in preschool special education for professionals holding teacher certification in early childhood education, special education, or speech language pathology. Completion of the coursework requirements below, as designated, qualifies the students for endorsement in preschool handicapped education.

Required (6):

• EXC 7650 Characteristics of Young Children with Disabilities (3)
• EXC 7660 Methods of Teaching Young Children with Disabilities (3)

Select one (3):

• CSD 4320 Introduction to Language Disorders (3)
• EXC 7010 Language Development and Language Disabilities (3)
The Department of Early Childhood and Elementary Education offers graduate courses in literacy which apply to Georgia's Reading Endorsement for classroom teachers. These courses focus on three areas: (a) understanding readers and the reading process, (b) linking assessment and instruction, and (c) using instructional strategies in specific content areas.

The Reading Endorsement Program presupposes certification at least at the bachelor's level. Successful completion of application sequences (Reading Recovery Teacher Strand or Reading Recovery Teacher Leader Strand) qualifies a person for the bachelor's, master's, or specialist level endorsement, depending on the current level of certification. This endorsement qualifies an individual to be considered ‘in field’ in reading at the level of the base certificate. Teachers pursuing the reading endorsement are enrolled as nondegree students in specific programs for certification as a Reading Recovery Teacher or a Reading Recovery Teacher Leader.

**Strand 1: Understanding Readers and the Reading Process/Linking Assessment and Instruction**

- ECE 7360 Reading Recovery Clinical for Teachers I (3)
- ECE 8300 Reading Recovery Theory I (3)
- ECE 8360 Reading Recovery Clinical for Leaders I (3)

**Strand 2: Understanding Readers and the Reading Process**

- ECE 7370 Reading Recovery Clinical for Teachers II (3)
- ECE 8310 Reading Recovery Theory II (3)
- ECE 8320 Reading Recovery Theory III (3)
- ECE 8370 Reading Recovery Clinical for Leaders II (3)

**Strand 3: Using Instructional Strategies in Specific Content Areas**

- ECE 7380 Reading Recovery Clinical for Teachers III (3)
- ECE 8380 Reading Recovery Clinical for Leaders III (3)

---

**4860 Reading Endorsement (ECE)**

Department of Early Childhood and Elementary Education  
550 College of Education Building  
404-413-8020  
http://ece.education.gsu.edu/  
Barbara Meyers, Chair  
Sue Duncan, Executive Director

4870 Reading Endorsement (MSE)
The Department of Middle and Secondary Education and the Department of Educational Psychology, Special Education, and Communication Disorders offer graduate courses in literacy which apply to Georgia’s Reading Endorsement for classroom teachers. These courses focus on three areas (a) understanding readers and the reading process, (b) linking assessment and instruction, and (c) using instructional strategies in specific content areas. All students who wish to obtain a reading endorsement must attend a MSE orientation session and complete an exit requirement of a portfolio. The portfolio will be aligned with the PSC requirements and will require the demonstration of the ability to teach reading at the applicable levels of the base certificate.

The Reading Endorsement Program presupposes certification at least at the bachelor’s level. Successful completion of three of the following courses qualifies a person for the bachelor’s, master’s, or specialist level endorsement, depending on the current level of certification. This endorsement qualifies an individual to be considered ‘in field’ in reading at the level of the base certificate. Teachers pursuing the reading endorsement may be enrolled as nondegree students or may be enrolled in specific programs.

Strand 1: Understanding Readers and the Reading Process

Select one (3):

- EDRD 6600 Introduction to Materials and Methods in Reading Instruction (3)
- EDRD 7600 Theory and Pedagogy in the Study of Literacy (3)

Strand 2: Linking Assessment and Instruction

Select one (3):

- EDRD 7550 Literacy Assessment and Curriculum Development (3)
- EDRD 7650 Individualized Literacy Assessment and Instruction (3)

Strand 3: Using Instructional Strategies in Specific Content Areas

Select one (3):

- EDRD 7630 Literacy in the Content Areas (3)
- EXC 7190 Alternative Approaches to Literacy for Students with Disabilities (3)

Total hours for endorsement: minimum of 9 semester hours

4880 Reading Endorsement Online
The Department of Middle and Secondary Education offers online graduate courses in literacy that apply to the Georgia ONmyLINE non-degree Reading Endorsement for classroom teachers. These courses focus on three areas (a) understanding readers and the reading process, (b) linking assessment and instruction, and (c) using instructional strategies in specific content areas. The GOML non-degree Reading Endorsement is approved by the Georgia Professional Standards Commission.

The Georgia ONmyLINE non-degree Reading Endorsement program presupposes certification at least at the bachelor’s level. Successful completion of the Georgia ONmyLINE non-degree Reading Endorsement course work and a portfolio qualifies a person for the bachelor’s, master’s, or specialist level endorsement, depending on his or her current level of certification. This endorsement qualifies an individual to be considered “in field” in reading at the level of the base certificate. Students seeking only the non-degree GOML Reading Endorsement must be admitted to the graduate program in the College of Education and Human Development as a non-degree GOML student. All courses in the Georgia ONmyLINE non-degree Reading Endorsement must be completed online through Georgia ONmyLINE; no other courses may apply.

Required Georgia ONmyLINE Courses for the Non-degree Reading Endorsement:

- EDRD 7600 Theory and Pedagogy in the Study of Literacy (3)
- EDRD 7630 Literacy in the Content Areas (3)
- EDRD 7650 Individualized Literacy Assessment and Instruction (3)
- EDCI 7660 Practicum I (3)

Total Program Hours: 12 semester hours

4895 Teacher Support and Coaching Endorsement

The Teacher Support and Coaching (TSC) Endorsement Program in Early Childhood and Elementary Education is one of six endorsements offered through the Department of Early Childhood and Elementary Education.

Revised in 2015, the TSC Endorsement is embedded in the M.Ed. Elementary Education program as one of four concentrations (Mathematics, Science, Reading and Teacher Support and Coaching). In addition, graduate students may elect to earn a stand-alone endorsement in TSC by enrolling and successfully
completing: ECE 8400 and ECE 8680. Candidates must have three years of teaching experience to be eligible to enroll in the 6 hours of Teacher Support and Coaching Endorsement courses.

Required (6):

- ECE 8400 Teacher Development (3)
- ECE 8680 Internship in Teacher Support (3)

Total hours for endorsement: minimum of 6 semester hours

4890 Reading Recovery

Department of Early Childhood and Elementary Education
550 College of Education Building
404-413-8020
http://ece.education.gsu.edu/
Barbara Meyers, Chair
Sue Duncan, Executive Director

The program for training in Reading Recovery prepares teachers to observe, assess, and address reading problems in children in the first grade, using assessment, observation, and early intervention/prevention and teaching procedures developed by Dr. Marie Clay. Two levels of training are offered: teacher training and teacher leader training.

The Georgia State University Reading Recovery Program meets the requirements established by Professor Marie M. Clay, the faculty of The Ohio State University College of Education, and the Reading Recovery Council of North America (RRCNA). It has been granted a royalty free license to use the name “Reading Recovery” in conjunction with the program.

This program is a fixed sequence with enrollment fall through spring term. Admission to the program occurs once a year, and a school district and/or consortia must submit a site application and supporting materials. (Call 404/413-8024 for materials required for such applications.) The program begins in the summer with the Observation Survey Institute.

Students selected for training in Reading Recovery must apply for admission to an appropriate level of graduate study (e.g., nondegree, M.Ed., Ed.S., graduate transient) in the College of Education and Human Development and must meet published criteria for admission.

A student must earn a cumulative grade point average of 3.00 in Reading Recovery courses to become a registered Reading Recovery teacher or teacher leader. Completion of Reading Recovery Teacher Training or Reading Recovery Teacher Leader Training qualifies the completer for the Georgia Teacher Certification Reading Endorsement.

Teacher Training Level
Teacher Training prepares teachers to observe, assess, and select children for Reading Recovery understanding; to teach children using Reading Recovery methods and procedures; to make informed instructional decisions using records and materials unique to the program; to accelerate the progress of Reading Recovery children to meet the average level of reading achievement in each child’s classroom; and to communicate with other teachers, principals, parents, and their peers about the effectiveness of the program and its impact in the school and community.

Teachers in training continue to work full time in their school districts in addition to attending class once each week. Teacher training requires school and district support to release the in-training teacher from classroom duties at least half time for one academic year. This requirement allows the teacher in training to work with four children in his or her school for 30 minutes per day, five days per week.

Applicants must hold a bachelor’s degree and a current teaching certificate, among other criteria. Contact the department for further details.

Teachers in training enroll in the following courses for academic credit:

Required Fall Term (6):

- ECE 7360 Reading Recovery Clinical for Teachers I (3)
- ECE 7370 Reading Recovery Clinical for Teachers II (3)

Required Spring Term (3):

- ECE 7380 Reading Recovery Clinical for Teachers III (3)

Program total: minimum of 9 semester hours

Students enrolled in the M.Ed. Elementary Education with a concentration in Elementary Literacy in Reading Recovery may apply ECE 7360, ECE 7370, ECE 7380 to the program.

Because of the special nature of this program, students who withdraw will not be able to complete the program unless they apply to enter a later cycle. The faculty of the Georgia State University Reading Recovery Program reserves the right to refuse admission to any student who applies for a program cycle after having withdrawn from a previous cycle.

Teacher Leader Training Level

Teacher Leader Training prepares teachers to implement Reading Recovery in their home systems or regions; to recruit, select, and train teachers in Reading Recovery observation and teaching methods; to select children for service and assess their progress in the program; to supervise Reading Recovery teachers; to evaluate and oversee teaching decisions using record keeping materials unique to the program; to conduct public and professional awareness sessions for school systems and communities; to conduct research on the effectiveness of the program; and to teach children using Reading Recovery techniques, procedures, and methods.
Teacher leader training requires support from the trainee’s home system, private school association, or consortium. Trainees are expected to attend a yearlong study program full time where they are trained through coursework, clinical sessions, and field experience. Teacher leaders must hold a minimum of a master’s degree and meet other criteria for selection. (Contact the department for further details.)

Because the training of Reading Recovery teachers and Reading Recovery teacher leaders is different, students previously trained as Reading Recovery teachers who are later selected for teacher leader training will be required to complete the entire training sequence.

Teacher leaders in training enroll in the following courses for academic credit:

Required Fall Term (12):

- ECE 8300 Reading Recovery I (3)
- ECE 8360 Reading Recovery for Leaders (3)
- ECE 8370 Reading Recovery Clinical for Leaders II (3)
- ECE 8700 Reading Recovery Supervision (3)

Required Spring Term (15):

- ECE 8310 Reading Recovery Theory II (3)
- ECE 8320 Reading Recovery Theory III (3)
- ECE 8380 Reading Recovery Clinical for Leaders III (3)
- ECE 8390 Reading Recovery Clinical for Leaders IV (3)
- ECE 8700 Reading Recovery Supervision (3)

Program total: minimum of 27 semester hours
4010 Research and Instructional Resources

Alonzo A. Crim Center for Urban Educational Excellence

350 College of Education Building
404/413-8070
http://crim.education.gsu.edu/

The Alonzo A. Crim Center for Urban Educational Excellence works in partnership with the larger Georgia State community, other universities, school systems, social agencies, and community organizations. Current work includes: (1) Benjamin E. Mays Lecture Series, an annual program which brings nationally prominent educators to Atlanta to address critical issues facing education; (2) Coalition Urban Affiliate Liaisons, meetings between College of Education and Human Development and Atlanta Public Schools urban affiliates to develop research agendas and to discuss difficult issues related to providing excellent education for those children who traditionally have been least well-served by schools; (3) Quarterly Forums, events which address the topic, “Tapping Into the Genius of Our Children,” which allows teachers and educators to participate in dialogue with outstanding people who have demonstrated success in fostering academic excellence for economically disenfranchised children in urban schools; (4) The Peachtree Urban Writing Project, a national writing project site and a collaborative of the Atlanta Public School System, Georgia State University, Morehouse College, and Spelman College; (5) National Board Certification Resource Center, provides awareness training to principals and teachers who are going through National Board Certification (NBC), places special emphasis on the recruitment of minority candidates and houses an information library for NBC literature; (6) Martin Luther King, Jr. Curriculum Project, lesson plans developed and designed to encourage hands-on, interactive exploration of materials available in The King Center, while providing historical and sociological knowledge to students as well as in social studies, civics, history, writing and language arts; (7) Staff Development and Curriculum Enhancement, facilitates and hosts ongoing workshops and training sessions that promote professional development for in-service teachers, and identifies supplemental learning resources that will complement the curriculums that are currently used by teachers. The director of the center is Dr. Brian Williams.

Applied Physiology Laboratory

G18 Sports Arena
http://kh.education.gsu.edu/kh-facilities/applied-physiology-lab/

The Applied Physiology Laboratory serves the research, teaching, and service needs of the Department of Kinesiology and Health. The director of the laboratory is Dr. Andy Doyle.

Biomechanics Laboratory

137 Sports Arena
404/413-8056
http://kh.education.gsu.edu/kh-facilities/biomechanics-lab/

The Georgia State University Biomechanics Laboratory was established in 1989 to enhance biomechanical research productivity in the areas of sport and exercise activities, medical rehabilitation, and industrial and occupational activities. The director of the laboratory is Dr. Mark Geil.
Center for Pediatric Locomotion Sciences

http://education.gsu.edu/research/center-for-pediatric-locomotion-sciences/

The mission of the Center for Pediatric Locomotion Sciences is to perform innovative, interdisciplinary research to improve the lives of children and adolescents with mobility disorders. Currently, the center is conducting exploratory research in four primary areas that challenge children: idiopathic toe walking, Down syndrome, lower limb amputation and cerebral palsy, and has already made important gains in each of these areas. The co-directors of the center are Dr. Mark Geil and Dr. Jerry Wu.

Center for Research on School Safety, School Climate and Classroom Management

351 College of Education Building
404/413-8074
http://schoolsafety.education.gsu.edu/

The Center for Research on School Safety, School Climate and Classroom Management consists of faculty and staff members representing a broad span of academic orientations including education, psychology, nursing, social work, law, and criminal justice. The mission of the Center is to coordinate and support scholarly efforts to gain a fuller understanding of the variables affecting school safety, school climate and classroom management. This is accomplished by stimulating interdisciplinary basic and applied research in these areas, and by facilitating educational and outreach efforts that focus on our growing understanding of variables and interventions that affect school safety, school climate and classroom management. The director is Dr. Joel Meyers.

Educational Research Bureau

330 College of Education Building
404/413-8090
http://education.gsu.edu/research/educational-research-bureau/

The Educational Research Bureau provides assistance to students and faculty with grant searches, proposal processing, and post-award management. The director of the bureau is Dr. Susan Ogletree.

Instructional Technology Center

2nd floor, College of Education Building
404/413-8080
itc.gsu.edu/

The Instructional Technology Center serves faculty, students, and prekindergarten through twelfth-grade educators by encouraging and supporting technological confidence and expertise in the areas of teaching, collaboration, and consulting. The ITC serves as a resource center providing learning spaces, technology workshops, student computer access, and specialized educational technology resources. Our resources include computers, peripheral equipment, productivity and educational software titles, audio/video production and reproduction technology and over 100 years of combined educational technology expertise from our experienced staff.
The ITC will provide customized workshops for faculty and instructor-led classes on topics that support instruction. The ITC can create workshops for a variety of instructional technologies. It has a variety of purpose-built teaching facilities including smart classrooms, computer classrooms, a conference room and a student computing commons.

The director of the center is Mr. Randy Jones. Call the Instructional Technology Center for information and appointments or visit their website at itc.gsu.edu.

Principals’ Center

Fourth floor, College of Education Building
404/413-8256
www.principalscenter.org/

The Principals’ Center provides continuing professional development for Georgia State University graduates and other educational professionals from Georgia’s public and private K-12 schools with a focus on Instructional Leadership for Schools that Succeed for All Students. This professional development agenda is implemented under various formats which target principals, assistant principals, aspiring leaders and other practitioners interested in improving their leadership and school reform skills. Some programming is assisted through various partnerships with school systems in Georgia. The Center is administered within the Department of Educational Policy Studies.

- **The Expert Leaders Series** is a series of professional learning opportunities that builds awareness of innovative thinking on education issues or practical strategies for school improvement. Led by visionary thinkers, researchers, and practitioners through presentations and group discussions, the series is designed to inspire principals to leadership that will create schools where all children achieve.

- **The Tool Box Series** is a series of full-day learning opportunities highlighting the work of current K-12 school practitioners and their teams in focused areas of interest. These teams share successes, challenges, and strategies that have worked for them in order to inspire others to begin or improve their own skills and expertise. This series is designed to cover subjects that are relevant, current, and of pressing interest or need in Georgia’s K-12 schools.

- **The Aspiring Leaders Institute** is designed to prepare future principals, recommended by their school districts, to become leaders of high achieving schools. Members of the institute participate in interactive learning sessions, large and small groups, and self-assessments designed to strengthen leadership skills and in the monthly program meet to study issues of race and ethnicity, culture, equity, efficacy, change, community involvement and other topics that have an impact on increasing student achievement.

- **The Beginning Principals Academy** is a one year professional development and support program for principals, in their first and second year as a school leader, under the guidance of experienced mentor principals. Members of the Academy: receive advice, guidance and support from distinguished, experienced principals; develop a broadened understanding of the instructional leadership process, enhance their decision-making skills; learn how to transform schools into Professional Learning Communities; and expand their network of professional colleagues.

- **The Institute for Assistant Principals** is a one year professional development and support program for assistant principals, in their first or second year, under the guidance of experienced mentor assistant principals. Members of the AP Institute receive advice, guidance and support from
distinguished, experienced assistant principals; develop a broadened understanding of school processes in relation to successful schools, enhance their decision-making skills; and expand their network of professional colleagues.

- **Academic Coaches Seminar Series** is designed to provide professional development for educators who are in their first, or second, year as an academic or instructional coach, or who are aspiring to this role, within a school or at central office. Members of the Seminar will engage in interactive learning sessions that model the coach/teacher relationship to foster instructional improvement and student academic achievement. The Seminar Series is led by an experienced educational leader who has a proven track record in instructional leadership.

**Saturday School**

367 College of Education Building  
404/413-8029  
http://saturdayschool.education.gsu.edu/

Saturday School for Scholars and Leaders is offered by the Department of Early Childhood Education in the College of Education and Human Development at Georgia State University. Saturday School provides a wide variety of enrichment classes for gifted students in grades K-8. Classes are held on the downtown campus during 5 sessions per year. Two 5-week sessions are held in the fall and spring semesters and one 4-week session is held each July. The director of the Saturday School is Dr. John Kesner.

**Speech-Language-Hearing Clinic**

8th floor, College of Education Building  
404/413-8044  
http://speechlanguagehearing.education.gsu.edu/

The Speech-Language-Hearing Clinic is operated by the Department of Educational Psychology and Special Education to provide practicum and experience for students in the master’s level Communication Sciences and Disorders program offered through the College of Education and Human Development. Students who are identified by faculty as needing evaluation may be referred to the clinic. Students can also receive evaluation and treatment at their own request. The director of the clinic is Dr. Debra Schober-Peterson.
4020 Students' Responsibilities

Knowledge of Regulations

Graduate students must assume full responsibility for knowledge of the policies, rules, and regulations of the College of Education and Human Development and the university as well as the departmental requirements concerning their individual programs.

It is the responsibility of the students to become knowledgeable of and to observe all regulations and procedures required by the program being pursued. In no case will a regulation be waived or an exception granted because a student pleads ignorance of the regulation or asserts that an adviser or other university authority did not inform the individual of a specific requirement. Each student should become especially familiar with the chapters of this catalog that present the academic requirements for the degree being sought, the offerings and requirements of the students’ major department, and any changes published in the online Schedule of Classes each academic term.

While the provisions set forth in this catalog will ordinarily be applied as stated, Georgia State University and the College of Education and Human Development have the right to change any provision, including but not limited to academic requirements for graduation, without actual notice to individual students. Every effort will be made to keep students advised of any such changes. Information on changes will be available in the Office of the Dean and Office of Academic Assistance and Graduate Admissions when changes are made by the College of Education and Human Development. It is especially important that each student note that it is the individual student’s responsibility to keep apprised of current graduation requirements for his or her particular degree program.

Criteria on Academic and Professional Integrity

The College of Education and Human Development is committed to upholding standards of academic and professional integrity. These standards require that students enrolled in undergraduate and graduate programs within the College of Education and Human Development adhere to both the University’s Student Code of Conduct as described on-line at http://codeofconduct.gsu.edu/ as well as their individual degree program’s Policy on Student Professionalism, Integrity and Retention. Students should contact their department for a copy of their degree program’s policy.

Continuous Enrollment

Graduate students must register for at least a total of six semester hours of course work during any period of three consecutive terms (fall, spring, summer) until completion of degree. In other words, the total enrollment of the current term plus the two terms preceding it must add to six hours or more at all times. In order to graduate, students must be actively enrolled in the program of study during the semester they finish degree requirements for graduation.

The minimum registration for the semester of completion of all degree requirements is one semester hour. This could be for a course, a special topics seminar, or thesis research, etc. If only an incomplete “I” grade is pending, the student will not have to register for the term of graduation.

In addition to this university policy, the College of Education and Human Development has a specific
requirement for all Ph.D. candidates. Enrollment for a minimum of three semester hours of credit is required during at least two out of each three-term period following successful completion of the comprehensive examination until graduation. These hours of credit must include a minimum of 15 semester hours of dissertation (9990) credit but may also include other coursework. Doctoral students must be enrolled in and successfully complete three semester hours of graduate credit (typically dissertation hours) the term all degree requirements are completed. Students must be enrolled in at least three semester hours of coursework during the academic term in which they defend the dissertation.
4030 Teacher Certification

Authority to recommend for certification rests with the dean of the College of Education and Human Development. Questions about certification and certification requirements should be directed to the appropriate department. Instructions for applying for certification can be found here: http://education.gsu.edu/student-services/office-of-academic-assistance/applying-for-certification/certification-requirements/.

Graduate admission information may be obtained from the Office of Academic Assistance and Graduate Admissions, 300 College of Education Building, 30 Pryor Street 404/413-8000 or online at http://education.gsu.edu/admissions/graduate-admissions/. Teachers interested in adding art, music, or foreign language certification should contact the College of Arts and Sciences Graduate Office, 800 Haas-Howell Building 404/413-5040. Add-on certification at the master’s and specialist degree levels requires admission at the graduate level. Certification at either of these degree levels requires a grade point average of “B” or higher in the certification courses. Some programs require a grade of “B” or higher in specific courses.
The College of Education and Human Development’s Office of Academic Assistance and Graduate Admissions serves the college’s students and applicants to its graduate programs. This office:

- Provides application information and materials;
- Receives and evaluates application materials for graduate study in the College of Education, and for the college’s undergraduate degree programs;
- Explains catalog regulations;
- Recommends candidates for certification by the Georgia Professional Standards Commission;
- Audits and clears students for graduation;
- Administers appropriate policies for the college and the university; and
- Refers students to other sources of assistance in the university.

The Office of Academic Assistance and Graduate Admissions will counsel applicants who are denied admission into the College’s graduate programs, as needed, by appointment only.

Any student or applicant needing assistance may send questions via email to EducAdmissions@gsu.edu or call 404-413-8000. Students should always provide their Panther ID # when seeking advise or assistance.

Department and Faculty Advisement

Each department in the college provides advisement and counseling to students enrolled in its graduate programs. All admitted students are assigned a faculty adviser for academic and career development, the selection of electives, and any aspect of a student’s major area of study. The initiative for contact with the faculty adviser lies with the student, who may also have ready access to other members of the faculty.
4050 Changing Major or Degree Status

Georgia State University graduate students in the College of Education and Human Development who wish to change to a different graduate major must complete a “Change of Major or Degree Status” form and supply all required admission materials for the new major. In the College of Education and Human Development, coursework completed in the previous program may be counted toward the requirements for the new major if the courses match those described in the new major’s program description and the credits meet all other College of Education and Human Development guidelines for degree completion and if the student’s new program adviser approves the use of previously earned credits toward the new program. If another college offers the new major, the students should contact the appropriate graduate office in that college for information about applying to its graduate program.

Graduate students admitted in nondegree status who wish to become admitted in a degree-seeking status must complete the online application, pay the $50 application fee, and supply all required admission materials for the new degree program. No more than nine (9) semester hours of coursework taken in a nondegree status may be applied to a master’s or doctoral program in the College of Education and Human Development. Nondegree credits may not apply to any specialist degree program.
4060 Required Change of Catalog Edition

College of Education and Human Development students (a) who reenter the university after a period of one or more years during which time they did not earn academic credit at Georgia State University or (b) who re-enroll at Georgia State University after having attended another institution in any status other than as a college-approved transient student must change to the current catalog edition, or petition with their reentry application to retain their current catalog. They must meet all requirements of the current catalog edition.
Prerequisite Courses

The faculty have designated prerequisites for many College of Education and Human Development courses. Students are expected to have completed a course’s prerequisites prior to the first day of class. If students have appropriate academic and professional experience, they may ask the instructor or department to allow them to register for a course without having completed the published prerequisites for a course; however, the instructor and department are under no obligation to allow the students to enroll without having completed the prerequisites. In some courses, the students may be administratively withdrawn from the course if the instructor or department discovers that they have not completed the course’s prerequisites.

Separate Graduate and Undergraduate Programs

The graduate and undergraduate programs of the college are entirely separate and only those persons who have been admitted to a graduate program may enroll in courses numbered 6000 or higher.

Level of Courses

No undergraduate course credit may be applied toward any of the graduate-level program degree requirements. Undergraduate courses may be used to satisfy program prerequisites, if approved by the advisor. No course numbered 5000 to 5999 may be applied toward the requirements of any degree program offered by the college.

Only those persons who have been admitted to a graduate program may enroll in courses numbered 6000 or higher.

College of Education and Human Development courses numbered 9000 or higher are restricted to students admitted to a doctoral program. Other graduate students may be eligible to enroll with consent of the instructor.

Minimum Grade in Courses

The formal coursework requirement is satisfied through successful completion of each course in the program of study with a grade of “C” or higher. Coursework in which a grade below “C” is earned may not be applied to a program.

Directed Readings Course

A directed readings course is assigned for an individual project or readings under supervision. An application for a directed readings course is available from the Office of Academic Assistance and requires consultation with the instructor of choice to develop the topic of study, approval of the students’ adviser, and approval of the department chair of the chosen instructor’s department. Directed reading courses may not substitute for courses that are part of the regular course offerings of the college.
4080 Practicum and Student Teaching Internships

Pre-Service Certificate

All Georgia State University students who are accepted into an educator preparation program and will be completing a field placement must complete the requirements to obtain a Pre-Service Certificate from the Georgia Professional Standards Commission (which includes a criminal background check and the ethics module).

Once students are admitted to an educator preparation program, they will receive an email from the Office of Academic Assistance and Graduate Admissions with instructions on how to apply for the Pre-Service certificate. Do not apply for the Pre-Service certificate prior to admission.

Application Deadlines

Graduate students enrolled in initial teacher preparation programs will receive information from their department faculty regarding the process to request a field placement associated with the required courses in their program of study including the type of experience needed and application deadlines. The GSU Office of Field Placements will assist the departments by processing the paperwork required for the placements and will notify the department of the approved placements when received. Information for the Office of Field Placements can be found online at http://education.gsu.edu/student-services/office-of-field-placements/.

Policies and Criteria

Specific information regarding policies related to practicum and student teaching internship placements may be obtained from the student’s department. In addition, all students are required to contact their advisers and chair of the department in which the internship is to take place for additional criteria and specific requirements of the experience.

The practicum or student teaching supervisor has the authority to withdraw students from a classroom experience if the students’ performance constitutes a detriment to the students in the class, and if such removal is necessary, the students will be given a grade of “F” for the course. If a student is removed from their practicum or student teaching placement, it is not guaranteed that an alternate placement will be obtained for the student in the same semester which may result in delaying the students’ completion of their program.
4090 Student Complaints, Petitions for Policy Waivers and Variances, and Appeals

The appeals procedure for students will follow different courses of action depending on the nature of the student’s appeal. Please refer to University Information Section 1050.80 under Policies and Disclosures in this catalog or visit http://enrollment.gsu.edu/assistance/ for details.

Georgia State University seeks to maintain the highest standards of integrity and fairness in its relationships with students. The Undergraduate Catalog and the Graduate Catalog Student Code of Conduct set forth policies and requirements for Georgia State students. Students are expected to know and comply with these policies. Students may, however, seek relief or resolution when they believe that:

- The application of these policies and procedures will create undue hardship for them or will not recognize their extraordinary or extenuating circumstances; or
- Specific actions, practices, or decisions on academic or non-academic matters have been made or carried out in an arbitrary, discriminatory, or inequitable manner.

To adhere to University policy, the College of Education and Human Development has developed three forms: Petition for Admission, Petition for Waiver or Variance, and Student Petition for Resolution. Students should complete these forms and submit to the appropriate department for review. Forms are available at http://education.gsu.edu/student-services/forms-policies-regulations/.

Petition for Admissions

Applicants denied admissions who wish to appeal an admission decision or who desire a request for exception should complete the Petition for Admission Form available in the College of Education and Human Development Office of Academic Assistance and Graduate Admission.

Petition for Waiver or Variance

Any student in the College of Education and Human Development may petition for a waiver or variance of established policy, procedure, rule, or guideline governed by the college. This form should be used for requests of substitutions of required courses, waivers of college policies governing graduate students, or waivers of college policies governing doctoral students. The Student Petition for Waiver or Variance form must be submitted by the end of the term prior to the term in which the exception is needed. The form can be found at http://education.gsu.edu/student-services/forms-policies-regulations/.

Student Petition for Resolution

Students are encouraged to discuss academic or non-academic problems or grade concerns with the instructor prior to filing a formal petition, in an effort to gain understanding about the basis of the treatment or grade. If the issue is not resolved informally, students should complete the Student Petition for Resolution process. The form can be found at http://education.gsu.edu/student-services/forms-policies-regulations/.
4100 Academic Discipline

Scholastic Warning

Graduate students whose cumulative grade point average (GPA) falls below a 3.00 at the end of a term or who fail to maintain the level of academic performance required by the department of their major will be placed on scholastic warning. GPA will be calculated based on all attempts at courses numbered 6000 or higher and will include any such courses whether or not they are required in the students’ program of study. The original grade in a course that has been repeated is not dropped from the cumulative GPA for purposes of determining academic standing. Upon completion of the subsequent term of required coursework, if the cumulative GPA is at least 3.00, then the students will return to good standing.

Students who wish to take a course or courses for personal enrichment or for other purposes not related to pursuit of a degree or certification program may audit those courses unless he or she wishes to have grades from that course or courses included in the cumulative grade point average for academic standing purposes.

Graduate students on scholastic warning whose GPA is not at least 3.00 upon completion of the subsequent term of required coursework but whose latest term's grade point average is at least 3.00 will remain on scholastic warning until the cumulative grade point average of 3.00 is achieved. At that time, the students will return to good standing. Students may not graduate while on scholastic warning.

Scholastic Suspension

Graduate students on scholastic warning whose grade point average is not at least 3.00 and whose latest term’s GPA is not at least 3.00 will be suspended from the university for one academic term. During the term of suspension, the students may petition for readmission by completing a Petition for Readmission After Scholastic Suspension form and a reentry form and submitting them to the Office of Academic Assistance and Graduate Admissions (300 College of Education Bldg) by the following deadlines:

- To reenter Fall Semester August 1
- To reenter Spring Semester December 1
- To reenter Summer Semester April 1

There is no guarantee that students will be readmitted.

Scholastic Probation

Students who are reinstated after scholastic suspension will be on scholastic probation. If the students’ graduate grade point average for any term following reinstatement falls below 3.00, the students will be scholastically excluded from the College of Education and Human Development. If the students’ cumulative GPA is less than 3.00, they will be given 12 semester hours in which to raise the cumulative grade point average to at least 3.00.

Scholastic Exclusion

Students may be scholastically excluded from the College of Education and Human Development for one or more of the following three reasons:
1. The students completed an academic term in which they did not earn a term GPA of at least 3.00 while they were on academic probation.
2. The students did not achieve or maintain a cumulative graduate GPA of at least 3.00 by the end of the first 12 semester hours completed following reinstatement.
3. The students failed to maintain the level of academic performance required by the department of their major.

Students scholastically excluded from the College of Education will not be admitted to any College of Education and Human Development program and may never enroll in any College of Education and Human Development course offerings.
4110 Graduate Admissions

All documents and other materials submitted by or for persons in connection with their interest in consideration for admission to a program become the property of this institution and cannot be returned at any time. It is the responsibility of each applicant to follow the application procedures completely and correctly and to be certain that all materials have been submitted to the Office of Academic Assistance and Graduate Admissions by the application deadline. Incomplete application files will not be reviewed until complete.

Admission is for entry in a specific major and concentration, when appropriate. Students who have been admitted to a graduate degree program may not change to a different major without receiving formal approval of an application for the new major. The applicant must meet all College of Education and Human Development and departmental minimum criteria and all prerequisites for the new major.

General Application Procedures and Information

Applications for graduate study are available online at http://education.gsu.edu/admissions/graduate-admissions/. The University requires applicants who have a criminal or disciplinary history to complete a background review. Please refer to section 1100 Graduate Admissions for details.

Applications and supporting materials must be filed with the Office of Academic Assistance and Graduate Admissions at the addresses listed at http://education.gsu.edu/admissions/graduate-admissions/ well in advance of the desired term of entry. Each applicant must allow adequate lead-time for admissions processing. International applicants should refer to the “International Applicant Admission” section of this chapter for additional admissions information.

Application deadlines vary by program. Please check the application completion date for your degree program of interest at to http://education.gsu.edu/admissions/graduate-admissions/graduate-degree-programs-application-completion-deadlines/or for your nondegree program of interest at http://education.gsu.edu/admissions/graduate-admissions/non-degree-program-application-completion-deadlines/. The closing dates for receipt of applications and all supporting documents for each of the academic terms are listed in the information about each degree program. Materials submitted are not returned to the applicant and are not transferable to other institutions.

College of Education and Human Development Policy on Admissions

A person seeking to pursue any of the programs of graduate study described in this section of this catalog must be admitted to Georgia State University through the College of Education and Human Development. The requirements for admission stated in the following sections are those established by the University and the College. Additional requirements, if any, established by the separate departments/schools can be found in the descriptions of their programs and on their respective websites.

Visit the admissions section of the Office of Academic Assistance and Graduate Admissions website for detailed information on college requirements, program requirements, and deadlines at http://education.gsu.edu/admissions/graduate-admissions/.
Admission is based upon a variety of factors among which is the quality of the applicant’s undergraduate record (and graduate record if appropriate), achievement on required admissions tests, the degree of preparation for the specific academic program to be pursued, and available space in the program. In addition to these general criteria, individual departments may consider additional factors in making admission decisions.

Each applicant must complete and submit the online application for admission to graduate study, required application materials, and the non-refundable $50.00 application fee.

All applicants must submit the following items and meet stated college minimum criteria:

1. Two official transcripts (just one official transcript if submitting electronically through eSCRIPSAFE or Parchment) from each college or university, domestic or overseas, from which they received a degree, or where they were enrolled in undergraduate or graduate level coursework. This may include courses taken in non-degree status, in transient status, or in post-baccalaureate status and is regardless of whether or not the courses led to a degree or are listed on another institution’s transcript.

2. Applicants must hold a degree from a regionally accredited college or university with a major in or with coursework that meets prerequisites for the planned graduate field of study.
   a. Applicants must have earned a grade point average of no less than 2.50 calculated on all undergraduate work attempted in which letter grades were awarded. Individual programs may have a higher standard.
   b. Applicants for the Specialist in Education (Ed.S.) programs must hold a graduate degree from a regionally accredited college or university unless specified otherwise by the program and have a grade point average of no less than 3.25 on all graduate coursework for which letter grades were awarded.
   c. Applicants for the Doctorate of Philosophy (Ph.D.) programs must have a grade point average of no less than 3.30 on all graduate coursework for which letter grades were awarded.

3. Copies of scores on the General Test of the Graduate Record Examination (GRE). Test scores must be from an examination taken within the last five years prior to the term of admission of the program. In addition to these copies, the applicant must have records of the scores directed specifically to Georgia State University (use University code only; do not use a department code) from their testing agencies. Some departments also require a minimum score or percentile on the Graduate Record Examination. Some programs accept the Miller Analogies Test in lieu of the GRE.

4. Applicants who plan to complete a program for initial teacher certification, along with those who apply to programs that require it, must present passing scores on the GACE Program Admission Assessment (formerly called Basic Skills Assessment) or qualify for exemption. The GACE Program Admissions Assessment can be exempted based on certain scores from the GRE, SAT, or ACT.

5. Applicants who plan to complete a program for initial certification must complete the Georgia Educator Ethics – Program Entry (350) Assessment. Completion of this assessment is required for admission, though there is no “Pass/Fail” grade assigned.

6. Any supplemental application materials required by the major department. Programs may have additional application requirements.

The above list is a general guide. Applicants should visit the Office of Academic Assistance and Graduate Admissions web site at http://education.gsu.edu/admissions/graduate-admissions/ and the individual
websites of the department/program of interest to discover the full list of materials required.

Admissions Appeals and Requests for Exceptions to Admissions Criteria

Applicants denied admissions who wish to appeal an admission decision or who desire a request for exception should complete the Petition for Admission Form. Contact the Office of Academic Assistance and Graduate Admissions for more information and the form.

Reentry

A reentry student is one who has been enrolled at Georgia State and who meets at least one of these criteria:

- has not registered for courses at Georgia State during any of the previous three semesters.
- has been on scholastic suspension after an absence of one calendar year.
- has been on scholastic exclusions after an absence of five or more years. (undergraduate students only)
- has attended any semester as a transient and wishes to attend an additional term. (undergraduate students only)

Application Procedures for Reentry

The Reentry Application is available online at http://education.gsu.edu/admissions/graduate-admissions/instructions-for-reentry-into-a-graduate-program/. Students will need to submit a $25.00 application fee with their applications. Reentry students who are accepted but do not attend the semester in which they were admitted must contact the Office of Academic Assistance and Graduate Admissions if they wish to attend the succeeding semester.

Reentry admission is not automatic. A student must reenter the program into which he or she was most recently admitted, and he or she must be able to meet all current admissions criteria for that program. Some graduate programs do not accept reentry students. Students interested in one of these programs must complete a new graduate application and follow the application procedures for that program. Students who have not registered for one calendar year or more must satisfy the degree requirements of the graduate catalog in effect at the time of reentry. If their academic program no longer exists at the time of reentry, they may not reenter but instead apply for a new degree program.

International and Immigrant Status Applicant Admission

It is the policy of Georgia State University to encourage the enrollment of students from other countries. The university subscribes to the principles of international education and to the basic concept that only through education and understanding can mutual respect, appreciation, and tolerance of others be accomplished. The recognition of the values of cultural exchange is grounded in our philosophy of education and is predicated on an awareness of the need to foster better cooperation, friendship, and understanding among the peoples of the world. In this regard, we welcome international students to our campus because we believe such a cultural exchange will be beneficial to our entire student body, to our international students in particular, and to metropolitan Atlanta.

Georgia State reserves the right to admit only those international applicants who are academically qualified.
Applicants needing a student visa are required to document the availability of funds equal to the estimated cost of the first academic year at Georgia State before a certificate of eligibility will be issued.

International students applying from abroad must have application, fees, and supporting documentation on file in the Office of Admissions approximately three months prior to the beginning date of the academic term for which they seek admission.

International students with a student visa are required to carry a full course of study in each academic term excluding summer. A full course of study at Georgia State is nine semester hours for graduate students.

In addition to meeting the regular admission requirements, prospective international and immigrant status applicants who come from non-English speaking countries must demonstrate proficiency in the English language by taking the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) test. The TOEFL or IELTS are not required for an applicant holding a degree from a U.S. college or university or whose native language is English.

Prior to registration for the first term, each international student is required to attend an international student orientation offered by International Student and Scholar Services.

The College of Education and Human Development reserves the right to test international applicants with regard to their skills in English. Accepted applicants will be notified if any testing is required.

Academic credentials must be original documents with authoritative signatures, seals, and/or stamps. Whenever possible, these should be sent by the institution responsible for issuing such documents. In cases where it is impossible for an applicant to have those credentials sent from such institutions, the applicant should forward a duly “notarized” or “attested to” copy. The notarization should be done by the proper institutional officer or by the Ministry of Education in the home country. Documents in a language other than English must be accompanied by translations. The home country embassy or an appropriate official should make translations, and the original copies of the translations, acceptably notarized as described above, must be provided. As a general rule, documents translated by the Office of the American Friends of the Middle East (AFME) or the Institute of International Education (IHE) will be acceptable.

The application materials of foreign origin of all international and immigrant status applicants must be evaluated and judged equivalent by an independent evaluation service. Georgia State University accepts course-by-course evaluations from the Josef Silny and Associates and Educational Credential Evaluators (ECE). The evaluations must come directly from the service.

Transient (Visiting) Student Admission

Students enrolled as regular students in a degree program in another accredited college or university may apply to register for a particular academic term at Georgia State University as transient (visiting) students. Such students are ones who expect to return to the college or university in which previously enrolled and must have permission from that institution to attend Georgia State University. Although the university cannot guarantee the availability of specific courses for transient students nor assume responsibility for advisement, every effort will be made to assist students unfamiliar with the university. Visiting student admission is valid for one term only. Enrollment in subsequent terms requires a new application. Visiting student status is limited to nine semester hours of credit.
Applicants desiring to enroll as transient students must submit the following materials to the Office of Academic Assistance and Graduate Admissions, College of Education and Human Development, Georgia State University, 30 Pryor Street, Suite 300, Atlanta, GA 30303 by the deadline date listed in the Transient section at http://education.gsu.edu/wp-content/blogs.dir/92/files/2013/08/Transient_ApplicationP.pdf: (1) Graduate Transient Student Application, (2) a nonrefundable application fee of $50.00, and (3) a “Letter of Good Standing” sent directly to the Office of Academic Assistance and Graduate Admissions from the institution the applicant is currently attending, indicating the specific Georgia State University course(s) being approved. The Letter of Good Standing should be addressed to Director, Nancy Keita, at the above address.

Georgia State University students currently pursuing degree programs in the College of Education and Human Development and seeking transient (visiting) status at another institution must first secure permission from their academic advisor. Once permission is secured, the Office of Academic Assistance and Graduate Admissions provides a letter of good standing for the student.

Admission for Persons 62 Years of Age or Older

Pursuant to the provisions of an amendment to the Georgia Constitution adopted November 2, 1976, the Board of Regents of the University System of Georgia has established rules with respect to enrollment of persons 62 years of age or older. To establish eligibility for such enrollment, one must:

- Be classified as a resident student under the residency regulations of the Board of Regents; be 62 years of age or older at the time of registration; and present a birth certificate or other comparable written documentation of age to the residence auditor, and
- Meet all regular Georgia State University admissions requirements as an entering undergraduate, transient, or graduate student.

Having established eligibility, individuals may enroll as regular students, for regular credit, in courses offered for resident credit on a “space available” basis without payment of fees, except for supplies or laboratory fees. In addition, students under this program will have all usual student and institutional records maintained. These students must meet all regular, appropriate degree requirements before receiving a degree.

Admission Decisions and Notifications

Admission decisions are based upon official transcripts of all prior college-level work, official results of standardized tests, and other pertinent sources of information. The College of Education and Human Development reserves the right to investigate the health, character, and personality of each applicant.

Admission decisions are securely posted online and communicated in writing to applicants as soon as practical after all application materials have been received and evaluated. Admission decisions cannot be given by telephone, nor can they be given to any person other than the applicant without a written release from the applicant to do so.

Changing Term of Entry

Admission is for the specific academic term the applicant indicates on his or her application unless
otherwise indicated by the acceptance letter. An accepted applicant who does not attend the academic term for which acceptance has been granted may reactivate his or her application for up to two academic terms immediately following the original academic term of acceptance, provided the program being applied for admits new students during at least one of those terms. Some programs only admit students one term during the academic year; therefore, postponing enrollment delays beginning the program by a calendar year. In this case, the applicant may not reactivate the application, but must submit a new online application instead (in keeping with university requirements for residency status verification). The applicant must meet current admission criteria and may also be required to resubmit supporting materials.

A written request for reactivation is required. Address the request to Graduate Admissions, Office of Academic Assistance and Graduate Admissions, Attn: Director. Admission for a subsequent term is not automatic or guaranteed.

Deadlines for notification to change entry term are as follows:

- Fall Semester  August 1
- Spring Semester December 1
- Summer Semester  April 1

If the deadline falls on a weekend or on a university holiday, requests to change term of entry will be accepted until the end of the next business day following the deadline.

Retention of Records

If an applicant fails to complete enrollment for the term in which admission was sought, the application must be renewed, and submission of such additional credentials and information as may be requested by the Office of Academic Assistance and Graduate Admissions will be required. Application files are retained for a maximum of one year.

Any student who earns credit in a master’s or specialist level program and later become inactive may be required to reestablish his or her file. The Office of the Registrar will maintain a transcript of graduate credit earned at Georgia State University indefinitely.
4120 Master's Degree Regulations

Dual Enrollment Admission

A dual enrollment option is available for master’s students who wish to earn simultaneously a Master of Science with majors in educational research and mental health counseling. Only these two majors may be combined in this manner. A description of program requirements for the Educational Research/Mental Health Counseling program is provided following the program description for the master’s program in Educational Research later in this chapter.

Dual enrollment applicants to the M.S. major in educational research and the M.S. major in mental health counseling must meet all entrance requirements and follow the application procedures for each of the separate majors. Participation in the dual enrollment program is contingent upon students being admitted to both majors prior to completion of either program and approval of the program director, Dr. William L. Curlette. Students who apply simultaneously for both majors but who are admitted to only one will be admitted to that major and may reapply for the other by the deadline for a subsequent academic term.

Concurrent Master’s/Ed.S. Admission

Applicants for the Master of Education degree in School Counseling may be considered for concurrent admission to the Specialist in Education degree with the same major. The applicant must meet the minimum admission requirements as listed in the “Specialist Programs” section of this chapter. Admission to these programs is concurrent; however, completion of degree requirements occurs sequentially.

Applicants for the Master of Education degree with a major in school psychology must concurrently apply for the Specialist in Education degree with the same major. Completion of both the M.Ed. and Ed.S. in School Psychology can lead to recommendation for initial certification in School Psychology in the State of Georgia. Admission to these programs is concurrent; however, completion of degree requirements occurs sequentially.

Concurrent Master’s/Ph.D. Admission

At the time of admission to the doctoral program in Educational Psychology students entering without a master’s degree in a related field are expected to enroll concurrently in the M.S. and Ph.D. programs. The applicant for concurrent Master’s/Ph.D. admission must have an undergraduate grade point average of 3.30 and meet the relevant admission requirements listed for the doctoral program in Educational Psychology.

Those applying to the doctoral program in School Psychology may apply for admissions after having successfully completed a bachelor's degree with a major in psychology, education or a related field; a master’s degree in a related field; or a specialist degree in a related field. Those applying with a bachelor’s degree must have an undergraduate GPA of 2.5. Those applying with a master’s degree must have a GPA of 3.3. Students admitted to concurrent enrollment will not be eligible to advance to doctoral candidacy until they have successfully completed the master’s degree.

Multiple Master’s Degrees
Students who hold a degree from the College of Education and Human Development may qualify for a
different master’s degree of this college. To qualify, they must meet all admission requirements for the
second degree and thereafter fulfill all requirements for the second master’s degree. Along with all other
requirements, the students must have received satisfactory credit for a minimum of 27 semester hours of
coursework that have not been applied to satisfy the requirements of any other degree.

Minimum Requirements for All Master’s Degrees

1. Students must earn a cumulative grade point average of 3.00 calculated on all graduate coursework
   attempted at Georgia State University. The formal coursework requirement is satisfied through
   successful completion of each course in the program of study with a grade of “C” or higher.
2. Coursework in which a grade below “C” is earned may not be applied to the master’s programs.
3. Some departments require a grade of “B” or higher in specific courses and program areas. Students
   are responsible for contacting their departments regarding specific academic requirements that
   exceed college-wide minimums.
4. A minimum of 36 semester hours of coursework is required.
5. Students must take a minimum of 27 semester hours of coursework at Georgia State University.
6. No coursework may be more than six calendar years old at the time of graduation except for
   coursework applied to the degree requirements in Mental Health Counseling, Clinical Rehabilitation
   Counseling, School Counseling, or School Psychology, which may be no more than seven calendar
   years old.
7. Each student must meet the comprehensive examination (exit) requirement of his or her program.

Exit Requirement

All master’s-degree students must successfully complete an exit requirement in at least one of the following
ways as determined by program faculty:

1. Students successfully complete a written comprehensive examination which can be taken only after
   they have completed at least 27 semester hours of coursework in his or her program and which must
   be passed within three attempts. Students who do not pass their comprehensive examinations after
   three attempts will be scholastically excluded from the College of Education and Human
   Development master’s degree program for which they were being examined.
2. Students complete and defend a project, portfolio, or thesis.

Electronic Master’s Theses and Doctoral Dissertations Policy

In order to insure that all master’s theses and doctoral dissertations produced at Georgia State University
are captured, preserved, and appropriately made available, the University requires all students who
produce a master’s thesis or doctoral dissertation in fulfillment of his/her degree to upload the final version
of these documents to ScholarWorks@Georgia State University as a condition of the award of the degree.
4130 Early Childhood Education (M.A.T.)

Master of Arts in Teaching (M.A.T.) in Early Childhood Education

Department of Early Childhood and Elementary Education
550 College of Education Building, 404/413-8020
http://ece.education.gsu.edu/
Barbara Meyers, Chair

The M.A.T. in Early Childhood Education in the Department of Early Childhood and Elementary Education at Georgia State University is an opportunity for post baccalaureate provisionally certified practicing teachers of record or other PK-5th grade classroom-based educators to work toward a graduate degree concurrent with their studies toward elementary teaching certification (grades Pk-5). This cohort based program encourages authentic collaboration around learning, teaching, and advocacy with colleagues similarly committed to pedagogical excellence and equitable educative opportunities for all children.

This five semester program has been intentionally designed to seamlessly link theory, content and practice across all courses. The M.A.T. Early Childhood Education Program of Study aims to promote relevancy, interconnectedness, and applicability for beginning teachers of record. Coursework has been carefully constructed in order to support novice teachers as they work in urban high needs schools in the metro Atlanta area, preparing teachers without previous coursework in education not only to meet the needs of the students they serve, but also to address the challenges in their urban school contexts. To support beginning teachers of record during the vulnerable induction phase of teaching, the M.A.T. emphasizes a scaffolded, developmental, and responsive coaching model over two academic years. Faculty/coaches provide an instructional bridge for beginning teachers as they learn to connect course content and effective pedagogical practices to their own classrooms.

Students who successfully complete the entire program of study and program requirements (44 credit hours of graduate coursework and the successful completion of EXC 4020 or its equivalent) receive a M.A.T. in Early Childhood Education and will be recommended by GSU for a clear renewable certificate (grades PK-5). In the case that students elect to only receive the certification and not complete the Master’s Degree, all coursework and program requirements indicated for certification only on the Program of Study (35 credit hours) must be successfully completed. Due to the permeable and iterative design of the program, all courses must be taken in sequence beginning in the fall.

Program Admission

Admissions criteria help to ensure that candidates are prepared for the rigorous curriculum requirements of the graduate program.

Candidates must meet all admission requirements of the College of Education as stipulated on the Office of Academic Assistance and Graduate Admissions web site located at http://ece.education.gsu.edu/academics-and-admissions/graduate-admissions/.

Candidates who are considered for the M.A.T. Early Childhood Education program must meet the following criteria prior to program entry:
• undergraduate degree from an accredited college or university
• undergraduate GPA of 2.75 or higher
• official scores on the Graduate Record Exam (GRE) from the past five years
• passing scores on the GACE Program Admission Assessment or exemption from this test based on GRE, SAT, or ACT scores.
• complete the Georgia Educator Ethics – Program Entry (350) Assessment.
• Candidates must also submit academic or professional letters of recommendation.

Program Academic Regulations

Students must post passing scores on the GACE Content Assessment, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA in order to be recommended by Georgia State University for clear, renewable certification.

Program Degree Requirements

Master of Arts in Teaching in Early Childhood Education

Professional Studies (9)

Select one (3):

• EPRS 7900 Methods of Research in Education (3)
• EPRS 7910 Action Research (3)
• EPRS 7920 Classroom Testing, Grading, and Assessment (3)

Required (6):

• EPSF 7100 Critical Pedagogy (3)
• EPY 7090 The Psychology of Learning and the Learner: The Young Child (3)

Content Courses of Teaching Certification In Early Childhood Education

Required (23):

• ECE 6361 Responsive and Student Centered Pedagogy (3)
• ECE 6390 Foundations of Learning and Teaching Mathematics (2)
• ECE 6576 Integrative and Iterative Curriculum Design (6)
• ECE 6586 Advocating for Students through the Descriptive Review of the Child (3)
• ECE 6587 Language and Literacy Development (3)
• ECE 7393 Number and Operation in the Elementary Classroom (3)
• ECE 7576 Teacher Inquiry for Critical Change (3)

Advanced Courses for Endorsement/Specialization (3)

Select three credit hours:

• Courses should be selected from the list of recommended electives after consultation with advisor.
  Acceptable Prefixes include: CPS, ECE, EPY, EPSF, EDRD, EDLA, TSLE, EXC, EPEL, and
EPRS. All courses elected must be at the 6000, 7000, or 8000 level. Courses with other prefixes may
be selected with consent of advisor.

Internships (9)

- ECE 4650 Opening School Experience (0)
- ECE 6575 Beginning Teachers of Record as Reflective Practitioners I (2)
- ECE 6585 Beginning Teachers of Record as Reflective Practitioners II (2)
- ECE 7575 Induction Teachers as Change Agents I (2)
- ECE 7585 Induction Teachers as Change Agents II (3)

Students must complete all Professional Studies and Content courses with a grade of “C” or higher and
Internship courses (ECE 6575, ECE 6585, ECE 7575, and ECE 7585) must be completed with a “B” or
higher in order to continue with the cohort. All courses in the ECE M.A.T. must be taken in sequence.

Students must complete EXC 4020 Characteristics and Instructional Strategies for Students with
Disabilities (3) or its equivalent to be eligible for recommendation for certification in addition to the
program of study requirements.

Program Total: minimum of 44 semester hours

Students in this program will be eligible to be recommended for Georgia initial certification after earning
passing scores on the GACE Program Admission Assessment, GACE Content Assessment for Early
Childhood Education, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA and
successfully completing:

- EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (or its
equivalent) and EPY 7090
- The content courses of teaching certification in Early Childhood Education: ECE 6361, ECE 6390,
  ECE 6576, ECE 6586, ECE 6587, ECE 7393, ECE 7576.
- The internship courses: ECE 4650, ECE 6575, ECE 6585, ECE 7575, ECE 7585.
4140 English Education (M.A.T.)

Master of Arts in Teaching (M.A.T.) in English Education

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

The Master of Arts in Teaching (M.A.T.) in English Education provides initial teacher preparation for individuals holding bachelor's degrees in English.

Program Admission

All applicants must meet the College of Education’s requirements for admission to graduate study. Additional admission requirements specific to this program include:

- An undergraduate or graduate degree in English or the equivalent from a regionally accredited college or university (Coursework must have included at least 24 semester hours of upper-division or equivalent acceptable credit in English content, including a minimum of three semester hours in each of the following areas: American literature, British literature, written composition, and history or structure of the English language.)
- Two letters of recommendation as follows: (a) one academic or professional letter; (b) one letter from someone who can evaluate the applicant’s personal qualifications, experience, and background in light of potential to work successfully with adolescents, or (c) one letter from a current work supervisor (if applicable).
- Documentation of previous work experience (resume).

Program Academic Regulations

The M.A.T. program is a carefully sequenced program. Students who do not follow the prescribed program sequence will be withdrawn from the program and may reapply to enter the next program cycle.

Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Each student is advised by a committee consisting of faculty from the College of Arts and Sciences and faculty from the College of Education and Human Development. Exit requirements for this program are:

- Completion of all program coursework with a grade point average of no less than 3.00,
- Successful completion of the teaching internships with a grade of “B” or higher, and
- Successful presentation of a professional portfolio.

Students in this program will be eligible to be recommended for Georgia initial certification after earning
passing scores on the GACE Program Admission Assessment, GACE Content Assessment for English, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA, and successfully completing:

- All content courses recommended for each individual by MSE and Arts and Sciences faculty upon admission to the program;
- Students must complete EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3) or its equivalent to be eligible for recommendation for certification in addition to the program of study requirements;
- EPY 7080, The Psychology of Learning and Learners (3), and
- EDCI 6600, Introduction to Secondary Teaching (3); EDCI 4650 Opening School Experience; EDCI 7660, Practicum I (3); EDCI 7670, Practicum II (3); EDCI 7680, Practicum III (3); EDLA 6550, Principles of English Instruction (3); EDLA 7550, Theory and Pedagogy of English Instruction (3); and EDRD 7630, Literacy in the Content Areas (3); and
- Successful presentation of a professional portfolio.

Program Degree Requirements

Master of Arts in Teaching in English Education

Professional Studies (9)
Select one (3):

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)

Program total: minimum of 45 semester hours
4145 English to Speakers of Other Languages Education (M.A.T.)

Master of Arts in Teaching (M.A.T.) English to Speakers of Other Languages (ESOL) Education

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

The Master of Arts in Teaching major in English to Speakers of Other Languages (ESOL) Education provides initial teacher preparation in ESOL for individuals holding bachelor’s degree and who have an interest in English to speakers of other languages in K-12 settings. The course of study meets the requirements for professional certification at the initial level in ESOL and the requirements for a Reading Endorsement.

Program Admission

All applicants must meet the College of Education and Human Development’s requirements for admission to graduate study. Additional requirements specific to this program include:

- An undergraduate or graduate degree or the equivalent from a regionally accredited college or university.
- The academic preparation of applicants should include the coursework listed below. Students may be admitted to the program and allowed to complete their academic preparation concurrently. Academic preparation must be completed prior to recommendation for certification.
- Characteristics and Instructional Strategies for Students with Disabilities (EXC 4020 or its equivalent)
- Students must meet a language requirement that is intended to ensure that all graduates have had the experience of studying a second or foreign language. This requirement can be met in one of the following ways:
  - Successful completion of one academic year of a university-level foreign language sequence (three quarters or two semesters of the same language), or
  - Successful completion of two quarters or one semester of a non-Western language, or
  - One year living/studying abroad as an adult, or
  - The acquisition of English as a second language for non-native English speakers.
- Two letters of recommendation as follows: (a) an academic or professional letter, (b) a letter from someone who can evaluate the applicant’s personal qualifications, experience, and background in light of the potential to work successfully with students at the K-12 levels, or (c) a letter from a current work supervisor (if applicable).
- Documentation of previous work experience (resume).

Program Academic Regulations

The M.A.T. program is a carefully sequenced program. Students who do not follow the prescribed program sequence will be withdrawn from the program and may reapply to enter the next program cycle.
Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Each student is advised by a committee of education faculty including representatives from the Department of Middle and Secondary Education and the Department of Applied Linguistics. The committee and the students complete a planned program of study in light of the needs of individual students. Exit requirements for this program are:

- Completion of all program coursework with a grade point average of no less than 3.0.
- Successful completion of the teaching internships with a grade of “B” or higher.
- Successful presentation of a professional portfolio.

Students in this program will be eligible to be recommended for Georgia initial certification after earning passing scores on the GACE Program Admission Assessment, GACE Content Assessment for Teaching English as a Second Language, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA, and successfully completing:

- EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (or its equivalent) and EPY 7080.
- AL 8240, TSLE 7250, TSLE 7260 or AL 8330, TSLE 7440, AL 8460, AL 8470, EDRD 7600, EDRD 7630, EDRD 7650, EDCI 4650, EDCI 7660, EDCI 7670, and EDCI 7680.
- Presentation of a professional portfolio.

Program total: minimum of 45 semester hours
4146 English to Speakers of Other Languages Education (M.A.T.) Online

Master of Arts in Teaching (M.A.T.) English to Speakers of Other Languages (ESOL) Education Online Program

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

The online program in M.A.T. major in English to Speakers of Other Languages (ESOL) Education is offered through the Georgia ONmyLINE (GOML) system. GOML provides access to a full array of online and distance education offerings from the 31 colleges and universities in the University System of Georgia. To find out more about GOML and to apply, please go to http://education.gsu.edu/online-education/.

The M.A.T. major in English to Speakers of Other Languages (ESOL) Education Online Program provides initial teacher preparation in ESOL for individuals holding bachelor’s degree and who have an interest in English to speakers of other languages in P-12 settings. This program addresses the needs of teachers who work with literacy learners from diverse cultures. Although these teachers can have an undergraduate degree in any area, they must have had experience learning a second language. Candidates who are not currently working with P-12 ESOL students will need to work with the Office of Field Placement staff in consultation with the program advisor to help arrange field placements. The ESOL course of study is designed to meet the requirements for professional certification at the initial level in ESOL and the requirements for a Reading Endorsement.

The M.A.T. ESOL Education online program is 45 hours (9 hours of college core courses; 9 hours English as a Second Language; 9 hours reading endorsement; 9 hours of applied linguistics; 9 hours of practicum). Entry into the program could begin in any semester; however, applicants are required to take TSLE 7440 prior to enrolling in practicum hours, and EDRD 7600 or EDRD 7630 prior to enrolling in EDRD 7650. Consequently, M.A.T. students (who are required to complete a year-long fall/spring practicum) could enroll in summer and complete the program in a minimum of 4 semesters; otherwise, the program would take a minimum of 5 semesters. This degree addresses the professional standards from IRA for classroom teachers of reading and from TESOL for teachers of ELL learners.

Program Academic Regulations

Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Each student is advised by a committee of education faculty including representatives from the Department of Middle and Secondary Education and the Department of Applied Linguistics. Exit requirements for this program are:

- Completion of all program coursework with a grade point average of no less than 3.0.
• Successful completion of the teaching internships with a grade of “B” or higher.
• Successful presentation of a professional portfolio.

Students in this program will be eligible to be recommended for Georgia initial certification after earning passing scores on the GACE Program Admission Assessment, GACE Content Assessment for Teaching English as a Second Language, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA, and successfully completing:

• EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (or its equivalent) and EPY 7080.
• AL 8240, TSLE 7250, TSLE 7260 or AL 8330, TSLE 7440, AL 8460, AL 8470, EDRD 7600, EDRD 7630, EDRD 7650, EDCI 4650, EDCI 7660, EDCI 7670, and EDCI 7680.
• Presentation of a professional portfolio.

EDCI 7680 Practicum III (3)

Program total: minimum of 45 semester hours
The Master of Arts of Teaching (M.A.T.) in Secondary Mathematics Education seeks to advance prospective and/or in-service mathematics teachers’ ability to effectively implement standards-based instructional practices. The program’s chief goal—to strengthen secondary students’ mathematical understandings—is achieved, in part, by providing mathematics teachers with opportunities to deepen their understandings of learners from diverse backgrounds, mathematics content and content pedagogical knowledge. The program prepares teachers to conduct action research in the context of their own classrooms in order to inform instruction, and to share the knowledge gained in a professional community of teachers. Through engaging teachers in advanced mathematics and mathematics education coursework, the program strengthens teachers’ mathematical content knowledge and their proficiency for teaching mathematics. In general, the Program of Study is framed by the principles and standards of the National Council of Teachers of Mathematics (NCTM) and the core propositions of the National Board for Professional Teaching Standards (NBPTS), InTASC, NCATE, and Common Core Georgia Performance Standards in Mathematics (CCGPS-M).

Program Admission

All applicants must meet the College of Education and Human Development’s requirements for admission to graduate study. Additional admission requirements specific to this program include:

- An undergraduate or graduate degree in mathematics or the equivalent from a regionally accredited college or university (Coursework must have included at least 24 semester hours of upper-division or equivalent acceptable credit in mathematics content, including a minimum of three semester hours in each of four of the following areas: modern or abstract algebra [similar to Math 4441], linear algebra [similar to Math 4435], college geometry [similar to Math 4301], mathematical statistics [similar to Math 4751], and advanced calculus [similar to Math 4661]. How recently these courses have been completed will be a consideration.
- A minimum overall grade-point average of 2.75 for the four courses is used to meet the previous requirement.
- Two letters of recommendation as follows: (a) one academic or professional letter; (b) one letter from someone who can evaluate the applicant’s personal qualifications, experience, and background in light of potential to work successfully with adolescent; or (c) one letter from a current work supervisor (if applicable).
- Documentation of previous work experience (resume).

Program Academic Regulations

The department may specify additional requirements.
The M.A.T. program is a carefully sequenced program. Students who do not follow the prescribed program sequence will be withdrawn from the program and may reapply to enter the next program cycle.

Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Each student is advised by a committee consisting of faculty from the College of Arts and Sciences and faculty from the College of Education and Human Developments. Exit requirements for this program are:

- Completion of all program coursework with a grade point average of no less than 3.00,
- Successful completion of the teaching internships with a grade of “B” or higher, and
- Successful presentation of a professional portfolio.

Students in this program will be eligible to be recommended for Georgia initial certification after earning passing scores on the GACE Program Admission Assessment, GACE Content Assessment for Mathematics, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA, and successfully completing:

- All content courses recommended for students by MSE and Arts and Sciences faculty upon admission to the program;
- Students must complete EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3), or its equivalent to be eligible for recommendation for certification in addition to the program of study requirements;
- EPY 7080, The Psychology of Learning and Learners (3), and
- EDCI 6600, Introduction to Secondary Teaching (3); EDCI 4650 Opening School Experience; EDCI 7660, Practicum I (3); EDCI 7670, Practicum II (3); EDCI 7680, Practicum III (3); EDMT 6560, Principles of Math Instruction (3); EDMT 7560, Theory and Pedagogy of Mathematics Instruction (3).
- Successful presentation of a professional portfolio.

**Program total: minimum of 36 semester hours**
The Master of Arts in Teaching in Middle Level Education provides initial teacher preparation for individuals holding bachelor’s degrees and who have an interest in teaching students in grades 4-8 in two areas of a concentration. The course of study meets the requirements for professional certification in Middle Level Education (grades 4-8) with concentrations in either language arts and social studies education or mathematics and science education.

Program Admission

All applicants must meet the College of Education and Human Development’s requirements for admission to graduate study.

Additional requirements specific to this program include:

- An undergraduate or graduate degree or the equivalent from a regionally accredited college or university.
- The academic preparation of applicants must include the coursework listed below. Students may be admitted to the program and allowed to complete their academic preparation concurrently. Academic preparation must be completed prior to recommendation for certification.
- Characteristics and Instructional Strategies for Students with Disabilities (EXC 4020 or its equivalent)
- Language Arts and Social Studies Education Concentration
  - 12 hours of English courses with at least 6 hours of upper division coursework.
  - 12 hours of social studies courses with at least 6 hours of upper division coursework.
  - Students must demonstrate academic proficiency in the following areas: (a) literature and folklore, (b) composition, (c) languages and (d) children’s and adolescent’s literature
- Mathematics and Science Education Concentration
  - 12 hours of mathematics courses with at least 6 hours of upper division coursework.
  - 12 hours of science courses with at least 6 hours of upper division coursework.
  - Students must demonstrate academic proficiency in the following areas: (a) geometry, (b) algebra, (c) number theory, and (d) probability/statistics.
- Students must demonstrate academic proficiency in the following areas: (a) biology, (b) physical science, and (c) earth/space sciences.
- Two letters of recommendation as follows: (a) one academic or professional letter, (b) one letter from someone who can evaluate the applicants’ personal qualifications, experience, and background in light of the potential to work successfully with pre-adolescents and adolescents, or (c) one letter
from a current work supervisor (if applicable).

- Documentation of previous work experience (resume).

Program Academic Regulations

The M.A.T. program is a carefully sequenced program. Students who do not follow the prescribed program sequence will be withdrawn from the program and may reapply to enter the next program cycle.

Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Students are advised by a committee of education and arts and sciences faculty including representatives from the students’ two areas of concentration. The committee and the students complete a planned program of study in light of the needs of the individual students. Exit requirements for this program are:

- Completion of all program coursework with a grade point average of no less than 3.00.
- Successful completion of the teaching internships with a grade of “B” or higher.
- Successful presentation of a professional portfolio.

Students in this program will be eligible to be recommended for Georgia initial certification after earning passing scores on the GACE Program Admission Assessment, GACE Content Assessments for Middle Grades, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA, and successfully completing:

- All content courses recommended for all individuals by the advisement committee upon admission to the program.
- EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (or its equivalent) and EPY 7080.
- EDCI 7020, EDRD 7630, EDCI 4650; EDCI 7660, EDCI 7670, EDCI 7680, and either EDCI 6540 and EDCI 7540 (Math/Science option) or EDCI 6560 and EDCI 7560 (Language Arts/Social Studies option).

Program Degree Requirements

Master of Arts in Teaching in Middle Level Education

Professional Studies (9)
Required (3):

- EPY 7080 The Psychology of Learning and Learners (3).

Teaching Field/Major (27)
Required (6):

- EDCI 7020 Middle Schools in a Diverse Society (3)
- EDRD 7630 Literacy in the Content Areas (3)

Elective (3):

- Select an elective with the approval of the Middle Level Education Advisor.

Choose one concentration

Mathematics and Science Concentration
Required (6):

- EDCI 6540 Principles of Instruction in Middle Childhood Science and Mathematics (3)
- EDCI 7540 Theory and Pedagogy of Middle Childhood Science and Mathematics Instruction (3)

Advanced Studies – Mathematics (6)
In consultation with their advisement committee, students select coursework numbered 6000 or higher. The coursework should lead to the development of an understanding of the history, philosophy, conceptual underpinnings, and applications of mathematics education at the middle level. One course should be taken from the Department of Mathematics and Statistics and one course from mathematics education in the Department of Middle and Secondary Education.

Advanced Studies – Science (6)
In consultation with their advisement committee, students select coursework numbered 6000 or higher. The coursework should lead to the development of an understanding of the history, philosophy, and conceptual underpinnings of science as well as the applications of science education at the middle level.

Language Arts and Social Studies Concentration
Required (6):

- EDCI 6560 Principles of Instruction in Middle Childhood Language Arts and Social Studies (3)
- EDCI 7560 Theory and Pedagogy of Middle Childhood Language Arts and Social Studies Instruction (3)

Advanced Studies – Language Arts (6)
In consultation with their advisement committee, students select coursework numbered 6000 or higher. The coursework should lead to the development of an understanding of the history, philosophy, conceptual underpinnings, and applications of language arts education at the middle level. One course (ENGL) should
be taken from the Department of English and one course (EDLA) from Language and Literacy Education in the Department of Middle and Secondary Education.

Advanced Studies – Social Studies (6)
In consultation with their advisement committee, students select coursework numbered 6000 or higher. The coursework should lead to the development of an understanding of the history, philosophy, conceptual underpinnings, and applications of social studies education at the middle level. One course should be taken from the College of Arts and Sciences and one course (EDSS) from social studies education.

Internship (9)
Required (9):

- EDCI 4650 Opening School Experience (0)
- EDCI 7660 Practicum I (3)
- EDCI 7670 Practicum II (3)
- EDCI 7680 Practicum III (3)

Program total: minimum of 45 semester hours
4190 Science Education (M.A.T.)

Master of Arts in Teaching (M.A.T.) Science Education

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

The Master of Arts in Teaching in Science Education provides initial teacher certification for those holding bachelor’s degrees in engineering, science, or a related area.

Program Admission

All applicants must meet the College of Education and Human Development’s requirements for admission to graduate study. Additional admission requirements specific to this program include:

- An undergraduate or graduate degree in engineering, a science field, or a related field from a regionally accredited college or university. A minimum of a major (24 upper-division semester hours) in a science area must be part of prior coursework.
- Two letters of recommendation as follows: (a) one academic or professional letter, (b) one letter from someone who can evaluate the applicant’s personal qualifications, experience, and background in light of potential to work successfully with adolescents, or (c) one letter from a current work supervisor (if applicable).
- Documentation of previous work experience (resume).

Undergraduate students in the Bachelor of Science with a major in Physics can apply to the M.A.T. in Science Education if they meet the following requirements.

- Students must participate in pre-advising sessions with faculty in the Department of Physics and Astronomy.
- Students must have completed at least 30 hours of academic credit (including MATH 2211 and PHYS 2211K).
- Students must have earned a minimum cumulative GPA of 3.3.
- Students may apply to the option at any time after completing 30 hours but prior to completing 90 hours of undergraduate coursework.
  - Complete the B.S./M.A.T. application form. This will be kept on file in the Department of Physics and Astronomy and in the Office of Academic Assistance in the College of Arts and Sciences.
  - Documentation of previous work experience (resume or curriculum vitae).
  - Personal statement of goals and/or reasons for teaching.
- Formal acceptance into the M.A.T. portion of the program will be contingent upon the following:
  - Filing an application to the M.A.T. program by the appropriate deadline at education.gsu.edu/oaa/4427.html
  - Maintaining a cumulative GPA of 3.0 or higher;
  - Completion of 90 hours towards the B.S. degree in Physics (including PHYS 7460 and
PHYS 7850);
- Submission of passing scores on the GACE Program Admission Assessment or demonstrate an exemption upon application to the program;
- Complete the Georgia Educator Ethics – Program Entry (350) Assessment;
- Submission of acceptable GRE scores;
- Acceptance into the Teacher Education track is contingent upon acceptance into the M.A.T. portion, completion of 24 hours in physics, and passing or exempting the GACE Program Admission Assessment;
- 2-3 letters of recommendation: (a) one academic or professional letter; (b) one letter from someone who can evaluate the applicant’s personal qualifications, experience, and background in light of potential to work successfully with adolescents; (c) one letter from a current work supervisor, if applicable.

Program Academic Regulations

The department may specify additional requirements.

The M.A.T. program is a carefully sequenced program. Students who do not follow the prescribed program sequence will be withdrawn from the program and may reapply to enter the next program cycle.

Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Exit requirements for this program are:

- Completion of all program coursework with a grade point average of no less than 3.00,
- Successful completion of the teaching internships with a grade of “B” or better, and
- Successful presentation of a professional portfolio.

Students in this program will be prepared to teach in broad field science or in one of the science specialties of biology, chemistry, earth/space science and physics in grades 6-12. The student’s advisory committee will approve the student’s planned program of study for either the broad field science preparation or preparation in one of the specialties of biology, chemistry, earth/space science and physics after a transcript analysis of previous work and consultation with the student.

Students in this program will be eligible to be recommended for Georgia initial certification after earning passing scores on the GACE Program Admission Assessment, GACE Content Assessments, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA, and successfully completing:

- All content courses recommended for the students by MSE and Arts and Sciences faculty upon the students’ admission to the program;
- Students must complete EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3) or its equivalent to be eligible for recommendation for certification in addition to the program of study requirements;
- EPY 7080 The Psychology of Learning and Learners (3)
• EDCI 6600 Introduction to Secondary Teaching (3); EDCI 4650 Opening School Experience; EDCI 7660 Practicum I (3); EDCI 7670 Practicum II (3); EDCI 7680 Practicum III (3); EDSC 6550 Principles of Science Instruction (3)
• Successful presentation of a professional portfolio.

Program total: minimum of 36 semester hours
The Master of Arts in Teaching in Social Studies Education provides initial teacher preparation for individuals holding bachelor’s degrees in history or one or more of the social sciences.

Program Admission

All applicants must meet the College of Education and Human Development’s requirements for admission to graduate study. Admission to the program occurs twice each year. Additional admission requirements specific to this program include:

- An undergraduate or graduate degree in history or in one or more of the social sciences from a regionally accredited college or university. A minimum of a major (24 upper-division semester hours) in history or a social science must be part of prior coursework.
- Two letters of recommendation as follows: (a) one academic or professional letter, (b) one letter from someone who can evaluate the applicant’s personal qualifications, experience, and background in light of potential to work successfully with adolescents, or (c) one letter from a current work supervisor (if applicable)
- Documentation of previous work experience (resume).

Undergraduate students in the Bachelor of Arts with a major in Economics and Bachelor of Science with a major in Economics can apply to the M.A.T. in Social Studies Education if they meet the following requirements.

- Students must participate in pre-advising sessions with Social Studies Education faculty in the Department of Middle and Secondary Education.
- Students may apply to the program at any time after completing 30 hours but prior to completing 90 hours of undergraduate coursework.
  - Students must have earned a minimum cumulative GPA of 3.3.
  - Complete the B.A. or B.S./M.A.T. application form. This will be kept on file in the Department of Economics.
  - Documentation of previous work experience (resume or curriculum vitae).
  - Personal statement of goals and/or reasons for teaching.
  - 2-3 letters of recommendation: (a) one academic or professional letter; (b) one letter from someone who can evaluate the applicant’s personal qualifications, experience, and background in light of potential to work successfully with adolescents; (c) one letter from a current work supervisor, if applicable.
- Formal acceptance into the M.A.T. portion of the program will be contingent upon the following:
  - Completion of 75-90 hours towards the B.A. or B.S. degree in Economics.
- Completion of 24 hours in Economics courses.
- Filing an application to the M.A.T. program by the appropriate deadline.
- Maintaining a cumulative GPA of 3.0 or higher.
- Submission of passing scores on the GACE Program Admission Assessment or demonstrate an exemption upon application to the program.
- Completion of Georgia Educator Ethics – Program Entry (350) Assessment.
- Submission of acceptable GRE scores.

Students in the Dual program between Economics and Social Studies Education will be allowed to enroll in graduate level coursework in both departments and have the 12 hours count toward both degrees.

Program Academic Regulations

The department may specify additional requirements.

The M.A.T. program is a carefully sequenced program. Students who do not follow the prescribed program sequence will be withdrawn from the program and may reapply to enter the next program cycle.

Upon admission to a teacher education program, students will be contacted by the College’s Office of Academic Assistance office with instructions to claim enrollment in their program and submit a GaPSC Pre-Service Certificate Application. The pre-service certificate is required for placement in required field experiences or clinical practice.

Exit requirements for this program are:

- Completion of all program coursework with a grade point average of no less than 3.00,
- Successful completion of the teaching internships with a grade of “B” or higher, and
- Successful presentation of a professional portfolio.

Students in this program will be eligible to be recommended for Georgia initial certification after earning passing scores on the GACE Program Admission Assessment, and GACE Assessments in Economics, Geography, History, and/or Political Science for licensure in the Social Studies content area(s), Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA, and successfully completing:

- All content courses recommended for the students by MSE and Arts and Sciences faculty upon the students’ admission to the program;
- Students must complete EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3) or its equivalent to be eligible for recommendation for certification in addition to the program of study requirements;
- EPY 7080 The Psychology of Learning and Learners (3) and
- Successful presentation of a professional portfolio.

Program Degree Requirements
Master of Arts in Teaching in Social Studies Education

**Professional Studies (9)**
Select one (3):
EPRS 7900 Methods of Research in Education (3)
EPRS 7910 Action Research (3)

Select one (3):
EPSF 7100 Critical Pedagogy (3)
EPSF 7110 Multicultural Education (3)
EPSF 7120 Social and Cultural Foundations of Education (3)

Required (3):
EPY 7080 The Psychology of Learning and Learners (3)

**Teaching Field/Major (27)**
Required (9):
EDCI 6600 Introduction to Secondary Teaching (3)
EDSS 6560 Principles of Social Studies Instruction (3)
EDSS 7540 Theory and Pedagogy of Social Studies Instruction (3)

**Elective in Teaching Field/Major (6)**
Select Two Courses:
EDCI 7980 Teaching and Learning in Urban Contexts (3)
EDSS 7560 Teaching History and the Social Sciences (3)
EDSS 7570 Social Studies Concepts and Issues (3)
LT 7360 Integrating Technology in School-Based Learning Environments (3)
TSLE 7260 Cultural Issues for the Bilingual/English as a Second Language Teacher (3)
Other education electives may be selected with consent of the advisor.

**Select Advanced Studies in Social Studies (12)**
The students select at least 12 semester hours of 6000-level and above coursework related to history and the social sciences in consultation with their advisory committee. Because students will be certified in single fields of social studies, additional undergraduate or graduate coursework may be required for the students to demonstrate competence in these four areas: economics, geography, history, and political science. The advisement committee will approve the students’ planned program of study after a transcript analysis of previous work and consultation with the students.

**Internship (9)**
Required (9):
EDCI 4650 Opening School Experience (0)
EDCI 7660 Practicum I (3)
EDCI 7670 Practicum II (3)
EDCI 7680 Practicum III (3)

Program total: minimum of 45 semester hours
4210 Collaborative Program (M.A.T.)

Georgia Institute of Technology-Georgia State University B.S./M.A.T. Option

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

Undergraduate students in a Bachelor of Science (B.S.) program at the Georgia Institute of Technology can apply to Master of Arts in Teaching (M.A.T.) program at Georgia State University in the Department of Middle and Secondary Education if they meet the following requirements.

- Students must participate in pre-advising sessions with faculty in their academic department and the Director of Pre-Teaching at Georgia Tech.
- Students must have completed at least 30 hours of academic credit at Georgia Tech.
- Students must have earned a minimum cumulative GPA of 3.5.
- Students may apply to the option at any time after completing 30 hours but prior to completing 90 hours of undergraduate coursework.
- Applicants are applying for early acceptance into a M.A.T. program and therefore must submit the following documentation in addition to meeting the GPA requirement.
  - Complete the B.S./M.A.T. application form. This will be kept on file in both the student’s academic major department and in the office of the Director of Pre-Teaching at Georgia Tech.
  - 2-3 letters of recommendation: (a) one academic or professional letter; (b) one letter from someone who can evaluate the applicant’s personal qualifications, experience, and background in light of potential to work successfully with adolescents; (c) one letter from a current work supervisor, if applicable.
  - Documentation of previous work experience (resume or curriculum vitae).
  - Personal statement of goals and/or reasons for teaching.
  - Successful interview with the faculty in the Department of Middle and Secondary.
- Formal acceptance into the M.A.T. portion of the program will be contingent upon the following:
  - Maintaining a cumulative GPA of 3.0 or higher at Georgia Tech;
  - Completion of an undergraduate degree in a field appropriate for the MAT program;
  - Submission of passing scores on the GACE Program Admission Assessment or demonstrate an exemption upon application to the program;
  - Complete the Georgia Educator Ethics – Program Entry (350) Assessment;
  - Submission of acceptable GRE scores; and
  - Filing an application to the M.A.T. program by the appropriate deadline.
This initial certification program for the major in Early Childhood Education prepares teachers of young children (Pre-K through 5th grade) to teach in an urban environment. The program is designed for people who already hold a baccalaureate or higher degree and want to teach in an urban elementary school.

Program Admission and Program Regulations

In addition to the College of Education and Human Development graduate degree admission requirements, applicants for this program must have earned a minimum of 2.75 undergraduate grade-point average calculated on all work attempted. The department requires applicants to submit GRE scores taken within the last 5 years. Students must present passing scores on the GACE Program Admission Assessment or demonstrate an exemption upon application to the program and complete the Georgia Educator Ethics – Program Entry (350) Assessment. Completion of this assessment is required for admission, though there is no “Pass/Fail” grade assigned. Applicants must also participate in oral and written interviews conducted by faculty and school-based personnel. The Department of Early Childhood and Elementary Education reserves the right to specify additional criteria for applicants.

Pre-Service Certificate: All students who are accepted into a teacher education program and will be completing a field placement must complete the requirements to obtain a Pre-Service Certificate through the Georgia Professional Standards Commission which includes a criminal background check and the ethics module. To apply for the Pre-Service certificate, go to the GSU certification page and complete the GaPSC form and submit all required materials to the GSU certification officer in the College of Education and Human Development Office of Academic Assistance and Graduate Admissions on the 3rd floor of the COE building, Suite 300.

Course work is offered in a fixed sequence beginning Summer (May) session of each academic year and runs for six consecutive terms. Successful completion of Phase I of the program (45 prerequisite semester hours) and a passing score on GACE Content Assessments in Early Childhood Education, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA leads to a recommendation for initial certification.

Applicants have the option of completing an English to Speakers of Other Languages (ESOL) Endorsement simultaneously.

Applicants who are recommended to and successfully complete Phase II of the program (30 semester hours) will earn a Master of Education degree (M.Ed.).
During Phase II, each applicant is required to be employed as a full-time teacher in an urban classroom and participate in a mentoring experience. The applicant may not complete Phase II course work prior to recommendation to the program. No prerequisite course work may be counted toward fulfillment of the M.Ed. Admission to the program occurs once each year. For application and supporting materials, please contact the Department of Early Childhood and Elementary Education at 404/413-8020.

Phase I: Prerequisites

Summer Semester (17)

- ECE 6360 Culturally Responsive Pedagogy (6)
- ECE 6370 Classroom Management and Instruction (3)
- ECE 6380 Foundation of Literacy Instruction for Young Children (3)
- ECE 6390 Foundations of Learning and Teaching Mathematics (2)
- EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities (3)

Fall Semester (12)

- ECE 6385 Teaching Literacy to Culturally and Linguistically Diverse Learners I (3)
- ECE 6391 Teaching Mathematics, Pre-Kindergarten to Grade Five – I (3)
- ECE 6395 Child Growth and Development in Urban Education (3)
- ECE 6655 Student Teaching I (3)
- ECE 4650 Opening School Experience (0)

Spring Semester (16)

- ECE 6375 Responsive Practice for Urban Education (3)
- ECE 6386 Teaching Literacy to Culturally and Linguistically Diverse Learners II (2)
- ECE 6387 ESOL: Language Acquisition (3)
- ECE 6392 Teaching Mathematics, Pre-Kindergarten to Grade Five – II (2)
- ECE 6405 Science and Social Studies in the Urban Classroom (3)
- ECE 6656 Student Teaching II (3)

Optional ESOL Endorsement: If students would like to complete the ESOL Endorsement, they must complete ECE 6657 ESOL Student Teaching (2) [Available in fall and spring semesters].

Total prerequisite hours: minimum of 45 semester hours

Exit Requirements:

- Completion of all required course work with a 3.00 cumulative grade point average
- Successful completion of Student Teaching I and Student Teaching II with grades of “B” or higher
- Students must post passing scores on the GACE Content Assessment, Georgia Educator Ethics – Program Exit (360) Assessment, and edTPA
in order to be recommended by Georgia State University for clear, renewable certification.

Phase II: Program Degree Requirements

Master of Education in Early Childhood Education UACM

Professional Studies (9)

- EPY 7090 The Psychology of Learning and Learners: The Young Child (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)
- EPRS 7920 Classroom Testing, Grading, and Assessment (3)

Teaching Field/Internship (18)

- ECE 6415 Curriculum and Assessment for Urban Education I (3)
- ECE 6416 Curriculum and Assessment for Urban Education II (3)
- ECE 6660 Mentorship in the Urban Classroom I (3)
- ECE 6661 Mentorship in the Urban Classroom II (3)
- ECE 6830 Critical Theories and Research in Urban Education I (3)
- ECE 6831 Critical Theories and Research in Urban Education II (3)

Capstone Experience (3)

- ECE 6800 Urban Education Capstone Seminar (3)

Program total: minimum of 30 semester hours

Exit Requirements

- Completion of all required course work with a 3.00 cumulative grade point average
- Successful completion of Mentorship in the Urban Classroom I and II (ECE 6660 and ECE 6661) with a grade of “B” or higher
- Successful completion of the capstone experience.
The M.Ed. major in Educational Leadership prepares leaders in the field of educational administration. Specifically, the program is for persons who are beginners in the field and who seek to fill leadership positions at the building level. The program is developed around a set of academic and field experiences that provide basic knowledge and skills for school leadership positions. Completion of the master’s degree program meets the course requirements for the L-5 certification in the State of Georgia.

Program Degree Requirements

Master of Education in Educational Leadership

Professional Studies (9)

Select one (3):

- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)

Select one (3):

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)
- EPRS 7920 Classroom Testing, Grading, and Assessment (3)

Select one (3):

- EPY 7080 The Psychology of Learning and Learners (3)
- EPY 7090 The Psychology of Learning and Learners: The Young Child (3)

Major (24)

The students in a cohort group take the following seven courses in sequence during three consecutive academic terms.

Required (18):

- EPEL 7000 Educational Leadership and Organizational Culture (3)
EPEL 7020 Leadership in a Diverse Society (3)
EPEL 7330 Law, Policy, and Governance (3)
EPEL 7410 Instructional Leadership (3)
EPEL 7500 Management and School Operations (3)
EPSF 7450 Curriculum Foundations for the Educational Leader (3)

Required (6):

- EPEL 7680a Practicum Seminar: Data Analysis and School Improvement Processes for School Leaders (3)
- EPEL 7680b Practicum Seminar: Action Research for School Leaders (3)

Elective (3)

- With adviser approval, the students select one additional EPEL course.

Comprehensive Examination Requirement
Each student must complete and successfully defend a master's project. Contact the department for more information regarding this project.

Program total: minimum of 36 semester hours
4250 Elementary Education (M.Ed.)

Master of Education (M.Ed.) in Elementary Education

Department of Early Childhood and Elementary Education
550 College of Education Building, 404/413-8020
http://ece.education.gsu.edu/
Barbara Meyers, Chair

The M.Ed. in Elementary Education is a graduate degree designed for teachers who wish to pursue advanced preparation in a specific content area at the elementary level (reading, reading recovery, mathematics, science, or Teacher Support and Coaching Endorsement). Successful completion of the program leads to a master’s degree (T-5) and qualifies the candidate for an endorsement in the area of the content concentration. Through an integrated approach that provides choices and opportunities for decision making and dynamic group interactions, teachers participating in one of the master’s program become partners with faculty in shaping the path or paths by which content is learned.

Program Academic Regulations

The Master of Education (M.Ed.) program in Elementary Education is based on the assumption that learning is a constructive process that builds on the knowledge and experience of the learner. The teacher functions as a collaborator with parents and children to focus on strategies for enhancing effective child learning. Therefore, all ECE coursework and instruction will incorporate reflective practice, collaboration, theories of child development, strategies for managing classrooms and affirming diversity. Through advanced study in a specific content area, teachers will become knowledgeable of current research and methods for teaching the content and establishing learner-centered classrooms consistent with the appropriate national and state standards.

Teachers who apply for the program choose one area of content concentration: Elementary Literacy, Elementary Literacy in Reading Recovery, Elementary Mathematics Education, Elementary Science Education, or Teacher Support and Coaching Endorsement (TSC). Upon meeting the College of Education and Human Development admissions requirements, students are eligible to pursue either of these courses of study.

All applicants must meet minimum college admission criteria and have obtained teaching certification (Georgia T-4 clear and renewable in Early Childhood Education or equivalent).

- Program begins each semester
- 36 semester hours
- 15 credit hours of coursework in one content concentration: Elementary Literacy, Elementary Literacy in Reading Recovery, Elementary Mathematics Education, Elementary Science Education, or Teacher Support and Coaching Endorsement (TSC).
- Candidates for the Mathematics and Science Endorsements must have one year of teaching before starting the endorsement coursework.
- Commit to three semesters of continuous study with a cohort (9 total credit hours)
- For non-endorsement courses candidate must be currently teaching or working in an early
childhood/elementary setting or available to complete teaching assignments in an early childhood/elementary setting.

- IP grading may be assigned for some courses.
- Interviews may be required.

In addition to the college-wide graduation requirement of an overall 3.00 grade point average (calculated on all graduate work attempted), the Department of Early Childhood and Elementary Education requires that the students maintain satisfactory progress as he or she pursues the program of study. Any student who faculty believes is not making satisfactory progress toward fulfillment of degree requirements may be removed from the program.

Students must file a formal application for graduation with the Graduation Office, Office of the Registrar, at least two academic terms in advance of the expected date of graduation to establish eligibility for graduation with the M.Ed. in Elementary Education.

Program Degree Requirements

Master of Education in Elementary Education

Professional Studies (9)
Select One Course (3):

- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)

Select One Course (3):

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)

Select One Course (3):

- EPY 7080 The Psychology of Learning and Learners (3)
- EPY 7090 The Psychology of Learning and Learners: The Young Child (3)

Elementary Education Core (9)
Required (9):
Students must enroll in the ECE Core Courses (ECE 7390, ECE 7400, ECE 7410) as part of a cohort beginning in the fall semester of a year and complete over fall/spring/summer in consecutive semesters. Order of the courses may vary.

- ECE 7390 Curriculum in the Early Childhood Classroom I (3)
- ECE 7400 Curriculum in the Early Childhood Classroom II (3)
- ECE 7410 Critical Issues in Early Childhood Education I (3)
Concentration (15): Select ONE Concentration

**Elementary Literacy Concentration (15)**

Required (6):

- EDRD 7630 Literacy in the Content Area (3)*
- ECE 7740 Internship in Early Childhood Education Classroom I (3)

Students must enroll in ECE 7740 concurrent with one of the following courses: EDRD 7630, EDRD 6600, EDRD 7600, EDRD 7550, or EDRD 7650.

Select One Course (3):*

- EDRD 6600 Introduction to Materials and Methods in Reading Instruction (3)
- EDRD 7600 Theory and Pedagogy in the Study of Literacy (3)

Select One Course (3):*

- EDRD 7550 Literacy Assessment and Curriculum Development (3)
- EDRD 7650 Individualized Literacy Assessment and Instruction (3)

Select One Course (3):

- ECE 7280 or EDLA 7280 Early Writing Development (3)
- ECE 7580 or EDLA 7580 Language Foundations of Literacy Learning: From Acquiring Oral Language to Reading Words (3)
- EDRD 7260 Early Literacy Development and Instruction (3)
- Other courses as approved by the concentration advisor.

*Successful completion of EDRD 7630 and EDRD 6600 or EDRD 7600 and EDRD 7550 or EDRD 7650 and the Reading Endorsement portfolio qualifies an individual for the reading endorsement at the level of the base certificate.

**Elementary Literacy Concentration in Reading Recovery (15)**

- This concentration includes a fixed sequence of required courses (ECE 7360, ECE 7370, ECE 7380) with enrollment fall through spring term.
- Successful completion of ECE 7360, ECE 7370, and ECE 7380 qualifies the individual for the Reading Endorsement at the level of the base certificate.
- Prior to enrolling in the required Reading Recovery courses the student must submit a school district or consortia site application or the school of employment must be an approved Reading Recovery site.
- The student must complete the Observation Survey Institute in the summer semester prior to enrolling in the required course sequence.

Required (9):
- ECE 7360 Reading Recovery Clinical For Teachers I (3)
- ECE 7370 Reading Recovery Clinical for Teachers II (3)
- ECE 7380 Reading Recovery Clinical for Teachers III (3)

Select Two Courses (6):
- ECE 7280 or EDLA 7280 Early Writing Development (3)
- ECE 7580 or EDLA 7580 Language Foundations of Literacy Learning: From Acquiring Oral Language to Reading Words (3)
- EDRD 7260 Early Literacy Development and Instruction (3)
- ECE 8400 Teacher Development (3) [Students must have completed ECE 7390, ECE 7400, ECE 7410, and 6 hours in the content concentration before enrolling in this course.
- ECE 8680 Internship in Teacher Support (3) (prerequisite is ECE 8400)
- Other courses as approved by the concentration advisor.

**Elementary Mathematics Education Concentration (15)**

Candidates must have one year of teaching experience to be eligible to enroll in the mathematics concentration courses for the K-5 Mathematics Endorsement.

Required (15):
- ECE 7393 Numbers and Operations in the Elementary Classroom (3)
- ECE 7394 Geometry and Measurement in the Elementary Classroom (3)
- ECE 7395 Rational Numbers and Algebra in the Elementary Classroom (3)
- ECE 7396 Data Analysis and Probability in the Elementary Classroom (3)
- ECE 7740 Internship in Early Childhood Classroom I (3) (Students must enroll in ECE 7740 concurrent with one of the following courses: ECE 7393, ECE 7394, ECE 7395, or ECE 7396.)

Successful completion of ECE 7393, ECE 7394, ECE 7395, ECE 7396, and ECE 7740 qualifies an individual for the K-5 Mathematics Endorsement.

**Elementary Science Education Concentration (15)**

Candidates must have one year of teaching experience to be eligible to enroll in the science concentration courses for the K-5 Science Endorsement.

Required (12):
- ECE 8420 Essentials of Elementary Science (3)
- ECE 8430 Mastery of Elementary Science (3)
- ECE 8440 Leadership in Elementary Science (3)
- ECE 7740 Internship in Early Childhood Classroom I (3) (Students must enroll in ECE 7740 concurrent with one of the following courses: ECE 8420, ECE 8430, or ECE 8440.)

Successful completion of ECE 8420, ECE 8430, ECE 8440, and ECE 7740 qualifies an individual for the K-5 Science Endorsement.
Select One Course (3):

- ECE 7396 Data Analysis and Probability in the Elementary Classroom (3)
- Other courses as approved by the concentration advisor.

**Teacher Support and Coaching Endorsement (TSC) Concentration (15)**
Candidates must have three years of teaching experience to be eligible to enroll in the 6 hours of Teacher Support and Coaching Endorsement courses. Successful completion of the endorsement courses (ECE 8400 and ECE 8680) qualify an individual for the stand alone TSC Endorsement.

Required (6):

- ECE 8400 Teacher Development (3)
- ECE 8680 Internship in Teacher Support (3)

Additional concentration courses – select any three courses (9):

- ECE 7393 Numbers and Operations in the Elementary Classroom (3)
- ECE 7394 Geometry and Measurement in the Elementary Classroom (3)
- ECE 7395 Rational Numbers and Algebra in the Elementary Classroom (3)
- ECE 7396 Data Analysis and Probability in the Elementary Classroom (3)
- ECE 8420 Essentials of Elementary Science (3)
- ECE 8430 Mastery of Elementary Science (3)
- ECE 8440 Leadership in Elementary Science (3)
- ECE 7280 or EDLA 7280 Early Writing Development (3)
- ECE 7580 or EDLA 7580 Language Foundations of Literacy Learning: From Acquiring Oral Language to Reading Words (3)

**Capstone (3)**

Required (3):

- ECE 7800 Capstone Experience (3)

The Capstone course is completed during the final semester in which the student plans to graduate and with the approval of the concentration advisor.

Program total: minimum of 36 semester hours
Master of Education (M.Ed.) in Health and Physical Education

Department of Kinesiology and Health
137 Sports Arena, 404/413-8050
http://kh.education.gsu.edu/
Mark Geil, Chair

This M.Ed. major in Health and Physical Education is designed for P-12 health and physical educators who wish to extend their content and pedagogical knowledge for improved professional practice. The program features an integration of health, physical education, and adapted physical education content where it is appropriate and includes a combination of coursework, field experiences, and school-based inquiry. Students can choose to emphasize in health, physical education, or adapted physical education within the program.

Program Admission

Teachers must hold or be eligible for a teacher license to apply for the program. Additionally students will need to submit the following:

- GRE scores within the past 5 years;
- Transcripts (2.5 undergraduate GPA or higher);
- Two letters of recommendation; and
- Statement of professional goals.

Program Academic Regulations

Non-coursework requirements for T-5 certification includes Tort Liability Coverage; first aid and CPR proficiency (including infant, child, adult) or completion of KH 3390.

Program Degree Requirements

Master of Education in Health and Physical Education

Professional Studies (9)
Required (9):

- EPRS 7900 Methods of Research in Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)
- EPY 7080 The Psychology of Learning and Learners (3)

Teaching Field Content (21)
Required (15):

- KH 7400 Leadership and Advocacy in Health, Physical Education, and Adaptive Physical
Education (3)
- KH 7420 Curriculum Development for Health, Physical Education, and Adaptive Physical Education (3)
- KH 7855 Instructional Assessment and Program Evaluation in Health, Physical Education, and Adaptive Physical Education (3)
- KH 8350 Supervision in Instructional Settings (3)
- KH 8420 Comprehensive School Physical Activity Programs (3)

Select two courses (6) with advisor’s consent from the list below or any other courses with adviser’s approval:

- KH 7250 Teaching Models for Health and Physical Education (3)
- KH 7390 Technology in the Service of Learning in Health, Physical Education, and Adaptive Physical Education (3)
- KH 7790 Current Issues in School Health and Physical Education (3)
- KH 8410 Classroom Management Theory and Strategy in Health, Physical Education, and Adaptive Physical Education (3)
- KH 8685 Grant Writing and Fundraising in Health, Physical Education, and Adaptive Physical Education (3)

Inquiry for Practice (6)
Required (6):

- KH 7850 Introduction to Action Based Research for Health, Physical Education, and Adaptive Physical Education (3)
- KH 7870 Action Research Project Health and Physical Education, and Adaptive Physical Education (3)

Program total: minimum of 36 semester hours
4270 Mathematics Education (M.Ed.)

Master of Education (M.Ed.) in Mathematics Education

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

The mission of the Master of Education (M.Ed.) degree with a major in Mathematics Education is to prepare educators (i.e., teachers and other professional school personnel) who are: 1) informed by research, knowledge, and reflective practice; 2) empowered to serve as change agents; 3) committed to and respectful of all learners; and 4) engaged with learners, their families, schools, and local and global communities. The M.Ed. Mathematics Education program ensures that candidates gain increased mathematics knowledge and pedagogical knowledge, demonstrate success in bringing middle and high school students from diverse backgrounds to high levels of learning, and use technology skillfully as a tool for teaching and learning mathematics.

The program’s chief goal—to strengthen secondary students’ mathematical understandings— is achieved, in part, by providing mathematics teachers with opportunities to deepen their understandings of learners from diverse backgrounds and to explore issues of equity in mathematics classrooms within urban environments. The program prepares teachers to conduct action research in the context of their own classrooms in order to inform instruction, and to share the knowledge gained in a professional community of teachers. Through engaging teachers in advanced mathematics coursework, the program strengthens teachers’ mathematical content knowledge. In general, the Program of Study is framed by the principles and standards of the National Council of Teachers of Mathematics and the core propositions of the National Board for Professional Teaching Standards.

Program Degree Requirements

Master of Education in Mathematics Education

Professional Studies (9)
Select one (3):

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)

Select one (3):

- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)

Required (3):
- EPY 7080 The Psychology of Learning and Learners (3)

**Teaching Field/Major (27)**

**Required (9):**

- EDMT 8430 Sociocultural and Sociohistorical Issues of Mathematics Education (3)
- EDMT 8820 Ethnomathematics and the Historical Development of Mathematics (3)
- LT 7360 Integrating Technology in School-Based Learning Environments (3)

**Choose One Course (3)**

- EDMT 7360 Integration of Technology in Mathematics Instruction (3)
- EDMT 7560 Theory and Pedagogy of Mathematics Instruction (3)
- EDMT 8290 Study of Learning and Instruction in Mathematics (3)
- EDMT 8420 Topics in School Mathematics Curriculum (3)
- EDMT 8550 Trends and Issues of Teaching Mathematics (3)

**Required 15 hours with MATH prefix**

With the consent of their adviser, students select coursework numbered 6000 or higher related to mathematics. The coursework should lead to the development of an understanding of the history, philosophy, conceptual underpinnings, and applications of mathematics.

**Program total: minimum of 36 semester hours**
The online program in M.Ed. major in Mathematics Education is offered through the Georgia ONmyLINE (GOML) system. GOML provides access to a full array of online and distance education offerings from the 31 colleges and universities in the University System of Georgia. To find out more about GOML and to apply, please go to http://education.gsu.edu/online-education/.

The M.Ed. major in Mathematics Education Online Program is a parallel program to the traditional Master of Education Mathematics that has been offered at Georgia State University as a major since Fall 1982. This entirely online program is designed to be completed in four semesters. The M.Ed. major in Mathematics Education seeks to advance early and mid-career mathematics teachers’ ability to effectively implement standards-based instructional practices. The program’s chief goal – to strengthen secondary students’ mathematical understandings – is achieved, in part, by providing mathematics teachers with opportunities to deepen their understandings of learners from diverse backgrounds and to explore issues of equity in mathematics classrooms. The program prepares teachers to conduct action research in the context of their own classrooms in order to inform instruction, and to share the knowledge gained in a professional community of teachers. Through engaging teachers in advanced mathematics coursework, the program strengthens teachers’ mathematical content knowledge. In general the program of study is framed by the Extended Georgia Framework for Teaching, the principles and standards of the National Council of Teachers of Mathematics and the core propositions of the National Board for Professional Teaching Standards.

The online program is 36 hours (9 hours of college core courses; 9 hours mathematics education, 15 hours Mathematics, 3 hours of teachers and technology).

The M.Ed. online program will be available to teachers holding a clear and renewable T4 certificate in Math.

Program Degree Requirements

Master of Education in Mathematics Education Online Program

Professional Studies (9)
Required (9):

- EPRS 7900 Methods of Research in Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)
- EPY 7080 The Psychology of Learning and Learners (3)
Teaching Field/Major (27)
Required (12):

- EDMT 7360 Integration of Technology in Mathematics Instruction (3)
- EDMT 7560 Theory and Pedagogy of Mathematics Instruction (3) Take with EPRS 7900
- EDMT 8420 Topics in School Mathematics Curriculum (3)
- EDMT 8430 Sociocultural and Sociohistorical Issues of Mathematics Education (3)

Select 5 courses (15 hours):

- MATH 6301 College Geometry (3)
- MATH 6435 Linear Algebra (3)
- MATH 6547 Introduction to Mathematical Statistics (3)
- MATH 7420 Applied Combinatorics (3)
- MATH 7610 Special Problems and Problem Solving (3)
- MATH 7820 Historical and Cultural Development of Mathematics I (3)
- MATH 7821 Historical and Cultural Development of Mathematics II (3)
- With the consent of their adviser, students can select other coursework with the MATH prefix numbered 6000 or higher related to mathematics. The coursework should lead to the development of an understanding of the history, philosophy, conceptual underpinnings, and applications of mathematics.

Program total: minimum of 36 semester hours
4310 Reading, Language, and Literacy Education (M.Ed.) Online

Master of Education (M.Ed.) in Reading, Language, and Literacy Education Online Program

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

The online program in M.Ed. major in Reading, Language, and Literacy Education (ESOL) is offered through the Georgia ONmyLINE (GOML) system. GOML provides access to a full array of online and distance education offerings from the 31 colleges and universities in the University System of Georgia. To find out more about GOML and to apply, please go to http://education.gsu.edu/online-education/.

The M.Ed. major in Reading, Language, and Literacy Education (ESOL) Online Program provides advanced teacher preparation in ESOL for individuals holding bachelor’s degree and who have an interest in English to speakers of other languages in P-12 settings. This program addresses the needs of teachers who work with literacy learners from diverse cultures and is open to all certified teachers, regardless of their initial preparation area. The course of study has been designed to meet the Georgia Professional Standards System requirements for an ESOL Endorsement (P-12) and the requirements for a Reading Endorsement (at the level of the candidate’s base certificate).

The M.Ed. program is 36 hours (9 hours of college core courses; 9 hours English as a Second Language; 9 hours reading endorsement; a choice of 6 out of 9 offered hours of applied linguistics, and 3 hours of practicum). Candidates are required to take TSLE 7440 prior to enrolling in practicum hours and EDRD 7600 or EDRD 7630 prior to enrolling in EDRD 7650. M.Ed. students could enroll in any semester and complete the course work within 4 semesters if they averaged 3 courses per semester. This degree addresses the professional standards from IRA for classroom teachers of reading and from TESOL for teachers of ELL learners.

Program Admission

Entry into the program for the major in reading, language, and literacy education requires a bachelor's-level certification in any area of teaching or a service certificate in speech-language pathology.

Program Degree Requirements

Master of Education in Reading, Language, and Literacy Education Online Program

Professional Studies (9)
Required (9):

- EPRS 7900 Methods of Research (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)
- EPY 7080 The Psychology of Learning and Learners (3)
Teaching Field/Major (27)
Required (21):

- EDCI 7660 Practicum I (3)
- EDRD 7600 Theory and Pedagogy in the Study of Literacy (3)
- EDRD 7630 Literacy in the Content Areas (3)
- EDRD 7650 Individualized Literacy Assessment and Instruction (3)
- TSLE 7250 Applied Linguistics for the Bilingual/English as a Second Language Teacher (3)
- TSLE 7260 Cultural Issues for the Bilingual/English as a Second Language Teacher (3)
- TSLE 7440 Methods and Materials for the Bilingual/English as a Second Language Teacher (3)

Select two courses (6):

- AL 8240 General Linguistics (3)
- AL 8460 English Grammar for ESL/EFL Teachers (3)
- AL 8470 Socio Linguistics (3)
- EDRD 7550 Literacy Assessment and Curriculum Development (3)*
- EDRD 8610 Professional Learning and Leadership of Literacy (3)*

*NOTE: Successful completion of EDRD 7550 and EDRD 8610 (see * above) and a passing score on the Reading Specialist GACE test will lead to certification as a Reading Specialist in the state of Georgia.

Students must complete a portfolio as an exit requirement.

Program total: minimum of 36 semester hours
4320 School Counseling (M.Ed.)

Master of Education (M.Ed.) in School Counseling

Department of Counseling and Psychological Services
950 College of Education Building, 404/413-8010
http://cps.education.gsu.edu/
Dr. Brian Dew, Chair

The M.Ed. major in School Counseling prepares students for State Certification in Georgia. Degree requirements may exceed the minimum number of hours for professional certification. The Master of Education program in School Counseling is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) and the National Council for Accreditation of Teacher Education. Students who complete the program are prepared to take the GACE (Georgia Assessments for the Certification of Educators) subject tests in school counseling as well as the NCC (National Certified Counselor) exam.

Program Objectives

- Students will develop skills to enable them to provide individual counseling services, group counseling experiences, and developmentally appropriate classroom guidance lessons for children and adolescents that are consistent with the ASCA National Model for School Counseling Programs.
- Students will develop skills to enable them to understand children and adolescents from a holistic, developmental approach, grounded in theory that leads to appropriate strategies to enhance the adjustment and learning of all students.
- Students will develop skills to enable them to use data to develop a comprehensive, developmentally appropriate guidance program and to evaluate the program’s effectiveness.
- Students will develop skills to enable them to understand child and adolescent academic, career, and personal/social needs in the context of a socioculturally diverse school environment.
- Students will develop skills to enable them to provide a career guidance program that is developmentally appropriate.
- Students will develop skills to enable them to provide collaborative consultation services to teachers, parents, administrators, other school professionals and community resources.
- Students will develop skills that will enable them to provide appropriate counseling and consultation services for special needs students, their families and teachers.
- Students will develop leadership skills to enable them to advocate for students, parents, and others especially with regard to closing achievement gaps between diverse groups.
- Students will develop skills that will enable them to work within the framework of ethical guidelines of the American Counseling Association and the American School Counselors Association.
- Students will learn their legal responsibilities as school counselors.
- Students will develop skills that will enable them to work within the framework of an existing school guidance program and work in collaboration with other counseling and educational professionals to enhance learning for all students.
- Students will develop skills that will enable them to use technology in appropriate ways with students, parent, teachers, and other school staff.
Students will use current school counseling research to develop, monitor, and evaluate effective counseling programs.

Students in this program are expected to follow the latest version of the American Counseling Association (ACA) Code of Ethics, and the most recent version of the American School Counselor Association (ASCA) Ethical Standards for School Counselors.

Program Academic Regulations

A minimum of 60 semester hours of graduate coursework must be completed with a minimum cumulative grade point average of 3.00. Degree objectives may require more than the minimum number of hours to meet certain professional standards.

M.Ed. School Counseling curriculum is designed in a cohort format. This requires students take prescribed classes in certain semesters, sharing the educational experience with students who have the same educational needs. If a student must deviate from the cohort schedule there is the possibility the courses may not be available in semesters other than those in which they are scheduled. In addition, students entering the cohort must commit to doing their Practicum/Internship in a Professional Development School.

Delivery systems used for instructions include: lecture, group work, required readings, presentations using advanced technology, simulated activities, and applied practice followed by individual and group supervision in some courses.

During the first term of enrollment, all school counseling students must complete CPS 6020 (Introduction to Elementary and Middle School Counseling) or CPS 6030 (Introduction to Secondary School Counseling) with a grade of “B” or higher. A grade lower than “B” requires repetition of the course. During the academic term in which CPS 6020 or CPS 6030 is first taken, other courses may be taken concurrently. However, when repetition of CPS 6020 or CPS 6030 is necessary, no other CPS coursework may be taken concurrently or prior to successful completion of CPS 6020 or CPS 6030. Students will be allowed to retake CPS 6020 or CPS 6030 for this reason only once. All school counseling students must pass the GACE Content Assessments in school counseling to graduate from the Master of Education program in School Counseling.

For elementary-middle school counseling students to be eligible to begin the applied practice (CPS 7661), the following courses must be successfully completed or taken concurrently with CPS 7661: CPS 6020, CPS 6150, CPS 6410, CPS 6450, CPS 7260, CPS 7300, CPS 7340, CPS 7500 or EPY 7500. Additionally, the following courses must be successfully completed before students are eligible to take internship (CPS 7681): CPS 8260, CPS 8380, CPS 8400 and CPS 8470. CPS 7550 and CPS 8431 or CPS 8600 must be taken concurrently with the internship sequence (CPS 7681). Students are approved to begin the applied practice based upon the number of hours and courses they have completed in their programs.

For secondary school counseling students to be eligible to begin the applied practice CPS 7661, the following courses must be successfully completed or taken concurrently with CPS 7661: CPS 6030, CPS 6150, CPS 6410, CPS 6450, CPS 7260, CPS 7300, CPS 7340, CPS 7500 or EPY 7500. Additionally, the following courses must be successfully completed before students are eligible to take internship (CPS 7681): CPS 8260, CPS 8380, CPS 8470 and one of the following: CPS 8400 or CPS 8460. CPS 7550 and
CPS 8431 or CPS 8600 must be taken concurrently with the internship sequence (CPS 7681). Students are approved to begin the applied practice based upon the number of hours and courses they have completed in their programs.

The School Counseling applied practice (CPS 7661) must be taken the spring of the first year of the School Counseling program and the internship sequence (CPS 7681) must be taken in fall and spring semesters of the second year of the School Counseling program. Students cannot register for CPS 7661 and CPS 7681 without being admitted into the School Counseling program.

School counseling students must attend one applied practice/internship orientation workshop before turning in the applied practice application, and becoming eligible to register for CPS 7661 and CPS 7681. The applied practice internship workshops are held in the student’s first fall semester – dates are posted online at the midpoint of the first fall semester. If students do not attend this workshop, they cannot participate in CPS 7661 in the upcoming spring and CPS 7681 in the upcoming fall and spring.

Evaluation of a student’s performance is continuous and involves consideration of the student’s academic performance as well as the student’s performance in laboratory, applied practice, and internship classes. A student may be dropped from a course, the program, or both if the welfare of the student’s clientele or prospective clientele or the functioning of a school or agency is, in the judgment of the CPS faculty, in jeopardy as a result of the student’s behavior.

School counseling students who do not already have initial certification in the State of Georgia must successfully complete EXC 4020 Characteristics and Instructional Strategies for Students with Disabilities and the appropriate GACE Content Assessment before Georgia State University will recommend them for graduation and/or certification in School Counseling.

Departmental Endorsement Policy

The Department of Counseling and Psychological Services requires that program faculty endorsement be given only for the program for which graduate students have been prepared.

Program Degree Requirements

Master of Education in School Counseling

Professional Studies (9)
Required (9):

- CPS 8260 Program Evaluation, Advocacy, and Leadership in School Counseling (3)
- EPRS 7900 Methods of Research in Education (3)
- CPS 7340 Social/Cultural Issues in Counseling and Psychological Services (3)

Teaching Field/Major (33)
Required (33):

- CPS 6150 Ethical and Legal Standards in Counseling and Psychological Services (3)
- CPS 6410 Basic Counseling Skills (3)
- CPS 6450 Group Counseling Systems (3)
- CPS 7260 Counseling Systems and Interventions (3)
- CPS 7300 Career Theory, Assessment, and Intervention (3)
- CPS 7450 Educational and Psychological Appraisal (3)
- CPS 7500/EPY 7500 Individual and Family Over the Life Span (3)
- CPS 7550 Consultation in School Counseling (3)
- CPS 8380 Family Systems and Interventions (3)
- CPS 8431 Counseling Skills and Strategies for School-Aged Children (3) or CPS 8600 Advanced Play Therapy (3)
- CPS 8470 Crisis Intervention (3)

Select one of the following two options (9):

**Elementary-Middle Grades School Counseling (9)**

Required (6):

- CPS 6020 Introduction and Professional Orientation to Elementary and Middle School Counseling (3)
- CPS 8400 Introduction to Play Therapy (3)

Elective (3)

Choose One Course (3)

- CPS 8100 Psychobehavioral Diagnosis (3)
- CPS 8300 Traumatology (3)
- CPS 8540 Child/Adolescent Psychopathology (3)
- CPS 8600 Advanced Play Therapy (3)
- EPEL 7000 Educational Leadership and Organizational Culture (3)
- EPEL 7410 Instructional Leadership (3)
- EPRS 7910 Action Research (3)

**Secondary School Counseling (9)**

Required (3):

- CPS 6030 Introduction and Professional Orientation to Secondary School Counseling (3)

Select One Course (3):

- CPS 8400 Introduction to Play Therapy (3)
- CPS 8460 Biopsychosocial Aspects of Addiction (3)

Elective (3)

Choose One Course (3)

- CPS 8100 Psychobehavioral Diagnosis (3)
- CPS 8300 Traumatology (3)
• CPS 8540 Child/Adolescent Psychopathology (3)
• CPS 8600 Advanced Play Therapy (3)
• EPEL 7000 Educational Leadership and Organizational Culture (3)
• EPEL 7410 Instructional Leadership (3)
• EPRS 7910 Action Research (3)

Applied Practice (9)
Required (3):

• CPS 7661 Applied Practice I: School Counseling (3)

Required (6):

• CPS 7681 Internship: School Counseling (6)

Program total: minimum of 60 semester hours
Master of Education (M.Ed.) in School Psychology

Department of Counseling and Psychological Services
950 College of Education Building, 404/413-8010
http://cps.education.gsu.edu/
Brian Dew, Chair

The professional in school psychology is educated in the major disciplines of education and psychology. He or she is equipped to undertake and manage processes and problems related to the education and development of children within schools. A major portion of his or her training concerns the interaction of the child with the social institution of the school. Because of this special orientation, the school psychologist must be well grounded in the philosophy and methods of education and must achieve a high level of understanding of the psychological processes such as learning, personality, and social competence.

Program Objectives

The school psychologist is an applied psychologist who brings skills, instrumentation, and techniques to bear on learning and behavioral problems in the school setting. He or she must be prepared to:

- Intervene constructively when acute and chronic behavior problems occur.
- Consult effectively with change agents in the child’s life (i.e., parents, administrators, teachers).
- Participate in the assessment of individual learning problems.
- Participate in education program planning and management.
- Provide information to promote effective use of the resources of agencies outside the school setting.
- Design and carry out action and situational research requiring knowledge of the school and of the learner in interaction in such a setting.

Program Academic Regulations

The M.Ed. major in School Psychology requires a minimum of 36 semester hours with a minimum cumulative grade-point average of 3.00.

This program is an integrated component of the combined Master’s/Ed.S. program in School Psychology and is taken concurrently with the Ed.S. program. This program does not lead to certification in the state of Georgia. The Master of Education degree in School Psychology is prerequisite to the Specialist in Education (Ed.S.) degree with a major in School Psychology.

The master’s degree is ideally completed in four consecutive academic terms, commencing fall term. There are two major training thrusts in the School Psychology program. The training first provides a knowledge base about schools, instructional methods, research methods, learning, and developmental issues. Secondly, application skills are developed in the area of cognitive and achievement assessment as well as interviewing. Skills in both teacher and parent consultation are developed.

The M.Ed./Ed.S. School Psychology program is not designed for part-time students. Each semester
students are expected to enroll in 12-14 semester credits. Students may distribute their coursework to a maximum of four years rather than the usual three. However, they must maintain continuous enrollment of at least 9 credits per semester during this period (i.e., full time enrollment). The usual period of study in the M.Ed./Ed.S School Psychology program including internship, is three years. Some coursework can be completed during the summers. Under highly unusual circumstances (e.g., medical emergencies) the program faculty will consider requests to extend completion of the program beyond 4 years. Under unusual circumstances, students can apply for a one year leave of absence from the program. Should a student drop out of the program prior to completion, reapplication for admission is necessary. There is no guarantee the student will be readmitted to the program. If a student deviates from a normal schedule, then there is the possibility that the course may not be available in semesters other than those which they are scheduled.

All school psychology students must complete CPS 6040, CPS 7490, CPS 7495, CPS 7510, CPS 7515, CPS 7520, CPS 7570, CPS 8440, and CPS 8570 with grades of “B” or higher. A grade lower than “B” requires repetition of the course. Students cannot repeat a course more than once. Unless otherwise indicated, students may not register for any other CPS course until they have completed CPS 6040 with a grade of “B” or higher. For School Psychology students to be eligible to register for the CPS 7662 Applied Practice I, they must have completed the following courses: CPS 6040, CPS 6150, CPS 6410, CPS 7490, CPS 7495, CPS 7510, CPS 7515, CPS 7520, and CPS 8440.

All master’s students must meet a comprehensive exam requirement to graduate from the School Psychology program. All school psychology students must pass the Praxis II Assessment in school psychology and their test scores must be reported to Georgia State University prior to graduation.

Students seeking certification from the State of Georgia Professional Standards Commission are required to pass the GACE Program Admission Assessment Assessment (or provide an exemption) and GACE Content Assessment in School Psychology.

Evaluation of a student’s performance is continuous and involves consideration of the student’s academic performance as well as the student’s performance in laboratory, applied practice, and internship classes. A student may be dropped from a course, the program, or both if the welfare of the student’s clientele or prospective clientele or the functioning of a school or agency is, in the judgment of the CPS faculty, in jeopardy as a result of the student’s behavior. Students in this program are expected to follow the latest version of the National Association of School Psychologists (NASP) Principles for Professional Ethics.

Departmental Endorsement Policy

The Department of Counseling and Psychological Services requires that program faculty endorsement be given only for the program for which the graduate students have been prepared.

Program Degree Requirements

Master of Education in School Psychology

Professional Studies (9)
Required (6):
- EPRS 7900 Methods of Research in Education (3)
- Any 7000-level or above EPY course in Learning Theory (3)

Select One (3):

- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)

Major (27)

Required (27):

- CPS 6040 Introduction to School Psychological Services (3)
- CPS 6410 Basic Counseling Skills (3)
- CPS 7490 Individual Assessment I (3)
- CPS 7495 Individual Assessment I: Lab (2)
- CPS 7510 Individual Assessment II (3)
- CPS 7515 Individual Assessment II: Lab (2)
- CPS 7520 Data-Based Decision Making for Academic Interventions in School Psychology (2)
- CPS 7570 Psychological Consultation in the Schools I (3)
- CPS 7662 Applied Practice I: School Psychology (3)
- CPS 8440 Social/Emotional Assessment of Children and Adolescents (3)

Program total: minimum of 36 semester hours
The online program in M.Ed. major in Science Education is offered through the Georgia ONmyLINE (GOML) system. GOML provides access to a full array of online and distance education offerings from the 31 colleges and universities in the University System of Georgia. To find out more about GOML and to apply, please go to http://education.gsu.edu/online-education/.

The M.Ed. major in Science Education Online Program is designed for teachers who already hold a clear, renewable certificate in science at the secondary level. This program will provide students an opportunity to expand their knowledge of science content which will aid them in implementing a standards based curriculum. If teachers become proficient in their implementation of a standards based curriculum then ultimately student performance will improve as well as their knowledge of science. In addition to strengthening their knowledge base, the M.Ed. Science Education (GOML) will enhance the teaching dispositions of the participants which will provide them opportunities to deepen their understandings of learners from diverse backgrounds and to explore issues of equity in the science classroom. A need exists for science teachers to expand their knowledge of research; therefore, program participants will be expected to engage in action research in the context of their own classrooms in order to inform instruction, and to share the knowledge gained in a professional community of teachers. The ultimate goal of the program is to engage teachers in advanced courses that will strengthen their scientific content and broaden their pedagogical practices. In general the Program of Study is framed by the principles and standards of the Next Generation Science Standards and the core propositions of the National Board for Professional Teaching Standards.

Program Degree Requirements

Master of Education in Science Education Online Program

Professional Studies (9)
Required (9):

- EPRS 7900 Methods of Research in Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)
- EPY 7080 The Psychology of Learning and Learners (3)

Teaching Field/Major (27)
Required (12):

- EDSC 7550 Theory and Pedagogy in Science Instruction (3)
- EDSC 8400 Strategies of Instruction in Science (3)
- EDSC 8550 Trends and Issues in Teaching Science (3)
- EDSC 8600 Science in the School Curriculum (3)

Required (15 hours):

- BIOL 7440 Fundamentals of Evolution (3)
- EDSC 8430 Nature of Science (3)
- GEOS 6097 Topics in Geological Sciences (3)
- PHYS 7110 Conceptual Physics I (3)
- PHYS 7120 Conceptual Physics II (3)
- With the consent of their advisor, students select from among 6000 – 8000 level courses with prefixes ASTR, BIOL, GEOL, GEOG, PHIL, PHYS, or NSCI, related to science in terms of its history, philosophy, conceptual underpinnings, applications and relationships to the secondary curriculum.

Students must complete a portfolio as an exit requirement.

Program total: minimum of 36 semester hours
4350 Social Studies Education (M.Ed.)

Master of Education (M.Ed.) in Social Studies Education

Department of Middle and Secondary Education
600 College of Education Building, 404/413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

The M.Ed. major in Social Studies Education provides learning experiences for teachers who have been initially prepared in secondary social studies education.

Program Degree Requirements

Master of Education in Social Studies Education

Professional Studies (9)
Select one (3):
- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)

Select one (3):
- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)

- EDSS 8420 Topics in the School Social Studies Curriculum (3)
- TSLE 7260 Cultural Issues for the Bilingual/English as a Second Language Teacher (3)
- Other education courses may be substituted with consent of his or her advisor.

Select Advanced Studies in Social Studies (15)
With consent of their adviser, students select coursework numbered 6000 or higher in the following areas: anthropology, economics, geography, history, political science, psychology, and sociology.
Program total: minimum of 36 semester hours
**4370 Communication Sciences and Disorders (M.S.)**

**Master of Science (M.S.) in Communication Sciences and Disorders**

Department of Educational Psychology, Special Education, and Communication Disorders  
835 College of Education Building, 404/413-8040  
http://esc.education.gsu.edu/  
Laura Fredrick, Chair

The Master of Science (M.S.) degree with a major in Communication Sciences and Disorders prepares speech-language pathologists to work with individuals of all ages who have communication disorders. The Council on Academic Accreditation in Audiology and Speech-Language Pathology accredits the program. It is designed to lead to the Professional Standards Commission licensure at the master’s level, licensure by the Georgia Board of Examiners for Speech-Language Pathology and Audiology, and certification in speech-language pathology by the Council for Clinical Certification of the American Speech-Language-Hearing Association (ASHA).

**Program Admission**

Students entering this program must hold a baccalaureate degree in communication disorders or baccalaureate degree in another area and have completed coursework in each of the areas listed below:

- Anatomy and Physiology for Communication  
- Augmentative Communication  
- Audiologic Rehabilitation  
- Behavioral or Social Science  
- Biological Science  
- Exceptional Children and Youth  
- Hearing Science and Disorders  
- Introduction to Communication Disorders  
- Introduction to Language Development  
- Introduction to Language Disorders  
- Statistics  
- Phonetics  
- Physical Science (Chemistry or Physics)  
- Sign Language

Students who have not completed study in each of the areas listed above may still gain admission to the program; however, they will be required to complete this coursework as part of the program of study. Such coursework will not substitute for program courses and will not count toward the master's degree minimum semester hour requirement.

**Program Academic Regulations**

Upon enrollment in the Communication Sciences and Disorders program students must complete all required courses at Georgia State University. Requests for exceptions to this policy must have prior
approval of the Communication Sciences and Disorders faculty.

Students must earn a grade of “B” or higher in all courses in the teaching field/major (B). If students earn a grade below “B” in a course, that course must be repeated. Students will be allowed to repeat a course one time. Students who fail to earn a grade of “B” or higher after taking the course a second time will be scholastically excluded from this major. If students earn a grade below “B” in a practicum experience or earns a grade below “B” in more than one course, the Communication Sciences and Disorders faculty will review the students’ progress in the program to determine if the students will be allowed to continue the program of study.

In addition to the successful completion of academic coursework and a comprehensive portfolio, the students must also accumulate 400 clock hours of supervised clinical experience during practicum experiences to be eligible for graduation. Of the 400 clock hours, no less than 375 must be earned at the graduate level. The distribution of clock hours must comply with the current requirements as contained in the Communication Sciences and Disorders program Student Handbook.

Students who have successfully completed all master’s-degree program requirements as well as the additional coursework requirements described above will be recommended for professional certification. This recommendation is made only at the conclusion of all master’s degree requirements. Students seeking licensure from the State of Georgia must also achieve a passing score on the Praxis II (ASHA) exam for speech pathology before being recommended by Georgia State University. [Georgia will continue to accept results of the Speech and Language Pathology PRAXIS II test administered by ETS with test code 0330 and passing score 600.]

Evaluation of the student’s performance is continuous and involves consideration of the student’s performance in all academic settings. Inappropriate or unprofessional conduct by a student may result in the student being dropped from a course or a program. If such removal from a course is necessary, the student will receive the grade of “F” and may be judged ineligible to re-enroll in the course.

Program Degree Requirements

Master of Science in Communication Sciences and Disorders

Students must earn a grade of “B” or higher in all courses. If students earn a grade below “B” in a course, that course must be repeated. Students will be allowed to repeat a course one time. Students who fail to earn a grade of “B” or higher after taking the course a second time will be scholastically excluded from this major. If students earn a grade below “B” in a practicum experience or earns a grade below “B” in more than one course, the Communication Sciences and Disorders faculty will review the students’ progress in the program to determine if the students will be allowed to continue the program of study.

Required Courses (63):

- CSD 7450 Language Disorders in Young Children (3)
- CSD 7455 Language Disorders in School Age Children (3)
- CSD 7510 Neuroscience for Communication (3)
- CSD 7520 Speech Sound Disorders (3)
• CSD 7530 Voice Science and Disorders (3)
• CSD 7540 Fluency Disorders (3)
• CSD 7550 Acquired Aphasia (3)
• CSD 7560 Diagnostic Methods of Speech and Language Disorders (3)
• CSD 7570 Advanced Audiological Assessment (3)
• CSD 7590 Contemporary Issues in Communication Disorders (2)
• CSD 7600 Swallowing and Swallowing Disorders (3)
• CSD 7610 Motor Speech Disorders (3)
• CSD 7630 Fundamentals of Clinical Practice (2)
• CSD 7840 Research Methods in Communication Disorders (3)
• CSD 7910 Clinical Practicum in Communication Disorders (8)
• CSD 7950 Communication Disorders Medical Internship (6)
• CSD 7951 Communication Disorders School Internship (6)
• CSD 8330 Acquired Neurocognitive Communication Disorders (3)

Program total: minimum of 63 semester hours
4380 Educational Psychology (M.S.)

Master of Science (M.S.) in Educational Psychology

Department of Educational Psychology, Special Education, and Communication Disorders
835 College of Education Building, 404/413-8040
http://esc.education.gsu.edu/
Laura Fredrick, Chair

Program Theme: Informed, Empowered, Committed, and Engaged Educators

Study in educational psychology involves the application of the principles of psychology to the systematic study of education. A major in educational psychology allows students to emphasize such content areas as learning, instruction, life-span development, applied behavior analysis, cognition, and socialization. The Educational Psychology program prepares students to pursue a variety of career paths, including research, evaluation, and the applied practice of a number of disciplines. Those students who are currently certified or licensed in such fields as teaching, nursing, speech pathology, and physical therapy can further develop their expertise in these fields by studying the psychological principles of development and learning.

Advisory Committee

A committee of three faculty members guides study for the M.S. major in Educational Psychology. After completing nine semester hours of work, the students must select two faculty members to be on their advisory committee. These two faculty members must approve the students’ planned program of study. A third faculty member must be added before the students begin working on their thesis, project, or examination. Two of the three committee members (including the chair) must be from the Educational Psychology faculty.

Program Academic Regulations

Students in Educational Psychology fulfill the college’s Comprehensive Examination requirement by completing (1) a thesis, (2) project, or (3) a master’s examination.

1. The master’s thesis is either a basic or applied research project conducted by the students under the supervision of the chair of his or her advisory committee.
2. The project generally consists of a comprehensive review of literature on a selected topic. A written prospectus describing in detail the proposed thesis or project must be submitted to and approved by all three members of the students’ advisory committee before the work is begun.
3. The master’s examination consists of a 4 hour in-house written examination on a question or questions to be determined by the student in collaboration with the committee.

On completion of the thesis, project, or master’s examination, each student must complete an oral examination of approximately two hours. The students’ advisory committee will administer the oral examination, and it will focus on the thesis, project, or examination.

Evaluation of a student’s performance is continuous and involves consideration of the student’s
performance in all academic settings. Only courses in which the student earns a grade of “B” or higher will be counted toward degree fulfillment. Failure to make progress in a timely manner or inappropriate or unprofessional conduct by a student may result in the student’s withdrawal from a course or a program. If such removal from a course is necessary, the student will receive the grade of “F” for the course and may be judged ineligible to re-enroll in the course.

Program Degree Requirements

Master of Science in Educational Psychology

Professional Studies (15)

Educational Research (6)
Required (3):

- EPRS 7900 Methods of Research in Education (3)
- Select one (3): One additional EPRS course (3)

Social Foundations of Education (3)
Required (3):

- One course with the EPSF prefix (3)

Educational Psychology (6)

For students completing a thesis:
Required (6):

- EPY 7990 Master’s Capstone (6)

For students completing a project:
Required (3):

- EPY 7990 Master’s Capstone (3)
- Select one (3): One course with the EPY prefix (3)

For students completing the Master’s examination:
Required (3):

- EPY 7990 Master’s Capstone (3)
- Select one (3): One course with the EPY prefix (3)

Major (15)
The students select a minimum of 15 semester hours of coursework in a field of Educational Psychology. At least 12 hours must be courses with the EPY prefix. One of these courses must be EPY 8961 Professional Development Seminar in Educational Psychology (3). With the consent of the advisor, an additional three
hours can be a course with a Non-EPY prefix.

**Electives (6)**
The students select six semester hours of program-related coursework with consent of their adviser. The purpose of the elective hours is to enable students to create a program of study to fit their individual intellectual interests.

**Program total: minimum of 36 semester hours**
4390 Educational Research (M.S.)

Master of Science (M.S.) in Educational Research

Department of Educational Policy Studies
450 College of Education Building, 404/413-8030
http://eps.education.gsu.edu/
William Curlette, Chair

Educational research involves the study of quantitative and qualitative research methods as they are applied to the systematic study of education. A major in educational research allows students to have a concentration in statistics, measurement, program evaluation, survey research, computer applications, qualitative research, institutional research, or policy research. This degree prepares graduates to conduct research in the schools and in other settings.

Program Academic Regulations

To complete the degree requirements, students must fulfill the 9-credit master’s core requirement, 18 credit hours of credit for the Educational Research major, including a master’s project or master’s thesis, and three elective courses (9 credits). A committee of three faculty members guides study for the M.S. major in Educational Research. The adviser (committee chair) and one committee member should be from the students’ major area. All members of the committee should hold doctorates.

Program Degree Requirements

Master of Science in Educational Research

Professional Studies (9)
Select one (3):

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)
- EPRS 7920 Classroom Testing, Grading, and Assessment (3)

Select one (3):

- EPY 7080 The Psychology of Learning and Learners (3)
- EPY 7090 The Psychology of Learning and Learners: The Young Child (3)

Major (18)
Select courses (18): The students and their advisory committee select 18 semester hours of coursework in a concentration area. These courses are usually selected from EPRS course offerings; however, courses in other departments may be appropriate to include as part of the students’ program. If the students desire to write a master’s thesis and the advisory committee approves, the students must enroll in EPS 7990 for 6 semester hours as partial fulfillment of the 18 semester hour major requirement. If the students do not intend to write a master’s thesis, then they must enroll in EPS 7991 for 3 semester hours as partial fulfillment of the 18 semester hour major requirement.

Electives (9)
Select three (9): With the consent of their advisory committee, the students select 9 semester hours of electives. These electives must support either the concentration or understanding of the context in which educational research occurs.

Program total: minimum of 36 semester hours
The Master of Science (M.S.) in Educational Research Georgia ONmyLINE (GOML) program involves the study of quantitative and qualitative research methods as they are applied to the systematic study of education. A major in educational research allows students to take coursework in statistics, measurement, program evaluation, survey research, computer applications, qualitative research, institutional research, or policy research. This degree prepares graduates to conduct research in the schools and in other settings.

Program Academic Regulations

A program coordinator will serve as a point of contact to all students enrolling in the online program track. Students will be assigned academic advisors from the current faculty members in the Educational Research unit. The program coordinator will hold an online orientation each semester that will serve to introduce all programmatic requirements. Using GoView (Desire 2 Learn) as the official delivery system for the online classes to provide real-time voice communication between students and the program coordinator, this orientation will provide new students with an overview of the program, a projected schedule of course offerings, and an in-depth introduction to the master's project requirements.

Program Degree Requirements

Master of Science in Educational Research Online Program

Professional Studies (9)

Required (9):

- EPRS 7900 Methods of Research in Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)
- EPY 7080 The Psychology of Learning and Learners (3)

Major (27)

Required (3):

- EPS 7991 Master's Project (3)

Choose 24 Hours of Courses:

- EPRS 7910 Action Research (3)
- EPRS 7920 Classroom Testing, Grading and Assessment (3)
- EPRS 8530 Quantitative Methods and Analysis in Education I (3)
- EPRS 8540 Quantitative Methods and Analysis in Education II (3)
- EPRS 8550 Quantitative Methods and Analysis in Education III (3)
- EPRS 8600 Computer Use in Educational Research (3)
- EPRS 8620 Educational Evaluation (3)
- EPRS 8640 Case Study Methods (3)
- EPRS 8830 Survey Research, Sampling Principles, and Questionnaire Design (3)
- EPRS 8920 Educational Measurement (3)
- EPS 7810 Directed Readings or Research (1-3)

Program total: minimum of 36 semester hours
The Department of Educational Policy Studies and the Department of Counseling and Psychological Services offer a dual enrollment, master’s-level program leading to a Master of Science degree with majors in Educational Research and Mental Health Counseling. This program provides the Educational Research students a content area in which to apply the educational research methodology and provides the Mental Health Counseling students the capability to combine research and evaluation with counseling in their work setting. In general, this dual degree program provides the students with increased career opportunities both within academia and in the work setting.

Program Degree Requirements

Degree requirements are the same as those for each separate major. The one required course from the professional counseling major that may be counted toward the educational research major is EPRS 7900. Additionally, nine semester hours of electives in the Educational Research program may be courses used to complete professional studies or major requirements in the Mental Health Counseling program. Students are responsible for making sure they meet all prerequisites for courses taken in this program.
4420 Exercise Science (M.S.)

Master of Science (M.S.) in Exercise Science

Department of Kinesiology and Health
137 Sports Arena, 404/413-8050
http://kh.education.gsu.edu/
Mark Geil, Chair

The M.S. major in Exercise Science prepares students at the graduate level to enter fields of worksite health promotion or fitness, cardiac rehabilitation, or related clinical programs; or to perform research in exercise science. The program includes classroom, laboratory, research, and field experience in biomechanics, exercise physiology, and psychology of physical activity and related interdisciplinary coursework in areas such as public health, gerontology, and nutrition. The degree program provides advanced academic preparation for a successful career in the health and fitness field or for advancement to doctoral-level study.

Program Academic Regulations

Students holding undergraduate degrees in physical education, exercise science, or health-related fields (e.g., physical therapy, nutrition, respiratory therapy, nursing, or biology) or other departmentally approved degrees will be reviewed to determine if any undergraduate coursework must be completed prior to entry into the Exercise Science program. Minimum undergraduate coursework includes applied human musculoskeletal anatomy (KH 2220), human physiology (KH 2230), exercise physiology (KH 3650), biomechanics (KH 3600), and fitness assessment and exercise prescription (KH 4630). Students with deficiencies in these areas will be required to take remedial coursework upon entry into the program.

Culminating Experience

In consultation with their advisor, students in the Exercise Science program must successfully produce and defend a master's thesis, master's internship, or an approved capstone project. Students should contact the Department of Kinesiology and Health (404/413-8050) for additional information about these requirements.

Program Degree Requirements

Master of Science in Exercise Science

Professional Studies (3)
Select One Course or an approved equivalent (3):

- EPRS 7900 Methods of Research in Education (3)
- KH 8825 Research Design (3)

Required Major Courses (12):

- KH 6280 Psychology of Physical Activity (3)
Electives (15):
Select Five Courses (15): In consultation with their advisor, students will select coursework numbered 6000 or higher in a specific area of emphasis.

Culminating Experience (6)
Select One Course (6): In consultation with their advisor, students will select one of the following culminating experiences.

- KH 7750 Internship in Exercise Science (6)
- KH 7810 Directed Readings and Research (6)
- KH 7990 Master's Thesis (6)

Program total: minimum of 36 semester hours
4430 Instructional Design and Technology (M.S.)

Master of Science (M.S.) in Instructional Design and Technology

Learning Technologies Division
233-242, 2nd Floor, College of Education Building
http://ltd.education.gsu.edu/
Stephen Harmon, Chair

The M.S. major in Instructional Design and Technology is offered online and provides students with the basic knowledge, skills, and attitudes required to perform as instructional technologists. An instructional technologist is a professional educator who can combine knowledge of the learning process, knowledge of instructional systems theory, and knowledge of various forms of media and learning environments to create the most effective and efficient learning experiences. The program is designed for individuals interested in working in the field of instructional technology in a wide variety of education, training, and development areas such as those found in P-12 schools, business, and industry. To meet the individual needs and interests of the instructional technology students, the program provides a maximum amount of flexibility in course selection. In addition, ample opportunities are provided for applying the competencies learned in the classroom to job-related situations.

Program Admission

The applicant must aspire to or currently hold a position related to the application of instructional technology in an education or training environment. In addition, the applicant must possess basic computing technology skills.

Program Degree Requirements

Master of Science in Instructional Design and Technology

Professional Studies (9)
Select one (3):

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)
- EPRS 7920 Classroom Testing, Grading, and Assessment (3)

Select two (6):

- EPSF 8440 Foundations of Curriculum Development (3)
- EPY 7080 The Psychology of Learning and Learners (3)
- EPY 8070 Understanding and Facilitating Adult Learning (3)

Major (24)
Required (15):
• LT 7100 Design of Performance and Instructional Systems (3)
• LT 7150 Analysis of Performance and Instructional Systems (3)
• LT 8000 Foundations of Instructional Technology (3)
• LT 8150 Managing Instructional Technology Projects (3)
• LT 8200 Diffusion and Adoption of Technological innovation (3)

Select three (9):

• LT 7360 Integrating Technology in School-Based Learning Environments (3)
• LT 8050 Evaluation and Assessment of Online Learning (3)
• LT 8090 Internet for Educators (3)
• LT 8360 E-Learning Design and Development (3)
• LT 8390 Analysis of Education, Training, and Performance Support Centers (3)
• LT 8400 Developing Digital Multimedia for Learning (3)
• LT 8420 Topics in Instructional Technology (3)
• LT 8440 eLearning Environments (3)
• LT 8550 Human Performance Technology (3)
• Other courses may be selected with consent of advisor.

**Internship (3)**

Required (3):

• LT 8660 Internship in Instructional Technology (3)

Students must have completed at least 24 semester hours of program coursework before taking LT 8660.

Exit Requirement: Students must achieve a satisfactory score on a written departmental examination and successfully present a portfolio of their work in instructional technology.

**Program total: minimum of 36 semester hours**
The M.S. major in Mental Health Counseling is a noncertification program that prepares persons to function as counselors in mental health centers, governmental agencies, labor departments, employee assistance programs, community agencies, religious settings, and correctional agencies.

Program Objectives

The counselor employs skills, principles, and techniques to assist people to identify and resolve personal, social, career, intrapersonal, and interpersonal concerns.

The counselor is prepared to:

- work individually and with groups of clients on educational, vocational, social, emotional, or personal problems.
- counsel and consult with diverse populations
- consult with other professionals and administrators concerning the client’s development needs.
- participate in educational, social, and career assessment programs, including the interpretation of test results.
- provide information and understanding to clients in the areas of educational, social, and career planning.
- conduct and facilitate program evaluation and research efforts.
- practice according to the ethical codes of the American Counseling Association.
- use appropriate technology to assist clients with educational, social, and career planning.
- further their identity as a professional counselor through advocacy for the profession.

Program Academic Regulations

A minimum of 60 semester hours of graduate coursework must be completed with a minimum cumulative grade point average of 3.00. Degree objectives may require more than the minimum number of hours to meet certain professional standards. The M.S. in Mental Health Counseling program is not designed for part-time students. Students will distribute their required semester hours over a six or seven semester period. It is not feasible for students to work full time while adhering to this model program. Students who are working full or part time must plan to extend their programs over a period of time of more than eight semesters.

Usually, 12 credit hours of the students’ program consist of laboratory experiences. The remainder of the courses occurs in classroom settings. Delivery systems used for instruction include lecture, group work, required readings, presentations using advanced technology, simulated activities, and applied practice.
followed by individual and group supervision in some courses.

The program culminates in an extensive supervised practicum and internship, consisting of two semesters of work in an agency setting for a minimum of 700 hours over the two semesters. It is not recommended that students attempt to work full time or take more than nine (9) credit hours in either of the semester of practicum or internship.

All mental health counseling students must complete CPS 6010 with a grade of “B” or higher. A grade lower than “B” requires repetition of the course. CPS 6010 is a prerequisite for most CPS courses. During the academic term in which CPS 6010 is first taken, other courses may be taken concurrently. However, when repetition of CPS 6010 is necessary, no other CPS coursework may be taken concurrently or prior to successful completion of CPS 6010.

Students must successfully complete the following courses to take the comprehensive exam: CPS 6010, CPS 6410, CPS 6450, CPS 7000, CPS 7260, CPS 7300, CPS 7340, CPS 7450, CPS 7500/EPY 7500, CPS 8100, CPS 8380, CPS 8430, CPS 8460, CPS 8470, and EPRS 7900. Contact the Department of Counseling and Psychological Services (404/413-8010) for information on the comprehensive examination schedule.

For mental health counseling students to be eligible to begin the applied practice (CPS 7660), the students must successfully complete the following courses: CPS 6010, CPS 6410, CPS 6450, CPS 7000, CPS 7260, CPS 7300, CPS 7340, CPS 7500/EPY 7500, CPS 8100, CPS 8380, and CPS 8460. Students may be required to take CPS 7450 prior to or concurrently with their fall semester of practicum (CPS 7660) and internship (CPS 7680), depending on course offering. Students are approved to begin applied practice based on the number of hours they have completed in their programs and based on space available in applied practice sections. The department may delay students’ beginning their applied practice for one or more academic terms.

Evaluation of a student’s performance is continuous and involves consideration of the student’s academic performance as well as the student’s performance in laboratory, applied practice, and internship classes. A student may be dropped from a course and/or the program if the welfare of the student’s clientele or prospective clientele or the functioning of a school or agency is, in the judgment of the CPS faculty, in jeopardy as a result of the student’s behavior. Students in this program are expected to follow the latest version of the American Counseling Association (ACA) Code of Ethics.

Departmental Endorsement Policy

The Department of Counseling and Psychological Services requires that program faculty endorsement be given only for the program for which the graduate students have been prepared.

Program Degree Requirements

Master of Science in Mental Health Counseling

Professional Studies (9)

Required (8):
- CPS 7340 Social/Cultural Issues in Counseling and Psychological Services (3)
- CPS 7500/EPY 7500 Individual and Family Over the Life Span (3)
- EPRS 7900 Methods of Research in Education (3)

Major (36)
Required (36):

- CPS 6010 Professional Identity and Ethics in Mental Health Counseling (3)
- CPS 6410 Basic Counseling Skills (3)
- CPS 6450 Group Counseling Systems (3)
- CPS 7000 Consultation, Advocacy, and Leadership in Mental Health Counseling (3)
- CPS 7260 Counseling Systems and Interventions (3)
- CPS 7300 Career Theory, Assessment, and Intervention (3)
- CPS 7450 Educational and Psychological Appraisal (3)
- CPS 8100 Psychobehavioral Diagnosis (3)
- CPS 8380 Family Systems and Interventions (3)
- CPS 8430 Advanced Counseling Skills (3)
- CPS 8460 Biopsychosocial Aspects of Addiction (3)
- CPS 8470 Crisis Intervention (3)

Applied Practice Sequence (12)
Required (12):

- CPS 7660 Applied Practice I: Mental Health Counseling (3)
- CPS 7680 Internship: Mental Health Counseling (9)

Elective (3)
A list of approved electives for Mental Health Counseling Master’s Degree students is available in each student’s handbook and in the department at the front desk (COE 950).

Program total: minimum of 60 semester hours
4450 Rehabilitation Counseling (M.S.)

Master of Science (M.S.) in Clinical Rehabilitation Counseling

Department of Counseling and Psychological Services
950 College of Education Building, 404/413-8010
http://cps.education.gsu.edu/
Brian Dew, Chair

The M.S. major in Clinical Rehabilitation Counseling prepares the students for employment in a variety of corporate and agency rehabilitation settings. The Council on Rehabilitation Education (CORE) accredits the Clinical Rehabilitation Counseling program. This program will seek the joint accreditation by the Council for Accreditation of Counseling and Related Educational Programs (CACREP). Students who complete the program are prepared to take the examination for certification as a Certified Rehabilitation Counselor, as well as National Certified Counselor exam.

Program Objectives

The rehabilitation counselor employs skills, instrumentation, and techniques to assist people to identify and resolve personal, social, vocational, intrapersonal, and interpersonal concerns.

The rehabilitation counselor is prepared to:

- work individually with clients on educational, vocational, social, emotional, or personal problems.
- consult with other professionals and administrators concerning the client’s development needs.
- participate in psychological assessment programs, including the interpretation of test results.
- provide information and understanding to clients in the areas of educational, social, or vocational planning.
- conduct and facilitate local research efforts.

Program Academic Regulations

A minimum of 60 semester hours of graduate coursework must be completed with a minimum cumulative grade point average of 3.00. Degree objectives may require more than the minimum number of hours to meet certain professional standards.

Usually, nine semester hours of the students’ program consist of laboratory experiences. The remainder of the courses occurs in classroom settings. The program culminates in an extensive supervised practicum and internship.

During their first term of enrollment, all clinical rehabilitation counseling students must complete CPS 6050 with a grade of “B” or higher. If the students do not complete CPS 6050 with a grade of “B” or higher, they may not register for any other CPS course until they have completed CPS 6050 with a grade of “B” or higher. Students will be allowed to retake CPS 6050 for this reason only once. CPS 6050 is offered only during fall term.
The following courses must be completed before the students may take their comprehensive examination: CPS 6010, CPS 6050, CPS 6410, CPS 6450, CPS 7260, CPS 7300, CPS 7340, CPS 7450, CPS 7500/EPY 7500, CPS 8100, CPS 8320 CPS 8410, CPS 8430, CPS 8460, CPS 8470 and EPRS 7900. Contact the Department of Counseling and Psychological Services (404/413-8010) for information on the comprehensive examination schedule.

For clinical rehabilitation counseling students to be eligible to begin the applied practice (CPS 7663), he or she must have successfully completed the following courses: CPS 6050, CPS 6410, CPS 6450, CPS 7260, CPS 7340, CPS 7450, CPS 7500/EPY 7500, CPS 8100, CPS 8320, CPS 8410, CPS 8430, and CPS 8470. Students must also attend a practicum internship workshop prior to starting internship. These workshop dates are announced on the CPS website during the first fall semester of the program. Students are approved to begin applied practice based on the number of hours and courses they have completed in their programs, and based on space available in applied practice sections. The department may delay students’ beginning their applied practice for one or more academic terms. Students must maintain a 3.00 cumulative GPA to participate in the practicum/internship sequence.

Evaluation of a student’s performance is continuous and involves consideration of the student’s academic performance as well as the student’s performance in laboratory, applied practice, and internship classes. A student may be dropped from a course and/or the program if the welfare of the student’s clientele or prospective clientele or the functioning of a school or agency is, in the judgment of the CPS faculty, in jeopardy as a result of the student’s behavior. Students in this program are expected to follow the latest version of the American Counseling Association (ACA) Code of Ethics, as well as the most recent version of The Commission on Rehabilitation Counselor Certification (CRCC) Code of Professional Ethics.

Departmental Endorsement Policy

The Department of Counseling and Psychological Services requires that program faculty endorsement be given only for the program for which the graduate students have been prepared.

Program Degree Requirements

Master of Science in Clinical Rehabilitation Counseling

Professional Studies (6)
Required (6):

- CPS 7340 Social/Cultural Issues in Counseling and Psychological Services (3)
- EPRS 7900 Methods of Research in Education (3)

Major (42)
Required (42):

- CPS 6010 Professional Identity and Ethics in Mental Health Counseling (3)

Required (9):

• CPS 7663 Applied Practice I: Rehabilitation Counseling (3)
• CPS 7683 Internship: Rehabilitation Counseling (6)

Elective (3)
A list of approved electives for the Clinical Rehabilitation Counseling Master’s degree is available in each student’s handbook and in the department at the front desk (COE 950).

Program total: minimum of 60 semester hours
Social foundations of education is a broadly conceived field of educational study that derives its character from a number of academic disciplines and interdisciplinary studies. At Georgia State University, the disciplines involved in social foundations inquiry are history, philosophy, sociology, anthropology, and political science; the interdisciplinary field is cultural studies. The purpose of social foundations study is to bring intellectual resources derived from these areas to bear in developing interpretive, normative, and critical perspectives on education, both inside of and outside of schools. Applicants to the Master of Science program with a major in social foundations of education must, in addition to standard admission requirements, (a) interview with program faculty, (b) submit a writing sample; and (c) submit three letters of recommendation, two of which should represent familiarity with the applicant's academic ability.

Advisory Committee

A master’s advising committee of three faculty members guides each student’s study for the M.S. degree in Social Foundations of Education in the Department of Educational Policy Studies. One member of the Social Foundations faculty should be selected as the chair of the committee. The students and the chair will select two other members for the committee, at least one of who must be a member of the Social Foundations faculty. The committee is responsible for planning the program of study and for directing master’s thesis research or master’s projects. During the last academic term of coursework, each student will be required to complete an oral examination. The candidate’s committee will administer the examination, which is not to exceed two hours.

Program Degree Requirements

Master of Science in Social Foundations of Education

Professional Studies (15)

Select one (3):

- EPRS 7900 Methods of Research in Education (3)
- EPRS 7910 Action Research (3)
- EPRS 7920 Classroom Testing, Grading, and Assessment (3)

Select one (3):

- EPSF 7100 Critical Pedagogy (3)

- EPSF 7120 Social and Cultural Foundations in Education (3)
Select one (3):

- EPY 7080 The Psychology of Learning and Learners (3)
- EPY 7090 The Psychology of Learning and Learners: The Young Child (3)

For students completing a master’s thesis (6)
Required (6):

- EPS 7990 Master’s Thesis (6)

For students completing a master’s project (6)
Required (6):

- EPS 7991 Master’s Project (3)
- Select one course with the EPSF prefix (3)

**Major (15)**

Taking a minimum of 15 semester hours of coursework from the social foundations offerings fulfills the major in social foundations of education. Majors may represent the disciplines of history, philosophy, sociology, anthropology, and political science and the interdisciplinary field of cultural studies. These courses are selected from the following list. Courses in other program areas in the Department of Educational Policy Studies or other courses in the college or university may also be appropriate to include as part of the major with approval from the students’ advisory committee.

Select five (15):

- EPSF 7100 Critical Pedagogy (3)
- EPSF 7110 Multicultural Education (3)
- EPSF 7120 Social and Cultural Foundations of Education (3)
- EPSF 7450 Curriculum Foundations for the Educational Leader (3)
- EPSF 8010 Cultural Studies in Education: Film (3)
- EPSF 8040 Cultural Studies in Education: Gender (3)
- EPSF 8260 Sociology of Inner-City Children (3)
- EPSF 8270 Philosophy of Education (3)
- EPSF 8280 Anthropology of Education (3)
- EPSF 8310 Sociology of Education (3)
- EPSF 8320 Politics and Policy in Education (3)
- EPSF 8330 Globalization and Education Policy (3)
- EPSF 8340 History of American Education (3)
- EPSF 8350 Comparative Educational Systems (3)
- EPSF 8440 Foundations of Curriculum Development (3)

**Electives (6)**
The elective requirement is fulfilled by taking a minimum of 6 semester hours chosen from graduate courses in other program areas, departments, and/or colleges in the university.
Program total: minimum of 36 semester hours
4470 Sport Administration (M.S.)

Master of Science (M.S.) in Sport Administration

Department of Kinesiology and Health
137 Sports Arena, 404-413-8050
http://kh.education.gsu.edu/
Mark Geil, Chair

The Master of Science in Sport Administration degree program seeks to prepare graduates with professional skills and knowledge for careers in the $300-plus billion dollar sports business industry through an exceptional program inspired by excellence, vision, scholarship, leadership, and entrepreneurship.

The sport industry segment includes careers in youth, amateur, community, professional, and international sport organizations, in addition to affiliated industries such as event management, media, facilities, merchandising, club management, entrepreneurial enterprising, sports travel and tourism, and athlete representation and management. Potential career paths can be found in such areas as management, marketing, law, finance, media, promotions, public relations, sports information, and coaching. The program is designed to meet the curriculum standards for the Commission on Sport Management (COSMA).

Regulations for the Degree:

1. Prerequisites: This program is specifically designed for students with an undergraduate degree in sport management and a background in the sport business industry. Incoming students without this background may be required to take prerequisite courses. For those students, you will complete any prerequisites required by the faculty advisor prior to your third semester of work in the program.

2. Research Requirement: All students will complete the university’s basic certification course for human subjects research. See the university’s research office website and your faculty advisor for details.

3. Internship/Thesis Requirement: Students have the option to complete the internship requirement or elect to pursue the thesis track. The internship is the cornerstone and culminating experience of the program in which the student will work in an approved sport business enterprise under professional supervision. The student is required to acquire the place for the internship in consultation with a faculty advisor. The internship cannot be taken until all other courses of the program have been completed unless as otherwise specified and permitted by a faculty advisor. Along with the internship requirement, the student will also be required to pass the Comprehensive Exam. The thesis track requires Master’s-level students in sports administration to conduct original research and complete a formal thesis. It must be started two semesters prior to graduating and is overseen by a faculty advisor. The thesis track does not require taking the Comprehensive Exam, but instead requires a formal proposal and defense of the research.

4. Course Requirements: The course requirements for the Master of Science degree in Sport Administration and the format of the program follow. Students should consult with a faculty advisor for any questions or concerns. The Course Descriptions section contains a listing and description of the courses. The Georgia State University Graduate Catalog which includes all regulations
concerning graduate programs can be found on the university’s web site.

5. Electives: Students may take courses of their choice in consultation with a faculty advisor from those listed here or from courses in other related such programs as business, management, marketing, hospitality, risk management, law, information technology, finance, education, international business, and research.

Program total: minimum of 36 semester hours
The M.S. major in Sports Medicine prepares students for career opportunities in the field of athletic training. The program includes coursework and laboratory experiences in the prevention, management, evaluation, and rehabilitation of athletic injuries. The purpose of this program is to provide qualified candidates with in-depth experiences beyond entry-level athletic training expectations. Additionally, all students must complete a minimum of 400 hours of clinical experience in an approved setting as part of the degree program requirements.

**Program Admission**

Candidates for this program must either be National Athletic Trainers Association (NATA) certified athletic trainers or be eligible for certification. Candidates may be eligible for certification upon graduation from a CAATE accredited undergraduate athletic training curriculum.

Additionally, a program applicant must provide three letters of recommendation, including one from the applicant’s supervising certified athletic trainer, resume, and cover letter. Applicants will also be required to participate in an on-campus interview with faculty.

**Program Degree Requirements**

*Master of Science in Sports Medicine*

**Professional Studies (10)**

Required (12):

- EPRS 7900 Methods of Research in Education (3) or KH 8825 Research Design (3)
- KH 7530 Applied Anatomy for Sports Medicine (4)
- KH 8780 Biomechanics of Sports Medicine (3)

**Major (26)**

Required (18):

- KH 7580 Concepts of Orthopedic Rehabilitation (3)
- KH 7660 Practicum in Athletic Training (4)
- KH 8265 Therapeutic Modalities in Orthopedic Rehabilitation (2)
- KH 8300 Orthopedic Basis of Injury (3)

- KH 8900 Evidence Based Practice in Sports Medicine (3)
For students completing a master's thesis (8)

- Required (5): KH 7990 Master's Thesis (5)
- Elective (3): Choose one course from elective list (3 hours)

For students completing a master's project (8)

- Required (2): KH 8820 Scientific Inquiry in Sports Medicine (2)
- Elective (6): Choose two courses from elective list (6 hours)

Elective Course List:

- BIOL 7240 Human Physiology (3)
- BIOL 7250 Human Physiology Laboratory (1)
- EPY 7080 The Psychology of Learning and Learners (3)
- KH 6560 Budgeting and Finance in Sports Recreation (3)
- KH 7200 Cultural Aspects of Sport (3)
- KH 7380 Planning and Management of Sports Facilities (3)
- KH 7500 Physiology of Exercise (3)
- KH 7610 Sport Law (3)
- KH 7780 Drug Use Intervention and Prevention (3)
- KH 8825 Research Design (3)
- RT 6005 Clinical Cardiopulmonary Physiology (3)
- SNHP 6000 Research for the Health Professions (3)
- Other courses may be selected with consent of adviser.

Program total: minimum of 36 semester hours
The Specialist in Education (Ed.S.) degree for Educator Preparation Programs is a terminal degree that advances educators in their instructional and leadership skills beyond the master’s level of competence. The purpose of this applied degree is to extend the academic preparation and teaching skills of experienced classroom teachers and instructional leaders and to foster the application of these skills and abilities to a variety of educational settings. Persons interested in a research degree and a career in higher education are encouraged to consider a doctoral degree offered by the College of Education and Human Development.

Educator preparation Ed.S. programs address the following objectives:

- To develop advanced theoretical and practical knowledge in the areas of human growth and development, foundations of education, curriculum development, classroom practice, and educational measurement.
- To develop and apply knowledge of theory and research in the areas of supervision and school organization to the development and assessment of staff in-service and supervision.
- To develop and apply knowledge of research methodology to the assessment of curriculum content and organization and classroom practice.

Specialist Residency

Specialist residency requires each Ed.S. student to maintain close and continuous involvement with faculty, professional colleagues, and other graduate students in the field. It also provides time for reading, reflection, and research appropriate for an advanced professional degree. Each department within the College of Education and Human Development provides a variety of experiences designed for its Ed.S. students who are fulfilling residency requirements.

Each department determines specific activities and experiences that are required in its Ed.S. programs. These may include specific coursework requirements as well as other professional activities. During his or her first term of enrollment, a student should discuss with his or her Ed.S. adviser the specialist residency requirements specific to their program.

A residency plan must be formulated and reported on the “Ed.S. Residency Form”. This form is available online at http://education.gsu.edu/student-services/forms-policies-regulations/. Each student and his or her adviser must plan activities to enable the students to fulfill the intent of the residency. The residency plan must be approved by the student’s adviser and department chair prior to the commencement of any residency activities. The department is responsible for verifying a student’s completion of specialist residency requirements and for notifying the Office of Academic Assistance and Graduate Admissions of such completion.

Minimum Requirements for All Specialist Degrees

- Only courses taken after admission to the Specialist in Education degree program may be used to fulfill program requirements for the Ed.S. degree.
- Students must earn a cumulative grade point average of 3.00 calculated on all graduate coursework attempted while admitted to the Ed.S. program. The formal coursework requirement is satisfied
through successful completion of each course in the program of study with a grade of “C” or higher.

- Coursework in which a grade below “C” is earned may not be applied to the specialist programs.
- Some departments require a grade of “B” or higher in specific courses and program areas. Students are responsible for contacting their departments regarding specific academic requirements that exceed college-wide minimums.
- Students must complete a minimum of 27 semester hours of program coursework at Georgia State University.
- Students seeking specialist-level teacher certification must have completed three years of appropriate school experience prior to completion of the Specialist in Education degree.
- No coursework may be more than six calendar years old at the time of graduation.

Comprehensive Examination

**Educational Leadership.** The skill development phase of the Ed.S. degree in Educational Leadership culminates with EPEL 8690, in which the students implement a project of their own design in the field. The project is developed, refined, and approved while the students are enrolled in the program. A final written report of the implemented project is required.

**School Counseling.** Successful completion of CPS 8661 Applied Practice II: School Counseling satisfies the Comprehensive Examination requirement for this program.

**School Psychology.** Successful completion of CPS 8680 Internship in School Psychology satisfies the Comprehensive Examination requirement for this program.
4500 Educational Leadership (Ed.S.)

Specialist in Education (Ed.S.) in Educational Leadership

Department of Educational Policy Studies
450 College of Education Building, 404/413-8030
http://eps.education.gsu.edu/
William Curlette, Chair

The Ed.S. degree in Educational Leadership is designed to build the capacity of practicing educators and administrators to be effective educational leaders. The program fulfills the requirements of the Performance-Based Educational Leadership certification for the State of Georgia. Applicants for the Ed.S. degree must be full time, practicing educators and be employed in a partnering school system. Because leadership certification is no longer a self-select program in the state of Georgia, applicants must receive written permission from their employers in order to participate. Applicants must hold a master’s degree or higher in any education field or in other Georgia Professional Standards Commission accepted non-education fields.

Program Academic Regulations

To graduate with an Ed.S. major in Educational Leadership, students must earn a “B” or higher in all courses in the Ed.S. degree program. If students earn a grade below a grade of “B” in a required course, the students with the advice and consent of his or her adviser may substitute another course for that requirement.

Program Degree Requirements

Specialist in Education in Educational Leadership

Professional Studies (6)
Select one (3):

- EPSF 8260 Sociology of Inner-City Children (3)
- EPSF 8270 Philosophy of Education (3)
- EPSF 8280 Anthropology of Education (3)
- EPSF 8310 Sociology of Education (3)
- EPSF 8320 Politics and Policy in Education (3)
- EPSF 8340 History of American Education (3)
- Other appropriate courses numbered 8000 to 8999 may be selected with the approval of your advisor.

Select one (3):

- EPY 8050 The Psychology of Instruction (3)
- EPY 8080 Memory and Cognition (3)
- EPY 8180 Development During School Age (5 to 18 Years) (3)
- EPY 8250 Psychology of Inner-City Children (3)

**Major (24)**

**Required (24):**

- EPEL 8000 Research in Educational Leadership and Organizational Structure (3)
- EPEL 8020 Leadership for Change in a Diverse Society (3)
- EPEL 8420 Advanced Instructional Leadership (3)
- EPEL 8690 Research-Based Decision Making for School Leaders (3)
- EPEL 8970 Seminar in Educational Leadership (9)
- EPSF 8440 Curriculum Design and Analysis (3)

Following the completion of coursework, persons wishing to obtain the PL-6 certification in the State of Georgia must receive a passing score on the GACE Educational Leadership Tests.

4510 School Counseling (Ed.S.)

Specialist in Education (Ed.S.) in School Counseling

Department of Counseling and Psychological Services
950 College of Education Building, 404/413-8010
http://cps.education.gsu.edu/
Brian Dew, Chair

The Ed.S. major in School Counseling (elementary, middle, or secondary) prepares certified school counselors to function at higher levels of competence in their work settings.

Evaluation of a student’s performance is continuous and involves consideration of the student’s academic performance as well as the student’s performance in laboratory, practicum, and internship classes. A student may be withdrawn from a course and/or the program if the welfare of the student’s clientele or prospective clientele or the functioning of a school or agency is, in the judgment of the Department of Counseling and Psychological Services faculty, in jeopardy as a result of the student’s behavior. Students in this program are expected to follow the latest version of the American Counseling Association (ACA) Code of Ethics, and the most recent version of the American School Counselor Association (ASCA) Ethical Standards for School Counselors.

Program Degree Requirements

Department of Counseling and Psychological Services
950 College of Education Building, 404-413-8010
http://cps.education.gsu.edu/
Brian Dew, Chair

The professional in school psychology is educated in the major disciplines of education and psychology. He or she is equipped to undertake and manage processes and problems related to the education and development of children within schools. A major portion of his or her training concerns the interaction of the child with the social institution of the school. Because of this special orientation, the school psychologist has to be well grounded in the philosophy and methods of education and must achieve a high level of understanding of psychological processes such as learning, personality, and social competence.

Program Objectives

The school psychologist is an applied psychologist who brings skills, instrumentation, and techniques to bear on learning and behavioral problems in the school setting. He or she must be prepared to:

- Intervene constructively when acute and chronic behavior problems occur.
- Consult effectively with change agents in the child’s life (i.e., parents or guardians, administrators, and teachers).
- Participate in the assessment of individual learning problems.
- Participate in education program planning and management.
- Provide information to promote effective use of the resources of agencies outside the school setting.
- Administer programs of psychological services in the educational setting.
- Design and carry out action and situational research requiring knowledge of the school and of the learner in interaction in such a setting.

Program Academic Regulations

The Ed.S. degree is the second major component (in addition to the master’s degree) of the combined Master’s/Ed.S. program in School Psychology. At times, students may enroll concurrently in some courses from the master’s degree and some courses from the Ed.S. degree to meet the requirements of the combined program. In addition to the areas of knowledge covered under the master’s level of training, the specialist program has some advanced focus on emotional and behavioral development of the child’s psychoeducational functions, study in the field of learning disorders, school-based intervention and consultation. Counseling and consultation skills will be employed, with opportunities for utilizing advanced consultation methods in the school setting. The combined Master’s/Ed.S. program meets the State of Georgia renewable certification requirements and requires a minimum of 36 semester hours for a master’s degree in this major and an additional 42 semester hours to qualify for certification recommendation. A two term internship in a public school setting is required as part of the coursework for the Ed.S. degree and is required for successful completion of the combined Master’s/Ed.S. program.
The M.Ed./Ed.S. School Psychology program is not designed for part-time students. Each semester students are expected to enroll in 12-14 semester credits. Students may distribute their coursework to a maximum of four years rather than the usual three. However, they must maintain continuous enrollment of at least 9 credits per semester during this period (i.e., full time enrollment). The usual period of study in the M.Ed./Ed.S School Psychology program including internship, is three years. Some coursework can be completed during the summers. Under highly unusual circumstances (e.g., medical emergencies) the program faculty will consider requests to extend completion of the program beyond 4 years. Under unusual circumstances, students can apply for a one year leave of absence from the program. Should a student drop out of the program prior to completion, reapplication for admission is necessary. There is no guarantee the student will be readmitted to the program. If a student deviates from a normal schedule, then there is the possibility that the course may not be available in semesters other than those which they are scheduled.

All school psychology students must complete CPS 6040, CPS 7490, CPS 7495, CPS 7510, CPS 7515, CPS 7520, CPS 7570, CPS 8440, CPS 8570 with grades of “B” or higher. A grade lower than a “B” requires repetition of the course. A student cannot repeat a course more than once. Unless otherwise indicated, students may not register for any other CPS course until they have completed CPS 6040 with a grade of “B” or higher.

Successful completion of CPS 8680 Internship in School Psychology satisfies the comprehensive examination requirement for this program.

Students seeking certification from the State of Georgia Professional Standards Commission are required to pass the GACE Program Admission Assessment (or provide an exemption) and GACE Content Assessment in School Psychology.

Evaluation of a student’s performance is continuous and involves consideration of the student’s academic performance as well as the student’s performance in laboratory, practicum, and internship classes. A student may be withdrawn from a course and/or the program if the welfare of the student’s clientele or prospective clientele or the functioning of a school or agency is, in the judgment of the Department of Counseling and Psychological Services faculty, in jeopardy as a result of the student’s behavior. Students in this program are expected to follow the latest version of the National Association of School Psychologists (NASP) Principles for Professional Ethics.

Program Degree Requirements

Specialist in Education in School Psychology

Professional Studies (9)
Required (9):

- EPRS 8530 Quantitative Methods and Analysis in Education I (3)
- EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)
- Any 7000-level or above EXC course with permission of advisor (3)

- CPS 6450 Group Counseling (3)
- CPS 8400 Introduction to Play Therapy (3)
- CPS 8431 Counseling Skills and Strategies for School Aged Children (3)

Program total: minimum of 43 semester hours
Admission to the doctoral programs in the College of Education and Human Development is competitive and an applicant meeting the published minimum requirements is not guaranteed admission.

All documents and other materials submitted by or for persons in connection with their interest in consideration for admission to a program become the property of Georgia State University and cannot be returned at any time. It is the responsibility of each applicant to follow the application procedures completely and correctly and to be certain that all materials have been submitted to the Office of Academic Assistance and Graduate Admissions by the application deadline. Incomplete applications will not be considered.

Admission to the doctoral program is for the specific academic term the applicant indicates on his or her application unless otherwise indicated on the acceptance letter. An accepted applicant who does not attend the academic term for which acceptance has been granted may reactivate his or her application for up to two academic terms immediately following the original academic term of acceptance, provided the program being applied for admits new students during at least one of those terms. Some programs only admit students one term during the academic year; therefore, postponing enrollment delays beginning the program by a calendar year. In this case, the applicant may not reactivate the application, but must submit a new online application instead (in keeping with university requirements for residency status verification). The applicant must meet current admission criteria, and may also be required to resubmit supporting materials.

A written request for reactivation is required. Address the request to Graduate Admissions, Office of Academic Assistance and Graduate Admissions, Attn: Director. Admission for a subsequent term is not automatic or guaranteed.

Deadlines for notification to change entry term are as follows:

- Fall Semester August 1
- Spring Semester December 1
- Summer Semester April 1

If the deadline falls on a weekend or on a university holiday, requests to change term of entry will be accepted until the end of the next business day following the deadline.

Application Procedures and General Admission Criteria

Every applicant must submit the online application by the deadline and send all supplemental materials to the addresses listed at http://education.gsu.edu/admissions/graduate-admissions/. Go to http://education.gsu.edu/admissions/graduate-admissions/required-application-materials-for-graduate-admissions/ for a current list of required program specific materials.

International Applicants
International applicants must provide materials earlier than other applicants to allow for translation and evaluation of foreign documents and for processing of paperwork related to Visa status as well as to allow for travel arrangements for accepted applicants. Application and supporting materials should be received at least three months prior to the doctoral deadline. International applicants should refer to http://education.gsu.edu/international-students/ for additional information.

Reentry Applications

Doctoral students in the College of Education and Human Development who do not register at Georgia State University for regular courses during three consecutive academic terms are considered inactive for the purposes of registration. If inactive students wish to register, they must file a Reentry Application with the Office of Academic Assistance and Graduate Admissions. The form, instructions, and the deadline dates are available online at http://education.gsu.edu/student-services/forms-policies-regulations/.

Doctoral students who have not registered for six consecutive academic terms will be withdrawn from the doctoral program. A notation to that effect will be added to the students’ permanent record. Upon notification of withdrawal, the students will have a maximum of 30 days to petition for readmission. If the petition is approved, the students must satisfy the degree requirements of the graduate bulletin in effect at the time of readmission.

Term of Admission and Term of First Matriculation

All doctoral students’ term of admission is the term for which they were accepted into the program. The term of admission is identified on the students’ letters of acceptance. Students are held responsible for the coursework requirements published in the catalog corresponding to their term of admission.

Term of first matriculation refers to the academic term in which the students took the first course they will include in their program of study. For many students, the term of admission and the term of first matriculation will be the same. However, students who wish to include coursework taken prior to the term of admission will have an earlier term of first matriculation. The seven-year time limit for completion of all nondissertation requirements and the nine-year time limit for completing all requirements both begin the term of first matriculation.
Admission

Applicants to the Professional Doctorate in Education program must complete and submit the online application for graduate study, pay the nonrefundable application fee of $50.00, and send in all required application materials.

Graduate Assistantships

Graduate teaching assistantships (GTAs) and graduate research assistantships (GRAs) are available to selected doctoral students who demonstrate outstanding academic skills and expertise. Assistantships are made available through the student’s department. The number of GTA and GRA positions available depends on current class loads and research needs.

Doctoral Advisory Committee

Upon admission to a cohort, the student is assigned a major adviser. An additional faculty member will become a member of the student’s Doctoral Advisory Committee. Prior to the student’s defense of his or her dissertation, he or she must secure a minimum of one additional member of his or her Doctoral Advisory Committee. This additional member may be a university faculty member or a field-based practitioner who meets the university requirements for membership on a doctoral advisory committee. The major advisor and one of the two additional faculty members must hold graduate faculty status; one of who must hold Graduate Research Faculty Status.

The major advisor serves as the chair of the Doctoral Advisory Committee, is a full-time member of the College of Education and Human Development faculty, holds primary appointment in the College of Education and Human Development, has been a faculty member at Georgia State University for at least one academic year, and holds an earned doctorate.

A second member of the Doctoral Advisory Committee must be a full-time member of the College of Education and Human Development faculty holding an earned doctorate. A third member of the Doctoral Advisory Committee is an individual who can support the student’s dissertation research. The third member must also hold an earned doctorate. After the Doctoral Advisory Committee has been established, the committee, the student, and the department chair must approve any subsequent change of membership.

Dissertation

In addition to the minimum requirements described above, each doctoral student must enroll in a minimum of nine semester hours of dissertation credit. The final grade will be assigned the term the student successfully defends the dissertation.

Comprehensive Examination

The purpose of the comprehensive examination is to evaluate the students’ ability to use the subject content
defined in the approved program of study to prepare a dissertation using the “Review and Research Format,” which is currently one of the approved formats in the Georgia State University College of Education and Human Development.

The comprehensive examination includes a written examination and may also include an oral portion. The students have two opportunities to pass the comprehensive examination. Students who do not pass the examination on the second attempt are not permitted to continue in the doctoral program.

Requirements Following Successful Completion of the Comprehensive Examination

Enrollment for a minimum of three semester hours of credit is required during at least two out of each three term period following successful completion of the comprehensive examination until the students have graduated. This enrollment must include a minimum of nine semester hours of dissertation (9990) credit but may also include other coursework.

Enrollment for dissertation credit is permitted only after successful completion of the comprehensive examination.

Dissertation Prospectus

The purpose of the dissertation prospectus is to offer the Doctoral Advisory Committee evidence of the significance and rationale of the proposed study. The prospectus presents a statement of the problem or issue, describes the philosophical/theoretical knowledge base within which the dissertation topic is developed, the methodology or procedures to be employed, and the expected implications of findings or conclusions. The prospectus reflects each student’s preparedness to conduct the investigation and write the dissertation. Before beginning work on the prospectus, students should review the college’s Guide for Preparing Dissertations at http://education.gsu.edu/student-services/forms-policies-regulations/.

Presentation of the Dissertation Prospectus

Students shall publicly present the dissertation prospectus to provide an opportunity for College of Education and Human Development faculty to contribute to a scholarly critique of the proposed research. The announcement of the prospectus presentation includes the date and location of the presentation and an abstract of the prospectus. No fewer than three members of the Doctoral Advisory Committee must attend the prospectus presentation.

Admission to Doctoral Candidacy

When students have completed all coursework requirements for the degree except the dissertation the students’ Doctoral Advisory Committee may recommend to the Dean of the College of Education and Human Development that the students are admitted to candidacy for the Professional Doctorate of Education degree. To be recommended for candidacy, students must additionally have successfully completed the comprehensive examination, and submitted and presented an approved dissertation prospectus.

Dissertation and Final Dissertation Defense
The dissertation and defense are the culminating activities in the students’ doctoral program, demonstrating high levels of scholarly and intellectual activity. The dissertation is an original contribution to knowledge in the field of study through disciplined inquiry. Conducting, writing, and defending the dissertation are done in accordance with the highest professional standards.

Enrollment for a minimum of three semester hours of credit is required during at least two out of each three-term period following successful completion of the comprehensive examination until graduation. These hours of credit must include a minimum of nine semester hours of dissertation (9990) credit but may also include other coursework. Doctoral students must be enrolled in and successfully complete three semester hours of graduate credit (typically dissertation hours) the term all degree requirements are completed. The students must be enrolled in at least three semester hours of coursework during the academic term in which they defend the dissertation.

All doctoral dissertations must comply with the format, style, and procedural instructions established by the College of Education and Human in its Guide for Preparing Dissertations at http://education.gsu.edu/student-services/forms-policies-regulations/. The guide should be consulted soon after the students complete their comprehensive examination successfully.

The purpose of the oral defense of the dissertation is to enable the Doctoral Advisory Committee to judge the quality of the investigation and the students’ ability to defend their work.

When the dissertation is completed, a public announcement of the oral defense of the dissertation is disseminated via the Office of Academic Assistance and Graduate Admissions to the College of Education and Human Development faculty. Additionally, the dissertation must be defended between the first day of classes and the last day of final examinations; it cannot be defended between academic terms. Students should consult the current deadlines for doctoral candidates to plan the timely announcement of the dissertation defense.

At the same time the announcement of the oral defense is submitted, two typed copies of the completed dissertation are made available for faculty review in the Office of Academic Assistance and Graduate Admissions. The announcement of the oral defense includes the date and location of the defense and an abstract of the dissertation of no more than 350 words.

The oral defense will be scheduled during regular dates of operation (i.e., between the first day of classes and the last day of final examinations each term, excluding official holidays). The oral defense must be attended by no fewer than three (3) members of the Doctoral Advisory Committee and is open to all College of Education and Human Development faculty and invited guests. The committee will invite other faculty and guests present to question the candidate and to communicate to the committee their professional reactions.

Approval and acceptance of the doctoral dissertation requires a favorable vote of a majority of the Doctoral Advisory Committee.

**Electronic Master’s Theses and Doctoral Dissertations Policy**

In order to insure that all master’s theses and doctoral dissertations produced at Georgia State University
are captured, preserved, and appropriately made available, the University requires all students who produce a master’s thesis or doctoral dissertation in fulfillment of his/her degree to upload the final version of these documents to ScholarWorks@Georgia State University as a condition of the award of the degree.

Requirements for Degree Completion

The purpose of requiring completion of all degree requirements within a fixed period of time is to ensure currency, continuity, and coherence in the academic experiences leading to the degree.

All degree requirements must be successfully completed within five years of the students’ term of first matriculation. Moreover, all requirements for doctoral candidacy (coursework, comprehensive examination, prospectus approval) must be completed within four years of the students’ first term of matriculation. No coursework that was completed more than four years prior to admission to candidacy may be used to meet any doctoral degree requirement with the exception of courses transferred into the program. Transfer credits may be applied to the program if completed no more than seven years prior to admission to candidacy.

Enrollment for a minimum of three semester hours of credit is required during at least two out of each three term period following successful completion of the comprehensive examination until graduation. This enrollment must include a minimum of nine semester hours of dissertation (9990) credit but may also include other coursework.

Students must be enrolled in and successfully complete three semester hours of graduate credit (typically dissertation hours) during the academic term in which all degree requirements are completed.

Graduation

Graduate degree candidates must file a formal application for graduation with the Graduation Office at least two academic terms in advance of their expected graduation dates. Deadlines are published online Registration Guide each term. Students receiving the Ed.D. degree may have some additional cost relative to graduation and should contact the Office of Academic Assistance and Graduate Admissions for further information.

Forms for changing the date of graduation may be obtained from the Graduation Office.
The Doctorate of Education (Ed.D.) in Curriculum and Instruction (C&I) promotes an understanding of the complex dynamics among theory, research, and practice. We believe in preparing empowered scholar-educators who advocate for social justice and educational equity at the classroom, school, district, and state levels. Grounded in rigorous and relevant research, our interdisciplinary courses offer students the opportunity to conceptualize, theorize, dialogue, problem-pose, problem-solve, create, and evaluate a wide range of educational theories, practices, and policies as related to Curriculum and Instruction. Embracing the principles of social justice, the Ed.D. in C&I emphasizes innovation, diversity, and advocacy in PK-12 settings.

The degree is designed for curriculum leaders who may hold other roles in schools such as classroom teachers, assistant principals, coaches, curriculum developers, department chairs, principals, subject/content area coordinators at the school or county level, and clinical faculty. The Doctorate of Education (Ed.D.) in Curriculum and Instruction (C&I) prepares master teachers to become instructional leaders and curriculum specialists at the school and/or school system levels and who wish to develop expertise in the following areas:

- Advocacy for equity in teaching and learning
- Curriculum theory and development
- Pedagogical leadership

The Ed.D. in C&I is a rigorous, collaborative, interdisciplinary program between the departments of Early Childhood and Elementary Education and Middle and Secondary Education, in the College of Education and Human Development and Art, Music, and Foreign Language Education in the College of Arts and Sciences. This degree offers an interdisciplinary approach across Pre-Kindergarten through Secondary levels in multiple content areas, Art, Early Childhood and Elementary, Language and Literacy, Mathematics, Middle Level, Foreign Language, Music, Science, and Social Studies Education.

The program is a three-year, flexible cohort model, which is characteristic of nationally recognized exemplary professional doctorate programs. The program consists of 45 hours of course work and 9 hours of dissertation work for a total of 54 hours. Degree requirements include coursework, school- based
residency requirement embedded in cohort courses (to include engagement in the professional community such as conference presentation, professional development delivery or publication), qualifying paper, prospectus presentation, and a dissertation using the approved dissertation format for the Georgia State University College of Education and Human Development. The dissertation will consist of a research study contextualized in the PK-12 school or family setting. A committee consisting of three faculty members, including a minimum of two College of Education and Human Development graduate or professional faculty members will support the student including review of the qualifying paper and dissertation prospectus proposal and defense.

The Ed.D. in C&I is designed in light of the new Curriculum and Instruction certification rules and graduates of this program will be eligible to obtain the new Curriculum and Instruction service certificate at the S7 level. Students holding a valid Clear Renewable, Level 4 or higher Georgia Teaching (T), Service (S), Technical Specialist (TS), or Leadership (L or PL) certificate at time of admission in their field of study would be eligible to add the Curriculum and Instruction certificate upon completion of the Ed.D. in Curriculum and Instruction program and completion of the Georgia state approved content assessment.

Admissions

The College of Education and Human Development admissions requirements for this degree follow doctoral admission criteria listed at http://education.gsu.edu/admissions/graduate-admissions/.

In addition to the general criteria for doctoral admissions in the College of Education and Human Development, Ed.D. in Curriculum and Instruction applicants will be required to meet the following criteria:

- At least one degree in the desired content area (concentration) or substantial number of years teaching in desired subject area
- Master’s degree or Ed.S. in education or closely related field with a GPA of 3.30 or higher
- A minimum of three (3) years teaching experience
- 2 professional letters of reference
- Professional Goals Statement
- Resume
- Interview; students applying to the Music Education Concentration includes demonstration of musical skill; students applying to the Art Education Concentration includes professional portfolio
- Writing sample (i.e., print or electronic publication, course paper, professional blog series, etc.)

Program Academic Regulations

Students enrolled in this program are expected to be working professional educators and as such, their position in the school community will serve as an internship/field experience. Students who are not employed while enrolled will arrange with the Program Coordinator to work in a local setting. Residency requirements are embedded within cohort coursework.

Students are required to enroll in cohort courses in sequence with their assigned cohort. Should extenuating circumstances arise, the student’s adviser and Ed.D. Program Committee will consider and approve or deny alternate sequencing. The formal coursework requirement is satisfied through successful
completion of each course in the program of study with a grade of “C” or higher, with an overall cumulative grade point average of 3.0 or better. Coursework in which a grade below “C” is earned may not be applied to the Ed.D. program.

This program is designed to lead to a Georgia Curriculum and Instruction service certificate; however, the service certificate and the doctoral degree are not mutually exclusive. To be eligible for the certificate individuals must meet the following requirements:

- An admission requirement of a clear and renewable T4 certificate.
- Completion of a minimum of 9 hours of coursework within a concentration area that aligns with a previously held certification or endorsement field.
- Passage of the GACE content exam in curriculum and instruction (test is under development).

Up to 9 graduate credit hours total may transfer to the Ed.D. in C&I. Transfer courses may substitute for the research or concentration core(s) only; transfer courses may not be used for program cohort courses. Transfer credits may be applied to the program if completed no more than seven years prior to admission to candidacy.

To be recommended for candidacy, students must additionally have successfully completed the comprehensive examination, and submitted and presented an approved dissertation prospectus.

All courses consist of three (3) hours credit each, unless otherwise indicated.

Program Degree Requirements

Doctor of Education in Curriculum and Instruction

Research Core (15 hours)

- EPRS 8500 Qualitative/Interpretive Research in Education I (3)
- EPRS 8530 Quantitative Methods and Analysis in Education I (3)
- EPRS 8620 Program Evaluation I (3)
- EDCI 9900 Critique of Educational Research (3)

Choose one:

- EPRS 8510 Qualitative Research in Education II (3)
- EPRS 8540 Quantitative Methods and Analysis in Education II (3)
- ECE 9380/EPRS 9380 Discourse Analysis (3)

Major in Curriculum and Instruction (30 hours)

Required (18 hours):

- EDCI 8400 Complexities of Teaching, Learning, and Curriculum Design (3)
- EDCI 8650 Curriculum and Instruction in Contemporary Urban Settings (3)
- EDCI 8900 Educational Inquiry and Assessment in Educational Contexts (6)
• EDCI 8980 Seminar in Professional Learning and Development (3)
• EDCI 9850 Research Seminar (3)

**Concentrations (12 hours):**
Students choose advanced content electives from 8000-9000 level courses in the following concentration areas:

**Art Education (12 hours)**
Select (12 hours):

• AE 8000 Introduction to Research in Art Education (3)
• AE 8010 Philosophy & Curriculum (3)
• AE 8020 Learning Theory (3)
• AE 8030 Leader Supervision In Art Education (3)
• AE 8050 Computer Imaging & Instructional Technology (3)
• AE 8060 Project in Art Education (3)
• AE 8100 Seminar in Art Education (3)
• AE 8200 History, Culture, & Communication In Art Education (3)
• AE 8300 Research in Art Education (3)
• AE 8400 Aesthetics and Critical Theory (3)
• AE 8500 Directed Study (3)
• AE 8980 Special Problems (3)
• Additional courses may be selected with the consent of the advisor.

**Early Childhood and Elementary Education (12 hours)**
Required (6 hours):

• ECE 9840 Socio-Cultural Issues in Early Childhood and Elementary Education (3)
• ECE 9960 Advanced Theory and Research in Child Development (3)

Select (6 hours):

• ECE 9393 Number and Operation in the Elementary Classroom (3)
• ECE 9394 Geometry and Measurement in the Elementary Classroom (3)
• ECE 9395 Rational Numbers and Algebra in the Elementary Classroom (3)
• ECE 9396 Data Analysis and Probability in the Elementary Classroom (3)
• ECE 9420 Early Literacy Learning (3)
• ECE 9820 Teacher-child Relationships in Early Childhood (3)
• Additional courses may be selected with the consent of the advisor.

**Foreign Language Education (12 hours)**
Required (6 hours):

• FORL 8223 Modern Foreign Language Pedagogy: Theory and Practice (3)
• FORL 8227 Teaching Culture in the Foreign Language Classroom (3)

Select (6 hours):
FORL 8226 Teaching Literature in the Foreign Language Classroom (3)
FORL 8250 Topics in Pedagogy (3)
FORL 8800 Research in Foreign / Second Language Education (3)
Additional courses may be selected with the consent of the advisor.

Language and Literacy Education (12 hours)
Required (6 hours):

- EDRD 8310 Theoretical Models and Processes of Literacy Learning (6) (repeatable)

Select (6 hours):

- ECE 9420 Early Literacy Learning (3)
- EDLA 8330 Language Variation and Learning (3)
- EDRD 8550 Trends and Issues in Language and Literacy Education (3)
- EDRD 8610 Professional Learning and Leadership of Literacy (3)
- Additional courses may be selected with the consent of the advisor.

Mathematics Education (12 hours) **
Required (3 hours):

- EDMT 8430 Sociocultural and Sociohistorical Issues of Mathematics Education (3)

Select three (9 hours):

- ECE 9393 Number and Operation in the Elementary Classroom (3)
- ECE 9394 Geometry and Measurement in the Elementary Classroom (3)
- ECE 9395 Rational Numbers and Algebra in the Elementary Classroom (3)
- ECE 9396 Data Analysis and Probability in the Elementary Classroom (3)
- EDMT 8290 Study of Learning and Instruction in Mathematics (3)
- EDMT 8420 Topics in the School Mathematics Curriculum (3)
- EDMT 8550 Trends and Issues of Teaching Mathematics (3)
- EDMT 9870 Advanced Research Seminar in Mathematics Education (3)
- Additional courses may be selected with the consent of the advisor.

Middle Level Education (12 hours)
Required (3 hours):

- EDCI 8550 Trends and Issues in Middle Level Education (3)

Select three (9 hours):
Each student selects an area of advanced study of three courses (9 semester hours) in the content areas of Language Arts, Mathematics, Science, or Social Studies:

Middle Level Language Arts (9 hours)

- EDRD 8310 Theoretical Models and Processes of Literacy Learning (6) (repeatable)
• EDLA 8330 Language Variation and Learning (3)

**Middle Level Mathematics (9 hours)**
Required (3 hours):

• EDMT 8430 Sociocultural and Sociohistorical Issues of Mathematics Education (3)

Select 2 courses for six (6 hours):

• EDMT 8290 Study of Learning and Instruction in Mathematics (3)
• EDMT 8420 Topics in the School Mathematics Curriculum (3)
• EDMT 8550 Trends and Issues of Teaching Mathematics (3)
• EDMT 9870 Advanced Research Seminar in Mathematics Education (3)

**Middle Level Science (9 hours)**

• EDSC 8430 Nature of Science (3)
• EDSC 9870 Advanced Research Seminar in Science Education (3) (repeatable)

**Middle Level Social Studies (9 hours)**

• EDSS 8290 Learning, Curriculum, and Instruction in Social Studies (3) (repeatable)
• EDSS 8420 Topics in the School Social Studies Curriculum (3) (repeatable)
• EDSS 8550 Trends and Issues of Teaching Social Studies (3) (repeatable)

*Additional courses may be selected with the consent of the advisor.

**Music Education (12 hours)**
Required (12 hours):

• MUS 8260 Curriculum & Assessment in Music Education (3)
• MUS 8900 Non-Thesis Research in Music Education (3)
• MUS 8960 Proseminar in Music Education (3) (repeatable)
• Additional courses may be selected with the consent of the advisor.

**Science Education (12 hours)**
Choose from the following courses*:

• EDSC 8430 Nature of Science (3)
• EDSC 9870 Advanced Research Seminar in Science Education (3) (repeatable)
• Additional courses may be selected with the consent of the advisor.

**Social Studies Education (12 hours)**
Choose from the following repeatable courses*:

• EDSS 8290 Learning, Curriculum, and Instruction in Social Studies (3) (repeatable)
• EDSS 8420 Topics in the School Social Studies Curriculum (3) (repeatable)
- EDSS 8550 Trends and Issues of Teaching Social Studies (3) (repeatable)
- *Additional courses may be selected with the consent of the advisor.

Dissertation (9 hours)
EDCI 9990 Dissertation (9 hours)

Program Total: Minimum of 54 semester hours

**Optional K-5 Mathematics Endorsement:**
As part of the coursework leading to the Doctor of Education degree, students who hold a current teaching certification from the Georgia Professional Standards Commission may satisfy part of the K-5 Mathematics Endorsement requirements by completing four 9000-level courses (ECE 9393, ECE 9394, ECE 9395, and ECE 9396). To apply for the K-5 Mathematics Endorsement, students must also complete ECE 7740 Internship in Early Childhood Education I (3) while enrolled in one of the four specified 9000-level endorsement courses. ECE 7740 does not satisfy the 8000-9000 level-course requirements for the College of Education and Human Development courses applicable to the Doctor of Education degree.
4560 Educational Leadership (Ed.D.)

Doctor of Education (Ed.D.) in Educational Leadership

Department of Educational Policy Studies
450 College of Education Building
404-413-8030
http://eps.education.gsu.edu/
William Curlette, Chair

The Ed.D. in educational leadership targets the professional needs of educational leaders whose long-term career goals include leading schools, school districts and other education agencies in a complex, highly competitive global environment.

The purpose of the program is to advance the development and practice of effective educational leadership by providing senior-level administrators with the following:

- the knowledge and skills necessary to deal effectively with the complex issues facing education today
- the methods of inquiry necessary to analyze current educational problems
- the leadership skills necessary to direct the development and implementation of programs to address those problems and to disseminate the results in various professional and public forums
- the knowledge and applied skills rarely provided in traditional advanced degree programs in educational leadership in an alternative format that meets the needs of senior-level administrators.

Program Academic Regulations

The program, delivered in a three-year, closed cohort model, consists of 45 hours of course work and 9 hours of dissertation for a total of 54 hours. Candidates who hold the performance-based Specialist in Education (Ed.S.) or performance-based add-on may transfer up to six courses (18 hours) into the Ed.D. program. A transcript review is required for candidates seeking to transfer courses into the program from institutions other than Georgia State University.

Program Degree Requirements

Doctor of Education in Educational Leadership

Required Courses (54):

- EPEL 8000 Research in Educational Leadership and Organizational Culture (3)
- EPEL 8020 Leadership for Change in a Diverse Society (3)
- EPEL 8330 Advanced Law, Policy, and Governance (3)
- EPEL 8420 Advanced Instructional Leadership (3)
- EPEL 8500 Central Office Leadership (3)
- EPEL 8620 Psychological Aspects of Leadership (3)
- EPEL 8930 Applied Research (3)
- EPEL 9000 Concepts of Leadership and Research in Educational Leadership (3)
- EPEL 9970 Advanced Seminar in Educational Leadership (3)
- EPRS 7920 Classroom Testing, Grading, and Assessment (3)
- EPRS 8500 Qualitative/Interpretive Research in Education I (3)
- EPRS 8530 Quantitative Methods and Analysis in Education I (3)
- EPRS 8620 Program Evaluation I (3)
- EPSF 8440 Curriculum Design and Analysis (3)
- EPS 8360 Educational Policy Making and Analysis (3)
- EPS 9990 Dissertation (9)
- Other appropriate courses numbered 8000 to 8999 may be substituted into the program of study by the Educational Leadership unit and the Ed.D. cohort coordinator.

Program total: minimum of 54 semester hours
4570 Doctor of Philosophy (Ph.D.) General Information

The Doctor of Philosophy (Ph.D.) degree offered by the Georgia State University College of Education and Human Development is congruent in purpose with the following statement of the Council of Graduate Schools in the United States:

The Doctor of Philosophy degree is the highest academic degree granted by American universities. It is awarded to those who have demonstrated mastery of the field and successfully completed and defended a dissertation. The degree is a clear recognition that the student has the ability to complete a substantial piece of research work, to present formally the results of this work, and to appreciate its significance in the general field. The degree has always been considered the most significant achievement in preparation for an active career in scholarship and research. The requirements set by American universities for attainment of the Ph.D. degree may vary considerably among universities, but all have a common set of experiences and tasks designed to produce a scholar and researcher with recognized competence in the chosen field. The successful candidate for the Ph.D. is then considered prepared to undertake a career of scholarship, research, and service to society.

Each doctoral major field of study offered by the College of Education and Human Development provides preparation for careers of scholarship, research, and service to society.

Doctoral Assistantships, Instructorships, and Fellowships

Graduate teaching assistantships (GTAs) and graduate research assistantships (GRAs) are available to selected doctoral students who demonstrate outstanding academic skills, expertise, and departmental or college need. Assistantships are made available through the student’s department and a limited number through the Office of the Dean.

Minimum Requirements for Degree Completion

Each doctoral student admitted to the College of Education and Human Development will (a) complete a program of coursework approved by his or her Doctoral Advisory Committee, (b) complete an approved residency, (c) perform successfully on a comprehensive examination, (d) develop and present a dissertation research prospectus, (e) gain admission to candidacy, and (f) submit and successfully defend a doctoral dissertation. Individual programs may have additional requirements that the students must complete. All requirements must be completed within a nine-year time period as described below.

Doctoral Advisory Committee

The Doctoral Advisory Committee assist the students in planning an appropriate program of study and preparing for completion of non-coursework requirements, including the comprehensive examination. The Doctoral Advisory Committee has the supervisory responsibility for approving program coursework and non-coursework requirements up to the point of candidacy to the degree.

Upon admission to a doctoral major in the College of Education and Human Development, each student is assigned a temporary adviser from among the faculty of the major field of study in which admission has been granted. This temporary adviser assists the student until a Doctoral Advisory Committee is
established. The student should establish a permanent doctoral adviser and advisory committee early but not later than the accrual of 27 semester hours of coursework nor later than one calendar year from the date of matriculation.

The Doctoral Advisory Committee consists of a minimum of three members:

1. The major adviser serves as the chair of the Doctoral Advisory Committee, is a full-time, tenure track member of the College of Education and Human Development faculty, holds primary appointment in the College of Education and Human Development, has been a faculty member at Georgia State University for at least one academic year, is a member of the faculty of the major to which the students have been admitted, holds an earned doctorate, and holds Graduate Research Faculty Membership.

2. A second member of the Doctoral Advisory Committee must be a full-time member of the College of Education and Human Development faculty holding an earned doctorate and Graduate Research Faculty Membership.

3. A third member of the Doctoral Advisory Committee must represent a major outside the student’s major and holds Graduate Research Faculty Membership.

All appointments to the Doctoral Advisory Committee, including its chair, are subject to approval by each student, the department chair, and the Associate Dean for Graduate Studies and Research of the College of Education and Human Development. After the Doctoral Advisory Committee has been established, the committee, student, department chair, and the Associate Dean for Graduate Studies and Research of the College of Education and Human Development must approve any subsequent change of membership.

Program of Study

The primary emphasis of the Doctor of Philosophy (Ph.D.) degree is the preparation of students as researchers, scholars, and scientist practitioners. Research experiences will be a continual part of students’ learning including completion of substantial coursework focused on research and scholarship as well as participation in research activities. Congruent with this perspective, students will be active participants in ongoing research activities and scholarship with faculty and/or in research teams from the beginning of their enrollment in the doctoral program. Students in College of Education and Human Development Ph.D. programs will continually participate in such activities throughout their doctoral program resulting in conference presentations and scholarship submitted for publication. While these experiences will be time-intensive and may overlap with some coursework, these efforts are expected to occur above and beyond doctoral students’ coursework.

The formal coursework requirement is satisfied through successful completion of each course in the program of study with a grade of “C” or higher (including S), with an overall cumulative grade point average of 3.50 or better. Coursework in which a grade below “C” is earned may not be applied to the doctoral program.

A minimum of 36 semester hours, excluding dissertation credit, is required in each student’s doctoral program. To meet coursework requirements for the Doctor of Philosophy degree, a minimum of 24 semester hours must be earned in the doctoral program of study at Georgia State University. The 24 semester hour minimum may not include credits transferred from other institutions, from other doctoral
programs within the college or university, from a specialist program, or from a nondegree status. All coursework applied to the doctoral program of study must be post-master’s work. The use of credits earned beyond the master’s degree while in a nondegree status is limited to a maximum of nine semester hours and should be counted as part of the 12 semester hours allowed in transfer.

No coursework (transferred or from Georgia State University) that has been completed more than seven years prior to admission to candidacy, after successful completion of coursework and the comprehensive examination, may be used to meet any doctoral degree requirement.

Planning of coursework for doctoral study is done individually with consideration of each student’s career goals, prior academic work, and professional experience; however, all programs of study will foster the development of skills and abilities in a major area and a core area. This catalog is the sole source for approved program requirements. Programs of study should be planned to conform to requirements stated in this catalog. A minimum of 36 semester hours of coursework is required in each student’s doctoral program. College of Education and Human Development courses applied to meet these requirements must be at the 8000 or 9000 level. No dissertation credit may be applied to the minimum requirement of 36 semester hours of coursework. The minimally required 36 semester hours are distributed among the core and major areas as follows:

**Core area**

A minimum of 18 semester hours; the purpose of the core area requirement is to develop general research competence, including expertise in at least one particular research method appropriate to the major field and/or dissertation research. The general requirements of the core area are described later in this chapter. Variations for each program are included with the program’s description.

**Major area**

A minimum of 18 semester hours; the purpose of the major area requirement is to increase the doctoral student’s knowledge base in the academic discipline in which scholarly activity is to be pursued.

**Dissertation**

In addition to the minimum requirements described above, each doctoral student must enroll in a minimum of 15 semester hours of dissertation credit. The final grade will be assigned the term the student successfully defends the dissertation.

**Research**

A minimum of 30 semester hours of research must be completed, which includes 15 semester hours of dissertation and 15 semester hours of coursework as identified by the Doctoral Advisory Committee.

**Doctoral Residency**

The purpose of residency is (a) to provide close and continuous involvement with faculty, professional colleagues, and other graduate students; (b) to provide a supervised opportunity for development in the...
areas of scholarship, teaching, and service; and (c) to provide a period of time for concentrated study and coursework, reading, reflecting, and research appropriate for the advanced degree.

Doctoral students must complete five of the following six elements for their Residency Program Plan:

1. Participate in ongoing research and scholarly experiences,
2. Submit a research/scholarly manuscript to a peer-reviewed journal as primary or lead author (or as an author with substantial contribution to the research study and manuscript),
3. Participate in identifying and applying for a grant/fellowship,
4. Present at a research/scholarly conference,
5. Engage in university teaching, or
6. Serve the institution and/or profession.

Comprehensive Examination

The purpose of the comprehensive examination is to evaluate the students’ ability to use the subject content of the major, core, and cognate areas (if applicable) as defined in the approved program of study to perform cognitive tasks including recall and application and especially focusing on analysis, synthesis, and evaluation of that content.

The comprehensive examination includes a written examination and may also include an oral examination. Students have two opportunities to pass the comprehensive examination. Those who do not pass the examination on the second attempt are not permitted to continue in the doctoral program.

To be eligible to take the comprehensive examination, the students’ cumulative grade point average in the doctoral program of study must be no less than 3.50. Each student’s doctoral committee determines what coursework must be completed before he or she may take the comprehensive examination.

Requirements Following Successful Completion of the Comprehensive Examination

Enrollment for a minimum of three semester hours of credit is required during at least two out of each three term period following successful completion of the comprehensive examination until the students have graduated. This enrollment must include a minimum of 15 semester hours of dissertation (9990) credit but may also include other coursework.

Enrollment for dissertation credit is permitted only after successful completion of the comprehensive examination.

Review of Research for the Protection of Human Subjects or Animals

Students, faculty, or staff who are planning to conduct research involving human subjects must submit pertinent information for review by the Institutional Review Board (IRB) or Institutional Animal Care and Use Committee (IACUC). These committees are charged with protecting the rights and welfare of human subjects and animals by reviewing the background, purpose, methodology, and instrumentation of all research conducted by faculty, staff, students, and employees of Georgia State University.
All research requires review by the IRB or IACUC. Procedures and the necessary forms for submitting proposals are available from each student's department.

For further information regarding this review process, students should contact their respective departments.

On Campus Resources

The Learning Resource Unit in the Counseling and Testing Center offers a variety of services, including writing and editorial services that can be useful to doctoral students. Contact 404/413-1640 for further information.

Dissertation Prospectus and Dissertation Advisory Committee

The purpose of the dissertation prospectus is to offer the Dissertation Advisory Committee evidence of the significance and rationale of the proposed study. The prospectus describes the philosophical/theoretical knowledge base within which the dissertation topic is developed, the methodology or procedures to be employed, and the expected implications of findings or conclusions. The prospectus reflects each student’s preparedness to conduct the investigation and write the dissertation. Before beginning work on the prospectus, students should review the college’s Guide for Preparing Dissertations at http://education.gsu.edu/student-services/forms-policies-regulations/.

Following completion of the student’s comprehensive examination but before approval of the prospectus, the student and the student’s advisor will recommend formation of the Dissertation Advisory Committee. The majority of the committee, including the committee chair, must hold graduate research faculty status in the College of Education and Human Development. The resulting Dissertation Advisory Committee should represent expertise in both the area of the research topic and the proposed research methodology and consist of no fewer than four members with earned doctorates, which means that at least three Dissertation Advisory Committee members must be College of Education and Human Development faculty who hold graduate faculty research status or approved by reciprocal agreements between colleges and schools, which recognizes each others graduate research faculty. Any proposed member of the Dissertation Advisory Committee not meeting these requirements must be approved by the Associate Dean of Graduate Studies and Research.

The Dissertation Advisory Committee aids each student in developing the dissertation prospectus and later the dissertation. The committee is responsible for judging the significance and acceptability of the dissertation prospectus, the soundness and acceptability of the dissertation, and the competence and acceptability of the students’ oral defense of the dissertation.

Presentation of the Dissertation Prospectus

Students shall publicly present the dissertation prospectus to provide an opportunity for College of Education and Human Development faculty to contribute to a scholarly critique of the proposed research. The announcement of the prospectus presentation includes the date and location of the presentation and an abstract of the prospectus. No fewer than four members of the Dissertation Advisory Committee must attend the prospectus presentation.
Announcement of the prospectus presentation must be made at least 15 calendar days prior to the date of the scheduled prospectus presentation. Additionally, the prospectus must be presented between the first day of classes and the last day of final examinations; it cannot be presented between academic terms. Students should consult the current deadlines for doctoral students to plan the timely announcement of the prospectus presentation.

Approval and acceptance of the dissertation prospectus requires a favorable vote of a majority of the Dissertation Advisory Committee.

Admission to Doctoral Candidacy

When students have completed all coursework requirements for the degree except the dissertation and, in the case of counseling psychology and counselor education and practice majors only, the internship, the students’ Dissertation Advisory Committee may recommend to the Dean of the College of Education and Human Development that they are admitted to candidacy for the Doctor of Philosophy degree. To be recommended for candidacy, students must additionally have fulfilled their department’s residency requirement, completed all required examinations during the comprehensive examination, and submitted and presented an approved dissertation prospectus. Students must be recommended for candidacy within seven years of their term of first matriculation, that is, when they took the first course to be counted toward completion of degree requirements.

Dissertation and Final Dissertation Defense

The dissertation and defense are the culminating activities in the students’ doctoral program, demonstrating high levels of scholarly and intellectual activity. The dissertation is an original contribution to knowledge in the field of study through disciplined inquiry. Conducting, writing, and defending the dissertation are done in accordance with the highest professional standards.

Enrollment for a minimum of three semester hours of credit is required during at least two out of each three-term period following successful completion of the comprehensive examination until graduation. These hours of credit must include a minimum of 15 semester hours of dissertation (9990) but may also include other coursework. Doctoral students must be enrolled in and successfully complete three semester hours of graduate credit (typically dissertation hours) the term all degree requirements are completed. The students must be enrolled in at least three semester hours of coursework during the academic term in which they defend the dissertation.

All doctoral dissertations must comply with the format, style, and procedural instructions established by the College of Education and Human Development in its Guide for Preparing Dissertations at http://education.gsu.edu/student-services/forms-policies-regulations/. The guide should be consulted soon after the students complete their comprehensive examination successfully.

The purpose of the oral defense of the dissertation is to enable the Dissertation Advisory Committee to judge the quality of the investigation and the students’ ability to defend their work.

When the dissertation is completed and ready to defend, a public announcement of the oral defense of the dissertation is disseminated by the Office of Academic Assistance and Graduate Admissions to the College
of Education and Human Development faculty. The announcement must be submitted to the Associate Dean for Graduate Studies and Research at least 15 calendar days prior to the scheduled defense. Additionally, the dissertation must be defended between the first day of classes and the last day of final examinations; it cannot be defended between academic terms. Students should consult the current deadlines for doctoral candidates to plan the timely announcement of the dissertation defense.

At the same time the announcement of the oral defense is submitted, a copy of the completed dissertation is uploaded to coedissertations@gsu.edu for faculty review in the Office of Academic Assistance and Graduate Admissions. The announcement of the oral defense includes the date and location of the defense and an abstract of the dissertation of no more than 350 words.

The oral defense is scheduled on the main campus of the university during regular dates of operation (i.e., between the first day of classes and the last day of final examinations each term, excluding official holidays). The oral defense must be attended by no fewer than four (4) members of the Dissertation Advisory Committee and is open to all College of Education and Human Development faculty and invited guests. The committee will invite other faculty and guests present to question the candidate and to communicate to the committee their professional reactions.

Approval and acceptance of the doctoral dissertation requires a favorable vote of a majority of the Dissertation Advisory Committee.

Electronic Master’s Theses and Doctoral Dissertations Policy

In order to insure that all master’s theses and doctoral dissertations produced at Georgia State University are captured, preserved, and appropriately made available, the University requires all students who produce a master’s thesis or doctoral dissertation in fulfillment of his/her degree to upload the final version of these documents to ScholarWorks@Georgia State University as a condition of the award of the degree.

Requirements for Degree Completion

The purpose of requiring completion of all degree requirements within a fixed period of time is to ensure currency, continuity, and coherence in the academic experiences leading to the degree.

All degree requirements must be successfully completed within nine years of the students’ term of first matriculation. Moreover, all requirements for doctoral candidacy (coursework, comprehensive examination, prospectus approval) must be completed within seven years of the students’ first term of matriculation. No coursework that was completed more than seven years prior to admission to candidacy may be used to meet any doctoral degree requirement.

Enrollment for a minimum of three semester hours of credit is required during at least two out of each three term period following successful completion of the comprehensive examination until graduation. This enrollment must include a minimum of 15 semester hours of dissertation (9990) credit but may also include other coursework.

The students must be enrolled in and successfully complete three semester hours of graduate credit (typically dissertation hours) during the academic term in which all degree requirements are completed.
Graduation

Graduate degree candidates must file a formal application for graduation with the Graduation Office at least two academic terms in advance of their expected graduation dates. Deadlines are published online at http://registrar.gsu.edu/graduation/. Students receiving the Ph.D. degree may have some additional cost relative to graduation.

The form for changing the date of graduation is also located at http://registrar.gsu.edu/graduation/.

General Core Area Requirements (18 hours)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course(3):

- EPRS 8500 Qualitative/Interpretive Research in Education I (3)
- EPRS 8530 Quantitative Methods and Analysis in Education I (3)

Required (12):

- A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
- Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology

- EPRS 8540 Quantitative Methods and Analysis in Education II
- EPRS 8550 Quantitative Methods and Analysis in Education III (3)
- EPRS 8820 Program Evaluation and Institutional Research (3)
- EPRS 8830 Survey Research, Sampling Principles and Questionnaire Design (3)
- EPRS 8840 Meta-Analysis (3)
- EPRS 8660 Bayesian Statistics (3)
- EPRS 9550 Multivariate Analysis (3)
- EPRS 9560 Structural Equation Modeling (3)
- EPRS 9570 Hierarchical Linear Modeling I (3)
- EPRS 9571 Hierarchical Linear Modeling II (3)
- EPRS 9900 Research Design (3)

Qualitative Methodology

- ANTH 8010 Qualitative Methods in Anthropology (3)
- EPRS 8510 Qualitative Research in Education II (3)
- EPRS 8520 Qualitative Research in Education III (3)
• EPRS 8640 Case Study Methods (3)
• EPRS 8700 Visual Research Methods (3)
• EPRS 9120 Poststructural Inquiry (3)
• EPRS 9400 Writing Qualitative Research Manuscripts (3)

Single-Case Methodology

• EPY 8850 Introduction to Single-Case Methodology (3)
• EPY 8860 Applications of Single-Case Methodology (3)

Historical/Philosophical Methodology

• EPSF 9850 Historical Research in Twentieth Century American Education (3)
• EPSF 9930 Philosophical Analysis and Method (3)

Measurement Methodology

• EPRS 7920 Classroom Testing, Grading, and Assessment (3)
• EPRS 8920 Educational Measurement (3)
• EPRS 9350 Introduction to Item Response Theory (3)
• EPRS 9360 Advanced Item Response Theory (3)

Social Foundations of Education and Psychology of Learning Core (3 hours)

In addition to highly specialized research in specific areas, doctoral students in the College of Education and Human Development must possess a deep understanding of comprehensive, theoretical principles and broad ideological conceptualizations.

Through historical, philosophical, sociological, and anthropological inquiry, knowledge of social foundations fosters the types of speculative investigations essential for thorough understandings of those theoretical principles and ideological conceptualizations necessary to uphold the integrity of the Ph.D. degree.

The psychology of learning component is based on the following guiding principles: (1) Educational leaders make judgments that affect learning. (2) Doctoral students should have a substantial understanding of the psychology of learning.

Select one (3):

• EPSF 8270 Philosophy of Education (3)
• EPSF 8280 Anthropology of Education (3)
• EPSF 8310 Sociology of Education (3)
• EPSF 8320 Politics and Policy in Education (3)
• EPSF 8340 History of American Education (3)
• EPSF 9260 Epistemology and Learning (3)
• EPY 8030 Advanced Applied Behavior Analysis (3)
• EPY 8050 The Psychology of Instruction (3)
- EPY 8070 Understanding and Facilitating Adult Learning (3)
- EPY 8080 Memory and Cognition (3)
- EPY 8180 Development During School Age (5 to 18 Years) (3)
- EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
- EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)
4580 Counseling Psychology (Ph.D.)

Doctor of Philosophy (Ph.D.) in Counseling Psychology

Department of Counseling and Psychological Services
950 College of Education Building
404-413-8010
http://cps.education.gsu.edu/
Brian Dew, Chair

The American Psychological Association accredits the Ph.D. major in Counseling Psychology at Georgia State University. It subscribes to a scientist practitioner model for the training of counseling psychologists. Students are prepared to profit from and contribute to the body of knowledge underlying counseling psychology. Graduates are also equipped with a rich array of clinical skills and are eligible for licensure as applied psychologists. The program of study prepares students for employment in academic and private settings.

Philosophy

The services of counseling psychology are primarily directed to the problems of everyday living rather than to psychopathology. Although psychopathology is also studied to allow for a more accurate reading of normal behavior, it is not the central focus of the program. It is rather cultural discontinuities, developmental difficulties and challenges, educational and occupational choice making and adjustment, marriage and family problems, high risk behaviors, unhealthy lifestyles, and the like that receive primary attention. In assisting persons to adjust creatively and to fulfill their human potential, the counseling psychologist is expected to perform three complementary roles: a preventative role in helping persons anticipate, circumvent, and forestall future adjustment difficulties; a developmental role in helping persons make use of life experiences in the realization of their potentials; and a remedial role in helping persons overcome personal problems. Students are trained to use individual and group counseling, psycho-educational techniques, and consultation skills to address the above mentioned problem areas.

The program emphasis is on counseling psychology and not psychological counseling. Therefore, students are expected to affiliate with psychology because it is the generic discipline from which the counseling psychology specialty arises. The program seeks to train psychologists who will prepare themselves for licensure, the diplomate, and other forms of professional sanctioning. While the faculty reserves the right to change program requirements as the need arises, the following is representative of current program requirements for the degree. Students in this program are expected to follow the latest version of the American Psychological Association (APA) Ethical Principles of Psychologists and Code of Conduct.

Program Admission

Students beginning the doctoral program in Counseling Psychology should have completed a master’s degree in an appropriate major, such as counseling or clinical psychology. Students lacking an appropriate master’s (or those with a bachelor’s degree) will be required to complete compensatory curricular experiences as stipulated by their doctoral advisory committees.
The internship (CPS 9680) is an essential component of doctoral training programs in professional psychology. It provides trainees with the opportunity to take substantial responsibility for carrying out major professional functions in the context of appropriate supervisory support, professional role modeling, and awareness of administrative structures. The internship is distinguished from the applied practice experience by the increased responsibility and independence afforded the students and by the more intense nature of client contact. Internships in Counseling Psychology require either a fulltime experience for one academic or calendar year or a halftime experience for two consecutive years.

Program Degree Requirements

Doctor of Philosophy in Counseling Psychology

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):
A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8820 Program Evaluation and Institutional Research (3)
EPRS 8830 Survey Research, Sampling Principles and Questionnaire Design (3)
EPRS 8840 Meta-Analysis (3)
EPRS 8640 Bayesian Statistics (3)
EPRS 9550 Multivariate Analysis (3)
EPRS 9560 Structural Equation Modeling (3)
EPRS 9570 Hierarchical Linear Modeling I (3)
EPRS 9571 Hierarchical Linear Modeling II(3)
EPRS 9900 Research Design (3)

Qualitative Methodology
ANTH 8010 Qualitative Methods in Anthropology (3)
EPRS 8510 Qualitative Research in Education II (3)
EPRS 8520 Qualitative Research in Education III (3)
EPRS 8640 Case Study Methods (3)
EPRS 8700 Visual Research Methods (3)
EPRS 9120 Poststructural Inquiry (3)
EPRS 9400 Writing Qualitative Research Manuscripts (3)

Single-Case Methodology
EPY 8850 Introduction to Single-Case Methodology (3)
EPY 8860 Applications of Single-Case Methodology (3)

Historical/Philosophical Methodology
EPSF 9850 Historical Research in Twentieth Century American Education (3)
EPSF 9930 Philosophical Analysis and Method (3)

Measurement Methodology
EPRS 7920 Classroom Testing, Grading, and Assessment (3)
EPRS 8920 Educational Measurement (3)
EPRS 9350 Introduction to Item Response Theory (3)
EPRS 9360 Advanced Item Response Theory (3)

Social Foundations of Education and Psychology of Learning course (3)

Choose One Course (3):
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

B. Major Area (50-51)

Required (38):
CPS 8350 Biopsychology and Medication (3)
CPS 8370 Advanced Career Counseling (3)
CPS 8450 Advanced Group Counseling (3)
CPS 8530 Professional Issues and Decisions (3)
CPS 8650 Advanced Counseling Theory (3)
CPS 8660 Applied Practice II: Professional and Rehabilitation Counseling (6)
CPS 9480 Supervision of Counseling Services (3)
CPS 9680 Doctoral Internship (3)
CPS 9920 Research and Publication (2)
CPS 9962 Counseling Psychology Seminar (6)
PSYC 8500 History of Psychology (3)

Select one course (3):
PSYC 8510 Advanced Social Psychology (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)
(If EPY 8220 is completed to satisfy the Core area requirements, PSYC 8510 must be completed to satisfy this requirement. EPY 8220 can only be applied to one area of study. It cannot satisfy both the Core Area and the Major Area.)

Select one course (3):
CPS 8100 Psychobehavioral Diagnosis (3)
CPS 8540 Child/Adolescent Psychopathology Assessment (3)

Required (3):
CPS 9665 Assessment Practicum (3)

Select one course (3-4):
CPS 9410 Assessment of Intelligence (3)
CPS 9420 Adult Personality Assessment (3)
PSYC 8030 Assessment II (4)

C. Cognate Area (18)

Required (9):
CPS 8340 Advanced Multicultural Counseling Strategies and Intervention (3)
CPS 9660 Applied Practice III (6)

The cognate area provides the students an opportunity to enrich their preparation as counseling psychologists with further study in a related area of expertise. The students must select one of the following cognate areas (9): child and family, clinical assessment, health psychology, human sexuality, psychotherapy, multicultural, geriatric psychology, organizational development, rehabilitation psychology, or research methodology. Students should contact their Doctoral Advisory Committees for a program outline for Counseling Psychology. The program outline describes the course sequencing and describes additional cognate course requirements.

D. Dissertation (15)

Required (15):
CPS 9990 Dissertation (15)

Program total: minimum of 101-102 semester hours
4590 Counselor Education and Practice (Ph.D.)

Doctor of Philosophy (Ph.D.) in Counselor Education and Practice

Department of Counseling and Psychological Services
950 College of Education Building
404-413-8010
http://cps.education.gsu.edu/
Brian Dew, Chair

The Counselor Education and Practice program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) Doctoral training extends beyond course content hours and field experiences. Doctoral students learn to examine critically the state of the art, to generate research inquiries, and to advance the profession of counseling through oral and written contributions. The doctoral level counselor represents a “scientist-practitioner” model and should be both consumer and producer of research. Students in this program are expected to follow the most recent version of the American Counseling Association (ACA) Code of Ethics.

Departmental Endorsement Policy

The Department of Counseling and Psychological Services requires that program faculty endorsement be given only for the program for which the graduate students have been prepared.

Program Degree Requirements

Doctor of Philosophy in Counselor Education and Practice

A. Core Area (21)

The Core Area consists of 18 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (18 hours)

Required (6):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):

A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
In addition to highly specialized research in specific areas, doctoral students in the College of Education and Human Development must possess a deep understanding of comprehensive, theoretical principles and broad ideological conceptualizations.

Through historical, philosophical, sociological, and anthropological inquiry, knowledge of social foundations fosters the types of speculative investigations essential for thorough understandings of those theoretical principles and ideological conceptualizations necessary to uphold the integrity of the Ph.D. degree.

The psychology of learning component is based on the following guiding principles: (1) Educational leaders make judgments that affect learning. (2) Doctoral students should have a substantial understanding of the psychology of learning.
Select one (3):
EPSF 8270 Philosophy of Education (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8310 Sociology of Education (3)
EPSF 8320 Politics and Policy in Education (3)
EPSF 8340 History of American Education (3)
EPSF 9260 Epistemology and Learning (3)
EPY 8030 Advanced Applied Behavior Analysis (3)
EPY 8050 The Psychology of Instruction (3)
EPY 8070 Understanding and Facilitating Adult Learning (3)
EPY 8080 Memory and Cognition (3)
EPY 8180 Development During School Age (5 to 18 Years) (3)
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

B. Major Area (44)

Required (44):
CPS 8370 Advanced Career Counseling (3)
CPS 8450 Advanced Group Counseling (3)
CPS 8530 Professional Issues and Decisions (3)
CPS 8650 Advanced Counseling Theory (3)
CPS 8660 Applied Practice II: Professional and Rehabilitation Counseling (3)
CPS 9480 Supervision of Counseling Services (3)
CPS 9660 Applied Practice III (3)
CPS 9661 Supervision Internship (3)
CPS 9680 Doctoral Internship (9)
CPS 9920 Research and Publication (2)
CPS 9963 Leadership in Counselor Education: Professional and Social Advocacy (6)
EPY 9000 Facilitating College Teaching (3)

C. Cognate Area and Elective (12)

The cognate area provides students an opportunity to enrich their preparation as a counselor with further study in a related area of expertise. Students select one of the following cognate areas:

Clinical Rehabilitation Counseling
Behavior Therapy
Research
Wellness
Multiculturalism
Child Clinical/Family

Students may design an individual cognate area with permission from their Doctoral Advisory Committee. The students’ Doctoral Advisory Committee may require courses in the cognate area be from outside the department, outside the College of Education and Human Development, or both.
D. Dissertation (15)

Required (15):
CPS 9990 Dissertation (15)

Program total: minimum of 92 semester hours
Philosophy

The theoretical stance of the Early Childhood and Elementary Education PhD Program is pragmatic. No single theory or research approach can solve the complex issues that impact children in a rapidly changing world; thus, we (the PhD faculty) believe that collaborative, comprehensive research and scholarship is our most powerful tool for investigating and answering questions about children’s learning and education. Our diverse faculty has expertise in qualitative and quantitative research and evaluation. Interweaving theory, research, and practice, we inquire about how children’s learning is shaped by educational inequities across race, gender, (dis)ability, and social class; educational globalization; community, home, and school connections; culturally responsive pedagogy; urban education; and curricular and technological innovations. We leverage this expertise to advocate for children’s learning in multiple contexts, in and out of school.

Program Academic Regulations

If students in the Educational Specialist program in Early Childhood Education completed ECE 8400 Teacher Development (3) and ECE 8410 Curriculum Theory, Design, and Application (3), these courses can substitute for ECE 9360 Curriculum, Issues, and Historical Perspectives in Early Childhood and Elementary Education (3) and ECE 9400 Teacher Development (3) in the Ph.D. program in Early Childhood and Elementary Education.

In addition to the college-wide requirements for doctoral students, the department requires that each doctoral student has experience with young children and that each student participate in Residency experiences. For a detailed description of program requirements, please refer to the Program Manual for the Doctor of Philosophy Degree in Early Childhood and Elementary Education available from the department.

Components

Each doctoral student’s planned program of study is divided into two academic components: Research and the Major. The Research component includes 21 credit hours, including a Core set of courses that introduce research methods as well as courses that deepen knowledge about a particular set of complementary methods (qualitative, quantitative, and mixed methods). The Major includes a set of 27 hours of courses intended to deepen knowledge of research methodologies that guide scholarly inquiry in elementary and early childhood education, theories of human development, curricular issues, and historical perspectives. The Major also includes a set of electives from which students can choose. Electives can also
be taken outside the Department of Early Childhood and Elementary Education. Students will choose electives that will, together, create an area of specialization. Each program of study will culminate with a dissertation.

Research and Evaluation Design and Methodology

Doctoral students are expected to be able to design, implement, and interpret research. Therefore, doctoral students are expected to have knowledge of research designs and methods. Doctoral students are also expected to engage in high quality research via a research apprenticeship experience and a dissertation. Courses suggested to develop this competence are listed in the Program Manual for the Doctor of Philosophy Degree in Early Childhood and Elementary Education.

Early Childhood and Elementary Education

All doctoral students in the Early Childhood and Elementary Education Major will be expected to promote scholarly advocacy for children, to understand the nature of children and their development, to understand theories undergirding educational practices and issues, and to excel as teacher educators. Required residency experiences ensure that students develop knowledge and skills about mentoring and teaching educators as well as conducting research. Courses required in the Major ensure that doctoral students share knowledge about historical, political, developmental, and theoretical paradigms that have shaped educational contexts and research. In addition, elective courses allow for individualization of the doctoral program to create an area of expertise within Early Childhood and Elementary Education. The Major course offerings are further described in the Program Manual for the Doctor of Philosophy Degree in Early Childhood and Elementary Education.

Planned Study

Planning doctoral study coursework to address the goals mentioned above is done in consultation with an Advisor with consideration of each student’s career goals, prior academic work, and professional experience. Each program, therefore, is unique. However, the following courses are offered:

Program Degree Requirements

Doctor of Philosophy in Early Childhood and Elementary Education

A. Core Area (21)

The Core Area consists of 18 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (18 hours)

Required (6):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):
A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8820 Program Evaluation and Institutional Research (3)
EPRS 8830 Survey Research, Sampling Principles and Questionnaire Design (3)
EPRS 8840 Meta-Analysis (3)
EPRS 8660 Bayesian Statistics (3)
EPRS 9550 Multivariate Analysis (3)
EPRS 9560 Structural Equation Modeling (3)
EPRS 9570 Hierarchical Linear Modeling I (3)
EPRS 9571 Hierarchical Linear Modeling II (3)
EPRS 9900 Research Design (3)

Qualitative Methodology
ANTH 8010 Qualitative Methods in Anthropology (3)
EPRS 8510 Qualitative Research in Education II (3)
EPRS 8520 Qualitative Research in Education III (3)
EPRS 8640 Case Study Methods (3)
EPRS 8700 Visual Research Methods (3)
EPRS 9120 Poststructural Inquiry (3)
EPRS 9400 Writing Qualitative Research Manuscripts (3)

Single-Case Methodology
EPY 8850 Introduction to Single-Case Methodology (3)
EPY 8860 Applications of Single-Case Methodology (3)

Historical/Philosophical Methodology
EPSF 9850 Historical Research in Twentieth Century American Education (3)
EPSF 9930 Philosophical Analysis and Method (3)

Measurement Methodology
EPRS 7920 Classroom Testing, Grading, and Assessment (3)
EPRS 8920 Educational Measurement (3)
EPRS 9350 Introduction to Item Response Theory (3)
EPRS 9360 Advanced Item Response Theory (3)

Social Foundations of Education and Psychology of Learning Core (3 hours)

In addition to highly specialized research in specific areas, doctoral students in the College of Education and Human Development must possess a deep understanding of comprehensive, theoretical principles and broad ideological conceptualizations.

Through historical, philosophical, sociological, and anthropological inquiry, knowledge of social foundations fosters the types of speculative investigations essential for thorough understandings of those
theoretical principles and ideological conceptualizations necessary to uphold the integrity of the Ph.D. degree.

The psychology of learning component is based on the following guiding principles: (1) Educational leaders make judgments that affect learning. (2) Doctoral students should have a substantial understanding of the psychology of learning.

Select one (3):
EPSF 8270 Philosophy of Education (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8310 Sociology of Education (3)
EPSF 8320 Politics and Policy in Education (3)
EPSF 8340 History of American Education (3)
EPSF 9260 Epistemology and Learning (3)
EPY 8030 Advanced Applied Behavior Analysis (3)
EPY 8050 The Psychology of Instruction (3)
EPY 8070 Understanding and Facilitating Adult Learning (3)
EPY 8080 Memory and Cognition (3)
EPY 8180 Development During School Age (5 to 18 Years) (3)
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

B. Major Area (27)

Required (12):
ECE 9360 Curriculum, Issues, and Historical Perspectives in Early Childhood and Elementary Education (3)
ECE 9800 Scholarly Inquiry (3)
ECE 9860 Evaluating and Interpreting Research in Early Childhood and Elementary Education (3)
ECE 9960 Advanced Theory and Research in Child Development (3)

Elective Courses: (minimum 15)
At least 12 hours of elective courses must come from within the department. Doctoral-level elective courses offered within the Department include:
EPRS 9120/ECE 9120 Poststructural Inquiry (3)
ECE 9380/EPRS 9380 Discourse Analysis (3)
ECE 9393 Number and Operation in the Elementary Classroom (3)
ECE 9394 Geometry and Measurement in the Elementary Classroom (3)
ECE 9395 Rational Numbers and Algebra in the Elementary Classroom (3)
ECE 9396 Data Analysis and Probability in the Elementary Classroom (3)
ECE 9400 Teacher Development (3)
ECE 9420 Early Literacy Learning (3)
ECE 9810 Directed Readings (1-3)
ECE 9820 Teacher-Child Relationships in Early Childhood (3)
ECE 9840 Socio-Cultural Issues in Early Childhood and Elementary Education (3)
ECE 9850 Research Seminar in Early Childhood and Elementary Education (3)
ECE 9890 Research Apprenticeship (3)
K-5 Mathematics Endorsement (optional):

As part of the coursework leading to the Doctor of Philosophy degree, students who hold a current teaching certification from the Georgia Professional Standards Commission may satisfy part of the K-5 Mathematics Endorsement requirements by completing four 9000-level courses (ECE 9393, ECE 9394, ECE 9395, and ECE 9396). To apply for the K-5 Mathematics Endorsement, students must also complete ECE 7740 Internship in Early Childhood Education I (3) while enrolled in one of the four specified 9000-level endorsement courses. ECE 7740 does not satisfy the 8000-9000 level-course requirements for the College of Education and Human Development courses applicable to the Doctor of Philosophy degree.

C. Dissertation (15)

Required (15):
ECE 9990 Dissertation (15)

Program total: minimum of 63 semester hours
4610 Education of Students with Exceptionalities (Ph.D.)

Doctor of Philosophy (Ph.D.) in Education of Students with Exceptionalities

Department of Educational Psychology, Special Education and Communication Disorders
835 College of Education Building
404-413-8040
http://esc.education.gsu.edu/
Laura Fredrick, Chair

Concentration Areas: Autism Spectrum Disorders; Behavior Disorders; Communication Disorders;
Deaf/Hard of Hearing; Early Childhood Special Education; Intellectual Disabilities Learning Disabilities;
Physical and Health Disabilities (Orthopedic Impairments)

The Ph.D. major in Education of Students with Exceptionalities provides graduates with the skills
necessary to succeed in university positions as they perform the roles of teaching, research, and grant
writing; and/or to provide a high level of competence for leadership in a variety of community, state, or
national service agencies. The program is designed to educate future special education leaders in greater
knowledge, understanding, and expertise in one area of concentration in special education, while at the
same time making sure that they are fully equipped with a broad knowledge of general special education
and with advanced skills in research and design methods.

Evaluation of a student’s performance is continuous and involves consideration of the student’s
performance in all academic settings. Students who fail to make progress in a timely manner or who
demonstrate inappropriate or unprofessional conduct may be withdrawn from a course or the program. If
such removal from a course is necessary, the student will receive the grade of “F” and may be judged
ineligible to reenroll in the course.

Students complete coursework depending on their background and concentration. These could be special
education (EXC) courses or any university courses that support the major area of study and are approved
by the student’s Doctoral Advisory Committee.

Program Degree Requirements

Doctor of Philosophy in Education of Students with Exceptionalities

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social
Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)

- EXC 9900 Research Seminar in Special Education (3)
- EXC 9981 Grant Proposal Writing in Special Education (3)
- EXC 9985 Ethics and the Advancement of Research (3)

Select (3): Course will be selected and approved by the student’s Doctoral Advisory Committee.

C. University Teaching Cognate (6)

Required (6):
- EPY 9000 Facilitating College Teaching (3)
- EXC 9660 Internship in Special Education I (3)

D. Dissertation (15)

Required (15):
- EXC 9990 Dissertation (15)

Program total: minimum of 58 semester hours
4620 Educational Policy Studies (Ph.D.)

Doctor of Philosophy (Ph.D.) in Educational Policy Studies

Department of Educational Policy Studies
450 College of Education Building
404-413-8030
http://eps.education.gsu.edu/
William Curlette, Chair

Concentration Areas: Educational Leadership; Research, Measurement, and Statistics; Social Foundations of Education

The Ph.D. major in Educational Policy Studies allows students to examine the philosophy and practice of education and to utilize various methods for the study of educational theory and practice to become policy makers and examiners of policy and the effects of policy on education. The broader requirements of the Department of Educational Policy Studies offer students the opportunity to link their programs of study with broader social and educational issues in such areas as race, gender, class, leadership, and policy. This broader context establishes an understanding of the programs of study as essential components rather than separate structures of our social, economic, and political lives.

Concentration Areas

Students select one of the concentration areas as part of his or her doctoral program. Newly admitted students will be assigned a temporary adviser from the department at the time of admission.

Concentration in Educational Leadership

This concentration emphasizes organizational leadership, policy development, supervision, and management. The leadership concentration will be designed to satisfy the career objectives of the students. Graduates may anticipate careers in school administration, governmental education agencies, and the professorate.

Concentration in Research, Measurement, and Statistics

This concentration prepares graduates to investigate research methodologies, to conduct research related to schools, and to conduct and critique research in educational practice, policy, and administration. Students develop knowledge and skills in qualitative and quantitative research and evaluation methods.

Concentration in Social Foundations of Education

Social foundations is a broadly conceived field of educational study that derives its character from a number of academic disciplines and interdisciplinary studies. At Georgia State University, the disciplines involved in social foundations inquiry are history, philosophy, sociology, anthropology, and political science; the interdisciplinary field is cultural studies. The purpose of social foundations study is to bring the intellectual resources derived from these areas to bear in developing interpretive, normative, and critical perspectives of
educational theory, policy, and practices, both inside of and outside of schools.

Program Degree Requirements

Doctor of Philosophy in Educational Policy Studies

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):

A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8820 Program Evaluation and Institutional Research (3)
EPRS 8830 Survey Research, Sampling Principles and Questionnaire Design (3)
EPRS 8840 Meta-Analysis (3)
EPRS 8660 Bayesian Statistics (3)
EPRS 9550 Multivariate Analysis (3)
EPRS 9560 Structural Equation Modeling (3)
EPRS 9570 Hierarchical Linear Modeling I (3)
EPRS 9571 Hierarchical Linear Modeling II (3)
EPRS 9900 Research Design (3)

Qualitative Methodology

EPY 8860 Applications of Single-Case Methodology (3)
Historical/Philosophical Methodology
EPSF 9850 Historical Research in Twentieth Century American Education (3)
EPSF 9930 Philosophical Analysis and Method (3)

Measurement Methodology
EPRS 7920 Classroom Testing, Grading, and Assessment (3)
EPRS 8920 Educational Measurement (3)
EPRS 9350 Introduction to Item Response Theory (3)
EPRS 9360 Advanced Item Response Theory (3)

Social Foundations of Education and Psychology of Learning Core (3 hours)

In addition to highly specialized research in specific areas, doctoral students in the College of Education and Human Development must possess a deep understanding of comprehensive, theoretical principles and broad ideological conceptualizations.

Through historical, philosophical, sociological, and anthropological inquiry, knowledge of social foundations fosters the types of speculative investigations essential for thorough understandings of those theoretical principles and ideological conceptualizations necessary to uphold the integrity of the Ph.D. degree.

The psychology of learning component is based on the following guiding principles: (1) Educational leaders make judgments that affect learning. (2) Doctoral students should have a substantial understanding of the psychology of learning.

Select one (3):
EPSF 8270 Philosophy of Education (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8310 Sociology of Education (3)
EPSF 8320 Politics and Policy in Education (3)
EPSF 8340 History of American Education (3)
EPSF 9260 Epistemology and Learning (3)
EPY 8030 Advanced Applied Behavior Analysis (3)
EPY 8050 The Psychology of Instruction (3)
EPY 8070 Understanding and Facilitating Adult Learning (3)
EPY 8080 Memory and Cognition (3)
EPY 8180 Development During School Age (5 to 18 Years) (3)
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

The Social Foundations and Psychology of Learning Core requirements (3) must be completed during the first two years of the students’ program.

B. Major Area (24)

The students must take EPS 9270 during the first year after being admitted and EPS 9260 during the subsequent academic term.
Required (6):
EPS 9260 Issues of Race, Class, and Gender in Education (3)
EPS 9270 Research in Educational Policy Studies (3)

The students select one of the following three concentration areas:

B.1 – Ph.D. Concentration in Educational Leadership (18 hours)

In consultation with your doctoral advisory committee, please choose six courses from one of these specializations: Leadership and Administration (This specialization can be designed to add-on the PL Georgia Leadership certification to a level 6 or level 7 certification. Students interested in the PL certification must meet all prerequisites described for the program.); Leadership and Policy; or Leadership and Urban Education. These specializations are specifically designed for candidates who aspire to positions in academia and other closely related areas. For questions about the PL certification requirements, please contact the coordinator of the educational leadership program.

Leadership and Administration Specialization (18):

This specialization can be designed to add-on the PL Georgia leadership certification to a level 6 or level 7 certificate. Completion of the prerequisite courses – EPEL 7000 and EPEL 7330 is required prior to beginning the concentration courses for those seeking PL leadership certification.

EPEL 8000 Research in Educational Leadership and Organizational Culture (3)
EPEL 8020 Leadership for Change in a Diverse Society (3)
EPEL 8260 Theory in Educational Leadership (3)
EPEL 8330 Advanced Law, Policy, and Governance (3)
EPEL 8420 Advanced Instructional Leadership (3)
EPEL 8500 Central Office Leadership (3)
EPEL 8620 Psychological Aspects of Leadership (3)
EPEL 8650 The Principal (3)
EPEL 8690 Research-Based Decision Making for School Leaders (3)
EPEL 8970 Seminar in Educational Leadership (3) (repeatable)

Leadership and Policy Specialization (18):

This specialization is not designed to meet Georgia PL certification requirements. It is specifically designed for students who seek to gain a clearer understanding of the issues associated with educational leadership and how those issues are related to the policy arena.

EPEL 8020 Leadership for Change in a Diverse Society (3)
EPEL 8260 Theory in Educational Leadership (3)
EPEL 8330 Advanced Law, Policy, and Governance (3)
EPEL 8620 Psychological Aspects of Leadership (3)
EPS 8800 Independent Study (3)
EPS 8810 Directed Reading and Research (1-3)
EPS 8970 Seminar in Educational Policy Studies (3)
EPS 9980 Research Seminar in Educational Policy Studies (3)
Leadership and Urban Education Specialization (18):

This specialization is not designed to meet Georgia PL certification requirements. It is specifically designed for students who seek to better understand educational leadership as it relates to the urban education and the issues associated with educating urban children.

EPEL 8020 Leadership for Change in a Diverse Society (3)
EPEL 8260 Theory in Educational Leadership (3)
EPEL 8970 Seminar in Educational Leadership (3) (repeatable)
EPEL 9000 Concepts of Leadership and Research in Educational Leadership (3)
EPEL 9970 Advanced Seminar in Educational Leadership (3)
EPS 8800 Independent Study (3)
EPS 8810 Directed Reading and Research (1-3)
EPSF 8010 Cultural Studies in Education: Film (3)
EPSF 8040 Cultural Studies in Education: Gender (3)
EPSF 8260 Sociology of Inner-City Children (3)
EPSF 8340 History of American Education (3)

Other appropriate courses numbered 8000 to 8999 may be selected with the consultation of your advisor and the coordinator of educational leadership programs.

B.2 – Ph.D. Concentration in Research, Measurement, and Statistics (18 hours)

Select six courses (18) from the list below:
ECE 9380/EPRS 9380 Discourse Analysis (3)
EPRS 8500 Qualitative/Interpretative Research in Education I (3)
EPRS 8510 Qualitative Research in Education II (3)
EPRS 8520 Qualitative Research in Education III (3)
EPRS 8530 Quantitative Methods and Analysis in Education I (3)
EPRS 8540 Quantitative Methods and Analysis in Education II (3)
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8600 Computer Use in Educational Research (3)
EPRS 8620 Program Evaluation I (3)
EPRS 8640 Case Study Methods (3)
EPRS 8660 Bayesian Statistics (3)
EPRS 8670 Practicum in Research or Program Evaluation (3)
EPRS 8700 Visual Research Methods (3)
EPRS 8820 Program Evaluation and Institutional Research (3)
EPRS 8830 Survey Research, Sampling Principles, and Questionnaire Design (3)
EPRS 8840 Meta-Analysis (3)
EPRS 8920 Educational Measurement (3)
EPRS 9120/ECE 9120 Poststructural Inquiry (3)
EPRS 9350 Introduction to Item Response Theory (3)
EPRS 9360 Advanced Item Response Theory (3)
B.3 – Ph.D. Concentration in Social Foundations of Education (18 hours)

Select six courses (18) from the list below:
EPSF 8010 Cultural Studies in Education: Film (3)
EPSF 8040 Cultural Studies in Education: Gender (3)
EPSF 8260 Sociology of Inner-City Children (3)
EPSF 8270 Philosophy of Education (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8310 Sociology of Education (3)
EPSF 8320 Politics and Policy in Education (3)
EPSF 8330 Globalization and Education Policy (3)
EPSF 8340 History of American Education (3)
EPSF 8350 Comparative Educational Systems (3)
EPSF 8440 Foundations of Curriculum Development (3)
EPSF 9260 Epistemology and Learning (3)

C. Cognate Area (12)

The major and cognate areas should represent a cohesive program of study.

D. Dissertation (15)

Required (15):
EPS 9990 Dissertation (15)

Program total: minimum of 69 semester hours
4630 Educational Psychology (Ph.D.)

Doctor of Philosophy (Ph.D.) in Educational Psychology

Department of Educational Psychology, Special Education, and Communication Disorders
835 College of Education Building
404-413-8040
http://esc.education.gsu.edu/
Laura Fredrick, Chair

The Ph.D. major in Educational Psychology develops a substantial knowledge base in the related fields defining educational psychology. This program prepares persons for careers as faculty members in colleges and universities, as researchers in departments of education and in government and business, and as professionals in training research programs in government and industry.

Program Academic Regulations

Doctoral students in Educational Psychology who have little or no background in educational psychology may be required to complete additional coursework beyond the minimum requirements described below.

Students must complete the departmental residency requirements. Transfer credit hours may not be used to satisfy more than one third of the credit hours for the major area. Details of these requirements and clarification of other policies are available in the Educational Psychology’s Policy Guide for Doctoral Students available at http://esc.education.gsu.edu/academics-and-admissions/educational-psychology-ph-d/.

Evaluation of a student’s performance is continuous and involves consideration of the student’s performance in all academic settings. Only courses in which a student earns a grade of “B” or higher will be counted toward degree fulfillment. Failure to make progress in a timely manner or inappropriate or unprofessional conduct by a student may result in the students being withdrawn from a course or the program. If such removal from a course is necessary, the student will receive a grade of “F” for the course and may be judged ineligible to reenroll in that course.

Program Degree Requirements

Doctor of Philosophy in Educational Psychology

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):

A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8820 Program Evaluation and Institutional Research (3)
EPRS 8830 Survey Research, Sampling Principles and Questionnaire Design (3)
EPRS 8840 Meta-Analysis (3)
EPRS 8660 Bayesian Statistics (3)
EPRS 9550 Multivariate Analysis (3)
EPRS 9560 Structural Equation Modeling (3)
EPRS 9570 Hierarchical Linear Modeling I (3)
EPRS 9571 Hierarchical Linear Modeling II (3)
EPRS 9900 Research Design (3)

Qualitative Methodology
ANTH 8010 Qualitative Methods in Anthropology (3)
EPRS 8510 Qualitative Research in Education II (3)
EPRS 8520 Qualitative Research in Education III (3)
EPRS 8640 Case Study Methods (3)
EPRS 8700 Visual Research Methods (3)
EPRS 9120 Poststructural Inquiry (3)
EPRS 9400 Writing Qualitative Research Manuscripts (3)

Single-Case Methodology
EPY 8850 Introduction to Single-Case Methodology (3)
EPY 8860 Applications of Single-Case Methodology (3)

Historical/Philosophical Methodology
EPSF 9850 Historical Research in Twentieth Century American Education (3)
EPSF 9930 Philosophical Analysis and Method (3)

Measurement Methodology
EPRS 7920 Classroom Testing, Grading, and Assessment (3)
EPRS 8920 Educational Measurement (3)
EPRS 9350 Introduction to Item Response Theory (3)
EPRS 9360 Advanced Item Response Theory (3)

Social Foundations of Education and Psychology of Learning Core (3 hours)

In addition to highly specialized research in specific areas, doctoral students in the College of Education and Human Development must possess a deep understanding of comprehensive, theoretical principles and
broad ideological conceptualizations.

Through historical, philosophical, sociological, and anthropological inquiry, knowledge of social foundations fosters the types of speculative investigations essential for thorough understandings of those theoretical principles and ideological conceptualizations necessary to uphold the integrity of the Ph.D. degree.

The psychology of learning component is based on the following guiding principles: (1) Educational leaders make judgments that affect learning. (2) Doctoral students should have a substantial understanding of the psychology of learning.

Select one (3):
EPSF 8270 Philosophy of Education (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8310 Sociology of Education (3)
EPSF 8320 Politics and Policy in Education (3)
EPSF 8340 History of American Education (3)
EPSF 9260 Epistemology and Learning (3)
EPY 8030 Advanced Applied Behavior Analysis (3)
EPY 8050 The Psychology of Instruction (3)
EPY 8070 Understanding and Facilitating Adult Learning (3)
EPY 8080 Memory and Cognition (3)
EPY 8180 Development During School Age (5 to 18 Years) (3)
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

B. Major Area (18-24)

Required (9):
EPY 8010 Professional Studies in Educational Psychology (3)
EPY 8961 Professional Development Seminar in Educational Psychology (3)
EPY 9000 Facilitating College Teaching (3)

Select (9-15): Students must select a minimum of 15 hours of additional credit hours of coursework, a majority of which must be in educational psychology. As an exception, students who have a Master’s degree in Educational Psychology from Georgia State University select a minimum of 9 additional credit hours.

C. Dissertation (15)

Required (15):
EPY 9990 Dissertation (15)

Program total: minimum of 51-57 semester hours
4640 Instructional Technology (Ph.D.)

Doctor of Philosophy (Ph.D.) in Instructional Technology

Learning Technologies Division
233-242, 2nd Floor, College of Education building
http://ltd.education.gsu.edu/
Stephen Harmon, Chair

The Ph.D. major in Instructional Technology provides specialization for individuals in the following areas: instructional design, alternative instructional delivery systems, research, management, and consulting. The program is designed for highly competent individuals who are working in the instructional technology field in a wide variety of educational, training, and development areas such as those found in schools, higher education, business, industry, and government agencies.

Program Degree Requirements

Doctor of Philosophy in Instructional Technology

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):

A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8820 Program Evaluation and Institutional Research (3)
EPRS 8830 Survey Research, Sampling Principles and Questionnaire Design (3)
EPRS 8840 Meta-Analysis (3)
EPRS 8660 Bayesian Statistics (3)
EPRS 9550 Multivariate Analysis (3)
EPRS 9560 Structural Equation Modeling (3)
EPRS 9570 Hierarchical Linear Modeling I (3)
EPRS 9571 Hierarchical Linear Modeling II (3)
EPRS 9900 Research Design (3)

Qualitative Methodology
ANTH 8010 Qualitative Methods in Anthropology (3)
EPRS 8510 Qualitative Research in Education II (3)
EPRS 8520 Qualitative Research in Education III (3)
EPRS 8640 Case Study Methods (3)
EPRS 8700 Visual Research Methods (3)
EPRS 9120 Poststructural Inquiry (3)
EPRS 9400 Writing Qualitative Research Manuscripts (3)

Single-Case Methodology
EPY 8850 Introduction to Single-Case Methodology (3)
EPY 8860 Applications of Single-Case Methodology (3)

Historical/Philosophical Methodology
EPSF 9850 Historical Research in Twentieth Century American Education (3)
EPSF 9930 Philosophical Analysis and Method (3)

Measurement Methodology

Social Foundations of Education and Psychology of Learning Core (3 hours)

In addition to highly specialized research in specific areas, doctoral students in the College of Education and Human Development must possess a deep understanding of comprehensive, theoretical principles and broad ideological conceptualizations.

Through historical, philosophical, sociological, and anthropological inquiry, knowledge of social foundations fosters the types of speculative investigations essential for thorough understandings of those theoretical principles and ideological conceptualizations necessary to uphold the integrity of the Ph.D. degree.

The psychology of learning component is based on the following guiding principles: (1) Educational leaders make judgments that affect learning. (2) Doctoral students should have a substantial understanding of the psychology of learning.

Select one (3):
EPSF 8270 Philosophy of Education (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8310 Sociology of Education (3)
EPSF 8320 Politics and Policy in Education (3)
EPSF 8340 History of American Education (3)
EPSF 9260 Epistemology and Learning (3)
EPY 8030 Advanced Applied Behavior Analysis (3)  
EPY 8050 The Psychology of Instruction (3)  
EPY 8070 Understanding and Facilitating Adult Learning (3)  
EPY 8080 Memory and Cognition (3)  
EPY 8180 Development During School Age (5 to 18 Years) (3)  
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)  
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

B. Major Area (27)

The required courses provide a conceptual base of research, emerging issues in education, and an in-depth examination of research in the major field. The internship (LT 8660) facilitates the application of theory to practice in the major field of study.

Required (15):

LT 9850 Research Seminar in Learning Technologies (9)  
(Students will take LT 9850 for one hour every semester until they are admitted into candidacy.)  
LT 9900 Critique of Educational Research in Learning Technologies (3)  
LT 8660 Internship in Instructional Technology (3)

Select (12):  
Students and Doctoral Advisory Committee select additional departmental courses relating to instructional technology.

C. Dissertation (15)

Required (15):  
LT 9990 Dissertation (15)

Program total: minimum of 60 semester hours
4650 Kinesiology (Ph.D.)

Doctor of Philosophy (Ph.D.) in Kinesiology

Department of Kinesiology and Health
137 Sports Arena
404-413-8050
http://kh.education.gsu.edu/
Mark Geil, Chair

Concentration Areas: Biomechanics and Physical Rehabilitation, Exercise Physiology, Exercise Psychology, Physical Education Teacher Education, Sport Administration

The Ph.D. major in Kinesiology is designed to prepare students for research and teaching careers at colleges and universities and for health, physiological performance, rehabilitative science, and related fields. Concentration areas that are available within this program: Biomechanics and Physical Rehabilitation, Exercise Physiology, Exercise Psychology, Physical Education Teacher Education, and Sport Administration.

The concentration in Biomechanics and Physical Rehabilitation focuses on the scientific description of human movement through advanced techniques utilizing computerized film and high speed video graphical analysis systems, computerized force measuring systems, electromyography, and other state-of-the-art instrumentation with applications in many disciplines, including ergonomics, engineering, medicine, sport, and exercise.

The concentration in Exercise Physiology prepares students to teach and to conduct research in areas related to cardiopulmonary and neuromuscular physiology with particular emphases on exercise metabolism and performance in healthy populations, and in populations with chronic diseases (e.g., cardiovascular, metabolic, and neuromuscular diseases).

The concentration in Exercise Psychology prepares students to teach and to conduct research in areas related to the correlates of physical activity, mental health benefits of physical activity, theory-based behavior change strategies, and the design, implementation, and testing of theory-based physical activity interventions. Completion of this concentration will not lead to students becoming licensed psychologists.

The concentration in Physical Education Teacher Education (PETE) prepares students for careers in higher education as scholars, researchers, and teacher educators. Research expertise will be acquired in the areas of instruction, curriculum, assessment, teacher education, and teacher development. The cognate area will prepare students as members of communities of scholars in higher education.

The concentration in Sport Administration prepares students to teach and conduct research in areas related to sport administration, including sport management, marketing, finance, law, or communication.

Program Degree Requirements

Doctor of Philosophy in Kinesiology
A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)

- EPY 8030 Advanced Applied Behavior Analysis (3)
- EPY 8050 The Psychology of Instruction (3)
- EPY 8070 Understanding and Facilitating Adult Learning (3)
- EPY 8080 Memory and Cognition (3)
- EPY 8180 Development During School Age (5 to 18 Years) (3)
- EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
- EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

B. Major Area (19-21)

The students select one of the following four concentration areas:

B1 – Biomechanics and Physical Rehabilitation Concentration (19)

Required (19):
- KH 8830 Motion Analysis (4)
- KH 8870 Biomechanics of Orthopedic Injuries (3)
- KH 9560 Neuromechanics of Human Locomotion (3)
- KH 9820 Research in Kinesiology (5)
- KH 9960 Advanced Research Seminar in Kinesiology (4)
B2 – Exercise Physiology Concentration (19)

Required (19):
KH 9520 Advanced Exercise Physiology: Energy Metabolism (3)
KH 9530 Advanced Exercise Physiology: Cardiorespiratory (3)
KH 9550 Advanced Exercise Physiology: Myocellular (3)
KH 9820 Research in Kinesiology (6)
KH 9960 Advanced Research Seminar in Kinesiology (4)

B3 – Exercise Psychology Concentration (19)

Required (19):
CPS 8820 Health Psychology (3)
KH 8600 Physical Activity Interventions and Behavior Change (3)
KH 9280 Advanced Topics in Exercise Psychology (3)
KH 9820 Research in Kinesiology (6)
KH 9960 Advanced Research Seminar in Kinesiology (4)

B4 – Physical Education Teacher Education Concentration (21)

Required (15):
KH 9660 Analysis of Teaching Physical Education (3)
KH 9670 Models of Teacher Education in Physical Education (3)
KH 9820 Research in Kinesiology (3)
KH 9830 Research on Teaching and Learning in Physical Education (3)
KH 9960 Advanced Research Seminar in Kinesiology (3)

Select 6 hours from the list of courses:
KH 8610 Curriculum Theory in Physical Education (3)
KH 8620 Assessment Theory in Physical Education (3)
KH 8630 Instructional Design for Physical Education (3)
KH 8685 Initial Supervision and Teacher Development in Physical Education (3)
KH 8690 Technology in Physical Education Instruction and Teacher Education (3)
Other appropriate courses numbered 8000-8999 may be substituted into the program of study with the approval of the student’s Doctoral Advisory Committee.

B5 – Sport Administration Concentration (19)

Required (19):
KH 9290 Current Topics in Sport Administration (3)
KH 9570 Advanced Theory in Sport Administration (3)
KH 9610 Sport Consumer Behavior (3)
KH 9820 Research in Kinesiology (6)
KH 9960 Advanced Research Seminar in Kinesiology (4)

C. Cognate Area (9)
Coursework applied to meet the cognate area requirement must be taken outside the major field of study.

\textbf{C1 – Biomechanics Concentration (9):}

The purpose of the cognate area requirement is to provide opportunities for doctoral students to develop an extended knowledge base associated with the major field of study. Courses fulfilling the cognate requirement will be determined in consultation with the doctoral advisor and approved by the Doctoral Advisory Committee.

\textbf{C2 – Exercise Physiology Concentration (9):}

The purpose of the cognate area requirement is to provide opportunities for doctoral students to develop an extended knowledge base associated with the major field of study. Courses fulfilling the cognate requirement will be determined in consultation with the doctoral advisor and approved by the Doctoral Advisory Committee.

\textbf{C3- Exercise Psychology Concentration (9):}

The purpose of the cognate area requirement is to provide opportunities for doctoral students to develop an extended knowledge base associated with the major field of study. Courses fulfilling the cognate requirement will be determined in consultation with the doctoral advisor and approved by the Doctoral Advisory Committee.

\textbf{C4- Physical Education Teacher Education Concentration (9):}

The purpose of the cognate area requirement is to provide opportunities for doctoral students to develop an extended knowledge base associated with the major field of study, with an emphasis on careers in higher education. Courses fulfilling the cognate requirement will be determined in consultation with the doctoral advisor and approved by the Doctoral Advisory Committee.

\textbf{C5- Sport Administration Concentration (9):}

The purpose of the cognate area requirement is to provide opportunities for doctoral students to develop an extended knowledge base associated with the major field of study, with an emphasis on careers in higher education. Courses fulfilling the cognate requirement will be determined in consultation with the doctoral advisor and approved by the Doctoral Advisory Committee.

\textbf{D. Dissertation (15)}

Required (15):

KH 9990 Dissertation (15)

Program total (Biomechanics and Physical Rehabilitation): minimum of 61 semester hours
Program total (Exercise Physiology): minimum of 61 semester hours
Program total (Exercise Psychology): minimum of 61 semester hours
Program total (Physical Education Teacher Education): minimum of 63 semester hours
Program total (Sport Administration): minimum of 61 semester hours
The Ph.D. major in School Psychology prepares psychologists for licensure as applied psychologists and focuses on the application of psychological knowledge and skills to school related problems. The American Psychological Association accredits the program. Completion of a bachelor’s degree within a major in psychology, education, or a related field or a master’s degree in an area related to school psychology is required for admission to the program.

Program Academic Regulations

The practicum and internship (CPS 8680 and CPS 9680) are essential components of the doctoral training program in School Psychology. They provide trainees with the opportunity to take substantial responsibility for carrying out major professional functions in the context of appropriate supervisory support, professional role modeling, and awareness of administrative structures. The internship is distinguished from the applied practice experience by the increased responsibility and independence afforded the students and by the more intense nature of client contact. The practicum (CPS 8680) is a one-term, full-time experience or a two-term, halftime experience. The doctoral internship (CPS 9680) in school psychology requires either a full time experience for one calendar year or a halftime experience for two consecutive years.

Evaluation of a student’s performance is continuous and involves consideration of the student’s academic performance as well as the student’s performance in laboratory, practicum, and internship classes. A student may be dropped from a course and/or the program if the welfare of the student’s clientele or the functioning of a school or agency is, in the judgment of Department of Counseling and Psychological Services faculty, in jeopardy as a result of the student’s behavior. Students in this program are expected to follow the latest version of the National Association of School Psychologists (NASP) Principles for Professional Ethics, as well as the most recent version of the American Psychological Association (APA) Ethical Principles of Psychologists and Code of Conduct.

Prerequisites

Students in the B.A.-to-Ph.D. program must complete the M.Ed. in School Psychology and most of the Ed.S. School Psychology program as prerequisites for the Ph.D. portion of the program of study. Specifically, students must complete the M.Ed. and:

- EPRS 8530 Quantitative Methods and Analysis in Education I (3)
- EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)
- Any 7000-level or above EXC course with permission of advisor (3)
CPS 6150 Ethical and Legal Standards in Counseling and Psychological Services (2)
CPS 6450 Group Counseling (3) OR CPS 8400 Introduction to Play Therapy (3) OR CPS 8431 Counseling Skills and Strategies for School Aged Children (3)
CPS 7340 Social/Cultural Issues in Counseling and Psychological Services (2)
CPS 8540 Child/Adolescent Psychopathology (3)
CPS 8570 Psychological Consultation in the Schools II (3)
CPS 8662 Applied Practice II: Consultation and Intervention Practice in School Psychology (3)
CPS 8665 Intervention Strategies for Students with Learning Problems (3)
CPS 8680 Internship in School Psychology (note: this is the doctoral advanced practicum and must be taken for at least 6 credits)
CPS 8760 Topical Seminar in School Psychology (3)

Program Degree Requirements

Doctor of Philosophy in School Psychology

A. Core Area (18; 12 for B.A.-to-Ph.D. students)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):
A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8820 Program Evaluation and Institutional Research (3)
EPRS 8830 Survey Research, Sampling Principles and Questionnaire Design (3)
EPRS 8840 Meta-Analysis (3)
EPRS 8660 Bayesian Statistics (3)
EPRS 9550 Multivariate Analysis (3)
EPRS 9560 Structural Equation Modeling (3)
EPRS 9570 Hierarchical Linear Modeling I (3)
EPRS 9571 Hierarchical Linear Modeling II (3)
EPRS 9900 Research Design (3)

Qualitative Methodology
ANTH 8010 Qualitative Methods in Anthropology (3)
EPRS 8510 Qualitative Research in Education II (3)
EPRS 8520 Qualitative Research in Education III (3)
EPRS 8640 Case Study Methods (3)
EPRS 8700 Visual Research Methods (3)
EPRS 9120 Poststructural Inquiry (3)
EPRS 9400 Writing Qualitative Research Manuscripts (3)

Single-Case Methodology
EPY 8850 Introduction to Single-Case Methodology (3)
EPY 8860 Applications of Single-Case Methodology (3)

Historical/Philosophical Methodology
EPSF 9850 Historical Research in Twentieth Century American Education (3)
EPSF 9930 Philosophical Analysis and Method (3)

Measurement Methodology
EPRS 7920 Classroom Testing, Grading, and Assessment (3)
EPRS 8920 Educational Measurement (3)
EPRS 9350 Introduction to Item Response Theory (3)
EPRS 9360 Advanced Item Response Theory (3)

Social Foundations of Education and Psychology of Learning course (3):
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)
or another course from the Social Foundations of Education and Psychology of Learning as identified by the Doctoral Advisory Committee:
EPSF 8270 Philosophy of Education (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8310 Sociology of Education (3)
EPSF 8320 Politics and Policy in Education (3)
EPSF 8340 History of American Education (3)
EPSF 9260 Epistemology and Learning (3)
EPY 8030 Advanced Applied Behavior Analysis (3)
EPY 8050 The Psychology of Instruction (3)
EPY 8070 Understanding and Facilitating Adult Learning (3)
EPY 8080 Memory and Cognition (3)
EPY 8180 Development During School Age (5 to 18 Years) (3)
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)

B. Major Area (Required: 38; 35 for B.A.-to-Ph.D. students)

The major area of requirements complete the basic body of knowledge for applied professional practice as a school psychologist, building upon the foundation acquired at earlier graduate levels school psychology. A minimum of credits must be earned in the doctoral major, and these must include the courses listed below. Content for some of the required courses listed below may have been obtained in the master’s or Ed.S. program prior to admission to the doctoral program. In such cases, appropriate substitutions and/or credit for prior coursework, may be made with approval of the student’s doctoral advisory committee. Students who have prior coursework that is judged by the advisory committee to meet some of these course requirements must earn a minimum of 38 semester hours at Georgia State University to complete the
major area of the doctoral program.

- CPS 8350 Biopsychology and Medication (3)
- CPS 8640 Administration and Supervision in Pupil Personnel Services (3)
- CPS 8760 Advanced Topical Seminar in School Psychology (All Ph.D. students must take 9 credits total; Topical Seminar taken as part of the Ed.S. program may be counted towards the 9 credit requirement.) [Topics rotate]
- CPS 9680 Doctoral Internship (9)
- CPS 9760 School Psychology Research Seminar (3-9) [Must be taken at three times (minimum total = 9 credits). Student must maintain continuous enrollment until doctoral candidacy is reached.]
- CPS 9920 Research and Publication (2)
- PSYC 8500 History of Psychology (3)

Note: CPS 8680 Internship in School Psychology is an Ed.S.-level internship that serves as the doctoral practicum requirement. The student’s doctoral advisory committee will determine whether the student has completed a comparable course in a prior graduate work and has sufficient skills and field experience to meet the criteria for this doctoral practicum. Based on input from the doctoral advisory committee, some students may be required to enroll in an additional practicum experience.

C. Dissertation (15)

Required (15):
CPS 9990 Dissertation (15)

Program total: minimum of 71 semester hours (62 semester hours for B.A.-to-Ph.D. students)
Doctor of Philosophy (Ph.D.) in Teaching and Learning

Department of Middle and Secondary Education
639 College of Education Building
404-413-8060
http://mse.education.gsu.edu/
Gertrude Tinker Sachs, Chair

Concentration Areas: Language and Literacy Education; Mathematics Education; Music Education; Science Education; Social Studies Education; Teaching and Teacher Education.

The Ph.D. major in Teaching and Learning is designed to prepare scholars for research and leadership positions by developing a substantial knowledge base in one of the following areas of concentration: Language and Literacy Education, Mathematics Education, Music Education, Science Education, Social Studies Education, and Teaching and Teacher Education. In addition, the program prepares professional educators as scholarly inquirers who ask thoughtful questions, who can conduct sound inquiry, and who can recommend informed policy.

Program Degree Requirements for Each Concentration

Doctor of Philosophy in Teaching and Learning with concentrations in Language and Literacy Education; Mathematics Education; Music Education, Science Education, Social Studies Education, and Teaching and Teacher Education

1 – Concentration Area: Language and Literacy Education

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
EPRS 8530 Quantitative Methods and Analysis in Education (3)

Required (12):

A two course sequence (6 hours) in research methodology (see below for specific tracks/courses)
Two courses (6 hours) in advanced research methods as identified by the Doctoral Advisory Committee

Quantitative Methodology
EPRS 8540 Quantitative Methods and Analysis in Education II
EPRS 8550 Quantitative Methods and Analysis in Education III (3)
EPRS 8820 Program Evaluation and Institutional Research (3)
EPRS 8830 Survey Research, Sampling Principles and Questionnaire Design (3)
EPRS 8840 Meta-Analysis (3)
EPRS 8660 Bayesian Statistics (3)
EPRS 9550 Multivariate Analysis (3)
EPRS 9560 Structural Equation Modeling (3)
EPRS 9570 Hierarchical Linear Modeling I (3)
EPRS 9571 Hierarchical Linear Modeling II (3)
EPRS 9900 Research Design (3)

Qualitative Methodology
ANTH 8010 Qualitative Methods in Anthropology (3)
EPRS 8510 Qualitative Research in Education II (3)
EPRS 8520 Qualitative Research in Education III (3)
EPRS 8640 Case Study Methods (3)
EPRS 8700 Visual Research Methods (3)
EPRS 9120 Poststructural Inquiry (3)
EPRS 9400 Writing Qualitative Research Manuscripts (3)

Single-Case Methodology
EPY 8850 Introduction to Single-Case Methodology (3)
EPY 8860 Applications of Single-Case Methodology (3)

Historical/Philosophical Methodology
EPSF 9850 Historical Research in Twentieth Century American Education (3)
EPSF 9930 Philosophical Analysis and Method (3)

Measurement Methodology
EPRS 7920 Classroom Testing, Grading, and Assessment (3)
EPRS 8920 Educational Measurement (3)
EPRS 9350 Introduction to Item Response Theory (3)
EPRS 9360 Advanced Item Response Theory (3)

Social Foundations of Education and Psychology of Learning Core (3 hours)

In addition to highly specialized research in specific areas, doctoral students in the College of Education and Human Development must possess a deep understanding of comprehensive, theoretical principles and broad ideological conceptualizations.

Through historical, philosophical, sociological, and anthropological inquiry, knowledge of social foundations fosters the types of speculative investigations essential for thorough understandings of those theoretical principles and ideological conceptualizations necessary to uphold the integrity of the Ph.D. degree.

The psychology of learning component is based on the following guiding principles: (1) Educational leaders make judgments that affect learning. (2) Doctoral students should have a substantial understanding of the
psychology of learning.

Select one (3):
EPSF 8270 Philosophy of Education (3)
EPSF 8280 Anthropology of Education (3)
EPSF 8310 Sociology of Education (3)
EPSF 8320 Politics and Policy in Education (3)
EPSF 8340 History of American Education (3)
EPSF 9260 Epistemology and Learning (3)
EPY 8030 Advanced Applied Behavior Analysis (3)
EPY 8050 The Psychology of Instruction (3)
EPY 8070 Understanding and Facilitating Adult Learning (3)
EPY 8080 Memory and Cognition (3)
EPY 8180 Development During School Age (5 to 18 Years) (3)
EPY 8200 Advanced Developmental Psychology: Cognition and Intellect (3)
EPY 8220 Advanced Developmental Psychology: Personality and Socialization (3)

B. Major Area (30)

Required (18):
EDCI 8970 Seminar in Teaching and Learning (3)
EDCI 9850 Research Seminar (3)
EDCI 9900 Critique of Educational Research (3)
EDRD 8310 Theoretical Models and Processes of Literacy Learning (language, reading, and writing) (9)

Select (12): The student and Doctoral Advisory Committee select additional coursework (12 hours).

C. Dissertation (15)

Required (15):
EDCI 9990 Dissertation (15)

Program total: Minimum of 63 semester hours

2 – Concentration Area: Mathematics Education

The Ph.D. in Teaching and Learning with a concentration in Mathematics Education prepares professional mathematics educators to make scholarly contributions to both the theoretical and practical knowledge base of mathematics teaching and learning in a broad range of educational settings. Graduates of this program typically assume positions as college or university professors in schools or colleges of education or departments of mathematics. In these positions, their primary responsibilities are to conduct research on elementary, middle, secondary, or post-secondary mathematics teaching and learning, to teach content and pedagogy courses, and to direct theses and dissertations. Graduates are also qualified to assume positions as mathematics education leaders in school districts, research laboratories, or publishing companies.

During the degree program, students develop advanced professional proficiencies and scholarly knowledges through the successful completion of the (a) Program of Study, (b) Residency Plan, (c) Comprehensive
Examination, (d) Research Prospectus, and (e) Dissertation. The degree program, in general, is framed by the principles to guide doctoral programs adopted by the Association of Mathematics Teacher Educators (AMTE) and the National Council of Teachers of Mathematics (NCTM).

A. Core Area (18)

The Core Area consists of 15 semester hours of research coursework and 3 semester hours of Social Foundation of Education and Psychology of Learning coursework.

Research Core (15 hours)

Choose one course (3):
EPRS 8500 Qualitative/Interpretive Research in Education (3)
